MADERO'S WIDOW AND BROTHERS NOW SAY THAT HE WAS KILLED AND THAT HUERTA IS ASSASSIN

Widow Says Former President of Mexico Was Murdered in Bed and Proves It by Pictures—Says Huerta Is Unfit to Be Executive Head of Mexico.

(Special to The Toronto World.) WASHINGTON, July 20.—Senora Madero, widow of the President of the Republic of Mexico, in an interview given out here today, declares that her husband was brutally murdered in his sleep in the rooms of the superintendent of the palace, where he was a prisoner, and not killed while being conducted to prison, as was given out at the time.

Senora Madero declares that when her husband was shot he was not clothed. This she tries to prove by photographs of the room he occupied in the palace, from which he was taken to the prison, where it was said he was shot. He had only one suit of clothes, Senora Madero declares, and this suit is shown in the photographs of the room.

"My husband was slain in the rooms of the superintendent of the palace while he was asleep," said Senora Madero, "and there were dozens of pieces of circumstantial evidence to prove it, as well as the repeated boasts in the streets in Mexico by Cardenas, then captain, now colonel, that he is the man who did the killing. This man has even exhibited the knife with which he stabbed my husband, and the revolver with which he struck him on the head while he was sleeping."

"Gustavo Madero, my brother-in-law, had been slain at the arsenal four days before. When my husband was arrested and conducted to the rooms of the superintendent of the palace, we feared the worst. I tried to see him; they would not let me. I tried to send him food and they would not let me, until the last day."

"No Bed Until Last Day. For the first couple of days of his imprisonment he had to sleep on a bench, and they would not let me send him a bed until the last day. On that day evidently the details of the plot had been concluded, and they wanted him to have a bed and to be asleep that night in it with Pino Suarez."

"The tragedy occurred about 10.30 or 11 o'clock the night of Saturday, Feb. 22. Ten minutes later it was whispered that he was dead."

"I myself," said he, "feel that those guilty of this high-handed iniquitous business have gone beyond their legal scope. I am informed on good authority that we have excellent grounds for a legal battle."

With Township Clerk Alex. McPherson in the chair, the meeting was called to order. The arrival of Dr. Winter, who it is alleged, secured the controlling interest of the cemetery, and who is interested in the firm of subdividers, soon brought down on him an excited group, demanding to know where he got the right to utilize 40 odd acres of property which for 20 years had been registered as a cemetery, as subdivision property.

"I've got a mother on one side of the fence and a brother on the other," declared one man, "and it's simply up to us to see if there isn't some law that can stop these grafters in their nefarious business."

James Johnston, the convener of the meeting, in a written declaration, said that he, as an ex-director of the cemetery company, had been approached by so many outraged persons with relatives in the burying ground, that he deemed it advisable to hold a meeting for the purpose of organizing, and if it was the desire of those interested in the grounds, to take legal action.

AMERICAN CONSULS ORDERED TO MEDDLE IN MEXICAN POLITICS

The following telegram has been quoted through Mexico as evidence of Ambassador Henry Lane Wilson's meddling in that country's internal affairs. It was posted outside the American Consulate in Monterey: "TELEGRAM RECEIVED FROM AMBASSADOR WILSON, MEXICO CITY, BY CONSUL-GENERAL HANNA, MONTEREY: 'MEXICO CITY, D.F., Feb. 21, 1913, 4 p.m. 'American Consul-General, Monterey: 'You are requested to inform all consular officers under your jurisdiction by telegraph as follows: 'Provisional government installed yesterday with Gen. Huerta as president. Reassuring reports come from other places. President Madero is a prisoner awaiting the decision of congress in his case. Senate and house of representatives in full accord with the new administration. 'You should make this intelligence public, and IN THE INTERESTS OF MEXICO urge general submission and adhesion to the new government, which will be recognized by all foreign governments today.'"

THE TURKS ENTER ADRIANOPLE AFTER DEFEATING BULGARIANS

Troops Are Burning, Pillaging and Committing Atrocities, and Events of Last Few Days Indicate Complete Collapse of the Authority of Europe.

ROME, Monday, 6 a.m., July 21.—A despatch from Sofia, Bulgaria, dated Sunday, reports: "The Turks have entered Adrianople after a short conflict with the small Bulgarian defending force."

"The Bashibazouks are burning, pillaging and committing atrocities. "Roumanian troops are advancing in an easterly direction, threatening eastern Roumelia. "The events of the last few days indicate a complete collapse of the authority of Europe."

DORAN'S BODY IS FOUND IN RIVER

No Trace Has, However, Been Discovered of Men Said to Have Accompanied Him.

BROCKVILLE, July 20.—(Special.)—The mystery surrounding the disappearance of Wesley Doran, the Brockville molder, who had not been seen since July 12, when he left home on a fishing trip on the river, in company with Nathan Empey, was partly cleared up today by the finding of his body on the American side of Ogdensburg. This point is about 18 miles from the vicinity where Doran is supposed to have been drowned, whether by accident or otherwise, investigation will endeavor to determine. Upon word being received here by the chief of police, relatives were at once notified and proceeded to Ogdensburg, where the body was discovered and brought here by motorboat. Immediately afterwards Coroner Jackson opened an inquest, which was adjourned for the hearing of evidence.

