PREFACE.

The object of this Work, which has been prepared under the direction of the Clerk of the Legislative Assembly, is to give references to the entire proceedings of the Legislative Assembly during the 1st, 2nd, 3rd, 4th, 5th and 6th Legislatures of the Province of Quebec, embracing *Twenty-one* Sessions from December 1867 to May 1887.

As the Journals of the earlier Sessions are now very scarce in consequence of the limited number of copies which were printed and of the destruction of the Parliament Buildings by fire in April 1883 with most of the books and records, the entries under the various heads have been made as comprehensive as the nature of the Work would admit of, so as in most cases to supply all the information required without applying to the volume of the Journals referred to.

With regard to the plan or arrangement of the Index, it may be stated generally that it is based upon that of the General Indices of the Legislative Assembly of United Canada, and which former Work was prepared according to the English House of Commons Indices. All documents laid before the House (except Reports of Committees) and all Orders and Addresses, on general subjects will be found under "*Accounts and Papers*," and a list of all documents printed by order of the House since Confederation will be found at the end of this volume; "*Addresses*" will be found under that head; and "*Committees*" are also arranged under a separate head; while all other entries are arranged and classified according to their respective subjects, — as "*Bridges*," "*Harbours*," "*Justice, Administration of*," "*Navigations*," "*Railways*," "*Roads*," "*Territorial Divisions*," &c., thus bringing the whole Legislation of the period upon a particular class of subjects under one view; at the same time, by a system of cross-references, every entry under these various sub-heads may be found at once by referring, alphabetically, in the body of the Index, to the subject, to which every such entry relates.

Especial pains have been taken with the entries under "*Supply*," showing in *Tabular form*, at a glance, the sums voted by the Legislature from year to year for "*Legislation*" "*Administration of Justice*," "*Civil Government*," "*Public Instruction*," "*Agriculture, Immigration and Colonization*," "*Public Works & Buildings*," "*Asylums & Charities*," &c., whilst under the head "*Speeches*" will be found the various measures submitted to the Legislature at the opening of each Session.

E. Blumhart, Attorney for Messrs. Forget & Co., in violation of the law and the agreements, (1886) 186. Negatived, 187.
- 135.** Motion, in amendment to the Question for going into Committee of Supply, that this House deems it its duty to declare that it regrets that the Government has neglected the interests of the Province; 1o. By entrusting to C. A. Dansereau, to purchase books, a sum of nearly \$15,000, without requiring any security; 2o. By neglecting, although informed of the irregularities committed in this matter, to take at the proper time the necessary steps to compel the said C. A. Dansereau to render a true account of the expenditure of the said sum, (1886) 205. Negatived, 208.
- 136.** Motion, in amendment to the Question for going into Committee of Supply, that this House regrets that the Government should have so flagrantly violated the law in order illegally and unfairly to benefit the city of Sherbrooke and the district of Saint Francis, to the detriment of the other districts of the Province and should have been exacting towards the rate-payers of the city and district of Quebec, by imposing upon them a direct tax of \$200,000, after having collected the \$40,000 and the heavy contribution which the said rate-payers pay every year into the Building and Jury Fund; negatived, (1886) 224.
- 137.** Motion, in amendment to the Question for going into Committee of Supply, that it is to be regretted that the present Government, instead of fulfilling the solemn engagements which it had taken towards the Province should have continued to incur expenses in connection with the Q. M. O. and O. Railway which was sold and delivered in 1882, and should not yet be in a position to state in a clear and definite manner what amount will be required for the final settlement of all claims in this matter, (1886.) 245. Negatived, 247.
- 138.** Motion, in amendment to the Question for going into Committee of Supply that this House regrets to find that during the latter part of the year 1884 sworn complaints, were made at Montreal before the Police Magistrate against Messrs. Buland and Buntin, charging them with fraud, and against Mr. Joseph Tassé, proprietor of the *Minerve*, accusing him of criminal libel against the Honorable Honoré Mercier, advocate, of

Montreal, and a member of this House; that the ends of justice on this occasion have been frustrated through the want of proper proceedings. And the Honorable the Attorney General has, by his neglect been the cause of a serious offence against the administration of justice, remaining unpunished (1886.) 304. Negatived 313.

- 139.** Motion, in amendment to the Question for going into Committee of Supply, that this House regrets that the Government, in flagrant violation of the law, and of the formal understanding in virtue of which several municipalities have consented to pay the full amount which they owed to the Government, contrary to the agreement that any reduction on the said debts due to the Consolidated Municipal Loan Fund should be submitted to the House, should have so made a settlement with the city of Sherbrooke, which causes so heavy a loss to the Province, and constitutes a flagrant injustice to the other municipalities of the country, (1886.) 315. Negatived, 317.
- 140.** Motion, in amendment to the Question for going into Committee of Supply, that it is to be regretted that the Government did not adopt proper means to inflict a severe punishment upon all those who were directly or indirectly guilty of deceit in that gigantic fraud of *C. B. Mahan & Co.*, (1886.) 319. Negatived, 323.
- 141.** Motion, in amendment to the Question for going into Committee of Supply, that this House regrets to notice that the statement in answer to an order of this House dated the 5th instant is not a correct statement of the real debt of the Province; because it does not include the amount due by the Province to the Jacques Cartier Bank, and because it does not include the amount lost by the Government in the transaction with the Exchange Bank, (1886) 342. Negatived, 343.
- 142.** Motion, in amendment to the Question for going into Committee of Supply, that the late John Gale, Accountant of the Department of Crown Lands did embezzle from the public treasury, by means of false returns, sums amounting in all to \$53,527.32; That owing to culpable negligence respecting this matter the said John Gale was able to leave Canadian Territory without hindrance and escape from justice; That the facts above set forth are evidence of culpable neglect on the part of the Government to the detriment of public interest and deserving of the censure of this House, (1886) 344. Negatived, 345.
- 143.** Motion, in amendment to the Question for going into Committee of Supply, that this House regrets that the Government has decreed, and persists in leaving in force, a tariff of fees for Registrars so high and so susceptible of arbitrary interpretation as that published on the 6th of December, 1883. This House also regrets the repeal of the tariff decreed on the 5th of June, 1883; negatived, (1886) 360.
- 144.** Motion, in amendment to the Question for going into Committee of Supply, that this House regrets to state that the Mutual Provident Association of Canada was incorporated in virtue of a law of the Government without having offered sufficient security to the public; and moreover, it was established on a false foundation in a financial sense, (1886) 361, negatived, 362.
- 145.** Motion, in amendment to the Question for going into Committee of Supply, that this House regrets that notwithstanding the sacrifices made by the city of Quebec to obtain the Provincial Exhibition in its turn; the Government has considered itself

- authorized to hold the next Provincial Exhibition elsewhere than at Quebec, when such an Exhibition has not been held in Quebec for the past ten years ; negatived, (1886) 365.
146. Motion, in amendment to the Question for going into Committee of Supply, that this House regrets to state, that the public expenses in this Province instead of decreasing since 1878-79., have kept on continually increasing ; that these facts show a painful state of affairs ; and it is regrettable to see the present Government, whose leader and several of its members contended against the Joly Government on this ground, breaking the solemn promises which it made to the country, and continuing the extravagant policy-inaugurated by Hon. Mr. Chapleau, and so well illustrated by Honorable Mr. Mousseau, (1886) 366 ; negatived, 367.
147. Motion, in amendment to the Question for going into Committee of Supply, that whereas, as declared by Honorable Mr. Ross, the North Shore Railway was sold to the syndicate for a price far below its real value, a fact which is amply proved, by the profit realized by the sale which it made of it ; this House is of opinion that the Premier should have taken an action against the syndicate while still owner of the North Shore Railway, to set aside the sale under article 1484 of the Civil Code of Lower Canada, or to have a law passed by this House declaring such sale void : for all these reasons, this House is of opinion that the Government has failed to fulfill its promises, and is unworthy of the confidence of the country, (1886) 368, negatived, 371.
148. Motion (in amendment to a Question of Supply) that this House regrets that the Government did not take the necessary steps to finish during the present session the consolidation and codification of the statutes ; negatived, (1886) 379.
149. Motion (in amendment to a Question of Supply) that it is to be regretted that the Government has not applied any remedy to the serious inconveniences of which the Judges, Advocates and the Public have so long and with so much reason complained of, with respect to the administration of justice in Montreal (1886) 381. Negatived, 382.
150. Motion (in amendment to a Question of Supply) that this House regrets that the Government should for thirty years have neglected to listen to the request for aid for erecting a building for holding the Circuit Court in the county of Kamouraska and that the Government should have, on the 19th May last, replied to Mr. Gagnon "that it had no intention to decide the question this year," thereby depriving this important county of the benefits of a Circuit Court in defiance of Law and Justice, (1886) 384. Negatived, 385.
151. Motion (in amendment to a Question of Supply) that this House refuses to concur in the item respecting Railway Inspection because the inspection shows that a further expense is to be made for inspecting railways over which the Province has no longer any control since the passing of the Federal Railway Act in 1886, (1883) 385. Negatived, 386.
152. Motion (in amendment to a Question of Supply) that this House regrets to see that the Province should be again called upon to pay accounts both for the construction and

