# PERAL GENIUS WESTERN, BUT HAS BEEN OCCUPIED

## At a Conference of Ministers and Generals Held at Taku on Friday It Was Decided to Leave the Fate of the City to Europe.

### Allies at Peking Anticipating an Attack by 30,000 Boxers, and Forces Were Moved to the Outer City Wall—Famine Is Threatened at Tien Tsin—Emperor Was Not Captured and Empress Dowager Is Said to Be Safe in the Mountains—A War Scare Is Denied.

London, Aug. 27, 4 a.m.—The latest news from Peking indicates that the situation is still unchanged. The Imperial city is still invested, but has not yet been occupied. The allies, when the last message was received, were refraining from aggressive action pending instructions from their governments.

#### Anticipated a Boxer Attack.

An attack from 30,000 Boxers was anticipated and to meet this the whole American force and the British artillery, according to a despatch to The Morning Post from Peking, dated Aug. 18, were moved to the outer city wall. The Boxers were reported coming from the south.

#### Prospect of a Famine.

Gen. Dowager, in his report of the engagement outside Tien Tsin, Aug. 19, when the American, British and Japanese signally defeated a large force of Boxers, killing over 300, says in a despatch dated Aug. 25:

"The lines of communication near Tien Tsin are now free from danger. The enemy had been treating the villagers too. Several despatched bodies were found near their camp.

#### Empress Not Captured.

Shanghai advices say that the report of the capture of Empress Kwang Su by the Japanese was erroneous. It was a case of mistaken identity.

#### Dowager Empress Is Safe.

The Peking correspondent of The Daily Telegraph, writing Aug. 19, asserts that the Empress Dowager fled westward, and adds:

"She has a body guard of 4000, and as the mountains are rocky following, it is believed that she will not be pursued."

#### Was She Pursued?

This correspondent reports everything quiet on the date of his despatch, but a telegram to the same paper from Tien Tsin, dated Aug. 24, asserts that a thousand Russians, Germans and Japanese had been sent to the Forbidden city, to refer to the fate of the Forbidden city to Europe.

#### Japanese Hold the Wall.

Tien Tsin despatches to Herin, dated Aug. 23, say:

"The Japanese troops are in possession of the wall around the innermost part of the Forbidden city, but have not yet made their way to the Imperial palace, owing to lack of Government instructions."

#### No Boxers Now in Peking.

Gen. Linowitch, commander of the Siberian army corps, calling to St. Petersburg, under date of Aug. 16, says:

"There are no longer any Boxers in Peking. They were driven out today by the French and Russians, whose flags are hoisted over the Imperial city. The Empress Dowager, the Emperor, the heir apparent and the whole court have fled to the Province of Shen Si."

#### His Highness Postpones Departure.

The generally well-informed Vicomte de St. Petersburg says that the withdrawal of the allies from Peking, now that the foreigners have been rescued, would facilitate peace negotiations.

#### A STARTLING RUMOR THIS

That Russia, Germany and Japan have Declared War on China—Britain Asked to Retire.

The Peking, Friday, Aug. 24—It is rumored with authority that Russia, Germany and Japan have declared war on China, and will invite England and the United States to retire.

#### WAR WAS NOT DECLARED

The story that Russia, Germany and Japan had done so, declared in Washington, D.C., Aug. 26—Russia, Ger-

# LIEUT.-COL. OTTER CONDEMNED BY MEN WHO FOUGHT UNDER HIM

## Returned Soldiers Have Hard Things to Say About the Commander of the First Contingent—Made His Men Do Navy Work, Which Was Not Necessary.

Montreal, Aug. 26.—(Special.)—The following is from The Sunday Sun's correspondent, a well-known Montreal military man, who came up from Rimouski with the boys:

"until the crowd gets out of uniform and have their discharge in their pockets, and the people of Canada will hear something that will make their hair stand on end."

#### Hardships at Belmont.

One of the group of returned soldiers drew attention to the hardships Col. Otter subjected them to, unnecessarily, at Belmont. He had the men toiling continuously and laboriously at the construction of trenches which the Imperial army officers, on inspection, declared to be perfectly useless, and all poppycock. The men did not mind doing necessary work, as the record they made in tracking down the Boers, but the necessity of making them work like navvies, in such hot weather, while the regular officers, who make it their first business to study the comfort and health of their men, were devoting their time to making the existence of their regiments as tolerable as possible.

