Involving Investments of Manufacturers' Life  
**Of Most Amazing Character**

**PELLATT, MACKENZIE, MANN ARE, OR WERE, IN DEBT TO HUGE AMOUNTS**

\$132,000 Paid to Brokers for 1000 Shares in C.P.R. Which Were Not Delivered Until at Apparent Loss of \$139,000.

**DIRECTORS FORM HOLDING CO.**

Ottawa, March 22.—(Special.)—Office boys forming companies with millions of capital; call loans to directors approximating \$400,000; \$258,000 paid for C.P.R. stock at the time worth \$19,000; and similar incidents garnished the story related by Supt. Fitzgerald this afternoon concerning the Manufacturers' Life Insurance Company and its dealings with William Mackenzie, D. D. Mann, Sir H. M. Pellatt and other directors.

Mr. Fitzgerald was not anxious to tell it. He mildly characterized as "inaccurate" a deliberate juggling with sworn returns by the officers of the company, so as to conceal illegal practices and create a fictitious balance in the bank of \$386,000.

The Manufacturers' Life has never been noted for having any surplus cash on hand; the directors attend that of 1908 the daily balances at the bank were always small, and sometimes nonexistent. No wonder he stared at a cash deposit of \$386,000 on Dec. 23 of that year.

For several days after that the Manufacturers' Life had money in the bank, then it disappeared as mysteriously as it came, but not before the end of the year had come and gone and the company had made its annual return to the insurance department. Whether any real money ever passed is not apparent; Mr. Fitzgerald contented himself with saying that the credit at the Traders' Bank was procured by Mackenzie and Mann.

**William Mackenzie and D. D. Mann were directors of the Manufacturers' Life, and about this time owed the company \$140,000. The company was holding a block of Dominion Coal, which cost \$230,000, but just then its market value was \$109,500; in other words the stock had advanced \$120,500. Mackenzie and Mann, which in the end were taken by the paper of the Mackenzie & Mann, Limited.**

There is some interesting history to follow in connection with Dominion Coal and other securities, but the C.P.R. deal is the main feature. The mortgage on the Peilatt stock is entitled to precedence.

**A Deal in C.P.R.**

It appears that the Manufacturers' Life decided to buy 1000 shares of C.P.R. stock, this required, of course, \$132,000. The money was paid to Pellatt & Pellatt, stock brokers, of Toronto. The senior member of this firm, Col. Pellatt, vice-president of the Manufacturers' Life.

Pellatt & Pellatt, having received the \$132,000, the insurance company demanded the stock. Unfortunately the brokers had in the meantime hypothecated the stock and were unable to deliver it. This claim was also upon it, for their own purposes, \$101,000.

**What happened then? The Manufacturers' Life did not desert its vice-president. It came to the front and paid this additional \$101,000. Meanwhile the market price of C.P.R. had declined to \$110, but this block had cost the insurance company \$230,000.**

Being \$114,000 to the bad should have satisfied the Manufacturers' Life, but Col. Pellatt had demanded "more." Col. Pellatt had some shares of stock in the company which he desired to pledge as security for his debt. But these shares were already hypothecated for \$25,000. This claim was also paid by the Manufacturers' Life, and the C.P.R. stock, worth \$119,000, stood this conservative company just \$258,000.

**Mortgage as Security.**

To secure his debt, Col. Sir Henry M. Pellatt also pledged to the insurance company his fifty shares of its capital stock, some shares in Dominion Coal and Dominion Steel, and 100 shares of Mexican Light & Power common.

He still owes \$100,000, and there is an unrecorded mortgage to secure this debt, which was given by Lady Pellatt upon some land at Scarborough Heights. Mr. Fitzgerald, who is always an optimist, declares this land to be worth \$46,000.

The Manufacturers' Life has the loose leaf ledger system. Many sheets showing important transactions had been abstracted in anticipation of Mr. Black's visit. It is only fair to say that the difficulty of the real conditions is so difficult to see what Mr. Fitzgerald accomplished, but the records in his office show the following facts:

**Organized Holding Company.**

The active directors of the Manufacturers' Life organized a holding company called the Prudential Securities Co. It was organized to take over the holdings of the insurance company a Dominion Coal and Crown's Nest Coal amounting to about \$250,000. It took over \$35,000 in Mexican Power and Light and \$45,000 in Electrical Development stock.

The purchase price for all was \$100,000 in cash and \$140,000 in securities.

Continued on Page 5

**SUPT. FITZGERALD ADMITS**

That \$132,000 was paid by the Manufacturers' Life in installments to Pellatt & Pellatt, brokers (Col. Sir H. M. Pellatt being vice-president of the Manufacturers' Life) for the purchase of 1000 shares of C.P.R. stock.

That when delivery was sought, it was found the brokers had hypothecated the stock for \$101,000.

That the Manufacturers' Life paid that additional amount the C.P.R. had decreased from 132 to 119; and also \$25,000 for shares hypothecated by Col. Pellatt, which he pledged as security.

That Sir H. M. Pellatt still owes the company \$100,000, secured on an unrecorded mortgage on land which Mr. Fitzgerald declares worth \$40,000.

That a bank balance of \$386,000 was created Dec. 23, 1903, and dissipated shortly thereafter, apparently to make a showing in the annual report.

That the "loose-leaf ledgers" showed many sheets abstracted.

That the active directors of the Manufacturers' Life formed the Prudential Securities Company to take over the insurance company's stock-holdings.

That employees of Mackenzie & Mann form the directors of other similar organizations.

That directors of the Manufacturers' Life were privileged in call loans to the extent of \$400,000.

**LANGASTER'S RAILWAY BILL ENDORSED BY GOVERNMENT**

**American Magnate Plans to Build 4000 Miles of Road in Canada.**

Winnipeg, March 22.—(Special.)—Prudential J. J. Hill of the Great Northern has made comprehensive plans for invading the Dominion and plans to build no less than 4000 miles in the four western provinces.

A line will go from Havre, Mont. on the Great Northern main line to Medicine Hat and from there to Edmonton. One branch will go to Calgary. The Canadian Northern and Hill will co-operate in all western Canadian operations. Engineers, under Hill's direction, are locating a line from Regina southeast to the international boundary, to run between and parallel the Arcola line of the Canadian Pacific and the Soo.

By this means Hill will have a trunk line into the heart of the Canadian agricultural region. In British Columbia Hill is building to the coast as well as constructing to the boundary line. It is declared his line will at a point 200 or 300 miles north of boundary, turn east across the Rockies, and make Edmonton its eastern terminus, where it would connect with the line to the south already referred to, and constitute the Pacific coast line in the transcontinental system of the Canadian Northern, which will use the Hill roads to reach Vancouver.

