

# NFCUS REPORTS TONIGHT

## Harrowing, Spurway to give Details of Conference Tonight

The Brunswickan this week was unable to obtain a statement from our two delegates to the N.F.C.U.S. Conference, since Bob Spurway's "notes were incomplete", and Colin Harrowing is not divulging any information until tonight. Therefore both reports will be heard at the S.R.C. meeting tonight at 7.

Meanwhile, opinions are being expressed by other universities as this week's editions appear. Some of Laval's statements can be found below, and a McGill editorial appears on page 2 of this issue.

### Laval Opinions of Russian-Canadian Exchange

We are strongly in favour of all international exchange of students, because these exchanges are a necessity of our age. For such an exchange to be preferable, it is necessary—

1) that it be made on an honest basis, i.e. the agent of coordination must be a free organism, stripped of all political interest.

2) that the two countries where the visits are made, give to delegates all freedom of action.

But these two conditions which seem essential to us will not be realized in the case of the Canadian-Russian exchange:

1) The agent of coordination is recognized as a communist organization, and so has the idea of propaganda; the church, our government (O.N.U.) have warned us against these organizations. Experience commands prudence.

Furthermore this exchange compromises us towards our government, risks discrediting us: "Red Flag on N.F.C.U.S." We need the confidence of the government to obtain what we want.

"Le Carabin" Laval Univ.,  
Oct. 16, 1952.  
(translated)

### Hams to have Demonstration

The next meeting of the Radio Club will be held on Tuesday, October 28th at 7:30 p.m. in the Electrical Building.

Members will be given a demonstration of the principles and methods of use of a cathode ray oscilloscope. Following this demonstration films will be shown dealing with "Sound recording and reproduction" and "the diode".

All those interested in any phase of electronic engineering are welcome at this meeting. Freshmen and sophomore engineers are especially urged to attend these meetings which will prove of value in future courses taken in electrical engineering.

### SING!

We all like to do it and now we have the chance. There has always been a need on the campus for singing so now we have the U.N.B. Male Chorus. Under the able direction of a fellow student, Lew Trecartin, with piano man Bob Scott, Thursday evening at seven in Mem. Hall is one of the bright hours of the week. We still need more men so the call goes out to Foresters, Engineers, Scientists and Artists men to come to the aid of the party in Mem. Hall, Thursday at seven as we all make like "Gentlemen Songsters".

## S.R.C. Deals With Trio of Items

Last week's S.R.C. meeting saw three major items dealt with by the council. The first was of course the N.F.C.U.S. question, and the council's action has been dealt with fully in the earlier Brunswickan edition this week.

The Bowling Alley episode took a much greater time, and certainly did not find the reps in such accord as they were in the first matter. The same arguments that have been forthcoming for the last three weeks were again rehashed, and the result was the adoption of most of the recommendations contained in the report of the special committee which appears in this issue. It was generally felt that this was making the best of a bad situation, and final reports of the settlement are expected tonight. The manner in which the money is to be collected from the Freshmen and Sophomores was not decided, however, and the details of the entire financing are all that remains of the problem. The council expressed its unanimous approval of the committee report and the job done by the members.

The third item of special interest was of course the final fall budget, and it was passed in, what we believe to be, record time. Very few cuts in the original preliminary budget were made.

S.R.C. Vice-President Ian Whitcomb presided over the meeting in the absence of President Bob Spurway, who was at Laval.

Vic Stewart presented the approximate figures available on the Blood Clinic, and it was estimated that a discouraging 36% of the campus participated.

### Same Time, Same Place

The same old Sadie Hawkins' Dance was held in the same old Mem Hall and the same old boys and girls were there. This year was different, though! A small profit was made.

What's more, the evening was enlivened by the appearance of Wilma Sansom who was voted Miss Sacksy of 1832 and awarded a Pogo book to broaden her readings in English. Gruesome Bill Barwick came as himself and consequently was given a "corn-cob" which he promptly gave to his escort, Lizzie Adams.

The usual cokes and doughnuts were served, and as usual Shmoos (or is that Shmoes), Daisy Maes and L'il Abners were displayed about the hall by Helen (we'll get him a date if it kills us) Howie and her crew.

Everyone stomped, drank (cider) and generally whooped it up in real Skunk Hollow style.

