## The Canadian People Remain True to Liberal Principles.

### LIBERAL GOVERNMENT AGAIN SWEEPS CANADA

The Laurier Administration Rolls Up Magnificent Majority of 62.

THE LATEST RETURNS GIVE ALBERTA MAJORITY OF FIVE

Saskatchewan Returns Solid Liberal Representation—No Change in Ontario and Quebec.

The People of the Dominion Voice in an Unmistakable Tone Their Disapproval of the Slander Campaign Waged by the Conservative Party—Canada Pronounces Progress—Hon. Wm. Templeman, Minister of Inland Revenue, the Only Cabinet Member to Meet Defeat—Government Gains in Prince Edward Island, New Brunswick, Saskatchewan and Alberta—Cameron's Defeat in Winnipeg One of the Big Surprises.

Government 139; Opposition 77; Government majority 62. So far as known this is the result of yesterday's election. Elections are yet to be held in five ridings.

In the last parliament the Government members were 140; the Opposition 74; Government majority 66. In Prince Edward Island the party strength was reversed, the Liberals now holding the three seats formerly occupied by opponents, while Hughes, Liberal member for King's, was defeated. Mr. Lefurgey is among the fallen.

Nova Scotia returns give 12 supporters of the Government to 6 Oppositionists. New Brunswick returns are meagre, but assign 11 seats to the Liberals and 2 to the Opposition, Charlotte, St. John City and York. Mr. Fowler is elected.

Complete returns from Quebec show 33 Liberals elected and 11 Conservatives with one election deferred which will go with the Government. This leaves the standing of the parties from Quebec the same as the last parliament which was 54 to 11.

The defeat of Mr. Bergeron in Beauport marks the passing of one of Mr. Borden's first lieutenants, who has sat in the House since 1878 except for two years from 1900 to 1902. Mr. Bergeron returns in Edmonton with Mr. Borden last fall.

In Ontario the parties appear to stand as before the election, the Liberals holding 39 seats, Conservatives 46 and one Independent. The Liberal gains were North Waterloo, South Ontario, Prince Edward, Brantford, East Simcoe, Starnont and Wentworth. The Opposition gained East Peterborough, North Grey, West Hamilton, Nipissing, North Ontario, Centre York, South Bruce and Parry Sound.

Manitoba returns are incomplete. The standing at present is: Government 4, Opposition 6. The four government constituencies are: Brandon, Leger, Provocateur and S. Hark.

The nine Saskatchewan ridings in which polling took place are all claimed for the Liberals, Qu'Appelle being

close. The election in Prince Albert is deferred. All but one of the Alberta seats, Calgary, are reported Liberal. Edmonton leads with probably 2,000 plurality. Strathcona follows with a splendid majority; Victoria returns White by a good margin; Dr. Clark has a comfortable majority in Red Deer, while Medicine Hat and Macleod, though close, are expected to return Simmons and McDonald.

In British Columbia contests are deferred in three ridings. The four held yesterday gave one seat to the government and three to the Opposition.

### MAJORITY WILL RUN OVER 2,000

Edmonton Returns Minister of Interior With One of Largest Majorities in Canada.

In the triumphant reelection of the Minister of the Interior, Hon. Frank Oliver by an overwhelming majority, the Edmonton constituency has once more unmistakably shown its confidence in the man who has been associated more than any other with its progress and prosperity during the last quarter of a century. A Conservative estimate places Mr. Oliver's majority at considerably over two thousand, up to the hour of going to press with seventy-nine polls heard from, out of a total of 121 polls.

Liberal candidate is leading by 1850 and each of the outlying districts yet to be heard from will still further increase the majority.

In all the polls reported last night the Conservative candidate only secured a bare majority in five polls, four in Edmonton city and one in the country, the Pembina district. It is a question whether J. D. Hyndman will secure the one-third of the total vote necessary to prevent the loss of his deposit.

One of Biggest Majorities. Mr. Oliver's majority up to the present is one of the largest in the Dominion and will rank with that of Sir Wilfrid Laurier in East Quebec and E. B. Taylor, K.C., in West Toronto, the leaders in their respective parties in the line of big majorities.

