OSTEND RETAKEN BY THE ALLIES

LONDON, Oct. 19—A correspondent of The Morning Post, cabling from North France, says that he is informed on excellent authority that the allies have retaken Ostend.

Germans Have Failed, Their Whole Scheme of Conquest is Imperiled, and Their Entire Line From Belgian Frontier to the Centre of Artois Has Been Defeated With Tremendous Losses.

CRUCIAL POINT IN BIG BATTLE IS APPROACHED

Germans Using Siege Guns in Effort to Check Allies.

FIERCE FIGHT AT ARRAS
House to House Engagement Fought With Enemy Fighting Back.

Canadian Press Despatch.
LONDON, Oct. 19, 10.15 p.m.—The third act of the war in the western theatre is now in a critical stage. The first act was the German attempt to carry out the scheme of an irresistible sweep thru Belgium and northern France upon Paris, culminating in the capture of the French capital, which would have been a disheartening blow to France.
The second act was the offensive assumed by the allies after Gen. Von Kluck had stretched his army on the German west wing over a longer line of communications than he could hold and the allied army pressed him back toward the Belgian border, compelling the entire German line from the eastern pivot of Verdun, to recede in order to maintain an unbroken front and a possible line of retreat.
The third act comprises the attempted advance of the Germans along the coast of Belgium and northern France, apparently with the design of establishing themselves in the channel ports, from which points of vantage they could menace England.
German Using Big Guns.
The extreme western fighting line now reaches from Armentieres thru Roulers to Nieupoort, which is on the coast about half way between Ostend and Dunkirk. According to the French official announcement today German heavy artillery, brought from the siege of Antwerp presumably, has bombarded the front from Nieupoort to Vladiol, which is about ten miles from the coast.
The allies also have made progress eastward from a point south of Armentieres toward Lille on a line running roughly to Arras. The report tells of house-to-house fighting, in which the allies are advancing. The battle has waged around Arras without respite for ten days, and on the part of the allied troops "with a periodical lull."

Men! Don't Go Another Day Without a Fall or Winter Overcoat.
The weather for overcoat wear is clearly here. It may be only in the mornings or evenings that you feel the need, but the days of urgent necessity during the day are now almost on us. The display at Dineen's, 140 Yonge street, is most impressive and should be seen before deciding elsewhere. There are Balmacaans, Chesterfields and the new "Paragon." The latter is a specially smart, loose-fitting coat that is rapidly becoming a big favorite. All Dineen overcoats are made in Canada from imported English and Scotch wools and magnificently tailored. Colors and weaves are most attractive and stylish. Prices, run \$20, \$22.50, \$25 up to \$45. All are great values.

Outlook Now is More Favorable Than at Any Time Since the Germans Crossed Into France—Allies Report Advances All Along the Line—Belgians Hold Germans East of Dixmunde, While West of Roulers the Enemy Evacuated Long Lines of Trenches—French Army is Close to Metz and German Crown Prince Must Retire—Austrian Squadron Stopped in the Adriatic.

LONDON, Oct. 19—With Lille again in the hands of the allies, the situation on the French fighting line has assumed a distinctly favorable aspect. At Chaumes a counter-attack by the German right wing was thrown back decisively, and the kaiser's forces fled in a state bordering on panic. The Belgians have also held the Germans at a point east of Dixmunde. West of Roulers the Germans were compelled to evacuate long lines of trenches, and the town is now occupied by Franco-British troops.

OFFICIAL FRENCH STATEMENTS.
The official communique of the French War Office this afternoon said: "In Belgium the heavy artillery of the enemy has cannonaded, but without result, the front from Nieupoort to Vladiol, to the east of Dixmunde."
"The forces of the allies, and notably the Belgian army, have not only repulsed further attacks on the part of the Germans, but have advanced as far as Roulers."
"On our left wing, between the River Lys and the canal of La Bassee, we have advanced in the direction of Lille. There has been very stubborn fighting on the front from La Bassee to Albain and St. Nazaire. We are advancing from house to house in these localities."
"To the north and to the south of Arras our troops have been fighting without respite for more than ten days, and with a perseverance and a spirit which never for a moment has been relaxed."
"In the region of Chaumes we have repulsed a strong counter attack delivered by the enemy and have won some ground."
"On the centre there is nothing to report."
"On our right wing, in Alsace, to the west of Colmar, our advance posts are on the line between Bonhomme, Pairs and Sulzern. To the south we still occupy Thann."

