INSIDE STORY OF GOULD HOLD-UP

Flemming's Jockeying With Valley Railway

A PRETTY ROW IS ON CARLETON SENTINEL MAKES EXPOSE OF ATTEMPT TO EXPLOIT PEOPLE'S TRUST FOR POCKETS OF POLITICIANS—Opinion as to the Outcome

(Special to Times). Woodstock, N. B., April 25.—The Woodstock Sentinel will say tomorrow: "The Glenaeir of the 23rd inst. came out with a remarkable admission on the Valley Railway, or rather on Mr. Gould's connection with it, and a person who has been at all familiar with Valley Railway matters will be surprised to learn that the inevitable fight has begun."

"The difficulty arises from the fact that Mr. Gould and his C. P. R. friends are in this scheme to make money. They are to receive \$6,000 per mile from the federal government by way of subsidy, and a bond guarantee from the local government of \$25,000 per mile. Any money required over and above this amount must be furnished by them, and whatever can be saved on the construction of \$61,000 per mile, and we should judge that the profit left thrown out in the Glenaeir article as to the character of the work as mapped out, it will be considerable, goes to them as clean profits, over and above the ownership of the road after it is completed. Therefore, Mr. Gould wants to build the road as cheaply as possible."

Mr. Flemming and the government, on the other hand, are interested in the business transaction for the sole purpose of making money first and votes secondly, without having any regard whatever to the future of the province, either from a financial standpoint or that of the transportation interests of the community.

Storied Interviews In the month of July last the federal authorities were to exert enough pressure on the local government to compel them and Mr. Gould to agree to build the road through Grand Falls, as part of the intervention. As soon as the matter was defeated in September, however, the old C. P. R. scheme from the very long until Mr. Gould saw trouble starting in the face. He had a number of stories with Mr. Flemming, the great bone of contention being the construction. For, he remembered that Mr. Gould is not a railway contractor himself, never has been, and probably has not a thousand dollars worth of plant, but is simply the financial agent of the C. P. R.

Mr. Flemming demanded that the road be parcelled out to his political friends, and with a company, the one known as the St. John Valley Construction Co., composed of B. Frank Smith, Postmaster Winslow and a number of the faithful, who, of course, expected to get a big rake-off by sub-letting to some practical contractors, they to receive a big commission.

About this time the Corbett Construction Company, which had been formed to construct the G. T. P. from Moncton to Chipman and who own the great railway construction plant in east Canada, made an offer to Mr. Gould to construct the whole road at a figure so low that none of the political companies could compete for a minute and live, and which would give a handsome margin of profit to Mr. Gould, who naturally wanted to give the contract to this company.

"This did not suit Mr. Flemming's political views and finally became so hot that Mr. Gould went to California for his health, during the session of the legislature. Mr. Flemming met him in Montreal on his way back and the matter was fought out between Mr. Flemming on the one hand and Mr. Gould and his masters, the C. P. R., on the other, but the financial interests were obdurate.

Mr. Flemming demanded that the contract from Fredericton to Woodstock be given to the Fredericton local parties, who were working through Jack McMartin, and that portion of the road from Woodstock north to Centerville was to go to the St. John Valley Construction Company, who had an agreement with Johnston Brothers and secondly with Kennedy & MacDonald, a responsible firm of contractors on the G. T. P. from Grand Falls north, who were to do the actual work, the story crowd receiving a rake-off in the way of commission.

Mr. Gould finally yielded, upon condition, however, that they must take the work at Corbett's price. When the actual contractors, namely McMartin, Johnson Bros. and Kennedy & MacDonald were brought face to face with these conditions, Johnston Brothers immediately ordered their plant from Woodstock to Western Nova Scotia, Kennedy & MacDonald snatched their fingers in the face of the Woodstock crowd, and old Jack McMartin, who never dined because none of them could do the work at Corbett's price, let alone give a big rake off for the politicians and here the deadlock exists today and this is the way of commission.

"It is pretty hard to tell exactly where this little family quarrel will land. In all probability, however, Gould will have his way, the contract will go to the man who will do it for the lowest price and Mr. Flemming no doubt can make an arrangement with Mr. Gould's masters, the C. P. R., by which the rake off will come in a lump sum and not be distributed according to his previous intentions.

"This will look better, some better and will be much harder to detect, but that take off will come just the same. It will be interesting to watch the developments in the meantime the Glenaeir will back down, as it has done in the past on so many occasions over the railway question, but we hope the public will take note of the fact that evidently the surveys have followed up the banks of creeks to such an extent in order to reduce the cost and made the road so crooked that five miles have been added to its length between Woodstock and Fredericton, and ten miles between Fredericton and St. John, thus allowing Mr. Flemming's friends \$75,000 more bond guarantee than is necessary, if, of course, it means at least \$75,000 more profit than necessary, of which, doubtless, Mr. Flemming and his friends will receive a fair share. It is an interest, game to watch."

