BOARD OF EDUCATION HAS ANOTHER SESSION WITH BUSINESS ON HAND

Will Send Deputation Along With City Representatives With Reference to the Collegiate and Technical Schools Money Needs.

The Board of Education had another drive at the business in hand tonight and finished up what was left over from the two previous sessions.

City Clerk Pay, secretary of the Board of Health, wrote the Board of Education with reference to the case of Alma McDonald, the Collegiate pupil who contracted smallpox some time after she, it is claimed by relatives, had been asked by the Collegiate science master to hold the book of another pupil, Vera Coons, who was ill with smallpox, while he fumigated them.

Principal Combs wrote: "Concerning the complaint made by Wm. E. Emmett regarding the manner in which the books of Vera Coons were fumigated I wish to make the following statement: On the afternoon of which Mr. Coons' house was placarded for smallpox, Mr. Bonham called at the Collegiate Institute and notified us, and that her books and desk should be fumigated. I asked Mr. Jackson, science master, if he had any formaldehyde in the laboratory and told me to what I wanted it for. It was then sent into the science room about half a dozen girls were called there and took the books from the desk and without anyone else touching them he sprinkled them on both sides and on the edges and also sprayed the desk. He then opened the books and proceeded to spray the leaves by allowing them to slip over quickly between his thumb and finger and using the spray (a very small one) with one hand. One of the girls who was standing by (it has since been learned that Alma McDonald was the one, although no particular girl was asked to do it, and it was entirely voluntary and unaided assistance she gave) offered to run over the leaves so as to give Mr. Jackson the use of both hands for the spray. The draught of air from the spray was not directed towards the girl. The books had been lying in the desk for a week before the case had been diagnosed as smallpox although Vera Coons had left school about a week before. As this was the first case reported from the school and as a week had elapsed since we were fully aroused regarding an impending epidemic. As the fumigation took place on Novem-

ber 26th and Alma McDonald's illness was diagnosed as smallpox on December 20th which was very shortly after, she first felt poorly. I do not think her illness could have resulted from her connection with the fumigation of the books. I do not want to escape any onerous duty but I wish to state most emphatically that in my opinion we took proper precautions to safeguard the health of all concerned and if contagion did spread, to anyone from Vera Coons' books (and I do not think it did) it spread before the books were fumigated because several of the books were used at times by various pupils. The reason why I think Alma McDonald's illness had no connection with the incident is that she was very indirectly exposed and smallpox did not develop until nearly four weeks afterwards."

Michael Muss applied for the position of Caretaker of the NewWelland Avenue public school. A letter came from County Clerk Johnston Clench stating that George X. Walker has been appointed a member of the Collegiate in place of F. G. Stewart. J. Stanley Elliott applied for position of principal of Memorial School. S. A. Wallace, returned soldier, applied for the position of Secretary of the Board of Education. He is a graduate of the University of Toronto and a qualified teacher. He is a 40 per cent. disability case. He enlisted in the west where he had been serving as a minister. He has lived in St. Catharines eight months. Secretary Cunningham of the G. W.V.A. sent a strong recommendation for Mr. Wallace. Principals of the public schools sent a letter complimenting G. T. McBride on his work as secretary of the Public School Board and recommending that he be retained as secretary of the Board of Education. Chairman Burgoyne of the Special Committee appointed to name and set the duties of secretary of the Board of Education reported that Charles T. McBride had been appointed at a salary of \$2,000 a year to devote all his time to the position resigning as assistant City Clerk. The salary of \$2,000 is what he now receives from the two positions. Mr. McLaren was appointed caretaker of Memorial School at \$1,000 a year and the use of the Nelson house as a residence, duties to commence March 1. The architect will be instructed to

one eye and gathered her fur collar closer about her neck. "It's snowing."

"You should have come prepared to return the engagement gifts," the judge answered.

John was not so hard-hearted. He took the ring and agreed to go with Helen to the Hamilton club, where she is an elevator girl, so she might borrow a coat and a hat to wear home.

"But it's a Luthuanian custom to accept presents from the man you are going with," wiled the girl as she left the court.

"It is not done in the best circles in America," the judge returned.

Court Rules Girl Must Give Back Man's Gifts Unless They're to Marry

CHICAGO, Feb. 21.—No unmarried girl, Municipal Judge John F. Blase said today, has a right to accept presents, such as jewelry and wearing apparel, from a man unless her intentions are serious and in contemplation of matrimony.

Helen Klein refused to marry John Scorpikas, who works for the Mable Iron Company in West Pullman. So she was forced to return to him his diamond ring, for which she said he paid \$46; a fur coat, \$75; a muff, \$25, and a hat, \$16.

"Must I give them all to him?" Helen appealed, as she pulled the spring bonnet more firmly over

WIFE CHARGES HER AGED MILLIONAIRE HUSBAND WITH WANTON CRUELTY

CHICAGO, Feb. 21.—B. E. Tilden, aged millionaire, was sued for separate maintenance today. Mrs. Mary C. Tilden, offered a lengthy story of miserableness and petty cruelties covering a number of years.

Tilden is alleged in the bill to be worth at least one million dollars, a great part of it gained in western mining. Shortly after the marriage, in 1912, the wife charges, he seized her hands and pressed a lighted cigar against them. At a dinner party, in 1916, Mrs. Tilden states, her husband became enraged over a trifle, broke dishes and furniture, humiliated the guests, and when remonstrated with opened a revolver bombardment into the wall of an adjoining room.

In spite of Tilden's wealth, his wife claims she has been compelled to live in poverty with her six-year-old daughter, Augusta. At one time she was reduced to one pair of cotton stockings, the bill asserts. The child was forced to leave school on January 22 last, due to lack of clothing, the charges add.

Mrs. Tilden charges her husband has been married to four women, and was divorced by three of them on grounds of mistreatment. Tilden is seventy years old, and Mrs. Tilden is thirty-four.

Won't Permit Young Folk in Divorce Court

CHICAGO, Feb. 21.—Testimony in "spicy" divorce cases is hardly the proper diet for half-baked youth of both sexes, according to Judge David, of the superior court, before whom many of these cases are heard.

Today his court room was crowded. Liberally sprinkled among the professional and habitual benchwarmers the judge spied numerous smirking boys and giggly girls. They were all leaning forward, drinking in the details of the separate maintenance suit of Mrs. Dorothy Matheson, when the judge ordered a halt.

"Who are these curious young people and what are they doing in this court room?" he demanded. "This testimony is not for their young ears. Take the outside, Mr. Bailiff and keep the maundy from the hearing of cases such as this."

After the adolescents had been conducted to the corridor and instructed to go home, the judge made a ruling barring out any but witnesses who appeared to be under age. He also instructed the bailiff to pry the professionals loose from their seats and let them take the air.

complete Memorial School as quickly as possible so that St. Andrews School could be used for the commercial classes of the Collegiate.

Teachers in all schools are to furnish a report on the degrees of heat in their respective rooms for a period of ten days at 10.30 a.m.

Trustees Wright, Waterhouse and Rutherford were named as judges for the public speaking contest at the Collegiate on Monday night.

The Board decided to accept the invitation to attend the meeting of the Ratepayers Association at the Collegiate next Tuesday night.

The St. Catharines Musical Association were informed by resolute that their recommendations regarding singing teaching in schools, etc., is under consideration by the Board.

Chairman Trappell and W. B. Burgoyne were appointed to attend with the Mayor and Chairman of the Finance Committee at a conference with Cabinet Ministers at Toronto regarding proposed special legislation required to facilitate the financing of a new Collegiate and technical school.

REV. JOHN PRINGLE, D.D. WHO WILL BE IN THIS CITY WEEK FROM TOMORROW

Rev. Dr. Pringle is an outstanding figure in the Presbyterian Church in Canada. His early years were spent in St. Catharines where his father was stationed with his regiment. The first years of his ministry were spent in Ontario after which he crossed the line and served in the United States. When the Yukon opened up and the fever for gold led thousands of men into that new country the Presbyterian Church followed the prospectors with the Gospel. John Pringle heard the call of the Church, and offered his services which were accepted.

He was the man for the place, the life was rough, no cosy manse in which to live, no motor car in which to travel from place to place. His best accommodation was a shack and his mode of travel a canoe in summer and a dog team in winter. Up and down the creeks he went looking after the men who were washing the gravel to find the precious metal. When night overtook him on the trail he would pitch his tent in the snow, kindle a fire in his iron stove, feed his dogs, creep into his sleeping bag and read his bible, pray for his loved ones and go to sleep though it might be 40 degrees below zero.

After years of this arduous life he came east and is now minister of St. Andrews Church, Sydney, N.S. When war broke out he went overseas as Chaplain and proved himself as much of a man on the battle field as he had done on the trail.