The returns in the Edmonton constituency are equal to the expectations of the most sanguine Liberal. It was feared among some of the party that the inebrious campaign of falsehood and calumny into which the Conservatives plunged with greater desperation than before during the closing hours of the battle, might have a serious effect upon the unthinking part of the electorate. The fears were groundless, however, and the slanders were recoiled upon the heads of their perpetrators.

The result of the election will have its effect upon the Conservative party and the least of those will be the lesson that the tactics of the past few weeks—especially of Saturday last—will not be tolerated by the Edmonton electorate.

DR. MINTYRE SWEEPS STRATHCONA RIDING

Latest Returns Last Night Gives His Majority at Between 500 and 600 Outlying Districts May Bring It Up to Over One Thousand Votes.

At Strathcona there was general rejoicing among the Liberals that Dr. McIntyre had been triumphantly returned by a majority which has already reached over 500, and which is expected will go up to 1,000 or more if the outlying districts are received. There was but one disappointment, and that was that his home city, which he had given his great personal interests, had gone against him. This was the more remarkable in view of the fact that Mr. Day has almost completely ignored Strathcona and has never addressed a public meeting in the city 17 any length.

FROM LIPS OF FRIEND  
CROZIER HEARD FATE

Life Story of Ontario Man Who Got Nine Years for Counterfeiting—He Was Employed by His Son—Skill—He Had Been an Honest and Industrious Farmer.

Milton, Ont., Oct. 26—In the midst of the friends of his youth and manhood, and from the very lips of the man with whom he had once worked side by side in the harvest field, "Tom" Crozier heard his fate.

For the crime of counterfeiting he was last week ordered to spend nine long years in the penitentiary, and, worse still, his young son of 19 was commanded to spend the next two years of his life behind the Central prison bars.

Even though they were tempered with the memories of past friendship, the words of the magistrate fell with startling horror on the ears of the older man. His tall, broad frame shook and his level head bent forward. Tears filled his eyes, and his lips uttered only two brief, agonized words.

"My God!" half in prayer, half in horror, he uttered the words. And the men who filled that little court room thought of other and brighter days in which they had known Tom Crozier as farmer and friend. They were stricken by the sadness of it all.

Man of Good Family. Behind the formal legal proceedings which stirred the Halton county town today was a tragic life story.

For the crime of counterfeiting he was last week ordered to spend nine long years in the penitentiary, and, worse still, his young son of 19 was commanded to spend the next two years of his life behind the Central prison bars.

did them in Toronto on the way back. At Buffalo, I passed over the Hudson River Steamer New York. The next I passed over the Hudson River Steamer New York. The next I passed over the Hudson River Steamer New York.

Caught at Last. But the pitcher that goes often to the well gets broken, and the man who does a thing frequently gets worse and callous. Twice Crozier's bogus bills were detected, and he had a narrow escape from arrest.

When the season I tried to get the bill that was buried on the Onondaga farm destroyed was that I thought that if I ever needed it, I could get it off easier. The temptation came with the presence of my wife.

There was no one else in the matter but myself and my wife. We made them, and no one else knew anything about it. I never knew or saw Mr. Burk, the Standard's counterfeiter.

His Pocket Picked. "I dragged the boy into it. On July 12, 1907, I went out to see the Orange Islands with three of each of the Quebec Farmers' \$10 in my possession. I was rubbing them out to make them look old and stuck them in my pocket. My pocket was either picked or I lost them. They were never passed by me.

Early in April of this year I had a bad cold, and the doctor told me to take a walk in the park. I took a walk in the park, and the doctor told me to take a walk in the park. I took a walk in the park, and the doctor told me to take a walk in the park.

Quickly Cleaned Up. Once the arrest was made, Dominion Inspector Parkinson and United States Officer Gannon identified the prisoner as the man they wanted, and things moved quickly. The crozier was tried to shield his boy. The crozier gave considerable information to the officers, and a mass of evidence was accumulated by the detectives at Gerrard street, Toronto, at the farm near Buffalo, and in the barn near home.

When the prisoners were ushered into the crowded courtroom, the eyes of Thomas Crozier could no longer look frankly into those of the judge. He was in the companions of better times. He is a tall man, with a heavy dark moustache, and his head drooped while a handkerchief quietly wiped away the tears that would not be suppressed.

