Italy To Occupy The Territory She Claims

Sections That Are Named In Treaty of London

Hundred Thousand Men to Dalmatia; Similar Number to Fiume; Fighting Announcement by Member of Orlando's Staff; Italian King and Press Back up Demands; Premier Postpones Departure Till Tonight; Hint at Separate Peace With Germany

Paris, April 24—Italian military forces will occupy that part of Dalmatia and other Adriatic territory named in the treaty of London with about 100,000 men, it was said today by Captain Pozzi, of Premier Orlando's staff. A similar force, he added, would be sent to the northern region and around Fiume.

Premier Orlando's course, in the meantime, Capt. Pozzi says, would be to convene parliament in special session and secure from that body the passage of a measure providing for the annexation of the Dalmatian and other eastern Adriatic territory given to Italy by the London agreement, and also of Fiume.

Reports have been received, the captain said, that a military demonstration by the Jugo-Slavs at Spalato was contemplated, in which event the Italians would take proper counter measures.

Paris, April 24—V. Orlando, Italian premier, issued a lengthy statement today replying to President Wilson. He stated in so many words that he is compelled to withdraw from the peace conference after President Wilson's action, which is regarded as a departure from diplomatic customs and leaves the Italians in no other course.

LLOYD GEORGE AND CLEMENCEAU BACK WILSON
Paris, April 24—(By the Associated Press)—It is said that Premier Lloyd George and Clemenceau have approved of President Wilson's statement which he made in the House of Commons today and described it as "admirable" and has said "I would not change a word."

LEAVE INTERESTS WITH ALLIES
SAYS ORLANDO
Paris, April 24—(Havas Agency)—Premier Orlando of Italy reiterated this morning that he would leave Paris today for Rome, but that he would not leave until the afternoon. He added, however, "we do not break with our allies, but hand over our interests to their hands, trusting they will loyally fulfill their mission."

The other members of the Italian delegation may remain in Paris a few days longer. The Echo de Paris today expressed the belief that because of President Wilson's "direct appeal to the Italian people" Great Britain and France will be brought to make known the viewpoint of their representatives in the Italian dispute. The same newspaper gives the opinion that the dispute will not lead to delay in the opening of the negotiations at Versailles.

The Paris newspapers as a whole declare that the situation must not be permitted to develop any irretrievable steps in the wrong direction. They recognize the seriousness of the incident, but do not express the hope that an acceptable compromise will soon be reached.

Feeling in Rome
Rome, April 24—(Havas Agency)—Addressing a throng, Prince Colonna, mayor of Rome, asserted that Italy's right to demand the fruits of her victory "would not have to be compromised by hypothetical combinations" promised by hypocritical combinations.

The Rome newspapers are unanimous in declaring that the Italian programme as set forth by its delegation is not representative of the minimum demands compatible with the dignity and safety of Italy.

D'Annunzio Warlike
Rome, April 24—(By the Associated Press)—The Italian press as a whole considers that the withdrawal of the Italian delegation from the peace conference is inevitable if Italy's aspirations are not recognized. Should this be the case, it is recognized in political circles that Premier Orlando and Foreign Minister Sonnino will return and offer their resignations to parliament, and that they will be confirmed in the tenure of their office by all parties, inside and outside of parliament, with a mandate to uphold what is considered Italy's rights with complete unity and by all means.

The idea Nazarene and other newspapers point out the similarity of Italy's situation in Paris to that of Japan, which they say, also may be obliged to leave the conference if her claims are rejected.

LONDON STIRRED AS WILSON GIVES DEFINITE "NO" TO THE ITALIANS

"Thunderbolt," "Bombshell" and "Appeal to Caesar," Say Newspapers

DRASTIC DEVELOPMENT
One Sees Peace Risked, Another Says it Puts League of Nations in Danger—All Agree That a Grave Crisis Has Been Created

London, April 24—"A thunderbolt," "a bombshell," "an appeal to Caesar" and other descriptive expressions are used by this morning's newspapers in connection with President Wilson's declaration on the Italian situation.

The president's step is treated as a drastic development at the peace conference by most of the journals. Apparently balked temporarily by astonishment, some newspapers refrain from making any comment.

Everywhere Mr. Wilson's action is regarded as having created a most serious situation, the unfolding of which will be watched with anxious interest. Such editorials as appear were manifestly written with an eye to Italy's possible withdrawal from the conference, though Premier Orlando's announcement of his decision to quit Paris had not yet reached London when the papers were published.

Opinions on Mr. Wilson's statement and its attitude vary. One view is that it is a "strong step" and a "momentous innovation." The editorial takes a sympathetic attitude toward Italy's position, although it is admitted the issue is one upon which opinions can be honestly held.

"Mr. Wilson's appeal from the diplomatic Italy to the general public," says the newspaper, "may at first sight commend itself as consonant with democratic statesmanship."

Premier Orlando's claims are recognized, then there is an end to the principle of self-determination everywhere.

The Express declares the situation is very serious, and that the conference will be dissolved. It says that the British to unitedly support Premier Lloyd George as the nation's representative.

Phelix and Ferdinand
The Italian delegates, hoping to see the Italian problem adjusted amicably, he continued, "might have taken some other decision than ceasing to collaborate in the labors of the conference, had this statement not been issued."

The premier added that he would address a message to the Italian people, he said, "will express themselves."

Following the publication of Mr. Wilson's note on the Adriatic question, newspaper men flocked to the Hotel Quatre, where the Italian delegation makes its headquarters.

