Mission Board Met. The Foreign Mission Board of the United Baptist Church met yesterday afternoon in their rooms, Prince William street. The most important matter was the arrangements for the trip of the fifteen members of the board to Toronto May 6. The project of the union of the foreign mission boards of Canada will be consummated in that city on May 8 and 10. On these dates the Maritime Board will cease to have any official existence. The office on Prince William street will be kept open as usual, however, Miss Barbara Gould, one of her way home for her first furlough and expected to be in London, England, April 17. Miss Gould belongs to the Ontario.

APPROPRIATE ORATORIO BEAUTIFULLY RENDERED

Stainer's "Daughter of Jairus" Heard by Representative Audience in Stone Church Last Evening.

A large and representative audience heard with much pleasure the singing of Stainer's "The Daughters of Jairus," by the choir of St. John's (stone) church, last evening. The recital was held in connection with the special holy week service, the oratorio being especially adapted to this season of the year. The soloists, whom great credit is due for their excellent work were Mrs. C. S. E. Robertson, soprano; Miss Elizabeth Holder, contralto; C. A. Munro, tenor, and A. G. Burnham, bass.

The recital opened with the chorale from Passion, due to the words of the 135th hymn after which C. A. Munro sang Mendelssohn's Hymn of Praise in a manner that surpassed the expectations of the audience. This was followed by a soprano solo by Mrs. C. S. E. Robertson who excelled herself in the rendering of "The Night is Departing," a hymn of praise by Mendelssohn. Prof. D. Arnold Fox, the organist and choir leader of the church, by the contrary alto voice to them, playing this difficult selection in a superb manner. This was followed by the contralto and tenor parts from Mendelssohn's Elijah by Miss Elizabeth Holder who did full justice to the solo. The aria closed the first part of the programme and the rest of the evening, "The Daughter of Jairus," was then commenced.

The story of the daughter of Jairus as it was magnificently told last evening, by the different choruses and solos, is one of the most touching events in the earthly career of our Saviour and it deals with the great mercy that Jesus showed to Jairus when his daughter lay near unto death. The programme was as follows:

- 1. Overture--Organ Solo. 2. Chorus--"In that day shall the Lord of Hosts be for a Crown of Glory." 3. Recitative (Soprano)--"Behold there cometh unto Jesus one of the rulers of the Synagogue Jairus by name." 4. Solo (Bass)--"My little daughter lieth at the point of death; pray Thee, come and lay Thine hands upon her and she shall live." 5. Male Chorus--"Trouble not the Master, thy daughter is dead." 6. Solo (Bass)--"My little daughter even now is dead; lay Thine hands upon her and she shall live." 7. Recitative (Soprano)--"When Jesus heard it, He said, 'Believe and she shall be made whole.'" 8. Solo (Tenor)--"My hope is the everlasting." 9. Recitative (Soprano)--"Then Jesus cometh into the house of the ruler and seekest her, and wept and wailed greatly." 10. Soprano and Alto Chorus--"The Wailing." 11. Recitative (Soprano)--"And Jesus saith unto them, weep not, She is not dead but sleepeth, and they laughed Him to scorn." 12. Male Chorus--"In the death of a man there is no remedy, neither is any man known to have returned from the grave. The breath in our nostrils is an smoke, and a little spark, the one moving of our hearts which, being extinguished, our bones shall be turned into ashes, and our spirits shall vanish as soft air." 13. Recitative (Soprano)--"But when Jesus had put them all out He taketh with him the father and mother of the damsel, and took her by the hand, saying, 'Maid, I say to thee arise; and she arose and walked.'" 14. Chorus--"Awake thou that sleepest." 15. Duet (Soprano and Tenor)--"Love Divine." 16. Chorus--"To Him who left His Throne on high." 17. Trio (Soprano, Tenor, Bass and Alto)--"Be ye praising praise Hallelujah, Amen."

A Hopeless Case. A doctor came up to a patient in an insane asylum, slipped him on the back, and said: 'Well, old man, you're all right, you can run along and write your folks that you'll be back home in two weeks as good as new.' The patient went off in a rapture, but when he was licking the stamp it slipped through his fingers to the floor, lighted on the back of a cockroach that was passing and stuck. The patient hadn't seen the cockroach, but he did see his escaped postage stamp zig-zagging aimlessly across the floor to the base board, wavering up over the base board and followed a crooked track up the wall and across the ceiling. In depressed silence he tore up the letter that he had just written and dropped the pieces on the floor. 'Two weeks!' he said, 'I won't be out of here in three years.'

How Nerve Cells Are Broken Down

Every man or woman who works with the brain uses up daily an enormous amount of nerve force. Millions of tiny nerve cells are broken down and must be replaced if mental and bodily efficiency is to be maintained. If the brain is overworked, sleeplessness or irritability set in, the evidence is plain that nature is not rebuilding as fast as work is breaking down. You cannot allow this depleting process to continue long if nervous prostration or paralysis is to be ward off. Dr. Chase's Nerve Food will help you to get the balance on the other side of the account, so that each day will add a little to your stock of health and vitality. A man whose work is largely mechanical may keep going with health below par, but the brain workers must have a clear head or fall behind in the race. Restore the wasted nerve cells with Dr. Chase's Nerve Food and know the joys of good health and success.

PROPOSED DAM ON SAINT JOHN RIVER

A Big Power Scheme--Objection to Structure at Meductic Falls -- Company Seeks Rights at Capital.

Fredericton, April 3.--The Corporation's Committee met this morning and took up the consideration of the St. John River Hydro-Electric Company bill, Messrs. R. B. Hanson, R. Max McCarty and F. W. Holt, C. E., appeared in the interests of the bill, while J. Fraser, treasurer, represented the lumbermen; J. Hunter White, the St. John Board of Trade; Messrs. J. F. Winslow and T. C. Allen, the Tobique Salmon Club; Messrs. Evans and Galbraith the Lorneville fishermen, and F. R. Taylor the N. B. Railway Company. Mr. Holt presented the plan of the dam which the company proposed to construct at the foot of the Meductic Rapids. It would not be more than 25 feet in height and probably only 20 feet.

J. Fraser Gregory said that such a dam would interfere with the operations of the St. John River Log Driving Company and opposed the bill on that account. Mr. White spoke of the dam on the St. Croix and said that a highway was not feasible because it was felt that the new form of government was the real necessity, and the citizens' committee desired to avoid the charge of wanting to have any particular body of men in office. Mr. Armstrong was surprised to find that an opposite course had been pursued in St. John by the contrary and conditions here, but it seemed to him that the Lowell plan, which was also the plan in other places, was the best and that the commission decided on the people should be trusted to make their choice of rulers.

Mr. Allen said that the head waters of the Tobique River were spawning grounds of all the fish of the Bay of Fundy.

Messrs. Taylor and Winslow also opposed the bill. Mr. Hanson said that no valid objection had been presented against the erection of the dam which should cause the committee to throw out a project of such magnitude. The chief opponent of the bill, on his own testimony, had said that he had opposed legislation for the development on the St. John river for 28 years. He (Hanson) had the unpropitious statement of Mr. Kilburn that the dam would not interfere with the transmission of lumber, but would serve to assist driving operations. The company proposed the act to give cheaper power and that was essential in the development of the industries of St. John. The company was a stable one and had as its chief financial backer, Herbert Guernsey, of London, City, a firm of the name of Meductic Falls mill at or near Meductic Falls.

The erection of the dam was feasible from an engineering standpoint. A dam 20 feet high would not stop the natural flow of water and would not interfere with the rights of lumbermen or fishermen. He believed it impracticable to place a fallway in a dam 25 feet high, but Mr. Hawkins, an expert, had given his unbiased opinion that a proper and efficient fallway could be put in a dam 25 feet high. There was no doubt about the jurisdiction of the legislature to grant this legislation and the proposition should receive fair play from all concerned. The committee adjourned at 1:30.

OBITUARY

Mrs. W. L. Hamm. After a long and painful illness, Mrs. Wellington L. Hamm died yesterday morning at 9 o'clock at her residence, Wellington street, and the sad news was heard with sincere regret by a wide circle of friends. The deceased had been a member of the church for many years and she was a devoted wife and mother. She was born in the town of St. John, N. B., and she was a member of the St. John Baptist Church. She was a devoted wife and mother and she was a member of the church for many years. She was a devoted wife and mother and she was a member of the church for many years.

DANGERS OF THE BUBONIC PLAGUE

Baltimore, April 3.--It is not without the range of possibilities that the bubonic plague might attack this country and become epidemic, as it did during the middle ages, when it was known as the "black death," said Dr. Norman Roberts, past assistant surgeon of the public health and marine hospital service, who was in charge of his services' exhibit at the public health conference at Baltimore. Dr. Roberts made it clear that he was not an alarmist anxious to frighten the public. He had replied to a question, "But," he repeated, "the bubonic plague is not distinctly a scourge of the middle ages removed from our ken. The parasitic bacillus is its greatest friend in this country, as he is the greatest friend of disease generally." This was proved in San Francisco in 1907 when the plague was epidemic there. For a long time the work of the physicians fighting the disease was obstructed by politicians, who said there was no plague in the city. One party said there was plague, another that there was not. The party insisting that there was none even found a bacteriologist, who said there was no plague. The co-operation of the people was needed to clean the city. It is conceivable that, if such a situation were duplicated in the east, an epidemic might occur here and that one of the more deadly forms, septicaemic or pneumonic plague might result. The mortality rate of the bubonic is from 20 to 50 per cent. that of the other forms 100 per cent., which means that being told you have the disease is being given your death warrant. The crowded tenements of New York furnish the conditions under which these forms flourish. If the plague appeared in New York in a port of the eastern coast of this country...

FUNERALS.

The remains of Mrs. Clarence Fawcett arrived on the Boston train yesterday morning from Allison, Mass., and were laid peacefully to rest in the Perhill, Rev. R. P. McKim conducted the burial services. The parents of the deceased, Mr. and Mrs. P. Taylor, and her husband accompanied the body to the city. Many friends here extended sympathy to the grief-stricken family. The funeral of James Long took place yesterday afternoon at 3 o'clock from his late residence, Main street, Fairville. Burial services were conducted by Rev. G. A. Ross, after which the remains were taken in Cedar Hill cemetery.

EMPERESS PIERROTS SCORED A SUCCESS

"Rainbow Follies" Provided Patrons of Local Playhouse with a Couple of Hours of Merriment.

Every seat in the Opera House was occupied last night and a most appreciative audience greeted the pierrots from the steamship Empress of Britain, who presented an excellent performance which they called "Rainbow Follies." It provided a couple of hours of real enjoyment, a number of excellent sketches, comic songs, and catchy jokes being offered, while there were also several well-rendered vocal solos. The first part was similar to a minstrel circle with Joe Johnston as interlocutor, while E. Glegg was the conductor. Four funny sketches with their songs and jokes kept the audience in roars of laughter. H. Warner, the boy vocalist, made an impression in his song, "The Dream Man." The other soloists were J. Duckers, R. Lee, L. Johnston and F. Roberts. The main features of the performance were the well-rendered tenor solos by F. Roberts, who had to respond to several encores. He sang four solos during the performance and had a voice of excellent quality. In the second part J. Walker was the soloist in a comedy sketch, "How Good in a comely sketch, How Walker and F. Roberts rendered solos, H. Price as a Scotch comedian, made a hit and a song and dance by R. Thomson was generally applauded. The performance closed with a humorous sketch entitled "Fun in a Restaurant," and Terry and Thomson, who were the waiters, proved two very funny performers.

