WESTERN GERMANY REPORTED TO BE SEETHING WITH BOLSHEVISM

Germans Treating British Prisoners With Utmost Brutality

ARRESTS ARE TO FOLLOW DISCOVERY OF FRAUD IN GRANTING OF EXEMPTIONS

Sensational Developments Are Looked For At Montmagny, Que. — Prominent People Said To Be Implicated.

Quebec, Nov. 23.—Sensational arrests are on the verge of being made here in connection with the discovery of the fraud in the granting of exemptions from the military service act at Montmagny, Quebec. It appears there was a general business organization afoot in Quebec district for the sale of exemption papers. Prominent people are said to be implicated and their arrest, which is impending, will create no small commotion. Preliminary inquiry that is going on in the court of special sessions of the peace, under Judge Langelier, had been opened to the public.

HAPPY BELGIANS STREW FLOWERS IN PATH OF KING ALBERT AS THE ROYAL PARTY ENTERS BRUSSELS

Procession Ten Miles In Leng th Is Reviewed by Monarch of Liberated Country—Trem endous Ovation Tendered to the Ro yal Family.

Brussels, Nov. 22.—King Albert entered Brussels this morning at 10 o'clock, accompanied by Queen Elizabeth, the Princes Leopold and Charles and Princess Marie Jose.

The royal party entered at the Porte De Flanders and proceeded to the Place de la Nation, receiving a tremendous ovation along the streets. Entering the Parliament House, King Albert and his family listened to an address of welcome. Then followed a review of allied troops forming a line ten miles long. Flowers were thrown in the path of the king as the procession made its way along boulevards lined for miles with dense throngs. As this dispatch is being written the noise of cheering rolls continuously like thunder across the city.

King Albert and his two sons were on horseback. The crown prince was on his right and was dressed in khaki, while his younger brother was dressed in the uniform of a midshipman.

City in Gala Attire.

The city is wearing its gala dress and the influx of thousands during recent days has made it impossible for all to obtain lodgings. Many are sleeping in public halls and shelters.

The return of King Albert to his capital recalls the king's prophecy in an interview with the Associated Press only a few months after the beginning of the war. The Belgians, having checked the first rush of the Germans, had been driven from their country. In the dispatch reporting this interview given on December 20, 1914, at the king's headquarters in West Flanders, the following passage occurred:

"Your majesty, it has been predicted that you will re-enter your capital within three months," the correspondent said.

The king shook his head sadly, saying: "Not so soon, but some day I shall ride into Brussels at the head of the Belgian army."

British, French and American troops marched with the Belgians into Brussels yesterday when King Albert made his entry into his capital, says the Daily Mail's correspondent, who witnessed the entry.

"I have seen many great ceremonies at many places," the correspondent writes.

People's Joy Unbounded.

"It is easy to be superlative, but I have never seen so vast a crowd so carried away by a tumult of fervor. Put a modern artillery barr ge into terms of delight and you have some idea of the ecstasy of the people, who felt that their release from captivity coincided with the birth of the millenium. The royal family stood for the return of peace. The king was at the head of the army which had won that peace by its sacrifice. Two divisions of the Belgian army, occupying something like fifteen miles of roads, marched in the procession, accompanied by battalions of French, American and British troops with artillery. This procession was far down the Ghent road while the front was passing down the Rue Royale.

Airplanes Floated Above.

"The day was like midsummer. Many airplanes turned a silver lining to the sun as they played fantastic tricks high in the blue. Others let drop streamers on the crowd. Every window, balcony, roof and street kiosk was packed over the whole route. The people on the balconies had provided themselves with numerous miniature flags and chrysanthemums that they rained down continually. Thousands could not even approach the route of the parade. All the roads leading to the Rue Royale and the boulevard Anspach were blocked with folk. The crowd was impassable at the Porte de Flanders hours before the king's arrival. I found three British dragoons enveloped in an ardent crowd off the line of the route and afraid to move either way. Musical people burst into the national song at any prompting, or none at all.

"At one place 500 young women sang the Belgian song. Near their gay company stood a pathetic group of as many wounded men."

Council of Calgary Board of Trade Favors Saturday Afternoon.

Calgary, Nov. 23.—The council of the Calgary Board of Trade today has instructed Secretary D. G. Campbell to wire to the deputy postmaster-general recommending that the postmen receive a weekly half holiday the year round, preferably on Saturday afternoon.

This decision was reached after hundreds of questions had been sent out to Calgary merchants at the request of the assistant postmaster-general. Several hundred replies were received, and these revealed that the merchants were overwhelmingly in favor of the proposition.

AIRPLANES COLLIDE

Elkton, Nov. 23.—Sailing through the air at a height of 3,000 feet, two airplanes, operated by Lieut. James V. Tierney and Lieut. John Hoare, collided over this city yesterday afternoon. The machines appeared as if locked together, then broke apart and started to descend.

The plane operated by Lieut. Tierney turned over several times and finally landed on its nose in a field. Lieut. Tierney escaped without serious injury. Lieut. Hoare, whose machine was badly damaged in the collision, narrowly escaped striking several buildings and trees and landed in a field. He suffered a fracture of the right leg below the knee.

The planes were making a trip from Washington to Mitchell Field, Garden City, N. Y.

CASUALTIES IN AMERICAN ARMY EXCEED 250,000

U. S. Forces Captured 44,000 Germans and 1,400 Guns.

Washington, Nov. 23.—General March, U. S. chief of staff, announced today that authority had been given to General Pershing to send back home all such troops as will not be needed in making up the army of occupation. He said that General Pershing had indicated that a number of units would not be so required.

Total casualties in the American expeditionary forces up to the signing of the armistice were divided as follows:

Killed and died of wounds, 36,154.
Died of disease, 13,811.
Died of other causes, 2,204.
Wounded, 179,625.

The American forces in France, General March said, had taken 44,000 German prisoners in round numbers, and 1,400 guns. He added that the casualties among the American forces in Northern Russia were not severe, contrary to reports, and that encouraging accounts of the situation of the forces there had been received.

JAMES C. DUFFIELD DIED AT HIS HOME HERE THIS MORNING

Succumbed To Old Trouble Which Recurred.

PROMINENT FINANCIER

He Was Lifelong Liberal, and Deeply Interested in the City's Progress.

After an illness extending over ten weeks, from the recurrence of an old trouble, ulcer of the stomach, James C. Duffield, one of London's best-known citizens, died at his home, 518 Queen's avenue, at 6 o'clock this morning. Some weeks ago, there was an improvement in his condition, and hopes were entertained for his recovery, but when a relapse occurred, his weakened constitution was unable to resist the disease. He is survived by his wife, formerly Alma Agnes Munro, daughter of the late Sheriff Munro of St. Thomas, and two sons and two daughters, Colin Munro, William Lindley, Alma Louise and Agnes Mary.

The funeral, which will be private, will be held on Monday afternoon at 2:30 o'clock to Mount Pleasant Cemetery.

James C. Duffield, the son of the late Mr. and Mrs. William Duffield of this city, was born here 58 years ago. He lived practically all his life in London, with the exception of the years of his boyhood at Mr. Tassie's famous school in Galt.

After completing his education, he entered the City Gas Company with his father, and has been closely associated with it ever since.

President of the Canada Theatres Company, he had a leading part in the formation of the organization. He was a director of the Western Trust Company and associated with other financial institutions.

A life-long Liberal, he was also prominent in Masonic circles. He was a member of the Cronyn Memorial Church.

Probably no one outside the immediate family has been more deeply affected by the death of Mr. Duffield than his closest friend for years, Hon. C. S. Hyman.

"He was like a brother to me, and that is all I can say at this time," said Mr. Hyman this forenoon, adding: "He was the most generous of men and deeply interested in the city's progress. To me, personally, his death means a very great loss."

BRITISH PRISONERS RECEIVED BRUTAL TREATMENT FROM GERMANS; MEN STARVING AND IN RAGS RELEASED BY HUNS

Enemy Appeared To Treat B ritish More Violently Than Others—Weakened Soldi ers Forced To Do Heavy Labor In Mines As Punishment.

London, Nov. 23.—Pitiable conditions among British prisoners of war who have been liberated by the Germans since the signing of the armistice are described by Reuter's correspondent at French headquarters. Thousands of these men, mostly British, are entering France daily. The correspondent writes: "I have never seen human beings in such a state of raggedness, hunger and misery. When the camp at Forbach, 38 miles east of Metz, as well as those elsewhere, were broken up, the prisoners, some of whom were captured during the March offensive, were told to clear out and seek help from their allies. They started to walk the fifty or sixty miles to the allied lines, but were given no food and had no money. They were in shameful rags, the soles dropping off their boots. Some wore clogs and no socks.

"They left the prison camps in droves of hundreds in charge of German officers and soldiers who had deserted. The weather was very cold, and many died by the roadside within a few miles from friends. When the survivors entered the French lines French soldiers who were hardened war heroes were horrified to see men in such a plight. It is not doubted that this suffering was intentionally imposed upon the British. Prisoners of other nationalities are agreed that the British were treated worse than the others at all German camps."

Received Brutal Treatment.

A further report of Sir Robert Younger's committee dealing with the treatment of British prisoners in the coal and salt mines of Germany gives harrowing details of brutal treatment by the Germans. This report says:

"From testimony scarcely a month old, it is evident that there is no sign of improvement whatever in the treatment of prisoners in Germany. This disgrace is open and flagrant, and the only possible inference is that Berlin deliberately approves of it. There is no doubt that work in the mines is inflicted as punishment. Here is an extract from

OCEAN'S GREATEST GREYHOUNDS SUNK DURING THE WAR

Fifteen Liners Were Lost by the Cunard Steamship Company.

New York, Nov. 23.—Fifteen steamships aggregating 206,769 gross tons were lost by the Cunard Line during the period of the war, it was learned here today. Of these, all except two were classed as war losses, having been sunk by torpedoes or mines. The Campania and the Ascania were lost through accidents. The tonnage sunk represents approximately one-half of that possessed by the line at the outbreak of the war in 1914. Nearly all of the Cunard liners were well-known Atlantic greyhounds, the largest of which was the Lusitania, torpedoed on May 7, 1915.

The Anchor Line, a subsidiary of the company, also lost heavily, eight ships, including the 14,340-ton Tuscania, falling prey to the German sea depredations, total tonnage losses of this line being 65,488.

Ships That Were Sunk.

The following are the ships of the two lines which were sent to the bottom:

Cunard Line:

Lusitania, 30,396 tons; Franconia, 18,150; Laconia, 18,099; Transylvania, 14,500; Ivernia, 14,278; Carpathia, 13,603; Alaunia, 13,405; Andania, 13,405; Aurania, 13,936; Campania, 13,950; Royal Edward, 11,117; Ultonia, 10,202; Ausonia, 9,121; Ansonia, 8,153; Feltria, 5,254.

Baltimore, Md., Nov. 22.—Capt. J. S. Fawes has arrived in the city after his trip to the Faroe Islands, where he carried a cargo of food to the starving Danes in the schooner Herbert May. He was at Halifax when the great explosion occurred there. Reports From Copenhagen and Amsterdam Emphasize Lack of Harmony Growing Out of Chaotic Political Conditions in Germany.

London, Nov. 23.—The chaotic political conditions in Germany are emphasized in reports received here from Amsterdam and Copenhagen purporting to reproduce direct telegrams from Germany. There is a sharp divergence of opinion in regard to the makeup of the new Germany.

There is a general lack of harmony in different parts of the country and a tendency towards separatism. Bolshevik ideas are declared to be growing in the west, where a Rhenish republic is said to be planned.

The Bremen soldiers' and workers' council, at a meeting declared itself in complete accord with Bolshevism, and resolved to call on the Bolsheviki in Russia to help introduce communism.

The Sparticus group at Dusseldorf is reported to have proclaimed a proletarian dictatorship and arrested the burgomaster of the city.

Dr. Karl Liebknecht, the radical Socialist, was acclaimed at a Sparticus meeting in Berlin which issued an appeal to the workers to emulate the Russian Bolsheviki. The meeting refused to listen to Moderate Socialist speakers.

German Women Appeal in Vain For Intercession

French Mothers, Wives and Sisters Consider Armistice Terms Justified.

Paris, Nov. 23.—The National Council of French Women has declined to intercede with the French Government to mitigate the terms of the German armistice. In reply to a message published in the press from German women to Mme. Jules Sigfried, president of the council, the council yesterday unanimously adopted this resolution:

"No. We will not intercede with our Government to mitigate the conditions of the armistice, which are only too justified by the manner in which Germany has waged war.

"In the course of these tragic years German women, believing victory was certain, remained silent at the crimes of their government, their army and their navy. At the congress at The Hague, to which we refused to go, the president of the National Council of German women was invited to protest against the violation of Belgium and against the torpedoing of the Lusitania. She wrote in reply: 'We are at one with our people. The men who took the responsibility for Germany's decisions are as dear to us as those who are shedding their blood for us on the battlefield.'

"To our indignant protest against the deportation of women and young girls, and when we showed that history might possibly bring a reversal of fortune, there was no response."

PREMIER BORDEN TO TEMPORARILY TAKE OVER THE DUTIES OF KEMP

Unsettled Questions Concerning Demobilization Will Be Dealt With at Once.

London, Nov. 23.—Sir Robert Borden, Canadian prime minister, interviewed by the Pall Mall Gazette, said that owing to the illness of Sir Edward Kemp he will have to take up several unsettled demobilization questions. The subject was intimately associated with the re-establishment of returned soldiers to civil life. Among opportunities specially obvious was the cultivation of vast areas of untouched fertile soil. Canadian soldiers, he said, comprised a very important and enterprising element in the population. They would take back to Canada a wider vision of the world's affairs and a truer conception of progress based upon the best ideals of democracy, coupled with an earnestness of purpose which would not fail to make itself felt in the national spirit and aspirations. Canada, recognized and would repay her great indebtedness to the soldiers for their splendid services and the distinction which their achievements had brought to the Dominion.

SALVATION ARMY'S MATERNITY HOSPITAL HELPED MANY GIRLS

Over 140 Cases Cared For In the Year.

FURNISHING IS NEEDED

Several Rooms Require Expenditure of Money For Their Fittings.

The new Salvation Army Maternity Hospital on Riverview avenue still has a number of rooms which require to be furnished. In the past year, the institution has cared for 142 girls and babes, who, but for the kindly offices of the Salvation Army would have been in hapless plight. Not only does the Army care for unfortunates in the time of greatest need, but every case is followed up as an individual case; each young woman who goes out from the maternity home thereafter has the care and friendship of the Army; each child the guardianship.

Furnishings Needed.

Among the rooms which remain to be furnished, are a sunroom, which will cost $150; a babies' room, $70; kitchen, $400; two diet kitchens, $70 each; reception room and office.

Several London people and organizations each have furnished a room. Among these are Mrs. T. A. Stevens, Mrs. C. F. Stevens, Mrs. Wm. Wyatt, Mrs. F. L. Barber, Mr. and Mrs. Robert Coates, Mr. and Mrs. McArthur, Mrs. Ethel Malcolm, Kincardine; Mrs. (Dr.) J. A. MacGregor, Rev. and Mrs. C. C. Waller, Girls' Social Service Club, St. Andrew's Ladies' Aid, two rooms; a girls' class in St. Andrew's Sunday School; Farmers' Advocate, Ingersoll Corps Salvation Army, congregation of St. Paul's Cathedral, New St. James' Sunday School, Personal Service Club, a Women's Institute branch, near Chatham.

University Helps.

The Western University has furnished the two operating rooms. Numbers of other people and organizations have contributed generously towards the furnishing of rooms. It is desirable, owing to the pressing demands of the work and the service rendered thereby in salvaging lives, that the equipment of the hospital be completed as early as possible.

Winter Weather Is Here; Suddeness of Onslaught Startles

London got just a little more than a taste of the beautiful last night and early this morning, and it looked good to youngsters, curlers and hockey fans, but to householders with a few scuttles of coal scattered through the bin, the snow loomed up like a million dollar creditor, and twelve degrees of frost more than enough.

However, one swallow doesn't make a summer, nor yet does one fall of snow mean that old King Winter has the populace in his grip. This bright thought though is poor satisfaction to shivering males who have yet to cast aside H. D. X.'s for the itchy "unions" which will this day be yanked from the moth ball homes to do duty until next April or May.

The pavements were extremely slippery as the result of the fallen temperature, and horses were sprawling along like the three midnight sons. The favorite melody whistled by workers this a. m. was not "Smiles," but "Keep the Home Fires Burning".

MEDICOS DISCUSS TWO SUBJECTS OF INTEREST

Journal Club of '22 Class Holds Second Meeting of Session.

The second bi-monthly meeting of the Journal Club of the class of '22 Meds. was held in the Medical School Friday evening. There was a full attendance and after usual routine business papers were read by two members. M. Douglas, the first speaker, dealt with lymph drainage dwelling extensively on the gastric lymph drainage. The more advanced theories were given, which brought some discussion from the members of the club.

Mr. Martin followed with a discourse on a newly-advanced subject, "Anthropology." While only a modern theory, it has already shown that many so-called "hereditary disease" have been caused more by environment than by heredity. This subject includes both eugenics and hygiene, and is being adopted as a course on the post-graduate curriculum of some of the American medical colleges.

After an enthusiastic contest, C. Bowen was elected representative to the Western University Literary Society.

It was also decided to enter a team in the Western University Basketball League.

The whole class was unanimous in its decision to accompany the rugby team to Woodstock tomorrow.

A POUND OF FISH A WEEK

(Mr. Sawyer stated that if possible a fish drive would be put on in December. "A pound of fish per week per person" is the slogan of the department.—News Item, Advertiser, November 20, 1918.)

"A pound of fish per week per person,"
Sound that slogan! Start rehearsin',
That's Sawyer's program for December;
Let each adult and child remember.

Let us all eat one pound per week
Of finny game from lake and creek,
But let's not grow so fond of fish,
That we will eat no other dish,
Else we'd consume the share that would
Do members of the food board good,
For it's been said, time and again,
That fish makes and increases brain.

At the close of the dance a tableau was staged in which Miss Canada, the army, the navy and Kaiser Bill were represented. The taubleau was cleverly staged by members of the club.

BLACK FEATHER MADE DECIDED HIT THURSDAY

"The Black Feather," which was presented by St. George's C. I. Club, was greeted by a full house last night and scored a decided hit. ANTHRACITE COAL PRODUCTION FAR BELOW AVERAGE

Total Amount To Date Is 63,381,000 Net Tons.

Washington, Nov. 23.—Production of anthracite coal has been so reduced by a number of causes that it is now nearly 100,000 net tons behind the daily average production for last year, the fuel administration announced today in making public figures on production for the week ending November 16. During the week production averaged 234,000 net tons daily in comparison with 333,000 net tons during the same week of 1917. Influenza and the celebration of the armistice signing contributed to the lowering of production, it was said.

The total production of anthracite for the coal year to date is 63,381,000 net tons, the fuel administration today announced. At the same date last year it was 64,921,000 tons.

The week of prayer is now widely used by the members in many countries as a special occasion of remembering their fellowship with the members of the associations in other countries, of sharing their triumphs and difficulties in prayer. In some it is also used as the best time for showing their recognition of this fellowship by the offering of the world's penny. This small gift enables each member to feel that she has some share in the correspondence, conferences, visitation and literature by which the World's Y. W. C. A. seeks to help all that national associations throughout the world. This work has been very seriously curtailed by the war, but now it will be of increased importance, and all the "pennies" are needed as much as ever to prepare for the future.

GOES TO HALIFAX TO CONDUCT FUND CAMPAIGN

Adjutant F. W. Martin Will Help Raise $150,000.

Adjutant F. W. Martin of the headquarters staff of the Salvation Army in this district leaves next week for Nova Scotia, to undertake a campaign there to raise funds for a Salvation Army hospital which is being erected in Halifax at a cost of $150,000. The hospital is to be jointly supported by the Province of Nova Scotia, the city of Halifax and subscriptions. Adjutant Martin will be back in London for Christmas, after which he will return to Halifax for a few weeks to wind up the campaign.

BUSINESS HERE IS OF MODERATE PROPORTIONS

London reports to Bradstreet's that business generally is of moderate proportions, although the cessation of hostilities in Europe has given rise to some conservatism on the part of merchants. They have adopted a waiting attitude, and prefer to withhold too heavy buying, until they see the trend of the markets. However, the retail shops are anticipating a fairly heavy Christmas trade. Payments have been a bit slow, but should be better from now on, during the Christmas shopping. At country points, grain deliveries are light, the farmers waiting for colder weather to bring out their supplies. Country produce has advanced to new levels, and offerings are small.

BOLD THEFT FROM REGENT POOLROOM

Cigars, Cigarettes and Money Taken During Night.

The high cost of cigars and cigarettes was solved by one of more individuals at the expense of the proprietor of the Regent pool room and cigar stand on Dundas street last night.

The place was closed up at the usual hour, but no special search was made in the cellar, where the smoke fiends were undoubtedly located. Later on, when all was quiet, and the measured tread of the police constable had died away in the distance, it is supposed that the thief or thieves ascended the stairs and filled up their pockets with choice cigars and cigarettes. A peek in the till showed that there was $7 there, and this too was added to the cigars. The lock was then slipped back and the cigar-laden gentlemen calmly walked down the street free as British prisoners in Germany. The police are working on the theft.

Mr. and Mrs. Clarence Gilmour were pleasantly surprised last evening when at the close of choir practice they were presented with a silver cocoa service by the members of St. Paul's Cathedral choir. The presentation was made by Mrs. Parker, in the unavoidable absence of Rev. Canon Tucker. Mr. Gilmour replied fittingly to the choir for the handsome gift.

ALL PAID FINES FOR PLAYING CARDS SUNDAY

Seven Contributed $3 Each to Police Court Coffers.

The "we are seven" club, consisting of Noah Fox, Hymie Shapso, Benjamin Silverman, Reuben Abrahamson, Isaac Herschorn, David Goldstein, Jacob Harris, all admitted in police court today that Sergt Thomas Macdonald of the police force knew the law when he summoned them for manipulating cards a week ago Sunday, contrary to the Lord's Day act.

The sergeant caught them with the cards so to speak, and held a royal flush in today's game in the police court. It cost the paste board experts $3 and costs each for whiling away the Sabbath in such a manner.

VOICE OF THE PEOPLE

AGAINST PROPOSED CHANGE.

