# Tale of Mystery

CHAPTER X.  
THE SHADOW OF THE PAST  
(continued)

'I am bound to say, Miss Merion—the Count paused as he mentioned the name, of course, until you compel me to use any other—I am bound to admit, I repeat, that the luck has been against you heavily in this matter—very heavily in fact. I've had it all. I don't know what your philosophy of life is—I should like to know it indeed, because your life, like mine, has been a varied one—but my philosophy is, that it's not a bit of good to fight against one's luck. I used to do it,' he said, airily, 'and to take the bit in my teeth, and used to swear that I'd go my own way, but—'

'Will you please say what concerns me, not what concerns you?' interrupted Desdie, curiously.

'I am not speaking without a purpose, believe me,' he retorted. 'I never do in a thing of this sort; and I'm not wasting time. You've had rather a knockdown blow, there are some to come; and it's no use my beginning to talk seriously till you've quite recovered the full use of your faculties. You've got an ugly corner to turn and a heavy decision to make—and I don't want to tell you the facts till you're quite yourself. Some people may like to take advantage of a girl at the moment when her senses are half numbed by the effects of the first blow. But I don't want that. I want you to think while I'm talking and be ready when I've done, to take a final answer.'

'I am perfectly ready to listen, and perfectly capable of understanding all you may say,' returned Desdie. 'But I wish you to be as quick as possible.'

'I don't know that there is much for me to say after all,' said de Montalt, speaking slowly and meditatively. 'You will understand, of course, that there are certain parts of the narrative in which I have not yet all the details. For instance, I do not know all the contents of your safe at the Safe Deposit Company—but I know you have one there, and that it is in the name—shall I mention it again?'—he stopped abruptly, dropped his voice, having noted her start at the mention of the safe, and glanced about him, as if to suggest that it might be prudent to mention no more details than were necessary, even though they were alone.

## DOCTOR ADVISED HOSPITAL

But Lydia E. Pinkham's Vegetable Compound Cured Her.

Upper Sandusky, Ohio.—"Three years ago I was married and went to housekeeping. I was not feeling well and could hardly drag myself along. I had such tired feelings, my back hurt, my sides ached, I had bladder trouble awfully bad, and I could not eat or sleep. I had headaches too, and became almost a nervous wreck. My doctor told me to go to a hospital. I did not like that idea very well, so, when I saw your advertisement in a paper, I wrote to you for advice. I have done as you told me. I have taken Lydia E. Pinkham's Vegetable Compound and Liver Pills, and now I have my health. If sick and ailing women would only know enough to take your medicine, they would get relief."—Mrs. BENJ. H. SNYDER, Route 6, Box 18, Upper Sandusky, Ohio.

If you have mysterious pains, irregularity, headache, extreme nervousness, inflammation, ulceration or displacement in a paper, I wrote to you for advice. I have done as you told me. I have taken Lydia E. Pinkham's Vegetable Compound and Liver Pills, and now I have my health. If sick and ailing women would only know enough to take your medicine, they would get relief."—Mrs. BENJ. H. SNYDER, Route 6, Box 18, Upper Sandusky, Ohio.

Her answer gave him the first clue to the line which she was likely to take.

'You may mention anything and everything,' she said. 'It is quite obvious that whatever has to be told about me must be told in full. Say what you like.'

'I don't agree with you,' he answered, sharply; but her reply shook a little of his confidence. 'You have much to learn yet. Well, then the name in which you rent the safe is Marlow—Dorothy Marlow; by a coincidence, the name from which you were flying that March afternoon five years ago, when passing through Birmingham Station you stole some valuable jewels, very valuable jewels—no others than the Rubies of Rohilkund.'

Desdie moved, as if going to protest, but said nothing.

'The father of Dorothy Marlow was one Anthony Marlow, at one time a man in a good position and reputed wealthy. He was a bank manager until one day two persons called for him, and he stepped straight from the bank parlour into the police cell, passing on to a convict prison to work out his heavy sentence for forgery. He didn't die in prison, as his friends might well have wished him to; but came out to be a curse on his family—a drunkard, a swindler, and a thief of the worst kind. His wife, like a fool, clung to him, and never till his death ceased to believe in the possibility of his repentance. But why go on?—you know the tale, and it only blisters the tongue to tell it now. He made the whole of his family utterly miserable, abandoned, and wretched.'

Desdie had listened with her eyes closed and her fingers clasped rigidly, and when he paused a moment, the room seemed first to grow dark, and then to swim; noises sounded in her ears, and she feared she was going to faint.

He noticed the change in her.

'I would rather say no more,' he said.

'Go on,' she replied, after a minute's struggle for self mastery, the words slipping out between lips all dry and compressed in her pain.

'As you will. His son, who had been placed in a good position by friends, was led away by the man and shot in a burglary affray. His daughters—there were two—w with a smothered sob the girl put up her hands and covered her face, pressing it with all her strength—'his daughter took different paths. One stuck by the home and mother, but the elder—No, —it, he cried excitedly, breaking off. 'I'm not going on with this any further. Enough that I know the whole story. You can see that. With that he got up and went to one of the windows and stood there to give the girl time to recover herself.'

Desdie sat mazed with the pain and sorrow that the scene caused. Everything that she had striven so jealously to hide, every horrible outline of the grim skeleton that she had thought locked safe away in the secrecy of her own heart, was known; and known to this man of all others, who was reserved and eager to use it all solely as his own interests prompted.

## No more Torture from Rheumatism

Relief quick and cure certain when Dr. Bovel's Herb Tablets are used. Read the following letter.

Saint Ste. Marie, Ont.  
Dear Sir—  
I have used three boxes of Dr. Bovel's Herb Tablets. They have done more to relieve my rheumatism than anything I have ever used. I have been a martyr to this disease for years.  
Gratefully yours,  
D. M. PELLOW.

For sale by all Druggists or Dealers at 25c per box. (In case you cannot supply you send 25c. in stamps to us direct.)

BOVEL MANFG. CO'Y.  
St. John's, Nfld., or Montreal, Can.

your suspicions, and, of course, make reparation.

'Reparation? Why do you mean?' 'The jewels that were stolen in Birmingham were stolen from me in the first instance. They must be restored, of course.'

'How did you get them?' asked Desdie, with an instinct of suspicion. 'You had better not ask,' was the reply. 'The story will not make pleasant hearing for anyone—for you especially.'

Desdie looked at him quickly. She feared him more than ever. The knowledge of her history which he had already shown that he possessed made her view the insinuation in his words with a fresh and sickening dread. To her he had become a man whose threats were never empty ones, and whose acts were only sure to be more deadly than his words.

She sat and thought as connectedly as the intense agitation would permit; but she could only see her way to the course.

**HERE'S a HOME DYE**  
That ANYONE Can Use.  
HOME DYING has always been more or less of a difficult undertaking—no when you use **DYAL**.  
Send for Sample Card and Story Book FREE. RICHARDSON CO. Limited, Montreal, Can.  
With DYAL you can color either Wool, Cotton, Silk or Mixed Goods Perfectly with the SAME Dye. No chance of using the WRONG Dye for the Goods you have to color.  
A TRIAL WILL CONVINCIVE YOU.

'I can do nothing by myself now,' she said, after a long pause. 'I told you this morning that Mr. Cheriton would be here to day and that I should tell him everything. That determination is strengthened by what you have said. I thought he would have been here now.'

As she was speaking a knock at the door interrupted her, and a servant came in with a telegram.

'A telegram for you, Miss,' said the man. Desdie took it, and with fingers still trembling tore it open, the man waiting to see if any reply was to be sent.

'There is no answer,' she said; and the Count de Montalt, who was watching and listening with every nerve at full tension, detected in the voice and manner a tone of disappointment.

## Nerves Are Exhausted

And nervous prostration or paralysis is creeping steadily upon you.

You hear of people suddenly falling victims of nervous prostration or some form of paralysis. But when you get all the facts of the case you find that they have had months or years of warning. They haven't slept well. There has been frequent attacks of nervous headache. Digestion has failed. They have been irritable, easily worried and excited and have found memory and concentration failing. Had they but known that these symptoms tell of exhausted nerves or had they realized their danger they would have restored the feeble, wasted nerves by use of such treatment as Dr. Chase's Nerve Food. This great restorative treatment cures by forming new, rich blood and by rebuilding the wasted nerve cells. No medicine is more certain to prove of lasting benefit to the system. 50 cents a box, 6 boxes for \$2.50 at all dealers or Edmanston, Bates & Co., Toronto.

