# The Glencoe Transcript.

GLENCOE, ONTARIO, CANADA, THURSDAY, FEBRUARY 22, 1923

Whole No. 2663

**PASTURE FARM TO RENT**  
100 acres, north half lot 17, first range north of Longwoods Road, Ekfrid. Has pond and windmill. Apply to E. J. Harris, Main street, south, Glencoe.

**WANTED**  
Local representatives in all parts of Ontario to sell direct to the farmer and user the ORIGINAL BELGIAN MELOTTIE, the most reliable and satisfactory, easiest turning and best skimming Cream Separator in the world, the most popular machine ever sold in Canada. 1,000,000 in use the world over, sold in Canada by us for 30 years; Lister Milking Machines, Lister Farm Engines, Grinders and Blower Boxes, Lister Electric Lighting Plants, all the best of their kind—splendid opportunity for local machine man or farmer's son with good mechanical knowledge and selling ability—must possess the best of character, be well known in locality and be prepared to drive the district continuously. A splendid opportunity for men who understand their job and are not afraid of work. Salary and commission with good advertising assistance from head office given. Apply stating age, references and full particulars to R. A. LISTER & COMPANY (CANADA), LTD., 58 Stewart Street, TORONTO.

**CARD OF THANKS**  
Mrs. Wm. L. Walker and son wish to express their thanks to their many friends and neighbors for kindness and sympathy extended to them during their recent bereavement.

**FOR SALE**  
White Rock cockerels.—W. R. Sutherland, phone 51.

**FOR SALE**  
Building suitable for garage.—D. A. Patterson, Appln.

**SKATES SHARPENED**  
We have placed a special lathe in our repair shop for sharpening and grinding skates concave.—G. W. Snelgrove.

**COW FOR SALE**  
New milch cow. Apply to E. V. Thornicroft, Appln.

**FOR SALE**  
Cow for sale, due to freshen April 1st; good milker. Also some fodder corn.—Duncan P. Campbell, Route 4, Glencoe.

**FOR SALE**  
Three acres of land on Simpson street, containing good lots for building. Apply to A. B. McDonald.

**WEAVING**  
Reduced prices till March 1st. Rag Rugs, Carpets, etc.—M. M. Bulman, Bothwell; phone 312B.

**FOR SALE**  
In Appln, new eight-roomed cottage, to be completed middle of October. Lot 75 by 175 feet. Apply to W. R. Stephenson.

**GLENCOE CREAMERY**

We are now open for business, with new equipment, and owing to the strong feeling in the butter market we will begin churning at once.

Positively highest prices in cash will be paid for cream delivered at the creamery.

Eggs, and Poultry in season.

W. G. McKAY Proprietor

**Farmers and Dairymen**

Get our proposition re cream; highest prices paid. We pay cash for both cream and eggs. Phone us if you want us to call.

**DISTRICT AND GENERAL**

Henry Ford's Michigan railroad ended the year 1922 with \$158,984 deficit.

Automobiles stolen in New York State last year were valued at \$12,000,000.

Jay Curdy-Hills, Chicago furniture dealer, has taken out a \$1,000,000 life insurance policy.

East Kent Agricultural Society will borrow \$1,500 to meet an overdraft and carry on their affairs.

An Akron, O., woman who sued a dentist for \$5,000 because he pulled the wrong tooth was awarded \$100.

Hon. Manning Doherty, Provincial Minister of Agriculture, opened the new ministerial hall at Dutton on Friday.

A farmer in Biddulph was found to have six barrels of mash containing seven per cent. of proof spirits on his farm, and he was fined \$200 and costs.

A Kenosha, Wis., man gave shelter to a stray dog which made a meal of five \$50 bills and two expensive plumes he had brought from abroad for his wife.

The next provincial plowing match will be held in Lambton. This was decided at the meeting of the Ontario Plowman's Association held in Toronto recently.

James W. Fleming died at the residence of his son 15 Bleinheim a few days ago. Deceased was in his 80th year and was born on the old Fleming homestead near Wardsville.

The Vigilance Committee of the Associated Advertising Clubs of the World reports that promoters of fraudulent oil stocks swindled the public of more than \$600,000,000 last year.

Alissa Craig council sent a deputa-tion to Toronto to interview the government concerning the proposal to place a subway under the railway crossing on the main street of that village.

Hon. Peter Smith, in reply to a question in the Legislature, declared that a full-page Government advertisement in the Farmers' Sun, the Star Weekly, the Globe and Mail and Empire had cost a total of \$2,484.

Senator Gooding, from the agriculture committee of the United States Senate, has reported his bill for the stabilizing of the price of wheat at \$1.75 a bushel. He intends to press it this session, but it is not believed it can pass both Houses before March 4th.

Three hundred people have died in Toronto since the influenza and pneumonia since the present epidemic was recognized. Friday's record reported was 16 deaths, which shows some improvement in the situation. It is pointed out that February in Toronto has been the coldest month since 1917.

The Forest council has instructed the town clerk not to issue any licenses without the sanction of the council. As he is the only person in town who can issue marriage licenses couples who are contemplating marriage will have to wait until the council meets or get the mayor to call a special meeting.

The large brick residence of Thos. Hockin, at Dutton, was completely destroyed by fire shortly before noon on Saturday. The fire started on the roof from the chimney. A quantity of the contents was saved, but the loss will be in the neighborhood of \$5,000. Mr. and Mrs. Hockin are spending the winter in Florida, and during their absence their home was being occupied by their son, Harold, and family.

Fire started in the bathroom at the home of Mr. and Mrs. Duncan Graham, Strathroy, on Wednesday. Mrs. Graham was cleaning a dress with a chemical cleaner, which exploded, burning both Mrs. Graham and her husband, but not seriously. The fire department succeeded in extinguishing the fire before any great damage was done. The loss was mostly caused by smoke and water and was covered by insurance.

A proposition to establish a slipper factory at Bothwell has come to naught. The Times says:—"The Chamber of Commerce and others interested failed to come to an agreement with the promoter, who hailed from Toronto, and who wanted to form a company capitalized at \$20,000, comprised of local men, but would not put up a dollar himself. He simply wanted to be engaged as manager at \$40 a week and his brother as book-keeper at the same salary.

John McPhail, young farmer, of North Dunwich, was driving a team of horses with a sleighload of cordwood. On reaching the railroad the sleigh became stuck on the crossing and fast express No. 8, approaching from the west, crashed into it, sending wood flying in all directions, and carrying a part of the sleigh on the engine. The driver, at the sight of the oncoming train, rushed from the tracks and escaped injury. The horses also escaped, being just over the rails.

On February 23 the first party of English boys destined to be placed on Western Ontario farms will sail from Liverpool, industrial officials of the Salvation Army have been informed. While the plan of sending lads from Great Britain to Canada, where they may grow up into citizen-farmers, has been developing for several months past, this party sailing on February 23rd will be the first to be booked through to London. From there they will be distributed to farm homes in the neighboring counties.

**SKATING CARNIVAL**

The first skating carnival for the season is announced for Friday evening of this week at the Carman arena. Full particulars as to prizes to be awarded for fancy and comic costumes, races, etc., will be found on another page of this paper.

The directors are desirous of making our handsome new rink a success, and it is on the part of the community to encourage them in their efforts by patronizing this event. Good band music will be furnished and everything done to make the evening one of rare enjoyment.

**POLICE COURT NEWS**

George H. Down of Windsor, who was charged before Police Magistrate Morrison with having obtained a sum of money from J. N. Currie by false pretence, pleaded guilty to the charge and was on Monday convicted and sentenced to the common gaol at London for three months. Down induced Currie to endorse a bill of exchange, drawn by the accused, by pretending that the bill of exchange was good and that there were funds to meet it at the bank. The draft was returned and Mr. Currie was obliged to pay the amount without receiving any value therefor.

Dan McIntyre, of Appin, was on Saturday fined \$50 and costs at Glencoe for having failed to make his income tax return for 1920 as required pursuant to Sec. 8 of the Income Tax Act, 1917. He had received a registered letter in the usual way with forms to be filled out and asking him to make the return within a stipulated time, but he neglected to do so. Any-one receiving the forms by registered letter and failing to make out the return as requested is liable to a penalty of \$25 per day for the period of such neglect, whether they are liable for income tax or not.

C. T. Burgess, C.T.R. conductor, of London, was charged with having obstructed the Main street crossing at Glencoe for a period of twelve minutes in contravention of Sec. 189 of the Ontario Railway Act. He pleaded guilty to the offence and was fined \$10 and costs. The section of the act referred to permits a train to remain on a crossing for five minutes, but any employee in charge of a train allowing it to block a crossing for a longer period is liable to a penalty of \$50, and the company is liable to a like penalty.

The municipality of Glencoe was enriched to the extent of \$17.50 recently when three men were convicted of disorderly conduct under by-law No. 3 of the village established in that behalf. Constable Henry was the complainant and secured the convictions.

**5,000 FACTS ABOUT CANADA**

A popular and handy annual is the "5,000 Facts about Canada," issued for twenty years by Frank Yeigh, the well-known Canadian writer and lecturer. The 1923 edition is now out and contains many additions and improvements, including a valuable map of the natural resources of the Dominion. The booklet is a wonderful compilation in brief of the story of the Dominion under fifty subjects, ranging from "Agriculture" to "The West" and "The Yukon," and is indispensable to any educated and intelligent Canadian who wants to keep up to date about his country, or who wishes to advertise it by sending copies away, as many do, while it is widely used in schools. Leading newspapers keep the book in stock, or it may be had by sending 30 cents for a copy to the CANADIAN FACTS PUBLISHING CO., 588 Huron Street, Toronto, Can.

**WALKERS**

Mr. and Mrs. Dan McEachren, of Glencoe, are visiting friends in this vicinity.

Lon Osier, who has spent the past two months in Michigan, arrived home on Saturday.

Mrs. John Secord visited her sister, Mrs. James Walker, prior to leaving to visit friends in California.

Mrs. Nell Munroe is recovering slowly from the effects of a fall which she sustained two months ago.

Mrs. Angus McCallum is recovering from her recent illness and is spending a month with friends in Alvinston.

Mr. and Mrs. Duncan R. McLachlan are spending the winter in Detroit, where he has secured a position with Henry Ford.

Duncan McPhail leaves today for his home in British Columbia after spending a month with his daughter, Mrs. Marion Walker.

Gordon Denning, son of James Denning, formerly of Walkers, died at his home near London and was buried at Strathroy cemetery February 12th.

Miss Flo McCallum, of Petrolia, was at her home for the past week attending her mother, who was confined to her bed with a gripe but is now convalescent.

Miss Meryl Munroe, who was recovering from her recent illness, is now confined to her bed with a bad attack of la grippe. Her many friends wish her a speedy recovery.

The funeral of the late William L. Walker was held on Wednesday last. Owing to inclement weather a short service was held at the house. On Sunday a memorial service was held in the church and was largely attended. The sympathy of the community is extended to his widow and young son, Martin, in their bereavement.

**DAILY PAPER RENEWALS**

The Transcript office handles new subscriptions and renewals for the daily papers at a saving to the subscriber.

**TRAIN CRASHES INTO SLEIGH**

A Wabash engine running light smashed into a sleigh loaded with wood at sidetrack 20, Ekfrid, two miles east of Glencoe, Saturday afternoon. Neither the driver, Douglas McIntyre, butcher, of Appin, nor the horses were injured. The sleigh was smashed into kindling wood.

The wind had blown the crossing clear of snow and the sleigh became stalled on the tracks. Mr. McIntyre saw the approaching engine and signalled the driver to stop, but the latter could not do so in time to avoid striking the sleigh. Meanwhile the horses had been unhitched. The horses and sleigh were the property of Nichol Black, of Appin.

**H. S. GIRLS PLAY HOCKEY**

There was an unusually interesting game of hockey at the Carman arena on Thursday afternoon, when the Glencoe high school second and third form girls defeated the girls of the first form with a score of 4-2. The first period ended 1-1, Donna McAlpine and Alma Watts scoring the goals. In the second period Donna McAlpine and Alma Watts each scored another goal and the period ended 2-2. Nothing was scored in the third period and five minutes overtime was played to break the tie. Eleanor Sutherland scored two goals in rapid succession, making the result of the game 4-2 in favor of the second and third forms.

**The Lineup**

First form—Rachel West, goal; Miriam Oxley and Mildred Anderson, defense; Irene McCaffery and Lila McCallum, wings; Donna McAlpine, centre.  
Second and third forms—Elva Sutton, goal; Alma Watts and Emma Reyraff, defense; Eleanor Sutherland and Bessie McCallum, wings; Reta Christensen, centre.

Referee—Finlay Smith; goal referees—Orvil Quick and Ale Stuart.

**A GREAT CAPITAL OUTLAY**

The extraordinary amount of new capital necessary to extend a modern telephone system is shown by President L. B. McFarlane's statement in the Bell Telephone Company's annual report that in 1922 \$5,175,976 was spent—and this, as explained, in spite of the difficulty in the first five months of the year of obtaining necessary supplies. Of this total, central office apparatus and subscribers' telephone instruments required over \$4,000,000; new subscribers' lines and long distance lines cost \$3,600,000, and land and buildings \$165,000.

It is announced that during the present year, so great is the demand for service, over thirteen and a half million dollars will be spent in extending the system.

The telephone business is one of the most exacting of all enterprises in its need for new capital.

**SCHOOL REPORTS**

S. S. No. 17, Moss  
IV.—Mary L. McKellar, Albert McLean, Mary McEachren, Mary McLachlan.

II.—Prudence Moore, Duncan Leitch, Marjorie Lease.  
Primer.—Arlene McKellar, Innes Graham.  
K. H. Chambers, Teacher.

**CANADIAN GOVERNMENT ANNUITIES**

A Canadian Government Annuity is a fixed yearly income payable by the Government of Canada for life in quarterly instalment, unless otherwise provided. It is a safe and lucrative form of investment for persons of all ages and circumstances, whether for immediate income purposes or as provision for old age. Among the advantages to be obtained from the purchase of a Government Annuity are:—

That it is the safest investment that can be made, as it has behind it the security of the whole of the Dominion of Canada.  
That it is free from taxation for Dominion purposes.  
That it is payable for life.  
That it is not transferrable.  
That it cannot be alienated.  
That it cannot be forfeited.  
That it cannot be stolen.  
That it cannot be seized or levied upon by or under the process of any law or court.

That it is not affected by the fluctuation of business, or trade depression.

That the purchaser does not have to die to win, but enjoys a personal participation in the fruits of his labor.

That the annuitant gets the full benefit of all that his money earns, as the expenses of management are borne by the Government.  
The postmaster at Glencoe will be pleased to give any information relating to Dominion Government Annuities.

When sending parcels through the mails to any post office in Canada, ask to have them insured against loss or damage. It costs only a few cents. The limit of weight for a parcel is 11 pounds.

The death occurred at the home of her daughter, Mrs. James March, at Nessen City, Mich., on January 25, of Mrs. Mary Anne Clark, relict of David Clark, of Dunwich. The deceased had reached the advanced age of 95 years.

### Ensilage for Pregnant Ewes.

For feeding pregnant ewes as a part of the roughage ration, ensilage has won comparative favor with stock owners. They consider it one of the cheapest and most valuable of roughage feeds. Ensilage is found to successfully take the place of roots and when care is exercised not to over-feed, digestive disorders seldom occur. In years past I have fed ensilage to both fattening lambs and breeding ewes during pregnancy and have found it a most excellent feed. The animals soon become extremely fond of it, and especially during the winter when confined to dry feed. Years ago before ensilage came into general favor as a feed for breeding ewes we always encountered much trouble with grade Merino ewes at lambing and in rearing the lambs on account of the ewes not having sufficient nourishment for their newly-born young. The first winter we had ensilage to feed, the ewes were given about a half ration twice daily and the former trouble practically ceased. We have been feeding ensilage to sheep both fattening and for breeding purposes for the past thirty years and always with splendid results.

