In Future Wars Canada Would

Montreal, Nov. 18.—The banquet given at the Queen's Hotel this evening to Mr. F. D. Monk, M.P., Quebec leader, was a magnificent success, and the speaker, who is the member for Jacques Cartier, was certainly indicative of the representative following that is ranging itself behind Mr. Borden's lieutenant.

Speaking of the contingent, he said that the act of the Minister in sending troops to South Africa it would be better in the future to have the order come from the people thru their Parliament.

In consequence of this anomaly proposals from the island are subject to the tariff.

TWENTY MILLION BUSHELS

This Amount Within the Mark for This Year's Wheat Shipments From Manitoba.

CANADIAN NORTHERN HANDLED SOME

Over Seven Millions in the Elevators

Winnipeg, Nov. 18.—At elevators in county points on Saturday the amount of wheat in store, as compiled by the C.P.R., was 7,444,000 bushels. The receipts on Saturday were 372,000 bushels. At Fort William and Port Arthur the receipts for the week amounted to 1,345,151 bushels, leaving in store, under arrangements of 300,000 bushels had been made, a total of 2,041,000 bushels.

These figures show that there are about ten and a half million bushels in store at the lake ports and interior elevators which will have to be moved this year, and which require the closing down of navigation. If this is accomplished, the shipments for this fall will amount to something over 20,000,000 bushels of wheat.

This question has been before the Council for over five years.

CHARLES M. HAYS IN LONDON.

Confers With Sir Charles Rivers-Wilson on Railway Matters. London, Nov. 18.—Mr. Charles M. Hays, ex-President of the Southern Pacific Railway, is here with his family. He still talks of the Southern Pacific as "my country," but he has nothing to say about his personal position. He has been, however, in conference with Sir Charles Rivers-Wilson, on the question of the conditions of his return to the Grand Trunk as under discussion. It is officially denied that he will become president, in place of Sir Charles Rivers-Wilson, the place expected. If he returns, he will gain a free hand in the management of the Grand Trunk System.

Swedish Government to Establish a System of Coast Signal Stations. Stockholm, Nov. 18.—The success of the experiments in wireless telegraph conducted by the Swedish navy during the autumn manoeuvres has induced the government to provide for the erection of an extensive system of coast signal stations. The exhaustive tests made during the course of the manoeuvres showed the possibility of transmitting orders from the navy department in Stockholm by means of the wireless telegraph system, and the specially erected coast stations to war ships hidden among the islands of the coast at a distance of 28 miles. Swedish engineers are credited with several inventions for increasing the efficiency of wireless communication.

The companies' agents will probably test the validity of the law by breaking the seals outside territorial limits.

PARLIAMENT MEETS DEC. 27

Financial Needs of the Government Necessitate a Session Earlier Than Anticipated. KITCHENER ACCOUNTS FOR 356 BOERS

Native Reports From Zululand Say That the Enemy Are Burying Their Arms.

London, Nov. 18.—The original intention was to re-open parliament Jan. 3, the day of the expiration of the mourning of the court for Queen Victoria, so as to enable King Edward to be present with full state ceremony. It is now understood, however, that financial needs will compel an opening a week earlier. This will be on the 27th. The most pressing financial need is in regard to the Boer war.

A STERN POLICY.

Nkandla, Nov. 18.—It is understood that further voluntary surrenders will not be accepted, all Boers taken being treated as prisoners of war and deported. According to native reports from Babanango, the Boers in that district are burying their rifles, possibly owing to want of ammunition and do not intend carrying on further hostile operations.

MORE "INTERFERENCE."

Cleveland, O., Nov. 18.—German societies here have made arrangements for a mass meeting of the citizens in the interests of the Boers. They will petition Congress to intervene and prevent the shipment of arms and mules from New Orleans to Cape Town.

ELEVEN DAYS' RESULTS.

London, Nov. 18.—Lord Kitchener, calling to-day to the War Office from Pretoria, reports that since Nov. 7 the British columns have killed 43 and wounded 16 Boers, and that 207 have been taken prisoners.

Brussel, Nov. 18.—The Petit Bleu asserts that the wife and family of former President Steyn of the Orange Free State have been deported from South Africa.

