

COMPTROLLER TO FINANCE HYDRO

McGarry Bill Means Radical Change in Powers of the Commission.

GOVERNMENT APPOINTS New Officer Who Will Have Power to Counter Sign All Cheques.

The "McGarry bill" to amend the Power Commission Act, brought down yesterday, appears to be a direct vote of lack of confidence in the Hydro-Electric Commission.

It provides for the appointment of a comptroller by and at the pleasure of the lieutenant-governor-in-council. This officer shall have power to counter-sign every cheque before it is issued, and, before doing so, to satisfy himself that the issue of the cheque is authorized.

The comptroller is to have authority over the accounting system of the commission, according to a method to be decided upon by the lieutenant-governor-in-council.

In future, according to the bill, the commission will present its reports before the 15th of February in each year, not direct, but thru the comptroller. This report is to bear the signature of the chairman or vice-chairman, to the effect that the statement is correct in all particulars.

A "blanket" clause provides that "the comptroller shall perform such other duties as the lieutenant-governor-in-council may prescribe."

The bill contains nothing to validate past actions of the commission. The only amendment contained in it besides those relating to the appointment of the comptroller and the definition of his office is to the effect that the commission henceforth may receive and disburse its own income. This disposes of the contention of Jas. Chancy, provincial auditor, that moneys received by the commission should be turned over to the government, and checked out after that by the government.

McGarry Bill. An act to amend the Power Commission Act.

His Majesty, by and with the advice and consent of the legislative assembly of the Province of Ontario, enacts as follows:

1. The Power Commission Act is amended by adding the following section:

(1) The lieutenant-governor-in-council may appoint an officer, to be known as the comptroller of the commission, who shall hold office during the pleasure of the lieutenant-governor-in-council and shall counter-sign every cheque issued by the commission, but before counter-signing shall satisfy himself that the issue of the cheque is authorized.

(2) The comptroller shall give such directions as he may deem proper as to the books of account kept by the commission, and shall cause to be kept and entered therein regular accounts according to a system and method approved of from time to time by the lieutenant-governor-in-council of all sums of money received and paid out by the commission and of the several purposes for which the same are received and paid, and such books shall be at all times open to the inspection of any person appointed by the lieutenant-governor-in-council for that purpose, and any such person may take copies or extracts from such books.

An Annual Report. (3) The commission, thru the comptroller, shall, before the 15th day of February in each year, make to the treasurer of Ontario an annual report for the information of the lieutenant-governor-in-council and for the information of the assembly, and such report shall contain, among other things, clear and comprehensive statements disclosing and exhibiting:

(a) The actual condition as to the amount and character of the assets and liabilities (direct and indirect) of the undertaking conducted by it as on Dec. 31 last preceding;

(b) The cash transactions, including receipts and disbursements for the year ending on Dec. 31 last preceding;

(c) The revenues, income and interest earned and the amount of the costs, expenses and other items chargeable there against in connection with the operation, maintenance, administration and conduct of the undertaking controlled by it for the year ending Dec. 31 last preceding;

(d) The amounts, with the expected sources of the same, which it is estimated will be received in cash or its equivalent and the payments, loans and advances with the purpose of the same, which it is contemplated shall be made in cash or otherwise, in the next succeeding year;

(e) The amounts and particulars of the obligations and liabilities which it is contemplated shall be incurred in the next succeeding year;

(f) The securities or evidence of indebtedness which it is contemplated shall be created, issued, sold or otherwise disposed of together with the method of dealing with the same in the next succeeding year;

(g) The amounts and particulars of the securities or evidence of indebtedness which it is contemplated shall be created, issued, sold or otherwise disposed of together with the method of dealing with the same in the next succeeding year;

(h) The amounts and particulars of the securities or evidence of indebtedness which it is contemplated shall be created, issued, sold or otherwise disposed of together with the method of dealing with the same in the next succeeding year;

(i) The amounts and particulars of the securities or evidence of indebtedness which it is contemplated shall be created, issued, sold or otherwise disposed of together with the method of dealing with the same in the next succeeding year;

(j) The amounts and particulars of the securities or evidence of indebtedness which it is contemplated shall be created, issued, sold or otherwise disposed of together with the method of dealing with the same in the next succeeding year;

(k) The amounts and particulars of the securities or evidence of indebtedness which it is contemplated shall be created, issued, sold or otherwise disposed of together with the method of dealing with the same in the next succeeding year;

DESTROYERS OF SUSSEX PRISONERS OF ALLIES

Official Statement Issued at Paris Clears Up Any Lingering Doubt.

CONFESSED BY CREW German Submarine That Attacked Channel Boat, Sunk on April Fifth.

PARIS, April 13.—The German submarine which torpedoed the Channel liner Sussex was sunk on April 5, it was officially announced today. The U-boat's identity is fully known to the French Government. Its commander and crew are understood to be prisoners in a prison camp of the allies.

The official Press Bureau of the ministry of marine issued the following statement today in reply to the German claims that the Sussex was not torpedoed:

"We could publish the name of the commander and the number of the submarine which attacked the Sussex, as well as the story of her journeyings prior to the crime.

"This submarine was destroyed on April 5, and her officers and crew confirmed all the information we possess in this matter."

The Sussex disaster occurred on March 24. The sinking of the submarine, therefore, occurred 12 days later. The question is, Did the submarine commander's first report to Berlin on the basis for the German reply to the United States?

A London cable says: "The admiralty records show, it is asserted, that no other vessel was torpedoed in the vicinity of the spot where the Sussex was blown up."

FRENCH EXCHANGE HAS TAKEN FRESH SLUMP

Quotations at New York Lowest in Generation at Least.

NEW YORK, April 13.—French exchange fell to the greatest discount in this market today within a generation and probably for a longer period. The Paris check broke to 40¢ with cables at 40¢. The normal rate for this resistance before the war was 100¢, which represented an equivalent of a little more than 5 francs to the American dollar. Today's quotations fixed the value of the dollar at well over 6 francs.

Free offerings of Paris bills, together with rumors of further delay in the completion of negotiations for another French loan have been the immediate causes of the decline which bankers regarded as little less than sensational.

BRITAIN MADE HEAVY SEIZURE OF SECURITIES

Value Two Million Pounds Sterling, Says Sir Edward Grey.

LONDON, April 13, 3:10 p.m.—Sir Edward Grey, the British foreign secretary, replying to a question in the house of commons today, confirmed the statement published last month, that the value of the securities intercepted by the British authorities in the letter post between Holland and the United States was £2,000,000 sterling.

Protests, he added, had been made by neutral countries, and discussion with them was proceeding.

Sir Edward said the securities taken from the letter post between Holland and the United States were seized on the ground that they were of German origin. They would be dealt with in the prize court in the same way as would other German exports.

D. S. O. IS CONFERRED ON FOUR CANADIANS

King Honors Gallant Officers—Wounded Men Recovering in Hospitals.

Canadian Associated Press Cable. LONDON, April 13.—The King conferred the D.S.O. on Col. Kommissbark, Royal Canadian; Col. William Simpson, Army Service; Major Frederick Lester, Royal Canadian; Major Clark Kennedy, 12th.

The following wounded are in the 14th General Hospital at Nimereux: Lieut. Arbutnot, shot in the cheek and chin, progressing; Lieut. Daniels, shot in the right leg and left hand; Lieut. Dowling, shot in back; Capt. Mackenzie, shot in head; Capt. McPherson, shot in back and arm; Lieut. Morris, shot in shoulder; Capt. T. Taylor, shot in left knee, condition satisfactory.

Lieut. Bradburn is at Boulogne, shot in thigh, satisfactory; Capt. Jago London, wounded in right thigh, and Lieut. Wilton, returned to duty.

FIVE MINES EXPLODED AGAINST FOE TRENCHES

Canadians Captured Craters While Germans Were Paralyzed.

LONDON, April 13.—Details received here of the fighting for craters, in which the Canadians suffered severely, show that at one spot five mines in a direct line and close together were sprung against the Germans, whose defence consequently momentarily was completely shattered. The Canadians then rushed forward to occupy the ground thus rendered untenable. The advance was supported by artillery.

An observer declares that fire from guns so close together and working incessantly was like a terrace of houses on fire. The Canadian gained ground for the time being, after which the struggle was continued with varying success on each side, and the Canadian losses were severe there in no doubt the enemy lost many more men.

In-council and paid by the commission as part of the costs of the administration.

The Key to Fashion for Men

More than 30 new style models are shown in the Semi-ready tailored designs this Spring—all in new patterns, specially imported, and mostly exclusive.

The Fashion Opening at the Semi-ready Store is well worthy of leisurely viewing at the earliest possible moment.

In the new Portfolio of Designs for the Spring and Summer Season the Chief Designer shows over fifty distinctive new models, each one differing in some particular feature from the other.

It has been said that the Semi-ready designs are so beautifully balanced and so artistic in alignment that they can be considered in correct style for at least five years, which is easily the full life of a garment.

The new style book this season is called "The Key to Fashion," and while only a dozen of the representative styles are shown, the book gives a fairly good idea of the wealth of choice in Semi-ready Tailoring.

