### TO MEET AT VERSAILLES

Paris, Nov. 15.—(By the Associated Press)—The naval terms of the German and Austrian armistice are being carried out rapidly.

### TO MEET AT VERSAILLES

Paris, Nov. 15.—(By the Associated Press)—Versailles, although not formerly chosen as the meeting place for the peace negotiations is regarded as almost certain to be the place selected for the peace conference when the Inter-Allied Council reassembles to-day. The real work of the negotiations will be carried on in Paris, where it is probable that delegations from all the countries will reside temporarily, the members going out to Versailles only for their plenary sessions of the conference.

### GERMANY MUST UNDERGO A MORAL REVOLUTION

This in Addition to Political Upheaval, Before She Can Be Allowed to Enter a League of Nations

By Courier Leased Wire. Paris, Nov. 15.—Germany must undergo a moral revolution as well as a political upheaval before she can be admitted to a league of nations, said Leon Bourgeois, former cabinet minister, who is president of a commission recently appointed to study the plan for a great confederation of states for the future. "The universal war has demonstrated to all nations the necessity for an international constitution," he says. "This would assure to each nation the sanctity of its rights."

## Norfolk Heroes Home From Front

George Green, the County's First Volunteer, Among Those Returned

### NEWS FROM SIMCOE

Simcoe, Oct. 15.—(From Our Own Correspondent.)—Simcoe is warming up in the matter of receiving the boys from overseas. Just before the procession of autos draped in flags and bunting started for the depot to meet Trumpeter George Green, the chairman of the committee on receptions was advised that "Frank Parsons will arrive tomorrow at 11:20 a.m." But when the train pulled in Green and Parsons both appeared and with them Joseph Lorne Goodlet and Roy Patterson of Nixon-Goodlet, last with the former 133rd Parsons enlisted at Welland and Patterson somewhere outside the

county. His father, owing to a recent accident, was unable to meet him here and he and Goodlet went on by train. They are all home de combat, but none of them have any disfigurement or facial distortion, which Parsons has one eye affected, and Green's trouble is in one of the lower extremities, as the surgeon would probably express it.

Offered Before the Call. Green offered his services to Col. Aiken on the first news of men from Canada being wanted. He enlisted on August 13th, 1914, left Simcoe for Valcartier in a uniform of the old 39th on the 19th and reached home on first leave yesterday after three years service as trumpeter and one year as a trooper. He came home on the last ship with the gauntlet of the subs, and the transport tied up at Halifax a few hours before the city began to celebrate on Monday.

It is his intention to make a profession of his natural talent as a cartoonist. One of his former efforts was reproduced at the Lyric last night in honor of his return.

### SIMCOE AGENCY

The Brantford Courier 55 Peel Street. An Excellent Local Advertising Medium. Telephone 390. Nights 358-3.

NOTICE—The party who removed from the Armoules on Monday night, a large Union Jack, is requested to return the same at once. It may be left at the Courier agency.

It was a genuine surprise that Mrs. Parsons of Patterson street received when the procession, after leaving Green at his home and proceeding with young Parsons proceeded at her door with a long absence. Parsons arrived 24 hours ahead of schedule. Parsons lost a day somewhere, possibly slept it away. At any rate he saved his mother a night's preparation of coal impatient waiting. Lieut. Harold McCall in Town. Lieut. Harold McCall arrived at 12:30 yesterday via L. E. and N. announced except for the Senator's family. He has been in England with a forestry battalion and is en route to Vancouver for discharge. He will spend a few days with his family in town before continuing West.

Instantly Killed. Mrs. Ruby Hall received on Wednesday a letter from her daughter-in-law in Scotland, confirming with particulars news of the death of Gunner George Hall, one of eight sons in service. He was killed instantly with two others of a quartet of the 1st Battalion, and the one who escaped was able to communicate the details to the stricken wife.

Wood at \$3.25. The fuel committee of the Town Council met last night and fixed the price for corporation wood at \$3.75 a cord of 128 cubic feet, or \$3.25 a short cord. The wood is hauled on a 16-inch incline, varying slightly as all wood thus sawn does. It is almost all green and should be split for the stove at once and piled to dry.

It will be sold to bona fide residents of Simcoe for use within the corporation in quantities not exceeding one legal cord nor less than one-third cord at a time, and a fresh supply will not be sold to the same consumer unless he has less than three days' stock on hand. All wood must be paid for when ordered and the purchaser must sign the teamster's delivery check.

It is desirable that where parties in the same locality desire to place small orders, that they should order in succession, that delivery may be made by a single trip.

An effort will be made to deliver within three days of the placing of the order. Deputy-Roeve Langford has undertaken to receive orders at his office, Peel street, and will begin the work on Monday. His office is generally open evenings.

November Crop of Strawberries. Mr. Ted Matthews brought to the office yesterday a dozen large sized delicately flavored strawberries which he had just picked from his farm, which were it not for the birds would have yielded quite a crop. The feathered youngsters, however, are getting in first.

Odd Ends of News. Enough has been published recently about arrears on newspaper subscriptions to move most people. We have about a score on our list whom last night in honor of his return.

apparently nothing but handing over the accounts for collection will touch it. The drastic action becomes necessary the onus is with themselves. There's no other solution that we can devise. To be fair to the letter we will request all over three months in arrears to square away before Dec. 1st.

The marriage took place in Toronto on Tuesday of Miss Minnie Fry of Simcoe and Mr. James D. Buckford of Brighton, Ont. Geo. Bagles will appear before Magistrate Gunton today on a charge of forgery, preferred by Chas. Gunning over two years ago.

The council's committee in charge of receptions to returned soldiers are encouraged by the splendid response of citizens when the call comes. It would facilitate matters very much if the portions of the depot yard to the west of the station were reserved for officials, next of kin, Great War Veterans and such other public men as are generally allotted

## Music and Drama

"CHIN CHIN." A crowded house, probably the largest of the season, greeted the performance of the musical extravaganza, "Chin Chin," at the Grand last night. The extravaganza is a peculiarly hybrid variety of entertainment, a cross between the usual American musical comedy and the English pantomime. "Chin Chin" purports to tell the story of Aladdin and his lamp, but the plot is mostly overshadowed by a luxuriance of elaborate costuming and a chorus numerically strong and melodiously pleasing. The piece lacks the pep with its original story, but it is its first production, but it pleased the great majority of last night's audience, and after all, that's the main thing. A six-piece orchestra had pleasing such popular numbers as "Katy," "Smiles," "My Beldin Rose" and "Overt There," proved a decided hit in the second act. Miss Loraine Lester, who has been twice seen here with the musical comedy, "When Dreams Come True," was a dainty figure as Violet Bond, the heroine of the piece and the beloved of Aladdin. Walker, Willis and Roy Binders, the principal comedians, appeared in a varied repertoire of burlesque roles, and created a big hit throughout.

"THE BRANT." "Visions of Fairland" is the title under which Gertrude Rinaldo, better known as La Graciosa, presents a series of elaborate electrical and optical spectacles which head the program at the Grand the last of the week. The act is one of the most beautiful of its kind ever seen here. The illusions produced being masterpieces of their kind. Lila Lee, the latest Paramount star, a recumbent from the vaudeville stage, is seen in her first motion picture "The Cruise of the Make Believe," a delightful story of the little drudge of a regiment house and the manner in which her dreams of wealth come true. What else are dreams good for, in the movies, except to come true. Charlie Chaplin, who could darned near buy up the whole Victoria Loan with one year's salary, ap-

definite positions. On every occasion heretofore there have been innumerable instances of cutting in that are dangerous to all cars behind where such occurs. So long as the roads permit, the council's committee will continue to call out Simcoians to meet such returning men as are reported. Call 380 when the glad message is received.

Since the "flu's" visit Simcoe children remain at school till four o'clock.

In a pointed if caustic letter in the British Canadian this week, J. K. McLennan of Victoria deals smashing blows against the spreading of disease in the church than in the factory because only the most cleanly and those in "fairly good health go to church." The same truth he says, "has been against temperance (local option) prohibition, equal suffrage, even in war time, against the church and has favored higher criticism." But Mr. McLennan need not butt his head against the walls of the Simcoe woolen mills or any other Simcoe factory. As he counsells, "Little boats should keep near shore."

### ACTRESS TELLS SECRET

A Well Known Actress Tells How to Darken Gray Hair With a Simple Home Made Mixture. Joicey Williams, the well known American actress, who is now playing at the Imperial Theatre in St. Louis, Mo., made the following statement about gray hair and how to darken it. "Anyone can prepare a simple mixture at home, at very little cost, that will darken gray streaked or faded hair, and make it soft and glossy. To a half pint of water add 1 ounce of bay rum, a small box of Orlin Compound, and 4 ounces of glycerine. These ingredients can be bought at any drug store at very little cost, or any druggist can put it up for you. Apply to the hair twice a week until the desired shade is obtained. This will make a gray haired person look 20 years younger. This is not a dye, it does not color the most delicate scalp, is not sticky or greasy and does not run off."

### WILL SAIL FOR EUROPE

Washington, Nov. 14.—Food Administrator Hoover will sail for Europe on the White Line Olympic probably on Saturday, it was learned at the Food Administration today. He goes at President Wilson's request to direct the work of feeding the starving populations of western Europe. Owing to the lifting of the naval censorship this is the first time since the war started that the name of a ship on which American or other officials sailed or planned to sail for Europe has been permitted to be published. On the Olympic also, it is understood, will be Dr. Masaryk, president of the Czechoslovak republic, and returning to his liberated country.

### PAPER MUST SUNDAY

Paris, Nov. 15.—General Eisenhower at the Bocon Bridge will reach Metz on Sunday evening, according to Marcel Hatin, editor of the Echo de Paris. He will not make an official entry of the city, however, until Monday. Representatives of the German civil and military authorities will go to Nancy today to reach an agreement with Leon Mirman, director of publishing of important questions arising from the taking over by the French of the administration of Alsace and Lorraine.

LAID AT REST  
J. H. BURNS.  
The funeral took place Wednesday afternoon of the late J. H. Burns from the family residence at Echo Place to Mount Hope Cemetery. The funeral was largely attended, the deceased being a well known man throughout the city. The floral tributes were particularly beautiful and large numbers of them told of the high esteem in which the deceased was held by his many sorrowing friends. The services at the house and grave were conducted by the Rev. G. A. Woodside, who said a fitting tribute to the deceased. The following acted as pall bearers: R. Gowman, F. Gowman, C. Boles, J. Kelly, F. Gardner and Art Tuck. The flowers, pillow, wife and children, cross, Lou Charlton and Josephine; heart, Jan and Harry; wreaths, mother and sisters, Mr. and Mrs. T. A GOOD INVESTMENT.  
Lift up your heads, Canadians, our sons so valiant, brave Have stood the test of battle, our country's life to save. If ever there was time for pride, for joy our hearts to fill, 'Tis surely now when we have helped to shatter Kaiser Bill. And his lone stream of conquest over, his dream is gone, the waking sure, and this world shall be free. If you and I still "carry on" nor fail to do our best, By cutting out all selfish needs, just live and save the rest. To buy enough of Victory Bonds for coming days of need. The income is both sure and safe, 'Twill be a boon indeed. A bank may fail, loan companies smash, both stocks and homes decrease. It's safe to hold to Johnny Canuck, his virtues will increase. His precious metals, lands and wood, yes, all his hidden gold. Are his reserve fund, also ours if Victory Bonds we hold. Let us buy for Christmas presents and gifts for brides-to-be. To help our soldiers later when they come from over the sea. But best of all for Canada's need, this land so great and free. —M. R.

