A QUESTION FOR YOU

How much money do you send out of the city or province every year which might as well or far better be spent here? Every additional dollar you spend at home is a help toward your city's prosperity.

BUILD UP YOUR CITY

One good way is to buy in St. John's shops and patronize its industries. By doing so you will not only get good value for your money but you will be helping to build up the home community. Build up St. John's.

BRITISH REPLY TO EXPERTS

Accepts the Reparation Commission's Report Without Any Reserve.

THE POWERS AGREE

France Raises Question of Procedure—"Indivisible Whole," Says Italy.

(Canadian Press.)

Paris, April 26.—The replies of the four big Allied Powers to the Reparation Commission's communication regarding the experts' report all accept the committee's findings wholly.

France alone raises the question of procedure, while Italy categorically declares the report to be "an indivisible whole" which should be taken in its entirety without condition or qualifications. The British reply says in part:

"His Majesty's Government, for their part, accept and will do everything in their power to give practical effect to the recommendation of the commission that likewise adopt the conclusions of the committee with regard to matters falling within the jurisdiction of those governments.

The recommendations of the experts do not appear to involve any reduction in the total of the German reparations debt, and the necessary modifications of the schedule of payments of May, 1924, appear to be within the competence of a unanimous decision of the Reparation Commission, and not to require the specific authority of the several governments represented on the commission under article 234 of the Treaty of Versailles. If, however, there is any doubt on this point His Majesty's government are prepared to grant such specific authority.

"Other matters arising on the experts' recommendations which appeared to be within the jurisdiction of the Allied Governments are: (A) Restoration of the economic and fiscal authority of the German government over the whole of Germany (territories); (B) steps necessary to give binding effect to the new guarantees and controls, insofar as these may not be clearly covered by the existing provisions of the Treaty of Versailles; (C) the inclusion of all the financial liabilities of Germany under the peace treaty in a single annuity.

Three Points.

"On the first point His Majesty's government are prepared to give full support to the experts' recommendation, and to take in consultation with the other governments concerned whatever steps may be necessary to effect full restoration at the earliest possible date.

"As regards the second, the agreement of the German government having already been obtained, all that remains to be done is to give formal effect to it.

"His Majesty's government was prepared to proceed by whatever may be found to be the most convenient and effective method of achievement of this object.

"On the third point His Majesty's government accept the experts' recommendations, and are prepared for their part to ask the Reparation Commission to propose a scheme to put this provision into execution. Should any other of the recommendations of the experts be held by the Reparation Commission to require endorsement by action on His Majesty's government will for their part be prepared to take whatever steps may be necessary to give effect to them.

The reply is signed by Sir William Tyrrell, assistant under-secretary of state, in the absence of the secretary.

MAJOR R. GILLIS DEAD.

Sydney, N. S., April 26.—Major Ronald Gillis, 50, soldier politician, architect and builder, died at Ross Hospital today.

Gets Watch Lost Twenty Years Ago

New York, April 25.—Elmer R. Sheridan, a tugboat captain of Long Island City, has recovered a watch which he lost 20 years ago. In 1904 he was sailing over the water in the tug Charles McWhirter, plying in New York Harbor, when the watch dropped overboard. About ten years ago a dredge at work in the creek dug up the watch, workmen salvaged it and pawned it in the shop of Morris Weiss, Brooklyn. On Wednesday Detective Tony Sado of the Hunters Point Detective Bureau was looking over articles in Wales' shop when he came upon the watch. Sado had seen a description of it many times in the records at the Hunters Point station. He took possession of the watch, and Sheridan identified it.

RITCEY'S CREW SAFE BUT VESSEL LOST

Schooner Well Known Here Set on Fire and Abandoned.

Halifax, N. S., April 26.—The crew of the tern schooner David C. Ritcey, Captain Legge, reported abandoned in a sinking condition on Wednesday of this week were rescued from the wreck yesterday morning by the S. S. Virginia, in latitude 40.10 N., longitude 66.07 W according to a wireless message from Cape Race received by the department of marine and fisheries here this morning. The schooner was set on fire before being abandoned.

The David C. Ritcey is a Nova Scotia vessel of 284 tons, and is reported to be now owned by John Newfoundland. He is known in St. John's.

UNITED STATES ACTS IN PEACE INTEREST

Central American States Join to Mediate in State of Honduras.

Washington, April 26.—Three Central American Governments, Salvador, Guatemala and Nicaragua, have accepted an invitation from the U. S. to participate in a conference at Amoy, Honkong, to mediate between warring factions in that country. A favorable reply also is expected from Costa Rica, and delegates will be dispatched by the four Central American countries in this new effort to restore order in the distressed state republic.

What Are Italians Doing In The Ruhr?

London, April 26.—A party of Italian officials has taken over the administration of coal fields in the northern district of the Ruhr, marking Italy's first active participation in the matter of the Meuse contracts, according to the London Daily News.

A despatch to the newspaper from Dortmund states that the action was taken on the suggestion of the French, and that the step is inexplicable if Premier Poincaré intends to carry out the recommendations of the experts' report in regard to Germany control of German industries.

Wire Briefs

Halifax, N. S., April 26.—A mandamus directing the City Council to restore L. Fred Monaghan to office as city clerk was refused by Mr. Justice Melish this morning. Monaghan was dismissed as a result of the recent independent audit of the civic departments.

Paris, April 26.—The presence of a J. P. Morgan in Paris is causing a flutter in French political and financial quarters. He is understood to have said that the details of the German loan could not be discussed at present.

Geneva, April 26.—(Canadian Press Cable via Reuters).—The special committee of the League of Nations commission for the reduction of armaments will assemble at Prague today to discuss the draft of the treaty of Canadian origin prepared by Colonel Carnegie.

Montreal, April 26.—Eight men were taken into custody during the night on warrants charging them with complicity in the murder of Henri Clouton of the Bank of Hochelaga collection car on April 1. The sum of \$8,000 in Canadian money was found in possession of Adam Parrolo, arrested in Bridgeport, Conn., yesterday in connection with the crime.

King and Prime Minister Go to Football Match Together.

SEES TREASURES

Girl Shown Through Windsor Castle by Queen—Week-end Stay.

(Canadian Press.)

London, April 26.—Ishbel MacDonald, student of domestic economics at London University and daughter of Britain's Labor Premier, will have the opportunity of observing Queen Mary's housekeeping methods this week-end when she will accompany her father to Windsor Castle in their first private, personal visit to Their Majesties.

This afternoon, while the Premier runs over to the big football match at Wembley with the King, Queen Mary will show Ishbel through the castle crowded with fabulous treasures in the form of tapestries, china and plate, the latter including the famous "gold and silver" estimated to be worth \$2,000,000 sterling.

After dinner Their Majesties will lead the way to the suite of drawing rooms where Queen Victoria used to stand on her little royal rug and hold her after-dinner court. There will be a little music, a little general conversation and royal and their guests will be off to bed with the promise of a late Sunday sleep. If they want, for their is no general breakfast table at Windsor.

The Premier and his daughter will have their private apartments on Sunday morning, but will be expected to be present at a special religious ceremony to be held in St. George's chapel by the Archbishop of Canterbury.

After lunch, if it does not rain, the King will show the Premier his gardens, a band will play on the terrace which was Queen Elizabeth's favorite promenade and the town folks of Windsor will be admitted to the grounds. On Monday morning the MacDonalds will leave the castle, Ishbel returning to her studies in London and the Premier travelling to Aberavon, Wales, to address his constituents on Tuesday.

FORMER PRESIDENT TALKS OF BANK

Says Management Had Been in Doubt Since 1914 and Was Discredited.

Ottawa, April 26.—(Canadian Press.)—W. A. MacFaffie, a former consultant to the president of the Home Bank, appeared for examination before the Home Bank Royal Commissioner this morning.

A letter written by Mr. MacFaffie to the western directors on September 28, 1915, was read by W. F. Lee, counsel for the depositors. In the letter Mr. MacFaffie reviewed the position of the Home Bank at that time.

The soundness of the general management was under doubt since 1914, he said. The eastern directors had confidence in Col. Mason, and objected to an investigation by the western directors.

Later, he wrote the eastern directors had lost confidence in him. The general management was discredited, Mr. MacFaffie, as senior branch manager, undertook to advise the western directors to take legal advice, and place the situation before the Minister of Finance.

Secret Societies Active in Germany

Berlin, April 26.—The ambassadors of the Allied Nations as a result of a decision taken by the council of Ambassadors in Paris, yesterday made joint representations to the German Government calling attention to the existence of secret societies in Germany said to be carrying on activities contrary to the treaty of Versailles and threatening the safety of the occupying forces. The representations request that the German government put an end to these activities.

Amherst, April 26.—A six-track racing circuit to include River Heights, Springfield, Oxford, River Philip, Parrisboro and Gulf Shore was organized at Springfield Junction last evening. The first race will be at Parrisboro on May 23, will be at Springfield on May 23.

Three in Family Die in 48 Hours

Huntsville, Ont., April 26.—Within forty-eight hours three members of a business family have died of pneumonia. George H. Wilgress, died yesterday morning, the last to succumb. Last week Mr. and Mrs. Wilgress and Mr. Glascock, a cousin of Mrs. Wilgress, who was living with them, were stricken. Mrs. Wilgress died on Wednesday, Mr. Glascock on Thursday, and Mr. Wilgress yesterday.

A MILLION DOLLARS GOES UP IN SMOKE

McAllister Steamship Co., New York, Loses Six Steamers By Fire.

New York, April 26.—The steamboat Grand Republic, a sister ship of the Generation Slocum, which was burned in the East River 20 years ago with the loss of 1,000 lives, was destroyed, and five other vessels were burned to the water line early today at their winter berth in the Hudson River, off 107th street.

The fire, caused by a gasoline explosion on a small unnamed barge, set fire to the A. M. Church and spread to the Highland, the Nassau, the Barton and the Grand Republic, before firemen had their hose lines stretched.

The ship employs on the Grand Republic barely escaped with their lives, many being forced to leap into the water. Two men were burned, one seriously.

All of the vessels were the property of the McAllister Steamship Company. Used in summer excursion traffic between New York and Bear Mountain on the Hudson. Loss of the vessels, it was estimated, represented \$1,000,000.

FOOTBALL TRAINS IN ENGLAND CRASH

Wreck Near Euston Station Results in Death of Two People.

London, April 26.—Carrying crowds to the championship football match here today, an electric suburban train crashed into the rear of an excursion train near Euston Station.

At least two are dead and between twenty-five and fifty seriously injured. Several cars on both trains were wrecked.

It was the only accident which marred the migration towards London for the match. Thousands have been arriving since before midnight for the annual football classic between Aston Villa and Newcastle to determine the possession of the English Association cup.

Wembley Stadium, London, April 26.—(By Canadian Press.)—Newcastle United today won the classic English Football Association Cup from Aston Villa by 2-0.

Both Newcastle's scores were made in the second half. Cowan scored the first goal and Seymour the second three minutes from the end of the match.

SUICIDE IS SEQUEL TO SLAYING

Woman Lawyer Ends Her Life in Sensational Chicago Case.

DRINKS POISON

New Light on Attempt to Wreak Vengeance on Rich Man.

(Canadian Press.)

Chicago, April 26.—Miss Wanda Elsie Stopa, a youthful attorney whose mad infatuation for Y. Kenley Smith, a Chicago advertising man, on Thursday led her to her home, where she shot to death an aged caretaker who attempted to protect Mrs. Smith from her wrath, staged the final act of her drama of vengeance in a Detroit hotel by drinking poison.

Additional light was thrown on the girl's preparation to avenge herself on the man who had refused to divorce his wife and marry her by Ernest T. Wood, a middle-aged taxi driver who took Miss Stopa to Falso Park, Smith's suburban home. Word was received that he picked up a woman resembling Violaine Glasgow, better known as "Ted" Glasgow, said to be a Russian of nobility and who posed as Miss Stopa's husband, from any connection with the shooting.

Logic was applied to her love for Smith by the young woman, who left a stenographic record of a system she had composed for them to follow. It was found in a notebook in her carried hole in readiness to come to the aid of a manager. You are the artist. I am the manager, she prefaced.

"Work," she bound herself to take "dictation" from Smith. "Companionship" she wrote: "I will hold myself in readiness to come to you whenever you may wish me outside of working hours." A later personal note, indicating a crisis in her relations with Smith read: "I feel that my attachment for you is becoming a sort of millstone about your neck, that you never intended it to reach the hectic stage it has."

HERE ARE TIMES-STAR PLANS TO GIVE NEWS OF ELECTION MONDAY

Announcements of City Contest Results by Megaphone at Office; Broadcasted by Radio and Told in Special Edition.

The Times-Star has laid plans to give the people good service on Monday evening in making known the results of the final election of mayor and two city commissioners.

Here is what this newspaper will do to give those it serves—the people—the returns in what has developed into an election contest of great interest:

No. 1.—The result of the voting will be announced by megaphone from the Times-Star building, poll by poll, as reporters bring in the figures.

Totals will be given from time to time. No. 2.—The results by polls will be broadcast by the Times-Star by radio. Those equipped with receiving sets need only tune in to 395 meters and station CJCI will do the rest. This is the first time in St. John that this will be done.

No. 3.—A special edition of The Times-Star will be issued promptly as soon as the result of the election is known. Reporters will be at every poll to telephone the figures to this office as soon as the count in each place is completed.

The public is invited to take advantage of any of these news sources to learn the election results. The Times-Star is doing this to serve the people and thus fulfill its mission as a live newspaper.

"SCOTTY" DROWNED

Was Original of One of Ralph Connor's Characters in "Black Rock."

Saskatoon, Sask., April 26.—According to a despatch from Drumheller, Alta., the body of Alec MacDonald was discovered in the Red Deer River last night as the result of directions given by a clairvoyant, who is giving performances there.

MacDonald, who is said to be the original of "Scotty" in Ralph Connor's "Black Rock," had been missing since November 11. He was a watchman at the Midland Mine.

Vandenhecke Is Sentenced to Die

Salem, Mass., April 26.—Cyrille J. Vandenhecke, convicted of the murder of Gislain Schurmann in Lawrence in August, 1918, was sentenced to die in the electric chair in the week of July 27, by Judge George A. Flynn, in Essex County Supreme Court here yesterday. Motion for a new trial has been denied and exceptions overruled when they were carried to the Supreme Court.

Vandenhecke fled to Belgium, his native country, after the body of Schurmann, bearing two bullet wounds, was found. Later he went to Canada. He was apprehended in Renfrew, Ontario, in February, 1923. The state charged that the shooting resulted from Vandenhecke's alleged intimacy with Schurmann's wife. Vandenhecke, protesting his innocence, heard the death sentence pronounced without apparent emotion.

DEADLOCK IN IRELAND DANGEROUS

Newspapers Both North and South Today Suggest Grim Possibilities.

FORCING THE ISSUE

South Quotes Treaty of 1921 Which Ulster Repudiates—Up to MacDonald.

BY HARRY N. MOORE (British United Press.)

London, April 26.—After six months of threats and promises of trouble, the differences between the Irish Free State and the Ulster Government have suddenly become acute over the boundary question. The conference, which has been going to sit for two years, has not yet held a single sitting, and negotiations broke down completely this week and matters are now at the danger point.

