Fashion is Agog

Over small furs, ruffs and collarettes—the people who care most for fashion are buying them as well as those who want a comfortable, useful garment and the most reliable kinds are found here, every one of them at the lowest prices, quality considered.

Ladies Jackets

We cannot tell one-half the story here, but then our customers are telling it for us. There is not a coat stock in Chatham like Stone's, either for quantity, quality or style—just think of it, over 200 to choose from.

At \$5.00 Coats that will surprise you—some have said they looked like \$10.00 garments, we will say they are equal to what is usually sold for \$7.50 or \$8.00.

At \$8.50 Now here's a good \$10 coat selling for much less, the reason for it is a special bargain we secured.

At \$15, \$17.50, \$20 and \$25.00 The cream of cloaking, silk and satin lined, 32 to 42 inches long in all sizes. If you want the choice up to date goods, get them here.

Electric seal and cony collarettes and ruffs, commencing at \$9.50, other prices 4.50, 5.00, 6.00 and with eight full tails, 12 inch cape and long front at \$9.50. Others up to \$20.00 if you want them.

Astrachan collarettes, some with cluster of sable tails, fine curl, the kind that look well, wear well and sell well, with 12 inch cape and high storm collar at \$9.50. Others up to \$20.00 if you want them.

Alaska sable ruffs and collarettes, every one of them the best quality, commencing at \$8.00, \$10, \$12 up to \$50.00.

Grey Lamb storm collars for girls, commencing at \$4.50 up to \$12.00, gamslets to match if you want them. Remember this is the safe and economical store to buy your furs at first and foremost we see that quality is No. 1 then we proceed to mark them at the lowest possible prices.

Don't Wait Too Long

Before selecting your Fall Suit—with cold weather comes the rush you know, and then, just when you want it, that particular suit which caught your fancy may not be here.

It would be different if we did not have only a few of each in fancy pattern suits, but we limit the number of each pattern and by so doing prevent commonness, and commonness, you must admit, if you are a particular dresser, is what has kept you from buying ready-to-wear clothes. You can see a few of our

\$10 and \$15 Exclusive Pattern Suits

In our display window—they are all our own. so don't expect to find them elsewhere, and if you'd like to see how perfect they fit, how superbly they are tailored, how correct they are in style and how greatly these differ from ordinary readymades, just come in and view them.

SAYS BOYD SHOT JONES

Burglar Rice Tells the Story of the Desperate Attempt at Escape.

There was a Shot From his Right and Boyd Dropped—Close of the Case.

Toronto, Oct. 30.—At to-day's session of the Assize Court the first witness in the Rice case was Dr. Powell, who made the post-mortem examination upon the prisoner Jones. He was cross-examined at length by Mr. Robinson, who tried to show by him the improbability of Stewart's story. Two bullets had struck Jones, one lodging in the arm, and the other entering at the left side of the groin and passing down the back and across the right side. Mr. Robinson maintained that the bullet could not have taken this course if Jones had been standing up. Dr. Powell replied that it was hard to theorize about the course of a bullet through flesh. He had thought at the time of the examination that Jones had been sitting down when shot, but added that he might have been in some position lower than the man firing. In re-examination, Mr. Guthrie brought out the point that deflection of the bullet might be caused by the tissues. There was nothing in the wounds inconsistent with Stewart having fired from the back, as related in his evidence. Had Jones been shot in the back he could scarcely have got up and walked around. However, witness also admitted to Mr. Robinson that Jones might have been dragged by his friends.

Dr. George A. Peters gave evidence saying that nothing in the condition of the wounds was inconsistent with Stewart's story.

Evidence as to the post-mortem upon Boyd's body was then offered by the Crown. Dr. Caven gave evidence as to the injuries sustained by Boyd, the wound being on the right side of the head. In his opinion this wound was from the north side of the back in other words, from the side where Rice was. The best Mr. Robinson could do on cross-examination was to get Dr. Caven to say that if Boyd had twisted around, so as to face south, he might have been shot by Jones or Rutledge.

Dr. George A. Bingham corroborated Dr. Caven's evidence. He added that he had examined Jones both before and after death, and that he had seen no signs, either on the clothing or on the skin of powder burns, such as might have been expected had the shooting taken place in the back. The court adjourned at 1 p. m.

At this afternoon's session of the trial of Rice for the murder of Constable Boyd, the prisoner himself took the stand. After relating the circumstances of his life, and of his trial in August last, he told of the shooting affray, in which Boyd was killed. He had no idea that the package of revolvers was to be thrown into the cab, and when it did come, he did not know what it contained. He said there was a scramble between Stewart and Rutledge, and the shoulders of the two men were pressed against each other, Rutledge using his right hand and Stewart his left shoulder both men facing to the south. Boyd had grabbed my left arm and Jones pressed himself back into the seat, pulling me back with him. Boyd let go of my hand and put his feet against my chest and at the same time drew his revolver and shot Jones. Almost immediately there was another shot from my right, and I saw that Boyd was killed. When the second shot was fired I turned and Jones handed me the revolver, saying "Take this, I'm hit." Stewart and Rutledge were still struggling, but when Jones handed the gun, Stewart threw up his hands, and said "Get out." Rice then described their leaving the cab. When they were going away he fired the revolver a couple of times, but aimed low down, not at any one. He shot from the natural instinct to escape. He denied having tried to kill any one on the street car.