GERMAN REINFORCEMENTS.
German reinforcements have been brought up at all points along the right wing of the invaders' army, which now stretches from the Belgian coast to the elbow at Roye, where the line turns directly eastward and runs in the general direction of Metz. These reinforcements are variously estimated at 300,000 to 400,000 men. Some reports even place the number of fresh troops at 1,000,000 men of all arms, but the latter figures are believed exorbitant. It is known that they are drawn from the Landsturm exclusively.

NEW IMPETUS IN NORTHERN FRANCE.
With the capture of Armentieres yesterday and the fall of Lille today to the allied armies there can be no question that operations in northern France have received a new impetus and are inclining steadily to the side of the French and British. It is significant that at every point counter attacks by the Germans have uniformly failed to accomplish their purpose. That the kaiser is stubbornly sacrificing many lives to maintain an untenable position yet a little longer seems apparent. From La Bassee and Albain to St. Nazaire the allies are waging a terrible hand-to-hand conflict with the Germans, the fighting having resolved into an individual contest for supremacy. Every hedge, house and overturned wagon is a new fortress, and as the Germans fall back they take a heavy toll of their pursuers.
At Chaumes the allied artillery almost decimated the German columns participating in a frontal counter attack, the advantage being

followed up by an infantry charge of French and British troops which completely upstaged the advance of the foe.

BOTH SIDES HOLD THEIR OWN. The situation along the centre remains quiet, with both sides content to hold their own, and neither able to gain important advantage over the other.

The French officials are extremely reticent concerning operations against the German crown prince and the new movement which seems to threaten the safety of Metz. It is also apparent that fighting is under way around Belfort, but no information comes thru as to the extent of the engagement or the probable outcome.

German sources are responsible for the rumor that Belfort is invested, a rumor which the French War Office will neither deny nor confirm.

CROWN PRINCE SOON TO RETIRE. St. Mihiel continues in the hands of the German crown prince, but the French have driven his line further back on both the east and west of that town, and his retreat toward Luxemburg is imminent.

Summing up the entire situation, and taking into account the position of the allies from the Belgian-French coast to the Swiss border, it may be said that the outlook is more favorable than at any time since the Germans crossed into French territory. It is apparent that their first onslaught has come a cropper, that the new drive at Dunkirk and Calais is temporarily checkmated and will most probably be completely frustrated, and that the continued success of the allies at widely-separated points, with the new advance toward Metz and the dangerous quandary of the German crown prince, has seriously imperiled the whole German scheme of conquest.

DISCREPANCY IN REPORTS. Discrepancy is seen in the report from Berlin, received thru Rotterdam, that the Germans have crossed the border from Belgium into France, near the coast, and are now only ten miles from Dunkirk, which city is but eight miles from the Belgian border.

The Berlin report tells of German troops operating west and south from Ostend, and indicate that they have advanced virtually to the border.

The French official statement this afternoon puts the battle line in the extreme north, along a twenty-five-mile front, extending from southeast of Nieuport, which is but half-way between Ostend and the French border, to Roulers, a Belgian city.

AUSTRIAN SQUADRON STOPPED. The Tribune's correspondent at San Giovanni di Medua wires that an Austrian squadron of three cruisers, twelve destroyers and three secondary vessels sortied from Cattaro yesterday in an evident attempt to run for the Austrian naval base at Pola.