Quite frequently objection is advanced by flock owners that ensilage contains so much acid it is harmful to pregnant ewes and should not be fed. I do not believe there is any foundation for this opinion. Of course, ensilage made from too green corn contains a higher percentage of acid than that made from well-matured corn and some harmful effects might result from feeding heavily on ensilage of this quality. However, after thirty years' experience in feeding ensilage to all kinds of live stock I do not think we have ever encountered any harmful results. Some years ago we filled our silo with large western corn that had not matured. We began feeding the ensilage as usual to the pregnant ewes but we soon noticed that some of the ewes were scouring, so we cut down on the silage and began feeding dry corn stover and the trouble soon disappeared. We had similar trouble that winter from feeding the ensilage to dairy cows and I think it was caused from silage from the corn crop before it came to maturity. This is good and poor ensilage the same as good and poor hay, but the consensus of evidence points to the fact that good silage is very beneficial in promoting the function of digestion, as an appetizer and general tonic. Experiments conclusively establish the fact that ensilage does not affect adversely, milk products nor harmfully interfere with the nourishing of young.

Flock owners and practical students of feeding problems recognize that succulence is essential in the ration of pregnant ewes during the winter months while confined to close quarters. When the weather is severe and the flock can not run to a pasture field where they may obtain some succulent feed, some means must be provided to furnish this necessary succulence in the daily ration or trouble is incurred with the ewes at parturition and during the early period of nursing the lambs. Pregnant ewes naturally require some succulence in their daily diet to assist digestion and reproduction.

English flock owners depend very largely upon roots to supply this essential succulence in the ration. In years past the English flock owner has had plenty of cheap labor and feed them abundantly. This is one of the chief factors that has enabled him to develop live stock of all kinds to such a high plane of perfection and induce American live stock lovers to become heavy importers. However, the average American flock owner does not take favorably to growing roots, as the crop involves a great deal of hard labor which in return makes the source of succulence too expensive and laborious. Ensilage is the cheapest and most valuable succulence for feeding farm animals.

Ensilage should not be fed to pregnant ewes as a sole ration. In physical character ensilage is bulky and contains a high per cent. of moisture which makes it a very valuable roughage feed, but its percentage of protein is extremely low and unless supplemented with leguminous feed, such as clover hay or alfalfa, best results can not be obtained. I feed pregnant ewes about half of the ration of ensilage twice daily, morning and evening. I feed it in tight-bottom racks, and in such amount that the ewes will clean it all up in twenty or thirty minutes. As ensilage contains a large amount of corn it is not advisable to feed too liberally as the ewes are likely to become overfat. Ensilage is a splendid appetizer and eagerly relished, and for this reason there is danger of over-feeding.

Judicious feeding of ensilage to the pregnant ewes determines in a large measure its success. Sour, moldy or stale ensilage should never be fed to sheep under any conditions. During severe winter weather ensilage is likely to become frozen in the silo or after being removed. Never feed frozen ensilage to pregnant ewes. Some means should be devised during the severe weather to prevent the ensilage from freezing or care exercised to take the silage fed ewes from far enough below the surface to insure fresh silage. In my stable the ensilage is thrown down into the basement, a feed or two ahead, and where it does not freeze. Sour, moldy or frozen ensilage, if fed to pregnant ewes is likely to cause scouring, digestive disorders and not infrequently abortion.

Ensilage contains a large per cent. of carbohydrate or fat-forming elements. If pregnant ewes are fed too liberally on ensilage they take on flesh rapidly and soon become sluggish and inactive. This is a dangerous condition for pregnant ewes as it tends to weaken the growth and development of the embryos which results in lambs coming low in vitality and the ewes lacking in sufficient nourishment for their newly-born young. Ensilage will not take the place of the grain ration. Feed plenty of clover hay or other leguminous roughage with ensilage for the best results.—Leo C. Reynolds.

### Mr. and Mrs. Jack Spratt.

In the attic of many farm homes may be found old copies of Mother Goose rhymes. If we turn over a few pages of one of these good books we are sure to find appropriately illustrated, these familiar lines:

Jack Spratt could eat no fat;  
His wife could eat no lean;  
So betwixt them both, you see,  
They licked the platter clean.

We are inclined to the opinion that if Mrs. Spratt had been the manager of a co-operative marketing association, she would have studied carefully her home market, just as she apparently did the feeding of herself and husband. In this study she would have learned the kind of products needed by the people living around her. Then, in a business-like way, this motherly woman would have gone about to supply these wants and have the supply so regulated that there would not be too much of any kind left over to glut the trade. She would want the market platter clean when she had supplied their needs.

Farmers of Ontario can well afford to follow the wisdom of Mrs. Spratt in connection with their marketing business. It is better to see that the folks next to us are properly cared for, than it is to forget them while endeavoring to ship farm products to the uttermost parts of the earth. We should watch the market platter, and seek to keep upon it products which appeal to our home trade.

### Dairy

To prevent horns from growing on little calves chip off the hair about the top of the head where the horns are showing in small, tough-like buds. Get a stick of caustic potash from your drug store. Wet the swellings where the horns are coming through. Rub the caustic potash stick, like a pencil, over the budding horns. Repeat this process two or three times at intervals of a week. The horns will thus be destroyed and never grow.

When using the caustic potash, wrap the stick in paper or cotton so it will not burn the hands. It should be kept in a bottle, well corked, so it will not absorb water and meet away.

Many a man has died of heart disease brought on by worry over his heart.

### Acid Phosphate is Best Manure Preservative.

A recent bulletin from the New York Experiment Station, Geneva, gives results of tests with various materials for preserving manure. The results show, to the satisfaction of the station, at least, that the only material to use is acid phosphate. The materials compared were straw, peat, acid phosphate, rock phosphate and gypsum.

"Most manure preservatives are of little value in checking loss of nitrogen," the station advises. "In the tests the amount of nitrogen lost ranged from 15 per cent., for manure treated with acid phosphate, to fifty-one per cent. for untreated manure."

Immediate application of the preservative is advised, even if the manure is to be hauled to the field as soon as voided. It is suggested that two handfuls of acid phosphate be scattered in each horse stall every day, so that the horses will tramp it into the manure. Wheat straw was found to be detrimental to manure. Where the straw was added to manure applied to growing crops, a detrimental effect was noted, as compared with results from fresh manure alone. The station does not explain why this is true.

So far as the tests have gone, it seems that the best results will be secured where acid phosphate is mixed with the manure as soon as it is voided and the mixture stored in a covered shed or pit until such time as it can be conveniently spread on the field.

### On Naming the Farm.

Farmers who have had occasion to sell goods on a special market, or to do a great deal of publicity, are fully agreed that every farm ought to be named. This name should be something apart from the owner's name. These farm names have real commercial value. This is particularly true where some special crop is sold from the farm. In the event that the farm should change hands, the name becomes an asset, and should increase the intrinsic value of the farm. Such a name makes a farm easier to locate and has immense value in dollars and cents as a business ad.

The shortest way to do many things is to do only one thing at a time.

If your horses shy when your hired man goes near, get another man. Contentment consists not in great wealth, but in few wants.

## SUN LIFE ASSURANCE COMPANY OF CANADA

HEAD OFFICE: MONTREAL

### SQUARE DEALING PAYS

Breeders are but regular human beings and naturally some are better than others. The business of selling pure-bred live stock is subject to the same high standards of honesty and integrity that determine the success or failure of any other business.

In selling stock by mail, even a higher standard is required. The customer who sends his first cheque to a breeder many miles away is obliged to trust that breeder to a considerable extent. The breeder who betrays that trust, who does not bend every effort to please that customer is not worthy of the name. He not only makes an enemy for himself, he discredits his fellow breeders and his gives his chosen breed a black eye. It may be carelessness, or thoughtlessness, or pure cussedness that causes an occasional man to grow crooked, but whatever it is, he is in the wrong business if he is handling pure-bred stock.

On the other hand, the man who makes it his foremost object to make every customer a satisfied one, finds his circle of friends constantly widening, and his business growing better and better. He is a credit to his chosen breed and to the breeding fraternity. He is continually enlisting new recruits for his special breed, and lending impetus to the drive against the scrub.

There are many men, whom we could name, who through the medium of pure-bred live stock on the farm, coupled with business methods that are above reproach, have paid for fine farms and elegant homes, and hold a position of respect and influence among people wherever they are known. There are others, sad to relate, who have failed to grasp the cardinal principle, that "Honesty is the Only Policy," and have abused the rights of their customers. These are all "broke" to-day, or worse, so far as we know of them, and in addition have lost the respect of their fellow citizens. The shrewdest of men are not smart enough to play keeps with the rest of the world and win.

### How to Grow Currants.

If you want currants to bear choice fruit and plenty of it, plant the bushes in moist, cool soil. Clay loam, or even stiff clay, is good for currants. Some shade is not objectionable; that is why currants do well as orchard fillers.

A dozen plants will supply the average family, if they are set out on good soil and cared for as they should be. Do not set them along the garden fence and let the weeds and grass grow up among them. Work plenty of barnyard manure into the soil before and after setting the plants.

Set the plants four feet apart in the row. Make the rows six feet apart. Shallow cultivation is best; if you cultivate too deep you will injure the roots. Ashes, sawdust and manure make good mulches. Confine the mulch to the hills and within the row, and cultivate between the rows.

The most and best fruits are borne on two and three-year-old wood. On older wood, the fruit is likely to be small. Hence, the need of pruning out old wood.

From four to eight main stems are left to bear fruit. Nip back the new shoots in the summer when they are about eighteen inches high, since the best fruit are borne near the ground. Except in severe climates, the bushes will winter all right without protection.

The worst insect pest on currants is the currant worm. The young green worms will eat all the leaves from the bushes in a few days. To kill the worms, spray the plants with white hellebore, one teaspoonful to a gallon of water. This material has strength from standing, so be sure you are using fresh powder.

Curant borers sometimes bore inside the growing plants and so weaken the shoots that they break with their heavy loads of fruit. Only remedy is to cut out canes with borers in, and burn them.

Mildew is one of the worst diseases. The leaves become covered with a white mold and dry up. To prevent this trouble, spray the plants with Bordeaux mixture when the leaves appear, and repeat every two weeks, until fruit sets. Then substitute potassium sulphide for Bordeaux mixture, a half ounce to a gallon of water.

### Barred Rock Wins Canadian Honors.

Canada's blue ribbon hen, a Barred Rock, has just finished up at the second New Brunswick egg-laying contest with a credit of 247 eggs. Two hundred birds were in the contest, covering a period of fifty-two weeks and making an average of 139.49 eggs, as compared with an average of 152.13 for the previous year.

The best pen in the contest was of the Barred Rocks, with a credit of 247 eggs for the fifty-two weeks, and was the only pen which showed an average of over 200 eggs per hen. Six of the birds in this pen laid over 200 eggs, and the lowest one had a record of 171. The 200 hens consumed 11,672 pounds of mixed grains, 7,790 pounds of mash, 8,930 pounds of skim-milk, 685 pounds of grit, 682 pounds of shell, a small quantity of charcoal, and a liberal amount of green feed during the year. The total cost of this feed was \$515.13 and the value of the eggs sold was \$902.27, leaving a balance of \$386.89 to cover the cost of labor and housing.

**Engine Cylinder Grinding**  
Your TRACTOR, Automobile or stationary engine, if "ground and lapped" and rings fitted, will be stronger than new. Send for circulars.

Maximum distance from railroad, 16 miles. Good roads, telephones and schools. Easy payments, extending over 15 years.  
This is the Best Land Buy in Alberta. Write for further information to: CANADA LAND AND SETTLEMENT COMPANY, LIMITED  
Medicine Hat, Alberta

## Princess Mary's Yorkshire Home Ready.

After renovations extending over six months, Goldsborough Hall, near Knaresborough, the Yorkshire home of Princess Mary and Viscount Lascelles, is ready for them to move in.

While the outside of this old Elizabethan mansion has been untouched, the inside has been almost entirely reconstructed. Six months ago there were no corridors in the house. One room led into another, and on the upper floors the occupants of the rooms furthest from the staircase had in some cases to reach their bedrooms by going through other bedrooms. All this has now been changed.

In the eighteenth and early nineteenth century the house was restored, the restoring mostly consisting of bricking up windows and making large rooms into smaller ones. In its original state the house had a room at the southwest corner with a lovely recessed window looking westward. The restorers cut this window off from the room and bricked up some of the openings intended for glass, making a side room of it. To-day the window and the whole room is restored to its character of three centuries ago. It has a rich Jacobean molder plaster frieze and is beautifully furnished. This is the princess' private sitting room.

Years ago two bathrooms were installed in Goldsborough Hall, and this was thought to be a great luxury. Both these bathrooms were attached to the guest rooms; the servants' went without. To-day there are ten, not counting those in the servants' quarters.

Where the furniture is of recent purchase it has all been chosen by the princess herself. The whole house now is a beautiful place, and the princess and her husband expect to spend a deal of time there, both of them being particularly fond of country life.

## Not Responsible.

There is an amusing story how Prince Clemens Metternich, one of the greatest of diplomats, once slipped out of a difficulty that threatened to be quite a formidable one.

His wife, the erratic Princess Melanie, had grievously offended the French Ambassador, the Count de Flanault, by the abruptness and discourtesy with which, in one of her moods of whimsical ill-temper, she had chosen to treat him.

Her tongue was notably sharp, and some of her remarks stung so deeply that the aggrieved official went formally to her husband to complain of her, asserting that he could not, in the quality of ambassador, submit to such insulting treatment.

Prince Metternich was not at all disconcerted. With a genuinely apologetic shrug, but in a tone of voice expressive of the most gallant devotion to his consort, he exclaimed:

"What would you have, my dear count? I met the princess; I loved her; I have married her; but it was not I who brought her up!"

There was no further trouble; but if the prince's answer was both quick-witted and diplomatic, it was certainly somewhat hard upon his mother-in-law!

## Comfort.

Though disappointments may come, Let sleep hush grief when nightshades fall—

When in his cot my baby stirs I know I have not lost my all.

Grant me the strength to struggle on, And patience to my poor soul teach— For work and patience are akin To all heights the great may reach.

With each new dawn, new tasks begin; New life to take the burden up. Though bitter be the drink tonight, There's comfort still within my cup.

## The Sun Life.

The financial statement of the Sun Life Assurance Company of Canada for the year 1922, published on another page of this issue, must be regarded as highly satisfactory from every measure of progress and prosperity. Its items, relating both to development and strength, show striking advances over previous records, especially those in connection with total business in force and assets, indicating that a policy of large-scale expansion has been accompanied by prudent and economical management.

In addition to its large underwriting in the Dominion, the Company has for many years conducted profitable business in countries other than Canada, and at the present time maintains active organizations in upwards of fifty countries. The record of the year's operations thus affords testimony that the reliance of the Canadian people in their own financial institutions is universally shared.

The abnormal financial conditions generally obtaining some three or four years ago gave a great impetus to life assurance underwriting the world over. It is gratifying to see that the advances then recorded are being well maintained by the Sun Life of Canada during a year of comparative financial stringency, affording evidence that the public have a growing consciousness of family and community responsibility.

## How a Girl Throws.

"I thought you had thrown George over," he said to her while they were sitting out.

"Yes, I did," she answered. "But you know how a girl throws."

The Eskimos of Alaska use small beads of ivory in catching birds.

