BRAWNY BROTHERHOOD

The Locomotive Firemen of America in Sixth Biennial Convocation—Half a Thousand Delegates—Three Sessions a Day—Given a Civic Reception—Speeches of Inspiring Patriotism—A List of Functions to be Given.

The body that has now captured Toronto is the Brotherhood of Locomotive Firemen, representing in Canada, the United States and Mexico a membership of 28,000, or 88 per cent. of all firemen operating in these countries. They have laid down their shovels and pickers and led them to Toronto to meet in convention. In 1873 the body was organized in Port Jervis, New York State, with a membership of twelve. At present the association counts its protecting fold over 28,000 in sickness, accident and death.

Grand Master Sargent, the "big chief," is described by a visitor as a broad-gauge man, with eight-foot drive-wheels, who is always under standard pressure. This is the sixth biennial convention, the last being held at Galveston, Tex., where the thermometer was 94 degrees in the shade, and the delegates used to take off most of their clothes and go and sit in the water to get cool, or, at least, sustain life.

Grand Master Sargent has accepted from President McKinley the position of one of the 19 members of the Industrial Commission, created by the last Congress, to settle the wage questions of railway laboring men.

Frank W. Arnold, the grand secretary, is as jovial and kind-hearted a man as one would wish to meet, and goes to no end of trouble to facilitate the wheels going smoothly.

From now till the 20th the Brotherhood will be in session. The program is as follows:

This afternoon the lady delegates and visitors will attend a complimentary matinee at the Princess, assembling at the Auditorium at 1.30. In the evening a complimentary excursion will be tendered the delegates and visitors—a trip on the Toronto Railway electric cars by the City Council.

Wednesday evening there will be a ball in the Horticultural Gardens Pavilion, the music of which, by permission of Lieut.-Col. Mason, will be furnished by the Grenadiers Band, and for which Harry Webb will cater. Thursday afternoon the ladies and visitors will attend a complimentary matinee at the Toronto Opera House. In the evening a complimentary matinee will be given at the Grand Opera House, by the Ladies' Auxiliaries of B.E. and O.R.C., in St. Ledger's Hall, corner Queen-street and Denison-avenue, from 2 to 5.30 o'clock.

Friday evening the delegates and visitors will attend a parade of the 4th Highlanders. Saturday afternoon the Toronto Fire Brigade will turn out at the corner of Bay and Richmond-streets at 4.35 for their dedication, and the Grand Opera House will consume the evening.

Sunday there will be a church parade to the Auditorium, where services will be conducted by Rev. Father Ryan and Rev. E. S. Rowe. On Monday evening an excursion will be tendered on the Corona by the City Council at 7.30 o'clock. On Tuesday, Sept. 20, a further reception will be held, and a smoker will be held on Friday evening, the 16th.

CHOICES A SUMMARY TRIAL BLACK FLAG AND GRINNING SKULL

County Judge Will Try Middleton on Sept. 27.

Hon. John Dryden is Seeking Mr. Calder's Seat.

Baltimore Police Department Ask Canadian Authorities to Hold the Prisoner on a Warrant Charging Him With Fraud—Also Inquiries From Vancouver Asking for His Photo.

Woodstock, Sept. 12.—Reginald Lancelot Middleton, alias McDonald, will be tried summarily and by the county judge. This was the course decided upon by the prisoner's solicitors. Middleton himself made the election, and the judge announced that he would try the case on Sept. 27, providing the parties were ready to proceed.

The three photographs found in Middleton's valise at the jail were of Miss Viola Allen of the Empire Theatre, New York.

Is He From Inverness?

Chief Will has received a letter from a party in Vancouver, B. C., who thinks he knew Middleton in Inverness, Scotland. The party, who desires his name withheld, saw Middleton's cut in the Toronto papers, and the likeness to the man he knew in Inverness was striking. He has requested that a photograph of the Woodstock prisoner be sent him. Mr. Hall sent one.

Was in Baltimore, Md.

Chief of Police Vaughan of Brantford has also received a communication from the Baltimore, Md., police, asking that when through with him here, Middleton be held on a warrant, sworn out in that city, charging him with fraud and false pretences. No particulars have been obtained from Baltimore, but it is probable that he was working the same kind of game there that he was playing in Ottawa.

MURDERED EMPRESS

Found to Have Been of Wonderful Vitality—The Assassin's Steel Pierced Her Heart More Than Three Inches—Impassioned Demonstration of Sorrow—Anarchists in London Agitated and Anxious.