Two aeroplanes of the allied fleet which were circling over the neighboring mountains discovered the vessels and apprised the Franco-British fleet at once. The Austrians were met with a heavy fire, and one of the cruisers was seriously damaged. The entire squadron then returned to Cattaro.

A casualty list dated Oct. 15, and made public here tonight, gives 12 officers as having been killed and 40 wounded in the recent fighting.

SULTAN OF TURKEY REPULSES KAISER. A despatch to Reuter's Telegram Company from Petrograd says that the Constantinople correspondent of The Bourse Gazette is authority for the statement that at a family council the Sultan of Turkey, in order to combat the dictatorship of Enver Pasha, minister of war, and German influence, unexpectedly proclaimed the heir presumptive to the Turkish throne, Yussef Izzedin, generalissimo of the army and navy.

Prince Yussef Izzedin is the eldest son of the late Sultan Abdul Aziz.

GERMAN STEAMER DETAINED. The German steamer Ophelia, hailing from Hamburg, was brought into Yarmouth Roads today by a British cruiser from the North Sea. She was flying a Red Cross flag when boarded, and was found to have a wireless installation on board, which was dismantled.

The vessel was fitted with 100 beds and a complete equipment of a floating hospital. The German flag has been kept flying from her stern, and it is expected she will not long be detained.

This would seem to dispose of the report current earlier in the day, that a German vessel had been seized because she was engaged in mine laying.

Nationalists Take Solemn Pledge to Fight Until Prussian Militarism is Crushed.

Canadian Press Despatch. LONDON, Oct. 19, 10 p.m.—Amid tumultuous cheering, with right hands upraised, the Irish Nationalists, who crowded Central Hall tonight, adopted a pledge administered by T. P. O'Connor:

"We will never sheath the sword until Belgium has got back her freedom; until every inch of her soil is clear; until a treaty is made, not on a scrap of paper, but on a foundation behind which stand the millions of the British race."

The meeting was called for the purpose of expressing confidence in the leadership of John Redmond and to endorse the action of the Irish party in supporting "the war of the allies against Prussian militarism."

Mr. O'Connor said that for this fundamental and supreme principle, the British had fought on hundreds of battlefields. What they had claimed and won for themselves they also claimed for other countries and would help other countries win.

Canadian Associated Press Cable. LONDON, Oct. 19.—The press bureau passed the following British message for publication this morning:

At about the men reached the dock at 8 o'clock. It was not until 9 o'clock that the inhabitants knew of their arrival. Drum and fife bands of Canadians were marching thru the streets playing when the inhabitants became aware of the presence of the Dominion soldiers. They turned out, and, lining the streets, gave the colonials a hearty reception.

The main body of the men did not enter the town, but were entrained at the docks to resume their journey to their training quarters.

GOD SETS LIBERTY AT A HIGH FIGURE

Germany Will Secure Her Freedom Thru Present War, Says Wrong.

FAILURE OF BISMARCK

His Was the Last of Three Attempts to Unite Teuton Peoples.

"God must value political liberty very highly, for He sells it to the nations at very great cost," said Prof. G. M. Wrong in his lecture "The Germany of Bismarck," at Convocation Hall last night before an audience which filled the building to overflowing.

would bring to the surface," said Prof. Wrong. The forcible ejection of Austria from the German states by Bismarck was recalled, and the bloody strife which was necessary before the ideal of the great German statesman could be realized.

Even Bismarck failed. The great predecessor of Bismarck, Stein, was briefly dealt with by Prof. Wrong, who declared that if it had not been for his forcible ejection by Napoleon's orders, he might have secured political liberty at the time of the Prussian state which was so rudely interrupted.

Ald. Cameron's motion, that the rate of wages on city relief work during the coming winter be 18 cents per hour, was, after lengthy discussion and upon the alderman's own motion, referred to the board of control to take up with the heads of departments and decide just what relief work would be chosen during the winter.

GOES TO RAILWAY BOARD

Ald. Maguire's motion, that the matter be referred to the board of control, was lost. Ald. Rowland's motion was finally passed by a vote of 16 to 6, and the concrete specifications will be reported on by the Ontario Railway Board. The contractor will pay the costs.