Where many tailors have stood from under in guaranteeing colour and dye, the Semi-ready guarantee in the pocket still represents its exact face value—the price that is in the pocket.

Every garment sold—to be genuine Semi-ready tailoring—must have the price printed plain in the pocket label—otherwise 'tis not a "Semi-ready," but a counterfeit.

With the price in the pocket—whether it be \$15, \$20, \$25 or \$30 value.

The invitation to look about is genuine—there can be no thought of buying except on the initiative of the customer. But 'tis right that we should emphasize the name and fame of

Semi-ready Tailoring

ED. MACK, LIMITED - 167 YONGE STREET
A Full Line of Boys' and Youths' Suits and Overcoats Carried in Stock or Special Order.

SCANDINAVIAN ARRIVES WITH MANY INVALIDS

Liverpool, r. d brought 113 officers and men from the several Canadian overseas units.

Of the total 113 men returning, 55 are suffering from gunshot wounds or had been wounded so severely that amputation of limbs was necessary. Many were suffering from a general physical breakdown, due to the great strain in watching in the trenches in the night.

UNCLAIMED GOOD SOLD AT VERY LOW PRICES

Bidding Was Not Brisk at Custom House Yesterday Morning.

As usual the sale of unclaimed goods at the King street customs house yesterday morning attracted a crowd of speculators. In spite of the numbers on hand, however, the bidding was not very brisk, and Auctioneer C. M. Henderson had to offer some packages three or four times for buyers. In many cases the offers did not even cover the charges hanging over the lots.

RUSSIAN SHIP TORPEDOED.

Nine of Crew, Some of Them Wounded, Have Been Landed.

BARCELONA, April 13.—The Russian sailing vessel Imperator has been torpedoed by an Austrian submarine in the Mediterranean. Nine of the crew, some of whom are wounded, have been landed here by a Dutch steamship.

TEDDY ROOSEVELT THE MAN.

No One Else Will Do, Says New York Tribune.

NEW YORK, April 13.—The Tribune (Republican) this morning editorially names Theodore Roosevelt as its choice for the next President of the United States. It says in part: "We are for Col. Roosevelt because we believe the country needs him. No one else will quicken the pulse of the nation as he will quicker than. No one else will stir the conscience of the people as he will stir it. "No one else will inspire patriotism as he will inspire it."

ANOTHER BRITISH BARQUE SUNK

LONDON, April 13.—The British barque Inverlyon has been sunk by a submarine, according to a report received by Lloyds. Twelve members of the crew were picked up.

The Inverlyon was a vessel of 1527 tons and was built in 1904. Her home port was Aberdeen.

CONSIDER ESTIMATES OF TREASURY DEPARTMENT

Adoption of Report Will Enable Board of Control to Fix Tax Rate.

MAY REDUCE REVENUE

Drop in Receipts From Liquor Licenses and Street Railway Company.

This morning at 11 o'clock the board of control will consider the estimates of the civic treasury department, including revenues other than those received from taxation. As the estimates of all other departments have now been before the board of control and are ready for presentation to council, the adoption of the treasurer's figures will enable the board to fix a tax rate for the year.

Last year the total of all revenues other than those derived from taxation was \$3,824,449. It is quite probable that this amount will be reduced this year and that the figure will be somewhere around \$3,500,000. It has been understood that the \$110,000 derived from liquor licenses has been deducted, and in addition to this there will likely be a considerable reduction in the amount received from the Toronto Street Railway, which was estimated at \$1,000,000 last year. There will, however, likely be an increase in the estimated revenue for domestic and commercial water supply, and it may be that \$10,000 or even more will be added to last year's figures of \$1,638,773.

FIFTY YEARS IN SERVICE OF E. B. EDDY COMPANY, LIMITED

Splendid Record of George H. Millen, the Man Who Made Matches Famous—His Position as Head of Great Concern Due to Great Mechanical Genius.

George H. Millen, president and manager of the E. B. Eddy Co., Limited, Hull, Quebec, has today completed 50 years of service to the late E. B. Eddy and the present company. Mr. Millen was born in Glens Falls, N.Y., in 1838, where he spent his boyhood days. When he was but a young man, the call to arms came, and he enlisted and saw active service throughout the civil war. Not long after the conclusion of the war he arrived in Hull, on April 14, 1865, when he made arrangements with Mr. E. B. Eddy to take charge of a small sawmill which he had rented from the Wright family. At that time Mr. Eddy owned some match and mill machinery, but not a foot of real estate in Hull. Mr. Millen has been connected with the business ever since, never having been out of duty for two weeks at any one time, either on account of sickness, pleasure or business. He has had the superintending and building up of the factories, mills, etc., from the beginning, in fact, has built and rebuilt structures, with their equipment, testifying to his great mechanical genius. When the Eddy Co. was formed into a joint stock company, in 1885, he was elected a director, and on Mr. Eddy's death was elected joint manager with the late Mr. Rowley, and on the death of Mr. Rowley, a little over a year ago, he was elected president and manager of the company, which position he still occupies. The World extends to Mr. Millen its congratulations and good wishes for a long life and continued success.

MCGARRY'S BILL IN LEGISLATURE

"Vote of Lack of Confidence in Commission," Declared Rowell.

OPPOSITION STORMED

Provincial Treasurer Insisted Government Did Not Aim at Hydro Control.

The "McGarry Bill," to provide for a comptroller to supervise the auditing of the Hydro-Electric Commission's books, to pass judgments on the legality of all cheques from the commission before issuance, and to perform such other duties as the lieutenant-governor-in-council shall see fit, was introduced into the legislature yesterday with four government bills to increase the statutory powers of the commission and authorize power development at Niagara. The first of these raised a storm of opposition from the Liberal side of the house. N. W. Rowell, leader of the opposition, said that while he approved of the measures taken to improve the governing system of the commission, it did look to him as if the measure would place the finances of the commission entirely in the hands of the government. It looked like a "direct vote of lack of confidence in the commission," he said.

Other Liberal members expressed the fear that the government was trying to take away power from the commission, a little jester in Sir Adam's game, and to gain control of the hydro system for the party in power. Hon. T. W. McGarry said repeatedly that the government had no such intention; but that it merely wished to eliminate friction between the provincial treasurer's department and the hydro accountants, and to place the financing of the hydro on a safe and sound system to safeguard the public interests.

The four bills introduced by the attorney-general gave power to the commission to purchase and sell supplies for and to municipalities to the lieutenant-governor to pay over provincial grants direct to the chairmen of the municipalities. The money might be owing at the time from the commission to the province; authorized provincial development of Niagara power and made arrangements for restricting private ownership of Niagara power under existing charters. The bills also provided for the ratification of the by-laws authorizing the construction of the Toronto-London Radial Line, and provided that the work should not be commenced until after the war.

Not Aimed at Commission. Hon. T. W. McGarry, in introducing the bill, insisted that it was merely to improve the present system of auditing. He did not intend to reduce the powers of the commission. The legislature had the power to regulate the expenditure of the commission's money. The process in the past had not enabled them to do so. The attorney-general would introduce legislation to increase the powers of the commission, said the provincial treasurer, in answer to the auditor's department and the auditing department of the hydro.

Under Government Control. The opposition, however, was in hearty accord with that part of the bill which referred to the proper auditing of the hydro accounts. For years the opposition had urged that the accounts of the commission should be brought down to the house, that while these accounts might be audited by the municipalities, they were also the affairs of the province as a whole.

"The bill practically puts the Hydro-Electric Commission under the control of the government," said the leader of the opposition, who pointed out that part of the bill which provided for the appointment of a comptroller, who not only should countersign all cheques, but who should perform such other duties as the lieutenant-governor in council may prescribe. It meant that the finances of the hydro were to be in the hands of an official to be appointed by the government.

Lack of Confidence. Lack of confidence in the commission, he said, was making provision for closer control of the hydro-electric commission. The introduction of the bill would be regarded by some as a direct vote of lack of confidence in the commission. The government had not so acted in regard to other commissions.

Mr. Rowell said that he regretted that the government had not seen its way clear to fall in with the suggestions of the municipalities financially interested, that they should have some representation on the commission. They would have been right in a convincing one. The premier's argument on the point of the deputation that had waited upon him on the previous day had not been a convincing one. The hydro was the trustee of the municipalities which were responsible for the entire cost of the undertaking. The commission was merely the board of management for these municipalities.

McGarry "King Maker." It was the municipalities that would have to sustain any financial loss. They should have one member on that board. The request was only reasonable.

Allan Strohme (East Hamilton) followed. An evening newspaper had referred to the comptroller as a "king" and to Hon. Mr. McGarry as the "king maker." The labor member thought that the bill should not be put thru the house until the people had a chance to read it. If they did have a chance to read it, the deputation that would wait upon the cabinet would not be one of hundreds as that of the previous day, but one of thousands, protesting against the bill.

"I wish to God he were back in his old place," said Mr. Strohme, referring to the late Sir James Whitney. "So far as saying that the fellow who shall be the king shall say how the money is to be spent, the people have to foot the bill. I don't like it at all." He represented fifty or seventy thousand people who had been fighting for the hydro and public ownership.