In the saloon reserved for Italian newspaper men, Premier Orlando received the correspondents. He recalled to them the fact that Italy had consented to all possible concessions regarding the Dalmatian hinterland and added that he had received that morning from Great Britain, France and the United States a reply recognizing the rights of Italy over the Italian cities of Dalmatia, but refusing to give recognition to Italian claims on Fiume, which would become a free city without mandatory administration by any power.

Peace 60 Days After The Treaty Is Signed

Paris, April 24—(By the Associated Press)—A clause has been drafted for insertion in the peace treaty fixing the date for the transition to a state of peace sixty days after the signing of the treaty. If the treaty is signed about May 15, peace thus will become effective throughout the world on July 15.

Daylight Time in the Market—Lancaster Plan and Housing Matters—Gilbert's Lane Problem

Housing problems today occupied the attention of the city council, in connection with several matters. The most important action taken today was the approval of the sub-division plan for the city lands in Lancaster, as a preliminary step towards putting the lots on the market.

The old matter of a street paving policy again came up, with the petition for approval of the plan for the local improvement act in four streets were accepted. This led to a general discussion of street matters and Mr. Fisher offered a policy for consideration but no action was taken.

For the first time since the opening of the council chamber, the council was held in session for a long time.

SEASIDE CARS ARE TO BE RUN THIS SUMMER
The New Brunswick Power Company has decided that Seaside Park will be opened for use of the public with regular summer street car service this year.

It was said at company headquarters that the conference will be held in the city again this year but they are resuming the car service in response to public demand and a desire to aid the city residents in securing access to this attractive breathing spot.

BOLSHEVIKI DRIVEN FROM KIEV; ALSO LOSE IN SIBERIA
Vienna, April 24—(By the Associated Press)—The Bolsheviks have been driven out of Kiev, capital of the Ukraine, by a revolutionary Ukrainian force friendly to Simon Petliura, Ukrainian leader.

London, April 24—A war office communication says that from information received from the Russian forces on the Petchora River it has been learned that the Russians in conjunction with Siberians, have cleared the Bolshevik front area west of Isha and that the Bolsheviks are retreating to the upper reaches of the Ishma River, taking horses and some of the male inhabitants with them.

The statement adds that the Siberians are being joined everywhere by the local inhabitants and that the Siberian commander has been met by a British mission from Archangel.

MAJ. WEYMAN'S PLEA FOR YOUNG SOLDIER AT RHYL IN RIOT TRIAL

Court Martial in Case of Acting Corporal G. A. McLeod, Who Joined Army at 18—Criticizes Sergeant's Evidence

At the Kinnel Camp court-martial yesterday, Col. C. M. Nelles presided, and the court proceeded with the trial of Acting Corporal George Alexander McLeod.

Captain R. A. Blayden, adjutant of the Fort Garry House, testified to the excellent character of the accused. He corroborated previous evidence that the accused assisted the colonel to protect the canteen against the rioters.

Major Weyman (of St. John) for the defence, submitted that witnesses for the prosecution were mistaken in claiming to identify the accused as having participated in the riot. He contended that the evidence of the chief witness, a sergeant, was not entirely trustworthy inasmuch as he was rightly biased in favor of the prosecution.

Major Weyman declared that the accused could have done no good by trying to stop the riot. He was acting fairly and reasonably and in accordance with his duties as a soldier by trying to keep out of it.

Report of Commission on Responsibility For the War is Published in Paris

Paris, April 24—The Temps publishes the report of the commission on responsibility for the war. It contains four chapters. The first reviews the history of the origin of the war and formally concludes that Germany and Austria-Hungary were responsible.

The third chapter declares that all persons belonging to enemy countries, however high their station, may be objects of judicial prosecution. The fourth demands the constitution of a high tribunal to judge crimes committed during the war, without, however, excluding competent tribunals of the different nations from setting in cases not coming under the jurisdiction of national courts.

STRIKE HOLDS THE BALTIC WITH OUR SOLDIERS AT LIVERPOOL

Married Soldiers Load Baggage on Metagama and She Sails—500 Wives, 200 Children and 50 Infants on Board—Tunisian Bringing Munition Workers

London, April 24—(Canadian Associated Press)—Some first division troops ready to sail for Canada must remain in England owing to a dock workers' strike at Liverpool which held up the departure of the White Star liner Metagama upon which they were to make the trip.

A singular incident marked the departure of the Metagama from Liverpool for Quebec yesterday with 500 wives, 200 children and fifty babies and husbands and fathers from Burton. The strikers threatened to hold up the sailing of the ship by refusing to put the baggage on board. Arrangements were quickly made for a fatigue party among the married soldiers to get the baggage of the wives and children on board.

It was safely stowed away without loss of time, many on the ship being unaware of how near cancelled altogether. The strike was absolutely unauthorized and is not likely to last long. Seven thousand men refused to work yesterday.

Brigadier-General Hall and Colonel A. B. Eves and G. S. Rennie are aboard the Metagama.

The Tunisian will sail from here on Friday and will be almost wholly filled with munition workers.

WILSON AND ITALY.

President Wilson has again taken the centre of the stage. He has politely but firmly informed Italy that the United States cannot support her claim to the port of Fiume, on the eastern shore of the Adriatic.

Fiume is the natural trade outlet of new states being carved out of the old Austro-Hungarian empire. Since that empire is dissolved and can no longer be a menace to Italy, President Wilson holds there is no ground for the Italian claims, and the Associated Press today says it is learned that under the treaty of London, formed before Italy entered the war, Fiume was to go to Croatia.