## Train Wreck at Hamilton Six Trainmen Were Hurt

**Passenger Train Ran Into Freight Cars Near Dundurn—Engines Are Both Wrecked—Toronto Man is Among the Injured.**

Hamilton, March 22.—(Special.)—The Toronto G.T.R. passenger train due here at 3:25 collided with a yard engine and some freight cars at the west end of the Stuart-street yards, near Dundurn Park and the Desjardins Canal this afternoon. The passenger train was slowing down and the yard engine backing up, or results might have been worse. Both engines were wrecked and baggage car and smoking engine, legs and arms bruised and head cut. J. D. Thompson, mail clerk, 13 Farley-avenue, Toronto, bruised about lack and shoulders; Wm. Walker, baggage man, 28 East Barton-street, chest crushed and injured internally; Engineer Armstrong, 134 North Ferguson-avenue, bruised about the face; Conductor Geo. Stoddart, North Park-street, leg cut and T. Malley, Boston, body cut and bruised.

The mail clerk, Mr. Thompson, who was released from the wreckage which pinned him down, boards at 13 Farley-avenue. He is a widower, is over 50 years of age and is an uncle of Dr. V. P. Thompson of 6 Carlton-street. When the latter heard of the accident he took the next train to Hamilton and brought the patient home to Toronto, where he had him removed to Grace Hospital.

It was reported that Mr. Thompson was only badly shaken up, but further enquiries reveal that he was injured internally.

The other men who were injured reside in Hamilton. The passengers were rather badly shaken up, but no one in the coaches was injured.

The wreck did not interfere with the arrival of trains from Hamilton into Toronto.

**UNCONSCIOUS IN SNOW.**

**Victim of Runaway Accident Suffers Terribly From Frostbite.**

Galt, March 22.—(Special.)—To be thrown from a cutter and lie by the roadside unconscious during the long, cold hours of last night, both hands and feet becoming frozen and his face frostbitten, was the experience of Adam Unger, who now lies in Galt Hospital, the man half covered with snow.

It is reported that Mr. Thompson was only badly shaken up, but further enquiries reveal that he was injured internally.

The other men who were injured reside in Hamilton. The passengers were rather badly shaken up, but no one in the coaches was injured.

The wreck did not interfere with the arrival of trains from Hamilton into Toronto.

**IRISH EDUCATIONAL SYSTEM NEEDS A UNIVERSITY TO AFFORD RELIEF**

**Secretary Bryce, Admitting Grievances, Gives Assurance of Sympathetic Attention—May Aid Gaelic Language Revival.**

London, March 22.—Irish education grievances was the subject of a long debate to-night in the house of commons.

The members declared that the existing system is deplorable, and that Ireland never will resist until she obtains a university representing the interests of the Catholic majority. Geo. Wyndham, chief secretary for Ireland in the Balfour cabinet, also spoke strongly in favor of reform, declaring that if Ireland were given the same facilities for education as England old funds would be applied.

James Bryce, the new chief secretary for Ireland, on behalf of the government, made a conciliatory speech admitting the existence of the grievances. He said the government had not had time to formulate a policy, but that the matter had his constant attention, and he did not despair of finding a scheme of reconciling the conflicting interests.

The government was also considering a scheme to provide the study of gaelic languages.

John Murphy, Nationalist member for the east division of Kerry, who introduced the amendment, expressed satisfaction with Mr. Bryce's reply and withdrew the amendment.

## EARL GREY IN NEW YORK.

**First Time Governor-General Has Ever Been Banqueted in U. S.**

New York, March 22.—(Special.)—When His Excellency Earl Grey comes to New York next week it is to be attended the first public banquet ever given to a governor-general of Canada by citizens of the United States. The planning of this country, whose platform, in conjunction with their brethren in England, is the fostering of Anglo-American amity, are to have a dinner on the night of March 31, in honor of Earl Grey, at which Secretary of State Root and other distinguished Americans will be guests.

The event will be notable, and may some day be historical, in light of the converging destinies of the two great commonwealths of North America. It is expected that certain of the most vexing questions between the two countries will receive a touch of good-will at the affair that will do much toward their amicable solution.

Accompanying the governor-general will be Lady Grey and members of his official household. Earl and Lady Grey will be the house guests of the manor, Mrs. Joseph H. Choate while in New York.

**SKULL FRACTURED BY BOBBIN.**

Peterboro, March 22.—(Special.)—Edward Jewett, a young man employed as an order in the Canada Cordage Company, had his skull fractured to-day by a bobbin flying from a spinning Jenny.

He was removed to Nicholls Hospital, and is in a very low condition.

A Torpid Thinker.

The Frequent Result of Coffee Poisoning.

A Toledo, O., business man says it is for ten years he had no appetite for breakfast; that about once a month he ate solid food at that meal, generally containing himself with his cup of coffee and having no desire for anything else.

Coffee frequently plays this dog-in-the-manger trick, while it furnishes the nutrient itself, it destroys the appetite for food which is nutritious.

The result was, in time, a torpid mentality, which was a distinct handicap in his business operations.

"Last Christmas," he says, "I consulted my brother, a practicing physician in Chicago, and he advised a diet of Postum Food Coffee, instead of the old kind, and also Grape-Nuts food. Since that time I have followed his advice with most excellent results. My brain is active and clear in the morning when it naturally should be at its best; I no longer have the dizzy spells that used to make me appear as if I were gazed materially in flesh and feel better in every way.

The Postum seems to be no less a food than the Grape-Nuts, and the two together fill all requirements. My wife has tried several of the receipts in your little booklet and we have enjoyed the result, but to my mind Grape-Nuts food is best when served with slices of fruit and covered with cream." Name given by Postum Co., Battle Creek, Mich.

There's a reason. Read the little book, "The Road to Wellville," in packages.

PERJURY CHARGE FAILS.

Only One Witness Had Seen Accused With Glass in Hand.

An animated conversation took place yesterday in the general sessions between Thomas Hastings, ex-chief inspector of the license department, and T. C. Robinette, K.C. It was a case where James McLean, a bartender, was charged with perjury in connection with a liquor case in the police court last September.

"You know the defendant is a bartender," asked Mr. Robinette.

"Well, he hasn't got his license yet," smiled Mr. Robinette.

"I don't think he is working," replied Mr. Hastings.

"Well, there are other people who are dismissed employees. Aren't there?"

"I believe so," replied Mr. Hastings.

"You yourself were dismissed from the chief inspectorship of Toronto?"

"I was simply told of my dismissal by Mr. Hastings."

"I don't know what you mean by that information," said Mr. Hastings.