### ART CENTRE NOTICE

This Sunday, post-grad mathematician Harold Lightstone is presenting the program. He plans to include:

Prokofieff .....Symphony No. 5  
Saint Saens .....Introduction and Rondo Capriccioso

Beethoven .....Piano Concerto No. 2

This program begins at 8:30, and anyone interested is invited to attend.

## FINAL BUDGET AS PASSED LAST WEEK

## Donor Results Poor U.I.S.

The annual fall blood donor clinic closed its doors to the university campus last Wednesday. The number of donors was far below the turnout anticipated both by the committee and by the Red Cross. The Blood Bank in Saint John is relieved of 350 pints of blood a week, and as you can see by the figures below, our contribution is a far cry from the necessary number of pints used in the province of New Brunswick.

It is hoped next spring, when the Clinic will probably return that the students who failed to turn out this time for some reason or another will do their bit and that all those who did give will donate again.

The figures below are approximate only, and official figures will be given out as soon as the faculty receives them, along with faculty percentages.

No. of grads eligible to give 39  
No. of undergrads 521

Total number of donors at Clinic 223

Percentage of student body 38.6%

## U.I.S. Buys Stock

After a long, drawn-out, pick-it-up and throw-it-down meeting the University Investment Syndicate invested in four mining companies.

With President Bill Reddin in the chair and a bare quorum present the meeting got under way. After preliminary business a report was made by Saul Underwood and Art Hobbs on Penny Stocks. Bill Reddin added to that from his own vast repertoire of information.

Upwards of 20 companies were put before the meeting for consideration. This number was soon peeled down to 8. From there on the atmosphere became noticeably warmer as the would-be "financiers" attempted to pick the best stocks.

Finally stocks were bought in Westville Mines Ltd., Vanando Mines (1948) Ltd., Head of Lakes Iron Ltd., and Bobs Lake Gold Mines Ltd. In every case most of the board lot was purchased by the Syndicate with members making up the other shares to complete it.

A movement to sell Brazilian Trac-tion was squelched temporarily.

Four new members climbed aboard the ticker tape wagon at the meeting. There are still several vacancies. It is hoped that more of the fairer sex may be inclined to join and so boost the co-ed population of the club. Any-one wishing to join should contact any member immediately.

## SPECIAL COMMITTEE REPORT

Committee Members:  
Robert Hatcher, Chairman  
Prof. W. Smith, faculty advisor  
Robert Spurway, S.R.C. Pres.  
Bill McNamara  
Laurie Coles

The following events are those which the committee has ascertained occurred the evening of the Street Dance:—

- 1) Freshmen and others entered the lobby of the Gaiety theatre.
- 2) Freshmen pounded on the walls of the Capitol theatre.
- 3) Freshmen entered the Air Force Club.
- 4) Numerous private cars were rocked by Freshmen and others, and one complaint was registered at the President's office.
- 5) The police patrol wagon was dabbled with paint.
- 6) The Brunswick Bowling Alleys were entered by Freshmen and damage was done to the upstairs alleys.

The only complaint which this committee has investigated thoroughly is that from the Brunswick Bowling Alleys, because this is the only one which calls for a decision as to monetary damages.

### Brunswick Alley Damage

The committee viewed the damage to the bowling alleys and the damage consisted of scratches caused by street shoes, black marks caused by rubber heels, and gouges up to 1/4" in depth by balls being either dropped or thrown on the alleys. Four alleys were damaged in this way. The alleys had been resurfaced during the summer in preparation for a Maritime Bowling Meet to be held in November. The alleys are now being used.

### Conclusions reached by the Committee

1) In view of; (A) the above information, (B) talks with the owner of the bowling alley, (C) telephone conversations with Engineering professor Robert McLaughlin and Pete Kelly, Athletic director, the committee has come to the conclusion that \$400.00 is a reasonable figure for damages to the alleys.

2) The committee has come to the conclusion that the Freshmen and Sophomores are jointly responsible; the Freshmen because they were seen actually on the alleys and the Sophomores because of their lack of definite planning and control.

3) The committee has come to the conclusion that there does not exist in New Brunswick a man who could give a professional estimate of the cost to repair the alleys and that such a man must necessarily come from Montreal.

### Recommendations

1) Four hundred dollars should be offered in settlement for damages.