The proceeds were in aid of the General Public Hospital fund and a large sum was realized.

The physicians, the epidemic would occur.

In San Francisco a fund of \$100,000 was raised to fight the disease and old buildings were torn down all over the city, poison put in all places where rats might be, garbage covered so that rats might not get it. Masses of rats were swept from their hiding places through the sewers and out into the bay.

The disease is an Asiatic one. It exists in its most deadly form in China and India. Our government is now experimenting with a machine which promises to do much to prevent the transportation of the disease from Asia to this country. Ships' rats bring the disease here. This machine, by filling the hold of the ship with air devoid of oxygen and containing no elements injurious to the cargo, kills the rats and of course the flea and with the flea the bacteria.

NEW LOW RECORD OF FORTNIGHT IS REACHED

New York, N. Y., April 3.—Although the prices of standard stocks yielded but little today the reactionary tendency of the early week became more pronounced and declines fell to the smallest total recorded in any full day for more than two weeks. Virtually all the activity was in the first hour, another characteristic wherein today's session was unlike that of the days immediately preceding. The trading element inclined decidedly toward the selling side. This attitude finding its surest reflection in the relative heaviness of United States Steel, Union Pacific and Reading, with some pressure upon the copper.

CLOSING STOCK LETTER.

New York, April 3.—The prospect of a holiday on Friday next with the bare possibility of a three-day adjournment of the stock exchange was a distinct influence in today's operations on the stock exchange, resulting in a considerable volume of scattered profit-taking by traders who were planning a protracted weekend holiday. In view of this pressure, however, and the general lack of feature in the day's news budget the market gave a very good account of itself becoming very dull on reactions and showing spurts of activity and strength at various points throughout. Among these features of strength were the Hill stocks which were bought on reports of better conditions in the Northwest, Norfolk and West. Iron which rose on a revival of the old rumor that the Panhandle would guarantee the present 6 per cent. dividend and Wabash debentures were favorably affected by the report that a recent thorough examination of the property had disclosed a better physical condition than was generally believed to exist. A number of other specialties showed flashes of strength but there was a general disposition on the part of the speculators to follow the advance partially for reasons outlined and partly because a large number of these believe the market needs a substantial reaction. All things considered, the market showed unexpected resistance to adverse technical influences and while a reaction may come at any time there is no reason to believe that the upward movement has run its course. COPP TURNS HIS HEAD A FLOOD OF WORDS

Continued from page one.

That should have been met out of current revenue, they also left laws on the statute books which have compelled the present administration to expend something over \$500,000 to carry out. Of the increase in the debt since 1908 expenditures for permanent bridges commenced under the old administration alone exceeded \$400,000. More than another \$100,000 has been necessary to provide a subsidy for the International railway, one of Mr. Pugsley's pet schemes. The New Brunswick Coal and Railway blunder has cost the province almost \$150,000 more. Mr. Copp, by the way, was one of the small beneficiaries of this political crime of the old administration.

In the face of the facts it requires considerable tenacity on the part of any one to charge the present government with increasing the debt by a million dollars in four years, when the increases were due to the incapacity, dishonesty and ill-advised legislation of the government from which Mr. Copp received fees for very questionable services. A father and truer statement than that made by Mr. Copp of the financial condition of the province would naturally be expected from a man who occupied the position of leader of the opposition.

As Mr. Copp's attention has already been called to the maliciously untrue statements he made in an interview published in the Telegraph last December, it would have been expected that he would have been more careful in his assertions on the floor of the House, but Mr. Copp evidently prefers the position of appearing deli-

CONTRACT SIGNED

By the Federal Government
— WITH —
NORTON-GRIFFITH COMPANY
To Spend \$12,000,000. in Courtenay Bay

Making St. John one of the greatest Ocean Ports in the World. This was the best news which ever came to a Canadian City.

It means that every dollar invested in Bay View property at Courtenay Bay is not a speculation, but a wonderfully profitable investment. Our lots are situated within a stone's throw of the Dry Dock site, which involves a \$5,000,000. expenditure.

They are the lowest priced lots at Courtenay Bay ranging in price from \$150. up

Terms: 10% down, balance in 23 equal monthly instalments, they will double in value before you have half paid for them.

LAURISTON COMPANY, Limited,

17 PUGSLEY BUILDING.

BECOMING CHILDISH.

Mr. Copp's attempt to prove that the present administration has been lax in their collection of stampage because the returns were not so great in 1909 and 1910 as they were in 1911, was rather childish. Such a condition of chaos existed in the crown land department when the present administration took charge, that a complete re-organization of the staff had to be effected before the system of scaling could be placed on a proper basis and the lumber companies allowed to adhere to the regulations. While this work of re-organization was going on the revenues of the province suffered severely. It was there was in the two years mentioned as compared with last year was directly due to the inefficiency of the department during the old regime, which has now been corrected.

Mr. Copp made no attempt to explain the reckless administration of the Public Works Department by the old government. He did not have a word to say regarding the enormous over-expenditures of the year 1911, which caused an addition of three-quarters of a million to the public debt of the province. He skimmed the surface as if they were scraps worthy of mention and passed rapidly to a criticism of the expenditures for the administration of justice, a department in which he used to shine as the recipient of fees under the old administration.

The expenditures of the department have been more than cut in two since the change of government, because the work has been done by the crown officers themselves whenever possible. After finding fault with the expenditures of the Auditor General's service, Mr. Fleming said that a few days ago an honorarium member had made charges on the floors of this House which reflected against the conduct of the Crown Lands Department over which he (Fleming) presided. He would submit evidence that would approve these serious charges and also give the honorable gentleman an opportunity to place himself right.

The honorable member from Gloucester (Mr. Bryne) who was in his seat today for the first time since he had spoken on the budget was reported by the official reporter as having said that the official of Board of Works had acted as a "puffer" on the Nepsiguit River rights at the recent sale of fishing privileges, but that the grave charge was absolutely and entirely without foundation and if his honorable friend had desired to investigate it, he would have secured sufficient evidence to show that his statement was not justifiable.

He submitted affidavits from H. M. Blair, T. G. Loggie, and Percy A. Guthrie, which stated that no employe of the Public Works Department had bid on the Nepsiguit leases and that no official of the government had acted as a "puffer." As Mr. Blair was the only public works official at the sale, it would be readily seen that there was no excuse for the charge of his hon. friend.

Hon. Mr. Fleming continuing, said his hon. friend would have an opportunity to withdraw the charges.

Mr. Bryne said that his hon. friend had been present at the sale, but he had not challenged his (Bryne's) statement before.

Mr. Currie introduced a bill relating to the town of Campbellton.

Mr. Dickson introduced a bill to amend the act respecting sewers and marsh lands.

Hon. Mr. Grimmer introduced a bill to amend the act respecting the incorporation of towns.

Hon. Mr. Fleming introduced a bill to incorporate the New Brunswick Hydro-Electric Bill.

The House went into committee with Mr. Burchill in the chair and resumed consideration of the bill respecting the New Brunswick Hydro-Electric Company.

Mr. Hatheway said the bill did not properly protect the public and particularly the people of the city of St. John.

Mr. Baxter said that as a result of being in communication with the Mayor of St. John, he intended to pro-

"SALT RHEUM"

Had It On Hands For Two Years.

ITCHED SO DID NOT KNOW WHAT TO DO.

Tried Three Doctors and Went to Hospital.

All skin diseases are more or less occasioned by a bad state of the blood, and so one can expect to be free from some form or other of skin trouble when the blood is kept in good shape. All skin diseases can be very easily cured by the wonderful blood cleansing properties of Burdock Blood Bitters.

This is due to the unrivaled purifying action of Burdock Blood Bitters on the blood, coupled with the thorough manner in which it cleanses and expels the impurities from the body.

Mrs. Richard Costine, White Head, Que., writes: "I have been bothered with salt rheum, on my hands, for two years, and it itched so I did not know what to do. I tried three doctors, and even went to Montreal to the hospital without getting any relief. I was advised to try Burdock Blood Bitters, so I got three bottles, and before I had the second used I found a big change, and now today I am cured."

Burdock Blood Bitters has been on the market for about 35 years and is manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

Bank of Montreal Building
Phone, M. 1963. St. John, N. B.

granting water powers and Crown lands. There was a possibility of St. John city controlling its own electricity under the new commission. This company should not be given control of the largest water power privilege near St. John. The company has broken its agreement, passed in November, 1911 in respect to the definite rate for light and power and there was nothing to prevent the company selling its franchise in three or six months to the St. John Street Railway Co. The government should assist the people to get cheaper power and should make a careful investigation before granting such extensive privileges. The people of St. John had protested against any legislation granting the right to any company to enter a street of the city before the common council had given its permission. The council should have sent a copy of the agreement with the company to the government as soon as it had been passed.

Hon. Mr. McLeod—it did not reach us until yesterday.

Mr. Hatheway said that if it was wrong to give power to the city of St. John to appropriate for industrial purposes, the company should be given the privilege to a private company to appropriate lands for private purposes. The company sought to secure the City property but the company would not give them a reasonable remuneration. If the House acceded to the request of the company for expropriation rights other companies would naturally expect the same rights.

He hoped that the time would come when a hydro-electric commission similar to that in Ontario would be appointed. Present legislation was a disgrace to its promoters.

Mr. Hatheway moved that the provision to enable the company to expropriate lands be stricken out.

Mr. MacLachlan agreed with his hon. friend that the principle involved in granting powers of expropriation was an important one and no legislation should be granted which would give this or any other company such extensive powers.

Hon. Mr. Maxwell rose to a point of order and said the amendment was out of order.

The chairman ruled accordingly.

Mr. Young moved that the committee reconsider the bill.

Mr. Baxter said that the common council had desired that the interests of the city should be protected. He moved to amend the bill to provide that the company before entering St. John should comply with the terms, conditions and regulations made by the council. He thought that this would cover the objections made by the hon. friend and would provide an ample safeguard to the interests of the city.

Mr. Hatheway moved an amendment to Mr. Baxter's motion to provide that the company, before entering upon the streets, squares or open plots in the city of St. John must first obtain the consent of the said city.

The amendment was lost and the motion was carried.

Mr. Baxter moved that provision be made to establish the maximum scale of rates and also that nothing contained in the scale of rates shall prevent them from being open to revision by the public utilities commission. He said that the rates that were specified were the same as had been agreed on between the company and council.

Mr. Young moved that provision be made that the company in the con-

struction of dams shall provide fish ways for the passage of fish.