THE WEATHER

Forecast—Moderate westerly winds, and a mild warmer today and Friday. Synopsis—The storm has disappeared, the barometer is rising, and there is a tendency towards higher temperature in all provinces. To the Grand and American ports, moderate westerly winds.

BUT THE REFLECTION FROM AN ICEBERG?

Sir Cyprien Bridge's Explanation of Lights Supposed to Be on Second Steamer

The Mount Temple—Mackay-Bennett Has 205 of Titanic's Dead and is Making Her Way to Halifax—Marconi on the Stand Today

(Canadian Press). London, April 25.—Admiral Sir Cyprien Bridge offered a possible explanation regarding the mysterious ship whose lights were seen by the officers and passengers on the Titanic a little after the accident occurred. He is convinced in his own mind that the lights were a reflection of the Titanic's own lights from an iceberg in the vicinity.

The admiral says that the results of the Titanic striking the iceberg would be the same whether she was moving ten or twenty knots an hour, and he also does not attach any value to Captain Smith's admission that a search light might have revealed the presence of icebergs.

Statements by Mr. Temple Passengers. Straticosta, Ark., April 25.—In a statement made by E. W. Zurich, who crossed from Antwerp on the S. S. Mount Temple, he says that the passengers heard of the Titanic's distress at 12:25 o'clock, Monday morning, when a wireless call for help was caught, that Captain Mowse changed his vessel's course, at once, and headed for the Titanic. He has been hearing from the Titanic, he says, being saved from the disaster, and that the Titanic was at least forty miles from the wrecked line at the time.

Work on the New Wharf is Begun. Rock Bottom for Foundation Being Placed—Offices Opened in Carleton. The work of constructing the new government wharf at West St. John, which is to be built under contract by Michael Connelly of Montreal, has been commenced. The first work to be done is the placing of a rock bottom for a foundation for the wharf, and it is on this work that a beginning has been made. The stone is being applied by A. J. Gregory. Already a large number of screw piles have been put in position.

Chloroformed and Then are Shot. Reform in Execution of Robbers in China—Executioners Poor Shots. Shanghai, April 25.—In connection with the execution of robbers and others at the province of Che-Kiang, the Chinese republicans have effected a notable reform. The persons condemned to death are now first chloroformed and then shot. It is understood that this is done in order to avoid unnecessary suffering due to the poor shooting of the executioners.

Justin McCarthy, a Noted Irishman, is Dead

Was 82 Years Old. Reporter, Editor, Parliamentarian and Famous Historical Writer—Mr. McCarthy Spoke in St. John Under L. L. & B. Auspices

(Canadian Press). London, April 25.—Justin McCarthy, novelist and historian, and for many years a member of parliament, died last night at Folkestone. He had been ill throughout the winter and spring but his friends had hoped that he would live to see the fruition of his long-cherished expectations. Born in 1830, Justin McCarthy was one of the most prolific political and historical writers of the time. He was an ardent home rule man and was for twenty years a political writer for one of the London daily papers.

He was vice-chairman of the Irish Parliamentary party in the House of Commons before the rejection of Mr. Parnell by the majority. Then Mr. McCarthy was elected chairman. He became attached to the staff of a Liverpool ship in 1863 and entered the "reporters' gallery of the House of Commons in 1869 for the Morning Star. After resigning as chief editor of the paper in 1888, he travelled through the United States for nearly three years, and also had more than once revisited America. His publications included "A History of Our Own Times," "A History of the Four Georges and William IV," "Life of Pope Leo XIII.," "The Story of Mr. Gladstone's Life," "Modern England," and "Reminiscences," together with a large number of novels.

In 1883 Mr. McCarthy visited St. John and delivered a lecture at the Mechanics Institute under the auspices of the Irish Literary and Dramatic Society. He was a great lover and historian and was born in Cork on Nov. 23, 1830. He was the son of the late Michael Francis McCarthy. In 1858 he married Miss Charlotte Allan, daughter of W. G. Allan. He received his education from a private tutor in Cork. In those days no Roman Catholic in Ireland could receive any academic degree. In 1868 he began his journalistic career in Cork and remained there four years. He then went to Liverpool and stayed at London, where he was the editor of the Morning Star.

In 1879 he was elected to parliament for Londonderry. He also held several seats after this. In 1880 he became the chairman of the Irish Parliamentary party, which position he held for six years. He resigned in January, 1888. During his journalistic career he wrote many books including Miss Minnithorpe, Dear Lady Dindale, Donna Quixote, Maid of Ailes, Red Diamonds and others. He also wrote several histories, including History of Our Own Times, History of the Four Georges and William IV, Life of St. Robert Peel, Life of Pope Leo XIII. The story of Mr. Gladstone's Life, The Reign of Queen Anne, the Story of an Irishman, and many others.