It is quite easy to realize the feelings of the Italians toward their ancient foe, Austria, and their desire to make them secure against future invasion, but, as President Wilson points out, the whole map is changed and there are new states to be brought into a league of nations. They have a right to fair consideration, and the American president is unable to see why Italy should pursue a grasping policy rather than one of friendly conciliation.

Italy will hardly go the length of breaking off negotiations. One of the things for which President Wilson contends is that there shall be no more secret treaties. It is that which is agreed to there will be fewer awkward complications in the future. Meanwhile Italy will be well-advised not to push her territorial ambitions too far. We may assume that France and Britain are not averse to the attitude of President Wilson.

AMERICAN BOLSHEVISTS.

There is a radical section of the Socialist party in the United States which proposes to substitute "mass action" for political or legislative reform. In other words, it sympathizes with the methods of the Russian Bolshevists and German Spartacists. There are 3,500 active members of this wing of the party in Cleveland, Ohio, and they recently nominated C. E. Ruthenberg, their leader, for mayor of the city. In an interview he said:

"The indorsement of the left wing programme means the repudiation of all purely political or legislative reform and the substitution of mass action by the workers. This means that we will hereafter cease to participate in election campaigns for the immediate purpose of effecting social reforms, but will use political action only as an educational weapon. As set forth in our official programme, political action, revolutionary and emphasizing the implacable character of the class struggle, has now overthrown the old idea of attempting to carry out various local reforms such as better housing or municipal ownership of street car lines. For this, we have substituted the industrial revolution as the only means of overcoming the capitalist state. Our programme provides that the party must 'teach, propagate and agitate exclusively for the overthrow of capitalism and the establishment of socialism through a proletarian dictatorship.' I do not consider my nomination for mayor as being the important part of the programme adopted. Our campaign will be for the purpose of education and to carry on the general propaganda for the organization of workers in the industries through shop organizations and shop committees, which will eventually take control of industry and establish industrial democracy. It is the mass action that will count in the future warfare against the capitalist state."

All this must be very interesting reading for the American people, the more so that there are branches or locals of this Bolshevist wing of the Socialist party in many cities. They stand for "warfare," and not for conciliation. They would disrupt the social fabric and establish "a proletarian dictatorship," of the merits of which Russia affords ample evidence. Such doctrines as theirs will not appeal to the great mass of the people of the United States.

Only yesterday, in Paris, Hjalmar Branting, the Swedish Socialist leader, warned the Socialists of France against Bolshevism and its "proletarian dictatorship," declaring that Soviet government meant misery and famine. He further declared that under it democracy could not be developed. It is the other extreme of Prussianism.

Will St. John have a clean-up week? There are special reasons after a comparatively mild winter for a thorough cleaning of yards, alleys, houses and streets, in order that the plague of flies may not begin early and stay late, and that the destruction of germs may be accomplished before their busy season opens. It is perhaps too much to expect that there will be any large or general use of paint at present cost, but there is nothing to prevent a general cleaning campaign, which is in the interest of public health.

A vigorous and well-fed Roumanian army will do more than anything else to bring the Hungarians to their senses. Their experiment in Bolshevism is not doing them any good.

HERE'S ANOTHER EXAMPLE.

It will interest New Brunswick readers, who have learned of the coming conference in this city to form a province-wide organization to boost the province, that our neighbors in Maine are getting together for a similar purpose. The Bangor Commercial says:—

"Co-operation to the point of making Maine a bigger, better, more progressive, more enterprising and more successful state, agriculturally, commercially and financially, was the keynote of a meeting held Friday evening at the Congress Square hotel, Portland, when the newspaper men of the entire state were the guests of the State Agricultural and Industrial League. The meeting was arranged as a get-together conference, with the idea of asking the co-operation of the state of Maine in the effort to place the old Pine Tree state in its rightful place among the other states of the Union."

The Commercial report says that Mr. Willis B. Hall called attention to the fact that within 500 miles of Portland 25,000,000 people make their homes, yet these people are transporting supplies that Maine can furnish from a distance ranging from 1,000 to 1,500 miles. Mr. Charles H. White noted the fact that last year a million pounds of pork was imported into the state, when it was possible for this product to be raised at home. He also touched on the subjects of timber, hay, corn, seed potatoes and the like and gave substantial reasons for large enterprise in each of these lines. Mr. Charles F. Taylor of New York, is thus reported:—

"Maine, he said, has been standing still while other states have been going ahead. Where this state had, once a quarter of the population of New England it now had about a tenth. The boys are going away from the state and the trouble was that we were losing at the top, the educated boys and the enterprising boys being the ones to leave. On this account Maine was gradually losing its leadership in men for which it was once famous. Then he took the affirmative side showing how Maine raised corn, wheat, oats and other grains more profitably than other states. The highest profit per acre in the best of the Middle West states he said was \$2.40, while in Maine the average was \$41. Maine had great water powers going to waste. Moreover, he could live more cheaply in New York than in Maine, and the reason was that Maine imported so much of the food-stuffs she should raise herself."

Mr. Taylor's remedy was for the people to get together and to learn the large way of handling business from production to marketing, cutting out the economic waste that now prevails. This is sound advice. Let us hope the get-together movement in New Brunswick will break down all barriers of local prejudice and stir all the people with a common enthusiasm for the upbuilding of the province.