The differences have been kept quiet, in spite of the fact that many persons knew of their existence, until yesterday morning, when the Belfast newspapers came out with alarming stories and hinted that if Premier MacDonald makes any attempt to coerce Ulster into a speedy settlement by withdrawing British troops from the northern provinces, then the special Orange Constabulary will be at once called to the colors and massed on the frontier. One Belfast newspaper last evening openly hinted at the possibility of civil war.

The British Government is not slow in its power to bring about a settlement. The Colonial Secretary spent several hours on Thursday in attempting to get President Cosgrave of the Free State and Sir James Craig, the Premier of Northern Ireland, into a conference.

Ulster takes the stand that the British Parliament has overruled the decision of the Northern Ireland Parliament, while the Free State stands solidly by the terms of the treaty which the appointment of a boundary commission was made. Ulster refuses to appoint a member on the commission until its powers have been fully laid down.

The Free State Government contends that the British Government is not allowing good faith in this matter, and says that they cannot much longer hold the forces in the Dail who argue that the action of Ulster in refusing to appoint a representative and in hindering the setting up of the commission amounts to a positive violation of the treaty.

President Cosgrave says that it is up to the British Government to make the first move, and to force Ulster to such a conference, and it is hinted that if this is not done there may be a real effort made to establish an Irish Republic which will definitely sever its connection with Britain.

Dublin newspapers this morning hint openly at the possibility of civil war, and this is worrying the Colonial Office just as a threat of a rising in Egypt or India would worry them. A last effort is to be made by Premier MacDonald to get Mr. Cosgrave and Sir James Craig together over the weekend.

Murder Follows

A Pool Room Fight

Cochrane, Ont., April 26.—Wilfrid murder is charged against Nick Pashton, who shot Joseph LaFelle on April 21 at Island Falls, by the coroner's jury which yesterday investigated the circumstances.

Eye-witnesses testified that Pashton advanced as if to shake hands with LaFelle and when within a few feet he drew a revolver and shot him through the breast. The shooting followed a fight in a pool room. Pashton is still missing.

IRISH DEADLOCK IS DANGEROUS

(Continued from page 1) The Ulsterites take Ireland and the Government of Ireland Act of 1920, which gave them the six counties. This they regarded as a final settlement and the Belfast Ministers refused to become a party to the Treaty of 1921, which the British Government considered was a final settlement. They are understood to be agreeable to minor adjustments of the frontier line, but beyond this they will not go. The Free State Government, on the other hand, stands by the treaty and nothing but the treaty. Assuming that this move will be an amending act to compel Ulster to appoint a boundary commissioner the West Minister Gazette says that a matter might pass the House in three successive sessions.

DIED TODAY

This is a picture of the members of the first Dominion rifle team to compete at the matches of the National Rifle Association of Great Britain, shot at Wimbledon, England, in 1873. It recalls men outstanding in New Brunswick's life in their day.

The picture was taken on the lawn of the "Star and Garter" at Richmond, Sussex, England with other guests at a luncheon given by the Canadians by the "Canadian Club" of London, of which Sir Allan McNab was then the president and host at the luncheon.

In the photo are shown several other guests who presumably were members of the club and possibly ex-Canadians. These in uniform were members of the Ancient and Honorable Artillery Company of London. At the time this team sailed for Liverpool at 4 a.m. July 1st and proceeded to Alton, a suburb of

Liverpool for a two weeks' practice on the ranges of the Lancashire regiments, and then proceeded to London and detained at Putney Station, and then to Wimbledon Common where they were met by Sir Peter Tait who was then president of the National Rifle Association to look after the Canadians while at Wimbledon.

The Canadian quarters were very elaborately laid out within an enclosed camp, profuse with flowers, trees and shrubs, with a large marquee for the reception of visitors, as many were most kind in calling.

Karl Ducie, Commandant at Wimbledon H. Q. at Windmill Cottage had officers of the Canadian team at dinner each week and at one of the evenings, he had the honor of dining with Mrs. Mary of Teck, the mother of the present queen of England and other royals, including the Princess Louise and the Marquis of Lorne.

After the close of the Wimbledon meeting the team dispersed, returning home at their pleasure, many visiting friends or relatives in England. Major Otter attended the Autumn manoeuvres, while Colonel Peters and the present Lt. Colonel Loggie, the present Lt. Colonel Loggie, I. S. O. The late Surgeon Vail of Sussex, N. B., a noted rifle shot of the time, was among the members and Ensign Andrews at that time a resident of Montreal, was later on a resident of St. John, and is now Captain Andrews, retired, of Winnipeg. Another notable is Major General Otter who commanded the Royal Canadian Rifles in South Africa and now is retired.

PORTLAND LODGE HAS SOCIAL

In celebration of St. George's Day, members of Portland Lodge, Sons of England, spent a delightful social evening last night in their hall, Simonds street. An excellently arranged programme was carried out as follows:—Piano selection, Master Joseph Wells; selections, C. L. Laker's orchestra; Wakeham, L. Mowry, R. Saunders and R. Munroe; solo, George Noble; mandolin selection, Gilbert Doney; mandolin selection, Charles Wells, accompanied by his son Joseph; tumbling stunts, Messrs. Walter Evans, L. Monty, George Penabron and W. Winchester. Short addresses were given by Dr. J. H. Frink, Alexander Corbet and Com. Missionary R. W. Wigmore. The programme was greatly enjoyed, particularly the tumbling act and the instrumental duets given by Mr. Wells and his young son. The latter showed much talent as a pianist.

DIOCESAN C. W. L. HOLD SEMI-ANNUAL

Delegates are Here From Moncton to Attend the Meeting.

The semi-annual meeting of the Diocesan Board of the Catholic Women's League is being held this afternoon in Rosary Hall, with delegates present from the Moncton, St. John, and one in Moncton. Besides the officers, each sub-division is sending seven delegates. The out-of-town visitors were guests of the North End sub-division at a delightful luncheon at the Green Lantern tea rooms.

The officers of the diocesan board are as follows: President, Mrs. James Friel, Moncton; 1st vice-president, Miss Margaret McCloskey; 2nd vice-president, Mrs. F. J. Power; 3rd vice-president, Mrs. James Murray; secretary, Miss Alice Dever; recording secretary, Mrs. Fogarty, Moncton. Today is the feast of Our Lady of Good Counsel, patroness of the Catholic Women's League. This morning on an aching cold, instantly that corn stops hurting, then shortly you lift it right off with fingers.

IRISH DEADLOCK IS DANGEROUS

(Continued from page 1) The Ulsterites take Ireland and the Government of Ireland Act of 1920, which gave them the six counties. This they regarded as a final settlement and the Belfast Ministers refused to become a party to the Treaty of 1921, which the British Government considered was a final settlement. They are understood to be agreeable to minor adjustments of the frontier line, but beyond this they will not go. The Free State Government, on the other hand, stands by the treaty and nothing but the treaty. Assuming that this move will be an amending act to compel Ulster to appoint a boundary commissioner the West Minister Gazette says that a matter might pass the House in three successive sessions.

DIED TODAY

Mrs. Maria Cleveland McInnis of Fredericton died today at the home of her daughter, Mrs. W. S. Carter. She passed away in her sleep. She was 82 years of age. Her husband, James A. McInnis of Windsor, N. S., and her remains will be interred in Windsor.

Rev. A. McDonald, C. S. S. R. of St. Peter's church left last evening for Antigonish, N. S., where he will preach a mission. Rev. C. Reilly, C. S. S. R., who was in Antigonish, will proceed to Newfoundland to assist Rev. Anthony McBratney, C. S. S. R., on missions.

Mrs. A. T. Watton. Moncton, April 26—(Special)—Mrs. Albert T. Watton died at her home here early yesterday morning. Besides her husband, who 44, traffic manager of the Zoovetic Division, C. N. R., she is survived by three children, Cyril, Frances and Allison.

Vote for Potts, the people's candidate for mayor.

RECALIVES IN ST. JOHN SURVIVE

Judge Hanson, Who Died in Calais, Was Prominent Man.

Judge George McKay Hansen died at his home in Calais on April 15. He was born in Digby, Calais, and grew up in that community. He graduated from Calais Academy in 1875, and devoted himself to the study of law. From his early manhood he was prominently identified with the Democratic party, serving as alderman and twice as mayor of Calais, collector of customs at Gasport district under President Chatham, and candidate for Congress in 1910. He was Democratic member of the Tax Commission, appointed by Governor Cobb.

As a member of the Knights of Pythias from 1888, he was Grand Chapter of the Grand Lodge of Maine, and for some years one of the supreme representatives of Maine, passed through the highest offices in the gift of the order and was for six years a member of the Board of Control of the insurance department as supreme vice-chancellor.

Judge Hanson was for some years a trustee of Calais Academy, and of the Coburg Classical Institute in Waterville, Me. He was the first president of the men's class of the Second Baptist church.

Before the war, he was president of the Red Cross for Maine, and during the war he was chairman of the Eastern Washington County Chapter of the Red Cross. He was appointed associate justice of the Supreme Judicial Court of Maine by Governor Plunket on July 6, 1911, and reappointed by Governor Millikan in 1918. Judge Hanson was honored with the degree of Doctor of Laws by the University of Maine in 1914.

In 1888 he was united in marriage with Miss Elizabeth W. Farrar of Milltown, Maine, who survives him with three daughters—Mollie, at home, Mrs. George Barrows, a teacher of English in the Walton High School, New York, and Helen, a lawyer in Calais. There also is a grandson, George Hanson, who lives in Calais.

His public service and in his personal relationship, Judge Hanson was a noble exemplification of the ideals to which he pledged his life.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

ELINOR GLYN FILM IMPERIAL MONDAY

The eminent English novelist, Elinor Glyn, has written a series of love stories with elaborate scenic and social surroundings, as is shown in Monday's extraordinary feature at the Grand Theatre, her newest novel, "Six Days" is an Anglo-American romance in which the principals travel from New York to London, thence to Paris and the Belgian battlefields, take in the sights of Europe, wander and dine at the grandest hotels and in a general way it is most interesting story. A penniless American mother strives to look her daughter upon a man in the Paris opera. The dramatic scenes in the collapsed German dugout whilst the youthful lovers are sightseeing are most gripping.

CARROLL PLAYERS IN POPULAR BILLS

Tonight is the last opportunity of hearing the Carroll Players in "Rebecca of Sunnybrook Farm," which has been the popular Easter Week presentation. Miss Preston and Miss Coats appear to splendid advantage, and no follower of the popular stock company should miss this play, the most popular of all.

Next week that most popular of farces, "His Other Wife," will be offered, followed by one of the greatest New York successes, "The Bat"; and then the closing week, name of play to be announced later.

FUNERALS

The funeral of William J. Doherty was held this morning from his late residence, 40 Paddock street, to the Cathedral. Service was conducted by Rev. Roy McDonald. Many spiritual rest offerings were received. Interment was in the new Catholic cemetery.

CHILDREN GIVE HEALTH DEMONSTRATION

A practical demonstration of what has been learned at the "Little Mothers' League" at the Health Centre will be given this afternoon in the lecture hall of the Centre, when two playlets showing the best health methods will be given by the girls who have been attending the lectures. One of the playlets, called "Danger Valley," shows the dangers to which infants are subject, and how to combat them. The other illustrates the lives of two families in one proper living methods are adopted and in the other wrong ones. This shows the handicap which the boy or girl brought up under wrong conditions has to face in the battle of life.

A silver collection will be taken toward the cost of a hardwood floor on the clinic room. It was said today that one of the needs at present was a piano and a gift of a piano would be greatly appreciated.

PERSONALS

Miss Gretchen Green of Rothesay and Miss Johnston of Welsford left for the West on Monday. They will continue their work with the Frost & Wood Co., Ltd., whose head office is in the Maritime Provinces is being removed to Toronto. Two sons died Monday for Ottawa to visit her parents, Mr. and Mrs. F. H. will return to St. John early in June.

Friends of Miss Emma Rodgerson will be pleased to learn she is recovering from an illness which necessitated her removal to the General Public Hospital.

Mrs. Bessie Burdell and son, Harold, of this city, are to leave tonight for Los Angeles to make their home with T. Elmer Burdell.

HAD ROUGH VOYAGE

Mrs. W. B. Spragg of Main street, expects to leave for St. Stephen early in next week to join her husband who is in command of the three masted schooner George Jenkins, which is due to arrive here from New York with a cargo of coal. Captain Spragg purchased the schooner some weeks ago and is making his first passage in her. After leaving New York she encountered very strong weather and during one of the worst periods, a mate named Howard, who was a native of Ohio, was washed overboard and drowned. The schooner also lost her 10-foot boom and topmast and put into Rockland, Me., for repairs.

TO THE ELECTORS OF ST. JOHN.

Ladies and Gentlemen—Monday, the 25th of April, being Election Day, I particularly request that my friends and supporters will go to the polls and vote.

Having a substantial majority in the primary election, it would not be unreasonable to presume that my chances for election are good. Chance is, and always was, a poor partner. The deposit of a ballot in the box for your humble servant moves chance out of the picture. The casting of a ballot is a trust provided by and guarded by laws and as such do not let anyone fool with your ballot. If you elect me you are not experimenting. You know what you shall receive. Vote early and wisely. Yours faithfully, JAMES H. FRINK, Adv't.

The Hidden Quality of the Gray-Dort

THE beauty of the Gray-Dort line is apparent to every observer. It has long been the outstanding car of its class for appearance.

But underneath these beautiful bodies is a quality of materials and design and workmanship which is amazing in cars at Gray-Dort prices. Here is tangible evidence of the intention of the new Gray-Dort management to give the greatest automobile value ever offered in Canada.

Every vital part of the Gray-Dort has been checked and tested by engineers under grueling conditions. Every change they recommended has been made. An entire new rear axle was designed. A new disc clutch was built into the car. New rigid inspection rules were established.

Every Gray-Dort car is now absolutely right in every detail. One drive will convince you that never before have cars of this class given such performance. And the performance is permanently built into the Gray-Dort for years and years of satisfaction to you.

See the new Gray-Dorts; find out what they will do; and learn the low prices.

MONDAY'S CIVIC DUTY.

On Monday the citizens of St. John will elect a Mayor and two Commissioners. One of the old Commissioners was defeated in the primaries. Whether the other one who is a candidate, and the Mayor, will be re-elected or either or both of them defeated, will appear at the close of the polls on Monday. The issue will be decided by those citizens whose taxes are paid and who take the trouble to cast a vote. It may be hoped that a larger percentage of the total qualified number than was cast at the primaries. So far as the majority is concerned, the citizens have to decide which of the two men in the field they would prefer to have as the first citizen of St. John for the next two years. With regard to the commissionership, they would be to declare whom they believe to be the most capable administrator of an important department for the next four years, as well as a member of the city executive to pass on all matters coming before the council.

The issues are purely civic, and no other consideration should have weight with any elector. Except for the incident of a recall there will be no opportunity for two years to rectify any mistake made on Monday.

A good deal of interest in the campaign had developed before the primaries were held, and it has been much more lively in the last two weeks. The candidates have been busy, and each appears to have a fairly active organization. It should not be necessary to urge any voter to go to the polls. Everyone should be sufficiently interested in the city's welfare to make a choice and support the candidates chosen.

Additional interest will attach to Monday's vote because the question of the proposed vocational school is to be decided.

WORDS OF CHEER.