Kept in the Dark. Sam Carter (South Wellington) followed. He said that the representation of the municipalities in the union had felt that they had been shut out from knowledge of what went on in the inside of the hydro. The chairman had frequently attended their meetings. None of the other commissioners had done so. Personally he thought that sums are being made for the municipalities would be enough, but they should have some representative on the commission who would keep them informed of what went on.

Today and Tomorrow We'll Trim Your Hat Free

You'll Find Smart New Shapes at \$1.25
Perhaps you can't find a hat quite to your liking among our varied assortments of trimmed millinery. If so, you'll be amply repaid by a visit to our Untrimmed Hat Shapes Section, for we have a wonderfully full supply of the smartest untrimmed shapes that have been turned out this season, large and small, black and colors, and—best of all—we will trim any one of the shapes for you free of charge if you make your choice of hat and trimmings in the department today or Saturday.

We're making a special feature of SMART SHAPES AT \$1.25 EACH today—the price being remarkably low for such attractive new headgear. You'll find a wide range of trimmings, too, uncommonly pretty flowers being available at 25c and 50c. As you will see, this sale offers a wonderful opportunity for securing the new Easter hat with a very modest outlay.

Your Easter Gloves Are Here \$1.35 French Kid Gloves, at 95c

This is the last Friday Glove Bargain before Easter—and it's a good one. These are not "nameless" gloves. Each has its maker's stamp plainly to be seen inside the wrist. Indeed, most of the gloves are the well-known Reynier and Dent make. Do you know that the quality is all that you could desire for your Easter wearing. Here are details: Reynier's and Dent's Fine French and Grace Kid Gloves, soft in finish, perfect in fit and style, two clasps, may be had in white, white with black stitching, gray, tan and brown. All sizes. Regular value \$1.65. Today, per pair 95

Sale of Women's Stockings Broken Lines of 25c and 35c Grades, 19c

Imagine Silk Lisle and Vegetable Silk Stockings at 19c a pair! It's an offering seldom met with, so come early to our Hosiery Section today if you would get your share. Today's sale consists of BROKEN LINES OF WOMEN'S HOSE, including black and tan lisle, black silk and black cotton lises, as well as Vegetable Silk Boot Hose in sky, pink and sand. There are all sizes in the collection, but not a full range in each line. The regular prices are 25c and 35c a pair. Today's price, per pair 19

85c White Corduroy Today 75c a Yard

No material is more popular for sports coats, sports skirts, etc., than White Corduroy. It looks smart, washes admirably and wears well—what more could you want? We've a special line of White Corduroy, 28 inches wide, that you may be interested in. It's a good 85c value. We shall sell it today, per yard, 75

Four-Ply Khaki Wool Guaranteed Dye, \$1.75 Grade at \$1.50

No need to urge that there be no "slackers" among those unwearied women whose "bit" is to knit socks and other comforts for the soldiers. You'll be knitting all summer at the seaside, at mountain retreat, or country home, helping to prepare for the "big drive" which is likely to come this autumn. Your present activity and that of the months to come will necessitate your buying great quantities of wool. Therefore you're being invited to buy today that we're offering a very fine grade of KHAKI WOOL, 4-ply, guaranteed dye, wool that will verily become, if the hard wear, the quality that we sell regularly at \$1.75 a pound. Today's price, per pound 1.50

Royal George Stock Pattern Dinnerware

It's one of the most popular of our open-stock patterns, in the English semi-porcelain. The decoration is a band of cobalt blue, showing a conventional treatment of herbivorous animals. The body has a clear white glaze. We have all sorts of extra pieces in this stock pattern, such as pickle dishes, butter dishes, cheese dishes, jugs of all sizes. The prices are the usual 97-piece dinner service is 12.75

Smart New Pumps for Easter Regular \$5.00 & \$6.00 Values, at \$3.95

At no time within the memory of the oldest inhabitant has there been any variation in the custom that demands new footwear for Easter Day. There have been variations in the footwear itself; in fact, each year has brought about an improvement in the manner of making, the style of cutting, etc.; and this season's pumps are without doubt the smartest yet.

We are especially pleased to be able to offer today a particularly attractive assortment of NEW SPRING PUMPS, just passed into stock, absolutely up to the minute in every way, and in a full range of sizes. These smart pumps are made of the finest leather, in either the ordinary or Colonial style. They have Goodyear welt soles and leather covered heels. The regular value is \$5.00 and \$6.00. Today's price, per pair, 3.95

Such Modish Suits for Easter Wonderful Values at \$22.50 & \$25.00

The enthusiasm over the choosing of the new Easter Suit grows greater as the festive day draws nearer. We look for unwonted activity in our Cloak and Suit Section today, for we've arranged a specially attractive group of suits to sell at \$22.50 and \$25.00 each. We think that you'll be surprised to find suits of this character at these prices.

Every Suit in the collection is made on a smart, new model, tailored to perfection, and each has the distinctive charm that marks all Murray-Kay assortments. There are several models in the popular black and white checks, others in navy poplin, navy and joffe blue serge, etc., made with the latest putting in the collar, the usual 97-piece dinner service is 22.50 and 25.00

M'GRATH GUILTY OF MANSLAUGHTER

Verdict Returned by Jury in Criminal Assizes Last Night.

SENTENCE RESERVED

Counsel for the Defence Offered No Testimony of Witnesses.

A verdict of manslaughter was returned against George M'Grath, accused of killing Joseph McKibbin, in a first night at 27 Bulwer street, Jan. 21, by the jury in the criminal assize court, after an hour's deliberation last night. Chief Justice Falconbridge reserved sentence and M'Grath, who had received the verdict as a technicality, was returned to his cell at the Don. M'Grath's imperturbability which he had maintained during the hearing, he sat in the dock, the object of the eyes of witnesses and people who crowded the court room, was unshaken when the jury reported its finding. He was led silently back to his cell. The surprise of yesterday afternoon's hearing came when T. C. Robinette, counsel for the defence offered no testimony of witnesses. Even the defendant did not take the stand to testify and tell the story of the fight which resulted in McKibbin's death. A recess had followed the conclusion of the crown prosecutor's case, and Mr. Robinette began his argument to the jury. He made no explanation. The last witness introduced by the crown was Dr. James Johnson, chief coroner, who gave technical information relative to McKibbin's wounds. He said that the man had died as a result of a hemorrhage caused by a blow on the right side of the head, but had suffered other blows, including a serious one on the right side of the chin, which broke tissues beneath the skin. He said there were no marks to indicate that McKibbin had struck his head against the stove in the kitchen as falling.

Ethel Davis, who lived with M'Grath as his wife for three years, and who gave chief testimony for the prosecution as the only eye-witness of the fight, concluded her statements with a description of the fight. She remained throughout the trial seated between her mother and aunt, who were also witnesses. In pleading for his client, Mr. Robinette said: "This is not the same case as that of an outraged husband seeking revenge upon the man who becomes too attentive to his wife, but M'Grath had the same feelings of a husband. For three years he had kept her from a life on the streets. The whole moral side of the story is wrong, I know, and I don't uphold it. But these unfortunate things occur, and occur in higher society than that in which the defendant lived. Result of Drunken Rabble. The evidence shows that the tragedy was the result of a drunken rabble. It was not murder, because M'Grath went to the Bulwer street home unarmed, and no evidence has been given to show he intended to kill McKibbin. There was no weapon used other than fists, and no evidence of unfair means on M'Grath's part, as has been introduced. It was not murder, and I don't believe it was manslaughter."

M'GRATH GUILTY OF MANSLAUGHTER

A verdict of manslaughter was returned against George M'Grath, accused of killing Joseph McKibbin, in a first night at 27 Bulwer street, Jan. 21, by the jury in the criminal assize court, after an hour's deliberation last night. Chief Justice Falconbridge reserved sentence and M'Grath, who had received the verdict as a technicality, was returned to his cell at the Don. M'Grath's imperturbability which he had maintained during the hearing, he sat in the dock, the object of the eyes of witnesses and people who crowded the court room, was unshaken when the jury reported its finding. He was led silently back to his cell. The surprise of yesterday afternoon's hearing came when T. C. Robinette, counsel for the defence offered no testimony of witnesses. Even the defendant did not take the stand to testify and tell the story of the fight which resulted in McKibbin's death. A recess had followed the conclusion of the crown prosecutor's case, and Mr. Robinette began his argument to the jury. He made no explanation. The last witness introduced by the crown was Dr. James Johnson, chief coroner, who gave technical information relative to McKibbin's wounds. He said that the man had died as a result of a hemorrhage caused by a blow on the right side of the head, but had suffered other blows, including a serious one on the right side of the chin, which broke tissues beneath the skin. He said there were no marks to indicate that McKibbin had struck his head against the stove in the kitchen as falling.