Altho the police have been working hard on the case throughout the week, their new developments since the arrest of Empey on a charge of manslaughter, sworn to by C. W. Place, brother-in-law of Doran. No objection was taken by the defence in the case of the coroner's inquest in the meantime will most likely guide the course of the prosecution, when Empey's hearing is resumed.

Mysterious Strangers. The accused still stoutly maintains that Doran on the night of July 12, transferred himself to another skiff occupied by two men, and proceeded up the river again. This was the last he saw of him. He started out a few hours before, fishing. The men were unknown to Empey, but Doran is alleged to have been quite friendly with the pair, calling one of them "Fred." The police have been absolutely unable to establish the identity of the strangers or find the least trace of them.

Doran and Empey worked together on the same floor as molders for seven years, and there is nothing to show they were not the best of friends. The dead man was a lifelong resident of Brockville, and was about 40 years of age. His wife and family have been living for some time on an island, Ohio, where he supported them.

NEW BULGAR CABINET. SOFIA, July 20.—(Can. Press.)—The new cabinet under the leadership of M. Radostoff, the Liberal leader in the Bulgarian Parliament, has been constituted as follows: Premier and minister of the interior, M. Radostoff; minister of foreign affairs, M. Guentcheff; finance, M. Toncheff; justice, M. Pecheff; war, Guentcheff; commerce, M. Blatoff; public works, M. Dimcheff; railways, M. Morphoff.

TEACHERS OUGHT TO INTERCHANGE SAYS PYNE

Suggestion Made at Imperial Union in London Moves Watson Raine of Montreal to Remark That Ontario Is Greatest Obstacle to Reciprocity of Teachers.

LONDON, July 20.—(C. A. P.)—Queen Amelia of Portugal successfully inaugurated an imperial union of teachers on Saturday at the annual meeting of the teachers' association, which is being attended by 3000 delegates from all parts of the empire.

He hoped one of the subjects discussed would be reciprocity among the teachers. If some scheme could be brought into being whereby the well-trained teachers of Great Britain, Australia, Canada and New Zealand, etc., could get their qualifications recognized in every part of the empire, it would be a great advantage.

Ontario to Blame. Watson Raine of Montreal said the great obstacle to reciprocity in the teaching profession in Canada was the Province of Ontario. He would like the minister of education for Ontario to take the first step toward establishing reciprocity in Canada. He believed reciprocity, like charity, began at home.

Professor Gardner of London University proposed in view of the great advantage to education and the teaching profession generally, that teachers should gain experience in other countries than their own, and the dominion governments be urged to grant them special facilities for gaining professional experience when visiting any part of the empire. The resolution was carried unanimously.

FLEET IS READY FOR AUSTRALIA

Completion of Dreadnought Cruiser Marks Last Stage in Construction of Naval Defence Unit.

LONDON, July 20.—(C. A. P.)—Australia is forging ahead with the preparation of her naval defence and today the last section of her fleet unit, the Dreadnought cruiser Australia, is all completed for sea. She leaves Portsmouth for her new home port, Sydney, in charge of Rear-Admiral Sir G. Patey, who is first admiral of the first dominion fleet. The light cruiser Sydney, which will accompany her, arrived in their home waters will bring the Australian navy up to a very respectable strength.

The sister ship of the Sydney, H. M. S. Melbourne, is already in commission there with three ocean-going destroyers and a third light cruiser, H. M. S. Brisbane, and three more large destroyers are now being built at Cockle Island yards in Sydney harbor. The Light cruiser Encounter, has been lent temporarily to the Australian Government by the home navy, and the small cruiser Pioneer has been given to Australia, each for the purpose of training and enrolling Australian seamen.

THIS LADY FOUNDED "THE HUNGER STRIKE" Miss Elsie Mackenzie, One of England's Militant Suffragettes, Will Address Meeting.

Toronto women may hear Miss Elsie Mackenzie, the woman who first thought of the hunger strike, as an effective weapon toward gaining the suffrage, when she speaks in the Frances Willard Hall, 22 Gerrard street, this evening at 8 o'clock.

While the police were engaged in various parts of the city at dawn on this morning, was frustrated by the police, who had been warned and were on the look out. They captured several automobiles, in which they found baskets of bombs, and arrested a large number of persons who had gathered in groups in the streets.

Some children playing in the streets, later in the day, found two bombs. A boy hit one of the bombs with a hammer and it exploded, wounding him severely.

Greece and Turkey to Sign Peace

ATHENS, July 19.—(Can. Press.)—Peace between Greece and Turkey is about to be concluded tomorrow. The Hellenic plenipotentiaries started from here today for Constantinople to sign the treaty.

BRYAN FAVORS A SUZERAINTY

Latin Republics in Vicinity of Panama Will Be Controlled and Another Canal Barred.

(Special to The Toronto World.) WASHINGTON, July 20.—The recommendation urged by Secretary Bryan, with the approval of President Wilson, before the United States Senate's committee on foreign relations on Saturday, that an American protectorate be established over Nicaragua, with responsibility for national indebtedness, is regarded as the forerunner of a general policy under which the turbulent Latin republics in the vicinity of the Panama Canal may be better controlled.

It is believed the same suggestion eventually will be made for similar suzerainty over such small governments as are susceptible to foreign influence, or subject to frequent revolutions. Its extension to Honduras, it is believed, would be inevitable, as that republic is in the same situation as Nicaragua—helplessly involved in debt.