Mr. M.L.A., returns to the Grant-Carnegie story. He writes that, while he is an admirer of Principal Grant, and would be the last to do anything to annoy or displease him, yet he refuses to allow Dr. Grant or any other man to accuse him wrongfully of disseminating a falsehood. The statement was made openly, before several reliable witnesses, whom I will name, together with that of the informant, if Principal Grant will come, or wire me for information.

LORD DUFFERIN III.

London, Nov. 18.—The Marchioness of Dufferin was to have opened a bazaar in Belfast yesterday afternoon, but wrote expressing her regret at her inability to do so. She is now in the hospital of Lord Dufferin. Lady Dufferin added that she was pleased to be able to state that the doctors were a much more favorable report.

UPRISING EXTREMELY IMPROBABLE. YORK COUNTY MAN THE FINDER

British Government Could Get 5000 Troops Into Skagway in Two Weeks. A Difficult District to Get Into, But There Promises to Be Much Activity There Next Year.

Vancouver, B. C., Nov. 18.—An evening paper published here reproduces from the San Francisco Call the sensational story of an alleged conspiracy in the Yukon to overthrow Canadian rule there, and establish a republic. Prominent Klondikers, who have come to Vancouver for the winter, state the story is a "colossal fake" in Seattle, Wash., U. S. A. The story is also regarded in the same light.

The Post-Intelligencer says: "The report is absurd, and the facts, as contrasted with the assertions made by the correspondent sending out the report, demonstrate the extreme improbability of an uprising."

It points out that there are not 6000 miners in Dawson capable of bearing arms, and that the Klondikers are poor and that the Klondikers are poor and that the Klondikers are poor.

A CYNICAL SUGGESTION. Washington, Nov. 18.—Army officers wholly discredit the published story of the reported conspiracy to secure the independence of Alaska.

The only report made by General Handall to the War Department from his headquarters at Vancouver, touching Alaskan affairs, related to the transfers of a couple of engineers from Valdez to Fort Egbert. The cynical suggestion is thrown out at the department that the story is devised to secure the return of the soldiers to Alaska.

MIGHT BE TRUE.

Chicago, Nov. 18.—The Record-Herald, in a special from Francisco, asserts that the Yukon conspiracy, says: "Several men here, thoroughly conversant with Alaskan affairs, and heavily interested financially, in the gold fields of the British Northwest, say that there is a possibility that the story is true, but all agree that such a conspiracy would be stupid and futile. They unite in declaring that if anything of the kind is on foot, the men who are taking part in it will be rigorously dealt with by the American and British governments."

RUSSIAN BRANDY MONOPOLY.

An Income of Forty Million is Contingently Expected. St. Petersburg, Nov. 18.—With the beginning of next year the State Brandy monopoly will be in full operation, extending throughout the whole of European Russia. Preparations have been going on ever since 1893, and \$10,000,000 has been sunk in the acquisition of 400 distilleries, which will cost \$30,000,000 annually for upkeep. The working of the monopoly, including maintenance of salaried staff and such like, will cost \$8,000,000 annually. The income next year from the brandy monopoly is estimated at \$40,000,000 sterling.

ROME INVADED BY AUTO.

Members of the Italian Royal Family Succumb to the Craze. Rome, Nov. 18.—The members of the royal family are the latest victims of the automobile craze. King Victor Emmanuel has become an expert in the art, and disputes with Leopold, King of the Belgians, the palm for being the best royal chauffeur in Europe. Prince Letitia, the Duchess Helena d'Aosta and the Count of Turin are all skilled automobilists. The royal family is patriotic enough to patronize Italian makes exclusively, and chiefly favors 12-horse power carriages.

Signed Yesterday in Washington By Representatives of Britain and the United States.

LONDON PRESS ON THE CANAL

For Sake of Peace and Good-Will England Can Afford to be Magnanimous.

Washington, Nov. 18.—The new Hay-Pauncefote treaty was signed today at 12.15 by the British and American representatives.

This treaty is intended to replace the first Hay-Pauncefote treaty. That convention was amended extensively by the United States Senate at its last session that the British government declined to ratify it.

Within a few weeks negotiations will be closed between the Secretary of State and Lord Pauncefote, which have just resulted in the signature of the new treaty, drawn with special reference to the objections found by Great Britain with the first treaty.