\$67 Gone

Every Canadian consumed, during 1913, approximately \$67.54 worth of imported goods. Every Canadian thereby sent sixty-seven dollars of Canadian money to enrich some other country, to keep foreign workmen employed.

It does not seem so much, but it makes the gigantic total of \$675,428,168. The value of all goods "Made in Canada" is not much more than double this. Of these imports 65% come from the United States, yet by every condition of nature we are just as well equipped to manufacture many of these goods as our neighbour—and we do.

If only 25% of this 675 million dollars' worth of goods were produced in Canada, that production would give employment to 62,500 workmen, sufficient with their families and dependents to support 250,000 people, to populate a city larger than Winnipeg or to create 16 cities the size of Guelph, Moncton, Brandon, or New Westminster.

By purchasing only goods "Made in Canada" you can help to keep a good share of this 675 million dollars at home, you can bring about a greater prosperity than Canada has ever known.

YORK COUNTY AND SUBURBS

TOWNSHIP TO VOTE ON POWER BYLAW WESTON DEFENCES DEEMED INADEQUATE

Matter of Street Lighting to Be Referred to the Electors. One Policeman Not Enough With Pro-Germans Here, Says Treasurer.

ROAD THRU CEMETERY BUSY COUNCIL MEETING

Deputation Asked Council to Take Up Matter With Burial Trust. Some Doubt as to the Exact Location of Pine Street.

A member of a deputation from Runnymede which appeared before the York Township Council yesterday regarding the question of lighting for the district. He complained that the Toronto Hydro Commission were installing domestic light in the district, but would not light the streets.

At the meeting of Weston council last night the treasurer, Thomas Galbraith, made a vigorous protest regarding the alleged inadequacy of the protection of the public and private utilities of the village. Canada with Great Britain was at war with Germany, and while he did not wish to enlarge upon the point "there are in Weston," he said, "sympathizers with Germany."

The matter of lighting for the township had to be settled, and the council had decided to submit a by-law to the people and let them decide for themselves. In order to avoid this they have to go by an indirect route and along Kingston avenue. The deputation suggested that the council try and have a road constructed thru Prospect Cemetery.

The G.T.R. had placed a guard at the bridge, but the village possessed many valuable public buildings, and the one constable, Mr. Galbraith stated, being largely employed upon roadway work, could not efficiently patrol the village.

Wade Thru Mud. The trustees of S.S. No. 15, Fairbank, stated that the roads leading to the school were in very poor condition, and the children were compelled to wade thru mud in spring and fall to attend school.

The account of the Toronto General Hospital for the maintenance of James A. Low, a resident of Weston, who was removed from Stanley Barracks to the hospital for medical attention, will be paid by the council, it being understood that Low, having been prevented from going with the first contingent, had volunteered on recovery for the second.

Don Road Lighting. A resolution requesting the hydro to have three lights placed on Leslie street and twelve on the Don road was left over for the report of Deputy Reeves Griffith and Barker, who will make a tour of the district mentioned.

A fully signed petition of P. Walker and others for a concrete sidewalk on King George road was referred to Clerk J. H. Taylor for verification and reference to the court of revision.

BOYS TO CALL OUT THE HOME GUARD

Special Emergency Call Organized by Riverdale Boys' Club.

Within less than one hour of an alarm being given two thousand men will be mustered for the defence of Riverdale. Superintendent Hodgson, in conjunction with the military authorities, has completed the organization of a special call system manned by one hundred members of the East Riverdale Boys' Club.

A letter from Norman Fraser, acting for Mrs. Fairbank, complained that the drainage of two houses on William street, which had been inspected and passed by Inspector W. C. Burridge, had proved unsatisfactory, and submitted that the village should pay half the cost of relaying the drains.

The superintendent would on telephone call from the military authorities a circle of boys, who would each notify a certain number. The hundred boys would then notify by personal call by their proportion of the two thousand men.