The House took recess at 6 o'clock.

The House resumed at 8 o'clock and went into committee with Mr. Burchill in the chair, assumed consideration of the bill to incorporate the St. John Hydro Electric Co.

Mr. Hatheway moved that provision be made that the company must secure permission of the Lieutenant Governor in Council if they wanted to amalgamate or sell out their interests and that they must first offer to sell out to the government.

The amendment was lost.

Mr. Bentley moved that the rate for electric light and power in York, Queens, St. John and Charlotte counties should not exceed the rates charged in St. John city.

Mr. Baxter, Hon. Mr. Grimmer and Hon. Mr. Maxwell said that the suggestion if adopted might deprive some of the counties from securing power.

The amendment was lost as was also an amendment moved by Mr. Hatheway that the franchise of the company should be for a term of fifty years.

Mr. Speaker said that dams might cause the water to spread over the lands and thus obstruct logs.

Mr. Bentley moved an amendment that the company should arrange for the carrying of logs without any unnecessary delay.

Hon. Mr. McLeod said that logs under ordinary conditions would leave the channel and become hung up.

Mr. Baxter moved an amendment to the amendment that the company should provide efficient sluiceways and apparatus to the satisfaction of the executive council and provide a sufficient flow of water for the uninterrupted passage of logs.

The amendment to the amendment of the Commissioner of Public Works the same should be necessary.

Hon. Mr. Fleming and Mr. Slipp also discussed the proposed changes.

The amendment to the amendment was carried.

Mr. Hatheway moved an amendment that the provision enabling the company to expropriate lands be stricken out. He said that that power had been denied the city of St. John.

Hon. Mr. Maxwell said that if the city of St. John desired expropriation privileges for any specific purpose they would be given it.

The amendment was lost.

Hon. Mr. Grimmer moved to amend the bill to provide that the chief engineer of the Department of Public Works should inspect the books of the company to ascertain whether expenditure as required under the act had been made.

Mr. Young moved that provision be made that York and Charlotte counties residents who desired electricity should receive in all one-fifth of the electricity generated on the Magalloway river.

The bill was otherwise amended so as to provide that fishing and hunting privileges on waters and lands acquired by the company should not be interfered with and for the payment of the amount for privileges and the renewal of leases, also that the company should place \$10,000 with the executive council as a guarantee that the expenditures called for would be made.

Mr. Copp, on the order of the day being called, said that he desired to offer an apology to his honorable friend from Charlton, Mr. Munro, over a remark that he (Munro) had made

when moving the adjournment of the debate on the previous evening. It was his honorable friend from Albert who had moved the adjournment and not his honorable friend from Charlton. His (Copp's) statement at the time was correct but the honorable gentleman named had been the wrong one.

Putnam's Corn Extractor

Dispels Corn Soreness

The real corn remedy, the one that always does its work, is Putnam's Corn Extractor, which makes corns and callouses go quickly and without the least bit of pain. Putnam's makes you forget you ever had a corn. Goes to the root of the tormentor, absorbs its roots, removes the cause, gives lasting relief. Putnam's quickly, safely and surely rids your feet of corns or callouses whether just starting or of many years growth. Price 25c. at all druggists.

HOW CY YOUNG PREPARES FOR A BIG LEAGUE SEASON--BASEBALL'S VET IS 45 YEARS OLD AND IN HIS 23RD YEAR OF SPRING TRAINING

CY YOUNG WINDING UP IN PRACTICE. Photograph Taken at Hot Springs.

Cy Young, baseball's most interesting veteran, has gone to Augusta, Ga., to join his teammates of the Boston Nationals at their training camp. He has completed his month's preliminary training at Hot Springs and is ready to compete with the youngsters for a place on the pitching staff.

Cy Young is 45 years old and is just starting his 23rd consecutive year as a pitcher in the major leagues. Cy is as youthful as any recruit. He is in better shape right now than many a player 20 years younger.

Cy Young was the first player to make use of the Hot Springs of Arkansas. He started going there 20 years ago.

To taking care of himself since boyhood and the waters Young attributes his long career. He goes to Hot Springs a week before the other players. In the first week he takes the baths daily. This is the extent of his work.

In the second week he starts road work. In sweaters, Cy tramps and sprints mile after mile, until satisfied that legs and wind are right. All this time he does not touch a ball.

In the third week, Young continues baths and road work, but the latter is cut down somewhat, for his wind is good and his muscles supple. But he adds fielding and tossing the ball around to his program. He plays

the infield in a lively manner. All this time he is wearing heavy flannels and probably a sweater.

He fields bunts by the hour. This requires a little short throwing and quick stooping, is a great way to reduce stomachs and improve fielding.

Toward the latter part of his third week Young pitches his first ball. He lofts the ball easily for a day or so until the muscles in his arm and wrist find themselves.

Cy Young doesn't attempt a fast ball until he is just right and no one but himself can tell when this will be.

He says he doesn't know how he knows when the moment arrives, but he just naturally begins to speed them across and perhaps to put "something on the ball" at the correct time. The result is you never hear of Cy Young coming out of a sore arm, or wrenched back, as many youngsters do.

When Young started this year he didn't have a suspicion of a waist line. It was more like a round house. Now he certainly does look good. He is carrying very little surplus in his mid section and the work he is doing ought to remove this in another week. He is not so stout as he was when John L. Taylor sold him to Cleveland and he has been making the men who predicted he was all in, take notice by the way he has rounded into form.

Although he is a strong advocate of temperance, Cy indulges in the ex-

tent of one glass of liquor every day before his workout. He believes his system demands it. He has followed the practice for years.

Cy Young—
He is 4 years old.
He has been a big league pitcher for 22 years.
He always prepares himself for the season.
He spends a month at Hot Springs before going to the training camp.
He drinks one glass of whiskey a day while training.
He works slowly and deliberately each spring until his weight is reduced and he can pitch his fast ball without wrenching his muscles.

Cy Young's Program:
First Week.
The regular daily baths at Hot Springs.
Second Week.
Baths and road work.
He dresses in flannels and sweater and does 10 to 15 miles on the road.
He tramps, sprints and climbs hills.
He does not touch a baseball.
Third Week.
He continues baths and road work.
He fields and tosses the ball.
He fields bunts to reduce his stomach.
At the end of the third week he pitches his first ball.

LIVE NOTES WITH THE BOWLING LEAGUES

In a recent issue of the London Sporting Life there is a short article in which George MacDonald, manager of the Great Northern, is quoted as making a statement which intimates that American boxers are side-stopping Owen Moran. Some of them may have looked him up, but coming right down to cases we have several visitors with us on whom the American boxers have nothing to say.

Starting with Freddy Welsh it is on the very best of authority that last September he ducked Matty Baldwin, the Boston lightweight at Salt Lake City, and again in December for a battle in New Orleans, since which date it has been impossible to do any business with him.

Billy Marchant, another British lightweight, who is soon to return home, today stands in a similar position from boxing in New York for running out of a bout there a short time ago, while back on February 28 he did the same with Matty Baldwin.

As for Moran, after keeping at a distance for months, he was finally corralled for a bout in New Orleans with Baldwin, but also, Owen has chucked the bout. While we are at it Matt Wells is another visitor who is not warming up very much. He concerns a meeting with Baldwin, though the Bostonian stands ready to cross gloves with him at 135 pounds ring-side or 135 pounds at 3 in the afternoon. Consequently, while some American boxers may be dodging Owen Moran, we have several British boxers who are dodging Matty Baldwin.

In the City league bowling fixture on Black's alleys last evening, the Nationals won three points from the Juniors, while in the Commercial league the O. H. Warwick team forfeited four points to the S. Hayward Co. team for non-appearance.

The score was as follows:

Nationals.	
Kelly	78 88 80 242-80 2-3
Howard	111 100 43 304-101 1-3
McDonald	91 83 89 263-87 2-3

GRIPSACK SI HAS STARTED-- HE'S ON THE WAY TO ST. JOHN

This is Gripsack Si, taking the mixed local for St. John. He is going to take a leap into city life in search of adventure. Si is one of those helpful fellows always glad to favor a friend or stranger. So there's no doubt he'll have plenty of adventure. His experiences will be shown on the sport page of The Standard, each day, beginning Saturday, April 6.

WATCH FOR GRIPSACK SI.

HARVARD CORNELL PRINCETON

Princeton, N. J., April 3.—Princeton's varsity crew is scheduled to compete with Harvard and Cornell in a triangular regatta on the Charles river during the approaching season, according to announcement made public today by Dr. J. H. H. Spaulding, Princeton crew coach.

The race will be held on May 25, five days after the Pennsylvania-Columbia-Princeton regatta here, and will be the first trip the Princetonians have taken since the interest in rowing in the American Rowing Association has also included a permit to the varsity second crew to compete in the American Rowing Association regatta on the Kill river on May 25. These races, together with two freshman races and the annual regatta in June will give the Tigers a busy season on the water.

ANNUAL SHOOTING TOURNAMENT

New York, April 3.—Seventeen squads of five men each took part in today's events in the seventh annual amateur trap shooting tournament which began over the Traverse Island traps under the auspices of the New York A. C. Although the weather was bright and clear a tricky wind from the northwest made it difficult for the gunners to locate the clay targets.

During the early part of the day an event at sixty targets was decided. This resulted in a tie for first honors between H. W. Kahler, of Philadelphia, the National amateur champion, and C. H. Newcomb, of the same city, each having broken 53.

The marksmen were kept busy throughout the afternoon in a contest at 100 targets. Silver cups were awarded for the three highest scores, and Ernest A. Randall, of Portland, Maine, took the first prize by breaking 92; H. W. Kahler, of Philadelphia, was second with 90, and R. L. Spotts, of the New York A. C., chairman of the tournament, was third with 88.

The local club men won the shoot out at 25 targets with 23 breaks in 19 from the New Englander for the third cup.

HORINE'S HIGH JUMP.

When George H. Horine made his new collegiate running high jump record of 6 ft. 2 1/2 in. at Stanford University on March 26, Walter M. Christie, the referee, and six judges signed a paper certifying that the runway was level, that the measurement was made from the lowest point of the bar with a Marshall-Wells standard steel tape, and that with what little wind there was, was blowing parallel with the bar and not with the jumper. Christie is the University of California trainer and did not have a team in the competition, Stanford and Pomona being the contestants.

It is to be assumed that the same care was taken a few days later when Horine cleared 6 ft. 1 1/2 in. for the first time in his letters arranged vertically along the bottom hand of the shirt, extending from the collar to the belt.

EMINENT TORONTO PHYSICIANS

Failed to Cure Rheumatism. Miss Flora Chapman Vividly Describes Her Sufferings and Ultimate Cure With "Nerviline."

"After being an enthusiastic user of Nerviline for years I feel it my duty to tell you personally what your wonderful medicine has done for me. I suffered torture from rheumatism and heart trouble, tried scores of so-called remedies, consulted for weeks and months with Toronto's most eminent physicians but derived only slight benefit.