The reason for protecting Nicaragua is regarded as self-evident. The United States will receive an exclusive permit for all time to construct an interoceanic canal thru Nicaragua. This will forever bar a rival waterway to the Panama Canal. In addition, opportunities will be afforded for the erection of great fortifications to defend the east and west approaches to the Panama waterway. Possession of the Pacific will be given the U. S. for a naval base.

EXTEND SERVICE IN FRENCH ARMY

Chamber of Deputies Gives Substantial Majority—Not Defying Germany, Says Premier Barthou.

PARIS, July 19.—(Can. Press.)—The chamber of deputies late today concluded the debate on the measure which is France's reply to Germany's increase in armaments by passing the three years military service bill. The vote was 358 to 204.

Prior to the taking of the vote, Joseph Caillaux, ex-premier, speaking on behalf of 140 colleagues, made a final attack on the bill, which he denounced as hasty, full of contradictions and supported by the reactionaries.

Premier Barthou said that he recognized none but Frenchmen in a matter affecting the existence of France. He denied that the measure was a provocation to Germany, and insisted upon making the vote a question of confidence. The bill provides for a three year term of service in all branches of the army instead of two, as hitherto, and will add 210,000 men at the lowest estimate to the peace footing of the army, which now stands at 578,738, excluding officers. One clause provides that the term of service shall begin at the age of twenty.

HURL BOMBS IN LISBON STREETS

Policeman Killed and Others Injured—Many Arrests of Advanced Radicals Quieted Disorders.

LISBON, July 20.—(Can. Press.)—An organized attempt at bomb throwing in various parts of the city at dawn on this morning, was frustrated by the police, who had been warned and were on the look out. They captured several automobiles, in which they found baskets of bombs, and arrested a large number of persons who had gathered in groups in the streets.

MRS. PANKHURST ESCAPES THRU WILY RUSE

Police Arrested a Veiled Woman Who Emerged With Halting Steps From Suffragette Leader's Apartments and Were Slow to Discover Error.

LONDON, July 20.—(Can. Press.)—Again Mrs. Emmeline Pankhurst, the suffragette leader, has succeeded in outwitting the police. It was thought that she had been placed under arrest last night, but it was another woman, impersonating Mrs. Pankhurst, whom the police captured in a taxicab, and took part way to Scotland Yard. Then they discovered the mistake and liberated their prisoner.

It was thought at first that the whole affair was a hoax, but it developed into an apparently well-laid scheme whereby Mrs. Pankhurst could escape from her flat by another passage while her impersonator was luring away the police. It is believed that she got away safely during the melee.

A Clever Impersonator. Late last night a woman emerged from the militant leader's flat. She walked feebly and was supported by two friends, who assisted her into a taxicab. The detectives, who had guarded the building night and day since Mrs. Pankhurst escaped in the riot after the meeting of the Women's Social and Political Union on July 12, instantly concluded that Mrs. Pankhurst was attempting to flee. They jumped into the cab as it was driving off, and ordered the driver to proceed to Scotland Yard. Before they reached their destination they lifted the veil and discovered that their prisoner was an unknown woman. There was nothing for them to do but to release her, as she had violated no law.

Mrs. Pankhurst's flat is in a narrow, dimly-lighted street, near parliament. A cab stopped in front of the building shortly before midnight. The three detectives on duty observed two women alight and proceed to the second floor, where the Pankhurst apartments are located. Their suspicions were immediately kindled. They blew their whistles for police reinforcements and awaited developments.

Clash With Supporters. Simultaneously a party of fifty men and women, including a number of stout navvies, gathered at the entrance. A veiled woman, leaning heavily on her supporters, descended the steps. Immediately there was a clash between the police and the organized forces of the militants. Two detectives managed to cling to the cab. After the taxi had rounded the corner the crowd scattered and the street resumed its normal appearance. The lights in the Pankhurst windows continued to glow, and within half an hour the detectives reappeared and resumed their investment of the premises.

In the meantime, however, the flat was unguarded, and later it began to dawn on the police that probably they had been hoodwinked. There were lights in the Pankhurst flat again tonight, and there were detectives in the streets, but all information was refused.

Many mail boxes in London and the provincial cities were partly destroyed during the night, it is believed, by suffragettes.

NEVER PLAY CARDS FOR MONEY STAKES

Duke of Connaught Gives Denial to Story That Prince Arthur Was a Loser.

The Toronto World has received the following letter from Lt.-Col. H. C. Lowther, secretary to H. R. H. the Duke of Connaught: "The attention of His Royal Highness the Duke of Connaught has been called to a paragraph in The Toronto World of June 25, headed, 'Prince Arthur is Unlucky at Cards.'"

"His royal highness desires me to give an absolute denial to the statements contained in the said paragraph. Neither his royal highness himself nor Prince Arthur of Connaught were at Windsor Castle, or near it, during Ascot races, and their royal highnesses never play cards for money except an occasional game of bridge for very modest stakes."

The paragraph referred to was sent to The World in its special cable correspondence. While regretting the error in statement, The World cannot help rejoicing in the opportunity which calls forth such an explicit statement of the attitude of the royal family towards the vice of gambling.

HUNDRED MILLION DOLLARS FOR WORLD FIGHT AGAINST DISEASE

Ambassador Page's Rather Vague Remarks Interpreted to Mean Extension of Scope of Rockefeller Foundation Fund—Study of Anaemia and Hookworm Will Be the Chief Feature.