To the Editor of The Advertiser:

I desire through the columns of your valuable paper to state my reasons why I do not favor the proposed form of civic government at this time. It is only at a recent date that the citizens expressed their desire to have the representatives chosen from the wards of the city. This was carried by a very large majority. There was no uncertain sound about their mandate, which left no room for doubt as to the wish of the people as to what they desired. In the face of this, an effort has been made on the part of some that this system leads to ward-grabbing—a most foolish and ridiculous argument. How can there be ward-grabbing under local improvements? The taxpayer pays back to the city any expense entailed, either as regards the sidewalk, pavement, or curb and gutter. I do not think I have any right to support any other form unless a petition is presented asking for a change in municipal government. The proposed form, at first asking the citizens to grant the power to the council to appoint the mayor, thereby taking away the franchise of a large number of citizens who are decidedly opposed, is not wise legislation. Could the council conduct the waterworks and hydro departments better than they are now managed? I think not, no matter what form of government is adopted. Hydro is entirely in the hands of the hydro-electric commission. The local commission had to ask for their permission to use the surplus to erect the new building, thereby costing the city nothing. Will the Provincial Government change the education act or the health arrangements simply because London desires it? I think not.

A commission form of government has already been carried on in London. Was anything done with it? No; and never will be, unless the people throughout Ontario make up their mind as to municipal government. But with divided opinion there is not a chance for any government to enact special legislation for a single municipality. Yours sincerely, ALD. C. G. MOORHEAD,
Ward 4.

QUERIES REGARDING MILITARY SERVICE

Address Your Problems to the Military Editor of The Advertiser and They W I Be Answered From Official Information.

HYDE PARK: Q.—1. Could a soldier on harvest leave transfer to another farmer who really needs his help?

2. If so, would he have to notify the officer commanding his platoon?

3. Would he have to obtain the consent of his commanding officer, and if so, would he do so in writing or in person?

4. Are the soldiers at present on harvest leave to be disbanded, and if so, when?

A.—It would be permissible for him to follow such a course, provided that he does not neglect his own farm work in doing so.

2. It would not be necessary unless he changes his address, in which case his commanding officer should be immediately notified.

3. It is not essential to do this, but if the soldier in question wishes to be on the safe side he could write to his commanding officer for permission to proceed as desired, and thus unnecessary trouble would be avoided.

4. Yes. They are to be demobilized in the near future, the exact date of which is known only to the military authorities. Harvest leave will be extended indefinitely until the authorities are prepared to demobilize these soldiers.

H. P.: Q.—I am a soldier in the Canadian Engineers, training at Brockville, Ont., having enlisted in London four months ago. Upon discharge from the service in the near future, will I receive the usual $35 for civilian clothing in addition to the $10 which was deducted from my first month's pay for uniform?

2. Must I be in the service six months before obtaining any of the above-mentioned amounts?

A.—1. Yes. However, you will not receive these amounts unless you turn in your cap, greatcoat, tunic, breeches or trousers and belt to the quartermaster of your unit. If you enlisted prior to July 1, 1918, you will receive the above amounts, at the same time being permitted to retain your uniform. Otherwise you will be required to turn in the above-mentioned articles and equipment before receiving the $45.

2. No. The $10 is your own property, provided that you are not deficient in kit, and the $35 is given to all soldiers on discharge, irrespective of period of service, to enable them to obtain a civilian outfit.

J. C.: Q.—I have a chum in the Canadian Army Medical Corps who volunteered for Siberia. Could you tell me where to address mail to him?

A.—Instructions recently issued at Ottawa are as follows: Address should include:

(a) Regimental number.
(b) Name and rank.
(c) Squadron, battery or company.
(d) Battalion, regiment or other unit (staff appointment or other department).
(e) Canadian Expeditionary Force.
(f) Siberia.

Under (d) you would insert Canadian Army Medical Corps, giving field ambulance or hospital under part (c) of address.

RETURNED SOLDIER: Q.—1. Am I entitled to three months' post discharge pay, having served eleven months in England, and being returned at 18 years of age to receive my discharge as a minor?

2. To whom should I apply for same?

3. Am I entitled to a "B" War Service Badge?

4. Would I be an American or Canadian, my father being a Canadian, my mother an American, I being born in the United States, and residing in Canada for fourteen years?

A.—1. Yes. Every soldier who has served six months in the Canadian army, any portion of which has been overseas, and is honorably discharged, is entitled to three months' pay of rank held at time of discharge (including separation allowance) from date of discharge.

2. To the paymaster of the district in which you received your discharge from the service.

3. Regulations state that Class "B" War Service Badges are to be issued to all Canadian soldiers who served in Canada and were discharged as medically unfit as a result of service, old age, etc. If you were categorized as fit for military service on discharge you are not entitled to a Class "B" War Service Badge.

4. A Canadian.

WOODSLEE: Q.—A man now resident in Canada, having in 1915 received naturalization papers in the United States, later returned to Canada, was granted exemption, which was later cancelled. He reported for service in the Canadian army. Could he apply and receive permission to go to the United States to serve if he prefers the American army?

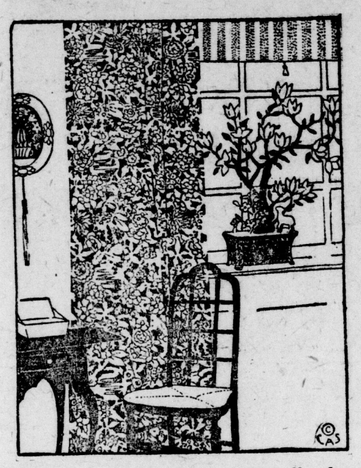

A.—Yes, provided that he is an American citizen he can apply for his discharge and would be allowed to reenlist in the United States army. However, under the present routine of demobilization it would not be worth the trouble for him to do so, as he will be discharged outright from the Canadian army in the near future.

LUCKNOW: Q.—Does a soldier who has been in training in London, and was later granted leave, have to accept extended leave, or can he report back to his unit and continue training with pay?

A.—Ordinarily a soldier regards it as a privilege to receive leave, but he is not compelled to accept same. In view of present plans for demobilization, it is doubtful if the man granted extended leave would be allowed to refuse same and return to his unit for unnecessary training, thus incurring unnecessary expense to the Government. However, he could write to his officer commanding and ask to be allowed to return to his unit, but it would be practically useless for him to do so, as the troops in training are to be demobilized as soon as possible, and he would likely be included for discharge.

Santa Here Already And Brings With Him The Necessary Frost

Christmas is coming! The first nippy Saturday with the rim of ice on the sidewalks and a hint of the mild snowstorm of Friday night brought shoals of children down town this afternoon. It was a happy thing for them that they found Santa Claus, even with the real Christmas a full month ahead. Santa was perched up in state in the centre of a big show window, the same old jovial Santa, surrounded by a mouth-watering, fearfully delectable array of toys. Not content with looking at him from the sidewalk, kiddies of all ages to be vitally interested in the kit bag of Santa Claus, pressed close up to the window, jamming their noses against it, to get a real "close-up" view.

Late Friday afternoon while that window was being prepared for Saturday, a mother came along with her small boy who couldn't be dragged past. He suspected there was something going on behind the khaki strip that hid the main operations from view.

Suddenly he shouted triumphantly, "There he is. I see him. It's the top of his hat, an' he's trying to look over the curtain. Goody, goody!"

BIBLE SFCIETY WILL APPEAL FOR ASSISTANCE

House-to-House Canvass Begins on Tuesday Here.

For the first time since the war began, the Bible Society will commence a house-to-house canvass on Tuesday next for funds with which to carry on its good work. London being one of the centres for Bible Society work, it is expected Londoners will contribute liberally. During the war, more than 11,000 New Testaments were distributed among the troops leaving London, and it is owing to the increased cost of paper and production that the society is compelled to appeal to the citizens for funds. The work of canvassing is being undertaken by voluntary workers from the various churches of the city.

TRYING TO REFLOAT BOAT.

New York, Nov. 23.—A smooth sea today hampered efforts to float the American freight steamship Carib, which for several days has been on a sand shoal off Point Lookout, L. I. Three tugs with lines fast are endeavoring to prevent the ship from going deeper into the sand.

RETRIBUTION

"King Albert Enters Brussels," when we saw in Morning 'Tiser
That headline boldly printed there, we thought of Bill, ex-kaiser,
And the time in 1914 when he told the Belgian King
That he'd stripped him of his kingdom, people, crown and everything.
He boasted that the German flag of kultur ruled the world—
And all who would oppose it into ruin should be hurled;
But the Belgian monarch answered with a spirit calm and whole,
"You have robbed me of my kingdom, but I'm captain of my soul."

There has been a day of reckoning, God, who still rules in his heaven,
Has overthrown the tyrant and his hordes are backward driven;
The humbled Belgian monarch is restored unto his own,
And a loyal rescued people crowd with joy around his throne.
But the hand of retribution overtook the Prussian lord,
For he who taketh by the sword shall perish by the sword;
And the Berlin beast and bully who set kultur as his goal,
Has not only lost his kingdom, but his own immortal soul.

GOVERNMENT BUILDINGS EXCEPTED FROM THOSE WHICH MUST GIVE UP ANTHRACITE TO HOUSEHOLDERS

Orders to Local Fuel Controller Make This Plain, but Notices Sent to the Press Fail to Mention the Fact.

Apparently the orders issued to the local fuel commissioner do not agree with the orders which the public is given to understand were issued, at least this much is gathered from a perusal of the orders to the local fuel commissioner, and the news items which are sent to the public through the papers. Following is an item that was sent to The Advertiser from the office of the provincial fuel administrator for publication and which asserts that the fuel commissioners have the authority to seize any anthracite coal which may be in public buildings where bituminous coal may be used:

"Some time ago regulations were issued from Ottawa making all anthracite in public buildings equipped to burn bituminous available for the fuel commissioners, who have power to divert such coal to domestic purposes."

A Joker.

J. W. McCallum this morning received a number of circulars from the fuel administrator, one of which states that "whenever it is deemed desirable by the fuel administrator he may by registered letter addressed to the local fuel commissioner or if such an official is not available, to the mayor of any city or town, prohibit entirely or limit in any manner specified the use of anthracite coal of what is commonly known as prepared sizes, in any buildings whatsoever other than private residences using less than 40 tons of coal annually, and Dominion and provincial buildings."

Exceptions.

"The order-in-council refers to buildings other than those controlled by the Dominion or Provincial Government, and you will therefore include in your report all county buildings, municipal buildings, and all schools and churches." Thus the custom house and postoffice, where about 450 tons of anthracite coal will be burned this winter, have been left out of the list from which returns are to be made or where anthracite supplies may be seized.

J. W. McCallum has been persuading himself all along that he would be able to obtain this coal for the use of the domestic consumers of London. In fact, it was whispered that this would be sanctioned by the powers that be at Toronto. What has happened to change the opinion of those in the provincial fuel administrator's office cannot be learned.

The special forms upon which the returns are to be made are expected by Mr. McCallum any time.

RED CROSS TO HELP DRESS REPATRIATED ALLIES IN EUROPE

Local Branches To Work For Belgians and French.

Lady Beck, president of the London branch of the Canadian Red Cross, will attend a meeting of the Canadian Red Cross Council in Toronto on Tuesday next to discuss the work of the society for the coming year. While a certain amount of the regular wartime Red Cross service still will be required for the thousands of soldiers, who for a long time will need treatment, much time will be devoted to the making of garments for the repatriated people of Belgium, France, Serbia and Montenegro. The London branch has decided to work for Belgium and France. In each case the branch societies are making garments according to the patterns of the distinctive style of dress worn in these European countries. For this reason, the clothes made for the different countries differ very much in style. Wednesday the central executive of the Canadian War Contingent Association meets in Toronto.

300,000 REFUGEES BEING CARED FOR BY FRENCH PEOPLE

American Red Cross Assists In the Great Work.

London, Nov. 26—(Correspondence of the Associated Press).—The total number of persons now in France that were cast out by the Germans from Belgium and Northern France is estimated by the Belgian relief commission at 300,000. Of late they have been coming through Switzerland at the rate of 20,000 a month. French committees, overwhelmed with the work of caring for this great influx, are being assisted by the American Red Cross.

According to reports, the Belgian relief commission has ascertained that the condition of the refugees is relatively good and that there is no truth in information it had received that tuberculosis was raging among them.

No Great Suffering.

S. S. Howland, who went to Evian as a representative of the commission to make a thorough investigation, says in a report just issued that there are no signs among the "evacuees" of serious suffering from lack of food. Only among a few of the very old and infirm are the signs of sufferings and privations they have been through apparent. He found among them no evidence of morbidity below the normal. Speaking of the activities of the commission, Mr. Howland says:

"Every day I have many conversations with repatrees and all, without exception, are agreed that without the assistance, rendered by the commission the populations of the occupied portions of France and Belgium could never have survived."

LINING UP TEAMS FOR "Y" CAMPAIGN TO RAISE $30,000

Over Fifty Thousand Men To Demobilize Here.

With the co-operation of the chamber of commerce, those in charge of the Y. M. C. A.-Y. W. C. A. campaign, which is to be held from December 3 to December 5, are lining up the teams committee. W. R. Yendall is chairman of the campaign. Dr. K. P. R. Neville, Geo. F. Copeland and A. F. Nash have been elected as members of the advertising committee.

There are three main reasons for conducting the campaign. The Y. M. C. A. has been informed that over 50,000 soldiers are to demobilize here. The majority of these men will not be in normal physical condition, owing to their experiences on the battlefields of France and Flanders. They must be brought back to health, and it is considered the duty of the people through the Y. M. C. A. to make these men fit to earn their living.

The "Y's" Job.

The Red Triangle has followed them in the training camp, behind the lines in France, and even in the front-line trenches. It is thought fitting that this organization should minister to their needs when they return home again. The offer of the services of the Y. M. C. A. has already been accepted by the military authorities.

The new Canada which is in the making needs clear-minded, healthy men to administer its affairs. The youth of today will be the businessmen and statesmen of tomorrow, and the "Y" proposes to look after the training of the boys. At present there are over 400 boys taking the C. S. E. T. course in London. The Y. M. C. A. and the Y. W. C. A. endeavor to supplement the home, the school and the church in an all-round course for development and service.

Money Is Required.

"The efficiency in carrying out the program is in direct proportion to the amount subscribed for the purpose," said E. G. Davis, general secretary of the Y. M. C. A..

The Y. W. C. A. intends to increase the work of caring for the young girls who come alone to London to look for work. The travelers' aid secretary of the institution meets every train and bring the girls to the Y. W. C. A. if they desire to go there. This work has been the means of saving many a girl. They very often have not much money, and sometimes have no funds. The "Y" helps them to start right by providing them with meals and lodging until they secure a position.

The objective of the campaign is $30,000. On the evening of December 2 the campaigners will hold a supper. They will work two hours each day and assemble for lunch at noon at the Y. M. C. A.

SOLF STILL ANXIOUS TO FEED GERMANY'S FRONT LINE TROOPS

Two Classes of Rations Are Handed Out; People Get Smaller.

London, Nov. 22.—It is pointed out in connection with the appeal of Dr. W. S. Solf to the United States for food that there are two kinds of rations in use in Germany. That for the soldiers in the first lines has been much larger than that granted the rest of the nation.

It is said that Dr. Solf appears anxious that the front line standard shall be maintained for the large body of troops returning from the front.

This ration is considerably more generous than that to which the British people have been accustomed during the last four years.

MOTION UNANIMOUSLY ADOPTED.

Paris, Nov. 23. — The French Senate has passed unanimously the motion already adopted by the Chamber of Deputies, paying homage to President Wilson as having deserved well of humanity. The motion pays the same honor to the Allied nations and their chiefs.

SALVAGE BOARD CREATED.

Washington, Nov. 23.—Creation of a board of salvage, in the ordnance department, headed by Brig.-Gen. C. C. Jamieson, was announced today by the war department. It will regulate the disposition of the millions of dollars' worth of material, equipment and buildings acquired by the Government in carrying out its ordnance projects, but will not be needed for the permanent establishment.

PLUMBERS DECIDE TO LAY DOWN TOOLS ON MONDAY MORNING

Will Strike as Protest Against Refusal of Rise.

SAY PAY IS TOO POOR

And Deny Agreement With Employers Was For Stated Period.

Local plumbers have called a strike for Monday morning. This was decided at a meeting of the union last evening. The master plumbers have been notified to this effect. The men are asking for 65 cents an hour which has been refused by the employers. The men point out that London is the lowest paid city of any around the district. They are authority for the statement that Toronto plumbers receive 65 cents and over, the same in Hamilton and St. Catharines; Windsor pays 75 cents while in Kingston and Brantford the men receive from 60 cents up.

The scale in London is at present 50 cents. Last spring the men asked for 55 cents, and the employers compromised with 50 cents. The men say that this scale was not for any stated term. Some time ago the negotiations were started for an increase, but on account of the "flu" the meetings had to be called off.

The employers met on Wednesday afternoon and decided not to accede to the demands of the men and their decision was the cause of the meeting of the plumbers last night, with the result that the strike has been called for Monday morning.

WAR TRADE BOARDS CO-ORDINATE POLICIES

U. S. and Canadian Departments Agree on Export and Import Methods.

Ottawa, Nov. 23.—The war trade board announces that they have arranged with the war trade board of the United States to co-ordinate their respective policies of export and import control.

New regulations have been adopted for the purpose of simplifying the procedure for the licensing of goods in transit from Canada or to Canada through the United States.

The war trade board has issued a special import license authorizing the importation into the United States without individual import license of shipments of all commodities originating in or destined to Canada, when the same are conveyed in transit through the territory or via any port of the United States. The war trade board has also issued a special export license number, authorizing the exportation without individual licenses of such shipments. Any person desiring to export commodities from Canada will obtain an export license from the Canadan war trade board.

RETURNED SOLDIERS ANXIOUS TO RESUME COURSES OF STUDY

Principal Taylor of Queen's University Sees a Great Future Ahead.

Ottawa, Nov. 22.—Reports from the delegates from the provinces on the progress being made in education was the principal feature of the closing session of the Dominion Educational Association today. One of the interesting discussions was led by Principal Bruce Taylor of Queen's University, who spoke on the matter of training for the returned soldier. Dr. Taylor said that men who are returning have shown a desire "as keen as mustard" to get back to their studies and finish the course they had mapped out for themselves before the war.

MOLDERS STRIKE AT LOCAL FACTORY ON MONDAY, REPORT

Trouble Said To Be Brewing at Beatty Bros.

It is reported that the moulders at Beatty Bros.' foundry will go on strike on Monday. An effort was made to get in touch with the manager in connection with the report, but he could not be reached. One of the employees at the machine shop said that he could not say definitely, but intimated that there was a posibility of a strike. The men are not working today, but it has been the custom for some time to close the moulding shop on Saturday.

It is understood that the trouble between the men and the employers is one of an open or closed shop, rather than one of wages. The men want it to be strictly union, and it is thought that the company does not agree to this.

ENGINEER'S ESTIMATE OF BRIDGE'S WORTH TO CITY NOT MADE PUBLIC

In connection with the Traction bridge, City Engineer H. A. Brazier says that while he places the actual cash value of the bridge and right of way at $5,000, he intimates that its value to the city in addition to the actual cash value is to be considered. What this should be he did not say. The special committee which was appointed to consider the question, has not met since the conference with the Traction Company representatives. A report will be submitted to No. 1 committee at its meeting next Tuesday night.

BLENHEIM PIONEER DIES.

BLENHEIM, Nov. 22.—Mrs. Catharine Woofenden died Wednesday on the 9th concession of Harwich, aged 77 years. Deceased was one of the early pioneers of what is known as the Muil settlement. She was highly respected during the many years that she lived there. Two sons, Robert and Frank, live in the neighborhood on what are known as the Woofenden farms. Mrs. Patterson of this town is a daughter.

MEDICALLY UNFIT.

Major George Eric Reid, D.S.O., has been struck off the strength of the C. E. F. as medically unfit.

TO DISCUSS PROBLEMS.—For the purpose of discussing the problems in connection with the returned soldiers, a meeting of the executive of the Soldiers' Aid Commission will be held on Monday afternoon at 4:30. It is anticipated that some interesting problems will be brought up.

COALITION GOVT. PLANS TO MAKE ENGLAND BETTER

Lloyd George Says Every Possible Scheme Will Be Introduced.

Wolverhampton, Nov. 23.—The coalition government plans to make England a fit country to live in for the men who have made a new world, declared Premier Lloyd George, in opening the provincial political campaign here today. The program includes schemes to increase the production from land and other industries, reforestation, better transport, including the extension of the canal system and small holdings for soldiers and sailors with assistance in the form of homes built by the Government.

The premier denied that he was surrounded by reactionaries, and said that if the Government was unable to get along because of obstructions, he again would appeal to the people.

FRENCH TAKE OVER PARTS OF ALSACE AND LORRAINE TO CHEERS OF PEOPLE

Occupation of Delivered Parts Carried Out Amid Greatest Enthusiasm.

Paris, Friday, Nov. 22.—Progress by the French army of occupation in Alsace and Lorraine was reported in the official statement issued by the war office tonight. The statement reads:

"The occupation of delivered localities in Lorraine and Alsace continued today amid the magnificent enthusiasm of the people. Colmar was solemnly entered by Gen. de Castelnau, who was greeted by acclamations of the whole population, which gave evidence in most touching particulars of its attachment to France.

"From the Moselle as far south as the Vosges the line reached today comprised Thionville, Bouzonville, Wolchlingen, Sarreguemines and Bitche.

"In Alsace our advance guards have reached Reiportswiller, Roerach, Danendorf, Gendertheim and Gendenheim, after having entered Ingelmiller, Rouxviller and Brumath, where they were given a touching reception.

"The flag of the 20th Colonial Regiment, which was buried at Villers-sur-Semoy in 1914, has been recovered and returned with military honors to the colonial army by the 204th Regiment of Infantry."

FRENCH PREMIER GOES TO BRITISH CAPITAL

Paris, Nov. 23. — Premier Clemenceau went to London today, the Matin says. The premier will return shortly before King George and Queen Mary make their intended visit to Paris at the end of the month.

MILITARY NOTES

Sunday, December 1, has been proclaimed by King George as a day of thanksgiving for the victories attained. Camp orders today call the attention of all ranks to this fact.

A court of inquiry will be held at the heights to investigate the death of Pte. William John Billington.

BRITISH PRISONERS

a letter dated May 20 last from a British private soldier:

" 'We have had little to eat since we left Hameln. Two of our number have gone to the hospital with broken arms and the remainder are suffering from cuts on their heads and bruises as the result of floggings they received at the last place. I fell in a faint unable to work any longer last Saturday, and the man in charge, a civilian, kicked me back into my senses and kept me down in the mine sixteen hours after all my gang had gone up. If you could only see the boys here! They all look like dead men. They are worked to death.' "

Daily Violence.

A record of daily promiscuous violence might be much further illustrated. To scores of men who had given evidence concerning the mining camps, kicks, blows and insults became a part of the normal routine. Here is an example from the testimony of a man who had been at one of the Hameln salt mines:

"In January, 1918, I refused to complete my task, as it was a physical impossibility. I was taken out of the mine, dressed only in shirt and drawers—it is too hot in the mine to wear anything else—and put for the night in a hut which was not weather-proof. In the morning it was half full of snow. The next day I was taken to the mine and again beaten until I had finished my task. I had received nothing to eat from the time I went down into the mine on the first morning until 2 o'clock the next afternoon."