Not so with Milton Crozier, the 19-year-old accomplice. He is a bright-looking boy, but wore a begrimed air. He carelessly threw aside a cigar butt, and went on chewing gum, while the magistrate read the indictment in solemn tones.

Asked a Short Sentence. D. C. Cameron, who appeared for the defendant on the ground that the accused had done everything in his power to aid the crown in clearing up the case. He was also willing to make restitution.

Furthermore, submitted Mr. Cameron, "Mr. Crozier is sick, and it would be so broken in spirit that it is a long time before he could be put on a jury. I see before me a young man who is a very good citizen."

On Behalf of the Boy. "This," said W. Elliott, on behalf of the boy, "has been a very perplexing case to me. I have had to consider my duty to my client and to the ends of justice. I do not believe that the ends of justice will be served if the boy is not released."

Magistrate Affected. With very few remarks, evidently feeling his position keenly, Magistrate Shields imposed the nine-year sentence on Crozier, sentencing the boy to the same term for the assistance he had rendered the crown.

After Nine Years. The whole case was handled expeditiously by Messrs. Parkinson and Gannon and Crown Attorney Dick. After Crozier serves his nine years in Kingston, there will still be charges against the line to be met.

Yes, we will wait, said Mr. Gannon. Our grand jury will return indictments in a short time, and the case will stand until he comes out. Of course we will not be so severe in view of his Canadian sentence, but if he had come up in our courts first he would have got at least fifteen years.

Crozier's Confession. "Early in 1906 we started to make the plates," says Crozier. In his confession he says that he and his brother-in-law, the next plates were made in the following order: The Farmers' \$5 and \$10 American \$5 were made the next winter. The United Empire \$5 and Crown Bank \$5 were made the next winter. They were never detected. It was not our intention to finish them. I was disgusted with the trouble I had in passing any of them. My son Milton and I were then. It was my fault. I drew him into the field. He did not know where they were made. We made them in the house upstairs in the parlor during the day time, when the other boys were away. The 9th or 10th of April, 1906, they were made. I don't know what we were doing at that time.

The First Bill. "The first bill I tried to pass was a \$10 Quebec, to pay my \$5 bill at Gough street, Toronto, in April, 1906. Hudson River Steamer New York Completely Destroyed in Shipyard—Fire Supposed to Have Been Caused By Explosion of a Lamp.

Newburgh, N.Y., October 26.—The Hudson River Steamer New York, which was being repaired in the shipyard at Newburgh, N.Y., was completely destroyed by a fire which broke out in the boiler room below the decks this morning. Four lives were lost. Since the close of the day the steamer New York has been in the water.

Foreclose on The Yerkes Mansion. New York, October 26.—The hand-drawn mansion at Fifth Avenue and Sixty-eighth street, which, with its paintings and art treasures would be generally believed to be the Metropolitan Museum of Art, may be sold for \$2,000,000.

The Mutual Life Insurance Company yesterday brought foreclosure proceedings against Mrs. Mary A. Yerkes, widow of the traction promoter, basing the action of a total indebtedness of \$242,206, of which \$225,000 represents a mortgage on the property, and the rest unpaid interest.

Mr. Yerkes provided that after his wife's death, the mansion and contents should be taken over by a corporation, including the mayor of the New York City, and four men to be named by the Metropolitan Museum Board.

The blaze was first discovered by Charles Webster, a waiter. There were five men in the room when the fire broke out, and the steamers' pumps were useless.

THE VERDICT.

The people of Canada approve the continuance of progressive policy. That is the first lesson from yesterday's polling. A Government's record must always be in the background of election controversy even though the points about which the controversy wage be points of future policy.

On this issue Mr. Borden challenged a public verdict. He proposed to impose handicaps on trade by erecting hostile tariffs against our neighbors; to sacrifice revenue by preventing the imports from which it is drawn; to abandon the pay as we go policy and substitute for it either a policy of endless delay or of endless indebtedness for capital expenditures; to retard if not to abandon the construction of Government railways; to encourage the private character of the Dominion's only hope of relief from traffic monopoly; to restrict and restrain immigration rather than to encourage it.