President Beatty of the Canadian Pacific told the Sherbrooke Board of Trade last night that Canada's fortunate position among the nations is no longer a debatable point. It is quite right, Canada is most fortunate. She has the area, the resources, and the geographical position in relation to the rest of the world. Her needs are plentiful and money, and both are available. She must, however, choose the people with care and in expending money consider carefully the need and the probable return. Mr. Beatty advises caution but insists upon that spirit of confidence which is warranted by Canada's potential wealth. He has no place for the pessimist.

The President of the Canadian Pacific speaks in a national sense. His view embraces the whole northern half of the continent. He is speaking of the Dominion as a whole. What he says, however, applies as well to a province or to a city in Canada. There are the same opportunities in a lesser degree. There is the same room for expansion and development. There is the same need of a confident and determined spirit. There is no place for pessimism. However dull the outlook at any particular moment, the larger vision will pierce the clouds and behold the future growth and greatness.

It is to be feared that when times are dull the tendency of too many people, including some who ordinarily are in times of activity are leaders, is to magnify the present depression and fail to discern the brightness ahead. This spirit would discourage enterprise, make bad worse, and postpone the day of improvement. It is well to be prudent and not to plunge, but it is fatal to sit with folded hands. There is a measured optimism that is never daunted, but always finds a reason for pressing toward a goal whose existence is never questioned. It makes for individual success in life, for the growth and expansion of provinces and states. President Beatty and the men behind the Canadian Pacific have it, and they prove it in their works. Where should this spirit of measured optimism be more in evidence than in St. John, which is the Atlantic terminus of the C. P. R. and a port situated on one of the great trade routes of the British Empire?

JOCKEYING FOR POSITION.

A curious situation has arisen in the House of Commons at Ottawa over the amendment Mr. Woodsworth moved in the budget debate. The amendment, we are told, was in effect the same as a Progressive moved last year, and which was accepted by the Speaker. It appears that when Mr. Woodsworth made his motion the Speaker suggested certain alterations, which Mr. Woodsworth apparently accepted. However, he carried both the original and the changed form of the amendment, and both were challenged by Hon. Mr. Meighen. Mr. Woodsworth then stuck to the original form of the amendment and is said to have expressed suspicion in regard to the changes that had been made. Of course the Speaker is above suspicion, and

could have no design in changing the form of words other than to make the meaning as he understood it more clear. It is incredible that he would deliberately propose changes that would enable him to rule the amendment out of order. However, the matter is now up to him, as Mr. Meighen has challenged both forms of the motion as out of order. If he could get the Woodsworth amendment out of the way there would be opportunity for one moved by Mr. Doucet of Kent, declaring for "a consistently maintained protective policy." The Speaker will give his decision on Monday. The incident affords an interesting example of jockeying for position.

GUESTS OF ROYALTY.

The story of Queen Mary showing the young Scottish maiden, Isabel MacDonald, through Windsor Castle while King George and the maiden's father are together at a football match, will touch a sympathetic chord in every heart in the Kingdom and the Empire. Of course the Scottish maiden is the daughter of the Prime Minister, and it is the Prime Minister who is this afternoon with the King at Wembley; but, who, even a few short years ago, would have pictured Ramsay MacDonald and his daughter as intimate guests of Royalty at Windsor? It is true the Labor Premier is a man of fine culture, and has proved himself a statesman of high rank, while his daughter has had excellent educational advantages and the rare companionship of parents wise to guide and counsel her; but they represent the class which in former years did not receive Royal recognition to the extent now accorded.

We may be very sure both King and Queen will delight to entertain their guests, for they, too, are democrats in spirit, and do not need to peer under a coronet to discover genuine worth of character; and Windsor Castle has sheltered many far less worthy guests than the Scottish maiden and her distinguished father.

A GRIM RECORD.

Dr. V. V. Anderson, director of mental hygiene, New York, made a very striking statement in an address in Toronto this week. He said:

"Fifty thousand new patients entering the hospitals for the insane in the United States every year and 500,000 men, women and children locked up in prisons and correctional institutions! This figure alone, to say nothing of the larger number convicted but not sentenced, or arrested and not convicted, or criminals not caught, makes crime one of the most outstanding and menacing problems that face our nation today."

Those who are prone to weigh the cost of public health measures and the proper treatment and care of children from the physical and mental standpoint would do well to give thought to the financial burden the care of insane and of criminals imposes upon the nation. Dr. Anderson referred to this aspect of the case and then said:

"Yet these conditions are in a large measure preventable, providing proper scientific principles are applied and treatment given to serious personality defects, mental twists and conflicts of the children's lives. All that point to shipwrecked lives. All constructive social forces must be centered on the training of children for a wholesome and socialized adult life." The remedy lies in the last sentence quoted. The children must be treated for bodily and mental defects. The cost would be far less than that of caring for adults who had drifted into crime or insanity, for there would be the actual benefit derived from the correction of defective children into producing factors in the community.

A London cable says that the collapse of the Irish Boundary Conference was anticipated. The Irish Treaty made provision for just such a contingency and a Boundary Commission will be established. It is inconceivable that north and south would go to war over this issue, serious as it may be. Surely Ireland has had enough of war.

Kent County, N. B., appears to be much in the limelight at Ottawa. Hon. Mr. Copp took occasion yesterday to deny that he had made certain statements which were attributed to him. Mr. Doucet, for a new member, is taking quite a notable part in the discussions in the House.

The career of the late Charles F. Murphy, Tammany leader, was a striking illustration of what a clever man, even if uneducated, can do through political manipulation in the city of New York. That polygot city lends itself to bossism, and Mr. Murphy was a born leader of the boss type.

GO AFTER THE BUSINESS.

(Moncton Transcript.)
When the suggestion was made a few months ago that a representative delegation from the Maritime Provinces should proceed to Western Canada to impress upon the exporters and importers the advantages of routing their traffic through Canadian ports, the Transcript pleaded for prompt action. There is a strong feeling that this delegation should go now, and the suggestion is finding fresh support.

The St. John Telegraph-Journal declares that "there is no business reason against the shipment of freight through Canadian ports," and that "from a sentimental standpoint Canadians should be true to their own interest by advancing and promoting the prosperity of such ports as St. John and Halifax in winter, and Montreal and Quebec in summer." We need, however, to advertise our facilities, and there is no place where they can be so well advertised as in the western provinces where much of the export freight originates. Some time ago at a conference in Halifax the suggestion was made that the Maritime Provinces should operate in making known to the rest of Canada the export facilities that we have. Nothing as yet has been done in this direction. It is to be hoped that something will be done forthwith, and it is encouraging to find increasing support of the idea. It is known that Sir Henry Thornton is strongly in favor of such a delegation and believes it would have splendid results. The similar delegation which went from Portland last year returned enthusiastic over what was accomplished. Mere talk about the Confederation pact and the results it has failed to produce in the Maritime Provinces will get us nowhere. What we need now is action. We need to get after business. The Toronto Globe and other influential newspapers in upper Canada and in the West have again and again advised the Maritime Boards of Trade and City Councils to arrange for a delegation and have assured us that it will everywhere be warmly received and that the western shippers will welcome the opportunity to learn about the Maritime problems and particularly about the Maritime ports. By all means send a delegation as soon as possible.

A BIRTHDAY.

(Arkansas Gazette.)
Smooth the cloth across the boards,
Crystal and the silver bring;
And one small cake and let it go—
With seven candles in a ring.

And now I set them all alight,
The seven candles in a ring,
How bravely bright the flame points glow!
How bitter is remembering
That all the years that are to be,
The empty years that Time shall bring.
May never add one candle more
To seven candles in a ring.

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent. air and 6 per cent. common kerosene (coal oil).
The inventor, G. K. Johnson, 248 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

Use Bread
When cooking cabbage or cauliflower, drop a piece of hard, stale bread into the water just as it starts to boil and let it stay in for about 10 minutes before you skim it out. Much of the objectionable odor will have been absorbed by it.

Paperhanging now Simplified

Do you fully realize how much more simple, easy and rapid, paperhanging has become with the perfection of semi-trimming?
Consider the difference between this and the old-fashioned methods. Staunton Semi-Trimmed Wallpaper eliminates all trimming. You simply give the ends of the semi-trimmed roll a rap on table or floor and the selva falls off. Then cut the strips the required length and apply paste. Hang the paper—and the result is a perfectly butted job.
Staunton Semi-Trimmed Wallpaper is accurately trimmed for you in course of manufacture. It saves time, prevents muss and disorder, and simplifies the work throughout. It is to the advantage of all who hang wallpaper to use Staunton Semi-Trimmed Wallpaper.
Ask your dealer to show you the patterns.

WEDDINGS

Brown-Pendlebury.
St. Andrews, April 24—A marriage of interest to many St. Andrews and St. John friends took place in St. George's church, Montreal, when Miss Mary Marjorie Pendlebury, daughter of Mr. and Mrs. Thomas E. Pendlebury, of St. Andrews became the bride of Walter Charles Brown, of Walkerville, Ont., formerly of St. John.
The bride was gowned in navy tricot suit, braided trimmed, with hat to match in cloth effect, and wore grey crepe overblouse, grey shoes, stockings and gloves, and fur of grey fox. She carried a bouquet of bride's roses and maiden hair fern. Following the ceremony the happy young couple left on a wedding trip to Toronto, after which they will make their home in Walkerville, Ont. The bride was the recipient of many beautiful gifts of silver, linen, china, etc., testifying to the popularity of both bride and groom. Mrs. Stanley Deak, of St. Andrews, a sister of the bride attended the wedding.

WOULD GIVE VOTE TO GREEK WOMEN

Athens, April 25—The Republican Premier, M. Papaniastasiou, replying to an address by "The Women's Little Entente"—an association aiming at the promotion of women's rights in the countries of South-Eastern Europe, Poland and Czechoslovakia, stated that he viewed this movement with great satisfaction, as being likely to strengthen friendly relations with Greece's neighbors. As regarded the political enfranchisement of women in Greece, he said that the Republican party would introduce it gradually, beginning as soon as possible with the concession of the municipal franchise to women.

HOW TO BE HEALTHY
By LILLIAN LEITZEL
World's Greatest Aerial Gymnast
EXERCISE AND GOOD HEALTH

These exercises aren't suggested merely for those who think they are too fat and want to reduce. They aren't meant for persons who want to become professional acrobats. They are meant for every man, woman and child who wants to be healthy. Properly applied they will make for health, beauty and longevity. They will make for red cheeks and healthy color from the inside, not from the outside. No matter what you do, do it as an exercise. Be it walking to the store, do it with swank and swing. Shoulders back, head up, chin in. Be it sweeping, do it with shoulders back head erect and stork swing. Be it hanging on a strap in a crowded street or sub-

way car, pull up on it, as I do on my rings in the arena. Little equipment is necessary to get the proper exercise. Jumping the rope, climbing, throwing a basketball and punching the bag strengthen the muscles and develop circulation and grace. It is the spirit that counts, not the trimmings. My mother is past 87. Yet she is lithe and graceful enough to do a turn in the circus. Her health is perfect. Her secret: exercise. No strict rules of abstinence need be laid down. If perchance you like smoking, smoke, but not to excess. Don't let the faddist worry you. Act as you please, healthfully and with vim, and you'll never have to worry about dieting, daily dozens or any of the other bans which make so many persons' lives miserable.

READY TO DISSOLVE N.F.L.D. LEGISLATURE

Election in Ancient Colony Last of May or First of June

St. John's, Nfld., April 25—Sir William Allardice, Governor of Newfoundland, has assented to the request of Premier Warren for a dissolution of the local Legislature which was summoned to meet for business only yesterday. Writs will be issued for a general election within a couple of days, and a poll will be taken during the last week in May or the first week in June. The indications at present are for a three-cornered fight with the Warren party and the Opposition party in the field, and a third organization, headed by Sir Richard Squires, figuring in the fight. At the dissolution of the House the standing of the parties was Warren Government party, 18 members, Opposition party, led by Sir Michael Cashin, 18 members, and insurgent group, led by Sir Richard Squires, five members. The dissolution of the General Assembly of Newfoundland after only the opening ceremonies of the first session had been concluded is due to the defeat yesterday of the Warren ad-

ministration on a no-confidence motion by a majority of one vote.

Indigestion Gas On Stomach Pains After Meals

Many people suffer terribly from gas and pains in the stomach after every meal, and are kept in constant misery. For the past 44 years Burdock Blood Bitters has been bringing hope and joy to thousands suffering from various forms of stomach trouble, helping them to eat three square meals a day, helping them to eat anything they wish, without having to suffer for it after. Mr. Fred Nielson, Moose Jaw, Sask., writes:—"All last summer I was troubled with stomach trouble and indigestion, and also gas on the stomach. I could not eat anything except some light food and even then I would be bothered with pains after each meal. I could not work a whole day without being done out. I had tried everything—doctors, medicines and pills, until I read about Burdock Blood Bitters. I have taken four bottles and it has nearly, if not completely, restored me to health again." The Standard among Cars of Quality

THE marked preference for McLaughlin-Buick Master-Sixes among Canadians who drive cars of the better class is noticeable to even the casual observer and, is confirmed by official motor car registrations. This supremacy of McLaughlin-Buick is due to the fact that year after year McLaughlin-Buick engineers are pioneers in the developing and adopting of new features of design, construction and equipment so that McLaughlin-Buick cars are at least two years in advance of the accepted standard. Four-wheel Brakes, new body design, more powerful and automatically lubricated motor and many other improvements establish a still higher standard for "Canada's Standard Car".

Why it Pays to Insist Upon Gum-Dipped Cords
Tires look much alike before they go on your car. But tires do not wear alike. It is the things you cannot see—the hidden values—that determine tire life and ultimate cost. You can make sure of obtaining a tire that wears better and so costs the least in the end by insisting upon Gum-Dipped Cords. Gum-dipping insulates each cord with pure, live rubber—prevents wear by keeping the cords from rubbing against one another. Firestone Cords are gum-dipped. It is this Firestone process that multiplies mileage and noticeably reduces tire costs in a single season. Firestone Tubes are steam-welded—therefore leak-proof. This keeps tires properly inflated and better mileage results. Ask your dealer.

PREMIER VENIOT INVITES MOTOR PARTIES TO ROADS CONVENTION

Urges Scenic Route to June Gathering in Saint Andrews.

An indication of the steady progress that has been made in the development of the highways of the Dominion since the formation some eleven years ago of the Canadian Good Roads Association is given in the invitation which has been extended by Premier P. J. Veniot, Prime Minister of New Brunswick, to the delegates to motor to St. Andrews by the Sea for the eleventh convention from June 24 to June 27 inclusive.

The holding of the convention towards the end of June at the famous holiday resort of New Brunswick provides an unique opportunity to combine pleasure with business and already tentative arrangements have been made by parties of delegates in Ontario and Quebec to motor down to the seashore for the gathering.

The Hon. P. J. Veniot, Premier of New Brunswick, has, through the officials of the Good Roads Association, sent out a cordial invitation to the motorists of Canada to make their trip to the convention city by motor, as the following letter shows:—

"To the Motorists of Canada: Sir,—As the convention of the Canadian Good Roads Association will this year be held in St. Andrews By-the-Sea, N. B., between June 24 and 27, I take pleasure in extending a cordial invitation to all delegates who anticipate attending this convention, to motor to the convention city, and I would especially invite them to do so by way of the Atlantic highway between Montreal and St. Andrews. I have myself taken this trip on several occasions from Montreal to Quebec City, then on to Riviere du Loup and from the latter place by way of the highway from Riviere du Loup to the town of Edmundston, N. B.

