Topics To Be Discussed at the July Meeting.

Premiers Not All Equally Instructed -Zellverein Not Mentioned.

London, June 11. — The Daily Mail says that the following programme for the coming conference of colonial premiers has been arranged. Others, however, it says are certain to be added, The subjects are:

Political relations, brought forward by Mr. Chamberlain-The chief proposal under this head is for triennial conferences of the premiers with the proviso that an urgency conference can be summoned if thought desirable. Imperial defense, brought forward by Mr. Chamberlain-This affects both the

sea and land forces of the colonies, their composition, personnel and the method of maintenance. Inter-communication brought forward by Mr. Seddon-The chief pro-posal, which is understood to be backed by Mr. Barton, proposes a rebate on British goods carried in British vessels. The importance of this topic is

Naturalization, brought forward by the Cape and Natal-Presumably this deals with Asiatic immigration. Colonial legal procedure, brought for-ward by Mr. Seddon-Barristers of New Zealand to be allowed to practice in

South African courts. Pacific Islands and Australasian colonies, brought forward by Mr. Chamberlain-This is more or less a matter of local interest to the colonies con-

cerned. The Daily Mail adds: This programme is quite modest and unassuming-it does not even mention that word banned by all free tradersverein. Yet it will be surprising if the topic is not generally discussed, and the theoretical principle to a great extent approved, even though it is probably impossible to expect any practical

result in the immediate future. It is true that the premiers do not all come vested with plenipotential powers. Thus, while Mr. R. J. Seddon (New Zealand), absolutely controlling his own legislature, can pledge himself to any course, Mr. Barton, the Federal premier, has specifically undertaken to report to his parliament before agreeing to anything. Sir J. Gordon Sprigg, of the Cape, can hardly speak for a legislature which has not met for many months, and whose future composition is doubtful; while, on the other hand. Sir A. Hime, the premier of Natal, is likely to approach more nearly the attitude of Mr. Seddon. Finally, there is Sir Wilfrid Laurier, whose position is somewhat undefined, though he is not likely to err on the

side of lack of caution. As far as the topics set down for consideration at the conference show, Mr. Seddon is by far the richest in suggested policy. Mr. Barton makes one or two good points, the Cape and Natal only bring up-from the imperial point of view-a minor point; while it seems that Canada, "lying low," makes no suggestion at all. Yet, as a matter of fact, opinion in Canada is as strong as, perhaps stronger than, in any other British colony.

Sir Michael Hicks-Beach's remark-

Commons, was accepted as foreshadow-

for purposes of imperial protection.

Moreover, he said it was not the policy of the British Government to

impose duties as against foreign na-

tions in order to give an advantage to

the colonies, but where duties are

There were further turbulent scenes in the lower house of the Austrian Reichsrath today, when both the president of the house, Count Vetter von der Lillie, and the premier, Dr. Von Koerber, scathingly criticised Dr. Von Klofal and other members who yesterday protested violently against the anti-Polish speech recently delivered by Emperor William of Germany at Marienburg, on the occasion of the completion of the work of restoring the ancient castle there. The premier said he specially regretted the invectives directed against a sovereign who since his accession had been a faithful ally of Austria-Hungary. The premier curtly refused to reply to an interpellation on the subject of the German emperor's speech. The premier's remarks elicited a storm of mingled cheers and cries of disapproval, the banging of desks and other noisy pro-

opposed the proposal as tests. BEY OF TUNIS DEAD.

NEW ONTARIO RETURNS Toronto, June 1.-The detailed vote in several of new Ontario ridings is now to hand. In East Nipissing the majority for Dr. James (Liberal) is 204. Smith (Conservative) secured a majority in North Bay, and in the township of Chisholm, but lost heavily in other divisions. In Manitoulin Mr. R. R. Gamey (Conservative), secured a majority of 822, the western part of the island furnishing the heavy Conservative vote. The vote for Mc-Millan (Socialist) was about 250. He secured a fair vote in several divisions, and in two polling places actually scored more than Liberal and Conservative put together. In West Nipissing, Michaud (Liberal) got a majority of Oxford scholarships in British North 157, scoring chiefly in Verner and America to the Province of Ontario, Springer, No. 1, divisions, while the Quebec, and to Newfoundland, leaving strength of Cochraine (Conservative) lay chiefly in Sturgeon Falls, which gave him a majority of 152. The majority of Mr. Smyth (Conservative) in Algoma is 238, coming chiefly from St. Joseph's Island (183) and Rydal Bank

APPEAL AGAINST JUDGE'S RECOUNT

East Middlesex Conservatives Unsatisfied.

THEIR GROUNDS OF OBJECTION

Captain Rebson's Legal Represent-

atives Carry Election Case to Toronto Courts. An appeal has been made on behalf of Capt. Robson against the finding of Judge Edward Elliott in the recent recount of ballots cast in the East Middlesex election, in which Dr. Rout-ledge, the Liberal candidate, was declared elected by a majority of 21. The appeal is laid under section 129 of the Ontario Election Act, which provides that an appeal from the finding of a court judge may be made by giving notice to the judge and the other candidate within two days after the recount. The judge then forwards the ballot papers to the registrar of the court of appeal, who then obtains

from a judge of the court of appeal an

appointment for the hearing of the ap-

peal. The appeal judge after conduct-

ing the recount certifies his decision

to the county judge, who then certifies to the returning officer the decision of the appeal judge. The present appeal is taken in reto subdivisions 5, 9 and spect 10 of the township of Westminster, in which Judge Elliott counted in all the ballots as polled. The ground of objection to Nos. 5 and 10 is that each ballot was marked on the back by the deputy returning officer with the number corresponding to the voter's number in the pollbook. This is objected to under sub. sec.3, sec. 112, as being markby which the voter could be identified. In division 9, the deputy returning officer placed the used and unused ballots and the counter foils in the envelope indorsed "unused ballots," instead of using envelope A, provided for the ballots used, and counted by the deputy returning officer at the the poll. Under section 126 the judge has authority to open only certain of the ballot envelopes, the unused ballot envelopes not being included. Capt. Robson's solicitors contend that in opening the envelope indersed "Unused ballots," Judge Elliott exceeded his authority. As a matter of fact, it is said, Capt. Robson's representa-

Weak Men, Read!