Equally decisive is the verdict on the campaign by which it was drawn to drive certain men from public life. One of these men was returned by acclamation. All the remainder were sustained at the polls. Their re-election is the final and effective reply of the people to those who maligned them. From it must be drawn the moral that an observant public discern the difference between charges laid on the responsibility of men and slander promoted by the waging tongues of cowards. For coward a slanderer always is, and a slanderer surely is the man who imputes what he dare not charge.

Mr. Borden can scarcely fail to gather from the returns that the Halifax platform is not taken seriously. In this the public differ from the party. They seem indeed to regard it as something very much like an insult and treated it accordingly. If Mr. Borden aspires to a prolonged leadership of the party we may now expect to do what he can to relieve the affliction by inviting his followers to resign the program they declined without thanks by one more to their liking.

CURRENT COMMENT.

Bad weather was the order of election day in Ontario and Manitoba, rain being reported from Ottawa and Winnipeg. In Saskatchewan and Alberta the weather was fine but the melting snow made the roads heavy. This no doubt prevented many voters being polled, especially in rural districts. The Government, no doubt, suffered most from this cause. Supporters of a strong government are prone to rely on the general strength to compensate the loss of individual votes and many are tempted to avoid the arduous task of a long drive through heavy roads to poll voters which they do not consider necessary to the party's success.

WEST'S DEVELOPMENT AS SEEN BY OTHERS

Northern Echo, Prominent Old Country Journal, Refers to the Marvelous Resources and Development of the two Provinces, Alberta and Saskatchewan.

That Western Canada, and particularly Alberta, is just now receiving the kind of publicity that is highly desirable in old country papers is evidenced by a lengthy article which appeared in a recent issue of the Northern Echo, Newcastle-on-Tyne, a leading old country paper, on the conditions existing in this part of the West. The article is one of a series on conditions in Canada written by a gentleman who toured this country this year.

Regarding from every point of view, the work which has been accomplished in the provinces of Alberta and Saskatchewan stands out prominently in the development of the Dominion of Canada. I have referred to these two provinces as the most interesting and magnificent of the splendid new lands which have been brought into the home-land of the settled condition of things generally. I was charmed beyond words by the English and yet different after the confused lands at home, one is astounded at the vastness of everything. I found the people so free and easy. Every man admittedly as good as his neighbor; there is no such thing as shabby poverty.

Now after a visit to these two provinces, Alberta and Saskatchewan, I created only four years ago, I would not say considered them as advantages under which the people have worked, that they have achieved the greatest success of all in empire building.

HAINS MADE THREATS.

Mrs. Hains, Say Husband's Brother is Real Homebreaker. New York, Oct. 26.—The affidavit Mrs. Hains makes in reply to her husband's allegations for divorce says that the charges against her husband are prompted by his brother T. Jenkins Hains, who she says made many advances to her.

RESTRICTION OF IMMIGRATION.

Has Been Effective—Only Best Type of Settlers Have Arrived in Canada. Ottawa, Oct. 26.—The steps taken by the immigration department at the beginning of the year to restrict immigration into Canada likely to congest the labor market during the time of the temporary industrial depression has been most effective. Since January the immigration via ocean ports has been confined to less than half the total arrivals for the corresponding period last year, and those who have come have been of the very best type of settlers, the great majority being composed of British immigrants, who have settled on the land or taken service as agricultural workers.

EDMONTON BULLETIN, MONDAY, OCTOBER 25, 1933.

will show a large number of towns and villages, which he had saved existence within recent times. They all give evidence of prosperity. The new "new villages" from a thousand to two thousand people with six or eight large elevators alongside the railway. Alberta is not entirely devoted to wheat growing, but this is, of course, the main product.

Pioneers of Industry. I spent a most delightful time exploring these districts, and even those places miles from any railway station were not the wild spots I had imagined. I went from place to place and spoke to the people, pioneers in the agricultural world, manufacturers, builders, coal owners, and others, and the one thing that struck me most forcibly was the spirit of optimism which pervaded all classes. It was a cheerful story. Not a question of men trying to make the best of circumstances, but the latter's opinion of men who had worked hard, and who had either achieved success or were confident that they would do so.