Last June the General Assembly of the Presbyterian Church in Canada honored itself by electing him its Moderator. Dr. Pringle was in St. Catharines some weeks ago and spoke on the Forward Movement. He will be the special preacher at the Anniversary services of the Presbyterian Church February 29th.

READY TO WELCOME PRESS Preliminary Plans for Imperial Press Conference Made at Ottawa

Ottawa, Ont., Feb. 21.—A meeting of the Canadian Press executive in charge of the Imperial Press conference was held yesterday, Lord Atholstan presiding. Other members present were P. D. Ross, Ottawa; J. E. Atkinson, Toronto; W. J. Taylor, of Woodstock, and C. F. Crandall, honorary secretary, Montreal. The preliminary plans for the conference were completed. The British and the overseas delegates will arrive in Halifax, July 25 and after attending the press conference in Ottawa will make a trip across Canada, returning to Quebec by September 10. Capt. William Wallace, M.C., was appointed special secretary to the committee.

PARIS LIKES WOODEN BEADS Feature Them in Everyhink From Fringe to Lingerie.

PARIS, Feb. 21.—Beads made of wood are certainly showing a great adaptability. Not only are they found in fringe and in motifs trimming lampshades, cushions and sofas but in the form of very original belts. They are also used in delicate lingerie, and the collars which develop the use of wooden bead trimming would make quite a collection. They will be much in evidence on straw hats for spring, combining motifs and garlands.

DUKE TO VISIT ENGLAND Governor General Will Attend Wedding of His Daughter.

MONTREAL, Feb. 21.—His Excellency the Governor General of Canada, will go to England to attend the marriage of his daughter, Lady Dorothy Cavendish, to Captain H. MacMillan, which will probably take place within a few months. The date His Excellency will leave has not been fixed.

Hamilton Tigers won the championship in O.H.A. Group No. 1 by beating Dentals last night 4 to 1.

"Poison Ivy" Is Ivens' New Name

WINNIPEG, Feb. 21.—William Ivens, the former Methodist preacher and one of the strike leaders, on trial has acquired a nickname as a result of his "poisoned jury, poisoned judge and poisoned sentence" speech.

"Poison Ivy" is the name by which the strike leader is now known to those who are following the trial. Ivens was charged with contempt of court as a result of his "poison" speech, and the King's Bench has reserved judgment in his case until next Tuesday.

Client Handed \$2,500, is Now Out the Amount

Because Joseph Guyett authorized payment of \$2,500 and interest due him on a mortgage to John T. Loftus his solicitor, he is out that amount.

"This is an unfortunate case," remarked Chief Justice Sir William Meredith, in giving judgment yesterday at Toronto, "arising from the gross misconduct of a solicitor. There is no doubt that as soon as Loftus got the cheque he intended to use it for his own purpose and not to apply it on the mortgage."

The action was one brought by Mrs. Ellen Delory, of Hamilton, against Joseph Guyett, of Toronto, for a declaration that she had paid in full a mortgage given by her to him on certain Toronto property to secure a loan of \$2,500. Acting on his instructions she had paid the principal and the last instalment of interest to Loftus, who was Guyett's solicitor. At the trial Mr. Justice Lennox found in her favor, though the money never reached Guyett. He granted a discharge of the mortgage and furnished the plaintiff. This decision is affirmed.

JAPS AND CHINESE FIGHT IN SIBERIA "Whites" Reinforce Japs, and Chinese Help Insurgents

LONDON, Feb. 21.—Fighting has been in progress on the Amur River in Siberia between insurgent forces and Japanese, a Moscow wireless message states. "White" troops reinforced the Japanese, and a fierce struggle is raging, with the insurgents supported by Chinese, the despatch declares.

It is reported, the Bolshevik advances add, that in the Ussuri region the rising of the peasants in favor of the Soviet form of Government is spreading.

In regard to the situation in South Russia, a Bolshevik communique today says: "Enemy ships have bombarded Genichesk (on the sea of Azov). Stubborn fighting is occurring 25 versts northeast of Stavropol (on the left bank of the Volga)."

Farm Workers' Vote May Oppose Labor Agricultural Laborers Strong Element in Horncastle

LONDON, Feb. 21.—The latest from the Horncastle, Lincolnshire, by-election campaign shows that the labor candidate appears to be in danger of losing the vote of the agricultural laborers, which is a strong element in the constituency. The land workers, it is asserted, are becoming alarmed at the revolutionary and the threatening industrial section of the Laborites. Capt. Hotchkiss, Coalitionist, is a local man and a practical agriculturist. He served throughout the war.

Guelpch Chamber of Commerce is to have farmer members. The Manitoba liquor referendum resolution has been drawn up. Kootenay Indians revived the old ball at their reservation near Atholmer. The University of Toronto swimmers in steam defeated McGill at Montreal yesterday.

NOT MUCH PROSPECT OF WOOLLEN GOODS COMING DOWN IN PRICE JUST YET

Letters to Dealers From Scotland Tell of Conditions Which Will Make It Impossible—Wool Supplies Are Still Very Scarce.

Clothing dealers in this city have received a letter from Peebles, Scotland, written by Lowe, Donald & Co., Limited, which sets forth the prospects for woollens for two years to come.

The Scotch firm reviewed in its letter the prediction for the woolen trade during 1919, and predicted that there would be no easing of the market for 1920. Substantiating their arguments, the Scotch merchants presented the following reasons for their forecast of prices:

Nearly every woollen manufacturer—both in England and Scotland—is practically filled up with winter orders to the end of 1920.

That clearly points to a considerable curtailment in the quantity of goods available, and also delay in the delivery of spring goods for 1921, as in normal times the large proportion ought to be delivered in October, November and December of each year.

There are large visible supplies of wool but not more than enough for the world's necessities, and therefore prices must rule high until the supply overtakes the demand.

Apart altogether from the price of wool, there is the enormous advance in the values of all raw materials used in manufacturing, the very high price of coal, and the very large increase in wages for all grades of operatives. Those conditions have apparently come to stay for an indefinite period.

The productive power of the woollen machinery of this country is quite inadequate to meet the world's demand for woollens, and this is accentuated by the decision of the Yorkshire topmakers against working a night shift. So even if wool and raw materials were lower in values, this factor of production, in conjunction with what we have stated in paragraph 4, would alone account for the

THE WEATHER.

TORONTO, Feb. 21.—Pressure is relatively low over the south western and Pacific states and high for the most part over the remainder of the Continent.

The weather has been fair through out the Dominion and on the whole moderately cold.

FORECASTS—Fair today, Sunday northeast winds, moderately cold and some light snowfalls.

present unprecedented high prices of finished goods.

Until the continental nations have fully recovered from the terrible ravages of the late war, and are able to compete with this country for the markets of the world, we see no hope of reduced values in the finished woollen goods. At present prices are from five to ten shillings per yard higher than a year ago, and may go still higher.

ALFRED E. TINLIN, A WELL KNOWN CITIZEN DIED LAST EVENING

Many friends will regret to learn of the death of Alfred E. Tinlin, which took place last night at the residence of his brother, George, on Lake street, after a comparatively brief illness. He was one of the oldest employees of the Welland Valve, having worked for the firm for thirty years or more. He leaves a wife and one daughter, Madeline.

The funeral will take place Sunday afternoon at 4 o'clock in Victoria Lawn cemetery. Mr. Tinlin who was a very kindly man, well liked by everybody, was born in St. Catharines 51 years ago. He enlisted with the 176th battalion but did not get overseas because he could not pass the physical test.

Chas. Chaput, late President of the Montreal Board of Trade, has given \$35,000 to the new University of Montreal.

French Paper Claims Marshal Joffre Not "Hero of the Marne"

PARIS, Feb. 21.—That General Gallieni is the real hero of the first battle of the Marne and not Marshal Joffre, is the claim made by Victor Marguerite, who is publishing General Gallieni's letters and memoirs. Following is an extract of a letter from the general to Deputy Gazpoyso, given as indisputable proof that "Our army of Paris has been able to strike a hard blow at the proper place when it was necessary, despite orders to the contrary which I disregarded."

Under date of September 2, 1914, Joffre sent a message to General French, commanding the British; Millerand, then French war minister, and General Gallieni, then military governor of Paris:

"It is impossible to consider at this time any large maneuver against the Marne with our forces."

Marshal Joffre then intended to sacrifice Paris.

But General Gallieni disregarded these orders and, commanding all the automobiles and taxicabs of Paris, filled the machines with the troops forming the Paris garrison. Placing General Manuery in command, he rushed the army to the Orqu where it hurled itself on Von Kluck's exposed right flank and crumpled it,

causing the German retreat to the Aisne.

