The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon la cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

LIBRARY OF THE NORTH-WEST GOVERNMENT.

To the Honourable Joseph Royal,  
Lieutenant-Governor of the  
North-West Territories.

MAY IT PLEASE YOUR HONOR :

I have the honor to submit the accompanying classified catalogue of all books now comprised in the North-West Government Library, with a brief review of what has been done during the year I have had charge of this department. I entered upon my duties on August 4th, 1890, and found the Library to contain at that time some 2,519 volumes. That number included the "Law Library," consisting of 1,379 volumes, which, in February, 1891, were transferred to the Court House in Regina. Their removal made room for the large consignments of books, which arrived at various times during the year, until at the present time the Library contains 2,090 volumes (an increase of 950 volumes). Many of these have been secured at considerable cost, and are of rare value : among them being found works treating on the early life and times of this then almost unknown country.

A gift of some 100 volumes has been received from the Government of the Province of Quebec, forming a valuable addition to the list.

Early in the present year glass doors with locks were provided for the bookshelves, which afford complete protection to the books, besides forming handsome bookcases ; the floor has also been covered with matting, and a screen and step-ladder added to the appointments.

The number of Volumes lent during the year, under Rule IV, was 297.

In a separate room from the Library are kept all Parliamentary Journals, Sessional Papers, Government Blue-books, etc. : being seldom referred to, they are not included in the number given as a total in the catalogue.

The newspaper fyles have now been given into my charge, for which I would ask that another room may be set apart, to be known as a Reading-room, where all Newspapers, Magazines, etc, may be fyled for reference.

The accompanying catalogue enumerates the books received into the Library up to date. It is arranged according to the several forms of classification that have been adopted, and will, I trust, be satisfactory to Your Honor

I have the honor to be,

Sir,

Your obedient servant,

K. HAYES,

*Librarian.*

Regina, Aug. 20th. 1891.