- locating of a railway, sold on the 4th March 1882, and handed over on the 1st July 1882 and regrets also that the Government should not be in a position to say when it will cease spending money in connection with the said road, (1886) 386. Negatived, 387.
- 153.** Motion (in amendment to a Question of Supply) that the office of General Superintendent of Colonization Works be abolished ; if not that the salary of the Superintendent be not paid out of the small amount voted for colonization roads ; negatived, (1886) 388.
- 154.** Motion (in amendment to a Question of Supply) that it is to be regretted that the Government maintains the tax imposed on the municipalities for the purpose of Lunatic Asylums and collects it with so much partiality and injustice, and with so little benefit to the Province ; negatived, (1886) 389.
- 155.** Motion (in amendment to a Question of Supply) that it is not prudent to authorize a further expenditure of \$30,000 towards the establishment of a Stud Farm for horses, in the present state of our finances ; negatived, (1886) 391.
- 156.** Motion, in amendment to a Question of Supply) that the Legislature of Quebec has already granted, to its utter loss, a sum of \$70,000, to the Canada Sugar Company at Farnham ; That moreover, this House is of opinion, that in order to secure the success of the sugar industry in this Province, the subsidies destined to that object instead of being paid to the manufacturers would be more usefully employed in encouraging the cultivation of beet-roots, which are the raw material of this industry, (1886) 393. Negatived, 394.
- 157.** Motion having for its object to show that the Government has neglected to forward an Address to the Governor-General, voted by the House on the 2nd. June 1884, on the subject of the construction of the Canadian Pacific Railway, (1886) 395.
- 158.** Motion, in amendment to the Question for going into Committee of Ways and Means, that this House regrets that the present Government should, by increasing the public debt, instead of decreasing it, have rendered necessary the levying of direct taxation which every one admits will have the effect of imposing Legislative Union upon us and depriving us of provincial autonomy which the people of this Province wish, for many reasons, to preserve ; and this House, therefore, protests against the enormous increase of the obligations of the Province. This House also regrets that at the moment when it is called upon to vote the Supplies, the Government does not point out the necessary means of meeting the heavy obligations which it has caused the Province to contract, (1886) 403. Negatived, 406.
- 159.** Motion (in amendment to the Question for going into Committee of Supply) that this House deems it its duty to express its profound regret that the Honorable Treasurer has submitted to this House statements which are incorrect and calculated to injure the credit of the Province. (1887) 145.) Negatived, 151.
- 160.** Motion (in amendment to the Question for going into Committee of Supply) that this House regrets that the Government should have decided to confide to a Royal Commission the duty of inquiring into the causes of the difficulties which have arisen with regard to lunatic asylums and the carrying out of the Act passed in 1885, respecting these institutions. (1887) 161. Negatived, 162.

161. Motion, in amendment to the Question for going into Committee of Supply, that this House desires to state that the Liberal party has always declared itself opposed to the maintenance of the Legislative Council. That the present Government, which represents that party, now repudiates that article of its programme. That such a repudiation of principle on a subject of such importance, for the purpose of maintaining itself in power, is contrary to sound party traditions and to the spirit of the Constitution. (1887) 176. Negatived 178.
162. Motion, in amendment to the Question for going into Committee of Supply, that this House regrets to see, by a return to an Order of the Legislative Assembly, dated the 13th of April, 1887, that one hundred and twenty-six sessional clerks and employees have been appointed in the various departments, and the library of the Legislative Assembly for the present. (1887) 225. Negatived, 227.
163. Motion, in amendment to the Question for going into Committee of Supply, that this House regrets that the Government should have refused to communicate to it the questions which the Cabinet intends to submit to the Conference announced in the Speech from the Throne and, under the circumstances, this House is of opinion that the proposed Conference is not desirable. (1887) 246. Negatived, 249.
164. Motion, in amendment to the Question for the second reading of Resolutions respecting the issuing of Provincial Debentures, that this House does not deem it advisable to authorize at present the issuing of Provincial Debentures to the amount of \$3,500,000; negatived, (1887) 251.
165. Motion, in amendment to a Question of Supply, that this House regrets that the Government should have refused to admit the necessity of maintaining in operation the law respecting the pension fund for officers of primary instruction 49-50 Vict., chap. 27; amendment proposed, that this House declares itself satisfied with the ministerial explanations with reference to the Bill respecting the Teacher's Pension Fund (1887) 256. Last amendment agreed to, 257.
166. Motion, in amendment to a Question of Supply, that the Liberal party pledged itself towards the public to amend the law imposing upon municipalities the obligation of contributing to one half of the maintenance of the insane; that the present Cabinet has not redeemed such pledge and deserves to be blamed by this House (1887.) 258. Amendment proposed that this House is confident that the Government will satisfactorily settle the difficulties which at present exist in connection with the asylums and will do justice to the municipalities; agreed, to 259.
167. Motion, in amendment to a Question of Supply, that the Liberal party has, both in this House, specially during the session of 1884, and in the last general elections, reproached the Conservative party with having reduced the grants to charitable institutions; that by these declarations made in the name of the Liberal party, that party was bound do restore these grants as they were before such reduction; that the present Cabinet has not fulfilled its engagements and this House cannot but regret

these contradictions ; Motion in amendment that this House observes with pleasure that the Government has not reduced the grants to charitable institutions by ten per cent as has previously been done. (1887.) 265. Second amendment agreed to 266.

I. Speeches of the Lieutenant-Governor at the opening and close of each Session.

(1867-68)

- 1. 28th December, 1867.**—His Excellency the Lieutenant Governor (the Honorable Sir N. F. Belleau) bids the Members of the Legislature welcome to the Ancient City of Quebec; and expresses trust that the sentiments of fidelity to our Gracious Sovereign of attachment to the institutions of the British Empire, and of devotion to the interests of our new Confederation which were displayed during the last Session of the Federal Parliament, will equally characterize this first Session of our Legislature. Refers to the various important interests and grave duties which the Constitution has entrusted

ed to the Legislature, and states that it has, at the same time provided that these interests should be placed under the safeguard of the principles of the British Constitution. He has lost no time in calling to his aid advisers responsible to the people ; and the organization of the several Departments has been earnestly proceeded with. The annual amount which the Legislature will have at its disposal, will be satisfactorily established only after the arbitration relative to the finances of Upper and Lower Canada ; under these circumstances it would not be prudent to submit to the Legislature any measure which would involve considerable expenditure. Votes will be asked from you for Public Education, Colonization and Public Charities, as well as for the Civil Service generally ; and for covering the outlay already incurred in the establishment, organization and carrying on of the government. Measures will be submitted for the organization of the Departments of the Administration, the interpretation of the Statutes, and the Audit of the Public Accounts. Attention will also be called to the best means of developing Colonization, and stimulating the zeal of Municipalities and voluntary associations in behalf of this great public object. The further improvement of our Agriculture and the systematic and prudent management of our forests and mines, are also objects demanding the earnest attention of the Government and of the Legislature. The subject of Public Education, and the encouragement of Sciences, Letters and the Arts, will receive the utmost attention of the Government.

Occupying an important geographical position in the Confederation, comprising within its limits the two most populous and oldest cities of British America, peopled by the descendants of the two foremost nations of Europe, this Province cannot fail to enjoy a future of well being, if her people continue to develop in peace and harmony the germs of prosperity which are at their disposal, 5.

2. *24th February 1868.*—His Excellency congratulates the Legislature on the large amount of important business transacted in so short a space of time ; and refers especially to the attention given to the important subjects of Colonization, Agriculture, and Public Instruction, which has produced results more speedy and considerable than he had dared to hope. He thanks the Assembly for the Supplies and for their generosity in aiding the great distress existing in our sister Province of Nova-Scotia, 157.