BURIED TODAY. The body of W. R. Colwell was taken to Wolford on the Boston express this morning. Funeral services were conducted by Rev. H. D. Marr at the home of his brother in Chapel street last night. Interment will be made at Oliville, Quebec.

NO COMMISSION YET TO HEAR MOUNT TEMPLE EVIDENCE. Ottawa, April 25.—(Special)—Hon. Geo. E. Foster, acting premier, asked this morning that he was considering the taking of the evidence of the captain and officers of the steamer Mount Temple. He has taken no action as yet.

FREDERICTON NEWS. Fredericton, N. B., April 25.—(Special)—In Victoria Hospital today Andrew Lotimer, a well known citizen died. He was a native of Glasgow, but resided here since boyhood. For many years he was engaged in the boot and shoe business but had late represented insurance companies. He was a devout Methodist and served on the quarterly board of that church. He was seventy years of age and is survived by one son, Morley Lotimer, of St. John and one daughter, Miss Myrtle Lotimer, at home. Logs of last season's cut have been running past the city since yesterday. The river is now free of ice and is steadily rising.

A HUNT FOR ST. JOHN. The Amherst News is pleased to note that the young lad, William Gallant, who through the kindness of a number of citizens is now a patient in the provincial sanatorium in Kentville, is doing well. Last week he gained two and a half pounds and is contented and cheerful.

MISSING FASHIONER. The local office of the Canadian Express Co. has received advice from Montreal concerning the disappearance of a cashier in Hamburg, Germany, who is thought to have embezzled \$83,000 and come to America. The telegram reads as follows: "American report cashier Hamburg, Germany, Edmund Blocker, shipped with \$83,000. One thousand dollars reward offered. Height five feet ten inches, weight 200 pounds, light hair, moustache, blue eyes, straight nose, slight stoop, heavy smoker. Advise all steamship and railway agents and police authorities. (Signed) 'W. H. Bryce.'"

GOING FOR HEALTH. Kenneth Christie, of the staff of the Royal Bank, King street, will leave this evening on a trip to Scotland for his health. He will visit the home of his father's people in Stirling.

QUEBEC BOARD OF TRADE ACTION ON THE TITANIC DISASTER. To Call on Government to Enforce Strictest Marine Rules. Quebec, April 25.—The first board of trade in America to take a question of the recent disaster to the steamship Titanic, will be that of Quebec. At a special meeting on Friday afternoon a strong memorial in connection with the disaster will be presented for consideration. It will enforce the strictest rules on all vessels, both ocean and coasting, which run to Canada.

FOR RIVER SERVICE. The new steamer which is to be used this summer in the river and instituting a "suburban service" along the river, namely the "Stella Marion," reached Indian Lake this morning from Macquisset Lake where she lay during the winter. The steamer is a tiny little craft, a side-wheel, but will probably run from Indian town to Brown's Plains, perhaps not far, carrying people who have summer homes along the river and endeavoring to establish a suburban service by making daily trips, leaving each evening about five o'clock and returning early next morning. She is at present lying at the "bedroom," Indian town, and will undergo further repairs before being placed in service. The steamer is owned by Captain Charles Taylor and Engineer Wm. Burton. She was brought down river by them this morning under her own steam and attracted much attention about Indian town.

THREE LOCAL MEN. The first three men to be signed on by the management of the Marathons are three local players, Riley, Copeland and Hamsay. All three have made a good reputation on local and foreign diamonds and ought to make a good showing this season. Riley played with the team last year, and Hamsay with the St. John's. Copeland played with the Halifax team.

EXPACT BIG FRESHET. The opinion along the river is that this spring's freshet will be of fair dimensions, and that it will reach its height in a few days. The water at Indian town is rising higher daily, and preparations are now being made about the wharves and coops with the food looked for. Stagings are being constructed to be used to board the steamers or leave them.

MENTAL suffering is just as bad as physical suffering. How few of us there are who have never uttered that bromidism and how very few who have never denied our realization of its meaning by our actions.

A young man of our neighborhood, the only son of a devoted mother was called to a distant city a few months ago by his business. Now this young fellow is apparently rather near the measure of a man than the average, and there is no doubt that he loves his little mother. But he does not like to write letters, and again and again he fails to send the weekly letter which he has promised his mother.

Why don't you telephone me when you found you would have to be so late? inquires the anxious wife who has spent her evening conjuring up all sorts of terrible things which could have happened to keep her husband from coming home or telephoning.