Ethel Davis, who lived with M'Grath as his wife for three years, and who gave chief testimony for the prosecution as the only eye-witness of the fight, concluded her statements with a description of the fight. She remained throughout the trial seated between her mother and aunt, who were also witnesses. In pleading for his client, Mr. Robinette said: "This is not the same case as that of an outraged husband seeking revenge upon the man who becomes too attentive to his wife, but M'Grath had the same feelings of a husband. For three years he had kept her from a life on the streets. The whole moral side of the story is wrong, I know, and I don't uphold it. But these unfortunate things occur, and occur in higher society than that in which the defendant lived. Result of Drunken Rabble. The evidence shows that the tragedy was the result of a drunken rabble. It was not murder, because M'Grath went to the Bulwer street home unarmed, and no evidence has been given to show he intended to kill McKibbin. There was no weapon used other than fists, and no evidence of unfair means on M'Grath's part, as has been introduced. It was not murder, and I don't believe it was manslaughter."

Style 921 Model for Scout in serge, waistcoats, \$20.

Style 916 Elaborated Busk-Sack, at \$18.

Style 902 Long roll semi-appl., made to order, \$18 to \$35.

Boston Teams Still Unbeaten

EVEN COBB'S MIGHTY SWAT FAILED TO WIN

Detroit Star Cleared the Bases in Ninth, But Tigers Were Beaten.

At Chicago (American).—Chicago batted Daus hard yesterday and won from Detroit 3 to 0, the ninth-innings rally, in which the Tigers were down with a double, counted five runs for the visitors. Up in the ninth Danforth and Detroit practically helpless. Score: Detroit.....000010000—10 1 Chicago.....0122010—5 9

At Boston (American).—The Red Sox won again from the Athletics yesterday 3 to 0. Through three innings the Athletics either wild or easy of solution by the Boston batsmen. Score: R.H.E. Philadelphia.....0100000—1 0 Boston.....0101000—3 0

At Cleveland (American).—Morton weakened in the eighth and allowed four hits and a pass, which netted St. Louis 4 to 1. Prior to the eighth Morton had fanned eight and allowed but one hit. Score: R.H.E. St. Louis.....0000000—4 1 Cleveland.....0000101—1 2

New York-Washington game postponed, wet grounds.

FIRST ONE-HIT GAME PITCHED BY B. ADAMS

Pittsburg Heaver Lets Cardinals Down, Gently—Doyle Wins for Giants.

At Philadelphia (National).—New York defeated Philadelphia yesterday, 2 to 0. Neither team was able to score until the ninth inning when Doyle led off for New York with a single. Fletcher beat out a stunt, and when the base was left uncovered Doyle raced, drawing a throw by Luderus. Bassett was hustling for the bag. The ball went out to left field, and Doyle scored, while Fletcher who reached second on the play, scored on Knut's sacrifice and Merkle's single. Score: R.H.E. New York.....0000000—2 0 Philadelphia.....0000000—0 2

At Cincinnati (National).—Heavy hitting by Cincinnati, coupled with several costly errors by the visitors, allowed the locals to take the second game of the series from Chicago here, 5 to 3.

At St. Louis (National).—Adams allowed St. Louis but one hit, and Pittsburg shut out the locals, 4 to 0, yesterday. St. Louis did not get a man past first base. First inning Adams fanned runs in the seventh. Meadows weakened and gave two bases on balls, which, with sacrifice and errors by Miller Hornsby, let in a run. With the bases full, Miller Hornsby, who had been hit by the bases still full, he passed Baird, forcing another score. Score: R.H.E. St. Louis.....0000000—0 1 Pittsburg.....0000000—4 0

At Brooklyn—Brooklyn-Boston, wet grounds.

Lehigh Beat Cornell Bert Davis Refereed

SOUTH BRITLOHEM, Pa., April 12.—Cornell was defeated yesterday by Lehigh's lacrosse team, 4 to 1. In both defence and attack Lehigh outplayed Cornell in first half. The second half appeared more even and the attempts at goals were evened up at 12 each.

Cornell played desperately in the second half, but Johnson and Snyder made pretty goals for Lehigh. Graham scored Cornell's only point when an easy one rolled past Tate. The lines up: Cornell (4): Goal, Quinn; point, Spitzberg; cover-point, Haro; defence, Blackman; second defence, Ingalls; third defence, Devesch; centre, Collins; third attack, Palmer; second attack, Taylor; first attack, Schokk; out line, Garrylin; in line, Graham. Lehigh (5): Goal, Tate; point, Walter; cover-point, Kennedy; first defence, Green; second defence, Zollinger; third defence, Johnson; centre, James; third attack, Johnson; second attack, Snyder; first attack, Barclay; out line, Wacker; in line, Watt, Johnson, three. Substitutes—Dutton, Kennedy, Green for Johnson, Lewis for Green, Alden for Dutton, Thomas for Alden, Collins for Lewis. Goal umpire—Schulz and Meyer, Lehigh. Referee—Bert Davis, Swarthmore, 35 minute halves.

PASSES UP BOSTON RACE

MONTREAL, April 13.—Edmond Martineau, the well-known French-Canadian amateur runner, who runs under the colors of the M.A.A., announced today that he had withdrawn his entry from the Boston Marathon.

MCCORMICK RECREATION

A very enjoyable evening was spent at McCormick Recreation last night when the Business Men's Class met to wind up the winter season. Class president, Mr. J. H. Armstrong, commented after which all took part in an exercise. Mr. E. H. Armstrong, director of recreation, was present, and complimented the supervisors and men on the season's work.

THE LEAFS WILL LEAVE BUNNY HEARNE BEHIND

Team Playing Poughkeepsie Today—Manager Still Looking for Players.

JERSEY CITY, N.J., April 13.—When the Toronto team leaves here tomorrow morning for Poughkeepsie to play the first of a series of exhibition games against the players who were in the training camp will be left behind. Outfielder Fred Mahoney, suffering from an injured leg, will be one of the number. Pitcher Bunny Hearne, who is in doubt whether he will be able to play, will also remain here. He will not be used by the Leafs this season. In fact he was never signed. Infielder Mahoney has been unconditionally released. The fourth member of the squad to stay in Jersey City until the club returns to Toronto is catcher Hayden, probably going to Portland as part payment for Catcher Hayden.

FAMOUS SPORTSMAN OF WINNIPEG ENLISTS

Mac Rochoon, Curler, Turfman and Hotelman Now Sereant—Has Three Sons in Khaki.

WINNIPEG, April 13.—Sergeant Mac Rochoon, if you please, Winnipeg's well-known sportsman, E. J. Rochoon, has enlisted with the 18th Battalion. He signed up last week and is now a full-fledged member of the 18th Battalion. Col. Edgewood's battalion, and is wearing the khaki uniform, the coat sleeve of which carries the three stripes. Not content with allowing three of his sons to go to the front, he has also enlisted in the 18th Battalion. He is now a sergeant in the 18th Battalion. He is now a sergeant in the 18th Battalion. He is now a sergeant in the 18th Battalion.

IF JOHNSON EVER LETS LOOSE—BANG

Every time Walter Johnson loses a game, the shouls rattle the skeletons, and tell us that the Swede is losing his speed. Walter has something to say in that connection this spring at the Washington camp. Clark Griffith thought that the smoke king was putting too much razzle-dazzle on the ball for this time of the year, and decided to let him not to let his arm out so soon.

SPORTSMEN SOLDIERS CONSUME MUCH MILK

At the monthly meeting of the Soldiers' Club, West Richmond street, last night, under the presidency of E. B. Jackson, a satisfactory financial statement was presented. For the first time the formation of the club a banquet was shown on the right side, the profit on the month amounting to \$770.88.

Ottawa Lacrosse Club Elect Advisory Board

OTTAWA, April 13.—The Ottawa Lacrosse Club, which will operate a team this season in the National Union, was successfully organized last night at the New Russell House. Nearly a hundred well-known local sportsmen attended and the gathering resulted in the launching of the club, the appointment of a board of directors and the inauguration of a membership campaign.

TORONTO GOLFERS WIN AT PINEHURST

PINEHURST, N.C., April 13.—Toronto was represented by five players in the semi-finals of the April golf tournament at Pinehurst.

Truth and Trade

When a seller and a buyer have made a trade, based on truth, both have obtained a benefit, and the community to which they belong have benefited, in so far as their interests affect the welfare of the community. Each has parted with that which the other needed, and in turn has obtained from his fellow-man what he himself needed. Honest exchanges, therefore, enhance values.

But trades based on untruth damage all concerned. They approach dangerously near to theft.

By advertising, buyers and sellers are brought together, and truthful advertising promotes the welfare of the commercial world; it is, in fact, a part of the wealth-producing forces of the world. But untruthful advertising is a fraud and the fosterer of fraud. It partakes of the nature of the crime of getting money or goods under false pretences.

We fully realize the importance of absolutely truthful statements in our advertisements. We do not advertise impossible values such as \$25 and \$30 suits for \$15, because such values cannot be given. We do claim, however, to supply clothing which in style and quality is worth every dollar we ask. In other words, honesty in merchandising is always the chief consideration here.

See our Easter Suits and Overcoats at \$15, \$18, \$20 and \$25—then tell us if you have ever seen equal value for the money.

BASEBALL GOSSIP

Freddie Parent, former Toronto player, is running for sheriff up in Maine and in an interview in which he tells the story of his life for the benefit of the voters he relates how he got the worst of it in organized ball. Yet Parent owes everything to the game, his fortune and his fame. But for baseball he might never have been heard of and probably wouldn't have owned a fine farm, automobile, etc. He seems to have developed into a grouch in his old days, sometimes fatal to a politician, by the way.