With the exception of his own story no evidence beyond medical testimony was offered on behalf of Rice. Dr. Forbes E. Godfrey made a statement most important to the defence. It was that the story of the shooting of the prisoner Jones by Boyd was entirely consistent with Jones' wound in the groin. "I think the post-mortem report corroborates that story," he said. He added that the revolver must have been held higher than the point at which the bullet entered the body, or otherwise the ball would not have gone down so low.

Dr. James Spence, Wallace Schmuck and Coroner J. A. McConnell followed. Dr. McConnell was an especially good witness, and a phrase of his which pleased the defence was "the bullet and Rice tell the same story."

The case for the defence was closed to-night, and to-morrow morning counsel will address the jury.

Liberal Machine Organ Says the East Kent Liberals Dare not Place Candidate in Field.

Otherwise the Bye-Election Will be won by the Conservatives—Past Experiences Recounted.

Yesterday's St. Thomas Journal, an ardent organ of the Liberal machine, undertakes editorially to read the Liberals of East Kent a severe lecture for expressing dissatisfaction with the candidature of John Lee, the machine-selected candidate. As a lash to whip them into line the Journal warns the East Kent Liberals that in event of another Liberal candidate being placed in nomination the Conservatives will enter the lists and win out, and makes a pathetic appeal for unity in the Liberal ranks on Mr. Lee.

The Conservatives have decided not to contest the bye-election and, in view of that fact, many of the independent Liberal electors are earnestly advocating a candidate of their own choice rather than the arbitrary selection of the party bosses at Toronto.

The St. Thomas Journal in its lecture to the Liberal electors says:—

"Reports are again being industriously circulated that there is dissatisfaction amongst some of the Liberals of East Kent over the nomination of John Lee, of Highgate, for the vacancy in the Local Legislature. It is said that George Johns, of Bothwell, who was the minority candidate at the convention, or Dr. McCully, Reeve of Harwich, will be nominated by dissatisfied Liberals in opposition to Mr. Lee. It is altogether probable that these stories are exaggerations, if they are not positively false. If there is any foundation for them the Liberals of East Kent have only to look back to the last general election for the Dominion to learn a lesson in regard to the unwise character of bringing out a Liberal candidate other than the one regularly nominated. In West Elgin, which embraces for Dominion purposes three municipalities of East Kent for the Legislature, Howard, Oxford and Ridgeway, by having two Liberal candidates in the field the Conservative Independent slipped in. The Conservatives of East Kent have decided through the executive of their association not to bring out a candidate, but let the Liberals divide and two of that party be placed in the field, and this determination on the part of Conservatives will soon be reversed. A candidate will be found and in a three-cornered contest would almost certainly be elected. The Journal does not believe that there is any such division as has been asserted, but there may be a few who would be so reckless as to advise bringing out a second Liberal candidate. All that is necessary now to secure the election of Mr. Lee, the regular Liberal candidate, by acclamation is for the Liberals to remain united."

BRITISH GAINS

Boer Commands Were Surprised and Twenty-two Prisoners Taken.

London, Oct. 30.—Lord Kitchener, in a despatch from Pretoria, dated Tuesday, Oct. 29, says Colonel Byng surprised a Boer commando, Oct. 25, and captured twenty-two prisoners, including Field Cornets Spanneberg and Onsthuizen.

A RUNNING FIGHT

Colonel Fortesque, the despatch adds had a day-long running fight with Muller's Boer commando, October 27, northwards of Balmoral. He killed four Boers and captured 54 prisoners, 36 wagons and much stock.

A DUTCH COMPLAINT

The Hague, Oct. 30.—The report of the Dutch Red Cross Society, just published, deals bitterly with the capture of the Dutch ambulance corps near Pretoria, July 5, 1900. It declares the British knew before the ambulance left Pretoria that it carried private letters from Boer families to men in the field, and that they did not prohibit, but allowed the ambulance to start, captured it outside the town, and used the letters as a pretext for deporting the doctors and nurses, who are still in captivity on the island of Ceylon. The Red Cross committee subsequently appealed to Lord Kitchener to redeem his promise to Mrs. Botha, and allow the doctors and medicines to pass through the British lines for the benefit of the Boers but no response was made to the representations.

Jury at St. Catharines Finds a Verdict of Not Guilty in the Murphy Manslaughter Case

St. Catharines, Ont., Oct. 30.—At the opening of the assizes this morning, the Murphy manslaughter case was reviewed by the counsel, and at 10.10 it was presented to the jury. Before giving it to the jury, his lordship reviewed the evidence. He said the jury would be justified in finding the prisoner guilty of negligence and careless conduct, and causing the death of Pattison. Both the counsel agree that something had passed over the deceased's head, while the medical testimony showed that the fracture of the skull would cause death. He thought the crown should present some reasonable theory to base a conviction. This they had not done. He thought there was no evidence that there was any collision of the wagons. In closing his address he warned the jury that if they were not thoroughly satisfied that there was sufficient evidence to convict the prisoner should be acquitted.

At 11.05 the jury returned and presented a verdict of "not guilty." In addressing the prisoner, His Lordship stated that the jury had found their verdict right. There had been no evidence to show that there was any criminal guilt on the part of Murphy. Still he thought that a great deal of blame rested on the shoulders of the prisoner. The deceased had come to his death while doing a kindness in bringing home the prisoner, who was in an intoxicated condition. His Lordship read Murphy a severe lecture on his drinking habits, and warned him to be more careful in future, for should he get into further trouble this trial would go against him.