#### Says Otter Is a Martinet.

One of the men back from the front remarked: "Otter is a martinet, pure and simple."

# ROBERTS AT BELFAST, WHERE HE MET BULLER

## Everything is Now in Readiness for the Advance Against Botha's Forces Near Machadodorp.

### Two Companies of Liverpools Walked into a Trap—Ten Killed, Forty-five Wounded and Thirty-two Missing—Execution of Cordus.

Cape Town, Aug. 25.—Lord Roberts arrived yesterday at Belfast, a few miles west of Machadodorp, where he met Sir Redvers Buller, Gen. French and Gen. Pole-Carew. Everything is now in readiness for the advance.

#### Call It a British Blunder.

Paris, Aug. 25.—The news of the execution of Lieut. Cordus at Pretoria has had a bad effect here. It is generally received with execration of the English, while thoughtful persons say it was one of the stupidest blunders committed by Great Britain in South Africa.

#### BOERS LAID ANOTHER TRAP.

Two Companies of Liverpools Walked into It, and the Casualties Are Many.

London, Aug. 25.—Lord Roberts has left Pretoria and has fixed his headquarters at Wonderfontein, the second day of the Boers in arms are supposed to be, Wirtling from there Aug. 24 he says:

"Buller reports that Boers laid a trap for his cavalry Aug. 23, opening with several guns at fairly short range. The Boer guns silenced the Boers, but when the Boers were in the open they were being placed for the night by some mistake two companies of the Liverpool regiment advanced 1500 yards into a hollow, out of sight of the main body, where they were surrounded by the Boers and suffered severely."

**KNIGHTS OF PYTHIAS.**  
Toronto Will Be Well Represented at the Convention Which Commences To-day in Detroit.

One of the largest fraternal associations in America is the Knights of Pythias, which is represented all over the Union and in Canada. The order meets biennially and gets from 45,000 to 50,000 men in line on these occasions. The parties are very magnificent spectacles, which draw thousands of spectators.

Many residents of Toronto will remember when the Knights held their convention in this city in 1898. They were held at the Grand Hotel for two or three days, and included in the most fantastic episodes to the immense delight of the citizens. Here may be seen members of one lodge decorated with strings of bananas, there a lodge bearing aloft canes adorned with the staff of life, while still another lodge parades in shirt waists and gaudy parasols. There are some of the sights to be seen at the biennial tournaments.

This year the order meets in Detroit, and this is the work and opening day of the convention. Upwards of 100 members of the order from this city left for the Straits City Saturday night and yesterday. The Grand Lodge of Ontario also meets to open session at Windsor at 9 o'clock this morning. Among the Toronto delegates who left here yesterday were: Dr. Burns, H. E. Wiley, Messrs. Ylstra, Soles, Humphrey, Daniels, Ingles, Maitland and Coulter. They were accompanied by a band.

**A Room to Humanity.**  
For over four years, No. 112 of 312 Bathurst-street, this city, has given shelter to the homeless, the aged, the infirm and tobacco habits, and by provision of food, clothing and medical attention, has been glad to show testimonials from some of the many patients cured, as also from friends of such patients, proving the grand worth of the institution that is being carried on by him.

It is a home, a refuge, by which every victim of the liquor habit can be permanently cured of the craving or desire for intoxicants in from three to five days, and as the end of one month restored to the habit.

The contents of a purely vegetable medicine, taken by the patient, no hypodermic injections, no hot or cold effects, and no loss of time from business duties.

Consultation and correspondence free and confidential.

One of the greatest blessings to parents is Mother Graves' Worm Expeller. It is a marvelous medicine for worms and gives health in the most pleasant manner to the little ones.

**SUPPRESSED BY CHINESE.**

Europe is Puzzled Owing to the Non-Arrival of Accounts Regarding the Legations

**DURING THEIR TWO MONTHS' SIEGE.**

Is Italy Now in the Hands of Germany—The Kaiser's Note to the New King.