"A friend insisted on my using Nerviline, and to my surprise a vigorous rubbing of this powerful liniment eased the pains and reduced the stiffness in my joints. I continued to use Nerviline and was permanently cured. I am now perfectly well, and for three years have had no rheumatism at all.

"I know many families where no other medicine but Nerviline is kept—it is so useful in minor ailments like earache, tooth-ache, neuralgia, coughs, colds, lumbago and sciatica. I call Nerviline my "Life Guard," and urge all to try its merit."

Dec. 17th, 113 Palmerston Avenue, Toronto.

Refuse anything else offered instead of Nerviline, 25c. per bottle, five for \$1.00. All dealers, or The Cattaraugus Co., Kingston, Ont.

CLABBY DEFEATS MEEGAN

Sydney, Australia, April 3.—Jimmy Clabby, the American boxer and Australian middleweight champion today defeated Meegan, who holds the lightweight championship, on points, in a 20 round contest for the welter-weight championship, in the stadium here.

REACH'S OFFICIAL GUIDE.

The Reach Official American League Baseball Guide for 1912 has been received by The Standard, and is a larger and better edition than ever before published by this company. As the official guide of the American League, the Reach Guide contains, in complete form, everything of interest both official and unofficial, concerning the league, the records, and the averages of that organization during the eventful season of 1911. It covers the entire baseball field, doing justice to the National League and the various National association minor leagues, all of whose official averages for the 1911 season are given in full.

DAY & MARTIN'S

EXCELLENT BASEBALL PROSPECTS

The prospects for good baseball in St. John the coming season looks good and it is assured that we are to see a strong league. Already Woodstock and Houlton, Me., have signified their desire to enter teams in the league and there are a number of other towns who will be in line shortly. The fact that Houlton wishes to enter the league looks good, as they were not members of last season's Maine and New Brunswick league. Joe Page was in the city yesterday, but would not talk on the question of what players he intended to have on his team this year. He said it was a little early to give out the names, but that St. John would have a very fast lot of players.

HORSE TALK

INDEAN BUYS GOOD ONES
Lansdown, Ind., April 3.—The opening day of the trotting horse sale at the state fair grounds here today drew a big and representative crowd of horsemen from all sections of the country. The bidding was spirited and lively throughout the sale.

Eastern horsemen were much in evidence and paid the top prices. John L. Dodge, formerly president of the New York Road Drivers' Association getting Castle Dome for \$1500, the highest price of the day, while C. W. Lasell, the wealthy New England horseman paid the second best figure for Low Perkins. The sale will last three days. Following are the best sales of the first day.

Low Perkins, bg, 6, pacer, by Platt Jr.—Lou, Roose, by Eugene Ross, C. V. Lasell, Whitesville, Mass., \$1,100.

Castle Dome, 2:14 1/4, bm, 7, trotter, by Jay McEwen—Eck, by Richard Baron; John L. Dodge, Orangeburg, N. Y., \$1500.

Hoviella, 2:14 1/4, bm, 10, pacer, by How Tell—Tilly A., by Onward; C. V. Lasell, Whitesville, Mass., \$525.

Violette A., 2:18 1/4, bm, 5, trotter, by Red Medium—Nancy Reed, by Gambetta Wilkes; James McFadden, Mt. Vernon, Ind., \$775.

In a recent game in which the Athletics beat the Houston, Tex., team 11 to 3, Lord, Odrizac, Murphy and Strunk made three hits apiece and Baker made two. Collins getting only one. These were the first six batters on Connie Mack's list, and they provided 18 of the 19 hits of the game.

BRITISH FOOTBALL RESULTS

London, April 3.—In the replayed semi-final round of the English cup today, Barnsley beat Swindon at Nottingham by 1-0. The winning goal was scored in the second half.

The Blackburn-West Bromwich match went to extra time play before a decision was reached, finally West Bromwich won by 1-0.

Twenty thousand people attended the Barnsley-Swindon game at Nottingham, many of them walking to Nottingham from Yorkshire.

BILLIARDS

MORTIER CUP WINNER.
Paris, April 3.—The 2nd game in the international amateur billiard tournament ended today. It was won by Mortier of France, who beat Desantiere of France, 400 to 150, thus winning the tournament and the challenge cup.

The final order is as follows: Mortier, France, eight games won, one lost; Artus, France, six won, three lost; Danatiere, France; Morier, Belgium; Agass, Switzerland; Poesgen, Germany; Roudil, France, each five won, four lost; Poggenburg, United States, three won, six lost; Labour, France, two won, seven lost; De Pres, France, one won, eight lost.

Philadelphia Defeats Chicago.
Cincinnati, Philadelphia, defeated Jas. Shea, Chicago, in the National cushion billiard tournament here tonight, 59 to 23.

WORLD'S MARATHON.

New York, April 3.—The international marathon which Arthur Parent, the California promoter, planned to make a feature of the spring season at Monaco, is to be held this year in Berlin, with Johnny Hayes, Pietro Dorando, Gusta L. Jungstun, Thure, the French champion, and Wada, the Japanese runner, among the competitors. The date advised upon is May 26, according to notices received here.

The Reach Baseball Guide for 1912 can now be secured at Emerson & Fisher's.

Less leaching with Roser—less exertion. Years the smooth, undough—the live spring that snaps and crackles!

SHOWS UP OPPOSITION IN THEIR TRUE COLORS

Mr. Dixon Compares Progressive Policy of Present Government with Methods of Late Administration.

Fredericton, April 2.—Mr. Dixon in his speech in the budget debate in the Legislature yesterday expressed his pleasure in having this opportunity to speak on the address, to express his pleasure at the elevation of Senator Wood to the Governorship of the province. He had been personally acquainted with Mr. Wood for a number of years and he believed that he had the respect of the honorable gentlemen on this side as well as the honorable gentlemen opposite, and the people of the province as a whole. He would also like to congratulate the mover and seconder of the address. The mover while young in legislative experience has been prominently identified with the political life of St. John and was one of the leading members of the legal profession. He felt that his honorable friend would fulfil his duties with credit to himself and the constituency he represented. The junior member for Charlotte acquitted himself admirably in seconding the address and the schooling which he would receive during his first year in the House would be of great advantage to him when the general elections were held. He would be able to give his constituents a straightforward report of the proceedings. He regretted the departure of the late leader of the government, whom all honorable members honored and revered and were proud to sit beside. What had been the loss of this House he hoped would be his (Hazen's) and the country's gain. He also regretted very much that the ex-leader of the opposition was to leave politics and he felt that the House and its ex-leader of the opposition lost two straight-forward and conscientious men. He desired to extend his congratulations to the new premier and thought that it should be to him as it was to the honorable members a matter of great pride that he (Fleming) had raised himself to the proud position of premier of the province. He would also congratulate the leader of the opposition and at the same time sympathize with him in the arduous duties he had to perform.

One of these resolutions asked that there be a greater number of members in the House. Of course the government was not to blame for the condition. The convention enabled the farmers to come to Fredericton and see for themselves what their representatives were doing. Horticulture. If the government had done nothing except to appoint the present horticulturist they had done a great deal to bring about the present great interest in apple growing and its possibilities in this province. The honorable gentlemen opposite said that the old government, ten years ago, planted the trees which grew the apples exhibited at the St. John fruit show, and which attracted so much attention, but no doubt the people would be surprised to learn that of twenty-seven illustration orchards planted by the old government, ten had been abandoned when this government came into power, and only three were found to be in a proper state, while of fourteen hundred plates of apples shown at the exhibit at St. John in 1911, only fifteen of the plates were from the illustration orchards of the old government.

The old government's policy regarding illustration orchards was all right, but they went at its administration the wrong way. Want of proper care and proper instruction from the agricultural department office in Fredericton, and the fact that there was nobody connected with the department capable of effectively handling the administration of the policy were responsible for the sad state of affairs. He had been told by a political opponent of his in Albert county upon whose place one of the illustration orchards had been, that he had never received any instructions as to the handling of orchards, and it was a remarkable thing that in the department of agriculture there could be found no correspondence regarding apple growing in the days of the old government. This government had a capable horticulturist who had been going about the province assisting fruit growing, and so many of the orchards had been abandoned that there were only four or five men capable and suitable for the department to send out to various sections to do spraying and pruning. There would be lots of work for them to do.

The hon. leader of the opposition, speaking in this House last night, had said that there were lots of old women in Westmorland county who knew as much about law as the government's poultry expert knew about poultry raising, but he (Dixon) had been pleased to hear another hon. member for Westmorland, Mr. Sweeney, pay a warm tribute to the worth and ability of the poultry expert. He believed that the poultry expert was doing a very good job of arousing an interest in poultry raising among the farmers and causing them to improve their stock. He believed it would be a matter of years before this industry would be a sufficient quantity of poultry-raising in this province to at least supply the home market.

Accomplished Much. The government had also by means of importation done a great deal to improve the live stock of the province generally. They had also brought a sheep raising here from Ontario and had taken two deserted farms in Kings County and was carrying on an extensive and successful sheep raising business and at the same time pure bred stock from his farm was being distributed about the province. He believed that much could be done towards assisting agriculture in New Brunswick by means of an educational campaign in any other way. He had said before in this House that he believed that work should start in primary schools and he felt that the work of a number of unnecessary subjects on the school curriculum which could be well eliminated and replaced by subjects which would be more useful to young people and attract them to the land.

He believed, however, that the time was not ripe for establishing of an agricultural college. He believed much good would be accomplished if a capable man was engaged to visit the various parishes to interest the farmers in intensified farming and show them just how much larger production could be secured under intensified farming methods than by the methods which most of farmers of the province are now using. Nothing would stir up the farmers more than an actual demonstration of what could be accomplished by intensified farming.

The hon. member for St. John Co. (Mr. Bentley) had said that he favored bringing in only one family of immigrants for a single parish, but he (Dixon) believed that the plan announced by the present premier, that of bringing in a number of families and settling them together on recreated farms so that they might have the benefit of their own society and companionship and would not feel that they were strangers, would prove a much better and more effective method of getting settlers to come here and stay here when they came.

Better Roads. The hon. gentlemen opposite seemed to be very much aroused over the expenditures on roads and bridges. It had been said in the past that this government came in on the road question and would go out on it, but from

Women and Children Fleeing To U.S. from Turbulent Mexico

Hundreds of Mexican women and children daily cross the international line at El Paso, seeking safety in the United States from the outrages committed by many lawless men of their own country. These photographs, just received, show two scenes at the international bridge, where the household goods of the expatriates are examined by U. S. customs men.

what had been said at this session of the House, he did not believe that the opposition felt just the same about that now as they used to. The hon. member for St. John had said that the people of the province would need more convincing evidence than that the roads were bad and the way he had of proving it was by asking the member for St. John if that was not true. The hon. member for St. John had said that the roads were 100 per cent better now than they were before this government came into power. The hon. member for St. John had also said that there were very few good permanent bridges built by this government in comparison with the old government, but figures showed that in the last three years of their regime the old government spent \$2,500,000 on permanent bridges while in the first three years under this government \$490,000 was spent on permanent bridges. This showed that the statement of the hon. gentleman was incorrect.