2) Each Freshman and Sophomore student should be assessed \$1.00

3) The S.R.C. should pay the balance, because the Sophomores were acting for the student body as a whole in initiating and control.

4) Freshman Week activities in the future should be confined to the campus.

5) A committee should be set up to study the Freshman initiation activities in other Canadian Universities in order to make further recommendations as to Freshman Week activities on the U.N.B. campus.

A.A.A. Independence?

The Constitution Committee of the S.R.C. has been working on a recommendation which is to be presented to the council regarding budgeting.

This system would, in effect, be a boon to the S.R.C. in its attempt to eliminate the lengthy budget meetings, and provide more time for the council to concentrate on other matters.

But before the council jumps at such a golden opportunity to get out of budget meetings before midnight, and abolish the haggling that naturally goes with budgeting, it should give serious consideration to the disadvantages (and, as any system, this one has them).

Since the S.R.C. is ultimately responsible to the students for all expenditures, and since it is their job to see how the levy is spent, it should make stipulations so that the entire sports agenda is not taken out of its hands.

The S.R.C. must also make some arrangements as to the percentages of the sports money to be spent on intramural and varsity sports.

No sport should be allowed to be entirely deleted from the budget without the approval of the Council.

If these matters are considered, as they are bound to be, by the council and put into effect, the system, which would still give the S.R.C. a voice in sports, should prove advantageous to both the sports world at U.N.B. and the efficiency for which this S.R.C. has been striving.

A Paper Unity

Quebec, Oct. 16.—The question of the Soviet Tour has been settled. And in settling it a severe threat to the continuation of an effective existence of Canada's national student union has come into being.

The decision on the Soviet tour has come not on any question on the tour itself but because a minority group threatened to secede if the tour were to be approved.

The national conference of N.F.C.U.S., in conceding the question to a vociferous and insistent minority, has ceased existence as a representative body dedicated to the principles of democratic procedure.

The argument will be advanced that the question is one of choosing between a Soviet visit and 'national student unity.' If this were really the issue there would be no question, for we are sure the Canadian student body if asked to decide on this basis would decide for unity.

The situation at the moment is that the 16th national conference of N.F.C.U.S. has decided to abrogate the democratic process and has ceased to maintain its representative position by not expressing the true opinion of the Canadian students.

Does the McGill student body wish to continue active participation in such an organization? Does it wish to have the money it pays to the national organization used in ways not decided upon by the will of the majority?

We feel that tonight's developments are tragic. The highest ideal of a national student community as originally envisaged by the Canadian student has been brought to nothing.

The decision is a grave one; consider it well.

—McGill Daily

Letters to the Editor

The Editor, The Brunswickan Dear Madam:

I wonder if I may use your columns for the purpose of directing the attention of the students to the X-ray examinations which will be conducted in the gymnasium on Friday, October 24.

I think that this is an extremely important matter. We require all students to take this examination and the schedule of hours has been arranged.

Here's an opportunity for everyone to have a physical examination at little inconvenience and no cost to himself. It is the sort of thing which most of us are inclined to neglect.

In any case, it is a regulation of the University that students attend the examination. We shall keep a check on the names, and the Administration may at its discretion require a student to explain his absence and to report for an examination later on.

Yours truly A. W. TRUEMAN, President.

### Ode to an S.R.C. Rep

Praise upon you, ye spenders of night at the round table. Maybe the table is oblong and you are yards from it, still long nights are spent near it if you are doing your duty, and this I doubt not.

Repping is a gruelling job. Most of you keep in training by holding on to a part time job which brings in enough money each week to allow you to travel to conferences. After your part time work is finished and all your homework not even started you embark on the important and strenuous task of repping.

Every rep should be a student of Sherlock Holmes; he'll have to do more deducing to unravel motions than Sherlock ever heard of.

Always look at students who attend meetings as conspirators. Eye them with suspicion. If they do come along with a brainy idea, perhaps one about student typewriters, try and kid them that the motion was defeated last year. (that always leaves them looking sheepish) at each other for a few moments). This gives you time to think.