## GENERAL DEBILITY FOLLOWS INFLUENZA

### The After Effects Often More Serious Than the Disease Itself.

No reasonable precaution to avert an attack of influenza should be spared. The disease itself often proves fatal and its after effects among those who are spared, make the life of the victim one of almost constant misery. Ask almost any of those who have been attacked by this trouble what their present condition of health is, and most of them will answer: "Since I had the influenza I have never been fully well." This trouble leaves behind it a persistent weakness of the limbs, shortness of breath, bad digestion, palpitation of the heart and a tired feeling after even slight exertion. This is due to the thin-blooded condition in which the patient is left after the fever and influenza have subsided. This condition will continue until the blood is built up again, and for building up the blood and strengthening the nerves nothing can equal a fair treatment with Dr. Williams' Pink Pills. The value of this medicine in cases of this kind is shown by the statement of Mr. Edward J. McGuire, Penbrooke, Ont., who says:—"In the fall of 1918 I was attacked with the influenza—and not in a mild form either. I was confined to my room for three weeks, and although the influenza subsided I did not regain my health. As a matter of fact I seemed to be growing weaker. I had no appetite, was subject to fainting spells and my feet and ankles were badly swollen. The doctor told me that my condition had developed into a serious case of anaemia, and although I was under his care for over two months I was not improving in any way. At this stage one of my friends advised me to try Dr. Williams' Pink Pills. I was loath to do so, as I began to think my case hopeless. However, I was finally persuaded to try them, and by the time I had used two boxes there was no doubt they were helping me. I continued taking the pills until I had used a dozen boxes, when I found that every symptom of the trouble had left me and I was again enjoying the best of health. I returned to my work and have ever since been in good health and feel that I owe it entirely to Dr. Williams' Pink Pills. I think that anyone who is suffering from the after effects of influenza, or any form of anaemia, should give this medicine a fair trial. You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont."

## Morning Star.

This morn' I watched a lonely shining star, And I remembered once, long, long ago,

How you and I, one dawning, early rose And o'er half waking meadows wandered far,

Until we reached that fir-tipped hill—you know We watched our star's white, radiating glow—

At length its fading beauty paled and died When dawn came rioting from out the sea.

Until this morn' I fear I did forget That wonder hour with you at my side. Shall I imagine too, you have forgotten me?

So be it—but our morning star shines yet!

## Agnes Chaote Woson.

A sprinkling machine is now used in many mines to lay down dangerous coal dust.

## The Part of Luck in Musicians' Career.

Musicians who wait like Mr. Misawer for something to turn up may have a long time to wait. Luck both good and bad unquestionably plays a part in every man's career. Many of the world's greatest musicians were born unlucky and suffered in consequence. Though he never knew it, Schubert was, as they say in the West, "plumb unlucky." He thought he was in luck whenever he got a square deal, and was always rejoicing whenever he got enough paper on which to transcribe the musical ideas teeming in his brain. He was distinctly out of luck, the world owed him something more than music paper on which to write immortal songs.

Wagner had to wait about forty years before his luck broke. He never really emerged from obscurity until a lunatic saw what others failed to see, and Ludwig of Bavaria, a crazy king, gave him a chance. This was indeed luck, but Wagner prepared for it by writing masterpieces.

Mendelssohn was lucky before he was born. He selected the right parents and was born rich. He was unlucky, however, in being born at the wrong time. He died too soon, broken hearted over the death of his sister Fanny, from a nervous disorder. Had he lived in modern times the chances are that his life would have been saved.

But the luckiest of all composers was Liszt, who never suffered want and lived to a ripe old age, a fine, noble, generous man and a sterling musician. Verdi was lucky also. He lived over four score years in a grand crescendo of achievement.

However, lucky or not, these masters all worked with remarkable energy regardless of the element of chance.

## Minard's Liniment for Rheumatism.

Comes Naturally. Mother—"Jack, why are you such a bad boy?" Jack—"Cause I inherited nothing good, I suppose."

## Sugar Made by Light.

It is announced by Professor Hugh R. Rathbone, of Liverpool University, that considerable quantities of sugar have been made from carbonic acid by the agency of light.

This wonderful feat has been made possible by the results of remarkable experiments carried out by Professor E. C. Baly, a prominent investigator of the mysteries of light.

Professor Baly, with his colleagues, Professors Helbron and Barker, discovered that ultra violet light would convert water containing carbonic acid gas into formaldehyde, a substance now used on a large scale in many branches of industry; but they found, too, that the light rays continued in their wonderful process, eventually turning the formaldehyde into sugar.

Water is available in immeasurable quantities and carbonic acid is merely a waste product equally abundant, and the magic of light rays of a certain wave length will cause them to combine and give sugar.

## WINTER WEATHER HARD ON LITTLE ONES

Our Canadian winters are exceedingly hard on the health of little ones. The weather is often so severe that the mother cannot take the little one out for an airing. The consequence is that baby is confined to overheated, badly ventilated rooms; takes cold and becomes cross and peevish. Baby's Own Tablets should be given to keep the little one healthy. They are a mild laxative which regulate the stomach and bowels and thus prevent colds. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Why They Smiled.

Stumps was shaving himself, when he made a slight cut on the end of his nose. He called to his wife for sticking plaster and was told to look in her sewing basket.

At the office, everyone who entered his sanctum smiled.

Considerably annoyed, he asked his partner if there was anything wrong with his appearance.

"I should say there is!" was the reply. "What's on your nose?"

"No," said the other; "It is the label from a spool of cotton, and it says, 'Warranted 300 yards!'"

## MONEY ORDERS.

A Dominion Express Money Order for five dollars costs three cents.

## Curious Fact.

It is a curious fact that the higher the civilization of a race the lower the action of the senses. Actual experiments have shown that, whereas the ear of the white man responds to a sound in 147-thousandths of a second that of a negro responds in 130-thousandths, and that of a Red Indian in 116-thousandths.

## Minard's Liniment for Neuralgia.

### Expresses of the Sky.

The purpose for which the racing aeroplane is intended is not generally understood; in fact, there are a great number of people who regard the piloting of it as a rather unpleasant means of committing suicide.

In the first place, it gives the designer some idea of the amount of strain which may comfortably be imposed upon the machine during its flight through the air at speeds often exceeding 200 miles an hour.

While on a practice flight on the Lumiere de Monde monoplane, with which he intended to compete in the Coupe Deutsch de la Sambre, Captain Bernard de Romanet, one of France's most brilliant pilots, was killed by the fabric covering the wing of his machine pulling off while flying at about 180 miles an hour.

The modern single-seater fighter is another type of aerial express. The Gloucestershire Aircraft Company's Bamel, which is probably the fastest aeroplane in the world, has been tried at Mateshham Heath, the British Air Ministry's experimental aerodrome, with a view to modifying it for this purpose.

In designing a racing aeroplane it is necessary to do away with any projections likely to resist the machine's progress through the air; in fact, the Bamel is covered with a special dope which gives a very smooth anti-friction surface to the machine.

The wing surface of a racing aeroplane is cut down much lower than that of a machine designed for ordinary purposes.

The man who does what he pleases is seldom pleased with what he does. We attribute all our successes to ourselves and all our failures to our circumstances.

## LONDON COUPLE ARE DELIGHTED

### His Wife's Two Years of Trouble Is Now Ended, Says Frank Westlake.

"Tanlac has made all the difference in the world in my wife's health and we are both delighted," declared Frank Westlake, valued employee of the Public Works Department of London, Ont., residing at 40 Langarth St.

"About two years ago my wife underwent an operation that left her badly run-down and she simply couldn't get back her strength. Her appetite left her and she could hardly eat enough to keep going. The least exertion would tire her out completely, and her housework was an awful burden. She would lie awake hours at night, too, and morning found her just as tired as when she went to bed. She suffered terrible splitting headaches, her nerves were on edge and she got very little pleasure out of life.

"But three bottles of Tanlac simply put her on her feet again. She can do her housework easily now, the headaches are gone, she sleeps soundly and her appetite is a joy to behold. I can't find words to express my gratitude."

Tanlac is for sale by all good druggists. Over 35 million bottles sold.

## Rheumatic Pains

Are relieved in a few days by taking 30 drops of Nethur Seigel's Syrup after meals and on retiring. It dissolves the lime and acid accumulation in the muscles and joints to these deposits can be expelled, thus relieving pain and soreness. Seigel's Syrup, also known as "Extract of Koots," contains no dope nor other strong drugs to kill or mask the pain of rheumatism or lumbago; it removes the cause. 50c. and \$1.00 bottles at druggists.

## PUT STOMACH IN ORDER AT ONCE

"Pape's Digestin" for Gas, Indigestion or Sour Stomach

Instantly! Stomach corrected! You never feel the slightest distress from indigestion or a sour, acid, gassy stomach, after you eat a tablet of "Pape's Digestin." The moment it reaches the stomach all sourness, flatulence, heartburn, gases, palpitation and pain disappear. Druggists guarantee each package to correct digestion at once. End your stomach trouble for a few cents.

## PETRIE'S MACHINERY TORONTO

### Why is a Foxglove?

We use the names of our common flowers and plants so frequently and so heedlessly that few of us ever stop to think of the derivations of these names. Yet there is no class of words in the English language which we have collected more haphazardly from every other language in the world.

Take the dandelion, that common but wonderful flower which blooms all the year round; its name is pure French. Malva is Greek, Arctique is from an Arabic word meaning "earth thorn." Rhubarb is Latin, and bean Anglo-Saxon, while potato is really a Spanish word.

Some flower names have their origin plainly stamped on them. "Coltsfoot," for instance, is also called "Poafoot." Its hoof-shaped leaf quite evidently gave it its common name. Bachelor's Button, again, shows the origin of its name in the shape of its button-like flower. Similarly "knap weed," which is really "knob weed."

Some flower names, on the other hand, are very mysterious. Why is a foxglove so called? This bloom of the late summer has flowers shaped like the fingers of a glove, but what has it to do with a fox? Probably nobody knows, yet the name is a very ancient one, and appears as early as Norman times.

The cowslip which the children pluck in spring is equally puzzling. Its old name was "cusiop," but that does not help us out.

Harebell may possibly be "hair bell," having reference to the extreme thinness and delicacy of the stalk.

Sugar can be produced by action of sunlight on aqueous carbon dioxide—commonly called soda water—according to recent researches.

## ISSUE No. 8-23.

## CORNS

### Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezono" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezono" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

## Ringbone?

"I bought a horse with ringbone for \$20. Used \$1 worth of Minard's Liniment on him and sold him for \$35. Profit on Liniment, \$15. Minard's Liniment, Hotel Keeper, St. Phillips, Que."

## Minard's Liniment

The Stable Stand-by.

## ACNE ON FACE CUTICURA HEALS

Hard, Large and Red Pimples. Itching Was Terrible.

"Had been troubled all my life with acne on my face. My forehead was a mass of pimples. They were hard, large and red, and the itching was most terrible. My face was disfigured. I sent for a free sample of Cuticura Soap and Ointment and after using them got instant relief. I bought more, and after using two cakes of Cuticura Soap and three boxes of Cuticura Ointment I was healed." (Signed) Mrs. G. S. Miller, Box 14, Marshall, Wash., Jan. 9, 1922.

Use Cuticura for every-day toilet purposes. Bathe with Soap, soothe with Ointment, dust with Talcum.

Sample Book Free by Mail. Address: "Cuticura, Ltd., 145 St. Paul St., W. Montreal." Bold everywhere. See Size, Ointment 25c and 50c, Talcum 10c. Cuticura Soap 25c without mug.

## Rheumatic twinges-ended!

The basic cause of most rheumatic pain is congestion. Apply Sloan's. It stimulates circulation, breaks up congestion—pain is relieved!

## Sloan's Liniment

Made in Canada—kills pain!

For rheumatism, bruises, sprains, chest colds

## HELP FOR YOUNG WOMEN

Mrs. Holmberg Tells How Lydia E. Pinkham's Vegetable Compound Helped Her

Viking, Alta.—"From the time I was 15 years old I would get such sick feelings in the lower part of my abdomen, followed by cramps and vomiting. This kept me from my work (I help my parents on the farm) as I usually had to go to bed for the rest of the day. Or at times I would have to walk the floor. I suffered in this way until a friend induced me to try Lydia E. Pinkham's Vegetable Compound. I have had very satisfactory results so far and am recommending the Vegetable Compound to my friends. I surely am glad I tried it for I feel like a different person now that I don't have these troubles."

ODELLA HOLMBERG, Box 89, Viking, Alta.

Letters like this establish the merits of Lydia E. Pinkham's Vegetable Compound. They tell of the relief from such pains and ailments after taking it.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and today holds the record of being the most successful remedy for female ills in this country, and thousands of voluntary testimonials prove this fact.

If you doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to the Lydia E. Pinkham Medicine Co., Cohasset, Ontario, for Mrs. Pinkham's private text-book and learn more about it.

## No "kick-back" in this mealtime cup

When you find that tea or coffee makes you nervous, keeps you awake at night, or causes frequent headache, it's time to change to Instant Postum.

This wholesome, healthful table beverage gives you all the comfort and satisfaction of your usual morning cup. It has charm without harm to nerves or digestion—cheer without fear of a dangerous "kick-back."

Made instantly in the cup at the table—no boiling, no waiting, no waste.

At your grocer's in sealed, air-tight tins

## The Transcript

Published every Thursday morning from The Transcript Building, Main Street, Glencoe, Ontario. Subscription—In Canada, \$2.00 per year; in the United States and other foreign countries, \$2.50 per year.

Advertising.—The Transcript covers a wide section of territory in Western Ontario, and its readers are the leading farmers and townspeople. It is a first-class advertising medium. Rates on application.

Job Printing.—The Jobbing Department has superior equipment for turning out promptly books, pamphlets, circulars, posters, blank forms, programs, cards, envelopes, office and wedding stationery, etc.

A. E. Sutherland, Publisher.

"Make Canada a Country to Love." John Redpath Douglass used this phrase in the editorial columns of the Montreal Witness a short time ago, and it was immediately taken up and advocated as a national slogan. Write it, talk it, live it, write it on your linens, hang it in your dining-room, preach it from your pulpits—these are some of the expressions to date regarding it. Make Canada a Country to Love!

K. W. McKay, county clerk of Elgin, speaking at the annual meeting of the Elgin Municipal Association, suggested a single agency for the collection of the income tax. He would entrust the task to the Federal authority, each municipality to be allotted its share of the proceeds. The arguments in favor of the change are very appealing. In the first place, there would be a great saving of expense and duplication of labor, and the system would be much more convenient for those assessed. It is maintained, also, that the Dominion machinery is more effective in collecting from wealthy taxpayers than the municipal. As the Globe points out, it would also remove inequalities and injustices. In many municipalities, especially the smaller ones, no serious attempt is made to collect the income tax. The payment of a single income tax, even if it were as heavy as the combined Federal and municipal income taxes, would be more convenient than the present duplication.

The committee of the Legislature, which toured Ontario and a portion of New York State during the last summer in search of ideas for the improvement of the hotel accommodation in this province, laid the result of their labors before the Ontario Legislature last week, in the form of a report, recommending chiefly the appointment of a permanent commission, made up of hotel-keepers, commercial travelers and Ontario Motor League members, to consider, advise and generally look to the improvement of the hotel business. The report states that the first thing that seems to be necessary is an entire separation of the business of enforcing liquor laws and the business of regulating and developing good hotels. An hotel and innkeepers act should be drafted, the clauses of which should contain such matter governing hotels as is scattered through the statutes at present, and such other provisions as are found advisable to insert for the protection of the hotel-keeper and the benefit of the public.

### CUSTOMER OWNERSHIP

That the customers of an enterprise—those who purchase its products—should be also its owners is an idea that is more and more finding favor in the modern business. The desirable ends served by such a condition are indicated in an interesting paragraph from the annual report of the Bell Telephone Company, in which President L. B. McFarlane says:

"To distribute more widely the ownership of shares is not only to strengthen the financial foundations of your company and to create better relationships, but to encourage the habit of thrift and a broader knowledge of investment."

In this connection it is interesting to note that the number of Bell Telephone shareholders increased by 87 per cent. in 1922. They now number over 9,400.

### PERSONAL AND SOCIAL

—Sidney Hartley has been spending a short time in the vicinity of Florence.

—Mrs. Harrison Link, of London, is visiting Mr. and Mrs. Jack McCracken.

—Miss Kathleen Charles, of London, is visiting her sister, Mrs. (Dr.) McIntyre.

—Harrison Link, of London, was a guest of Mr. and Mrs. Jack McCracken over the week-end.

—Mrs. G. H. Singleton and daughter Helen, of Ailsa Craig, are on a visit with relatives in Glencoe.