"I was very active about the time that this information was given to me," said Mr. Hastings.

"Not any more so than usual," answered Mr. Hastings.

"I saw Mr. Hastings in his evidence said that he was entering a hotel on York street, he saw McLean with a glass of liquor in his hands and heard him swear in the police court that he did not have anything in his hand."

"J. J. McConvey, ex-inspector, said he did not actually see the glass, but he inferred from the actions of the others when the inspectors saw an appearance that McLean held a glass."

"As it requires the certain evidence of at least two witnesses, Judge Winchester instructed the jury to bring in a verdict of not guilty."

Two charges of stealing milk bottles belonging to the City Dairy and the Anderson Dairy, against Isaac Rhoads, were withdrawn. Rhoads has been committed for six months on a similar charge.

ITALIAN TIMES REPRIVED TWICE FAILED TO ESCAPE.

Newark, N. J., March 22.—Ginspre Marmo, an Italian, was hanged here to-day for the murder of his brother-in-law, Nimsio Marano.

Mr. Marmo, who was 32 years of age, was shot and killed his brother-in-law, Nimsio Marano, on the 15th of last month. He was shot in the back of the head and was killed instantly.

After he had been sentenced to death by the jury, he was allowed to write a letter to his family, in which he declared that many of his friends had committed murder, in this case he had escaped the gallows, drew a pistol and shot his brother-in-law, and made a break for freedom.

He was overpowered after one officer fired a shot which wounded him in the arm. He was then taken to the hospital, where he died.

He was overpowered after another officer fired a shot which wounded him in the arm. He was then taken to the hospital, where he died.

NOTED CHEMIST'S DEATH.

Prof. Doremus, for Nearly 60 Years, Was Columbia Instructor.

New York, March 22.—Prof. R. Orden Doremus, for many years a noted chemist, died here to-day, aged 82.

It was as an expert on the effects of poison, perhaps, that Prof. Doremus was best known. As a result of his knowledge of the poisons, he was called upon to participate as an expert witness in many of the famous murder trials, extending over a period of more than 30 years.

It was he who originated the system of disinfecting ships, which is still in use at the government quarantine station; he was one of the pioneers in the harnessing of electricity for commercial use and on account of his knowledge of explosives he was called to France by Emperor Louis Napoleon, where he rendered important service to the French government. On his return to this country at the beginning of the war, he was the expert which he gained abroad, was put to good account in the manufacture of cartridges for the United States government.

Prof. Doremus had been connected with the New York University and the College of the City of New York as instructor in chemistry for nearly 40 years, and for more than 25 years he had occupied the chair of chemistry in the Bellevue Hospital Medical College, of which he was one of the founders.

HILL NOT GUILTY.

Judge Garrow Charged in Favor of Indian Accused of Murder.

Brantford, March 22.—(Special.)—A late hour this afternoon the jury in the Hill murder case returned a verdict of "Not Guilty." Hill, accordingly, was given his discharge. The verdict was partially due to the charge of Judge Garrow, who summed up strongly in favor of the prisoner.

The surface drainage bylaw voted upon to-day was snuffed under the majority against being over 400.

W. K. GEORGE AND NOEL MARSHALL JOIN STERLING DIRECTORATE.

General manager of the Standard Silver Company, and ex-president of the Canadian Manufacturers' Association, and Mr. Noel Marshall, president of the Standard Fuel Company, have taken seats on the board of the new Sterling Bank, which is about to open its head office at 50 Yonge street. The office is being fitted up by Messrs. Jones Brown, and the work is being pushed forward as rapidly as possible. The new bank bills are being printed at Ottawa, and promise to be very handsome designs.

SQUABBLE IS IN SIGHT AT THE CITY HALL TO-DAY

Hospital Trustees, Doctors and Controllers Will Confer—Municipal Power Report Ready.

There will be another wrangle between the hospital trustees and the doctors' representatives at a private session of the board of control this afternoon.

Don't Increase Bell Capital. The representatives of the municipalities contributing to the cost of the municipal electric power commission will meet in the mayor's office next Tuesday to receive the report of the commission.

Want Exemption. Dr. John Fox, secretary of the education department of the Methodist Church, in Canada, wrote to the board of control, stating that the Victoria University had purchased the property at the corner of Queen's Park and Avenue-road, known as the Dryden property, for university purposes.

Asphalt Prices Down. It was stated at the city hall that the cause of the reduced prices for asphalt pavement was an evident decrease in the price of the asphalt companies to shut out the bituminous companies.

What Gentlemen Will Be Wearing in the Summer of 1906. As Elbert Hubbard, the unique proprietor of Roycroft, observes, "the man who now wants to be really well dressed, wears Semi-ready apparel."

It seems strange that sometimes your stomach or bowels won't digest your food, no matter what you eat. It may be the weather, or it may be just the state of your general health.

STRANGE FACTS.

It seems strange that sometimes your stomach or bowels won't digest your food, no matter what you eat.

It may be the weather, or it may be just the state of your general health.

Strange it is that in such little tablets, to be taken a few times a day, may be such wondrous potential possibilities.

Yet who would not appreciate the fact that if Napoleon had not been suffering from Cancer of the stomach, he would have won, instead of lost at Waterloo?

And Stuart's Dyspepsia Tablets would have cured his stomach trouble had they then been invented, as they have cured thousands of others in the past ten years, who have suffered just as Napoleon did.

So you can readily appreciate that to-day, by curing all these people, Stuart's Dyspepsia Tablets are helping to get the world's work done, by people who would do worse work if they were sick, so they must be having a great influence in a quiet way, on the world's progress.

They may, therefore, be classed as one of the triumphs of science, amongst other discoveries, in medicine, mechanics, transportation, etc.

Let this, then, remain in your memory, a fact upon which to act when occasion requires.

When any organ in your vast digestive machinery gets out of order, you have at your command one of the great inventions of the age, in Stuart's Dyspepsia Tablets, to put your machinery in order.

By so doing you will save much useless friction, add to the energy and working possibilities of your bodily machine, and relieve yourself from suffering, disease, weakness, premature old age and death.

All this is strictly in accordance with the most modern teachings of the best scientific schools of health, hygiene and medicine, and it will be to your advantage to lay these facts to heart. Don't hesitate. Try Stuart's Dyspepsia Tablets to-day.

sent hospital to be in use for three years at least, and it could not have gone on that long in the way it was.

Power Report Next Tuesday. The representatives of the municipalities contributing to the cost of the municipal electric power commission will meet in the mayor's office next Tuesday to receive the report of the commission.

IF WOMEN ONLY KNEW

Thousands of women suffer untold misery every day with aching backs that really have no business to ache.