Mr. Harry Gignac, the local electrical inspector, this morning communicated with the provincial supervisor, who stated that the word was official and suggested that Brantford bakers govern themselves accordingly.

## To Subscribers in Arrears.

### Paper Controller Orders Cutting Off of Unpaid Subscriptions!

Mr. R. A. Pringle, K. C., the Paper Controller of Canada, has issued an order, effective January 1, 1919, which says: "Discontinue sending paper within three months after date of expiration of subscription, unless the subscription is renewed and paid for."

There are many other restrictions imposed, but this one is the most important. Therefore, between now and the end of the year The Courier's subscription list must be overhauled and put on a paid-in-advance basis, in order to comply with a governmental order.

Accounts have already been sent out to those in arrears, but subscribers do not need to wait for a "dun" to spur them to action. The date on the label affixed to the paper sent to mail subscribers tells the story. City subscribers can learn how their subscription stands by referring to their last receipt.

The reason for this regulation of the Paper Controller is that it is the practice of some publishers to send their newspaper until ordered stopped, and this practice frequently means a failure to collect anything for subscriptions in arrears, in which case there is a virtual waste of paper. It is to prevent paper waste that the new regulation has been decided on.

The manufacture of paper consumes labor, wood, coal, chemicals and transportation facilities, and every ton of paper saved means just so much labor, raw materials, chemicals, fuel and transportation available for urgent war needs. For these reasons the Government insists that paper shall be saved, and proposes that only those who pay for their publications shall receive them.

Under these regulations The Courier will have no choice in the matter of dealing with subscriptions in arrears for over three months.

Send in your subscription at once. Do not delay, the collectors call regularly on city subscribers. Keep your account up-to-date.

THE WIFE

BY JANE PHELPS, AUTHOR OF "MARGARET GARRETT'S HUSBAND," AND OTHER NOTABLE STORIES.

CHAPTER LXXV Brian Tells Ruth He is Going to Learn Typewriting When Ruth was busy with her interesting well-paid work, she was happily forgetful of many things that when she was idle came home to her with a rush. So now when Brian said that he almost forgot he had a wife, she determined to impress that fact more strongly than ever upon him. "I should think they might let you take it easy for a while, and rest up," he had said, when she leaned back in the taxi with a sigh of content at being with him. "Oh, I'm not so tired that I'm a happy sigh," she smiled down at him. "I have a surprise for you," it was a good time to tell her. "What is it?" she was all interest at once. "Your lazy husband is learning typewriting. I am going to type my own letters after this."

been gone over a week, and I have not kicked!" Then he wished he hadn't spoken. "What if she asked if he had been away all the evenings she had been away? "I hope Rachel will have something good," I expect you are fed up on hotel grub," they were on dangerous ground, so he changed the subject. "Indeed, I am! One of Rachel's dinners will taste awfully good. I hope she gave you nice things while I was away." Brian was saved the necessity of replying by the taxi stopping at the door. He must tell Ruth he had not been home, before she had time to question Rachel. But first he must pay the man and take her bags in for her. After Rachel had been hugged and kissed and told gleefully: "You just wait Mammy Rachel, until you see what I have brought you. Brian followed her into the bedroom where she laid off her things, and then said quickly: "I shall enjoy one of Rachel's dinners too." Because of the typewriting lessons, I haven't been home to dinner except the first night. I thought I would get along as far as I could while you were away. "That was right. You weren't lonely then? No wonder you said you almost forgot me. If you didn't come home at all," as she replied. Ruth wondered where he did dine, and a picture of Mollie King flashed across her mind. But she would ask no questions, say nothing to spoil their evening together. "I've set chicken 'n' land, honey," Rachel announced, when she called them to come to dinner. "An' co'n fritters an'— "Don't tell me any more, Rachel," Ruth said, "keep the rest for a surprise." then in an aside to Brian: "I expect she has tired herself out setting a big dinner for us."

"Dear I ain't tired, Missy— Ruth! I ain't had nothing to do since you Dea gone, and I ain't no dinner to cook, an' it has ben terrible lonesum for ole Rachel!" "Thank goodness I told her I had been out," Brian thought as he saw Rachel disappear into the kitchen. "I knew she'd tell." "Poor Rachel," Ruth laughed, "I expect she thinks you should have stayed at home and entertained her instead of learning to typewrite. I imagine it was lonely for her." "I told you she would be out of place in a New York flat," Brian replied, rather glad to have what he had told Ruth confirmed. "She'll be leaving you, then you will have a hard time to find a maid as good as Crawford." "Oh, mammy won't leave. She likes to rumble. Did you ever see a darkey that didn't? But I'll bet a pair of gloves you couldn't get her to go, now that we are together again." Brian said nothing further, but he thought that he would, just as soon have kept Crawford, even if Rachel were the better cook. Rachel would be sure to tell Ruth whenever he remained over when she was away, and more than likely would tell the time he came in. He had nothing to worry about for a while, however; Ruth herself had prevented that by saying he would be in "school."

To be truthful, Brian had a slamed feeling as he wondered what Ruth would say if she knew what Mollie herself was his teacher. To be Continued

DEMOCRATIZATION PLANS DISCUSSED

Cabinet Committee and Departmental Officers Hold a Conference Ottawa, Nov. 15.—Details of the plans under which Canada's troops at home and overseas will be demobilized and returned to civil life were discussed by the cabinet committee on reconstruction and development and departmental officers in a conference this morning and by the Ministers in council this afternoon. The problem which will in the near future confront the government involves, first, the military process of transporting the men and discharging them from the army; and secondly, their assimilation in the industrial life of the country. In the solution of the problem three departments are concerned; the Department of Militia, the Department of Soldiers' Civil Re-establishment and the Soldiers' Land Settlement board, a branch of the Interior Department. That being so, the Government has, in the understood, appointed a committee whose duty will be to co-ordinate the action of these various bodies.

Steps are being taken to ascertain the previous occupation of the soldiers, arrangements which any of them have made to return to their former employment, and the preferences they may have as to their future place in civil life. Simultaneously there will be created agencies whereby the Central Government may be kept informed of opportunities in different parts of the country for the absorption of returned soldiers into industry. The effort then will be so to regulate the release of men from the army that the labor market will not become congested.

SEALED TENDERS

addressed to the undersigned, and endorsed "Tender for Power House, Military Hospital Buildings, London, Ont." will be received until 12 o'clock noon, Monday, November 18, 1918, for the construction of a Power House, Military Hospital Buildings, London, Ont. Plans and specification can be seen at the offices of the Chief Architect, Department of Public Works, Ottawa, the Clerk of Works, Postal Station "B" Toronto, Ont., and the caretaker, Public Building, London, Ont. Tenders will not be considered unless made on the forms supplied by the Department, and in accordance with the conditions set forth therein. Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Public Works, equal to 10 per cent. of the amount of the tender. War Loan Bonds of the Dominion will also be accepted as security, but such bonds and cheques if required to make up an odd amount. By order, R. C. DESROCHES, Secretary, Department of Public Works, Ottawa, November 6, 1918.

Getting Back Three Million Dollars

THE PAPER CONTROLLER for Canada a few weeks ago added \$12 a ton to the price of news print paper—the kind used in printing the Courier. This addition, following closely upon several previous increases authorized by the Paper Controller, has meant to Canadian newspaper publishers a total increased publishing cost, in the matter of paper alone, in the past eighteen months, of three million dollars. This very considerable sum Canadian publishers must recover from their customers, their readers and advertisers.

In connection with the earlier increases the readers of many daily newspapers have been required to pay \$1 or more per year for their newspapers, while the subscription price of very many weekly newspapers has been increased from 50 to 100 per cent. In many cases still further increases will be necessary. But all the three million dollars increase in paper costs cannot be loaded on readers; some of this sum must come from the advertisers—this in the form of increased advertising rates. Advertising rates in Canada are generally speaking, much lower per thousand in circulation than in the United States. Speaking on this point the editor of Marketing, a Canadian advertisers' newspaper published in Toronto, says in his last issue: "In meeting the Canadian publishers' calls for higher rates, advertising buyers should not fail to recognize that for years they have benefited by the publisher's undervaluation of his space, and should be the more willing on that account to recognize the present necessities." To all of which The Courier agrees.

**BRITISH ELECTIONS.**  
It is announced that the British Government will go to the polls on December 14th. Some years have elapsed since the last contest and during that period the great world war has been staged and now brought to a conclusion. Asquith was the Premier when hostilities broke out and the feeling soon commenced to develop that a more virile and aggressive man was needed in the post of First Minister. The upshot was a general demand on behalf of Lloyd George securing the reins and the unique spectacle was presented of a man, who was threatened with mob violence for opposing the Boer War, becoming the choice of the people in the conduct of the greatest struggle ever waged since the commencement of the world. Another extraordinary feature is that Lloyd George has strictly speaking no party following. He has had the support of the Unionists under Balfour and Bonar Law, while Asquith has still been recognized as the leader of the old Liberal guard. The little Welshman has therefore held the post on the basis of public confidence alone and without any defined political backing. That he has made good and proved himself just the man for the task will be generally admitted. Under ordinary circumstances his retention would be almost equally certain, but elements have arisen which make any forecast of the outcome decidedly problematical. There is unquestionably in the Old Land, as elsewhere an agitation for labor and soldier control of matters. In this regard it is worthy of note that the British Labor party at a conference held yesterday reached the unanimous decision to withdraw its members from the present cabinet so as to go into the coming fray without any entanglements. Lloyd George has always proved himself a doughty champion for the plain people, but it is questionable as to whether the new forces consider that even he has gone far enough. The contest will probably prove one of the most momentous ever held at the British polls and the outcome is certain to mark an entirely new administrative era with changes of a most radical kind in the conduct of domestic affairs and state legislation.

**HISTORY OF THE FLU.**  
Under various names epidemics corresponding to epidemic influenza have occurred at regular intervals since accurate descriptions have been made of disease. It is likely that at still earlier times this disease was combined and confused with other epidemic disorders, and so did not stand out as an entity until a relatively modern period. In early English literature this disease is spoken of under a variety of terms. Creighton (Creighton, History of Epidemics in Britain, 1894) recognizes it under the name "ague," used by the British 17th century authors. In 1658 Cromwell died from this disease, when Morton says the country was "one vast hospital." The Italian term, "influenza," first came to England in association with the epidemic of 1743, and it has been employed in connection with the great epidemics of 1833, 1847, and 1889-90. About 1712 the French term "la grippe" came into use and has been periodically revived ever since. The great pandemics usually originated in the Far East and gradually extended westward. The rate of human travel, and the degree of intercourse between various parts of the world determined the rapidity of the extension. Besides the great pandemics scarcely a year has passed without local outbreaks, which have been classified under the term "influenza." Whether these are identical with the more widespread epidemics it is impossible to say. In the opinion of the Philadelphia Public Ledger.