The Standard appears to think that the Foster government needs a book-keeper. It may be so. Premier Foster and his colleagues show a lamentable lack of ability to cook the public accounts as was done in the patriotic potato case; and they have never been able to find a man who could go out among the lumbermen with a notebook and pencil and add \$100,000 to the party fund. Neither have they ever been so sure of themselves as financiers that they could toss twenty-thousand dollar packages carelessly around, or pick up \$32,000 over-night. In short, they have much to learn from the friends of the Standard in matters relating to high finance.

The west wants tariff reduction, and will be satisfied with no half measures. The Grain Growers' Guide says:—"There is an earnest hope all over these prairie provinces that the western members will not be satisfied to continue their support of the government unless there is a real, genuine reduction of the tariff when the budget is announced by the finance minister. There is an absolutely overwhelming demand for tariff reduction in these three provinces. Never was the feeling so strong since the first settlement of the west. Party alliance has been laid aside, and with one mind the western farmers are demanding freedom from the oppression which the protective tariff places upon them."

A bill to establish vocational schools in all school districts in Michigan having more than 30 pupils has passed both houses of the Michigan legislature. And in St. John we are still waiting for the appointment of that vocational training board—for a city with thousands of pupils.

BACK TO OLD TIME AGAIN. Imperial Theatre goes back to the old Standard time when it resumes its pictures tomorrow and will remain so while the general confusion lasts over the mixed time, excepting when traveling companies are playing in the theatre off and on.

THAT MINORITY REPORT

Some Observations in an Incident of Closing Hours in the Legislature

(Fredericton Mall) Had the legislature taken any other course than it adopted on Thursday night in regard to the so-called "minority report" of the Public Accounts Committee, which B. Frank Smith and those allied with him, endeavored to have placed on the records, it would have made itself ridiculous for all time to come.

The action of Speaker Hetherington in ruling out Mr. Smith's motion was in accordance with the rules of parliament, and even if such were not the case the average layman will readily concede that his decision was based on common sense, his decision in keeping with the dignity of the legislature and manifestly in the public interest. I imagine conceive of such an exhibition of colossal nerve as was disclosed by the spectacle of B. Frank Smith standing up in the legislature and on behalf of himself and those other eminent purists, J. K. Pinder and George B. Jones, finding fault with the system of accounting employed by the controller general, and accusing the controller of following loose business methods. It was not worth wonder that Mr. Dexter earlier in the day, knowing what his friend, Mr. Smith, had planned to stage in the evening, was moved to expatiate on the masterpieces of Gilbert and Sullivan in the comic opera line. Indeed, "Pinafore" and the "Pirates of Penzance," cited by the ex-attorney general would have been knocked completely over the ropes and off the stage had Pinder and the Patriotic Potato pirates been given an opportunity to put on their little stunts during the closing hours of the legislative session. That they did not get the opportunity was due to the alertness of that veteran parliamentarian, Hon. C. W. Robinson, who called attention to the irregularity of the proceeding.

Nuxated Iron is easily assimilated and does not blacken nor injure the teeth nor upset the stomach. They are methods which the people of the province do not want to see practiced in connection with the conduct of public affairs, so the legislature on that ground alone was fully justified in giving their proposals a short committee's report as signed by the chairman and a majority of the members of the committee.

The financial methods which Messrs. Smith, Pinder and Jones are known to favor were practiced by the old government to the great detriment of the province. The present government pledged itself to do business on different lines and is honestly endeavoring to carry out that pledge in the interests of the province.

DON'T WANT THEM EVEN AS A GIFT

Attitude of Australians Respecting German Colonies—Against Annexation

Sydney, Australia, April 24—Public opinion in Australia, as expressed by some of the newspapers of Sydney and Melbourne, is represented as opposing the idea that Australia wants to annex the former German islands of the South Pacific. They point out that there has been a misapprehension in Paris and elsewhere as to the attitude of Australians on this point. For example, the Melbourne Age says: "An unhappy and untrue picture of Australia is being drawn by the peace conference. We are represented as demanding German territory as payment for our services in the war. A wrong impression may very well be due to misrepresentation of Australian opinion. Mr. Hughes (premier) appears to have given the unfortunate impression that Australia wants to annex the Pacific Islands. The only datum he can have is the resolution passed by both houses of parliament in November last, declaring that the captured German colonies must not be handed back to Germany, and that Australia should be consulted over their disposition. This is a very plain thing from a claim for annexation. We want, in fact, to have as little responsibility for them as is consistent with our safety. It would be calamity if they were given to Australia as a gift. Australia is not in a position to manage an empire in the Pacific. We have already far more territory than we can populate and develop."
The Sydney Daily Telegraph also discredits any desire by Australia to "retain a little empire" of her own. "What would have suited us best would have been the assumption of control in the Pacific by Britain herself," says the Telegraph. "Or even by America, if America had seen her way clear to stretch her arms and anti-imperial policy. Most Australians, if they had been consulted, would have preferred not to take them (the former German possessions near Australia) at all if security could be obtained in any other way."
The Melbourne Argus declares that, since the whole Australian people were united in the determination that the islands should not go back to Germany, Australia cannot shirk the duty of accepting a mandate for the language of the nations, but it adds that the "burden will be heavy, the responsibilities great, the cost severe and the return, except in respect, problematical."