The case of Seymour Smith and his wife, Precilla Smith, charged with the theft of documents of title, the property of Marion Smith, was the first criminal case. The alleged theft was committed on Oct. 17. Verdict, not guilty. In addressing the prisoners His Lordship stated that the jury had acquitted them, but he thought them technically guilty.

The rates to the Pan-American exposition have taken a sudden drop, and W. E. Busby now announces via Grand Trunk and Wabash Eye return tickets to Buffalo, on Tuesdays, Thursdays and Saturdays, at \$2.85 each, good to return six days from date. This liberal arrangement by the railways should induce a heavy travel to the exposition for the balance of the month.

WORK FOR THE CHURCH.

Students of social questions have for many years past given a great deal of attention to the disputes arising between capital and labor, in the hope of discovering a method of arbitration which would be equally satisfactory to each of the contending parties, and which consequently could be depended upon in every case, or even in the majority of them, to bring about an amicable settlement of the trouble, removing at the same time latent causes of dissatisfaction which might lead to future strife. Many plans have been suggested, and a few have been tried with more or less success, but no method of mediation has yet been hit upon, so nearly filling the requirements as to warrant its elevation to a permanent institution to which all cases of dispute between employers and employed should be submitted.

The great difficulty is to find arbitrators in whom both parties can place confidence. If such a board is chosen from among employers, the workmen naturally suspect them of partiality for their own class, and unless the award is clearly in their favor, refuse to be bound by it, whilst all events only await another opportunity to reopen the breach. If workmen are selected, the employers are bound to entertain the same suspicions. Government arbitration is no better, is worse, indeed, when we consider that politicians are invariably working for their own ends, and would be more apt to make the decision accord with personal interests than with right and justice.

The latest attempt to solve the problem is by the church, and the plan which has been suggested seems to promise better results than anything that has yet been tried. The subject was brought up at the Episcopal Triennial Convention, recently in session at San Francisco, and so much impressed were the delegates with the possibility of the church being able to act as peacemaker in these disastrous labor troubles, that a board of conciliation, composed of men who could not fail to command the confidence of both capital and labor, was straightway appointed, to which all labor questions will be referred, and whose services will be available whenever and wherever they may be required. The example of the Episcopal Church has been followed by the civic federation, among whose members are Cardinal Gibbons, Archbishop Ireland, Bishop Potter, Seth Low, Charles Francis Adams, who is president of a number of important manufacturing and transportation companies; Carroll D. Wright, United States Commissioner of Labor; Samuel Gompers, president of the American Federation of Labor, and the presidents of the powerful trades unions of the country. The movement is bound to spread to other religious bodies, until each church stands in the position of mediator in labor quarrels which occur among its own people. But there must be co-operation, too, and if the organization is to be perfect a great central agency, composed of the wisest and best men of all the denominations, will exercise supreme control.

The feature of this plan which distinguishes it from all previously tried and gives it assurance of success, is the absolute confidence which can be reposed in the impartiality of a body of clergymen. Laymen have interests which are likely to color their judgment, but the clergy ought to be free from such trammels, and could be trusted not only to decide impartially, but from the nature of their calling, to make their decision in accordance with the principles of morality and justice.

Moreover, the influence of the church, which is more powerful than that of any other single institution, would be directed towards the betterment of the relations between the employers and the workmen, and the amelioration of the condition of the

latter, and it may be that the clergy, who individually are powerless, may by this union succeed in averting the general rupture between capital and labor which is considered inevitable by many thoughtful men in the United States, and may thus preserve the whole future of American society from the ruin, which would necessarily accompany a general uprising of labor.

HE'D BE A HIT AS A MISS.

Montreal Star.
Alexander Smith, the Liberal organizer in Ontario, has issued a circular to the Ontario Liberal Associations, advising them to buy copies of a pamphlet got up by a Mr. Mabce, at \$40 a thousand, and contribute them as campaign literature. The pamphlet seems to have been originally written for Democratic use in the last presidential campaign, then altered and adapted to use as Conservative literature in the present Ontario fight, and finally "modified" to serve as Liberal thunder in the same fight. If Mr. Mabce had been born Miss Mabce instead of Master Mabce, we think maybe she would have earned great local distinction by her talent for adaptation of things to new purposes, such, for instance, as making parlor ornaments out of old frying pans, and easy chairs out of old flour barrels.

A MODERN FABLE.

By George Ade.

A proud parent had a Son who was attending a 'Varsity. One Saturday the Guvnor ran down to visit Harry and see what in the World he had done with all the Books he had purchased. Harry took him out to see a Game on the Gridiron.

"What is it, a Riot?" asked the Father, when he heard the terrific Tumult and saw the Thousands jumping up and down.

"Oh, no," was the Reply. "This is the Reception for Beefy Butts, our man-eating Tackle. And now we will whoop'er up for Fatty Finkle, the big Centre with a Chest like a Snow Plow. He weighs 280, and when he falls on a Foe he smothers him."

"And who is the Person in the Sweater who seems to be the Centre of the Admiring Group?" asked the Father.

"He is the Head Coach, and I have had the Honor of shaking Hands with him," said the Undergraduate. "The other Chap who is now being cheered as he comes through the crowd is Slippery Slinkins, who made the Long Run in '98. By the way, over at the Right you will notice a small Guy with a thin crop of Alfalfa. I mean the one who is now hanging on to the end of the Bleachers."

"Who is it?" asked the Father.

"Prexy," was the reply. By "Prexy" he meant the President of the Institution.

