POSTPONEMENT REFUSED LIBEL CASE SEEMS DEAD

Judge Landry Renders Decision Favorable All Along the Line to the Defendant Editor.

FREDERICTON, N. B., June 25.—(Special.)—The last has been heard in the courts of the Emerson-Crockett libel case until January next, with the possible exception of an argument on a legal point or two. Perhaps it should be said that it is all over now.

Judge P. A. Landry this evening refused to allow the application of the crown for a postponement.

When court convened this morning his honor said he had been unable to consult certain authorities and asked that court adjourn until 4 p.m., but to suit the convenience of Mr. Hazen it was decided to adjourn until 7.30.

The court was crowded this evening, the most prominent citizens being among those present.

The judge, in his decision held that the article was written in the public interest, and again decided that the defendant's plea should stand and that the demurrer of prosecution should not stand.

"In my opinion," said the judge, "the right of the crown to get a postponement of trial remains the same as to the reserved case existed. Leaving aside, therefore, the consideration of the reserved point, no case has been made by the crown for a postponement. Hence I must refuse."

"I do not think I am called upon to note or consider in this application the responsibility of the crown, as made on Friday last, viz., that the crown would not go on with the trial until the decision given was reversed."

"If the meaning of that declaration was that the crown would be able to convince me that it had sufficient reasons for asking for a postponement, it has so far failed to present those reasons."

"The declaration meant that the crown had means to postpone the trial without an order for that purpose from the presiding judge, then I leave it to the crown to exercise those means or to go to trial. In the meantime the case stands as before, so far as the crown is concerned, ready for trial, and depending from me a disposition of it."

"There was somewhat of a delay after the rendering of the judgment, but the declaration before me made a move. Then Mr. Barry got up slowly from his chair. 'Well, in view of your honor's decision, I have no objection to the postponement, but I do not intend to proceed.'"

"My own opinion," asserted Mr. Barry, "is that the only thing to do with the indictment is to have it remain undisturbed until next January. That is, unless you wish to discharge me, or you may allow the same bonds to stand."

Maintain Indictment.

"I don't say which of these courses the court should pursue," concluded Mr. Barry, "but what I do say, is that Mr. Crockett should not be discharged, and that the indictment should stand to be disposed of by trial or by a notice of acquittal from the crown."

Mr. Hazen addressed his honor and strongly advocated the discharge of his client, Mr. Crockett.

When court adjourned and Mr. Crockett was held in his own recognition to appear in January next—"If there should be an indictment against him"—it was generally felt among the crowd in court that the last has been heard of the case.

The defence claim that Judge Landry had refused to grant a postponement, and the crown prosecutors refusing to proceed with the case when a postponement was not allowed, the indictment is killed.

If it is decided by the prosecution to have the point on which they have been granted a reserve case argued before the supreme court, that argument will not take place until November.

No Reason.

"I am asked by the crown, whose laws I am sworn to administer, to postpone the case to another court. I cannot in the facts, as known to me, find one good reason to do so. The only reason suggested is that, having reserved for the crown a case to be decided by the full court, not deciding the demurrer in favor of the defendant, I should postpone the trial till that is decided. In my opinion, that is no sufficient ground. The practice has been just the reverse."

—Judge Landry.

CANADA'S DEFENCE URGED BY ROBERTS

If Frontier is Left Exposed It Would Indicate a Poor Sentiment.

(Canadian Associated Press Cable.)
LONDON, June 25.—In the house of lords, Lord Roberts, referring to Hal-dape's army scheme, the merit of which, he acknowledged, remarked: "We could not leave out of account the most extensive exposed of all our frontiers, Canada's. Could we be silent about the defence of Canada without inevitably conveying to Canadians the impression that we did not consider the defence of Canada of vital importance? Surely, if there are any nations to whom we could not afford to give ground for offence they are the nations with the empire. But how could we offend them more deeply than by refusing to discuss questions which are matters of life or death to them?"

"If the empire is to be defended at all, the co-operation of the colonies and India is indispensable."

He looked, in the great imperial struggle, not to small contingents, earmarked for our use in return for our helping corresponding, the far larger, expeditionary forces available to help them. "War could not be waged on limited liability principles."

LIGHTNING SHATTERED MILES OF PHONE POLES

Electrical Storm in Vicinity of Brockville Causes Consider- able Damage.

BROCKVILLE, June 25.—(Special.)—A violent thunderstorm passed over this district this morning, doing great damage. A barn belonging to Frederick Darling of Springdale was burned. Telephone poles along the main travel roads were shattered and broken off for miles.

Lightning struck the residence of William Atcheson at Fairfield East, stunning William Harris who was in the stable feeding the cattle when lightning stunned him as well as several head of cattle.

STUNNED BY BOLT

WOODSTOCK, June 25.—(Special.)—Last evening at Lakeside Mrs. Arch. Martin was milking a couple of cows in the yard when lightning killed both of them. Mrs. Martin was badly stunned. William Harris was in the stable feeding the cattle when lightning stunned him as well as several head of cattle.

FRANCE AND SPAIN

Will Maintain Their Insular Maritime Possessions Intact.

PARIS, June 25.—The official text of the French-Spanish understanding was published to-day.

It declares that each government is firmly resolved to maintain intact its insular and maritime possessions in the Mediterranean and Atlantic and binds each country, in the event of circumstances arising which threaten to modify the status quo, to consult the other, with the view of "common action."

FIND REVOLUTIONARY HEAD- QUARTERS.