It is hard to do housework with an aching back. Hours of misery at leisure or work. If women only knew the cause, Backache comes from sick kidneys, and that a lot of trouble sick kidneys cause in the world.

But they can't help it. If more work is put on them that they can stand it's not to be wondered that they get out of order. Backache is simply their cry for help.

The favorite comic opera comedian, Frank Deshon, will be seen in Frank Daniel's "much-talked-about musical comedy, 'The Office Boy,' at the Grand Opera House, Legitimate and standard drama, melodrama and farce may come and go, but musical comedy will always be in vogue.

Miss Grace Patton, a well-known courtesan, is one of the featured attractions of the "Merry-makers," which troupe is to shortly hold the boards at the Star Theatre. Miss Patton is an actress in no mean ability.

Why Girls Leave Home, the attraction at the Majestic next week, is a dramatization of a story dealing with the friction of domestic environment, characteristic of so many homes.

The engagement of Miss Eleanor Robson at the Princess Theatre on Thursday evening next will be notable for several reasons. In the first place, it will be her last appearance here for at least three years.

Hon. Mr. Harcourt Says Ontario Securities Are Worth More Than 96.

The financial critic of the opposition, Hon. Richard Harcourt, spoke for two hours in the legislature yesterday in reply to Col. Matheson's budget speech.

Mr. Harcourt began by calling attention to a personal matter. The other day regarding the records of the house the treasurer in a speech, charged that in the matter of the session duties bill and the supplementary revenue bill the speaker's management of the bills, and that he did not even introduce them.

Mr. Harcourt continued by saying that if there were two acts for which the legislature deserved credit these were the acts which should be credited to his side of the ledger.

Mr. Harcourt admitted the contention that the schools were "going to the dogs," because of the scarcity of male teachers, taking up a newspaper article done to the female teachers, declared Mr. Harcourt.

Mr. Harcourt hoped the government would not establish normal schools in the cities or towns that have asked for them, but he had no objection to reasons why one should be placed in the cities or towns that have asked for them.

Mr. Harcourt pointed out the great strides of technical education in the United States. This was closely related to trade and commerce, and if the Dominion government would grant half a million to technical education it would be founded on a permanent technological institutes.

# Wm. A. ROGERS, Limited

The Annual General Meeting of the shareholders of Wm. A. Rogers, Limited, was recently held at the company's offices in Toronto, the chair being taken by the president, Mr. S. J. Moore.

The report of the directors was as follows:

The directors beg to present the fifth annual report, with accompanying statement of assets and liabilities, as of December 31st, 1905.

Not profits for the year ..... \$ 60,291.31  
 1904 ..... 139,509.10

The appropriations were:

Dividends on Preferred Stock Nos. 17, 18 and 19	\$33,062.46
Reserved for Dividend No. 20, payable Jan. 2nd, 1906	15,450.96
Dividends on Common Stock, Nos. 13, 14 and 15	22,500.00
Reserved for Dividend No. 16, payable Jan. 2nd, 1906	7,500.00
Commission on Sale of new issue of Preferred Stock	30,000.00
Transferred to Realty and Plant Reserve Account	15,000.00
Transferred to Reserve Account	75,000.00
	90,000.00
	183,503.42

Balance carried forward to 1906 ..... \$ 16,296.99

The \$200,000 of preferred stock, authorized by the shareholders, was all underwritten and has been issued. The expense in connection therewith is all charged off to the company. The company now has a well-equipped plant and ample capital for its present requirements.

The increase in the preferred stock necessitated a further increase of \$75,000 in Reserve account, and although the charter permitted this to be made in ten annual amounts, the condition of the profit and loss account was such that it has been possible to provide for the whole sum at once.

The Reserve account now stands at \$225,000, and by an addition made this year to the Realty and Plant Reserve account, there is now \$65,000 on the credit of that account. By order of the board,

S. J. MOORE, President.

(Signed) Clarkson & Cross, Auditors.

Toronto, Jan. 30, 1906.

The President, Mr. S. J. Moore, in moving the adoption of the report, said: "The report which has been placed in your hands shows that the year 1905 was a prosperous one for the company."

After payment of dividends of 7 per cent. on the preferred and 4 per cent. on the common stock, and after providing for all expenses connected with the new issue of \$300,000 preferred stock, there is left of the profits for the year \$46,006.68. This amount, added to that brought forward from 1904, leaves a balance available for distribution of \$106,296.99. From this has been carried to Reserve account the sum of \$75,000, and to Realty and Plant Reserve account \$15,000. After these transfers there is still left of undivided profits \$16,296.99.

Following the policy adopted by the Company at the commencement by which a reserve account equal to 25 per cent. of the preferred stock should be built up, an increase of \$75,000 in that account was provided for when supplementary letters patent were taken out increasing the preferred stock. Although there were ten years in which this might be done, it has been possible to accomplish it in one year; consequently, the Reserve account is now at the full amount required by the charter, while the Realty and Plant Reserve account stands at \$65,000.

An examination of the balance sheet reveals the fact that the company is in an exceptionally strong position in the matter of its quick assets. These, made up of cash, accounts receivable and stock in trade, amount to \$1,019,109.11. Deducting all the debts of the Company, which amount to \$189,235.70, and the dividends payable to shareholders on January 2nd, 1906, we have a balance of quick assets over and above all debts of \$708,922.45. This sum represents more than 78 per cent. of the total issue of preferred stock. The business has kept up its excellent record in the matter of bad debts. The loss from this source for the year 1905 was less than one-fifth of one per cent.

The company's factories, especially the principal one at Niagara Falls, N.Y., are now well equipped to take care of a business 25 per cent. greater than that done during 1905, while the working capital which the Company has available is quite sufficient to do that amount of business.

Some of the shareholders at the last meeting enquired whether it was not possible for the rate of dividend upon the common stock to be increased. The directors have given this suggestion consideration and feel justified in meeting that request now that the Reserve account has been made up to the full amount required by the charter. Accordingly, an extra dividend of 10 per cent. will be declared, payable at the same time as the common stock will, at the same date, be raised from 4 per cent. to 5 per cent.

I have pleasure in moving the adoption of the report of the directors, which will be seconded by the Vice-President, Mr. J. L. Morrison.

In seconding the motion for the adoption of the report, the Vice-President, Mr. J. L. Morrison, referred to the excellent facilities which the Company has at its disposal, and to the well-equipped factories and to the encouraging outlook for the year 1906.

The motion for the adoption of the report was unanimously carried.

The following directors were elected for the ensuing year: S. J. Moore, J. L. Morrison, Wm. A. Rogers, Robert Kilgour, Hon. C. H. Duell, Hon. W. Caryl Ely and A. D. Clark.