It is impossible to say how many prisoners' lives were sacrificed for, until more evidence is given by men who have been set free, the exact conditions must remain in obscurity.

CHICAGO GRAIN.

Chicago, Nov. 23.—Aggressive selling on the part of leading commission houses forced the corn market sharply downward today. Cold weather and probable increase of the crop movement to primary centres gave an advantage to the bears. About the only support for prices came from shorts. Opening quotations which ranged from 4 to 1 5-8 lower, were followed by a material further setback.

Oats, like corn, showed pronounced weakness. Opening ¼c to ⅝c lower, the market continued to recede.

PROVISIONS.

Chicago, Nov. 23.—Higher prices on hogs put strength into provisions. Demand, however, was only of a scattered sort.

LIVESTOCK.

Chicago, Nov. 23.—Hogs, receipts, 7,000; market mostly 10c to 15c higher. Butchers, $17.70@$19.10; light, $16.75½ $17.85; packing, $16.75@$17.60; throwouts, $15.50@$16.50; pigs, good to choice, $13.25 and $15.00.

Cattle — Receipts, 4,000; compared with a week ago, good and better. Native steers firm, others steady to 15c lower. Westerns 25c and 40c higher. Better grades of cows and heifers steady. Canners, stock and bulls 25c higher; calves 25c lower; stockers and feeders steady, 25c higher.

Sheep—Receipts, 4,000; market steady to easy compared with a week ago.

Sheep and Lambs—Receipts, 1,600; steady and unchanged.

BANK CLEARINGS.

New York, Nov. 23—The actual condition of clearing house banks and trust companies for the week shows that they hold $97,063,980 reserve in excess of legal requirements. This is an increase of $68,251,250 from last week.

Geneva, Nov. 23.—Austrian and German exchange fell considerably here yesterday. The marks lost $2.80 to $61.10, while the crown fell $1.75 to 33c.

FEW FOLKS HAVE GREY HAIR NOW

Druggist Says Ladies Are Using Recipe of Sage Tea and Sulphur.

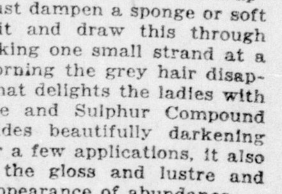

Hair that loses its color and lustre, or when it fades, turns grey, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the grey hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.

Rheumatism

Rheumatism has become so common nowadays that hundreds of people make no effort to rid themselves of its fatal grip, believing it to be incurable save in exceptional cases.

No greater fallacy exists. Sufferers from rheumatism can be relieved if the cause is remedied and removed.

Let us examine the facts. The direct cause of rheumatism and kindred diseases is poisoning of the blood stream, through failure of the kidneys to filter and remove the impurities that are constantly collecting in the system.

Once the kidneys are out of order, the trouble starts. The poison-ladened blood circulating through the system deposits its impurities in the muscles and joints, setting up infection, and Rheumatism, Lumbago, Sciatica, etc., follow.

The first step necessary is to bring the kidneys to perform their natural function once again, and relief will be the immediate result. Gin Pills will do it, and will save weeks of fearful suffering if taken at the first indications of rheumatism.

Gin Pills have been recognized as an assured relief to sufferers from rheumatism, backache, painful urination, brick dust deposits, and gravel. Thousands of testimonials bear witness to the fact that they relieve kidney or bladder troubles instantly. Try them. For sale everywhere at 50c a box. Gin Pills cost little, but are worth a lot. Sample free on request.

Tells How to Stop a Bad Cough

Surprising results from this famous old home-made syrup. Easily prepared and costs little.

If you have a severe cough or chest cold accompanied with soreness, throat tickle, hoarseness, or difficult breathing, or if your child wakes up during the night with croup and you want quick help, try this reliable old home-made cough remedy. Any druggist can supply you with 2½ ounces of Pinex (50 cents worth). Pour this into a 16-oz. bottle and fill the bottle with plain granulated sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. This recipe makes 16 ounces of really remarkable cough remedy. It tastes good, and in spite of its low cost, it can be depended upon to give quick and lasting relief.

You can feel this take hold of a cough in a way that means business. It loosens and raises the phlegm, stops throat tickle and soothes and heals the irritated membranes that line the throat and bronchial tubes with such promptness, ease and certainty that it is really astonishing.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, and is probably the best known means of overcoming severe coughs, throat and chest colds.

There are many worthless imitations of this mixture. To avoid disappointment, ask for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

BELL TELEPHONE CO. SCORED BY LAWYER FOR INEQUALITIES

Should Not Charge One Place More Than Another.

OBJECTS TO ANY INCREASE

Company Must Furnish More Specific Data to Railway Board.

OTTAWA, Nov. 22.—The hearing before the board of railway commissioners in the matter of the application of the Bell Telephone Company of Canada for an increase in tolls, and in the matter of the application of the municipal corporation of the cities of Montreal, Toronto and Hamilton, and of the Union of Canadian Municipalities for an order directing the delivery of particulars by the telephone company, was adjourned this afternoon.

The chief argument today at both the morning and the afternoon sessions was presented by W. J. Hagenah of Chicago, an expert of corporation and financial law and of the methods followed by the various public utilities commissions.

In compliance with the order, the applicant company submitted statements. The returns for the years 1913 to 1917 were given. The total expenses from January 1 to September 30, 1918, were shown to be $7,483,739.25, and the net operating revenues for the same period were $1,552,653.59.

The total capital liabilities for the above period were shown to be $29,149,000, and the total current liabilities, $1,258,266.14. The sale of the company's lands and plants to September 30, 1918, book value, was shown at $43,200,362.77.

The estimated new revenue that would be produced by the proposed 20 per cent increase, according to the statement is $1,200,000.

The entire discussion during the day was centered upon the information produced by the company. Mr. Hagenah took up each point separately, but was evidently not satisfied with the particulars furnished by the company, especially as regarded the method of combining the toll and exchange charges. Mr. Hagenah also scored the inequality of the telephone charges in Canada, whereby one city was charged more than others for its telephone service. He stated that a 20 per cent increase with such conditions existing would only aggravate the inequality, and said that if any increase was allowed it should be a temporary arrangement, so that the board could in the interim endeavor to adjust the rate in a more even manner.

Sir Henry Drayton requested A. E. Palme, controller for the Bell Telephone Company, and Mr. L. MacFarlane, solicitor for the company, to prepare the statements requested and to try and have them ready by Tuesday next.

FUNERAL OF TORONTO DETECTIVE LARGELY ATTENDED AT CLINTON

CLINTON, Nov. 22.—The remains of Acting Detective Frank Williams of Toronto were laid away today in the Clinton Cemetery. The funeral service was held at the old homestead on the Maitland concession, Goderich Township, and were conducted by Rev. W. B. Moulton of St. John's Anglican Church, where the family attended.

Inspectors Crowe and Kennedy of the Toronto police department, with four other officers of the detective department, were present and acted as pallbearers. They also conveyed sympathetic messages from the mayor of Toronto and the police commissioners.

It is the general feeling here that by the death of Frank Williams, a brilliant young life has been cut short, for although only four years in the service he had advanced rapidly, and was a valuable and reliable officer.

Beautiful floral wreaths were given by the Toronto officers and departments with which he was connected as a tribute of the esteem in which the young officer was held. The funeral was largely attended, as the family is well and favorably known in this district. His father and mother survive with three sisters and four brothers, all of whom live here.

POHLMAN SUIT AGAINST HURON AND ERIE LOST

Chief Justice Dismisses Claim for $10,000 Damages for False Arrest.

PLAINTIFF PAYS COSTS

London's Police Magistrate, Crown Attorney and Two Detectives Witnesses.

[Special to The Advertiser.]

HAMILTON, Nov. 22.—Chief Justice Falconbridge dismissed in the local supreme court yesterday afternoon the action of F. F. Pohlman against the Huron & Erie Company for $10,000 damages for false arrest. Pohlman was ordered to pay the costs. Chief Justice Falconbridge took the case from the jury. Shortly after the afternoon session commenced, F. P. Betts, London, for the loan company, and S. F. Washington, Hamilton, for Manager W. T. Westby, named as a co-defendant, asked that the action be dismissed. Justice Falconbridge made no comment on the evidence submitted by the plaintiff, and decided the defendants should testify.

Failed to Prove Case.

In giving judgment the judge said: "The plaintiff has failed against all defendants to prove prosecution without reason, as is required. I find that the prosecution is founded on reasonable grounds, and dismiss the action with costs. Fifteen days stay.

"Had there been no reason for the prosecution I would not have held the Huron and Erie Company responsible for the actions of Manager Westby."

Pohlman had four cases in the local court, yesterday's case completing his list.

The first witness called yesterday afternoon was Manager Westby. He, cross-examined, said that had the loan company received the $65, the amount of the forgery, no prosecutions would have followed. He was on the stand for about one hour, but no important evidence developed.

Evidence Contradictory.

M. M. Fergusson, of McConnell-Fergusson, London, on whose name the check was forged, gave Pohlman a good reputation. Pohlman, when giving evidence early in the trial, said he had not access to Mr. Fergusson's desk in the office. Mr. Fergusson denied this in his evidence. Pohlman's evidence, compared with that of the detectives, was contradictory.

Detective Harry Down, London, said he got a description of the man who presented the check in question, from Miss McGregor, a clerk in the loan company's office. He then went to Mr. Fergusson, who told him the description somewhat resembled that of Pohlman, who formerly worked him, but was now engaged in Hamilton. On a warrant issued at London, Pohlman was arrested here by Detective Shirley.

Denied Prisoner's Tale.

Shirley, on the stand, swore that Pohlman had asked him if the thing could be fixed up. Pohlman accused Down of telling him to plead guilty to the charge, and he would get off light. Down denied this, saying he had never had a conversation with Pohlman. It was Down who took Pohlman back to London to answer the charge. Detective R. Egelton of London, corroborated Down's story regarding the arrest.

Crown Attorney McKillop and London's police magistrate, A. O. Graydon, were also called as witnesses. The magistrate said that Pohlman, when arraigned, pleaded guilty to the charge, and when asked why he committed the crime could give no explanation.

Pohlman was tried in London, being sent up for trial by Magistrate Graydon. Judge Judd heard one charge in the county court and dismissed it. The second charge against Pohlman was withdrawn. Following his liberation Pohlman returned to Hamilton and started libel actions against the three Hamilton papers who published a story alleging pro-Germanism. Damages of $100 were awarded against each of the three papers.

GOVERNORS OF TWO STATES OF AMERICA LAUD CANADA'S MEN

Ohio's Chief Executive Would Hang Kaiser.

"HANDS ACROSS BORDER"

War Has Broken Down Barriers of Rank and Class.

TORONTO, Nov. 22. — Hon. C. H. Whitman, governor of New York, and Hon. James M. Cox, governor of Ohio, as guests of the Empire Club of Canada, were given a hearty reception by about 2,800 persons at an international patriotic rally in Massey Hall tonight, when they delivered stirring addresses on the war. The rally had been planned before the sudden collapse of the central empires, and tonight's gathering was in the nature of rejoicing over the victorious outcome of the war.

Sir John Hendrie, lieutenat-governor of the province of Ont..., presided.

A feature of the meeting was the singing by the national chorus of this city of "The Star-Spangled Banner," and "My Country, 'Tis of Thee," in addition to "God Save the King" and "La Marseillaise."

Praise Canada's Men.

Both governors paid high tributes to Canada and the Canadian soldiers, and they both expressed admiration for what this country had done in the war.

Both he and Governor Cox were eloquent in praise of what the British Empire had done for civilization, and both expressed the hope that out of the sacrifice and loss would come a great brotherhood among the civilized nations.

Governor Whitman said he believed the prohibition cause would win throughout the United States. In speaking of the after-the-war problems he said they were going to be solved by men of all conditions of life, because of the breaking down of barriers during the four years' of strife.

Would Hang the Kaiser.

"We are asking each other what we should do with the kaiser," said Governor Cox. "I have positive views on the subject, and there is no difference of opinion, that I know of, among the people of the state of Ohio, nor the other states. There is an international law, and the kaiser has defied it and violated it. From every moral consideration he should be dealt with as an outlaw, as you deal with outlaws in Canada. William Hohenzollern has been indicted for murder in the courts of England. He slew without remorse women and children, and to the English authorities he ought to be delivered and tried as a common murderer and assassin."

This brought the large audience to its feet and the proposal was carried unanimously.

Governor Cox, in conclusion, said he believed that Great Britain and the United States would forever maintain the even balance of peace.

Canadians Will Be Part of Army To "Occupy" Germany

Soldier Cables His Address Will Be "85th, Germany."

HALIFAX, Nov. 22.—That the Canadians are to be part of the army of occupation in Germany, if they are not already there, is evident from a cable received today by A. B. Wiswell of this city from his son, Lieut. D. Wiswell, who a few days ago was sent over from the reserve battalion in Bramshott. The cable reads:

"Cable me, 85th, Germany."

This can have only one meaning, that this Nova Scotia Highland battalion is either in Germany or is close to the border.

CLOVERDALE W. F. O. ELECTS OFFICERS

PARKHILL, Nov. 21.—The Cloverdale branch of the United Farmers held its annual meeting at the brick school north of town Tuesday evening. The school was packed to the doors. Sidney M. Emery, president of the club occupied the chair.

The following officers were re-elected: President, Sidney Emery; vice-president, George Carter; secretary-treasurer, Earl Ritchie; directors, Albert Taylor, Lloyd Baker, David Mitchell, Richard Bloomfield, David Brazell, Wesley Duwker; new directors added, Joseph Horner and William Dixon.

The president then gave his address, being a delegate to the first meeting of the executive of the United Farmers of Ontario for West Middlesex, which was held at the Adelaide town hall on October 19.

Thomas McMillan of Seaforth, a director of the U. F. O., Toronto, gave an inspiring address which was heartily enjoyed. Mr. McMillan also sold some 25 or 30 shares for the U. F. O., Toronto.

Two delegates were appointed to attend the convention of the United Farmers of Canada to be held in Toronto December 17, 18 and 19.

ALLOTMENT TO VICTORY LOAN SUBSCRIPTIONS IS ENGAGING SIR THOMAS

OTTAWA, Nov. 22.—The question of allotment to Victory Loan subscribers is now engaging the attention of the department of finance. The policy will be to take as much of the loan as possible having regard to the necessity of stabilizing the market for Victory Loan securities and to the financial necessities of the country. Many life insurance and other large financial institutions made a maximum subscription covering their revenue available for investment during the coming year.

There is a large and growing demand for farm loans, which it is desirable should be met in the interests of agricultural production for next year. The provinces and municipalities will also desire to borrow for reconstruction purposes and it is thought advisable that there should be a residue of investment funds to meet their needs. The principle of allotment will be decided within the next few days.

The new Methodist hymnal includes several of his hymns, one of which is "Grant Me, Oh God, Thy Guiding Hand."

GOVERNMENT LABOR BUREAUS DISCUSSED FROM MANY ANGLES

Provincial Representatives Confer With Minister.

PLAN IS TAKING SHAPE

Aim Will Be To See That Labor Is Equally Distributed.

OTTAWA, Nov. 22. — Satisfactory progress towards the establishment of a national system of employment agencies, controlled by the Dominion and provincial authorities, working as a single organization, was made at the conference between the minister of labor, officials of the department, and representatives of the various provinces, which was continued today.

The conclusion of the provincial premiers' conference at noon left Hon. Gideon Robertson, minister of labor, free to preside at the conference on unemployment in the afternoon, and the minister was assured by the provincial representatives from east and west of their hearty co-operation and desire to develop the scheme.

Two Clearing Houses.

The plan was agreed upon, with regard to the establishment of agencies, will result in the organization of two large employment clearing houses, controlled by the Federal Government, one in the east and one in the west. Ottawa and Winnipeg have been chosen as the cities in which these clearing houses will be located. The duty of these agencies will be to maintain the balance of labor in the various provinces so that one province will not have a deficit at the time while another has a surplus. The provinces will also establish clearing houses, which will be maintained by the provincial governments for the purpose of distributing labor between the various cities and towns of the province as it is necessary.

Representatives of the soldiers' civil re-establishment and the Great War Veterans' Association were present at the conference in the afternoon, and ways and means were discussed to delineate the functions of the employment bureaus, in relation to the returned soldiers. A substantial agreement was reached and a comprehensive plan for both departments in relation to unemployment outlined.

At a meeting of citizens of the village in the town hall this week Reeve John Morgan presented Victory Loan Canvassers D. Robinson and John Alexander with the flag and crown offered for those who reach the objective allotted. The amount expected from here was $35,000, and it was exceeded considerably.

Granny's Talk to Young Mothers

"Few young mothers realize the extent to which a cold lowers the system and makes it susceptible to disease. The majority of diseases arise from germs, but it is not widely known that a healthy system will repel their attacks.

Mothers should never allow a cold to run for 24 hours without attention. If this is made a rule there will be less sickness for young mothers to worry over. A good reliable medicine for coughs, colds, croup and bronchitis should always be kept in the home. You may say that you have no confidence in cough medicines, but that is because you have never tried

ROLE OF ITALY IN GREAT WAR IS ONE OF MAGNIFICENCE

Her Decision to Break Alliance With the Central Powers Commands World Respect—Her Fighting as Fine as Her Honor—Score Has Been Liquidated.

1 R—SIMONDS LETTER PROOF TO CLARKE

NEW YORK, Nov. 22.—Not since Waterloo has any European battle coincided with so immediate and complete a collapse of a nation as did the Austrian disaster in the Second Battle of the Piave. Indeed, one must in reality turn to Jena for anything like a parallel, for even after Waterloo France remained a definite and coherent unity, remained a force to be reckoned with in all future European calculations. But Austria, like Prussia after Jena, has collapsed; her power to resist is at an end, her very existence is a problem in the hands of her foes, who may well avoid the mistake made by Napoleon when he permitted Prussia to continue.

In the Italian triumph—and we must frankly and freely recognize that the triumph was Italian, since the Allied aid consisted of but two British divisions, one French division and a single American regiment—the military aspect is immediately lost in the political. As a battle, the second Piave lasted at most for a week, the anniversary week of the great disaster of Caporetto, one year ago. In the beginning the Austrian resistance was sharp and determined, but before the battle had progressed far there came, first, a battlefield collapse, and then a surrender to terms dictated on the battlefield, an armistice across the firing lines.

In One Fateful Week.

Thus in one short week we have seen the surrender of Turkey and Austria, the liberation of Serbia, the passing of the Coburg dynasty from Bulgaria, the end of the Hapsburg dynasty in Austria-Hungary. While the Austrian army was losing its last battle the dual monarchy was breaking up behind it, disbanding, resolving itself into a group of republics, the numbers still indeterminate, with Bolshevism racing with nationalism to control the ruins of the fallen state.

But it is to the Italian side of the gigantic drama that we must first turn. A hundred years ago the first aspirations of the Italian people, expressed imperfectly but coherently in Napoleon's Kingdom of Italy, a fragment of the real Italy, were crushed at the Congress than a century ago, this city has been in of Vienna. The fair body of Italy was thrown back to the Hapsburg and Bourbon despoilers, Venice and Piedmont were made Austrian, the wretched Neapolitan dynasty was restored, North Italy below the Po Valley was again partitioned among princes and princesses who turned to Vienna for their support and conducted themselves on Italian soil as German armies have conducted themselves in France in the present war.

A generation of agony followed, while Italy slowly gathered the moral and spiritual forces for her great awakening. And then, when the revolution of 1848 swept over Europe, Italy tried and failed. Novara seemed the ultimate sanction of the Austrian yoke, a permanent guarantee of Italian misery. The Savoy sovereign who abdicated after Novara and left his country, seemed to be carrying with him the last hope of thirty millions of Italians.

Swift Change of Spirit.

But after Novara came the swift change. Cavour undertook the mighty task. Savoy allied herself with France and a new Napoleon acquired temporary laurels in Italy by the victories of Solferino and Magenta, which liberated Piedmont and doomed the patchwork of monarchies south of the Po. Garibaldi and his immortal "Thousand" swept the Bourbons out of Naples. But the lesser Napoleon lost courage, left Venetia still in Austrian hands, and continued to defend the temporary power of the pope in Rome.

Then Italy turned to Prussia, and in the war of 1866 regained Venetia. But Bismarck, like Napoleon III., failed to complete the liberation of Italy. Triest and Trentino, together with Rome, were still outside the kingdom. French defeats in 1870 ended the temporal power of the pope, and Rome became again, after centuries, the capital of the Latin state of Italy. And now, after forty-eight years more, the Italian tricolor floats over Trieste and Trent, Italian liberation is complete, a century of struggle, of agony and of glory is ending with these last splendid days, when Austrian armies are fleeing in ruin or surrendering unconditionally; a final expunging of the sorrow of Novara is taking place.

And this victory demonstrates clearly the soundness of Italian statesmanship in entering the world war on the Allied side more than three years and a half ago. When the war came Italy was still allied to Germany and Austria. A marriage of convenience growing out of the political policies of Crispi and the manipulation of Bismarck's condemned Italy to fight against the liberal nations of the world if Germany and Austria were attacked or claimed themselves the assailed parties. She was bound to defend the very jailers who held her brethren in terrible servitude.

Italy's Noble Stand.

The refusal of Italy to transform a defensive into an offensive alliance in July, 1914, was one of the decisive moments of the whole war. Had Italy marched against France the Battle of the Marne would have been a German victory, for French corps which just sufficed to win that struggle would have been fixed upon the Alpine frontier. But Italy did more than release French troops; she promptly confided to the world that she intended to be neutral. France knew it in the earliest hours of the war and, knowing her southeastern frontier was safe, took her military measures accordingly. Moreover, it was the warning of an Italian ambassador which led Britain to keep her fleet mobilized in the critical days just before war came.

From August, 1914, to May, 1915, Italy stood neutral. A great battle was waged in the peninsula between the German influences and the Italian patriots, who saw clearly that neutrality was not possible. Once it was decided that Italy would not march with Germany and with Austria, a thing impossible, then it was not less patent that Italy could not stay outside the war and maintain her moral or material position in the world after the war had ended. Like the United States, Italy was inelectably drawn into the conflict.

As in the case of the United States, a vast German propaganda was operated in Italy. Bulow, the most astute of German diplomatists, conducted the diplomatic battle; newspapers and politicians were purchased. Giolitti, the most powerful single politician in Italy, was a champion of that neutralist policy which served the German ends. Yet the campaign failed. A great outburst of national emotion, a sudden recurrence of the old, but never forgotten ambition to liberate the Italians remaining in Austrian chains, an explosion of that emotion which was in the hearts of a young Italy rising to power, with new and nobler ambitions for their nation, swept the German intrigue out of the Italian peninsula.

Came at Crucial Time.