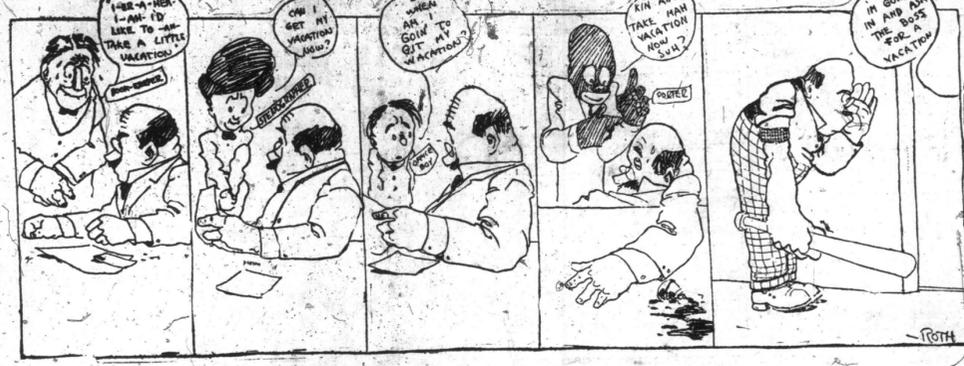

ST. PETERSBURG, June 25.—The police last night searched a department of the war ministry and found revolutionary groups, one of the revolutionary groups.

Much "illegal literature" was seized.

Nothing Serious.

PARIS, June 25.—The sensational newspapers are printing extra editions, and the news of troops in the south, but the war ministry declares that nothing serious has occurred.

ORCHARD GIVES LIE TO TWO WITNESSES

Swear That He Had Threatened to Kill Steunberg For Per- sonal Revenge.

BOISE, Idaho, June 25.—The first direct testimony in defence of William D. Hayward was offered to-day. The first witness for the defence was preceded by a further examination of Orchard, to permit the defence to complete its formal questions of impeachment.

Orchard spoke in the same soft tone that he did recently. He again denied that he ever threatened to kill Steunberg because of the Hercules mine and again asserted that he sold his interest in the mine two years before the trouble which drove him out of northern Idaho.

The witnesses heard to-day were F. R. Redd, once of Cripple Creek, and now of Goldfield, Nevada; and Chas. A. Sullivan, formerly of Cripple Creek and now a watchman in the Brown Hotel in Denver.

Redd testified that he heard Orchard make the statement and the threat in the miners' hall in Cripple Creek, and Sullivan swore that while he and Orchard were fellow boarders at Orchard's hotel in Boise, he saw Orchard threaten to kill Steunberg.

Their cross-examination showed that both witnesses were members of the Western Federation of Miners, and that Sullivan was a friend of Hayward, and many of the union leaders.

Dr. L. L. Magee, a mining broker, swore that Orchard told him in 1904, at Wallace, Idaho, that he was a spotter for a detective agency. Orchard denied this conversation.

Several witnesses, principally women who kept boarding houses at Cripple Creek, testified to Orchard's being in conference at various times with Steunberg, the detective for the Mine Owners' Association.

Reynolds Loses Long Walk But Friends Pay His Bet

Subscriptions Begun at Newcastle and Port Hope to Show Appreciation of Veteran's Pluck—Quit 18 Miles From Home.

At Whistly at 1.30 yesterday morning "Jimmie" Reynolds was reported to be going on, altho' thoroughly tired. When Bowmanville was reached four hours later the man was hobbling. He stopped for a moment as his feet were rubbed with Scott and Jerry's "foot elm" with apparently beneficial results.

Just before Newcastle was reached, however, the strain overcame him and he was forced to quit. He was taken to the station on a stretcher and placed on the 4 o'clock train. At Port Hope a great crowd gathered.

Reynolds' Condition.

Dr. Forrest was in waiting and a World man stated that Reynolds was not in bad condition. His limbs were in good shape, and beyond a slight blister on the right foot the extremities were all right. The man complained of being very tired and needed rest.

Reynolds chatted freely and attributed his defeat to the excessive heat. "The World" he said: "I will do it, you just as soon as the weather gets cooler, probably some time this fall. I can go to Toronto and back in 24 hours. I had gone a month ago I would have made it all right."

Setting on Result.

L. G. Bennett, proprietor of the Queen's Hotel at Port Hope, the referee, stated that he had won over \$400 betting against "Jimmie." He said the \$100 was lost on Reynolds' failure at Port Hope.

At Newcastle a subscription list was started, and in short time about one hundred dollars was contributed. His Port Hope friends will do likewise and, financially, Reynolds will be very little out, betting yesterday morning was 12 to 1 on Reynolds.

Pegging Out.

WILLING TO ABANDON CONTRABAND IN WAR

British Proposal at Peace Confer- ence—The United States' Proposition.

THE HAGUE, June 25.—The official documents of the peace conference were distributed to-night in yellow envelopes, under seal of the severest secrecy, to 250 members of the delegation, besides the secretaries. The document contains the text of some of the propositions presented to the conference.

The American proposition, presented by Joseph H. Choate, yesterday, runs as follows:

"The private property of all citizens of signatory powers, with the exception of contraband of war, shall be exempt from capture or seizure by the armed vessels or military forces of said powers. Nothing in this rule implies in any way the inviolability of vessels which will attempt to enter a port blockaded by the naval forces of said powers, nor of the cargo of said vessels."

The British proposition of the same date says:

"In order to diminish the difficulties met by the commerce of neutral powers in case of war, the British government is ready to abandon the principle of contraband in case of war between powers which sign a convention adopting this principle. The right of search will not be exercised, except to prove the neutral character of commercial vessels."