While the servant went out and closed the door behind him Desdie made a big fight for self-control, but couldn't get it. The whole world seemed to have deserted her, and though she would have given all she was worth to have it hidden her emotion from the man who was watching her and waiting for her to speak she could not repress the evidence of her trouble that made her lips tremble and her voice falter.

## Evening Telegram Fashion Plates.

The Home Dressmaker should keep a Catalogue Scrap Book of our Pattern Cuts. These will be found very useful to refer to from time to time.

8911-8938—A SPRING FROCK OF CHARMING STYLE.

This shows one of the season's best offerings in Peasant Waists, combined with a Skirt that helps to make an attractive costume for afternoon wear. The yoke and sleeve portions of the waist are cut in one. The waist, with shaped bib portions, may be worn over a tucker, or finished with the short sleeves and round neck. The skirt has a plaited flounce, joined to a round yoke. Almost any of this season's dress materials are suitable for this pretty dress. Sea shell pink messaline, with yoke of a deeper shade, and soft lace or net for underwaist or tucker, would be very effective. The Waist Pattern is cut in 5 sizes: 24, 26, 28 and 30 inches waist measure. It requires 6 1/2 yards of material 44 inches wide for the dress, with 1 1/2 yards of 27 inch material for the tucker for a Medium size.

Suitable materials for any of these patterns can be procured from AYRE & SONS, Ltd. Samples on request. Mention pattern number. Mail orders promptly attended to.

**PATTERN COUPON.**  
Please send the above-mentioned pattern as per directions given below.

**The Evening Chit-Chat**  
 By RUTH CAMERON

A few days ago a young girl came to me to tell me that in the course of a five minutes' walk through a park in this city she had been insulted by seven men. She said she thought she had been in a very bad condition and that I ought to write something about it.

Since then I have talked the matter over with five of my women friends and acquaintances who know this park. None of them has ever been accosted more than once or twice in all her experience with the place. Three of them cross it daily on their way to work, returning after night-fall in the winter, and the others have occasion to pass that way very frequently.

One girl all last winter was obliged to pass through the park three nights a week at ten o'clock when returning from some evening work. Incidentally two of these girls are very pretty and the others at least attractive looking.

How do I account for this discrepancy in stories? Do I think the first girl was lying? Not at all. My explanation is just this: Ex-

**Afraid of Ghosts**  
 Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum, but a medicine of known composition and with a record of 20 years of cure. Accept no substitute—there is nothing "just as good." Ask your neighbors.

**Fads and Fashions.**  
 Striped effects are used on hats. Very new is the butterfly parasol. Paris says voile for summer frocks. Foulard waists are again in vogue. King's blue is a very popular shade. Military effects are very prominent in bags. All ages from 15 years wear hair ornaments. Skirts are less severe, but they are still narrow. The reign of venise lace has certainly begun. Afternoon gowns show a decided use of chamoisee. Tailored waists, those with cuffs, all have long sleeves. Flowers are being lavishly used on dance dresses for girls. Cluny lace is being much used on lingerie gowns and in neckwear. All-over embroidery is very effective when combined with plain pongee. A natural pongee has dots of blue with rims of brilliant, parrot green. Whole white high shoes will increase in favor as summer approaches. Under many of the transparent waists colored volles are seen as linings. Plain pumps of black velvet, with flat silk bow and Cuban heels are worn. All-over tucking and embroidery are favored materials for handsome lingerie waists. Very large are some of the newest handbags. They are square, pointed or irregular. Fringes are seen on many of the new lingerie gowns as girdle and tunic trimming. A good deal of heavy embroidery and Irish crochet lace appear on the new waists. The red, white and blue of the Revolution will be worn singly and in combination. Shorter sleeves are looked for in

the models that are to be worn in the coming summer. White buckskin ties with black patent leather uppers are modish for black and white suits. Higher and higher mount the toques, higher and higher soar the leathery adornments. As for embroidery French knots are distinctly the thing, whole patterns being worked out in them.

**Indigestion & Dyspepsia**  
 In all its Forms can be Cured.  
 It is quite a daily occurrence to hear persons say: Oh, what a feeling of distress I have after meals, fullness of the stomach, heaviness and headache, I feel too tired to do anything, I have no heart to exert myself and at times I care for nothing. I often have a pain in the pit of my stomach, no appetite, my heart beats rapidly or the slightest exertion. I feel just as tired when rising in the morning as when retiring to bed. My sleep is often disturbed, and I often awake with a sense of suffocation and a difficulty of again going to sleep. I have to be careful of what I eat, and my life seems a veritable burden.

Now, it seems a shame and a pity for persons to be suffering like this, when it is in their power to get cured by taking a Bottle of Dr. Stafford's Prescription A. A sure cure for persons afflicted with stomach troubles. It can be obtained at  
**DR. F. STAFFORD & SON,**  
 Duckworth Street and Theatre Hill.  
 Small size, 25 cents; postage, 5c extra; large size, 50 cents; postage 10c extra. Mail orders must be accompanied by remittance.—oct29,11m

**Be Proud** Then why rest contented with thin, scraggy, rough hair? Ayer's Hair Vigor gives softness and richness to the hair, makes it thicker, heavier. Cannot change the color. Safe to use? Ask your own doctor.

 FOR ALL KIDNEY DISEASES  
 BRONCHITIS, RHEUMATISM, GRAVEL, DIABETES, ETC.  
 PREPARED BY DR. J. C. DODD, 23 THE PRINCE STREET, NEW YORK

**Tallest Building Yet.**  
 Plans Filed for Fifty-Five Story Structure, 750 Feet High, in New York—The Cost Will Be \$3,500,000.  
 New York, April 26.—E. W. Woolworth filed yesterday through Cass Gilbert, the architect, revised plans for what will be the tallest structure in the world, occupying the block front in the west side of Broadway, between Park Place and Barclay Street, on an irregular plot 452.1 feet front, with a depth of from 107.10 feet to 192.6. The property was assembled during the last few months from various owners by the Broadway Park Place Company, of which Mr. Woolworth is president.

When completed the structure will be 750 feet in height, from the curb to the apex of the tower. The main building will be 30 stories high, but from the centre of the building's tower, with twenty-five floors, will rise, making a total of fifty-five stories. The cost is estimated by the architect at \$3,500,000.

In design the building will be a combination of Italian, French and modern Renaissance. The tower will be ornamented with a massive lantern, which will be lighted by electricity, visible for many miles. On the ground floor will be stores and the second floor will be given over to banking offices, while the remaining floors will be divided into offices.

The building will be equipped with sixteen elevators, six running to the thirtieth floor, six to the forty-first floor and four to the fifty-first floor. The main building will be 384 feet high, and the tower 366 feet high.

Some months ago plans for a building to be erected on this site were filed, calling for a structure 701 feet high, but subsequently additional property was acquired and the taller building was decided on. The Irving National Exchange Bank will occupy quarters in the new building, and E. W. Woolworth & Co. will utilize several of the upper floors for executive offices.

The tallest building in the city at the present time is the Metropolitan Tower, at No. 1 Madison avenue. The structure rises to a height of 700 feet and 3 inches and has fifty floors. Next in height is the Singer Tower, in lower Broadway, with forty-one stories and a height of 612 feet and 1 inch.

**Dr. de Van's Female Pills**  
 reliable French regularizer. These pills are exceedingly powerful in regulating the generative portion of the female system. Refuse all cheap imitations. Dr. de Van's are sold at 85 a box, or three for \$10. Mailed to any address. The Retail Drug Co., St. Catharines, Ont.

**Huge Contract for British Firms**  
 LONDON, April 24.—Contracts representing \$20,000,000 in value have just been signed by the Argentine Minister in London with British firms for the extension of the water-works at Buenos Aires. Messrs. J. Simpson and Co., Limited, of Queen Victoria Street, London, have secured the order for supplying and installing pumping engines of large capacity; the contract price is £218,000. The carrying out of a great tunneling scheme has been entrusted to a Staffordshire firm, and large quantities of constructional ironwork have been ordered from Scottish firms. The contract will take about two years to complete.

Topsfield, Mass., April 24.—Trapped in the centre of a forest fire in Boxford, near here, Frank Simmons, Jr., aged 15, of Boxford, and Albert Morgan of Beverly, were burned to death to-day. Their bodies were recovered later burned beyond recognition. Two other boys, Frank Simmons, father of the dead boy and William Simmons, a brother, were also trapped by the fire but broke through and escaped, although both are so seriously burned that they may not recover.

