IMMORALITY IN CARLETON.

A Wife's Infidelity Aired in Police Court.

Spying Witnesses Testify Against Mrs. Stoeber and Louis Seigel, Charged With Adultery.

Louis Seigel, aged 31, of Montreal, and Mrs. Stoeber, wife of Augustus Stoeber, engineer at the Carleton electric power house, were arrested at Mrs. Stoeber's home yesterday morning on the charge of adultery.

It would appear that a trap was laid to catch Mrs. Stoeber, who was suspected of infidelity and five or six men lurked around her house, spying on her actions and listening at raised windows, with the result that sufficient evidence was secured to warrant her arrest along with the young man who was with her.

Thomas W. Clark, a Carleton cab driver told that he had been engaged by Mrs. Stoeber to meet the late train from Moncton on Saturday night. He did so. Mrs. Stoeber came in at the station and Seigel came in on the train.

Officer Gosline told how he and several others, including Mr. Bruckhoff, who is related to Mr. Stoeber, had waited around the house, from about twelve o'clock, Gosline found a window slightly raised, and opening into a bedroom. When the cab drove up Mrs. Stoeber and Seigel went into the house. Shortly afterwards Gosline took up a position at the window and after a time went and got the others to come and listen.

In consequence of what he had heard the witness and Sergt. Ross entered the house by the kitchen window and placed Mrs. Stoeber and Seigel under arrest. They dressed and were taken to Carleton lockup.

Some little excitement was caused by Mrs. Stoeber emphatically declaring that Gosline was a liar and that the window was not open at all.

The witnesses heard were bound over to appear at the next session of the county court on the first Tuesday in November, and the further hearing of the case was adjourned until eleven o'clock tomorrow.

HOTTEST OF THE YEAR

This is the hottest day St. John has had this summer. The official thermometer at the St. John observatory registered today as a maximum temperature 81 degrees, and as a minimum temperature 58 degrees.

It is not an unusual thing to have hottest days of section in the month of September. September of last year was about the same as this year, the maximum temperature being 71.5 degrees, the September of the present year has been eclipsed, however, in years past. On the 6th of September, 1897, the mercury showed an altitude of 82.3 degrees, and on the 4th of September of the year following, 1902, the same altitude was reached, namely, 81.2 degrees.

Our warmest days this year, with the exception of yesterday's, have been the 18th of May, with 72 degrees to its credit; with 80 degrees, the second warmest day this year; and the 30th August, with 74 degrees.

Our summer, as compared with past years, has been unusually cool one, and the warm spell of the present time is all the more acceptable after so many days of autumnal coolness.

SUNDAY VIOLATION.

As a result of yesterday's outing on the river Sergt. Kilpatrick has reported Capt. Alfred Penman, Enoch L. Waring, engineer, and Louis Whiskey, fireman, for openly desecrating the Lord's Day by running an excursion on the steamer Beatrice Waring from St. John and return on Sunday, Sept. 13.

EAGER FOR DEATH.

Murderer Steps Lightly into the Fatal Chair and Dies Without a Tremor of Fear.

AUBURN, N. Y., Sept. 14.—Three minutes from the time Clarence Egnor, aged 28, entered the death chamber in Auburn prison, at 3.35 this morning, the death chair had claimed its 18th victim. Egnor came into the room with almost an swagger and stepped to the chair with undisturbed composure the moment he beheld it.

The crimes for which Egnor forfeited his life in the chair was committed January 3, 1901. He was a convict working in the cloth shop, which was in charge of Captain Archibald Benedict, who had found it necessary more than once to punish Egnor for defiance. Upon the day in question he had reprimanded Egnor for talking across the aisle of his shop and Egnor expected to be reported for punishment. This was before the noon hour and immediately after Egnor armed himself with an iron bar and laid in wait for the captain. When Captain Benedict passed him, Egnor sprang from behind and dealt him a crushing blow on the head, fracturing the skull. The victim sank to his knees helpless, when Egnor emptied the butt of his revolver protruding from his hip pocket, which he held and shot Benedict in the back of the head. Death was instantaneous.