Another proposition submitted by Great Britain says:

"The destruction of a neutral prize by a country capturing it is prohibited. The country making the capture should release any neutral vessel which it cannot bring before the prize court."

The president of the conference, M. Nelldorf, today received a deputation from Christian churches throughout the world, headed by Very Rev. William Henry Fremantle, dean of Exeter, who presented an address urging the conference to ensure peace, justice and humanitarianism.

The address was signed by all the leading churchmen of Great Britain, except the British Catholics, who refused to participate, even indirectly, in a conference to which the Pope was not invited. Nine American Catholic bishops signed the address.

M. Nelldorf thanked the deputation for the interest taken in the work of the conference, to which he said the address would be communicated, adding that everyone earnestly desired the success of its work.

The proposition which France has presented to the second committee (and war) will express the wish that a declaration of war become compulsory before the opening of hostilities.

G.T.R. WILL TAKE OVER OTTAWA-KINGSTON LINE

Ultimate Destiny of Important Link —A Down-East Rail- way Deal.

MONTREAL, June 25.—(Special.)—It looks as if the Grand Trunk direct line from Toronto to Ottawa via Kingston would be amongst the first of the projected roads to be constructed. Altho' the charter is not in the name of the Grand Trunk, it is said that an understanding exists between that corporation and the promoters of the railway in question, consequently there is very little doubt in the minds of railway men as to the ultimate destiny or ownership of the road.

Glendrez Bros., the London bondholders of the Atlantic and Lake Superior Railway, have sold that road to the Carpenters, also of London. Constituting the Atlantic, Quebec and Western, for \$2,000,000. He went westward, thru the Restigouche Valley to Edmundston, where connections will be made with the Grand Trunk Pacific.

CHANGES OF ROUTES.

The Toronto Railway Co. intend putting in a new intersection at Queen and York, work to commence Thursday morning. This will necessitate the following changes of routes:

Parliament cars will follow their regular route down town, but returning up Yonge to Queen.

Broadway cars will turn down Yonge and along Richmond and up Victoria to Queen.

AGED WOMAN HANGED MURDER NOT SHOWN

Ancestor Tragedy Which May Have Been Accidental or Designed.

HAMILTON, June 25.—(Special.)—Mrs. John Reynart, aged 65, wife of a farm laborer of Ancaster Township, was found hanging last night in the barn. When Reynart returned home from his work his wife was not in the house and a search was made by neighbors.

Wild rumors were set afloat that the woman had been assaulted and then case of suicide.

Coroner Brandon filed an inquest this evening and Dr. James Edgar testified that death was due to strangulation. There had been no assault committed.

It was shown in evidence that Mrs. Reynart went into the barn to gather eggs and in some way became tangled in a rope hanging from a beam. There was no knot in the rope and no evidence at all of premeditation.

The jury brought in a verdict that deceased came to her death by her own hands. Whether there was suicidal intent or not was not determined.

PASSED WORTHLESS CHEQUES

WOODSTOCK, June 25.—(Special.)—John O'Brien of Montreal is under arrest for passing worthless cheques.

O'Brien went into the local branch of the Crown Bank and attempted to secure some money by offering a cheque signed by John O'Donnell. The bank manager, James McQuire, and tendered the cheque and received \$25. He went into another hardware store, but failed. Later he was arrested.

EASTERN ROADS ACCEPT NEW RATE LAW

Central Passenger Ass'n Decide on 2 Cent Fare in 3 Big States.

CHICAGO, June 25.—(Special.)—At a special meeting to-day of the Central Passenger Association, embracing all the railroads running east from Chicago and St. Louis, it was agreed to follow the same policy as the western roads and to make no fight in the courts now against the two-cent fare law of Illinois, Indiana and Ohio.

While it is possible that after maintaining rates for several months on a basis of two cents per mile, some of the roads will go into court and try to have the law declared invalid, because it enforces an unreasonably low and unprofitable rate on the railroads, the opinion which is generally held, if not loudly voted in local railway circles, is that both state and interstate passenger rates through the country must be reduced to a basis of two cents per mile, and that it will be impossible to advance it after it has been in effect for any length of time.

To-day's meeting of the eastern roads demonstrated that they will pursue the same policy regarding the Illinois law, which goes into effect July 1.

This will force down the interstate rates to Missouri River gateways so the two-cent basis will spread from point to point, until it extends from the Atlantic to the Pacific.

JAPAN IS AGGRESSIVE.

Is Stirring Up Matters in Manchurian Timber.

MUKDEN, June 25.—Without waiting for an announcement of the policy of the new Manchurian administration Japan, on the grounds of the defence of her treaty rights, has begun a program apparently directed toward forcing action by China.

Gen. Kojima, military head of the timber bureau, is levying on one-fourth of all timber. Three thousand rafter saws tied up for the trading season and six thousand other rafter saws, as ten thousand unemployed lumbermen are now in Antung, disorder is feared.

Gen. Kojima to-day issued a proclamation intended to relieve the situation. China's default in the negotiations and its supply of large timber company in defiance to the Japanese protests have rendered void the plan of Kojima for stopping Chinese timber operations, which he holds to be illegal.

China's course since May has exposed her to coercion and the alteration of the Japanese Manchurian policy from compromise to force.

"Are they really making finds in that country?" was asked.

"Yes, they are. A good discovery was made on Thursday last, with gold and silver being found. I do not know how great the quantity is, because the vein was just struck. The prospectors are all hopeful, tho."