—Miss Jean McCormick, of Watford, spent the week-end with her cousin, Miss Lorna Luckham.

—Mrs. Allan Perry and two children, of Windsor, spent last week with her sister, Mrs. Calvert Reycraft.

—Mr. and Mrs. James Brown, of Tupperville, spent the week-end at the home of her father, Dr. McLachlan.

—Mrs. Hugh Archer, of Wardsville, was called to Detroit a few days ago owing to the serious illness there of her sister, Mrs. Knapton.

—Miss Cleo Sutton, teacher in Victoria Ave. school, Windsor, who was at her home here for a week recuperating from an attack of influenza, returned on Sunday to resume her duties.

### BREAKING THE LAWS

Is there not a chance of the word "bootlegger" becoming so common that finally we shall pass it with a nod, and almost recognize it as having a place in our language? It doesn't sound very bad to hear So-and-So referred to as "just doing a little bootlegging" on the side.

Bootlegging means breaking the laws of the country, just as certainly as it applies to putting a jimmy under a man's window and robbing his house.—London Advertiser.

A new oil lamp that gives an amazing brilliant, soft, white light even better than gas or electricity, has been tested by 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean and safe. Burns 24 per cent. air and 6 per cent. common coal oil. The inventor, J. A. Johnson, 246 Craig St., W. Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

### PUBLIC HEALTH ACT

It may not be generally known that householders have an important duty to perform under "The Public Health Act" as it applies to communicable diseases, and that heavy penalty is provided in case of their neglect. At this time particular attention is drawn to section 53, sub-sections 1 and 2, of the act, as follows:

Whenever any householder knows or has reason to suspect that any person within his family or household, or boarding or lodging with him, has any communicable disease, he shall, within twelve hours, give notice thereof to the secretary of the local board or to the medical officer of health.

The notice may be given to the secretary or the medical officer of health at his office, or by letter, addressed to either of them, and mailed within the time above specified.

The act provides that any person who contravenes the provisions contained in the above section shall incur a penalty of not less than \$25 nor more than \$100.

Lots of snow, and frost no doubt a couple of feet in the ground. But the back-yard gardener knows where he's going to put the early onions and the head lettuce. That's faith.

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Expeller to drive out the parasites.

"Madam," said the conductor politely to the colored lady, "you must remove that suitcase from the aisle." "Fo' de Lawd sake, conducto', dat ain't no suitcase, dat's mah foot."

## ODD TRADE SIGNS

Signals That Puzzle American  
Visitors in Europe

Bunch of Straw, for Instance, Has Many Meanings, Somewhat Baffling to the Uninitiated.

In many streets of continental Europe are still to be seen signs, or unwritten words, which have no such clear significance as the hat before a hatter's shop or the boot before a cobbler's. Certain of these signs are so obscure in origin and meaning that no one could understand them without reference to tradition or the passer-by.

Everybody in this country knows that a pole painted with spirals of red, white and blue is the usual sign before a barber's shop. But how few know that the stripes are supposed by some persons to represent surgical bandages? That was when barbers performed simple surgical operations. Before many barber shops in Europe small brass plates are hung. These are oval, concave and curiously scooped out on one side, as if a piece had been bitten out of it. This represents the old-fashioned cupping dish which barber surgeons, or surgeons, used in taking blood from patients.

Who would naturally suppose that mats of straw, loosely plaited and fastened to the corners of buildings signify, that they are for sale? But this is their meaning. In Europe oysters are never eaten except raw, and in mild weather they are exposed on the sidewalk beside a man ready to open them for customers. In bad weather, when the oysters are not exposed, persons who can read may find them mentioned among the names of fish on the shop's placards, but the mats are then expected to inform the illiterate on the point.

The old proverb, "Good wine needs no bush," refers to the custom of putting a bush before a wine shop door as a sign. Sometimes a branch is placed above the door instead. Often no name or any other sign is displayed by the wine seller.

Such a bush may be of any tree common to the locality. In the North it is often spruce or pine or a huge branch of mistletoe. In the South it is almost always olive or myrtle, and generally renewed on festive days. The bushes have acquired the name "bouchons" in France and this is applied to small taverns also.

The ancient usage of hanging a bush over the door is obsolete in cities, but was doubtless the origin of the habit of placing small evergreens in portable wooden boxes outside cafes and restaurants in Paris and other large communities.

A commonplace in Paris is that of horses led through the streets with bunches of straw tied to their tails. This signifies that these animals are for sale. In fact, a bunch of straw tied to any object can always be interpreted to mean that the present owner is ready to enter into negotiations with any one who takes a fancy to his property.

Thus, as he passes along the streets one sees baby carriages, bicycles or any second-hand furniture with the bunch of straw attached. Bicycles may read such a sign even better than a written or printed card.

It serves another end as well, for advertisements can be taxed, while there is no tax on a bunch of straw. In France, unless an owner has a regular license to sell, he must place a government stamp on any sign or writing hung at the door. In the same way even a dressmaker or shoemaker in want of apprentices must put a government stamp on any notice so displayed.

A curious instance of this use of straw used to be seen near English law courts of the eighteenth century. Men willing to bail criminals or debtors were seen parading with straw in their shoes, thus signifying that they would bail for pay. Thus worthless bail came to be called "straw bail."

### How the Caribs Bury Their Dead.

The Caribs, the aboriginal inhabitants of the West Indies, once exceedingly numerous, are now virtually extinct as an ethnic group. At present there are practically no pure-strain Caribs in the islands except in Dominica. This is chiefly due to the treatment which the native population received at the hands of the Spanish and the later persecutions and abuses by the early French. The slave trade began in the islands soon after the coming of Columbus.

The chief duties among the natives were good and bad spirits, and they also worshipped the sun, moon and stars. The Pee-ly-man, a kind of sorcerer, was the medicine man of the tribe, and he effected his cures by invoking the good spirit of some bird or animal, meanwhile making diabolical noises and shaking the "shac-shac," a small calabash, emptied of its contents and filled with hard seeds and provided with a handle. The dead were not buried, but inclosed in a hammock and suspended between two forest trees.—Detroit News.

### Knew How He Felt.

We had just had dinner. Donald was whining around saying he wanted an ice-cream cone.

"I told him he had just had dinner and began enumerating everything he had eaten, when Beth, a neighbor's child, who was listening attentively, said: 'You know, that's just the way with children. They are never satisfied.'—Chicago Tribune.

## DELIGHTS OF EASTERN BATH

Young Persian Girl Writes of Abilutions Which Occupy the Best Part of a Day.

Accompanied by young girls of my own age and by the elderly women who were to bathe us, I was taken to the baths. A narrow stairway led us under ground to a star-shaped room. Its walls were entirely covered by tiles painted and ornamented with Persian writing. Chattering like sparrows, we undressed. Then we went into another room, where walls of heated stone surrounded a pool of warm water. We sat on the edge of the pool and dabbled our toes in it while the bath attendants let down our hair. Then we passed into a room as large, and somber as a mosque. There the attendants combed our hair. When the soap was washed away the hair was slipped in henna and left wrapped in reddening cloths. After the henna, which strengthens the roots, women rinsed the hair for an hour and covered it with curdled milk, which nourishes the scalp. After another interval another method of rinsing and an hour of drying and combing. Then the hair, moistened in rose water, was braided.

It was noon, and in another room luncheon awaited us on little copper platters. We went happily, eager to taste the cooler air and to feel beneath our bodies the freshness of divans covered with woven straw. To our dismay, the attendants feared our being chilled, and compelled us to return to the bathroom to eat our dessert, goblets of sherbet and trays of fruit. When we rested for a while, stretched out on the hot rugs moist with steam, while the servants brought the kallow.

For the first time, I tasted the scented smoke drawn from through the bubbling water perfumed with attar of roses. It brought me a delicious sensation of age and experience. I lay on the rug, drawing deep breaths of the smoke and letting them curl from my lips to mingle with the steam in the rays of colored light, and realized all the dignity of my fifteen years. But in a little while I felt dizzy and gladly let the water-pipes be taken away by the attendants.

Our bodies were abandoned to vigorous old women, who massaged every muscle, dipped us into warm water and then into cold, soaped us till we lay in mountains of foam, rubbed us with curdled milk, rinsed us for two hours in water scented with herbs, and at last, with the words, "Ya Allah," allowed us to escape into a large pool of perfumed water.

They had every difficulty imaginable in persuading us to leave the pool two hours later, because, sitting on the edge of the basin and eating oranges, the young girls were telling such amusing stories that we were exhausted with laughter. Night had covered the glass dome with darkness, and the lanterns were lighted long before the attendants coaxed and scolded us into our clothes.—Asia Magazine.

### Ink Froze Upon Her Pen.

Mrs. Spencer Jones, who is accompanying her husband, the well-known astronomer, to Christmas Island to prepare for September's total eclipse of the sun, will undertake important duties during the totality. She is only one of the many women who, today, take an interest in astronomy, and her action recalls the great name of Caroline Herschel, whose brother, Sir William, found her an invaluable assistant. He used to stand at night in the open air from dusk to dawn gazing down the tube of his mighty reflector, and he would dictate what he saw to his sister. She wrote down his notes and recorded the position of the objects which he was describing. It is said that sometimes the cold at Slough was so intense that the ink would freeze on her pen.

### New Sand-Cutting Machine.

To provide the advantage of mechanically tempered sand in small foundries, for which the older sand-cutting machines are too large, a small light type of the same machine, weighing less than 700 pounds has been placed on the market.

The cutting principle remains the same, but power is needed only for rotating the cutting cylinder. The machine is propelled and guided by hand, like a pushcart, by grasping the rear frame member. One man can handle it on well-paved floors, but on soft or uneven floors, two are required.—Cleveland News-Leader.

### Really Modern Mail Station.

What is said to be the most modern mail station in the country will soon be in operation in Chicago. It will be a seven-story building located in the yard of the Union station where mail train cars will be run directly into the basement of the building. On the roof of the station proper there will be a landing place for airplanes carrying the mails and in the intermediate stories there will be installed machinery which is the very last word in automatic conveyors and labor-saving devices for the rapid handling of mail matter.

### Deadly House Flies.

Among the many different kinds of bacteria and other organisms taken from the bodies of house flies by different investigators are bacillus, diarrhea, typhoid fever, anthrax, food poisoning, amoebic dysentery, abscesses, leprosy, tape worms, hook worms, bubonic plague, conjunctivitis, summer complaint, tuberculosis, gonorrhea, green pus, enteritis, trachoma, erysipelas, gas gangrene, stomatitis, worms, pin worms, ophthalmia.

## FANCY DRESS CARNIVAL

Carman Arena, Glencoe

Friday Evening, February 23

### PRIZES

Men's Race, 10 laps around rink—1st prize, Tie, J. L. Tomlinson.  
Boys' Race, 7 laps around rink—1st prize, Jackknife, W. Cumming & Son.

Girls' Race, 3 laps around rink—1st prize, Pair Slippers, Bruce McAlpine.

Ballroom Race, open—1st prize, Box Chocolates, A. Traver; 2nd prize, Gold Cuff Links, C. E. Davidson.

Football Game, with brooms (Captains, Hicks and Craig)—1st prize, Box Cigars, Roy Siddall.

Best Dressed Lady—1st prize, Chocolate Set, W. F. Hayter and C. E. Nourse Co.; 2nd prize, Bertha Collar, Mrs. W. A. Currie; 3rd prize, Knife and Fork Holder, Jas. Anderson.

Best Dressed Gentleman—1st prize, Safety Razor, Jas. Wright & Son; 2nd prize, Shaving Set, Irwin's Novelty Store; 3rd prize, 1 lb. Coffee, Geo. Westcott.

Best Dressed Boy or Girl under 14 years—1st prize, Scarf Set, Hill's Cash Store; 2nd prize, Jelly Tray, Irving Kerr; 3rd prize, 6 cakes Infant's Delight Soap, W. A. Currie.

Best Comic Costume, Gentlemen—1st prize, Roast of Beef, W. J. Cornfoot; 2nd prize, Pail of Honey, M. & E. Co-operative Co.

Best Comic Costume, Ladies—1st prize, Box Chocolates, P. E. Lumley; 2nd prize, Picture, J. B. Gough & Son.

Best Gentleman Skater—1st prize, Wool Overcoat Scarf, J. N. Currie.  
Best Lady Skater—1st prize, Pair Spats, Tailor-made, Modern Shoe Store.

Best Lady and Gentleman Skaters—1st prize, Box Handkerchiefs, E. A. Mayhew & Co.; Tire Tester, Geo. Snelgrove.

Best Fancy Skater, Lady—1st prize, 1 year's subscription to Transcript.

Best Fancy Skater, Gentleman—1st prize, Gentleman's Set, D. Lamont.

Smallest Skater in Costume—1st prize, Waterman's Eversharp Pen, H. I. Johnston.

The following donated cash which is spent for prizes:—W. D. Moss, R. M. McPherson, Gordon Dickson, Dr. R. J. Mumford, C. E. Nourse Co.

### BAND IN ATTENDANCE

Rink open 7.30 p. m. Admission, Skaters in Costume, 25c; Spectators, 35c. Only Skaters in Costume allowed on Ice until after Judging.

## Born

BECHILL—On Tuesday, February 20, 1923, to Mr. and Mrs. Harold L. Bechill, Glencoe, a daughter.

## TOWN AND VICINITY

The price of sugar is creeping up. February is a short month, anyway. During the past few days the rural mail carriers have been earning their pay—and then some.

Mrs. Nell McKellar had the misfortune to fall and break her left wrist one evening last week.

Middlesex county has the second largest provincial highway mileage in the province—a fraction over 101 miles.

It has been quite popular to walk in the centre of the King's highway lately, rather than on the slippery sidewalks.

In Middlesex county last year there were 68,916 acres of fall wheat, producing 1,219,813 bushels, or 17.7 bushels per acre.

George Grant, C.P.R. telegraph operator, who has been relieving at London, has secured a permanent position at Toronto.

A deputization from Tavistock visited Glencoe yesterday to inspect the rink with a view to building a similar one at Tavistock.

It was shown by H. D. Johnston's last report to the county council that the average cost of education per room in West Middlesex last year was \$1,300.

Miss Evelyn McLachlan, Charles Cumming and Joe Grant attended the Young People's Rally held in King Street Presbyterian church, London, on Tuesday.

Little Donald Snigrove, three-year-old son of Mr. and Mrs. George Snigrove, fell on the sidewalk Saturday afternoon, breaking his left leg just above the ankle.

A children's story hour will be a feature at the Glencoe public library on Saturday afternoons from 2 to 3 o'clock for children ranging in age from 5 to 10 years.

We wish again to remind our readers that items for publication sent in by mail without the name of the writer signed as a matter of good faith to us cannot be published.

Miss Helen Parrall, of Newbury, pupil of Miss Pearl George, was successful in passing with honours grade 2 theory examination held at the London Conservatory of Music recently.

With both legs severed, the dead body of David Hill, 40, Indian from Michigan reservation, was found alongside the Pere Marquette railway tracks, about three miles south of Sarnia.

Glencoe Oddfellows had their annual social gathering on Tuesday evening in their lodge room. Military eulchre occupied the time until lunch was served, after which there was dancing.

The Epworth League of the Appleton Methodist church visited the Glencoe League Monday evening and gave the program. Afterwards games were indulged in, and refreshments were served by the local society.

Awards for memorization, repetition of the Shorter Catechism and perfect attendance at Sunday School for the year 1922 will be presented at the morning service in the Glencoe Presbyterian church next Sunday.

The friends of Miss Annie Aldred, New York City daughter of Mr. and Mrs. Fred Aldred, of Glencoe, will be pleased to learn that she has so far recovered from her illness as to be able to leave the hospital and return to the Studio Club.

Chas. W. Frederick, a former resident of Glencoe, has been elected mayor of Peace River, Alberta. Mr. Frederick is postmaster at Peace River and editor of the Peace River Record. He learned the printing business in Glencoe and is a nephew of the editor of the Transcript.