(1869)

3. *20th January, 1869.*—His Excellency informs the Legislature, that the Right Honorable Sir John Young has been placed at the head of the Government of Canada, in succession to the Right Honorable Viscount Monck. Refers to one of the measures of the late session of the Federal Parliament which provides for the construction of the Railway from Halifax to Riviere du Loup, and which will complete the communication at all seasons of the year between the Great Lakes and the Atlantic ; notices that the line chosen will traverse a wide range of the territory of this Province, and states that the Government, desirous to profit by this opening for settlement of our wild lands, at once undertook the works of survey requisite to that end. The outlay authorized last session for Colonization Roads, has been promptly effected. The regu-

lations as to the cutting of timber on Crown Lands have received the earnest attention of the Government, and he has deemed it his duty to sanction certain changes of system calculated to secure a more prudent management of our forest resources, and an increase of the revenue, without injury to the real interests of this important branch of trade. He is happy to see the great progress made by the agricultural and manufacturing industries of the Province. The Government of Quebec in concert with those of Ontario and New-Brunswick has conferred as to the matter of Immigration with the Federal Government and he has reason to hope that the result will tend to increase the prosperity of the Provinces. The Public Accounts will be submitted; and they will show that the expenditure has been kept considerably within the limits set by the votes of last session. He regrets that from circumstances beyond the control of the Government, the arbitration required for the division and adjustment of the debts and assets of Quebec and Ontario, has not yet taken place. He asks for the usual Supplies. The project of a Municipal Code will be submitted for consideration. Measures will be proposed for your consideration, respecting the management and sale of Crown Lands, and the development of Agriculture and Colonization; several new Railway projects the general revision of the Railway Act, the revision of our jury laws, and some portion of our school laws, as also, several other matters connected with the administration of justice, and the better organization of the machinery of our Provincial system, 5.

4. *5th April, 1869.*—His Excellency congratulates the Legislature on the large amount of important business transacted, and refers especially to the measures adopted for the development of the resources of the Province, the laws respecting the administration of justice, and the maintenance of Public order. He is happy to see the wisdom with which the question of Public Instruction has been settled; and hopes that the different classes of our population will take advantage of the great benefit of Education, for the promotion of which such liberal amounts have been voted. He thanks the Assembly for the Supplies, and is happy to see the grants in aid of Colonization, Public Instruction and Charitable Institutions increased, 223.

(1869)

5. *23rd November, 1869.*—His Excellency takes notice of the abundant harvest which Providence has been pleased to afford us. He states that the Government has lost no time in carrying into execution the laws passed last Session for the promotion of Agriculture and Colonization, and for the advancement of Education. The work on the Colonization Roads has been vigorously proceeded with, and the money voted for this purpose has been expended with economy and advantage. He observes with pleasure that many of the electoral divisions have availed themselves of the recent law providing for the formation of Colonization Societies, which Government has promptly recognized. Good results are expected from the law for the encouragement of colonization Railways, and several municipalities have taken shares in these useful undertakings. The work of exploring the territory in rear of the settlements on the north of the St. Lawrence, has been commenced, and you will be informed of the progress

I. Speeches of the Lieutenant-Governor. &c. :—*continued.*(1869.) :—*continued.*

made. All these measures, at the same time that they favor Colonization, are calculated to attract immigration; in which object, my Government takes a common interest with the Federal Government and those of the other Provinces. The commission appointed, to enquire into the organization and expense of the Civil Service has been actively occupied with the discharge of its duties, the result of its labors will be communicated. He is happy to announce, that such progress has been made in the division of the surplus debt of the late Province of Canada, as to lead him to expect an early settlement of the question. He announces the intention of H. R. H. Prince Arthur to reside for some time in this Province; and that he, the Lieutenant-Governor, had thought it his duty to offer him in the name of the Legislature, the hospitality of the Province during his sojourn in this city. The Public Accounts will be submitted, and it will be found that the expenditure has been kept within the Estimates. A considerable surplus remained in the Public Chest at the expiration of the financial year ended on the 1st June last, and he has good reason to hope that there will be the same result at the end of the following six months. The ordinary votes will be asked for and also, a vote for the erection of Public Buildings. Your attention will be again directed to several of the measures which you had not time to complete during last session. A Bill for the more effectual organization of the Police force in this Province, will also be submitted for consideration, 6.

6. *1st February, 1870.*—His Excellency congratulates the Legislature on the result of their labors, and on the harmony with which they have examined and discussed the important questions submitted. Although you have deemed it incumbent upon you to defer the final adoption of the Municipal Code to another Session, the zeal with which you have investigated this measure, leads me to believe that the work will be thereby rendered more complete. He thanks the Assembly for the Supplies, and observes with pleasure, that they have devoted their attention to the provision of better accommodation for the Public Departments, 193.

(1870.)

7. *3rd November, 1870.*—His Excellency refers to the importance of the subjects which the new constitution submitted to our Legislation and which he had explained at the opening of the first session of the present Parliament and is happy now to recognize the satisfactory results which our legislation on these various matters has produced. He hopes that the Municipal Code, which has already been the subject of labor and deliberation, will be terminated during this Session. Liberal appropriations have been made, during the three first Sessions of this Parliament for Education, Charitable Institutions, Public Works, Colonization and Immigration; and also, aid for the construction of new Railways; and the results thus obtained, are such as to encourage you to persevere in the same course taking care to keep within the financial resources of the Province. The extensive explorations which had been commenced, have been pressed forward with vigor, and will shortly enable large tracts of territory to be opened for the timber trade and for settlement. Measures have been taken to stimulate Immigration, and to encourage the return of our fellow countrymen from the

I. Speeches of the Lieutenant-Governor, &c. :—*continued.*(1870.) :—*continued.*

United States; and the progress already made is satisfactory. The Civil Service Commission has terminated its labors, and its second report will be submitted. The arbitrator named by this Province for the division of the debts and assets of the late Province of Canada, finding that there existed between the other arbitrators and himself an irreconcilable difference of opinion resigned his office. The other arbitrators having continued their deliberations without this Province being represented, he had thought it his duty to protest first against the illegality of their proceedings, and afterwards, against the illegal and unjust result at which they arrived. The correspondence on this subjects will be submitted. The Public Accounts will be submitted, and he is happy to state that the balance in the hands of the Treasurer on the first of July last was larger than at the corresponding period last year. Several portions of this Province having been visited by extensive conflagrations; the Government came to the assistance of the victims of these misfortunes. Accounts of the moneys expended for this purpose, will be submitted. He asks for the usual Supplies, 3.

8. *24th December, 1870.*—His Excellency congratulates the Legislature on the important tasks accomplished during this Session. In addition to measures sanctioned in previous Sessions, liberal grants have been added in favor of iron and wooden Railways, which he is confident will develop our commerce, attract foreign emigration and facilitate the settlement of the public domain. Our position in the centre of the Confederation and on the shores of the river and gulf of St. Lawrence ensures us a distinguished part in the future of this continent, and the disposition of the people to call into action all our commercial, industrial and agricultural resources, appears to afford a certain guarantee for our prosperity in time to come. He sanctioned the Municipal Code with much pleasure, and returns thanks for the attention bestowed upon the Bills respecting Civil Procedure, Public Instruction, Agriculture and the Internal Revenue; as also for the careful examination of the correspondence relative to the arbitration; and has no doubt that the determination arrived at, will be sustained by the country. He thanks the Assembly for the Supplies.

(1871)

9. *8th November, 1871.*—His Excellency states that the last four years have clearly shown how much the inhabitants of this Province desire to avail themselves of the advantages which the new constitution offers for the development of the resources of this part of the country. Under the new system, our Legislature has been able to apply its revenues to the encouragement of those enterprises which have appeared to be most likely to increase the prosperity of this Province. The Legislation adopted during last parliament in favor of Colonization Societies and wooden and iron Railways, promises to give a powerful impulse to our commerce, agriculture and manufactures; and, notwithstanding the difference of opinion which necessarily exists in a constitutional country, public opinion has pronounced itself with sufficient unanimity in favor of these measures to justify the continuation of the same policy, extending it in proportion to its resources. The Legislation and regulation respecting the sale of limits and collection of timber dues have considerably increased our

I. Speeches of the Lieutenant-Governor, &c. :—*continued.*(1871.) :—*continued.*

revenue, and enabled us to proceed vigorously with work on Colonization roads in all parts of the Province. Several Immigration agents have been named in Europe, and in various parts of this country; and we have already reason to congratulate ourselves on the result of their efforts as well as of the means taken to spread information respecting the resources of this Province, and the value of its uncultivated lands. He had thought it proper to suggest that the Government should hold a conference on the subject of Immigration: several meetings were held and he has reason to believe that the best understanding will prevail between the Federal and Local Governments, which latter will share according to their resources and their common interest in the work of providing for this important object. The Municipal Code which was passed during the last Parliament has recently been brought into operation. Measures on the subject of the administration of justice will be submitted. The Joint Address on the subject of the so called award rendered by two of the arbitrators named for the division of the debts and assets of Upper and Lower Canada has been transmitted to the Governor-General. The Federal Government has not put this pretended judgment in force; and whatever steps are taken in this matter, he is led to believe that justice will be done us. The Public Accounts and Estimates will be submitted, and it will be seen, that notwithstanding the large expenditure which has been incurred, there still remains a considerable sum to the credit of the Province. 4.