Special Cable to The World. Copyrighted by The Toronto World and N. Y. World. LONDON, July 19.—Ambassador Walter Hines Page was not willing, when called upon by The World correspondent, to add anything to his brief remark at the Anglo-Saxon Club dinner Thursday night about a donation of \$100,000,000 for an international health campaign.

His attention being drawn to a statement published in The Daily Chronicle here today, the ambassador said that he had seen nine representatives of that paper, but he had not said anything more.

The Daily Chronicle definitely states that the ambassador gave its representative further information, saying: "An international commission. The ambassador pointed out that his remarks had been misunderstood in material points. The great gift is not, as reported, that of a single American citizen, but the foundation has been established by a number of wealthy men in the United States. Dr. Page has no information at present as to their identity. The income from the fund will be administered by an international health commission. One of the members of this commission will visit England before long and probably he would feel at liberty to outline the plans and make known the names of the donors."

For Study and Cure. Dr. Page also corrected a misconception as to the object of the fund. The income which will amount to about \$5,000,000 a year, will be applied to the study and cure of diseases among native races in all parts of the world. Special attention will be paid to the cure of anaemia, which is one of the most prevalent diseases of tropical lands and is peculiarly susceptible.

"When it was pointed out to Dr. Page that there were many poor people suffering from anaemia in the great cities of Europe and the United States and quite as urgently in need of treatment as the Chinese and other native races, the ambassador explained that there was nothing among the white races of the character of the disease which it was sought to combat."

DEATH OF SAILOR WILL BE PROBED

Discharge of Revolver Apparently Accidental, But Companion Is Held.

CORNWALL, July 20.—(Special.)—W. M. McKillop, who was shot by a fellow-sailor on the steamer Algonquin, as the steamer was passing west through the Soulanges Canal about a week ago, died in the General Hospital last night.

Edward Wainwright has been held as a prisoner here since July 12, to await the result of McKillop's injuries. It was claimed by Wainwright that the shooting was accidental. He said he and McKillop were examining the revolver when it discharged.

An End To the Curse Of Wearing Worthless Trusses

No More Rupture Troubles 60 Days' Trial To Prove It. You Don't Have to Risk a Penny. Here is something absolutely guaranteed to keep your rupture from coming out. And you can try it sixty days—make a thorough prove-it-to-you test—without having to risk a penny.

The Clute Automatic Massaging Truss is the only thing of any kind whatever for rupture that you can get on sixty days' trial. The only thing good enough to stand such a long and thorough test.

could be learned today there is no new \$100,000,000 gift for the international health campaign referred to by Ambassador Page in a recent speech in London.

Starr J. Murphy, in charge of the charities of John D. Rockefeller, said yesterday: "The Rockefeller foundation is incorporated at \$100,000,000 and Mr. Page doubtless had that fact in mind when he made his speech. Part of the income from this is to be applied to the fight against anaemia. Mr. Wickliffe Rose has charge of this work. He will leave shortly for England to make plans for widening his investigations."

Extension of Scope. Dr. Rose, who is also director of the Rockefeller sanitary commission, with headquarters in Washington, said yesterday in Washington, that the work of the commission is to be extended and made international.

"A special board," he explained, "will be appointed to have charge of the work of health investigation. I cannot make public today the personnel of this board. We have decided upon the men we want to have serve on it, but we have not yet received acceptance from all of them. There will be no geographical limitations in the work. I do not care to discuss the report that some member of this commission may be from countries other than the United States. We do not intend to start the work on an elaborate scale, but will develop it gradually as the opportunity offers."

The Hookworm Evil. Mr. Murphy explained yesterday that the Rockefeller foundation board has planned to make a scientific study of the hookworm disease throughout the world, similar to that already instituted by the government in the United States. He said, "It is especially prevalent in the south and south of the equator. It is especially malevolent in India, where more than 60 per cent of the natives are affected, according to British Government physicians. In the south farmers report that 99 per cent of the negroes are sufferers."

Dr. Rose will go to India first and will co-operate there with British physicians in studying the malady.

he died, that the shooting was accidental. After McKillop's death Dr. C. W. Hamilton, coroner, empaneled a jury, and after viewing the remains an adjournment was made until July 30.

McKillop's remains were removed to Stoddard's undertaking parlors to be prepared for burial. The funeral will take place on Monday afternoon, to Woodlawn Cemetery, arrangements having been made by the Maple Leaf Milling Co. of Port Colborne, in whose service the steamer Algonquin was engaged.

McKillop was 29 years of age, was a native of Scotland and had no relatives in this country.

CAIMANERA, Cuba, July 20.—(Can. Press.)—Quarantine was declared at the naval station here today on account of two cases of suspected yellow fever aboard the steamship Eydra, which recently touched at Guantanamo Bay, on her voyage from Brazilian ports. The Eydra later proceeded to Havana and thence, after disinfection, to Havana.

EIGHTEEN MILLION LOST BY STRIKES

One Thousand Three Hundred Labor Disputes, in Canada in the Past Twelve Years.

OTTAWA, July 19.—From Jan. 1, 1901, to Dec. 31, 1912, there were 1319 labor strikes in Canada, in which 219,880 men figured at a total estimated cost to the country of \$18,000,000, based on the conservative estimate that the average value of the working day is \$2.