Messrs. Clarkson and Cross were appointed auditors.

At a subsequent meeting of the board Mr. S. J. Moore was re-elected President and Mr. J. L. Morrison Vice-President of the Company.

**FENCE CO. INSOLVENT.**

According to Shareholders, Who Want Winding Up Order.

An application was made yesterday at Osceola Hall for a winding up order for the Canadian Portable Fence Company, which was burned out a few days ago in the fire in the McCann Milling Company buildings. The company had not been manufacturing for some time.

Richard S. Gilpin, a commercial traveler and a shareholder to the extent of \$500, has filed an affidavit stating that he believes the company is insolvent, with an indebtedness of over \$200,000, and assets of \$450,000, of which \$250,000 is insurance on stock burned.

"The whole capital was lost in doing business," continues Gilpin in his affidavit. "The present machinery that had been built up in the factory was burned in the fire, and the machinery was sold for a very low price. The directors have passed a resolution to close up the company without the consent of the shareholders, and are proceeding to do so without taking any steps to satisfy their claims."

**LLOYD'S GETTING EVEN.**

British Government Didn't Help in Jap War and No Favor Given Now

London, March 22.—The financial secretary to the admiralty announced in the house of commons to-day that the admiralty estimated the value of the merchant ships, including their cargoes, which are expected to cooperate in the grand naval manoeuvres in June at \$50,000,000.

The government, he added, was negotiating for insurance up to this amount, but the terms had not yet been agreed upon.

It appears that the government representatives appealed to the patriotism of the Lloyd's underwriters to write the insurance at a very low rate, but the underwriters retorted that the government had failed to insist on the prompt payment of losses caused by the Russian warships during the late war with Japan, and demanded a higher premium.

## STRIKE OR REVOLUTION? RUSSIAN LEADERS DIVIDED

Secret Conventions Summoned for April, When Final Decision Will Be Made.

St. Petersburg, March 22.—The agitation among the workers' organizations involves a bold plan on the part of the social democrats, revolutionists and other radical elements to send delegates secretly to a meeting to be called at some place in Finland early in April, at which an ultimate plan of operations will be decided upon.

A division of sentiment exists among the leaders. Some of them favor calling a general assembly of the party in April for the purpose of forcing the lower house of parliament to demand the immediate convocation of a constitutional assembly on the basis of universal suffrage, but the more audacious aim at setting up a provisional government. They believe the time is ripe to organize a general uprising, and if successful their representatives could boldly contest the authority of the government. The authorities here have already expressed their opposition to a general strike, and it is probable that the majority of the delegates to be sent to Finland will be in favor of a general strike, and not of the more radical project of setting up a provisional government.

**THREE WIVES; THREE YEARS**

McKendrick Is Given Good Character by One of Trio Only.

Clarence Kendrick was sentenced yesterday to three years in Kingston for having three wives.

Margaret Armstrong, to whom he was first married, said Kendrick was afterwards married to her in 1898. She had bought the wedding ring and license in her anxiety to marry. Ethel, the second wife, had turned to drinking and she left him. Sarah Ridley, whom he married Jan. 30 last, said he would not work, but for all that he "was a good man to me."

Wife No. 1 thought the sentence was not long enough.

**STOCKHOLDERS WILL CONTROL ZION CITY'S INDUSTRIES**

Chicago, March 22.—A radical change will be made in the affairs of Zion City industries, by which Dowle will retire from the management of its business. The stockholders of the manufacturing institutions will be incorporated into a new company, which will control the election of directors. The first institution to be incorporated will be the eastern states, and committees will be formed at Galveston, New Orleans, Baltimore and other southern seaports to direct emigrants to places where they can work at their trades.

**EMIGRANTS WILL BE WARNED TO AVOID EASTERN STATES**

Berlin, March 22.—Unusually large numbers of Jewish and Russian immigrants to North America and South America are expected to leave Germany after Easter, and an influential committee has been formed here with the object of directing the emigration to the best places.

So far as the United States is concerned, the committee will publish advertisements throughout Russia, advising emigrants to avoid New York and all the eastern states, and to be formed at Galveston, New Orleans, Baltimore and other southern seaports to direct emigrants to places where they can work at their trades.

**U.S. WANTS LEVIATHANS.**

Washington, March 22.—Secretary Bonaparte appeared before the house committee on naval affairs to-day and advocated an appropriation for 20 battleships, or at least the construction of one 16,000-ton battleship. In this he surpassed Admiral Dewey, who surprised the committee by advocating the construction of the type of the 13,000-ton battleship Dreadnought.

Estimates for construction aggregate \$22,300,000.

**Justices Double Murder.**

New York, March 22.—Two indictments charging murder in the first degree were returned by the grand jury to-day against Josephine Terranova, the young Italian woman who killed her uncle and aunt by stabbing several weeks ago.

The young woman claims justification on the ground that her uncle had taken advantage of her innocence and that her aunt had countenanced the acts.

**Master's Direct Niagara.**

Washington, March 22.—The senate committee on commerce to-day authorized a favorable report on the bill to incorporate the Lake Erie and Ohio River Ship Canal. An amendment provides that no waters from the Niagara River above the Falls shall be diverted to the canal.

**BONUSES FOR IMMIGRANTS.**

Scale on Which Government Will Reward Booking Agents.

Ottawa, March 22.—The bonuses to be paid to booking agents in the old country on tickets sold to Canada after April 1st will be as follows:

Upon persons whose occupation in the old country is and has been for at least one year one of the following: farmer, farm laborer, gardener, stablesman, carter, railway sectionmen, navies, or miners, and who have signed their intention of following farming in Canada, and to female domestic servants, the bonus will be 25 francs per person 18 years of age or over, 10 shillings on those between 1 and 18 years of age.

No bonus will be paid on infants, tourists, returning Canadians, saloon passengers, persons using prepaid tickets, nor persons of other occupations than one of the above named, or on persons mentally or physically unfit.

**CONTROL OF TELEPHONES.**

I. B. Lucas Has Bill to Regulate Ontario Companies.

J. B. Lucas, M.L.A., has given notice of a bill to regulate and control the contracts of telephone companies, so as to compel the companies to inter-change with local and other lines, with a view to finding out what authority the province had in the case of companies with Dominion charters.

The following bills were introduced in the house yesterday:

Dr. Jessop—To amend bylaw 1781 of the City of St. Catharines.

Mr. Brower—To amend the Toll Roads Expropriation Act of 1901.

Mr. Lucas—To authorize the supreme court of judicature of Ontario to admit N. W. Pope to practice law in the County of Ontario.