The ex-chief-com. Mr. LaBillaud had made the statement that he had driven through Albert county soon before the old government went out of power and that he had never seen better roads and bridges. Either there was snow on the ground or else the ex-chief had worn dark glasses because the people of the county were not of such an opinion and if the honorable gentleman's statement was correct, why was it that this government in its past three years spent \$22,556 in 1935, \$22,636 in 1936, \$14,247 in 1937, or a total of \$59,444 for repairs on ordinary bridges and he felt that that was a very small amount for a total of \$1,549 in 1935, \$6,435 in 1936, \$1,923 in 1937, or a total of \$10,211 in the last three years of the old government.

He courted the closest investigation of all bridge work that has been carried on in Albert county since this government came into power. The work being done is as near permanent work as possible and included in the list of bridges upon which would be built from Grand Falls to St. John. His hon. friend from St. John county had said he would like to see the actual assurance that the road would be constructed the entire way from St. John to Grand Falls. He (Dixon) would like to know the definition of "actual" in his hon. friend's mind. The contract had been already signed, the subsidy voted and the agreement to lease and operate the road from Grand Falls to St. John had been signed, yet his hon. friend claimed the actual assurance had not been given. It appeared to him that there was not as much doubt in the minds of his hon. friends as they had endeavored to make it appear.

Did You Know— The expression "Mind you P's and Q's" grew out of the ancient English custom of charging liquor by marking down the letters P or Q on a man's bill according as he bought a pint or quart? Sure to Come Back. The ice man. The bad penny. The cat. Sarah Bernhard. The meter reader.

Ladies and Gentlemen: Electors of the City of Saint John. I will be a candidate for the office of Commissioner at the coming civic election. Having had four years experience in civic affairs I feel that I can administer the affairs of our city in the best interests of the whole, with special privileges to none. Thanking you for the splendid support you have given me in the past, I ask for a continuance of your confidence. Yours respectfully, W. E. SCULLY.

Fully Justified. He would like to ask the honorable member for St. John county (Mr. Bentley) if he was in his place, if he would say that the \$11,000 expended on the suspension bridge during the past year was not justified? The honorable member for St. John county had criticized that expenditure, but if the old government had not allowed the bridge to get into such a dilapidated condition such an expenditure would not have been necessary. This government of course had to keep the bridge in proper repair and a new structure was ready to take its place, if the old government had collected the revenue that was honestly due the province, they would have had enough money to have kept the public bridges and other public

ELECTION CARDS

ELECTION CARD To the Electors of the City of St. John: Ladies and Gentlemen,—Now that the New Charter has materialized I have decided to accede to the earnest solicitation of the citizens in general to become a candidate for the Mayoralty at the approaching Civic Election. During the eight consecutive years you so loyally supported me, I think I faithfully and impartially discharged my duty (at least I have heard nothing to the contrary). I also will be pardoned if I assume the credit of having made a banking agreement that has saved the city thousands of dollars and of launching a system that has helped to bring about the very strong financial position that the city now enjoys. The re-organizing of the Chamberlain's Department was also a distinctive feature during my term of office. I am not out with any cheap pre-election promises. If you support my candidature my aim will be to give you the best that is in me and that will mean a lot and decidedly to the advantage of the city. The Board of Trade should be encouraged in their endeavor to induce new factories and business houses to locate here and in order to bring this about in these days of keen business competition, we must have something to offer, something for the manufacturer and something for the men employed by him. Furthermore a more persistent effort is required seeking for the nationalization of the port. The Railway and Harbor facilities are to be expanded—never before equalled in the City's history and with the growth of our population and community—Civic business will certainly assume larger proportions and your representatives increased responsibilities. Personally I will see that the future is not jeopardized by extravagant expenditures and contracting of debts. I think all are bound to admit that an active, successful business man and one who is well versed in civic matters is a pretty good combination. If I did good work before, I stand to accomplish even better results under the new order of things. Thanking you in advance for your vote and support, T. H. BULLOCK.

VOTE FOR RUPERT W. WIGMORE For Commissioner And Make Sure of The Square Deal for All No Committee to "Advise and Admonish" Intelligent Administration of Civic Affairs Improved Water and Sewerage Services BE YOUR OWN CITIZENS' COMMITTEE

ELECTION CARD

Electors of the City of Saint John: LADIES AND GENTLEMEN: I am in the field for the office of Commissioner from West St. John, and respectfully solicit your support. If elected I promise you that there will be no special SECTION OF THE CITIZENS TO "ADVISE AND ADVISE" ME, BUT THAT I WILL DO MY DUTY AS I SEE IT IN THE INTERESTS OF ALL THE CITIZENS OF ST. JOHN, A SQUARE DEAL TO ALL. JAMES SPROUL the people's candidate for Commissioner. The man who stands for clean civic administration. Do your part for the betterment of your city and vote for Sproul.

NORMAN P. MCLEOD. Ladies and Gentlemen. Electors of the City of Saint John: I will be a candidate at the coming civic election. I am and have been in favor of the Commissionform of Government and firmly believe that an honest effort in giving it a trial will meet with success. I respectfully solicit your support. Harry R. McLellan

ELECTION CARD Ladies and Gentlemen: Electors of the City of Saint John: Having been selected as candidate for the office of City Commissioner by the Independent Labor Party, and being unable to interview each elector personally, I hereby solicit your support. I pledge myself to give the best service of which I am capable, should you elect me. GEORGE H. MAXWELL.

FOR MAYOR JAMES H. FRINK Independent Candidate A Representative of But One Corporation, The City of St. John. Will address a mass meeting of Citizens on THURSDAY EVENING, April 4th, on Civic Issues and Affairs, at the Opera House, and invites his opponents, Mr. T. H. Bullock and Mr. W. S. Fisher (if in the City) to a joint debate on these questions. If winter lingers longer In the lap of spring The gossips will be talking About the brazen thing.

A Vote for John McGoldrick means the placing of a man in charge of Public Works who has had the confidence of the People for Twenty-Five Years.

Less kneading with Five Roses — less exertion. Yields the smooth, uniform dough—the live springy dough that snaps and crackles happily.

Advertisement for 'Old Dutch Cleanser' featuring an illustration of a woman washing clothes in a tub. The text reads: 'It will always be free from grease and grime if cleaned with Old Dutch Cleanser. Full directions and many uses on Large Sister Can.' The brand name 'Old Dutch Cleanser' is written in a stylized, bold font.

Full directions and many uses on Large Sister Can.

The Weak, Lame, Aching Back

(Comes From The Kidneys.)

Those who have never been troubled with kidney trouble do not know the suffering and misery which those afflicted undergo.

On the first sign of backache Doan's Kidney Pills should be taken immediately so as to avoid years of suffering from kidney trouble.

They go right to the seat of the trouble, heal the delicate membranes of the kidneys and make their action regular and natural.

Mrs. Joseph Turcop, Upper Point de Butte, N.B., writes: "I cannot speak too well of Doan's Kidney Pills. For two years I was so tired that when I could hardly straighten up. I took different kinds of medicine, but none of them did me any good until a friend advised me to try Doan's Kidney Pills. I did so, and to-day I don't know what it is to be tired, and my lame back is all gone. I can recommend them to any person suffering with lame back and that terrible tired feeling."

Price 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When ordering direct specify "Doan's."

Table Silver
Grace, beauty and quality are all combined in silver articles marked
1847 ROGERS BROS.
This brand, known as "Silver Plate War," is made in the highest grade of plate. There are many designs from which to choose. Sold by Leading Dealers.

FACTORY GIRL GIVES UP

Too Sick to Work—Doctor Advised Operation. Restored to Health by Lydia E. Pinkham's Compound.

Poughkeepsie, N. Y.—"I run a sewing machine in a large factory and got all run down. I had to give up work for I could not stand the pain in my back. The doctor said I needed an operation for my back trouble but Lydia E. Pinkham's Vegetable Compound helped me more than the doctors did. I hope that every one who is suffering will get the Compound. It is the best medicine for my pains, nervousness and backache are gone and I have gained five pounds. I love my thanks to your medicine for it is the best working girl friend, and all women who suffer should write to you for special advice. —Miss TALLIE PLAZING, 3 Jay St., Poughkeepsie, N. Y."

When a remedy has lived for over thirty years, steadily growing in popularity and influence, and thousands upon thousands of women declare they owe their very lives to it, it is reasonable to believe that it is an article of great merit?

We challenge anyone to show any other remedy for a special class of disease which has attained such an enormous demand and maintained it for so many years as has Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co. (one building) Lynn, Mass. Year letter will be opened, read and answered by a woman and held in strict confidence.

CURED OF CONSTIPATION

Mr. Andrews praises Dr. Morse's Indian Root Pills.

Mr. George Andrews of Halifax, N.S., writes: "For many years I have been troubled with chronic constipation. This ailment never comes single-handed, and I have been a victim for many seasons. After medicine I have taken in order to find relief, but one and all left me in the same hopeless condition. It seemed that nothing would expel from me the ailment that caused so much trouble, yet at last I read about these Indian Root Pills.

That was indeed a lucky day for me, for I was so impressed with the statements made that I determined to give them a fair trial.

They have regulated my stomach and bowels. I am cured of constipation, and I claim they have no equal as a medicine."

For over half a century Dr. Morse's Indian Root Pills have been curing constipation and clogged, inactive kidneys, with all the ailments which result from them. They cleanse the whole system and purify the blood. Sold everywhere at 25c a box.

APOL & STEEL HEADS PILLS

For the cure of all ailments arising from the impurities of the blood. Sold by all chemists, druggists and grocers.

EVENTS LEADING TO ANTHRACITE TROUBLE

Present Suspension of Fourth Labor Disturbance in Industry in Twelve Years

For Second Time Year of Presidential Election is Selected by Miners to Discontinue Work.

ANTHRACITE INDUSTRY AT A GLANCE ACCORDING TO THE LATEST STATISTICS OF 1910

Number of employees in and about the mines, 188,175.
Number killed, inside, 509; outside, 92. Total, 601.
Number of collieries, 286 handling coal from 11 mines.
Production, 83,683,994 tons.
Explosives used in industry in year, 57,789,229 pounds.
Number of railroads handling production, 9.
Geographical Distribution of Anthracite Coal:
Pennsylvania, New York and New Jersey, 66.75 per cent.
New England States, 14.34 per cent.
Western states, 11.44 per cent.
Southern States, 3.58 per cent.
Pacific States, .01 per cent.
Dominion of Canada, 2.82 per cent.
Foreign ports, .06 per cent.

Philadelphia, April 3.—The suspension of coal mining in the anthracite regions of Pennsylvania as the result of the present troubles is the fourth general labor disturbance in that industry in the last twelve years. In 1900 the miners struck six weeks; in 1902 they were out five and a half months; and in 1906 they again suspended work for six weeks. In the 1900 and 1902 strikes the coal diggers, through the United Mine Workers of America and under the leadership of John Mitchell, won victories by gaining industry-wide recognition of the union, although the others of the union have not done so.