"This entire route was, last year, in first class condition. The route from Edmundston to the convention city would be by the way of Grand Falls to Woodstock and on to Fredericton, thence to St. John and from St. John to St. Andrews. This highway, which is entirely in the Province of New Brunswick, is also in first class condition. The beautiful scenery all along the St. John River from Edmundston to St. John is one which I am sure will be immensely enjoyed by you all. Hoping that a goodly number of the delegates to the convention will avail themselves of the route above outlined to reach the convention city and enjoy the scenery through the Province of Quebec and New Brunswick, I am, respectfully yours, P. J. Veniot, Premier."

One of the most important matters that will come before the convention in June will be that of "Who should pay for the road" with particular attention to the question of federal aid for the highways of the Dominion. This has been a fruitful subject of discussion at previous conventions and inasmuch as the federal grant under the Canada Highways Act of 1919 came to an end last month, interest in the question will be the stronger in view of the pronounced views taken by public men from every province of the Dominion to extend the operation of the act and make further grants for highway development.

At the Hamilton convention of the association last year the Premier of Nova Scotia, the Hon. E. H. Armstrong, spoke strongly on the subject, maintaining that it did not interfere in any way with provincial rights under the B. N. A. Act, that after all it was the taxpayers of the whole country who provided the federal revenue and that as it had been admitted that present day traffic on the highways was much less local and more international and national than in years gone past, the federal government should set aside part of the national taxpayers' money for the betterment of highway transport facilities, with a view to encouraging production and stimulating trade and commerce.

At the 21st annual meeting of the Ontario Good Roads Association the present Deputy Minister of Highways for Ontario, S. L. Squire, chairman of the executive of the Canadian Association, maintained that those who benefited by the roads should pay for them and inasmuch as the use of roads is universal, then it was necessary that everybody who uses the roads should pay a fair share of the cost of construction and maintenance of them. Roads could no longer be considered as performing a simple and local function and the improvement of them has a national aspect.

Mr. Squire pointed out that the post office department for its rural mail service used no less than 75,000 miles of roads and including its stage routes some 120,000 miles, it was in the general public interest that those roads should be in good condition so as to reduce the cost of transportation over them. He further argued that it was no good spending millions for colonization and immigration unless the settlements were given accommodation in roads so that they could get their produce to market. Furthermore good roads aided the automobile industry from which the federal government received a big and increasing revenue, and as roads contributed to the wealth of the Dominion they should be contributed by the Dominion Government, which should also do everything in their power to encourage inter-provincial good feeling, in which work improved highways were an important factor.

ALEXANDER CORBET

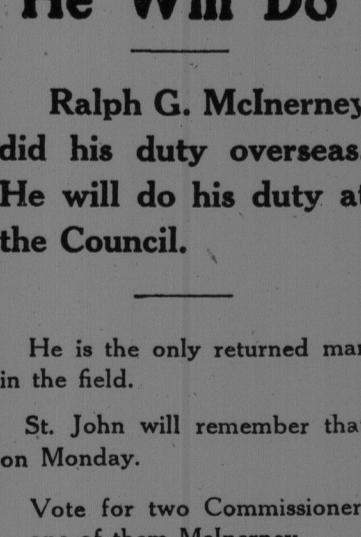

Strong Probability Alexander Corbet Will Be Elected By A Large Majority Monday

It will be credited indeed to find when the votes are counted Monday evening that Alexander Corbet is elected by a large majority. It will be the dawn of a new civic spirit and a determined declaration for business government. Since the primary election thousands of taxpayers have read Corbet's platform with great satisfaction and now realize what the carrying out of his platform means to every citizen. Further every voter knows Alexander Corbet can be relied on to do just what he says he will do. Corbet is pledged to lower taxation. He is pledged to a business administration of civic affairs. A strong supporter of Hydro from the very beginning, he believes that Hydro can be made of great service to the people by introducing cheaper power which will revive our industries and establish new ones making more work for the working man and more money in circulation for everyone. WILL NEED NEAR 4,000 VOTES TO WIN MAYORALTY

Position if Percentage Voting is Same as in the 1922 Finals.

Should the same percentage of the electors cast their ballots as did in the 1922 final the man who receives more than 3,764 votes will be elected mayor of the city for the next two years.

In the final election of 1922 of the 9,708 who were eligible to cast a ballot 7,486 went to the polls and voted. Should the same percentage vote this year the total vote would be 7,327.

In the primary election this year about two-thirds of the number of eligible voters took the trouble to go to the polls and cast a ballot for one or the other of the candidates for the mayoralty and commissionerships.

Vocational Education is 100 Years Old in Europe. It is now prominent in the educational program of all civilized countries. Every state and province on this continent, north of the Rio Grande has adopted it. Such national importance is attached to the vocational training of our people that the Federal and Provincial Governments offer large grants for its encouragement. In New Brunswick this aid amounts to 44% of the total cost. Every Canadian city except St. John, over 30,000 in population, is now utilizing Government funds to develop the technical knowledge and skill of its young people. Last year over 70,000 were in the vocational schools of this country. Each community must decide for itself regarding the adoption of Vocational Training. The Government can only assist after the locality votes to go forward.

Mayor Fisher during his short term of office (one and one-half years) has not only given the people "Hydro" and protected it against numerous attacks, but has also made a study of tax-paying conditions and has had an Act passed by the Legislature which allows the City to double the amount of the income exemption in cases of married men with children, and he intends to arrange for payment of income taxes in installments, free of interest and without loss of franchise.

Electors show your appreciation of what he has done and give him time to finish his work on "Hydro" and taxes. Candidate Potts' story of a widow and her house painting taxes is a fabrication. No such case has ever been brought before Mayor Fisher. Citizens paint your houses as no increase in taxation will be caused thereby.

VOTERS VOTERS

When Voting on Monday, mark you Ballot as above and ensure the advantages of VOCATIONAL EDUCATION for our boys and girls.

A VOCATIONAL SCHOOL WILL---

- 1. Hold the pupil in school—give wider cultural education as well as training for future vocation for both boy and girl. 2. Give the boy entering industrial work advantages similar to college training for the boy entering professional lines. 3. Provide opportunities for adults to increase efficiency and earning power while still "on the job." 4. Reduce retardation of pupils and expense of education—give school graduates greater earning power by reason of efficiency and fitness for immediate skilled employment. 5. Cost only about \$50,000.00 per year—a tax of less than \$1.00 per \$1,000.00 valuation.

The Government will pay 1/2 cost of Building and 1/2 cost of Equipment and 60 per cent. of Salaries, etc.—this assistance lapses if not secured by June 1925—To get it we must ACT AT ONCE!

Vote "YES" for Progress and Prosperity of our City's future!

The establishment of a Vocational School is endorsed, and this appeal is published by THE GYRO CLUB of St. John.

Vote for E. L. Potts, the People's Candidate for Mayor

FIVE (5) YEARS' EXEMPTION ON ALL IMPROVEMENTS will cause at least \$400,000 to be expended with the carpenters, painters, contractors, electricians, etc., within one year. As for getting industrials, no one man could do that, but if I could get the citizens together and they will say we will buy boots and shoes, (and I give this just as an illustration of other things) made only in St. John, then you would have a factory inside of one year, employing at least one hundred (100) hands.

WILL YOU HELP DO THIS? ECONOMY MUST BE THE WATCHWORD, and the greatest effort on the part of the people by a real live wire is, I believe, our only salvation. VOTE FOR POTTS, The MAN WHO HAS DONE THINGS AND NEVER BROKE HIS PLEDGE TO THE PUBLIC. PHONE POTTS' HEADQUARTERS, MAIN 1596, AND CONVEYANCE WILL BE SENT FOR ANY ELECTORS ON ELECTION DAY.

SAY JEWS DID NOT CRUCIFY SAVIOUR

Rabbis Declare Romans Responsible; Toronto Minister's View Opposite.

From Rabbi Brickner of Toronto comes the opinion: "I quite agree with Dr. Krass, who said in New York that the Jews were not responsible for the crucifixion of Jesus."

was the first thing Jesus said, was a string of pearls taken from the Jewish jewel box," said Rabbi Brickner.

Not According to Law. "So the Jews had no reason to crucify Jesus and all the facts of the New Testament and history show that they were not responsible and there are many more besides those that Dr. Krass enumerated."

Besides the fact that the Jews had no desire to put Jesus to death, the rabbi raised many points to show that it was impossible by all the laws of the Jews for them to do so. Crucifixion was not the method of the Jews in putting to death. They stoned thieves and criminals. Crucifixion was the method of the Romans.

"Furthermore, three of the gospels say that he was tried on the evening of the passover. The Sanhedrin never tried cases on holidays, and it was impossible according to the laws of Jew-

ish jurisprudence for it to try a case in the evening."

Variation of a Day. Rabbi Brickner says there is no accurate account in the synoptic gospels of the death and crucifixion of Christ.

There is a variation of a day between the versions of Matthew, Mark and Luke and the version in the gospel of St. John. As to the date, but there is everything to show, he maintains, that the Jews were not guilty of the crime.

They had no reason to want to put Him to death. But the Romans did, because the Saviour was "thorn in their flesh," said the rabbi.

Rabbi M. H. Levy of 288 Bathurst street said: "It is impossible that the Jews crucified Christ, because at that time the Jewish authorities had no right to punish anyone with death. The Romans took away that privilege many years before the time of the death of Christ. It simply could not be done by the Jews at that time. They had to go to the government about anything like that. The Jews were always very careful with their power anyway. The Jewish judges, the Talmud, did not believe in capital punishment at that time."

Dr. Davies Disagrees. "I think as far as historical evidence serves—and we have no other guide whatever—that the Jews were mainly and directly responsible for the crucifixion of Jesus," said Dr. Trevor Davies of the Eaton Memorial church.

He is commenting upon a despatch from New York in which Dr. Nathan Krass

Vocational School THE COST TO THE CITY

The Board of School Trustees unanimously favor the erection of a Vocational School. All citizens admit its desirability, but some question the wisdom of incurring the expense at present. More school room is imperative in the upper grades. If the Vocational School is built now, \$137,000 Government aid is available, and the present congestion will be relieved. If the Vocational School is not built, a new High School will have to be built out of City money entirely. With Vocational Training, Government grants of 60 per cent. of the salaries (estimated equivalent to a grant of \$29,000 annually) are available. This assistance will partly apply to scholars for whose education the City is now paying in full, but who will transfer from the ordinary schools to the Vocational.

LIBEL CASE IS HEARD IN COURT

E. C. Goddin, Chatham, applied for the position of manual training teacher, and Miss E. Giffin, Richibucto, applied for the position of teacher of French. It was said by Mr. Green that the appointment of a teacher of French must come before the Board before very long. A letter from the Municipal L. O. D. E. contained an offer of \$30 towards the presentation of a framed set of I. O. D. E. War Memorial pictures to King George school, the School Board to provide the additional \$25 required. No action was taken. The Free Kindergarten Association wrote of the need of a training class for kindergarten teachers in St. John and asked if the Board could grant \$800 to \$850 towards the establishment of such a class. It was stated the Board was not in a position to make any further grant beyond the \$5,000 being given.

WEST SIDE FAIR.

The fair and high tea of the Assumption parish in St. Patrick's hall, attracted a large crowd last night and all of the games were well patronized. It was the last night for the supper and about 120 were served. The prize winners were as follows: Bean toss Vincent Curry; ten pins, Vincent Joyce; bagatelle, Leonard Lynch. Tonight will be the close of the fair. In the civic election candidates contest P. L. Potts was leading for Mayor and W. L. Harding for commissioner. Japan's loss by the earthquake is figured at slightly more than \$1,000,000,000.

Hospital for Nervous Diseases, but it was for physical treatment and not mental. She admitted receiving a form from the Health Centre. She denied having gone under the name of Winnie Munro.

First Battalion St. John Cadets

Will You Give Some Boy a Uniform?

- It Costs Seven Dollars and Fifty Cents. (\$7.50) About 700 boys are waiting for it. You should be interested because: (1) The Cadet Movement is beneficial to the boy in every way, in mind and body. (2) It gives him a summer camp with supervised training in First Aid, Athletics, Games and Sports and plenty of enjoyment without cost to him. (3) If you do your part the Government of Canada will provide the summer camp FREE and will contribute towards other expenses. (4) But the boy must have his uniform AT ONCE in order to secure the Government's aid. (5) Will you arrange to outfit one boy, or more, and give him the Physical Training, the Sports, Games and the Summer outing he otherwise could not get?

PLEASE SEND CONTRIBUTIONS TO: Major G. G. Anglin, M. C. Treasurer, Box 45, City, or 39 Princess street; or telephone Main 361 1/2 and a messenger will be sent for your contribution.

St. John Has 1,300 Trees Under Care In Streets and Squares

PLANS FOR SUMMER ARE TOLD

H. E. Goold Finds Success Being Achieved After Early Obstacles.

WAS UPHILL WORK

Details Beautifying Projects Planned—Chief Work on West Side.

St. John has not been able to emulate the example of Fredericton and Moncton, and convert its streets into leafy avenues.

The smoke is a deadly enemy of the maples, and is most destructive in the streets that run north and south.

Free Population 1,300. However, St. John has quite a number of trees.

Mr. Goold said to the Times-Star that after experimenting for several years and seeing so many trees die he was discouraged.

Queen Square West. The most important work in the squares this year will be in Queen Square West.

In King Square. The feature of the work in King Square this year will be extensive new plantings.

The People's Attitude. Mr. Goold said to the Times-Star that a wonderful change in public sentiment had come to pass in the last ten years.

What Mr. Goold does for the city is not in a merely advisory capacity, and he receives no remuneration except a small amount from the Arboriculture Society. He loves the work and is rewarded by its success.

GUIDE MOVEMENT SPREADS RAPIDLY

Recognition of Boy Scouts and Girl Guides Gives Great Pleasure.

London, April 25.—The annual report of the Girl Guides gives an indication of the rapid growth of the movement. Incorporated in 1915, in 1917 it had a world membership of 30,000.

A branch of the Girl Guides' work about which little is known is that known as "Lone Guiding."

Sea Guide Branch Grows. The Sea Guide Branch, too, is growing steadily, there being now 22 companies and a Lone Sea Guide Circle in Scotland.

Delicious refreshments were served and later the floor was cleared and dancing was the order of the evening.

Today's press carries the statement that there is doubt about the continuation of government support of vocational schools after four or five years.

Now these grants are just as important as any other statutory aid to education under provincial enactment.

They can only be withdrawn by changing the law. This of course can be done, but it is not probable that the government, after encouraging development in vocational education, and a special point is made of getting in touch with Guides who are leaving England and making it easy for them to do guiding where they are going and to receive a welcome from Guide people overseas.

The International Council's object is to keep in touch with and help the movement in foreign lands. It cannot, of course, exercise any jurisdiction, but it always ready to give advice and co-operation. Thus in 1923 a party of Danish Guides was entertained in England. Two Syrian ladies, members of the movement in their country, were shown the work at Foxlease and helped to study the organization and reports.

Other visitors included a Polish lady, two Italian girls, two ladies from Palestine, a Guide worker from Oporto, and the chairman of the Shanghai Guide Association.

ADDRESSES WOMEN'S CLUB. Rev. A. L. Fleming greatly pleased a large audience last night when he addressed the Women's Canadian Club and gave his illustrated lecture, "Aunt Sarah's Scotchman."