On September 7, 1914, after the Marne victory, Marshal Joffre is reported to have sent the following message to General Gallieni: "I request you not to provide the government with any information regarding army operations."

On September 8, General Gallieni wrote Millerand, the war minister: "Joffre warned me not to communicate any information regarding military operations to the government or press. It is thus confidentially that I give you the following information."

The general order issued by Marshal Joffre from General headquarters for the ill-fated offensive of December 17, 1914, has just been made public.

Little has been written of the costly failure in which Joffre hoped to break through and win the war before the end of 1914, and the official communications issued by the French and British never made any mention of the case.

Curiously enough, it was in this operation that Joffre hoped, at least to eliminate the Ste. Mihiel salient, which thrust out, like a hernia, in the Allied lines, until September, 1918.

A FURTHER BURDEN PROPOSED

The proposal which the City Council is making to ask the Legislature for permission to increase the city's borrowing power and perhaps allow an increased rate is certainly not one which will commend itself to the taxpayers who are standing about all now that their properties will carry legitimately. It can easily be imagined that if the Legislature were to permit five more mills to be added to the legal rate that may be levied for general purposes, it would only be a short time before the city's general rate instead of being twenty five mills would be thirty. There would be ways found to absorb and spend all the extra revenue.

While public improvement are necessary and a fair amount should be provided from year to year, there is a way of getting a new Collegiate Institute for St. Catharines without raising the tax rate beyond the twenty five mills as now permitted by the Act.

To apply for power to enlarge the borrowing power and to increase the rate should be opposed. The homes of this city are bearing now all the tax they can reasonably stand.

Oyster-shell Scale.
 This is a very common orchard insect. It attacks not only apples but also pears, plums, currants and many ornamental and shade trees and bushes. Full grown scales are found almost exclusively on the bark, and are easily recognized by their oyster-shell appearance. They are about 1/4 of an inch long, 1-24 inch wide, taper towards one end and in color resemble closely the bark.

The injury is caused by their sucking the juices out of the bark and thus weakening the trees. When very abundant they almost completely cover the bark and in that case may kill either the whole tree or portions of the branches. Most infested trees, however, are not killed but only weakened.

Control.—Spraying the trees just before or just after the buds burst with lime-sulphur solution, 1 gallon to 2 or 3 gallons of water, is a satisfactory remedy. The remedy should be applied with a spray nozzle. Dead scales may remain on the trees for several years after date of killing. Pruning the trees early makes it easier and cheaper to spray them well.

—Prof. L. Caspar, O. A. College, Guelph.

Everett McGowan of St. Paul won the International Amateur Skating championship with a total of one hundred and twenty points.

Kitchener beat Granites last night by 6 to 2. Parkdale, Granites and Kitchener are now tied for the leadership in the O.H.A. senior group two.

WANTED
 Lady book keeper of substantial age, to assume the management of office of our Owen Sound Store (retail dry goods). Must be fully experienced in book keeping, banking, etc., and would prefer some customs experience. This is a very comfortable position in point of management and in a bright tip to date office. Owen Sound is desirably located on the Georgian Bay. Apply stating experience, age, salary, etc. to G. B. Ryan and Co., Guelph. F 21 23, 24 25

Baby's Own Tablets
Always in the Home

Once a mother has used Baby's Own Tablets for her little ones she always keeps a supply on hand, for the first trial convinces her there is nothing to equal them in keeping children well. The tablets are a mild but thorough laxative, which regulate the bowels and sweeten the stomach, thus driving out constipation and indigestion, colds and simple fevers and making teething easier. Consulting them Mrs. Sathie Pollock, St. Dumas, Ont., writes:—"I have used Baby's Own Tablets for the past ten years and am never without the tin in the house. They have always given the greatest satisfaction and I can gladly recommend them to all mothers of little ones." The Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brookville, Ont.

OTHER VIEWS

THE IN-RUSH OF NEWCOMERS
(Toronto Star.)

Two experienced Western farmers have been sent to England to act as a Board of Selection in the case of Imperial ex-soldiers who desire to come to Canada to farm. They will select those who seem likely to succeed as farmers in this country. One would say that not only experience in farming but prophetic insight would be required for this job. One result of this arrangement is that it shifts the initiative and the heft of the responsibility from the emigrant to the country that invites and advises him.

That there will be a very large movement of population from Great Britain to Canada is already certain, and in another month the movement will have set in. It is said that there is a constant stream of applicants at the Ontario Government offices in London, and that the agencies of all the other Provinces are equally busy. The Dominion agencies and the offices of the C. P. R. are dealing with large numbers of enquirers every day. The man who advertises a Canadian farm for sale in the London papers gets a sheaf of replies.

Last year Canada had 114,000 immigrants, 54,000 of whom came from Great Britain and 52,000 from the United States—the two best sources from which this country can draw population. But a movement from the British Isles to this country, larger than any heretofore known, is about to set in, and among the newcomers will be many with sufficient capital to purchase the best of farms, in the old established districts.

So large may be the influx of newcomers that extraordinary preparations for handling their interests are called for on the part of both the Federal and Provincial authorities. The new comer without capital requires advice and direction quite as much, if not more, but is less aware of the need and usually less grateful for it.

The decision of the Cunard line to preserve the names of the Lusitania and other vessels sunk in the war serves to recall the superstition of old-time sailors that it was exceedingly unlucky to name a ship after one that had gone down.

Keep Children Well
Make Them Robust
 Here is Good Advice For the Head of Every Family

Rapid growth, work at home and in the school-room, are sure to tax the strength of every child, and often prove the beginning of a chain of weakness that lasts through life.

Give your sons and daughters a fighting chance! Give them good home surroundings, fortify them with education—but above all else do everything possible to ensure for them perfect health in years to come.

In no way can you destroy weakness and build up health—so surely as with Ferrozone. It's the concentrated nourishment in Ferrozone that enables it to do so much good. It contains the very elements that are needed in building up bone and strength, in vitalizing and strengthening the blood. The appetite Ferrozone brings will gladden any parent's heart, and when, color, spirits, vim, and energy increase day by day then you know what grand work Ferrozone is doing. Because it makes and keeps you healthy, because it is pleasant, and sure to do enormous good—you and your children should use Ferrozone every day. Sold by all dealers in 50 cent boxes, six for \$2.50, or direct by mail from the Cattarhoxone Co., Kingston, Ont.

SUBTLE AND OTHERWISE

A court has ruled that the young woman must give back the presents if she doesn't marry him. All of which is right and proper. He'll have something for the next one, and with things as high as they are today, there's no more sense in duplicating such gifts than there is in duplicating railways.

The Vegetarian Airman.
 "I knew one chap," said the airman, "who crashed in Germany, and tramped 320 miles back to our lines. It took him a month, and he lived the whole time on raw turnips and carrots that he dug up at night."
 "Heavens!" said the young lady. "I wonder how such an experience felt."
 "The poor chap," said the airman, "told me it felt like a root march."

Women's worries are decreasing, while men's are increasing. Most women's chief worry is about clothes, and in view of what we notice here and there that's why her worries are decreasing. But in passing, it may be pointed out, when it comes to women's clothes, the less you have to pay for the more you have to pay. If you will get our meaning—what?

One afternoon there entered the bar of an Alberta hotel four gentlemen, guests of the hotel. Fred Adams was officiating. They lined up. It so happened that one of the strangers had a shortened, bent leg, and when he was standing on it his head just peeped over the top of the bar. He was standing thus when Fred asked them what they would have. The other three called for beer, but the chap with his face peeping over the bar wanted a cocktail. Fred served the beers and then turned round to the shelf where the various mixtures were and proceeded to fix up the cocktail.

In the meantime the fellow with the game leg got tired standing on it and shifted to his other leg, which brought him up to a level with the others. When Fred turned round to place the cocktail on the bar, he looked about in a bewildered way and said:—"Say, where's that saved-off little runt who ordered this cocktail?"—Eye-Opener.

Mumps and measles in the city seem to have added to our trials and tribulations.

Brer Wilson of the U.S.A. seems to have put his foot into it. Some of his best newspaper friends hint that there is something wrong about Woodrow's mind, and it does seem as if there is something in the idea.

The Dominion Alliance folks suggest that Premier Drevrey get after the cellars. As only the rich man can have a cellar in the acceptance of the word in connection with the O.T.A., we say so too. If booze is wrong it is just as wrong for the wealthy man as the poor man.

By the announcement of the death of Peary, the public will be reminded of the year that the famous explorers, Cook and Peary, came back and both claimed the discovery of the North Pole. A legal dispute followed. Now, that winter it was exceptionally cold. During one of the extreme cold spells, Ike Wilson, a wit of no mean ability, was going to his office whistling gaily a tune of his own composition, when he was suddenly accosted by an old friend: "Hello, Ike, is it you who is making all that draft?" "Nope. It's them fellows monkeying with the Pole."