Mr. McGarry—Respecting the South-western Traction Co.

Mr. Auld—To amend the Assessment Act.

Mr. Kohler—Respecting natural gas wells.

Mr. Kennedy—To consolidate the floating debt of the Town of Fort Francis.

Mr. Fox—To amend the Municipal Act.

Mr. Racine—To amend the Assessment Act.

Mr. Small—Respecting the Town of Fort William.

**PRIEST ARRESTED FOR THEFT**

Cable Heads Of Syrian Who Sailed From Montreal.

(Canadian Associated Press Cable.)

London, March 22.—Some days ago the high commissioner for Canada received instructions from the Dominion authorities to secure the arrest of Jacobus Demetriades, a Syrian priest. On the arrival of the Tunisian at Liverpool the priest was arrested, and in his possession were found French money, 23 francs, 75c and a draft on the Union Trust of Philadelphia for \$483. Also five metal candlesticks and a quantity of church property, including a communion cup, also a quantity of imitation jewelry, which was claimed by a passenger, who applied to the police to give up the jewelry, but the police refused.

**ENGINE PILOT FALLS OFF TRAIN DERAILS; 2 KILLED**

Rochester, N.Y., March 22.—The Hemlock Lake train on the Lehigh Valley Railroad was wrecked this morning at Honeycove Falls this morning. The engineer, Wm. Gaffney of Rochester, was instantly killed and the fireman, Edward Brusky of Honeycove Falls, died later.

The accident was caused by the pilot dropping and derailing the engine, which was pulling a heavy train. The cars were derailed, some were damaged, and no passengers were injured.

**SNOWBOUND PASSENGERS RESCUED FROM TROLLEY**

Woooster, Ohio, March 22.—Seventeen passengers on the cars of the Cleveland, Southwestern Traction Line, snowbound by deep drifts five miles from Woooster, after spending an uncomfortable hour, were rescued to-day by farmers and livermen from Woooster, who sent three big sleighs to the snowbound cars.

The snow is so deep between Woooster and Berea, 40 miles away, that traffic on the road is at a standstill.

**WEDDED 50 YEARS AGO.**

R. R. Gamey, M.L.A., Home to Attend Celebration of Parents.

R. R. Gamey, M.L.A., left for home last night to attend the celebration by his parents of their golden wedding. The 50th anniversary occurs tomorrow. Mr. and Mrs. Gamey live at Gore Bay, and the well advanced in years are both active and take a lively interest in matters of provincial legislation. The couple have many friends in Manitowish, who will gather together to do honor to the happy occasion.

**GOVERNMENT CAUCUS.**

A government caucus was held at 1 o'clock. Premier Whitney announced after the event that there was nothing to give out, except that the caucus considered several bills.

Among the bills discussed, it was learned, were the agricultural society bill and the bill regarding land grants to veterans. Mr. Gamey was chairman.

**MR. JOHNSTON FOR BESCHER.**

E. F. B. Johnston, K.C., has, through the solicitation of a number of prominent members of the bar, allowed his name to be put before the legal profession in the coming election. He is a member of the Law Society of Upper Canada.

**OF to Europe.**

W. Pomeroy Morgan, of the well-known firm of Edwards, Morgan & Co., chartered accountants, this city, left yesterday for a three months' visit to Europe. Prior to his departure he was made the recipient of a handsome traveling case, an expression of the esteem in which he is held by the clerical staff. The presentation was made on their behalf by George Edwards, P.C.A., who voiced in suitable terms their wishes for a pleasant holiday and a safe return. Mr. Morgan, in reply, spoke of the cordial relations existing between the firm and its accounting force, and his appreciation of their kindly feelings towards himself. Mr. Morgan is accompanied by his mother and sails from Boston on Saturday.

**Sam Landers as an Editor.**

Samuel L. Landers, general organizer of the United Garment Workers of America, is in the city, having arrived here from Stratford yesterday. Mr. Landers is at present editing The Weekly Bulletin of the Clothing Trades in New York during the temporary absence of Editor Sullivan in France and England. Mr. Landers' visit to Toronto is in connection with some local matters in the garment workers' unions, and also to see what arrangements are being made for the annual convention of the general organization which is billed to take place here in Toronto during the month of August.

**G. T. R. is Preparing.**

Montreal, March 22.—The Grand Trunk Railway plans to complete its arrangements which will prevent any repetition of the grain blockade that occurred at Ontario lake ports last year, and which will enable them to look after all the needs of the Ontario millers.

New cars are being turned out as rapidly as possible at the company's shops and at outside works, and by the summer time the company, expect to have several hundred more available for the Ontario lines than in any previous season.

In addition the elevator capacity will be largely increased both at Midland and Godfrey.

**Most Stop Endless Chain.**

E. J. Willis, 71 Yonge-street Arcade, De street car endless chain man, was put out of business yesterday by Crown Attorney Curry. Mr. Curry has notified the concern they must stop or take the consequences.

**More Terrible Than War!**

More terrible than war, famine or pestilence is the awful destroyer, that hydra-headed monster, Consumption, that usually sweeps away more of earth's inhabitants than any other single disease known to the human race.

"It is only a cold, a trifling cough," say the careless, as the irritation upon the delicate mucous membrane causes them to sneeze, to cough, or to spit, and they go back away with an irritable tickling of the throat. When the irritation settles on the mucous surface of the throat, a cough is the result. To prevent Bronchitis or Consumption of the Lungs, do not neglect a cough however slight, as the irritation spreading throughout the delicate lining of the sensitive air passages soon leads to fatal results. If on the first appearance of a cough or cold you would take a few doses of

**Dr. Wood's Norway Pine Syrup**

you would save yourself a great deal of unnecessary suffering. Dr. Wood's Norway Pine Syrup contains all the life-giving properties of the pine trees of Norway, and for Asthma, Croup, Whooping Cough, and All Throat and Lung affections it is a specific. Be sure when you ask for Dr. Wood's Norway Pine Syrup to get it. Don't be humbugged into taking something else. Price 25 cts.

Miss Lena Johnston, Toledo, Ont., writes: "I have used Dr. Wood's Norway Pine Syrup for throat troubles after taking numerous other remedies, and I must say that nothing can take the place of it. I would not be without a bottle of it in my house."

**Perfect Manhood**

Our "Restorative" CURES are THE TEST.

Health of body, strength of mind, steadiness of nerves are the best and most precious gifts man can lay upon his altar of his conjugal love. Restorative operates on the nerves which control the sexual system, and infuse into it, power and vigor. No such thing as failure in life, is possible in perfect manhood; it is the lack of vital force, and the depletion of sexual energies that makes failure of men. Restorative awakens a man to a sense of restored vitality and power. Why be weak when you can so easily become strong? Proofs are the test. Sworn testimonials sent to any one on receipt of name. **METHODISTS AND OPEN SHOP**

Conference in Philadelphia Gets Excited Over the Matter.