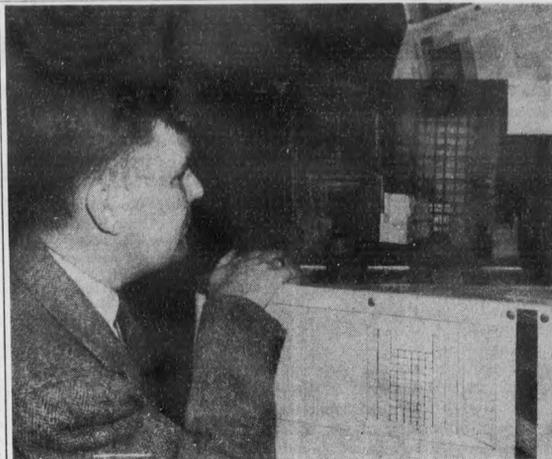

A wise treasurer always plays for time. He remembers that he is the one who has to balance the books. Make all budget presenters realize that you are not the one to be diddled. Remember most of them have had years of practice at diddling, that is why they are chosen to present the budget.

The President has got to be a Father Confessor. He must be a good listener and a good teller. He must be liked and feared. Above all he must be right . . . always right. He should sing this ditty before he enters every meeting:

I must learn to smile, always  
Go to see their plays, always  
Go to see their shows, suffer heaven knows,  
Listen to their woes, always, always,  
I'll be ever fair, always,  
Though the strain is there, always,  
Not for just an hour, not for just a day,  
Not for just a year, but always!

A word to the secretary. You are expected to know everything. This isn't as difficult as it sounds for whenever you are stuck all you need to do is ask the smallest freshman. With the organized grape vine in this university, what the freshman doesn't know isn't worth knowing. When talking to the students always use the term "we". This makes them feel that they are part of the S.R.C., but you know, of course, that he has nothing whatever to do with it.

But seriously, we salute you all, for you are the rock on which we stand. You rallied at our bidding. Hooray for you! For all my cracks, I'm really only kidding.

**DRAMA PLAYS' PREPARATION:** Just how much preparation goes into the production of a play—even a one-act? Well, Professor Alvin J. Shaw, faculty advisor-director of the Drama Society, is observing the model for the stage setting in last year's major U.N.B. production, "An Inspector Calls".

**ORGANIZE SUPPORT:** Bill Barwick (left), U.N.B. Drama Society president, and Bob Whalen (right) look at a display organized to draw support from the Freshman class. Now hitting its stride, the society is staging three one-act productions on October 30 and 31 at Teachers' College. They comprise George Bernard Shaw's "Press Cuttings", Noel Coward's "Fumed Oak", and St. John Tayleur's "Reunion".

### One-Acts Casts Named

The names of the U.N.B. students participating in the fall production of three one-act plays for the U. N. B. Drama Society were released today by directors of the plays.

Four students comprise the cast of *Fumed Oak*, a comedy written by Noel Coward and being directed by a third year Arts student, T. Robert Sansom. They are: Miss Geraldine Grant, Miss Jane Benner, Miss Beth Forbes and Ted Cleland.

The cast of *Reunion*, a play by St. John Tayleur being directed by Albert Tunis, a veteran of last year's one-acts, consists of the following: Paul McGilivray, Edmund Burke, Michael Snow,

Warwick Gilbert and David Fair. Taking part in the George Bernard Shaw-authored one-act, *Press Cuttings*, are: Neil Marsh Oakley, William Barwick, Miss Claire Douglas, Miss Judith Waterson and M. William Good. The play is being directed by Prof. Alvin J. Shaw.

The three one-acts are slated to be staged on Thursday and Friday, October 30 and 31, at Teachers' College.

At the close of the October 31 evening performance, Dr. F. J. Toole, dean of graduate studies, will present an award to the best actor or actress.

Adjudicators will be Dr. Toole, Dr. A.G. Bailey, Dr. W. A. G. McAndrew, Prof. R. E. D. Cattie and Prof. D. R. Galloway.

# U.N.B. EDGES TROJANS 6-0

## Red Bombers Score Touchdown on Last Play

The Red Bombers, the University of New Brunswick's entry in the N.B.C. R.F.U., took their second win on Saturday by downing the Moncton Trojans 6-0 at Moncton. The Varsity team with two wins and one defeat remain in a first place tie with St. Thomas who won their second straight game on Saturday by downing Moncton Tri-Service 23-18 at Chatham.