GERMAN U-BOAT REACHES NEW YORK

New York, April 23—Unheralded and with no ceremony the first German submarine to reach the American seaboard since the armistice was signed passed Sandy Hook on last Saturday night with the Stars and Stripes flying above the German naval ensign. Without stopping except to signal the guardship Amphitrite at Quarantine, the undersea boat, which bore the number as U-111, went to the Navy Yard and was comfortably berthed at 8:30 p. m.
According to Lieut. Commander Daubin the U-111 is a boat of 850 tons, 280 feet long and 25 feet beam, constructed on the same lines as the U-33 which visited Newport in October, 1918, and sank six ships the day after she left that port.
The U-111 has two five-inch guns and machine guns on deck, with wire and net-cutting appliances and torpedo tubes and all apparatus and machinery complete as she was turned over to the British Navy after the signing of the armistice.
"We left Plymouth alone on April 3," the commander said, "and have had a fine trip except for a short spell of bad weather in mid-ocean. The U-111 has proved to be a very steady boat and has not given any trouble. We are bound for Portland, Maine, to assist in the Victory Loan campaign and put into New York for fuel and to await orders from the Navy Department to proceed.
The commander added that the crew consisted of four officers and thirty men. The trip occupied sixteen days from Plymouth to Sandy Hook, at an average speed of twelve to thirteen knots. She could travel eighteen knots on the surface, but that would cut up too much fuel.
When asked about the other German submarines that had left England for the United States, the officers of the U-111 said they knew nothing about their movements.

The Shame of America

Four million American-born children never learned to read and write

What kind of an education is YOUR child getting?

Hundreds of shell-less, singing the Marseillaise, the little French children, all through the war, went daily to their schools.

THINK of it—700,000 men in our first army draft who could not read or write! Four million Americans in the country today who are illiterate! Grown-up men and women in every state in the Union—not newly arrived foreigners; but native-born Americans!—who cannot read a newspaper!—cannot write a letter!—cannot even read the safety signs in the streets or factories! Hundreds of thousands—millions of children today who are getting no education whatever! You—the women of the country—is this America's great free school system of which you are so proud? The helpless children—have you forgotten them under the press and strain of war?

Is America to lag behind England and France?

Do you realize that America is behind England in the education of its children—behind France—behind Sweden? That educationally we are becoming a second-class power?

While these countries are lengthening the school age, thousands of our children under 14 are being thrown into the mills and factories. At the very moment when our Supreme Court was deciding that the Federal Government could not act to pre-

vent child labor, England was totally prohibiting the employment in industry of all children of school age.

America is rich enough to give its children as good an education as any nation in the world. And yet—

Not only are thousands upon thousands of American children growing up illiterate—blind to every kind of print or writing—

But—

The great bulk of American children in school right now—today—are getting an education that is miserably inadequate.

Are 20 million mothers sleeping?

Are America's twenty million mothers asleep? Who is responsible for the children of the country if not the mothers of the country?

Rheta Childé Dorr, in her stirring article, "The Shame of America" sounds the clarion call to every mother, every father, every educator in the country. She tears the veil aside and reveals the face of our educational system that does not educate. She goes further than mere criticism. She shows the remedy.

Read this great constructive article in the May number of Pictorial Review.

Hundreds of our grown-up soldiers were illiterate, and had to be taught their letters behind the battle-line.

Do you know that—

For years there have been country schools throughout the West in which the English language was barred out?

Many of our public school teachers can hardly make themselves understood in English?

Thousands of teachers are leaving the schools to enter other professions? In New York City alone 32,057 children of school age are receiving no instruction?

Do you know that—
100,000 of our public school teachers are only 19 years old?
50,000 of them are without high school education?
The salary of a graduate teacher is no more than that of a milliner's apprentice while she is learning her trade?
The minimum wage for a teacher in New York City is \$20 less than the minimum wage of a city establishment?

Does Every Woman Want a Master?

IS IT true that most women like to be bossed by a man? That they don't want to be taken too seriously? That it flatters them to have a man order their lives for them, tell them what they should eat, wear,

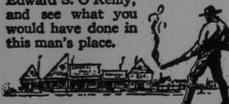

read, think and know? Or is a lot of this a tradition that has been made and kept up by romantic novelists and by the kind of men who like to bully their wives?

READ "A Fair Field in Sex" by ex-State Senator Helen Ring Robinson in this number of Pictorial Review. It is daring—stimulating—provocative. It will awaken self-questioning in every woman's mind—it is a witty challenge to every man. The first article in a delightful new series, "What the Women Want."

FIVE SPLENDID SHORT STORIES

Would you commit a crime to save a friend?

When it came to the test, how far would you go for your best friend? Lend him money—get him a job—stand by him when he is down-and-out, yes. But would you go out and commit a crime, if—well, read "A Double-Barrelled Friendship" by Edward S. O'Reilly, and see what you would have done in this man's place.

Love-making based on efficiency methods

Blunderingly, with hopeless inefficiency, the average man makes love. But this man was an exception. Read how with brilliant business acumen he attacked the complex problems that every lover must face. "Pleasure and Business Mixed" is one of Clarence Budington Kelland's most delightful stories.

With the shadow of Flanders in his eyes—

And his empty sleeve—he wasn't the same gay, splendid lad she had sent away to France. Life would never be the same again for either of them. And yet—wasn't that wonderful thing he brought back worth the price? This thrilling, moving story, "What They Brought Out," by Norma Patterson, will grip your heart. It is one of the really great stories that has come out of the war.

A girl doesn't have to be pretty—

With her thin little face, her big wistful gray eyes, no one would have looked twice at her. And yet—do you think life couldn't have thrilling, wonderful adventures in store for her? Read "Love's Labor" by Agnes Mary Brownell—one of those unexpected romances that lie in wait for people just around the corner.

What was the secret she hid from him?