10. *23rd December, 1871.*—His Excellency is happy to congratulate the Legislature on the importance of their deliberations, and observes with pleasure the continuation of the policy inaugurated by the last Parliament with regard to Colonization and Railways; and that nothing has been omitted which is calculated to ensure the rapid development of the resources of the Province. The various Acts which you have passed for the improvement of the Administration of Justice and for other Public objects, and the local and private measures, cannot fail to be received with satisfaction by the people. He thanks the Assembly for the Supplies. 230.

(1872)

11. *7th November, 1872.*—His Excellency refers to the more urgent subjects of Legislation which had been considered during the preceding Sessions, and which have added, to the numerous laws received from the systems which preceded Confederation, other Statutes which were found necessary. And states that in the division of legislative power between the Federal Parliament and the Local Legislatures, questions of difficulty have necessarily arisen. In many cases the two Governments have come to an understanding, so as to avoid a conflict of jurisdiction; but it has occurred that the Courts of Justice in this Province have virtually put aside Acts of the Legislature which have not been disallowed by the Government of the Dominion; and the Quebec Government has thought it right, in the interest of all to take the necessary steps to have the constitutional questions which may thus arise, submitted to the decision of the highest tribunals of the Empire. Bills respecting the election of Members of the Legislative Assembly,—to facilitate the decision of Controverted Elections, and respecting the judicature laws will be submitted. Legislation in favor of Railways and

I. Speeches of the Lieutenant-Governor, &c. :—*continued.*(1872.) :—*continued.*

Colonization roads has borne its fruits; and you will have seen with pleasure that several large enterprises which you have aided by grants of money or lands are in progress of completion. Great efforts have been made in favor of Colonization; numerous and important roads have been constructed; and a greater number of immigrants from Europe begin to turn towards this country and to settle here; the liberal subsidy placed at our disposal by the Federal Government to assist Immigration should encourage us to continue our exertions, and to emulate in this respect the efforts of other Provinces. The Public Accounts and Estimates will be submitted. You will be asked to ratify certain loans of money made by the Government to persons who suffered from the failure of last year's harvest. Notwithstanding these unforeseen expenses, and the considerable sums paid for Colonization Railways, the balance in the hands of the Treasurer this year is greater than last year. You will be asked to renew the appropriation to enable the Government to defend the rights of the Province before the Privy Council, in the matter of the pretended Arbitration and award respecting the debts and assets of the old Province, 4.

12. *24th December, 1872.*—His Excellency is happy to congratulate the Legislature on the application and assiduity with which they have considered the measures submitted, and thanks them for the Supplies. The large grants in money and lands voted for new Railway Companies will, he hopes, contribute to develop largely the resources of the Province, 274.

(1873-4.)

13. *4th December, 1873.*—His Excellency (the Honorable René Edouard Caron) is happy to meet the Legislature and to ask their assistance and advice. During previous Sessions subjects of the most urgent necessity were considered, and the activity displayed in preparing laws on matters placed under your control by the constitution, affords me the assurance that you will continue to perform your duties with the same good will during this Session. The last Provincial Exhibition furnishes a striking proof of the prosperity of our Agricultural and Industrial Institutions, and the working of the laws on Agriculture, Arts, and Manufactures show that they are founded on a wise principle. He refers to the large number of persons who have left the country, and is sure the Legislature will aid by means as energetic as circumstances will permit those amongst them who may wish to settle on our public lands. He suggests that one of the means to be adopted, in order to put a stop to emigration, would be to assist our municipalities, as much as possible in improving our highways. The policy inaugurated under my predecessor, in relation to the construction of Railways, will be continued to the extent of our means. If immigration is encouraged with discrimination, it will bring to this country a select class of agricultural laborers, skilled artisans, and workmen. A Bill on Elections will be submitted. A commission was appointed to inquire into the causes of the burning of the Quebec Court House and to suggest means of providing for the loss of the Archives, Registers and Records,—a measure to that effect will be presented. Legislation will be asked on the subjects relating to judicature, public instruction and measures connected with the public weal of this Province. He is happy to inform the Legislature, that the Jesuit Barrack's

I. Speeches of the Lieutenant-Governor, &c. :—*continued.*(1873-74.) :—*continued.*

property at Quebec is now in the possession of the Government. The Public Accounts and the Estimates will be submitted. The Federal Government having assumed the surplus debt, for which, under the constitution we were liable, the difficulties between Ontario and Quebec on this point, no longer exist. This act of Legislation places at our disposal additional resources. The assets enumerated in the fourth schedule annexed to the B. N. A. Act have still to be divided between this Province and Ontario. In the settlement of this question, every effort will be made to arrive at a friendly understanding. A vote will be asked for repairing the Jesuits' Barracks with the view to transfer the Public Departments to that building. The balance in the hands of the Treasurer on the 1st July is still more considerable than in the previous year, 9.

14. 28th *January*, 1874.—His Excellency is pleased to find himself in a position to bring Legislative labors to a close. This session, though comparatively short, has produced several important measures, which if properly carried out cannot fail to develop the resources of the Province, and to materially increase its prosperity. He congratulates the Legislature on the result of their deliberations and thanks the Assembly for the Supplies which shall be expended with proper economy, 205.

(1874-75.)

15. 3rd *December*, 1874.—His Excellency states that since last Session he had accepted the resignation of the members of the administration, and had entrusted the direction of the affairs of the Province to a new Ministry. The Legislature will be called upon to institute an enquiry in relation to the exchange of Government property situated near Montreal. A Bill against bribery and corrupt practices at Elections will be submitted. The Government will continue their policy with regard to Railroads. The Public Accounts and Estimates will be submitted. Notwithstanding the increase in the expenses the state of the finances will show a surplus to be added to that of last year. He congratulates the Legislature on the result of the Treasurers mission to England; the result of that mission will be communicated. Refers to the return of a large number of our fellow-countrymen, and the desire evinced by others to follow their example; and has no doubt that the best attention will be given to the measures submitted with the object of assisting such return; and also of favoring a wholesome immigration from Europe, 13.

16. 23rd *February*, 1875.—His Excellency congratulates the Legislature upon the important labors of the Session and refers especially to the measures calculated to prevent bribery at Elections, to favor the building of Railroads and to encourage Colonization. He thanks the Assembly for the Supplies, §16.

(1875)

17. 5th *November*, 1875.—His Excellency congratulates the Legislature and the country upon the peace and good order which prevailed during the late elections. He regrets that our Province has not escaped the effects of the financial crisis, but is thankful to Divine Providence for the abundant harvest with which we have been blessed. A

I. Speeches of the Lieutenant-Governor, &c. :—*continued.*(1875.) :—*continued.*

measure having for its object the completion of the North Shore and the Montreal, Ottawa and Western Railway Companies will be submitted ; and also a Bill to modify the administration of the Department of Public Instruction. The new plan adopted last Session to facilitate the settlement of our Public Lands has been crowned with success. The Public Accounts and the Estimates will be submitted. He is glad to be able to inform the Legislature that in spite of the financial crisis the finances are in a satisfactory state, 4.

18. *24th December, 1875.*—His Excellency congratulates the Legislature upon the result of their labors. He notices with satisfaction that the discussions concerning the important matters submitted, were marked by urbanity and knowledge of public affairs. He thanks the Assembly for the Supplies, and states that they shall be expended with economy, 198.

(1876)

19. *11th November, 1876.*—His Excellency the Administrator of the Province (the Hon. Chief Justice A. A. Dorion) regrets that the health of His Excellency the Lieutenant Governor has compelled him to apply for temporary leave of absence. States that the loan authorized last Session has been advantageously placed and that the credit of the Province occupies a high position in the English market. A Bill for the better organization of the Public Service, and to render it more efficient, will be submitted. It is the intention of the Government to come to the assistance of certain Railways which have made considerable progress, but which now find themselves arrested by difficulties in the money market. The Public Accounts and Estimates will be submitted. The reports on Colonization and repatriation will be submitted ; they will establish that the country continues to make satisfactory progress, 8.