"The severity of the disease has varied greatly; some epidemics are very mild, others have been severe. Influenza has embraced America in several pandemics. In its remarkable work on epidemic diseases, published in Hartford in 1799, Noah Webster locates the first American epidemic of which he could find an account in 1647. It passed through the whole country and extended to the West Indies. There are between 5,000 and 6,000 deaths in Barbados and St. Kitts. In 1655 a second, severe epidemic occurred in America. Benjamin Rush described an epidemic in 1789 in Philadelphia, which was brought there by members of the

First Congress which had assembled in New York. Daniel Drake records a widespread epidemic in the West in 1807. The history of epidemics does not differ so much from that of other diseases spread by human intercourse that are usually called contagious. A wide-spread epidemic follows the introduction of a specially virulent virus, and there follows a general immunity among those of the population who have been infected. As the epidemic dies out the infection decreases in virulence and only sporadic cases occur. From such cases, and probably chronic carriers, local outbreaks occur, but the general immunity prevents any general epidemic. After a period of years, a new susceptible population has replaced the immune one, and with the introduction of a fresh virulent virus a general epidemic is again brought about. This would account for the great susceptibility of young persons, and as it is twenty-eight years since the last great epidemic, we should not expect many individuals above thirty years of age to be now affected.

After noting that the causative agent of epidemic influenza has not been certainly recognized, and describing the earlier symptoms of the disease, the Journal of the American Medical Association proceeds to describe the febrile pneumonia which often develops, and observes: "The pneumonia differs from the usual picture of pneumonia in that the temperature may be very slight, and the pulse rate may give little indication of the gravity of the condition. These cases, instead of subsiding, may come down to practically normal temperature for twelve hours. About this time there may also be expectoration containing bright red blood. As a rule, twelve or twenty-four hours after the second rise of temperature on physical examination, in the lower lobe, in a preponderance of cases on the left side, as seen at Great Lakes, small areas about the size of a silver dollar of typical pneumonia consolidation are found by auscultation. These areas may become marked so that by the second day of the second rise scattered through the lung, probably both lungs, ten or fifteen of these small areas may have appeared. In the epidemic at Great Lakes, if the patient did well these would gradually disappear. They did not resolve as a pneumonia would resolve. The clearing of the lung after this in the recovered patients was remarkably due to its rapidity. Other cases went on to a typical lobar, massive consolidation, as far as the physical signs were concerned, with dullness, increase in fremitus, typical tubular voice and breathing, and all the signs, except that there was not a very marked increase in the pulse rate, and the respirations were not up to the time markedly increased. Cases with almost complete consolidation of the lower lobes, with a temperature of 105 degrees, would have a pulse around 100 with respiration 24 or 26. There may be rapidly developing toxemia and vasomotor depression, with death of the patient resulting in many cases."

The incubation period in these influenza is probably very short, but it is difficult to obtain accurate figures on this point. The disease is probably spread entirely by contact infection, the virus of the disease being disseminated for short distances through droplets driven into the air in coughing and sneezing. The measures to be taken to prevent the spread of the disease comprise all those which interfere with the transfer of the infectious materials from the sick to the uninfected. This includes isolation of the patient, and the intelligent use of proper gauze masks by the attendant. In the time of an epidemic, prompt and efficient isolation of the first cases in a company, could accomplish much. If this has been neglected and the infection has spread among the population, measures which prevent the coming together of numbers of persons in close quarters are to be employed. The desirability of closing schools in a large city in the presence of an epidemic is a measure of doubtful value. In smaller places this is more reasonable, and the danger of infection when children are outdoors should be less than when they are brought together in a schoolroom.

**NOTES AND COMMENTS.**  
Those who have thus far failed to "get in" on the Victory Loan will have a chance to perform a patriotic duty not only on a patriotic standpoint, but also on behalf of their own material interests.

**BIG MONEY IN NEWSPRINT**

**Startling Figures as to the Profits Revealed Before Tribunal at Ottawa**  
By Courier Leased Wire  
Ottawa, Nov. 14.—Startling figures as to the profits made by Canadian paper mills were submitted to the paper control tribunal, by W. N. Tilley, senior for the publishers, today. He showed that the Laurentide Company had net earnings after deductions for depreciation and betterments of \$2,321,951 for the year ending last June as compared with \$867,592 in 1914.

Price Brothers, 1918 figures, \$1,374,782, as compared with \$451,287 in 1914.

Spanish River Mills net revenue was \$1,729,231 in 1918 as compared with \$879,285 in 1914.

"But they manufacture other things than newsprint," said a member of the tribunal when these figures were read.

"Yes," said Mr. Tilley, "and that is why we want to examine the government auditor, G. T. Clark, to see if newsprint is really a by-product or side line, which is one thing this board will have to consider. The profits made before the war were normal profit plus what could be obtained by a well regulated combine."

"Didn't the Commissioner go in to that?" the tribunal asked.

"We wanted to go into that, but we were stopped," said Mr. Tilley, who took up much of today's session in a recital of the publisher's efforts to get further investigation of the paper mills' affairs and then urged that Mr. Clark be allowed to tell the tribunal his experiences as an investigator. No decision as to calling Mr. Clark was reached, but the tribunal did decide that newspapers must pay the Prince price of 36¢ per ton for newsprint, solely on the ground that they have no jurisdiction to stay his order. The government may give them jurisdiction, however.

**PARIS EMERGENCY HOSPITAL CLOSED**

**Flu Epidemic is Over There — Mayor Pays Tribute to Women Workers**  
**OTHER NEWS OF PARIS**  
Paris, Nov. 15.—(From Our Own Correspondent).—The emergency hospital has been closed, the last of the patients having been discharged. The utility of the hospital during the influenza epidemic has convinced the community of the necessity of some such permanent institution in their midst, and steps will be taken in the near future to securing a permanent hospital for Paris, utilizing in part the bequest of the late Mrs. Willet—\$15,000 for the building and \$5,000 for a nucleus of a reserve fund.

All books that have been returned to the library from houses infected with the influenza are being thoroughly fumigated before being re-issued.

Recognizing the efficient and valuable services rendered by the women of Paris during the late epidemic, Mayor Robinson pays the following tribute: "Now that the epidemic of influenza has practically disappeared, I would indeed be remiss in my duty if I failed to make public acknowledgment of the heroic work of the nurses, doctors and all those who risked their lives in order to relieve the sufferings of the afflicted. Their unselfish devotion to duty was truly heroic, and to those who have been privileged to offer, on behalf of the whole community, our deep and genuine sympathy.

There were two interments in St. James Cemetery, here in the Rue Cemetery, and forty-four interments in Paris Cemetery during the month of October.

On Sunday next the Methodist church will hold their post-epidemic anniversary services, that were to have been observed last month.

Mrs. Chas. Wheeler has received the sad intelligence that her mother has passed away after a brief illness at her home in Plainfield, N. J.

Miss Whitney of Brantford has been secured by the board of the Young Women's Christian Association, who will conduct gymnasium and physical culture classes. A senior and junior girls' class are being organized right away.

A cable has been received from Flight Lieut. Fred Flahiff announcing the safe arrival of the Canadian boys in England.

Word was received in town a few weeks ago that Prof. Arthur Adams had died of wounds. Such is not correct, his father having written that he was wounded and captured by the Germans. He is a prisoner at Friedriehseld, and convalescing nicely. Prof. Adams was employed in No. 1 Fenway mill for some years, and was a member of the Congregational church here. He went overseas to visit his parents and enlisted in the Northumberland Fusiliers.

Quite a number went from here to Galt last night and assisted in the celebration there. It is stated that a large number in costume, as did a callithumpian band will be in Paris to-night.

Hostess—My dear let me introduce to you Mr. Ponley, I'm sure you have read this wonderful book.

Miss Kewles—N-no, I'm afraid I haven't had that pleasure.

Hostess—Of course you have my dear, but you're forgotten—that's it.

**Your Problems Solved**

By Rev. T. S. Linnett, D.D.  
(All Rights Reserved.)  
Dr. Linscott in this column will help you solve your heart troubles, religious, mental, social, financial, and every other anxious case that perplexes you. A personal answer is required, enclose a five cent stamp. No answer will be published unless you prefer, sign your initials only, or use a pseudonym.

Trading at Home—"A General Merchant." If you and other merchants systematically advertise the advantage of the public buying all their goods in Brantford you could prevent most of the vast and order business from other cities. You can safely guarantee the quality of the goods purchased from stores that advertise in The Courier. These stores are spending their money to win the confidence of our readers. Our advertisers know that a pleased customer will be a constant buyer, while displeased customers will hold down what they are spending their good money to build up.

Anxious to Work—Miss H. writes, "I am very much worried that I can do but little or nothing, or church work or in social service, can you help me?" If you are doing all you can and are anxious to do more when you can you ought to be satisfied. If you are trying to exceed others in doing good be careful that you are not inspired by pride, for this alone would prevent you from doing the good that Christ did bid. I have no advice to give you except to do all the good you can and keep your own thought purified.

**Substitutes No Longer Necessary**

**Ban on Wheat Flour is Lifted by Food Board — Shortage Over**  
Ottawa, Nov. 14.—The first order of the Canada Food Board issued after the signing of the armistice fulfills the board's undertaking to withdraw as many war-caused restrictions on food as possible at the earliest moment. Following the action of the Allied Food Controllers, all orders and rulings regarding the sale, purchase, use, or consumption of substitutes for wheat flour are repealed from Thursday, whether in trade or in private homes. The main factor enabling this to be done is the immediate release of allied shipping to make the voyages from Europe to Argentina, India and Australia, where there are accumulated stocks of wheat. Wheat substitutes only are affected by the order. The same regulations as hitherto remain for milling extraction of standard flour.

**ANNIVERSARY CELEBRATION MARKING THE 50th MILE POST OF ONE OF BRANTFORD'S LEADING MERCHANT CONCERNS**

The well known firm of E. B. Crompton and Co., Limited, pass another "milestone" in their history this month, and in their Anniversary Announcement of "today" on page five, they are "looking back" at an idea and resolve most of all that in their business operations in connection therewith—the outstanding feature shall be "to give the other fellow a liberal and "big deal." Sound business is based on doing as you would be done by. And in this event alluded to—which will have currency for the rest of this month—the firm feel sure that this will still add to their thousands of customers many new ones, and all satisfied and pleased. The event will be well worth the careful attention of every reader.

Influenced by the protest of the medical profession, the Brockville Board of Health has rescinded its order giving permission for the reopening of the schools, churches and places of entertainment and the ban is on again.

To the Editor of The Courier:  
The end of the war which has suddenly come, finds the route of the provincial highway still undesignated, emphasizing the importance of the recent meetings held in Brantford and Woodstock. Even after a decision has been announced by the Government it will take the engineers a long time to complete plans and specifications.

Will all those interested in urging immediate action by the government come to the Board of Trade meeting to-night, and appoint strong and influential representatives on the deputation to wait on the Prime Minister on the 27th inst.

**Classes Make Good Showing**

The classes at the local Y.M.C.A. made an excellent start when they opened for the winter season this fall. The turnout to the Business Men's Class totalled fifteen while the senior classes had an attendance of sixteen with other prospects lined up.

Thursday night's gymnasium class of junior employed boys was a record breaker, with 61 members present. The regular work was carried out and then the winner and loser of the aggressive games held in the Boys' Department on Wednesday were presented with their prizes. Harry

Hockley, winner, received a tie pin and E. Brady, loser, was wildly cheered on receiving a complete nursing set.