It was a gigantic deferendum, a plebiscite, nationwide, which brought Italy into the war. She came at a critical moment. Already the Battle of the Dunajec had opened that terrible cycle of Russian disasters which were to lead to the fall of the Romanoffs and the extinction of Russia as a nation. Despite the high hopes of the Allies, founded on an imperfect realization of essential facts, Italy was not able to take the road to Vienna in her first campaign. She flung her troops against the fixed positions of the Austrians, prepared in the full light of the lessons of the contemporary war of positions, and they failed to break through.

In 1916 Italy had to undergo a blow almost as heavy and quite as dangerous as that borne by the French at Verdun. An Austrian drive toward the Venetian Plain from Trent came within an ace of success—was halted within sight of the plain. Afterward Italy took the offensive and captured Gorizia, but again her offensive was checked; she lacked the material, her allies were committed to their own campaigns, were still lacking in the resources needed to expel the Germans from France. Despite its brilliant opening, Italy's effort in 1916 ended in no great progress.

It was worse last year, when Italy, after magnificent effort and colossal sacrifice, and mounted the Bainsizza Plateau, was blasting a passage toward Laibach. Then Germany came to the aid of Austria, using the troops freed by Russian collapse, and exactly a year ago the disaster of Caporetto marked the beginning of a series of German victories which led them almost within range of Paris in July of the present year. At the time Caporetto seemed an inexplicable disaster. It was due mainly to the collapse of the home front. The Italian people were temporarily yielding under the strain of three years of war, with victory still postponed. They felt themselves neglected, abandoned by their greater allies. Every sort of poison worked to the disarray of an Italian army, which at the moment of victory seemed suddenly to melt away in supreme disaster.

New Offensive System.

Yet, looking backward at Caporetto, it seems less inexplicable in the light of later military events. The tactics employed there were successful a few months later against the British, and brought about the wreck of Gough's Fifth British Army. They were successful against the French two months later at the Chemin-des-Dames, and produced the most complete French defeat of the whole war. It was not until the opening phase of the Second Marne that Gouraud's defence broke this new German method.

After Caporetto, Italy suddenly rallied at the Piave, aided by British and French armies. The moment of supreme peril passed. The Italian army was reorganized and the home front restored. Italy entered the campaign of 1918 united, and in this campaign she contributed the first shining triumph. Her victory at the Piave in June was the first in the long series, which brought about surrender of Turkey, Bulgaria and Austria. The second Piave was the foundation of Foch's later strategy, for it definitely assured him that Austria as an offensive force, was out of the war.

Yet, even in victory, Italy was still too weak to push an offensive. She was out-numbered and out-gunned, she was out-munitioned, and before the multiple lines of enemy entrenchments her armies were still immobilized. From June to late October Italy held seventy Austrian divisions on her front, but this was the extent of her possible contribution, aside from the successful cooperation of her troops with those of her allies in the Balkans. But in holding these seventy divisions she deprived Germany of the essential reinforcement needed in the west in the critical days of the Ludendorff offensive in July, and of his defensive thereafter.

Again On Offensive.

Finally, in late October, on the Caporetto anniversary, Italy again steps out; northward she breaks the mountain barrier between the Brenta and the Piave, the threat to her flank and rear is abolished, and then her armies begin to cross the Piave at the north, from Montello, which was the Gibraltar of defence in the First Battle of the Piave. The northern flank makes good its crossing and pushes east along the foothills of the Alps; the Austrian troops southward along the river are threatened. The order to retreat is given, but Austrian armies can no longer retreat. Then comes swift disaster, an Austrian Jena, and thereafter surrender in the field, marching in time with collapse at home. Austria is finished in a campaign of a fortnight, time and details wholly repeating the Bulgarian episode.

We have, then, on the first Sunday in November the announcement that Trent is Italian again. Since the short-lived Napoleonic Kingdom of Italy fell, more alien hands. And what is even better, the Breener pathway, by which for fifteen centuries northern barbarians have made their periodic inroads into Italy, is once more ruled from Rome. The Lago di Garda has become an Italian lake. A little more than half a century ago Garibaldi looked down upon Trent from the hills, then to be taken for the attacking, but Bismarck denied it to Italy. Now the people of the city, passionately Italian in all their sympathies, are liberated. Triest is similarly occupied by Italian troops. italia Irredenta is unredeemed no longer.

Going backward for a moment, to September 15, when d'Esperey launched his Serbs against the Bulgars about Dobropoljie, we can count a little less than seven weeks, and in this time we have seen the miracle accomplished. Serb troops entered Beigrade on the day Italian troops occupied Trent and Trieste. Serbia and Italy were assured of freedom from an invader at the very same hour. The occupation of Constantinople is a matter of moments. The affairs of Serbia, Turkey and of Italy are liquidated.

Serbs' Early Victory.

What shall one say of Austria? About the future nothing can be said with safety. About the past it is, perhaps, interesting in the hour of the final military disaster to recall the military history of the Hapsburg empire in this war. In August, 1914, at the Jedar a great Austrian army was routed by the Serbians, who scored the first considerable allied victory of the war. A week later, about Lemberg the main Austrian armies were routed in a series of battles, which constituted one of the great military triumphs of the war. After these defeats the Austrians evacuated most of Galicia.

Temporarily relieved by German aid, the Austrian armies in November joined in the first Hindenburg bid for Warsaw, but were defeated on the Vistula, and as a consequence Galicia was overrun to the gates of Cracow. In the winter the Russians crowded over the Carpathians, Przemysl surrendered with 125,000 prisoners. Meantime Serbia had destroyed another great Austrian army at Valievo.

In 1915 the German victory at the Dunajec relieved Austria, but the following year the failure of the offensive against Italy was followed by the colossal disaster in Galicia and Volhynia, which led to the capture of 300,000 Austrian troops and the approach of the Russians to Lemberg. Only German intervention saved Austria at this moment, and again when Rumania entered the war, while on the Italian front Gorizia was lost.

In 1917 Austria's role was passive, even at Caporetto the strategy was German, and the decisive blow was delivered by German troops. As an offensive force, as a fighting force, the Austrians were no longer formidable, and their defeat in the First Battle of the Piave this year proved this fact. After the defeats of 1916 the Austrian army was no more than a blunted instrument in German hands; it supplied troops for occupation in Russia, it held the Italian armies at the Piave, but it was no longer capable of furnishing more than a few relatively inferior divisions for defensive operations on the west front, notably at St. Mihiel.

Austria Never Any Good.

Such is the Austrian record in the present war. The German and Hungarian troops have fought well and with great determination, although under Austrian and Hungarian leadership they have invariably been defeated. But the Slav troops have fought with little energy, have surrendered by the thousands to the Russians and have been an element of weakness at all times. Under the strain of the war the army, like the nation had steadily deteriorated. Had the war been between Austria and Russia, Austria would have fallen in the autumn of 1914, after the defeats about Lemberg. Without German aid Austria would have fallen to Italy last autumn after the Italian victories on the Bainzizza Plateau.

And the defeats of the present war are merely a new edition of Austrian military history. Napoleon began his career by his triumphs over Austria in Italy. Ulm, Austerlitz and Wagram in the days of the empire were victories over Austrians. Napoleon III. defeated the Austrians at Solferino and Magenta. Moltke disposed of Austria by the single victory of Sadowa a few years later. On the battlefield Austria has always been beaten, and in this war she has merely run true to form.

On the military side Austria is now finished. Her armies have ceased to exist. Her frontier fortresses are in Italian hands. At last a united Italy holds the great Brenner gateway, the key to her own house. She holds Trieste, the great commercial port of the Adriatic. The supremacy of the Adriatic has been won without a naval battle. At the same moment, security from the north and supremacy in the inner sea come to her. Her armies already occupy Albania, and the harbor of Valona will for her henceforth watch the entrance to the Adriatic.

Italy Gains All Objects.

Thus Italy has accomplished all that she set out to accomplish more than three years ago. She has released upward of a million Latins of the border lands. The old rivalry between the houses of Savoy and Hapsburg—the one representing the Italian liberty and unity, the other standing for slavery in Italy and elsewhere—has terminated in the collapse of the Hapsburg monarchy. Almost a thousand years of evil history, of struggling against human freedom in Switzerland, in Bohemia, in Hungary, in Poland and in the Balkans, against the unity of the German people, of the Poles, the Italians, the northern Slavs and the southern Slavs came to an end in one short week.

It is difficult to preserve any sort of perspective when events are hurrying on at such a pace. More has happened affecting European conditions, greater changes in the map and in the internal organizations of nations, than in any other month since Napoleon fell, in 1814. Yet, great as is the procession of events, the final realization of Italian aspirations is worthy to stand with the most considerable. It is a final obliteration of one portion of the iniquitous system which Metternich fastened upon Europe at the Congress of Vienna. It is the final and the logical step in the liberation of the Italians, who have been the slaves to successive conquerors ever since Rome fell. As such it is a great and enduring act.

The Italian victory instantly raises great problems, discussion of which, in the main, must be adjourned until the world goes to a peace conference to remake the world map. But it is clear that if the peace of the world is to be preserved henceforth, there must be a proper settlement between the Italians on the one hand and the southern Slavs and the Greeks on the other. The conflict between Slav and Italian claims in the regions along the Adriatic, between the Greeks and the Italians in Northern Epirus and the Aegean Islands must be settled in accordance with the principles of nationality, the principles vindicated by Italy in her long and noble struggle for unity and freedom, or what is left inequitably decided will have to be settled rightly in the future.

May Italy Be Generous.

Beyond all question, it will fall to Italy to protect and organize Albania. This carries with it the certain possession of Valona, just as the possession of Pola on the north is assured. Between the Slavs and the Italians several agreements have been signed and a tentative accommodation has been arranged, but the final settlement will come before the peace conference. Between the Greeks and the Italians there is no settlement, but negotiations are in progress. All Americans must hope that in these negotiations Italy will be guided by a generous recognition of the very principles she has, in her own history, so nobly vindicated. This hope will be the keener because nowhere are there more superficially unpleasant obstacles to permanent peace than in the Adriatic and the Aegean.

Putting aside the problems of the future, it is for all Americans to congratulate Italy, an ally, who has sent thousands of her sons to this country and whose relations with us in the future must be far more intimate. A hundred years of noble aspiration, gallant sacrifice and incessant effort are now crowned with complete success. Italy has achieved national reunion. She has also achieved political emancipation. For fully a generation she has been chained to the car of the reactionary monarchies of the Hapsburgs and the Hohenzollerns. Her natural allies, France and Britain, the western liberal powers, have been separated from her by obstacles of German making.

But once more, as in the days of the French revolution and of the great liberation of the last century, French soldiers have fought beside Italian. This time, too, British troops have shared in the struggle, and British and French troops, with a small American contingent, have marched in the last victory, which was, despite this relatively inconsiderable aid, a genuinely Italian triumph. "Italia fara da se" is a motto of the victory in 1918. When one thinks of all the crimes and tragedies, the murders and the executions which fill tions of the last century, there must Italian history of the first two genera- be cause for rejoicing.

THE AFTER EFFECTS OF DREADED LA GRIPPE

Worse Than the Disease Itself —Victims Left Weak, Nervous and Worn Out.

La Grippe, or Spanish influenza as the epidemic now sweeping over all America is called, is one of the most dangerous diseases known to mankind. Anyone who has felt its pangs is not likely to forget the trouble. La Grippe, or influenza, starts with a slight cold and ends with a complication of troubles. It lays the victim on his back, it tortures him with fevers and chills, headaches and backaches. It leaves him a prey to pneumonia, bronchitis, consumption and other deadly diseases. Its after effects are often more serious than the disease itself. It is quite possible to avoid la grippe by keeping the blood rich and red by the use of Dr. Williams' Pink Pills—a tonic medicine which enriches the blood and strengthens the nerves. If, however, the disease attacks you, the patient should at once go to bed, and call a doctor before complications set in. That is the only safe thing to do. But to recover your strength after the severity of the attack has passed, you will find Dr. Williams' Pink Pills an unsurpassed tonic. Through the use of this medicine all the evil after effects of this trouble will be banished. This has been proved in thousands of cases throughout Canada, where in previous seasons la grippe has attacked them. Among the many thus restored to full health is Miss Irene Bootes, Portsmouth, Ont., who says: "I take much pleasure in recommending Dr. Williams' Pink Pills, because I have proved their worth in my own case. Last winter I had a severe attack of la grippe and it left me weak and all rundown. I had severe pains in the chest and under the arms, palpitation of the heart and attacks of neuralgia which left me with the feeling that life was scarcely worth living. I was advised to try Dr. Williams' Pink Pills and began their use only on the principle that I would try anything that might better my condition. I had only been using the pills a couple of weeks when the pains began to leave me. Gradually my strength returned, my appetite improved, and in a little more than a month I felt all my old-time vigor had returned. I am sincerely glad I was persuaded to try Dr. Williams' Pink Pills, and I shall always have a good word to say for them.

Dr. Williams' Pink Pills not only cure the disastrous after-effects of la grippe, but are also a specific for all troubles due to poor blood, such as anaemia, rheumatism, indigestion, women's ailments, and the generally wornout feeling that affects so many people. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Company, Brockville, Ont.

HER FIVE CHILDREN

Had Whooping Cough At the Same Time

Whooping cough is one of the most dangerous diseases of children, especially to those under five years of age. It first starts with a fever and cough, sneezing, watering of the eyes and an irritation of the throat. Later the coughing increases, the child becomes livid in the face, the eyes appear as if they would burst from their sockets, and suffocation seems imminent till relief is brought by the "whoop."

On the first sign of whooping cough we would advise the use of Dr. Wood's Norway Pine Syrup. This famous remedy will clear the bronchial tubes of the collected mucus and phlegm, and in this way ease the racking cough and in a short time make it disappear entirely.

Mrs. Walter McGaughey, North Battleford, Sask., writes: "I have five children, the eldest thirteen and the baby two years old. They all had the whooping cough at the same time. I tried two or three cough remedies, but none gave the same satisfaction as Dr. Wood's Norway Pine Syrup. A home where there are young children should never be without it. I will highly recommend it to those who want a quick cure."

There are many imitations of Dr. Wood's Norway Pine Syrup, so be sure you get the genuine by insisting that the package is put up in a yellow wrapper; three pine trees the trade mark; price 25c and 50c, and manufactured by The T. Milburn Company, Limited, Toronto, Ont.

"Oh It's My Nerves"

Cries Many a Woman Whose Weakened Run-down Condition Makes Her Cross, Irritable, Wrinkled and Old Before Her Time.

Most Women Who Tire Easily, Have Fits of "Blues" or Look Pale, Haggard and Worn, Need More Iron in Their Blood to Strengthen Their Nerves and Put Color in Their Cheeks, Says Dr. Kenneth K. MacAlpine, Prominent New York Surgeon and Former Adjunct Professor, New York Post Graduate Medical School and Hospital.

Physician Says Anaemia—Lack of Iron in blood—is the Greatest Curse to the Health, Strength, Vitality and Beauty of the Modern American Woman.

Administration of Simple Nuxated Iron Will Often Increase the Strength and Endurance of Weak, Nervous, Careworn Women In Two Weeks' Time and Make Them Look Years Younger.

With the divorce courts showing an ever-increasing number of homes broken up often through women's highly nervous state—with thousands of women leaving their business positions or unable to attend to their household duties because of their weakened, run-down conditions, and still others whose constant complaining make life a burden to themselves and to their families, it should be especially interesting to the public generally to read the opinion of such a medical authority as Dr. Kenneth MacAlpine, a prominent New York surgeon, member of the New York State Medical Society and for 16 years adjunct professor of the New York Post Graduate Medical School and Hospital, who tells below how by increasing the supply of iron in the blood, women may become stronger, healthier and more successful in the home, social and business life.

Dr. MacAlpine says: "In my opinion practically nine out of every 10 women who suffer from 'Nerves' can improve their health, strength, vitality and general appearance by getting more iron in their blood. You can tell the women whose blood is rich in strength-giving iron; they are the beautiful, healthy, rosy-cheeked ones, radiant with life, vim and energy—envied and sought after everywhere they go. Yet despite all that has been said and written by physicians about the alarming iron deficiency in the blood of the Average American woman of to-day, there are still thousands who need something to increase their red blood corpuscles and build up their strength and endurance and are either careless of their condition or do not know what to take. In my opinion there is nothing better than organic iron—Nuxated Iron—to help make healthy, full-blooded, beautiful women. By enriching the blood and increasing its oxygen carrying power, Nuxated Iron will often transform the flabby flesh, toneless tissues and pallid cheeks of nervous, run-down women into a glow of health and make them look years younger within a surprisingly short time.

"If people would only realize that iron is just as indispensable to the blood as is air to the lungs and be just as particular about keeping up a sufficient supply at all times there would, in my opinion, be far less disease resulting from anaemic, weakened conditions. For years it was a problem with physicians how to administer iron in a form that could be taken up by the system and increase the red blood corpuscles without upsetting the stomach blackening the teeth or producing other disorders almost as serious as the lack of iron itself. But the introduction of Nuxated Iron has done away with all the objectionable features of the old mineral salts of iron and gives to every careful thinking physician a tried and valuable prescription which he can recommend nearly every day with benefit to his weakened and run-down patients. In my opinion, Nuxated Iron is the most valuable tonic, strength and blood-builder any physician can prescribe."

In commenting upon Dr. MacAlpine's article on "Nerves," Dr. Ferdinand King, a New York Physician and Medical Author, says: "Such words coming from so high a medical authority as Dr. MacAlpine must carry great weight with every thinking person. I regard Dr. MacAlpine as one of the most careful and conservative of physicians and if I had an operation to be performed on myself I know of no other surgeon whom I would rather have perform it. I fully agree with Dr. MacAlpine that there can be no healthy, rosy-cheeked women without iron. I have strongly emphasized the fact that doctors should prescribe more organic iron—Nuxated Iron—for their nervous, rundown, weak, haggard looking women patients. Anaemia—iron deficiency—is the greatest curse to the health, strength, vitality and beauty of the modern American woman. Lack of iron in the blood may often transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable. When the iron goes from the blood of women, the roses go from their cheeks."

If you are not strong or well you owe it to yourself to make the following test: See how long you can work without becoming tired. Next take 3 five-grain tablets of ordinary Nuxated Iron 3 times per day after meals for 2 weeks. Then test your strength again and see how much you have gained.

Manufacturers' Note: Nuxated Iron, which is prescribed and recommended above by physicians, is not a secret remedy, but one which is well known to druggists everywhere. Unlike the older inorganic iron products it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by Standard Drug, Limited, and other druggists.

Dr. George F. Baker, formerly physician and surgeon in Monmouth Memorial Hospital, of New Jersey, says: "During convalescence from SPANISH INFLUENZA (La Grippe) I find Nuxated Iron to be of great benefit."

LEVEL-HEADED ASQUITH.

THE FORMER premier, H. H. Asquith, who recently spoke at Caxton Hall, Westminster, said:

"When the whole future international development of the world was in the crucible it was both a blunder and a calamity that the country should be plunged into the tumult of a general election.

"He said his case against holding an election was greatly strengthened by the fact that the men most entitled to express an opinion on the reconstitution of affairs—the soldiers in the field—would be unable to vote. The House of Commons which will be brought into existence, he said, will be of such a nature as to lack the right authority.

"He said he was prepared to give fullest support to any government which grappled with the problems of reconstruction on progressive lines.

"Mr. Asquith contended that the country was as much agreed on peace aims as it had previously been in accord on war aims, and the present government could enter into the international council chamber with the indisputable mandate of a united people. Moreover, he said, there was no vital divergence about needful transitional measures at home necessitating immediate elections.

"We must get back as soon as possible to the old atmosphere of freedom. There is no government and no parliament but will benefit thereby. I advise the Liberals to take a straightforward course, to keep their eyes open and their hands clean."

This appears to be the correct view to take. The speech delivered by him at the beginning of the war in which he said: "We shall not sheathe the sword which we have not lightly drawn until Belgium is avenged and more than avenged, etc.," is the gem of all the war speeches. We assume from his speech at Caxton Hall he wishes Lloyd George success. In this he will be with the majority of all mankind.

SLAUGHTER OF PRECEDENTS.

THESE ARE times of terror for many dear, old precedents, legends and traditions, that have been worshiped and more or less respected these many years. Hoary old customers, heavy with the dignity of past performances and age, they are going overboard. Some of them struggle fiercely, but all are sinking to oblivion. For instance, that legend of the divine right of kings has been broken as completely as the German armies. The ex-kaiser's loud claims to partnership with the Almighty helped grease the toboggan for the tradition that the king could do no harm because of his Olympian relationships. We knew these things to be silly and untrue, but the splendid trappings dazzled us into accepting them. Before the war, he who dared question this tradition as to royalty, or any other deeply-based social precedents, was a gross fellow. But the rough-and-tumble fight for life, from which the world has just emerged, ended all this. The world will have no more nonsense, and will not stand for any past performances that tend to clog the wheels of the new machine. Because a thing has been done thus and so for centuries isn't going to be sufficient from now on to give it a standing in the new order. It has to make good by fitting in with the new democracy. Otherwise, to the junk-pile with it. A lot of the precedents in our social, industrial and religious life have already vanished, and many others will have to be made over, born again, instilled with fresh youth and more common-sense, if they are to retain any of their former influence.

A WRONG VIEW.

AN INFLUENTIAL section of the American press is loudly demanding that every American soldier be brought back at once now that the "rescue" job is finished. These papers oppose the proposal that a portion of the United States forces be used for the temporary policing of Europe, contending that as the trouble which launched the war was none of America's business she should withdraw at once for fear of being charged with interference with what these critics hold is strictly Europe's affair. Having vindicated the national honor and helped punish the Potsdam criminals they would have the United States step aside and let the Allied nations do the cleaning up and the readjusting. This seems a ridiculous stand to take considering the manner in which President Wilson has laid out the future of a large section of middle Europe and the extent to which the United States has become involved in the financial affairs of the Entente powers.

As the United States is going to have a big say as to what form the reconstruction of the old world shall take, she must share some of the burdens and responsibility, and policing is one of these. There is no doubt, however, but that the American people as a whole recognize the responsibility and are willing and anxious to carry on with men and money during the ticklish transitional period and after if necessary. America's magnificent contribution to the cause of the Allies has made her a participant in "Europe's quarrel," and she cannot escape a sharing of the tasks that peace brings. The actual, immediate cause of the war was long since buried beneath the real world-wide issue as to whether civilization or barbarism should rule. Once the Hun swept into Belgium the issue, morally if not legally, became America's fight, just as it did that of any other free nation.

At the conclusion of the war with Spain the American people assumed the "white man's burden" in the Philippines and Cuba. Today the American people must share with Great Britain, France and Italy an infinitely greater burden than that thrust upon them by the taking over of the Spanish overseas possessions. The liberation of the world from the bondage of militarism and the removal of the Prussian menace has been accomplished, but the task of making this hard-won freedom secure will be a titanic one. The United States' "interference" in the affairs of the old world is logical and right. Any view that would have the United States back out now is wrong, and casts a reflection on the intelligence and honor of the people of the great republic. To withdraw the entire American army from Europe at this time might be of little military importance, but it would be construed by those influences hostile to liberty as an indication of discord amongst the Entente nations and the Entente peoples would be inclined to consider Washington as a deserter.