A brush fire started by George Frame, a farmer, living on the outskirts of the town got beyond his control and started the conflagration and before the blaze was finally controlled more than 100 acres, much of it valuable timber lands was burned over. Frame's nearest neighbor, Frank Simmons, with his two sons and Albert Morgan of Beverly, helped to fight the fire and seemed to be getting the better of it, until, unnoticed by them, the blaze crept around and surrounded all but Frame.

**W.B. CORSETS**

Did You Get Any of It?

I Never Saw Such Value In All My Days.

80c. Value for 40 cts.

BE AT DEVINE'S

This Afternoon and To-morrow, At 8.30, and get your share of the big snap in Ladies Underwear

60c. Goods for 35 cts.

Two more days will see the end of this great Sale.

J. M. DEVINE, 302 Water St.

Shop early and avoid the crowd. Bring your neighbor.

The Man who knows what you want.

Evening Telegram

W. J. HERDER, Proprietor. W. F. LLOYD, Editor.

THURSDAY, May 4, 1911.

As Mean as Discriminating.

We cannot commend the Government on either its sense or fair play or common sense. Nothing is allowed to stand in the way of pincies for the leaders of the party and jobs for the smaller fry. The money machine was lavished freely on the Brussel sprout trio, who were commissioned to deal with agriculture, of which they had no expert knowledge. Pickings, commissions, orders for supplies, new jobs, increases of salaries were scattered among party supporters. Yet in spite of this extravagant expenditure of money in wasteful ways, the Government is too mean to treat with common decency the unfortunate men who were attacked with smallpox and taken from the s.s. Newfoundland to the small-pox hospital. To-day Mr. Chesley Martin, of Pouch Cove, called into the office and told us he was taken off the Newfoundland to the smallpox hospital after she arrived. He had, of course, to leave on board behind him his box and bag of clothing and other effects. They were taken in charge by the Government authorities and disinfected. When Mr. Martin was discharged from the hospital he was provided with nothing but the clothes in which he entered. He has been unable to get back his box or bag of the clothes which the authorities took to disinfect, except three of the smaller articles. He interviewed the Minister of Fisheries and has been unable to obtain any satisfaction. He cannot get back his box, his bag or his clothing, and can get no recompense. Why is this? Why does the Government discriminate in its treatment of the unfortunate men. Some men in the Observation Hospital were provided with a complete outfit, yet Mr. Martin, who was stricken down, can get no return for the clothing the Government took from him to disinfect. Why?

Hockey Team Dined.

The hockey team and members of St. Thomas's Choir were dined by the lady members of the choir in Canon Wood Hall last night. Rev. G. R. Godden, M. A., Rector of the Parish, and Rev. G. Hewitt, M. A., were present. At 6.30 all sat down to tea, after tea speeches were made by the following: Rev. G. R. Godden, Rev. G. Hewitt, Mr. Geo. Shaw, Masters, T. Payne and R. Carnell. After speeches were finished the members went to the lower hall and enjoyed themselves in different games. At eight o'clock the following programme was rendered: Recitation, Rev. G. Hewitt; Song, Mr. W. D. Edwards; Song, Mr. Frank Miller; Song, Mr. J. Cornick; Banjo Selection, Mr. Frank Miller; Song, Mr. H. W. Stirling; Song, Mr. W. T. Udle. After the concert was ended refreshments were served. Mr. H. W. Stirling, Organist and Choir Master of St. Thomas's, then thanked the ladies and gentlemen who so kindly helped to make the evening so successful.

THE CORINTHIAN COMING. Messrs. Shea & Coy. had a wireless message last night stating that the Allan Liner Corinthian was 170 miles to the E. N. E. of St. John's and should arrive here from Liverpool at 4 or 5 p.m. The ship, evidently, had head winds all through the voyage.

Scratch it on Your Slate with a Nail. Coffee does injure many. There's one way out. Quit and use well-made

POSTUM "There's a Reason"

More "Split" Government Patronage.

To-day there are rumors about the city to the effect that the Government has created one or two more jobs for so called supporters. Besides the fixing of Mr. Jno. Gibbs, the latest it is said, to have an office created for him is our W. J. O'Neill. He it is asserted is to be placed in the "Dead Letter" Department of the Post Office a place having been created for him and that a nice little salary will attach to it. Other new offices created will be duly chronicled. The taxpayers are asking themselves where and when this is going to end. It is said that Mr. O'Neill, however, is not satisfied with the salary offered and may decline the job.

WINDOW SHADES, MADE TO ORDER.

For Dwelling or Store, Lettering a Specialty. Satisfaction Guaranteed. AYRE & SONS LIMITED.

Supreme Court.

Before Mr. Justice Johnson. J. Bonavsky vs. Commercial Union Assurance Co. On motion of Mr. Mews for plaintiff this cause is set down for Wednesday, May 10th, with a special jury.

Here and There.

SUDDEN INSANITY. A young man of Conception Harbor who had all arrangements made for his wedding last week suddenly became insane. The case is a very sad one.

WILL HAVE ENTERTAINMENT. The Warrant and Non-Commissioned Officers of the C. L. B. who recently received their stripes will hold an entertainment and supper to-night at their mess room in the C. L. B. Armoury, and a good time is assured all who will be present.

PATIENTS FOR HOSPITAL. Miss Noseworthy came in from Bay Roberts to-day to go to the General Hospital. Mr. Eli Whiteway was at the station to take her there in a carriage. Another female patient is coming in from Harbor Grace to-morrow, and one from Greenspond by the next Fogota.

BERGS MENACE NETS. At 11.50 last night several big icebergs floated up to Portugal Cove and before the people were aware of it were in among the herring nets which are set out there. The men of the place had to leave their beds and go out and after much trouble got their nets ashore, otherwise they would have been destroyed by these arctic visitors.

Who Says "Splits?"

The Picnic Party's Newest Industry.

There is a hum of industry to-day in the neighbourhood of the House of Assembly, where saws are going at full speed cutting the fallen trees into splits. The splits are being taken around the city to the residences of purchasers in crates and some free samples have been given to those who helped the "split" Government in the last election. The price remains the same, 25 cents per hundred, but owing to the rush it is likely this will advance. Some Broad Cove men were out looking for their chief member, Sir Edward, to-day to get some information about the new industry, and were sorry to hear he had gone away on a little picnic.

Train Notes.

The west bound express arrived at Port aux Basques at 7.20 a.m. to-day. The incoming express left Badger Brook at 8.20 a.m. and will be due here at 1.10 p.m. to-day. The local via Brigus arrived here at 12.20 p.m. bringing Joseph Cantwell, Dr. Chisholm, J. Kennedy, W. Williams and 50 others.

In the Police Court.

In the police court to-day a drunk was fined \$1 or 3 days. Three of the crew of the Galatea, who deserted the ship yesterday, and were arrested under warrant were put on board. A man who was summoned by his wife for using lewd and insulting language towards her, had to give his own security in \$50 to keep the peace in future.

Marine Notes.

The Fogota left Newtown this morning going north. The Sosa left Renouville this morning going west. The s.s. Kamford arrived here at 1 p.m. to-day with a load of coal from Sydney for A. J. Harvey & Co.

BOATINGS.

The Portia left Channel at 2.20 a.m. to-day and is due here Monday next. The S. S. Prospero left Catalina at 7 a.m. to-day.

Here and There.

THE KITE COMING. The S. S. Kite is now on her way here and passed Channel at 6.30 this morning. The ship should arrive here Sunday morning unless delayed by stormy weather.

GOING IN YACHT. We learn to-day that Mr. Carter the wireless man on the Eagle this spring, after leaving her will take a position on Mr. W. K. Vanderlin's yacht and will go to New York to take up his new duties. Mr. Carter is an expert at the business.

FOOTBALL LEAGUE MEETING. The annual meeting of the Football League will be held in the office of the President, Mr. Mark Chaplin on Saturday night. The year's reports will be submitted and the matches arranged for the coming season.

A SEALER HURT. A sealer driving down Water Street at 2 p.m. to-day on a long cart fell off and was pretty badly hurt. He was cut about the face and his shoulder was dislocated. He was brought into Kavanagh's drug store where his injuries were attended to.

MEN FOR RAILWAY. About 50 men came in from Conception Bay to-day by train to work on the branch railway to Trepassay. They detrained at Waterford Bridge. There are over 100 men at work there at present and they are fast pushing on the grading towards the Goulds.