La MARQUISE de FONTENOY International Marriage, With Enormous Wealth, Good Looks and Lave on Both Sides — A New Navy Position

Much friendly interest has been aroused both in Paris and in London by the engagement of Mlle. Roberte de Neufville, only daughter of Baron de Neufville, to Viscount Duncannon.

What, however, will interest people on this side of the Atlantic much more, is that Roberte de Neufville's father is not only an officer of the Legion of Honor, but also head of the great banking house of Neufville & Co.

As Lord Duncannon, he is everything that a young Englishman of birth and breeding should be. All the members of his family are noted for their good looks.

King George's sailor uncle, the Duke of Edinburgh on his trip around the world, on board the Galatea were also associated with him Admiral Lord Charles Beresford, Admiral Sir Adolphus FitzGerald, Lord Kilmory and others.

It is sincerely to be hoped that the union of this young man and Mlle. Roberte de Neufville, pledged under such favorable auspices, with enormous wealth, good looks, and love on both sides, to a degree quite out of the ordinary, will prove as happy as all the friends of both families expect.

The British Admiralty has just created a new post, and has selected an Irishman to fill it. The post is that of "Admiral of Patrols," and the officer in question is Rear Admiral John Michael De Robeck.

The Evening Times and Star

ST. JOHN, N. B., APRIL 25, 1912.

The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the laws of the Dominion of New Brunswick.

THE PURITY CAMPAIGN

"It has been intimated to me that I owed a duty to one party, but I don't look upon it in that light." The significance of the sentence just quoted is that it is declared to be a statement made by Mr. A. E. Gould, president of the company which will construct the St. John Valley Railway.

JUSTIN MCCARTHY

Justin McCarthy, whose death is announced, was one of the ablest of a group of Irish writers whose genius and moderation with which they presented Ireland's case, gradually won the sympathy of the English people for the cause of home rule.

GOVERNMENT AID GIVEN

The Times recently directed attention to the fact that there had been an awarding in the Eastern Townships of Quebec, and that the people there, like those in New Brunswick, were demanding for their district a larger share of attention in the government campaign for immigrants.

Jessup, Pa.—"After the birth of my fourth child, I had severe organic inflammation. I would have such terrible pain that it did not seem as though I could stand it. This kept up for three long months, until two doctors decided that an operation was needed."

THE WEST AND INDUSTRIES

The Canadian Manufacturers' Association will send a "Made in Canada" train through the western provinces. Canadian Finance says that it will include not a few Winnipeg exhibits, and adds that Winnipeg now boasts of nearly 300 manufacturing concerns, though many of them are small and some perhaps hardly worthy of the name.

Physician Climbs Pole to Patient

Five hundred residents of one of the most fashionable sections of New Rochelle, N. Y., watched the rescue of Nicholas Calif, who was shocked by the current in a high tension wire on the New York, Westchester and Boston railroad, near Westchester and Madeline avenue.

Dr. Paul B. Fitzgerald, police surgeon of New Rochelle, and Thomas Goochilla climbed the steel upright through a maze of heavily charged wires to reach Calif, and for nearly two hours steadied the injured man on a narrow cross-tree and gave him stimulants until the power was shut off and he was taken to the ground.

Calif was painting the steel upright and straightened up to light a cigarette. His head came in contact with a wire. Flames shot about his head and he fell senseless, doubled over the cross tree on which he had been standing.

He was taken to the New Rochelle hospital, where it is said his chances for recovery are small.

A current had been turned into the wires to test the motors of the train.

To Bore For Gas And Oil
(Moncton Transcript)

O. P. Boggs has received instructions from the directors of Maritime Oilfields, Limited, to resume drilling operations immediately at Stony Creek.

The company has decided to run four springs of drilling tools this season which means that at least double the amount of drilling should be accomplished this summer.

Drilling will be commenced next week on two wells at Stony Creek; the rigs being already erected and ready for drilling.

Detailed instructions as to location of further wells are on the way from the London office and meanwhile everything is being put in train for the carrying out of a vigorous development programme this summer.

Dry Shampooing Improves the Hair

(Madge Lyon on "Hair and Scalp")

"Women having an abundance of fine, glossy hair do not employ a wet shampoo. They rely upon a powder, which is sifted on the scalp and brushed through the hair, removing dandruff and excess oil, and leaving the scalp clean, soft and pliant, and the hair light, fluffy and beautifully lustrous.

"It is surprising what excellent results can be had if the dry shampoo is used for a short time. Dry and scaly scalps become clean, soft and free from dandruff; coarse, faded and stringy hair grows rich, fine and glossy.

"A dry shampoo of unusual excellence can be made at little cost if you mix 4 ounces of orange root with 4 ounces of thorax. Just sprinkle a tablespoonful of this mixture on the scalp, then brush out well. Dry shampooing removes all possibility of catching cold from washing the head."