20. *28th December, 1876.*—His Excellency the Lieutenant Governor (the Hon. Luc Letellier de St. Just) refers to the decease of his lamented predecessor the Honorable R. E. Caron, whose long career had been an honor to himself and to the country : He states that it will be his earnest desire, as it is his duty, to comply with the spirit of the constitution under which we live ; has much pleasure in congratulating the Legislature on the zeal and assiduity they manifested in the discussion of the important measures submitted ; and trusts that the result of their labors will be to give a new impetus to the great improvements which have been undertaken in the Province. He thanks the Assembly for the Supplies, 206.

(1877-78)

21. *19th December, 1877.*—His Excellency (the Honorable Luc Letellier de St. Just) hopes that the commercial crisis which continues to be felt, will soon terminate, and is convinced that the abundant crops and the public works which are being executed in this Province, will contribute to the removal of this depression, and restore prosperity to the country. The Commission for the revision of the Statutes has made such progress as to secure most desirable results at no distant date. The Act for the regulation of the Civil Service has been put into execution, and a Report will be sub-

I. Speeches of the Lieutenant-Governor, &c. :—*continued.*(1877-78.) :—*continued.*

mitted to the House, as required by law. His Excellency's Government, not having been able to agree with that of Ontario upon a compromise in reference to the question of the Arbitration, the case has by mutual consent, been carried in appeal to the Privy Council of Her Majesty, in England. Important measures to give greater efficiency to the Public Service will be placed before you, and you will have to consider Bills concerning Agriculture, Reformatories, Asylums, and the License Act. The Public Accounts and Estimates will be submitted. A Report will be made to you upon the works executed by the commissioners named to construct the Quebec, Montreal, Ottawa and Occidental Railway, and he hopes that the progress made in that great enterprise will be found satisfactory, 5.

22. *9th March, 1878.*—Being desirous of ascertaining in a constitutional manner the feelings of the people of this Province regarding the present state of public affairs and the ministerial changes which have just taken place, His Excellency has determined upon proroguing the Legislature of this Province with a view to its dissolution at an early date, and he entertains the hope that the electors of this Province will, in the choice of their representatives exhibit as much judgment as patriotism, in order to assure peace, prosperity and happiness to the people, 231.

(1878.)

23. *5th June, 1878.*—His Honor states that the financial condition of the Province is the most important of the subjects to be considered. It behoves us to finish the railways already commenced so as to reap, with the last possible delay, the benefit of the sacrifices which we have made to build them. To carry out these undertaking with success the expenditure should be brought down as low as is consistent with the efficient administration of the public service. He regrets to announce that a comparison of our revenue and expenditure shows a considerable deficit. The Estimates will be submitted; they have been prepared with a view to the strictest economy in order to equalize the receipts and expenditure without resorting to the levying of fresh taxes on the people. Measures will be submitted, the effect of which will be to relieve the budget of several considerable items of expenditure. A bill to transfer to the Commissioner of Public Works all the powers now vested in the Railway commissioners and to put an end to their office, will be submitted; also, measures for the abolition of the Magistrates' Courts,—and for effecting a change in the Legislature of this Province, so far as regards the Legislative Council. Since last Session, judgment was rendered by Her Majesty in Privy Council on the question of the arbitration between the Provinces of Quebec and Ontario, a copy of this judgment will be submitted, 4.
24. *20th July, 1878.*—His Honor has been deeply gratified by the measures passed during this Session and particularly that which, ensuring to this Province a reduction in the general expenses, looks to a re-establishment of an equilibrium between our income and expenditure. You have proved by your important deliberations the value which you attach to the benefits of the constitutional system under which we are governed. He thanks the Assembly for the Supplies 147.

I. Speeches of the Lieutenant-Governor, &c. :—continued.

(1879.)

25. 19th June, 1879.—His Honor has witnessed with lively satisfaction the enthusiasm with which His Excellency the *Marquis of Lorne*, the representative of Her Majesty, and His August Consort, Her Royal Highness the *Princess Louise*, were welcomed at the two chief Cities of this Province, and, doubtless, our well-beloved Sovereign will appreciate as they deserve to be, the feelings of attachment and of loyalty of which our Province has just given such undeniable proofs. Since the last session, the works connected with the Government Railways have been pressed on with the utmost activity, they are now in full operation between *Quebec* and *Hull*, and will soon be prolonged to *Aylmer*, and he trusts will be fully completed before the close of this season. While the Railways on the North Shore of the *Saint Lawrence* have received the active attention of the Government, those on the South Shore have not been neglected, and he is happy to have it in his power to announce that the progress of the greater number of them has been most satisfactory. The advantages which are sure to result from an immediate connection between our Railway system, the *Canada Central* and the other Railways of the Dominion are such that the construction, with that view, of a bridge over the *Ottawa River*, opposite *Hull*, seemed indispensable; a contract for the building of that bridge has been completed on the most favorable terms: it will be submitted, and will, he has no doubt, be found quite satisfactory. The Province should not rest satisfied with the building of a bridge at *Hull*, nor abandon the project of extending its Railways to that part of the county of *Pontiac*, most suitable for effecting a junction with the subsidised portion of the Pacific Railway. To attract to our Province the traffic of that great inter-oceanic line of Railway we should offer the shortest route to the Atlantic. After the sacrifices which we have made as well for the construction of this important link of the Pacific Railway as for the building of all our other Railways (which, by opening up new territory, tend to increase the population and consequently the revenues of the Dominion), the Province of *Quebec* is justified in hoping that the Federal Parliament will grant some aid towards lightening the burden which it has sustained in the execution of these great enterprises. The Government of this Province has succeeded in affecting an amicable settlement of the most important claims against the municipalities pledged to aid the building of the *Quebec, Montreal, Ottawa and Occidental Railway*. A measure will be submitted for legalising certain arrangements entered into for that purpose, and he trusts from the good will shown by the greater number of them, that it will be easy to reach a satisfactory conclusion before long. As the time has now arrived when the Government Railways should begin to yield some revenue, it has been deemed, that the most effectual means, both for rendering them as productive as possible for the Province, and for creating the necessary traffic for the roads, would be to lease them during a certain number of years to men of business possessing sufficient capital and the amount of experience essential to the prosecution of enterprises of this nature, and who would be directly interested in the success of the Railways. Agreements have consequently been entered into, which will be submitted for approval according to law. His Honor has authorized his Government to make a final settlement of the long pending question of the loan to the sufferers by the great fires at *Quebec*, the details of which will be communicated. Since last session, with the intention of aiding the numerous class of workmen out of employment to withdraw from the

cities and settle on the lands of the Crown, assistance as been promised to some persons zealous for the public good, who proposed to form extensive associations for the colonization of the country. A measure will be presented for authorizing the Government to make other arrangements of the same nature. In fulfillment of the promise which was made, the strictest economy has been practised in the administration of the affairs of the Province; and although the Government has not entirely succeeded in restoring a balance between income and expenditure His Honor has reason to hope that the attempts which have been made in that direction and the results which have flowed from them, will be found satisfactory. The Budget for the coming fiscal year will be submitted. It has been prepared with a view to the curtailing of every expense not absolutely necessary. The Legislature will be called upon anew to consider whether it is not opportune at present to modify our constitution as regards the Legislative Council. Measures will be laid before the Legislature regarding the organization of Public Instruction, Licenses, the Municipal Loan Fund, the Macadamizing of Roads, and also concerning Lunatic Asylums. A Bill will also be submitted to the Legislature for enabling the inhabitants of this Province to enforce before a legal tribunal such claims as they may have against the Crown. (Petition of right), 3.

26. *31st October, 1879.*—His Honor (the Honorable Théodore Robitaille) is happy to see that in conformity with his message to the Legislative Council dated 13th September harmony has been restored between the two branches of the Legislature, and congratulates them on the application and assiduity with which they had considered the measures submitted. He thanks the Assembly for the Supplies, 364.

