THE COURIER.

THURSDAY, MAY 9, 1850.

If we look at the physical capabilities of Car ada, we find it possesses all the cardinal attributes of prosperity: mineral wealth, fertile soil, merchantable timber, hydraulic power, navigable Rivers and Lakes, salubrious climate, lavishly d by the Creator for the use and enjoyment of mas; the country peopled with a million and a half, of which 45 thousand are in its Me

tropolis, situated in juxtaposition with an Ameri-can population of 20 millions, and between which two populations there exists rapid communication two populations there exists rapid comby Telegraph, Railroad, and Steamer. A knowledge of these auspiciou would induce the supposition that Canada must necessarily be highly prosperous, and its Metropolis a commercial emporium where life and ac-

antly rewarded. We ask our landowners and industrial classes if the reality justifies this supposition, and hear the negative echoed from mouth to mouth, while our fellow-citizens and families driven across the borders from the Metropolis, to seek that labor which they have there striven in vain

Were this state of depression confined to the Metropolis, we might ascribe it to the absence of the Seat of Government and the circulation of the each of the over-paid officials, and, in that case, enould have cheering intelligence of prosperity from the rural Districts and Towns; but we receive therefrom no other than intelligence indieating the presence everywhere of depression, which seems to hang like a pall over Canada.

It is the aim of certain public writers in this Metropolis and elsewhere, to take no note of this depression, and it is their study to make their readers believe that all is couleur de rose. These writers will discourse by the column on the certainty of Reciprocity—anon they will amuse their readers with an idle tale about Protection, and then complacently point to the Customs receipts, which they are careful to conceal are inflated because of the extra duties our political financiers deemed it necessary to impose on importations, in the last Session of Parliament, to meet the prostrating effects of the loss of Protection to our commerce and agriculture in the English markets. Our imports may again this season serve to inflate Customs receipts, but we much doubt whether the business of the country will another year warrant the same amount of importations. Even as it is, we learn the latter will be greatly overdone the current year, owing to the depression to which we refer.

Our aim is to tell the truth and shame the Devil, or the Government, we care not which, and to deal with principles, not men. We therefore distinctly acknowledge that there is no remedy for the prevailing depression short of "Indepen-dence." It is not, we assert, the substitution of the preceding for the present batch of Ministers, but it is a Ministry composed of an entirely new set of politicians that we require. These we now happily discern in the Clear Grit party of Upper , and men of similar stamp in Lower Ca-With such Pilots at the helm of affairs, we shall have some hope for the advancement and prosperity of our common country, besides the assurance that we shall then have made one capital move in the right direction for Independence. The moves that are now being m tical chess-board, denote, significantly, the early advent to power of that party. Nous verrons.

the cut-glass and state-room ware of the Atlantic Ocean Steamer were furnished by "Woram and Haughworth," of Broadway. The above firm Department excepted, the noble endowment is are Englishmen, who commenced in an humble being made ducks and drakes of, as it seems, to way several years since. They owe their position and wealth to the spirit of enterprise which led them to manufacture articles in their line previously imported. They imported Continental Artists, to gild, paint, and ornament china, which is baked in ovens, under their shop in Broadway, and some of the specimens produced are equal to anything in Paris. They have thus revolutionized the trade, transferring the operation of buying and selling from France and England to New York, with mutual satisfaction to buyer and seller. The wealthy consumers in the United States can substantially patronize such enterprizes, and it may be worthy of reflection whether, upon a smalle scale, some of our dealers might not profitably imitate the English firm in New York.

The truth has at length been extorted from the organ of the junto, which spes at Toronto the attributes of a Ministry. This is not the first occasion upon which we have asserted that L. H. Lafontaine, for all practical purposes, was the dictator of the day. What says the official organ: Let every Reformer reflect that Mr. Latoutains is the best of the Administration, and having nearly one-half of the House to face him, can choose his Upper Canada Odeagons; then let him consider substance, were the pape Canada Ministers to vertee, from the ever-density, their encourses, more extreme Liberals would be likely come in as their successor,"—Globe, at April.