THE YOUNG WIDOWS POISON HUSBANDS

Secret Society of Roman Matrons Use Arsenic to Rid Themselves of Unhappy Spouses.

London, April 3.—Arsenic is commonly employed by the professional poisoner in India, who will poison a whole family to make sure of one victim. The reports of the Bombay Government analyst throw some light on the methods. The poison is usually given in sweets and generally by a "strange woman," who has been met in the street and who mysteriously disappears. Arsenic has perhaps been more frequently used than any other poison for criminal purposes. It has been proved recently that the "wonderful elixir" of the seventeenth century, when secret poisoning became so frequent in Italy, was arsenic. The rules of the confessional, as quoted by Pope Alexander VII in 1648 with the extent of the practice.

It was found that young widows were abundant in Rome and that most of the unhappy marriages were speedily dissolved by the death of the husband. A secret society of young matrons was discovered which met at the house of LaSpara, a reputed witch, and the members were charged with the task of poisoning their husbands. The society was organized in the time that suited the purchaser.

LaSpara and thirteen of her companions were hanged, a large number of the culprits were whipped, and while others of the highest rank escaped with heavy fines and banishment.

Out of the Snow.
I found a track violet
Hid in a bank of snow,
Winter was still upon the land—
But the violet did not know.

It smiled as though the spring were here,
Lifting its glad face
Out of the bosom of the snow
To make a garden place.

When life drops in its winter days,
All chilled with doubt and woe,
Some little hope will lift its face
Like the violet in the snow.

come up during the life of the award. The anthracite miners began to prepare for the present trouble last fall, when they held a convention at Pottsville, Pa., and formulated these demands:

- 1.—A one-year agreement.
- 2.—Eight hours a day for all classes of men.
- 3.—Recognition of the union in negotiating wage agreements and the former method of collecting revenue for the union.
- 4.—A more convenient and uniform system of adjusting grievances within a reasonable time.
- 5.—A 20 per cent. increase in wages.
- 6.—A minimum of \$3.50 a day for coal miners and \$2.75 for laborers for consideration of work.
- 7.—That the system whereby a contract miner has more than one boy on a team should be abolished.
- 8.—That the right of check weight be recognized and that they shall not be interfered with in the performance of their duties.
- 9.—That all coal be mined and paid for by the ton of 2,240 pounds wherever practicable.

During the winter efforts were made to strengthen the union, which met with considerable success, and the negotiations. The operators' committee whose personnel remained about the same as in all the former negotiations, found another new man leading the miners, John J. White.

Three meetings between the operators and the miners were held in New York. At the first the miners presented their demands; at the second conference the demands were refused and at the third session the miners made a reply regretting the action of the coal companies. The operators in refusing the wage increase declared that the profits would not admit an advance with an increase in the price of coal.

They proposed another renewal of the Strike Commission award for three years, declaring that "it had worked satisfactorily and had brought peace and prosperity to the region."

One feature about the suspension this year is that it came for the second time in a year when a Presidential election is to be held. This may have some influence in a settlement if the tie-up should continue for any length of time.

The anthracite mine workers in their strikes have been aided by a law on the statute books of Pennsylvania providing that mine workers before they can become miners, that is, men who actually cut or blast coal, must have miners' certificates. In order to obtain these they must have under the law, at least two years' experience in an anthracite mine. The law was enacted primarily to safeguard life and property and in times of strikes it operates against the importation of miners from other fields who have not worked in the hard coal fields.

PRIVATE WEDDINGS ARE THE HAPPIEST

Argument Made that Public Marriages Are Not as Successful—Elopements Are Proverbially Dangerous.

St. Louis, Mo., April 3.—Church weddings are urged by a Wisconsin jurist as a prevention of divorce. The church, holding the social sanction, the flowers, the music, the procession, the ring, the ceremony and all the sentimental as well as conventional touches impress the gravity of the undertaking upon the minds of the contracting persons and cement the bonds so that the marriage is permanent, so the prescription explains.

Otherwise marriage is not properly solemnized. See the contrasting picture the jurist draws. "The young couple rush to the license clerk and turn to the nearest judge. They are taken into his chambers. There is nothing here to remind them of the nature of the contract into which they are about to enter—a few many law volumes and the smell of stale tobacco smoke."

There is no gaining the value of the religious sanction and rites, but if such amounted to a positive antidote for divorce or a guarantee of bliss the race would have insisted on it long ago. A royal road to happiness would be universally in demand. But without abating respect for formality and propriety, it may be noted that many divorces were secured most elaborately in church. Most marriages of convenience, in fact, are so celebrated. How many broken hearts have been perjured and how often has love been sacrificed upon the altar!

It is no reflection upon the church that it is lacking in the matter of lifelong unhappiness for many a pair, when worldliness deliberately neglects its forms. The externals cannot supply what is lacking in the heart. On the other hand, the romance of a real union of lovers may brighten the dull, and many other interesting relics of prehistoric times have been discovered by the numerous excavations which are necessitated by the ever increasing demands of modern traffic.

Professor Doidis, in an address to high school boys, said there was nothing inherently wrong with the stage and the theatre with his sweet heart should purchase three seats. The centre seat should be left vacant, except for a card with the words "Reserved for Christ."

MARRIAGE BUREAU FOR WESTERN TOWN

Philadelphia, April 3.—An oil portrait of George Washington, by Gilbert Stuart, disposed of originally by the artist for \$200, was sold again last week from the collection of Mrs. Sarah Harrison for \$16,000, after spirited bidding. The purchaser was Thomas B. Clarke of New York, and the picture will be added to his private collection.

It was the only one of several portraits of Washington and Franklin painted from life, in the collection, that was sold. All the others were withdrawn and presented to the Academy of Fine Arts. That institution, therefore, will be enriched by the addition of original oil portraits of George Washington, John Jay and C. W. Peale, and of Franklin by C. W. Peale and an unknown artist.

It was the original intention of Mrs. Harrison, says the North American, that her entire art collection should be sold, rather than the picture of George Washington, which she had a proviso in her will to the effect that, should the estate not provide sufficient to pay all her debts, enough of the art objects should be sold to do so. Hence the sale of last week and, when it was concluded, many persons gathered about John Frederick Lewis, president, and John E. D. Trask, secretary of the academy, to congratulate them upon the bequest.

Prices generally were low. The sale was attended by about 200 collectors and dealers of this and other cities, and at times the bidding was spirited. The Stuart Washington which brought the banner price was started at \$1,000, and then for its possession was keen. Many of those present came prepared to buy or try to buy the quietest of portraits, and the fact that four of them were withdrawn centered attention upon the one remaining.

Director Shaffer plans to have connections with other bureaus on the eastern slope. Efforts will be made to interest the city authorities in all towns in Mesa, Delta, Montrose and Garfield counties in this matter. If the inquiring persons can not be suited, will what Grand Junction and Mesa county has to offer in the matrimonial line their letters will be turned over to the other western slope counties.

Ho! For Griddle Cakes and Maple Syrup

Spring is here at last and the sap is flowing free. Now for light, digestible foods and a merrier life under warmer skies. Bring along the griddle cakes and plenty of them. Add plenty of the juice of the maple—the syrup that kings would approve. But, good housewife! If you want your griddle cakes to reflect great credit on you, see that you make them with

PURITY FLOUR

the flour that is far-famed simply because it "makes more and better bread." Purify is the name of Canada's extra special flour rolled in bright sun-lit mills from Canada's extra special wheat. No other flour can with it compare. It imparts a flavor and a richness to griddle cakes that makes them surpassingly delicious. Make anything the family desires (anything that you can make with flour) with Purify and your reputation as a cook will go up several notches at least.

"More Bread and Better Bread"

Purify Flour is a richer, stronger flour than the ordinary makes. It takes more water and yields more bread. It also takes a little more shortening, on account of its extra strength, when making pastry. And Purify only costs a little more, although all users of it would gladly pay a good deal more rather than return to common flour. Now, bring on the griddle cakes made from Purify Flour and plenty of good Maple Syrup on the side!

N.B.—Put Purify on your grocery list—you'll keep it there.

WANTS SEATS FOR CHRIST AT OPERA

Grand Junction, Colo., April 3.—By reserving one seat for "Christ," it's perfectly permissible, whatever one's religious belief, to attend the theatre with your girl. This is the opinion of Professor Homer C. Doidis, teacher of history and science in the Grand Junction High School.

Professor Doidis, in an address to high school boys, said there was nothing inherently wrong with the stage and the theatre with his sweet heart should purchase three seats. The centre seat should be left vacant, except for a card with the words "Reserved for Christ."

THE MO

EARLY

SPRING is indeed with us. Bluebirds and robins are the lawn; the kites are light the heart and all the heart with the perfume of blossoms. Now it is that the kiddies door play. As soon as the sun is shining, the children are ready for the games of heart of childhood.

After the steaming process should be brushed well. If the hat itself is worth a dollar, it is worth a dollar more to have it wrapped in tissue paper in a box. If the feather has lost its luster, it may be restored by each from over a dull knit. If not too straight, hold over the stove. The heat will restore it.

WORK for the WOMANLY BRAIN and HAND

THE SWAN SONG of the WINTER HAT

REMOVE THE TRIMMING

WITH the first appearance of spring the winter hat is cast aside for the attractive first hat of straw.

Very often it is in a splendid condition, although it was subjected to hard wear. Materials of a good quality outlast several hats. The frames change in style, but a good feather, piece of velvet or flowers are always fashionable.

Even if you do not care to use the trimming on the next season's hat, it is wise to keep it. Follow the old adage, "Keep a thing for seven years," etc. You seldom need to box it for that length of time.

To prepare the trimming from the discarded hat for further use, follow these suggestions:

Carefully and thoroughly brush the hat and trimming until it is entirely free from loose dust.

Strip the trimming from the hat. If the velvet looks matted and shabby, do not conign it to the "ragbag." If steamed, by drawing it over a damp cloth beneath which is a heated iron, it will regain its original freshness and beauty.

After the steaming process the velvet should be brushed well.

If the hat itself is worth keeping, as beaver and felt shapes usually are, brush it well with a stiff whisk broom, wrap it with tissue paper and place in a box.

If the feather has lost its curl, it may be restored by carefully drawing each strand over a dull knife.

If not too straight, hold the plume over the stove. The heat is sufficient to recurl the feather.

Finally, pack the flowers, feathers and velvet in a box, sprinkle with moth powder or camphor flake, to keep the household pest from destroying the trimming.

BRUSH THOROUGHLY

For the Gardener

You love the roses—do I wish the sky would rain down roses, as they rain from the shaken bush. Why will you not?

OF ALL the lovely gardens planted since the beginning of things, the rose garden reigns supreme. Every one, if the space and soil at our disposal permits, desires a successful rose garden.

For most roses late October or early November is the best planting time; however, experienced growers of these lovely plants claim they may be safely set out at this season. It is considered better to plant the tender tea roses on the threshold of spring than in the early winter.