LIBERALS UNITED ON ROWELL POLICY

East Toronto Candidate Says Donly and Mackay Led Ross Astray on Prohibition.

That the Liberals of the Province of Ontario were more united on Rowell's "abolish the bar" policy than at any time since it was inaugurated, and that the calling of a provincial convention of a thoroughly representative character would demonstrate beyond doubt the unanimity of feeling that exists throughout the province in its favor, was the opinion on the situation of E. Fielding, the Liberal candidate for South Toronto in the last provincial election, regarding Hal B. Donly's anti-prohibition broadcast published in his paper.

"I have all along advocated the calling of a provincial convention and believe the present situation calls for such being done," he said. "A convention of this nature has not been held since the defeat of the old Ross government."

The editorial which Hal B. Donly, proprietor of The Simcoe Reformer, published regarding the question of the personal views of the man who is not at the present time, and never has been, in sympathy with the temperance cause, was the subject of a talk which he made at the question of North Norfolk, the man who when speaker of the Ontario Legislature, forbade the use of liquor in the Parliament Buildings, and the man who was known for an attitude on the question entirely different to that held by Donly. The proprietor of The Simcoe Reformer was not pleased because the temperance people of that riding would not come out and support a candidate under the leadership of Hon. G. Mackay. It was the inconsistency of Sir George Ross on the temperance question that led to his ultimate defeat, and to such men as Hal Donly and Mackay rested the responsibility of the course Ross took. It was due to the unwholesome reputation of Mackay that the Liberal party of Ontario came into disrepute during his leadership of it.

The last provincial election was held previous to the announcement of Rowell's "abolish the bar" policy, and that riding had yet to pass on the question. The statement made in the editorial that "North Norfolk cannot be won by a man who is not in sympathy with Rowell's policy" would be disproven at the next election held there.

The result in North Grey, which with the exception of Meaford was under local option, was not a real test of the issue. It had been contended that the riding felt that the law was under local option, was not a real test of the issue. The enforcement of the law had also been much better than under the Ross Government, and in North Grey in particular. Cameron, the Conservative candidate, had taken a large share in seeing that the law was enforced, and the temperance people of the riding felt that they should show their appreciation of this.

In commenting on the result in North Grey, one of the principal members of the party, and a man who took a large share in the fight here, said the following message to Liberal members of the legislature: "It is necessary to see that we now need more fighters and we will triumph."

The charges made that the Dominion Alliance cannot shake one per cent of the Tory prohibition vote from party lines in any election that ever takes place" was almost wholly abandoned to discuss. At the recent provincial convention of the Dominion Alliance, held in Toronto, and which was attended by the speaker of the Ontario Legislature, the "abolish-the-bar" policy had been endorsed without a dissenting vote, and 60 per cent of those present were Conservatives.

MADE ESCAPE FROM BROCKVILLE OFFICER

William Hunter, Accused of Theft, Gained Liberty After Exciting Chase.

BROCKVILLE, July 19.—(Special.)—Wm. Hunter, who had been committed for trial in the police court with another man named Hawkins on a charge of stealing fish from the Alhambra Hotel, bolted from headquarters while the constable was placing his pat in the cells, and made a clean getaway. Notwithstanding lively chase, the prisoner outfooted his pursuer and was soon lost to view on the back streets.

Hunter was under suspended sentence in the county judge's criminal court on a charge of fraudulently obtaining money from a local bank.

DOCTOR SUCCUMBS TO FRIEDMANN CURE

Lancet Reports Case of Subject Who Developed Bacilli at Point of Injection.

LONDON, July 19.—The current issue of The Lancet, the leading authority on medical subjects, contains an editorial on Friedmann's tuberculous treatment with special reference to a recent meeting of the British Medical Society, at which specimens were shown.

The subject was an American medical man, who was taken to a hospital where he received an injection of Friedmann's serum, three weeks ago. For a time he improved, but died later. At the place of injection were found tuberculous bacilli shorter and thicker than the human bacilli.

"The question is," says The Lancet, "whether the bacilli at the place of injection must be regarded as a direct sequel to the injection or only as a symptom of the general tuberclelosis. Tuberclelosis is extremely rare and it is significant that tuberclelosis should have developed at the spot where an alleged tuberclelosis remedy had been deposited."

Ingenious Measures Taken by Police to Prevent Demonstration During King's Visit.

LONDON, July 19.—Ingenious measures taken by the police to frustrate a suffragette demonstration on the occasion of the King's visit to Liverpool were revealed in the Liverpool police court yesterday, during the case of Helen Jollie, secretary of the local branch of the Women's Social and Political Union, who was charged with doing damage to property.

SUN SCORCHING THE FRUIT BELT

Raspberries Drying up on Bushes and Season is Closing—Half Yield This Year.

ST. CATHARINES, July 19.—(Special.)—Rain is sadly needed in the Niagara district fruit belt. The soil is parched to a depth of several inches and the raspberries are drying up and the drought is bringing the berry season to a premature close.

Prices for raspberries were advanced by shippers yesterday at Vineland. Three dollars per crate was obtained. The yield of red berries is not nearly so large this year as last year. One Jordan grower, who in 1912 shipped 1500 crates, has not sent half that number this season.

McMillan Transfers To Another Vessel

Arctic Expedition Ship So Badly Damaged That a New Ship Was Necessary.