There can be no mistake in the above words. We are told, positively and distinctly, that Mr. Lafontaine, having nearly one-half of the House to back him, can dictate the policy—that he exercises a power sone in the Cabinet can resist—that, in other words, Mr. Lafontaine is the Government, and the Government is Mr. Lafontaine. If we accept the above admission, can we be surprised that L. H. Lafontaine, treasuring up the memory of fancied wrongs, should dictate to his collegences the Repsel-paying Bill, whereby he revenge, though in so doing he violated the tra-ditional attachment to constitutional principles which Statesmen profess. He consecrated a moral wrong, and clothed it with the sancity of moral wrong, and elethed it with the mancity of Parliamentary authority. He may not live long, yet we venture to predict, that he will live long enough to repent the expegious folly his vanity dictated, and deplore the fatuity which enlisted him as the exponent of the doctrine that power confers an exemption to perven the maxims of justice. The official organ being cornered by the Clear Grits, is driven to speak out, and inform the Upper Canadians that all substantial power is

rested in L. H. Lafoutaine, and that the "over-iberality of the Upper Canada Ministers" migh induce him to throw them overboard, and name fresh and less scrupulous colleagues. This conlleagues. This con-nto bolder relief the ervices L. H. Lafontaine rendered Canada, when, at an expense of \$20,000 per annum, he raised armed, and equipped, an unconstitutional force, familiarly known here as the Prairie Hens. To his fears we are indebted for the removal of the by the Telegraph Report of this evening. nt-to his arrogance the disal of our first citizens from the Militia and and Magistracy, because they boldly dared to speak the truth, and denounce L. H. Lafontaine and denounce L. H. Lafontaine tine Responsible Government as and the Lafontaine Responsible Government as the veriest fraud and imposture ever palmed upon n intelligent community. The Toronto organ able all our friends who love "as merry anace" to premittates the imflated presumption of the Journal de
Quebec, when it pictures L.H. Lafontaine as backed by nearly one-half the House, which means,
as the Journal unhesitatingly asserted, the 42
members belonging to Lower Canada. Can
L. H. Lafontaine even count upon Montreal,
though backed by an equal number of Prairie
Hens? Is Quebec to be relied upon? Do all
the Township members belong to the Watts'
school? Is there no such man as L. J. Papineau, and no Young Canada Party extending the
hand of fellowship to all Colonists who will unite
with them in carrying out the principles of Representative Responsibility! The Lafontaine
Government has been lavish of debentures and
promises—nothing more. They may prate about

A Convocation of the University was held a the College yesterday afternoon. The members of the Convocation, in their robes, passed from the Common Room in procession to the Great Hall at a few minutes after 3 o'clock, and being seated, the Vice-Principal in the Chair, the Convocation was opened with prayer in the usual form. We were pleased to see Dr. Nelson, the of Lower Canada, on the right-hand of the Vice-Principal. Nine Medical Students, who had passe their examination, were admitted to the Degree of M. D., capped, and received their Diplomas; after which Dr. Holmes, the Professor of Medicine, delivered an address to the new graduates on the duties of their profession, and particularly or those which they owed to the University in which they had received their education. After this, the Convocation granted the Honorary Degree of Doctor of Medicine of the University of McGill College to Joseph Morrin, Esq., of Quebec, and on the motion of Dr. Hall, seconded by Dr. R. L. Macdonnell, the Honorary Degree of Doctor of Civil Law to the Rev. W. Agar Adamson, B. A., of Trinity College, Dublin, Assistant Minister of Christ Church, Chaplain and Librarian to the Legislative Council, an honor rightly conferred on a gentleman of eminent classical and theological attainments, and acknowledged to be the most

eloquent and popular Preacher in the Province. We cannot conclude this notice of the proceed ings of the Convocation, without remarking, that the whole career of the Medical Faculty of this College, from the day the first lecture was given, to the present, as evidenced by the number of promising Students yearly admitted to Degrees, and practising with credit and success, is as creditable to that Faculty as the management of the We are informed by the New York papers, that other Departments is scandalously discreditable. MONKLAND HOTEL.. TEA GARDENS AND PLEASURE GROUND. MR. COMPAIN has the honor to announce to the Public, that he has LEASED, for a term of years, MONKLAND FARM, containing about 200 acres of Land, beautifully wooded, the late Residence of the Governor General, which he has fitted up as a PUBLIC HOTEL and RESTAURANT. Gentlemen desirous of giving Dinner Parties, may be accommodated by giving notice the day Lee Creams, and other Refreshments, of various kinds, always ready.

The Healthy Situation of MONKLAND, (which contains upwards of SIXTY ROOMS, on the rising ground to the West end of the Montreal Mountain, and commanding a Splendid View of the River St. Lewrence, the Lachine Rapids, the Ottawa River, and the adjacent country,) is too well known to require any remark; and the Extensive Grounds attached, afford a large and perfectly safe PLEASURE GROUND, in which children may roam at pleasure. All this will, he feels confident, justify the support of those whose desire it is to retire to the country during the hest of Summer, and be still within a few minutes walk of the City.