Clarence Ford, son of W. J. Ford, of the Glencoe bakery, while petting a strange dog on the street Friday afternoon, was severely bitten on the cheek. Later Police Constable Henry shot the dog. Dr. McIntyre dressed the boy's wounds. It is believed that the little lad will not suffer any serious effects from the bite.

A picked-up team of Glencoe hockey players went to St. Thomas one day last week and played an exhibition game with the intermediate team of that city. The score was 19 to 3 in favor of St. Thomas. Glencoe line-up—Leitch, goal; Humphries and Weaver, defense; McPherson, centre; W. Quick and C. Davenport, wings; R. Quick and Smith, subs.

The Kent Motor Club has received an intimation from the department of highways that the provincial road through this section of Canada will also be known as the Roosevelt highway. The local motor club officials are pleased with the decision of the department, feeling that this move will induce many American tourists to come through Canada from Detroit to Buffalo.

The annual financial report of the Glencoe Presbyterian church has been printed and is ready for distribution among the congregation. The report shows all branches of the church and Sunday school work to be in a very healthy and prosperous condition. The total amount raised for all purposes in 1922 was \$7,452.07, and the debt of the congregation was reduced by \$718.24.

Crisman Y.P.S. visited the Glencoe Presbyterian Guild on Monday evening and presented a very attractive program. Gordon Jamieson, president, introduced the following numbers:—Vocal solo, Mrs. Bruce Mc-

## THE HORRORS OF INDIGESTION

Relieved by "Fruit-a-tives" the Fruit Medicine

Indigestion, Weak Digestion or partial digestion of food, is one of the most serious of present-day complaints—because it is responsible for many serious troubles.

Those who suffer with Indigestion, almost invariably are troubled with Rheumatism, Pimples of the Face, Sleeplessness and excessive Nervousness.

"Fruit-a-tives" will always relieve Indigestion because these tablets strengthen the stomach muscles, increase the flow of the digestive juices and correct Constipation, which usually accompanies Indigestion.

Box a box, 6 for \$2.50, trial size 50c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

Phonon; vocal duets, Mrs. Carroll and Miss Burrows; paper on "Conservation of Talents," Miss Erskine; address, Rev. Mr. Carr. A few contests were much enjoyed. The social committee of the Glencoe Guild served refreshments.

The death is recorded on February 19th of Mrs. Mary Vernon, wife of the late Richard Vernon, formerly of Glencoe. She passed away at the residence of her daughter, Mrs. John Burridge, Windsor, where she had made her home for the past eight years. She is survived by three children, viz.:—Mrs. John Burridge, Miss Annie Vernon and Joseph Vernon, all of Windsor. There are also six grandchildren and five great grandchildren. The funeral was held on Wednesday, February 21st, with burial at Windsor Grove cemetery.

## SPECIAL NOTICES

Heavy bleached cotton 21c, and huck towels at 19c, at Mayhew's.

Call at Scott's shoe store and get quality shoes and rubbers at a moderate price for cash.

Buy overalls at Lamont's this week for a few days longer at the old price for a few days longer.

A meeting of the literary society in G.S. No. 5, Ekfrid, will be held on Friday evening of this week.

Don't forget the play "The Time of His Life" at Pratt's Siding school house on Friday evening, March 2nd.

Upholstering, fine cabinet work, carpenter work, furniture finishing. J. D. Brown, first door north of Transcript office; phone 63.

The biggest bargains ever offered in men's pants at Lamont's clearance sale this week. Call up to 45 for \$2.25. A big stock to select from. Don't miss this sale.

Women's new spring black kid slippers at \$3.55, at Mayhew's.

"The Time of His Life" will be presented by the Klumartin dramatic club in Pratt's Siding school house, Friday evening, March 2nd, under the auspices of Pratt's Siding Book Club. Admission—adults 50c, children 15c.

We have secured the services of George Oglesby, a blacksmith, of St. Marys, who is now with us, and are prepared to handle all kinds of horseshoeing, repairing, woodwork, signs on short notice.—Don H. Love, the Village Blacksmith, Glencoe.

Men's new spring suits at \$14.75, and boys' suits at \$5.65, at Mayhew's.

## AUCTION SALES

Clearing sale of farm stock and implements on Thursday, March 8. See list in next week's Transcript.—G. W. Sutton, proprietor.

On south part of gore lot 34, con. 11, Euphemia, on Wednesday, Feb. 23, at 1 o'clock—Red cow 5 years old due March 23, red cow due May 28, spotted cow due June 18 yearling steer, 2 aged mares, 75 hens, 175 bush. oats, 20 bush. wheat, 7 tons hay, 50 cedar posts, Maxwell binder, Maxwell mower, Noxon drill, Noxon disk harrow, dump rake, wagon, sleigh, faning mill, buggy, cutter, plow, straight-tooth harrow, hay rack, hog rack, wagon box, extension ladder, Sarnia fence stretcher, corn sheller, 2,000-lb. scales, corn scuffer, 100 feet of lumber, cook stove (wood), coal heater, clover seed, timothy seed, grindstone, sugar kettle, washing machine, cream separator, barrel churn, corn basket, 2 crosscut saws, hand saw, shotgun, wheatearrow, set double harness, set single harness, 3 horse collars, string of bells, grain bags, some chop, soft wire, 2 horse blankets, robe, leaf table, extension table, sideboard, grain scoop, forks, shovels, and all the household effects. Also the following farms will be offered for sale at the above time and place:

Parcel No. 1.—Comprising 35 acres, more or less, and being gore lot No. 34 in the 11th concession of the township of Euphemia. On this farm are a log house, frame barn and drive shed, and about two acres of bush.

Parcel No. 2.—Comprising 16 acres, more or less, and being part of the south half of gore lot No. 30 in the 11th concession of said township.

The above parcels of land will be offered for sale subject to a reserved bid. Terms and conditions will be made known at time of offering.

Thomas Hall, proprietor; H. D. McNaughton, auctioneer.

County's share, 20 per cent., 210,227.01

Paid by prov., \$ 840,908.04

Let us see how this works out on the average 100-acre farm:—

Assuming that the average assessed value is \$5,000:

1 mill on county assessment raises \$50,000.

5 1/2 mills would raise \$275,000; \$5,000 assessment at 5 1/2 mills—\$27.50 per 100 acres up to the end of 1922.

If extended over 20 years would mean \$1.38 per 100 acres or for every \$5,000 assessment.

Cause of Asthma. No one can say with certainty exactly what causes the establishing of asthmatic conditions. Dust from the street, from flowers, from grain and various other irritants may set up a trouble impossible to eradicate except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.

## CASTORIA

Always bears the Signature of

When dad finishes condemning his daughter's rouge he turns to the mirror and combs his hair over his bald spot.

## HIGHWAYS IN MIDDLESEX

Statement Shows County Expenditure Has Increased Very Much in Past Five or Six Years

Asked by a resident of the county for some figures on road expenditure in Middlesex, J. G. Leithbridge, representing the West Riding in the Legislature, gives the following statement:

I have been looking a little into county finances re road building, and find the county expenditure on highways has increased very much in the past five or six years. This, no doubt, along with our township expenditure, has very much to do with the great increase in our taxes, and is a matter entirely under the county's and townships' control, the government simply handing over their share, which amounts on county and county provincial roads to about 47 per cent of \$564,988.00.

Middlesex has spent the following amounts on the county system since 1906:

COUNTY EXPENDITURE Gov. grant

1906 to 1917, \$567,662.50 \$189,336.39

1918 93,438.17 37,430.39

1919 176,026.47 72,663.51

1920 191,986.35 72,744.80

1921 218,599.01 92,746.13

\$1,237,712.50 \$464,926.82

I am not in possession of the exact figures for 1922, but as near as I can ascertain there was spent on county roads \$172,259.41, provincial county \$15,724.07, suburban area \$29,915.23, making a total of \$217,878.71, of which the government grant would be \$89,771.20.

If this last is correct, the total expenditure from 1906 is \$1,455,591.20, of which the government has paid the \$564,988.00.

Let us now look at the provincial highway expenditure in the county of Middlesex for 1920, 1921 and 1922, or all the expenditure on the provincial system in the county since it was taken over by the province:—

1920—Total spent, \$77,407.03; county's share, 20 per cent., \$15,481.40.

\$1,051,135.05

County's share, 20 per cent., 210,227.01

Paid by prov., \$ 840,908.04

Let us see how this works out on the average 100-acre farm:—

Assuming that the average assessed value is \$5,000:

1 mill on county assessment raises \$50,000.

5 1/2 mills would raise \$275,000; \$5,000 assessment at 5 1/2 mills—\$27.50 per 100 acres up to the end of 1922.

If extended over 20 years would mean \$1.38 per 100 acres or for every \$5,000 assessment.

Cause of Asthma. No one can say with certainty exactly what causes the establishing of asthmatic conditions. Dust from the street, from flowers, from grain and various other irritants may set up a trouble impossible to eradicate except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.

### CHAPTER XXII.—(Cont'd.)

I took the letter and read:  
"I have had many letters to write since my service began as a nurse in the war, but never have I approached the task with such mixed emotions. The pain I must give you I would gladly bear myself if I could; but it is not all pain; underneath it, running through it in some way I cannot explain, is a note so much deeper than pain that it must be joy."

"You will already have been advised that David Eden was among those who fell at Courcellette. It is true to say that you have the sympathy of a grateful nation. How grateful the nation really is we shall know by its treatment of the heroes who survive the war, and of the dependents of those who have crossed over. But nothing can rob you of the knowledge that he played a man's part. Nothing can deprive you from that universal fellowship of sympathy which is springing up wherever manhood is valued at its worth."

"A raw Order had been born into the world—the Order of Suffering. Not that it is now, either; it has been with us since the first mother went into the shadow for her first child; but always suffering has been incidental; a matter of the individual; a thing to be escaped if possible. But now it is universal, a thing not to be escaped, but to be accepted, readily, bravely, even gladly. And all who so accept it enter into the new Order and wear its insignia, which is usefulness and sympathy and service. And in that Order you shall not be least, measured by either your sacrifice or the spirit in which you accept it."

"But you are yearning for his last word; for some voice that will seem to you now almost a voice out of the grave, and I am happy to be able to bring you that word. It was something more than chance that guided me that night, as it is every night."

"We were well behind the line of actual fighting, but still in the danger zone of artillery fire. Night had settled in; all was darkness save for occasional distant lights. I had become detached from my party in moving to another station; lost, if you like, yet not lost; never have I gone so directly to so great a destination. While trying to get my location I became aware of a presence; it will sound strange to you, but I became intensely aware of your presence. Of course I knew it could not be you, in the flesh, but you seemed to be, nevertheless. I moved as though led by an invisible hand, and presently I found a bit of shattered wall. In the gloom I could just discern the form of a man lying in the shelter of the wall—if you could call it shelter—it rose scarce a foot above the ground."

"I knelt beside him and turned my torch on to his face. It was pale even through the brown skin; the eyes were closed; the hair was wet and plastered on the forehead; there were smears of blood in it and on his cheeks. As my light fell on his lips they framed a smile."

"Reenie," he said, "it was good of you to come. I knew you would come." "I am here, Dave," I answered, and I think you will forgive the impersonation. "Now let me find out where you are hurt, and we'll fix you up, and get you moved presently."

"He opened his eyes and looked at me with the strange look of a man whose thread of consciousness is half unstrung. 'Oh, it's you, Edith,' he said, when he had taken me in. 'Funny. I thought it was Irene. I must have been dreaming.'"

"I questioned him again about his wound, and began feeling his hair. 'It's not there,' he said. 'Guess I got it all over my hands. They got me this time. Shrapnel, in the body. Don't waste time on me. Some other fellow may have a chance.'"

"I found, with a little examination, that the case was as bad as he supposed. Fortunately, the wound had induced a local paralysis, and he was not suffering to any great degree. I placed my hand in his and felt his grip tighten on it."

"I'm going to stay till it's over, Dave. We'll see it out together."

"That's decent," he answered, and then was still for quite a time. "I've often wondered what was on the other side," he said at length. "I shall know presently."

"You are not afraid?" I whispered. "No. Only sort of—curious. And—revere. I guess it's reverent. . . . You know I haven't been much on religion. Never seemed to get the formula. What is the formula? I mean the key—the thing that gives it all in one word?"

"In one word—sacrifice."

"I walked out of church once because of some doctrine about sacrifice," he continued. "I couldn't get it. . . . And yet—there may be something in it. It's strange here, Edith. War is sacrifice. Sacrifice for other people. It's not all on the surface. There's something deeper than we know."

"He that loathes his life shall find it," I quoted.

"He did not answer, but I could see his lips smiling again. His breath was more labored. A few drops of rain fell and some of them splattered on his face."

"Presently he chuckled. It was an eerie sensation, out on that broad plain of death, alone by the side of this man who was already far into the shadow—to hear him chuckle."

"That splash of water—you remember—it made me think of the time we pulled the old car into the stream, and the harness broke, or something, and I had to carry you. You remember that, Reenie? I could only say 'Yes,' and press his hand. His mind was back on the old, old trails."

"He became suddenly sober. 'And when Brownie was killed,' he went on, 'I said it was the innocent thing that got caught. Perhaps I was right. But perhaps it's best to get caught. Not for the getting caught, but for the compensations. It's the innocent men that are getting killed. And perhaps it's best. Perhaps there are compensations worth while.'"

"His voice was weaker, and I had to lean close to catch his words. 'I'm going—out,' he said. 'Kiss me, Reenie.'"

"And then I kissed him—for you. 'Suddenly he sat up. 'The mountains!' he exclaimed, and his voice was shrill with the pride of his old hills. 'See, the moonlight—on the mountains!'"

"Then his strength, which seemed to have gathered itself for this one last vision of the place of his boyhood, gave way, and he fell back. And he did not speak any more."

"And what can I add? Dear, it is no defeat. It is promise. It is hope. 'Some day we shall know. But until then we shall go on. It is woman's bit to carry on. But not in despondency; not in bitterness; not in anger or despair. He didn't go out that way. He was reverent—and a little curious, and he went out with a smile. And we shall go on, and carry his smile and his confidence through the valley of our sacrifice. What am I doing, speaking of our sacrifice?"

"I salute you, sister in the Order of Suffering—and of hope."

"Edith Duncan."

I handed the letter back to her, and for a time I had no words. "Won't you let me tell the story?" I said at length.

"The world is full of sorrow, and it needs voices to give that sorrow words, and perhaps turn it into hope—as this letter does."

She hesitated, and I realized then how much I had asked. "It is the story of my life—my soul," she said. "Yet, if it would help—"

"Without real names of places or people."

And so, in that little whitewashed home, where the brown hills rise around and the placid mountains look down from the distance, and a tongue of spruce trees beyond the stream stands sentinel against the open prairie, she is carrying on, not in despondency and bitterness, but in service and in hope. And so her sisters, all this world over, must carry on, until their sweetness and their sacrifice shall fill up and flood over all the valleys of hate. And if you should win the confidence of young Threepenny, he may stand for you and say, with his voice filled with the honor and the glory and the pride of it, "My father was a soldier. He was killed at Courcellette."

(The End.)

A Ship's Knees.

Did you know a wooden ship has knees? American Forestry tells us that a ship-knee is a right-angled wooden brace used to give strength to the framing, and is fashioned from the natural crook of a tree formed by a heavy, shallow, horizontal root and a section of the trunk. Knees when finished are sometimes as much as six or seven feet high. The timber preferred is second-growth Douglas fir, found growing in shallow soil so that the roots turn off at right angles to the trunk and thus give the proper shape.

Dye Old Curtains, Sweater or Skirt in Diamond Dyes

"Diamond Dyes" add years of wear to worn, faded skirts, waists, coats, stockings, sweaters, coverings, hangings, draperies, everything. Every package contains directions so simple any woman can put new, rich, fadeless colors into her worn garments or draperies even if she has never dyed before. Just buy Diamond Dyes—no other kind—then your material will come out right, because Diamond Dyes are guaranteed not to streak, spot, fade, or ruin. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.

Betrayed by Pores.