By present indications the bear will be out looking for his shadow again in a few weeks.

As the exchange rate mounts high-day, the bank accounts of the U. S. business men sink lower.

Grantham Council

The Grantham Township Council met as a regular meeting in the County Buildings at St. Catharines on Monday, Feb. 16th. Members all present except Councillor Baker, who has not returned from Florida.

Communications were read from: Ingersoll and Kingston, barristers, stating that the appeal case re Hostetter and Township has been argued before a board of five judges in Toronto, and the decision has not yet been given.

The secretary of the Niagara District Industrial Association of Welland, and inviting the Council to co-operate with them in the work undertaken.

The secretary of the trustees of the Canadian fund of the 98th Battalion of Welland, stating that they have paid from the fund the Grantham taxes of Mrs. Alice Kean, widow of the late Lance-Corporal Kean, of Orchard Park, Grantham township, and asking that the taxes be remitted by the Council.

The secretaries of the Ratepayers' Association of School Section No. 7, Orchard Park, and the ratepayers of the Association of School Section No. 6, Niagara Gardens, asking the Council to co-operate with the Niagara District Industrial Association.

G. Roland Lee of Maple Leaf Grove asking that Lorne avenue, off the Queenston road, be graded.

Clerk of the Township of Niagara, giving names of a committee to co-operate with a committee from the Grantham Township for necessary construction and repair on the township line.

Division Registrar, certifying that 37 births, 1 marriage and 45 deaths have been registered from the township for the year 1919.

Ex-Mayor W. B. Burgoyne, president of the Niagara District Hydro Electric Power Commission of Ontario, to take over the Niagara, St. Catharines & Toronto Railway Company.

Moved by Deputy Reeve Haynes, seconded by Deputy Reeve Stewart, that the Municipal Council of the Township of Grantham requests the Hydro-Electric Power Commission of Ontario to investigate and report on the feasibility of taking over and acquiring on behalf of the municipalities in this district the Niagara, St. Catharines & Toronto Railway Company; the value of the undertaking to the municipalities to be served.

medicine. I had a toothache yesterday, and I went home, and my loving wife kissed me and so consoled me that the pain soon passed away. Why don't you try the trick?
 Sufferer—I think I will. Is your wife home now?—Exchange.

Wok's Colic Loos Compound
 A safe, reliable, non-drowsy medicine. Sold in three sizes: 10c, 25c, 50c. No. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100. THE COCA MEDICINE CO. TORONTO, ONT.

ed together with the statement as to the revenue and cost of operation of same, and the said report to be prepared and presented at the earliest moment.

That a copy of this resolution be presented to the Hydro-Electric Power Commission of Ontario, the Hydro-Electric Radial Association of Ontario and each of the municipal councils in the district served by the said railway, urging their co-operation and support.—Carried.

Moved by Deputy Reeve Stewart, seconded by Deputy Reeve Haynes, that this Council approves of the purposes of the Niagara District Industrial Conference and its plan of organization as shown in minutes of meeting of January 23rd, and we pledge our support under the conditions therein stated, and appoint Councillors Clemens and Baker as representatives from this township.—Carried.

Moved by Councillor Clemens, seconded by Deputy Reeve Stewart, that the clerk be authorized to notify the secretary of the Canadian fund of the 98th Battalion that this Council will take no action regarding the remittance of Mrs. Kean's taxes.—Carried.

Moved by Deputy Reeve Stewart, seconded by Deputy Reeve Haynes, that the request of Mr. Lee to have Lorne avenue of Maple Grove subdivision graded be granted, and the road superintendent be authorized to perform the work as soon as the ground is workable.—Carried.

Moved by Deputy Reeve Stewart, seconded by Deputy Reeve Haynes, that Thomas Secord be given permission to remove a shade tree in front of his property.—Carried.

Moved by Deputy Reeve Stewart, seconded by Councillor Clemens, that the clerk be requested to ask for tenders for the pricing, concrete work, and bridge material, for the township for the current year, the lowest or any tender not necessarily accepted.—Carried.

Moved by Deputy Reeve Haynes, seconded by Councillor Clemens, that a grant of \$10 be made to the Hospital for Sick Children of Toronto, and that the Reeve and treasurer sign a cheque for same.—Carried.

On motion of Councillor Clemens and Deputy Reeve Haynes, a by-law was introduced and passed appointing poundkeepers, fence viewers and sheep valuers.

Pound Keepers: A. French, J. R. Emmett, Alfred Walsh, Robert T. Miller, Chas. N. Johnston, Wilfred Masterson, Charles R. Stewart, L. R. Dwyer, John Newhouse, S. J. Wilson, Joshua, Burch, Archie T. Baker, Chas. Hemmingway, Charles Sage.

Fence Viewers: George Bruce, J. F. Scott, Jos. P. Durham, A. R. Parnall, Francis Bench, R.H. Secord, Wilfred Masterson, Jas. C. Lampman, Allan N. Wilson, Robt. Rubel, W. R. Pringle, Geo. A. Patterson, P. McDermid, L. R. Dwyer, James O. Wilson.

Sheep Valuers: Duncan Vandertop, for divisions 1, 2, 3, 4 and 5. Timothy O'Brien, for divisions 4 and 5.

On motion of Deputy Reeve Stewart and Deputy Reeve Haynes, a number of accounts were passed for payment.

Council adjourned to meet again at the same place on Monday, March 8th, at 1:30 o'clock p.m.

A Swiss has invented a remarkable sick-room clock. When a button is pressed an electric lamp behind the dial throws the shadow of the hours and hands magnified upon the ceiling so that invalids can see it from bed, without putting themselves to any inconvenience.

CREAM FOR CATARRH OPENS UP NOSTRILS
 Tells How To Get Quick Relief From Head-Colds. It's Splendid!
 In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, snuffing, blowing, headache, dizziness. No struggling for breath at night; your cold or catarrh will be gone.
 Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.
 It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly.

PEACE PARLEYS COMING

LONDON, Feb. 21.—A diplomatic despatch from Berlin states that "undoubtedly" the forthcoming negotiations regarding prisoners between Germany and Soviet Russia will develop into peace negotiations.

Ald. G. M. McDonald, a leading grocer of Marlinton, and prominent in sports, died after a brief illness from pneumonia.

Cruikshank, the noted British artist, once offered \$500 for proof of a violent crime committed by a teetotaler. To the day of his death the money was never claimed.

Stomach on Strike? Here's Relief!

Upset stomachs feel fine.
 All indigestion, gases, sourness, heartburn, brash or acidity goes instantly. No waiting!
 Quickest stomach relief known.
 Just as soon as Pape's Diapepsin reaches you-sick, unsettled stomach all stomach misery stops.
 Costs little—All druggists.
 Stomach suffering is needless.

UPSET? Pape's Diapepsin

NO CLOTHING TO COVER NAKEDNESS

Destitute Jewish Children of Eastern Europe Suffer Terribly From the Cold.
 The destitute Jewish children of Eastern Europe are almost entirely without clothing to protect them from the ravages of the winter, according to Samuel Charney, a Jewish writer and critic of Vilna, Poland, who has recently arrived in New York.
 "It is not a question of their being without any one thing," he reports. "It is a question of their being together without clothing to cover their nakedness, and to protect them from the cold. There is almost a total lack of linen, cotton or woolen clothing in Eastern Europe, and what there is is sold at prohibitive prices. The Jews have worn all through the winter almost no wool in Poland, and there is almost no wool in Poland. The food already given by the Joint Distribution Committee of Jewish Funds, the Red Cross, and the Canadian Jewish Relief Committee is all that has kept alive this long in Eastern Europe. I was an eye-witness to the sufferings there and can say that the Jews of America they would all be dead now, except a very few. One America can keep them alive through the winter that confronts them. There is almost no wool in Poland, even for those who have the money to buy it, and thousands of refugees and families whose homes have been destroyed are living almost on the snow. Almost none of them has sufficient clothing."

M. Charney, who was the editor of a Jewish paper in Vilna, came to America with his family by means of a special passport which was secured for him by Samuel Gompers and endorsed by such prominent Jews as Rabbi Stephen S. Wise, Dr. Stephen S. Wise, and Nathan Straus. He was thrown into prison in Vilna along with many other prominent Jews of Vilna. For days later he was released and sent to Paris, from where he sailed for America.

SIX MILLION JEWS HAVE LITTLE FOOD

Heart-Rending Stories of Suffering and Death Come From Eastern Europe.