FREEMONT, Maine, July 19.—The equipment of the Donald B. McMillan Arctic expedition is being transferred at Battle Harbor, from the damaged steamer Diana to another ship. Mrs. W. C. Fogg, a sister of Prof. McMillan, received this message from him today.

Arrived Battle Harbor. Are transferring cargo to another ship. Everything O.K. An earlier message received by the promoters of the expedition in New York from McMillan reported the arrival of the Diana at Battle Harbor yesterday, and said that the ship was leaking badly as a result of the mishap when she went ashore at Barge Point, Labrador.

There is doubt here as to whether the Diana was taken in tow, or arrived at Battle Harbor under her own steam. Battle Harbor is a fishing settlement on a group of rocky islands above the Straits of Belle Isle, several miles from the mainland and offers practically no facilities for making repairs.

Fireman John Deering of Queen street station, No. 6, was presented with a handsome meerschaum pipe on Saturday evening, on behalf of the boys of the station, who are sorry to see him go. ST. CATHARINES, July 20.—(Special.)—An inquest has been ordered in to the death of Mrs. L. H. Collard, wife of former Consular Agent Collard of this city, which took place Saturday, from injuries sustained last Wednesday, when she was struck by a street car.

William Hunter, Accused of Theft, Gained Liberty After Exciting Chase.

BROCKVILLE, July 19.—(Special.)—Wm. Hunter, who had been committed for trial in the police court with another man named Hawkins on a charge of stealing fish from the Alhambra Hotel, bolted from headquarters while the constable was placing his pat in the cells, and made a clean getaway. Notwithstanding lively chase, the prisoner outfooted his pursuer and was soon lost to view on the back streets.

Hunter was under suspended sentence in the county judge's criminal court on a charge of fraudulently obtaining money from a local bank.

Dancing at Port Dalhousie. Great as are the zest and benefit to be derived from the two hours' breezy run across Lake Ontario by the fine steel steamers of the Niagara-St. Catharines Line, the trip is made even more worth while by the amusement facilities at Port Dalhousie, prominent among which are an orchestra and dancing every Wednesday and Saturday afternoon.

Nowhere on the lake does a more extensive stretch of soft, clean sand invite the grown-ups to bathe or the "kids" to muddle about at hand, too, is a splendid park where everyone can romp and indulge in some game got up on the spur of the moment. All the necessary supplies for a picnic meal can be obtained on the spot.

One of the features of this trip that commends itself to the general public is its inexpensiveness. An afternoon ride to Port Dalhousie costs only 50 cents, and the hour of departure, 2 p.m., which enables passengers to return to the city by 3.30 p.m., is extremely convenient.

RUSSIAN MONKS FACED BAYONETS Expelled From Monastery For Heresy, They Bared Chests Before Soldiers.

ST. PETERSBURG, July 20.—(Can. Press.)—To one of the Russian monasteries on Mount Athos, from which the abbot and several monks had been expelled for heresy, the holy synod sent Archbishop Nikon on a Russian gunboat, escorted by an armed guard, to restore peace. When the troops surrounded the monastery an alarm bell was rung and the monks marched towards the soldiers with their chests bared, shouting, "transfix us, in the name of the Saviour."

Three of the monks were severely wounded and several of them arrested.

The Power of Suggestion

Consider for a moment the thousands of children who are early taught an abnormal fear of the dark. Even when a child is absolutely free from such a fear, when sent into a dark room, some person thoughtlessly says: "Don't be afraid; the dark will not hurt you." And immediately the child associates dark and fear. From then on, he asks for the bedroom light to be left burning, and cries if on occasion he is alone in a darkened place. That is the folly of harmful suggestion, and the bad effects can only be overcome by positive or good suggestion. Convince the child that the dark is restful, that it is a quiet darkness, because it helps us. It will take far longer to overcome the negative suggestion than it did to implant it, but eventually you are sure to win.

Much harm can be done to children by nervous adults jumping at every sound, and exclaiming "Listen! What was that noise?" In such a way, fear—the worst enemy of childhood—is unconsciously planted in the minds of the children. Another example of the power of suggestion is found in the treatment you give the daily falls and bumps. When mother kisses the bumped head and declares: "There, that is quite well," the little chap goes back to his play convinced that it is well. On the other hand, a thoughtless parent jumps up excitedly, grabs the child, and kisses and cuddles him until he is sure he is much in need of such sympathy and cries louder and longer. One little fellow was taught that when he fell he should get up at once, rub the bump and say: "That didn't hurt." All thru his career he met the bumps and hardships with the same plucky strength. This early training in meeting small obstacles and hurts last throughout the lifetime. The behavior of the man or woman in the face of difficulty and discouragement is foreshadowed by the attitude of the child toward his trials and bumps. You will find, story telling, an excellent method of training children. The boy or girl in the story can be all that you wish to make them, and the positive suggestions thus conveyed are very powerful.

When your child is happiest is the time when suggestion has the best effect, and you can, by the power of your belief in him, make of him what you will.

ATTEMPT TO BURN PARLIAMENT HOUSE WINNIPEG, July 19.—(Special.)—A futile attempt was made last evening by a man whose description the police have been given, to set fire to parliament buildings on Kennedy street, by lighting a pile of papers in the furnace room wood pile.

Watchman Peterson, in making his routine inspection, discovered the fire in an alarm. Before the brigades arrived, however, the fire had burned itself out. This was the second mysterious fire last night, and there have been several others of late. The police are investigating.