The game, played before a fair crowd of Moncton Football enthusiasts, has been termed by Moncton sportsmen as the greatest game ever to be played there. The fast, hard-fought contest was well played by both teams, and those fans who were on hand were given a show of football skill.

The Red Bombers were reduced to one quarterback when a pre-game injury to Johnny Oatway forced Johnny Naysmith to play the entire game, leading the team in both offensive and defensive strategy. It is believed that Guy Doiron, Varsity half back, suffered a broken hand in the game and may possibly be lost for the remainder of the season. Also, during the game's fourth quarter, Trojan end, Jack McMullan, was taken to the Moncton hospital with a shoulder injury which is thought to be a broken collar bone. The game also produced various minor injuries, but at the time of writing, no other serious injuries had been reported.

All the scoring took place in the last quarter with U.N.B. gaining a rouge and a touchdown. The touchdown scored after the gun signalling the game's completion, was on a touchdown pass from Naysmith to Kerr in the end zone. The convert was not completed. U.N.B. had threatened a number of times earlier in the half and finally came through on the last play of the game. The Trojans, rated as 100% improved over last year, a number of times showed that they rated the improvement.

The game opened with U.N.B. kicking to Trojans who immediately gained a first down, but were stopped before gaining a second. U.N.B. gained a first down on a spectacular 45 yard run by Morrison. The quarter continued with most of the play being confined to the middle of the field. Two fine plays were made by Kerr who, on two successive Trojan passes, knocked the first one down and intercepted the second. Near the end of the first quarter Naysmith threw a touchdown pass to Zaremsky but it was dropped and the quarter ended with no more serious scoring threats.

U.N.B. 0 Trojans 0

The second quarter continued much on the same line as the first with both teams unable to get a touchdown combination of plays. Near the end of the quarter, U.N.B. started to pick up steam and passes to Doiron and Collis, and runs by Pollock and Schure gained three first downs. A long U.N.B. kick went into the Trojans end zone, but they were able to get it to their one-yard line before being brought down, and still there was no scoring.

U.N.B. 0 Trojans 0

The third quarter opened with U.N.B. kicking to Trojans and for the better part of the quarter, play was in the Trojan end, but still U.N.B. was unable to combine for a touchdown. A long touchdown pass to Doiron was dropped as he was hurried while trying to receive the ball. The Red Bombers had possession on the Trojans 30 yard line on the last play of the quarter and a field goal was attempted. Schure's kick was a good one, but the wind carried the ball just wide of the upright.

U.N.B. 0 Trojans 0

The fourth quarter found both teams successively making several yards each on a number of plays before being stopped. This play continued until the quarter was half over, when a Trojan ball carrier was tackled on the goal line. An argument ensued and the decision saw no point given. With about five minutes remaining, U.N.B. again attempted a field goal, this time from the 25 yard line. Although the ball

(Continued on Page 6)

## Arts & Science Whip Faculty in Soccer

Results, Wednesday, October 15th.:

Engineers 2, Residence 1.  
Arts & Science 2, Faculty 0.  
Sr. Foresters 1, Foresters 234's 1.

Last Wednesday night at College Field, the powerful Arts & Science soccer team handed the Faculty their first defeat of the season as they downed the Profs 2-0. The defending champions scored both their goals in the second half with Jack Elliott and Burt Simpson doing the kicking. The win gave Arts & Science undisputed possession of first place and shoved the losers down into second spot. One more win would assure the Arts & Science of at least a tie for first place.

The Engineers moved into third place with a 2-1 win over the Residence. The winners scored twice late in the second half after Residence had led since the first minute of the game. Bill Ayer scored for Residence on a long, bouncing shot while Earl Bryenton pooted one for the Engineers on a corner kick. Vic Randall sunk the winning goal with a long high kick that lodged in the top of the net.

In the other game, the Senior Foresters and their proteges, the Foresters 234's, remained tied for bottom spot as they fought to a 2-2 tie. The Seniors overcame a 2-0 first half lead built up by the 234's.