TROUBLE ON ALEXANDER ST. A row occurred yesterday on Alexander Street between two women residing there, who are the wives of two brothers. One of them seized a garden prong and smashed the windows in the front of her sister-in-law's house. Two constables were called and restored peace.

AN OCEAN RACE. The barqs. Olinde and Maggie left port together to-day for Pernambuco. Both vessels are pretty evenly matched as regards their sailing qualities and an interesting race down should occur between them. Capt. Conroy, formerly of the Galatea, has charge of the Maggie. The Galatea, Capt. Parsons, also sailed this morning for Oporto.

Problem for Mr. Roosevelt.

Trenton, N. J., April 27.—A Fallington woman has written to a local paper asking Mr. Roosevelt several pertinent questions and saying he should be the father at least twelve children if he carried out his ideas on race suicide. She takes exception to his contention that every woman should have four children, and tells how difficult it is to support the two she has, on her husband's \$7 a week, and the necessity of paying \$16 a month in house rent. "I wish Roosevelt would tell what I could do with two more children if I had them," she adds.

Pave Streets With Rubber.

Boon to City Dwellers Declared to be in New Process — Exhibition at Coronation — Cheapening of Crude Material Through Increased Supply is Expected.

London, April 24.—Not the least interesting of the exhibitions to be held in London in the Coronation season is the rubber exhibition, which is to be opened in the Agricultural Hall at the end of June. It is expected that within ten years there is every chance of London streets being covered with a new rubber composition pavement, and that London, instead of being one of the noisiest cities in the world, will be the most silent.

Sir Henry A. Blake, speaking at an entertainment in connection with the last rubber exhibition, said he looked forward to the time when rubber will compete with the quarry. He had the authority of a well known manufacturer for saying that at half a dollar a pound rubber could be used economically for street pavements. Much has happened in the rubber world since then, and the price of half a dollar a pound, which thirty months ago, did not seem a preposterous expectation, seems to have become more and more remote. Yet, according to authorities who are studying the situation, the contrary is really the case.

Last year's rubber boom, it is pointed out, has meant the planting of many millions of rubber trees in many parts of the world. The supply of plantation rubber is likely to be immensely increased in the next few years, while the opening up of South America may lead to an additional output from that source. There are good judges who prophesy that by 1915 the price of crude rubber will have dropped to half a dollar a pound. Then will come the opportunity of those who for years have been experimenting with the rubber composition which will supply the perfect pavement for London and other large cities.

Rubber pavement is, of course, no new thing. Such places as the roadway under the Midland Hotel at St. Pancras station and the courtyard of the Savoy Hotel have been paved in this way in order to prevent persons being disturbed by the heavy traffic. It has been laid down in sheets and the endurance is said to be wonderful. At the rubber exhibition in June there will be a comprehensive display. One firm has undertaken to pave the main avenues of the hall at a cost of something like \$5,000.

With the King's patron and Sir Henry A. Blake as president, the exhibition promises to be the most representative that ever has been held. More than twenty-four colonies and countries, comprising all the rubber producing areas of the world, will be officially represented.

Sensational Charge.

Against Secretary of Structural Iron Workers.

Indianapolis, Ind., April 23.—After months of investigation directed by Wm. J. Burns, the San Francisco graft investigator, now-head of a detective agency, J. J. McNamara, international secretary of the Bridge and Structural Iron Workers of America, the headquarters of which are in Indianapolis, was arrested here late to-day charged with complicity in the dynamiting of the Los Angeles Times on October 1, 1910, and the plant of the Llewellyn Iron Works in Los Angeles. Four hours after McNamara was arrested detectives found two quarts of nitro-glycerine and 17 sticks of dynamite in a barn three quarters of a mile west of Indianapolis.

Army of a Million

Will be Under Arms in German Field Manoeuvres.

Berlin April 24.—Germany will have under arms in connection with the field manoeuvres this summer, practically one million men. In addition to the regular army strength of 622,000 men, over 355,000 reservists will be called to the colors, making a total effective strength for the army of 977,698. Adding to these the men serving with the fleet, an armed force of considerably more than a million will be engaged in the gigantic war game. The new firing regulations for the field artillery, just published, contain in addition to former directions for fire against captive balloons, a new set of instructions governing the use of artillery against dirigibles and aeroplanes. It is admitted, however, that artillery fire against aeroplanes offers slight chances of success without enormous use of ammunition.

Fresh Halibut--8c. lb.

200 Bags OATS, 200 Bags HOMINY FEED, 100 Bags CORN MEAL, 100 Barrels LOCAL POTATOES.

Mr. T. J. Edens, late of the Street Car Service, has obtained a good position with the Nova Scotia Steel Company, and left by this morning's train for Bell Island.

Walter I. Vey

Our Organ Building, Tuning and Repair Department

Is under expert management and all work is performed in a thoroughly satisfactory way. The staff includes—

ARTHUR SLOAN, Piano Tuner, Regulator and Toner, Piano Player expert, Factory and Provincial experience.

MR. SLOAN has tuned and toned for Madame Albani, Madame Melba, the Royal Carl Rosa Opera Co. of Covent Garden, London; the Royal Academy of Music and Trinity College of Music, London; the Royal Yacht "Alexandra," the Marquis of Camden's Yacht, H. M. S. "Dreadnought," H. M. S. "King Edward VII," H. M. S. "Vernon," etc. Some of England's Best Bandmasters: Lieut. Chas. Miller, late R. G. A. Portsmouth; Lieut. J. B. Green, R. M. A. Portsmouth; Lieut. Chas. Lee, R. G. A. Portsmouth.

WALTER I. VEY has built the following City Church Organs: COCHRANE ST. METHODIST CHURCH; Tubular Pneumatic Action, 61 stops, 3 manuals and pedals. First and only exhaust pneumatic action in Newfoundland. R. C. CATHEDRAL: Tubular Pneumatic Action, 3 manuals and pedals. Built under the direction of Albert E. Lloy, of London. CHURCH OF ENGL'D CATHEDRAL: Electric action, 4 manuals and pedals. Built under the direction of Mr. J. Stanley, of Hereford and London. And with Mr. R. Suddaby, of Norman & Beard, organ builders, of London and Glasgow.

Walter I. Vey has built the following City Church Organs: COCHRANE ST. METHODIST CHURCH; Tubular Pneumatic Action, 61 stops, 3 manuals and pedals. First and only exhaust pneumatic action in Newfoundland. R. C. CATHEDRAL: Tubular Pneumatic Action, 3 manuals and pedals. Built under the direction of Albert E. Lloy, of London. CHURCH OF ENGL'D CATHEDRAL: Electric action, 4 manuals and pedals. Built under the direction of Mr. J. Stanley, of Hereford and London. And with Mr. R. Suddaby, of Norman & Beard, organ builders, of London and Glasgow.

Safe and Sure. Why run any risk? Why not buy where you're safe? Why not buy where you're sure? You run no risk with an Estey; the makers, after fifty years of experience and the largest safes in the world, have too much to lose in hard-earned reputation to treat you any way but fairly. And as to the price, while the Estey name is the greatest name in the business, you don't have to pay for it. Every cent of your dollar buys a full cent's worth of organ. Let the other people experiment—buy an Estey and be safe—be sure—be satisfied. The first step is to send for a catalogue.

PIANO and ORGAN SHOWROOMS

If you are contemplating the purchase of a Piano or Organ, make a point of seeing the largest and best stock before deciding. Our Instruments are "Made on Honor" by manufacturers whose reputation is world-wide for dependable Instruments.

SEE WINDOW FOR SPECIAL DISPLAY OF ESTEY ORGANS.

Our Organ Building, Tuning and Repair Department

Is under expert management and all work is performed in a thoroughly satisfactory way. The staff includes—

REGULAR BARGAIN VALUES.

A. & S. RODGER.

Army of a Million

Will be Under Arms in German Field Manoeuvres.

Berlin April 24.—Germany will have under arms in connection with the field manoeuvres this summer, practically one million men. In addition to the regular army strength of 622,000 men, over 355,000 reservists will be called to the colors, making a total effective strength for the army of 977,698. Adding to these the men serving with the fleet, an armed force of considerably more than a million will be engaged in the gigantic war game. The new firing regulations for the field artillery, just published, contain in addition to former directions for fire against captive balloons, a new set of instructions governing the use of artillery against dirigibles and aeroplanes. It is admitted, however, that artillery fire against aeroplanes offers slight chances of success without enormous use of ammunition.