The assassination of the Empress of Austria has caused a thrill of horror throughout Europe, and indignation is expressed in all the capitals. The law-abiding people are unanimous in asking the question, "How can society protect itself against Anarchism?" There is special indignation that the latest victim of the bloodthirsty wretches should have been the royal lady who during her whole life has done nothing but good. The best circles of Italy are profoundly grieved because the assassin is a native of that sunny land, and King Humbert has written with his own hand a message of condolence to the bereaved Emperor. The Pope wired the aged monarch as follows: "May God give the strength of resignation to our dear son Joseph, who in so short a period has been tried by so many misfortunes. We pray that God may bestow upon the house of Hapsburg that peace and tranquility which it merits by reason of its sentiments toward the church and the papacy."

The Anarchists in London are greatly excited, fearing that this outrage may have the effect of shutting them out from their only refuge, London. Scotland Yard authorities have a strong suspicion that the crime was plotted in London, and extraordinary vigilance is being exercised by the detectives. All arrivals from the Continent are being closely watched.

It has been found that the assassin's weapon penetrated the heart of the Empress over three inches, and only the remarkable vitality of the victim enabled her to walk 50 yards, as she did, to the steamer, after the wound had been inflicted.

An imposing demonstration of regret took place at Geneva yesterday. Sisters of Charity were continually on their knees before the bier, praying for the soul of the departed, and a procession was organized by the Federal Council, by which was demonstrated in solemn grandeur the sorrow of the Swiss people. Every class of the population was represented, and all business suspended, while the people with bared heads silently testified to their sorrow.

The convention will last ten days or longer. A number of changes in the constitution and in the beneficiary will be considered. The present insurance regulations are considered too stringent. The election of officers will not be reached for three days, when an interesting contest is expected.

F. P. Sargent, who has occupied the office for 14 years, is resigning the Grand Mastership to accept a membership on the Industrial Commission appointed by the United States Government. It is understood that the contest will be between Grand Secretary Arnold and First Vice-Grand Master J. J. Hannahan.

The afternoon session was devoted to social business.

The Ladies' Auxiliary held a short session in the parlors of the Auditorium. Mrs. Joshua Leach, Scollin, M., grand president, presided. There were about 400 delegates in attendance, and 100 more are expected to arrive during the course of the day.

Afternoon Session.

In the afternoon the Grand Master submitted the first portion of his report, a very long document, dealing with intricate matters.

A Royal Talk at Night.

In the evening a public reception was held in the Auditorium Music Hall, at which every available seat was taken. The Union Jack and the Stars and Stripes fluttered side by side as representatives of Toronto,

F. P. SARGENT, Grand Master B. L. F.

Ontario and the Dominion blazoned in the loudest speech the power of organized labor and the ever-warm sympathies between the countries dominated by U.S. Jack and Old Glory, or, as one speaker put it, "Uncle Sam and Uncle John."

Here the lusty truce case with their wives and daughters and were tendered a royal reception.

The first number was the overture (By-By) by the band of the Royal Grenadiers, the American battle piece "Reveille" of the "War," where one heard the Drummers Call, Morning Gun, Reveille, Grand March, For God and Liberty, Marching Along (Marching the Assembly), Flag of Columbia (bugle call) Attention, Prayer, (bugle call) Commence Fling, The Battle, Star Spangled Banner, The Vacant Chair, Marching Through Georgia, Trump, Grand Glory, Hallelujah, Kingdom Come, Finale, or Last Instruments.

There was a regular ovation as the last sounds died away, and the Grenadiers' corps.

ATTENDED MASS.

The Aged Monarch Showed Intense Grief, But Maintained His Faith in God—Great Fortitude.

Vienna, Sept. 12.—The Emperor of Austria and his daughter attended mass this morning in the private chapel of the Schoenbrunn Palace. His Majesty showed evidence of intense grief, but he said he did not lose faith in God, and expressed a wish for confession and communion.

ELIZABETH AMELIA EUGENIE.

Empress of Austria and Queen of Hungary. Born Dec. 24, 1837; married April 24, 1854; assassinated Sept. 10, 1898. There are no photographs in existence of the Empress, for, owing to a singular superstition, she could never be induced to pose before the camera. The painted portraits of her are also but few in number. The above picture represents Her Majesty as she appeared in her young days.