(1880)

27. *28th May, 1880.*—His Honor is confident that the representatives in Parliament, in commencing their labors, are animated with that spirit of good understanding and harmony, which is so necessary for the proper working of our political institutions and the progress of our Country. He is happy to unite with the Legislature in expressing sentiments of gratitude and loyalty to Our Gracious Sovereign, on the occasion of the visit of His Royal Highness *Prince Leopold*. His Highness is the fifth member of the Royal Family who has honored our country with his presence, and we take great pleasure in regarding his visit as a further proof of the affection of Our August Sovereign. He rejoices at the thought that the general depression, which has been felt in all branches of industry, is beginning to disappear. The lumbering in our forests and the development of our mineral resources, were paralysed by the crisis; but you will be happy to learn that there is every reason to hope that the new impetus given to these and other industries will largely contribute to our national prosperity, while, at the same time, it will perceptibly increase the revenue of the Province. Two enterprises which the previous Legislatures and Governments had specially protected, viz: the mining of phosphates and the manufacture of beet-root sugar, have received the special attention of the Government, and are in a fair way to fulfil the hopes of the friends of Agriculture and Industry in this Province. A general

I. Speeches of the Lieutenant-Governor, &c. :—*continued.*(1880.) :—*continued.*

Dominion Exhibition will be held in the Province of Quebec in the course of the year. His Government has thought proper to encourage, in a particular manner, this agricultural and industrial competition and he is confident that the Legislature will approve what has been done towards that end. Since the prorogation of the House, on the 31st October last, the Government has taken possession of the eastern section of the *Quebec, Montreal, Ottawa and Occidental Railway* and has united, under one management, both sections of the road. The statements which will be submitted on this subject, will show that the revenue of this enterprise has increased in a ratio which is encouraging for the future; and this revenue together with the other advantages derivable from the road, will compensate for the sacrifices which have been made to successfully carry it out. The cost of constructing the Provincial Railway having exhausted the Consolidated Railway Fund, and absorbed the subsidies reserved for private companies, and having moreover necessitated temporary loans on the credit of the Province, it has now become necessary to provide for the payment of those subsidies and loans. For this purpose the Government has thought proper to take preliminary steps towards the negotiation of a loan sufficient to meet our actual requirements, without however exceeding the limits of the resources of the Province. The Legislature will learn with satisfaction, that this loan can be effected under very advantageous conditions. The Province has contracted considerable obligations in order to complete great improvements, which it thought proper to undertake, in order to secure, in the Confederation, a position, commensurate with its political importance. It is a national duty for all good citizens to labor, with one accord, towards meeting these obligations and maintaining unimpaired the credit of the Province. He sincerely hopes that the Legislature will loyally assist the Government in accomplishing this task. Our Constitution having limited, within narrow bounds, our sources of revenue; it becomes our duty to carefully see that economy is practised in our public expenses; and to see also to the immediate collection of what is due to the Treasury, if we wish to secure an equilibrium between our receipts and expenditure. The Municipal Loan Fund debt has, for some years, increased in large proportions. A measure will be submitted for the purpose of disposing of this debt for the benefit of the Treasury, due regard being had to the position of the various Municipalities interested. The Legislature will have to consider certain amendments to the License Act and also a Bill, the object of which is to make public offices contribute to the revenues of the Province. The Act respecting Lunatic Asylums, in so far as regards the expenses which it authorizes, requires amending. Some alterations are required in the legislation which relates to our mines, both with regard to the public revenue and to the facilities which should be afforded to the development of this important industry. The Consolidation of the Railway Act of this Province, for the purpose of assimilating it to the Dominion Railway Act, is of the utmost importance, and a Bill to that effect will be submitted.

The Consolidation of the laws respecting Education and Agriculture, are subjects on which the Legislature will be consulted during the course of the Session. Bills to provide for the consolidation of the Statutes of the Province, to modify the constitution of the Superior Court and of the Court of Queen's Bench, and concerning the employment

of prisoners confined in the Common Gaols of the various districts in the Province, will be submitted. The Public Accounts and Estimates, as well as a statements of receipts and expenditure for the current year, will be submitted. The Estimates for next fiscal year will also be laid before the House, for approval. These Estimates have been prepared with the economy consistent with the efficiency of the public service, 5.

28. *23th June, 1880.*—His Honor refers to the large amount of important measures submitted to the Legislature, and states that the Assembly have fulfilled their task with a devotion which deserves public acknowledgment. He congratulates the Legislature on the unanimity which has marked their deliberations upon the important question of the settlement of the Municipal Loan Fund, and the spirit of conciliation which distinguished their discussions upon all matters of public interest. He thanks them for the Supplies, 309.

(1881)

29. *28th April, 1881.*—His Honor notices with pleasure, renewed activity in all branches of industry ; commerce is becoming more and more flourishing, our manufactories are increasing in numbers ; agriculture, owing chiefly to the generous encouragement which the Legislature has given to it, is now taking that place which it should occupy in developing the resources of the country. In the great movement which is making of this Dominion a new nation, the Province of Quebec should perform its part with firmness, courage and ability. Our progress is already very marked ; the Province has not only maintained the position which it held before Confederation, but it has also considerably improved it. The sphere of its operations has been largely extended, and we have every reason to hope for a future as brilliant as could be desired by the sincerest of patriots. A sentiment of generous devotion animates our population and you have only to second their good impulse, in order to attain the end of the legitimate hopes of the country. The Credit Foncier, to which the Legislature gave legal existence during last session, has commenced its good work, and its influence is already felt in the lowering of the rate of interest and the proportionate increase in the value of real estate. The establishment of the beet-sugar industry has become an accomplished fact, in at least three counties. By means of this industry, so rich in itself and susceptible of so large an increase, an important change will be effected in our system of agriculture. The question of utilizing the rich deposits of phosphates in the Ottawa Valley, which seemed to have been abandoned, was again taken up by my Government and solved with a success which bids fair to surpass the results which were at first expected from it. The working of our phosphates on a large scale, originated the idea of exporting it to foreign countries ; this exportation, with that of live stock and agricultural produce, has given rise to the establishment of a line of Transatlantic Steamers which will, he hopes before long, perform a regular service between France and Canada, thanks to the generous assistance which, at our solicitation, the Federal Government has been pleased to give to this important enterprise. More unassuming, but of no less importance in its beneficial results the manufacture of cheese and butter has been so largely increased in our Province as to perceptibly

I. Speeches of the Lieutenant-Governor, &c. :—*continued.*(1881.) :—*continued.*

alter the figures of our agricultural exports. The friends of agriculture will read with the greatest interest the reports to be submitted on this subject. Colonization has continued to prosper during the past year. It is very satisfactory to me to be able to state that the repatriation of our fellow countrymen and the stream of immigration from abroad, afford a proof that our Province is becoming more and more advantageously known in foreign countries. The Exhibition held at Montreal was a brilliant and lasting success, and I have great pleasure in informing you that some of the largest manufacturing establishments of the continent of Europe have expressed their intention of taking part in the next exhibition. The Government has deemed it its duty to extend them an invitation to that end. The subsidies granted by the Legislature to railway enterprises have had the effect of creating and completing a net-work of provincial roads which now give us the most direct means of communication, not only with the various sections of our Province, but also with other Provinces and the great country our borders. The statement of the receipts from the Railway built by the Province, will be submitted. This statement is very satisfactory and will enable the Legislature to appreciate the steps to be taken by the Government for the future working of this great enterprise. The legislation of last session respecting mines has already produced excellent results, which can but be continued. The Legislature will notice by the report of the Commissioner of Crown Lands, that the receipts of his Department will, for the current year, greatly exceed those of past years. The sale of timber limits, which has been held was the most important and profitable which has ever taken place in the Province. The various Departments have been installed, during the present year, in the new Buildings, whose imposing grandeur is a solemn declaration of the permanency of our provincial institutions and of the importance attached by our population to the decided maintenance of our federal system. Few measure of a public nature will be submitted this session. The legislation of last session was considerable and is, for the moment, adequate to the needs of the public service. He is happy to be able to draw attention to the simultaneous establishment of so many things, calculated to contribute to the general prosperity of our country, and it is a much more agreeable duty for him to enumerate, as he has done, that which Government has endeavored to accomplish for the good of all, than to propose innovations in our laws. The legislature will, nevertheless, have to consider certain measures respecting the Administration of Justice, some amendments to the laws on Public Instruction and Agriculture, as well as a measure for the better protection of workmen in the payment of their labor and wages. The important work of Consolidating the Statutes has been commenced by a Commission organized in accordance with the Act of last session. The power granted to this Commission of altering the language and the order of the Statutes, and of suggesting amendments, allows it to draw up the laws in a regular and methodical form, and thereby to give to such Consolidation a permanent and lasting character which it would be impossible to obtain by simply revising the Statutes. It is within the attributes of this Commission to search out subjects which are within the competency of our Legislature. This study, under the circumstances, gives a more than usual importance to the work of the Commission. A Bill will be presented to extend the duration of the parliament of the Province and thus to decrease the frequency of elections and the

I. Speeches of the Lieutenant-Governor, &c. :—*continued.*(1881.) :—*continued.*

expenditure occasioned thereby. The large number of Private Bills to be submitted is a proof of the business prosperity and of the spirit of enterprise which reigns in our Province. Industry, Manufactures, Navigation and Railway Companies will, by this legislation, secure advantages which will be a source of gratification to all. The Public Accounts will be submitted and the Estimates, which have been prepared with that regard to economy which is consistent with the efficiency of the public service, with also be submitted, 4.