CANADIAN CLUBS AND CELEBRATIONS ON DOMINION DAY

A Suggestion From the West and the Reason For It

(From the Moose Jaw News.)

The Canadian clubs from the Atlantic to the Pacific might well consider the advisability of holding Dominion Day celebrations in every city where a club exists.

At the present time, particularly in the west, there is a great deal of exalting the national idea, of proclaiming the oneness and indivisibility of confederation, of inculcating the spirit of unity and cooperation between the various geographical divisions of the dominion and of emphasizing the fact that the dominion and the Canadian people stand for something more than a mutually advantageous trade relationship. Of themselves, the ordinary influences making for national assimilation are unable to cope with the great mass of persons of alien birth who are coming into the dominion. It is an undeniable fact that foreigners are not, in Canada, as quickly assimilated into the national life as they are in the United States. In other words, the foreigners do not become Canadians as quickly as they become Americans.

To this must be attributed largely the feeling of restiveness existing in the western provinces. It exists, not so much because the country is not prosperous; for no country so recently settled and so undeveloped as Canada is to be attributed an impression that the interests of eastern and western Canada are not identical.

Now is this surprising. Strangers to Canada and Canadian history naturally look upon political questions from a material standpoint. They have no conception, not because of a particular fondness for her form of government; but for the express purpose of improving their lot in the world. As yet the stranger in western Canada is the builder of a business rather than a nation builder.

To build up his business he is prepared frequently to sacrifice regard for national interests. The very nature of his business and its industrial organization renders the stranger provincial in his outlook.

There being but little manufacturing done in the country, he is unable to realize the necessity of developing such industries; hence he is unable further to realize the importance of interprovincial cooperation.

Talk as men may about this or that form of national fiscal policy, but Canada will never realize her possibilities, never measure up to the full stature of nationhood, until her population become impregnated with an ardent national spirit.

To do this should be the special work of the Canadian clubs and nothing could be more timely than that they should on Dominion Day arrange for a chain of national celebrations extending across the continent. The carrying out of this proposal would be a good day's work in Canada.

YOUNG LADIES OF ST. PETER'S GIVE A FINE PRODUCTION

Pontia Cleverly Presented in St. Peter's Hall Before Very Large Audience

The presentation of the sacred drama "Pontia, Pilate's Daughter," by the young ladies of St. Peter's parish last evening in St. Peter's Hall, 414 St. John street, was witnessed by an audience which filled the spacious auditorium to overflowing, and which was thoroughly appreciative of the performance given. It was declared an instantaneous and distinct success, and the young ladies participating were heartily commended for the able manner in which they enacted the various roles, and the actresses with which even the minutest detail was attended to in the presentation of the play.

The piece dealt with the lives of the early Christians, their martyrdom, sacrifices, ideals and lofty ambitions to lead souls to God; and there are many scenes which require of the performers some strong emotional acting and this the principals gave. The performance was under the direction of Mrs. A. C. Wilson and Miss Miss Mullin was pianist. St. Peter's Y. M. C. orchestra played several pleasing selections.

The title role was taken by Miss Genevieve Dever who gave a clever, exacting and pleasing presentation of the role of Pontia, who is gradually induced to become one of the increasing host of noble women taking up the standard of the Saviour and wearing the robes of Christianity. She was ably assisted by the other young ladies in the cast, particularly Miss Mary Carlin, who as Adrippina, Empress of Rome, was forceful and capable and Miss Annie Gonnell as the mother of Pontia also played well. Miss Madge Belyas took advantage of all opportunities to please. The choice of the other young ladies in the various roles would have been difficult to excel as they each fulfilled the requirements of their parts with ease and grace, adding materially to the success of the performance.

The remaining cast was as follows:—
Corina, smaller sister of Pontia—Miss Beatrice Gonnell.
Flavia, noble Roman lady—Miss Genevieve Hansen.
Petronilla, Jewish maiden—Miss Annie Carlyn.
Dionanah, daughter of Herodias—Miss Nellie Dever.
Miranda and Octavia, smaller children of Empress—Miss Ethel Walsh, Miss Ena Higgins.
Miriam and Ruth, Jewish girls—Miss Alice Kelly, Miss Emma Conlogue.
Cornelia, Roman Augustus's wife—Miss Margaret McMonnon.
Cassandra, Greek—Miss Mary Cogger.
Roxana, Persian—Miss Bether Martin.
Eubelinda, British—Miss Katherine Coughlan.
Flaumentina, vestal Virgin—Miss Florence Gallagher.
Phamphila, keeper of Palentine prison—Miss Alice Casey.
Mistress of Slaves and Angel—Miss Helma Murphy.
First Slave—Miss Edna Creary.
Second Slave—Miss May Gonnell.
Third Slave—Miss Josephine Gonnell.
Fourth Slave—Miss Mary Granan.
Fifth Slave—Miss Ethel Creary.
Roman Maidens—Misses Ethel Creary, Edna Creary, Cleophas Jeffrey, Mary Cogger, Alice Casey, May Conolly, Esther Martin, Genevieve Hansen, Mary Granan, Emma Conlogue.