LAST WEEK OF THE DEMOCRATIC CAMPAIGN

Plans for Whitewash Finish in Ohio and Indiana—Tammany Leader's Opinion on the Campaign—Bryan Not a Favorite in the Betting. Chicago, Oct. 24.—What is announced as Democratic headquarters in a "whitewash" campaign in Ohio and Indiana, will be made in the two states mentioned next week, beginning Saturday.

Chicago, Oct. 24.—What is announced as Democratic headquarters in a "whitewash" campaign in Ohio and Indiana, will be made in the two states mentioned next week, beginning Saturday. In Indiana John W. Kern will head the list of speakers on the Democratic ticket, while in Ohio, Marshall, Democratic gubernatorial candidate, will head the speaking force of the "Indiana" ticket.

Plenty of Room.

Alberta is a huge province with an area over 25,000 square miles. It is being double the size of Great Britain and Ireland. Ten years ago it contained 29,000 people. Today its population is placed at 320,000. It is easily accommodated fifty millions without any crowding. The southern part is open country without any timber belt except along the streams and the foot hills of the Rocky Mountains.

Central Alberta covers that great fertile valley stretching from some five miles north of Calgary to the North Saskatchewan River.

Central Alberta covers that great fertile valley stretching from some five miles north of Calgary to the North Saskatchewan River. It is well wooded and has plenty of water. The settler can here provide shelter for himself and stock very cheaply. For one thing he can get a government permit to cut enough timber to put up all his necessary buildings. The climate is invigorating and it is said that there is no better place for children than that of Northern Alberta through out the whole of America.

RECOVERING FROM FIRE.

Stettler Suffered Seriously, But Business Men Have Not Lost Heart. Stettler, Oct. 15.—Stettler presents a desolate picture this morning with a good part of its buildings smoldering, blackened ruins and a cold gray sky with a little snow falling. The fire started about 1 o'clock on the morning of Tuesday. The buildings that escaped destruction were saved by wet blankets and buckets of water, carried from the lake. The remains of the unfortunate young man who perished in Riggs and White's store, were picked up on the pavement; it is thought the front of the store had fallen on him.

WAGERS FAVOR TAFT.

Chicago, Oct. 24.—Betting on the elections in all the large cities of the country places Taft as the favorite at odds of from 1 to 2 to 1 to 1. The gambling this year will be lighter than on the previous presidential contest. These wagers are infrequent, as betting to reports from all over the country, and no bets of large amounts are reported in any place. The largest offer yet reported is from San Francisco, where one man has offered \$20,000 at 1 to 10 that Taft will be the winner.

AUSTRIA: LATEST FOE.

Heir to the Throne Will Endanger the Peace of Europe. Vienna, Oct. 25.—In the recent Balkan upheaval the prominent figures were the sultan, the new Czar Ferdinand, of Bulgaria, and the Emperor Francis Joseph, but it was none of the three, nor even Kaiser Wilhelm, that was the moving power. The man behind the scenes, the man with whom Europe will have to make an accounting, is Archduke Francis Ferdinand, heir to the Austrian throne. The archduke rarely appears in public, in fact detests publicity. He has no more regard for standing rules of international relations than his countryman. He has no interest whatever in popular movements or ambitions.

GIGANTIC ZINC SWINDLE.

Arrest Made by Post Office Authorities of Suspected Coup. Seattle, October 25.—Wallace H. Hopkins, alias E. E. Guenther, accused of a zinc swindle in the United States and Canada, involving a million dollars, was arrested yesterday by City Detectives Clark and McClure, at the instance of the post office inspectors—C. B. Keen, of Washington, D.C.; C. J. Backus, of Tacoma, and C. L. Wyland, of Seattle. The swindle, which was a scheme to defraud, he first denied his identity, but when locked up he admitted he was Hopkins, and he expressed his willingness to return to Chicago, where he has been indicted for defrauding Hopkins, which arrested the name of Guenther, became identified with a real estate firm in the city in August. Only \$9 was found on Hopkins when arrested. This led the detectives to believe he had planted some of the money in the trunk of a car, which was searched, and a thorough search of a couple of rooms and luggage followed. No money was found, but trunks left behind by a woman companion contained letters addressed to Florence Cooper. The writing on these letters in the plain hand of a telegrapher. Many of them bore the return card, Michigan, Chicago and Milwaukee. The detectives refuse to divulge the contents of the letters.