It has been generally stated that roses require a heavy clayey soil; this does not mean that they will thrive in this common soil you'd or richness. The earth must be well enriched, for roses are gross feeders.

The soil which produces the best results in the cultivation of roses is a rich, heavy loam which you can mold in the hands like putty.

Light, sandy soil should have rich loam and clay added to it. Heavy soil must be made light by the addition of ashes, sand and leaf mold.

Trench the soil to a depth of 24 or 30 feet. If heavy clay is discovered at the bottom, fill in to a depth of six inches with ashes. Above this the soil should be made lighter or heavier as the circumstances demand.

Several times during the filling of the trench the soil should be trodden down firmly.

The trench should be allowed to settle for two weeks before planting the bushes.

The approach to a rose garden through two pergolas, clothed with climbing roses, would be ideal.

The garden paths should be arched with roses to enhance the beauty of the dwarfed varieties planted in the beds.

The many paths should lead to the center of the garden, where there might be a rustic category surrounded with roses or a sundial upon an open turf.

Do not plant your roses too close. Give them plenty of root space to thrive and grow.

The standard roses should be planted 3 feet apart, the dwarf 1 1/2 feet and the climbers 6 feet.

When planting, soak the roots in water for five minutes. Dig the hole a trifle deeper than the natural extent of the roots. Press the soil about the bush finally, leaving the plant imbedded firmly in the earth.

Drive a strong stake behind each bush and use a piece of felt or flannel to strap the plant.

When the climbers are planted, immediately make the shoots fast to the wall or trellis. Spread these out fan-shaped. Never bunch the branches.

A rose garden, if planned correctly, will bloom continually until frost arrives. June is not necessarily a month of roses.

If you have the space and time, cultivate a rose garden. It is a never-ending source of enjoyment.

What a pleasure to grow your own roses for house decoration, or to sit in a shaded nook among the quietest of flowers to drink in their beauty and perfume on a hot summer's day; to listen to the drowsy droning of the bees as they search for the treasures of sweetness hidden in each blossom's heart.

Truly this is a pleasure worth gaining!

An Easter Party

SOME of our readers may desire to entertain during Easter week.

The following suggestion for an egg party may prove helpful.

Write the invitations upon lavender-colored paper cut in egg shape.

Decorate the table in this manner: For a centerpiece, have a large round tray filled with moss. In this plant daffodils or pansy plants in bloom.

Fasten on lavender and yellow crepe paper should be attached to the chandelier and fastened to the edge of the table.

If the cost need not be considered, ropes of amaranth dotted here and there with a daffodil make a lovely decoration.

From the centerpiece have yellow and lavender ribbons reaching to each place.

At regular intervals draw these ribbons through into eggshells.

For favors, gild eggshells and place in an eggcup. Fill the half shell with earth and place a tiny blooming plant in it.

Fancies bloom when very small and may be used for this purpose.

In a nest of ferns and flowers have concealed colored eggs. Attached to these are ribbons and slips of paper bearing the following sentiments:

Draw the egg of vision here. You'll have friends both fond and true. For a lover full of pink.

Draw the egg of green. For good fortune may be seen. The egg of brown.

Draw the egg of red. If you do, you'll never wed. If you draw the egg of white, You'll marry in another week.

If you choose the egg of brown. The refreshments served could be croquettes fashioned in egg shape and served in nests of watercress, chicken salad served on green plates, loaves shaped like lilies with pistache leaves, angel cake and chocolate with whipped cream.

To entertain your guests, have an egg hunt. Candy eggs are best for this purpose. Provide each person with an egg-shaped bag made of tulle, in which to store his spoils.

Award appropriate prizes to the one finding the greatest number of eggs.

To Remove Stains

COVETED paint stains with butter or olive oil and apply turpentine. If the stain is very old, chloroform will be better to remove it.

Let onion juice, milk and the juice of ripe tomatoes are excellent to remove ink stains from white materials. Grease spots caused by dripping candles may be removed by using cologne.

When Shoes Creak

NOTHING is quite so annoying as a pair of creaking shoes.

To remedy this, soak the sole in linseed oil, using a plate or shallow pan, allowing the sole only to come in contact with the oil.

The creak will disappear after a few hours and the shoes will last much longer on account of this treatment.

THE MOTHER'S CORNER

EARLY SPRING DANGERS

SPRING is indeed with us again. Bluebirds and robins fill about the lawns; their merry songs delight the heart and all the air is filled with the perfume of blossoming flowers. Now it is that the kiddies revel in outdoor play. As soon as school is dismissed they flock with shout and laughter, ready for the games dear to the heart of childhood.

The younger ones, who have not yet entered school, play all day long in the bright sunshine, waving fat and strong in the wonderful outdoors.

Oh, it's good to be alive in spring-time! But it's better to be a kiddie and get out to play.

Do you mothers realize the dangers that lurk unseen in the balmy air and soft, damp earth of early spring? Now is the time to look well to the health of your growing boy or girl. There are certain things that must be done if Jimmy or Tess would keep the robust health they are blessed with now.

The earth is always damp in spring-time, see that the kiddies wear rubber overshoes when they run out to play. Of course they will object, saying, "It isn't wet or muddy"; but the ounce of prevention in a stout pair of rubber shoes will be worth many, many pounds of "cure" should the child contract pneumonia, tonsillitis, rheumatism, colds or any of the dangerous diseases that follow in their wake.

Don't allow them to sit on damp stone steps or on the ground. There is nothing faddy or fussy about taking this precaution, for from carelessness in this come severe cases of colic, diarrhea and diseases of the nervous system.

Some mothers are afraid of making their children appear cowardly or over-cautious if they insist that they protect themselves from such dangers. You cannot "harden" a child against taking cold from damp feet or sitting on the cold, damp ground. The lesson of "caution" can be taught the child without making it either a coward or a prig, for there is no real courage in being foolhardy. Caution, then, also, against too strenuous play. Let them run, but keep the running within moderate limits. Many a young life has been lost by becoming over-tired in spring play, rigging of the coat, sitting down a minute or two to gain breath, and taking a sudden chill from too rapid cooling off.

Little girls delight in jumping rope. It is a beautiful exercise if indulged in moderately. Be cautious, however, not to jump over twenty-five or fifty counts at one time. Fewer jumps, but if it is "double Dutch."

Children will balk exhausted to the pavement after jumping 100 or 150 times just to prove they can endure more than any of their companions. Such violent exercise is bound to weaken the heart, organs that are really over-taxed. The lungs, too, must be weakened by the unusual work of contraction and expansion too rapidly. Besides immediate dangers, there are the serious ill-

which perhaps do not appear until months or even years afterward.

Many a grown woman today is suffering from inward troubles, the result of weakened muscles and tissues injured by violent exercise in childhood. Let "caution" be your watchword in the spring, more than at any other time in the year, where children are concerned; and see to it, mothers, that they are carefully guarded against those dangers that may affect their adult life.

A Children's Easter Party

THIS holiday is usually anticipated with great pleasure by children. The "Easter bunny," who brings his gifts of colored eggs, is next to Kris Kringle, the favorite friend of the small folk.

Mothers, as a rule, celebrate the Easter bunny's return by giving a party. Purchase as many white china nest eggs as you intend inviting small guests. Print the invitation upon the egg with watercolors.

Place each egg in a small handled basket. Delivering these novel invitations always gives a great amount of pleasure to the children.

Entertain the children with an egg hunt, giving them rabbits, yellow chicks or candy eggs as prizes.

After this seat them at tables supplied with paints, paste and fancy pictures. An egg is then provided for each child, telling him to decorate it according to his own taste. Much childish originality is often displayed in this manner.

The refreshments should be served at 4. First serve "magic eggs" made by selecting smooth potatoes, baking them until done.

Carefully scoop out a hole large enough to hold an egg. Season the cavity with butter and salt. Drop in the egg, tie the top of the potato in place and finish baking in the oven. These are delicious, and afford much amusement. The children wonder "how the egg got there."

Chicken sandwiches and cocoa, vanilla ice cream formed like eggs resting in nests made of candied orange peel. Small white cakes, egg-shaped and frosted with yellow, complete the menu.

A pretty centerpiece for the table may be made of a green wicker basket, filled with juncos and drawn by two white "bunnies." The children will find this very attractive.

Give each child a flower and the eggs collected during the "hunt" to "take home." You may have many clever ideas of your own to follow out. These are purely suggestions, which may help in some small way.

Use Tweezers

WHEN pulling threads from hemstitching or when working towels with cross-stitch embroidery, use a pair of tweezers.

The fingers will be saved in this manner.

All who have suffered from sore fingers due to pulling threads will realize the value of this suggestion.

Tweezers are excellent for pulling bastings. Try them and you will always have a pair handy.

Simple Butter Making

WHEN you have a small amount of sour cream on hand it may be churned, making a nice little cake of butter.

Place the cream in a deep bowl and beat with a Dover egg-beater. In a very short time it will become stiff.

Immerse the bowl in a vessel of warm water and collect the small grains of butter into one large lump.

Knead the butter with a spoon until the water is separated from it. Mold into a cake ready for use.

For Dented Furniture

WHEN furniture becomes dented and not broken, the marks may easily be made to disappear.

Treat it in this manner: Wet the bruised spot with water. Double a piece of brown paper five or six times and soak it in warm water.

Place it upon the bruise and apply a warm (not hot) flatiron till the moisture has evaporated.

If the dent has not disappeared, repeat the treatment.

THE TOUCH OF BRILLIANTING

HANG IN THE AIR

A GASOLINE BATH

A GASOLINE BATH

CLEANING FALSE HAIR

MAJORITY of the women nowadays wear false hair, and every one of them is confronted with the problem of how to clean it.

It can be washed in warm water and soapsuds, of course; but by that method the hair is very apt to fade, in a short time becoming several shades lighter than the hair on the head.

It is best to work out-of-doors when you wash anything in gasoline—at least, be careful not to have the fluid in a room where there is a lighted lamp or an explosive fumes of any kind.

When the hair is washed, hang it in the air, but not in the direct rays of the sun, to dry.

The best place is beside an open window or on the shady side of the house.

If traces of the gasoline odor remain after it is thoroughly dry, expose it to a strong heat by holding it before a hair register.

Now wrap it in tissue paper, with a little of your favorite sachet powder, and lay it in a tightly closed box overnight, so that when you wish to wear it again there will be no unpleasant odor.

only a delicate perfume.

Brush both braid and puffs thoroughly with a soft hairbrush, using a little brilliantine to give a live luster corresponding to the hair on the head.

Arrange the puffs over your finger, and curl the braid as you wish ready for use.

You then have the satisfaction of knowing that every false hair on your head is as sweet and clean as your own just after it has been shampooed.

LOCAL ADVERTISING.

Hereafter the following charges will be made on reading notices inserted in the Standard:

Church Notices, Sunday Services, 5c. per line of six words.

Church Concerts, Church Festivals, Lodge Concerts and Notices, and all other notices of meetings, 10c. per line of six words. Double rates for back page.