Miss Madge Belyas took advantage of all opportunities to please. The choice of the other young ladies in the various roles would have been difficult to excel as they each fulfilled the requirements of their parts with ease and grace, adding materially to the success of the performance.

This Year's Immigration (Canadian Finance)

There is a great rush of immigrants into western Canada this spring. New records are being made almost daily in that respect. One day recently 2,540 persons arrived in Winnipeg on the various railway lines. They come from the various railway Europe, Eastern Canada and the United States. A fact that is being specially commented upon is the increase in immigration from Great Britain. The settlers this year appear to have more money than those who arrived in other seasons, the new-comers from the south being especially well off financially.

Some of the United States authorities are quite alarmed over the number of settlers moving from that country to western Canada. They are said to be particularly uneasy over the formation of the "Million for Manitoba League." This organization will make a strenuous effort to induce more of the southern farmers to settle in this province.

Be Fair. Buy a sack or barrel before judging PURITY FLOUR.

SOME people have attempted to judge PURITY FLOUR before knowing the facts about it—before using it. So we ask you to be fair and to buy a sack or barrel of PURITY FLOUR and give it a thorough try-out before attempting to arrive at a judgment.

Look at the beauty and loveliness of the golden-crusted, snowy-crumbed loaves, fit for a king. Count them and see how many more of them PURITY yields to the barrel than ordinary flour does.

Taste the creamy, flaky pie crust, and the deliciously light cakes. PURITY FLOUR rewards you with it.

Such high-class results can only be obtained when using a flour consisting exclusively of the high-grade portions of the best Western hard wheat berries.

And remember, that, on account of its extra strength and extra purity, PURITY FLOUR requires more water when making bread and more shortening when making pastry, than you are accustomed to use with ordinary flour.

PURITY FLOUR "More bread and better bread"

Buy a bag or barrel of PURITY FLOUR. Test it for a week. Then pass judgment. Add PURITY FLOUR to the grocery list right now.

HOLD-UP OF A. R. GOULD HAS FAILED

Conservative Intimation to Valley Railway Contractor That "He Owed Duty to One Party," But They Could Not Force Him To Contribute

Fredricton, April 24—A. R. Gould, in a telephoned interview today, vigorously denied the Conservative attack upon him which was coupled with hints that the Fleming government is going to try to give the Valley contract to friends more "approachable" than Mr. Gould.

The contractor made it clear today that he is prepared for war and will not tolerate any hold-up. His words imply clearly that a hold-up was planned.

Mr. Gould in an interview today over the long distance telephone, vigorously denied the statements contained in an editorial in last night's Gleaser reflecting on his company. He points out that the contract was signed only a few days before the legislature met, and was subject to the approval of the legislature.

He went on to say that all financial arrangements had been made, the necessary deposit had been made and the company had acted in good faith all the way through.

INTEREST IN TITANIC INQUIRY SHIFTS HERE

Mount Temple Officers' Evidence to be Taken Because of Statement That She Was Near Titanic at Sinking

Washington, April 24—Harold G. Lowe, fifth officer of the Titanic, told the senate investigating committee of the struggle of the survivors for life following the catastrophe. His story is a gripping tale, with a volunteer crew, he rescued four men from the water, saved a sailor from collapse and took twenty men and one woman from the bottom of an overturned life boat.

Competing in interest with the day testimony was the interchange of telegrams between Senator William Aldrich, acting chairman of the committee and the Smith, chairman of the committee and the acting premier of Canada, Geo. E. Foster.

The latter told of the docking of the steamer Mount Temple at St. John, N. B., to have seen the Titanic sink. It was believed that the Mount Temple was on the White Star liner when she took her final plunge.

Senator Smith was requested that the depositions of the officers and crew of the Mount Temple be sent to him. In addition, he requested that the officers and crew of the Mount Temple be sent to him.

Under these circumstances it does not seem necessary to detain the Mount Temple at St. John, N. B., Friday evening. If considered necessary, a commission will be appointed to examine the evidence. Will doubt be taken and taken by British commission.

In reply, Senator Smith despatched the following telegram received. I will greatly appreciate it if you will send me a copy of the report of the captain of the Mount Temple, which is scheduled to sail from St. John (N. B.), Friday.