Charley Weegman has something else to worry about. A woman in Chicago who says she was hurt in one of the Chicago magister's movie shows has sued him for \$10,000. She probably heard he had incorporated the Cubs for a million and thought Weegman had coin to spare.

A new collegian who will join the Athletics is Otis Lawry, captain of the University of Maine team. He will join the A's in June, after school closes.

When the Pittsburg Pirates left Hot Springs Outfielder Dan Costello was left behind, seriously ill. At Wagner remains with him until he is able to travel.

Pitcher Ernie Shore of the Red Sox is 15 pounds heavier than he was last season and with this added weight has some more strength. Boston critics are now saying he has almost as much speed as Walter Johnson, but the modest Shore shakes his head. However, he has enough.

Connie Mack has refused to enter into an agreement with George Stallings to play another exhibition series in Florida next spring. After being beaten, five straight by the Havana team, Mack has concluded that the spring exhibitions are not a good thing.

Manager Bill Donovan of the Yankees originally had 45 ball players under his wing. He returned to New York from the training camp with 28. The 25 do not include the manager, Herman Schaefer, Duke Farrell and Joe Kelley.

The New York Yankees, it is stated, will hang on to Faddy Baumann, in spite of the fact that they have a surplus of infield material. Cleveland wanted him to play third base. Maybe Donovan fears that Baker or Gedeon will fall fat.

Billy Smith of the Richmond Internationals may keep George Kircher just to amuse the fans, if nothing else. Kircher is famous for his comedy stunts. He bought his own release from Nashville in order to join Richmond.

There is a well-known New England ballplayer in Montreal looking for a position on a first-class city league team. His name is George Miller, and he has been catcher for the Lowell, Mass., team of the New England League, in

Aeroplane-Like Motor Car on Market.

A small car designed for fast touring and speed controls, which in certain points of construction resembles an aeroplane, has been put on the market, says Popular Mechanics. The body is built in combination with the chassis, the whole being a single streamline shell resembling that of certain aeroplanes. The main wooden frame, laid diagonally and covered with canvas, form the body. The car is furnished by a small four-cylinder, water-cooled engine with three forward speeds transmitted by a belt drive. Steering is accomplished by means of a steel cable running over a pulley on the front axle and to an electric motor which controls a steering cylinder. The car is built in the form of a single streamline shell resembling that of certain aeroplanes. The main wooden frame, laid diagonally and covered with canvas, form the body. The car is furnished by a small four-cylinder, water-cooled engine with three forward speeds transmitted by a belt drive. SEVENTH RACE—Selling, 4-year-olds and up, one mile and one yard: 112 Mr. Mack, \$1.05, 107 Lee Travers, \$1.05, 107 Famerica, \$1.05, 107 Blue Mouse, \$1.05, 102 Miss Waters, \$1.05.

BIG CROWD EXPECTED AT WEDNESDAY'S BOUTS

Philadelphia, Buffalo and Pittsburgh Will Send Delegations to Irish Show.

Five bouts have already been arranged for the professional boxing tournament to be staged at the Arena next week by the Irish Patriotic Association. In addition to Battling Levinsky and Mike Fitzgibbon, who will box ten rounds, there will be an eight-round contest between Pete Scott, the Hamilton Indian, and Dick Peters, of New York, who recently bent Matt Wells, the champion of the Pacific coast, and the local crack featherweight, and Kild Barry, Boston feather. The latter challenged Westbury, and the local boy accepted. The two met at 125 pounds over eight rounds. Charlie Christy, the game little bantam, will also be seen in action. He meets Dickie Dundee, brother of the famous Johnny Dundee, in six-round bout. Several other contests are being arranged.

ELEMENTARY GAMES CHANGE THE STANDING

Basketball League Stages Contests That Give a New Leader.

The standing of the players was changed in the Elementary Basketball League when three games were decided. The first game was fairly even, but the combination of Scott's team was too much and he got away with a win from Harris by 7-6. The second game between McMinn and Lickers was easy for the former, whose forwards found the net Black, H. Finley, final score 12-0, the other opponents checked back hard. The final was the most exciting game, when Rodgers met Winfield's team. Both had one or two new players on the bench, Rodgers held the score even all the way. With a minute to go Rodgers' team had a goal and but Winfield found the net just before the whistle, the game ending a 12-11 tie.

Table with columns: Name, Won, Lost, Games, Score. J. McMinn 4 1 5 11, W. F. Winfield 4 1 5 11, A. T. Rodgers 4 1 5 11, J. T. Johnson 4 1 5 11, J. Lickers 4 1 5 11, H. Finley 4 1 5 11, A. Y. Rodgers 4 1 5 11, C. Levery 4 1 5 11, W. Winfield 4 1 5 11, H. Golden 4 1 5 11, A. Finley 4 1 5 11, J. Maughan 4 1 5 11, A. Potts 4 1 5 11.

MORE FREEDOM FOR COACHERS, SAYS JIM

New Leader of the Pirates Out With Some Suggestions—News and Gossip.

Altho a newcomer in the National League, Manager Callahan of the Pittsburgh Club is not averse to offering criticisms, writes David J. Davies in The Pittsburgh Dispatch. Recently he declared that the coaching rules in baseball are too strict and that they should be modified. He believes the coach should be given more leeway and that the rule which calls the player out who is touched or held by another member of his team, is a "foolish one." Said Callahan: "The coach's box at third base is too small. The runner isn't given a fair chance. Say that a speedy man like Carey is coming from second on a short hit or an infield grounder. He turns third and starts up the line for home. The coach is supposed to watch the ball for the runner. The coach can't leave the box. Suppose the fans are cheering and the runner can't hear the coach's voice calling him to go ahead or to return. What can the coach do? He can't get closer to the runner for if he leaves the box the umpire will call the runner out. This being the case, I am in favor of changing the rule so as to permit coaches to move at least half way up the line to the home plate. The box should be enlarged and the runner should be allowed to touch the plate. If these changes were made, I believe better coaching would result. The speed boys would not be so careful and would take longer chances. Umpire Hank O'Jay is also in favor of a change in the rules. He would prevent a catcher or fielder from blocking a player off a base. Hank says that when a backstop squats between the runner and the plate while the ball is

WAR DEPLETES RANKS OF CANOEISTS

ad Regattas Out of Question.

MONTREAL, April 13.—The annual regatta of the Canadian Canoe Association is now only a remote possibility. Under the present conditions the officers of the Canoe Association are likely to follow in the footsteps of the Canadian Association of Amateur Oarsmen and suspend for this season. However, this will not be decided until the annual meeting of the association, which will be held on the first Saturday in May. The regatta for this season was scheduled to have been held in Montreal, and as the local paddlers were unable to hold the Easter regatta with success, a year ago, it is hardly likely that they will endeavor to hold the annual regatta in Toronto this season owing to the number of members of the club who have enlisted and are now on active service. The same can be applied to both Ottawa and the local clubs which have furnished men for overseas service. Only one or two of the local clubs will hold club regattas this season, as a number of them have already held their annual meetings and have decided to enjoy only quiet seasons this summer. One or two of the associations will endeavor to carry on their regattas in former seasons. There will be little of importance to be dealt with at the annual meeting of the Canadian Canoe Association this season, so that the session will not be as lengthy a one as in former years.

RICORD'S SPECIFIC

Sporting Notices

Notice of any character relating to future events, where an admission fee is charged, are inserted in the advertising columns at two cents a word, with a minimum of fifty cents for each insertion. The Resumant club of the Texas League thought it was signing a pitcher named May who had played with Macon in the South Atlantic League. A player reported and showed nothing. Manager reported to Macon yesterday. He confessed he wasn't May, or not the May expected, but that the club was immediately attached. Whether the real May was in on the deal or not does not appear.

PLAYING BASEBALL IN MEXICO IS EXCITING

Chick Gandil Tells of Some Stirring Times in Land of Strife.