The clerk was instructed to write to inform Mr. Fraser that the council would not assume any responsibility in regard to private claims, on the ground that inspection by the village did not entail liability for defects.

In addition to this precautionary detail of home defence the club has a list of 100 boys and young men ready to sign the military papers for membership in the second line company of the Canadian Engineers. They will do so with the full consent of their parents.

A request from the secretary of the public school board, Charles F. Wacey, for \$1000 was received.

The athletic efficiency of the members of the East Riverdale boys' organization is demonstrated by the fact that during the first winter months of its history they have acquired nine silver medals, 36 bronze medals, two silver cups, one silver shield, one bronze shield and have two soccer teams which are leading in their sections.

Treasurer Galbraith reported that the taxes collected to date amounted to \$10,300.

WARD SIX TORIES ORGANIZE BRANCH

Addressed by W. F. Maclean, M.P., W. H. Price, M.L.A., and Other Speakers.

A meeting of Ward Six Liberal-Conservative Association was held last evening in Little's Hall, Bloorcourt. President Rooney occupying the chair. Amongst those present were: W. F. Maclean, M.P. for front view; W. H. Price, M.L.A.; A. H. Birmingham, H. H. Ball, ex-Ald. J. W. McCausland and others.

Mr. O'Brien had but recently completed the erection of the house, upon which he was working in his spare time since last spring. He is a teamster, and only recently lost a horse.

Addressing the meeting, W. H. Price said he was optimistic about the war and that Canada, as well as sending men to the front, could also help the empire by keeping the "Business as Usual" sign to the fact that the fight regarding the early stage of the fight, he thought, had caused some employers to slow down and reduce their staffs accordingly.

The furniture of an eleven-room boarding-house, which he kept at 14 Fenning avenue previous to taking up residence in Earls court, was stored in the house, and all the pieces were burned.

President Rooney said the business of the meeting was to organize in the northern part of ward six, a committee of nine, who would select a captain, to take charge of the subdivision.

HOUSE JUST BUILT GUTTED BY FLAMES

Mrs. Charles O'Brien Saved Infant Child When Oil Lamp Exploded.

Shortly after seven o'clock last evening the two-storey, six-room, roughcast detached dwelling, 47 Bloem avenue, Earls court, owned and occupied by Mr. and Mrs. Charles O'Brien and four children, was completely gutted by fire, with a total loss estimated at \$2500. There is \$2200 insurance.

On the motion of Mr. Wells, it was resolved that a committee of nine be appointed to attend the next meeting of Ward Six Liberal-Conservative Association and submit a list of the members nominated to the committee.

Mrs. O'Brien was putting her baby to bed in an upper room, when the oil lamp on the table exploded, setting fire to the bed and rushed into the room, and in a very few minutes the upper portion of the building was in flames. The father and three other children, who were in the lower rooms, succeeded in saving a few articles of furniture, and neighbors pulled a piano thru the front door, while the flames were enveloping the ceiling of the room.

Addressing the meeting, W. H. Price said he was optimistic about the war and that Canada, as well as sending men to the front, could also help the empire by keeping the "Business as Usual" sign to the fact that the fight regarding the early stage of the fight, he thought, had caused some employers to slow down and reduce their staffs accordingly.

Mr. O'Brien had but recently completed the erection of the house, upon which he was working in his spare time since last spring. He is a teamster, and only recently lost a horse.

W. F. Maclean, M.P., in a brief address, spoke of the war and Canada's duty to the motherland. He also referred to the changes which had taken place in that part of the riding of South York in recent years and of the work of the organization.

DEPUTATION VOICED WARD SEVEN TROUBLES

A deputation of over twenty members of the Ward Seven Ratepayers' Association waited upon the mayor and board of control at 11.30 yesterday morning and presented the two grievances of West Toronto. In regard to transportation, the mayor informed them that there was a good chance of obtaining a line, and in all probability, a service on Bloor street from Dundas, that would be in operation this year. All from the legislature to lay the tracks without submitting a money by-law.