General Sir Charles Warren

The advantages due to his nomadic life are great. He is in some respects the ideal mounted infantryman we endeavor to create in Europe by discipline and training. A good rifle shot and horseman, he is accustomed from his infancy to be prepared for danger, and to scan the landscape for a possible enemy. Always on the alert, his eyesight becomes abnormally keen, and at a glance he can see the advantageous position he should take up, and his decision is rapid. He knows intimately where cover can be found, and can see in tiny folds of ground spots where horses can be concealed, and thus renders himself invisible where the uninitiated would show out conspicuously. He has the most perfect of shooting weapons, and can use it with the best effect to 2,500 and even 3,000 yards against bodies of men. He is an adept at creeping round and outflanking as a tactical operation, and he is always on the lookout to avoid being outflanked. He knows exactly how to get the most out of his horse, what load to put on, when to feed and to water, and when to off-saddle, and he can shoot with

Glasses Versus Powders

Nostrums never did and never will cure a headache—if the headache is caused by eyestrain or some kindred affection.

We know people who have taken headache powders for years, with only the most trifling, temporary relief—and who have found permanent benefit in ten minutes by wearing properly fitting glasses.

WILL RACE IN 1902

Sir Thomas Lipton Says Shamrock II is the Best Boat

Queenstown, Oct. 30.—Sir Thomas Lipton arrived here to-day on the White Star line steamer Celtic. He denied emphatically that Shamrock II. was for sale, and said he would race her in 1902 in the vicinity of New York. He added that it would be a pity if another effort were not made to lift the cup especially in view of the closeness of the last contests. Sir Thomas expressed the opinion that Shamrock II. was a better boat than Columbia. Sir Thomas denied the widely circulated rumors of friction on board Shamrock II. during the America's cup races, but a saloon passenger, who said he had talked with Sir Thomas during the voyage is responsible for the statement that there was sharp disagreement during the races between Mr. W. Jameson and Capt. Sycamore, which was not conducive to the best results, and which Sir Thomas Lipton deeply regretted.

CHILD BURNED

Cloth g of a Little Maple City Girl Caught Fire From Blazing Leaves

Between three and four o'clock yesterday afternoon the little child of Wm. Pickard, Joseph St., while making bonfires with leaves her dress caught fire, severely burning her about the body. Mrs. Pickard, seeing the child's predicament, at once ran to its rescue and in smothering the flames the child was enveloped in was badly burned about the hands and arms. Dr. Tye was summoned and relieved to some extent the suffering child. The child will likely live.

DEATH SUMMONS

Another old Resident Succumbs to the Grim Reaper

The death occurred yesterday of Alexander Selkirk, at the residence of his daughter, Mrs. John McCullum, near Harwich Centre.

The deceased took a paralytic stroke yesterday, and soon passed away. He was 81 years old and was born in Scotland. He came to this in 1842, taught school in York county and also near Hamilton, was well known for his education and especially his magnificent handwriting. He came to live with his daughter in Harwich eleven years ago. Mrs. D. A. Hutchison, of this city is also a daughter of the deceased.

The funeral will take place from Mrs. McCullum's to Maple Leaf Cemetery, at one o'clock, to-morrow.

THE OPHIR HEARD FROM.

London, Oct. 30.—The steamer Ophir, conveying the Duke and Duchess of Cornwall and York and the Royal party, which is just completing a tour of the world, sent a despatch by means of the Marconi wireless telegraph system to the signal station on the Scilly Islands at six o'clock this evening, announcing her arrival at a point fifty miles distant. The warship Pactolus left Plymouth at a late hour to-night, carrying mail for those on board the Ophir.

Perfect Cure for Bronchitis

This disease can be treated only by a remedy carried to the affected parts along with the air breathed, for nature intended these organs for the passage of air alone and sprays, atomizers and internal medicines utterly fail. But Catarrhoxone doesn't fail, for it goes wherever the air breathed goes, and its healing antiseptic vapor is sure to reach every affected part. Catarrhoxone is inhaled at the mouth and after passing through every air cell of the breathing organs is slowly exhaled through the nostrils. Catarrhoxone protects and heals the inflamed surfaces, relieves congestion, allays inflammation and perfectly cures all bronchial affections. Price \$1. Small size 25c. Rheumatism is a Constitutional Disease

The pain and localized conditions are mere results of constitutional conditions. Poisoned blood sends its evil influence to various parts of the body, and to cure permanently you must treat it constitutionally. Nothing so completely dispels these poisons from the system as Ferrozone. It imparts vitality and vigor, enabling the system to throw off the poisons that engendered rheumatism. Ferrozone also fortifies the system against the weakening effects of rheumatism, and cures, not simply relieves as most medicines do. Sold by McCall & Co.

Display of Beautiful Handkerchiefs

How often one realizes the refined taste of a woman by noting the daintiness of the handkerchief she holds in her hand. Yet many women think only of the costume, or the ring upon the finger.

A diamond ring will give far less of aristocratic effect than a pretty handkerchief artistically embroidered. The ring savors ostentation; the daintily embroidered handkerchief displays the refined and artistic taste of woman who cares for beauty of this chaste character.

But individual descriptions are impossible. They must be seen and it's an artistic treat to look at them.

This suggestion of price ranges:—
50 doz. Hemstitched Handkerchiefs, only 5c. each.
25 doz. Initial Handkerchiefs, special price, 5c. each.
Lawn Handkerchiefs at 8c., 10c., 12 1/2c. and 15c. each.
Embroidery Handkerchiefs ranging in price from 10c. to 60c. each.