The cans in which oil was sent to the destitute Jews of Poland are being turned to still another use, according to reports brought back by the Canadian Jewish Relief Committee by relief workers abroad. For several months these cans have been serving in a number of high altitude camps, and even the tin can chocolate containers to sheet-houses. Now that the epidemic typhus is such a menace in Poland where there are 100,000 cases, a throughout Eastern Europe, the cans serve as portable bath tubs, a Canadian Jewish relief workers and Red Cross nurses are striving to deal with the dread disease with cleanliness. All through the stricken land of Eastern Europe little Jewish children are receiving their daily bath in these old oil cans.

Conservation is whittled to a point of necessity in these countries where 6,000,000 Jews are at a point of starvation, and even the aged cans are not allowed to go waste. They are used to patch holes in the roofs and walls of the destitute houses. Cold is an acute problem as disease in Eastern Europe this winter, since the Jewish population, almost without exception, clad in rags, and the wretched plight in which so many of their lives slight protection against the weather.

BLACK TYPHUS IS KILLING THOUSANDS

Hundreds Upon Hundreds of Children Become Orphan and Wander Until Overcome by Starvation.

The tragedy of the wandering orphans of Poland and the efforts of the mothers of that stricken country to care for the homeless ones, is an appealing phase of the big heart-breaking story of the black typhus, which has struck back from abroad. Thousands of youngsters, motherless and fatherless through the ages of the "black typhus," travel yearly from village to village in the desolate country seeking food they can find to keep life from starving bodies. Some bands of refugees find the little and take them in charge. Now then some almost equally poor find gives them shelter and diet, small portions of food. And in the course of a day or two children take up the tramp again, many small gypsies. Once while a woman will mother the travellers and care for them until she overtakes them.

Jacob Bashein, who had been in charge of a relief unit for the Distribution Committee, which collects funds collected by the American Jewish Relief Committee and Jewish fund-raising relief organizations, told of these things in The Canadian Jewish War Relief Committee is appealing for funds to alleviate this terrible suffering.

G. A. Langstaff, a prosperous farmer, aged thirty five, he himself in a fit of despondency lengthily himself.

**ONLY TABLETS MARKED
"BAYER" ARE ASPIRIN**

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all. Accept only Bayer Tablets of Aspirin in an unbroken "Bayer" package. There is only one Aspirin. You must say "Bayer." Aspirin is the trade mark registered in Canada of Bayer Manufacturing of Monrovia, manufacturer, to make the public aware of the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

**John Shell Is The
Oldest Man In U.S.A**

LOUISVILLE, Ky., Feb. 18.—Is the modern woman who steps blithely to face the winds of winter wearing low-cut shoes and transparent stockings flirting with the undertaker? When she leaves her slender neck and alabaster chest uncovered to the assault of zero weather is she inviting illness?

Not if the philosophy of Uncle John Shell, who lives in Greasy Creek, far back in the Kentucky mountains, is sound. And Uncle John himself is a living demonstration that his mode is fundamentally correct.

Uncle John is 131 years old. He is

WOOD'S PHOSPHODINE.
The Great English Preparation. Tones and invigorates the whole nervous system, makes new blood in old veins. Used for Nervous Debility, Mental and Brain Worry, Dizziness, Loss of Energy, Palpitation of the Heart, Fainting Memory. Price \$1 per box, six for \$5. Sold by all druggists, or mailed in plain box on receipt of price. Beware of cheap imitations. THE WOOD MEDICINE CO., TORONTO, ONT.

believed to be the oldest man in the world. He has the records to prove that he was born in Tennessee in 1788.

Now, Uncle John has never seen the modern "flapper" and knows nothing about the foibles of today's fashions. Where he lives it is the homespun stockings that prevail, and not the silk ones. Women there wear calico and gingham, and gowns that reveal vast areas of the female torso are unknown. Uncle John was not discussing modern fashions from either the moral or physical standpoint when he unfolded his theories of dressing. He was talking about himself.

When a man lives to be 131 years old and shows signs of continuing to inhabit this earth for several years to come, folks who feel themselves wearing out under the strain of modern life want to know how he did it. Uncle John's answer is sim-

ply this:
"Get plenty of fresh air and work hard. And don't bundle up just because the weather is a little chilly."

Uncle John seldom wears shoes. They hurt his feet. In all his 131 years he has not worn it more than half a dozen shoes. He never wraps up his neck, but winter and summer goes about with his shirt unbuttoned at the throat and part of his chest exposed. The reason so many people have colds, he says, is because they bundle up their necks.

The theories of health and longevity that Uncle John promulgates are not derived from books on health or hygiene. Uncle John can't read books. He never has learned the mysteries of the alphabet. His ideas are solely the result of his own experiences, and he is living proof that in his case, at least, they will work.

His mode of life has made of Uncle John a remarkably vigorous old man considering the amazing span of years he has enjoyed. He moves about his little mountain home with a sprightliness of half his years. He does chores that many a man of sixty would deem too arduous. His handiwork is vigorous; his movements are quick and his eyes still gleam with the fire of a youth long past. He is five feet five inches tall and weighs 103 pounds, and his body is wiry and erect. Only his halo of fine white hair and the multitude of wrinkles that crease his wizened face give proof of his extreme old age.

In his youth Uncle John was a noted hunter in the Kentucky mountains. He still likes the pursuit of game and can aim with a rifle with the steadiness of a man decades younger. He likes to fish, and now and then turns his hands to a bit of trapping.

A little matter of a hundred years ago Uncle John was famous in his locality as a maker of rifles. A recent article describing a collection of Kentucky rifles gave prominence to guns made by Uncle John Shell. He still owns a flint lock gun that he made long before the Civil War.

Very few men who fought in the civil war are still alive. The ranks of

survivors of that conflict are yearly growing thinner. Yet Uncle John was prevented from fighting in the Civil War because military authorities considered him too old to be a soldier. He can remember when George Washington died.

Uncle John is living now with his second wife. His first wife died young—she was only ninety. About the Kentucky cabin where the aged man lives there plays a lively youngster of five years who is Uncle John's latest progeny and his chief companion. He is teaching Albert, as his son is named, the secrets of the woods man and hunter—how to hold a rifle, bait a trap and manipulate a fishing rod.

Uncle John has never seen a movie show or an airplane. Since he came to Kentucky from Tennessee in his extreme youth he has never been outside the state. And he does not plan to leave it for in the Kentucky mountains he has found long life, health and happiness. He wants nothing else.

BUY CLOVER SEED EARLY

Prime red clover seed was quoted at \$35.55 per bushel on the Toledo market of the 6th instant. Toronto prices then ranged about \$3.00 per bushel in advance of Toledo prices. Clover seed that would grade "prime" on the Toledo market could be bought in Toronto at \$38.50 and, because of exchange conditions, delivered to United States points at approximately \$33.00 per bushel, or about \$2.50 less than the Toledo price. The money situation, short supplies and a livelier demand in the United States will explain the heavy exports of clover seed.

The price of red clover seed has advanced almost \$14 per bushel on the Toledo market since May last. The world supply will not be sufficient to meet normal requirements. In these circumstances, Canadian farmers who delay the purchase of their clover seed requirements until seeding time may be unable to obtain supplies at any price.

The civilian population of France has decreased 750,000 in four years.

**BREACH OF PROMISE SUIT
FIRST MAN HAS HEARD OF
PROPOSAL TO MARRY GIRL**

PITTSBURGH, Feb. 20.—Anna Rogers has entered suit against G. W. Boone for \$25,000 damages because he refuses to carry out his promise of marriage. Boone, on the other hand, in answering the complaint, declares that it is the first time that he knew of a proposal made to Miss Rogers, but, that it probably being a "leap year" propo-

sal, he is too gallant to refuse and will marry the young woman on sight. He further declares that he has asked Miss Rogers to wed since the suit was filed, but that she consistently refuses, yet the alienation suit against Boone has been listed for trial.

Miss Rogers refuses to talk about the suit. It is the boast of the dairymen of Holland that in their country there is a cow to every inhabitant.

It is estimated that there are 14,000 Japanese in the United States, the majority of them in California.

**Announcing
Red Rose Orange Pekoe Tea**

During our twenty-five years in business, Canada has made wonderful progress in education, refinement and wealth.

The scale of living and the tastes of the people are more luxurious than a quarter of a century ago.

Realizing this we have decided that—in addition to our well-known standard brands of Red Rose Tea, the sales of which are increasing faster than ever before—the time is opportune to introduce a tea of extra quality. It is an Orange Pekoe Tea of very fine quality under the popular Red Rose brand, and called Red Rose Orange Pekoe Tea—a special tea of extra quality for people who are willing to pay a little extra price.

To ensure the quality and success of this new tea we have concentrated on it all the resources, the experience and the advantages possessed by our big organization.

The Orange Pekoe Teas we use are selected with a knowledge born of long experience in buying teas abroad.