The large wares the houses that greeted Miss Percy Haswell and her excellent supporting company at the Alexandra Theatre last week, indications are that this week's audiences, when she will repeat the world-famous George M. Cohan success, "45 Minutes From Broadway," will be even larger. In addition to the several melodious song hits in the original score written by Mr. Cohan, the most efficient stage manager and orchestra leader of the Percy Haswell players, Mr. Alexander Leitwisch, has introduced many new songs, dances and special features, so that those who will see "this famous Broadway success" again next week will enjoy it just as much as they did on their first visit.

The piece will be practically changed around, leaving only the quaint characters and the bare story the same as last week. Owing to the large advance sale the management has to advise Toronto theatre-goers that upon securing seats early they are assured of the choicest locations. Miss Haswell will introduce a new telephone song with Mr. Tilden which bids fair to "bring down the house." The curtain will go up at 8.10 sharp every night and at 2.10 at the matinee.

7805 Two-Piece Draped Skirt, 22 to 32 waist.

WITH HIGH OR NATURAL WAIST LINE. Every variety of draped skirt is fashionable this season and the model cut in two pieces seems to be the favorite. The back portion is slightly draped on both sides and the front is shaped and lapped over the back. If liked, the side seams can be left open for a portion of their depth. When finished at the natural waist line the back can be fitted by means of darts or gathered. The model is adapted to almost any soft seasonable material. Here it is shown in ratine-but it is equally well suited to charmuse satin, foulard, the many soft wool materials that the season has brought forth-and to many of the cotton fabrics.

For the medium size, the skirt will require 3 1/2 yards of material 27 or 2 3/4 yards 36 or 44 inches wide. The width at the lower edge is 1 1/2 yards.

The pattern of the skirt 7805 is cut in sizes from 22 to 32 inches waist measure. It will be mailed to any address by the Fashion Department of this paper, on receipt of 10 cents.

MILITARY BURIAL FOR A V. C. HERO

Remains of Major Cockburn Were Interred With Full Honors.

DRUMS WERE MUFFLED

Men From City Regiments Turned Out to Pay Last Respects.

Pushed on a battery gun carriage and followed by a black horse, led with riding boots and spurs reversed in the stirrups, the casket bearing the body of the late Major H. Z. G. Cockburn, of the Governor-General's Body Guard, was drawn to St. James' Cemetery Saturday afternoon and then interred.

Dean Cayley held a service at the residence of Mrs. George R. Cockburn, the late Major's mother, 13 Spadina road, at 3 o'clock. A firing party from the Body Guards was in line before the door and the street was thronged with militia officers and civilians, attracted by the announcement of a military funeral. Inside, scores of friends of the late Major gathered about the casket, which was filled high with wreaths.

When the short service was concluded, and the casket had been carried on the shoulders of six regimental officers to the gun carriage, the long procession began its slow journey to St. James' cemetery. The firing party, with arms reversed, led the way followed by the G.G.B.G. Band, the gun carriage and Major Cockburn's horse, the representatives from city regiments, the chief mourners on foot and a few carriages.

Colonel Sanford Smith, Major Geo. Denison, Major Thompson, Captain Taylor, Captain Straight and Mr. Warwick were pallbearers. Colonel Smith superintended the arrangements for the funeral.

As the cortege turned into Bloor street the first bands were struck out on muffled drums, followed a moment later by the melancholy melody of the "Dead March" from Saul. The route taken was thru Queen's Park to St. James' street, to Wellesley street and thence to the burial ground.

The service at the cemetery was military in character and concluded with the "Last Post," sounded on the bugles. Among the regiments represented were the Queen's Own, Highlanders, Grenadiers, Mississauga Horse, G.G.B.G. and Army Medical Corps.

The firing party was in charge of Major McColl of the G.G.B.G.

COLD, DRY WEATHER CAUSE OF SHORTAGE IN SMALL FRUIT CROP

Bleak Weather in June Interfered With the Later Bloom and Had Disastrous Effect on Small Fruits - Peach Outlook Good, But Apple Crop Will Only Realize Sixty Per Cent.

That the shortness of the small fruit crop in Ontario is due entirely to the dry and cold weather which has been experienced since the month of June, is the explanation given in the third fruit crop report issued by the department of agriculture at Ottawa, for the high prices of the great majority of Canadian fruits this year.

For some fruits and in some places conditions may have been ideal, but in the main little of the weather tending to bumper fruit has been experienced. Rain sufficient to foster a good fruit growth was experienced in the Maritime Provinces, but unfortunately, cold, moist weather obtained during the greater part of the blossoming time, affecting the later bloom. In the Eastern Townships the cold, dry weather had a disastrous effect on small fruits, while in the extreme west of the Dominion, the opposite was the case, and too much rain deteriorated the crop.

Dealing with prices and marketing conditions, the report says: "Sweet cherries never made a better appearance upon the market, and the wholesale prices in the cities ran fairly evenly from \$1.50 to \$2 per crate, with a ready sale."

Need Co-operation. There were some complaints from dealers that they found it impossible to market all their cherry crop, but while this may be true in a few individual cases only, it only illustrates the necessity for co-operation among fruit growers in marketing their produce. More fruit could have been disposed of at good prices than came to the markets.

With labor conditions unsettled, and good times prevalent both in the United States and the old country, marketing conditions should be excellent this year. The distinct shortage of apples in Great Britain has been disposed of at good prices from the Dominion at good prices.