Philadelphia, March 22.—The controversy between the Methodist and Typographical Union No. 5 of New York, came up for discussion at to-day's session of the Philadelphia Methodist conference. Rev. Dr. Homer J. Eaton reported that the last year was the most successful in its history, and that it had paid \$120,000 to the annual conference.

Some of the pastors requested an explanation concerning the anonymous circular which had been distributed declaring that the book concern had locked out its printers and had published questionable literature.

"We will not be dictated by our employers," Dr. Eaton said. "We fly the flag of an open shop." The charge of publishing questionable literature was branded as absolutely false.

A resolution was presented endorsing the attitude on the open shop question. This resolution, with the disapproval of many pastors, whose charges are among the laboring classes, and threw the conference into an uproar.

**JUSTICE TETZEL IMPATIENT "PEREMPTORY" LIST POSTED**

Justice Tetzels yesterday made some terse remarks about the way in which the lawyers in the non-jury court failed to put in an appearance when their cases were on the peremptory list.

"The loss of judicial time and the costs of the courts fall upon the country and the city," he said. "This is an outrageous state of things should not continue and I want this impressed on all counsel in cases."

After to-morrow the court will stand adjourned till Monday, April 2, and the peremptory list posted for that date will mean a peremptory list.

**OLD PRESBYTERIAN CHURCH DESTROYED BY FIRE**

Cornwall, March 22.—The Village of Manitowish was visited by the fire fiend on Tuesday, and St. Andrew's Presbyterian Church, one of the oldest as well as one of the finest rural churches in the province, was totally destroyed.

The fire was first discovered in the vestry. The church was built in 1855.

 The market reflected to-day higher cables than expected and a further accession of support from commission house traders, as the result of the new leadership and publications favoring the long side of the market. There is a better demand for spot cotton, which is having its effect on the local market and stocks, which are generally being reduced by shipments abroad and to spinners. The upturn has yet to develop evidence of active speculation and the option is yet too much to attract attention of spinners in protection of their fall and winter output engagements. The movement continues in a mild, reduced scale and New Orleans estimates for to-morrow are 1000 bales, against 850 last year. The Liverpool market closed quiet at 4 to 5 points advance. ### MEN'S FURS AS AN INVESTMENT

The weather for wearing winter furs has returned to remind a too confident public that Canada is a land of rigorous climate. With the return of winter there is no advance in the prices for Dineen's furs. Winter or no winter there is a certain proportion of the stock to be sold off.

Furs are steadily advancing in price, and Dineen's can as good as guarantee the furs bought now will save the purchaser at least one-half on the prospective prices of next season.

### TERRORIZED BY EARTHQUAKES

Twenty-One Shocks Demolish Buildings in Italian Penal Colony.

New York, March 22.—A despatch to The Herald from Palermo, Italy, says that there have been twenty-one earthquake shocks in the island of Ustica during the last three days. A great valley has been formed in the centre of the island and all the houses have been demolished. The shocks were vertical, not undulatory, and were accompanied by loud subterranean rumblings.

Panic seized upon the two thousand inhabitants of the island, who camped in the fields and public squares. Many took refuge in boats in the harbor.

The island is used as a penal settlement for hardened criminals, of whom over 600 are quartered there. These were also panic-stricken and attempted to escape, attacking their guards, but were subdued. One of the three mountains on the island is reported by the submarine cable to be in eruption.

The government at the first news sent the cruiser Verze to subside the revolt of the prisoners and aid the sufferers. She was followed by the cruiser Eurydice, with a scientific commission aboard to study the seismic phenomena. Yesterday the steamer Egadi was sent with soldiers, doctors, and a detachment of the red cross nurses and litterers, as greater disasters are feared.

### The Boiler Inspection and Insurance Company of Canada.

Changes in the Directorate.  
An interesting event in insurance circles was the election to the directorate, at the annual general meeting of the above company, held on Wednesday last, of Messrs Arthur L. Eastman, Francis J. Lightbourn and J. F. Smith, K. C., Mr. Eastman being subsequently made vice-president and managing director of the company.

The new board is constituted as follows: J. L. Blaikie, president; Arthur L. Eastman, vice-president and managing director; E. W. Rathbun (Dovercourt), Francis J. Lightbourn, W. B. McMurrich, K. C.; J. F. Smith, K. C.; and J. D. McMurich, chief engineer. George C. Robb, secretary-treasurer, H. N. Roberts.

The Boiler Inspection & Insurance Company of Canada is the latest institution of its kind in the Dominion, having been incorporated in April, 1875, under 38 Vic. Cap. 97, and has thus been over thirty years in business. The company's operations, confined strictly to the inspection and insurance of steam boilers, have been uniformly successful.

### INGERSOLL CITIZENS COMBINE TO MAKE FORTUNE IN COBALT

Ingersoll, March 22.—(Special.)—Twenty citizens of this town have formed a company to prospect mining claims in the Cobalt district. They have engaged a mining expert and will push the work.

The Independent Telephone Company of Oxford is in process of formation here for the purpose of operating a telephone system in Ingersoll and the surrounding district.

### YORK COUNTY AND SUBURBS REVISING THE FIRE LIMITS

Toronto Junction Town Council Makes a Number of Changes in That Respect.

Toronto Junction, March 22.—A special meeting of the town council executive was held this evening to consider a revision of the fire limit bylaw. Under the old bylaw the solid brick and stone district, known as class A, comprises the lots on both sides of Dundas-street as far west as St. John's Church, and both sides of Davenport-road. The committee rejected a proposal to extend class A as far as Elizabeth-street, but decided to put the west end of the street in class B (brick-clad district). Louisa-street was placed in class A. Davenport-road was reduced from class A to class B. The whole of ward three not already in class A under the Dundas-street clause was put in class B. There was a proposal to put the whole of High Park-avenue in class A. Chairman Armstrong advocated it, saying that this was the St. George-street of the Junction and should have only good houses on it.

Councillor Howell: "If you would go over to the other side you would see that some of the most beautiful houses are there."

The motion carried. Lakeview, Fairview and Laws-streets were all put in class B.

The True Blues had a social this evening, the proceeds of which go to aid the orphanage at Picton.

The property committee of the public school board went to Weston this afternoon to get pointers from the school buildings there as to how to heat the town schools.