London, Aug. 25.—(N. Y. Sun Cable).—The feature of the Chinese situation which chiefly puzzles Europe is the absence of all authentic accounts of the attempts to seize the legations during the two months that they were practically cut off from communication with the world. There can be no doubt that silence on the part of the correspondents who are now sending news of the day-to-day events in Peking is compulsory. It is not easy, however, to understand the reasons why the allied commanders have forbidden the transmission of news, which, more than anything else in recent history, appeals to the world's interest.

**Anxiety as to Policy.**  
Anxiety as to the policy of the respective powers, or rather two of them, increases as the prospect of expensive military operations diminishes. Russia and Germany, of course, the nations whose attitude or possible attitude arouses apprehensions. The Continent perhaps would say that Great Britain is the only legitimate object of suspicion, but it can be said without hesitation that no power which has had so great and rapacious ambitions of its kind in the Far East has any reason to fear the English policy. In other words, Great Britain has no selfish design whatever in China, unless the time comes when she will try to get all she can, and it is in use to day that she is making certain preparations for that contingency.

**Is Italy Making German Control?**  
Another element of the situation has developed which is causing uneasiness in Great Britain. It proved unfortunate that the death of King Humbert is likely to have an important effect on international policy. It threatens indeed to place the virtual control of the German Emperor, and this may have far-reaching consequences. King Humbert III. regarded his great ally as the personification of wisdom and will, and the day after his death he followed him blindly. William is aware of the young King's hero worship and will utilize it for the good of Germany and local interests, no doubt, for the benefit of Italy where the two interests do not clash.

**A Note From the Kaiser.**  
It is known that Field Marshal Count von Waldersee, after his march, delivered to the Kaiser a letter from the Emperor in which the Kaiser was urged to accept the terms which he thought would be the course of the powers in China. The King accepted the letter as a delicate compliment and is consequently reported to have made these remarks:

"Germany is the only power which has a definite determined policy towards China. For the moment the German program compels us to accept the terms which are the despatch of further armed forces. If we were to do so, it would be to our disadvantage to augment the troops or to force in China we will follow her example. That is Italy's safe and proper policy."

**Events Must Be Awaited.**  
The Emperor will have to wait for events to develop. The Emperor will not be regarded as certain that it includes the determination not to allow Japan, as a general power, to obtain substantial advantages from the Chinese chaos. Russia has already got Manchuria and the Kaiser is not likely to be satisfied with an accomplished fact, but there he thinks territorial arrangements should stop. He hopes that within a year order will be re-established in China, and pending this, he thinks that certain well defined areas should be occupied by the international forces, but he does not see any necessity for Japanese troops remaining in the Japanese Valley.

**Former Frontier Crisis is Greatly Perturbed**  
over the present international outlook coupled with the King's compliance with the Kaiser's policy, declared yesterday that the Italian Foreign Office for four years has been playing the wrong cards. All efforts seemed to be devoted not only to maintaining the Triple Alliance, but also to currying favor with France. The result was that the alliance with England practically ceased to exist, while no corresponding advantage was gained from France. All the powers had made great gains in China, but the greatest was made by Italy, which she announced her claim to Szechwan after demanding it in the face of the whole world.

**PREPARATION IS HERE.**

Everything is Ready for Toronto's Twenty-Second Annual Exhibition

**SCENES OF ACTIVITY AT GROUNDS.**

Arrival of Exhibits and Special Attractions—Matters in an Unusually Advanced Stage.

Aug. 27 is here, and with it has arrived Preparation Day of the last International Exhibition that will be held in Toronto this century.

To-morrow at 2 p.m. the Hon. G. W. Ross will enjoy the honor of presiding at the opening of Toronto's 22nd annual, and, in many respects, the summer, fair. Many citizens took an opportunity to walk thru the grounds on Saturday, and while they admired Commissioner Chambers' many beautiful flower beds, they also saw probably a thousand people in a high state of excitement and bustle, but they found matters unusually well advanced.