Four teams were then formed for competitive work through the season with Dawson, Chandler, Aitchison, and Perry as captains. Two of these clubs will meet on Monday nights after gymnasium and two on Thursday at the same hour; Aitchison's and Chandler's groups on Monday, and Dawson's and Perry's on Thursday.

BUILDING PERMIT

A building permit was issued at the city engineer's office this morning to W. H. Clark for the erection of a frame garage at 153 Clarence street, estimated to cost \$110.

INSANITY EXAMINATION

An account has been received from Dr. A. J. Henwood for conducting an examination for insanity on a man. The man was a Russian, and was found not to have any mental balance.

FLU GOING WEST

The Spanish influenza epidemic is now reported as travelling through Western Canada. One village, Slough, Ontario, says a dispatch from Port Arthur, has been almost swept away before the fury of the epidemic. One doctor had died and another was seriously ill.

AT THE EMERGENCY

Conditions at the Brantford emergency hospital are showing a marked improvement. The report for the last twenty-four hours shows 5 discharges and one admittance. The number of patients is at present 19, of which only a small percentage are in a serious condition.

LIGHTING QUESTION

At a meeting of the Merchants' club this morning, a strong resolution was adopted urging that, as far as possible, the authorities restore full lighting privileges for streets and stores. The question is to be brought to the attention of the Board of Trade at its meeting tonight.

A CORRECTION

In the Duncan trial yesterday morning, Harry Venton swore that on the night of the crime he was visiting at the home of Mr. and Mrs. Selmes, 84 Spring street. Mrs. J. Drake, who resides at that address, has written the Courier asking that, if possible, the authorities restore full lighting privileges for streets and stores. The question is to be brought to the attention of the Board of Trade at its meeting tonight.

STRUCK BY CAR

While proceeding along Market street on a bicycle yesterday afternoon, Mrs. Andrews, of 247 Dufferin Avenue, was struck by an automobile and knocked unconscious. One of the cars to the cause of the accident is that of the wheel or her bicycle caught in the car track, making it impossible for her to get out of the path of the oncoming car. She was picked up in an unconscious condition and carried into Brander's drug store where first aid was applied. The ambulance was called and she was removed to the general hospital still in an unconscious condition. This morning she was reported as having passed a good night, and her condition is not considered serious. A very remarkable thing in connection with the accident is that on July 27th, Mrs. Andrews was struck by an automobile while crossing Lorne bridge on a bicycle, and had only recovered a short time from her previous accident.

HIDES ON MARKET

An extra large quantity of hides were on display on the market this morning. They were chiefly best hides.

BILLS FOR SERVICE

Several accounts have been rendered to the city recently by ex-Medical Health Officer Pearson. They are for professional services rendered at the order of the Mayor and Police Magistrate.

REPAIR WORK

The men of the city works department are at present chiefly engaged with the work of repairing the streets and sidewalks of the city. The work is greatly needed, as a number of the roads have become in bad condition.

WINTER'S WORK

The employees of the local assessment departments have commenced their winter's work, that of drawing the plans of the various blocks of the city. All details are shown on the plans, making it a long and tedious undertaking.

IMPORTING TOYS

The war trade board announces that it is prepared to give favorable consideration to applications for licenses to import toys when the transportation of the goods is made by rail or where the question of the conservation of ocean tonnage does not arise.

ADVOCATE SMOKE APPARATUS

A communication has been received by Chief Lewis of the fire department, describing the test made at the fire chief's convention, of a new style of smoke helmet. The distributors for the apparatus have written asking that its purchase be considered.

A CONVERT

The Victory Loan attraction at the Grand Opera House last evening proved to be a success. The address of the local firemen who declined in the afternoon to buy a bond, after the persuasive efforts of the ladies at the Opera House, became perfectly willing to invest his money in that project.

BODY BROUGHT HERE

The body arrived in the city this morning of Geo. A. Sigman, from Shanawan, Saskatchewan, where a fatal disease occurred. The deceased was a son of Mr. Geo. A. Sigman, of 15 Dufferin Avenue, of this city, and had only been west a short time when he was taken ill and passed away. No burial arrangements have been made as yet.

PARIS CELEBRATING

Paris is still celebrating the Allied victory. The G. W. V. A. are holding a monster demonstration and street carnival with fireworks throughout the night. The Galt contingent, some hundred strong, in fancy costumes, will be headed by the Klitsch band. The Dufferin Rifles band will also head the procession. A big crowd of veterans from the city are going up for the night. A dance will bring the evening to a close.

RELEASE ALIENS

In all Canada there are about 2,500 interned enemy aliens, to whom the declaration of peace will give release. As these are for the most part political prisoners, with no criminal charges against them, the ceasing of the war will automatically restore them to liberty. There are at Amherst, N.S., however, a number of prisoners of war taken from German vessels at the beginning of the war and these will be dealt with according to the terms of peace.

COURIER'S PROPHECY CAME TRUE

Abdication of Kaiser, Death of His Son, Predicted a Year Ago

In the issue of The Courier published one year ago yesterday, November 14, 1917, appeared several of the prophecies of the downfall of the Hohenzollern dynasty of Germany. One of the prophecies was that of a dream of Daniel, foretelling that the downfall of one of the great nations should come in a war commencing seven cycles from the time of the dream, 1914. In a book written by a monk in the thirteenth century the fall of the Hohenzollern dynasty is predicted to follow the events of 1914. This has been fulfilled within the past week. Another prophecy predicts that the last Emperor will have a paralyzed arm and adds that his son shall be killed in Berlin. This is known to be true of William Hohenzollern, the late Emperor of Germany, and reports have come of the death of his son, the Crown Prince. The prophecies of Johann the Monk made about 16 A.D. also are being fulfilled. The prophecy clearly indicates the character of an anti-Christ, and states that the motto of the army will be God With Us. It also says His Spies shall over-run the world. It also tells of the way that Hans would treat and mislead the people with whom they came in contact. The anti-Christ will several times sue for peace, but it will be refused until he is crushed. The anti-Christ (the Kaiser) will lose his crown and will die in solitude and insanity and his empire shall be divided into States. The land of the Crescent will not satisfy the stalwarts of either party. The greatest asset of Mr. Lloyd George is his personal popularity.

DISCHARGED JURORS

Mr. Justice Lennox last night discharged the jurymen who had not been called upon for service at the trial of the man charged with the murder of a woman here. The Courier will publish the findings of the jury as soon as it is given.

NO MORE ARRESTS

The following message has been received from the Militia Department, at Ottawa: "No further arrests of defaulters under the Military Service Act will be made. The proceedings will be stopped pending further instructions. Efforts must be made to secure convictions in all cases where bribery has been committed to obtain exemption."

HELD PARADE

Manse-Harris employees turned out en masse at noon today, flying their honor flag, which had been presented to them at 12 o'clock, and held a parade. The parade, which included men from every department in miniature, repetition of Monday's parade, flags, bunting, banners and noise makers being there strong.

DAY OF THANKSGIVING

Addresses from the Provincial Governments of the four western provinces show that influenza conditions are still bad and that the churches will not be open next Sunday, and it is urged that the day of national thanksgiving be postponed. The Government has therefore decided that the date should be fixed for Sunday, December 1.

ALUMNAE ASSOCIATION

At the regular monthly meeting of the Alumnae Association of the Brantford General Hospital on Tuesday, the following officers were elected for the coming year: President, Miss Margaret Hall; 1st Vice-Pres., Miss Margaret McCulloch; Secretary, Miss Pearl Robinson; Treasurer, Miss Dora Taylor; Canadian Nurse Representative, Miss Mary Dowdall.

PLANS ARE UNDER WAY FOR A BAZAAR

Plans are under way for a bazaar to be held in the assembly room of the Nurses' Home at the general hospital on December 20th. Donations of articles, both useful and ornamental, also home-made cooking, will be gratefully received, and may be left with Mrs. J. Eaton, 154 Rawdon St.

official leader of the Liberal party, while Mr. Lloyd George is a free lance without any party organization or party funds behind him. He wishes to continue the political truce which all parties declared at the beginning of the war, and feels to the slogan that he is the leader who won the war, to attract votes. The program of his followers is apparently to nominate Lloyd George Liberals in all districts where the regular Liberal candidates will not endorse the Premier's platform. If this carries out, it means a split in the Liberal party, which will have to decide whether the Lloyd Georgians or the Asquithians control it. How many candidates the Labor Party will nominate and how many votes it will muster is an uncertain element.

Ontario Must Not Fail!

TO THE PEOPLE OF ONTARIO:

We are now in the closing days of our great effort to reach the \$250,000,000 Victory Loan objective undertaken by the Province. While subscriptions of \$100,000 have been most gratifying and indicate a keen appreciation of both the urgency of the situation requiring this Loan and of its manifold attractiveness from the investment standpoint, we have still a great many millions to raise if the Province is to fly its Honor Flag on Saturday night. Having shouldered the burden of one-half of the national quota, the people of Ontario to-day carry a tremendous responsibility.

WE MUST NOT FAIL

Our boys at the front have finished their job. They will expect us to finish ours. The money being raised in the Victory Loan is needed to maintain them in their occupation of the Rhineland, and to finance their glorious home-coming. We would be unworthy of their unstinted sacrifices were we to fail in any respect in this solemn obligation.

WE MUST NOT FAIL

For the immediate future prosperity of Ontario and the nation must depend upon our having achieved the full quota when the campaign closes Saturday night. Should we fail to lend the money asked for, Ontario would be faced with a trying economic situation in which unemployment and distress might become general. Our extraordinary prosperity of the past four years was due almost wholly to the stimulation of industry through previous war loans. If our great army of workers is to be maintained in steady employment, and work found for our soldiers as they return, we must launch at once upon a large reconstruction programme in the financing of which the proceeds of the Victory Loan will play a vital part.

WE WILL NOT FAIL

Ontario has carried through successfully every war effort undertaken by her since August, 1914. If every man, woman and child in the Province, realizing the seriousness of the situation, resolves to do his or her utmost and puts every spare dollar into Victory Bonds before the end of the week, Ontario will not fail in this, her final effort.

IT MAY NOT BE POSSIBLE

for our canvassers to call upon every citizen. The Ontario Executive of the Victory Loan Committee therefore appeals to every one in the Province who has not yet subscribed to the limit of his or her ability to go to the local campaign headquarters and volunteer the loan of their last available dollar.

ONTARIO HAS OCCUPIED A PREMIER POSITION

in Canada's contribution to the cause of civilization. Help maintain her proud place. Lend to your 'Limit—and we shall not fail.

J. H. Wood

Chairman Ontario Executive, Victory Loan, 1918.

# Jury Returned Suicide Verdict

## Find That Brantford Girl Poisoned Herself in Kitchener Tuesday

Special to The Courier.  
Kitchener, Nov. 15.—We, the jury, impanelled to enquire into the death of Phyllis Irene Thomas, beg to report that after due consideration of the evidence submitted, that the said death was due to poison taken by herself for some unknown motive. This was the verdict of the coroner's jury appointed to enquire into the death of Miss Phyllis Irene Thomas, the Brantford girl who took three tablets of bichloride of mercury on Tuesday and succumbed as a result on Wednesday morning.

The mother of the girl, Mrs. B. M. Thomas, Brant Ave., stated that her daughter had left Brantford with Mr. W. G. Merrill. She had consented to her going with Mr. Merrill as she was in his employ, and the work that they were to do on the trip was to collect accounts that were owing to Mr. Merrill. Before leaving, it was agreed that the couple would stay at the Lorentz farm, Sunday night at St. Clements. This was because the Lorentz family were friends of Mr. Merrill's.