JAPAN'S ANGRY PROTEST

Strong Objections to Russia's New Proposals About Evacuation of Manchuria.

LONDON, Sept. 14.—A despatch from Shanghai to the Daily Mail says, Uchida, Japanese minister at Peking, has had an interview with Prince Ching and has entered a strong protest against the new proposals of Russia regarding the evacuation of Manchuria.

The Japanese protest says that the Chinese government is entitled to justify its refusal to accept the evacuation of Manchuria along the Sungari River.

EMPEROR MAY ABDICATE. LONDON, Sept. 14.—The Vienna correspondent of the Daily Mail declares that the Hungarian political crisis has become so acute that the abdication of Emperor Francis Joseph as King of Hungary is freely discussed in the latter country, and although no party leader is willing to openly discuss the probability, there is a strong feeling in favor of Hungary's right to choose his own king, the candidate favored being the German emperor's second son, Prince Eitel.

In the police court this morning four deposits of eight dollars each were handed in. Two other grunks were filed, one of them, named William Griffin, receiving ten days, and Thomas McNally two months.

CHRISTIANS EXTERMINATED.

Stories of Horrible Turkish Slaughter Confirmed.

Servia Will Throw in Her Lot With Bulgaria Against the Infamous Turks.

LONDON, Sept. 14.—The Times publishes a long despatch from Manastir, dated September 5, in which as the result of his own observations and those of other reliable witnesses, the correspondent fully confirms the descriptions of the extermination of the Christian population in the village of Manastir, which he avers is being carried out by regular and bashi bazouks between whom there is little to choose and whose doings it is evident are directly sanctioned by the sultan.

BERLIN, Sept. 14.—An extraordinary letter purporting to have been written by a Bulgarian statesman appears in the Kinno Journal. The writer asserts that a subterranean passage leads from the Castle of Euxinegrad, where Prince Ferdinand lives, as though besieged, to the river through which the prince can escape by water when convinced that his position is no longer tenable. It is added that the Princess Clementine, mother of Prince Ferdinand, saw King Edward VII. at Vienna, told him that her son was in a deplorable position and in danger of his life and begged his majesty to have a vessel in readiness to carry him away from Bulgaria. It is further asserted that King Edward assured the Princess Clementine that Prince Ferdinand would always find an asylum in England.

LONDON, Sept. 14.—The correspondent of the Times at Sofia says: "It would be very inadvisable for the powers to address resolutions to Bulgaria at the present moment because it would strengthen on the eve of the elections the hands of the opposition party which is trying to foment a rebellion in order to overthrow the present government." The correspondent also says that the Bulgarian government has endeavored to convince the nation of the folly of an adventurous policy which would be merely playing into the hands of the war party.

LONDON, Sept. 14.—The Daily Mail correspondent at Sofia in a despatch dated Sept. 9, sends an interview he has had with Tatarscheff, the chief of the revolutionary committee, in which the latter represented that there was a strong probability of Servia throwing in her lot with Bulgaria against Turkey and that the question of war or no war depended mainly on Servia. Tatarscheff declined to commit himself to details, but admitted that negotiations were proceeding between this committee and Servia and also that the Servian premier lately sent scouts to join the revolutionists in Bulgaria in order to report the latter's progress.

Captain Sarafoff, the brother of the revolutionary chief, who was also mentioned at the interview, went further than Tatarscheff and alleged that weeks ago it was agreed that at the slightest provocation the Servian forces should invade old Servia and occupy Uskub. It was hinted that Montenegrins, also heard from in Albania and that Turkey would thus be compelled to divide her forces thereby much reducing her chances of victory.

ST. PETERSBURG, Sept. 14.—An Orthodox Arch Priest Vassiloff was stabbed to death in the streets of Alexanderopole, Trans Caucasus. The murderer escaped.