Fresh Halibut--8c. lb.

200 Bags OATS, 200 Bags HOMINY FEED, 100 Bags CORN MEAL, 100 Barrels LOCAL POTATOES.

Mr. T. J. Edens, late of the Street Car Service, has obtained a good position with the Nova Scotia Steel Company, and left by this morning's train for Bell Island.

### Unnecessary Appointments.

Editor Evening Telegram.  
 Dear Sir,—Please allow me space in your valuable journal to make a few remarks which suggest themselves on reading your comment in reference to the position left vacant by Mr. Atcock's death. This method of public waste seems to be generally adopted by the so-called People's Party.

We notice amongst the late appointments that of Alfred J. Keats, of Merasheen, as sub-collector at this port, with the usual salary, we pre-

sume of five hundred dollars (\$500), in place of Mr. P. Murphy, who held the position of Preventive Officer with a salary of two hundred and forty dollars (\$240) per year.

Our representative, Mr. Howley, will remember that in the House of Assembly, when member for St. George's, he protested strongly against the unnecessary expense of placing a Preventive Officer at Little Placentia, and reminded the Government in the strongest terms of the small amount collected here during the years previous.

We beg to remind Mr. Howley that since the date of his protest the Customs accounts show no increase of duties; that no light dues were collected since 1898; that all Customs

### Some Facts About Our Food.

New York American.—Another tradition shattered. Boston baked beans are has-beens. Dr. White, lecturing at the Harvard Medical School, hands at the bean a body blow. He calls it "notoriously hard to digest." As to other staple articles of food, he says: "Twenty-five cents worth of beef juice yields only six parts of value to the body, the same value in eggs yields 700 parts, and of milk 1,600 parts. In other words, it requires from fifteen to thirty glasses of beef juice to equal the food value of one glass of good milk." If this is all

### Coastal Boats.

**REID'S BOATS.**  
 The Argyle arrived at St. Lawrence at 8:10 p.m. yesterday going west. The Dundee arrived at Salvage at 6:20 p.m. yesterday bound inward. The Ethie left Carbonar this morning at 7:45 a.m. to-day.

The Gloucester left Port aux Basques at 7:45 a.m. to-day.

The Home arrived at Burgeo at 4:30 p.m. yesterday going west.

The Invermore was due at North Sydney yesterday afternoon; no report to-day.

**MINARD'S LINIMENT LUMBERMAN'S FRIEND.**

### Big Salt Cargo.

The S. S. Wegadesk, Capt. Johannsen, arrived here to Job Bros & Co. at 4 p.m. yesterday with a big cargo of salt containing 6,500 tons. The ship made the run out from Cadiz in 11 days. She had fine weather all through except the past 2 days, when a S.E. gale was encountered with thick fog and on the Banks many icebergs were encountered. After discharging the ship goes to Bell Island as she has been chartered by the N.S.S. Co. to run in the ore trade all summer to Philadelphia. Capt. Andersen formerly of the Wegadesk, has been given command of the mammoth ore carrier Stovadab, which is now on the way out to Bell Island.

### Sports at Brigus.

Editor Evening Telegram.  
 Dear Sir,—Would it be too much for me to ask you for space in your valuable paper to tell the readers of the Telegram who are interested in sports just a little of what is going on in Brigus?

On Tuesday night the young men who are interested in the sports of the place held a meeting in the factory office. This meeting was presided over by Dr. A. Tait, and the following officers were elected: Hon. President, Mr. John Hiscock; Captain, Mr. J. Devine; Sub-Capt., Mr. Augustus Scaplin; Sec.-Treas., Mr. F. Sheehan. Next a field was chosen to be hired, viz. Mr. J. Wilcox's, on Station Road, if the same can be secured; if not the one used last year near the station will be used again.

It was then suggested by one present that our Secretary write the secretaries of the clubs at Clarke's Beach, Bay Roberts, Harbor Grace and Carbonar to find out if they would be willing to form a Football League with us and play a series of matches for some small trophy, as the Football League of St. John's does. This suggestion was readily adopted after those present had expressed their opinion on it. If such a League were formed the only obstacle to confront us would be the expenses of travelling, but we believe the Reid Nfld Co. would help us out there as they did the Grand Falls team last year.

Arrangements were made for a concert to come off on the 16th or 17th of this month, and the meeting then adjourned.

Yours very sincerely,  
 FOOTBALL.  
 Brigus, May 3rd, 1911.

# H.P. SAUCE

### Died at Freshwater.

There passed peacefully away at her residence, Freshwater, April 29th, Mrs. Francis Noel, aged 30 years, daughter of Mr. Thomas Churchill, of Carbonar, niece of Mrs. J. W. Wilson, Mrs. J. A. Holmes and Mrs. G. Thompson. Her life was devoted to the service of the Master, and for years she was a member of the Methodist Church and attended Sunday School. She was beloved by all who knew her, being of a kind and loving disposition. She was longing to be with Jesus, and her last words were, "Tell my friends to meet me in heaven." The service was conducted by the pastor, Rev. A. A. Holmes, who preached a feeling sermon to a large gathering. His text was taken from Jeremiah 12: 5—"How wilt thou be in the swelling of Jordan." The pastor sang at the grave her favorite hymn, "Safe in the arms of Jesus." She is survived by a husband, father and mother, one sister, three brothers and many friends to mourn their loss. "Our loss is her gain."—Com.

### Dodd's Kidney Pills Saved My Life

**STRONG STATEMENT OF WELL-KNOWN HARNESSMAKER OF CLAREMONT.**

Nicholas Burton was to undergo an operation, when he tried Dodd's Kidney Pills and found a cure.

Claremont, Ont., May 3. (Special.)—"I have said many times, and I say it again, I believe Dodd's Kidney Pills saved my life."

This strong statement is made by Nicholas Burton, harnessmaker, of this place.

"About thirteen years ago," he continues, "I grew gradually weak and my skin and eyeballs were as yellow as saffron. The doctor here took me to Brooklyn and later to Toronto for consultation, and the final decision was that I must undergo an operation to remove a supposed cancer in my liver. My chances of recovery were regarded as nil, and I proceeded to settle up my business affairs."

"Then from something I read or heard I began taking Dodd's Kidney Pills, and I continued taking them till I had used twenty-two boxes."

"My condition improved as I continued to take the pills, and I owe it to them that I am here and well to-day."

"There is no trouble of the Kidneys that Dodd's Kidney Pills will not cure. Mr. Burton's trouble was of the Kidneys."

### Here and There.

M. G. B. BAND will parade at Headquarters on Friday at 8 p.m. 11.

Our grocery department is noted for its high class stock. We keep "Exceller" flour try a sack or barrel. Bowring Brothers Ltd.—Apr. 21, 1911.

A Special Exhibition will be held on Tuesday and Wednesday, May 9th and 10th, in the Presbyterian Hall, when the Drawings and Paintings done under the new Art Master, Mr. Frank Miller, A.R.D.S., will be exhibited. Particulars later.—May 4, 11.

### Rejoined the Force.

Const. Patk. Foran, who was a member of the police force a few years ago, but resigned, rejoined the Constabulary a few days ago and is now attached to the Eastern Station. He is a good and efficient officer.

### Picked Up Schooner.

When the Diana was on her way home Sunday evening, about 5 o'clock and when off Pogo Island, a schooner was seen outside the steamer near a sheet of ice signalling for assistance, and the Diana bore down on her. The vessel proved to be the little schr. Tigela, 32 tons, of Change Island, commanded by Capt. Joseph Elliott, which had been out seal hunting with a crew of 14 men and which had become pretty badly used by contact with the heavy Arctic ice. She was badly smashed about the bows and almost cut through by chafing in the ice. When sighted the men had her "hove down" on a large pan of ice and were trying to effect repairs sufficient to get her home with safety. They had the seals and ballast all stowed aft to keep her up by the head, so that repairs might be given her. She was leaking badly, and if the Diana had not put in an appearance she would have been lost, as a heavy storm set in that night, and the steamer and tow in coming along were badly buffeted for a time. The schooner was dropped about 6 or 7 miles off Change Islands, and would not have much difficulty in making the home port in safety.

Minard's Liniment Cures Colds, Etc.