POETRY AND PERFORMANCE.

WE WRITE poems about our heroes, painting them as young gods with shining eyes who went into battle clad in the armor of righteousness and wearing the robes of democratic idealism. And those poems have a true place and a wonderful influence.

But do we think of them as young gods when we rub shoulders with them on the streets. They are splendid in the abstract, for certain. One who takes up the harp to sing their glories may bring tears to the eyes of thousands, but if these same people come in close contact with a soldier who does not look at all like a young god, but more, perhaps, like an ordinary man, whose eyes do not shine from a pallid face, whose crumpled khaki is not suggestive of radiant armor, and whose drooping cigarette inspires no thought of knightly deed, the poetry of the thing oozes out of them. The pseudo-sentimentalists who can become emotionally intoxicated by reading "In Flanders Fields" may or may not be ready to get up in the night and welcome a huddled band of returned men when they arrive on their long journey from the west front. Thank goodness some are ready to get up and serve at any time.

The men who invoke the public to let their patriotism so shine that the good government may not be embarrassed in any way are always willing to make gods of our soldiers—in the abstract. When it comes to paying pensions, they permit certain colonels in high civic positions to take generous sums and put the humble private, the man about whom they write and speak as worthy of first consideration, on a beef-and-bone basis.

Our newspapers and journals, our posters and our orators, idealize the private soldier in epic verse and picture. But on the street and in the shop those who read do not always ask him what they may do for him. Thousands love him and cannot express their admiration, but if we would come down to earth and deal him the substantial bread of hard cash rather than the poetic lotus flowers of fulsome—and far-removed—adoration we imagine our Tommies would think we were all a pretty good "bunch of scouts" after all. When you get your chance be sure that you offer him the thing he desires rather than another bouquet of verbal violets from someone else's garden.

THE CHALLENGE TO THE CHURCH.

IF MEN WERE ever in a mood for the reception of the teaching of the Messiah they are today in that attitude of mind.

Napoleon said that the Lord was on the side of the cause with the greatest number of battalions. But how was the invader held off until the cause of right was able to secure the greatest weight of arms and men? Was the ability to struggle on against tremendously overwhelming odds simply and solely based in the dogged human pluck of men, such as they constantly show in their daily treading of the mill in the workaday world, or was there something more than material will-power, something inspired by the high ideal?

The high ideal! Was not that the spirit behind the arm, the spirit speaking through the soul to the mind and the muscles? And is not the high ideal simply the golden rule, that is Christ's teaching and Christ himself?

The chaplains who went into the bloody mire will give us a real answer, and so will the men who were watching the drama of war even while they acted it. Those chaplains have been close to men, closer to men than ever preachers were before. For the first time, it is almost safe to say the clergy saw men's souls stripped of everything but the primitive virtues and vices. Before the war the average clergyman graduated from college to go into his church, undefiled by close contact with the world, and his existence became a cycle of church, home and classroom. Necessarily he did not reach the people who were most in need of his assistance, because sin does not sink its clutches in the average home, but works in the dark stretches that lead away from the family threshold. No matter how zealously a minister might work to reach those who needed his assistance, they were beyond the sound of his voice or held aloof from him. But all that will be changed. The ministers of the country, both those who served as chaplains and those who did not, will be able to approach the world's men on a new basis of understanding. He must be a dullard who has not grasped some of life's great human lessons from the war.

The war was waged in the spirit of the brotherhood of man. The churches have a heaven-sent opportunity to capitalize the belief that brave men demonstrated with their bodies.

Something About the Art of Camouflage and a Good Trick the Canadians Pulled Off.

When the future historian comes to write of the great war, he will dwell on camouflage as one of its leading features. The war camouflaged everything from hats to high politics, from guns to governments, from ships to strategy. Camouflage has been the comic relief, so to speak, of our awful tragedy—if you can call that a tragedy which has for its happy ending, universal democracy.

Never before were the engines of war so horrible, never before did death come at the soldier from so many quarters—from the heaven above, from the earth beneath, and from the waters under the earth—and never before has the fun spirit shone so radiantly. Camouflage—what is it? What else but the eternal Boy Scout that lives in every grown man's bosom! Camouflage—it gives us back our dime-novel childhood! Once more we "play Indian"—but to a high purpose.

Camouflage is protective coloring. Our democracy was used to it before the war in the shape of cold storage eggs masquerading as new laid, wolf-hearted profiteers as good Christians and corrupt politicians as heaven-born statesmen. I could chase this thought a long way, but I leave it with you to fill out as you please. We were used, I repeat, to camouflage on its lowest plane, but we had no idea that it could be applied the other way round—to free the world of its tyrants instead of to conceal them.

Uncamouflaging Public Affairs.

The war has taught us the underlying and uplifting principle of camouflage. I devoutly hope that peace will never misuse it again. At all events peace will not misuse it for some time to come because the soldiers coming back from the frank conversation of the guns, will be inclined to put public discussion on the same footing.

Yes, we ransacked Time, pillaged history, looted the dawn of creation, ravished the elements and invaded strange planets for the lethal machinery of our Armageddon. Figure it out. What is the tin hat but the morion of the Middle Ages? What is poison gas but the stink pot of the Chinese? What is our liquid fire but the liquid fire—albeit fiercer and more unquenchable—of the Byzantines? What is the trench mortar but the Roman catapult? What is the tank but the wooden horse of Troy brought up to date? What is the dugout but the Cave Man? What is the aeroplane but Sinbad's roc—with bombs for eggs? What is the submarine but the fish—the sword-fish? What is the gas mask but the aspect with which Mr. Wells endows his martians? Yes, indeed, we went a long way back—and down and up—to go forward. But we have gone forward—that is the answer.

The Naval Calithumpians.

When I first saw a camouflaged ship I murmured, "As idle as a painted ship upon a painted ocean." To which my friend, the professor, objected that he had observed all sorts of color effects on the sea—grey, blue, gold, silver, opal and other dapplements, but he had never seen an ocean painted to look like A Nude Lady Falling Down Stairs or A Tooth In The Headcheese. Evidently the professor did not believe in camouflage for ocean liners. Neither did the captain for that matter, but I was converted to a belief in it after spending thirty-six hours in Halifax harbor, where we picked up our convoy. One by one these ships stole out of unsuspected nooks and crannies until we were twenty-one altogether and the solemn old sea looked like a Calithumpian parade. After that I was prepared to admit that there might be something in camouflage for ships so long as the shore was used as a background. In this opinion I am abetted by Commander Hodder of the good ship Tunisian, who sticks to it that the best way day-in and day-out camouflage for the high seas is the war-grey of the British navy.

But camouflage on land—ah, that is another story! The war could never have got along without it. Here for instance is a German helmet—not the pickelhaube with its glittering spike which invited enemy fire—but the tin hat of the summer of 1918—the last word in tin hats—modelled by that austere hatter, Experience. It is an awkward thing, weighs three pounds at least, and makes the wearer look more like a cabbage than it does like Lohengrin. It seems to tell me that four years of war have knocked the grandioseness out of the Hun and brought him right down to hard pan. At all events that "shining armor" stuff has been cut out of the field equipment, because the shine was too dangerous. This interesting souvenir is dappled green and brown to imitate grass and trees and the dun landscape of the terrain. Yes, we brought the German Mars down out of his clouds and rubbed his face in the dust.

Camouflage is not only the art of making things invisible but also of making them look like something else. We splash our tents and huts and lorries with all sorts of drunken colors to confuse the birds-eye-view that a Hun plane gets from the sky. Even the aeroplane photograph refuses to give up the secret. It may be a gun—or it may be a tree—the only way is to try it out. If it spits back it is a gun. A wolf in sheep's clothing is a penetrable disguise compared with a super-howitzer masked as a woodland bower. The bigger the guns, the more modest they are. Theirs is the genuine army pose—they conceal their great deeds under a cloak of humility. And the more ingenious the humility—the better for that battery's safety.

A gun not only makes its whereabouts, but it masks itself. One afternoon I saw a tractor dragging a big gun up towards the front. Save for its outlines it did not look like a gun at all. With its motley of black and green and bronze, it looked more like a boa constrictor that had stiffened out. It takes me right back to the Leather Stocking tales to keep peace with these ingenuities. Talk of woodland lore—your very life may depend on noticing every movement in a bush, every opening in a bank. That little hole now—it looks like a rabbit burrow—but there is a wicked little machine gun behind it. That trench rampart of sandbags—what could be blanker? And yet it is full of eyes with Lee-Enfields blinking behind them. That garbage dump—old bottles, boots, cans, —how innocent! But the killer is there. That tree over there—how pretty! How symmetrically that third bough projects! Ah—the sniper has got you! That wheat sheaf—it stirs—it may be the wind—then again it may not. Better shoot and not take any more chances.

Humor a Camouflage.

So runs the game of camouflage. It even penetrates character. The humor of the British Tommy—it is the tender camouflage of his gallant soul. The smiles he smiles, the kisses he throws, as he passes through the little villages on his way to the front—the camouflage of the peril he goes to meet. "Look" he seems to say to the women and little children "look at me and cheer up!" But the moment comes when he drops his camouflage. There is, as Solomon says, a time for everything, and it's not smiles that Tommy fights the Hun with. I have never seen a film picture of British soldiers actually plunging into a battle. If the pictures I have seen make such a pretence they lie. I have seen many soldiers go into battle and they do not go with a smile on their lips. There is a high, set look on every face—particularly on the faces of the officers who realize the full measure of their responsibility. When life and death are in the balance the arbiters wear that air.

How Napoleon would have enjoyed this game of camouflage. When I passed the Iron gate of the Invalides—the gate that has never been opened since his body went through—I could almost imagine the greatest commander of history muttering, "Let me out. I'll show them!" And indeed the dead hero of France seems to have had some prevision of this world war and the problems it would involve, for was it not his genius that planned the straight away national roads which are so convenient for marching armies and the double rows of poplars which are such useful camouflage for motor lorries and supply columns?

An aerodrome is a hard thing to hide—to some extent it must be out in the open, but camouflage and a background of forest—if such a background is available—help to rob it of its conspicuousness. Comparatively few aerodromes have been bombed by the Hun and for two reasons, of which the first is that there are too many aeroplanes handy to chase the bomber, and Fritz does not like to take long chances. The second reason is that he probably bombs the bogus aerodrome which is artfully contrived to make him spit all his venom. Not only is the aerodrome a fake but phony aeroplanes of lath and canvas are scattered about, so that when Fritz shoots he does perhaps a hundred dollars worth of damage and there are no casualties.

Toward the end of the war camouflage had advanced from material to strategy. The Canadians pulled off a good trick at the battle of Amiens. It was, of course, advisable to deceive the Hun as to where we were going to strike next. So two weeks before the movement southeast towards Amiens was started, a rumor got about that the army would march northwest toward Arras. It was told to the junior officers as a great secret and as a matter, of course, became camp gossip in a few days. Moreover, a batch of Hun prisoners were taken who overheard the whispers and then escaped with singular ease and dispatch. A couple of battalions were marched north to lend an artistic verisimilitude to the tale. In fact the camouflage was so successful that King Albert of Belgium wrote indignantly to Marshal Foch, complaining that if any new movement of Allied troops, in a country of which he was still king, was contemplated, he ought to be informed of it. Not till then was he let into the great joke. It is now a matter of history that the Canadian achieved a great surprise at Amiens which would have been impossible under the old methods. At a given point the two northwest battalions about-faced and quick-marched, rejoining the main army which watted under sealed orders for the southeast trip. Everybody was in time for the battle, which would have been guessed by the Hun a month ahead if it had not been for this elaborate piece of camouflage.

PEACE TO BRING PERIOD OF RECONSTRUCTION IN POLITICS

Margery Mills Seizes This Opportunity to Ask People to Get Broader Outlook.

Peace!—was ever such a welcome message! How the thoughts which it brings in its train overshadow all other thoughts. A just peace, and as its framers we all hope, a lasting peace. Surely the wise men from the east and west and north and south, who together will have formulated the final terms, will close every crevice through which any would-be world ruler might creep, and build barricades so high that none can surmount them, that peace may be indeed established.

Now come the reconstructive days with their great problems and dangers, and it is of great importance that we as a people be undivided in aim and purpose—if the aim be worthy and the purpose wise, which none can doubt. All right-thinking citizens of Canada are united, irrespective of class, upon aim and purpose—to make and keep Canada prosperous, that she may aid in the best way possible, the great empire to which we belong and the world of which we form not the smallest part.

Definition of Politics.

The differences that exist are differences in opinion as to the best way in which these aims may be accomplished. The study of these different ideas, selection of the best ones, rejection of those wrong in principle, the incorporation of the best into the laws and practice of the country—is politics.

That was a grand note sounded in a recent letter in the "Voice of the People Corner" of The Advertiser, that education is the key to the social problems that confront us, in common with all other countries.

The days when arbitrary "Thou-shalt-nots," no matter from what source they emanate, are obeyed without question, seem to be past.

The life of the individual is repeated in the life of a nation, was a principle laid down by a great educator, and the nations seems to have arrived at a stage where reason is brought into play.

National Educational Movement.

A national educational movement, showing the fallacies of the teachings which look dangerous to the powers that be would be far more effective in checking the spread of any dangerous cult, than the attempt to throttle it by main force can be.

Tennyson gloried in England as

"The land where girt by friends or foes,
A man may speak the thing he will."

We're afraid that we cannot take pride in some of England's colonies for that reason. Would not an order-in-council, drafting plans for the teaching of two lessons in history for the teachers of today, be in order?

First. The downfall of James II., and secondly, how laws are made?

If they teach present text books they're liable to punishment, for these books imply illegal (?) criticism.

"Ah, we as a people need a wider outlook. It is all too true even in these days, that people and progress "perish for lack of vision." But with the vision must come action, definite and persistent, toward bringing about the days to which the vision points.

Reform in Attitude Toward Ballot.

It does not seem possible to repeat too often or with too much emphasis that the greatest reform needed in this land of ours is a refom in the attitude to the ballot.

In this regard there are two powerful classes—the buyers of votes, the sellers of votes—and practically powerless in the grip of these two is the citizen who recognizes the responsibility of the votes and exercises his franchise accordingly.

The graft and dishonor which sullies our political life today is due to this cause primarily, and it is for every right-thinking man and woman to act unmistakably in this matter.

There is one point upon which we need no wider vision. The power of the ballot market, for such it is, is beyond our dreams.

Must Meet It With Organized Opposition

We must meet this organized corruption with organized opposition. Are the laws of the land not definitely with us in our effort? If there is any doubt upon that matter it should be cleared up, and the first act of an honorable parliament, honorably elected, should be to see that a workable law providing adequate punishment for such offence against freedom is enacted and enforced forthwith.

We women must take a definite, decided stand upon this matter. If votes are bought and sold ours shall not, must not, be.

This state of affairs does not exist because the bulk of the electorate is intentionally dishonorable, but simply because there is lack of education along these lines. It is obviously no advantage to either political party to conduct a campaign against this evil unless both do, and in the humble judgment of one who has heretofore been merely an onlooker, neither party can lay claim to great distinction along these lines.

Someone must do this work. Surely it is possible to impress people enough with the importance of the ballot that it is MY means of representation. If I sell it I sell my personality as a citizen.

If that be not possible let political leaders just come out into the open. Give us ballot quotations along with our other market quotations that we may sell our wares to the best advantage. Advertise the middlemen and wholesale dealers just as merchants in other commodities do. Now is the time. MARGERY MILLS.

GREAT CRUSADE OF CENTURY FIGHT AGAINST SOCIAL EVIL

Miss Saunders, Dominion "Y" Secretary, Speaks Before "Y" Political Club on "Duties of Citizenship."

"The duties of our citizenship as Canadians" was the subject of a most inspiring address delivered before the Y. W. C. A. Political Club last evening by Miss Una Saunders, Dominion secretary of the association. She approached her subject by declaring that women in Canada were tremendously ignorant of the passion and effort which had been spent by the women of other lands in achieving the franchise. "We shall rather study the greater women's movement behind that which gave us the franchise," said the speaker. "First of all the great motive force which really lay behind the whole women's movement was the fact that God really felt He could not wholly reveal Himself unless the women as well as the men were at their best, and He was revealed through the two together. And again, if we really believe in a providence watching over us, when we look back now, we can see that in the years before the war, women were preparing themselves for the tremendous crisis, when all the very best in them would be needed. We can see that the very organizations then brought in existence were being prepared to take over the great quantities of war work which were to come. These are the two great underlying things which are back of the women's movement, and in taking up our citizenship we must not forget them.

Corporate Womanhood.

"Always there has been in the women's movement an element of unselfish service, and now there is a great sense of corporate womanhood, women understand team work now. Women who were brought up sheltered and educated have learned to mingle with the great masses of uneducated women and even with those who are known by the world as 'outcasts.' In the women's movement there is a tremendous passion for moral uplift. They demand freedom, not only for freedom's sake, but because through it they release someone who had been oppressed.

Things Lying Behind the Franchise.

"In speaking of the duties of our citizenship, I am not going to speak of the use of the franchise, but rather the greater things lying behind it. Behind our movement there must be a soul, and there must be high ideals, and there must be a knowledge of social conditions, and a creation of public opinion.

Great Crusade of the Century.

"One of the most critical questions of the present day is the whole question of purity, the fight against venereal diseases, and the bringing in of reform in social conditions. We have been preparing for what I believe will be the great crusade of this century. The war has given us a tremendous opportunity. Before the war we knew something of this evil in our midst, but we were afraid to speak of it, and public opinion was not making headway to get behind it. But when the war came, and we saw we must have physically fit men to fight, public opinion changed, and now that the war is over, we must bring the public vision on the peace problem for reconstruction."

Findings of New York Conference.

Miss Saunders here mentioned a conference held in New York, and attended by representatives from England, France, the United States and Canada, to deal with this question of the social evil, at which conference the following findings were made: First, that a single standard of morals should prevail for men and women; that men and women should serve together whenever possible on bodies whose functions concern the development and enforcement of moral standards; that continence is compatible with health and intellectual vigor for both sexes; that prostitutes be not treated as a class apart from other women, and that prostitution be not recognized as a trade (refers to France); that all measures either preventive or repressive concerned with social morality apply impartially to men and women; that a simultaneous vigorous attack on venereal disease should be made, and that the issues of public health and morals be thoroughly correlated; that sound sex education be incorporated into our entire educational system, in homes, schools, college, church and the press; that social and economic adjustments, granting to the individual decent living conditions and adequate recreation are essential to progress in social morality, these adjustments concerning chiefly, housing conditions, industrial conditions, including conditions of work and wages, and proper and sufficient recreational opportunities.

Dr. Margaret Patterson Head of Social Hygiene Department.

In speaking of sex education, or social hygiene, Miss Saunders announced that the National Y.W.C.A. had secured Dr. Margaret Patterson to be head of the staff of a social hygiene department in connection with the Y.W.C.A., who would be willing to come to the different cities and give lectures on this subject.

In the course of her address Miss Saunders mentioned Teuton bigamy, which was being carried on, not by Germany alone. "In this crusade of ours we are combatting not only an evil in our midst, but a very powerful force without—an insidious poison which can be fought only by the aid of Jesus Christ. In this, as in the great war just terminated, He will give us the victory."

Last night's meeting of the political club was the first of the season, and if every other night is like unto it, the "Y" dining-room will be overflowing. It did not take London women long to appreciate the value of such a club in their midst. Mrs. White, the president, was in the chair.

Next Meeting.

The next meeting will be held on January 6, when Mrs. W. R. Alfred, chairman of the Y.W.C.A. war work, Detroit, will be the speaker.

THE FIGHT.

Now, when Tom and Jerry Beaver saw Dick Otter and Benny Mink eating their little brother (although the mean little brother did deserve it) they were very angry, because Dick and Benny were so unfriendly as to eat one of the Beaver family.

You know that Dick Otter and Benny Mink were old enough to know better than to eat up a Neighbor for supper. They were both splendid fishermen; and there were plenty of fat trout in Mirror Pond and Murmuring Brook. But they had a sudden spell of laziness, and thought it too much trouble to go fishing. So these two big and strong fishermen, Dick Otter and Benny Mink, had eaten the naughty, little Brother of the Beaver Twins.

Now, you may think it funny that Tom and Jerry Beaver were not crying over the loss of their brother, even though he had always been a naughty boy; but let me tell you that he had been so mean to his good, kind Mother, and Tom and Jerry had often seen him throw dirt all over the

But they soon jumped to their feet, and faced Tom and Jerry, and showed their sharp teeth.

laundry she had just washed, and do other things to tease his hard-working Mother, that they were not feeling very badly over losing him. You see, bad children do not win the love of their brothers and sisters.

But Tom and Jerry were trembling with hatred of Dick Otter and Benny Mink, and they suddenly called out very loudly and angrily: "You'll pay for this, you sneaks! You've let our Mother prepare dinners for you, and then you dare to eat up one of our family! You're the meanest neighbors we ever had. Come out here and fight us! You cowards!"

And Dick Otter and Benny Mink were so astonished to hear the twins' voices, that they both exclaimed at the same instant, and it was a very funny sight to see them both fall over in surprise and turn over somersaults backward.

But they soon jumped to their feet and faced Tom and Jerry, and showed their sharp teeth; for they knew that they had the biggest fight on their hands that they had ever had in their lives. Tom and Jerry didn't stop for any argument, for they knew these unfriendly neighbors needed a sound thrashing; and they decided that now was the time, and this was the very place to give the scamps all that they deserved. My, that was the biggest fight ever seen on Mirror Pond between those two old families. My, how the fur did fly! They were evenly matched, and they all had long and sharp teeth and very sharp claws. All the little people came out to watch. And you could see the heads of swimmers, everywhere on Mirror Pond, moving very fast, as they swam to get a close view of their neighbors, who were having this row. All the swimmers got out on the bank, and crowded around in the pouring rain to see the battle.

Why You Look Old?

Your hair is lustreless, your teeth are good, your eyes are bright, then why the change? It is your SKIN. It is losing its youthful freshness. This is not necessary.

Our Double Creams Retard the Inroads of Age

ONE GOLDEN TEXT SUGGESTION. By Rev. T. S. Linscott, D.D. (Monday)

Jacob Wins Esau.—Gen. xxxiii., 1-1".

QUESTIONS FOR TODAY.

16. Verses 10-11.—When we meet a man whom we have reason to fear is an enemy, and he greets us instead with gladness, why would his face seem to us to be "as the face of God"?

17. What ground have we for believing that God always, in effect, turns our enemies into friends and our disasters into blessings?

18. Jacob clearly took a lot of delight in making substance; what is the evidence that in this case at least he took more delight in giving it?

Golden Text: A soft answer turneth away wrath.—Prov., 15:1.

TO BE CONTROLLED BY LOVE ASSURES US VICTORY.