Red Rose Orange Pekoes are grown on the best plantations;
—from tested seed;
—on carefully cultivated soil;
—at a high elevation (mountain

grown teas are very superior to low-land teas.)

They are gathered at the time of the year when the flavor is most fully developed in the leaves.

The manufacture and final preparation are carefully and skillfully done.

When brewed, Red Rose Orange Pekoe Tea has all the characteristics of fine quality tea.

It has a bright, sparkling amber color in the cup.

The aroma is delicate and delightful.

After the liquid is poured off, the leaves in the pot are a greenish copper color.

The flavor is of rare charm and distinction. The more cultivated your taste the more you will appreciate it.

The strength is rich, satisfying and invigorating.

Red Rose Orange Pekoe Tea is sold only in our sealed waxed board cartons which fully protect its fine quality.

Ask for it by the full name: Red Rose Orange Pekoe Tea. The words "Orange Pekoe" are in orange on our new waxed board cartons.

Our well-known Red Rose package, the sale of which is increasing faster than ever before. Red Rose consists chiefly of Assam teas, the richest and strongest in the world and therefore very economical. (The Red Rose Orange Pekoe package is a little different in design.)

Mountain grown Orange Pekoes from the best plantations. A tea of extra quality at a little extra price.

T. H. ESTABROOKS COMPANY, LIMITED
St. John, Montreal, Toronto, Winnipeg, Calgary, Edmonton, St. John's, Nfld., and Portland, Maine.

To Grocers:—Our travellers are on the road taking orders for the NEW tea. If our traveller hasn't reached you, better phone or mail an order immediately to our nearest office. There is sure to be a considerable demand at once for this fine quality tea.

estimated that there are 140,000 cars in the United States, and 100,000 of them in California.

for St. Catharines of 400 or more
members without at the same time
providing an income adequate to the
needs of the enlarged organization,
would be largely a waste of effort,"
according to one of the supporters
of the campaign, who told a St. Cath-
arines representative today how the
new chamber will be financed.
He said that the income of the
chamber will depend directly upon
the confidence reposed in it by the
community, because that income will
arise from membership. "The pay-
ment of dues is the acid test by which
it can be determined whether the
organization is trusted or not," he
said.
"The income plan under which the
chamber is being expanded is a
uniform pledge of \$25 dues a year
for three years. The reasons for
adopting this scale and the period,
named are entirely sound. They are
founded on actual experience, not in
one city, but in scores of them."
"Membership dues of \$25 a year
will provide the least amount the

Chamber of Commerce Activities
"Building a Chamber of Commerce
for St. Catharines of 400 or more
members without at the same time
providing an income adequate to the
needs of the enlarged organization,
would be largely a waste of effort,"
according to one of the supporters
of the campaign, who told a St. Cath-
arines representative today how the
new chamber will be financed.
He said that the income of the
chamber will depend directly upon
the confidence reposed in it by the
community, because that income will
arise from membership. "The pay-
ment of dues is the acid test by which
it can be determined whether the
organization is trusted or not," he
said.
"The income plan under which the
chamber is being expanded is a
uniform pledge of \$25 dues a year
for three years. The reasons for
adopting this scale and the period,
named are entirely sound. They are
founded on actual experience, not in
one city, but in scores of them."
"Membership dues of \$25 a year
will provide the least amount the

chamber should have to insure effi-
ciency; to be the really big, capable
civic-commercial organization a city
like St. Catharines should have, and,
I am convinced will have.
"Some men will ask: 'What are you
going to do with all this money?'"
He will overlook the fact that the
Board of Directors, which includes
some of the shrewdest business and
professional men in St. Catharines,
have examined the plan for the or-
ganization with as much care as
they would give to their own busi-
ness affairs, and have agreed that
\$25 a year is the least sum required
from each member.
"Eighty-five per cent. of the com-
mercial organizations of the country
have membership dues of \$25 a
year. The number of such organiza-
tions is steadily growing, this prov-
ing that more and more of them are
finding the truth of what the Cham-
ber of Commerce specialists learned
six years ago. The Rotary Clubs of
the continent started with mem-
bership dues of \$5. Today most of them
have raised their dues and they are
all tending toward \$25.
"The lowest actual cost of main-
taining a Chamber of Commerce that
is worthy of the name is from \$15
to \$19 a year per member. This
fact has been well established. The
minute a Chamber of Commerce be-
comes a real live organization, its
necessary expenditures begin to climb
from those figures.
"The modern Chamber of Com-
merce must maintain suitable quar-
ters; that means rent to pay. It
must have efficient management; this
means the employment of a trained
and capable secretary. In
such a city as St. Catharines the
Chamber of Commerce should have
one or more bureaus to give special
service to the members and the citi-
zens; this involves the employment
of men of ability. It must have an
office system; this means clerical and
stenographic assistance. There are
other items of expense, every one of
them legitimate and necessary, which
amount to a considerable sum each
year.
"Uniformity of dues needs no ar-
gument. The days when the small
storekeeper was admitted to the
Chamber of Commerce for \$2 or \$5
a year, and the big corporation asked
to subscribe \$200 are past.
"The relations of the small store-
keeper and the big corporation have
been accurately defined in the mod-
ern civic-commercial organization.
Each becomes a member with equal
obligations and equal rights.
"In place of the disproportionate
membership payments of the old
days, the modern Chamber of Com-
merce says to the big corporations,
in effect: 'Your larger interests in
his community increase your re-
sponsibilities for its well being. You
are more at stake than the small
storekeeper, and therefore you should
support the Chamber of Commerce
a proportion to your investment in
this community.'
"To make this possible, the plural
membership plan has been devised.
Under this plan the corporation, firm
or individual subscribes to a number
of memberships. Since, however, the
chamber cannot permit the plural
subscribers to dominate its affairs,
it allows each subscriber to have one
vote only, the same as the smallest
storekeeper in the organization.
"It is the custom for the subscrib-
ers to plural memberships to assign
them to the younger men in its em-
ploy, the assignments being absolute
and carrying with them the power
of one vote each. This brings into
the Chamber of Commerce the young-
er men of business. It interests them
in community work early in their
careers and makes certain of the
presence of men who will be the
leaders in the community in a few
years.
"The three year guarantee is an-
other outgrowth of experience. A
Chamber of Commerce can do much
in one year, but a program of work
that covers three years is vastly bet-
ter than a one-year affair. To make
it possible, though, the directors
must know what the income is going
to be. The one-year plan is univer-
sally unsatisfactory; the three-year
plan has never yet been abandoned
where tried."

DOCTOR WARD, The Specialist
SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION, RACAKS, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, AGNE, SKIN DISEASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS.
The knowledge gained from many years' experience in treating diseases just like yours is of much benefit to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well—that he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders. I give every patient the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered specialist, in order to bring about the most satisfactory results in the shortest possible time.
NERVE EXHAUSTION
A CONDITION AFFECTING MANY MEN—THE GREAT AMERICAN DISEASE—IT IS BROUGHT ON BY OUR MANNER OF LIVING—OUR WORRY AND HURRY—AMERICANS EXHAUST MORE NERVOUS ENERGY THAN ANY OTHER RACE OF PEOPLE.
There are a great many men who need treatment for their nervous system. These men do not know what is the reason they don't feel right—why they can't work like they used to—why they tire so easily and why they are irritable, nervous, despondent, weak, pale and lack ambition. These conditions require the expert knowledge and treatment of a specialist who has had many years' experience in just such ailments. A specialist learns by experience to know just the right treatment at the right time so that the patient can be dismissed at the earliest possible time. Men affected with nervous exhaustion have no endurance—no ambition—everything they attempt is an effort. Life to them appears as a long, gloomy future. Their appetite is poor and variable—they become irritable, cross and discouraged. They have pains and aches in various parts of the body and there is often indigestion and pains in the stomach. Sleepless, wakeful and restless nights follow.
RHEUMATIC AILMENTS
SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBAGO, PAINS IN BACK, SWELLING, AGEING, INFLAMMATION IN ANY PART OF THE BODY—INFLAMED AND SWOLLEN JOINTS OF LEGS AND ARMS—MANY OTHER SYMPTOMS.
Hundreds of men are suffering with some form of Rheumatism. Many of these men go from day to day suffering untold agonies thinking they cannot be cured. They have tried liniments, rubbing, massage, salts and other treatments without experiencing any relief, and they are now going through life thinking they are martyrs to that burden called Rheumatism. If these men could only know how easy it is to get rid of many rheumatic conditions I know they would not suffer another single day. Then all sufferers of rheumatism would be strong and healthy if they could get rid of the condition. Rheumatic patients are nearly all strong and robust before being attacked by this ailment, and therefore it is so hard for the man to understand why he should suffer the agonies of such a condition. When a man gets rid of such a condition he feels that a heavy burden has been lifted from his life, and he starts right out to make up for lost time both in money and pleasure. When a man comes to my office suffering with the above condition he is given a most careful examination, and he is given treatment that he feels is giving him great benefit.
Quick and Lasting Results Assured the Ailing Man
BLOOD—YOUR WHOLE HEALTH OF BODY AND MIND DEPENDS ON YOUR BLOOD. "Building process" of the body and mind, of the muscle and tissue formations, of any of the various vital organs, can be accomplished only by working direct through the blood stream.