It is pitiable to think of the vast number of men who go on from day to day suffering mental and physical torture as a result of their weakness, while right at their doors other men are being cured of the same disease. One who has not known it himself cannot realize the feelings of a man in an advanced stage of Nervous Debility, nor does he hear it, for these men do not talk of their troubles. Even when they are fortunately led to use the remedy which is now so well known-Dr. McLaughlin's Electric Belt-and are cured by it, they do not mention it to their closest friends; hence the prevalence of this trouble and the means of cure are appreciated only by those who have had experience. And yet I have thousands upon thousands of grateful patients who are willing to testify to their cures by

Inventor Utilizes Atmospheric Electricity Without Dynamos.

London, June 11.-Senor Clementi Figueras, of Las Palmas, Canary Islands, who is credited by the London train, and both legs were cut off. Daily Mail correspondent with having discovered a method of using atmospheric electricity without chemicals or dynamos and practically applying it without any motive force, is engineer of the woods and forests for the Canary Islands, and for many years professor of physics at St. Augustin's College, Las Palmas. Hitherto he has zealously guarded the secret of his labors. He claims, however, to have invented a generator, which can collect the electric fluid, to be able to store it, and to apply it to an infinite number of purposes, for instance, in connection with ships, railways and manufactor-

The firm in Berlin which The firm in Berlin which supplied some of the parts was curious enough to send to the Canary Islands an emissary to try to draw the professor, but the attempt was unsuccessful. Prof. Figueras is shortly going to Madrid and Berlin to patent his invention. A German electrical company is reported to have offered a large sum for the invention, while a syndicate in Barcelona has also made a gen-

erous offer. Prof. Figueras has constructed rough apparatus by which he obtains a current of 550 volts, which he utilizes in lighting his house and driving a 20horse power motor. He is shortly coming to London with a perfected working apparatus. His inventions comprise a generator, motor, and sort of governor or regulator. The whole apparatus is so simple that a child could

Minister of Public Works at the Toronto Banquet.

Do We Know Our Country as We Should? Canada Must Have Markets.

Hon. J. I. Tarte responded to the toast of "Canada and the Empire," at the board of trade banquet in Toronto: "Are we sure that we know our country as we should know it?" were Mr. Tarte's opening words. Were they sure they appreciated their national resources as they should? Let them take a map of the world and point out in any corner of it a land more place, before an audience such as this, to deal in detail with the resouces of Canada. They had land in abundance; they could find ac-commodation, shelter and food for 100,000,000 of people. Their forests, their fisheries, their mineral resources, were referred to by Mr. Tarte. They everything necessary to the building up of a nation, and he hoped made up their minds to be masters of

PEACE A BLESSING TO US ALL

Rev. Dr. R. S. McArthur, of New York, Talks About Peace in South Africa.

[The minister whose sermon is noted here is a brother of Mrs. David Mc-Kerricher, of this city, and the summary given below is taken from Mon-

day's New York Sun.] Preaching last night upon the South African war, the Rev. Dr. R. S. Mac-Arthur, pastor of the Calvary Baptist Church, dwelt upon the circumstances which led to the conflict and of the nences of the struggle upon civiliza-

me pulpit was draped with American and British flags, and the service was attended by representatives of British and colonial societies of the city. The character of the service was made clear when Dr. MacArthur, in announcing that the evening's hymn would be "My Country 'Tis of Thee," said that such of those in the songregation as might desire could sing to the music the words of "God Save the King." It was noticeable that many of those in the church took advantage of the invitation.

In his sermon Dr. MacArthur said: The end of the war in South Africa has brought joy to the whole civilized world, because it was evident to all right-minded observers that those who encouraged the Boers to continue the warfare were the enemies and not the friends of the Boers, just as those who are encouraging the Filipinos to continue their warfare against the United States are the foes and not the friends of the people of the Philippine Islands. The Boers were fighting for the right of an aristocratic minority to oppress and rule a tax-paying majority. They desired liberty, but only for themselves. They were not democrats, but auto-In no true sense was their The overthrow of such an oligarchy is a blessing to the whole world and especially to the Boers themselves.

Kruger must be held chiefly respon sible for this war. He had determined to drive the British out of South Africa. He was narrow, bitter, bigoted. It was impossible to reason with him where his prejudice against the British were concerned. Had Joubert been elected president the probability is that there would have been no war. He was broad-minded, intelligent and

The gratitude of the British Empire will be given to three men-to Kitch-ener, Roberts and Milner. Baden-Powell's defense of Mafeking and White's bravery at Ladysmith must not be forgotten. But Kitchener will be the idol of the war. And probably not until the inner history of his reign comes to be written will the world know how great was the influence which King Edward exerted to bring about the end of the conflict.
The war has taught continental Europe a very important lesson. has shown the necessity of revolutionizing some of the modern methods of warfare. This war will do more to bring about universal peace than the conferences at The Hague. The Boers will be vastly better off under the new government than they were under the old order of things. They will be the chief beneficiaries of the out-

South Africa will now enter upon an era of progress and prosperity such as it has never before known. It will tack its place among the progressive countries of the world. It will pass out of mediaevalism into modernism. It will now know for the first time what true liberty is. Within twenty years the Boers will look back with and will thank God for their deliverance. They will have so advanced from their present primitive state and will enjoy so many comforts that they will scarcely know themselves.

Bleeding Piles

Two Letters From Mr. Walker Explaining the Severity of His Case and the Permanency of His Cure by Using

DR. CHASE'S **OINTMENT**

Some people seem to think that it is too much to claim that Dr. Chase's Ointment will cure every form of piles, claim. These are interesting letters been cured:

Walker, a fireman on the Canada At- through the canals and river to Quelantic Railway, living at Madawaska, Ont., writes: "I am a great sufferer for the coast trade. from bleeding piles. Sometimes the protruding piles come down, causing much misery and uneasiness, and at other times I am subject to bleeding piles, and they bleed to such an extent as to make me quite weak. If Dr. Chase's Ointment will cure this awful ailment you will have my everlasting gratitude."