He described the beauties of the Firth of Clyde. Mrs. Allan G. McAvity, president, was in the chair and hearty thanks were given to Mr. Fleming on the motion of Mrs. F. W. Murray, seconded by Mrs. E. L. Rising. Reports of the recent activities of the club were given by Mrs. MacGowan sang two Scotch songs that were much enjoyed. The members of the executive served refreshments. The meeting was held in the Church of England Institute.

THE MOVEMENT IN ST. JOHN. The first scout troop to be started in St. John was in St. James' (Anglican) church, on September 22, 1910. There were 20 boys present and Rev. H. A. Cady was scoutmaster, with R. J. Dibble as assistant scoutmaster. The following were patrol leaders and

seconders:—Ernest Evans, (killed overseas), Gordon Holder, (M.C., D.C.M., captain overseas, one time assistant district commissioner for St. John); Wm. J. Kee, Herbert Morton, (one time district commissioner for Rothesay, and now with the Y. M. C. A. at St. Catharines, Ont., as boys' work officer secretary); R. Rubins, St. James' troop at times numbered more than 80 boys. At this time Major Malcolm McAvity was district commissioner for St. John.

The first wolf cubs pack was organized in Trinity (Anglican) church under Rev. D. H. Loweth who was scoutmaster for some years. S. G. Olive of West St. John organized the first troop on the West Side of the harbor, in St. Jude's (Anglican) church, and was their scoutmaster for more than 10 years. He is at present Rover scoutmaster of the 21st St. John Rover troop in St. George's church, West Side.

Scouting started in Canada in 1909 and the growth has been very rapid. It is almost world wide in its representation, and it is estimated that there are more than 2,000,000 scouts of all nationalities, creeds and colors. Wherever scouting is known it commands the support alike of parents and able to every country and this promises a closer bond of sympathy and comradeship between Great Britain and the other portions of the Empire, and also between the British Empire and other nations, such bond being conducive to peace in the world.

Executive's Aims. It is the aim of present executive to have the scoutmasters take their boys out into the country as much as possible, so that they may learn more of nature and real woodcraft which is the backbone of scouting. It is also to foster teams for baseball and other outdoor sports, and if possible to get the boys interested in gardens and agriculture in general.

ST. JOHN SCOUTS ARE PLANNING FOR ACTIVE SEASON DURING 1924

NEW OFFICIALS OF ST. JOHN DISTRICT COUNCIL, BOY SCOUTS' ASSOCIATION. Left to right—Dr. L. de V. Chipman, president; Dr. G. B. Peat, district commissioner; L. J. Johnson, district secretary-treasurer.

With practically a new set of officers in the executive positions, the St. John Branch of the Boy Scouts' Association is planning for a busy spring and summer season, the opening event of which will be a church parade tomorrow.

Naturally all the boys are looking forward to the summer camping season, plans for which are still under consideration. The dates, however, for the annual Gilwell Training Camp for scoutmasters will be held for July 21 to August 1, and will be held this year on the St. John River a few miles above Fredericton. As the Gilwell form of scout training is now being more popular every year, the first at which St. John men were present was held at Steviacke, N. S., two years ago, and last year the first to be held in New Brunswick was at Fredericton, N. B., in 1923.

Continuing courses on general camp management, rangers, brownies, woodcraft, and camp-craft have been held there through the year, and there are always more applicants than can be accommodated. In addition to this, the Foxlease grounds are used for conferences of the various grades, such as scoutmasters, camp advisers, and so on.

The diplomatic guides give their services in running training camps and weeks in various parts of the world, though some of them are not active at the present time. It is hoped by the new executive that all the troops can be got going again this year, so that the second time at Argenteon in 1924 may be a record one.

23 Troops on List. The troops on the register are as follows:—No. 1, Knox church, Scoutmaster H. B. Wetmore; No. 2, St. Paul's, Scoutmaster H. M. Hann; No. 3, St. Andrew's, Scoutmaster D. C. McInnis; No. 4, First Presbyterian church, West St. John, Scoutmaster G. J. Lawson; No. 5, St. John's, Scoutmaster Harry Fowler; No. 6, Edith avenue, East St. John, Scoutmaster G. J. Lawson; No. 7, St. Luke's, Scoutmaster R. Edgar Adams; No. 8, St. John's, Scoutmaster Thomas Killen; No. 9, St. Luke's, Scoutmaster R. Edgar Adams; No. 10, Young Men's Catholic Institute, Scoutmaster Thomas Killen; No. 11, St. Luke's, Scoutmaster R. Edgar Adams; No. 12, Church of the Good Shepherd, Fairville, No. 13, Kingston Consolidated School, Scoutmaster R. Edgar Adams; No. 14, Victoria street Baptist, Scoutmaster E. D. Jennings; No. 19, St. James', Scoutmaster R. Kettle Jones, Jr.; No. 20, Rothesay, Scoutmaster George E. Burton; No. 21, St. George's Rovers, Scoutmaster S. G. Olive.

The following are the cub packmasters:—No. 1, Trinity, C. E. Upham; No. 2, St. Paul's, James Gaulton; No. 3, St. Luke's, Earl Shepherd; No. 4, Coburg street, W. T. Dunlop; No. 5, Centenary, C. F. Morrissey; No. 6, St. John's, Clarence Barber; No. 7, Centenary, Clarence Barber; No. 8, St. John's, Clarence Barber.

The Local Council. The members of the local council are as follows:—Honorary president, A. C. Skelton, Hamilton. President, Dr. L. de V. Chipman. 1st vice-president, F. L. McAvity. 2nd vice-president, E. A. Schofield. 3rd vice-president, Frank White. Honorary treasurer, E. H. Turnbull. Secretary-treasurer, L. L. Johnson. District commissioner, Dr. G. B. Peat. Assistant district commissioner, E. O. Thompson. District scoutmaster, F. X. Jennings. Committee chairman, F. X. Jennings. Training, W. H. Harrison, K. C. Camping, Dr. William McIntosh. Civic service, S. Allan Thomas. Lecture, Rowland Frith. Educational-Publicity, T. R. Drummond. Badge examiners, R. D. Magee.

THE POWER COMPANY. The matter of the establishment of a large coking plant here is of vital interest to our gas patrons and the community as a whole. This project entails: An expenditure of approximately two and one-half million dollars. Employment of a large number of men, 365 days a year. Cheaper fuel, made from Canadian coal. The Power Company is in a position to assist this development and can distribute the gas from this plant through its gas mains and anticipated through lines, at a price which will place it within the reach of all. MASONIC LODGES

Brilliant Assembly is Held in Masonic Temple—500 There.

The grand ball given by the combined Masonic lodges of the city last evening in the Masonic Temple, Germania street, was attended by more than 500 guests. The rooms had been prettily decorated under the direction of Dr. F. S. Sawaya, while the serving of refreshments in the attractively arranged tea room was in charge of George D. Ellis. LeB. Wilson was convener for the evening's entertainment. Herbert Crockett was convener of the floor committee and Charles Strachan of the cloak committee.

The guests were received by the worshipful masters of the seven lodges in the city, being assisted by their wives, as follows: Mr. and Mrs. LeB. Wilson, Mr. and Mrs. E. A. Hoyt, Mr. and Mrs. John Henderson, Mr. and Mrs. Bayard Stillwell, Mr. and Mrs. Hedley S. Bisset, Ralph R. Cummings and Mr. and Mrs. H. B. Carson. Cards also were played by many during the evening. Many pretty gowns were worn for the function.

C. Currie, I. Newton Fanjoy, Alfred Dodge and others.

Electric Department. The reduced rates have now been effective for over a month, and we believe are appreciated by the patrons of this department. This department is the profitable branch of the company's business, and in the past it has been carrying losses from the other two branches, but we are pleased to state that efficient management has made a great reduction in operating costs of all departments, and we hope that assured service and efficient management will have the effect of increasing the company's business, and by so doing, justify a further reduction in rates.

We would like the public to appreciate the fact that there has been an entire change in the control and management of this company during the past year, and that the future welfare of this city will be vitally effected by the success or non-success of the operations of this company. It has been stated that St. John has on several occasions had power outages, and the success or non-success of the operations of this company. It has been stated that St. John has on several occasions had power outages, and the success or non-success of the operations of this company. It has been stated that St. John has on several occasions had power outages, and the success or non-success of the operations of this company.

Automobile Beats Train. The automobile won out in the debate held by the members of Almeck Camp Trail Rangers of the Ludlow street Baptist church last night. The resolution was that the steam train was of greater benefit to mankind than the automobile. The affirmative was supported by Christie Clark, Leslie Himm and Harold Haggerman and the automobile was championed by Calvin Fraser, James Hamilton and Hazen Waltho. One of the boys, Frank Kelly, was the judge and his decision was upheld by R. H. Parsons, Rev. W. A. Robbins, pastor, attended and Christie Clark presided.

Work of Rotary. To give men of a city who would serve the community an opportunity to act, without political, religious or racial bias, because he who serves must act, is the chief object of Rotary. Rotarians are expected to translate the service philosophy of Rotary into genuine getting activity in as many different directions as the average business or professional man finds in his daily life. Men who know Rotary say that the Rotary Club is a sort of storage battery of energy that sends its members forth into their business activity, their social and home life, with a desire to put the high standards of Rotary service into immediate and result-getting action.

As a general rule the greater effect of a Rotary Club in a community is felt through the activities of the members of the club in their own business and in the various civic organizations to which they belong. Wherever there is an existing agency for civic work the Rotary Club likes best to serve the community with its members through that agency. Religion or politics are not pertinent in Rotary and discussions that involve creed or party are barred. Rotary seeks to make a better man of Catholic, Protestant, Jew or Buddhist alike. Taking the activities of all Rotary Clubs the world over, they touch every phase of community life.

Brick Color. A very sophisticated smoking frock of brick colored kasha cloth is mounted over a black satin slip and has black embroidery on the pocket and sleeves.

ROTARIANS ARE TO MEET IN CAPITAL

District Conference Will be Held Next Week in Fredericton.

ST. JOHN THERE

Maritimes and Newfoundland Embraced in Scope of Important Gathering

The District Rotary Conference for the Maritime Provinces and Newfoundland will be held in Fredericton next Tuesday and Wednesday. The St. John Club will be well represented. Dr. H. I. Spangler, who has been District Governor for the current year and has visited all parts of the district, will go to the capital on Monday morning to aid in completing arrangements. The clubs in Moncton, St. Stephen, Halifax, Yarmouth, Sydney, Kentville, Charlottetown and St. John's, Nfld., are expected to be represented, and the club at Fredericton has been making notable preparations for the convention.

Prominent Speakers. Among the speakers will be Everett W. Hill, international vice-president of Oklahoma City. Mr. Hill is president of and general manager of a cold storage concern having branches in Oklahoma and Kansas. He is a native of Kansas and a graduate of the University of Pennsylvania. He is in authority on boy problems, and was the head of the Rotary International Committee having charge of the boys' work of Rotary throughout the world last year. He is one of the active workers for Boys' Week, and a promoter of the bookless school movement, which originated in a Rotary Club in his own State, and which in four years has succeeded in sending to school thousands of boys and girls who had decided to quit and go to work.

Rotary represents the idea of service by example and work. The 100,000 Rotarians in the world, who have been in existence since a meeting on four men, February 23, 1905, in the office of Paul P. Harris, a lawyer, in Chicago, Harris, who is still a member of the Chicago Rotary Club, is looked upon as the "Father of Rotary." He was the original founder of forming a club that would promulgate the spirit of service and would be different from any existing organization. The first seven included with him at that first meeting was Silvester Schiele, who also continues an active Rotarian. The idea came of another meeting which drew to Rotary other active business and professional men of Chicago, without political, religious or racial bias, because he who serves must act, is the chief object of Rotary. Rotarians are expected to translate the service philosophy of Rotary into genuine getting activity in as many different directions as the average business or professional man finds in his daily life. Men who know Rotary say that the Rotary Club is a sort of storage battery of energy that sends its members forth into their business activity, their social and home life, with a desire to put the high standards of Rotary service into immediate and result-getting action.

Had A Weak Heart Was Very Nervous For Three Years

Miss Jessie Peterson, Zealandia, Sask., writes:—"I wish to let you know how much good Milburn's Heart and Nerve Pills have done for me."

For nearly three years I was very badly run down, had a weak heart and was so nervous that sometimes I would almost faint away.

I heard of many people who had recommended your Heart and Nerve Pills, so I decided to give them a trial. After I had used two boxes I found they had done me good, and after having taken five boxes I was completely relieved.

I cannot recommend your Pills enough, and I would advise anyone having a weak heart or troubled with nervousness to use them."

Milburn's H. & N. Pills are 50c. a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

CHANGE OF LIFE LOSES TERRORS

For Women Who Rely upon Lydia E. Pinkham's Vegetable Compound

Greenville, Pa.—"I took your medicine through the Change of Life and it did wonders for me. I was a nervous woman in bed when I started to take it and weighed 160 pounds. I had hot flashes and was so nervous and weak that everything would get black and I could not see. I would sit and cry and did not know what I was crying for. Since I have been taking your Compound I feel younger than I did ten years ago, and my friends all tell me I look younger, and love it all to the Vegetable Compound. I do all my housework for a family of seven now, and am glad to answer any woman who writes me in regard to my case."—Mrs. JOHN MYERS, 26 Union St., Greenville, Pa.

Many letters similar to this have been published testifying to the merit of Lydia E. Pinkham's Vegetable Compound. They are women who describe as best they can their feelings before and after taking this well-known medicine. Many times they state in their letters their willingness to answer women who write them. It is an offer dictated by gratitude and a desire to help others.

Use the Want Ad. Way

Physician Explains Who Should Take Nuxated Iron

"Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, irritable, easily fatigued, but it utterly robs him of that vital force, that stamina and strength of will which are so necessary to success and power in every walk of life," says Dr. Emil Sauer, well known New England physician. "It may also transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable. I have strongly emphasized the great necessity of physicians making blood examinations of their weak, anemic, run-down patients. Thousands of persons go on year after year, suffering from physical weakness and a highly nervous condition due to lack of sufficient iron in their red blood corpuscles without ever realizing the real cause in their blood. Your food merely passes through the body something like corn through an old mill with rollers so wide apart that the mill can't grind. "For want of iron you may be an old man at thirty, dull of intellect, poor in memory, nervous, irritable and all run down," while at 60 or 65 with plenty of iron in your blood you may still be young in feeling, full of life, your whole being brimming over with vim and energy. "But be sure the iron you take is organic iron—Nuxated Iron—and not metallic iron which people usually take. Organic iron—Nuxated Iron—is like the iron in your blood and like the iron in spinach, lentils and apples, while metallic iron is iron just as it comes from the action of strong acids on small pieces of iron filings and is therefore an entirely different thing from Nuxated Iron. Nuxated Iron represents organic iron in such a highly concentrated form that one dose is estimated to be approximately equivalent (in organic iron content) to eating one-half quart of spinach, one quart of green vegetables or half a dozen baked apples. It is like taking extracts of beef instead of eating pounds of meat. Nuxated Iron, it quickly helps make rich red blood, revitalizes worn-out exhausted nerves and give increased strength and energy. Your money will be refunded by the manufacturer if it does not produce satisfactory results. For sale by all druggists.