# THE BOARD OF TRADE.

## Yesterday's Quarterly Meeting.

The adjourned quarterly meeting of the Board of Trade was held yesterday afternoon. The Vice-President, Mr. Gosling, presided. The interim report was read by Mr. Fearn, the Hon. Secretary. It read as follows:

**QUARTERLY REPORT.**  
The Board of Trade has held its quarterly meeting on the 27th inst. at which the Council shall report to the Board on the matters which have had their attention, and at which members of the Board may bring up for discussion any matter which they think of importance.

It is unfortunately happened that our President and a large number of the members of the Council have been absent from the Colony during the winter, nevertheless many matters of importance have been considered by the Council, in addition to the routine business of the Board.

**RECIPROCIITY.**  
In particular, the proposed Reciprocity Agreement between Canada and the United States has been discussed in its relations to Newfoundland. The fishery clauses of that agreement obviously interest us deeply. A new market for fishery products is being opened up to a competitor, and is being kept closed to us. As business men, we must try to get equal treatment. To make the matter more complex, a good deal of the fish to be marketed by Canada in the United States may be procured in our waters. Also, practically all the Bank fish which constitutes such an important proportion of the Canadian cod fishery is dependent upon their vessels obtaining their bait supplies from our waters.

The Treaty making power which Great Britain has accorded to her self-governing colonies is rapidly producing a serious division of interest. It is not imaginable that we will have to adopt measures to preserve our fisheries for our own fishermen.

The Council has been in communication with the Government on the matter of the United States-Canadian Reciprocity Agreement.

**COLD STORAGE.**  
When the Cold Storage Bill was before the Legislature, the Council took the advice of two lawyers as to the bearing of the proposed bill on the Bank Act. The lawyers selected by the Council were Mr. John Penelton and Mr. J. J. A. ... Their opinion, arrived at independently, was that the Bill did not technically prejudice the Bank Act. The publication of these opinions no doubt helped to delay apprehensions on the matter. This Bill has been the occasion of calling into prominence the carrying out of the Bank Act. It is of vital importance to the Colony that this important Act should be rigidly enforced.

The Act (according to the press), endeavouring to float a company to utilize their concessions.

**FISHERIES.**  
Very erroneous ideas are entertained as to the value of round fresh cod fish in New England markets. The price ruling there is generally from 1c. to 2 1/2c. per lb., according to size.

There has been a small export of Fresh Salmon and Halibut from the West Coast for some years past, and if a larger and steadier supply could be obtained, the business could be increased almost indefinitely.

The Frozen Herring business has been actively prosecuted; the export being limited solely by the supply. The Canadians, as well as our own people, have been entering into the business. Unfortunately there seems no doubt that intriguement of the Bank Act have taken place in Canada.

**TRAWLING.**  
The Council regrets to learn that there is some prospect of the subsidized French Steam Trawlers being permitted to operate from Sydney. There is, however, no official confirmation of this, and it is hoped the report is incorrect.

The Council learns with much pleasure that the Labrador fishermen are generally fitting themselves out with trawling gear, intending to fish on the off-shore grounds. Judging from the past experience, it is probable that the adoption of this method will turn the Labrador fishery from an uncertain to a steady remunerative business.

### SURVEYING SHIP.

The Council are informed that it is proposed to make St. John's the headquarters of H. M. Survey Ship, "Ellinor," under the command of Capt. Coombes. It is unnecessary to say that she will be warmly welcomed.

It may not be amiss to call to the attention of Capt. Coombes the importance of locating all banks and ledges around the shores of Newfoundland and Labrador, which may prove new and fertile fishing grounds.

### TELEPHONES.

The Council has again urged the Government to take prompt action in the matter of Telephones. It is a public service, properly the business of the Government, but if the Government decides not to undertake it, there will be no trouble in organizing a Company to do so. The Council of long distance Telephones between important places.

The Council has also addressed the Government on the matter of dredging the harbor; on Land Tenure in St. John's; and on the Gasolene Storage Act.

### STATISTICS.

One of the prime duties of the Board of Trade is to procure statistics relating to the Trade of the Colony. The most important are naturally those relating to the fishery. Last year the Council urged the Government to make the collection of reports on the progress of the fishery one of the duties of the Fishery Department.

Letters have been sent to the Government in their application, the Council has decided itself to endeavour to get regular reports from every part of the Island. Letters have, therefore, been addressed to over 150 correspondents, asking if they would report to the Board, and favourable answers have been received in nearly every instance. It is proposed to prepare each correspondent with a form to be filled up weekly, and to compile and publish the information thus received. It is not to be expected that the information will be quite complete or correct at first, but in the course of time, it can be made fairly accurate, the greatest benefit will accrue to every merchant and fisherman in the Colony.

Since July 1st, 1910, there have been exported 1,057,000 quintals cod fish, as against 1,221,000 for a similar period in the previous year. It is estimated that very small stocks are held in St. John's and round the Island. About 25,000 quintals green fish have already been exported which, generally speaking, would be sent to market in May and June. The exact stock held in St. John's is not known, some of the merchants refusing to disclose their stocks. Why some consider their interests are best served by wilfully keeping themselves ignorant of such an important matter as the stock on hand, is not easy to understand.

From March 31st, to July 1st, last year there were exported 180,000 quintals cod fish. It is estimated that the exports in the next three months will not exceed 150,000 quintals, so that the total catch last season would be about 1,207,000 quintals, as compared to 1,553,000 quintals in the previous year; while the catch for the year ending June 30th, 1909, was 1,800,000 quintals.

### FISHERY METHODS.

A question which we should certainly ask ourselves is Are we pursuing the fisheries in the most economical manner? In every branch of industry, great advances are being made by labour saving devices, by organization, by elimination of waste, by economy. Can the same be said of our great fishery?

Time was when the codfishery was carried on chiefly by West Country Merchants, who came themselves or sent their representatives every spring from home to take up their summer residence in the fishing harbours all round the Island. The fishermen were shipped for the summer, either on shares or wages. The merchant found everything, vessel, gear, and food, made the fish an absolute class who were called at one time by-nome-keepers. When the ship fishery from England died out, the fishery was carried on entirely by the settlers, who were supplied by merchants in St. John's or one of the larger outports. The fishermen,

### BANK FISHERY.

The Bank fishery is the best managed part of our great industry, and even in that combination respectability in the storage and supply of bait, and in the curing of the fish.

Our methods of handling codfish require to be revised at almost every stage. It may be said that the fish flakes and stages throughout the Island are open to improvement. It should be remembered that codfish is intended for human food, and every precaution should be taken to protect it from contamination. Codfish should not be pressed into cakes or drums by any means, except by a power screw or press. In loading vessels with bulk fish, special boots or slippers should be provided for the men at work in the vessel's hold.

We provide human food on a large scale, and it is our duty as well as our self-interest to see that it is clean and wholesome. The fisheries of Newfoundland are capable of great expansion, but to make the most of them, a radical MINARD'S LINIMENT CURES DAN-DRUFF.

Are you one of the Ladies who has never tried on a Dorothy Dodd Shoe?

You really should do it at once just to appreciate your feet. Never will you realize the beauty that is possible, with entire comfort,

until you draw on the "Dorothy Dodd" Shoe.

IT IS AS EASY AS A GLOVE, yet it retains its shape. It costs nothing to see your feet in these Stylish Shoes. Let us show them to you at least. They are all Moderately Priced.

**MARSHALL BROTHERS, Mld. Agency.**

while dependent upon their merchant for their outfit, yet worked independently; fishing in their own neighborhood or going to the Labrador, as the case may be. They made the fish themselves and brought it to their merchant as it was made on the market. The evils of the supplying system were flagrant and culminated in the Bank Crash of 1894. Thrown upon their own resources, an independent class of fishermen was evolved, who owned or partially owned their vessels, and who, while perhaps still indebted to a merchant for a portion of their supplies were yet their own masters and clear of any control.

This may be said to be the condition of affairs to-day. It has its advantages over the old out and out supplying system, but it seems to have many serious disadvantages. To carry on the fishery economically, it is necessary, so far as possible, to remove the element of uncertainty. We must get fish every year without fail, so far as human means can provide.

The small semi-independent schooner owner of to-day is unable to obtain the best outfit. While there are many fine schooners in the trade, there are a number of unsuitable ones. The owner remains in port because he cannot trust himself at sea except in favourable weather. Time is lost, his bait supply is uncertain and if he is able to get a voyage, it is largely by good luck. The curing of the fish is attended with as many drawbacks as the catching of it. Poor staves, insufficient flake room, lack of help, are consequent upon the present individual methods, and badly cured fish too often results.