30. *30th June, 1881.*—His Honor refers to the large amount of important measures submitted to the Legislature and states that they have fulfilled their task with a devotion which deserves public acknowledgment, 310.

(1882.)

31. *9th March, 1882.*—His Honor regrets to have to advert to the heinous attack upon the person of Her Majesty the Queen which has been the occasion of as much sorrow as amazement among our people, and thanks Providence who has preserved to the affection of Her subjects a Sovereign so beloved and respected. He takes advantage of this occasion of the re-opening of this Legislature to tender to our Sovereign the expression of our affection, loyalty and gratitude for the many benefits She has conferred upon this Country. Negotiations have been opened with the Dominion Government which, he has reason to believe, will lead the latter to apply to the Federal Parliament for the establishment of a Steam Ferry Service for the transfer of trains between Quebec and Levis, so as to assure direct connection with the Intercolonial. A measure will, in consequence, be submitted, with a view of carrying out the dominant idea of our provincial policy, since the inauguration of our Railway undertakings. His Honor informs the House that the Railway between Quebec and Ottawa built at a great sacrifice, as the first link in the great Pacific Line, will now attain the end desired by the Country by utilizing the Geographical position of the Province to attract the immense trade of the West. A measure will be submitted in relation to the sale of this Railway. The Government has endeavored to develop the resources of the Province by means of foreign capital and its attendant spirit of enterprise; and this policy has had the effect of attracting hither large financial and industrial associations. The mining, timber, phosphate, sugar, butter and cheese industries are now in a state of transition which has already been productive of much good; and for the purpose of giving fresh impetus to this movement: other measures for their encouragement will be submitted, among which are the establishment of a school of mines and of special schools of instruction in the methods of turning farm produce to the best advantage. Reforms are required in the administration of justice. The Report of the Commission instructed to prepare a scheme for the re-organization of the Courts and the re-modelling of the laws of procedure with the draft of a Bill on this subject will be submitted. The Compilation of the laws in force in this Province is completed and will be submitted with the second report of the Commission. Measures respecting public lands, the protection of Settlers, the profession of Surveyor, and others respecting the Department of Crown Lands will also be submitted. The Public Accounts will be laid before the House and Supplies will be asked for the next fiscal year, 4.

I. Speeches of the Lieutenant-Governor, &c. :—*continued.*(1882.) :—*continued.*

32. 27th May 1882.—His Honor congratulates the Legislature on the result of the labors of the Session, notices with pleasure that in the appropriations the most deserving class of our population has not been overlooked, and that Agriculture together with the industries to which it gives rise, has received a large proportion of the supplies voted. That the equilibrium between receipts and expenditure has been restored by securing a fixed revenue to the Province, through the sale of the Government Railway and the imposing of a slight tax which will be borne only by those classes which have derived the most benefit from public improvements. That the Provincial Debt has been reduced, and the floating Debt converted into a funded Debt; that a portion of our immense territory has been devoted to the building of new railways. The great works necessitated by the steps taken with respect to the completion of the Provincial Railway and its junction with the Intercolonial, will inaugurate a new era for Commerce. The other measures which you have adopted for the improvement of our legislative, administrative and political systems, will be favorably appreciated by the population of this Province, 364.

(1883)

33. 18th January 1883—His Honor is happy to convene the Legislature at the commencement of the new year, and expresses the hope that harmony and good feeling will not fail to attend the deliberations of the Assembly. He refers to the new laurels which the British Army has gained in Egypt and offers his congratulations to our Gracious Sovereign, through whose wisdom the prestige of England has been increased and a long peace secured to the Empire. Informs the House that the Consolidation of our Statutory laws is rapidly progressing. That during this Session the Government will confine itself to suggesting certain amendments to the Code of Procedure for the purpose of shortening the delays of procedure and simplifying appeals. A measure will be submitted upon the Jury System in criminal trials so as to raise the level of Jurors and lessen the expenditure entailed; and a measure for putting a stop to the destruction of our woods and forests, without decreasing the public revenue. Refers to the rapid development of our mining resources and to the phosphates of the Ottawa Valley, which territory is now being carefully examined, and has reason to hope that these new enterprises will give a great impetus to Agriculture and Colonization. The Government will acquaint the House with the new measures it has taken, the more easily to open up to the energy of the settler, the lands on the public domain. The Public Accounts and Estimates will be submitted. A measure defining the position and powers of the Provincial Auditor, in such a manner that the people, through its representatives may absolutely control the expenditure. A measure will also be submitted to facilitate the payment of moneys due the Province for the custody of prisoners and the insane, as well as of the sums due the Building and Jury Fund. During the Recess the settlement of the Accounts between the Provinces of Ontario and Quebec and the Dominion has been advanced. It would be desirable that the final adjustment of the Common School Fund should be effected at the same time as that of the other accounts. A Bill to authorize such an arrangement will be submitted, and also a Bill to grant pensions to certain officers connected with the ad-

ministration of justice and to certain others. A Commission has been appointed to make a general and searching investigation into the organization of all the Public Departments. Owing to the views expressed by the highest Court of Appeal in the British Empire in rendering judgment on the Canada Temperance Act of 1878 the Government is seriously considering the advisability of certain amendments to existing legislation. Bills will be submitted, regulating the issue of Insurance Policies,—respecting the Fisheries, respecting the Petition of Right. Increased subsidies will be granted in favor of Colonization and Primary Schools. He concludes by stating that our financial necessities have not alone been the occasion of these reforms, 13.

34. 30th March 1883.—His Honor congratulates the Legislature upon the long and important work of the Session and refers specially to the careful attention given to the effectual development of the many sources of riches which the Province of Quebec contains. He expresses his thanks for the provision made for the Public Service, 363.

(1884)

35. 28th March 1884.—His Honor states that the calling together of the Legislature at a later period than usual is due to the destruction by fire of the Parliament Buildings. Announces the arrival of the Marquis of Lansdowne, to occupy the position of Governor General of Canada, in succession to the Marquis of Lorne. That certain claims have been made against the Federal Government, in consideration of the enormous sacrifices made by the people of this Province for the construction of Railways, and is happy to state that the negotiations commenced in this behalf have made satisfactory progress. That the License Law will continue to be enforced. That the Report of the Royal Commission appointed to inquire into the efficiency of the Public Service will be submitted. Bills will be submitted respecting Agriculture, Civil Procedure, Mines, Lunatic Asylums subsidised by the Government and certain classes of interdicted persons, the Game and Fishery Laws. The Public Accounts and Estimates will be submitted, 14.

36. 10th June 1884.—His Honor congratulates the Legislature on the assiduity and diligence with which they have attended to the many weighty matters submitted to their consideration, and thanks the Assembly for the Supplies, 383.

(1885.)

37. 5th March, 1885.—His Honor (the Honorable L. R. Masson) states that the work of the Commission entrusted with the codification of the Statutes will be laid before the House. New measures will be submitted upon matters of Public interest, amongst others upon the manner of disposing of property reverting to the Province by escheat or forfeiture, upon Lunatic Asylums, for the improvement and development of Agriculture, and for the protection of the life and health of persons employed in manufactures. The Public Accounts and the Estimates will be submitted. Increased grants for works of Colonization will be asked, and the amounts voted will be expended with the strictest economy. He is happy to say that the decision on the question as to the constitutionality of the License Law passed by the Federal Parliament has

I. Speeches of the Lieutenant-Governor, &c. :—*continued.*(1885.) :—*continued.*

been given in favor of the Provinces. The result of the investigation made by the Commission appointed to inquire into the facts connected with the construction working and sale of the Q. M. O., & O. Railway, will be communicated to the Assembly when completed. Copies of a memorial addressed to the Federal Government praying that a subsidy of twelve thousand dollars per mile be given for the whole length of the Railway built by the Province known as the Q. M. O., & O. Railway, as well as of a document by which the re-adjustment of the Federal subsidy, based upon the population, is requested, will be laid before the House. The Reports of the Departments will be submitted, 5.