Pores are more important than finger prints to the crime investigator. The science of "poroscopy" is now making rapid headway. The new science, discovered by Dr. Edmond Locard in 1912, has taken eleven years to develop to perfection. The shape of the pores, not easily recognizable in the case of fingerprints obtained by printers' ink, on account of the roughness of these records, is found to be very varied when colorless prints or those revealed by a method employed by Dr. Locard are examined.

KEEP WARM Small Square Oil Burner

It is heating 6 and 7-roomed homes today. It will heat yours. Simple to operate. Can be installed in a hot air furnace in two hours, by yourself. Fuel oil used. Excellent for the Summer home, where a quick temporary fire is desired in a Cold or Wood Burner. Shipped complete, with full instructions, with Tank, Piping and Burner. Available in Canada or U.S.A., on receipt of \$35, payable to SMALL SQUARE OIL BURNER, P.O. Box 515, Station F, Toronto, Ont.

### Explorer's Premonition.

A strange story is told by Mr. Howard Carter, who recently won fame by discovering, with Lord Carnarvon, the tomb of King Tutankhamen, who died about three thousand five hundred years ago. He says he owes his success to a curious premonition.

For more than thirty years Mr. Carter has been searching for relics such as those he has now found. He met with failure until the idea came to him that he would find what he wanted in a certain spot, and he acted upon this impression with remarkable results.

He felt certain that the tomb for which he was searching was under one piece of ground. Superstitious Egyptians living near the tomb firmly believe that it was the ghost of the dead king that led Mr. Carter to the spot.

Another strange story of this romantic find concerns Mr. Carter's cat. The day the tomb was opened he found a gold crown in the form of a serpent. That night, as Mr. Carter was at dinner, a disturbance was heard. Going outside, he found a serpent in the cat's cage. The bird was already dead, and Mr. Carter soon killed the reptile.

The natives interpreted this story in just the opposite way to the first. They said it was a sign of the king's anger at the breaking open of his tomb.

### Tree-Repairing.

"Many tree-owners do not realize the importance of regularly inspecting their trees. Immediate attention to new injuries, or to any defects that may appear in repair work already done, will reduce materially the time, labor, and cost that will be required to make these repairs later. Too often the owner believes that, having paid the repair bills, his tree cares are over for all time. Unfortunately, this is seldom the case, for tree repairs are something like dental repairs. In both, frequent inspection and prompt attention will do much to prevent extensive repairs and large bills."

Tree-Repairing, Bulletin No. 73, Forestry Branch, Ottawa.

### An Island of Churches.

One of the most remarkable islands in the world is Patmos, where St. John wrote the Book of Revelation. It was always the destination of thousands of pilgrims, and in the old days the rich man wished to expiate his sins usually did so by building a church. The result is that this tiny island contains the ruins of no fewer than 300 churches.

The entire population numbers about 4,000, and it is considerably larger now than it was when most of the buildings were founded. As there are only 700 houses on the island there is almost a church for each two families.

The people are Greeks, whose only occupation is sponge-fishing, though there used at one time to be a trade in the manufacture of stockings.

Curiously enough, though the island lies quite close to Turkey, there has never at any time been a mosque upon it. Possibly the Mohammedans could not find room for one.

Try these Bakers' Raisin Pies—save baking at home

There are luscious raisin pies just around the corner, at your grocer's or a bake shop.

Baked to a turn—a flaky crust filled with tender, tempting raisins, the rich juice forming a delicious sauce.

Once try these pies that master bakers bake fresh daily in your city and you'll never take the trouble afterwards to make raisin pies at home.

Get a pie now and let your men folks taste it. Made with tender, thin-skinned, meaty, seeded Sun-Maid Raisins.

Raisins furnish 1560 calories of energizing nutriment per pound in practically predigested form.

Also a fine content of food-iron—good food for the blood. Use raisins frequently, therefore, which are both good and good for you, in puddings, cakes, cookies, etc.

You may be offered other brands that you know less well than Sun-Maid, but the kind you want is the kind you know is good. Insist, therefore, on Sun-Maid brand. They cost no more than ordinary raisins.

Mail coupon for free book of tested Sun-Maid recipes. Learn what you can do with luscious raisins.

## WILD ATLANTIC SEAS SWEEP THE DECKS OF GIANT OCEAN LINERS

New York, Feb. 18.—Swept and battered by huge waves encountered in a terrific storm continuing since Wednesday, four big liners limped into port today with bulwarks sheathed in ice. Crushed lifeboats and bent and twisted rigging gave mute evidence of their desperate encounters with the elements.

Meanwhile, the schooner *Santino*, sank off Nantucket Lightship. Her crew, which had abandoned her with decks awash, were rescued. Other reports came by radio telling of vessels damaged in the storm and which will be delayed in reaching port.

With fifty feet of her port bulwarks on the forecastle swept away, the giant Canadian liner *Berengaria*, docked late today, a full day behind schedule. Her decks were ice covered. Captain Irwin, telling the story of his battle with wind and sea since Wednesday, said the *Berengaria* had been fighting her way through huge seas, driven by a heavy gale. Snow, rain and sleet combined with the big waves, held the ship back, but the roughest weather was encountered yesterday.

Obtaining the danger, passengers were dancing and singing in the big ball room when suddenly a huge counter swept away the bulwarks. The *Berengaria* trembled and was brought almost to a standstill. The entire crew was ordered out to clear away the

wreckage, cutting away with chisels the torn and twisted steel, while they were tied to life lines. Waves were continually breaking over the ship.

Several hours later another big sea swept the ship and did more damage. The crew again was placed in jeopardy, while clearing away the debris. The big liners was swung off her course to prevent the sailors from being swept overboard, and finally the decks were cleared, and the *Berengaria* continued on her course, her plates dented and battered by the combers.

The liner *France* of the French line also came into port today, damaged by the storm, and several hours late, while the *Lapland* and the *Roussillon* docked, showing the effects of the terrific gale. The Shipping Board liner *America* arrived at Ambrose Light tonight, nearly two days late, because of the storm and will not dock until tomorrow.

The coastguard cutter *Seneca* today picked up the British auxiliary schooner *Dorin*, abandoned by its crew several days ago, after it had been damaged by the storm.

The *Berengaria* brought 494 first class passengers, including Col. Sir Matthew Milson, of London, mining and film magnate, who is on his way to Canada to inspect properties in the Porcupine district.

President Cosgrave of the Irish Free State.

He announces that he is willing to leave the settlement of Ireland's future to the vote of the Irish, to decide whether or not the present government will be replaced by a republic. De Valera declares he will accept the decision.

### FIRE IN N.Y. ASYLUM BLOTS OUT 25 LIVES

Homicidal Ward Destroyed—Three of Victims Were Male Nurses.

New York, Feb. 18.—Fire today swept a unit of the Manhattan State Asylum for the Insane on Ward's Island, killing 25 patients and seven attendants, and driving nearly 1,800 insane out of their cells into the stinging cold. Twenty-two of the dead were insane. Three were male nurses.

Most of the dead were trapped in their cells, for it was the homicidal ward that was destroyed.

Hundreds were carried to safety while terror reigned among the rest of the 7,000 insane of the islands, situated in the East River.

The fire is supposed to have been a direct result of a blast which set off Saturday night by helpers in Hell Gate, a part of the East River immediately opposite the hospital. The blast rocked the asylum buildings, and is believed to have caused a short circuit in the wiring in the attic.

Among the five bodies which had been identified to-night were those of three war veterans who had been suffering from shell shock. Attempt to identify the other was abandoned to-night. Most of the remaining bodies were badly charred, and it was believed many of them never would be positively identified.

### Britain Putting Military and Naval Affairs in Order

A despatch from London says:—Further evidence of the general tightening up of the British military, naval and air organizations, which has been going on quietly for some months, was revealed here on Thursday by a new order of the army council to the territorial anti-aircraft units of the air defence brigades. It was officially announced that members of these brigades would be recruited to serve during national emergencies, when called upon, even though no order calling out the territorial army for actual military service is in force at this time.

### France Prepared for Prolonged Occupation

A despatch from Paris says:—Interviewed on Thursday at Essen, General Depoutie was asked how long the French would stay in the Ruhr. He replied: "If a thousand years from now Germany has not fulfilled her obligations, a thousand years from now we shall be here. The General said that no negotiations could be begun until Germany avowed frankly that she had lost the fight.

### CANADIAN GOODS AT BRITISH EXHIBITION

Many Lines of Manufactures to be Shown for First Time at London Fair.

A despatch from London says:—That large section of the Canadian public which believes that Canadian exports to Britain are confined to bulk foodstuffs and raw materials may be surprised to read that there will be exhibited at the British Industries Fair, which opens here next week, the following lines of manufactured goods from the Dominion:

Canned milk, paper, wood, fibre, carvings and mouldings, boots and shoes, breakfast foods, whiskey, soap, garments, electric cells, toilet preparations, wallpaper, etc.

There will be a special Canadian section at the Fair for the first time in its history. A recent cable, in which the correspondent recorded the growth of Canadian export trade to this country in such unexpected lines as sugar, sole leather, cobalt oxides, wire nails, etc., has been criticized as over optimistic. The Dominion trade statistics now to hand confirm the statements in every particular. During the last six or seven months there has been a marked revival in Canadian trade with this country.

### SUPERIOR VARIETY OF WHEAT TESTED

University of Alberta Proves That New Strain Surpasses Even Marquis Yield.

A despatch from Edmonton says:—Three-year wheat tests, carried on by the Department of Field Husbandry, of the University of Alberta, have evidently resulted in the discovery of a high producer.

The new strain can even exceed the Marquis yield by as much as nine bushels an acre. It is quite evidently a superior variety to Marquis, judging by the yield reported for the last three years.

Professor Cutler states the test in 1920 gave 49 bushels to the acre for Marquis and 59 for Marquis III, which is the new variety. In 1921 the yield was 41 and 50 bushels respectively, while in 1922 it was 26 and 36, showing that in each year the new strain far exceeded the yield of the well-known Marquis wheat.

### Northern Ontario Development

The Natural Resources Intelligence Branch of the Department of the Interior at Ottawa, says:

Many people in Ontario fail to appreciate the development work which is being carried out in the more distant portions of the province.

The Thunder Bay District, north of Lake Superior, a water-power project has been carried out for the supply of power to Port William and Port Arthur. The Ontario Hydro Electric Commission has developed the Cameron Falls on Nipigon river, from which a potential power supply of 75,000 horse-power is available, 25,000 horse-power being at present in use. The development has a head of 78 feet. There are three other power sites on the Nipigon river, Virgin Falls, Pine Portage and Alexander Landing. As the demand for power increases these sites may be developed and interconnected with the original project at Cameron Falls. The cost of the latter development is given as \$9,165,516.

WE'RE GOING A-MILKING, GIRL, THEY SAID  
—From the News and Mercury, Birmingham, England

### The Girl That Was Kept Home From School.

BY W. M. MORRIS.

In an address delivered at the Annual Convention of the National Educational Association in Boston last July, reference is made to a little girl who fell behind her class in arithmetic when she reached the sixth grade or senior third class in the elementary school. She was a pupil of average intelligence and her failure in arithmetic so aroused the curiosity of her teacher that the case was made the subject of an investigation.

It turned out that her mistakes in arithmetic practically always came in multiplication, in the 7, 8 and 9 tables. Upon learning this the teacher immediately took steps to correct the weakness, but the child's school career was also traced back to the time when those tables were learned by the rest of her class and according to the register the child was out of school during that time. The parents had obtained a permit from the Attendance Officer allowing her to remain at home for a few weeks. She was promoted with the rest of the class and left with that weakness buried under the accumulation of the new things studied. The results of this absence from school became apparent to pupil, teacher and parents a few years later. How fortunate the child was to have a teacher who took the trouble to investigate.

There is an investment of \$70,000,000 in the sites, buildings and furniture of the elementary schools of Ontario. Add to this another \$30,000,000 spent annually on the maintenance and upkeep of these schools. Of course the greater amount of this investment and expenditure is in the towns and cities. The city of Toronto, for instance, has \$13,389,927 invested in the public elementary schools and spends annually \$6,260,612 on their maintenance. The investment in separate schools in Toronto is \$2,863,995 and the annual expenditure on the same \$514,626. The cities of Ontario have made great progress in the last decade in providing schools. These free elementary schools have been established and are maintained by levying a school tax on the property of all the ratepayers. In the days of Dr. Ryerson, the founder of our educational system, when free schools were first provided, men said, "You may as well take my oxen to plow my neighbor's field as take my taxes to educate his children." I suppose there are some people yet who think that way, nevertheless the non-resident ratepayer and the childless ratepayer are both taxed to provide free elementary education for all the children. It is unjust, therefore, to allow indifferent mercenary parents to defeat the end in view by keeping their children home from school without good and sufficient reasons. It is very gratifying to learn that the average attendance for the province has reached 80 per cent. of enrolment. This is 6 per cent. higher than formerly and is, no doubt, owing to the valuable services of School Attendance Officers. We may not hope for 100 per cent. attendance, although Japan can boast of 97½ per cent. and yet if the average is 10 per cent. less than it might be, the province is losing 10 per cent. of the interest on the \$70,000,000 capital investment and 10 per cent. of the annual \$30,000,000 expenditure or approximately \$6,000,000 a year. Most industrial concerns, in face of a situation like this, would immediately engage an efficiency expert. There are fifteen thousand employees in the educational system of Ontario and an effort should be made by all trustees, ratepayers and parents to secure the highest possible average attendance that the most dividends in intelligence and character may be derived from the capital invested.

W. M. Morris  
Ontario School Trustees' and  
Ratepayers' Association.

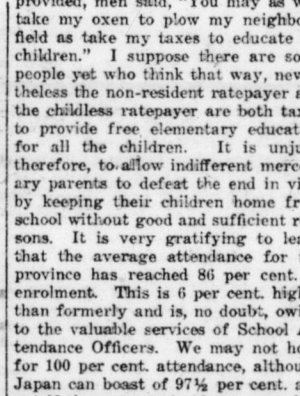

It goes to show how some parents may keep their children home from school for a day, a week, or a month without thinking of the tremendous loss to their own children and the rest of the class. Go into any school and you will almost invariably find some pupils dragging along, keeping the rest of the class back and making it necessary for the teacher to repeat lessons taught the previous week. Many parents think that attending school is similar to doing any other piece of work. They harbor the notion that a boy or girl who is absent for a day or two may start in again just where work was left off. They overlook the fact that the class has moved on in the meantime and that the absentees are being promoted with a handicap or compelled to spend another term in the same grade.

We do not appreciate the seriousness of the gap created in a pupil's school course by short absences of a day one week, a few days another week and then a few weeks at a time. For one pupil who is backward in spite of regular attendance, there are hundreds who are lagging behind and keeping the rest of the class back.

cause of absenteeism. The greater number of failures to qualify for promotion from grade to grade is directly traceable to irregular attendance. When a pupil falls behind the rest of the class, the extra effort to master the subject matter he has missed, and at the same time the new material based on the facts he has not yet acquired, discourages him and he gets a distaste for school and school tasks. The only way for a child to succeed at school is to get every lesson that is taught and master each day's work as it comes.