"Love makes the world go around," is true in more ways than one. Love is a great dynamic which no person can resist. If our hearts are full of love and we are conscious that our cause is right, there are no difficulties which we cannot overcome. No matter what the forces against us, no matter what the combinations may be of evil-disposed men contrary to us, if we can keep ourselves in the love of God, be controlled with this omnipotent force, we are certain of victory. God through Jesus Christ is winning the world by love. He knows that force and coercion cannot conquer a rebellious world, and so he has turned upon us the tropical heat of love, and it is melting our hard hearts.

It's an Old Song.

Dear Miss Grey,—Would you or any kind reader please supply me with the words of the old song. The chorus runs:

"Good-bye, Annie, darling,
Break off from thy sorrow,
'Tis sad that our parting must be.
I'll sail the seas over,
I'll cross the wide ocean,
I'll sail the seas oven for thee."

This piece was written on the story of Enoch Arden. I will sign my name, A HIGHLAND LASSIE.

Ans.—It would be interesting to know what success the sailor met with. May be some reader can send us the rest of the song.

What is a double acting baking powder?

A double-acting baking powder is one that starts its action in the mixing bowl and finishes it in the oven.

Ordinary baking powders develop their full strength in the mixing bowl and you have to hurry your cakes into the oven. Then, you are always afraid that the oven is not just hot enough, or that a door will slam or something else happen to cause the cakes to fall.

You don't have to hurry or worry when Egg-O Baking Powder is used. Egg-O rises only *partly* in the bowl. You may let the dough stand 15 or 20 minutes or longer—doing so will give better results. When put into the oven, Egg-O continues its action—this *second* action being so steady and strong that a cake is not likely to fall even if it does get an unexpected jar.

Sarnia and Guelph Play Semi-Final Game Today

Junior O. R. F. U. Game Will Be Played at Tecumseh Park This Afternoon—Both Teams Confident of Winning—Winners Will Meet U. T. S. Squad of Toronto for the Championship.

Guelph and Sarnia collegiate rugby teams will play the semi-final junior O.R.F.U. game at Tecumseh Park this afternoon at 2:45 o'clock.

Owing to the "flu" epidemic the schools in both cities were closed for several weeks, and it was found necessary to play a sudden-death game this season. In the past home-and-home series have been played. London is about half way between both cities, and the local fans will have a fine opportunity to see a fast rugby match.

Sarnia is expected to bring down a strong team to play against the Guelph lads. A number of Sarnia boys are experienced players, and should give the Guelph High School boys a hard game. P. F. Munro of Toronto will referee the game, and Art Smith of Western University will umpire.

If the London Collegiate lads had not defaulted the series to Sarnia they might have been playing in the semi-finals, but owing to the "flu" and hard luck the locals were forced to drop out.

Guelph team won the championship of the Western Ontario Interscholastic Rugby Union, which forms part of the O.R.F.U. The Guelph boys have been showing up well in games with Galt and other cities, and many are looking forward for a victory for Guelph.

The Tunnel City team last year won the semi-finals, but were put out in the finals with University Schools of Toronto.

The winners of the game today will meet the University Schools of Toronto team in the finals, which will likely be played next Saturday.

A large turnout of local spectators is expected. A number of fans from both Guelph and Sarnia will accompany the teams.

CHICAGO, Nov. 23. — Football will reach its climax in the middle west today, with Illinois meeting Chicago at Chicago; Wisconsin playing Ohio State at Columbus, and Northwestern meeting Iowa at Iowa City in the important Big Ten contests.

Chief interest centres in the Chicago-Illinois game, as Illinois, if victorious on its fourth contest of the season, will have a stronger claim to the championship. WANTS RELEASE FROM ARMY

BOSTON, Mass., Nov. 22.—Walter Pipp, of the New York American League Baseball Club, and Tris Speaker, of the Cleveland Americans, took advantage of a recent Government announcement, and applied for immediate discharge from the naval aviation school at Massachusetts Institute of Technology. The men said they expected to play baseball next season, now that the war was virtually over.

Dempsey Turned Down Negro Fighters Twice

Was Dempsey and Jeanette Fight "Framed"—Bond Is Said To Have Been at the Garden and Did Not Look Sick.

NEW YORK, Nov. 21.—For the second time within six months Jack Dempsey last Saturday night refused to fight at a war fund carnival in this city. Last summer he declined to meet Battling Levinsky in the Knights of Columbus show at Ebbets Field, and on Saturday night he refused to get into action at the United War Fund benefit in Madison Square Garden. Dempsey was scheduled to fight Joe Bonds and when the latter reported ill Joe Jeannette offered to take his place. Dempsey would not fight a negro and left the ring amid the boos and hisses of the crowded house. Relation of the facts behind Bond's withdrawal may win some followers of the sport to Dempsey's side, but the fact remains that the big fellow permitted himself to be guided more by the word of his manager than by his own impression of proper conduct, and he deserved a good measure of the disapproval of those who came there to see him fight.

But This Was War Charity.

Dempsey declined to fight Jeannette on the score that he never had met a negro and did not propose to meet one then or in the future. It seems rather strange that Dempsey should draw the color line at a war fund show, for we remember quite distinctly of him having boxed a fighter named John Lester Johnson at the Harlem Sporting Club in 1916. The Johnson person is as black as the ace of spades and Dempsey certainly could not have mistaken him for a Caucasian. The boxing records have this meeting with Johnson set down, so that we cannot be mistaken. It is evident that the color line was a mighty poor excuse for Dempsey, and that he put himself in company with Willard among the unpopular figures of the pugilistic world. The late John L. Sullivan did not care to fight a negro, but we cannot imagine his withdrawing under the circumstances which surrounded Dempsey's leaving the ring last Saturday. Friends of Sullivan will pardon the comparison.

Dempsey May Have Been "Framed."

On Dempsey's side there is this to be said—he probably was "framed up." On Saturday afternoon we were told that a plot had been hatched to get Bonds to report sick and for Jeannette to step into the ring and offer to fight Dempsey. If Dempsey refused Jeannette, we are told, was to step up to the white boxer and say something uncomplimentary. This was to anger Dempsey into fighting, and the row would be on. If Dempsey ignored the slur Jeannette was to punch him. Whether this arrangement was gone through with we know not. We do know that Bonds, who was in the Garden on Saturday night, did not look ill. We know that Jeannette appeared in the ring with suspicious promptness and alacrity and that he went close to Dempsey and said a few words that were intended to provoke the Kentucky feudist. Dempsey refused to be stirred and Jeannette refused to strike him. If the plot was sprung it was a mighty cheap piece of business. But with all Dempsey was not justified in his stand. He could whip three Jeannettes in as many rounds and he should have gone through with it. Jack Kearns, his manager, deserves more censure than Dempsey.

The Dempsey affair was the only disappointment in a truly remarkable show that reflected great credit on Charley Harvey. Every fight was a real fight and the crowd got a fine run for its money. However, it is to be regretted that invariably when boxing gets an opportunity to place itself right with antagonists of the sport, somebody spills the beans.

KITCHENER CHAMPIONS HOLD FIRST PRACTICE AT AMBITIOUS CITY

Allen Cup Holders Preparing for Series With the R. A. F.

HAMILTON, Nov. 22.—The Kitchener champions held their first practice of the season last night on Hamilton ice, and it was a very useful hour that they put in. They are getting ready for their series with R.A.F. and Dentals for the Toronto S.P.A. Christmas tree fund, and they want to be in condition to give Dents another lacing.

Hainsworth, Merrick, Karges, Truschinski, Hiller and Parkes were in the squad. Otto Soloman, the left wing, who suffered a broken ankle in London on peace day, is out of the game for the season. The champions realize that they will miss him considerably, but they have a boy who is attending St. Jerome's College who is being groomed for the position.

Secretary Roschman accompanied the Kitchener lads here, and was in touch with the Tiger officials, with a view to arranging an exhibition game. Nothing definite was arrived at, however. The Tigers will soon be ready for their first game, but it is quite likely that Bill Marsden's Aura Lee club will get first chance.

Meds To Meet Woodstock College Fourteen Today

Western University Second Year Meds Team Will Clash With Woodstock College Seniors — Locals Have Strong Line-Up.

Final arrangements have been completed for the rugby game to be played at Woodstock this afternoon between the Western University second-year Meds squad and the Woodstock Seniors.

The Meds had a final workout yesterday afternoon for today's game, and the team which will journey to Woodstock should give the college lads a strong game.

Quinn, former member of the Toronto "Arts" fourteen, will play right scrimmage for the Meds. Elgie, right outside player for the Western, will be unable to be on the line-up today, having gone to Toronto. Simpson will play right outside in the place of Elgie.

William Mace, captain of the Western "U" team will play quarterback. Lewis, Douglas and Quinn will be on the scrimmage. With this trio the Woodstock team will be kept busy.

The team will leave on the 12:20 o'clock train. The locals will not take a referee with them.

A return game will be arranged if possible for next Saturday afternoon. The Meds are anxious to bring the Woodstock team to the city and show the local rugby fans a real game.

The Western team will line up as follows: Lewis, flying wing; Chalk, right halfback; O. Smith, left halfback; Cline, centre halfback; Mace, quarterback; Simpson, right outside; Knight, left outside; Martin, right middle; McGinnis, left middle; Annett, right inside; McLeod, left inside; Quinn, right scrimmage; J. H. Lewis, left scrimmage; Murray Douglas, centre scrimmage.

TORONTO SOCCER MEN TO PLAY BETHLEHEM STEEL SOCCER TEAM

United States Champions Will Play Queen City Team Saturday, Nov. 30.

TORONTO, Nov. 22.—The visit of the Bethlehem soccer team to Toronto to play a return game on Saturday, November 30, is being eagerly awaited. The University of Toronto Stadium has been secured for the game, and arrangements are being made to accommodate what is anticipated will be the largest crowd that has ever witnessed a soccer game in this city.

The Bethlehem team is a powerful aggregation, but it is thought that a team can be selected to beat it. Granted more favorable conditions than those that the first game was played under, the team that was beaten then would give them a close run.

The selectors, who will be able to benefit by the experience of the first game, will meet to select the team.

The game is being played in behalf of the Sportsmen's Patriotic Association, and seats will be on sale Monday at Spalding's.

GEORGE CARPENTIER COMING TO AMERICA TO RECOUP FORTUNE

French Heavyweight Expected to Arrive in January— Will Box Big Men.

NEW YORK, Nov. 21.—From the best possible sources it is learned that Georges Carpentier, the French heavyweight champion and war hero, is coming here in January. And he's coming here to box.

Carpentier has lost a lot of money because of the war, and for that reason he isn't inclined to box for nothing. He needs the money, and he is willing to box for it, which leads to the possibility of a bout with Jack Dempsey. Jack is willing to meet the Frenchman, and if the Frenchman feels like going through with a bout with Dempsey, one of the biggest houses of the season should result. It would take Tex Rickard to promote such a contest and lend it necessary class. Such a contest under Rickard's direction would be a bigger proposition than the Willard-Moran bout.

The Has-Beens and the Nationals both have strong teams and before the year is ended it is expected that the two teams will be running closely together for first place.

T. Crawford had the honor of being high scorer, getting 591 points in the three games. W. Hunter was next in line with 572 points to his credit.

ROYAL CITY CURLERS ELECT OFFICERS FOR THE COMING SEASON

Charles Butler Elected President at the Thirty-First Annual Meeting.

GUELPH, Nov. 22.—The 31st annual meeting of the Royal City Curling Club, Guelph, which was held at the Victoria Rink, was the largest attended meeting in the history of the club, and a great deal of enthusiasm was manifested. The chair was occupied by Hugh MacDonald, president, and he presented the eight members of the club who won the Ontario tankard at Toronto last winter each with a pair of handsome cufflinks, these being the individual prizes from the Ontario Curling Association. The beautiful tankard banner was hung up in the clubroom, and was inclosed in a large oak cabinet presented to the club by Mr. Charles R. Croue, one of the skips. A large group picture of the tankard winners was also hung up in the clubrooms, this being the gift of the members of the two rings. The election of officers was proceeded with, and resulted as follows: President, Charles Butler; vice-president, Frank H. Barber; secretary-treasurer, E. H. Johns; chaplain, Rev. G. F. Scovil; executive and games committee, Wilfred Cooke, Fred Smith, N. MacDonald, John Easton; reception committee, John Croue, W. H. Johns, J. B. Hoover; representatives to Ontario Curling Association, R. Mahoney, C. R. Crowe; Ontario tankard skips, R. Dillon and C. R. Crowe (the games to be played in Guelph); district cup skips, N. MacDonald and Fred Smith (these games to be played at Galt).

It was decided to play more inter-club games during the coming winter, and also hold two or three local bonspiels. It was also decided to have the rinks laid out for the playing of points, in order that the members can get plenty of practice before the competition. Several new members have joined the club, and all are looking forward to another successful winter's sport.

To-morrow's HOROSCOPE

By Genevieve Kemble

SUNDAY AND MONDAY, NOVEMBER 24—25.

Sunday promises to be a fortunate day for all kinds of literary and professional labors, or any activities in which letters and writings figure, as Mercury is trined by the Moon, making the mind quick, sagacious and versatile. Jupiter is also in favoring position to Luna, denoting financial gain and successful issues. It is not a day for beneficial changes, journeys or removals.

Those whose birthday it is may expect a successful year, but should avoid travel and radical changes. A child born on this day will be clever, industrious, generous and impulsive.

Monday promises to be the proverbial "blue Monday," with most of the planetary operations working at cross purposes. There may not be much headway in business. Luna being conjunct Saturn, Jupiter does not help any in investment, speculation or profit, and a similar unpromising condition dominates in the realm of domestic, social and affectional matters, Venus being squared by the Moon. Altogther it is a day for "possessing the soul in patience," waiting for tomorrow's astral benefits.

Those whose birthday it is should have a quiet day. A child born on this day will be proud and masterful.

Secrets of Health and Happiness

What Science Really Knows and Does About Pneumonia

By DR. LEONARD KEENE HIRSHBERG, A. B., M. A., M. D., (Johns Hopkins University.)

DR. HIRSHBERG

Pneumonia is one of the most fatal and most extensive of all acute maladies. Recently in one area of 50,000 men, physically the selects of the land, I saw 2,300 patients down with pneumonia at one time.

Pneumonia is a serious distemper of crowded districts of cities, of tenements, of camps, of dark, illy-ventilated, congested quarters.

There are four types of pneumonia. The influenza bacilli, the bacillus of bubonic plague, the streptococcus and other bacteria may inaugurate an infection or "cold," and one of the four types of the pneumococcus then "gets in its dirty work."

The treatment of pneumonia is still in the same unhappy state as it was 2,000 and more years ago. That is to say, two or three victims of it out of every four or five get well, no matter what is done, and the particular onions, medicines, serums or faith then used receives wide publicity and false credit for the "cures."

Until ninety or more of every hundred are cured by a treatment, no one has the right to claim that a particular method used on 75 sufferers is "a pneumonia cure."

This very day I read that a doctor appeared before a medical society and claimed that he "cured" 75 patients with an "anti-toxin." This is no proof that he has a "cure." Seventy-five blackbirds or robins do not prove that summer has arrived. Two thousand years ago Hippocrates claimed he had a "cure" for pneumonia, because every patient he had treated in his experience recovered after some nauseus drug was administered. A man's whole lifetime of practice may not encounter more than a hundred pneumonias. This isn't enough to prove anything, as subsequent events prove.

Elements of Mystery.

Unfortunately, then, pneumonia still awaits its Columbus. At present it is three times in four a self-limited, self-healing disease, which can neither be cut short nor aborted in most instances by any means at human command.

Strange characteristics of pneumonia are that sometimes under the most unfavorable circumstances, when death seems almost present—and irrespective of treatments—it may terminate abruptly, favorably and naturally.

On the other hand, under the best conditions of nursing experience and attention sometimes it cannot be stopped, shortened or prevented from ending sadly.

One of the most advisable measures ofte nneglected is to grease, oil or otherwise protect the shoulders, chest, back and neck of the pneumonia victim.

The perspiration and strain thrown upon the skin and other parts of the torso call for the prevention of evaporation and further internal congestions of the chest. Omission of this has often, perhaps, made a mild, single-lobed pneumonia become a serious double pneumonia.

Vaccines Will Prevent.

Hot poultices and hot applications to the lungs do more than relieve pain, they act as counter-measures to relieve the internal congestion.

Anti-pneumonia serum can be obtained for type I pneumonia. The type is ascertained by making tests for the particular kind of germ that is involved.

Abundance of drinking water helps to relieve and loosen the phlegm and thick matter in the lungs. Plenty of fresh air—sunlight, warm and dry—combats the trouble.

Vaccines made up of dried, killed pneumonia germs of all kinds are now in use. These are inoculated into the arm and thus ward off the likelihood of pneumonia in any of its various mischievous forms.

Answers to Health Questions

J. McN.: Q.—Please advise what to do for eczema.

A.—There are several varieties of eczema, some of which are cured by keeping away from water, flowers, chemicals, and from occupations that irritate it. You may also try this:

Salicylic acid	15 grains
Balsam peru	1 dram
Phenol	15 drops
Sulphur	1 dram
Petrolatum	½ ounce
Wool fat	½ ounce

MR. V. O. B.: Q.—Kindly advise what to do for a leaky heart.

A.—Inside of the chambers of the heart there are draw curtains called valves. These flap open to allow the blood to come in, and close automatically when blood has filled the chambers. When these curtains shrink from an infectious disease or some other trouble, they do not close fully, and then cause a flow of blood between the chambers. It is not a serious condition at all.

M. G. S.: Q.—Kindly advise what to do for rheumatism.

A.—Rheumatism is a carelessly used name given to the symptoms of many different diseases. If you will describe your symptoms closely and precisely, and forget the vague term, I will be glad to help you.

D. S., Abbotsford, Canada: A.—If you will send a stamped, self-addressed envelope, with your query repeated, I will be glad to answer your questions.

MRS. A. W.: Q.—Kindly tell me what to do for nits.

A.—Wash the hair in acetic acid and water. Then brush the hair thoroughly and repeat this several times in succession.

T. P., London, Ont. Q.—Kindly advise what to do for dandruff.

2. Please tell me what to do for blackheads?

A.—Use a little of the following for dandruff three times a week:

Sulphur	1 dram
Resorcin	10 grains
Salicylic acid	10 grains
Sulphate of quinine	10 grains
Petrolatum	1 ounce

2. Gentle massage with a sterilized piece of absorbent cotton or chamois, followed by the application of a little paste made up with the following will help:

Fullers earth	4 drams
Vinegar	2 drams
Glycerine	3 drams

E. C. J., Vittoria, Ont.: Q.—Kindly advise what to do for itchy skin.

A.—Apply a little of the following to the affected parts:

Phenol	30 drops
Lime water	2 ounces
Rose water	2 ounces

H. B., Preston, Ont.: Q.—Kindly advise whether apples are injurious to the health.

A.—Apply a little of the following to your hair:

Quinine	1 dram
Pilocarpine	2½ grains
Salicylic acid	15 grains
Lanolin	½ ounce
Petrolatum	½ ounce

O. K., Canada: A.—Go to sleep early, and drink a glass of hot milk before you retire.

MRS. D. R., Canada: Q.—Kindly tell me what to do for a goitre.

A.—There are various kinds of goitre. Some require no treatment, but most of them require an operation, which is the only cure. They are seldom inherited, and their cause is not known.

Good Night Stories

By Blanche Silcox

THE RESTLESS LITTLE FLY.

Willy Fly was very unhappy and discontented with his home in the kitchen. He wanted to explore the world beyond the shiny window pane.

"It looks nice from here," sighed Mamma Fly, "with the sun shining, and it's lovely out there in summer time. But the days are growing colder all the time and before many hours we may have snow. Then what would you do?"

Willy Fly had never seen snow, and didn't know whether it was good to eat or not, but he couldn't see anything to frighten him in the name of "snow," so he waited his chance, and that afternoon, when he found the window open, out he buzzed.

All afternoon he flew this way and that in the sunshine, happy, exploring the wonders that met his eyes at every turn. But when evening came and with it a stiff, cold wind, Willy Fly began to shiver.

He was cold and hungry. He wished he had never ventured outside the nice warm kitchen, and Willy Fly began to cry bitterly.

Mrs. Grey Spider saw him and invited him into her parlor, but Willy Fly declined the invitation.

"Better come in and get warm," she coaxed. "My house is cosy and warm. It's going to snow and you'll surely freeze."

Now, Willy Fly's mamma had often warned him about venturing into Mrs. Spider's parlor, and when Mrs. Spider made a dash at Willy Fly to grab him, cold as he was Willy Fly lifted his stiff wings and soared toward the window-sill.

It just happened the window was open a wee crack, and Willy Fly crept inside cold and hungry, just as something cold and damp fell on the tip end of his wings.

Mamma Fly was certainly glad to see him, and brushed off his suit with her nice warm hands.

"Just in time, dear," she buzzed merrily, "for it's beginning to snow, and you would have soon frozen so you couldn't fly."

"It would have served me right," he shivered, "for not listening to you."

He turned to look out of the window.

He Wished He'd Never Ventured Outside.

The world that had been so sunshiny and bright in the afternoon was covered with a soft white carpet, and the wind blew cold on Willy Fly's back through the window crack.

"So that's what you call snow!" he buzzed. "Well, I've learned my lesson. The warm kitchen's better any day."

With his mamma he flew up near the fireplace, where they could keep nice and warm. And no one ever heard Willy Fly complaining about his home again. He never cared to explore beyond the shiny window pane.

A soap-boiler's shop was among the things discovered in the excavation at Pompeii several years ago. The city was buried beneath volcano ashes A.D. 79. It is said that the soap found in the shop had not lost all efficacy, although it had lain under the ashes more than 1,800 years. Soap-making was quite a business in a number of the Roman cities at the time that Pompeii was destroyed.

MY SOLDIER HUSBAND

ADELE GARRISON'S CONTINUATION OF

REVELATIONS OF A WIFE

Why Madge Felt Hesitancy in Asking Dr. Pettit a Most Important Question.

"Look here, old man, how long have I got to lie here like a mewling kitten that hasn't got its eyes opened yet?"

Dicky raised himself on one elbow and glared at Dr. Pettit with angry impatience. The glare lost much of its effectiveness in the semi-darkness which the physician, re-enforced by an oculist's decision, had imposed upon my husband's room, ever since he had taken charge of his case, but the tone clearly indicated Dicky's state of mind.

"We cannot tell yet." Dr. Pettit spoke soothingly, drawing on his gloves with the deliberations characteristic of him. "It all depends upon yourself now. You have made tremendous strides in this week, and it ought not to be so very long now, if you're patient, when we at least can give you more light, and let you sit up a while each day."

"When can I read?" Dicky demanded. I could not help but reflect that it was exactly the tone a spoiled boy of 12 or 13 would use.