"There is one fault I find with it, and it is this: Last winter a lot of fool prospectors, on snowshoes, hunted the rocks in the snow. One or two of these discovered ore. Now the government inspectors come around, and if mineral is discovered the claim is not allowed. Some prospectors kick, but they have no right to do so. Their claim did not show because they have no right to plant a discovery post. Every man should make a real discovery and get his claim registered with the prospectors. The list of claims allowed are posted at Latchford by the inspectors.

"I would like to get to Latchford to find out if a man's claim is allowed. This consumes time, and energy, and causes much inconvenience. What is the list of claims allowed? I think they should be published at least once a month in the newspapers. This would be a material advantage."

"Do you think the country is good?" was asked.

"Yes, I do. I think there will be some interesting discoveries by September," he replied.

RAVENSWOOD'S FAIRYLAND FETE

Magnificent Spectacular entertainment Given in Aid of St. Alban's Cathedral.

A veritable fairyland was Ravenswood-on-the-Hill, on Davenport-road, yesterday, the occasion of the great faylan fete given by Mrs. Arthur I. aid of the extension of St. Alban's Cathedral. It is seldom that the general public are granted the privilege of visiting these extensive grounds, and the many who embraced this opportunity were charmed. But it was in the evening that the spectacle was at its best. Then nature and art combined produced a scene of unsurpassed loveliness. Chinese lanterns twinkled among the trees, well-lit, charmingly appointed booths were placed in commanding positions, decorations appeared on all sides and high over all soared the full moon.

The speaker chanced on an apparently rural apple-woman with a rustic cart, a charming "Rebekah at the Well"; "Cinderella" with her tempting display of cakes in shoe and heart-shaped boxes; there he came to Japanese tearoom with appointments and fair waitresses so ordered as to tempt him to believe that he was indeed in a corner of chrysanthemum land. The Queen of Hearts, Cherry Ripe and the Tea Garden were also very fancied features.

High tea, served from 5 to 7 p.m., was an important function. It was very largely patronized and was a most decided success. Miss Canavan and Mrs. H. S. Howard were in charge of this affair. The platform had been erected on a high knoll. "Raindrops," a number in which twenty-one little tots appeared to the greatest advantage, was certainly the most beautiful number. Miss Ruth Smith, Miss Josephine, Miss Lorna Maclean and Marion Richardson as Butterflies were highly applauded.

A great spectacular feature was "The British National," represented by Miss Harley-Smith, Misses Rita Haynes, Virginia De Costa and Irene Harley-Smith. The "Cricketer" spectacle, by a large number of young boys and girls, much to the applause. Miss Katherine Murphy took the premier part, while Miss Esther Lawson gracefully performed a skirt dance.

"The Harvesters," by a large number of young people, won much admiration. Special features included a Spanish dance and song, "Carmina," by Miss Mary George, a Scotch solo, "Seann Truibhas," by Miss Ruby Gardner, and a solo by Earl Ludlow. The singing of Miss Phyllis Baker in the afternoon was especially appreciated.

The Highland reel by Misses Edith Kelk, Nora VanNostrand, Loren Stone, the Japanese costume, "Our Nobles and Defenders," by sixteen boys and many other attractive features were also presented. The performance will be repeated this evening.

SUMMER FAG.

Dr. Williams' Pink Pills the Best Tonic For Summer.

The long hot summer thins the blood and leaves you weary, worn and wretched. Nothing can cure that summer fag except Dr. Williams' Pink Pills—because they actually make new blood and thus strengthen every organ and every tissue in the body. Every dose gives you with new strength, new energy, new life. Purgative pills only weaken you more. Common tonics only stimulate for the moment. But Dr. Williams' Pink Pills actually make new blood and nothing but good, pure rich red blood can brace you to stand the summer. That is why you should take Dr. Williams' Pink Pills now. Mr. J. Norfolk, White Horse, Yukon Territory, says: "I am 39 years of age and have been an athlete who 'sincerely knew the meaning of illness. Last year, however, my health gave away. I became nervous, did not sleep well and grew as weak as a kitten. It seemed as though I was completely worn out. I tried several so-called tonics, but it was only a waste of money, for they did me no good. Finally I began using Dr. Williams' Pink Pills, and they put me on my feet again, and gave me new health and strength."

Every weak and easily tired man and woman will find new health, new strength and new energy through a course of Dr. Williams' Pink Pills. They cure all blood and nerve diseases, like anaemia, nervous exhaustion, headaches and backaches, indigestion, neuritis, rheumatism and the special ailments that afflict most growing girls and women of mature years. Sold by all medicinal dealers, or by mail at 50 cents a box, or six boxes for \$2.50, from the Dr. Williams' Medicine Co., Brockville, Ont.

The Toronto World CHILDREN'S HUMANE LEAGUE

Now that the holiday season is so soon to turn our children out into the fields and woods, parks and gardens, it is right and necessary that a word should be spoken about the treatment of animals and the care of trees and plants. It is very deplorable that in the hurly-burly of modern life so little time is given by parents to the subject. Children seem to be, for the most part, incapable of realizing unless explicitly told that animals have the same feelings as themselves and that it is degrading to hurt or tyrannize over them. Then about our trees and plants. Everyone knows how they are used. In one park in this city a tree planted by King Edward when a boy is simply disfigured half way up the stem by names cut in the bark. A little while ago Shelley's grave in Rome was desecrated by a New Zealand tourist who cut into the stone his name and address.

While we especially aim at the preservation of dumb animals from injury, our society is announced for the additional purpose of preventing such vandalism. Parents and teachers are earnestly requested to give their support. A form is printed below for application for membership and should be filled out and addressed to: The Children's Humane League, Toronto World.