The dancer on the beach, with her sea-blue eyes, her light, laughter-loving nature—what was the secret she was strong enough to hide, even while they were facing death together? Rosa Mundi is a wonderful picture of a woman, in the grip of a strong feeling. Ethel M. Dell has written here one of the finest love stories of the year.

Four Full-page Pictures in Full Colors

"The Fight in the Argonne Forest." Tangled undergrowth as high as a man's head. Machine guns raining down fire from the tops of trees. It was a death trap—yet our men pushed on. Here the Lost Battalion—cut off—held against overwhelming odds. Painted by Charles S. Chapman.

"The Charge at Sedan." Our boys in action—driving the Germans back with that dash and valor that turned the tide of war at Chateau-Thierry, and gave new hope to the Allies. Painted by J. Scott Williams.

"News From Home." His mother—his wife—his little son—he never knew what their letters could mean until, in some French village 3,000 miles overseas, he waited anxiously while the mail was handed around. The moving, human side of war. Painted by S. J. Woolf.

"The Attack on the Base Hospital." The roof in flames. Wounded men who themselves could hardly walk, struggling to drag out their helpless comrades. The Red Cross nurses working on under fire. F. Luis Mora has painted here a great dramatic picture.

All these pictures in full color and ready for framing are included in Pictorial Review for May.

Are You Getting Enough Out of Life?

YOU—the woman shut up in a little city apartment, nursing your babies and struggling with the high cost of living; you—the woman fighting for a livelihood; you—the woman smothered under wealth and conventional surroundings—do you feel that life is as interesting, as worth while, as full of freedom and opportunity as it should be?

How can you get more out of life? In a remarkable special article in the May Pictorial Review, Ida Clyde Clarke opens a great new horizon for American women.

SAYS ST. JOHN MAN WAS SHOT AND PUT UNDER ARREST AT RHYL

Moncton Comrade Mentions Private Walsh and Says He Had Nothing to do With the Trouble

(Moncton Transcript)
That mismanagement and a certain delay in discharging duties at Argyle House and in the camps by those in charge contributed steadily towards the discontent in the various Canadian camps in England is now seemingly without question.
A Moncton discharged soldier, who gives his name as evidence of his good faith in the statements which he makes, writes to the Transcript the following letter:
"Editor Transcript—Allow me space to give to the public a few real facts about the Rhyll Camp trouble, as I was in that camp about three weeks before the smashing up of the camp took place. On March 3 this year I left the camp for London on escort duty and returned to the camp from London with two prisoners on March 4 at 12 p. m. I was not relieved of my prisoners until about 3 a. m. on the 6th, as we could not get an officer to sign for the delivery of the prisoners, as the trouble was going on at that time. After delivering the prisoners I returned to No. 22 hut, No. 7 district, and all the men in No. 22 hut were asleep and knew nothing of the trouble in the camp until I informed them of it. On that day, March 5, Pte. Walsh, who had slept next to me, was shot and taken to the hospital, under arrest. He was in the hut when I arrived back from London and in bed asleep. The day he got shot he was in the hut about ten minutes before he was shot and he had nothing to do with the trouble. When the firing began he, like many more men, rushed out to the other lines and was shot and is still a prisoner. So far as I can learn this man Walsh belongs to St. John and served four years in France."
"So hoping this matter will be looked

into by the military authorities, I will sign myself,
"GEORGE PROCTOR,
"214 Church St.,
"Discharged soldier No. 882471."
Moncton, N. B., April 21, 1919.
This testimony is important and the provincial government should have the statement taken from this soldier and used for the protection of the New Brunswick soldier whom he believes to be wronged.
In an interview some days ago Corp. Stone, who was also at Rhyll Camp, made the statement to the Transcript that one of the New Brunswick soldiers had been wrongfully arrested and was perfectly innocent.

Cocoon Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.
Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulitised cocoon oil (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.
Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy suds, and cleanses the hair and scalp thoroughly. The latter rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.
You can get mulitised cocoon oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

LYOYD GEORGE TO RECEIVE AMERICAN IRISH DELEGATES

Paris, April 24—David Lloyd George, British prime minister, has agreed to receive ex-Governor Edward F. Dunne of Illinois, Frank P. Walsh, former chairman of the National War Labor Board, and Michael J. Ryan of Philadelphia next week. The Americans were chosen by the Irish societies in the United States to appeal to the peace conference on behalf of Ireland.
The arrangement for the meeting was made by Col. Edward M. House of the American peace delegation at a luncheon at the residence of the British premier. Lloyd George said he was unable to receive the Americans this week, owing to the pressure of business connected with the peace treaty, and requested them to remain over for a conference until next week.
It is expected that the Americans will take up with him the question of his receiving the delegates from Ireland who are coming to Paris.

THIS BOY'S BONES EASY TO BREAK

Pittsfield, April 24—Charles Furrer, Jr., aged four, son of Mr. and Mrs. Charles Furrer of 62 Linden street, broke his left thigh the other day. He already has had seventeen fractures of bones in the left leg and right arm. If he raises his arm suddenly in bed he will hear the bones snap. If he sits down hard he always has a break.
The child is otherwise normal, healthy and good natured. A chalybeate condition exists in the bones.
The boy's father is foreman of line construction for the Western Union Telegraph Company.