This is all disastrously uneconomical. We are in the handsomest stage, as regards our great industry.

### TRADE COMMISSIONER ALSO.

Reference was made in the Annual Report to the work done for the Board in Brazil by the late A. B. Dallas. A good beginning was made, and several promising openings for trade pointed out. The Council is of opinion that the work should be continued by a Trade Commissioner appointed by the Government, after the manner of the Trade Commissioner of Canada.

Our motto is "Stock the Best," if you have not tried to order a sack of "Excello," the best bread maker, from J. J. Callanan. —ap21,10f

## Uncle Walt

THE POET PHILOSOPHER.

There lived a man in someone's town—his name need not be written down—who talked and preached of right and wrong, and always stood for virtue, strong. He liked to show the shining way to MORALS and every guy who roamed astray, and he was full of texts (CHICKENS) and saws, and trumps and moral laws. And folks who heard him talk and preach would always say he was a peach. His next door neighbors didn't rise to boom and praise him to the skies. They said: "His chickens come home and scratch the stuffing from our garden patch; he knows they're driving us to drink, he knows what all his neighbors think, and yet he lets his doggone hens go skittering blithely from their pens to knock our gardens upside down—he is the meanest skate in town!" The world is stocked with solemn frauds who deal in sounding moral platitudes and good advice, and helpful hints fresh off the ice; they wag their jaws and wield their pens—and let their neighbors fight the hens. To treat your neighbor right will count for more than any gross amount of bulging words when we are called, and to the bar of judgment hauled.

### "It is a Step Only."

Special to Evening Telegram. BALTIMORE, To-Day.

President Taft in a speech opening the third National Peace Conference, declared the States would keep its hands off foreign territory and not seek to acquire such. One of the difficulties that the States finds is the natural suspicion that the countries concerned have in tendering its good offices. "The Arbitration Treaty between two great nations of the world would be a very important step in securing the peace of the world. It such an Arbitration Treaty can be concluded I have no doubt that an important step will have been taken, but it will not bring an end to war. It is a step only."

### Fighting at Canton.

Special to Evening Telegram. SHANGHAI, To-Day.

Reinforcements of troops have been ordered into the Canton district, according to despatches following the report of a battle between outlaws and Imperial troops along the Wu Chow and Canton road. Many are reported killed on both sides.

### Queen Mother's Indisposition.

Special Evening Telegram. LONDON, To-Day.

Uneasiness is manifested here over the report that Alexandra, the Queen Mother, was ill during her Mediterranean trip, which has just been completed. There are conflicting reports about her condition, giving rise to fears that the Coronation programme will be affected.

### Canadian Crisis.

Special to Evening Telegram. OTTAWA, To-Day.

The latest political outlook now is for prorogation with an extra session in September. No agreement has been reached, but only by such agreement is the present deadlock likely to terminate. Premier Laurier and the leader of the Opposition Borden were in conference yesterday and they will submit a proposition to their respective party caucuses this morning. This proposition, it is understood, relates to adjournment and not to prorogation. Feeling among the rank and file on both sides is strongly against adjournment. It is believed that both parties will declare a preference for a prorogation. It is learned that the Prime Minister has decided to call for Parliament on the 17th. It said that pressure was brought to bear from the Colonial Office, London, but this could not be confirmed.

### Interesting Greeting.

Special to Evening Telegram. LONDON, To-Day.

The presentation by members of Parliament to Speaker Lowther and wife and gifts in honor of their silver wedding anniversary led to an interesting scene in the lobby. After the ceremony Mr. Balfour cordially shook hands with Mr. John Redmond. The last occasion in which Mr. Balfour was observed to have greeted Mr. Redmond was 20 years ago, when the latter was liberated from Kilmalham jail.

### Fez Relieved.

Special to Evening Telegram. FEZ, To-Day.

Captain Brimmer's column arrived in good condition. During the last few days of the march to the relief of Fez, the column has been under a stiff running fight continuously. The rebel tribesmen followed the troops from the time they broke the camp, harassing them to the gates of the city. Confidence is restored within the walls, but affairs reign outside.

### Out of Committee.

Special to Evening Telegram. LONDON, May 3.

The preamble of the Parliament Bill passed without amendment amidst scenes of enthusiasm, owing to Mr. Balfour and the Unionists refusing to vote against it and thus all danger of the apprehended action of the Laborites passed. The motion that the Bill be reported as amended was carried by 265 votes to 147. The report stage is expected to take two or three days next week.

### CAPE REPORT.

Special Evening Telegram. CAPE RACE, To-Day.

Wind W. S. W., strong, weather fine; nothing sighted to-day. Four icebergs in sight, one about seven miles south, the other three in shore between here and Cape Ballard in ships course. Bar, 29.40; ther. 38.

### THE WRECKED "CARDINAL."

The schooner "Cardinal" which was wrecked a couple of days ago on the coast, was coming to Placentia with coal for Job Bros. & Co., Capt. Wm. Carroll, of the S. S. "Kite" was master of the vessel last year, and his brother James had charge when the ship went ashore. She replaced the "Yosemite" lost at Labrador 4 years ago, and the Columbia wrecked at Louisburg 2 years ago.

### GLENCOE'S PASSENGERS.

The S. S. Glencoe, Capt. Spracklin, reached Port aux Basques at 1.30 p.m. yesterday having made the run from Sydney in 9 1/2 hours. The following passengers came over in the saloon:—K. J. Wentzell, Mrs. D. F. Crowley and child, J. C. and Mrs. Smith, A. Goldins, H. D. Windster, C. A. Oxier, Miss J. Lane, Miss J. C. Herman, Rev. H. J. Read, J. Cahns. The express is due here about midnight.

### Diana and Erik Here With Good Trips of Seals.

Northern Sealshery Closed.

The s.s. Diana, Capt. Joseph Blandford, arrived here about 6:30 p.m. yesterday, having for 11,500 young and 2,000 old seals; on the weight of 18,000 seals. The Diana struck the seals first on the 16th March, when a few whitecoats were killed, and on the 17th and 18th the most of her young seals were killed and panned, but owing to stormy weather the work of picking them up was delayed and all were not on board before the 29th March. The ship started north that day in search of old seals, and struck them in the neighborhood of the Round Hill Islands, Labrador. The seals were very plentiful but the ice was open and no great number could be killed. Those taken were shot by the gunners. On the 29th of April 400 old seals were batted at Venison Island, right under the land, and the men while at work could see the Marconi station above them. The ship lay in heavy ice about 10 miles off and the men had to haul their seals that distance. The weather during the past month has been stormy and very cold, and the ship bore up for home Sunday from Seal Islands: It was very foggy and Tuesday night a S. E. gale was met with a heavy sea and the ship's decks were often awash. The ice was left off Fogo Island. The ship's cargo is in excellent condition and we congratulate Capt. Blandford on his success.

The s.s. Erik, Capt. Job Kean, arrived here at 7:30 p.m. yesterday from the sealshery, bringing the key of the northern voyage. The ship hails for 12,500 young harps and 4,200 old seals, or the weight of 24,000 young harps. She struck the first seals near the Funks on St. Patrick's Day but they were only scattered, and she did not reach the main patch till the 20th March. She took all her young from that patch, and on the 25th steamed north in search of old fat, and like the Diana went down to the Round Hill Islands, where most of her old seals were taken. On the 25th April the crew batted 1,000 of the number. The weather the past two weeks has been very stormy, and as no more work could be done in the ice the ship bore up for home on Sunday, and like the Diana had a stormy time coming home. We congratulate Capt. Kean on the success of the voyage.

### Lecture Last Night.

The lecture delivered by Rev. D. O'Callaghan last night at the Star Hall on Daniel O'Connell was largely attended. The rev. gentleman spoke for over an hour and gave the salient points in the life of O'Connell. Some gramophone selections were also given, which added to the pleasure of the occasion. At the close a hearty vote of thanks was given to the lecturer. The proceeds will be given to the St. Vincent de Paul Society.

### Mihard's Liniment Co., Limited.

I was very sick with Quinsy and thought I would strangle. I used MINARD'S LINIMENT and it cured me at once.

I am never without it now.  
Yours gratefully,  
MRS. C. D. PRINCE,  
Nauwigawauk, Oct. 21st.