Competitions will be announced weekly for a letter, to consist of 200 words, or less, on subjects to be given out by the editor. The prize is to be a silver pin with the letters T.W.H.L. in enamel. Only members of the society who fill up the blank form and send it in can compete. No one over 14 years of age can compete. The first subject will be announced on Thursday.

I wish to become a member of The Toronto World Humane League.

Hard on the Savings Banks.

This sort of weather brings the vaccination microbe seductively whispering of woods and mountains and cool waters, drawing enticing pictures hard to forget in the city's heat and dust. If you want to stop at home this summer and save money, don't send to the C. P. R. for any of the following: "Musko Lake," "Challenge of the Mountains," "St. Andrew's-by-the-Sea," "Fishing," "Shooting," "The Echo Inn." Finely illustrated and well printed, they, too, draw pictures even harder to forget. C. P. R. district passenger agent, C.P.R., Toronto, the man to apply to if you want them.

"First Aid" to the Bowels.

WHEN Heartburn, Sour Stomach, Headache, Bad Breath, coated Tongue, Belching of Stomach, Gas, or any of these forerunners of Indigestion appear, Old Dr. Cascaret wants to be right on the spot in your pocket. Dr. Cascaret guarantees to cure the most obstinate cases of Constipation and Indigestion, without discomfort or inconvenience. His medicine does not gripe nor purge, but exercises naturally the muscles that line the walls of the Intestines and Bowels.

Want of Exercise weakens and relaxes the Bowel-Muscles, just as it weakens Arm and Leg Muscles.

Old Dr. Cascaret goes directly after these Bowel-Muscles. He wakes them up just as a cold bath would wake up a lazy person. Then he works them (through the nerves) till they get so strong from that Exercise that they don't need any more help to do their duty.

Heavy dinners, late suppers, whiskey, wine or beer drinking, nervous excitement, sudden exposure to cold heat and a dozen other everyday likelihoods tire the Bowel-Muscles.

In such cases a little Cascaret in time is worth fifty dollars worth of Treatment later on, to say nothing of the suffering, discomfort, loss of Business Energy, and loss of Social Sunshine it saves.

Little thin Cascaret Box, shaped so you don't notice its presence in purse or vest-pocket.

HOUSE COLLAPSES, 7 KILLED.

Six of Family Lose Their Lives—House Had Been Built 50 Years.

NEW YORK, June 25.—Seven persons, six of them members of one Italian family, were killed to-day in the collapse of a ramshackle tenement in the downtown Italian quarter. Three other members of the same family were rescued from the ruins. An old man was rescued from a two-foot ledge 40 feet from the ground by firemen.

The building was a four-story affair, built in 1857. It had been in a dangerous condition because of excavations next door. The concrete rubble of subway trains a block away was too much for it.

The seven persons who lost their lives were buried under tons of debris. Some had been instantly killed, but others escaped death in the first crush only to be smothered by bricks, broken timbers, plaster and dust.

Two of the younger occupants of the house who reached home shortly before 2 o'clock this morning, warned by the severe shaking of the house, ran thru the building and warned sleeping tenants of impending disaster, and dozens of persons ran into the streets in their night clothing.

But Promised Exploitation of Sco Was Not Forthcoming.

Judgment was given by Mr. Justice Riddell yesterday for \$711 and costs against Robert W. Wilson in favor of F. H. Clergue. It was alleged that Wilson introduced himself as a representative of the London Daily Chronicle and Reuter's Agency, and prevailed upon Francis H. Clergue to pay him \$10 a day to exploit in the English papers the works at Sault Ste. Marie. Mr. Clergue states that not only did the Scoit works not receive the exploitation arranged for, but that Wilson threatened to send news detrimental to the works unless he was given money. He received \$578 under his contract, and is alleged to have received \$125 more by pressure.

Baseball Tim Flood in Trouble

Another Win for Toronto Beat Providence by 7 to 1

The Flood, After Being Put Out of Game, Assaults Umpire Conway and is Taken Off Field by Police-men.

Probably the most brutal assault ever committed on a ball player in Toronto was Tim Flood's deliberate attack on Umpire Conway in the sixth inning of yesterday's game at Diamond Park. Many of the official's decisions were correct, and probably in the main against Toronto, but to thousands of spectators he appeared to do the work well. Flood broke into the game on Monday after several days' absence owing to an injured arm, and performed well. Tuesday's game was a hot one, and fell far below the standard of the previous day. It appears there is a bad blood between Flood and Conway. The Toronto second baseman became angered in the first inning, when after being put out, he attacked Flood with his fist. Flood, who is a big, powerful fellow, returned the blow, and the two men were separated by the umpire. Flood was first put out in the sixth, but he was not taken off the field until after the seventh. Flood was first put out in the sixth, but he was not taken off the field until after the seventh. Pringle Stays with Capitals Meeting of C. A. Executive

Fergus-Hespeler Protest Disallowed - Jimmie Murray Re-instated - Tecumseh-Toronto Plan Opens To-Day.

An Ottawa despatch says: Pringle, the defence field and ex-captain of the Capitals, has decided to remain in Ottawa. He had arranged to visit the Capitals, but had resigned from the team. Pringle was reinstated as a member of the team. The C. A. executive met at the Toronto last night, with President Harry S. Cameron in the chair, and T. F. Doyle, E. P. Krausman, J. K. Forth, and C. A. Eby and Woody Zegart of the council present. The Hespeler-Fergus protest of Hespeler, Fergus, and Eby against the proposed merger of the two teams was discussed, and it was decided to let the matter stand as at present, which therefore goes to show that the protest is of no avail.

DONT LIKE TO THINK IT.