First Baseman Chick Gandil would like to be one of the Punston's troopers plunging into Mexico to chase Villa and his bandits. It isn't that the Cleveland boy is naturally bloodthirsty. But he has vivid memories of riots and near-riots in which he and his fellow players made things not for his back in 1907 when he first began his professional baseball career in the Mexican mining country. He also came out during the training camp in New Orleans when Dr. F. J. Schmidt of Cleveland sat on the bench with Chick at the pitcher's stand and renewed an acquaintance that dated back to Chick's days at the Cleveland and the Canadian team in the Mexican copper district. Schmidt, brother, Ray, also a Cleveland, was chemist at the Cananea mines in those days. Gandil had broken his finger just before the doctor came to visit him. Newspaper extras announced the campaign to take Villa down or add the park as the day's sport. "Remember the day you fought Mexican football winner take all?" asked Dr. Schmidt. "How could I ever forget it?" answered Chick. "Then Chick spun as follows: 'He was a great big bully weighing 235 pounds righted to Tucson, Ariz., to take the team for me if I had any hanging on to me. So when we got back to Cananea he followed us, and the manager of our team asked me if I'd go into the ring against Pete. I took him on. The second day he had a closer call than that while I was playing winter ball with Empalme, Mexico. 'A big Mexican outfielder on Hermosillo's team deliberately kept spiking me. The first time he did it I was having the best of it, but I kept pecking away at his eye, he only had one good one. Suddenly I made a jab for him and he raised his hands I sunk my right to the solar plexus with all my might. You could hear him grunt all over the ring and the referee stopped the fight in the fourth round with him hanging onto the ropes. 'The Mexican crowd was so sore they stormed me, and the soldiers had to protect me. 'But I had a closer call than that while I was playing winter ball with Empalme, Mexico. 'A big Mexican outfielder on Hermosillo's team deliberately kept spiking me. The first time he did it I was having the best of it, but I kept pecking away at his eye, he only had one good one. Suddenly I made a jab for him and he raised his hands I sunk my right to the solar plexus with all my might. You could hear him grunt all over the ring and the referee stopped the fight in the fourth round with him hanging onto the ropes. 'The Mexican crowd was so sore they stormed me, and the soldiers had to protect me. 'But I had a closer call than that while I was playing winter ball with Empalme, Mexico. 'A big Mexican outfielder on Hermosillo's team deliberately kept spiking me. The first time he did it I was having the best of it, but I kept pecking away at his eye, he only had one good one. Suddenly I made a jab for him and he raised his hands I sunk my right to the solar plexus with all my might. You could hear him grunt all over the ring and the referee stopped the fight in the fourth round with him hanging onto the ropes. 'The Mexican crowd was so sore they stormed me, and the soldiers had to protect me. 'But I had a closer call than that while I was playing winter ball with Empalme, Mexico. FIRST GREEN PEAS OF SEASON ON SALE

Arrived on Market Yesterday and Will Be Unloaded Early This Morning.

CALIFORNIA ASPARAGUS

First Straight Car Enters City - Hothouse Cucumbers Slow - Strawberries Varied.

The first straight car of California asparagus ever to enter Toronto, came in yesterday to Charles S. Simpson, and is selling at \$4.50 to \$6 per dozen large bunches, according to the market.

The first green peas for this season also came in yesterday to H. Peters, and will be unloaded first this morning.

Domestic hothouse cucumbers were a slower sale yesterday and brought from \$4 to \$5.50 per 11-quart basket.

Louisiana strawberries, packed in prices, some of them being of better quality brought \$10 to \$12 per quart box, others ranging at \$7 to \$8.

The new cabbage selling at \$2.50 to \$3 per crate is reflecting the sale of the old, which has declined to \$1.50 per bushel.

Florida cauliflower, which yesterday was selling at \$3.25 to \$3.50 per hamper, is selling at \$3.50 to \$4 per hamper.

Florida heads of splendid quality also came in, selling at \$3 per crate, containing between three and four dozen bunches.

H. Peters had a car of mixed Florida vegetables, cauliflower at \$3 to \$3.50 per hamper; celery at \$2.75 to \$3 per case; chives best at \$3 per case; red cabbage at \$2.50 per case.

White & Co. had a car of mixed vegetables, head lettuce at \$2.50 per hamper; carrot, \$3 per hamper; radishes, \$1.50 per hamper; parsley, \$1.25 per hamper; also half a car of Porto Rico pineapples, selling at \$4.75 per case, and a car of the Thomas J. Peters Florida tomatoes at \$2.50 per six-basket crate.

Charles S. Simpson had two cars of the Thomas J. Peters Florida tomatoes, selling at \$2.25 to \$2.50 per six-basket crate, and a shipment of imported hothouse cucumbers at \$2.50 to \$3 per dozen.

J. Ryan had a car of New Brunswick Delaware potatoes, selling at \$1.50 to \$2 per bushel.

Stromach & Sons had a car of Florida tomatoes, selling at \$2.25 per six-basket crate.

Wholesale Fruits - Apples - 25c to 30c per 11-quart basket; \$3.50 to \$4 per bushel; Greenings and Golden Russets, \$2.50 to \$3 per bushel; Imported, \$2.50 to \$3 per bushel; Ontario, \$1.50 to \$2 per bushel.

Bananas - 42c to 45c per bunch; Cranberries - \$1.50 per bushel; Grapefruit - \$3.50 to \$4 per case; Citrus, \$2 to \$2.50 per case.

Lemons - California, \$3 to \$3.25 per case; Mexican, \$2.75 to \$3.25 per case; Oranges - Navels, \$2 to \$4 per case; Common, \$1.25 to \$2.25 per case; Mediterranean Sweet, \$3 to \$3.25 per case.

Pineapples - Porto Rico, \$4.75 per case; Strawberries - Florida, \$4.00 per box; Louisiana, quart, \$10 to \$12 per bushel; Tomatoes - Florida, \$2 to \$3 per six-basket crate.

88 Front St. East, Toronto Correspondence Solicited.

TRADE WAS SLOW AT UNION STOCK YARDS

Price of Choice Cattle Continued Steady - Swift Company Buying Easter Quality.

Stockers and Feeders Some Commission Dealers Have Orders to Fill and Are Busy Assorting.

Receipts of live stock at the Union Stock Yards were 80 cars, 460 cattle, 1930 hogs, 48 sheep, and calves.

Notwithstanding the light run of cattle, the market was exceedingly slow, the main reason for this, we think, being that many of the drovers had paid for their cattle and did not like to part with them at values offered.

Like previous days, choice cattle sold at steady values up to \$9 for a few of the best quality, bought by Swift Canadian Commission Dealers.

Choice heavy steers of Easter quality, \$12.50 to \$13.50; medium, \$11.50 to \$12.50; good butchers, \$7.50 to \$8.50; medium butchers, \$6.50 to \$7.50; sheep, \$7 to \$7.25; good cows, \$6.25 to \$6.50; medium cows, \$5.50 to \$6.25; common cows, \$4 to \$5.50; choice bulls, \$7 to \$7.25; good bulls, \$6.50 to \$6.75; common bulls, \$5.50 to \$6.25.

Stockers and Feeders - Choice heavy steers, \$10 to \$10.50; medium, \$9 to \$9.50; good butchers, \$7.50 to \$8.50; medium butchers, \$6.50 to \$7.50; sheep, \$7 to \$7.25; good cows, \$6.25 to \$6.50; medium cows, \$5.50 to \$6.25; common cows, \$4 to \$5.50; choice bulls, \$7 to \$7.25; good bulls, \$6.50 to \$6.75; common bulls, \$5.50 to \$6.25.

Choice heavy steers of Easter quality, \$12.50 to \$13.50; medium, \$11.50 to \$12.50; good butchers, \$7.50 to \$8.50; medium butchers, \$6.50 to \$7.50; sheep, \$7 to \$7.25; good cows, \$6.25 to \$6.50; medium cows, \$5.50 to \$6.25; common cows, \$4 to \$5.50; choice bulls, \$7 to \$7.25; good bulls, \$6.50 to \$6.75; common bulls, \$5.50 to \$6.25.

Choice heavy steers of Easter quality, \$12.50 to \$13.50; medium, \$11.50 to \$12.50; good butchers, \$7.50 to \$8.50; medium butchers, \$6.50 to \$7.50; sheep, \$7 to \$7.25; good cows, \$6.25 to \$6.50; medium cows, \$5.50 to \$6.25; common cows, \$4 to \$5.50; choice bulls, \$7 to \$7.25; good bulls, \$6.50 to \$6.75; common bulls, \$5.50 to \$6.25.

Choice heavy steers of Easter quality, \$12.50 to \$13.50; medium, \$11.50 to \$12.50; good butchers, \$7.50 to \$8.50; medium butchers, \$6.50 to \$7.50; sheep, \$7 to \$7.25; good cows, \$6.25 to \$6.50; medium cows, \$5.50 to \$6.25; common cows, \$4 to \$5.50; choice bulls, \$7 to \$7.25; good bulls, \$6.50 to \$6.75; common bulls, \$5.50 to \$6.25.

ONTARIO STEEL SHOWS MEASURE OF ACTIVITY

Montreal Stock Exchange Quiet With Rallies Near Close.

MONTREAL, April 13.—After a strong opening local stocks sold off under profit-taking. In the late afternoon little buying encouraged by a slightly better tone in New York returned in a close at fair-sized rallies from the low points of the morning.

Early morning dealings were distinguished by pronounced strength in a couple of stocks. Canada Cement equalled its previous high record price, 8 1/2, and after falling back a point closed 8 1/4, above its previous high record to 4 1/2, and while the advantage was lost, the close was steady at the opening price.

Steel of Canada, at 5 1/2, at the close, showed a loss of 1/2; iron closed with a loss of 1/2 and Scotia was down one at 107.

Bonds were steady.

The company's holdings are very large, consisting of nine full claims of forty acres each, making a total of 360 acres, situated in the third concession of Jamieson Township, at the junction of the north and south branches of the Kamiskotia River.

These properties were secured in the early days of the camp and the company was organized to take them over, but owing to the death of the president, plans for development of the properties were postponed.