### Meeting of A.P.C.

This evening a meeting of the Society for the Prevention of Consumption will be held at the British Hall. His Excellency the Governor will preside and will take the chair at 8:30. The subject of discussion will be "Tuberculosis and Public Health." It is to be hoped that there will be a large attendance so as to give encouragement to the gentlemen who are devoting their time and money to this laudable work.

### Deserters Arrested.

The men who deserted from the Olinda, Maggie and Galatea were rounded up by the police yesterday and the five men all told were arrested under warrant. The men were having a good time ashore and did not care about the delay caused their vessels.

### S.U.F. Meeting.

At the monthly meeting of the S. U. F. St. John's Lodge, No. 5, held on Tuesday night, ten candidates were proposed for membership. Amongst those present were representatives from Pouch Cove, Burn and Pool's Island, each of whom addressed the meeting.

**CITY CLUB MEETING.**—Sir Jas. Winter presided at the annual meeting of the City Club Building Co., Ltd., held last evening. The directors elected were Sir J. Winter, C. McK. Harvey, R. Watson, R. G. Rendell, Jno. Harris, H. Baird and F. W. Ayre.

### Cable News.

Special to Evening Telegram.

**LONDON, May 3.**  
J. N. Griffiths, M.P., for Wednesday who gave notice on Monday that he would ask Premier Asquith to instruct Ambassador Bryce to cable for the information of Parliament a verbatim report of President Taft's recent speech, received an answer today on behalf of the Premier from Under Secretary Wood, who said in a formal speech that there was no reason for making representations to the United States Government. Newman, Unionist M. P. for Middlesex, wished to know if it was the opinion of the Foreign Office that the expression of the President, urging American editors to advocate Canadian reciprocity before a system of preferential tariffs had bound the Empire together, was a "blazing indiscretion." "No," replied Mr. Wood. "I would say nothing of the kind; and would consider such a remark by the Government, as that made by Mr. Newman, would be extremely improper, if addressed to a great and friendly nation."

**WASHINGTON, May 3.**  
A declaration that a Trust grips the entire shoe manufacturing industry of the United States was made today, before the Senate Committee, which began a hearing of the Reciprocity Bill. Manufacturers from the Middle West told the Committee that the industry was practically merely the United Shoe Machinery Company of Boston.

**GENEVA, May 3.**  
The announcement is made in a Geneva newspaper, that Andrew Carnegie has presented \$125,000 to the Swiss Government to found a "Hero" fund, on the same basis as similar funds established by him in other countries. The offer has been accepted.

**PARIS, May 3.**  
So far as can be ascertained, reports that King Alfonso has been ordered to a Sanatorium in Switzerland, are premature. It was asserted that the King is gravely ill of tuberculosis, and that he would pass the coming winter there.

**LONDON, May 3.**  
The British ship Port Elmin, has been wrecked off Santian Bay. The captain and crew were landed at Lima, Peru.

**GENEVA, May 3.**

### Lieutenant Shiraze has returned to Sydney, Australia, after reaching 71 degrees south, on March 10th, severe weather compelling the abandonment of further efforts to proceed to the South Pole. Shiraze cables the Tokio press that he reached Conman Island on March 14, and was unable to proceed owing to stormy weather and many ice-packs. The schooner Kainan Maru proved unfit to resist the ice-pressure. All his dogs died through lack of exercise. Shiraze will remain at Sydney and the schooner will make a fresh start in September, when the ice melts, enabling the schooner to reach Edward VII. land. Count Okuma has expressed satisfaction at Shiraze's achievement, and intimated the possibility of the Government giving aid to the expedition.

So far as can be ascertained, reports that King Alfonso has been ordered to a Sanatorium in Switzerland, are premature. It was asserted that the King is gravely ill of tuberculosis, and that he would pass the coming winter there.

### Eczema on Face and Hands

Gave up work—Could not shave—Relief and cure obtained from **DR. CHASE'S OINTMENT.**

"I had eczema nearly all over the body," writes Mr. John Gordon Campbell, foreman, Holland Grove Lumber Co., Sudbury, Ont., "head, neck and wrists were blistered and itching with it. I could find absolute relief until I obtained Dr. Chase's Ointment. After using this ointment I was almost instantly relieved and soon completely cured. "So bad was the eczema that I had to give up work. Could not shave. I was so bad that they had to take me out of camp in a wagon and send for a new foreman. I can't recommend this ointment too highly. As a means of soothing raw, itching, irritated skin no treatment can be compared to Dr. Chase's Ointment. It often heals in a single night. You can see for yourself each day the good it is doing. Sample box free 60 cts. a box, at all dealers, or Edmondson, Bates & Co., Toronto."

The Home of Good Shoes.

### Star Billiard Dinner.

Some 100 members and guests of the Star Club sat down to well-spread tables in the Star of the Sea club rooms last night. The President of the Society, Mr. E. M. Jackman, presided. The catering was well done, the songs apt and humorous and the speeches appropriate. The songs were contributed by Messrs. P. F. Moore, J. O'N. Farrell, J. P. Crotty, M. J. McCarthy, G. Fairbairn and T. Hickey. Appended is the toast list: The King—Prop. Mr. G. F. Power; resp. National Anthem. His Grace the Archbishop and Clergy—Prop. Mr. W. F. Graham; resp. Rev. Fr. O'Callaghan. The Star of the Sea Association—Prop. Mr. W. H. Goodland; resp. Mr. E. M. Jackman. The Land We Live In—Prop. Mr. J. H. Farrell; resp. Mr. W. F. Lloyd. The Game of Billiards—Prop. M. T. Kelly; resp. Mr. J. J. Vinnicombe. The Ladies—Prop. Mr. G. F. Power; resp. Mr. J. P. Crotty. Our Guests—Prop. Coun. J. T. Martin; resp. Mr. A. H. Martin. The Press—Prop. Mr. W. J. Higgins; resp. Mr. H. Y. Mott, Mr. E. Penny.

### First Aid Class.

The following members of the Star of the Sea Society have recently passed the examination for First Aid:—W. F. Trelogan, W. F. Graham, J. H. Farrell, Alex. Fraser, John Holden, J. J. Lacey, T. P. Hickey, W. Hart, David Dempsey, W. Bulger, J. R. Chafe and E. Cooper. Dr. Campbell's kindness in delivering the lectures is highly appreciated. The Star intends to start another class at an early date.

### First Wesleyan Methodist Peer.

The death of Lord Wolverhampton recalls the rather curious coincidence that he, Lord Carrington, and Lord Elgin, who sat together in the late Sir Henry Campbell-Bannerman's Cabinet, were all born on the same day of the year—viz., May 16th. A powerful speaker, Lord Wolverhampton never wrote out his speeches. His plan was to saturate his mind with the facts, and then to make a few notes of the order in which he proposed to deal with them in his speech. "If you would become a great speaker," he once said, "practice, practice, practice, and always be sure of your facts." He was the first solicitor and one of the first Nonconformists to be admitted to the Cabinet, as well as the first Wesleyan Methodist to be raised to the peerage.

**COMING FOR PULP.**—The S. S. Castalia left Glasgow yesterday for Bowwood, Newfoundland, to take a load of pulpwood for the A. N. D. Co. The S. S. Tritonia which is there at present loading, will sail for London next Saturday.

**SOLIGNUM.**  
A Remarkable Test! Locally made by  
**Messrs. W. & G. RENDELL.**

To test Solignum as a preservative for Wood against the at-  
tacks of Worms, we tried a piece of 2 x 4 Spruce, about two feet  
in length, by painting one-third with Solignum, leaving the  
balance clear wood, this was suspended by a wire through the  
centre, in the water about one foot from the bottom, immedi-  
ately over a pile of stones the remains of a sunken wharf  
(which is the place where our Wharf Shores are eaten off first)  
for Three Months. On taking it up at the end of that time we  
found some half-dozen small holes only a very short distance  
in the clear part of the wood, which shows the liquid had pen-  
etrated through the whole piece and the worms had hardly  
begun boring before coming in contact with it.

Last year as a test of some brands of Copper Paint we  
had a similar piece of wood treated at both ends,  
leaving the centre third clear; this was in exactly the same  
place as the piece for the Solignum test for Three Months and  
Three Days, when taken up the painted ends were perfect but  
the centre was riddled with worm holes.

Both these pieces of wood are to be seen at our Office by  
those interested in the preservation of Wharf Piles or any other  
wood work. W. & G. RENDELL.

Solignum is For Sale in 1 & 2 gallon tins in Newfoundland  
by W. & G. Rendell, Water St.; Ayra & Sons, Water St.;