Celebration Of St. George's Day

Masonic Temple Gaily Decorated for Brilliant Gathering in Honor of England's Patron Saint

St. George's Day was celebrated in hearty fashion by a gathering of the members of St. George's Society and their friends in the Masonic Temple last evening. The rooms which had been placed at their disposal, had been gaily decorated and comfortably furnished for the occasion and provided excellent accommodation for the event.
T. H. Estabrooks, president of the society, in his opening address, briefly reviewed the activities of the organization during the war and welcomed as special guests, Vice-president Jack of St. Andrew's Society, Mayor and Mrs. Hayes and Major-General Macdonnell.
Telegrams of greeting received from and sent to sister societies were read by the secretary, Mr. Thomas. The president presented to R. W. W. Frink a past master's badge and in reply Mr. Frink promised his continued interest in the society. Miss Louise Knight then was heard in vocal solos.
A feature of the evening was the address by Chief Justice Hon. H. A. McKeown, who told the story of St. George and applied it to present day conditions in an eloquent and practical manner.

HER FIVE CHILDREN Had Whooping Cough At the Same Time.

Whooping cough is one of the most dangerous diseases of children, especially to those under five years of age. It first starts with a fever, sneezing, watering of the eyes and an irritation of the throat. Later the coughing increases, the child becomes livid in the face, the eyes appear as if they would burst from their sockets, and suffocation seems imminent till relief is brought by the "whoop."
On the first sign of whooping cough we would advise the use of Dr. Wood's Norway Pine Syrup. This famous remedy will clear the bronchial tubes of the collected mucus and phlegm, and in this way ease the racking cough and in a short time make it disappear entirely.
Mrs. Walter McGaughey, North Balford, Sackville, writes: "I have five children, the eldest thirteen and the baby two years old. They all had the whooping cough at the same time. I tried two or three cough remedies, but none gave the same satisfaction as Dr. Wood's Norway Pine Syrup. A home where there are young children should never be without it. I will highly recommend it to those who want a quick cure."
There are many imitations of Dr. Wood's Norway Pine Syrup, so be sure you get the genuine by insisting that the package is put up in a yellow wrapper; three pine trees the trade mark; price 50c and 60c, and manufactured by The T. Millburn Co., Limited, Toronto, Ont.

SOME LEeway TO THE GERMAN DELEGATES

Paris, April 24.—(By the Associated Press)—When Premier Clemenceau recently telegraphed to Berlin demanding that Germany send plenipotentiaries to Versailles, instead of messengers, as Germany proposed, it was fully understood that the reason for asking for the presence of responsible personages was that they would be able to raise points for reasonable discussion and decide upon their acceptance or otherwise.

FAIRVILLE AMATEURS PUT ON PLAY WELL

Enjoyable Performance of "Hands of the Law" in Church of Good Shepherd Hall.

Under auspices of the Girls' Auxiliary a three-act rural comedy drama, "Hands of the Law," was presented in the hall of the Church of the Good Shepherd, Fairville, last evening before an appreciative audience.

The leads, performed by Miss Theo. McKiel and W. J. Summerville, found ready favor with the large audience. Miss McKiel was line perfect and acted naturally throughout, while W. J. Summerville well handled the opportunities afforded him.

J. J. O'Toole as the international detective, as usual was fully up to the comedy demands of the piece, while Miss O. McGuire as Sally caused roars of merriment, particularly in her grief scene over the supposed suicide of the renowned detective.

Other members of the cast all acquitted themselves excellently, the scenes and costumes were appropriate and the entertainment really enjoyable. Tonight the play will be repeated. Following is the cast: Dan Chamberlain, a young lawyer; Reuben Hazelton, a drunkard; Squire Evans, owner of grist mill; I. Nelson; Ears, a village lad; T. Dunlop; Mrs. Higgins, sheriff's detective; Ab. Juddkins, tin badge detective; J. J. O'Toole; Mrs. Hazelton, wife of Reuben; Edith Hazelton, daughter of Reuben; Grace Evans, daughter of the Squire; Sally Snodgrass, maid of all work; Miss O. McGuire.

"TEA FOR THREE" AT THE IMPERIAL PROVES A STERLING ATTRACTION

Appreciation, Rather Than Criticism, Sentiment of Large Audience

We see—and hear—so little of the spoken drama in St. John these days that almost anything of that nature would be sure of a warm welcome and when there is such an attraction as that afforded by "Tea for Three," which opened last evening in the Imperial, a crowded house is a certainty.

Three persons, whose relations add a new angle to the same old triangle, carry the burden of the action, with a maid and valet as accessories. Naturally this involves a lot of talking on the part of the three principals but the dialogue is so clever and entertaining and the ability of the actors is such that this does not prove a drawback. There is room for suspicion, however, for the theory that the reason that husband and the friend do not get along together lies in the fear that each might talk the other to boredom if not to death.

Without spoiling the enjoyment of those who yet have to see this delightful play by revealing too much of the action, it may be related that the plot has its origin in the jealousy of the husband. It is made quite clear in the first act there is no reason for jealousy. The friend eloquently tells of his deep and abiding love for the wife and she admits that she loves him, next best to her husband, but both agree that there is no danger in their continued friendship and fail to understand why the husband cannot take the same view of the matter.

As hubby does not look at it that way and has forbidden his wife to continue her tea-tetes with her more entertaining friend, they took up a little plot for his conversion.

There are unexpected developments in the working out of their plan but the anguish caused by the report of the death of the friend and the rejoicing over his reappearance clear away the clouds that have gloomed the situation and when the curtain falls the repentant husband is leaving town for a month in order to allow the others to enjoy as much of each other's society in their pleasant and harmless fashion as they may wish.

The lesson the play teaches seems to be that unobtrusive, unobtrusive, charming wives should not be too stingy in their enjoyment of their wives' society, but the play was not constructed to convey a moral, one would imagine; it was designed to entertain, and it does so, admirably.