Reinforcements Sent From France for the Expedition in Central Africa.

London, Sept. 13.—The Daily Chronicle says this morning that it has learned that a military expedition, including sixteen officers and non-commissioned officers, sailed from Pauillac, France, last Friday with a view of reinforcing the French expedition in Central Africa under Major Marchand. Great secrecy is maintained in the matter, but the departure of the expedition is believed to confirm the report of the arrival of Major Marchand at Fashoda, on the White Nile, above Khartoum.

REINFORCEMENTS SENT FROM FRANCE FOR THE EXPEDITION IN CENTRAL AFRICA.

London, Sept. 13.—The Daily Chronicle says this morning that it has learned that a military expedition, including sixteen officers and non-commissioned officers, sailed from Pauillac, France, last Friday with a view of reinforcing the French expedition in Central Africa under Major Marchand. Great secrecy is maintained in the matter, but the departure of the expedition is believed to confirm the report of the arrival of Major Marchand at Fashoda, on the White Nile, above Khartoum.

THE PROHIBITION VOTE.

The electorate of Canada seem to ignore the fact that within a fortnight they must pronounce on one of the most important questions that ever came before them. There can be nothing so far-reaching in its consequences as a vote on the question of Prohibition. It involves a constitutional issue of the first class, and it concerns the welfare and the internal peace of the country. But this great question is being, as we said, ignored by most of the people. As for the politicians, they apparently are only "joggling" it: that is, tossing it here and there, shifting the responsibility from themselves to the people, trying to make political capital out of it, one party against the other, trusting that in some way something will turn up that will relieve them of the responsibility. How they are praying and hoping that it will raise a constitutional issue, say between Quebec and the Dominion, on a par with the Manitoba school question, but so that it will not hurt them, whichever side may be.

SUDDEN DEATH AT ST. KITTS.

Mr. Alex. Wilson Walkes in the Night and Expires. St. Catharines, Sept. 12.—Mr. Alexander Wilson, son-in-law of Mr. W. B. Harris, died very suddenly early this morning at his residence on Lake-street. He was apparently as well as ever yesterday, and was about as usual last night attending a Gospel meeting in the City Park. Last night he visited the Toronto Fair, and spent several days, but he returned in good health and had no warning of the dread attack which overtook him in the region of his heart. His wife resorted to the usual methods, and some friends were called in. He sank, however, and in an hour was dead. He had no family. He was an employee of the Welland Vale Co., and was a steady and industrious workman, whose sudden demise will be learned with very sincere regret. He was a native of Scotland, and had only been a resident of St. Catharines for about five years.

NO MORE BODIES FOUND.

The Inquest on the Body of Hughes Adjourned Till Oct. 5. Cornwall, Sept. 12.—(Special)—The adjourned inquest on the body of Daniel Hughes of Cleveland, O., the first victim of the O. and N.Y. bridge disaster to be recovered, was resumed at Helen, N.Y., to-day before Coroner Smith, but adjourned till Oct. 5 without hearing any evidence other than that of the witnesses interested were all represented by legal talent. No more bodies have been found, and although no work was done to-day, it is expected that the inquest operations will be resumed to-morrow.

MACKIE NOT BAILED YET.

Some Kind of a Hitch Has Occurred in the Matter. Napanee, Sept. 12.—Robert Mackie's father, accompanied by a Mr. Gordon of Belleville, came to Napanee to-day to furnish bail for Mackie. It is expected that M.P., had indemnified Mr. Gordon from any loss by his acting as bondsman, but through some hitch the County Court Attorney will not accept the bond, though Mr. Gordon is supposed to be in very good circumstances. It is likely the bail will be given in a few days, and Mackie will be bailed in a day or two.

SPANISH PRISONERS SAILED.

Sailors and Marines Who Survived the Battle Sent Home. Portsmouth, N.H., Sept. 12.—Most of the sailors and marines who survived the disaster which befel the warships of Admiral Cervera, the popular Spanish officer, at Santiago July, were taken from St. John's Island this morning by the steamship City of Rome, which has been chartered to take the Admiral's officers and men to their native country. Admiral Cervera, with his son Angel, made farewell visits to the officers of the navy yard and then boarded the City of Rome. On his way to the boat the Admiral spoke enthusiastically to those who accompanied him of the treatment the Americans had accorded to the Spanish prisoners, to his staff and to the crew. The City of Rome sails at noon to-day.