With regard to the smells, Dr. Haastings was called and consulted. Resident D'Arcy Hinds put the facts directly before him. The M.O.H. was given to understand that if relief is not immediately forthcoming, and the stopped at once, an injunction would be applied for.

The Home Guard drill was in charge of Captain Stewart of the main division, and he expressed himself as

The Battle That Put Canada on the Map is Illustrated in Larned's History by a Full-Page Reproduction of a Great Historical Painting: "THE BATTLE OF TEUTOBERGER FOREST"

Augustus Caesar sent one day three legions of his veterans under Quintillus Varus into Teuton Land. "Go, scourge me those yellow-bearded barbarians!" he cried; "Come back a conqueror, or show me never your face again!" So forth fared Roman Varus into deep and narrow valleys, through dark and fearsome woods, o'er steep and rugged mountains traversed by icy torrents till he came to the dark shadows of the Teutoberger Wald. woud the sinuous army of Varus, like some huge Midgard Serpent, slithering along in quest of prey. And now came swamps and marshes, sunken and sodden with flood-time waters to stop the march of men weighted with weapons and heavy armor. Nor could they go to right or left, for that there came such blinding showers of spear and dart, and fiendish faces all set with flaming beards and savage eyes that glowed with hate. And then passed word from rank to rank that all the wild barbaric host were in their rear, hacking and hewing and cutting like demons; and that none escaped. Came a little island once more with firm footing and fast, and there huddled together the Roman legions, and made last stand—all armed with helmet, cuirass, greave and shield. In vain they hurled their heavy javelins; futile and of no use their short, sharp swords. And when at last the angry

OPPOSE INCREASE IN RATES. KINGSTON, Ont., Oct. 19.—The local members of the C.M.E.A. are strongly opposed to the proposal to raise the rates in January and at a mass meeting the executive committee was given power to take out an injunction against the association to prevent it from taking action before the next annual convention. Several priests of the diocese opposed the proposed increase. Old men, it is said, will be compelled to drop out if the new rates are put into effect.

CHAMPION SAINTS OPEN WITH A WIN

Defeat Varsity Seconds in Intermediate Intercollegiate Fixture at Stadium.

St. Michaels, intermediate intercollegiate champions, opened the season with a win over Varsity seconds at the stadium yesterday. St. Michaels led at the quarter, 10 to 1; at the half, 15 to 6; at the three-quarters, 17 to 13, and at full time, 18 to 12.

The Saints trotted out a real strong line, and they broke thru Varsity's outfit time after time. In the last quarter St. Michaels scored their yards four times in succession.

The kicking honors were about even, with both back lines making mistakes that were costly. Varsity tried the old two-backs-and-a-kick thrust, but strong St. Michaels line held them well, and the U. of T. boys failed to make their yards on any occasion.

Broderick did some effective booting for the winners, dropping a goal from the field. The Saints were all over Varsity in the first half, but the blue and white squad rallied in the third round and made it interesting for a few minutes.

Broderick opened the scoring by dropping one over the bar in the first minute of play. "Gamey" Stratton got away for ten yards, and then Saunders booted to the deadline for Varsity's first point.

Broderick kicked for a point, Varsity lost possession on the first down, and Broderick's boot added another ten yards out for the first try. It was not converted, and the quarter-time score was 10 to 1.

Saunders tore off a couple of good runs at the start of the second quarter, and converted for a try, that was not converted. This Varsity's points to 13.

QUALITY in men and clothes is the thing that commands respect for both. It is a combination of so many kinds of goodness that none can properly define it.

Yet it is as easily recognized as an old friend, and is as gladly met. You cannot say you see quality in clothes—your experience it. When this experience is repeated in one store you accept the label of that store as the certain sign of quality—until you are some day disappointed. If that day never comes, the label stands in your mind as a shorthand symbol of excellence.