**In the Main Buildings.**  
The Main Building, with its interior handsomely decorated, seemed to be about ready for the reception of visitors, except for the clearing away of a good deal of debris, such as packing cases, straw, etc., but loads were continually coming up, and Superintendent Umtz had his hands full in looking after and directing affairs. But matters appeared to run very smoothly.

**These certainly was no confusion, no unmeaning notes, and no shouting.** In fact, all appeared to proceed upon their own lines with no apparent hurry. The same state of things was noticeable about the grounds, which were being put in order upon the repairs necessary upon the various buildings, and the painters were applying their brushes in a steady, unimpeded kind of way. Many of the buildings contained exhibits, and others were having cases put in place. The stables and sheds, all of which have been inspected by the Health Officer, looked clean and well cared for, and were having a thorough airing. The various flags all appeared ready for the judging, and the stands under the horse ring were in a state of completion.

**The Judging of Horses.**  
This year, it is understood, there will be no judging of horses in the morning, and nobody will be allowed in the grounds until the judging is over. The terms of the public shall have every facility for seeing the horses, and forming an estimate for themselves of the exhibits.

**Before the Grand Stand.**  
On the track and big enclosure, the same state of advanced preparation was apparent. Superintendant Umtz, in an early morning, was directing an army of other staff, who were applying pick, shovel, hammer and saw. A forest of masts was visible in the centre of the enclosure, destined to receive the apparatus of the various performers, and to be raised away in the evening. The Grand Stand, which was the smallest shrub to cast a shade. The Highlanders had the biggest turnout, no less than 91 men being present, the Grenadiers and Q.O.R. coming next, and the G.G.B.R., last, with 15 men, a good turnout for their corps.

**With the exception of three company matches in the Highlanders and a two match in the Grenadiers, nothing was done but practicing.**

The wind was strong from the west, blowing down the ranges. It was felt ready for the day, where the tyrod had to be kept steady. The light also was changeable, being frequently obscured by clouds.

**Some of the Best Scores.**  
The winner of the spoon offered weekly by the C.P.R. Saturday afternoon was won by Pte. John "A" Co., with 51 points. The next best score was by Pte. H. Knowles, "C" Co., with 47 points. **IRONED LIEN.**

The hot, steel, rapidly revolving rolls of common laundries make a polish finish. They cook the life out of the linen, they tear the seams, they mangle it, break the button holes, in fact are responsible for most of the things you've groaned at when you get your laundry home.

Then if these common laundries give you a "domestic" finish they steam the gloss off the linen—and then the saw on your collar gets in its work.

In the National Laundry there are no hot steel rolls.

Linen is "ironed" by being passed through linen padded rolls travelling at the same speed as the linen—no friction, no tearing.

The only genuine "domestic finish" plant in Toronto.

Telephone us to call to-day or to-morrow for this week's laundry and try us.

Company Declines to Repair.

City Engineer Rust has received a letter from the Warren-Schuyler Contracting Company, refusing to repair the holes in the pavement caused by the fire on Prater's night. The damage will be in the neighborhood of \$100, and the City Solicitor's Department maintains that the contractor must pay the roads in repair, under an agreement entered into with the city.

City Hall Notes.

Mr. H. A. Dawson has written the Mayor, saying that he thinks it would be a mistake to have car tracks run up the centre of the new fruit market. It would be a mistake, he thinks, to have them run up Jarvis-street, leaving the space on Jarvis-street for trucking purposes.

Penalty Worse Than Death.

Will be imposed on Brest, Who Shot and Killed King Humbert of Italy.

Rome, Aug. 25.—The punishment awaiting the Italian Brest is worse than death. He will inevitably be condemned to penal servitude, aggravated by 10 years of solitary confinement. A man condemned to this punishment, before being placed in his cell, is shut up in the "secret cell," about six feet long by three wide, and lighted only from the ceiling, which is a few inches above the floor. The food is bread and water, passed through the grille of the door being always kept rigorously closed. The prisoner is confined in absolute silence. If he breaks the rule he is subjected to other punishments, namely, the straight-jacket, iron and stocks, and a prisoner who attempts his own life in any way is put into the straight-jacket, and kept in a sort of rack, in which he cannot move.

Severe Loss to Mr. H. A. Baker.