Beauty

A Gleamy Mass of Hair 35c "Danderine" does Wonders for Any Girl's Hair

Girls! Try this! When combing and dressing your hair, just moisten your hair brush with a little "Danderine" and brush it through your hair. The effect is startling! You can do your hair up immediately and it will appear twice as thick and heavy—a mass of gleamy hair, sparkling with life and possessing that incomparable softness, freshness and luxuriance. While beautifying the hair, "Danderine" is also toning and stimulating each single hair to grow thick, long and strong. Hair stops falling out and dandruff disappears. Get a bottle of delightful, refreshing "Danderine" at any drug or toilet counter and see how healthy and youthful your hair becomes.

SHAW RESENTS HAVING TO WASH

Says Best Works Written Running Away From London Smoke

London, April 25—G. Bernard Shaw attended the annual meeting of the Cool Smoke Abatement Society at the Royal Society of Arts a few days ago to testify how much sinner London would be were it but cleaner. He admired London, he said, but he grew dirty while admiring it. The dirt did not matter to English people, he said, but he was an Irishman. "In London I am always washing my hands," he said, "sometimes even my face." Mr. Shaw complained that in order to make his life endurable he had to give up his London house and take a place in a village in Hertfordshire. All his greatest works had been written in the train between King's Cross and Hatfield, while he was running away from the smoke of London. Only about twice a year, when he looked out of his window in Adelphi Terrace, could he see that London was surrounded with a belt of beautiful hills. It should be possible to see this every day. In the Middle Ages London must have been a most beautiful place, and any medieval person would refuse to live in a nineteenth or twentieth century town. London was not a bad specimen when compared with other towns in this respect, but two-thirds of it should be knocked down, and if any artillery officer were given the commission to knock it down it (Shaw) would be very happy to make out the portions that should be destroyed, he said.

BOSTON REPORTS A RECORD FISH CATCH

Boston, April 25—Receipts of 128,923,419 pounds of fresh fish and 232,615 pounds of salted fish at this port in 1923 were the largest on record, the Boston Fish Bureau said in its annual report today. The total was more than five million pounds in excess of the previous record receipts in 1920. The value of the catch was given as \$3,438,751.

Girl Sets New Record In Winning Pentathlon

Atlantic City, N. J., April 18—Slim and pretty Frances Clarke, brilliant all-round aquatic titleholder of the Philadelphia Turngemeinde, in capturing the senior national pentathlon championship here recently, established a new American record for this event. Due to the new rules of the Amateur Athletic Union governing the pentathlon, Miss Clarke hung up a new mark of 11 minutes 37.1-5 seconds for the four swimming races in the championship, including the 100-yard free-style, back-stroke and breast-stroke events and the 500-yard free-style swim. She is 20 years old and weighs only 123 pounds. Incidentally, Miss Clarke is the outstanding sprint champion of the Middle Atlantic Association, holding a galaxy of aquatic crowns. The senior national pentathlon, held under the auspices of the Ambassador Swimming Club of this city, after an absence of more than six years from competition, is not scheduled to return to the east again next season. "The pentathlon is still an exciting competitive event and will rule promising as well as champion swimmers," declared Charles Braun, veteran coach of the Philadelphia Turngemeinde, who discovered Miss Clarke a few years ago. Other swimming mentors are of the same opinion and it is improbable that the Amateur Swimming Club will seek to retain this same championship event next year. Miss Clarke has been swimming in competitive races about six years. During that time she has been under the tutelage of Braun, who at the start recognized in her a future star, although she had very little knowledge of the aquatic sport and possessed poor form and a faulty stroke. After developing Miss Clarke, the veteran aquatic mentor decided to correct her method of swimming. He taught her the crawl stroke exclusively. Later Miss Clarke was taught the back stroke with the result that she not only corrected her faulty crawl stroke but developed into championship form and captured the Middle Atlantic Association back-stroke titles during the past two seasons.

Drugs Have Never Cured Constipation

Internal Bathing the Only Permanent Remedy.

It is a surprising fact to note the number of persons who persist in taking drugs of various kinds for constipation and go on year after year, gradually becoming worse all the time. The system is continually becoming poisoned, not only with the poisonous waste which accumulates in the intestines, but the drugs themselves become absorbed, until the system becomes weakened, resistance to disease is lessened, the blood becomes thin and poisoned, you therefore become liable to any disease that is prevalent. You take cold easily, digestion becomes troublesome, heart becomes weakened, rheumatism or neuritis sets in, sleepless nights, and kidneys become affected. In other words you shorten your life and lose the pleasure of real health and the joy of living. Internal bathing with the J. B. L. Cascade has restored thousands to perfect health. It completely removes constipation, keeps the system clean so that the blood circulates through a healthy colon. Soon the blood becomes purified again and you feel just like a different person. That elastic step soon returns, and you feel that you have something yet to live for. Now this is not fiction, it is the experience of thousands who have pulled themselves out of the drug and medicine rut and used their own common sense. The J. B. L. Cascade is the perfected invention of Dr. Chas. A. Tyrrell, of New York, for Internal Bathing. His theory is: Keep the blood pure and you will be well. A jeweler of Cohalt wrote us the other day saying: "Before getting the J. B. Cascade our doctor's bills were over \$200.00 each year, and since receiving the Cascade two years ago have not had a doctor in the house. We all use it." If you want to be healthy all the time get a J. B. L. Cascade and Bath internally. Send for Booklet, "The What, Why, the Way of Internal Bathing." It is free, and you will learn many facts about yourself and the way to be well all the time. Write for Booklet today. Address, Tyrrell's Hygienic Institute, 168 College St., Toronto. This booklet may be obtained also at E. Clinton Brown, Union and Waterloo streets; F. W. Munro, 357 Main street.

FALL 100 FEET AND LIVE TO TELL OF IT

Geneva, April 25—Five Swiss Alpinists met with a terrible experience on the frozen summit of a mountain, Les Roches Pleureuses, on the Swiss-French frontier. The leader of the party suddenly became dizzy, and was unable to move backward or forward. His comrades attempted to help him by forming a chain with joined hands. The living chain, however, broke, and four men fell 100 feet into a partially frozen river. One of the Alpinists was nearly drowned, but finally the five reached a village nearby in an exhausted condition.

UNSUITABLE WIVES LECTURER'S THEME

Professor Warns Against "Baby Women" That Never Grow up

Vienna, April 25—Widespread interest has been aroused here by Professor Reinhold Gerling's lecture on "Girls Unsuitable as Wives." The lecturer was particularly severe on a class of women whom he called "baby women." He said they were mentally and physically incapable of being good wives and mothers. "This type of girl, with her small neck and head, low forehead, and straight up and down figure, is a fashionable type today," he stated, "but men should beware of a woman who looks like this after her twentieth birthday, for she will be shallow, frivolous, obstinate, and without judgment. "The 'baby woman' will never grow up. Her arrested development will be a source of continual anxiety, and she will be incapable of bringing up children if she has any."

Your Next Car

Will be this Light-Six, if you learn the truth

When you buy a car in this class, here are some things you should know. Studebaker is the largest builder of quality cars in the world. It builds 150,000 yearly. It builds in model factories, modernly equipped. It has spent \$38,000,000 in the past five years on new-day plants and machinery. By quantity and up-to-dateness it saves large sums per car. A car like this Light-Six, built under ordinary conditions, would cost you from \$200 to \$400 more.

11.4% less to run

This extra quality shows in lower operating costs. This was proved by an audited test made on 329 cars running up to 25,000 miles. The Studebaker Light-Six costs 11.4% less to operate than the average of its rivals. This includes depreciation. The saving was nearly one cent per mile. This car in its chassis represents the best we know. In steels and workmanship it is identical with the costliest cars we build. Each steel formula has been proved best for its purpose by years of tests. On some we pay 15% premium to makers to get them exactly right.

An honored name

The name Studebaker has for 72 years stood for quality and class. Now there are \$90,000,000 of assets behind it, all staked on fulfilling those ancient traditions. People are learning of these extra values. The trend toward Studebakers has become a sensation. Sales have almost trebled in three years. Last year, 145,167 people paid \$201,000,000 for Studebaker cars.

Don't buy a fine car without learning what Studebaker offers. You will be amazed when you make comparisons.

C. P. R. HEAD IS OPTIMISTIC FOR NATION'S FUTURE

No Time For Wailings of Pessimists and Alarmists, He Asserts

Sherbrooke, April 25— "There is nothing wrong with Canada," said E. W. Beatty addressing the Board of Trade here tonight. "It has long ceased to be a debatable point that in comparison with the other countries, Canada is in a most fortunate position and should have all the confidence of youth and strength combined with the dreams of future greatness."

It was the Board's annual banquet and about 300 local business men were present. Hon. P. J. A. Cardin, Minister of Marine and Fisheries was the guest of honor. Mr. Beatty said: "If I say to you that we have no place for the wailings of the pessimist or the ravings of the alarmist, you will not understand me to mean that this precludes the desirability of thoughtful consideration to improve progressive conditions. Canada could support more than 9,000,000 people and needed more than 9,000,000 to support," he said.

"Public utility corporations were always being pressed for extensions and improvements and the expenditures of such should be regulated by principles equally appropriate to Government disbursements. Briefly those principles were: "First—Are they necessary for public safety? "Second—Will they be productive of more revenue? "Third—Are they necessary from the standpoint of public convenience? "Fourth—Are the expenditures within the limits of your resources and therefore such that even a prudent man would make?"

A GENIUS

Pamela Bianco, 17-year-old artist, is called a genius by critics abroad. She exhibited in Turin when she was 12, and at London's largest gallery a year later. Every one of her canvases were sold. Then, at 14, her work attracted wide attention at the Anderson galleries in New York. More of her work will be shown in New York soon. She is the daughter of an Italian father and an English mother, and was born in London.

600 SOUGHT HER!

Patroneia Margolin, 19-year-old salesgirl in a Grand Rapids, Mich., department store, has received 600 marriage proposals in the last few weeks. But Patroneia now wants the world to know her matrimonial business is closed for good. She's well satisfied with her present "sweetie," she says.

WHITE DENIES HE KNEW HOME BANK WAS NEAR BREAK

Former Minister of Finance Gives Evidence Before Probe Commission

(Canadian Press Despatch.) Ottawa, April 25—"If I had believed that the Home Bank was in danger of insolvency, I would have gone to the Canadian Bankers' Association and told them to take it over," declared Sir Thomas White, former Minister of Finance, before the Home Bank commission this afternoon. Sir Thomas was being examined by R. J. McLaughlin, one of the Home Bank depositors' counsel, when he made the statement. Sir Thomas was firm in his declaration that he would not have allowed the bank to fail.

With the war in progress, the failure of a bank was to be avoided if at all possible, and the utmost pressure would have been used on the Canadian Bankers' Association to prevent the Home, or any other bank, going to the wall. Sir Thomas hazarded the opinion that the association would have taken over the bank because, he remarked, it did not often dislodge the Minister of Finance.

No New Evidence. Cross-examination of the former minister today did not result in the discovery of any new evidence of importance. Sir Thomas was plied with questions by Mr. McLaughlin, W. T. J. Lee, another of the depositors' counsel, and by E. Leflow, representing the Dominion Government. He emphasized that he had conceived it his duty to obtain special returns from the bank board and its auditor at

Moncton, April 24—Owing to unprecedented ice conditions in the Straits of Northumberland, the Canadian National Railways announce that proposed changes in connection with steamship services to Prince Edward Island, announced for Monday, April 28, will be postponed until further notice. This has reference to the double service which it was intended to inaugurate next Monday. Every effort will be made meanwhile to make single trips daily or maintain the service now in effect. The double daily service will be commenced as soon as ice conditions will permit.

DENY RUMOR THAT PLANT IS TO CLOSE

St. Stephen, April 25—Rumors that the Dominion Fertilizer plant here was to close down permanently were denied today. The new tariff in taking the duty off fertilizer, it was argued, would make the St. Stephen plant unnecessary. It is operated in connection with the Buffalo Fertilizer works and it has been thought that with the removal of the duty the fertilizer would be sent through from the head concern in the United States, going away with the need for the plant here. The plant at present is running with a small staff as is usual at this season. It employs more men in the summer than during the winter. The raw materials it imports are brought by vessel. The local manager has received no intimation of any intention to close the plant.

Why does the Salvation Army make an annual Self-Denial appeal?

The Army in the Police Courts

In every Police Court, Salvation Army Officers are on duty ready to help those who have no one to befriend them. Very often prisoners are remanded to the Army's care and are salvaged from the ranks of human failures.

The Army in Prison and Reformatory

Our penal institutions are visited regularly by Salvation Army Officers who interest themselves in the problems of the men and women incarcerated there. Many a person has been re-claimed to decent citizenship by their unselfish efforts.

The Army takes care of the Unmarried Mothers

Of 700 girls and women who sought the shelter of the Army Rescue Homes last year, 500 of them were "unmarried mothers". Stories without a parallel in human interest could be written on this phase of the work, suffice it to say that it is done with Christlike unselfishness.

The Army appeals to you because this work is costly

This "Social" work is only a part of the service the Army is giving to the community, but it is one of the most important of its branches. To carry on requires money, and the Army looks to its friends through the Annual Self-Denial Appeal for the necessary funds.

Champions on Ford for 12 Years

For more than twelve years, dependable Champion Spark Plugs have been standard for Ford cars and trucks. With the introduction of the Fordson tractor, Champions were naturally chosen as equipment because of their demonstrated ability to withstand the extreme stress to which spark plugs are subjected in tractor operation.

esteem in which its product is held by the Ford organization. No engineers are more insistent on complete efficiency and no purchasers more exacting as to quality than the officials of the Ford Company. That Champion spark plugs have held the confidence of Ford for twelve years is a tribute to the excellence of Champions and their outstanding worth as an important article of motor equipment.

SPORT NEWS GLEANED FROM WORLD'S CENTRES

BEGINS TO LOOK LIKE PONIES AT MOOSEPATH PARK IN AUGUST

S. E. Rice Says He and Moncton and Halifax Keenly Interested.

Turf followers will hail with delight the news that if present plans materialize they will have an opportunity of seeing "the ponies" in action on August 26. S. E. Rice, owner of the park in an interview with the sporting editor of The Times-Star, said the park would be in good condition. He was delighted that an opportunity had presented itself to inaugurate this style of racing here and said that P. A. Belliveau, lessee of the Moncton park, and Frank Adams, who has control of the Halifax park, were also eager to turn over their grounds for a very small amount and would do everything in their power to make the meet one of the greatest ever held in these parts.

Maritime Dates The St. John park can be had during the week of August 25, and Moncton and Halifax have open weeks from September 5 to 12 and from September 13 to 20. As there is declared to be no difficulty in arriving at a satisfactory arrangement regarding the lease of the racing parks and as the owners are eagerly awaiting opportunity to help make these races in Canada as well as parts of the States would be regarded as almost assured that the ponies will be here.

It has been many years since a running race was seen in this city. It is expected that more than 100 of the fastest running horses in Canada as well as parts of the States would be brought here.

May Buy Fast One Not only will the owners of the park do everything in their power to make these meets successful but they even contemplate purchasing a fast one to uphold the honors of the Maritimes. They feel that if there was a fast local entry it would greatly increase the interest in the meet and would be an initial step towards making this style of racing a permanent feature in these parts.