The New Radiator.

The Ontario Radiator Company, Limited, are showing a new radiator, which they claim is an invention to which The World called attention in December, 1896. This radiator is now placed upon the market and more than fulfills the predictions of merit then made. Its appearance is attractive and its construction such that it will work as well in either steam or hot water, and this is the only cast-iron radiator so constructed. This means an important item to the user in case he should decide to change the heating system from steam to hot water, or vice versa. The joints are made with threaded nuts, screwed into externally threaded hubs, therefore being screw joints without bolts or packing. The Ontario, the name by which this radiator is known, is the only one now made with a positive and complete circulation of steam or water in each loop, that is the steam or water must travel up and down each loop of the radiator before entering the next. It is also the only steam radiator in which there is an effective provision for drawing off the air from the inner loops. The absence of air in the radiator loops, coupled with the positive circulation, does not mean that the Ontario radiator is so detrimental to all other makes of radiators.

Wednesday's Trade Sale.

The sale to the trade by Suckling & Co. commences on Wednesday morning at 10 o'clock. Drygoods, clothing and two bankrupt stocks are to be sold in detail, one being a tailoring stock and the other a general drygoods stock. One hundred dozen men's all-wool shirts and drawers will also be sold on Thursday, commencing at 2 o'clock. The boot and shoe sale commences when the balance of the Commonwealth Shoe Company's stock will be sold, as well as 80 cases American boots, shoes and fancy slippers, all good seasonable goods, to be sold in lots of 100. Copies of the Liberator are offered to the trade.

When in Buffalo stop at the Fillmore House, Michigan-street, corner Carlton, one block from the Erie and Grand Trunk and two blocks from the T. H. & B. Depot; rates \$1.50 per day.

THE TORONTO WORLD

For other days. Face the question manfully now, even if it costs something, and you will find the reward later on. There is room in this world and in this country especially for some united action of all the people, looking toward the elevation of humanity on both its physical and moral sides; but there is no union possible for many years on a law suddenly suppressing the drinking habits of the people, and without union failure and a set-back must result. For our day and generation there is more good to be accomplished by creating a united or almost united public opinion in favor of a stringent license law than there is in trying to extract moral suasion out of prohibition cumberers. We believe the drink curse is dying out, because the bulk of men and women are coming to see that they cannot drink and continue in the struggle. The people are growing more sober, more abstemious. Education and a law that the public accepts will do much; coercion will breed dissension and ultimate failure. If history has taught us anything it has taught us this: that Englishmen are the last men the world over to be coerced in a matter of this kind.

At the Grand.

"The Fortune Teller," the new opera which will be heard at the Grand to-morrow evening for the first time, promises one of the most enjoyable treats of the season. It is said that Victor Herbert was in his happiest mood when he wrote the music, which contains many of the prettiest songs that have ever been heard in comic opera, and is even superior to "The Serenade," which was such a pronounced success last season. A pleasing feature, indeed, is that Mr. Frank L. Perley is bringing with the company an orchestra of over twenty musicians which will be new to the Grand. The opera may be heard at its best. As to the company, the Grand is a high quality of the organization, and one is safe to say, for comic opera, that it is the best in America. Miss Alice Nielsen, the prima donna, has a voice of unusually rich quality, while she is also a charming actress, and her appearance will undoubtedly be one of the greatest musical events that Toronto has witnessed. Her partner, ever, have their songs here had the opportunity of hearing such a brilliant organization.

At the Toronto.

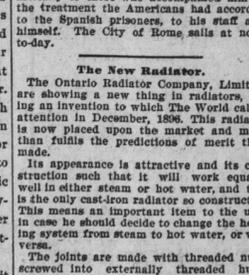

Old-time theatre-goers, who watched the "Devil's Auction" years ago, joined with the younger generation of play patrons last night, when the Toronto Opera House, those who had long ago become familiar with the tale of Toby, a donkey transformed into a man, who follows his master Carlos through numberless marvelous experiences, found that Toby was as interesting as ever. The "Devil's Auction" was entirely new. Mr. Charles H. Yale, certainly succeeded in producing this year one of the best spectacular presentations ever seen in this country. The scenery is magnificent, and all the stage accessories are of the most splendid description. Among the newest features in production of the show this season are numerous and good. Miss Phyllis Allen, a contralto, charmed everyone by her solos, and the orchestra, under the direction of Colby and Dewitt, and Alexander Decca, the trick bicycle rider, all secured enormous applause. The "Devil's Auction" will run for the week.