The committee also received a telegram signed by J. H. Moore, master of the Mount Temple, A. H. Sargent, chief officer, H. Head, second officer, and J. D. Durant, the Marconi operator, dated at St. John, N. B., today, practically repeating the information contained in the report of the Mount Temple.

The City of St. John and its commercial interests was proposed by Mr. Walker, and responses made by Mayor Prink and Commissioner-elect H. B. Schofield. H. A. Foster responded to the toast to the ladies. During the evening musical selections were given by Charles Calvert.

ST. GEORGE'S SOCIETY WELL CELEBRATE THE DAY

Banquet in Royal Hotel a Successful and Enjoyable Function

The annual dinner of St. George's Society took place last evening in the Royal Hotel. About 125 guests were present and the celebration was regarded as one of the most successful in the history of the society.

The large dining room of the Royal Hotel presented a very fine appearance with its tastefully arranged decorations. Union Jacks and British Ensigns were draped about the walls, while the cross was very prominently displayed.

Those present were: The president, James H. Prink; the United States Consul, His Honor Lieut. Governor Woods; the president of St. Patrick's Society, Hon. R. J. Ritchie; the vice-president of St. Andrew's Society, Jas. Jack; Recorder, Hon. A. T. Dunn; the Chaplain, W. H. Thorne; Joseph R. Stone; Commander Myles; Senator J. W. Daniel; Chief Justice Barker; A. P. Hazen; Vice-Presidents, F. E. Hamilton, A. H. Merrill, C. S. Harrington, H. C. Wetmore, E. F. Howard; Lieut. Col. J. L. McAvity.

THE CHANCES AGAINST YOU

"Oh, I will be all right in a few days, says the person who is tired out and has to drag himself to his daily work because the nervous system is exhausted. Unfortunately nervous diseases do not right themselves, and the wasting process which has brought you to this condition keeps right on until there is a complete breakdown.

Mackintosh vs. Bank of New Brunswick

Argument in the case of J. C. Mackintosh & Co. vs. The Bank of New Brunswick was continued yesterday afternoon. Mr. Nesbit was heard in reply to Mr. Powell and Mr. Powell closed for the plaintiffs.

In his reply Mr. Nesbit asserted that no evidence had been presented to show that the stock speculation consisted of actual transactions and that it was not merely a basket shop business. He also emphasized the point that from their relations with Clark the plaintiffs knew that he was exceeding his authority for his own purposes and that his principals could not be held liable for his actions.

Mr. Powell maintained that the manager for the plaintiffs had no knowledge of any fraud and no reason to doubt the validity of any steps which Clark took in the course of his duties as manager of the branch bank.

His Honor interposed the counsel regarding the reasons for the brokers holding the certified check for \$10,000, which they held until after Clark left the city.

RESCUED BRIDE IS DESTITUTE WIDOW

Mrs. Del Carlo Saved Only Clothing—Husband Had \$2,500

New York, April 23—Few of the Titanic's survivors are in as sad plight as Mrs. Argentina Genovese Del Carlo, a second cabin passenger from Lunenburg, N. S. She is a little more than three months ago in Lunenburg, N. S., she is being cared for by the Rev. Father Moretto and had arranged to provide a comfortable home. He perished after placing her in a lifeboat.

Mrs. Del Carlo saved nothing except the clothing she wore. Her husband carried all their money, \$2,500. She is being cared for by the Rev. Father Moretto and the sisters of the San Raffaele Society, No. 10 Charlton street.

PASS THROUGH HERE ON SAD ERRAND TO HALIFAX

A private car and a special Pullman of the Atlantic coast line, carrying the friends and relatives of the victims of the Titanic disaster, left for Halifax to identify the bodies of those who have been recovered. Among the party were George Widener, son of George H. Widener, traction magnate, two cousins of Washington Irving, grandsons of the builder of the Brooklyn bridge, E. H. Bull, theatrical manager; Dr. E. H. Tomlin and R. T. Moore, son of Henry D. Moore, son of his way to Halifax, was in the party.

ON OVERDOING IT

"The smothering of the sea," says a modern philosopher, "is to overdo everything." The same thought has occurred to the writer many scores of times, when, after swallowing a very moderate allowance of some sauce, he has been left with a palpitatingly great over to an endless stringing and burning sensation, calculated to make a man forget the use of any sauce whatever.

Have you ever been served that way? Ever suffered that way? Ever vowed eternal abstinence from sauces? Forget that! suffering, break the vow, and try H. P. Sauce, a truly delightful concoction. Neither too thick nor too thin, too hot nor too cold, too sweet nor too sour. This sauce, which has been christened "H. P. Sauce" in honor of the Houses of Parliament, is to be procured of all grocers, and it is in every respect a revelation of what a perfect sauce should be.