### Leaside

Saturday afternoon and Sunday rambles and members of nature study clubs are warned against trespassing on the tracks and bridges of the C.P.R., the G.R. and the James Bay Railways. Fine weather is an inducement towards a rural ramble, and last Sunday being an exceptionally fine day many citizens haunted the suburbs and while doing so many trespassed on the railway tracks and were intercepted by county constables. These constables notify the territory in this locality together with Doncaster, Tomdromen, Donlands and North Rosedale. They secured a long list of names of unsuspecting persons and fifteen of them were summoned before a Danforth-avenue justice of the peace and fined. The remainder assumed names and cannot be found.

### North Toronto

The school board have decided not to change the tenders for the addition to Davisville public school.

McCrae is arranging for the erection of another dwelling on Davisville-avenue, adjacent to one recently built by him.

### East Toronto

East Toronto, March 22.—Two rinks each from the Malvern and Aberdeen clubs engaged in a friendly match on the latter's ice this afternoon, the home team winning by 15 shots. The score was as follows:

Aberdeen.	60
Malvern.	45

A curling match between two teams composed of the Irish and Scotch citizens resulted as follows:

Irish.	60
Scotch.	45

The winners are ready and anxious to meet with a rink composed wholly of English.

Mayor Richardson and a number of other members of the council, with Solicitor Grant, waited upon the private bills committee from 10 a. m. to 1 o'clock today with the hope of securing the passage of the bill empowering the town to assume the indebtedness on the Balmy Beach Park, but were unsuccessful in securing a hearing. They will meet the committee again this morning.

Harold Carnahan returned this afternoon from a week's pleasure trip to New York.

The Little Yorks will play the East Toronto Junior hockey team on the Gerrard-street rink on Monday night.

**2 in 1 Shoe Polish**  
Black, Tan and White  
None other for satisfaction, "2 in 1" is the "daddy" of all shoe polishes, and the "parent" has never been equaled. A little imitation gives the same "sleazy black" not feeds and wears away the leather like "2 in 1".  
If you have never shined your own shoes try it once. Refuse imitations.

### HURRY UP POWER REPORT BOARD OF TRADE ASKS

48 New Members Received by Council—Delegates to London Conference Appointed.

Forty-eight new members were elected at the council meeting of the Toronto Board of Trade yesterday afternoon. This makes an addition of 116 new members in the last three meetings of the council.

Most of the new members are young men, and the plans of the association discussed yesterday call for more energy and scope than has been shown in years. Among other important problems before the board was the distribution of power at Niagara Falls. The following resolution was adopted by the council:

"The council of the board of trade of the City of Toronto, recognizing the utmost importance to this city and to the province of cheap electrical power, and that the report of the commission appointed to look into the matter be published without delay."

The list of paid-up members in the association now numbers 686, and with the advent of new blood in the organization it is planned to have its operations keep up with the growth of Toronto and the province.

The following list of delegates was selected to represent the board of trade at the sixth congress of Chambers of Commerce of the Empire in London, Eng., July 8: A. E. Kemp, M.P.; W. F. Cockshutt, M.P.; Lieut.-Col. Geo. T. Denison, J. W. Woods, John F. Ellis, D. R. Gale, Thomas J. Lester, H. J. Dingwall, W. J. Gage, R. J. Christy, Noel Marshall, J. D. Allan, C. W. Bond, J. D. Ivey, C. W. J. Woodland and Secretary F. G. Morley.

The following are the new members of the board: J. J. Zock, John H. Boulter, William Fahy, W. J. Suckling, John Boyd, Edward Currie, Chas. A. Davies, H. Dallas, J. H. H. H. J. Dingwall, W. A. Hamilton, Robert Greig, T. O. Anderson, E. B. Fraser, E. G. E. Polkes, G. Anderson, John J. Gibbons, Chas. J. Brittain, F. W. Ormsby, N. A. Howie, S. R. Kennedy, James M. MacKenzie, Sidney Jones, George Caldebeck, J. W. Dyas, R. W. Millicamp, Stephen Haas, H. I. Armstrong, A. W. Anglin, Thos. J. Wardell, C. A. Brodigan, J. B. McCarter, A. R. F. Snowden, W. D. McIntosh, F. H. Crass and N. C. Sinclair.

### NEEDN'T SHOW HAT CHECKS DECISION IN RAILWAY CASE

Chicago, March 22.—A despatch from Bloomington, Ill., says the right of a railway company to compel passengers to retain hat checks given in exchange for tickets and to produce them upon demand is denied by the Illinois supreme court by the appellate court. T. T. and S. H. Gwynn were traveling on the Chicago and Alton, and were ejected from the train at this place because they refused to produce, upon demand by the conductor, the checks. They sued and were awarded \$500 damages.

The railroad will carry the case to the state supreme court.

### ATTEMPTED INCENDIARISM.

Moncton, N.B., March 22.—(Special.)—An attempt to destroy what is left of the I.C.R. shops has been frustrated. A quantity of oil-soaked waste was stuffed in an obscure corner and set on fire. There were two distinct blasts. Shortly before a suspicious character was seen lurking nearby. It was only a few weeks ago that the greater portion of the shops was burned with a loss of nearly a million dollars.

### Spring Clothing Requisites for Men and Boys

AN EARLY SATURDAY MORNING OPPORTUNITY IN WORSTED SUITS

Topper Overcoats—Chesterfield Overcoats—Rain Coats—Clearing Fur-lined Coats—Furnishings—Spring Hats—Some Half-Priced Boots.

SPRING sunshine and the Men's Store are well nigh related.

What do you need? Think. Make up your mind to the changing seasons. Your winter overcoat has lost its shape on the shoulders, perhaps the collar looks shabby. Your hat has faded. May be your boots need cobbling. Take stock of your outward appearance, and ten to one you will realize that a visit to the Men's Store will help it very materially.

To-morrow is a good time to come. Saturday is Men's Day you know. Look over this list of suggestions and special Saturday economies and make up your mind to a profitable visit.

COME EARLY

### ROYAL GRENADIERS' PARADE.

The Royal Grenadiers had their first parade of the season last night, and although a week earlier than usual, and the weather against a strong muster, the parade state showed 469 all ranks, including 40 recruits.

The commanding officer, Lieut.-Col. Simpson, was unable to be present, owing to illness, and Major Gooderham was in command. The regiment was exercised in battalion movements for a short time, and some of the companies were sent to the miniature ranges for rifle practice.

The orders showed 54 taken on the strength and 18 struck off.

Given a Watch.  
The Plasterers' Union met in the Labor Temple last night and made a presentation of a gold watch and chain presented to Lawrence Sullivan, the retiring secretary of the local. Mr. Sullivan has occupied the position of secretary for four years. The appointment of Thos. Jenkins as his successor, was confirmed.