SAM CLARK FINED \$5.

Lord Milner at Lindsay—Forest Fires Raging—Leaving Cup Presentation. Toronto, Oct. 25.—The officers of the Royal Canadian Mounted Police and Mrs. A. E. Gooderham with a silver loving cup to the silver wedding anniversary. Forest fires have been raging around Haliburton. Lord Milner visited Lindsay on Saturday. Richard Gorman, of Merrickville had his head cut off by a train at Smith's Falls. M.L.A., was fined \$5 for using abusive language about N. M. Field, K.C., at Cobourg.

Taft Closes Western Campaign.

New York, October 25.—Taft, the Republican candidate for president, arrived at the Grand Central Station at 6 o'clock this evening, having come directly on a special train from Gary, Indiana, where he would open his western speaking tour on Saturday night. No unnecessary stores were made on the way east, and the candidate put in the day in rest in his private car. Arriving at New York, Taft went immediately to the home of his brother, Henry Taft, and remains until his departure tomorrow morning for New Haven to deliver a speech. He is in excellent health, although his voice is very husky.

Firm Makes Partnership Offer.

London, October 22.—Delegates of the international traders union, after a long conference, have decided to recommend the members to accept, experimentally for a year, the partnership offer made by Sir Christopher Pears, of the shipbuilding firm of Pears, Witly & Co. The men will devote to the experiment next week.

Latest Returns Do Not Make a Change in First Summary Reception to Laurier.

SUMMARY

Table with 2 columns: Province and Votes. Prince Edward Island 3, Nova Scotia 12, New Brunswick 11, Quebec 32, Ontario 59, Manitoba 3, Saskatchewan 9, Alberta 6, British Columbia 1.

Government majority 136.

Deferred elections: British Columbia 3, Saskatchewan 1, Quebec 1.

There has been no steady change in the relative voting of the parties since yesterday. The summary, the Independent, summarized A. E. Kemp, the regular Conservative candidate for South Toronto, is confident that the situation unchanged in the province. Saskatchewan returned seven Conservatives, three Liberals, although the regular incumbent, Saskatchewan returned seven Liberal representatives and Alberta will probably have Liberal members and one Conservative.

Premier's Reception in Ottawa.

Ottawa, Oct. 27.—The Capital welcomed Sir Wilfrid Laurier yesterday when he returned from his tour in the West. The minister was given a reception by the man and worthy of his visit. The anxious waiting which he had to undergo until late in the evening, and the discouragement to his constituents, were more than made up for by the arrival of the train from Montreal, the union depot. Deaths from Kerosene.

Winnipeg, Oct. 25.—On Saturday Mrs. Holmes McGee undertook to hasten the fire with kerosene, with the usual result. Her three-year-old son, her mother and she were also badly burned. The mother died early Sunday morning. The child died a few hours later. Saturday the fourth fatality of this week from kerosene used to hasten a fire was Peter, the three-year-old son of Donohue. The child died in the hospital on Sunday morning. The mother is in the hospital.

Withdrew Suit Against Husband.

Chicago, October 16.—Mrs. Tucker, accompanied by her mother, the widow of General John A. Logan, visited the army headquarters today, and when assured that Col. Tucker, arrested for desertion, was in Hot Springs, was at the point of death, withdrew the suit.

Express Smashes Boxes.

Perry South, Oct. 15.—The C. P. R. Winnipeg express, northbound, collided with a freight train at the crossing of Harris Construction Co. at the station this afternoon. Two freight cars were demolished but no one hurt.

Fog Ties up Steamers.

Montreal, Oct. 25.—Thirteen ocean liners are held up in port owing to the fog. Four of them are passenger vessels, and as a result 1,200 passengers are detained. The Virginia and Marina which should have sailed Thursday are still in port.

The Northcliffe in Ottawa.

Ottawa, Oct. 24.—Lord and Lady Northcliffe arrived in Ottawa on Saturday afternoon from Toronto, and were guests of His Excellency Earl Grey at Rideau today. They returned to Toronto on the night train.

Barry Champion Sculler.

London, Oct. 22.—F. E. Pittman, at the presentation of the English champion ship cup to Barry, followed the hope that Barry would follow the footsteps of British champion, who won the championship outright but also the world's championship.