THE PURPLE WIDOW AT THE OPERA HOUSE GREAT FUN MAKER

"The Purple Widow" was presented last night in the Opera House before a good sized audience by "Billy" Carleton and company. The audience did not expect to see a brilliant musical comedy and to a certain extent their expectations were verified, but they did look for some fun, and they had it. There was plenty of fun and laughter all through the performance.

PILES NOT TAKEN SERIOUSLY

"Annoying, but not dangerous," seems to be the way many think of piles in the early stages. But gradually they become worse, until they prevent sleep, undermine the nervous system and make a wreck of life.

Mr. John J. Downey, New Glasgow, N.S., writes: "Just a few lines to let you know what your Milburn's Heart and Nerve Pills have done for me. I was troubled with weakness and palpitation of the heart, would have severe chills, and could scarcely lie down at all. I tried many remedies, but got none to answer my case like your Pills. I can recommend them highly to all having heart or nerve troubles." Price 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co. Limited, Toronto, Ont.

WAS TROUBLED WITH Weakness and Palpitation OF THE HEART

Through one cause or another a large majority of people are troubled, more or less, with some form of heart trouble. Little attention is paid to the slight weakness of the heart, but when it starts to beat irregularly or intermittently, palpitate and throb, sleep breaks, heart fast for a time, then so slow as to seem almost to stop, then it causes great anxiety and alarm.

CAPTAIN MOORE STRONGLY REPEATS DENIAL OF REPORT

Commander of Mount Temple Gives Story of His Action in Going to Titanic's Aid

"There is not another man sailing the high seas today that would have been more pleased or any more glad than I to have been able to go to the Titanic and render assistance to her passengers and crew," said Captain Moore of the C. P. R. liner Mount Temple, in an interview with a Times' reporter on board his steamer this morning. Captain Moore feels his position keenly in view of the reports that have been circulated to the effect that he deserted the Titanic's call for help and sailed in an opposite direction.

"The stories circulated, said the captain, are without foundation, and I and my crew are ready at any time to prove them so. Why the thing is utterly preposterous and there is not a single word of truth in any of the reports that are being sent out.

"On the night of the accident, said Captain Moore, we were sailing along at the rate of about ten miles an hour, or maybe less. I had retired for the night, and the second officer was on the bridge. About half-past twelve o'clock our wireless operator caught the 'C. P. R.' signal and just as soon as I was made known of the fact I got up and ordered the steamer to be turned back. We sailed in the direction given us by the Titanic's operator, and we judged that we were about fifty miles away from the scene of the disaster. I ordered all the crew on deck and had the life boats, humps and other life-saving apparatus gotten ready. The stokers were all supplied with extra grog and the ship was being sent ahead at all possible speed.

"Soon after three o'clock I brought the ship to a standstill, as we had encountered a field of ice that was at least five miles wide and utterly impassable. We could see the Carpathia on the other side of the ice and later the Californian and one of two other liners. We met a tramp liner also trying to make her way through the ice from the same side, but we were also unsuccessful. We cruised around in an effort to force our way through the ice, but without success.

"Between eight and nine o'clock we got a wireless from the Carpathia saying that she had picked up many of the Titanic's boats and that it was useless for us to stand by any longer. I then ordered the steamer turned ahead and we proceeded on our journey. From the time we first turned at half-past twelve o'clock until very early in the morning we could see no lights at all, as it was pitch dark, and I do not see how any of the passengers could see the Titanic. The ice was so thick that it would have cut through the iron plates on the ship like paper, so I decided that it was useless. I would have been very thankful if I could have seen any assistance, but God knows I did not see that either."

In regard to a story told by E. W. Zurich, a passenger on the Mount Temple, and referred to in today's despatches, Captain Moore said: "It is an utter falsehood. Why, how would that passenger know anything about what I and my officers were doing?—And then again there was not one passenger on board my steamer, and it would have been very foolish for me to try to force my way through five miles of ice for, undoubtedly I would have met with the same disaster as did the Titanic. The ice was so thick that it would have cut through the iron plates on the ship like paper, so I decided that it was useless. I would have been very thankful if I could have seen any assistance, but God knows I did not see that either."

CAPTAIN SMITH SAILED OUT OF WINDSOR, N. S.
Hants' Journal.—Capt. J. T. Smith, of the steamer Titanic, in 1884, sailed out of Windsor on the ship "Prince Royal" before the mast. The late Capt. Tom Curry was master, and Capt. Michael Doyle was second mate. This ship was built by the late Bennett Smith, and it is a strange coincidence that she was lost near the same place as the Titanic, in the ice off the banks of Newfoundland. Capt. Smith afterwards sailed as second mate on the ship "W. Moore."