The Globe is unable to define its position on the issue of two cents a mile for passenger traffic in Canada. It publishes the views and wishes of various railway officials. We are told that it would be "a most serious thing for both the Grand Trunk and the Canadian Pacific, and probably also for the Canadian Northern." We are gravely assured that "a two-cent rate for transcontinental traffic in Canada is something that Canadian railway officials do not care even to think about."

But do the people of Canada care to think about it? Has The Globe sought to find out what their views may be on this subject? Does The Globe care to think about it? The nearest it comes in this regard is in the expression that "two contiguous nations, similar in language, in ideals, and in aims, will not long maintain wide differences in the rates for public service." But will The Globe do anything to put an end to this discrimination, if or when, it exists?

We are told that also, the people in the United States get the two-cent-a-mile rate, that they do not get the excessive rates which still prevail in Canada. Let us see about that.

In The Chicago Record-Herald of the date of June 24 we find thirty-day round-trip tickets advertised from Chicago to various points in Canada. The C.P.R. sells a round-trip ticket from Chicago to St. John, N.B., for \$29.50. Enquiry here shows that a similar thirty-day round-trip ticket from Toronto to St. John, N.B., costs \$37.50.

Let us see how long for the poor Yankees who pay two cents a mile the year round, and they get excursions from Canadian roads thru Canada territory at considerably less than the three-cent-a-mile Canadian can ever hope to get.

CANADIAN MEAT IN BRITAIN.

While agreeing with the view that the exclusion of Canadian cattle from Britain is unjustifiable for the reason officially assigned, The World has not been inclined to regard the regulation as altogether adverse to the true interest of the Dominion. To encourage the shipment of cattle in a raw and undressed condition in order that they may be finished in Britain is to discourage not only an important branch of stock raising, but also a number of dependent and allied businesses which ought to find a natural home in Canada. The proper policy is to finish cattle here and to develop the cold storage trade. In that way the by-products, such as hides, horns, etc., etc., will become the raw material for other home manufacturers and thus assist the development of Canada as an industrial community.

Last week at a session of the beef commission in Macleod, Alberta, the chief witness was Dr. Duncan McEchran, late manager of the Waldron ranch, who has also been dean of the veterinary faculty of McGill University, chief veterinary inspector of stock for the Dominion and vice-president of the noted Cochrane ranch. He strongly advised the feeding of a Canadian

cattle, because it would pay directly, and stockmen must do it if they are to establish a demand for Canadian meat in the old country market and cope with that from other countries. From his experience both in Canada and in England Dr. McEchran expressed the opinion that Canadian cattle were put on the market before they were "ripe." There has been general agreement among the other witnesses examined before the commission that the only possible or satisfactory solution of the cattle question in Western Canada is for the government to undertake the shipment of meat by cold storage.

FLOUR SELLS HIGH.

Record Price Yesterday—Canadian Goods in Mexico.

The highest Toronto sale of flour on this year's wheat crop was made yesterday by A. T. Butler of the board of trade to a Glasgow firm, at 24 shillings per bag, c.i.f., Glasgow. This is 4s 8d higher than the lowest price sold on this year. The four grades 90 per cent. winter wheat patent.

Alex. Cavanagh of the Toronto Board of Trade received a reliable wire yesterday, stating that the Northwest crop are two weeks late this year.

E. D. Arnau, a Canadian commercial agent at St. John's, Nfld., has asked the Toronto branch of the Canadian Manufacturers' Association to see what can be done towards getting a market in Ontario for Newfoundland slate. The government geologist reports says "the slate of Bay of Islands (on the west coast of Newfoundland) is of a very superior quality and there appears to be every prospect that it will be marketed in the future."

Notwithstanding this report, it appears that the slate has already been tried here and did not give the satisfaction expected of it.

Indication that the merits of Canadian goods are appreciated abroad is manifested in a request from A. W. Donly, Canadian commercial agent in Mexico, who writes to the secretary of the Toronto branch of the Canadian Manufacturers' Association, with a suggestion that packages of "Made in Canada" goods be sent to a dozen prominent Mexican firms who have requested them and could not be at once accommodated, as Mr. Donly's supply had run out. The cards are being sent.

Another proof of interest in this country is the requests that come from far away parts for the copies of "Industrial Canada." The newest subscriber is a man in Panama.

The body of William Salmon was taken from the Yonge-street slip yesterday morning. It was identified by means of a letter found in one of the pockets. The letter was from E. J. Salmon, a partner in a firm, where a sister of the dead man lives.

Salmon had been missing for about a month. He had been in the country only about nine weeks. He had talked of suicide.

ALDERMEN VISIT ISLAND FOR PLEASURE AND WORK

Civic Rulers Spend Pleasant and Profitable Day on Inspection Tour.

The city council's annual trip to the island yesterday afternoon proved a very pleasant event, besides serving the useful purpose of allowing inspection of improvements completed and in progress. Most of the aldermen and a number of civic officials journeyed across the bay at the invitation of Ald. Keeler.

After visiting Ward's enjoyable spin was taken around the island and luncheon at the Island Park pavilion was followed by a baseball match between the city hall and the press, the newspaper men winning. Out after a strenuous struggle of five innings by 10 to 7. Ald. Keeler, McChie, Church, Adams and J. J. Graham were on the losing side, while the business manager of the ferry company, umpired more or less satisfactorily.

The civic party afterwards enjoyed the company's hospitality, being conveyed to Hanlan's Point and allowed the freedom of all the amusement devices.

HOME BANK CAREFUL

Annual Statement Shows Less Than \$400 on Its Books of Doubtful Debts.