The Novosremyeta's correspondent from Caucasus says the murder was one of a series of assassinations committed by the Armenian Mafia and adds that Vassiloff had been blacklisted for converting the inhabitants of three Armenian villages to the orthodox faith. The correspondent further recounts another recent brutal murder at the Alexanderopole railroad station, in the presence of a crowd of people. In this case also the murderer cutly made good his escape. Judicial investigation of the many murders committed, it is asserted, show that 80 per cent. of the many recent Armenian murders were the work of Armenians who emigrated from Turkey, inspired by fanaticism, and that others were simply the crimes of paid assassins.

OTTO SARONY DEAD.

NEW YORK, Sept. 14.—Otto Sarony, who for nearly thirty years has had an international reputation for his work in portrait photography, died in hospital in this city on phthisis. His health had been failing for over two years and it had been known that he would not live, but the end came suddenly. Mr. Sarony was born in Brooklyn 13 years ago. He was by birth and training fitted for his work. As a child he was tutored by his father and when older he attended for some years a college in Montreal. On his return to this city he went into his father's studio and from then until his health failed two years ago, all his time was given to his profession. Many European monarchs as well as men and women of note in this country have been among Mr. Sarony's patrons.

BRITISH OPINION.

Alaskan Commission Warned Against Sacrificing Canada's Interests to American Friendship.

(Canadian Ass. Press.) LONDON, Sept. 14.—The Manchester Guardian considering the strong feeling in Canada and the Western States, says that it would be rather surprising in the face of such feeling if the two Canadian commissioners or the three appointed by the United States voted against the claims of their respective countries. Lord Alverston's is to a greater degree independent of popular feeling and if converted to the American view of the case his vote will determine the controversy.

It is stated that though considerable portions of the evidence and some of the documents have been omitted from the South African war commission's report issued to the public, some copies of the evidence as given, not as edited, were printed for the use of the members of the cabinet. It is said that they tell a more damaging story than the published blue books.

There is a strong impression that today's cabinet will appoint a royal commission to deal with the fiscal question. The Manchester Courier discussing the Alaska commission says it would be better to take the risk of leaving the disputed point unsettled than to inspire in the hearts of our Canadian fellow subjects a belief that their rights have been offered on the altar of American friendship.

The letter received from Col. Evans, of the Canadian Mounted Rifles, who with Col. Otter, of Toronto, and Col. Drury, of Kingston, was attached to Sir John French's staff for military manoeuvres says that he and his brother officers met with a cordial reception. Mr. Courtney, deputy minister of finance, arrived in London yesterday on business connected with the lapsing of the Dominion loans.

AFTER CHIEF CLARK'S SCALP. Daniel Mullin Will Press a Charge Against Him Before Proper Authorities.

Daniel Mullin, K. O., is after Chief Clark's scalp, but the chief laughs and says the whole affair is nonsense. Before the opening of the Seigel-Stoeber case in police court today Mr. Mullin drew the attention of the court to a question concerning the rights of counsel. It appears, said Mr. Mullin, that the prisoner Seigel, while in the guard room, had said that he wished to engage counsel and asked what Mr. Mullin he sent for. The chief then tried to induce Seigel to employ some other counsel and mentioned one whom he thought a good man. Mr. Mullin thought that this was going a little too far and said that he wished to draw the court's attention to it. He also intended carrying the matter to the proper authorities.

Magistrate Ritchie said, "That is what you had better do. I have nothing to do with the chief of police." Chief Clark says the charge made by Mr. Mullin is not correct. Seigel asked who would be a good man to act as his counsel and the chief mentioned the names of about a dozen, without suggesting that he should engage any one in particular.

CABINET RESIGNATIONS.

LONDON, Sept. 14.—The Associated Press understands that the rumors of the approaching resignation of the chancellor of the exchequer, Mr. Ritchie, are well founded. He will attend the special cabinet meeting called for today with the determination of resigning. Other minor resignations are likely to occur, but Colonial Secretary Chamberlain and Premier Balfour are reported to be standing together and intend keeping up the cabinet by filling the vacancies.