On March 1, 1902, we received the following letter from Mr. Walker, which speaks volumes for Dr. Chase's Ointment, as a cure for piles of the most distressing form. He writes: "Accerding to my promise, I now take pleasure in writing to you. If you remember, you sent me a box of Dr. sang "God Save the King" and went Chase's Cintment for bleeding piles home delighted. We hope this will not come three months ago. I used it faithsome three months ago. I used it faithfully, and can say that it proved a God-send, for it has entirely cured me

of bleeding piles. "I would have written sooner, but I wanted to be able to tell you that it was a permanent cure. This you can use for the benefit of other suffering people here who have been cured of very severe cases of protruding piles

War is costly. In our own civil war the cost in money was \$3,000,000,000, not including the pensions. It has been figured that when the pensions. cost ultimately, when the pensions have all been paid, \$12,000,000,000—more than the assessed value of property throughout the United States in 1860.

But there are other kinds of war. In commercial war men and nations are continually trying to obtain su-premacy. There is a constant struggle between vice and virtue, justice and injustice. Vice shows its un-daunted head in the face of law, and oftimes our representatives appoint-ed to uphold the law, appear before their superiors with breath and action that show that vice has crept in; has overcome the men sent out to protect our laws.

The main thing in this life is to fight. Peaceful man that I am, I say fight, fight, fight! The world only moves towards it better end through strife, struggle and strain. And war not only protects against sin, but en-larges the sphere of human activity

and usefulness. Conditions are constantly arising to cause strife of various kinds. We have seen a great nation restrain an effort on the part of a combination to raise the price of a necessary food; we have seen the miners starting up in Pennsylvania and demanding what they believe will better their condi-tion. All over the world men and conditions are clashing. From the very moment we established free schools and declared all men free and equal we inaugurated the struggle that will go on and on and on.

The condition of the masses is bet ter today than it ever was before. This is due to such men as Kitchener and Grant and Sampson and Miles and men great in commercial and other pursuits. The struggle will go on, each lending its aid to bettering the condition of all men.

country a republic; it was an oligarchy. Toronto News Article Manifestly Unfair and Misleading.

> Stratford, June 10.-The Toronto News, in an interview with Mr. E. A. Du Vernet, who represented the Conservatives in the North Perth protest, makes some statements regarding the condition of the ballots which are so manifestly unfair and misleading that they call for denial. The article says the ballots were in wretched shape: that affairs in North Perth were disgraceful, and that it looked as if a deliberate attempt had been made to rob Mr. Monteith of his seat.

Nothing could be more misleading, for if there was any carelessness whatever on the part of a deputy returning officer in Wallace township, as alleged, both parties were treated alike. Only one ballot was refused because the number was torn off it, and in

the ballot. In Wallace, where the alleged disgraceful condition of affairs existed, the officer in charge did not use a preserving.
rule in tearing the ballot off the counterfoil, and therefore towards the bottom of the package the ballots were not torn off as trimly and neatly as otherwise would have been the case, but in no instance was there any crimnal intention, as there was no inclinaon that a Liberal had been handed a perfect ballot and a Conservative an imperfect one.

The article is plainly a slander on the Liberals of North Perth. While in Stratford Mr. E. A. Du Vernet had not a word of complaint to make regarding the way the recount was conducted. On the contrary, he expressed his satisfaction with everything connected therewith.

Durban, June 11 .- Mr. Schalkburger, the former acting-president of the Transvaal, in an interview published in the Mercury, says that Gen. Joubert died of illness, and not of wounds, as has been reported.

Mr. Steyn was in favor of peace, and illness alone prevented him from attending the meeting of the Boer leaders, at which the terms concluding hostilities were signed.

Chamberlain's views and is prepared to consider preferential trade. Just how he thinks free trade within the Empire is at all possible unless Great Britain increases her duties against foreign nations it is not easy to see. He could not for a moment expect that Canada and the other colonies would throw off their tariffs on British imports entirely, in return for the exemption of colonial products from the present British duties. Such an arrangement would be altogether to the disadvantage of the colonies. A preferance in the British market of threepence per cwt on grain and fivepence per cwt on flour would far from compensate Canada for the enormous loss of revenue on British imports. This loss would have to be made up by taxation in other directions, and our whole fiscal system would have to be Will wonders never cease? reorganized. The Ballots Inviolate.

When he had finished the recount in Halton, Judge Gorham took occasion to say that the deputy-returning officers deserved a great deal of praise for the way in which they discharged their duties. In fact Judge Gorham went so far as to say that the deputies appeared to be so anxious that nothing could be said against the way in which they counted the ballots that they leaned against the interests of the Reform party in favor of the Conserva-

While the deputy-returning officers deserve no special credit for merely performing their duties honestly, it is gratifying that they should be publicly vindicated by the judges, because charges of ballot frauds are being bandled about in a most reckless manner. The result of the widespread scrutiny of the ballots in the numerous recounts is a tribute to the character of these officials throughout the Province. There never was an election in which the sanctity of the ballot was more carefully guarded.

London Should Wake Up.

The manufacturers of Berlin, Waterloo, Brantford, Guelph, Hespeler, Preston. Galt and other industrial centers in middle Western Ontario, are combining to secure electrical power from Niagara. At a very representative meeting at Berlin this week the project was set on foot, a large committee composed of leading manufacturers being appointed to formulate a workable scheme. It was suggested that the municipalities should ask for the appointment of a Government commission, which would have the power to arrange for the transmission of electricity to the various municipalities desiring it. This commission would issue its own bonds in payment of the transmission lines, these bonds to be covered by the bonds of the various municipalities interested, the latter to be deposited with the commission. The power would be sold to all manufacturers at an even rate, and would be prevented from falling into the hands of a monopoly. All this shows the necessity of London being awake to the power question, if she is to keep up with the procession. The possibilities of longdistance transmission of electrical en-

ergy are being continually widened, and there is no reason to suppose that London is outside the zone of Niagara in this respect. If the Berlin project reaches a practical stage, certainly there should be some authority, such as is proposed, to equalize the price of electrical power among municipalities which are enterprising enough to pay Meanwhile, the public-spirited City Council of London is taking a very

active interest in the question by denying local manufacturers the benefit of electrical competition and cheaper

WEEKLY REVIEW. Owing to the wet and unfavorable weather during the past week, the attendance at the market and the quantity of supplies have not been up to the average. Frices in most of the lines of farm produce have remained steady, with a far demand.

Grain The quantity of wheat offered

a fa'r demand.

Grain—The quantity of wheat offered continues to be small, and prices are 1c to 3c per cwt easier than last week; present figures are \$1 35 to \$1 36 per cwt.

present figures are \$1 35 to \$1 36 per cwt.
Oats have also taken a drop in price, and are 2c per cwt lower than last week, selling at \$1 35 to \$1 37 per cwt. Corn sells at \$1 20 per cwt.