It is his intention to establish a LINE of OMNIBUYES from his house in Place D'Armee to Monklahd.

GREAT ENGLISH REMEDY !! THE MOST VALUABLE SPRING AND SUMMER MEDICINE IN THE WORLD!

HALSEY'S FOREST WINE!

Putronized by the Robility and Medical Faculty of England, and esteemed the most entraordinary Medicine of the Age.

IN EDICINES containing Molasses or Liquories, like the boasted Sarnaparillas, require in health. The Forest Wine is altogether a different article. It contains no Syrups to give it consistency, but acquires the arcellent flavor and powerful medicinal qualities from the vegetable plants of which it is composed. The Forest Wine combines the virtues of the WILD CHERRY. DANDELION, YELLOW UO'E, and SARSAP ARILLA. With other valuable Plants whose properties are still more powerful.

Its high concentration renders it one of the most efficient. Medicines now in use. Less then a single bottle restores the lingering Patient from weakness, d. bility, and sickness, to strong and vigorous health. (A Sarsaparilla preparation of unexampled efficacy)
These Pills are prepared from the best Sarsaparilla, combined with other Vegutable properties of the highest Medicinal virtue. They are warranted not to contain any Mercury or Minerel whatever. They purge without griping, name isiting, or weakening; can be taken at any time without hinderance from business, change of diet or danger of taking cold. They neither have the taste or smell of medicine, and are five times more effectual in the cure of discases than any Pills in ure.

But a short time has elapsed since these great and good Pills were first made known to the Public, yet thousands have already experienced their good effects luvelide given over by their Physicians as incurable, have found relief, and been restored to sound and vigorous heat h from their use.

TO FATHERS OF FAMILIES.

Bile and foul state of the stomach occasions more sickness and deaths in families than all other causes of disease put together. Sometimes whole families are taken down by malignant Fevers, Fever and Ague, and other dangerous disorders, all proceeding from a billious and foul state of the stomach. No parent can be so ignorant as not to know the great danger existing from billiousness—no parent would be guilty of causing the

BOGLE'S AMOLE,

A COMPOUND FOR SHIVING.

This delightful article is totally different and far superior to anything yet invented for shaving. The base of it is derived from the Amole, or "soap plant" or California, an article used by the natives of that country for washing; and thus the use of strong alkall, so hurtful to the skin, is anyticled its vegetable and deteigent properties have the purest and most nourishing eliects on the skin,—it soothes and allays irritation, and has a fine, thick, creamy lather, which does not dry on the face. It is a decided luxury to be shaved with this incomparable soap. It is done up in elegant atyle, calculated eitherforths dressing case of the "rough and ready" traveller, or the toilet of the most fastidious cosmolisseur. BOGLE'S HEBEAIONA,

Evadicating Tans, Pimples, and other eruptions of the skin, and rendering it fair, delicate, and blooming. It is equally efficacious in protecting the skin from the hot sans of summer, and freezing blasts of winter, and is the most fragrant and delicious article to be found at the toilet of fashion. THIS Valuable Preparation has been before the public for many years, during which time it has been excessively used, and has proved eminently successful in all those diseases in which this medicine is prescribed. It is considered by Physicisns of the present day the very heat Medicine for re-establishing the constitution after it has undergone the effects of Mercury. In Chronic Rehumstiam, the most marked effects have been produced by the use of Sarapartila; and its continued use is often stiended with improvement of appeatic and digestion, increding of strength, the production of a more healthy state of using a strength of the provided symptoms, as Erugations, Userations, pains of a Rheumstie character, &c., &c.

Drs. McCullonh, Campbell, McDouell, and France, who have extensively used it in their practice, have kindly favoured the Proprietor with the following Certificates:

ALEX. Unguarar, Esq:—Darar Sin,—I have my pleasure in bearing testimony to the faithful manner in which you prepare your Fluid Extract of the Compound Decoction of Sarsaparilla. This I am entabled to do, on account of several of my patients having derived the greatest benefit from its use.

For Constitutional Syphilis and Chronic Rheumatism. I have prescribed it with the most marked effects, I can, therefore, without the least hesitation, recommend your preparation as one possessing all the Medicinal qualities therefore, without the least hesitation, recommend your preparation as one possessing all the Medicinal qualities of the Compound Decoulon of Sarsaparilla, while it is at the same time more palatable, and less agt to derange the Stomach.