On Monday the girl wrote to her mother stating that she had spent the night at the Lorentz farm, and hearing the peace news they had hurried to Kitchener before breakfast.

Merrill recalled before leaving Brantford that they would stay at the Lorentz farm as he had to see a barrister named Mr. Groys. On their arrival in Kitchener, however, their plans were changed and they stayed at the Walker House, in room 53 and he in room 52.

The evidence of the father corroborated the mother's evidence in almost every detail.

### MOONSHINE

By Courier Leased Wire.  
Ottawa, Nov. 15.—A report that His Excellency the Duke of Devonshire is to return to England at the end of the year and be replaced by Prince Alexander of Teck was denied at Rideau Hall last night. It was characterized as "moonshine."

### QUEEN WILLING

By Courier Leased Wire.  
Copenhagen, Nov. 15.—Queen Wilhelmina of Holland, according to the Praetor's Gazette, wished to extend hospitality to the former German emperor, whilst he remained in Holland. However, the newspaper adds, as Holland itself fears the coming days, it was found desirable that William Hohenzollern should live as a private individual.

# DUNCAN CASE GOES TO THE JURY THIS MORNING

## Jury Charged by His Lordship Justice Lennox—Crown and Defense Concluded Their Summing up of Evidence at Last Night's Session

The Duncan murder case went to the jury this morning, and a verdict is expected before night. The jury retired to consider the case after they had been charged by Mr. Justice Lennox, who gave a masterful summing up of the entire evidence at considerable length, warning the jurors that they must discharge the duty of their office with absolute fearlessness and impartiality, giving the prisoner the benefit of any doubt which existed, but weighing carefully the evidence against him before returning a verdict. If they truly believed him guilty, they must not allow conscientious scruples to interfere with their returning a verdict accordingly.

The summing-up of Crown and defense comprised the greater part of last evening's session, which did not adjourn until after eleven o'clock. Mr. Kelly, Duncan's counsel, and Mr. Davidson for the Crown, both addressed the jury at great length, each giving a clear presentation of his case, reviewing the strongest points of evidence both for and against the prisoner.

Mrs. Duncan, known as the wife of Isaac Duncan, although she had no husband living and was never married to Duncan, was the principal witness for the defense yesterday afternoon. According to her testimony Isaac came to the house under the influence of liquor and provoked a quarrel with Duncan. The two fell downstairs, Duncan coming first

Witness swore that after Isaac fell Duncan used no violence toward him, nor did he touch the fallen man except to bathe his head. When taken to the police station on the night of the crime, Mrs. Duncan told the officers that the two men had continued to fight after falling downstairs. When confronted with a copy of that statement, witness explained that at the time of making it she had been laboring under great excitement and had been mistaken.

Constable Albert Howling was the first witness called for the defense at the opening of the afternoon session yesterday. He knew both Duncan and Isaac. He had been summoned to Duncan's home during the night of May 25, 1917, and in company with three other officers, arrested Isaac, who had been creating a disturbance there. The furniture was upset and some of it broken. Isaac was on the floor drunk. Witness had considerable trouble in arresting the man, even with the assistance of the other officers, who were inexperienced men. He estimated that Isaac would weigh in the neighborhood of 200 pounds.

Mr. Justice Lennox expressed doubt whether the constable's testimony had any direct value as evidence, but at the request of Mr. Kelly allowed him to proceed.

Was it general knowledge among the police force that Isaac was a

had character?" asked Mr. Kelly. "I object," demurred Mr. Davidson.

"The witness cannot define general knowledge," ruled His Lordship.

Constable Howling had never had any experience with Isaac until the night referred to above. He did not believe that Duncan had been drinking on that occasion.

J. Leslie Atwood, secretary of the Children's Aid Society, stated that Mrs. Duncan and her daughter, eleven years of age, came to the Children's Shelter on April 11. He went to their home to help straighten things up. There were blood stains on the bed on the top floor, and on the ceiling above; also on the wall on the stairway. On the bottom step of the stairs, there was a profusion of blood. He pointed out in great detail on the plan of the house, the location of the blood stains.

There was blood on the wall beside the automatic telephone. "Have you ever investigated the parentage of the Duncan child?" asked Mr. Davidson, cross-examining.

Mr. Kelly objected and was upheld by the judge.

Mr. Davidson inquired whether the stains Mr. Atwood had seen might have been caused by blood having been thrown there. Witness replied in the affirmative.

Alfred Warren, 125 Oxford street, helped Mr. Atwood clear up the house and concurred in the testimony given by the last witness as to the blood stains. He also admitted that the stains might have been intentionally placed where they were.

Mrs. Clara Duncan was next called to the stand. She stated she had lived with Isaac for 11 years. She went with him on March 28 to Buffalo, where he underwent an operation for an abscess on his neck.

Mrs. Duncan, her daughter and Mrs. Gerrard went to church on Sunday. On their return, between 12.30 and one, Mrs. Sumner Hayes, Isaac, Frank Hazel and Duncan were at the home. Frank Hazel and Mrs. Sumner Hayes left before dinner, but Mr. Venton and Albert Hazel arrived in time for the meal.

Mrs. Duncan stated that she did not drink any liquor, although offered

one. All the others drank. After dinner, after dressing her daughter for Sunday School, saw Mrs. Gerrard going upstairs with a revolver in her hand. Neither said anything regarding it.

Isaac returned, Hazel was the first to leave the house, taking his departure shortly after 1 o'clock. Isaac went somewhere near four o'clock, but returned an hour or so later, bringing with him a bottle of gin. He insisted on Mrs. Gerrard taking a drink, and then went upstairs to see Duncan. The latter had been up there since Venton's departure which was about 4.30.

"You'll be plucked with that bottle on you," Mrs. Duncan warned Isaac.

"I should worry, I can take care of myself," rejoined the latter, going upstairs despite Mrs. Duncan's protestations.

How Trouble Started.

A short time later Duncan called to witness to bring up his coat, which she did. An orange lodge pin was on the coat, and Duncan remarked to Isaac:

"I'd like to see you wearing one of these."

Mr. Davidson expressed a doubt whether such a conversation could be accepted as evidence, but did not press the point.

"I will some day, but not with your dirty—s," retorted Isaac. He rose to his feet and struck Duncan, upsetting him and the bottle of gin, which was on the floor. Witness went downstairs at Duncan's request. A moment later she heard Duncan ask:

"What do you want to tear my shirt for?"

"I'll tear your damned heart out," she heard Isaac retort.

Witness called to her sister, who was still asleep.

"My God, Georgina, get up, there's trouble."

A moment later Duncan came tumbling down the stairs, his shirt torn open. As he rose to his feet, Isaac reached after him and fell flat on the floor.

Witness identified the shirt prominently exhibited. She stated Duncan was not wearing a collar. He asked her to call the police, but she was too nervous. He therefore went to the telephone.

Mrs. Duncan stated that she did not call the police, urged Mrs.

Gerrard, "I'm going," she added, and running to the front window, which Mr. Duncan had opened, jumped out. Witness caught her in an attempt to stop her, breaking her hand in the endeavor. Duncan, on hearing of this, left the phone and went down to the street to look for Mrs. Gerrard. He returned, and proceeded to bathe Isaac's head. Isaac was bleeding from the nose.

"Did Duncan stamp on Isaac's head, as Mrs. Gerrard has described."

"No."

"Did Isaac move after he fell?"

"No."

"Did you know Isaac well?"

"Yes, very well."

He was six feet in height, and weighed 203 pounds. Witness told of the disturbance in May, 1917, already related by Constable Howling. On this occasion, Isaac had come to the house at 1 o'clock at night, and demanded admission saying that he was in trouble. He had been drinking just enough to make him "obnoxious" and boasted of being the bully of Brantford.

On March 14, Isaac had been at the house to see Mrs. Gerrard, Duncan, the next day, objected to Isaac's presence.

Cross-examined by the Crown, Mrs. Duncan admitted that she had left her husband, Frank Shepherd, 13 years ago. Their daughter, an inmate of a Kitchener orphanage, would now be 16 years of age, but witness had heard she was dead.

Witness met Duncan in London nearly twelve years ago.

Mrs. Duncan did not see Isaac take Mrs. Gerrard's ring, but was told by the latter that he had done so.

None of the Sunday visitors knew that there was whiskey in the house when they came. Witness and Duncan had brought two bottles of whiskey from Buffalo.

Mrs. Duncan swore that Venton had never practised any familiarity toward Mrs. Gerrard.

"Then what he said in the witness box was untrue?"

"Absolutely."

"Have you spoken to your sister since the murder?"

"No."

"About the case?"

"No."

Mrs. Duncan's father came to Brantford last week, went to Mrs. Duncan's home and then to Mrs. Gerrard's, which is now a few doors

away. She denied that he had any thing to drink. She admitted having told him that Mrs. Gerrard would be one of the principal witnesses for the Crown, but had said nothing more on the subject.

In connection with the damage done in the house during Duncan's absence in Buffalo, witness had been told that Isaac and Frank Hazel had been concerned in the affair, and that Mrs. Sumner Hayes, who had been left in charge, had been drunk.

Mrs. Duncan swore that she had not taken a drink all day, despite what Hazel had said. When Isaac urged her to take a drink of gin she pretended to comply with the request, but did not drink.

Witness was certain that Isaac had not moved after falling down stairs. He groaned several times.

Mr. Davidson read the statement made by Mrs. Duncan to the police on the night of the crime, in which she stated that Duncan and Isaac continued to fight after falling down stairs.

"I do not remember having said that," declared Mrs. Duncan.

Mr. Kelly objected that before Mr. Davidson could use the statement, he must prove that it had been made voluntarily by Mrs. Duncan.

The latter declared that if she had said the two men continued to fight after falling downstairs, she had been mistaken. Isaac had not moved after he hit the floor. Witness accounted for the blood on Duncan's shoes by saying that he had been moving about in the blood from Isaac's head.

A small table which had fallen down stairs with Isaac, was produced by the Crown and identified by witness.

Mrs. Duncan stated that she was very nervous and excited when she made her statement to the police on the night of the crime. She was not put under oath on that occasion, nor was her statement read over to her or signed by her. She was detained over night in a cell in the police station.

Mrs. Duncan corroborated her sister's testimony in every detail except as to the latter's statement that Duncan attacked Isaac after the fall down stairs.

Dr. Fissette confirmed the evidence given by Mrs. Duncan that she had broken her hand. He had treated the injury, but

YOUR SICK CHILD IS CONSTIPATED! LOOK AT TONGUE

Hurry, Mother! Remove poisons from little stomach, liver, bowels. Give "California Syrup of Figs" if cross, bilious or feverish.

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given. If your little one is out-of-sorts, hard-sick, isn't resting, eating and acting naturally—look, Mother, see if tongue is coated. This is a sure sign that the little stomach, liver and bowels are clogged with wastes. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs" and in a few hours all the constipated poisons, undigested food and sour bile gently moves out of the little bowels without gripping, and you have a well, playful child again. Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle. Beware of counter fig syrups. Ask your druggist for a bottle of "California Syrup of Figs"; then see that it is made by the "California Fig Syrup Company."