Our Fall Stock of Men's "Good" Clothes

Has not a superior in the Western hemisphere. There is much clothing made—vast piles of it and there is much business in the making. That's not ours, we handle only MEN'S CLOTHING WITH CHARACTER. That's our method, the betterment sticks out of every garment in this great establishment. These clothes are produced by world-famed wholesale tailors. They are perfect fitting, admirably designed and the best beyond question ever presented. Then again, the variety and the size of the display is three times as large as any shown around here, and what is of more importance, perhaps, is the lowness of price—that comes only of tremendous advance cash buying. For instance our great facilities in purchasing are alone responsible for the wonderful offers we are able to make this season—offers without a peer in the Clothing History. Would you like to save dollars on your Fall Outfit? Here's the opportunity, but remember, procrastination is the biggest thief outside of prison.

NEGLECT

If the tooth aches the owner goes to a dentist; if the stomach, he goes to the doctor; if his corn hurts he goes to a chiropodist, but if his eyes ache he blames it to overwork or perhaps to a cold in the head. A man in New York who once had good eyesight but turned blind offered \$10,000 to have his sight restored. We do not know what the diagnosis of the case is, but as the offer has been pending for a long time, and the man is still sightless, we presume he is permanently blind. Perhaps his eyesight could not have been saved, but it is an undeniable fact that many are blind and many others are practically so whose sight could have been preserved by the early attention of a reliable optician. He was like hundreds of other people of the present day and who are troubled with a dull headache, which they blame to overwork, study, or perhaps to being up late the night before. There are others who complain of objects being dull, and again there are people who see specks floating in the air like dust, which is not dust, but eye trouble. These troubles can all be relieved by consulting E. J. MacIntyre, Chatham's reliable Optician, who uses all the latest methods for treating these troubles.

JOHNS WILL RUN

The St. Thomas Times Makes the Announcement on Excellent Authority — Dissatisfied with Machine's Choice.

Ridgetown Dominion.

Within forty-eight hours after the selection of Mr. John Lee as the Liberal candidate, Sheriff Gemmill was in receipt of the writ of election for East Kent.

Nominations will be here, at Ridgetown, on Tuesday, Nov. 4th, polling, if necessary, a week later.

That is pretty quick work and shows the anxiety of the Government to avoid a contest if possible. Even if they had deemed it policy to run a candidate, the shortness of the time given effectually barred the Conservatives from calling a convention to select a man. The prompt issuance of the writ was evidently agreed on here by those "in the game," and Organizer Aleck Smith acted as soon as he reached Toronto upon his return there.

Still it is by no means certain that Mr. Lee will be elected by acclamation on Tuesday next. The air of East Kent is charged with dissatisfaction at the work of the machine and the interference of outsiders in the selection of a candidate. Many prominent Liberals and scores of the rank and file are in the humor of revolt, and an Independent Liberal candidate may be nominated on Tuesday. The St. Thomas Times on Monday had the following:—

"George Johns, of Bothwell, is still dissatisfied with the result of the East Kent Liberal Convention and the interference of the machine. The Times has it on good authority that Mr. Johns will content the bye-election as an Independent Liberal candidate, and Mr. Lee will not have the expected walk over."

KASSAM'S PROVERB.

King Kassam, well beloved, was wont to say, "When ought went wrong, or any labor failed, 'To-morrow, friends, will be another day.' And in that faith he slept, and so prevailed."

Long live his proverb! While the world shall roll

To-morrow fresh shall rise from out the night

And new baptize the indomitable soul

With courage for its never-ending fight.

No one, I say, is conquered till he yields;

And yield he need not while, like him

From glass, God wipes the stain of life's old battle-fields

From every morning that he brings to pass.

New day, new hope, new courage. Let this be,

O soul, thy cheerful creed. What's yesterday,

With all its shards and wrack and grief, to thee?

Forget it, then—here lies the victor's way!

—James Buckham.

A QUEBEC STORY.

How a Pious-Fraud Yankee Got a Decided setback.

In Quebec a story is being told showing how a certain class of visitors from the United States think that everything they see is for sale.

A party of these were going through the Church of the Basilica, which is very old, very artistic, and much admired by lovers of art and tradition.

The party consisted of a man and two women, and they passed before a painting said to be one of the old Italian masters, although there are those who deny its authenticity and claim it to be a copy, but a very old one. It is, however, much admired and treasured.

Before this the three American visitors stood, eyeing its points and corners, and looking at it, until presently the man was heard to say: "It's worth \$5,000."

"Can you get it for that?" asked one of the women.

"I'll offer \$4,000 and raise it by easy stages to \$5,000. It's worth the money all right enough. I wonder where I can find anybody," he said, looking about the church, deserted save where here and there a stray worshipper sat in meditation.

"There's a picture over there I want to buy," said he to a little man with a broom who came out of a passageway. "Who must I see about it, and where can I find him?"

The little man, started at him and asked what he meant, and the American repeated that he wanted to buy a picture off the wall and wanted to see the boss right away.

The little man, remarking that he would send Father—, hurried out of sight, and after some delay a solemn priest came in, and to him the American explained that he wanted to buy "that picture over yonder," and would pay \$4,000 for it.

"But it is not for sale. Nothing here is for sale," said the priest.

"You are under some strange mistake."

"Come now, come now, I'll tell you what I'll do—these old pictures are all the go and I need this one for my new house—I'll give you \$5,000 for it. What do you say?"

"I repeat," said the priest, "that it is not for sale at any price. Nothing here is for sale—there still are places left in the world where nothing is bought nor sold, and you are one of them now." The priest then turned and retired whence he came, leaving the visitors wondering at his lack of business enterprise.