"Confusion" at the Princess.

"Confusion" seems something of a presumptuous name for a farce-comedy of its kind, but it is not exactly a misnomer, so let us see what the confusion is all about. Nat Goodwin has interwoven them into a whole which is not uninteresting. The Cummings Stock Company at the Princess certainly took out of the piece all there was in it. It is one of those three-act (morning, afternoon and night) creations, but the morning matinee was a failure, and the afternoon and evening performances were brightly lit towards the last, however, and that's where you laugh. The action centres about the domestic quarrel of a husband and wife, which is a very old story, but the importation to the domestic hearth of a pug dog by the mistress and of a baby by the maid. Everything went off without a hitch, which is a very good thing for a stock company's first night. Mr. Ralph Stuart re-polished an acutcheon somewhat tarnished in his comedy sketch in "Mama." He worked in a lively personality which was lacking during the first week. As Mrs. Mumpford, his wife, Miss Florence Stone, dressed bewitchingly in occasion, and was lovely in her outbursts of post-hypnotic moon light. But Miss Lillian Andrews as the maiden aunt, with the abundance of her hair, and the perfume of the palm from among those of her sex. The disappointment of her penitently maidenly heart would have been a comedy in itself. The play was a success. Miss Nettie Marshall affected a most admirable limp. As for Mr. Gray, all he wanted was a part where he could cut up a few new tricks. It is his habit to undergo the same facial contortions for another week the results might be lasting. "Confusion" by no means, however, lowers the standard of the Cummings Stock Company has so long nailed to the mast.

Now in Town.

The Alice Nielsen Opera Company, which is to appear at the Grand to-morrow night, arrived in the city yesterday. The company is the largest that has ever come to Toronto, and numbers over 100 people. There are many familiar faces among them, including Eugene Cowley, the star of the "Bostonians"; Joe Herbert, Dick Golden and William Roehner, who were with the company when they opened at the Grand to-morrow night. Great preparations are being made for the opening, and the company is expected to be one of the most important of this season.

In the evening twilight of winter time, when the fire sparkles and glows and dances upon the hearth, there are dreams and castles in the air, and the flames for the young woman who sits and gazes into them. Whether these airy castles will ever become realities, is largely a matter of health.

No woman can hope to be a contented wife, the mistress of a happy home and the mother of healthy children who suffers from weakness and disease of the delicate organs that are distinctly feminine. If the air cases with the blood will crumble into dust, unless she takes measures to correct the disorders from which she suffers.

Dr. Pierce's Favorite Prescription is a positive cure for all disorders of these most sensitive organs. It makes them strong, healthy and vigorous. It prepares a woman for happy matrimony and healthy motherhood. It robs maternity of its peril and of nearly all pain. It insures children with strong, healthy constitutions. Thousands of women have testified to its marvelous merits. For nursing mothers it is the best remedy known.

When a dealer gives some substitute her thinking of the larger profit he'll make—not of your welfare. About six weeks ago my wife became afflicted with displacement, causing inflammation and much pain in the back. I procured of the Kaufman Co. Texas. "She could not stand on her feet or get in any position but that she felt great bearing down pain. I got her a bottle of Dr. Pierce's Favorite Prescription which she soon found was helping her, so she kept on until she had taken six bottles. Since taking the last she has not suffered a moment from the old trouble."

RODE A RED BIRD.

Was Wheeling for the Good of His Health and Got Away With Hotelkeeper's Cash. Tottenham, Ont., Sept. 12.—A young man about 5 feet 7 inches, with black mustache and eyes, green shirt, grey trousers, knickerbockers and long black stockings, with red top, struck town yesterday, claiming to have come from New York State, and was wheeling through the country for the good of his health. He stopped at the Maple Leaf Hotel over night, and this morning crept through a pipe into the bar, took his wheel—a Red Bird—and disappeared. There is also some \$10 in change missing. Look out for him.

HAS THERE BEEN A MURDER?

Arm and Hand of a Woman Found in a California Lake. Oakland, Cal., Sept. 12.—The arm and hand of a woman who was probably not over 25 years of age, has been found in Lake Merritt by two girls who were strolling along the shore at Eighteenth-street, in connection with the recent discovery by some boys of a woman's head floating in the bay near Kerzler, this discovery had strongly points to the commission of a murder as yet undetected. The head was not identified, but the woman in possession of the coroner, who will make a searching investigation. The arm was broken off at the elbow, apparently by violence.