There is an investment of \$70,000,000 in the sites, buildings and furniture of the elementary schools of Ontario. Add to this another \$30,000,000 spent annually on the maintenance and upkeep of these schools. Of course the greater amount of this investment and expenditure is in the towns and cities. The city of Toronto, for instance, has \$13,389,927 invested in the public elementary schools and spends annually \$6,260,612 on their maintenance. The investment in separate schools in Toronto is \$2,863,995 and the annual expenditure on the same \$514,626. The cities of Ontario have made great progress in the last decade in providing schools. These free elementary schools have been established and are maintained by levying a school tax on the property of all the ratepayers. In the days of Dr. Ryerson, the founder of our educational system, when free schools were first provided, men said, "You may as well take my oxen to plow my neighbor's field as take my taxes to educate his children." I suppose there are some people yet who think that way, nevertheless the non-resident ratepayer and the childless ratepayer are both taxed to provide free elementary education for all the children. It is unjust, therefore, to allow indifferent mercenary parents to defeat the end in view by keeping their children home from school without good and sufficient reasons. It is very gratifying to learn that the average attendance for the province has reached 80 per cent. of enrolment. This is 6 per cent. higher than formerly and is, no doubt, owing to the valuable services of School Attendance Officers. We may not hope for 100 per cent. attendance, although Japan can boast of 97½ per cent. and yet if the average is 10 per cent. less than it might be, the province is losing 10 per cent. of the interest on the \$70,000,000 capital investment and 10 per cent. of the annual \$30,000,000 expenditure or approximately \$6,000,000 a year. Most industrial concerns, in face of a situation like this, would immediately engage an efficiency expert. There are fifteen thousand employees in the educational system of Ontario and an effort should be made by all trustees, ratepayers and parents to secure the highest possible average attendance that the most dividends in intelligence and character may be derived from the capital invested.

There are fifteen thousand employees in the educational system of Ontario and an effort should be made by all trustees, ratepayers and parents to secure the highest possible average attendance that the most dividends in intelligence and character may be derived from the capital invested.

Miss Canada

Miss Winifred Blair, a charming young woman from St. John, has been elected Queen of the Provinces, as "Miss Canada" at Montreal's winter festival. She is nineteen years of age, tall, dark and graceful, with lustrous eyes, which are her greatest beauty. She is an expert dancer and proficient in most outdoor sports, particularly basketball. She is the daughter of a Canadian soldier, who died on service overseas.

### ONLY 12,230 TONS OF COAL SENT TO FRANCE

Food Scarcity Threatened While Prices Constantly on Increase.

A despatch from Essen says:—The coal trucks that the French have taken out of the Ruhr from the occupation to midnight of Feb. 12 is 1,223, according to reliable sources. Each truck carries ten tons of coal. These do not include the trucks which were in the Rhineland on the way to France when the invasion began nor do they include a small amount of coal sent by river and canal.

To create the impression that a continuous supply of coal trucks have been going to France the French have been sending loaded trucks back to repeat the trip. The methodical Germans have been checking pretty carefully, however, and the ruse did not work on them.

So far as can be learned seven men and one little girl have been killed so far in the Ruhr "war." German and French counts vary so widely it is impossible to fix individual responsibility for the incidents.

A despatch from Düsseldorf says:—The threatened food scarcity and constantly increasing prices of necessities are causing anxiety to both French and German officials in the Ruhr, due to disrupted transportation. Meat, bread, butter, eggs and other daily requirements have doubled in price within a week in various districts, particularly the industrial centres, which are without railway service. Fresh milk can hardly be procured.

The Germans contend the speculators, taking advantage of the helpless populations, are as much responsible for the mounting prices as the occupation is for the abnormal conditions. The newspapers are urging the authorities to take drastic measures to halt the soaring prices and punish the speculators.

## Weekly Market Report

Toronto.  
Manitoba wheat—No. 1 Northern, \$1.28½.  
Manitoba oats—Nominal.  
Manitoba barley—Nominal.  
All the above, track, Bay ports.  
American corn—No. 3 yellow, 91c; No. 2, 89½c.  
Barley—Malting, 59 to 61c, according to freight outside.  
Buckwheat—No. 2, 78 to 80c.  
Rye—No. 2, 84 to 86c.  
Peas—No. 2, \$1.46 to \$1.50.  
Milled—Del. Montreal freight, bags included: Bran, per ton, \$23; shorts, per ton, \$28; middlings, \$28.50; good feed flour, \$2.  
Ontario wheat—No. 2 white, \$1.14 to \$1.16, according to freight outside.  
Ontario No. 2 white oats—48 to 50c.  
Ontario corn—Nominal.  
Ontario flour—Ninety per cent. pat., in jute bags, Montreal, prompt shipment, \$5.10 to \$5.20; Toronto basis, \$5.05 to \$5.15; bulk, seaboard, \$4.95 to \$5.  
Manitoba flour—1st pat., in cotton sacks, \$7.10 per bbl.; 2nd pat., \$6.60.  
Hay—Extra No. 2, per ton, track, Toronto, \$14; mixed, \$11; clover, \$8 to \$12.  
Straw—Car lots, per ton, track, Toronto, \$9.50.  
Butter—Finest pasteurized creamery: solids, 42 to 43c; prints, 43 to 44c; ordinary creamery, solids, 40 to 41c; prints, 41 to 42c; dairy, 29c; cooking, 15 to 18c.  
Eggs—Fresh gathered, 36 to 38c; held, 26 to 29c.  
Live poultry—Chickens, milk-fed, over 5 lbs., 22c; do, 4 to 5 lbs., 18c; do, over 5 lbs., 18 to 20c; do, 2 to 4 lbs., 15 to 18c; hens, over 5 lbs., 22c; do, 4 to 5 lbs., 23c; do, 3 to 4 lbs., 15 to 18c; roosters, 12 to 15c; ducklings, over 5 lbs., 25 to 30c; do, 4 to 5 lbs., 22 to 25c; turkeys, young, 10 lbs. and up, 25c; do, old, 15c.  
Dressed poultry—Chickens, milk-fed, over 5 lbs., 28c; do, 4 to 5 lbs., 24c; do, over 5 lbs., 25c; do, 4 to 5 lbs., 22c; do, 2 to 4 lbs., 22c; hens, over 5 lbs., 28c; do, 4 to 5 lbs., 25c; do, 3 to 4 lbs., 15 to 18c; roosters, 22c; ducklings, over 5 lbs., 28 to 30c; do, 4 to 5 lbs., 22 to 25c; turkeys, young, 10 lbs. and up, 25c; do, old, 20c.  
Potatoes—On track, Toronto, 55 to 60c per 90-lb. bag.  
Smoked meats—Hams, med., 26 to 28c; cooked ham, 38 to 40c; smoked rolls, 26 to 28c; cottage rolls, 32 to 35c.  
Breakfast bacon, 32 to 35c; special brand breakfast bacon, 38 to 40c; backs, boneless, 36 to 42c.  
Cured meats—Long clear bacon, 50 to 70 lbs., \$20; 70 to 90 lbs., \$19; 90 lbs. and up, \$18; lightweight rolls, in bbls., \$38; heavyweight rolls, \$35.  
Lard—Pure tallow, 16½c; tubs, 17c; pigs, 17½c; prints, 18½c. Shortening, tallow, 14½c to 15c; tubs, 15 to 15½c; pigs, 15½ to 16c; prints, 17½ to 18c.  
Heavy steers, choice, \$7 to \$7.75; butcher steers, choice, \$6 to \$6.50; do, good, \$5.50 to \$6; do, med., \$5 to \$5.50; do, com., \$4 to \$5; butcher heifers, choice, \$6 to \$6.50; do, med., \$5 to \$5.50; do, com., \$4.25 to \$4.75; feeder steers, good, \$3.50 to \$4.50; do, fair, \$3 to \$4; canners and cutters, \$1.75 to \$2.25; butcher bulls, good, \$4 to \$4.50; do, com., \$2.25 to \$2.50; feeder steers, good, \$3.50 to \$4.50; do, fair, \$3 to \$4; stockers, good, \$4 to \$4.50; do, fair, \$2.50 to \$3.50; calves, choice, \$12 to \$13; do, med., \$9 to \$11; do, com., \$5 to \$9; milk cows, choice, \$70 to \$90; springers, choice, \$80 to \$100; lambs, choice, \$12 to \$13; sheep, choice, \$6.50 to \$7; do, culls, \$3 to \$4; hogs, fed and watered, \$10.50; do, f.o.b., \$9.75; do, country points, \$9.50.  
Hogs quotations are based on the prices of thick, smooth hogs, sold on a graded basis, or selected, sold on a flat basis. Bacon selected, sold on the graded basis, bringing a premium of 10 per cent. over the price of thick, smooth hogs.

Montreal.  
Corn, American No. 2 yellow, 94 to 95c; Oats, Canadian western, No. 2, 64 to 65c; do, No. 3, 58 to 60c; extra No. 1 feed, 56 to 57c; No. 2 local white, 64 to 65c. Flour, Man. spring wheat, 1st, \$7.10; seconds, \$6.60; strong bakers', \$6.40; winter pat., choice, \$6.50. Rolled oats, bag 90 lbs., \$3.15 to \$3.25. Bran, 26 to 28c. Shorts, 22 to 23c. Middlings, 35 to 36c. Hay, No. 2, per ton, car lots, \$14 to \$15.  
Cheese, finest Easterns, 25½ to 26c. Butter, choice creamery, 45 to 46½c. Eggs, fresh, 44 to 45c; selected, 36c; No. 1 stock, 32c. Potatoes, per bag, car lots, \$1.05.  
Com. dairy type cows and heifers, \$3 to \$4; canners and cutters, \$1.75 to \$2.25; com. bulls, \$3 or better; better quality bulls, \$4; calves, good, \$10.50 to \$11; com., \$9.75 to \$10; grass calves, \$4; good hogs, \$11; poorer quality, \$10.50 to \$10.75.

5,000 TONS OF COAL  
REACH ONTARIO DAILY  
Investigation of New York Officials Disproves U.S. Impression of Canadian Supply.  
Bridgeburg, Feb. 18.—It became known today that representatives of the New York State Fuel Commission have been at the border investigating the flow of coal to Canada, getting figures at first hand for themselves. The impression exists in the United States and has gained considerable ground that coal is selling for a lower price in Canada than it is south of the border, and it is further said that this wrongful impression is at the bottom of much agitation across the river to have an embargo placed on fuel crossing the border, irrespective of counter-retailary action that could be taken on this side.

Investigation made at the border here shows that on an average about 150 carloads of soft coal and about the same number of carloads of hard coal are crossing over the International Bridge at Bridgeburg in a 24-hour period, although in January the ratio was higher. This would account for about 5,000 tons of hard coal per diem crossing into Ontario.

Coal is selling at the border for \$15.50 per ton, which is \$1.50 less than in Buffalo, and in many instances \$2 less. Soft coal is not now being taken into account, as there is no shortage. These figures disprove many of the statements made lately of solid trainloads of coal for Ontario crossing the International Bridge here.

### COMPLETE SCHOOL SET FREE TO BOYS AND GIRLS

This outfit complete:  
1 School Case  
1 Pencil Box  
2 Rubber Tipped Lead Pencils  
1 Special Drawing Pencil  
1 Compass  
1 Pen Holder  
2 Pen Points  
1 Box of Crayons  
1 Eraser  
2 Packages Union Jack Flag Stickers, so that you can put the flag on your school books, letters, etc.  
We will give you this whole School Outfit free of all charge if you will sell just \$3 worth of lovely Embossed Easter Post Cards at 10c a package. Send us your name and we will send you the outfit to sell. When sold send us the money, and we will send you the whole outfit. Address: HOMER - WARREN, CO., Dept. 23, Toronto.

Great Britain was Canada's best customer last year. Figures issued by the Dominion Bureau of Statistics show that the value of Canadian exports to the United Kingdom during 1922 was over \$4,000,000 higher than the export of goods to the United States. Canada sold to the United Kingdom goods to the value of \$74,761,894, and to the United States \$340,156,247.

## SUFFERING ON STORM. SWEPT ATLANTIC

Vessels in Distress Abandoned After Crews Had Been Taken Off.

A despatch from New York says:—The daring of crews of ships seeking to aid sinking and distressed vessels was reported in wireless messages on Friday, as ice-coated trans-Atlantic boats brought to port stories of severe storms and suffering.

Four dauntless craft, fighting heavy seas, searched the Atlantic 500 miles off the Virginia capes for the Italian freighter *Moncenisio*, reported sinking on Thursday with her crew of 36. They found no trace of the vessel.

Wireless reports from the *Moncenisio* were reported to have ended with a frantic "S.O.S." Thursday afternoon, and belief was expressed by mariners that she had gone down. Severe cold weather was reported from the rescue ships and it was doubtful, they said, that the *Moncenisio's* crew, if in lifeboats, could survive.

The schooner *Friendship*, with a cargo of lumber for New York, was located in a sinking condition on Friday off Oregon Inlet, 90 miles south of Virginia Beach, by the coast guard cutter *Manning*. The *Manning* reported that the seas were unusually heavy and that it was impossible to take off the *Friendship's* crew of seven. The *Manning* was standing by, however, awaiting the first opportunity for rescue.

The luckless British auxiliary schooner *Dorin*, which after many trials escaped from the severe storm off the New England coast, last month was abandoned off the New Jersey coast and her crew rescued by the *Lampart* and *Holt* steamers. *Vasari*. The *Vasari* arrived Friday with the *Dorin's* crew.

## TO ASSIST POLAND AGAINST GERMANY

French Parliament Voted 400,000,000 Francs by Large Majority.

A despatch from Paris says:—A loan of 400,000,000 francs to Poland was voted by the French Parliament on Thursday. It is officially described as "for the purpose of improving Poland's financial and economic situation, so that it may resume its proper place in the European concert of nations and play the role to which its geographical position and history entitle it."

The vote on the measure was 515 to 88. Many of those who voted against it declared that the loan, while destined ostensibly for the organization of the Polish army against "unwarranted attack from the east" was really put through as "a means of coercion against Germany from the west." The engagement for the loan was undertaken by the Briand Government in 1921.

Opposition to the measure in Parliament was based on the allegation that the danger of an attack on Poland from the east now was nonexistent and thus the money was being advanced for military purposes no longer defensive, but in reality offensive.

## Constitution of Free State Moulded on Canadian Status

A despatch from London says:—That the immunity of Ireland from possible British aggression against her new liberties is based on the immunity of Canada, is the interesting statement made by Michael Collins, the late Irish leader, in a book which has just been published posthumously in Dublin. It is, of course, a matter of history that the constitution of the Irish Free State was moulded with an eye to Canadian precedents, but Collins makes it evident that it was the object lesson of Canadian liberty which convinced the treaty makers that they could find an acceptable compromise within the Empire. "The treaty clauses constitute a pledge," says Collins, "that we shall be as safe from interference as Canada is safe, owing to the fact that her 4,000 miles of geographical separation. Our immunity can never be challenged without challenging the immunity of Canada. Having the same constitutional status as Canada violation of our freedom would be a challenge to the freedom of Canada. It gives a security which we ought not lightly to despise."

## British Air Ministry Orders New Airplane Engine

A despatch from London says:—The Air Ministry has ordered a new airplane engine, two of which are said to be capable of carrying an air liner with eighty passengers across the Atlantic in sixteen hours. The engines will develop 1,000 horsepower on a semi-Diesel principle, burning oil instead of gasoline.

A total of 23,788 immigrants from the United States entered Canada in 1922, with cash and effects valued at \$9,544,027. This average wealth of \$402 was substantially heavier than immediately previous years.

Great Britain was Canada's best customer last year. Figures issued by the Dominion Bureau of Statistics show that the value of Canadian exports to the United Kingdom during 1922 was over \$4,000,000 higher than the export of goods to the United States. Canada sold to the United Kingdom goods to the value of \$74,761,894, and to the United States \$340,156,247.

## QUESTIONS and Bible Answers

After Jesus the Christ appeared to His disciples, what command did he give them?—Matt. 28: 19, 20.

### NEWBURY

D. J. Batsner and J. Marshall have installed a radio outfit and are now enjoying concerts, speeches, etc., from New York, Pittsburgh, Chicago and Detroit.

Rev. C. D. Farquharson and family were in Chatham on Tuesday attending the golden wedding of his parents. A women's union prayer service was held on Friday afternoon at the home of Mrs. Duncan Stalker. Mrs. Farquharson had charge and both Anglican and Presbyterian women took part in the form of service as provided. Nearly twenty ladies were present.

Miss Bertha Crim, of Detroit, is visiting her mother, who returned from Sarnia a few days ago after an extended visit with her son Ed.