Ostentatious Good Roads.

Arthur J. Eddy has returned to Chicago, after having completed what is probably the longest automobile trip ever made in America.

For sixty days he has been traveling throughout the East, and in that time he has covered more than 2,600 miles. Mrs. Eddy accompanied him on more than two-thirds of the journey, including the run from the East to Flint, Mich., by way of the Canadian route. Mr. Eddy said:

"The Canadian roads are far and away the best that we encountered. They are long stretches of 50 and 100 miles of hard macadam roads, kept in the best condition. They are even better than our Chicago boulevards, and kept better. The Michigan roads are a disgrace to the State, so are those of Ohio. In the Eastern States the roads are good in patches."

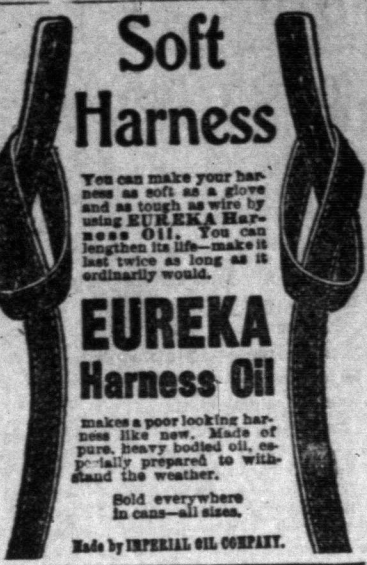

"For the information of automobilists contemplating a trip by way of Canada I would say that the Canadian Customs authorities deposit a deposit of 30 per cent. duty upon entering the country, for which they give a receipt, exchangeable at the Customs post where you leave the country for an identification slip, which can be cashed at the nearest port of entry for the amount of your deposit. It is always best to class your machine as second-hand; the duty is, of course, much less."

Four Old Chaps.

A Warkworth paper tells of a bachelor who bought two sheets of sticky fly-paper and took them to his room to catch the pesky insects that insisted on preventing his morning snooze. Carefully placing them on two chairs by his bed, he went out for a smoke, but when he returned he had forgotten about the fly-trap and sat down. With the patience of Job the trousers were pulled off to facilitate the removal of the paper. His mind became so absorbed in the amputation that he sat down on the other chair. Out of respect for the poor bachelor a veil is drawn over the second scene.

Women who carry their age well never like to boast of the accomplishment.

A puny child is always an anxiety to the parents. There seems generally no reason why the little one should be weak when it is so well fed. But the fact is that it does not matter how much food the child takes if the stomach cannot extract the nourishment from it. No benefit can be derived from just eating. That is the condition of many a sickly child. The stomach and organs of digestion and nutrition are not doing their work, and the body is really starving. It is little use to give fish foods, like cod liver oil or emulsions, in such a case, because these also have to be digested; they may lighten the stomach's labor but they don't strengthen it. Strength is what the stomach needs. Dr. Pierce's Golden Medical Discovery strengthens the stomach, nourishes the nerves and increases the action of the blood making glands. It is superior to every other preparation for children's use, on account of its building quality, and also because it is pleasant to the taste and contains no alcohol, whiskey or other intoxicant. Dr. Pierce's Pleasant Pellets are a valuable aid when the bowels are irregular. They are small. Children take them readily.

Perfect Cure for Bronchitis

This disease can be treated only by a remedy carried to the affected parts along with the air breathed, for the cure intended is to reach the organs for the passage of air alone, and sprays, atomizers and internal medicines utterly fail. But Cattarhoxone doesn't fail, for it goes wherever the air breathed goes, and its healing and septic vapor is sure to reach every affected part. Cattarhoxone is inhaled at the mouth and after passing through every air cell of the breathing organs is slowly exhaled through the nostrils. Cattarhoxone protects and heals the inflamed surfaces, relieves congestion, allays inflammation and perfectly cures all bronchial affections. Price \$1. Small size 25c. The Pain of Sore Feet.

Just about the most tantalizing of all pains comes from sore feet. To get relief bathe the feet in warm water and then rub them with Polson's Nervine. It penetrates through the pores of the skin, takes out the soreness, reduces swellings, invigorates the tired muscles, tones up the circulation, and prevents the feet from becoming sore again. PRETTY WALL POCKETS

They Do Nicely For Presents, or You Can Use Them Yourself.

Of course we all know the wall pocket that is made from the palm leaf fan, but something less well known is the vide poche, manufactured out of a champagne bottle casing of the ordinary straw kind. The straw case is not tampered with as regards shape. It remains precisely as it is, but it is gilded with metallic paint and trimmed with diagonal bands of ribbon, tied into a bow at the top right or left hand corner and the opposite lower corner. The ribbon is further continued as a suspender. A stiff lining of canvas, covered with green, gold or other colored Japanese silk, should be inserted in the vide poche, the silk being stitched to the straw to keep it in place. Without the stiff lining the straw would, of course, fall flat and limp. A wall pocket of this description looks very pretty as a holder for flowers, an ordinary bottle being inserted and filled with water should nothing lighter for the purpose be at hand. The notion is sketched in No. 1 wall pocket.