38. 9th May, 1885.—His Honor congratulates the Legislature on the assiduity, devotion and ability displayed in the performance of the important labors of the Session, and thanks the Assembly for the Supplies, 323.

(1886.)

39. 8th April, 1886.—His Honor refers to the plague of variola which committed great havoc in our Province and particularly in the city of Montreal, and states that owing to the opportune measures taken the course of the epidemic was restricted and finally controlled, that the existing legislation regarding public health requires amendment, especially as respects hygiene and preventive measures and a Bill will be submitted for that purpose. He also refers to the happy result of the efforts of the Provinces in maintaining their rights respecting the License laws. This decision puts an end to lamentable contentions and assures to the Province absolute control over one of its principal sources of revenue. This year again, the House will be asked to particularly favor colonization, and the sums voted for Agriculture and Colonization will be employed in such manner as to promote these very important interests. A Bill will be submitted for the purpose of favoring the more prompt construction of certain Railways. The Report of the commission appointed to make an investigation respecting the construction, working and sale of the Q. M. O., & O. Railway, will be laid before the House during this Session. It is the intention of the Government to abolish the Department of Railways, and in consequence to make some changes in the duties of certain public officers. The Public Accounts and the Estimates will be submitted. The Government has succeeded in restoring equilibrium in the finances of the Province. The examination of the draft of the Revised General Statutes of the Province of Quebec and of those of the former Province of Canada, in force in our Province and within the competence of this Legislature, will have to be continued during this Session. The Government has sent to England a considerable number of articles to be exhibited at the Colonial Exhibition shortly to be opened in London. The Government will be happy to favor the resuming of the studies made by the Committee appointed last Session to inquire into all matters connected with the Northern and North Eastern limits of the Province and the continuation of the work incurred by it.

I. Speeches of the Lieutenant-Governor, &c. :—*continued.*(1886.) :—*continued.*

40. *21st June, 1886.*—His Honor refers to the law which allows of the redemption, under conditions favorable to all, of that portion of the public domain which was hitherto affected to grants in aid of the construction of certain railways, and which the people of this Province will be sure to appreciate. The re-establishment of the equilibrium in the finances of the Province gives us reason to hope that, before long, it will be possible to give a still greater impetus to agriculture and industry, and further to assist education and charitable institutions. He thanks the Assembly for the Supplies and especially for the relatively large amounts voted to aid in developing Colonization by the construction of roads and bridges in territories newly opened for settlement. The people of the Province will before long be called upon to again choose representatives in the Legislative Assembly and I hope that the members whom the popular choice will return will be animated with sentiments of patriotism and be equal to the trust committed to them, 433.

(1887)

41. *16th March, 1887.*—His Honor the Administrator of the Government is happy to be called upon to open the Legislature in the name of Our Sovereign in the very year of Her Royal Jubilee. The people of this Province, without distinction of race or creed, rejoice, with their fellow subjects of the other parts of the British Empire, that Divine Providence has been please so to prolong Our Gracious Sovereign's days, that she may celebrate the fiftieth anniversary of Her coronation, and receive, upon the occasion of this glád event, the homage and congratulations of more than three hundred millions of grateful subjects. The ministerial crisis, which took place at the commencement of this session, and the exceptional circumstances which necessitated my calling on my present advisers, justify me in telling you that my Government will not be able to lay before you several important measures which are actually under consideration, and which must be brought to your notice later on. However, this will not prevent your being called on to examine some urgent measures which require your immediate attention. The financial question will rank first amongst these. The construction of an immense railway, the erection of the Legislative and Departmental Buildings, and of the Court House at Quebec, and the generous subsidies granted to railway companies, compelled former Governments, to raise considerable loans during the last twelve years. The loan of 1882, destined to complete these undertakings, to pay off the balance of these subsidies, and to liquidate the floating debt of the Province, has been completely expended and it has satisfied only a portion of these demands. There still remains unpaid a considerable amount of the floating debt, which has been increased by the putting into force, last year, of the law of 1886, authorizing the conversion of the subsidies in land, granted to certain railway companies into sums of money. Several of these companies applied for and obtained, before the first of February last, the benefit of this law. To enable you to understand thoroughly the nature and extent of these engagements, my Government has caused to be prepared by the heads of the departments, and will lay before you without delay, a full and detailed statement of all the claims, old and new, (over and above the consolidated debt) which are actually pending and which compose the present

I. Speeches of the Lieutenant-Governor, &c. :—*continued.*(1887.) :—*continued.*

floating debt, the uncontested portion of which must be paid within a brief delay, if the honor and credit of the Province are to be maintained. My Government has not had time to devise any plan for providing means to meet the emergency of the moment; the only alternative left is, to suggest a new loan, sufficient to pay off all lawful claims. My Government intends inviting the Government of the other Provinces and that of the Dominion, to examine a question of vital importance, namely, that of their financial and other relations with the Federal Government. The obscurity, in some respects, of the British North America Act 1867, and the interpretation given to some clauses of that Act, under certain circumstances, have given rise to well founded fears for the maintenance of our local institutions, and necessitate an understanding between the Provincial and Federal Governments, with a view to arrive at a state of things more satisfactory to all. The lapse of twenty years, since Confederation, has shown the insufficiency of the financial arrangements made at the outset. Upon entering into Confederation, the Province of Quebec, like the others, gave to the central power its portion of the customs and excise revenues, which have more than doubled since. It has received, in return, only a yearly fixed and settled grant. While the Provinces gave up, in this way, the surest and the most important of their revenues, they remained burdened with heavy expenses for the support of their local institutions, which expenses must, of necessity, increase with the growth of the population and the development of the country. Under these circumstances, and for these reasons, my Government, believes the time has come for the Provinces to consider the situation seriously, and to consult together upon the means to surmount the present difficulties, and prevent their recurrence. You will be made acquainted with the progress of the negotiations, which may take place on this subject, and called upon, if need be, to pass resolutions suitable to the circumstances. The speedy settlement of the new townships of the Province, is, emphatically, the national cause. My Government therefore intends to devote special care to this desirable object. With this view it will submit to you a measure for the establishment of a special ministry of agriculture and colonization, and will endeavour to favor still more *bona fide* settlers, while at the same time protecting the revenues of the Crown lands. My Government sees with anxiety the painful efforts of the settlers, and will strive to contribute, as far as possible, to better their position. The serious difficulties which have arisen, respecting insane asylums, and the occasion of putting into force the statute of 1885, relating to these asylums, render necessary the appointment of a Royal Commission, empowered to discover, by consulting the most competent authorities, the real causes of these difficulties and the proper means to put an end to them, and to guide my Government in the preparation of any measure which may be deemed expedient. The work of the Commission appointed for the consolidation of the Statutes affecting our Province is terminated, and a measure will be submitted to you to give it legal sanction, and to enable my Government to deliver these statutes to the public during the course of next summer. I have not as yet received the report of the Commissioner appointed in 1884 to make an investigation into the management of the Quebec, Montreal, Ottawa and Occidental Railway, but my Government is taking steps with a view to obtaining this report and submitting it to you before the close of the session. The share which the Department of Public Instruction of our

I. Speeches of the Lieutenant-Governor, &c. :—*continued.*(1887.) :—*continued.*

Province took in the Colonial Exhibition of London, last year, has been of a nature to make our school system known to the whole world, and to do honor to the Province. Recent and regrettable occurrences have shown that our system of keeping public accounts was imperfect and required some alterations. These it is the intention of my Government to make as soon as possible. The Public Accounts will be laid before you, and subsidies will be asked from you for the next fiscal year. The Public Service also requires that you be called on to vote quite a considerable supplementary amount, sufficient to meet the exigencies of the present time. My Government intends to practice the strictest economy, to effect certain urgent reforms in the administration of justice, with a view to secure speed and economy in litigation, and to sanction, in all the branches of the Public Service, only such expenditure as may be indispensable for the requirements of the efficient administration of the affairs of this Province. The disproportion, existing between the population of certain electoral divisions of this Province, will necessitate, before long, the adoption of a measure calculated to ensure a representation, which will be fairer for certain localities, and more direct for certain higher interests, and you are invited to give this important subject your attention, 12.

- 42.** *18th May, 1887.*—His Honor thanks the Legislature for their assiduity and congratulates them on the harmony which reigned throughout their debates. Amongst the laws which have been passed there is one which should greatly further the interests of Agriculture and Colonization and the loan which you have consented to will enable the Government to settle the floating debt, and pay the railway subsidies. He thanks the Assembly for the Supplies, which will be expended according to law and with strict economy. The Provincial Exhibition will be held at Quebec this year and he invites all to take part therein.