The organization of work in Canadian and American fruit growers is much commended in the report. Ontario, it says, is to follow suit, from which action the fruit growers as a whole will receive much benefit.

Mutual Benefit. "Organization among fruit growers," the report points out, "means good prices to the grower, and relatively lower prices to the consumer."

Present indications point to the fact that the apple crop will not realize more than 60 per cent. of a standard crop. This is offset, however, by the remark that should good weather ensue between now and picking time, a fair crop will be realized. In Ontario the much-prized Spy and Baldwin apples, from reports, are exceptionally short. Another effect of the extraordinary weather is the widespread appearance of "scab" on the apple crop, from which even those who have persistently sprayed the trees will not be free.

"On the whole the apple crop of Canada will apparently not be abundant and orchardists will do well to pay the closest attention to secure the highest possible grade."

The unusually splendid apple growing country between Toronto and Georgian Bay will not realize more than a 60 per cent. standard crop.

Pear Crop a Failure. The pear crop in Nova Scotia is practically a failure. In Ontario the pear crop will be a much lower picking than last year, while the only section of the Dominion from which good prospects are reported is British Columbia.

Unless unfavorable weather sets in the plum crop will be a fairly good one, not large, but of excellent quality. Ontario will be a much lower picking than last year, while the only section of the Dominion from which good prospects are reported is British Columbia.

Dealing with foreign conditions, it is pointed out that in Great Britain conditions are much the same as in Canada. Apples and pears will be much below standard. Plums appear to be a general failure.

The apple crop of Germany and Austria is light; the French crop is somewhat better, but much below average. Denmark is the only country from which a bumper crop of apples is expected, where 100 per cent. crop may be realized.

The apple crop in the United States will be much below the average. Owing to the crop being well distributed, however, high prices may not be experienced. The Michigan crop will average 75 per cent., while the New England States' crop will be below average. The Pacific coast states will again compete in the northwest with a large crop, but under better selling organization than last year.

The Women's Co-operative Guild of England is advocating that whenever men and women are employed and do the same work, they should be paid at the same rate.

Girls employed in the brickmaking industry in the West of England, in England are asking an increase in wages. They want an additional 25 cents a week to bring their wages up to \$2.50.

Women are employed for blasting caps in Germany.

During the week ending July 20, 300,000 lbs. of fish was landed in her harbor in the world.

HISTLERS WALLOP LEAFS IN MOST HEARTY FASHION

Saturday's Trimming Takes Place Before Great Throng of Spectators at the Stadium—First Game a Fair Contest, But the Second Proved a Joke.

Getting back is almost too mild a term to characterize the action of the Rochester team at the stadium Saturday, for not only did they take both ends of the doubleheader from Toronto, thereby halving the series after dropping the first two games, but they walloped the Leafs in such hearty fashion that they finally tired of themselves.

INNINGS TORONTO ROSDALE

The Wicket Was Hard and Bowlers Could Not Get the Ball to Twist—Saturday's Cricket Scores.

Toronto and Rosdale played their city League on the Rosdale grounds Saturday afternoon, the result being a draw.

As the wicket was hard and in fine condition the bowlers found great difficulty in making the ball turn. Neither team was up to full strength, Rosdale being without their captain, while Toronto were unable to put three of their usual players in the field.

SYNOPSIS OF DOMINION LAND REGULATIONS.

ANY person who is the sole head of a family, or any male over 18 years of age, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta.

The applicant must appear in person at the Dominion Land Agency, or at an Agency for the district. Entry by proxy may be made at any Agency, on certain conditions, by a father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of less than 80 acres, so long as he is occupied by him or his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$4.00 per acre.

Outstanding debts upon the homestead or pre-emption six months in each of six years from date of homestead entry (including 80 acres so long as the homesteader is in good standing) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead rights and cannot obtain pre-emption may enter for a purchased homestead in certain districts. Price \$20.00 per acre. Residence required six months in each of three years, cultivate fifty acres and erect a house worth \$500.

Forty Thousand Men Back at Work

Builders Reach Agreement With Strikers, Ending Month Tie-up.

CHICAGO, July 19.—Building operations aggregating \$40,000,000, which have been suspended in this city since June 18, will be resumed Monday as a result of an agreement entered into last night by representatives of the labor organizations and the Construction Employers' Association.

The agreement calls for a permanent arbitration board and is expected to give building operations here a steady flow of work for a number of years. Forty thousand men have been out of employment during the strike. Concessions on both sides marked the agreement.

Ivory Toilet Goods Engraved Without Charge

For Tuesday only we have a magnificent stock of these dainty goods. We import direct from the maker, hence our prices are low. Our range of Looenen's and Dupont's French Ivory is large. Also we have a very fine selection of the English make, which comes slightly cheaper than the French makes. We would strongly advise you to purchase now your requirements, as there have been several advances in prices since we purchased these goods, caused through the scarcity of bristles and raw material, and prices must be advanced on new shipments.
Complete Travelling Kits for Women, with grain-ed ivory fittings, hair brush, hand mirror, dressing comb, nail file, baby book, manicure stick, scissors, wash cloth, cake of toilet soap, tooth brush, nail enamel, bottle of toilet water, tin of talcum powder, dental cream, and tube of cold cream. Special price for complete set \$3.75. (Main Floor)