Enough work was done, however, to prove the value of the properties, and a large number of veins have been exposed and opened up in a number of places, and very plentiful showings of free gold were also discovered.

The new interests, composed of Boston capital, have now taken over the control of the company, and Mr. Sutcliffe is stated to have accepted the present offer. The properties are only a short distance northeast of the well-known Jamieson claims, which are so far proved to be one of the richest showings of free gold in the entire Porcupine district.

Within the limits of the large holdings of the Porcupine Independence Mines, Ltd., is located one of the best water-power now undeveloped in the Porcupine camp. This consists of a 40-foot waterfall, which is quite perfect in its section on the present shaft, to be sunk to a depth of 350 feet, where a considerable amount of prospecting will be done.

With the advent of this new Boston capital, in the Kamiskotia section, it will mean increased activity on the part of other property owners in that vicinity, and mining men are watching with a great deal of interest the development of this company in the camp during the coming summer.

Peace.

NEW YORKERS ALREADY ON THE MOVE

Bar silver was put up another notch yesterday to 63c an ounce, and for the first time there appeared to be an evidence of interest in the silver stocks.

New York operators, always keen to scent a rising market, were buyers of Cobalt stocks yesterday, although their own big exchange showed decided weakness.

Timiskaming sold up to 59; Peterson Lake to 28 and Beaver to 39 1/2. Aside from the spectacular rise in silver, which is looked for by bullion brokers, the Cobalts offer unusual dividend returns at present prices.

Among them, Peterson Lake returns 25 per cent. on cost; Timiskaming, 20 per cent.; Coniagos, 22 per cent. and Nipissing, 18 1/2 per cent.

Canadiana have tumbled over a trip to Cobalt and one house has underwritten a large amount of the treasury stock of a mine just breaking into silver ore.

While international complications will upset the markets for general securities, it will act the reverse way on money making metal.

Company stocks and New York interests can be depended upon to see this in advance.

Trading was active and broad, with sales amounting to almost 120,000 shares for the day's transactions.

Not only was the market active, but the tone was distinctly stronger; especially was this noticeable in the Cobalt issues.

The market for the past couple of months has been so narrow and lacking in public participation that the price of the white metal has advanced from around 55 to 63, and it was not until the last day or so that any perceptible difference had been made as regards the feeling toward the silver issues.

With New York beginning to foresee the danger of the Cobalt stocks and the awakening of public interest in the mining issues, local brokers are anticipating a rapid advance in the larger producing stocks to discount the higher price for silver.

It is said that pools are being formed in New York and other American cities to operate in the different silver stocks, which report would seem to be confirmed by the large amount of buying which appeared yesterday from sources across the line.

The activity and strength of the Cobalt stocks is the feature of trading. Timiskaming was in urgent demand, both locally and by New York intermediaries.

The stock opened strong at 57 and advanced to 59, closing at the top price. Seneca was also stronger. It opened at 45, sold off to 43, but rallied in the afternoon, selling up to 47 on the close.

Certain interests are said to be taking all offerings of this issue, a renewed demand for it, opening at 28 1/2 and gaining 1 1/2 points, closing at 29 1/2.

This stock is acquiring a big public following.

Among the higher priced stocks Nipissing was in some demand, selling between 72 1/2 and 77 1/2.

Beaver was active between 3 1/2 and 6 1/2 and Beaver was the most active of the group, selling up to 46 on the close.

As this stock is ex-dividend 5 per cent. this price is equivalent to 47, which is the highest Beaver has sold at for some time past.

In the Porcupine list Dome Extension recovered in the afternoon. Its reaction of the previous day. It opened steady at 28, sold up one point and closed at 29.

BUYERS MOVE AT STANDARD EXCHANGE

Record Price of Silver Beginning to Have Tangible Effect on Stocks.

The effect of the still further advance in silver to 63 was distinctly noticeable in the trading in mining stocks at the Standard Stock Exchange yesterday.

Several notable advances were made, particularly in Heaver, Timiskaming, Seneca and Peterson Lake.

Trading was active and broad, with sales amounting to almost 120,000 shares for the day's transactions.

Not only was the market active, but the tone was distinctly stronger; especially was this noticeable in the Cobalt issues.

The market for the past couple of months has been so narrow and lacking in public participation that the price of the white metal has advanced from around 55 to 63, and it was not until the last day or so that any perceptible difference had been made as regards the feeling toward the silver issues.

NEWS OF SPECIAL INTEREST TO WOMEN

OFFERS SOLUTION OF CHURCH UNION

Proposal of Owen Sound Presbytery May Solve Difficult Problem.

FAVORS AFFILIATION

Special Committee at Meeting Yesterday Votes for Amalgamation.

Organic union of the Presbyterian, Methodist and Congregational churches was again approved by a majority of seven at the meeting of the general assembly special committee yesterday afternoon at St. James' Square Presbyterian Church.

The reports of the various branches showed that the membership of the local presbyteries favored some solution of the question which would retain in the denomination the Presbyterians in the west, who had already formed local union churches, in expectation of the general amalgamation of the three churches.

Proposals from Presbyteries. A number of proposals from presbyteries were considered. Owen Sound Presbytery submitted the following as a method of solving the church union problem: "That with consent of the local presbyteries congregations of the Presbyterian Church may unite with congregations of the Methodist or Congregational churches, which in every case shall decide by majority vote of members in full communion, with which of three denominations the united congregations shall affiliate for general oversight, administration and service.

A layman proposed that the Presbyterians, Methodists and Congregationalists join in an application to the federal parliament for an act incorporating the United Church of Canada, the act to contain the following features: "Any congregation of the Presbyterian Church may, upon petition to the presbytery signed by at least two-thirds of its membership, may apply for withdrawal from the Presbyterian Church to permit uniting with members of the Methodist or Congregational churches in the same neighborhood. Upon it appearing to the presbytery that the proposed union would be generally beneficial, the prayer of the petition to be granted."

After a full discussion a motion was adopted by 19 to 12 recommending the general assembly to continue its efforts in the direction of organic union. Principal Gardner moved the adjournment, seconded by Dr. D. M. Ramsey.

After reviewing the situation at length the motion recommended that the general assembly adopt a resolution definitely committing the Presbyterian Church to organic union with the Methodists and Congregationalists at as early a date as possible after the close of the European war.

The congregations which voted against union were allowed a revote one year after the war, and to withdraw on an equitable basis if still opposed to union.

Thereafter an act be obtained from the Dominion Parliament by the Presbyterian, Methodist and Congregational churches to ratify the union of the three denominations.

That a joint committee representing the three churches have oversight of local union churches pending the consummation of union.

A minority resolution was formally placed in the hands of the secretary, for presentation also to the general assembly.

WOMEN ARE PREPARING FOR KITCHENER DAY

In the interests of Kitchener Day a meeting of the captains was held, at which Mrs. G. R. Baker, the official organizer, presided. Drawings for tickets took place, and it was decided not to spend money in drawing for prizes, those who have flags or bunting may make their car attractive. Mrs. Van-Koughnet and Mrs. Green, from the Sportsmen's Battalion, have a strong committee.

ABATTOIRS WILL HAVE TO ABATE NUISANCE

City Had a Judgment Regarding This, Says Solicitor Johnston.

When spoken to yesterday regarding Aid. Ryding's protest to the board of health regarding the smells in West Toronto, City Solicitor Johnston stated that the city had a judgment whereby the abattoirs would have to abate the nuisance. In the meantime an officer from the health department is gathering further information as to the odor. Chief Inspector Wilson said that since the judgment had been given the abattoirs had demonstrated that the trouble could be remedied. Only one complaint had been received since the judgment was given.

HARBOR IMPROVEMENTS.

At a conference between the board of control and harbor commissioners yesterday morning a decision was reached whereby the latter will spend \$100,000 in improvements. Filling will be done at Humber Bay, Queen's Wharf, Hanlan's Point, Ward's Island and the Royal Canadian Yacht Club. In addition to this \$2,000,000 will be spent in the Ashbridge's Bay industrial district.

GUELPH, April 13.—The men and women students at Ontario Agricultural College are pictured in a series of group views in this week's issue of The Toronto Sunday World, together with a number of representative men from different parts of Ontario who were visiting the college recently. The pictures, which are excellently printed, appear in the art section, and will form a fitting souvenir of a very interesting period in the lives of all those who appear in it. Copies of The Sunday World are for sale by newsdealers everywhere.

RUNNING A BETTING HOUSE.

Charged with keeping a common betting house, Thomas Gurney was up in the police court yesterday and was fined \$100 and costs of thirty days.

LENGTHEN NUMBER OF WORKING DAYS

Manufacturers and Purchasing Public Can Adjust Labor Conditions.

Seasonable unemployment, which for the most part is something we accept as a thing to be taken for granted, is gradually finding a wedge into the machinery which is subject to change, factors in the reduction of the long intervals between times, marked by the differences of work and no work.

The report of the Ontario Commission on Unemployment tells of a case of a manufacturer who gave a premium on advance orders and in this manner was enabled to do away with night work, with an increase in the hours of day employment and added efficiency in the workers.

The statement is further made that the amount paid in premiums had been more than made up in the retention of skilled workers and by the amount saved on larger runs and the elimination of night labor.