CRITICIZED TRUST. London, Nov. 14.—In a discussion in the House of Commons yesterday concerning the food question and control of the meat supply, the American meat trust was criticized severely by some speakers. Major Waldorf Astor, parliamentary secretary to the food ministry, said that the trust controlled more than fifty per cent. of the available and importable meat supplies, which constituted a serious menace. However, he added, the Inter-Allied Food Council set up by the food controller and which would buy in the world's markets was going to be stronger than the trust, and would be able to dictate to the trust if necessary and would be able to fix reasonable prices for consumers.

STOP CATARRH! OPEN NOSTRILS AND HEAD

Says Cream Applied in Nostrils Relieves Head-Colds at Once. If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Balm Cream at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief. Ah! How good it feels. Your nostrils are open, your head is clear, no more hawking, sniffling, blowing; no more headache, dryness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.

DUNCAN CASE

Continued from Page Nine

knew nothing of the manner in which it had been sustained. He expressed the opinion, however, that it could have been caused as Mrs. Duncan stated, in attempting to catch Mrs. Gerrard when she jumped from the window.

Character Evidence

Mr. Kelly expressed a wish to produce evidence as to Duncan's good character. The Crown had not attacked his character, objected Mr. Davidson. The Judge agreed to allow character evidence. Mr. Kelly called Mayor MacBride, who declared Duncan's reputation for peaceableness to be among the best.

William Gibbs, foreman of the Verity Plow Company, testified to the same effect. John Lockers, school teacher of Tuscarora, who taught Duncan as a boy, gave similar evidence. Sergeant Wallace, of the police force, also declared Duncan's reputation to be good.

Mayor MacBride, recalled to the stand, told of having seen Mrs. Duncan at noon on the day following the crime. She was in an extremely nervous condition, and complained that she had not received proper treatment for her injured hand.

"That will do, you need not make an attack on the police force," observed the Judge. Seret, Wallace, recalled, stated that Isaac was frequently under the influence of liquor, and at such times liable to be troublesome. He was a very strong man.

"Was his character generally known?" "Yes."

"Did Duncan ever give you cause to believe that he feared trouble from Isaac?" asked Mr. Davidson cross-examining. "Yes, on two occasions," replied Serget, Wallace.

Evening Session. Rebuttal testimony from the Crown was received in a brief session last evening. Dr. J. A. Phillips stated that in his opinion such a fall down stairs as that described by Mrs. Duncan could not have afflicted the injuries seen on Isaac's head.

John Howarth said he was police court clerk at the time of the crime. He took down in shorthand the statement made by Mrs. Duncan, and subsequently transcribed that statement.

Mr. Kelly objected. Mr. Justice Lennox was willing to accept the evidence. He explained

that the Crown could not submit to the truth, the statement which Mrs. Duncan had made, but that it would be permissible to establish the fact that she had, on such an occasion, made statements contrary to those which she had made in the present court.

Mr. Kelly again objected, and a legal wrangle ensued. Mr. Davidson went on to read Mrs. Duncan's statement, which Mr. Howarth confirmed sentence by sentence.

Mrs. Gerrard, recalled to the stand, denied that she had given Harry Venton any information for the familiarity which, she claimed. When Venton tried to put his arms round her, she repulsed him.

Witness swore that Mrs. Duncan was in the parlor when she (Mrs. Gerrard) took the revolver from Duncan. Later, while she was lying on the sofa, Isaac came to her with a glass of gin, but she refused to take it.

"What was the way for a man to put his arm around you?" asked Mr. Kelly. "It most certainly is."

"You would object to it?" "You would regard it as an insult," declared Mrs. Gerrard.

Mr. Kelly produced two photographs showing a soldier sitting on Mrs. Gerrard's lap. Witness identified them.

"What have you to say to these?" demanded Mr. Kelly. "They were taken at a picnic, with several members of my family present," replied Mrs. Gerrard. "The young man on my knee is only sixteen years of age. I see no harm in that."

Mr. Justice Lennox refused to accept the testimony attached to the photographs. He pointed out that the court was trying a man for his life, and not deciding a point of social propriety.

"I am not going to have a court of justice turned into a travesty by the introduction of this kind of evidence at the end of the trial," continued Mr. Kelly.

Detective Schuler was called to the stand by Mr. Davidson to give evidence as to Duncan's condition when arrested, but the judge ruled that such evidence could not be accepted as rebuttal testimony.

SALTS IF KIDNEYS OR BLADDER BOTHER

Harmless to flush kidneys and neutralize irritating acids. Kidney and bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the way he passes sometimes with a scalding sensation and is very prone, again, there is difficulty in voiding.

Bladder weakness most folks call it, but we they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simplest ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs, which, when normal, retain largely as an advisory body. Recur-

WILL HEAD DELEGATES

By Courier Leased Wire. Paris, Nov. 13.—Philipp Scheide- mann, German majority Socialist leader, probably will head the German delegates to the peace conference, according to a Zurich dispatch to L'Information. In diplomatic circles in Zurich it is not believed that the German delegates can be nominated before the end of the week.

It is pointed out there that it will be difficult to make up a common front now that Germany has two sets of republics apparently without relations between themselves.

The problem of the PIR. By Courier Leased Wire. Washington, Nov. 15.—Reconstruction problems in extent and of tremendous importance may be worked out under the direction of and on the advice of a special commission President Wilson, it was understood to-day, is considering the appointment of a reconstruction commission.

The commission as now being considered in official circles would lay down the broad lines under which the nation would be converted from a war to a peace basis. It would act largely as an advisory body. Recur-

Keep Your Money Earning Interest

If you have money coming in during the next twelve months,

—if you have promissory notes coming due, a mortgage maturing, an estate to be settled, dividends or interest accruing to you,

—money from any source which is reasonably certain;

—You can buy Victory bonds in anticipation by arranging with any chartered bank to carry you until your money comes in.

—And it won't cost you a cent to do it,

—because the bank will lend you the money at the same rate of interest which the bonds will be earning.

It means that from the moment you get your money and repay the bank, your money begins to earn interest at 5% per cent — your money is not idle for a minute.

Canada's Chartered Banks have offered to assist investors to buy Victory Bonds with money they expect to get during the year.

This is your opportunity to help your country and to keep your money invested in an absolutely safe security bearing good interest.

Good Service vs. Poor Service

GOOD telephone service depends not only upon the co-operation of the telephone user, but upon the absolute perfection in every detail of every bit of telephone apparatus and equipment used in the transmission of speech.

Constant expenditure for upkeep is essential to good service. Every bit of wire and every piece of apparatus must be watched, tested, and kept in good condition. Large reserve stocks of expensive equipment must be maintained at various points to meet promptly such emergencies as storms, fires and floods.

The public cannot be well served by a utility whose income is insufficient to provide properly for the maintenance of its plant, and for the replacement of obsolete or worn-out equipment.

The small advance in rates which subscribers will be asked to bear means that we will be able to maintain our system, meet emergencies promptly, and guard against any deterioration of equipment and service.

# AN OPEN VERDICT WAS RETURNED

## In Connection With the Killing of a Victory Loan Canvasser

By Courier Leased Wire.  
 Calgary, Nov. 14.—An open verdict that Tupp Blain came to his death from the effects of a gunshot wound inflicted by Albert Arnold, was returned last night by a coroner's jury at Drumheller investigating the circumstances of the killing of a Victory Loan canvasser at Verdant Valley Monday night.

The jury included A. H. Gibson, manager of the Standard Bank of Drumheller, A. S. Sibbald, W. B. Gordon, William McFee, J. Toshak, J. Campbell.

Arnold, who fired the shot is a naturalized Canadian of German birth and reported to have been at one time an officer in the German army. A preliminary hearing of Arnold is being held to-day before Justice

Sibbald.

According to testimony before the coroner's jury, Blain, who was a barber in Drumheller, headed a party of Victory Loan canvassers who entered Arnold's home at night after knocking and receiving no response. The home was in darkness, Blain, who had a British flag draped around him opened an inner door leading to Arnold's bedroom. He was met with a shot from a rifle and fell dead. The others of the party fled, returning later and were told by Arnold that they could have the body after he dressed in five minutes. Waiting that time they entered and found Blain dead and Arnold gone. Arnold later reported to J. P. McBeath, a justice of the peace of Delia, that he had shot a man who was entering his home in the evening. He was arrested while eating breakfast in a Chinese restaurant in Delia.

### WHERE PRINCE IS

By Courier Leased Wire.  
 London, Nov. 14.—The former crown prince has not been shot, but is staying at the residence of the governor of Rimburg, at Maasricht, the Daily Express says. He crossed the Dutch frontier accompanied by a dozen intimate military associates.

# RAISED RED FLAG OVER BRUSSELS

## German Soldiers Disarmed All of Their Superiors

Paris, Nov. 14.—Two German non-commissioned officers landed in an airplane yesterday at Thors, in the Dutch Province of Limburg, according to a despatch from Roermond, Holland. They declared that the population of Brussels had revolted against the Germans. They added that the German officers at the Belgian capital, not daring to leave in airplanes, on account of the bad weather, would try to flee in automobiles.

A despatch from Ghent says: "Brussels has shaken itself of the German yoke. German soldiers themselves are removing the shackles of the long-suffering population."

"The red flag floats over the headquarters of the German commandant and the officers have been disarmed."

"Gen. von Falkenhausen, the German Governor-General of Belgium, has resigned."

### LONG-DISTANCE TALKERS

#### Something That a Woman Does Better Than a Man.

A woman can talk longer than a man because she uses less force in speaking than the man does. A professor has proved by actual and very delicate measurements that the baritone almost uses far more energy than the tenor and that the bass singer uses more force than either.

The range of voices differs greatly, so the percentage varies to the same extent, but as a general result it was proved that the tenor uses only from one-seventh to one-sixteenth of the lung-power of the baritone or bass.

The difference between the force used by the contralto and the soprano is also marked, and the contralto who sings in very deep tones uses at least ten times the force of the thrilling soprano.

The explanation is so simple that it is surprising that the investigation was not made before. It has long been known that the tenor or soprano brings the vocal cords close together and keeps the edges only vibrating in the emission of air. The bass or contralto leaves the space between the cords wider open and has to vibrate very much more of the membranes, so that a considerably larger amount of air is required and much more force is expended.

Persons with high, squeaky voices often seem to be very loquacious, and the reason is now plain—they can talk with less effort than those who take a deeper tone and have to use more air to utter their words.

Here lies the real explanation of the cases with which a woman can outtalk a man. She has the advantage of using from one-seventh to one-sixteenth less lung-power. —Tit-Bits.

### Criminals In War

Crime has decreased greatly since the war broke out, the reason being that a considerable proportion of men belonging to the professional criminal classes have been absorbed into the army. Many of them, too, have done well in it.

One convict, a Liverpool man, with a score or more convictions to his "credit," won the Victoria Cross for one of the most conspicuous acts of gallantry on the front and has since died for his country. Others, promoted on the field for bravery, have attained to non-commissioned and even, in some instances, to commissioned rank.

The past history of practically all men of this type is known to the heads of the Criminal Record Office at Scotland Yard, but these never peek on their records and has since died for his country. Others, promoted on the field for bravery, have attained to non-commissioned and even, in some instances, to commissioned rank.