This community enjoyed a rare treat in the visit of A. McLaren, A. B. S., who spoke in the town hall Saturday evening and gave a short address on Sunday in the Anglican and Presbyterian churches at their regular services, also at an interdenominational meeting held Sunday evening in Christ church, at which Rev. C. D. Farquharson presided. Mr. McLaren's work is social service and community work. He is a forceful speaker, with his subject well in hand, holding the crowd at closest attention. Saturday evening it was decided to form a community club and a nominating committee was appointed. Let us each and all lend a hand to do our bit.

### WARDSVILLE

On Wednesday afternoon the high and public schools had a Valentine party in the high school rooms. Walter Whitfield, president of the literary society, took the chair. The following program was given: Piano solo, Mary Hanton; speech on "Ideals," Janet Elliott; recitation, Carl Miller. The Echo was read by Ava Weer. The Valentines were then distributed by Albert Bridgette and Lynn Henderson.

Union prayer meeting which was held in the Presbyterian church on Thursday was very largely attended. Mrs. George Stricker led the service. A meeting of the union Young People's Association was held in the Presbyterian church on Friday evening. The usual routine business was attended to, after which Miss Janet Elliott gave a paper on "Ideals."

Miss Ella Gourley, of Adrian, Mich., is visiting her aunt, Mrs. Jim Thomas. Donald McEae and Cliff Davis spent Monday in London.

Miss Gilbert, of Glenora, spent a few days with Mrs. Geo. Pauls. Allan Henderson spent the week-end at his home here.

Albert Constant and Wm. Randless spent the week-end at their homes here.

A number from here attended the play in Clachan on Friday.

Mrs. King is visiting her son, Sylvester King.

Mrs. Joe Simpson is seriously ill at her home.

### CASHMERE

Mrs. Earl Linden and son Murray, of Aldborough, are visiting her parents, Mr. and Mrs. Henry Saylor.

Miss Mildred Taylor, of London, is visiting her parents, Mr. and Mrs. A. J. Taylor.

Mrs. Henry Saylor spent Tuesday with her daughter, Mrs. Earle Linden.

Johnathan Saylor was in London on Wednesday last. His daughter, Mrs. Angus McDonald, of Appin, underwent an operation on that day but is progressing nicely.

Mr. and Mrs. Calvin Sitter and son Franklin spent Sunday with Mr. and Mrs. B. F. Jeffery, Newbury.

The young folks are having lots of fun skating these nights.

**It Will Prevent Ulcerated Throat.**  
At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

### MELBOURNE

Melbourne, Feb. 19.—Although our village is in the grip of a cold winter our citizens are not idle and when spring arrives it is expected that there will be a few changes and many improvements. Edmond Richards has sold his large brick store to Mrs. (Dr.) Woods, of Michigan. This store, although the largest in the village, has been vacant for some years. To have it occupied and a business carried on their again will be a great improvement to the village. Campbell brothers are preparing to build a large cement garage on Main street where the red frame dwelling formerly owned by the I.O.O.F. lodge now stands. Campbell Bros. have purchased this property, and the frame building will be removed. Robert Hardy is preparing to build an addition to his store, which has for many years been occupied by the hardware merchant. Mr. Hardy purposes to install an ice plant and bakery. We have not had a baker here for seven years, the bread being shipped in from London. Strathroy and other points since Mr. Little, our former baker, moved to London.

Sandy Williamson has resigned his position as section foreman and will move away as soon as his house and lot here are sold. We wish him every success.

Ralph Collier has been appointed section foreman at Walkers and is planning to move there in the near future.

Dr. Brown, who has been confined to the house for some time on account of the trouble, is able to be out again and assume his duties as pastor, although not fully recovered from the severe attack.

Archie Carruthers has returned home from the hospital where he received treatment for the eye which was badly injured recently. Although Mr. Carruthers is much better, he has not fully recovered, the accident being a shock to his system. It is expected that his eyesight will gradually improve.

Mrs. (Dr.) Brown entertained the Methodist Mission Band on Saturday afternoon. Each child took part in the program, all doing exceptionally well. The Misses Meek, Pearl, Neat, Phyllis Beese and Florence Beese giving their first piano solos. Florence is only 8 years of age. Miss Barnes, of Kerwood, who is a guest at the parsonage, entertained the children with a whistling solo. Mrs. John Kain spoke to the children and gave a very interesting story. At the close of the program Mrs. Brown served refreshments.

Miss Birdie McDougald, who has been seriously ill for some time, is now slowly improving.

The day of prayer was observed here on Friday afternoon, the ladies of the Methodist and Presbyterian churches meeting in the Presbyterian Sunday School hall. A splendid meeting was held. The president of the Presbyterian W. M. S. Mrs. (Rev.) John Elder, presided.

Mrs. James Showers has returned home after a week's absence. Her father, Wm. Marshman, of Iona.

Mrs. (Dr.) Howell is spending a few weeks at Leamington, the guest of her daughter, Mrs. McNichol.

E. E. Campbell has improved his own property and that of his neighbors on Main street by buying the garage from Robert Hardy and moving it to the front of his property.

Mr. and Mrs. Wallace McDougald, of Rosetown, Sask., are visiting here. James McDougald, of Saskatchewan, is the guest of his mother here.

### APPIN

Rev. Mr. Paton, of Glenora, will give his instructive and interesting lecture on his European trip in Appin Presbyterian church on Friday evening, February 23, under the auspices of the ladies of the church. No admission fee, but a silver collection.

Mrs. John Devlin, who has been visiting friends in Detroit and her son, John H., in Chicago for some months, has returned home.

Duncan Johnson was in Toronto last week representing Johnson Bros., of Oxford Downs, at the stock breeders' convention held there. He is one of the directors for this association.

The sacrament of the Lord's Supper will be dispensed in the Presbyterian church next Sunday at 11 a.m. Preparatory service on Friday at 11 a.m.

Rev. N. Stevenson has been confined to the house for a week, March 1st. Mrs. Stevenson and her mother, Mrs. Stocker, are also laid up at the time of writing. Mrs. Peter McIntyre is nursing the sick.

The funeral of the late Alex. McDonald was largely attended. Elder Slauson conducted the service.

Richard Pettit has returned from his visit to Fort William and other points.

The Y.P.S. will hold their regular meeting in the Presbyterian church next Sunday evening at 7.30. All are cordially invited to attend.

Local Orangemen have greatly improved their hall here with new linoleum, blinds, curtains, etc. A new platform and cupboards have been built and other conveniences added.

Miss Madge McAlpine and her friend, Miss Helen Elliott, returned to Windsor on Saturday after spending a couple of weeks with the former's parents, Mr. and Mrs. D. E. McAlpine.

### PRATT'S SIDING

The February meeting of the Book Club was held at the home of Mrs. Gordon Reycraft on February 15. Mrs. Richard Reycraft read the minutes of the last meeting. A guessing contest, won by Mrs. Calvert Reycraft, was greatly enjoyed by all. Roll call was answered by a favorite verse. There were twelve members and six visitors present. Collection, \$1.55. The club decided to have the Kilmartin dramatic club present their play, "The Time of His Life," in the school house on Friday evening, March 2nd.

A dainty luncheon was served by the hostesses. The next meeting will be held on Wednesday, March 14, at the home of Mrs. Calvert Reycraft. Roll call—a humorous story.

Renew your daily paper subscriptions at the Transcript office.

### MIDDLEMISS

Mr. and Mrs. William Carroll, who have been confined to bed with pneumonia, are both slowly recovering.

The continued hard frost is creeping into many of the cellars.

The autograph quilt made by the ladies of the village is now complete, and an oyster supper and entertainment will be given on the evening of the last day of this month.

Admission to the supper and entertainment is 50c. A big gathering is expected, as the proceeds are in aid of the Methodist church. The quilt will be auctioned on that evening. See bills.

Wm. Brown spent a couple of days with his sister, Mrs. Williams, at Cairngorm.

Checkers is the popular game here. Don't know who is who yet—new horses coming in every day.

It was said that the bird representing warmer weather was heard on Saturday. Guess he forgot to bring the W. W.

### MODEL CENTRE

The regular meeting of the literary society will be held on Friday evening of this week. A debate, "Resolved that public ownership is preferable to private ownership," will be taken by Dan McKellar and Fred McGill for the affirmative and by Ross McEachern and Clare Treastin for the negative.

Chas. Reath, while cutting wood in the McCallum townline, one day last week, had the misfortune to get struck with a limb and dislocate one of his shoulders quite severely.

While engaged in getting out wood at the McCallum bush a few days ago, Wm. May had the misfortune to lose a valuable horse, which was struck by a falling tree.

### NORTH EKRID

Ivan Chisholm is under the doctor's care, suffering from a severe cold.

Roy Brothers, of Burlington, was calling on friends in this vicinity last week.

Will Down returned home on Friday from the hospital, where he has been for the last few weeks.

Miss Linton, of Carleton Place, is engaged to take charge of the school here owing to the illness of our former teacher, Miss Annie McLean.

Sacrament will be observed in the Presbyterian church Sunday, February 26. Preparatory services will be held this (Thursday) afternoon.

The box social was postponed from the 14th to the 16th owing to the bad weather. The program consisted of dialogues, recitations and solos, after which the beautifully decorated boxes were disposed of.

Mr. Warren had the misfortune to have his pig pen burned last week caused by a coal oil heater exploding.

Miss Elsie Wallace, of Metcalfe, is the guest of her sister, Mrs. George Plise.

Miss Jessie Warren is visiting Miss Pearl Pettit.

Miss Lizzie Pierce is the guest of her cousin, Miss Marjorie Pierce, of now on the way to the States.

Owing to the illness of Rev. Mr. Stevens, Mr. Macfie, of Appin, occupied the pulpit here on Sunday afternoon.

### NORTH NEWBURY

Weather conditions put the wood-sawing business out of commission last week.

The Wallaceburg Co-operative Company shipped a car of wood to Hamilton last week and are placing a large quantity of long and short wood in the yard for future shipment.

Several cars of logs are ready for shipment as soon as orders are received.

The wood men are busy these days cutting up the bush belonging to Mat. Armstrong. Several cars of wood are now on the way to the States.

Orville Brennan, of Chatham, spent a day this week with his parents.

John Moran received another shipment of feed this week.

Harvey Loughheed is a busy man this week delivering logs to the C.P.R. yards.

Steve Huls, of Thamesville, is back on the job again in the wood yard after a week's absence.

### EKRID STATION

Mrs. Ann Lee is suffering from a severe cold.

Miss Marion Campbell is confined to her bed with an attack of pleurisy.

The members of the Bureka Community Club are reminded of the quilting at the next meeting, and are requested to come with needles and threads. The meeting will be held at the home of Miss Annie McCallum.

Hard and soft corns both yield to Holloway's Corn Remover, which is entirely safe to use and certain and satisfactory in its action.

Where ignorance is bliss don't ask too many questions.

## Here and There

GLASGOW, Scotland.—The Glasgow Herald says: An agreement has been made between the Government of the Province of Ontario and the Overseas Settlement Committee for the acceptance by Ontario of a certain number of British settlers. The majority will consist of unmarried men, but there will also be a limited number of married men and of youths and girls over 16 years of age. Of the married men, about 200 have already been accepted by the Ontario authorities in London from applicants now dwelling in the Hebrides, where agents on behalf of the Province have been carrying on a special canvass for some time past. The agents are also endeavoring to select from the Hebrides a number of female farm workers, and there is a proposal that a special ship shall be chartered to sail from the North to Scotland to convey these settlers in a body.

MEDICINE HAT, Alta.—The Medicine Hat recently this scene of what is probably the most important railway junction in the history of Medicine Hat. The occasion was a banquet and presentation in honor of Henry Whyte, J. F. Fisher and Thos. Penhale all engineers in the Canadian Pacific Railway service who have recently retired. There were more than 200 guests. A considerable number of the guests were from other railway centres throughout Canada.

CALGARY, Alta.—Belcher, a town on the C.P.R. and G.T.P., about 35 miles northeast of Calgary as the crow flies, is in the grip of an incipient silver boom. On Saturday and Sunday men from the local district and from points afar, where the news spread with the usual rapidity of such tidings, staked out claims covering several sections about four miles east of the town. These were registered at the federal land office in Calgary.

No assay has yet been made of the ore, but those interested in the property are sending a sample to Edmonton. It may be necessary to bore another test hole, the finders say, before sufficient ore can be obtained to get a reliable assay. The original find was made by crews drilling for water and much of the ore taken out has been given away as samples. The first find was made about three months ago.

CALGARY, Alta.—"We cannot expect to recover in a year or so from the effects of abnormal circumstances the whole country has been suffering from," remarked W. B. Leavitt, of Montreal, first vice-president of the Canadian Pacific, in the course of an interview with The Herald, in Calgary, "but I am safe in saying this, that this year will witness throughout Canada a revival of industry and agriculture, and that by 1924, the city of Calgary and the country tributary to it, as well as the rest of Canada are going to enjoy a return of their former prosperity."

It was in these words that the great transportation company replied to the question as to how he viewed present conditions. "No matter what may say," he continued, "the resources of this country in minerals and in the fertility of its soil has not been appreciably touched and it has been inadequately advertised. The Province of Alberta, with its agricultural possibilities, its wealth of coal, and in my opinion, the waterpower of its streams and hills need only population to bring these possibilities into wealth. How any person can survey all these natural conditions and still remain a pessimist, is something I cannot understand."

BROCKVILLE, Ontario.—Several retirements on pension are announced on the Canadian Pacific Railway in this vicinity.

James Jolly, road master for the railway at Carleton Place for many years and native of Leeds county, is retired on pension upon reaching his age limit. He entered the railway service as a youth and has seen the railway grow from small beginnings to the present great system.

James Milliken, section foreman for the C.P.R. at Carleton Place, is also superannuated. For some years he was on duty on the Montreal-Toronto mainline and a number of years ago was transferred to Carleton Place.

After 28 years as station agent at Merrickville, and nearly 40 years in the company's service, James A. Angus has also retired on pension. He is being succeeded by S. C. Corbett, Terrebonne, Que.

E. M. Jolly, who has been assistant division engineer of the C.P.R. at Smith's Falls, has been appointed division engineer, same road, at Schreiber.

The steel structure for the new C.P.R. overhead bridge over the G.T.P. tracks at Kingston Junction has arrived and the Dominion Bridge Company, Montreal, the contractors, has started to erect the bridge which, when completed, will open the new line into the city for the C.P.R. and C.N.R. trains.

### STRATHBURN

We are pleased to report that John Cyster, who underwent a serious operation, is improving.

Sympathy of this neighborhood goes to Mrs. D. R. McRae in the loss of her father.

Charles Willey has installed a radio outfit at his home.

Last week the farmers put away their stock of ice. N. Currie had a gang filling his ice shed with about 300 tons. There is 15 inches thick.

Frank McIntyre is laid up this week with the flu.

Alex. McRae, of Niagara Falls, who arrived here two weeks ago, left this week for Port Huron to visit his uncle, John A. McRae, and Mrs. W. W. Gordon.

Pleased to hear that Chas. Kelly is better after a severe sickness.

## Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

## What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

## GENUINE CASTORIA ALWAYS

Bears the Signature of

## In Use For Over 30 Years

THE CENTAUR COMPANY, NEW YORK CITY

## The Cost of Living

ADVERTISING turns over stocks rapidly, and therefore multiplies profits. This means that prices in a shop which advertises can be short rather than long.

Of this you may be sure: Prices in a shop which advertises are not MORE than in a shop which does not advertise. The chances are that they are oftentimes lower.

This, also, is generally true: You will find better goods, better values and better service in those shops which turn over their stocks rapidly. This means, as a general thing, shops which advertise.

## A Note To Merchants

Advertising costs you nothing—it is paid for by the profits on increased sales.

Advertising is easy—it is simply saying in writing what you say to the customers in your shop. Turn over stocks quickly, if you would make more money.

## When You Need SHOE REPAIRS WHILE YOU WAIT

## Rub it in for Lame Back—A brisk rubbing with Dr. Thomas' Electric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be con- vinced. As the liniment sinks in, the pain comes out and there are ample grounds for saying that it is an ex- cellent article.