SIX MILLION JEWS ARE FACING DEATH
Starvation and Disease Cause Indescribable Suffering in Eastern Europe.
The hardships of this winter will mean death to thousands of Jews in Poland, unless outside aid intervenes at once according to Lieutenant Shelton Wright of the American Red Cross Commission to Poland, recently returned to the United States after months of relief work in eastern Europe.
He painted a vivid picture of this half-starved people, clad in rags, who are now creeping back toward their devastated homes after months of wandering, and dying of starvation and typhus along the roads, as they go.
"Outside starvation, numerous diseases, attributed to malnutrition and typhus have killed men and women and children like flies," he said. "I remember a family trying to live under a tree a few yards away—the father was dead for days. The mother and child stretched upon the ground dying of cold. He died that day. Under the tree were two little children, not under five, sick with typhus. An old child sat stupidly beside them—'I'm gone out of her mind.'"
Many of the people are driven to making "bread" out of leaves and "soup" out of grass and weeds. Lieutenant Wright reported that there was unspeakable joy among them when the American ships, loaded with relief supplies, purchased with the funds raised by the American American Jewish Relief Committee and other American Jewish agencies, arrived in the American Jewish Relief Agency supplies were unloaded at Gdansk and other ports. In spite of the fact that the American Jewish Relief Agency is spending almost \$2,000,000 a month now on their relief work in Poland, and that the Red Cross is doing its work on so vast a scale, hundreds of thousands of Jews in Poland will die during the winter unless more aid comes.
"Every box-car full of refugees returning to their homes has in it those who die along the way, and those who have contracted typhus, and become ailing," he said. "If people try to avoid disease by keeping clean, it is impossible to do so, under existing conditions. Even our nurses and doctors fall ill of typhus, a disease caused by filth and lice."
The Red Cross and the American Jewish Relief Agency are doing the utmost to keep both the Jews and Gentiles in these stricken lands alive. Six million Jews in eastern Europe face death unless immediate shipments of food, clothing, and medicines from Canada and the United States reach them before the cold weather sets in.
An appeal for funds is to be made in Ontario and a generous response from this district is confidently expected.
MOBS OF CHILDREN CRAVING FOR BREAD
Gaze Into Bakeshop Windows for Hours at a Time Hoping for Something to Eat.
"The saddest thing in all Eastern Europe at the present moment is more than all the other instances of starvation and death—the mob of children on every hand—are the children one sees outside of the few bakeries that are able to keep going." "Shelton Aesch, the American Red Cross playwright and poet reported to the American Jewish Relief Committee upon his return from eastern Europe, where he was a special commissioner of the Joint Distribution Committee of America for Jewish Sufferers from the War."
"In the bakery windows are a few loaves of bread, and sometimes what are sold at a simply prohibitive price," he explained, "and every loaf was as cheap as in Canada."
"In the United States, the Jews are still unknown to the hungry Jewish children, who live on the curb a day they get from American relief agencies. The youngsters tantalize themselves with the sight of food, when they can't get the taste of it.
"They press up to the window, first merely to respectfully beg for a loaf, and an uncanny little crowd of small folks with old faces, looking unchildish eyes. Perhaps their parents are waiting anxiously through the tatters that cover their little barefoot army. They huddle together for warmth, and do not stir. The sight of the boys has fascinated them, it is so rare."
"A customer comes out, leaving the door ajar for a moment, and the arm fragrance of the bakery drifts out to the little ragamuffins huddling them. They press close to the window, their little fists against the glass. Those in front of their tongues and lick the glass, by so doing, they could get a bread behind it. No need to write into words the pitifulness of their faces as they do it."
"One of the men from the bakery comes out and drives them away. They few minutes they try to break the glass. They are afraid, and for a few minutes stand at a distance, their eyes fixed on the window. Then hunger overcomes their fear, and they press the bakery window again. They are eagerly licking the glass more, and the Jews go on every day in front of the bakery."
More money is needed to help these children, and an appeal to be made in Canada for \$2000.

SIX MILLION JEWS ARE FACING DEATH

Starvation and Disease Cause Indescribable Suffering in Eastern Europe.

The hardships of this winter will mean death to thousands of Jews in Poland, unless outside aid intervenes at once according to a recent statement of the American Red Cross Commission to Poland, recently returned to the United States after months of relief work in eastern Europe.

He painted a vivid picture of this starving people, clad in rags, who are now creeping back toward their devastated homes after months of wandering, and dying of starvation and typhus along the roads, as they go.

Outside starvation, numerous diseases, attributed to malnutrition and lack of food, have killed men and women and children like flies," he said.

The Red Cross and the American Jewish Relief agencies are doing their utmost to keep both the Jews and the Gentiles in these stricken lands alive.

The saddest thing in all Eastern Europe at the present moment—worse than all the other instances of starvation and even of death and disease on every hand—is the children who are seen outside of the bakeries that are able to keep going in Warsaw.

As an appeal for funds is to be made in Ontario and a generous response from this district is confidently expected.

More money is needed to help feed these children, and an appeal soon to be made in Canada for that purpose.

Oldest Account of Creation of Man

It is known, of course, that the first account of the Fall of Man was written a great many years after the event. Hitherto the account given in the Pentateuch has been presumed to be the first story. It now appears that there was at least one other version of the event written long before the first word of the Bible was put on papyrus or carved on stone.

The protobable date of the tablets is 3,000 B.C., and they are the work of the Sumerians. This race took its name from the southern portion of Babylon, which was called Sumer before the invasion of the Semites.

The tablets indicate that the Sumerians had a conception of the mother of a god as one to whom intercession might be made, and Dr. Langdon refers to "scenes so common on Babylonian seals where the mother goddess stands in intercession before the god, with one or both hands raised in supplication, and the left foot advanced as though about to set it upon the paved approach to the throne of the deity."

concern themselves with history, law, grammar, and mathematics, as well as with religion. The last, of course, are of most interest to the average reader. The religion of the Sumerians was founded on the belief that ten patriarchs ruled the world for 360,000 years before the Flood, and the fact that they had fixed on 360,000 or 400,000 years would seem to indicate that the Sumerians had made a rather close calculation on the subject.

It was Noah, according to the Sumerians, who landed in Paradise and there ate of the forbidden fruit, said to have been that of the cassia tree, which doomed him and all his descendants to labor. The Sumerians appear to have set great store by religion, for they had several shrines where the people would worship, and private worship was also general.

With the Sumerians he was called Dungi, the god-man, a divinely-born king sent by the gods to restore the lost paradise. Their practise was to seek to placate the wrath of the gods and assuage the sorrow of the earth-mother by means of song. There were special petitions to each god, which the worshippers appear to have rendered in poetry or song.

FREE OF TERRIBLE KIDNEY TROUBLE

After Three Years of Suffering, "FRUIT-A-LIVES" Brought Relief

MADAME HORMIDAS FOISY, 624 Champlain St., Montreal.

"For three years, I was ill and exhausted and I suffered constantly from Kidney Trouble and Liver Disease. My health was miserable and nothing in the way of medicine did me any good. Then I started to use 'Fruit-a-lives' and the effect was remarkable.

I began to improve immediately and this wonderful fruit medicine entirely restored me to health. All the old pains, headaches, indigestion and constipation were relieved and once more I was well.

Racing Dates Are Given Out

Schedule For Canadian Association Announced.

HAMILTON, Feb. 19.—The first racing dates for the thoroughbred runners since the spring of 1917 were given out here following releases last night by the Canadian Racing Association.

The circuit is the same as in previous days, the dates being as follows: Ontario Jockey Club (Toronto) — May 22-29.

Montreal Jockey Club (Montreal) — June 1-8.

Connaught Park Jockey Club (Ottawa) — June 19-26.

Windsor Jockey Club (Windsor) — July 27-August 3.

Connaught Park (Ottawa) — Sept. 23-30.

Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA? Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food, giving healthy and natural sleep.

GENUINE CASTORIA ALWAYS Bears the Signature of

In Use For Over 30 Years

LONDON, Feb. 20.—Martial law has been proclaimed in the Saar region, now occupied by French troops and under control of an Allied commission, in consequence of new disturbances, according to an Amsterdam despatch to the Exchange Telegraph company.