Hay and Straw—There has been a fair supply of hay on sale; there is a decline of 50c per ton from last week's quotations. Straw is offered more plentifully, at \$6 per ton, or \$2 to \$3 50 by the load.

Butter and Eggs—Both of these commodities have been in fair supply; butter in pound rolls sells at 15c to 16c; crocks, 14c to 15c, the latter price being most frequently paid. Eggs are in good demand; prices a shade firmer, at 12c for crates and 13½c per dozen in basket lots. Potatoes—The deliveries have not been as large as a couple of weeks ago, prices are inclined to be easier, at 80c per bag by the load and 90c for single bags.

Poultry—The supply has been about the by the load and 90c for single bags.

Poultry—The supply has been about the average, with a fair demand for spring chickens, at 60c to 75c per pair. The first spring ducks of the season sold on Saturday at \$1.25 per pair. The Sabbath observance committee gave a very decided and strong report. It stated that in inland towns the Sabbath was fairly well observed—at least much more so than in border places. The work of the Lord's Day Alliance was heartily indorsed, and the churches were urged to co-operate both by Sunday services and in many other ways for the making of the holy day one of worship as well as rest. schemes involving as expenditure of other ways for the making of the holy

Rev. Dr. Griffin, of Toronto, the treasurer of the superannuation fund, showed that the fund is on a strong financial basis, and the prospects are exceedingly bright. He said that discussions would undoubtedly rise in the coming General Conference in regard to the changes necessary to meet the difficulties.

Three pleasing presentations marked the day. Evangelist Russell, who has so faithfully labored during conference in behalf of the spiritual upbuilding of its members, was presented with the handsome sum of \$80 in gold as an appreciation of his worthy services. The members of the ordination class of five years past showed that they did not forget their former president, Rev. Stephen Bond. In memory of all their past pleasant associations and appreciation of his kindness and sympathy toward each and all, the class presented him at the close of the morning session with a most beautiful gold-mounted umbrella. The ordination class, with many kind words of confidence in the president presented him with the picture of the ordination group, which was received with expression of gratitude.

During the day, greetings from the Hamilton Conference were received, and Montreal St. James' Methodist sent a message of thanks for the pledges to help in relieving the embarrassed church. At 4 o'clock in the afternoon, beautiful and impressive memorial service was held in honor of those ministers, who have died during the past year. Suitable hymns were sung, prayers were uttered and kind words spo-

Rev. Dr. Carman, general superintendent, made a very vigorous address at the morning session. He paid a high tribute to the president, Rev. A. L. Russell, who has been unswerving to duty and doctrine. He referred to the ordination class, and said that we must have these classes to meet the demand of the work. A cry came from the west for 50 or 60 men. They must recognize the fact that if a man was called to preach, he must have a pre-paration for preaching. They must make provision for the Northwest and British Columbia. He referred to lob-bying, and made the remark that ministers were going to go into politics now. He argued for the existence of Montreal Theological College as a great fortress in the city of Montreal, and place the college upon a vigorous foundation and make

her influence fertile. Next to peace and the progress of the British Empire he rejoiced in the provision made for those who had been our enemies—provision for the wives and children. He said, there lies near us the great question of the referendum. They said the temperance sentiment had gone down, but he wanted to show them it is not so. The general conference, the annual conferences, the district meetings, the official boards were for prohibition. He believed they could put up the required number if they were united and put the same energy into this that they did into politics. If the government had gone to the country on prohibition we would have had honor in the country. The government that stood for prohibition would not be defeated

ernment supplementary Thursday, and SURRENDER OF 2,200 REBELS.

Colon, June 11 .- The Colombian minister of war has sent a circular to the departmental governors of the country, in which he says that after the recent government victories over the Liberal forces more than 200 officers of the Liberal party, ranking from general down to sub-lieutenant, more than 2,000 Liberal soldiers, have accepted the conditions imposed by the government, and surrendered.

The government gunboat General Pinson landed 500 government troops at Colon from Bocas del Toro, leaving but a few soldiers at that place. The insurgents are now reported to be in the vicinity of Agua Dulce, and the large contingents of troops which left Panama Saturday and Sunday by land and sea will attack them without loss of time. News of decisive fighting between the insurgents and government forces is expected within the next few days.

Wide Difference on Ouestion of the Referendum.

TO REPUDIATE THE MEASURE

Resolution of First Methodist Church Board to That Effect Meets Strong Opposition.

When the temperance committee of

the London Conference reported yesterday, it was found that the resolution originally adopted repudiating the referendum had been reconsidered, and the following substituted: "We would express our satisfaction with the fact that the constitutionality of the Manitoba liquor act has been vindicated by the Privy Council. We regret the unfortunate and unjust conditions imposed upon us, under which we must labor in order to secure this prohibitory measure. That the only secure and macadamized roads that lead to a permanent prohibitory law in this country lie along the survey of united, independent electoral action, and consequently we would call for the unification of our forces and the burying deeply of our party prejudices as we move forward against a foe who knows no party but the one who aids its unhallowed cause. We record with satisfaction the fact that many of the electors of our province, from a burning desire to promote the interests of our cause, cheerfully decided to sunder ties of party, and, in some cases, intimate friendships and old associations, to stand independently for the principles we cherish. We hail with delight the information that a large number of candidates in the recent provincial contest bravely espoused the prohibition cause, and in this we find a prophecy of better days, recognizing that one of the chief obstacles in the way of obtaining prohibition of the liquor traffic is the extreme partyism of the day, we would recommend as a corrective means, that all ministers preach, especially at times free from political agitation, on a national righteousness, at the duty of the Christian citizenship." The report also directed attention to the General Conference temperance collection, commended the earnest action of the W. C. T. U., urged diligence and earnestness in temperance work, and me-morialized the Sabbath school committee to continue the quarterly temper- Young and Walter Rigsby were apance lessons, and recommended that Rev. T. R. McNair, C. P. Scott (London), and Messrs. C. B. Keenleyside (London), and W. F. Lawrence be (London), and conference be conclude the business, and conference. representatives of the conference on the council of the Ontario branch of the Dominion Alliance.