Another novel vide poche is the "Pierrot" (No. 2). It resembles a Pierrot's cap and can be made of white cloth or, if something smarter is preferred, white pompons and suspended by white ribbons. This wall pocket is easily made by twisting the cloth or whatever material is selected into sugar loaf form, previously rolling over the top edge. The top should be neatly stitched and occur at the back of the wall pocket, which, like the straw model, should have a stiffened lining to keep it in shape, though

Rheumatism is a Co-situational Disease

The pain and localized conditions are more results of constitutional conditions. Poisoned blood sends its evil influence to various parts of the body, and to cure permanently you must treat it constitutionally. Nothing so completely dispels these poisons from the system as Ferrozone. It imparts vitality and vigor, enabling the system to throw off the poisons that engendered rheumatism. A THRILLING EXPERIENCE

Fair Maple City Guest was one of the Passengers on Wrecked New York Train.

Chats of the Collision to the Planet—Ladies Maintained Wonderful Coolness.

Miss Nellie Barrie, of St. Louis, who has been visiting in New York for some time, was the guest of Mrs. Geo. Witherspoon, Wellington street, yesterday. She left last evening to visit at her home in Sarnia.

While coming from New York to Buffalo on the Boston Express, New York Central Line, Miss Barrie had a very narrow escape from death. The train, which was made up of four sleepers and a number of coaches, was running at the rate of 59 miles an hour and, at one o'clock yesterday morning, when about 40 miles east of Buffalo, crashed into a freight car which was left standing on the main track.

The engine and two coaches were badly smashed and the rest of the train was derailed and some of the coaches turned over on their sides in the ditch.

A special Wabash train was made up at Buffalo and carried the passengers of the wrecked train from the place of the accident to Buffalo. Strange to say no one was killed or seriously injured. The engineer's arm was broken and one lady was severely bruised and shaken up. The conductor was also slightly injured. The rest of the passengers, of which there were quite a number, while badly shaken up and frightened, were not much the worse of the accident.

Miss Barrie was in the third coach of the unfortunate train and in conversation with The Planet she said she was surprised at the calmness shown by the women passengers after the accident. "The only one who appeared to be the least excited was the colored waiter, who, as soon as the shock came, hurriedly entered the car and in a nervous voice yelled out: 'Keep perfectly quiet, ladies! Roll over and have another sleep! It's only a bolt came out!'"

The most of the passengers were extracted from the ruins from the tops of the coaches and through the jammed tightly together by the sudden stop.

Traffic was delayed for several hours and the Wabash train which arrives here this morning, was delayed seven hours.

Miss Barrie does not express any desire to undergo another similar experience.

A Windsor Deputation Interview the Ministers at Ottawa.

Ottawa, Oct. 30.—Mr. Sutherland, M. P., and Archie McNeen, of Windsor, are here to-day seeing the Minister of Inland Revenue in regard to the position of District Inspector of Inland Revenue for the Windsor district left vacant by the death of Mr. Gow. The idea here was to appoint J. H. Kanning, Collector of Inland Revenue at Windsor, to the inspectorship, and give the vacant collectorship to Mr. Allan, the present collector of customs at Windsor, while Mr. McGregor, M. P., would get the customs collectorship, which would be left vacant by the transfer of Mr. Allan. This arrangement is said not to be satisfactory to Mr. Allan, hence the visit of the delegation.

THAT TELEGRAM

Alleged Terms of the "Spatchcock" From Buller to White—Make Best Terms.

London, Oct. 31.—The National Review gives the essential terms of the "spatchcock" despatch of Sir Redvers Buller to Gen. Geo. White, when in command of the beleaguered British garrison at Ladysmith. According to this authority, the message ran as follows:—

"I have been repulsed. You will burn your fingers and destroy all your ammunition. You will then make the best terms you can with the Boers. If I have fortified myself on the Tugela."

General Buller, in the speech which led to his dismissal from the command of the First Army Corps, challenged the National Review to publish the complete despatch, and to explain how it was obtained, declaring that he would then publish a certified copy of the original, and allow the public to judge the matter. The editor of the National Review now explains that he got the despatch from a civilian who was in Ladysmith at the time, and who said there was nothing secret about it. He asserts also that he understands that both Gen. Buller and Gen. White have officially asked permission to publish the authorized version, and cannot conceive why permission has been withheld. The same informant, giving an alleged explanation of the fact that there was no co-operation between General Buller and General White during the battle of Colenso, says Gen. White was informed that the attack was fixed for Dec. 17, but General Buller commenced the attack Dec. 15, to the dismay of General White, who had not completed his preparations.

The Morning Leader characterizes the National Review's version of Gen. Buller's despatch to Sir George White as "imaginary and misleading."

GRAIN BUYING

How the Dealers Bid for and Purchase the Product—Steady Farmer gets the Best Price.

"I won't get those beans." The speaker was N. H. Stevens and he had just made an offer to a farmer for his beans. The farmer picked up his sample and walked out, saying if he couldn't get any more for them he would come back.

"The man who first bids in that way never gets the beans," continued Mr. Stevens. "The fellow will now go over to the other dealers and say to me in that way I always make a low enough offer. If he had offered the beans to me at \$1.12, the market price, I would have taken them. If I had offered him \$1.18 for his beans, he would have gone away and come back when he found nobody else would pay him that price."

"There is little use of the first buyer trying to get the beans of the man who peddles it around. I always make it a point to bid low enough so that the fellow will have plenty of chance to work up and feel that he is making money. The man who drives his load up to the door, gets the best price and I always offer such a man the highest market price. 'The man who brings his grain direct to us is worth more to us than the man who peddles his wheat all over the city and we have no reason but to give such a man the preference. We want them to come back.'"

WAS INDIGNANT

Because the Court did not Wait an hour or so for His Appearance.