After getting a general banking business for a full year and keeping records to the extent of nearly six and a half million dollars actively invested, the management of the Home Bank of Canada is able to report the creditable statement that less than \$400 stands on its books for doubtful debts. The statement of the directors who attended the annual meeting of the bank yesterday show that the institution has adopted a very conservative policy.

This conservatism has not been followed so closely that it has interfered with the bank's steady progress is sufficiently evidenced in the increase in assets and deposits.

The statement presented at the annual meeting shows that the Home Bank of Canada has now nearly five million dollars on deposit, while the assets have advanced to nearly six and a half million dollars. The figures further show that \$50,000 has been added to the rest account, and \$10,000 set aside for new branches, which a six per cent. dividend has been paid.

Although authorization has been given the management to increase its capital by one million dollars, there is no immediate prospect of the stock being issued. The board of directors may be added to by the addition of several new capitalists from the west.

From reports laid before the shareholders it would appear that the management has the Northwest in view as a profitable field for expansion.

Low Expensive Percentage. The directors' report shows that the profits for the year, after paying all charges, including expenses incurred in the opening of new branches, and providing for bad and doubtful debts amount to \$78,036.65, being about ten per cent. on the average paid-up capital, and the sum of \$20,000 was reserved. A further addition of \$50,000.00 has been made to the rest, and the sum of \$100,000 reserved for expenses in connection with the opening of new branches.

The dividend at the rate of six per cent. has been paid, and the sum of \$18,454.40. These figures represent a steady advance in the business of the bank during the year. Branches have been opened at Fort Erie, E. C. Wilmshurst, Man. Melbourne and Canington, Ont. Another branch will be opened in Toronto at the corner of Bloor and Bathurst-streets. Two sub-branches were opened, one at Tecumseh and the other at Everett. In view of the increased business in the country, more especially in the Northwest, the report states there should be good opportunities of increasing the bank's usefulness and interests and the directors have approved a bylaw authorizing the increase of \$1,000,000 to the bank's capital, and the sum of \$2,000,000. If this bylaw is passed by the shareholders, it will give the bank the advantage of being able to avail itself of good opportunities as presented from time to time of extending and increasing its business.

A Fortunate Institution. The chairman's address reviewed the money situation and referred to the position of the bank. "The Bank was in the fortunate position at starting," the chairman declared, "of stepping into an established business while that business required reorganizing to conform to banking rules, it enabled us to take over the business on a profitable basis. The business that has been secured is, we believe, of a class any bank would be glad to have on its books. The best evidence of the care that has been exercised in selecting it is the fact that the amount required to provide for bad and doubtful debts is under \$500. We recognize the fact that we might possibly have shown more expansion, but the policy we have followed is very conservative and we consider it much better in your interests to follow closely the policy we have adopted, which is to proceed carefully and surely."

Your Directors have made a personal inspection of the treasury and securities held at the head office, Toronto branch of the Bank, verifying the balance shown by the head office books. The different branches of the Bank have been inspected during the year.

Expansion in the West. "The trade condition of the country, more particularly in the Northwest, has drawn your Directors' attention to the fact that during the coming year it might be opportune and advantageous to increase the capital stock of the Bank, and they have approved of a bylaw to be submitted for consideration, which provides for an increase in the capital stock to the extent of \$1,000,000, which will make the authorized capital \$2,000,000. It is quite possible that little, if any, of such new stock may be issued this year. It is, however, in the regard it is desirable that your Directors be in a position to do what they think will be in the best interests of the Bank."

The chairman of the meeting was Mr. M. J. Haney, C.E. Mr. Eugene O'Keefe, President of the Bank, was absent owing to indisposition, and the Vice-President, Mr. Thomas Flynn, was out of the city. The shareholders present were: A. Bell, B. E. Bull, Geo. F. Clare, Wm. Crocker, Lieut.-Col. J. I. Davidson, Dr. J. T. Dunce, H. W. Evans, D. Fitzgerald, E. Flanagan, F. A. Fleming, J. T. Frank, Edward Galley, F. H. Gooch, E. G. Gooderham, M. J. Haney, C.E., Widmer Hawke, J. J. Hobson, Philip Jamieson, W. T. Kormanhan, Wm. Lavale, F. E. Lake, T. A. Lytle, Lieut.-Col. James Mason, Major J. Cooper Michon, Isaac Moody, Harold G. Muniz, J. P. Murray, Wm. Parkyn Murray, M. O'Connor, W. H. Partidge, J. S. Robertson, R. B. Street, John S. Thomas, M. A. Thomas, E. P. Wood.

The Board of Directors were re-elected: Eugene O'Keefe, President; Thomas Flynn, Vice-President; E. G. Gooderham, M. J. Haney, C.E.; Lieut.-Col. J. I. Davidson, W. Parkyn Murray, Lieut.-Col. James Mason.

A resolution was adopted extending the thanks of the shareholders to the directors for their careful attention to the interests of the Bank.

The following gentlemen were thanked by the shareholders: General Manager Col. James Mason, and the other officers of the Bank, who had performed their duties.

Not a drop of Alcohol

Doctors prescribe very little, if any, alcohol these days. They prefer strong tonics and alteratives. This is all in keeping with modern medical science. It explains why Ayer's Sarsaparilla is now made entirely free from alcohol. Ask your doctor.

We have no secrets! We publish the formulae of our preparations. J. C. Ayer & Co., Lowell, Mass.

A CREEPING MARKET.