The principal point of difference between the new and the failed treaty is the withdrawal of Great Britain from the joint guarantee of the neutrality of the canal, thus leaving the United States the sole guarantor.

The section of the old proposal respecting the right to fortify the canal leaves that to the United States. All countries of whatever nationality passing through the canal will be alike, there will be no discrimination in rates in favor of any one.

Otherwise the new treaty is in scope almost identical with the old one. The terms of the new treaty are as follows: The United States and Great Britain agreed that neither should seek any advantage over the other in the canal.

By the new convention Great Britain yields her rights in favor of the United States which is at liberty to construct a canal.

EXCITES LITTLE COMMENT. London, Nov. 18.—Except as affording a chance for the opposition journals to attack the government and the Foreign Secretary, Lord Lansdowne, the signing of the new Hay-Pauncefote convention has excited little comment.

It is generally admitted that the British public opinion in the school has been actuated by the Clayton-Bulwer treaty, while they have much to gain by the construction of the canal.

ALL ENGLAND WANTS. Satisfied With Full Commercial Privileges on the Isthmian Canal. London, Nov. 18.—The Westminster Gazette this afternoon publishes an article containing that, even from a British viewpoint, it is desirable that the United States should build exclusively and guarantee the neutrality of the Isthmian Canal.

That if Lord Lansdowne should obtain full commercial privileges in the canal for Great Britain, the treaty will not be wholly one-sided. The article concludes with advising the public to expect to be prepared for a settlement of the canal.

Substantially give us all we want, but, outwardly, will not appear to be a triumph for the British. By the signing of the American statement, we were put in an embarrassing position last year, and we are now in a similar position.

If for the sake of peace and good-will, we approach the new settlement without a recollection of the details of the Clayton-Bulwer treaty, we have had some success in recent dealings with America. The Behring Sea award was given to us, and we have won it.

It is our duty, and it is our right, to have our share in the canal, and we shall be the gainers. The canal will be a great benefit to the world, and we shall be the gainers.

The Pall Mall Gazette takes a similar view of the matter, and says: "We are not in a position to object to the canal, and we are not in a position to object to the canal."

ARMISTICE ENDS NOV. 20. Willensted, Island of Curacao, Nov. 18.—Owing to the very strict censorship maintained in Venezuela it is impossible to learn details of the Venezuelan-Colombian armistice. It is reported that the armistice comes into effect on Nov. 20.

HOW COLONEL BENSON FELL

Charge of the Mounted Boers at Brakenlaagte Was An Extraordinary Spectacle.

CREAM OF THE ENEMY WITH BOTH

Native Driver Shows Great Courage and Was Rewarded by the British.

London, Nov. 18.—The Daily Mail's Pretoria correspondent writes that the fight in which Col. Benson fell...

In the Boer charge on the hill it is satisfactory to know that not a single man there survived.

Gen. Buller's enterprise in attacking Col. Benson was doubtless due partly to the fact that the column had been most active and successful in its rapid marches and night marches, which had resulted in the capture of the Boers in the Eastern Transvaal.

It is also probable that Gen. Buller desired to represent his ammunition and stock of food and to release the prisoners captured earlier in the week, but in this he was frustrated by the splendid resistance of our men.

The recent development of Boer activity is explained by the fact that the Boers have caused the void to be filled by excellent grazing, thus facilitating the movements of the enemy.

It is difficult to single out for praise any particular regiment. The artillery stood to their guns with magnificent courage, losing heavily and firing ceaselessly till the morning, when they were ordered to retire.

The Scottish Horse, who rallied round the guns in conjunction with the Yorkshire and Lincolnshire, also lost heavily and acted up to their splendid reputation.

On the hill the Boers were ordered to take their stand and directed the operations as usual. It is a pity that the Boers were not captured earlier in the week, but in this he was frustrated by the splendid resistance of our men.

Public Amusements

The Bonnie Brier Bush

One could almost smell the heather at the Princess Theatre last night. Scottish emblems were much in evidence—boxes draped with tartan, music Scotch, play Scotch and many of the audience Scotch.

The "Overcoat" Soft Hat

The overcoat permits a man wearing a larger shape in winter than he does in the summer season. The makers have carried out very nicely this idea in their blocks.

A general discussion followed the address. Mr. John Maughan presided over the meeting.