"DANDERINE" FOR FALLING HAIR

A small bottle of Danderine costs but a few cents at any store. It stops falling hair, itching scalp and ends dandruff, besides it doubles the beauty of your hair, making it appear twice as heavy, thick and abundant. Try it!

Ford

WE ARE Ford Dealers in this district and have formed an estimate of the number of cars we will require to meet the needs of this territory. We cannot get enough cars to fill that estimate because there are not enough cars being made to fill all dealers' estimates throughout Canada.

The number of cars we can get depends upon the number of orders we send in and the early date at which we send them in, as the Ford Shipping Department follows the principle, "First Come, First Served."

Cars ordered now will not be delivered until March, and deliveries will be uncertain throughout the year. If you do not want to wait for summer or autumn delivery, come in and reserve your car by signing an order today.

Two-Party Line Telephone Service

NECESSARY curtailment of new construction during the war, followed by the unprecedented development since the armistice, have resulted in a universal shortage of telephone material.

In order to utilize our supply of equipment to the best advantage, to reduce delay in installations to a minimum and to avoid refusing service to anyone, we ask those intending to order telephones to consider the advantages of Two-Party Line Service.

With the central energy system in use here the operator can ring either of the telephones on a two-party line without disturbing the other. The cost to the user is substantially lower than for individual line service.

The rate for two-party line service is, for Business telephones \$30.80 and for Residence \$22.00 per annum.

We will be glad to furnish full information to anyone interested.

CITY AND DISTRICT

The County Council will meet again on Tuesday.

Strictly fresh eggs are down to 80 cents a dozen in the city.

We buy everything you want to sell. McGuire & Co.

The Ratepayers Association will hold a meeting in the Collegiate gym next Tuesday evening.

On Monday evening the public speaking contest for Major Merritt's prize will be held in the Collegiate gym.

The City Council will meet on Monday night when the question of the firemen's union and wages will likely be brought up and possibly settled.

The flu epidemic claimed another victim on Monday, when Mrs. Wm. Egbel passed away at her home in Fonthill, in her 40th year. She is survived by her husband, four sons, and one daughter. A distressing feature is the fact that three of the family are confined to bed with the flu.

The country roads are once more badly drifted in places.

A resolution opposing the present rate of exchange between Canada and the United States, and pledging the adherents to refrain from purchasing commodities manufactured in the United States which are obtainable elsewhere until the Canadian dollar is accepted at par value, and urging other cities to follow suit, was carried unanimously by the Welland City Council.

A distressing fatality occurred at Stamford at the plant of the American Cyanamid Company, when Ernest Coombe, employed as a fireman there, received such injuries that he succumbed to them. His foot was caught in the mechanism of the crusher and could not be extricated for half an hour. Dr. E. T. Kellam was at once summoned and Coombe's release he was rushed to the hospital, where he died shortly after his arrival. Dr. Kellam commented on a jury yesterday and they viewed the body at noon and adjourned until February 26.

The decision of Judge Hardy, of Brant county, awarding Walter J. Dixon a \$381.40 damages against the G.T.R. for a fractured kneecap and other injuries has been reserved by the Appellate Division and the action is dismissed. The injuries were sustained when an auto in which Dixon and four others were riding a year ago on Market street, Brantford, collided with a Grand Trunk freight train, which was backing up. Only one member of the party could drive an automobile, and the Appellate Court holds that, having entrusted him with the control of the vehicle the others must share the responsibility for his negligence. Dixon sued for \$500 damages.

The Dominion Sugar Company, of Wallaceburg, Kent, has lost out in the Appellate Division in its action against the Northern Pipe Line Co., Ltd., which supplies it with gas from the Tibury field. For years the Sugar Company has been supplied with gas for manufacturing purposes at 12 cents a thousand feet. When the fuel shortage occurred in 1918 the Pipe Line Company notified the Sugar Company that, acting under a ruling of the Ontario Railway Board the rate would be 35 cents a thousand, and unless this was paid the order of the board was that, to conserve gas, the use of it in manufacturing was to be restricted, and the price charged was to be equal to the highest domestic rate, which in Wallaceburg was 85 cents.

Good Music and a Good Piano

Some one has said: "Don't be afraid of good music." Good Counsel, it will come back to you in a pleasantly compelling, insistent way, and you will come back to it—can't help it.

But this only happens when the good music there is a good piano. Make no mistake here. Let it be a

The Best Tonic For Nervous People

Increase Your Nervous Energy By Building Up the Blood With Dr. Williams' Pink Pills.

Nervous people who have not yet developed a disease that can be recognized and treated by the medical profession have the greatest trouble in finding relief. Irritation, headache, sleeplessness, nervous indigestion, all these discomforts make life miserable but are endured rather than run a doctor's bill without hope of recovery.

Every such sufferer should know the danger of such a condition to the nervous system. Nervous debility and even paralysis may result if the tone of the nerves is not restored by building up the blood. As a tonic for the blood and nerves Dr. Williams' Pink Pills have been used with the greatest success. They have a direct action on the blood and therefore enable it to carry to the nerves the elements they need to fully restore their normal function—and at the same time improve the general health. The benefits that follow the use of this medicine are shown by the statement of Mrs. Jenny Marr, R.R. No. 3, Port Rowan, a well-known school teacher, who says:—"Some years ago I became greatly run down, and was in this condition for nearly a year. A doctor whom I called in said I was suffering from complete nervous prostration. It would hardly be possible to tell all the symptoms of my case, but anyone who has passed through a nervous breakdown will know what I suffered. As I did not see into improve under the doctor's treatment, I decided to try Dr. Williams' Pink Pills, and the decision was a fortunate one for me, as I soon found some relief through the use of the pills, and after taking eight boxes I was fully restored to health. Today I am strong and hearty, without an ache or pain, and for my present physical condition I feel I am indebted to Dr. Williams' Pink Pills, and can heartily recommend them to anyone suffering from nervous troubles."

You can procure Dr. Williams' Pink Pills where they are sold, or by mail at 50 cents a box or six boxes for \$2.50, by writing direct to The Dr. Williams' Medicine Co., Brockville, Ont.

Thick, Tender Savory Meat

or chops—the kind, you know, that make your guests praise your hospitality, your cooking, your entertainment. Why not this kind of meat instead of the doubtful cuts and inferior meats? We want you to know our meats. A sirloin or porterhouse steak, a roast, chops from the loin, etc., will enable you to judge quality.

Council Changes Its Affiliations—Support Passes With Other Rep

The City Council last night settled the firemen's union question. There was only one dissenting voice, that of Ald. McLean, who when he found the men were to retain their affiliations with the International Firefighters Association thought they should be allowed to be connected with the local Trades and Labor Council as well.

The special committee appointed regarding the firemen reported:—In view of an understanding arrived at as between the city council members of the St. Catharines Fire Brigade whereby the latter have made it clear to the former that they were jointly and severally agreed that under no circumstances or in any manner will they, the firemen, be a party to or participate in a strike of any nature whatsoever and

In view of the fact that the firemen have met the wishes of the council in regard to affiliation with trades and labor organizations and signifying their intention to withdraw from the local Trades and Labor Council. And

That it is agreed and understood that the City Council will not recognize any Union whatsoever of the members of the Fire Brigade or of any other department of the civic service.

It is therefore recommended that the resolution of this Council of January 26, 1920, moved by Ald. Veale and seconded by Ald. McLean be rescinded.

Ald. McLean asked if the firemen were still affiliated with the American Labor Union—the International Firefighters Association.

"This is a report agreed on at the conference held the other night," said Mayor.

Ald. Avery moved the adoption of the report.

Ald. Dakers said he was a member of the special committee but had not been consulted with reference to the report. He thought as it was a committee of the whole Council should have been called in for consultation on the report to be brought in.

The Mayor explained that it was understood the report was to be prepared at his own dictation. Everything possible had been done to bring about a settlement satisfactory to every member of the Council.

Ald. McLean said he would have to oppose the report. His and Ald. Veale's resolution had called on the firemen to withdraw from their affiliations with the Firefighters Union. They had not done so.

Ald. Murphy seconded Ald. Avery's resolution for adoption of the report and that threw it open to discussion.

Ald. Veale had a few observations to make. He said nothing authentic had been offered by the firemen until the conference. At that conference the firemen present had agreed to an agreement not to strike or participate in a strike. He considered this absolutely binding. He saw no reason to keep them from Canadian affiliations as the Council did not wish any further humiliate the men of the fire brigade. He felt quite satisfied to support the report.

Ald. Veale withdrew his resolution and allowed Ald. Veale to move a resolution that the City Council should be allowed to be connected with the local Trades and Labor Council as well.

Ald. McLean thought if the firemen were to be allowed to belong to the