Cobalt Stocks Will Gradually Improve, Says Brock, Millwall.
 James A. McIlwain, in his market letter, says:
 "The financial condition is gradually clearing, and within a short period, with easier money, a healthy rise is sure to transpire. There is a large short interest in nearly all the stocks, particularly Foster, which means that when once the market turns a surprisingly sharp rally will occur."
 "It is, however, everyone's interest is focused upon the approaching report at the general meeting, June 27, of Foster. This report will be the hinge upon which the market will swing."
 "For the time being, prices, we think, will hold fairly firm, with a gradually creeping upward market until activity ceases."

The trip to Hamilton is not only a water trip, but also affords the finest facilities for field games and popular entertainment. The park, which is accessible by street cars, has a fine swimming pool, and a new and popular amusement feature, a roller skating rink with 12,000 square feet of floor space. The noted Mountain View Club has undergone many improvements for the convenience of tourists, and is making a name for itself thru its catering department.

GIRL MAY SAVE FATHER TELLS CAUSE OF CRIME

Father and Daughter Take Stand to Justify Murder of Young Man.

HOUSTON, Va., June 25.—Between stifling sobs and with tears streaming from her eyes, Miss Elizabeth Loving, aged 19, who has been a principal in the trial of her father, Judge William G. Loving, for the murder of Theodor Estes, testified here to-day of her alleged ruin by the young man, whom her parent shot to death.
 Estes, she said, gave her a drink of whiskey from a flask he had in his pocket, while they were out buggy-riding on the afternoon prior to his being killed. After taking the drink, she declared that her head "spun around" as if she had been given some powerful drug. In this condition her escort drove her along an unfrequented road and then abused her.
 She recalled nothing more until she regained her senses in bed late that night at the home of County Clerk E. L. Kidd. On the following morning she related to her father on bedded knees the statement she made to-day. This recital, the defense contends, so affected the mind of Judge Loving that he committed a crime which, according to his statement, could have been prevented by no power "except God Almighty."
 After an argument of an hour, Judge Barisade permitted the defendant, who was on the stand, to relate a conversation with his brother-in-law, Harry Estes, told him of the alleged drugging of his daughter, which led to the killing.
 "This revelation came to me as a thunderbolt from a clear sky," said the defendant. "I loved my daughter and no power on earth could have restrained my hands."
 Here the witness wept, and several of his relatives also gave way to tears. Continuing Loving said:
 "In this condition of mind I went out intending to put that man to death. I got my shot gun and drove at once to Washington. When I got there I called a boy and asked for Estes, but found he was at Oak Ridge. I went to Oak Ridge and I enquired for Estes. I learned that Estes was in a car at the station. I then turned my horse to a livery stable and got out of the buggy and loaded my gun. I saw Estes in the car with two negroes, waved the maside and said to Estes: 'You are the young man who takes ladies out driving and drugs and ruins them?'
 "I heard no reply and when he made a motion as to leave the car I shot him. I then surrendered myself to the nearest magistrate.
 He was told to stand by the stand by speed, who corroborated him.

FREE TO MEN

UNTIL CURED
 All men with very few exceptions were made strong and should be so through life. Many have abused this grand privilege and through disipation have become weaklings, puny, lack confidence, can't face the slightest difficulty, have drains, losses, impotency, varicocele, rheumatism, lame back, etc., and are mere playthings in the hands of their associates. How explorable! But all these men can be made full of strength, vigor and life if they will only turn to the right source. Electricity cures these cases. I have been curing thousands every year for nearly forty years. So positive am I of what my world-famed Dr. Sander Electric Belt will do that if you will call or send for one you can use it.

FREE UNTIL CURED
 Not a penny on deposit or in advance. I will take your word for results, and only charge price of belt—many cases as low as \$5. My wonderful success has brought forth many imitations of my belt, but my valuable experience to advise and guide my patients cannot be limited. It and my belt can be had free until a cure is effected, but only at address as below.
 Call and get one to-day, or write. I also send two best books ever written upon health and strength of men. Free, sealed, by mail.

Action Dismissed

WOODSTOCK, June 25.—(Special.)—The family of late Police Constable Archibald Pow, who died from heart failure, after a fall in a drain one night while in search of a prisoner, sued West Oxford for damages amounting to \$5000.
 The action was dismissed with costs.

FREE TO MEN

UNTIL CURED
 All men with very few exceptions were made strong and should be so through life. Many have abused this grand privilege and through disipation have become weaklings, puny, lack confidence, can't face the slightest difficulty, have drains, losses, impotency, varicocele, rheumatism, lame back, etc., and are mere playthings in the hands of their associates. How explorable! But all these men can be made full of strength, vigor and life if they will only turn to the right source. Electricity cures these cases. I have been curing thousands every year for nearly forty years. So positive am I of what my world-famed Dr. Sander Electric Belt will do that if you will call or send for one you can use it.

FREE UNTIL CURED
 Not a penny on deposit or in advance. I will take your word for results, and only charge price of belt—many cases as low as \$5. My wonderful success has brought forth many imitations of my belt

Chicago Gossip.

Marshall, Spader & Co. wired J. G. Beatty at the close of the market today, but trading has been rather dull, and prices have ranged within narrow limits. News of the day has been generally bullish. From the northwest there was complaint of continued cold weather, and rains in the southwest are very unfavorable for the harvest. Farmers are said to be very nervous over the situation, and foreign buyers are slowly coming up to a party market. The demand for cash wheat has been rather dull, and the trade has been confined almost entirely to the local order, and in the absence of any outside trade the bullish news had but little effect. For the present we look for a steady market, but the situation is growing more bullish daily, we naturally feel that prices will not fall, but will rather rise.