Rev. S. Bond said that everybody had felt the effect of the cold air thrown upon the referendum by the Dominion Alliance, and other bodies, which might operate prejudicially against the adoption of prohibition when the referendum came up. The second clause, he held, went further than a mere disapproval of the conditions of the referendum, and further than the conference ought to go.
Rev. E. N. Baker protested

politics were sticking out in objections that were being raised. They were all, he said, of one mind, and conference should at once adopt the clause. The report was adopted.

TO IGNORE REFERENDUM.

The adoption of a resolution by the quarterly board of the First Methodist Church, London, calling upon the friends of the conference to utterly repudiate and ignore the referendum, was moved by Mr. J. H. Chapman, seconded by Rev. George Jackson. The two and one-half years old; the result proposal gave rise to a discussion which continued until a late hour this evening. Rev. Dr. Gundy was satisfled the London body had, in passing the memorial, done under excitement that which they would not do in sober moments. Rev. S. J. Allin said when the government shackled his hands and feet and left the other man free he was not satisfied to fight that way. Rev. W. McDonagh-Then bite him.

Mr. Allin took exception to Rev. Dr Carman's presentation of the case this orning as extremely one-sided. Rev. W. McDonagh, though insulted by the referendum, and at first inclined to ignore it, having seen the effect of that policy in Manitoba, had been forced to the conclusion that they should endeavor to secure prohibition.

That was the main object. At the evening session Rev. H. W. McTavish offered an amendment expressing dissatisfaction with the reerendum clauses of the liquor act, and pledging conference, without accepting esponsibility for the success or failure of the movement, to act in harmony with the general conference committee and temperance organizations in securing the largest possible favor-

able vote. Mr. C. T. Scott said a circular favoring the referendum had been issued by a coterie of men in the alliance who are suspected of managing affairs with a political bias. A resolution moved by Dr. Carman at the same meeting was smothered by those men, and did not appear in the circular. The same coerie compose a small section of the Methodist Alliance committee, passed a resolution there in reference the referendum when there were ery few present.

Mr. R. W. McKenzie said he had oted Liberal for forty years, and urged that Prohibitionists, Conservatives and Liberals alike, join together to carry the referendum.

Rev. G. J. Bishop accepted the prinriple of the referendum, but objected o the unreasonable and unjust condiions which made it impossible to win. He had withdrawn from the alliance, because he believed it was controlled n the interests of the Liberal party. Rev. W. McNair moved in amendment to the amendment expressing disapproval of the government for he course regarding the referendum, and also the action of the opposition, with the exception Messrs. Marter, Crawford, Barr, and Tucker, who stood for fair conditions, and recommended the Methodist people to roll up a big majority for the referendum.

Mr. C. B. Keenleyside said Dr. Car-BY BRIBING THE NERVES with man had not shown any reason for changing from his first position of antagonism to the referendum, which he had previously denounced. This was a liquorman's trap, and what would they think of the leader who deliberately led his people into what he knew to be an ambush.

Rev. Dr. Willoughby favored a resolution giving the members freedom of action

Rev. A. Birks objected to the referendum. Rev. D. N. McCamus warmly defend-

A GOOD MAN CALLED HOME

Death of Rev. Dr. Geo. H. Hept worth at New York City.

Was the Author of the Far "Hepworth Sermons."

The world became immeasurably poorer on Saturday last by the death of Rev. Dr. George H. Hepworth, of New York, the author of the weekly sermons which have appeared in The Advertiser for nearly two years. Hundreds of thousands of people in Canada and the United States have been cheered onward in the battle of life by the helpful words that flowed from his pen. His point of view was always optimistic, his religion simplicity itself. He taught that the great good lay in faith in God and love of one's fellows. There seems some-thing prophetic in his last sermon, "A Tranquil Life," published in Sat-

urday's Advertiser.
"The future we may regard as assured and leave it to take care of itself," he wrote. "The dear Lord, who watches the sparrow's flight and fall, and who has given us some faint glimpses of what is to be; will keep the wonderful promise: 'I go to prepare a place for you," and we need have no disturbing thoughts, but on the con-

trary, perfect confidence." The effect of his life may best be measured from the following tribute of the New York Sun, a rival of the paper with which he was so long con-

nected:
"The Rev. George H. Hepworth, who died late on Saturday night, had long been an editorial writer and special correspondent of the New York Her-This was his record as a journalist during his many years of service: Thousands of columns and never one word that was not inspired by the kindness and good-will and active desire to help with which his honest soul was filled.'

-Mr. James Drew, C. P. R. fireman, leaves in a few days to accept a good position at Winnipeg. -By the kind permission of Lieut. Col. Little the 7th Regiment band will perform at the garden party on the 17th inst., for the benefit of Colborne

Street Methodist Church. -Dr. W. A. Piper has returned from Chicago, where he has taken a special course in porcelain and bridge work at the Chicago Post-Graduate

Dental College. -The remains of the late Nelson Quinn, formerly of this city, who died at Prescott, Arizona, arrived at Stephenson's undertaking rooms this morning. They will be sent to Delhi. Ont., this afternoon for interment. -Bugler Martin, of No. 1 regimental

depot, has been temporarily transfer-red to No. 2 regimental depot, Toron-to, owing to the absence of Bugler Stevenson, a member of the coronation contingent.

WAR ON WILD MUSTARD. Prof. M. W. Doherty, of the Ontario Agricultural College, is giving practical demonstrations of new and successful methods of exterminating wild mustard by spraying. On Friday, June 13, he will be on the farm of Mr. P. H. Lawson, Hamilton road, lot 6. Westminster. The hour at which Prof. Doherty will explain and demonstrate his way of destroying mustard is 2 p.m. All farmers whose fields are infested with

THE SYNOD OF TORONTO. Toronto, June 11.-Rev. Dr. Langley, an administrator of the Diocese of Toronto in the absence Sweatman, as a result of domestic affliction, opened the meeting of the Synod of Toronto yesterday. Statistics presented showed that the communicants numbered 22,127, as compared with 21,780 last year. The church population is 86,800, as compared with 84,120 in 1901. There are three

more churches and ten fewer stations than there were a year ago. The federation of Trinity University with the University of Toronto was reported upon by Provost Macklem, who expressed the belief that there would be a successful issue from the negotiations now in progress. No details were given as to the terms of federation, but it is understood that Trinity is to remain a residential col-

doing yourself incalculable harm. Is it true you lost so much money on the childish match of Count Carambole's?"