The chief honors of the evening were carried off by Norman Hackett, the "friend," whose thoroughly good acting made his role possible and almost reasonable. He has an excellent voice and to convey a moral, one would imagine; it was designed to entertain, and it does so, admirably.

Elsa Ryan, who had won a place for herself in the hearts of St. John people in other productions in which she has appeared here, renewed her claims upon the audience by her interpretation of the role of the wife. Through much of the

Thousands Testify to the Lasting Benefit secured from Catarrhzone

CURES WITHOUT DRUGS

One of the finest discoveries in medicine was given to the public when "Catarrhzone" was placed on the market about fifteen years ago. Since then thousands have been cured of asthma and catarrh. An interesting case is reported from Calgary in a letter from Creighton E. Thompson, who writes:

"Nothing can be said too strong for Catarrhzone. I suffered four years from asthma in a way that would beggar description. I went through everything that man could suffer. I was told of Catarrhzone by a clerk in a furniture store and purchased a dollar package. It was worth hundreds to me in a week, and I place a priceless value on the benefit I have since derived. I strongly urge every sufferer to use Catarrhzone for Asthma, Bronchitis and Catarrh."

The one-dollar package lasts two months; small size, 50c; sample size, 25c; all storekeepers and druggists, or the Catarrhzone Co., Kingston, Canada.

OWLING.
The Tournament.
One of the most spirited games of the championship tournament on the Y. M. C. A. was the last one of last night Y. M. C. I. vs. St. Peter's. It was nearly o'clock this morning when the shouting of the coaches ceased as the last all was rolled. The Y. M. C. I. won by twenty-five after being forty-four behind at the end of the second string. Fred Johnson's great string of 143 and Johnnie Coughlan's 109 did the trick. There was a ripping finish to the St. Peter's-Frederickton game when Jim McCurdy picked up a spare neatly in the last box and won the string and game. Excitement and interest were keen all yesterday as the bowlers fought for victory. At the close of the day the standing was:

Won.	Lost.
Frederickton	4
Black's	1
St. Croix	4
Y. M. C. I.	2
Amherst	3
St. Peter's	3
Y. M. C. A.	4
Bangor	1
Moncton	0

Up to last night Dave Foohy of the Y. M. C. A. team had the highest total.

Following are the result of yesterday's games:

Calais defeated St. Peter's, 1374 to 1355.
Frederickton won from Moncton, 1318 to 1275.
Y. M. C. I. defeated Y. M. C. A., 1375 to 1317.
Amherst beat Bangor, 1391 to 1333.
Black's lost to Frederickton, 1424 to 1418.
Calais defeated Moncton, 1374 to 1270.
Y. M. C. I. won over Bangor, 1359 to 1302.
Amherst defeated the Y. M. C. A., 1414 to 1317.
Frederickton lost to St. Peter's, 1390 to 1380.
Bangor won against Moncton, 1381 to 1250.
Y. M. C. A. defeated St. Croix, 1424 to 1392.
Amherst defeated Moncton, 1432 to 1307.
Black's won over Bangor, 1395 to 1385.
Y. M. C. I. defeated St. Peter's, 1394 to 1369.

THE RING.
Statement By Frank Burns.
In view of Roddy McDonald's challenge to box any St. John man for any number of rounds, an elimination contest would seem necessary to clear the situation here if the challenge is to be accepted. There are only two boxers in the city at present who would be considered near McDonald's class and both are said to be considerably lighter. These men are Frank Burns and Joe Irvine, who met here a short time ago. Burns has informed the Times-Star that he is willing to consider the challenge but would like to have one or two matters cleared up. In the first place there is the question of who is the better local man. He boxed Irvine a short time ago but the result was not considered decisive enough by the fans and he would like to have a return match arranged under the auspices of some local organization to settle this question before going further. Then there is the question of weight. Until he entered the army nine months ago he boxed as a welterweight, at 145 pounds. Since then he has put on a few pounds, but as he has been in the hospital for a couple of

months and has not done any hard training since he has little idea whether this gain is permanent.
McDonald is a heavier man and with his reputation for winning from such clever boxers of such size as he has met, Burns does not feel called upon to give the Halifax man much of a handicap in the way of weight. If he defeats Irvine and if Roddy can make 162 pounds at the ringside Burns will be ready to talk business.

News of the Boxers.
Battling Ortega and Soldier Bartheld will meet at Oakland, Cal., next month. Jeff Smith and Bartley Madden are booked for Scranton, May 8.

Teaching By Movies.
Detroit, April 24--It has been decided by the board of education that hereafter history and geography will be more extensively taught in Detroit schools through the medium of motion pictures. The Ford Motor Company has promised to parallel the lessons in history, making pictures of the children themselves in historical pageants, such as the signing of the Declaration of Independence, or such a tale as the "Courtship of Miles Standish." Longfellow's romance of early New England life.

Considerable routine business was transacted at a meeting of the Carpenters' Union, No. 918, in the Oddfellows hall last night.

ENDORSE FREE CLINICS

In connection with the matter of free clinics which have been discussed for the last few weeks, the sub-district

boards in the southern district, under the Department of Health, have placed themselves on record as being strongly in favor of free clinics. The report of the Canadian Association for the Pre-

vention of Tuberculosis stated that it could not urge too strongly the medical inspection of schools. One of the former members of the Board of Health in a recent letter written to Dr. Brown, of the Department of Health, heartily endorses free clinics, saying that among the poorer people the recommendations of the inspectors are not always carried out.