Near Moscow, and to Mr. G. R. Hill of Montreal.

Moscow, Ont., Aug. 25.—The barn, house, drive-house, pigpen and blacksmith shop belonging to Mr. H. A. Baker, a mile south of this place, were all destroyed by fire this morning. Mr. Baker was standing in a rack in a drain from his sink, when a piece of the burning fire lodged on the roof of his barn, setting it on fire. The flames soon spread and wiped out all his barn buildings. The barn was full of this year's crop, and the loss is a heavy one. Mr. Baker is a popular ex-councillor of the County of Lennox and Addington Mutual Fire Insurance Company for \$200. Mr. Baker is a popular ex-councillor of the County of Lennox and Addington, and much sympathy is felt for him in his loss.

OWING TO THE WARM WEATHER.

A Strange Assessment for a Sewer on Hickory Street—John Tierney Objects.

On Saturday morning the City Engineer's Department took the temperature of the city water at the base of supply, about half a mile out in the lake, and 50 feet below the surface. It registered 66 degrees, which is from 10 to 15 degrees warmer than the average. Engineer Fowles thinks that the cause is the unusual warm weather. Then also, he says, a wind blowing from the east haphazardly makes the water warmer, but if a west wind comes along it will cool the water in an hour or so. The water, as a rule, does not vary many degrees all the year round, because it is taken from a great depth.

It registered 66 degrees, which is from 10 to 15 degrees warmer than the average. Engineer Fowles thinks that the cause is the unusual warm weather. Then also, he says, a wind blowing from the east haphazardly makes the water warmer, but if a west wind comes along it will cool the water in an hour or so. The water, as a rule, does not vary many degrees all the year round, because it is taken from a great depth.

DINEEN CO'Y VISITORS TO THE FAIR

To-day begins in Toronto our national exhibition. We have prepared for your visit to us by specially importing an advance shipment of ladies' and gentlemen's Fall Hats, American or English fashion, in all styles of headwear—and a special line of Children's Hats and Novelities of all descriptions. Of course all our stock is not yet in, but every day brings us some new paper from Gotham or across the waters. We have made special arrangements to be supplied at all times with anything appearing in the big capitals.

To-day from us you can secure the same new style of Hat as is now being shown on Broadway.

Stiff Felt Derby Hats.

Our special "1000" fall hats. Dineen's label, \$2.00; Dineen's XX, 2.00; Dineen's XXX, 3.00.

Knockabouts, Crush Hats.

A splendid line of Fodoras in any fashionable color at a figure starting at \$1.50 and ranging up to \$3.00.

Children's Hats—Tans in leather, dressed or undressed, 75c to \$2; serge and cloth, black, navy, cardinal, 35c to \$1.00.

Ladies' Hats for Outing, etc.

Our new fall ladies' Walking Hats are of the very latest fashions introduced into London and New York. We have now a special private show room for the display and sale of these hats. We would be pleased to show you through at your leisure.

WAR SCARE IN FRANCE.

Moorish Troops are Massing in Great Numbers in Proximity to the Algerian Hinterland.

Paris, Aug. 25.—A serious situation has again arisen, according to reports from Marseilles and Toulon, on the Franco-Moorish frontier. Moorish troops are said to be massing in great numbers in dangerous proximity to the Algerian hinterland, while Moroccan tribesmen are raiding French territory.

Instructions are said to have been received at the Mediterranean naval stations directing the French naval authorities to prepare to despatch artillery and stores to Algeria, while orders for contingents of troops from Algeria and Tunis for the Far East have been countermanded.

7000 Cabmen on Strike. Paris, Aug. 25.—There are now 7000 Paris cabmen on strike. All are employees of the same company, which insists upon charging them each 20 francs daily for his horse and cab. The strikers think that often is enough. Eight thousand cabmen working for other companies have been giving faithfully half of their profits to support the strikers since the struggle began three weeks ago.

The Gondia Flying High. Paris, Aug. 25.—Mr. and Mrs. Gondia, guests during the ascension of the largest balloon in the world, were in London. The party went from St. Cloud, remaining aloft two hours.

It was the Gondia's first ascension and they expressed themselves delighted.