Hiram Miller, who was arrested on the charge of stealing a shirt from John Scott, appeared before Judge Houston this morning. The Judge waited till ten o'clock, for the complainant to come but he failed to do so and Miller was dismissed.

About 10.15 an apparently angry man did some storming around the police court. His name was John Scott, and he appeared quite incensed that Miller had been dismissed.

"That's the last time I'll ever bother with law," said Scott, as he went away. "The next time the man can steal everything I have got."

P. C. Dodson thinks that the man wasn't as anxious to press the charge as he appeared. Last night and this morning at 8.45 Mr. Dodson saw Scott and told him to be at the police station at 9.30, and yet the man never put in an appearance till 45 minutes after 9.30. He thought the whole of justice had to wait for one John Scott, who had lost a shirt.

SAD DEATH

Popular Maple City Lad Passed Away After but a Short Illness.

The sad and untimely death occurred yesterday afternoon at 4.30 of one of Chatham's brightest and most popular young men, when Wm. J. Newbury passed into the Great Beyond.

Will had only been sick for about a week, and it was thought the day before yesterday that he would pull through, but early yesterday, took a turn for the worse and passed away.

The deceased was nineteen years of age, and was well known in football circles. Will attended St. Andrew's church, and although a quiet boy, had a large number of friends. He was the only son of Mrs. Newbury, Queen street.

The funeral will take place on Sunday afternoon at 2.30.

Grand Representative Potter Tenders his Official Report to the Grand Encampment of Ontario.

Wm. Potter, of this city, grand representative to the Sovereign Grand Lodge, which met at Indianapolis on Sept. 16, last, has prepared his official report of the proceedings and forwarded it to the Grand Encampment of Ontario, for publication.

This report is a very full and valuable one. In it Mr. Potter alludes to the fact that an increase of 70,000 occurred in membership last year, the largest for any year in the history of the order, bringing the aggregate membership to 1,130,000.

He quotes the text of the address of the Grand Sire, which shows 173,825 initiations for the world, and \$3,695,483.22 paid out in relief funds. Canton Victoria, of St. Thomas is complimented and congratulated on winning first prize of \$500 in class B. for drill. Hal Chatham Encampment Degree Staff entered the competitions. Mr. Potter believes they would have won the honors.

Dr. Campbell, of London, Past Grand Sire, made a magnificent address of the passing of President McKinley, and is endorsed by the representative. Mr. Potter's report is an exceedingly interesting and valuable document.

Men's and Boys' Underwear

When you visit an orchard you are apt to make for the tree that's heaviest loaded. No particular reason for it, perhaps, but it's human nature.

That is one reason why we are showing more styles of winter underclothing than you'd expect a store to keep. Twenty-five distinct styles are here for men and boys. People like an unrestricted choice, and then, tastes do differ wonderfully in underwear.

Undersuits for every age from five years upward. We start with a good fleeced cotton for little fellows at 27c a piece, and range up to those beautiful English all-wools that cost \$5 a suit for the biggest men. As many between sorts as there are tints in the sunrise.

The main point is that you can't very well get disappointed if you come here hunting Underwear.

OFF TO THE LEVANT.

Paris, Oct. 31.—"The entire French Mediterranean squadron left yesterday, (Wednesday) afternoon," says the Toulon correspondent of the Figaro.

"While one division put in at Salins d'Hyeres, another composed of three battleships and two cruisers, under the command of Admiral Caillaud, proceeded to the Levant. Two thousand troops will be added to the force."

Admiral Caillaud's orders are that if complete satisfaction is not given by the Ottoman government to all the claims of France he will seize the customs house of the port nearest his squadron. It is claimed his destination is the island of Mytilene, off Salonika. The island commands the entrance to the Dardanelles and the Gulf of Smyrna.

Several morning papers confirm the Figaro's Toulon advice. Rumors to the same effect were current in Paris late last evening, but the foreign office professed to know nothing about the matter.

DOVER TAXES

To the ratepayers of the Township of Dover:

Having been asked by some of the ratepayers about their taxes being a little higher this year than last, I thought it my duty to give the following explanation:

In the first place, the amount of county rate levied by the County Council on Dover for this year is \$236.11 more than for last year; to raise this difference requires one-tenth of a mill on the dollar more than last year.

Again, the amount required for township rate was put at \$7,581.50, and to raise this amount would require 4 3-10 mills on the dollar. But it has been found that in taking the items which make up the township rate, a clerical error was made by including an item which did not belong to this rate, and on correcting this error it reduced the rate from 4-3-10 mills to 3-3-10 mills on the dollar, which is the rate now imposed, being three-tenths of a mill more than last year for the same purpose. The reason for this is that the township rate is more than was required last year; the only increase the Council made this year over last year is \$50.00 for roads and bridges, the balance being made up of \$109.62, which is the increase in Dover's portion for the House of Refuge over last year's rate, which rate is levied by the County Council, and of the township's proportion of the assessments on roads for drains. So that the only increase over last year for County, Township and General School Rates, is 4-10 of a mill on the dollar.

We carefully looked over the several drain accounts and found they owed the township \$4,094.44, and thought it best to collect \$3,339.11 of it this year, and to refund the surplus to the ratepayers on other drains, amounting to \$1,824.70.

We thought it would be to the best interest of the township to have these matters squared up at once.

No doubt we will get a certain amount of blame for this, but it must fall to the lot of some Council, and I fully believe the ratepayers on getting this explanation, will think that the Council has done perfectly right.