"A hatful," answered the defendant, at the same time taking his own off and looking roguishly into the crown with provoking good humor.

"What a life!" proceded Lady Gertrude, waxing visibly impatient. "What a waste of time and position and talent, for you have talent, you know, Gilbert, if you choose to exert it; and all for what? To play billiards night after night at Pratt's, and yawn through the bay window at White's and the end of the ride in the park; you might do anything."

"Very good of you to say so, dear,"
drawled her cousin. "I'm not bad at

as for high art, and science, and a 'career,' and that sort of thing, why it's not exactly in my line."

She looked at him for a minute or two in stlence. Something almost of contempt curled her lip, while she checked the words that came uppermost, but her eye softened as it rested on his comely, good-humored face, with its habitual expression of lazy contentment, and she put her arm within his and pressed it kindly as she asked his pardon for lecturing him and taking him to task.

"But you know, Gilbert," she said, "Aunt Olivia never scolds you; and so, if I didn't, nobody would take any pains with you, and what would become of you then? I don't believe you really care for any one mortal thing in the world, and more than that, Gilbert, I don't believe you are really happy—there!"

She had broken through the crust at last, for this was a home-thrust. He had been thinking so himself of late more than once; had been startled to learn that the wine-cup of youth could taste so flat sometimes, as if filled from a bad bottle; and the garlands, though fresh and rosy still, were not always radiant with the dew of the morning.

"Happy," he repeated, musingly: "why should I be happy? After all, I am

"Happy," he repeated, musingly: "why should I be happy? After all, I am pretty well alone in the world, Gertrude. I don't believe anyone in London cares two straws about me but you. I have no home; certainly not there," he added, nodding toward the house whereat hung the cage and the canary, and to which it was already time for his cousin to return. "But I live as ninety-nine out of every hundred do. I take the rough of every numbered do. I take the rough with the smooth; and I suppose, after all, I am as well off as my neighbors. At least, I don't know any I should like to change places with. Certainly none that own such a pretty cousin with such a pretty bonnet. Time to go in is it?

that own such a pretty cousin with such a pretty bonnet. Time to go in is it? Well, good-bye, Gertrude, dear; I'm always the better for a scolding from you, and I'll do anything you like this afternoon, only let me out of the square first. If I don't go away, you know I can't come back again."

So the white hat was presently vacillating up the shady side of Grosvenor Place, and Lady Gertrude, having taken of her bonnet, which now struck her as indeed a very pretty one, sat her down, as we have already stated, in her own armchair, to recapitulate and think over

as we nave already stated, in her own armchair, to recapitulate and think over the events of the morning. The result of her cognitations was in one respect, at least decisive. She went to her writing-table, and selecting a to her writing table, and, selecting a pen with great care, proceeded to write a note, which she folded and sealed with accurate nicety. We must do women the justice to allow that their missives, however involved in sense and grammar, are at least fairly and decently worked out as regards caligraphy; and that they do not seem to consider the legacy of Cadmus simply as a means of puzzling their hapless correspondents. This done, she looked once more at the colored photograph, once more at the winsome Lady Gertrude over yonder in winsome Lady Gertrude over vonder in the looking-glass; then she walked rest-lessly to the window and looked forth into the square gardens which she had so recently quitted, and drew a long breath as of one who has at last solved a difficulty, the while she murmured in an audible whisper:

"It will be far better for us both; I shall marry my cousin Gilbert!"

And the canary struggled to get out of her cage, and fought and fluttered, and beat her breast against the bars.

and beat her breast against the bars. CHAPTER II.

The cads at Tattersall's Yard knew Gilbert Orme as well as the Wellington statue. The fast young gentlemen who frequent that equine resort had each and all a greeting and a pleasant word or two for avowedly "the nicest fellow in England." Half a dozen seasons in London, autumns at Cowes, and winters in the grass countries, had thoroughly identified him with that abnormal portion of the human race which calls itself tion of the human race which calls itself the world; and with good health, good spirits, good looks and a good income, few went the pace so easily and gracefully as gentle Gilbert Orme. A long minority had put him in possession of a large sum of ready money, so that the gloss of youth was untarnished by the many anxieties and annoyances which lay upon none so heavily as those who eannot afford to live in society, and cannot bear to live out of it. "How I should hate to be a poor man!" was Gilbert's cousin, P. G. Deroft-quoted exclamation, when he over-

heard young Brozier lamenting his inability to keep a certain high-stepping cab horse, which was the only distinction advanced by that uninteresting youth, and the sentiment counted for a joke at the clubs. Many of the members knew its import too well by bitter experience, for alas, several of those magnificoes whom we are so often called upon to admire, as they pace the Ride in equestrian splendor, or traverse Pall Mall in gorgeous apparel, have secret doubts and difficulties far more entralling than those of Mr. Plausible, the coachmaker whose schedule bears him triumphantly through the insolvent court; and ends that won't stretch to come within half a yard as near meeting as those of John Stokes, the bricklayer. THE TURF.

THE CANADIAN DERBY. Fort Erie Race Track, Ont., June 11. -Derby Day was somewhat marred by showers, which began early in the morning and continued throughout the afternoon. This, of course, had a visible effect on the attendance, but in spite of the weather a large crowd was present. Six events were run off over a muddy track. Seven horses were carded to start in the Derby, but only three faced the starter. Dubious got away in the lead, followed by Mattie Spencer and Red Robe. It was a loafing race until the last few furlongs. Judges Nelson and Morrow were in the stand, and Mars Cassidy handled the starter's flag, and used the no-recall system, which was tried

The spring meet, just closed, of the Hamilton jockey club, was probably the most successful held in the history of the club. About \$500 more was received this year than last, and last year's receipts were greater than previous years.