GAME NEW LEADER BOASTS

CHARLES C. RYAN Kenosha, Wis., April 25—Charles C. Ryan, modest local dentist, and genuine booster of the ten-pin game, is basking in the sport calcium throughout the country as the result of his recent election to the presidency of the American Bowling Congress.

Ryan succeeds Elmer C. Dyer, Toledo, who served the national body the past year. The new bowling ruler has long been affiliated with the sport and is widely known in Wisconsin. He's a great booster for bowling.

LOUIS DONOVAN TO START INTENSIVE TRAINING FOR OLYMPIC TRIALS. Louis Donovan, newly-crowned Maritime featherweight champion, arrived home last evening from Halifax where he took part in the Maritime amateur boxing championships with notable success. The local star met three boxers in his class, easily winning the bouts in one and chalking up two more victories in his already formidable list.

Donovan speaks very highly of the treatment accorded the St. John boys by St. Mary's A. C. officials, who conducted the bouts. "We were never treated better," he says, "and over there they think quite a bit of the way their boys have been treated over here. The bouts were well contested, particularly the George Wright-McLane bout on the first night. That was the most thrilling bout I ever saw. McLane was almost knocked out in the first round but staged a game comeback and scored a kayo in the final round. It was too toe slugging right through. Kennedy clearly demonstrated his ability in the lightweight class and I look to see him do big things at the final Olympics in Montreal. Cavannah of Westville also was impressive."

Donovan says he will now condition himself for the Olympic trials. The local boy has decisively earned that right. He has piled up a fine record and should do well at Montreal. To help him and Billy Maynes to train properly for these trials is the reason for the Olympic tag day on May 3 and judging from talk around town, the tag day here is going over big.

Great Enthusiasm. "The plan was received with great enthusiasm in Greece, and a wealthy Greek merchant caused the ancient games to be restored and refitted with marble at his own expense. The games at Athens were a great initial success. They were succeeded in 1900 by the games at Paris, St. Louis in 1904, London 1908, Stockholm 1912, Berlin for 1916, which was prevented, Antwerp 1920, and Paris 1924.

Each succeeding series of games has been of greater interest and greater magnitude. From the commencement they have been looked upon as the final decision in connection with international contests, and the world's supremacy in sport. This great respect has been reached largely through the far-sightedness and diplomatic tact of Baron de Coubertin, and through the organization of the International Olympic Committee, which has been framed on the basis of continuity of service and disinterestedness, non-elective and voluntary association, non-elective in character in the modern sense, and being self-constituted, acts as a guardian and promoter of the Olympic games. Its members are now, as always, men devoted to the modern Olympic idea. Every member is regarded as an ambassador to his own country from the committee. Generally speaking, whenever the usefulness of a member has seemed to be of

EIGHTH REVIVAL OF OLYMPIC GAMES EXPECTED TO BREAK ALL RECORDS

Former Head Coach of Canadian Team Tells of Beginnings. The fact that two St. John athletes for the first time in the history of the Olympic contests, Hilton Belyea and Charles Ryan, are taking part in the Olympic games, is the most positive assurance that a third local boy, "Billy" Maynes, also will go as a representative of the Maritimes in these quadrennial athletic contests.

Writing in the Montreal Star, Walter R. Knox, twice head coach for the Canadian Olympic team, tells of the Olympic games movement from its beginning. He writes: "It was in the year 1892 that Baron Pierre de Coubertin of France first suggested the revival of the Olympic games. For many years previously he had made a close study of schoolboy and student activities in which sport plays such an important part. He was the first to see that nationally organized games are not only of the highest value in advancing the health and recreation of the citizens of that country but serve also as a means of measuring the strength of a friendly body of countries against another, and of cementing ties of friendship and trade."

While track and field sports are the nucleus of the sports plan of the Olympic movement, they are not by any means the whole of it. Neither is sport in the narrow sense of the word. All kinds of outdoor exercises and games have attached themselves to the Olympic idea. It has therefore become a necessity that international organizations only are capable of handling the vast amount of detail work incidental to the holding of the games. Instead of the original Olympic week, the games now spread considerably over a month, and with the inclusion of the winter sports, will extend pretty close to half a year. In addition, the Olympic idea sees several steps further than the narrow conception of sport and play. There are included in the program, besides the various other subjects, as well as lectures and other public presentations.

The Olympic games movement also has as an objective the slogan, "All Sports for All." With this idea in view, the International Committee is endeavoring to organize the various ally or in groups, numerous countries of the world, and it is expected that within the near future, practically every country, hitherto considered backward with regard to athletics, will be included in some group system, which will give it a stimulation in sport, and bring the benefits of athletic exercise within the reach of every one of its people.

EXPECT TO SOLVE AMATEUR TANGLE

City Senior League Will Hold a Meeting Next Tuesday Night. A meeting of the executive of the City Senior League has been called for Tuesday evening next when plans for the coming season will be discussed further. C. to enter teams in the South End League this year. With

MANY HOME RUNS MADE IN MAJORS

7 Victories Resulted From Circuit Clouts—Reds Lead National.

New York, April 26.—The crack of home-run hits echoed in every Major League game yesterday. Four of the seven victories were direct results of the hitting spectacular. Babe Ruth sent his third homer, and trotted home behind Joe Bush and Joe Dugan with the runs that earned a five hit game behind Detroit and Chicago, tied for first place.

A circuit swat by Simmons with two men on won a 6-5 contest from Washington for Connie Mack's hard fighting young Athletics. Chicago pulled up into the tie with Detroit by trouncing St. Louis 5 to 3, although out-hit to 7.

Detroit's clear title to first place was lost when Cleveland made seven consecutive hits off Darius Fillele in the seventh inning. Speaker's homer figured in the six run rally. The final score was 10 to 2.

Home runs were responsible for four of the five runs in the contest which Brooklyn won from the Giants 5 to 2. Wayne Dean again lashed Dasey Vance over the route but the veteran won yesterday when Bernie Neis lifted one over the fence and scored Vance ahead of him. Neis' homer with Young on had previously given the Giants a one run lead.

If the withdrawal from the City League of the Trojans, Garrison and the defunct Loyalists becomes fact will leave but two teams holding franchise in the City Senior League, namely, St. Rose's, New Brunswick champions, and East St. John Clippers. The Portlanda, backed by the North End Improvement League, are keen to get in and it is probable their application will be sanctioned. It would be to the best interests of the league to have four teams entered, but as none of the teams now playing are really first class, it is difficult to see when a fourth team of senior caliber can be put together. The division of the available senior players among so many teams naturally weakens all of them, but after all the main object is to get as many into the sport as is possible.

The tangle becomes more involved when it is considered that only teams holding franchise in the City Senior League can play senior baseball, under the amateur rules, as explained recently. That is, Royals and St. John Baptist would be required to apply to the league for franchise. No franchise fee would be charged. If no senior franchise is granted, the rather amusing spectacle will be created of "Les" Kerr pitching intermediate ball. Hardly soundly right, does it? Tuesday's night's meeting is expected to clarify the situation as it is expected the final decision of both the Royals and St. John Baptist will be made known then.

Thus, if the Trojans and Garrison persist in going into the South End League, which will be classed as intermediate if no senior franchise are granted, the rather amusing spectacle will be created of "Les" Kerr pitching intermediate ball. Hardly soundly right, does it? Tuesday's night's meeting is expected to clarify the situation as it is expected the final decision of both the Royals and St. John Baptist will be made known then.

Ball Problems By Billy Evans

QUESTIONS. 1. If the umpire calls infield fly, and the ball first strikes on foul territory without being touched by a fielder, what is the decision? 2. In case of an injury to a player can the umpire immediately suspend play? 3. If a batsman hit out of order and the mistake is properly discovered, does that affect the status of the batsman who batted out of turn? 4. Can a manager send in a pinch batter, and after several balls have been thrown to the pinch hitter, substitute another batter? 5. If a player substitutes for a man in the field without notifying the umpire, does it affect any plays that might be made by said player?

ANSWERS. 1. Umpire erred in calling play too soon. Must simply rule it a foul ball. An infield fly must be a fair ball. 2. Time cannot be called until there is no longer a chance for a play. 3. Proper batsman is called out. Player who batted improperly simply lands his place in regular batting order. 4. Manager has such a right, second substitute merely takes count of balls and strikes on first pinch hitter. 5. Player is regarded in the game and any play he makes is legal.

ZEV STARTS IN THE PAUMONOK

Champion Will Make His Debut as a Four-Year-Old.

New York, April 26.—Zev, thoroughbred champion of 1923 and greatest money winner of all time, is expected to make his debut as a four-year-old next week in the Paumonok Handicap feature of the opening day of metropolitan racing at Jamaica track.

The Rancocas stable star owned by his brilliant campaign last year by triumphing in the Paumonok. From that race Zev won on to triumph spectacularly in the Kentucky Derby, the international match with Papyrus and to divide honors with In Memoriam, great Kentucky colt, in two special races.

Zev's record winnings now stand at \$296,675 and the bulk of his campaign this year, including three prospective races for rich purses against Epinar, French crack, in the fall, promises to add substantially to this amount.

Two Kentucky Derby favorites, the unbeaten Sarazen and St. James, also may be seen under colors for the first time this year in the Paumonok.

Her Health Is Now Good. New Brunswick Lady Praises Dodd's Kidney Pills. Madame J. Theriault completely relieved of pains in her kidneys. Burnsville, N. B., April 25.—(Special)—Once more Dodd's Kidney Pills have proved their inestimable value to suffering women. Madame J. Theriault of this place suffered from kidney trouble. She writes: "I used two boxes of Dodd's Kidney Pills and have been relieved of severe pains in my kidneys and my health is now good."

The reason Dodd's Kidney Pills have come to occupy such a prominent place in the family medicine chest is that so many of the ordinary everyday ills come from sick kidneys. Rheumatism, urinary troubles, backaches, malaise, urinary troubles, backaches, diabetes and heart disease can be traced directly or indirectly to sick kidneys.

To be assured of good health the kidneys must be kept in good working order all the time. Ask your neighbors if Dodd's Kidney Pills are not the best remedy for sick kidneys.

NEWS NOTES GATHERED FROM THE WORLD OF STAGE AND SCREEN

"THE WHITE MOTH" IS GORGEOUSLY MOUNTED, BUT LACKS VITALITY

(By JACK JUNGMEYER.)

Hollywood, April 26.—Not much can be said for "The White Moth," latest Tourneur-Levee product. It is no better, and no worse perhaps, than a score of other current programme pictures. It lacks inspiration in direction and acting. With exception of a few Tourneurish flourishes, it comes close to being a hack job, despite the fact that the French director was dealing with phases of Parisian theatrical life he knows intimately.

The French atmosphere is there, the play is gorgeously mounted, the story moves, but it wants vitality, grip. Symptomatically, this reviewer considers it, of Maurice Tourneur's lack of an earlier enthusiasm and certitude in artistic pictorial ventures, whittled away by discouraging response to his best expressions.

"The White Moth," co-starring Barbara La Marr and Conway Tearle, is the story of a curious rivalry between two brothers, wealthy Americans, for the favor of a Kansas girl who, saved from suicide in Paris, becomes the theatrical partner of her French rescuer and the toast of the boulevards. Infatuation of the younger brother for the "Moth" threatens to disrupt his impending marriage. The elder brother, to save the other from what he believes the designs of a mere gold digger, woo her away with banishes and feigned regard, marries her and immediately deserts the girl, now genuinely in love with her nominal husband.

Absence, a return to her old haunts in Paris, and the confession of her former partner, that "The White Moth's" relations with him had been professional only, dissolves "Morley's" doubts in genuine affection.

Tourneur's failure properly to prepare the audience for "Morley's" change of heart by preceding hint of honest interest, and failure fully to establish "The Moth" as worthy of his regard, preclude compelling sympathy with either and beget a lame ending.

The picture rather obviously caters to what Barbara La Marr's public has come to expect of her by way of alluring display—a rather tame, carefully falling from the shoulder, a milk bath, a display of boudoir lingerie. She has given better performances. So has Conway Tearle.

Acting honors go to Ben Lyon as the younger brother, Charles De Roche, who portrays the French actor, Josie Sedgwick, the jealous rival of "The Moth," and Edna Murphy, the fiancée of the straying younger brother.

THE STORY OF ELEONORA DUSSÉ

Eleonora Dussé, says the New York Times, was born a stage child. Accounts differ as to the actual place of her birth, but it was recorded in the village of Vigevano, Pavia, on the outskirts of Venice. That led some to say that she was born there. Other accounts say she was born in a wagon in which her parents' theatrical troupe was touring, and still others say she was born in a railroad train en route to Venice. The date was October 3, 1859.

When 12 years old Mlle. Dussé began to appear with her parents' strolling troupe in the provinces. Her mother died when she was 14. It is said that when she was 15, on the night she made her first notable success as Juliet in Verona, the very city where Shakespeare set his story, she had to pilfer a slice of polenta (cornmeal) from the landlady's kitchen to sustain herself on the performance. By the time she was 20 she had gained a reputation as an actress that was known in most parts of her native country.

She was famous throughout Italy by the time she made her second appearance in its boundaries. In 1892 there was

an anniversary to be celebrated in Vienna and the most famous players in Europe were invited by Princess Metternich to appear at the Court Theatre. Dussé was not included. She had decided to go to Vienna under her own auspices, opening unheralded at the Karl Theatre in "La Dame aux Camélias" to an almost empty house. A day or two later her theatre was packed and the Court Theatre suffered. Later she was invited to appear there and refused.

She Meets D'Annunzio.

It was in this same play that D'Annunzio first saw her. Ten days later he had written "La Gioconda" and dedicated it to "Eleonora Dussé of the beautiful hands." She now began to appear only in his plays. As their intimacy increased, they planned to start a classic theatre at Albano, near Rome. This enterprise was never carried out, however.

While their friendship was at its height it was hailed as promising much for Italian literature and the Italian stage. Their artistic collaboration enhanced the fame of each. D'Annunzio's "La Citta Morta" and "Francesca" were among the best known of his works that owed success to the inspiration of the poet and the interpretation of the actress.

There had been an earlier marriage. When Mlle. Dussé was 26 she was married to Signor Checchi, an actor who later left the stage, and they had a daughter. The marriage was not a happy one and a separation followed. The child was educated in a convent and did not until she was grown to womanhood did she see her mother again.

Rises to Fame in America.

During her first few appearances in New York the audiences were mostly foreign in make-up. Later, however, she became a fad among theatregoers of the day, and her audiences included the most prominent persons of the time.

She made her second appearance there in 1903, ten years later. This was

during the d'Annunzio episode, and her plays were "Francesca di Rimini," "Gioconda" and "La Citta Morta." For some reason this tour did not excite the public response of the former one and was a comparative failure. After the d'Annunzio break she virtually gave up the stage. When she reappeared in Italy in 1921, largely to restore a fortune that had been swept away in the war, it was nearly twenty years since she had set foot on the stage. She appeared in Ibsen's "Lady of the Sea" at the Balbo Theatre in Turin. After the second act a delegation of Florentine women presented her with a bouquet of roses from D'Annunzio and a patriotic demonstration followed, with cheers for Italy, some and D'Annunzio. She later appeared in other Italian cities.

The range of Eleonora Dussé's roles included almost all the repertoire of the "classic" theatre of her day, in addition to the important roles in more modern dramas of the nineteenth century, including "Camille," "Madrigal," "Fedora," "La Tosca," and "The Second Mrs. Tanqueray."