"Is This the Way—"

"Not for several weeks," returned Dr. Pettit decidedly. "You may walk around, in fact, do almost everything else first before you try using your eyes in anything like reading or drawing."

Dicky promptly named the place from which the kaiser is supposed to have drawn his inspiration, and fearing further explosiveness upon his part, I tried to smooth things over.

"It doesn't really matter about the reading, does it, dear?" I ventured "You know I read for hours every day to you, and am always ready to do so at any time you want me."

"For the love of Mike's pet cat," Dicky exclaimed irritatedly, "whoever said you didn't? You're the original little tied-to-the-stake-martyr, on the job every minute. I think if you'd let up your everlasting fussing, I'd get out of here twice as quick. That isn't what I'm talking about. I want to know when I can read to myself, and when I can get out of here. And if I can't get an answer, why, I'll just have to go to sleep again, that's all—only thing there is to do in this blasted hole! Shut the door when you go out. Good night!" and with an angry flounce he turned over on his side.

I followed Dr. Pettit into the corridor, closing the door behind me. As I turned to him, I saw smouldering anger in his eyes, noticed that his hands were clenched into involuntary fists.

"Tell me," he began hotly, his repression falling away from him, "Is this the way?"

The Subject Changed.

I interrupted him ruthlessly, for I couldn't permit the harsh criticism of Dicky which was trembling upon his lips. I knew that he was deeply stirred at my husband's rudeness to me, but the knowledge did not bring the same glow of appreciation for his chivalric championship of me that I have once or twice before experienced when the young physician has witnessed Dicky's outbursts of temper. I am wiser than I used to be, and either wisdom or intuition tells me cynically that if Dr. Pettit were married and Dicky an involuntary wisness to disagreements between the physician and his wife, it might be Dicky's turn to wax indignant over the other man's rudeness. The Biblical beam in the other's chap eye is always very easy to see.

"Never mind that," I said hastily. "There's something far more important that I must talk over with you, and I've been seeking the opportunity to do so for a week. Have you a few moments to give me now? Mother Graham is out walking with the baby, and if we go down to the living-room we shall be undisturbed."

He bowed gravely, his well-trained facial muscles giving no hint of the astonishment he must have felt.

"I am absolutely at your service. You know that," he said quietly, and in spite of my cynicism of the moment before, I felt a thrill of comforting dependence at the earnest words.

I did not find it easy to broach the subject of my father's finances to Dr. Pettit. Facing him in the living-room, I felt a little panic of embarrassment coming over me. For a moment my spirit flared rebelliously against Lillian, who had urged—rather, commanded me—to find out from the young physician whether or not my father could afford the generous check he had handed me when I had appealed to him at the time of Dicky's financial fiasco. Then sanity, common sense, flogged my rebellion into quiet. My whole future course of action depended upon my knowing the exact state of my father's finances.

It is believed that nearly 30 per cent of Canada is still undiscovered, and if Indian reports are to be believed there is in the basin of the Mackenzie River one of the largest areas of possible oil-bearing country on the face of the earth. The Indians report the existence of lakes 100 miles and over long in Yukon that no white man has ever seen, while even the Indians apparently know nothing of the as yet untrodden Mackenzie mountains.

In Turkestan every wedding engagement begins with the payment of a substantial consideration to the girl's parents. If the girl jilts her lover the engagement gift has to be returne: unless the parents have another daughter to give as a substitute.

It has been proved that sudden cold sometimes causes the death of thousands of fish in the shallow waters of the tropics and sub-tropics. Many species are so chilled as to become helpless, and are either killed directly by drowning or are washed ashore in a comatose state. The phenomenon is known locally as "freezing," although the temperature of the water may be several degrees above the freezing point.

Zero weather in this climate is particularly trying, because our ears are not protected. A hat invented by Henry Vaughan of Montreal would meet this need. Attached to the sweatband at the back is a woolen flap which fits into the crown and is invisible when not needed, but can be drawn down as a snug covering for the ears and neck on frosty days.

"Oh! This Shopping"

"IT certainly gets on my nerves. I come home all fagged out, and nearly always have a splitting headache.

"Yes, they say we women always like shopping. But if everybody feels as tired out afterwards as I do, it is no joke.

"I wonder if it is my nerves. I never could stand much sightseeing, anyway. The strain on the eyes seems to exhaust the whole system.

"I suppose I shall not be able to sleep to-night, and that will put me in fine condition for to-morrow.

"Why don't somebody invent a good medicine for the nerves?

"But what was that Mrs. Crary was telling me about? I believe it was Nerve Food—Dr. Chase's Nerve Food. I have heard so many talking about the way this Nerve Food helped them that I must give it a trial."

And this is what Mrs. Crary of 515 Cedar street, Peterboro', Ont., writes about her experience with this well-known food cure:

"I was suffering from a rundown condition of the system, nervous debility and sleeplessness. I lost a good many nights' sleep, and sometimes after going to sleep would wake up with a start, and then lie awake for hours. I also had frequent headaches and pains through my back. I got so that I could hardly do any work. I had taken doctor's medicine, but it did not seem to help me. Through reading in the newspapers of the help others had derived from the use of Dr. Chase's Nerve Food I started taking this medicine. The first box helped me, so I continued, taking about five or six boxes. I found that I was a great deal better, able to sleep well and do my work without any trouble. My headaches and nervousness are gone. My mother lives with me, and she has also found great benefit from the use of the Nerve Food. I cannot speak too highly of Dr. Chase's Nerve Food for nervous trouble of any kind."

If you could only read the letters which come to this office from day to day telling of what Dr. Chase's Nerve Food is doing for women, and men, too, in all parts of Canada, you would not be long in doubt as to the most satisfactory treatment for tired bodies and exhausted nerves.

All we can do is to pass along the good words by publishing an occasional letter. It remains for you to benefit by using this blood and nerve builder to restore energy and vitality to your exhausted system.

You can obtain Dr. Chase's Nerve Food from all dealers, or Edmanson, Bates & Co., Ltd., Toronto, 6 boxes for $2.75. On every box of the genuine you will find the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author.

Businessmen of this city—especially those who have achieved success in the face of handicaps and largely by the great force of advertising and live wire methods—will find a lot of wholesome enjoyment in "Kidder & Ko," the Pathe Play that comes to the Princess Theatre on Monday and Tuesday.

Bryant Washburn appears in the principal part. He is the son of an old chap who lives in Maine, and who has jogged along for many years as a canner of codfish. He sticks to the old ways of doing business, but manages to amass a considerable fortune. He sends the son to college, but is convinced that the boy will never amount to anything. He's full of fool notions, the boy is, according to the old man's way of thinking, and his chief distinction is as a pool champion.

Then when dad tells him to go away and return with 10,000 "iron men," the boy, who labors under the name of Cuthbert, comes to life. He goes away. He falls in love. And falling in love he rustles up a lot of ambition to amount to something, for he knows that there will be no gay wedding bells for him unless he manages to make a success of himself.

How he does it is delightfully novel, so natural, and so amusing that one warms right up with sympathy for the young lovers.

Bryant Washburn made a big hit when he appeared in "Skinner's Dress Suit," and followed that with "Twenty-One," but it is a certainty that he will surpass his previous record with "Kidder & Ko."

WORLD'S GREATEST STARS IN THE GREATEST PRODUCTIONS AT MAJESTIC NEXT WEEK

W. S. Hart in "Border Wireless" on Monday and Tuesday; Dorothy Gish on Wednesday and Thursday in "Battling Jane"; Lila Lee on Friday and Saturday Next.

Enid Bennett, the dainty Thomas H. Ince star in Paramount pictures, is a young actress with a record that is unique, almost, even in the screen annals. She climbed to stardom with the facility of a sailor going up the ratlines in a storm. She came, saw and conquered. Everybody loved Enid from the start, because she has such a wistful smile, such big pleading eyes and pretty teeth. And she can act. That was what helped. So she became a star, and she's getting brighter all the time. Now she is to be seen here in her latest photoplay, which, they say, is a really splendid emotional drama, the story of which is laid in Hawaii. Fred Niblo directed the picture, and Jack Holt is the leading man. Robert McKim, Charles K. French and Maude George also are in the cast.

"The Marriage Ring" will be shown at the Majestic Theatre today only. Also a News Weekly and two comedies, "The Polished Villain" and "His Friend's Wife."

Appearing at the Majestic Theatre today only in her greatest success. A special feature of this afternoon's performance will be the big song festival lead by Jack King and Cloya Terry.

Jack King to Lead Great Chorus at the Majestic This Afternoon.

Jack King, "the golden-voiced tenor," assisted by Miss Cloya Terry, will lead the big song revue at the Majestic this afternoon. This feature is being repeated again today at the earnest request of patrons who participated in last Saturday's song festival.

Wm. S. Hart at the Majestic Monday and Tuesday in "Border Wireless."

William S. Hart, peerless portrayer of strong virile western roles, will make a distinct hit in his new Artcraft photoplay, "The Border Wireless," at the Majestic Monday and Tuesday. The picture, which was directed by Mr. Hart under the supervision of Thomas H. Ince, is intensely dramatic and of that Hart type which is bound to attract widespread and favorable comment.

Steve Ransom, a brave Westerner, becomes a bandit in revenge for the death of his aged parents, who die of grief when they are deprived of their ranch through the dishonesty of a railroad corporation in Wyoming. He commits several daring robberies at railroad stations, and soon is an outlaw with a price upon his head. He assumes the name of Allen, and goes to Yellow Dog, near the Mexican border, where he rescues Elsa Miller, a telegraph operator, from a band of Mexican bandits who attack her as she is delivering a message to the Magdalena Mines.

Their love is mutual. Steve is intensely patriotic, and when the United States declares war against Germany, he decides to go to Fort Scot and enlist. He meets Herman Brandt and Frederick Schloss, two Hun spies, whose headquarters are located at the abandoned Magdalena Mines, and when Brandt makes disparaging remarks against the United States, Steve forces him to kiss the American flag.

Brandt causes Steve's shack to be searched, and evidence is found revealing Steve's identity and the fact that he is a fugitive from justice. Brandt learns that Steve has gone to Fort Scott, and he telegraphs the facts to the commandant of the fort, with the request that Steve be arrested. Steve escapes, and with the aid of Elsa runs down the spies, destroys the wireless plant, and for his services he is pardoned. He and Elsa then plight their troth. The support is excellent, the portrayal of Elsa by Wanda Hawley being most artistic.

An added attraction on the program Monday and Tuesday with the features, comedies, etc., will be a special film of the Windsor fair, which was such a great success this year. The film shows all the principal events of the fair, the stock show, the automobile parade, the judges and the throngs that were at the fair, and also a number of closeups of the performers and their performances which entertained the crowds.

CHARLIE CHAPLIN, the world's greatest screen comedian, appearing at the Majestic with "Fatty" Arbuckle on Friday and Saturday next. The comedy, "His Reckless Fling," is the only photo-comedy in which these two comedians have been featured.

Dorothy Gish in "Battling Jane," at the Majestic Wednesday and Thursday.

How one quaint little nomad, a girl with a bicycle, drifts into a Maine town during a thrift stamp drive, and not only helps to put the village over the top, but also rights several wrongs and stumbles into a romance of her own, is most delightfully shown in "Battling Jane," the first Paramount picture starring Dorothy Gish, which will be exhibited at the Majestic next Wednesday and Thursday.

Dorothy Gish is a marvel of cleverness, and in this role she is fully as charming as in any of her previous parts. The story is one that lends itself to the talents of the star and her cast, and in addition it has a bouyant, patriotic and uplifting theme, well developed by Director Elmer Clifton and leaving nothing to be desired either in point of acting or investiture. The support is unusually capable.

Lila Lee at the Majestic Next Friday and Saturday in Her Newest Play.

Do you love adventure and mysterious tales of buried treasure? Do you care for the joy of youth and the roar of the sea? If so, you will quite enjoy "Such a Little Pirate," Lila Lee's second Paramount picture which will be displayed at the Majestic next Friday and Saturday. It was directed by George Melford, who is responsible for "The Cruise of the Make-Believes," in which this dainty little star made her cinema debut with so much success.

In this charming photoplay, Miss Lee is the granddaughter of an old salt who is the descendant of a pirate. On his arm is tattooed a map of an island where Spanish treasure lies buried. "Bad-Eye," a villainous seaman, attempts to copy the map, but the old sailor sears his arm with fire nd destroys the marks, but Patricia, the girl, has a copy which later comes in handy. The voyage is a thrilling one and naturally, the treasure is found, but nearly lost through the machinations of "Bad-Eye."

Charlies Chaplin and Fatty Arbuckle in Big Comedy, "His Reckless Fling," at the Majestic Friday and Saturday Next.

Charlie Chaplin and Fatty Arbuckle, who have made millions laugh, will appear at the Majestic on Friday and Saturday of next week in the comedy unique, "His Reckless Fling." This is the only comedy in which these two great comedians are featured.

Bert Thomas Sings at the Majestic Next Week.

Bert Thomas, the Chinese tenor, with a voice like the famous temple bells of his native land, will be the attraction extraordinary, at the Majestic all next week. This Oriental singer, who has studied under one of London's best vocal teachers for a number of years, with the idea of entering a theatrical career, opens his engagement at the Majestic. Seldom have the people of London the opportunity of witnessing such a vaudeville novelty, and you will certainly enjoy hearing Bert Thomas sing popular songs of America, and a few of the songs of his own China.

"HEARTS OF THE WORLD," THE MOST WONDERFUL STORY EVER SCREENED, TO PLAY A RETURN ENGAGEMENT AT MAJESTIC

Great Production Will Be Shown at Popular Playhouse for One Week, Commencing Monday, Dec. 2 — Patrons Requested That the Play Be Repeated.

"Hearts of the World," the greatest production ever screened, will return to the Majestic Theatre for one week's engagement commencing on Monday, December 2.

"Herats of the World" required eighteen months in the making, and many of the scenes were taken on the actual battlefields of France by Mr. Griffith, with the official aid and assistance of the British and the French Governments. Mr. Griffith, however, is anxious to remove any apprehension that "Hearts of the World" is primarily a war picture. It is, he announces, primarily a love story, in which war figures as the grim background. It may be called "the story of a village," and for more than forty minutes during the exposition of the story, there is not a cannon shot, not a suggestion of war's alarms. There is the pretty romance of two girls each in love with the same man; there is the quiet and peaceful atmosphere of a small French town before the holocaust of the war. Then comes the conflict, with its ensuing effects upon the fortunes of those in the little village. The battle scenes shown are actual battle scenes taken right in the trenches during the death struggles of the French and the Germans; only occasionally has it been found necessary to piece the story of the battles together by means of acted scenes. Thus one sees the life in the trenches; the charges of the French soldiers; the thrilling hand-to-hand conflicts and the thrust of bayonets; the murder of the shells; the great guns in action; the tanks; the attack by liquid fire; the charges and the retreats; the German pill-boxes; the flight of the villagers; the ruthless destruction of property; the treatment of young girls who fall into the hands of the Germans, and other things too numerous to mention, the whole culminating in the arrival of the American troops, of ultimate victory, and a hint of future happiness for those who have endured this terrible struggle.

Mr. Griffith is anxious to have it understood that while "Hearts of the World" deals with war and love, it is a drama staged.

Prominent in the cast of "Hearts of the World" are the beautiful Gish sisters, Lillian and Dorothy; Robert Harron, George Fawcett, George Seigman and other well-known players.

LEGAL QUERIES

A SUBSCRIBER, R. G. C.: Ques. 1.—Just what is meant by "probating a will"? Ans.—Proving the will in the surrogate court.

Ques. 2.—Must a will be probated within a certain length of time after the death of the person who made it? If so, how soon? Ans.—Seven days after the death of deceased, and within one year after death, and after the expiration of the year the parties interested can compel the executor to probate the will.

Ques. 3.—Must all claims against an estate be advertised for when the will is probated, or is this only necessary when the property is to be divided at once? Ans.—Yes.

Ques. 4.—Is a lawyer's fee fixed by law? Ans.—Yes.

Ques. 5.—Can he charge anything he likes for such work? Ans.—No.

Ques. 6.—What would be the least amount likely to be charged for an estate of about $10,000? Ans.—$40 if under $10,000, and $50 if over, not exceeding $20,000.

A CONSTANT READER: Ques.—A party having the management of a piece of property allowed another party free use of considerable of the land for gardening purposes, also several extra lots to be worked on shares of half each in potatoes. When the potatoes were dug, which were of very good quality, the party who planted refused to share with the other party. What proceeding should be taken, and about what quantity do you consider should be half share of each? Lot size, 30x115 feet. Ans.—Sue for damages for breach of contract or the recovery of one-half the potatoes. As to what would be a half share, the only way would be to measure the actual quantity in bags and then divide equally.

MRS. T. ANDERSON.—Q.—If you have a mortgage on city property for the term of ten years, and the mortgage ran out last September, is it all right to not have it renewed until the present owner sells? The property has changed hands three times, the mortgage remaining the same.

A.—Yes; but be sure the property is still worth sufficient to pay your mortgage and the expenses of enforcing payment.

The SWEETEST LOVE STORY EVER TOLD

A ROMANCE OF THE GREAT WAR

EIGHTEEN MONTHS IN THE MAKING

BATTLE SCENES ON THE BATTLE FIELDS OF FRANCE

(UNDER AUSPICES BRITISH WAR OFFICE)

This wonderful production will return for a one week's engagement at the Majestic Theatre commencing on Monday, December 2. The great orchestra, led by Jules Brazil, will furnish many wonderful musical effects particularly suited for this colossal screen drama. "Hearts of the World" shows the happy, peaceful life of the people of a small village before the grim horror war reared its ugly head over the horizon. The causes that led up to the war are shown; the meeting of the English Parliament on the eventful night when the vote was cast for war; the session of the French Senate voting upon the declaration of war; the session of the cabinet awaiting the fatal hour when the ultimatum to Germany would expire. These scenes come as a prelude; then the great drama begins when the German hordes enter France. In taking the battle pictures for "Hearts of the World," Mr. Griffith had the assistance and co-operation of the British war office.

CANADA'S INDUSTRIES MAY BENEFIT LARGELY IN GERMAN INDEMNITY

Financial Times Is Informed That This Claim Will Be Advanced — Billion To Be Spent In Two Years.

MONTREAL, Nov. 22.—The Financial Times claims to be informed "on authority which cannot be at present disclosed," that the chief claim which will be presented on behalf of Canada by Sir Robert Borden at the peace conference will be for the expenditure of one billion dollars in Canada of the indemnity to be exacted from the enemy in reparation for his devastation in France and Belgium.

The paper adds "Canada will not, we understand, present any claim for a cash indemnity for any part of her war expenditures, nor ask for any territorial compensation.

"In view of the fact that a large part of the materials necessary for the reconstruction of Belgium and France must necessarily be provided from outside of those countries, Canada will seek to receive a fair share of the orders for such materials, and the amount of one billion dollars, to be expended over a period of two years at the rate of $500,000,000 a year has been decided as a reasonable proportion."

DIES IN THE WEST.

HYDE PARK, Nov. 22.—The village of Hyde Park was greatly shocked Tuesday afternoon when a telegram arrived informing Mr. and Mrs. Skippon that their eldest son, Thomas Skippon, had died in the west from Spanish influenza and pneumonia. He had left home during the summer for a well-earned holiday, and when he reached the town of Lang death overtook him. As yet the family have not received definite particulars, but it is expected that the body is on its way, and on its arrival in London will be laid in Hyde Park Cemetery.

Visit of H. C. Hoover to Col. House May Have Deep Significance.

BY ARTHUR S. DRAPER.
[Special to The Advertiser.]
Copyright, 1918, by New York Tribune, Incorporated.

LONDON, Nov. 22.—American Food Administrator Hoover is expected to arrive Saturday morning, and probably will go straight to Paris to confer with Col. House.

Some apprehension exists in official quarters, which perhaps is based on imperfect information, concerning Mr. Hoover's visit. There is a feeling that America may now be inclined to play the lone hand in the food situation of the world, as against the deep conviction here that the only possible preventive of a breakdown in food supplies in the near future is the United States' closest co-operation with the inter-Allied food council.

On the one hand, the president's statement placing the feeding of Belgium and Germany on practically the same basis provoked strong criticism here, while on the other hand there is a terrific hourly-growing feeling against feeding the Germans at all. The feeling is enhanced both by the news of the British casualties and the treatment of the prisoners.

It is fully realized that although British commands shipping, America controls the finance. Nevertheless it is hoped the United States will agree to throw in her lot entirely with the Inter-Allied food policy, dropping all thought of isolated action, and pool everything to feed the Allies and the neutrals.

These consideration will be urged on Mr. Hoover when the food council meets in London next week.

M'ADOO RESIGNS; COMPENSATION IS NOT SUFFICIENT

Secretary of U. S. Treasury and Director-General of Railroads Quits.

MAY AGAIN PRACTICE LAW

President Wilson Expresses Regret in Accepting the Resignation.

WASHINGTON, Nov. 22.—William G. McAdoo, has resigned as secretary of the treasury and director-general of railroads, to leave the treasury on the appointment of a successor and the railroad administration January 1, next. It was announced tonight that he had asked President Wilson to relieve him now that the war is over so that he might return to private business after six years in office.

President Wilson has acceded to Mr. McAdoo's request and accepted his resignation. Retirement was made necessary, Mr. McAdoo said, "because of "inadequate compensation" allowed cabinet officers.

In Need of a Rest.

The secretary also explained that he is seriously in need of rest, although there is no actual impairment of his health. The secretary plans to take about three months' rest and then may resume the practice of law in New York.

Mr. McAdoo announced his resignation at a conference with newspaper correspondents and made public correspondence between himself and President Wilson.

The President's Regrets.

The president, in his letter of acceptance, expressed regret at the secretary's resignation, referring particularly to Mr. McAdoo's "distinguished, disinterested and altogether admirable service rendered the country in both posts."

Mr. McAdoo explained to the correspondents that he had intended to resign before March 4, 1917, but remained because of pressing war problems. At present there is no sign as to who Mr. McAdoo's successor may be, either as secretary of the treasury, or director-general of the railroad administration.

EX-KAISER'S LIFE WOULD NOT BE WORTH A NICKEL IN GERMANY, IS REPORT

LONDON, Nov. 22.—From a special investigation in Western Germany the correspondent of the Daily Mail at The Hague has ascertained that there is considerable hostility against the former emperor and his eldest son. The correspondent says that after William Hohenzollern had entered Holland a thousand German soldiers arrived at the frontier and demanded that they be allowed to pursue and kill him. They were turned back by the Dutch frontier guards.

The correspondent does not believe that the former emperor could reach Berlin in safety no matter what guarantees might be given. The former crown prince is universally hated also, and is greatly despised. His life in Germany, the correspondent declares, would not be worth an hour's purchase. He is under the closest guard in Holland, owing to fears of an attack.

Much publicity is being given to Eitel Friedrich and August Wilhelm, respectively the second and fourth sons of the former emperor, and the correspondent's impression is that the royalists' hope is that through them dynastic sympathy can be maintained.