### A Traveller

A man whose every word and action betokened a son of the soil stepped up to the booking office of a provincial railway station. "After a cheery 'Gude mornin' to yer!" he asked the clerk for a ticket to London. "You will have a return, won't you?" inquired the clerk. "What do you say?" "Why, you'll want to come back, won't you?" "No, that I shan't, but ye'd better give me a return, all the same." "But," expostulated the clerk, "if you don't want to come back it's only a waste of money." "Look 'ere, young man," replied the old fellow, in a tone of abashed confidence, "that's my business, I sartainly shan't want ter come back; but I shall jest as sartainly have to."

### Has Had Experience

"So you've joined the army, Mose?" asked a man, addressing his former coachman. "Yes, sah." "What branch of the service are you in?" "Well, sah, Ah's in de infantry, but when we gits to France Ah'll do some night-raid work. Gittin' into de odder fellow's backyard durin' de night hours is a job dat Ah considers mah-self particularly experienced at."

### All Clear

# HAD SUFFERED 30 YEARS, SHE SAYS

## "I'll Praise Tanlac the Longest Day I Live," Says Mrs. Robbins

"Talking about things that help people," said Mrs. P. H. Robbins, of 1449 South 34th street, Omaha, Neb., in an interview recently, "Tanlac is doing more good than any medicine I have ever known in my time, and I'm now past sixty years of age."

"In 1889, nearly thirty years ago now," she continued, "when I was in my first years, I had a very bad case of rheumatism, and so many people were having it, I had an attack of it myself and have had it in some form or other from once to twice a year ever since. The first spell left me in a badly weakened condition and I would no sooner recover from one attack than I would be pulled down again. The doctors at that time called it 'rheumatic grippe' and I had aches and pains all through my body, in all my limbs and muscles. Three years ago I had one of these spells, which was so severe that they took me to the hospital and I nearly died. I had the worst headaches it seems any-

one could have and I was badly run-down and, frightfully weak. I couldn't sleep well for all those thirty years. My appetite was poor, I lost twenty pounds in weight and just had to drag myself around. I was hardly ever without some kind of an ache or pain, and the past spring I was in such a bad fix that we couldn't keep house, so I went to my daughters. My husband went to boarding and where he boarded he heard of a remarkable case like mine, that had been relieved by Tanlac.

"Then he went straight to Sherman and McConnell's drug store and got two bottles, one for me and one for myself, as he was in very bad health, too. Well, I showed some improvement on the first bottle and kept on getting better slowly. My appetite came gradually, and my strength came back a little each day. My aches and pains wore away and I got to sleeping better. When we would see one bottle getting low we would hurry to get another and since I finished my sixth bottle I'm feeling better and more like myself than I have in years. With all the sickness and 'flu epidemic that's going over the country I'm feeling stronger and better than I ever did. We are keeping house again now, and I eat well, sleep fine all the time. I am taking Tanlac with the Tanlac Tablets again now to keep in shape for the winter. It certainly is a blessing to

humanity and has done so much for my husband and me that I will praise it the longest day I live."

Tanlac is sold in Brantford by Robertson's Drug Store, in Paris by Apps Ltd., in Mt. Vernon by A. Voemann, in Middleport by William Padde, in Onondaga by Neil McPhadden.

**NERVOUS AILMENTS**

Few people realize that nervous ailments often arise from digestive troubles, but frequently it is in some reason, to digest food properly. Then, the system languishes and the nerves become exhausted in striving to continue their work. Impure blood also causes nerve troubles, but frequently it is in the stomach where the mischief starts. As the nourishment is carried to the nerves by the blood, it will be seen what an important connection exists between the stomach, the nerves and the blood, and how such troubles as nervous headaches, nervous dyspepsia and insomnia may begin.

In such cases relief is easily obtainable by means of Dr. Williams' Pink Pills. These pills replenish the blood with the food elements on which the nerves thrive; at the same time they exercise a tonic influence on the digestive organs, enabling the system to derive nourishment from the food taken. By this perfectly natural process nervous ills are steadily dispelled by Dr. Williams' Pink Pills. If you are suffering from nerves, or require a blood-making tonic, give these pills a fair trial, and see how speedily the best of health will be yours.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

A Cardiff woman joined a private literary circle. Her husband, who had no faith in genuine judgment on such matters, was anxious to know how things went.  
"Well, and what sort of a meeting did you have?" he asked on his wife's return.  
"Splendid," she answered.  
"And what was the topic under discussion?"  
"Oh," was the reply, "we discussed the antecedents of the brazen woman with the dyed hair that's just moved in opposite the Joneses and also one of the poets—Shelley, I think."—Cardiff (Wales) Western Mail.

**A Hum Palindrome.**  
The longest single-word palindromes in the English language are said to be "reviver" and "rotator," each containing seven letters. A friend of ours has discovered one of nine letters, viz., "detanated," which may or may not be in the dictionary. The Germans, however, have a palindrome of no less than thirteen letters, "rotleptilef," meaning relief columns.

**EARLY PULETS FOR WINTER EGGS.**

When we take into consideration that the average egg production on the Canadian farm is 75 or 80 eggs per hen and when well managed flocks average 120 to 180 eggs and individual hens even go higher than 300 eggs in the 12 months, it looks as though improvement might be made in the class of stock many keep. In the first place, pure-bred stock is best. They should be from a good laying strain. They should be from good healthy parentage and for winter egg production, pullets only and early pullets should be kept. In an experiment conducted at one of the Branch Experimental Farms where four different ages of birds was compared for winter egg production, it was found that early pullets produced eggs at an average cost of 16.7 cts., late pullets 28.2; two-year old hens 37.6 per cts.; three-year old hens 47.6 per cts. These somewhat similar to those could be procured in larger quantities. The early pullet is the only bird that should be kept for winter egg production and it is the winter eggs that pay. A dozen of eggs at Christmas is worth two or three dozen in May or June. Early pullets mean early eggs and early chicks in the spring which of course means early pullets in the fall. As a rule, the pullets that lay earliest are the best layers so that every pullet that lays before Christmas should be marked. They are your best layers. If you are killing off your old hens, do not kill hens that molt late in the fall. They are your best layers and with your best layers should always be mated birds from good layers. The male is more than half the flock. A male from a good laying strain and especially a good laying mother will do more to build up the laying quality of the flock than any other one thing. Don't use them for breeding purposes, cockerels whose pedigree you know nothing about. Better pay a good price and get a good bird.

Few drops stop cuts hurting then they lift right out with fingers

Your high heels have put corns on your toes and calluses on the bottom of your feet, but why care now?  
This tiny bottle holds an almost magic fluid. A genius in Cincinnati discovered this ether compound and named it Freezone. Small bottles of freezone can be had at any drug store for a few cents. Apply a few drops on your tender aching corn or callus. Instantly the soreness disappears and shortly you will find the corn or callus so shriveled and loose that you can lift it off with the fingers.  
Just think! You get rid of a hard corn, soft corn or a corn between the toes, as well as hardened calluses, without suffering one particle. Millions of women keep a tiny bottle on the dresser and never let corns ache twice.

**ST. LAWRENCE WATER POWERS.**

By Courier Leased Wire  
Ottawa, Nov. 14.—With the return to peace basis, the Dominion Government will if it is understood, take up the question of joint development with the United States of St. Lawrence water powers. A large scheme has already been tentatively submitted in its broad outlines. While regarding increased navigation facilities as paramount in the St. Lawrence, the scheme, it is estimated, would result in the development of enormous additional water power. Surplus power generated under the scheme and not needed in Canada, it is suggested, could be exported to the United States under treaty arrangements which would permit of its return when required on this side of the international boundary. One phase of the scheme would entail the practical abandonment of the present canal system of the St. Lawrence, as the result of the creation of a deeper waterway by means of dams.

A proposal that a general amnesty should be granted to short-term prisoners as soon as peace is officially declared has been forwarded to Hon. C. J. Doherty, Minister of Justice, by the Canadian Prisoners' Aid Association.

## BELL CO. MUST PROVE INCREASE IS NECESSARY

Ordered to Give Evidence in Connection With Proposed Raise in Rates

By Courier Leased Wire  
Ottawa, Nov. 14.—The Railway Board in a judgment handed down today grants the application of the municipal corporations of the cities of Montreal, Toronto and Hamilton and by the Union of Canadian Municipalities for an order directing delivery by the Bell Telephone Company of evidence in support of the company for an increase in rates.  
In the opinion of the board the request made is a reasonable one and the company is ordered to return covering its operations from 1913 to 1917. The return must cover operating revenue, operating expenses, annual maintenance, depreciation, taxes, net operating revenue, etc. Other items called for include the amount of the company's capital charges, including stocks, bonds and floating debt, the value of the company's lands and plant; a statement showing increase in labor costs and a statement showing the estimated increase in revenue that would be enjoyed by the company under the tariffs now submitted, the statement to show in detail the increase expected under the different rate changes brought about by the new tariff.  
The company must also supply particulars as to the increased cost of materials as well as particulars in overhead charges, including capital charges and taxes, incident to the carrying on of its business.

## BASEBALL WAR IS THREATENING

Minor Clubs Rebel at Big League's Piratical License

CUT OUT DRAFT RIGHT

Class AA Circuits Not Restricted to Salary Limits

Peoria, Ill., Nov. 14.—War between the major leagues and the minor organizations of the country is developing as a result of action taken at the annual meeting of the National Association of Professional Baseball Leagues here today, protesting against the privileges of the major leagues to draft star players from the minors.  
The protest was embodied in a resolution drawn by A. R. Tearney, of Chicago, president of the Three-I League, and presented by Jack Holland, owner of the former St. Joseph club of the Western League before franchise transfers were made to complete the curtailed season. The resolution demanded that the American and National Leagues relinquish the right of the draft and also the practice of "farming out" players under the optional agreement. It was adopted without a dissenting vote.

**Committees Appointed.**  
Thomas J. Hickey, president of the American Association, urged the minor league organization to withdraw from the National agreement with the majors if the demand is refused. A committee consisting of Holland, Tearney and Joe Tinker, owner of the Columbus club, of the American Association, was appointed to present the protest to the National Baseball Commission at its first meeting.

"We shall demand the right to dispose of our young stars to whom we see fit instead of having them drafted by the major league clubs at prices ranging from \$2,500 down to \$750, as prevails under existing conditions," President Tearney said. "It is the minor leagues that develop these stars of the major, and the smaller leagues should reap the financial reward."

**Retain Own Draft.**  
The minor leagues, however, desire to reserve the privilege of drafting players within their own organization, higher leagues drawing from lower class organizations, under present regulations. Steps will be taken to readjust the draft prices.

The minor leagues also adopted new salary limits and agreed to a reclassification of leagues with the exception of the nine that survived last season. The three class AA leagues—the Pacific Coast, American Association and the International Leagues—were exempted from the new salary regulations because of the fear that the Pacific Coast League contemplated playing "out-law" baseball. President Hickey of the American Association made an appeal that a stipulated salary limit for the association and the International League would prevent clubs in these organizations from holding their players, as the Pacific Coast League, if it withdraws from the organization, could offer more attractive salaries because of the longer season prevailing on the coast.

**Salary Limitations.**  
The salary limit of class A leagues was fixed at \$2,600 a month; class B at \$2,000; class C at \$1,400, and class D at \$1,200. The clubs will be required to deposit substantial guarantees with the league presidents and failure to enforce the salary limits will result in fine for the first two offences and forfeiture of their franchise for the third offence.  
The classification of new leagues to be organized after peace is declared will be determined by the aggregate population of cities comprising the circuits. Class AA leagues must have an aggregate population of 1,750,000; class A

In connection with the reclassification John H. Farrell, of Auburn, N.Y., secretary of the National Association, ruled that the territory formerly claimed by the Three I League, Central League and Central Association, was now open.