She achieved her first great success in the period when "realism" was sweeping the stage and she became an exponent of the movement, although there are critics who have pointed out that she was an "utterly detached and other-worldly artist" who did not express herself essentially in realism, although she may have seemed to externally.

One symptom of her realistic persuasion was noticed in the fact that she never wore make-up. Her face was singularly mobile and expressive, and in her younger days the lack of make-up was considered an aid to her stage presentations. Not even in her last tour, now brought to a close, did she depart from this custom or make any attempt to conceal for stage purposes the marks that the years had set on her features.

The death of Eleonora Dussé has caused great grief throughout Italy. It was especially mourned in artistic circles, as she was the only Italian actress universally recognized as able to interpret abroad the works of the Italian dramatists and in addition, after Sarah Bernhardt's death, held the unquestionable position of the greatest living actress.

Luigi Pirandello, who was preparing a new play for Dussé, was deeply affected by her death.

Mme. Curie's Daughter Plans Concert Tour

The beautiful Eva Curie, daughter of Mme. Curie of radium fame, is coming to America for a visit and a concert tour this summer. This is her latest picture.

He had his scenario. He had his cast. But who had the movie camera? The film? Money?

"I can't pay you anything," Lang boldly apologized to his cast. "And I haven't got a movie camera—" The cast tried to stampede in retreat. But Lang implored them to hear him. He

Boston, April 25.—While Hollywood dreams about cutting its movie costs, there is a young fellow in Boston who has produced a six-reel movie drama for \$500.

The young fellow, Herbert Lang, started out with a scenario and an idea. The idea was to get the scenario into movies. However, producers refused to be convinced of the scenario's merits. Straightaway the struggling scenarist got another idea.

Rehearsal, Retake and Recut Are The Three "R's" of Silver Screen

(By Harold E. Swisher.)

Hollywood, April 25.—(United Press.)—There are three "R's" in the little red school house, fabled in song and memory. Those three "R's" are famous the nation over: "Reading," "rhythm" and "rhetoric."

There are three "R's" in studios, as well, not so well known, perhaps, but of vital importance in picture production. They are the "rehearsal," the "retake" and the "recut."

"Just as 'reading,' 'rhythm' and 'rhetoric' are the basis of education, so the rehearsal, the retake and the recut are basis of perfection in motion pictures," according to Herbert Brenon, well-known Paramount producer.

"Although motion pictures are the very essence of human drama, yet when they arrive before the public they have been perfected so that the human element is entirely eliminated. No matter how skilled may be the players who engage in a stage production, there is always the possibility that some unforeseen circumstance may arise which may ruin the performance. In motion pictures this is an impossibility. The rehearsal, the retake and the recut completely remove chance of failure.

"Motion picture players enjoy this told them of his great idea to organize a little movie company, comparable to the Theatre Guild movement.

"Somebody'll come along with a camera," he assured them, having nothing else than hope to baste his confidence on. But he hoped right. A man did come with a movie camera. And money—everybody contributed to the expense fund. No one received a salary.

And now after months of toiling before the Klieg lights, evenings and week-ends being given over to their cause, their first film is completed. It is one story of New England, entitled "It."

"We haven't tried to create a new movie art," Lang says. "We were mostly interested to find out whether we could produce the same sort of movies that the professional makes."

Fre-viewers of the pictures have been encouraging enough to interest several producers, and the picture may be given release through organized exchanges.

Now the entire troupe is looking forward to making a second picture. They have organized as The Little Screen Players of Boston, and will share, alike in any returns that result from their productions.

FOR DRAMATIC CLUB

"Ann, What's Her Name" was repeated in Centenary hall last night by the members of Centenary Badminton Club and was enthusiastically received by a large audience. Between the acts there were vocal solos by Mrs. Lewis V. Lingley and Albert Long.

The cast presented a beautiful bouquet of carnations to Miss Laura Baxter as a mark of appreciation of her splendid work. After the performance the members of the cast organized as a dramatic club and elected the following officers: President, Arnold Fowler; vice-president, Harrison T. Armstrong; secretary, Miss Gladys Price and treasurer, Mrs. Parker Jenkins.

BEAVER HARBOR MEN RESCUED

Missing Fishermen Drifted Helplessly—"Grand Manan" Saved Them.

Drifting helplessly out to sea while anxious relatives and friends at Beaver Harbor searched neighboring waters for them, two fishermen, Clarence Paul and Fred Gustafson of Beaver Harbor, were picked up by the coastwise steamer Grand Manan this morning and taken to the harbor.

Engine trouble is reported as the cause of almost sending the two men to a watery grave. Had they drifted beyond Grand Manan and out to sea, the chances of the frail motor boat surviving a heavy sea were slim.

The first word to reach here of the predicament of the men came this morning, when C. J. Connolly, fishery overseer stationed at St. George, reported to J. C. Chesley, local agent for the Marine and Fisheries Department, that the men had left yesterday morning in their white-painted motor boat, 33 feet long, and had not returned.

Mr. Chesley was moving to send help for the searchers when further word was received from Mr. Connolly that the men had been rescued by the Grand Manan. Fortunately, the schedule for the Grand Manan calls for sailing from North Head to Eastport and St. Andrews on Saturdays, and in a later telegram from Eastport, from Captain E. J. Treary of the Grand Manan to Mr. Chesley the captain said he sighted the men soon after leaving North Head. Word immediately was despatched to Beaver Harbor to relieve anxiety and stop the search there.

Several Auctioned Today—Matter of Advertising is Referred to.

PROPERTIES ARE SOLD AT "CORNER"

A two story brick residence at 77 Mecklenburg street and property at Duck Cove, belonging to the estate of the late D. R. Jack were sold at Chubb's Corner at noon today by E. L. Potts. The first was knocked down at \$270 over a mortgage of \$4,000 and was bid in by the mortgagee.

The Duck Cove property was bid in by H. F. Puddington at \$270 over a mortgage of \$3,500.

I. Webster sold a motor boat and dory at the Market Slip. The motor boat, with 6 horse power engine was bid in by James Laidlaw for \$39 and the dory sold for \$12.

Criticism of the advertising of a sheriff's sale in a weekly paper instead of a daily was made this morning by E. D. Tilley at the sale of the interest of Charles Simon in a property in Egin street to satisfy a judgment.

Sheriff Wilson was reading the advertisement of the sale when Mr. Tilley asked what paper it had appeared in and was told it had been in a weekly. Mr. Tilley contended this was not good practice as it did not protect the interest of the mortgagee, who probably would not see it. He said the advertisement should have appeared in one of the daily papers.

The property was bid in by S. H. Hanton for \$50 over the mortgage of \$3,500.

JUDGMENT FOR \$750 IN WEST LAND CASE

Judgment for \$750 and costs was rendered this morning in the Circuit Court by Mr. Justice LeBlanc in the case of Peter Davidson against Thomas Bell. The suit, which was heard before a jury, was for about \$1,000, and was in connection with the purchase of a lot of land in western Canada, in the sale of which the plaintiff claimed misrepresentation. The jury was given seven questions by the judge and five each by the counsel for either side and it was on the answers to these that the judge based his decision.

Bellevue and Gilbert appeared for Mr. Davidson and Dr. J. B. M. Baxter, R. C. and W. H. Harrison, K. C., for the defence.

LITTLE ONE IS HURT. Edith Fleet, three-year-old daughter of James Fleet, 604 Main street, fell through a grating in front of a house in Main street, near Acadia street, yesterday and was slightly injured.

AUTO CASE. A report was read in the police court this morning against George Benton for exceeding the speed limit with his automobile. As he failed to appear a summons was ordered to be issued.

MANY BABIES THIS WEEK. The boys took the lead in the number of births recorded this week, having a majority of four over the girls. There were reported to the deputy registrar of vital statistics in the week of births, 21 boys and 17 girls. Nine marriages were reported for the week.

ASSISTED IN ENTERTAINMENT. The accompanists for the entertainment in the Coburg street Christian church last evening were Mrs. Norman MacLeod for the piano, Miss Bertha Stockford for the duet and Mrs. Gilford for the selections by the choir.

GOING TO MONTREAL. Mr. and Mrs. J. B. Power and son, Clarence, will leave this evening for Montreal. Mr. Power is a member of the staff of the Canadian Pacific Steamships, Ltd. and will remain there during the summer months.

TRAIN IS DELAYED. The Montreal train, due here at 1:20 o'clock was reported running two hours late as the result of a delay occasioned by the Brownville division when a freight train blocked the main line. A loose tie on the engine attached to the freight was said to be responsible.

POKIOK MILL STARTS. Stetson, Cutler & Company's sawmill at Pokiook started this morning for the season this morning. The resumption of activities at the mill was welcomed by citizens in general, as it will mean employment for approximately 75 men.

SEASON'S MEETINGS ENDED. St. Jude's W. A., West St. John, held its closing meeting of the season yesterday afternoon at the church hall, with Mrs. W. L. Fenton, president, in the chair. Sewing and quilting were completed for the season and the members were complimented by their president for their faithful work throughout the year. They will not meet again, except for a business session, until next autumn.

PRESENTATION MADE. Mrs. T. Fred Miller, who left yesterday afternoon to spend a couple of months in Boston, Mass., and New York, N. Y., was given a pleasant surprise just before she boarded the train. Associates in the Ladies' Auxiliary of Alexandra Temple were at the train to say God speed to her and as token of their appreciation for what she has done for the organization they presented her to her a handsome leather hand bag.

WILL WED AT 6 O'CLOCK. A quiet wedding will be solemnized this evening at 6 o'clock in St. John's (Stone) church when Rev. A. L. Plonon will unite in marriage Miss Marjorie Sanction, daughter of Mr. and Mrs. S. Norman Sanction, 112 Wentworth street, and Frank Wilson, son of Mr. and Mrs. LeBaron Wilson, Wright street. Little Miss Lorraine Sanction, sister of the bride, will be flower girl. After a honeymoon trip to U. S. and Upper Canadian cities, the young couple will reside here.

HAD ONE-SESSION. For the first time in a long while school children attended a Saturday morning session today. Ordinarily school would close this year on Monday, June 30. So as to avoid holding the exercises on Monday and also because of the fact that the Provincial Teachers' Institute will be held in Moncton on June 25, 26 and 27, the closing day has been set for Tuesday, June 24. To make up this lost time a half-session was ordered for this morning.

IS GIVEN FAREWELL. The Friendly Bible Class of the Main street Baptist Sunday school met with the home of their teacher, Mrs. MacLean, 13 Victoria street, last evening, to bid farewell to Miss Celia Geddart, who is to leave for Boston this evening. Miss Geddart was made the recipient of a handsome vase. The evening was pleasantly spent in games and music and readings by Miss Alice Vanwart. Refreshments were served by the hostess and after singing Auld Lang Syne all had good-bye to their comrade and classmate.

OLD SONGS ARE SUNG. Old English songs—more than 150 years old—were sung by pupils of the King George school in an original musical production last evening in the school assembly room in aid of the school fund. The soloists were Marjorie Chown, Muriel Chown, Loretta Carmichael, Patricia Phillips, Frederick Jackson, Ida Selig, Marjorie Watson, Doris Hunter and Malcolm Harrison. The chairman of the evening was Master Harry Fowle. The children were assisted in their programme by Miss Louise Knight, Miss Mildred Bustin and Mrs. Stanley Harrison.

PUTS IN HERE WITH CARGO OF LIQUOR

Large Yacht Istar in Port; Collector Wires Particulars to Ottawa.

The 970-ton steam yacht "Istar," said to be owned by a wealthy Englishman, dropped anchor off Reed's Point this morning en route, it is understood, to St. Pierre Miquelon with a full cargo of liquor on board. When Captain J. Skinner and the purser went to the Customs House this morning to complete formal entrance papers, they were requested to see the collector of customs, C. B. Lockhart. Following a brief conference with Mr. Lockhart, the entrance papers were filled out and filed. Mr. Lockhart said afterwards that Captain Skinner had had a cargo of liquor on board and that he was on his way to St. Pierre Miquelon. He had put into St. John for coal, Mr. Lockhart said. Asked regarding any action he would take in the matter, Mr. Lockhart said he had wired full particulars of the case to Ottawa, and pending instructions from headquarters, he would hold the yacht here. Mr. Lockhart added he had made no decision yet regarding coal for the yacht.

The yacht, which plainly shows buffings by heavy seas, is a large one with two masts. She is attracting considerable attention and many visitors. It is expected this morning to get a good view of her. This is her first visit to this port. Nagle & Wigmore are acting as local agents for the yacht. It is understood that her owner is on board. According to the entrance papers, the present voyage of the "Istar" is from St. George's, Bermuda.

WILL PARADE TO CHURCH SUNDAY

Plans of St. John Company Naval Volunteer Reserve Announced.

Plans have been completed for the charade of the members of the St. John Company, Royal Canadian Naval Volunteer Reserve, which will take place tomorrow. The members will assemble at their headquarters in Charlotte street at 10:25 o'clock and march by way of the south side of the Brownville division to No. 2 engine house, where a flag raising ceremony will be carried out. An armed guard will present arms and the bugles will sound a general salute as the flag is run up.

The pipe band of the 7th Canadian Machine Gun Brigade, through the courtesy of the O. C., Lt.-Col. R. A. McAvity, will accompany the parade. After the flag raising, the parade will march to the Cathedral, where the pipe square will break off to attend mass and the rest of the members will proceed to Trinity church.

An invitation has been extended by the president of the Navy League to cooperate and attend either service in as large numbers as possible.

SNOWBALLING IN APRIL IS CHARGE

Three boys appeared in the police court this morning charged with throwing snowballs at some men, who were walking along Brown street on Easter Sunday. Magistrate Henderson explained that, in addition to a misdemeanor, they had also committed an assault and as a result they were liable to a fine of \$28. A fine of \$4 was struck, but was allowed to stand pending their future conduct.

HISTORICAL SOCIETY MEETS.

Lord Sheffield, who was made a freeman of the City of St. John in 1805, was the subject of an interesting paper by Timothy O'Brien at a meeting of the New Brunswick Historical Society last evening with J. S. Flagg, the president, in the chair. Dr. J. Clarence Webster of Shediac wrote asking the society to name historical spots in the province that should have markers. The letter was written from England. It was announced that Andrew S. Beyer had promised to present a History of French Village to the society's library.

SENDS THANKS.

Mayor Fisher this morning received from the office of the President of the Canadian National Railway a letter, thanking him for the reception accorded to the visiting Progressive members of Parliament and the opportunity which had been given them to inspect the terminal facilities here.

As Hiram Sees It

"Be you gonto vote Monday?" asked Mr. Hiram Hornbeam of The Times reporter. "Why should I?" demanded the reporter. "Don't you pay taxes?" queried Hiram. "It's only because I have to," said the reporter. "You're a fine feller," said Hiram. "If they was all like you this 'ud be a great town." "I don't owe it anything," said the reporter. "It's a bun town, anyhow." "Yes," said Hiram. "I guess that's so. If it wasn't I wouldn't let you hang around twenty-four hours." "A man has a right to speak his mind," said the reporter. "Some folks hes a mind," said Hiram. "—an' some hes a grouch." "Do you mean that as a reflection on me?" demanded the reporter. "If you want to take it that way," said Hiram. "An' if I hear you let out a single squawk fer the next two years about City Hall—I'll hev you tarred an' feathered—By Hen!"