Following is a list of the winning owners at the Hamilton meeting which closed on Saturday: R. F. Meyers, \$950; S. E. Parmer, \$725; M. Stowe. \$675; J. E. Seagram, \$600; G. H. Shearer, \$500; T. Ard Patrick is undoubtedly the biggest horse that ever won the Derby. He stands within a fraction of 17 hands, and since his appearance in the up. The home team were handicapped early spring races has been considercarrying steeplechaser they said he might be a success, but he was en-1901-F. Bruhrs & Co.'s Ben McDhuf. tirely too massive for the classic event 122 pounds (Lewis), 1; Khaki, 115 of the Epsom Downs. But though ap-

pearing to be top-heavy and unwieldly, it was noticed that for an animal of his dimensions he was exceptionally October he looked rawboned, but filled out in the spring work. His limbs cleaned off and his muscle rounded into shape, and latterly he has been regarded as the grandest-looking colt on the English turf. St. Florian, the sire of Ard Patrick, is by St. Simon out of Palmflower, a sister to Jenny Howlet by The Palmer. He is a bay with black points, standing 16½ hands high. He succeeded Kendal (Galtee More's sire) at the Knockany stud, where his fee is 50 guineas. St. Florian was a good racehorse, but with Ladas and Isinglass racing against him he was not always successful. Morganette, Ard Patrick's dam, is by Springfield (son of St. Albans and Viridis, by Marsyan) out of Lady Morgan, by Thormanby out of Morgan La Faye, by Cowl out of Miami by Venison.

John Russell Gubbins, owner of Ard Patrick and Galtee More, who won the Derby in 1898, was born at Kilfrush Hospital, county Limerick, Ireland, 67 years ago. For the past 45 years he has been closely identified with racing in England and Ireland. A modest man in his way, Gubbins is careless of the fame earned for him by his stable. He indulges in the sport simply as a lover of horses. As a breeder and a judge of the best animals to cross, Gubbins has probably Thistles 10 15 no equal in Great Britain. He is so Dufferins 8 9 4 er, W. Y. Archibald, Darcy Scott, Ot-keen on the subject that he has often Batteries—Reardon, Kerr and Multawa, and W. J. Another peculiarity about Gubbins is his custom of naming his horses after strange objects and cattles adjacent to his home. Galtee More was named after the highest peak of the Galtee Mountains. Ard Patrick after a round green hill. Anglicized, the name means high Patrick. It is a continuation of the Galtee

BOXING.

SUPPLES WON DECISION. Buffalo, N. Y., June 11 .- "Curley" Supples, of this city, won a close decision from Art Simms, of Akron, Ohio, after twenty rounds of boxing, before (E. Gilmore), 20 to 1, 1; Boater, 109 the Fort Erie, Ont., club last night. Simms was at a disadvantage under the strict Canadian rules and his defeat is due to his extreme care not to violate those rules. Supples refused to Address all replies to Heber Gibson, weigh in before the contest, and looked pounds over the stipulated weight, 133 pounds. E. H. McBride was the referee. About 2,000 people were present.

Gossip of the Boxers.

The boxer who has a lot to say before the fight, generally has a few regrets coming to him after it's all over and the calcium has been turned off. It's a way fate has of arranging things. Bert Mathewson, the manager of Simme, the Akron lightweight, defeated by Supples last night, said to a Buffalo reporter before the fight: "I never saw a man who is so confident of winning as is Simms. He weighs about 132 pounds, and he is in the very best of shape. When he arrived here he at and 4 to 1, 3. Time, 1:11%.

Second race, 3-year-olds, handi- this contest with Supples I will quit excuses to offer. His weight just suits 2-year-olds, 5 furlongs—Plater, 102 me to offer if I lose. What is more," (H. Michaels), 4 to 1 and 6 to 5, 1; said Mathewson, "Simms brought with Sergeant, 107 (O'Connor), 8 to 5 and 3 him \$600 of a pool which was raised by wins."

> Some of the efforts that are being made to boom the Jeffries-Fitzsimmons fight are rather ludicrous. The dilly-dallying that these puglists indulged in all during the spring had the effect of knocking the bout when it was finally arranged, and there is much less interest in this event than in the coming meeting between the champions at lesser weight-Young Corbett and McGovern. tory a week hence. Toronto Telegram: There would have been no "I regret to state," "Signed, score of Kitchener," had the British Govern-ered. ment sent out a squad of Shamrocks and Tecumsehs. They would have gone through the Boers like drawn butter through a sieve.

Woodstock Sentinel Review: If London's team were all like Paddy Kelly their chances for winning the league would be much improved.

Brantford Expositor: A pleasing feature of the works of the Brantfords this season is the perfect unselfishness which exists. Not one of the men seems to be playing for the stands. and the ball is passed to the man who can do the most good with it. On the home there is little shooting until shots can be made effectively, and it makes no difference who has to do the work, the rubber goes to the player who has the best chance to put it in the nets.

Brantford Expositor: After it all it can be said that the Brantfords are not at their best vet, although no one can find very great fault with the result of Saturday's game. In the first place they are not in as good shape as they will be later in the season, and some of the men have a few things to learn in the passing line. Occasionally the defense men stray too far from their pasture, and a good home fielder could be used to advantage. These are weak spots that will be made all right with further practice, and it will not be long before the team is in perfect shape. Batteries-Garvin and Sullivan; Patten John Dowling, who was with the Torontos last year, and Cain, who is billed for a place on the home field will be in Brantford next week, and they will take their places as soon as they are in shape for the game. With them in the parade, the locals need not be afraid of anything in the league, if they work as they have done in the past. The management will have enough good men at their disposal to cover all cases of men being hurt, or being unable to play through sickness.

WRESTLING.

SCOTSMAN WORRIED JENKINS. Cleveland, Ohio, June 11.-Tom Jenkins undertook too great a task last night when he tried to throw Dan Mc-Leod, of Hamilton, Ont., twice within 90 minutes of actual wrestling time.

about 3,000 spectators saw the contest Jenkins was able to secure but o fall, and that took up 53 minutes of his allotted time. The fall was se-cured with a Nelson and a crotch hold. After a rest of 15 minutes the men again went on the mat, and Mc-Leod stood the big Cleveland wrestler off until the time had expired, thus winning the contest. The articles of agreement stated that the contest was for \$1,500, besides McLeod Jenkins could not throw him twice in the time stated. Jenkins put up \$500 additional that he could do so. The contest was a severe one from the start, McLeod doing his full share of the aggressive work, keeping after Jenkins constantly. Jenkins was probably several pounds heavier than Mc-Leod, who weighed about 175 pounds. There was little betting, but Jenkins was a top-heavy favorite with those who put up any money.

J. M. McWHINNEY RESIGNS

Retires From Secretary-Treasurership of Synod.

Will Become Assistant Manager of Union Trust Company.

Mr. J. M. McWhinney, for twelve years a resident of this city, has tendered his resignation as secretarytreasurer of the Synod of Huron, to accept the responsible position of assistant manager af the Union Trust Company of Toronto. The resignation will come before the synod at its annual meeting next week, when Mr. Mc-Whinney will ask to be released as early as possible.