KINGSTON M.P. RAPS TORONTO TORY "BUNFEED"

Wm. Nickel Exposes Plot to Bring About Union Government's End.

WILL NOT PARTICIPATE

Does Not Wish to Lend His Approval to Such a Movement.

KINGSTON, Nov. 22.—W. F. Nickel, K.C., M.P., Unionist member for Kingston, has addressed a letter to T. W. Close, secretary of the Complimentary Dinner Committee, explaining why he declined to attend a dinner which that committee has arranged for November 28 at Toronto in order to enable the Liberal-Conservative party to celebrate the conclusion of the war, and at which Hon. Robert Rogers will be the guest of honor.

Mr. Nickel says in part:

"While I appreciate the courtesy of being remembered and rejoice with you that the great war is virtually over, yet I do not concur in your conclusion that we must expect an end, at any time, to the political truce which exists at present. In my judgment it will be most unfortunate if the political conditions that now exist in regard to the maintenance in power of a government representing both of the great political parties should not continue.

Much Yet To Be Done.

"The problems of the war were great and experience demonstrates that this country could only be governed, if governed satisfactorily, by a government representing all shades of political opinion, and it is not to be disputed that the problems of reconstruction, including in this term, demobilization, will be so complex and far-reaching that it will be absolutely essential that as far as possible we forget past party differences and unite disinterestedly for the purpose of advancing the best interests of the people at large. Any attempt to organize as distinct from the Unionist party, the Conservative party must necessarily irritate those Liberals who so loyally supported the Union Government last year, and those members in the House who now support it, and raise in their minds suspicions as to the honesty of purpose of that branch of the Unionist party, formerly known as Liberal-Conservatives.

"When the time comes that the Unionist party can no longer continue then it will be time enough to consider what steps should be taken for organizing into groups those who may hold different points of view."

SPANISH INFLUENZA IS SPREADING OVER CIVILIZED WORLD

Germ Eludes Bacteriologists and Health Authorities Are Baffled.

The Influenza epidemic continues unabated. Its ravages are not confined to this city or province or even to Canada, and cable reports indicate that it is rapidly spreading over the civilized world. It has baffled medical skill to an unusual extent and has claimed more victims perhaps that any other epidemic in a score of years. The germ has eluded the bacteriologists and medical men now agree that the best cure is prevention.

The surest prevention is to build up the bodily powers of resistance and to get the system in the best physical condition possible. It is now universally agreed that it is possible to perfect the powers of resistance of the human system, so that it can throw off almost any infection not excepting Spanish Influenza.

It has been discovered that persons who are weak and rundown are the earliest victims, and if you find yourself tired or weak and losing flesh, or if you are in a generally rundown condition and below your normal weight, this warning should be heeded promptly.

If you are in this condition nothing on earth will build you up and strengthen you like Tanlac, which contains the most powerful tonic properties known to science. As a reconstructive tonic and system builder it is without an equal and contains the very elements needed by the system to give you fighting strength to ward off the Influenza germ. This is a statement of facts and is supported by the recognized authorities and reference works, including the United States Dispensatory and the Encyclopaedia Britannica, and leading textbooks used in the school of medicine. This statement is further proven by the fact that millions of persons who have actually taken Tanlac have testified to its extraordinary merit as a medicine, and by the fact that Tanlac is today having the greatest sale of any tonic on the market, over eleven million bottles having been sold within the past three years.

Tanlac is also the ideal strengthening tonic for persons who are suffering from the after-effects of Influenza, Grippe, or bronchial troubles and hundreds of thousands are using it daily with the most gratifying results.

In connection with the Tanlac treatment it is necessary to keep the bowels open by taking Tanlac Laxative Tablets, samples of which are included with every bottle of Tanlac.

Tanlac is sold in London by Standard Drug, Limited, and by an established agency in every town.

SITUATION IN N. HURON WORRIES PREMIER HEARST

With Minister of Mines He May Enter Campaign To Help Candidate.

LUCAS DISCARED JOB

Saw Chances of Government Nominee Were Nil, and He So Reported.

[Special to The Advertiser.]

WINGHAM, Nov. 22.—As the North Huron by-election draws nearer to polling day the Government becomes more anxious. The latest evidence of this is the report that Sir William Hearst, premier, and Hon. G. Howard Ferguson, minister of lands, forests and mines, will desert their serious offices of state in an effort to achieve what Hon. Isaac B. Lucas, the attorney-general, discarded as hopeless—the rescuing of the fat out of the fire.

Mr. Lucas was here last week. He had his "ear to the ground," as per usual. He saw defeat staring the Government in the face, and he hiked back to Toronto with the disheartening news.

Lucas Purveys Bad News.

Following his arrival at Queen's Park it was announced that he had a couple of conferences with the premier in regard to the North Huron situation. Evidently he was able to convince the premier that their fat jobs were in danger. The proposed trip of the premier and the minister of mines to the constituency would seem to indicate this.

However, the feeling is stronger than ever that George Fraser, the farmer-Liberal candidate, will have a walk-over. He is conducting a quiet campaign throughout the riding and is being enthusiastically received. The anti-Proudfoot workers are growing daily.

Mr. Spotten, the independent candidate, is picked by all to run second. It is hard to find anyone in the riding who will say that Dr. Case, the Government candidate, will do well if he does not lose his deposit. He is reported sitting back, waiting for other Toronto dignitaries to take up the task which Hon. Mr. Lucas was sent up to shoulder, and which he discarded as hopeless.

Mr. Spotten held a meeting at Blyth tonight.

KING ALBERT AGAIN IN BELGIAN CAPITAL; ORDER IS RESTORED

LONDON, Nov. 22.—King Albert and the Belgian Government left Bruges Thursday and made official entry into Brussels at 2 o'clock this afternoon, according to an Exchange Telegraph dispatch from Brussels. Belgian troops and gendarmes reached the capital yesterday and restored quiet. The newspapers resumed publication and flags are flying everywhere in celebration of the king's return.

Dominion-Wide Civil Service Strike Shaping

[Special to The Advertiser.]

WINNIPEG, Nov. 22.—The Civil Service Federation of Canada, local officials state tonight, will not accept the offer made by the cabinet in answer to demands for a $300 war bonus. Officers of the federation are about to present the cabinet with another memorial asking for a larger bonus than was recommended by the cabinet. A Dominion-wide strike is in prospect.

Powerless in Face of H. C. of L, Unless Govt. Acts First

Windsor Committee Significantly Puts It Up To Ottawa.

WINDSOR, Nov. 22.—The civic "fair price" committee named by Mayor Tuson under a Government order-in-council to consider measures to reduce the present high cost of living has reached the rather pessimistic yet significant conclusion that without Governmental legislation controlling packing house and cold storage interests, there will be small opportunity for municipalities to regulate the prices of foodstuffs. The committee says it is powerless to suggest remedies unless the Government acts first.

Navy League Wants German Warships In Canadian Navy

VICTORIA, Nov. 22.—The Victoria branch of the Navy League of Canada has sent the following telegram to the minister of marine and fisheries:

"Victoria branch of the Navy League strongly urge that the Canadian Government should request that German warships interned under the armistice should in the peace treaty be surrendered to the Allies and a suitable number should be allocated to Canada to form the basis of the Canadian navy, and we should further urge that the present highly-trained personnel should not be disbanded, but should be held to man the Canadian navy when obtained as part of our indemnity from the Central Powers."

FINANCIAL AND COMMERCIAL

THE LOCAL MARKET

There was a large market today, considering how bad the roads were. Hay is scarce and firm. Cabbages are plentiful, apples are plentiful, but firm in price. One dressed hog brought to the market today weighed 265 pounds, and was sold for $55.23. All other produce remained firm.

GRAIN.

Chicago, Nov. 23.—Opening: Corn—December, $1 25⅝; January, $1 28.

Oats—December, 73⅛c; January, 73c.

EVENING GRAIN LETTER.

Chicago, Nov. 23.—Thomson & McKinnon wire their local office:

Corn—Such demand as appeared in corn today was largely from former sellers, new investment demand being of small proportions owing to the absence of motive for immediately higher prices. Considerable liquidation appeared together with pressure from houses with eastern connections. Sentiment seems to favor a further decline, but the deferred deliveries are now materially below the cash market, which fact must be kept in mind. The lowest deliverable grades are selling from $1.30 to $1.35, whereas the December closes tonight at $1.24. A factor in the utlimate outcome is the enormous saving in farm consumption because of the mild weather prevailing up to date.

Oats—No export business in oats has been reported today, and there was less of the buying of the futures by cash handlers. Shippers generally anticipate a cessation of seaboard demand some time between now and the close of lake navigation. Some shippers believe that the demand has already been filled up. This being so, the market is without this factor which has been of material importance. Country offerings are not large and cash premiums are likely to be maintained until the present open shipping contracts are fulfilled.

WALL STREET REVIEW.

New York, Nov. 23.—The stock market was comparatively dull, but somewhat unsettled this week, professional traders as well as the financial community evidently facing the forthcoming period of reconstruction with less optimism.

This was indicated not only in the general recession of prices, but by several readjustments and suspensions of dividends, all more or less traceable to the cancellation of war orders.

The executives of various independent industrial enterprises freely acknowledged the radical changes already resulting from the end of the war and the labor problems were intensified, although as yet no material revision of prevailing wage schedules has been reported.

Money was also a deterrent to any wide demand for securities, time funds remaining extremely scarce, while brokers' loans continued under the severe restrictions imposed by the local money committee, acting in conjunction with the Federal Reserve Board and the stock exchange.

Liquidation was observed in motors, metals and several other speculative issues, the movement gaining momentum after passage of the Maxwell Motors' first preferred dividend and rumors of price-cutting in the copper trade.

Steels and equipments were moderately steady at times, but they yielded towards the close of the week. Rails showed some resistance, especially the standard issues, but shippings were subjected to erratic fluctuations, following the announcement that the federal authorities had called a halt in the Mercantile Marine deal to dispose of its British tonnage.

WALL STREET.

New York, Nov. 23—Wall Street, 10:10 a.m.—Further selling of leaders, especially rails, equipments and coppers, was noted at the heavy opening of today's stock market. Canadian Pacific and Mexican Petroleum were among the few prominent issues to register slight gains.

10:30 a.m.—Prices were mainly lower at the opening of today's stock market. Active issues, including high-grade rails, reacted 1 to 2 points. Selling again centred in metals and motors, secondary coppers reflecting uncertain conditions in that industry. Pressure against Studebaker was resumed, and distilling issues denoted the latest aspects of federal prohibition legislation. United States Steel held steady, and Mexican Petroleum was the only leader to show actual strength. The noteworthy feature of the bond market was the heavy selling of fourth 4¼'s, which sold at the new low quotation of 97.82 for the first time since their listing on the exchange.

Heads Million Dollar Business

A few years ago this young man was a store clerk working day in and day out behind a counter.

To-day this same man directs the production of a great business and he did it all without pull.

Early in life he started a savings account; it grew and grew. He claims that the greater part of his success is due to that fact because when the opportunity came he had some money saved up to help him through.

All that he is, all that he has done, has been accomplished solely by systematically adding to his savings account, getting the thrift habit and staying with it.

One Dollar deposited to-day in our Savings Department will start you on the road to success.

We pay 3½% Compound Interest. 14

IN MEMORIAM.

FLEMING—In loving memory of Lossie, beloved wife of Pte. W. G. Fleming, who fell asleep in Jesus, one year ago today, Nov. 23, 1917.

Short and sudden was the call
Of one so dearly loved by all;
The blow was great, the shock severe,
We little thought her death so near;
And only those who love can tell
The pain of saying a last farewell.
A loving wife, so true and kind,
No one on earth like her we find.
Farewell, our own dear Lossie,
Sweet thoughts of thee we will keep;
Though one year has passed away
Our grief is just as deep.
—Loving Husband, Mother and Sister. b

McNAMARA—In loving memory of Mrs. W. F. McNamara, who departed this life two years ago today, Nov. 23, 1916.

'Twas hard to part with one we loved,
But God, who knows things best,
Held wide His loving arms and said,
"Come unto Me and rest."
—Husband and Daughters Edna and Pearl.

PLAYER—In loving memory of my dear son, Gunner Clifford Player, 63rd Battery, C. E. F., killed in action at Passchendaele, November 23, 1917.

Had I but got one last fond look
Into your loving face,
Or had I only got the chance
To kneel down in that place.

To hold your head, my dear son,
While your life blood ebbed away,
My heart would not have felt so much
The tears I shed today.

SOLDIER-STUDENTS AT WESTERN PUT ON "CIVIES" ONCE MORE

In accordance with demobilization orders received from Ottawa recently, the military authorities have granted all medical students in khaki at Western University the option of accepting their discharge from the service in order to continue their medical course, or to give up their studies and report back to their respective units for training.

Practically all soldier-students at Western University, medical department, numbering about 25, have accepted the former course, and are now in civilian clothing. One or two members of the first-year class who were allowed to enter Western as matriculants, having been given leave from their military units with pay to attend, have discontinued their medical studies owing to financial circumstances, the army pay having now been discontinued.

The remainder of the soldier freshmen, as well as students of senior years who were drafted under the military service act are continuing their studies as before. In addition to the above there are five returned soldiers in the senior years who were returned from overseas to complete their studies, and these men are to be discharged from the service in the near future, and they also will complete their course as civilians.

FIRST PRESBYTERIAN.—In First Presbyterian Church on Sunday evening there will be a memorial service in honor of Lieut. John Elder, whose death resulted from wounds within a fortnight of the signing of the armistice, and Trooper Peter Stewart, killed in action some time ago.

IF YOU ASK US
about our service, ten to one we'll refer you to someone for whom we've done such good work that he'll have something really valuable to tell you.

142ND COMRADES ENJOY SOCIAL EVENING

A social evening which was held in the A.O.F. Hall, Dowler Block, last evening, under the auspices of the 142nd Comrades' Club, proved to be such a grand success that plans will be made to have others. It is likely also that a concert will be put on in the first week in December.

At the opening of the social A. E. Miller spoke on his experiences in France with the Canadian editors who were guests of the British Government. Major E. M. McLean said that he was glad to see so many old faces present who were with the first draft of the 142nd to go to France under his command. The evening was spent at cards, and at the close a lunch was served, nearly one hundred persons were present.

NEW ROUTE TO WESTERN CANADA

On your next trip to Western Canada why not travel over a new route, using two famous trains on your journey and traversing some of the most interesting territory in the Dominion? The International Limited of the Grand Trunk will carry you from Montreal to Toronto, where another famous train, The National, starts on its westbound flight to Winnipeg. The National is a through train which leaves Toronto at 8:35 p.m. on Tuesday, Thursday and Saturday. The rails of the Grand Trunk are used to North Bay, which is reached early on the morning following the departure from Toronto. A daylight run is made through the lakeland beauties of the Temiskaming and Northern Ontario to Cochrane, calling at Cobalt, with its wonderful mining activity. From Cochrane to Winnipeg your journey lies over the Canadian Government railways, with splendid opportunities of inspecting the fertile regions of New Ontario, including the famed clay belt, where tens of thousands of settlers will make their homes in the future. The three railways have combined to make the passenger service over this new route of the highest possible standard. The greatest travel comfort is assured, while there is no added expense for railroad fare as compared with any other route. For further particulars, apply to any Grand Trunk ticket agent or C. E. Horning, D. P. A., Toronto. Nov.30

LIARS DID PIONEER WORK FOR MODERN CHAMBER OF TODAY

Reorganized Board of Trade Hears Interesting Address.

MEMBERS MEET MEMBERS

Jolly Get-Acquainted Session Was Held by Organization Last Night.

If any doubt still remained in regard to the spirit of enthusiasm with which the members of London's reorganized board of trade, otherwise the Chamber of Commerce, are entering upon its activities, it was dispelled at the first "get acquainted meeting" held last night in the Masonic Temple. Hundreds of the men were present and the seven or eight women members, smokes being the favors for the former and sweets for the latter.

From 8 to 9 o'clock, an informal reception was held in the basement, where selections by the First Presbyterian Sunday School Orchestra were frequently interspersed with songs in the heartiest community chorus effect, such songs as "Katy," "There's a Long, Long Trail," etc.

Long, Long Program.

The admission ticket, which was also the identification check worn by each, was in the form of a maple leaf, on which was printed, "I am ——(name). Who are you?"

The only criticism to be made of the program was that it was almost too much of a good thing, from the fact that while each item was exceedingly interesting in itself, the speaker of the evening, Charles W. Harnsel, manager of the Port Huron Chamber of Commerce, was not given a chance to be heard until about 10:30 o'clock.

It was a tribute to both the quality of his message and the manner in which he delivered it that when he brought his address to a close at 11 o'clock, probably everyone in the room would have been glad to have listened to him for several minutes more on the vitally important subject to the new organization, "The Modern Chamber of Commerce."

Old Adage Stands.

"Where there is no vision, the people perish. This was written thousands of years ago. It is true of today. The strife which has just come to a close, to my mind, is not so much a battle against autocracy, as a battle of vision against unselfishness," declared Mr. Harnsel, adding, "Cities are the products of men. They represent the plans, the visions and dreams of men. Behind the plan must be the organization of men to make the dreams come true. What a man does for himself dies with him. What he does for his city, lives long after he is gone. The purpose of a chamber of commerce is to make the people as a whole, think in terms of the community progress. When you can do this, the prosperity of the community has just begun."

Big Liar's Job.

Sketching the various stages of the development of community organization to the modern chamber of commerce founded for the purpose of service to the community, Mr. Harnsel said.

"The first stage was what might be termed the 'boasting stage', when somebody who was perhaps a failure at everything else, usually the biggest liar obtainable, was secured to advertise the town with a view to getting industries; to tell how low the death rate was, etc., etc., and all about it having the finest transportation facilities in the country.

All Lied Together.

"The next stage was the 'boosting stage,' when we all went out and told lies together. Now, we have begun to realize that we have got to build up the communities. We are beginning to look into the communities to build them up, instead of looking out. It is nothing more, or less, than that we have a little more vision than before."

His Flesh Horribly Burnt
His druggist sold him a cheap acid corn cure: what he should have bought was Putnam's Corn Extractor; it's purely vegetable and acts in 24 hours. Insist on only "Putnam's Extractor," 25c at all dealers.

Three fundamentals to strive for in community organization were emphasized: (1.) Creating the atmosphere of progress; (2.) teaching the art of giving; (3.) establishing the custom of appreciation.

"When you give to a Y. M. C. A. or a Masonic temple or community centre," said the speaker, "you aren't giving anything away, because it comes back to the community a thousandfold."

New Board Introduced.

J. J. Foot presided, and the first order of the program was the introduction of the new board of directors.

The amended constitution was presented by President E. E. Braithwaite of the Western University, and passed upon after a revival of the animated discussion which marked the presentation of the first draft.

Five-minute speeches were made by Mayor C. R. Somerville, who drew attention to the claims of London to the title, "educational centre," and the ned of proper buildings and equipment for the medical college; Dr. Knowles, who brought before the organization the campaign to be launched for Salvation Army war work; Isabel C. Armstrong, who spoke on "Friendship and Fellowship," two of the foundation principles on which the chamber of commerce is built, and Mr. Yendall and Lieut.-Col. Brown, who made earnest appeals on behalf of preparation for the return of the thousands of soldiers to this district after years of service overseas, in many cases accompanied by their families.

Problems to Face.

"What are we going to do with them?" was the question raised, involving housing, entertainment, etc.

Mr. Yendall outlined the service the Y. M. C. A. and Y. W. C. A. are prepared to offer, referring to the campaign for Y. M. C. A. and Y. W. C. A. work to take place the begining of December.

Controller J. M. Moore asked for the appointment of a committee of the Chamber of Commerce to examine the bylaw re centralizing city government. If a report approving the bylaw is returned, the organization was asked to indorse it. A similar request was made by Controller Merryfield with regard to the industrial bylaw to be submited to the electors. The backing of the Chamber of Commerce was asked in bringing pressure to bear to have the Government highway pass through London. This met with hearty indorsation.

Solos by Messrs. Crawford and Ferte added much to the enjoyment of the evening. At the conclusion of the program coffee and light refreshments were served.

COST OF POTATOES TO GROWERS REACHED $1.46

As a result of the co-operative farming plan of the employees of the London Street Railway Company 570 bags of potatoes were harvested from the ten-acre patch on Richmond street north this year. The cost of production was $1.46 per bag of 90 pounds. There were fifty-two shareholders in the club this year. The bulk of the work was hired, but the shareholders did some hoeing in connection with the crop.

Despite the blight that struck the country this summer, this patch escaped unhurt, and the men who are interested in the project are delighted with the results.

What Is Your Conception of Bread?

Many people look upon bread as the bulk of their food—a sort of necessary "filler," the mainstay of life.

They eat so much bread a day, figuring something like this: "Oh, well, I've got to get a certain amount of food, and bread can furnish the bulk of it." Not so with folks who take

Neal's AloafA Bread

Here is not merely a bulk food or a "filler," but a real three-times-a-day dainty that never tires the appetite.

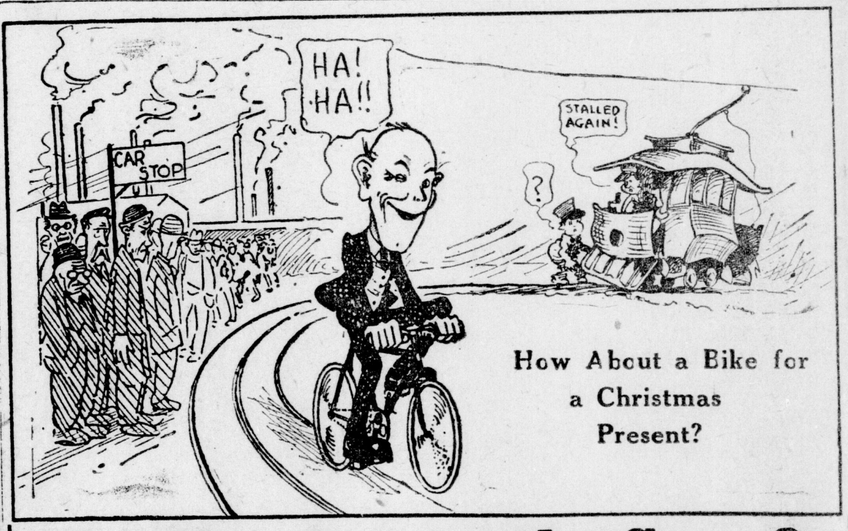

Eat ALOAFA BREAD fresh from our ovens—eat it toasted—eat it one day old—eat it in sandwiches, desserts, or just plain with butter. You'll find it positively the finest bread you ever tasted, light, porous and snowy as to crumb; crisp, golden-brown, nutty as to crust; easy to digest, more palatable than you ever thought bread could be. Ask your grocer for a loaf to try, and see if we overstate the excellence of NEAL'S ALOAFA BREAD.