So much for the manufacturer, whose plan is evidently commendable and whom others would do well to emulate. But it is not alone the manufacturer who may aid in lengthening the number of working days in many branches of industry. The purchasing public, and women particularly, may play a large part in the role of adjuster of labor. Just now there are tailors and modistes who are, with their employees, working far into the "wee ams' hours," undermining their health for the purpose of getting out the many Easter and spring suits generally, which, for the most part, have been ordered with a rush and must consequently be made under similar conditions.

ABERDEENS TO VISIT OTTAWA EARLY IN MAY

The Marquis and Marchioness of Aberdeen will be in Ottawa early in May and will give at Government House, Lady Aberdeen comes to attend the meeting of the National Council of Women.

INTERESTING ADDRESS.

J. D. Allan gave a most interesting address on "The Russians in 'The Night of the Great Fear'" at the meeting of the Excelsior Chapter, I.O.D.E., held in the Excelsior life building, at 100 St. George street, given by Miss Mrs. Murdoch, and Mrs. Hedges contributed two vocal selections.

BRIDGE PARTY.

Fifty tables of bridge were played at the party held in the speaker's dining room, parliament buildings, and originated with Mrs. W. H. Hearst and Lady Willson, in aid of the box fund of the 7th Battalion.

From Ceylon to Canada

is a far cry. Yet the flavour of "SALADA"

is so perfectly preserved and reaches you in so short a space of time, that the fragrance of those lovely hill-top gardens is in every sealed "Salada" packet. 40¢, 50¢, 60¢, 70¢ a pound.

WAR REDUCES PROFITS OF EXPRESS COMPANIES

But Government's Grant for "Privileges" Swells Revenue Quite Materially. By a Staff Reporter. OTTAWA, April 13.—The war has taken a heavy toll out of the express companies of Canada. Last year the net operating revenue was \$88,869, as compared with \$759,000 in 1913 and \$1,222,000 in 1912. The gross revenues in 1915 were \$11,811,000, a decrease of nearly one million and a half below 1914. Operating expenses aggregated \$5,632,000, a decrease of nearly \$600,000, while express privileges totaled \$5,610,000, a decrease of \$100,000. Of course, the five and a half millions of "privileges" are payments to the railways and should also be regarded as profits.

WOMEN MAY QUIT RECRUITING LEAGUE

Many Active Members Disgusted at Farcical Meeting of Wednesday Afternoon. As a result of the farcical meeting of the Toronto Citizens' Recruiting League on Wednesday afternoon it is very probable that many women who take an active interest in the affairs of the organization will sever their connection with it. It is practically certain that the controversy regarding conscription did not end with the passing of the resolution which was presented at Ottawa today.

FEELBLE-MINDED PROBLEM

Association to Co-Operate With City Health Department. The executive committee appointed at the meeting in the city hall on Wednesday to form a Toronto branch of the Ontario Association for the care of the feeble-minded, includes, in addition to the names published yesterday, Principal Fraser and Miss Mary Skinner.

AT ACADEMY OF FINE ARTS.

The prize for the best canvas shown at the Pennsylvania Academy of Fine Arts was given by popular vote to Mrs. Marie Danforth Page of Boston, wife of a prominent physician. The subject was "The Mother" and showed a mother and her child.

CHILDREN'S DEPARTMENT IN WYCHWOOD LIBRARY

Army of Pupils From District Schools Invaded New Institution Yesterday.

THE FIRST IN CANADA

Money for the Building Was Provided by the Carnegie Corporation.

Altho the official opening of the beautiful new Wychwood Public Library is not to be held till Saturday evening, one department at least has been invaded by a great army—the younger generation of Wychwood district has taken full possession of the big, bright room, to be known as the children's domain. Yesterday afternoon at 3:30 the tiny tots, 10, 15, 20, 25, 30, 35, 40, 45, 50, 55, 60, 65, 70, 75, 80, 85, 90, 95, 100, another hundred children arrived, and an hour later the third and most advanced class.

Distributed Cards. Through an arrangement with the principals of the one separate and two public schools in the district, the cards, admitting the little people to the "story hours" were distributed at the schools, while the older children applied at the library. The applicants were away up in the hundreds, so eager were the juvenile "book worms" to get a glimpse of the lovely new building and their room especially. The library is built after the style of Edward VI., and the children's room is reached by a separate entrance. It is 32 feet by 40, has any amount of window space and the walls are lined with a wonderful of splendid books, while the children's benches and tables, palms for decoration, and above all, the lovely big fireplace, around which the children gather, true to the fashion after Kipling's heart.

COMPETENT CRITICS.

Artists who have spent a lifetime in the study of music should be competent critics of the qualities of a piano and their word should be worth considering. When such world famous artists as Tetrassini, Ruffo, the Cherniavskis, Cecil Fanning, Nordica, and a host of other use and endorse the piano made by Ye Olde Firm of Hainsman & Co., Limited, 128, 129 and 129 1/2 Yonge street, it certainly is a high compliment to that piano.

RUNNEYMED LODGE SOCIAL.

Runnymede L.O.L., 1897, held a social evening in Cook's Hall last night. One hundred and twenty-five members were present. Past President F. H. Watson occupied the chair, while the program was being carried out.

WOMEN'S AUXILIARY.

The Women's Auxiliary of the 84th Battalion held a successful business meeting in the school room of St. Simon's Parish, Thursday afternoon. Many members and friends were present.

ADDRESS SOCIETY ON WOMEN OF INDIA

Last night at the "Friends Meeting House" on Maitland street, Miss K. Bombay, India, gave an address on the "Women of India." Among the things mentioned was the fact that the Indian women occupy responsible positions in society. There are schools and colleges for girls in various parts of India, and many ladies occupy positions of distinction and carry on vast enterprises in their own names.

Dancing Contest Tonight

Much interest has been aroused in the dancing contests being held every Friday night at the cabaret of the Cafe Royal. The competition tonight will be exceptionally keen when the fox trot will be contested, the winning lady to receive a gold wrist watch and the gentleman a five dollar bill. Among those at the cabaret Wednesday night were Miss Anna Held and other leading actresses from local theatres.

CITY HALL NOTES

Officers and men of the 22nd Highlanders Battalion held their picture taken in front of the main entrance to the city hall yesterday.

The city treasurer was yesterday instructed by the board of control to issue to the battalions the amounts of the grants passed recently by the city council, the total of which is \$7250.

The Etina Life Insurance Company yesterday paid over to the city treasurer \$1100, being the insurance on Pte. W. A. Richards of the 17th Battalion, who was killed in action. A brother, Sergt. P. A. Richards of the 8th Battalion, is taking an officer's course and expects to go overseas with the Sportsmen's Battalion.

Brig-Gen. Logie's request that the troops now stationed in Toronto schools be granted yesterday afternoon at the meeting of the property committee of the board of education. After a little discussion it was decided that the committee should make the usual visits to the schools regarding mismanagement immediately after the Easter vacation.

City Architect Pease has granted the following building permits: Col. W. St. Laug of the school of instruction to build a brick addition to his residence at 577 Huron street, at a cost of \$1000; The Ontario Telephone and Supply Company, to erect a supply station at 1375 West Queen street, subject to the sanction of the property committee. The building is to cost \$750.

Boon Avenue Baptist Church has taken out a permit for the construction of a basement under the present building. The same to cost \$3000. Other permits issued: H. T. Wood, a pair of brick dwellings on Ashwood avenue, costing \$8000; Gurney Foundry Company, brick building on Junction road, \$2500; A. Edmondson, dwelling on Thorne crescent, \$3500.

MAN IS AS OLD AS HIS ARTERIES

THE failure of the arteries is one of the tragedies of modern life. Men in the very prime of life, and in the midst of business activities, are suddenly cut off. In many cases the blow comes before they realize their condition.

And what is the cause? Most usually overeating and drinking, combined with too little bodily exercise. The blood becomes overloaded with poisons. The kidneys break down in an effort to filter the blood, degeneration of the arteries takes place, an artery in the brain bursts, a clot is formed and paralysis results. Or it may be an artery in the heart that gives way and causes heart failure.

And how is this condition to be avoided? By moderation in eating and drinking, and by keeping the liver, kidneys and bowels regular and active. If you do not get sufficient exercise to accomplish this, it is necessary to use such treatment as Dr. Chase's Kidney-Liver Pills. It is only by the action of these organs that the blood can be purified and the poisons removed from the system. In using

Dr. Chase's Kidney-Liver Pills

you are not making any experiment, for they have no equal as a means of awakening the liver, kidneys and bowels to healthful activity. They prevent such serious troubles as hardening of the arteries, and thereby promote comfort and health and prolong life.

One pill a dose. 25 cents a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations disappoint.

Dr. Chase's Recipe Book, 1,000 selected recipes, sent free if you mention this paper.

LITTLE THINGS COUNT

Even in a match you should consider the "little things"—the wood, the composition, the strikeability, the flame.

EDDY'S MATCHES

are made of strong, dry pine stems, with a secret perfected composition that guarantees "every match a lighter." Sixty-five years of knowing how—that's the reason.