Indignant East Enders.

Editor World: I notice in your Saturday issue that it is the intention of some of the West End aldermen to close up the crematory in the East End and make a dump for every nuisance at the foot of Cherry-street. Surely our representatives of the east and centre of the city will not allow this. Is there not already nuisance enough in the East End? Since this question was before the Council some months ago I have taken a special interest in visiting the crematory, also the Cherry-street dump, and I think that the promoters of this scheme made personal investigation they would feel ashamed of their proposition. Do our city fathers wish to run the chance of a pestilence making a burial ground for loads of rotten eggs, dogs, cats, chickens, fish, decayed meat, horse offal, hospital refuse, and all the refuse of the present state of health of the city does not warrant any change unless for the better. I should say our very efficient Medical Health Officer should be consulted in this matter. Apart from all this I must, as a property owner, protest against the East End being made a dumping ground for the whole city. It seems to me if there is no use for our East End crematory, there should be no use for the one in the West End, and if there is no use for either of them at the present time, there certainly could never have been any use for them. If this is so, who was responsible for the expense of building these places, and the money spent in running them for the last six or seven years? Does it not seem inconsistent of the Council to keep the expense of the crematory on removing the Marchmont Company from the banks of the Don, and then themselves to create a worse nuisance than either of them? Kindly give space for this, as East Enders, who are aware of these proposed changes (through the medium of your paper), are most indignant.

A Car That Teaches.

The beautiful demonstration car of the Industrial Science School of Scranton, Pa., arrived yesterday morning, and will stay here until Saturday. The car is an entirely new model of the mail system of transportation carried on by the school, and is fully fitted up with chairs and mechanical devices. Among the exhibits it carries is a model of a Pan-Handle locomotive in use on the Pennsylvania road, which cost one of the pupils of the school, and is valued at \$4000. The car weighs nearly 200 pounds. This school has over 6200 pupils in Canada and the United States, and many little objects of their ingenuity may be found in this traveling museum. Mr. W. N. Mitchell and Mr. Hugh F. McGraw of Scranton are in charge. The next place to visit will be Stratford, where it goes at the conclusion of the convention of the Locomotive Engineers.

S. Ackerman, commercial traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Electric Oil for Inflammatory Rheumatism, and three bottles effected a complete cure. I was the whole of one summer unable to move without crutches, and every movement caused excruciating pain. I am now out on the road and expect to be in a few days. I have never been troubled with Rheumatism since. I, however, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others as it did so much for me."

But Wheat Rose a Cent a Bushel Yesterday

And Closed at an Advance of Half a Cent Over Saturday's Final

Figures in Chicago—Increase in the Visible Supply—Old Wheat Stocks—Notes and Gossip.

Monday Evening, Sept. 12.

Large Northwest receipts and the increased Russian and Danubian shipments

caused a weak feeling in wheat on the Chicago board early this morning, but the remarkable depletion of the world's stocks

and the consequent demand for old wheat and premium upon the cash article soon caused an upward turn of about a cent a bushel on all deliveries. The close was 1/2 cent above Saturday's final figures.

Paris wheat closed 5/10 to 10 centimes higher, with four 40 to 45 centimes lower.

On the Liverpool board today, spot red winter wheat declined 1/2 cent, and all future deliveries closed nearly a penny lower than on Saturday.

The United States Government crop report for September, placing America's corn crop at 1,800,000,000 bushels, caused a break in Chicago prices of over half a cent today.

On the Liverpool board, maize futures dropped 3/4 to 1/2 cent.

Bacon is up 1/2 cent at Liverpool.

Russian corn shipments last week, 4,000 quarters; Danubian, 30,000 quarters.

The English visible supply of wheat last week decreased 631,000 bushels, against 629,000 bushels the week before.

Receipts of wheat at Minneapolis and Duluth today, 1,445 cars, against 1,101 cars the same day a year ago.

Exports at New York today: Wheat, 9730 barrels and 38,319 sacks; wheat, 148,555 bushels.

Receipts of grain at Chicago today: Wheat, 235,000 bushels; corn, 442,000 bushels; oats, 620,000 bushels; total, 1,307,000 bushels.

Receipts of hogs at principal Western points today, 34,200, against 44,000 same day last year.