NO MORE FREE LOCALS.

AROUND THE CITY

Is No Better.

The condition of R. T. Leavitt, who is seriously ill at his home, 213 Germain street, was reported to be unchanged last evening.

Citizens' Meeting.

The candidates in favor of commission government, Milton E. Agar, H. B. Schofield, C. E. Allan and W. W. Allingham, will address a public meeting in the City Hall, West Side, this evening at 8 o'clock.

Must Have Certificates.

The factory inspector is taking steps to enforce the law requiring engineers in charge of stationary engines to possess a certificate. Yesterday he had a man from the North End before the magistrate.

Will be Given a Chance.

The young man named Mary Bowser, who was arrested a couple of weeks ago on the charge of street walking, and whose character was none of the best, was yesterday afternoon sent to a home for a couple of months in order to give her a chance to reform.

Anyone Know Them?

Deputy Chief Jenkins received a letter yesterday from Walter J. Osborne, who asks if there are any Osbornes in the vicinity of St. John. He said he thought there were some. He had found brothers Samuel, William and James and one sister Margaret, who are all dead, but he is positive that there are some more Osbornes about St. John and he would like to correspond with them. The writer says he is the oldest son of Samuel Osborne.

Not Decadent.

The subject of the debate in the Y. M. C. A. last evening was, "Resolved that Great Britain is On the Decline." This subject was argued from various viewpoints viz. religiously, commercially, intellectually and socially, and after carefully considering the points made by both sides the judges ruled that Great Britain was still on the upward climb. Those that argued for the affirmative were as follows: A. N. Gregg and A. Pixley, while W. W. Lee, W. H. McFarlane and Everett Hunt supported the negative. The judges were H. H. Pickett, W. C. Cross and H. J. Smith.

Muscular Domesticity.

James Ritchie, a white man, was arrested in the West End yesterday afternoon and was charged by his wife, who is a colored woman, with assaulting and beating her. The prisoner was taken before the magistrate and then the true facts of a terrible domestic scrap were revealed. The prisoner said that his wife first assaulted him. She struck him over the head with an iron poker and knocked him out. When he regained his senses he got even by beating his wife. The matter was settled by the couple and the charge was withdrawn.

To Write Up St. John.

Though St. John is getting a great deal of publicity throughout Canada and the rest of the world at the present moment, it is getting no more than it deserves. Canadian and British newspapers have devoted much space to St. John in a general way, but this city is soon to be dealt with in an illustrated article in The Canadian Courier from the pen of D. C. Nixon, who has distinguished himself in this line of work and who is now in the city. Mr. Nixon has seen every city and town of promise in Canada; he says that none has the immediate future that he predicts for St. John.

Sanguine of Election.

Ald. Potts returned from Fredericton last evening where he went on city business. Speaking of the action of the legislature in deciding to leave the question of reforming the assessment system to the new government of the city he said he was not greatly troubled as he expected to be a member of the new city administration and would continue the fight for the land tax. He said he was glad, however, that the legislature had agreed to allow the flat rate of taxation to stand as he thought it was a good thing for the working class, which bore the greater burden of taxation, in that it operated to check an increase of expenditure.

The Self Supporting Girl of St. John.

There are hundreds of them, noted for their pluck, energy and ambition. These girls who are making their own way in the world find Lingar's a great help in dressing stylishly yet not spending beyond their means. Their soiled garments are Dry Cleaned or Dyed and look equally as good as new ones. Call at office 22 Waterloo street, or phone and our team will call.

Opera House Shareholders Meet To-night.

The adjourned meeting of the shareholders of the St. John Opera House Company to consider changes in the constitution will be held this evening in the warehouses of A. O. Skinner, King street. All shareholders are especially requested to attend.

Waterproof Coats.

Spring stock of these indispensable garments now open. Rubber proofed, affording perfect protection against rain and dampness. Prices, \$5, \$10, \$15 to \$25. Gilmour's, 68 King street.

N. B. Military Veterans.

The regular monthly meeting of the N. B. Military Veterans' Association will be held this evening in their rooms, Market Building, at 8 o'clock.

W. S. FISHER WRITES FROM EDMONTON

Letter to Citizens Committee from Mayorality Candidate Now in West—Local Manufacturers Making Headway.

Writing to the citizens committee from the Edmonton Club, Edmonton, Alta., W. Shives Fisher, candidate for mayor on the citizens' ticket, says: "You are certainly making things hum in dear old St. John. The distance between us is so great that I feel very strange out here, now that you have so generally nominated me for the chief magistracy of the city. I should delight in being in the thick of the fight.

"Each day my interest grows keener, and it is with much eagerness I await the first bundle of newspapers from home to find out just how the campaign is going on.

"Let me ask you to express for me my hearty thanks to all those who are working so hard to elect the citizens' candidates—a ticket on which I am pleased to hold a place. I can only hope it will be successful and that in favor of the people last April in the verdict of the commission plan of government may be upheld in the election of the people's candidates.

"With such an enthusiastic band of workers one may expect the most favorable results and in consideration of my absence during the campaign I should indeed be signally honored should the mayorality of my home city.

"I feel very sorry that I am unable to return to be of service to your energetic committee, but I think any fair minded business man will agree that in faithfulness to my business associates I must finish this journey, particularly because I have yet to do the most important territory.

"There is some consolation in the fact, however, that I consider I am doing the best kind of immigration work by seeking more business for Maritime Provinces industries and this bringing about the employment of more people at home. Is not this correct? On this point let me say that home manufacturers are making great headway in the west, though competition is keen.

"Breathing the optimism and indulging in the energies of the west is particularly interesting to me under the present conditions and makes one feel better equipped for duties such as would fall to my lot if the citizens of St. John considered me worthy of their confidence."

(Signed) "W. S. FISHER."

LABORITES GETTING READY FOR THE FAY

Candidate Endorsed by Various Unions—Hyatt Fears No One and Makes Comprehensive Challenge to Competitors

George H. Maxwell, the candidate of the Independent Labor Party, addressed a meeting held under the auspices of the Carpenters' Union last evening. He spoke of the importance of labor representation, and dealt with the various planks in the platform of the labor party, touching civic affairs. He pointed out that business men had always been in the majority in the city council and claimed that in the government of a city there were higher considerations than mere business.

After his address the carpenters' union held a meeting and unanimously endorsed the candidature of Mr. Maxwell.

The officers of the Independent Labor Party take exception to the statement made by H. B. Schofield at the meeting in Sydney ward to the effect that the business and professional men of the city were linked with a representative of labor in an effort to elect a ticket to run the city. They declare that Mr. Allingham does not represent labor on the ticket and that he is merely running in his capacity of a private citizen. They add that the labor party by its principles is bound to oppose the business men on the citizens' ticket and that Geo. H. Maxwell is the only labor candidate in the field.

At the last meeting of the Bricklayers' and Stone Masons' Union a resolution was adopted endorsing the candidature of Geo. Maxwell. A motion to endorse the candidature of Walter Allingham was turned down on the ground that his associates of the citizens' ticket were not friendly to labor.

F. Hyatt, the socialist candidate, addressed a fair sized audience in the socialist hall on Dock street last evening. He declared he did not represent the street railway or any other big corporation. He had no quarrel with the labor party, but was prepared to meet any candidate in the field in debate and discussion. He made the whole bunch look like 20 cents. He told what the socialist party had done in Milwaukee, and declared that the socialist and labor elements in Great Britain had forced the cities there to go in for municipal ownership of public utilities and at the same time played an important part in lifting them from the mire of corruption in which they wallowed twenty-five years ago under the rule of big business.

Don't be disappointed if you cannot get your new Easter costume. Go to Fraser, Fraser & Co., they have a new lot of choice costumes and dresses just your size and style, in all the popular shades of greys, tans, browns, navy blues, black and white, shepherd checks and mixed tweeds; they also have a nice lot of new long coats for spring in black, navy, fawn, green, brown and mixed colors, nice full, natty makes. Since deciding two weeks ago to go out of the dry goods and ready-wear business, they have been very busy. The main reason for such is the very low price placed on their goods to enable them to clear out the stock by May 1st. You should see the line of raincoats, they have. If you need one see them. They are the celebrated Peirain, also lately waterproof at reduced prices.

SPEAKERS HOLD FIRE FOR FUTURE MEETINGS

Brief Speeches Found Favor with Candidates for Commission at Rally in Board of Trade Rooms.

The rally of the Citizens' Committee held in the Board of Trade rooms last evening was not marked by any great enthusiasm. When the meeting opened 22 of the faithful were present, and by the time the candidates had finished their speeches the number had increased to 41. The candidates' speeches offered no positive programme of civic betterment. Mr. Schofield declared that the only issue was the principle of the commission form of government.

Mr. Schofield predicted victory for the ticket. He said all the honest workmen in the city were supporting the ticket. He said there might be better men in the field than the members of the ticket individually, but there was no other combination which would be as good as the ticket.

Continuing he said that he had not much to say, as he felt commission principles were the only issue before the people. It was the only logical course for those who voted for the commission to support the ticket.

L. P. D. Tully reported that everything was going first class.

Walter Allingham said he could not express how proud he was to be the candidate of the Citizens' Committee. He had made a pretty thorough canvass of the city, and he had found no opposition to the slate. He believed the public meetings were doing much to educate the people.

Mr. Allan said he did not know what to say. The candidates were doing their share of work and it was not necessary to say much. He believed that the people would support the ticket, and that the ticket would do much for the city of St. John.

Mr. Agar made a brief speech, claiming that the commission plan was not a departure from the status quo, but a movement, and pointing out the importance of having a civic government composed of men of ability to manage its affairs, now that it was on the eve of taking the position it was entitled to.

During the evening the chairmen of several wards reported that things looked good to them, though some citizens were talking of splitting their votes, especially for the mayorality candidates.

BAKING OF PASTRY TO BE TAUGHT TODAY

To the housewife who devotes special attention to pastry baking, this afternoon's free cooking demonstration with One Dollar Gas, at the St. John Railway Company's showrooms, will be of special interest, as this subject will be placed among the predominant features of the afternoon.

Mr. Agar made a brief speech, claiming that the commission plan was not a departure from the status quo, but a movement, and pointing out the importance of having a civic government composed of men of ability to manage its affairs, now that it was on the eve of taking the position it was entitled to.

During the evening the chairmen of several wards reported that things looked good to them, though some citizens were talking of splitting their votes, especially for the mayorality candidates.

FREE TRIP TO NEW YORK

Consider that you now use or should use a tooth paste.

Consider that there is no better one on the market than Dr. Maher's Ribbon Tooth Paste.

Consider that in addition to getting your money's worth you likewise get a chance for the above trip.

Try our paste next time you need one. It will be of reciprocal advantage to yourself, your druggist and to us.

For general conditions of the month or for a soothing and healing remedy after the extracting of a tooth use "Dr. Maher Sweet Wash." Handsomey put up in diamond shaped bottles. A free ticket for trip with this also.