Mr. McWhinney has very many friends in this city, and all will regret exceedingly that he will soon remove from London, yet will be pleased at this recognition of his ability. Among curlers especially Mr. McWhinney's removal will be regretted. He was an ardent follower of this sport, and for two years was president of the Forest City Club. The Union Trust Company is a very large concern, of which Hon. George E. Foster is general manager.

DOWIE ACTING AS GABRIEL'S AID

Prepares to Blow a Horn to Arouse His Sluggards.

HE PUTS A LIMIT ON SLEEP

Establishes a Fixed Bedtime, Which, If Violated, Means Jail for Offenders.

Chicago, June 11.—Not being satisfied with the mantle of Elijah, John Alexander Dowie is to usurp the privileges and prerogatives of Gabriel, says the Chicago It dawned on the healer yesterday that Zion City was sleeping too much, and simultaneous with the revelation came a

determination to correct the evil. Never being averse to blowing his own horn, Dowie decided on a literal application of his knowledge of that gentle

art.

Briefly, he is to toot the sluggards out of bed.

"Wake up! Wake up!" he shouted, as if by sudden inspiration when he had almost finished his sermon yesterday in his new temple in the north shore colony.

Deacon Speicher shifted nervously in his chair, and each of the 5,000 auditors looked at somebody else to see who had fallen asleep.

"Wake up, I say!" the prophet thundered on. "We're doing too much sleeping in Zion. It's got to stop."

By this time the faithful were beginning to understand. Dowie was speaking only in generalities."

PUTS A LIMIT ON SLEEP.

PUTS A LIMIT ON SLEEP. "Sluggards, harken, all of you," the overseer continued. "You are wedded to your beds. But I'll divorce you. Eight hours' sleep is enough for any man. More than that is a sin. When a man's asleep he's of mighty little account, and we can't stand for drones in Zion.

"If you lazy lubbers can't tear yourselves away from beds I'll get up in the morning and toot you out. I'll blow my horn till you stick your frowsy heads out of the window and beg me to stop. If you're my sluggards, I'll be your Gabriel. Remember that!"

Nobody had a change to forget it, as Nobody had a chance to forget it, as before the sound of his voice had died away Dowie was lambasting the faithful from a new angle.

EARLY TO BED-OR JAIL. "Now that Joe arranged to wake you up, I'll fix a way to put you to bed," he declared. "When the clock strikes ten I want you to run like rabbits and tumble between the sheets. Ten o'clock is bedtime in Zion City hereafter, and nobody can break the rule.

"Wo've got policemen here in Zion, and so far they haven't got much to do. Now so far they haven't got much to do. Now is the chance for them to get busy. If you're out on the streets after ten o'clock they'll gobble you up and chuck you behind the bars. "This goes! After ten o'clock hike home and to bed."

INSPIRED BY A SNEEZE. At this point Elder Speicher, who had been nodding approvingly, began to blink and then clutched violently at his mouth and nose. An instant later there was an explosive sneeze.

"That reminds me," interrupted Dowie and it was a real interruption because

—and it was a real interruption, because Mr. Speicher was still gesticulating wildly and preparing to sneeze again—"that we've got to look out for our health here in Zion. The devil sends chill breezes in off the lake, and the result: We sneeze "I want all of you men to grow whis-

"I want all of you men to grow whiskers. That's the way to beat the devil and his microbes. The whiskers will protect your throat from the wicked winds, and then we can laugh at Satan.

"Whiskers are great things. I wear them myself."

Before mapping out his reforms for Zion, Dowie had baptized 225 of his follower in the new improving target. lowers in the new immersion tank, of which he is particularly proud.

NINETEEN PERSONS INJURED

Three Men Killed in a Michigan Mine-Father and His Two Sons Drowned.

Macon, Ga., June 11 .- A southbound passenger train on the Southern Railway, proceeding out of Juliet, 23 miles north of Macon, and under full headway, was struck by a freight train on a sharp curve at 2:10 o'clock yesterday afternoon. Aboard were many dentists coming to attend the state convention and a number of other well-known men. The curve was so sharp that the passengers saw the approaching freight and a panic de veloped instantly. The shock of the collision was so great that seats were smashed into splinters and glass into fragments. The engines and tenders were piled on each other.

THE VICTIMS. Engineer Pittman and Fireman Ea. West, of the passenger train, were pinned in their cab and killed. Engineer Gailey, of the freight, escaped by jumping, but he was seri-ously injured. Gailey says his watch was wrong, and he thought he had time to reach the Juliet siding. The dead—Jas. T. Pitiman, of Atlanta, engineer of passenger train; Ed. West, negro, of Atlanta, fireman. The injured numbered 19.

Those reported in a critical condition are: T. T. Mears, Enosburg Falls, Vt.; A. W. Wattles, Chicago; Mrs. Amelia Wilson, Chicago. The other 31 injured persons were reported to be better. The eight men arrested were still held today, including O. E. Miller, president of St. Luke's Society.

A search of the records of the health department today failed to show any record that the hospital had been licensed according to the law. oner Traeger decided to postpone the inquest till a complete investigation has been made. Counsel for the men under arrest said that the society apbeen definitely settled, and the decision plied several times for a hospital license, but was always refused, because the people in the neighborhood of the hospital objected to the location of such an institution near them.

Judge Van, of New York Court of Appeals, Confirms the Sentence.

Albany, N. Y., June 11 .- The court of appeals has unanimously affirmed the judgment of conviction of John Most, who was convicted of publishing an improper article in a paper owned by him in New York, and who was sentenced to one year's imprisonment in the New York penitentiary. Judge Van, who wrote the opinion, says: "A publication which instigates revolution and murder; which sug-gests the persons to be murdered through the positions occupied and the

duties performed by them; which advises all to discharge their duty to the human race by murdering those who enforce the law; which denounces those who share the ministerings of public justice as a crime against hu-manity, and which names poison and dynamite as the agencies to be used to murder and destroy, necessarily en-dangers the public peace. The constitution does not protect the publisher from the consequences of a crime committed by the act of publication. It does not sanction the publication of articles prompting the commission of murder or the overthrow of government by force. No constitutional right of the defendant was violated by his conviction, and the judgment is hereby affirmed."