After adopting half a dozen resolutions to protect their rights and privileges in territory and players against possible further suspension in 1919, the club owners adjourned to meet in special session in Chicago soon after the first of the year. The next annual meeting, however, was awarded to Springfield, Mass.

Owing to an error in transmission last night it was announced that American Association club owners would consider plans for the 1919 season at a meeting December 12, in Indianapolis. The meeting will take place in Minneapolis.

Balloting on the proposals to reclassify and redistrict the minor leagues of the country to make the circuits more compact and reduce salary limits occupied the attention of the minor league leaders attending the annual meeting of the National Association of Professional Baseball Leagues here today. The meeting will close to-night.

There was a growing disposition when the meeting was resumed to withhold definite action in regard to baseball next season until the plans

of the American and National Leagues are revealed. Thomas M. Chivington, business manager of the Louisville club, and a former president of the American Association, was among those who shared the opinion that no definite action for the resumption of the national game in 1919 should be taken for at least three months.

"The peace of the world overshadows everything," Chivington said, "and until the war situation is cleared I do not think it would be wise to adopt any legislation for baseball. I shall suggest adjournment of the present convention and holding another meeting, probably in January."

M. H. Sexton of Rock Island, Ill., president of the National Association, declared himself in favor of postponing definite action. He believes that in the event professional baseball is resumed next season fewer than half a dozen leagues will take the field.

John H. Farrell of Auburn, N.Y., president of the International League; President Thomas Hickey of the American Association, and Dan O'Neill, president of the Eastern League, are among the executives favoring baseball for next season.

**THE INFLUENZA.**  
Influenza, labeled Spanish, came and beat me to my knees; seven doctors couldn't banish from my form that punk disease; for it's not among the quitters; vainly doctors pour their bitters into ailing human centers; they just sneeze and sneeze and sneeze. Said my doctor, "I have tackled every sort of ill there is; I have cured up people shackled by the gout and rheumatism; with the itch and mumps I've battled, and my triumphs have been rattled, but this 'flu' stuff has me rattled, so I panned to say G. Whiz." I am burning, I am freezing, in my little truckle bed; I am a-sneezing, I am sneezing; with a poutlike on my head; and the doctors and the nurses say the patient growing worse is, and they hinc around of hearsees, and of folks who should be dead. Doom has often held the cleaver pretty near my swanlike neck; I have had the chills and fever till my system was a wreck; I have had

the yaller janders, foot and mouth disease and glanders, and a plague they brought from Flanders on an old windjammer's deck. But this measly infirmity has all other ills outclassed; it has put me in a frenzy. Like a soldier who's been gassed; if the villainous inventor this my lodge of pain should enter I would use the voice of Stentor till he had been roundly stifled. May the influenza vanish! Of all ailments it's the worst; but I don't believe it's Spanish—haven't thought so from the first; on my couch of anguish squirming, I've had leisure to determine that the blamed disease is German, which is why it is accurst.

**SENDS HIS CONGRATULATIONS.**

The King's message reads: "At the moment of signing of the armistice, I must, my dear President, congratulate you with all my heart at having reached the end of this glorious epic of the French army and nation, which have shown us all what bravery and patriotism mean."

### THE MOHAWK PARK ENTRANCE.

Following the advocacy made by The Courier in regard to the promotion of Mohawk Park, the Parks Board has taken action and a large staff of men is at present engaged in the work of constructing a roadway into the park. Some time ago a right of way of one hundred and fifty feet was obtained alongside the street railway. The work was held up pending the moving of the street railway to the centre of the road so that a road could be constructed on either side. After waiting in vain for some time work has been commenced on the road, it being built on the east side of the street railway right of way. The road follows the west side of the park to the rear of the old grandstand and then swings east entering the park proper near the other road. Permission has not yet been secured from the Dominion Railway Board to cross the tracks of the Brantford and Hamilton Railway. The road will be a dirt road and at present a large staff of men are employed there. The work will be completed next spring.

Apply soothing, penetrating "St. Jacobs Liniment" directly upon the "tender spot," and relief comes instantly. "St. Jacobs Liniment" is a harmless rheumatism liniment which never disappoints and can not burn or discolor the skin. Lumber up! Stop complaining! Get a small trial bottle of "St. Jacobs Liniment" at any drug store, and in just a moment you'll be free from pain, soreness, stiffness and swelling. Don't suffer! Relief awaits you. "St. Jacobs Liniment" has relieved millions of rheumatism sufferers in the last half century, and is just as good for sciatica, neuralgia, lumbago, backache, sprains and swellings.

### Col. Bishop's Record "Rare in Any Warfare," Declares an Admirer

FOR bringing the Air Service to the attention of Canadians credit is now given to Lieut. Col. W. A. Bishop, V.C., D.S.O. (with bar), M.C., D.F.C., the Empire's leading fighter of the air, and now General Staff Officer and member of the Aerial Board of Great Britain, as well as the most decorated man in the Dominion.  
William Avery Bishop came upon the scene in 1917, with a record which soon placed him in the class of Alfred Ball, of British fame, and Guyonnes, of French celebrity. Within a few months he won almost every army honor available and rose from lieutenant to major in rank.  
The following is the official statement of these honors:  
Military Cross, May 28, 1917.—For conspicuous gallantry and devotion to duty. He attacked a hostile balloon on the ground, dispersed the crew and destroyed the balloon, and also drove down a hostile machine which attacked him. He has on several other occasions brought down hostile machines.  
Distinguished Service Order, June 18, 1917.—For conspicuous gallantry and devotion to duty. While in a single-seater he attacked three hostile machines, two of which he brought down, although in the meantime he was himself attacked by other hostile machines. His courage and determination have set a fine example to others.  
Victoria Cross, August 10, 1917.—For most conspicuous bravery, determination and skill. Capt. Bishop, who had been sent out to work independently, flew first of all to an enemy

Should Profit by the Experience of These Two Women  
Buffalo, N. Y.—"I am the mother of four children, and for nearly three years I suffered from a female trouble with pains in my back and side, and a general weakness. I had professional attendance most of that time but did not seem to get well. As a last resort I decided to try Lydia E. Pinkham's Vegetable Compound which I had seen advertised in the newspapers, and in two weeks noticed a marked improvement. I continued its use and am now free from pain and able to do all my household work."—Mrs. B. B. ZIELINSKA, 303 Weiss Street, Buffalo, N. Y.  
Portland, Ind.—"I had a displacement and suffered so badly from it at times I could not be on my feet at all. I was all run down and so weak I could not do my housework, was nervous and could not lie down at night. I took treatments from a physician but they did not help me. My Aunt recommended Lydia E. Pinkham's Vegetable Compound. I tried it and now I am strong and well again and do my own work and I give Lydia E. Pinkham's Compound the credit."—Mrs. J. G. GAYNOR, 113 FEMALE, 935 West Race Street, Portland, Ind.

### EXPERIENCE OF A U.S. GENERAL

By Courier Leased Wire  
With the American Army in France, Tuesday, Nov. 12.—(By the Associated Press).—To be taken prisoner by American troops was the experience last Friday of Brigadier-General Douglas MacArthur, a brigade commander of the United States 42nd division. The first and 42nd divisions were advancing rapidly that day towards Sedan and in the region of Autrecourt, the lines of the two divisions became crossed. General MacArthur, who was at the head of the advance of his men, was taken prisoner by soldiers of the first division, who could not believe that any Americans were ahead of them. The situation was explained quickly and General MacArthur released.

### GUARD THE CHILDREN FROM AUTUMN COLDS

The Fall weather is the most severe season of the year for colds—one day is warm, the next is wet and cold and unless the mother is on her guard the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mothers' best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose will prevent cold or if it does come on suddenly the prompt use of the Tablets will quickly cure it. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Major-General W. C. Gorgas, former surgeon-general of the U. S. Army overseas, has been made a grand officer of the Order of the Crown of Italy.

### Col. Bishop, V.C.

airdrome; finding no machine about, he flew on to another airdrome about three miles southeast, which was at least twelve miles the other side of the line. Seven machines, some with their engines running, were on the ground. He attacked these from about 50 feet, and a mechanic, who was starting one of the engines, was seen to fall. One of the machines got off the ground, but at a height of 50 feet Capt. Bishop fired 15 rounds into it at very close range, and it crashed to the ground. A second machine got off the ground, into which he fired 30 rounds at 150 yards range, and it fell into a tree. Two more machines then rose from the airdrome. One of these he engaged at the height of 1,000 feet, emptying the rest of his drum of ammunition. This machine crashed 400 yards from the airdrome, after which Capt. Bishop emptied a whole drum into the fourth hostile machine, and then flew back to his station. Four hostile scouts were about 4,000 feet above him for about a mile of his return journey, but they would not attack. His machine was very badly shot about by machine-gun fire from the ground.  
Bar to D.S.O., Sept. 26, 1917.—For conspicuous gallantry and devotion to duty when engaging hostile air craft. His consistent dash and great fearlessness have set a magnificent example to the pilots of his squadron. He has destroyed no fewer than 45 hostile machines within the past five months, frequently attacking enemy formations single-handed, and on all occasions displaying a fighting spirit and determination to get to close quarters with his opponents, which have earned the admiration of all in contact with him.  
Such a record is rare in any warfare and it won instant appreciation in Canada when the facts became known. In October, 1917, the announced results of five months' fighting by Major Bishop, in addition to 47 destroyed machines, was 110 single combats with the enemy 23 planes sent down without absolute certainty as to destruction, including escapes without number including one fall of 4,000 feet with his machine in flames.

### The Associated Press

The Associated Press is an organization formed before the American civil war, and reorganized in 1900, for the purpose of gathering and distributing news for daily newspapers. This is attended with great expense and every paper that receives the news thus gathered throughout the world day by day pays its pro rata share, fairly apportioned. The facilities of the Associated Press for gathering and distributing news are very great, including agents and correspondents all over the world, and its established reputation for enterprise, veracity, impartiality and thoroughness in every respect is such as to make its news of great value to newspapers and the public. Great care is exercised to make the news truthful, impartial and reliable in every respect.

**NOTICE**  
**Increase in Subscription Rates Commencing Dec. 1, 1918**  
The subscription rates of the Brantford Daily Courier and the Brantford Daily Expositor, commencing December 1st, 1918, will be as follows:  
**Delivered in Brantford and Vicinity, 45c. per month**  
**By the year, Paid in Advance, \$5.00 per annum**  
**By Mail, " " 4.00 per annum**  
**Single Copies, 2c.**  
After publication of this notice, payments in advance on subscriptions will only be accepted to eember 1st at the old rate, after that at the new rate.  
This advance in subscription rates has been made necessary by the tremendous increase in the cost of white paper, the price of which has recently been fixed by the Paper Controller at Ottawa. By this one item alone thousands of dollars are added to our annual cost of production, and in addition, labor, presses, stereotype supplies, type and all other items of expense have enormously advanced in price during the last few years.  
Even at the new rates the Brantford papers are only now charging prices which have been in force for some time back on almost all the other daily newspapers published in this section of the Dominion. In many cities the subscription rates are very much higher.