Standings, October 15th.:

Arts & Science	3	0	0	5	0	6
Faculty	2	0	1	4	3	4
Engineers	2	0	1	4	3	4
Residence	1	0	2	3	4	2
Foresters 234	0	1	2	1	4	1
Sr. Foresters	0	1	2	1	4	1

## R.C.A.F. Drubs U.N.B.

Fredericton, Oct. 18.—The U.N.B. Varsity team was the victim of the R.C.A.F. Summerside team on Saturday afternoon, October 18. This team was one of the finest ever to be seen in Fredericton. It consisted of student officers who have come to Canada under the N.A.T.O. training plan. Their playing coach Fl. Lt. Green is an officer in exchange from the R.A.F. England, Scotland, France and Belgium were represented on the team. These chaps had played in major amateur leagues in their own countries.

It was a closely checked game for the first ten minutes, but at the 12 minute mark, Green, the outside left kicked to score on a pass from Vitte. Summerside scored twice after this on goals by Walton and Vitte before U.N.B. scored. Burnell scored the first U.N.B. tally at the 25 minute mark and was followed by Coster who scored two minutes later. This made the score 3-2. Vitte scored again for Summerside before the first half ended.

The second half was a completely different story however. Summerside controlled the play most of the time. They scored 8 goals while U.N.B. was scoreless. U.N.B. put up a good fight during the game but the speed and skill of the Summerside boys were too much for them. The high scorers of the game were Vitte, 7; Green, 3; and Walton, 2.

U.N.B. plays Mt. Allison next Saturday in Sackville in a total point, 2 game home and home series. The winner of this series plays the Nova Scotia winner for the N.I.A.U. Championship.

## Foresters-Engineers Soccer Game

By Woody Woodchopper

At College Field on Sunday afternoon the Hard-to-kill Forestry team defeated the Push-over Engineer soccer team by the score of 3-1.

Engineers, handicapped by having a smaller faculty than the Foresters, had to beg some Foresters to play on their side, thus it was proposed by the Select Few that the teams playing be termed the Foresters-Engineers team and the Foresters team.

Dean Gibson officiated at the kick-off with a tremendous power-kick which encouraged the Hard-to-kills to victory.

In the first half, Push-forward Murray Neilson brought the ball from one end of the field to the wide open goal mouth of the Push-overs and gave it to Booter Millar to score.

It was worth noting the leg work of Sid Hyslop throughout the entire scramble. It was too much for the Push-overs who in order to try and score by dirty plays succeeded in kicking Sid's legs.

The score at half time was 1-0 for the Hard-to-Kills.

In the second half, an anonymous engineer likely a forester scored a goal for the Push-overs which brought a silent cheer from the few engineer supporters. Murray Neilson scored another goal and was assisted by Ross Shepherd, the forester with the educated toe, in scoring the last point of the one-sided game.

After a poor showing by the goalkeeper of the Push-overs, Mike Hassell was removed from goal.

The final score which shows that there is only one faculty on the campus was 3-1 for the Foresters.

By I. Slide-Rule

College field on Sunday afternoon was the venue for many Engineers and their lesser brethren, the foresters. The occasion of course was the annual bone-breaking, head-cracking and toe-stubbing game of soccer between members of these two faculties.

The game was, as most people expected, rather one-sided with the Engineers having a big edge over the foresters. Led by their dashing leader Earl Bryenton, the Engineers spread-eagled the forester's defence time and again only to be foiled by bad luck. Despite the influence of certain insurgent elements in the Engineer's lineup, namely Spurway, MacLaurin and Boyle, the Engineers were superior throughout the first half. However the foresters happened to get the ball into the Engineers' net on one occasion in this half when Mal Miller accidentally kicked the ball towards the goal.

Enraged by this injustice, the Engineers stormed the tree-choppers' net almost continuously. During one of these melees the notorious Bull of the Woods, Sid Hyslop, tried to kick the ball and was immediately tackled by a stout-hearted Engineer. As a result the Bull was carried off never to reappear again. On this sombre note the first half ended.

The second half started after the end of the first half and play continued as before. The foresters in their infantile ways took to dribbling with the ball and again the Engineers were scored upon when Murray Neilson, obviously 50 yards off-side pushed the ball into the net when the referee was not looking. Now, however, came retribution. After a sparkling demonstration of accurate passing, the ball was slipped to Ron Costar who let fly with a rocket-like drive which almost decapitated the helpless Lormier. This was the first goal of the day for the Engineers.

This goal came as encouragement to the Engineers who pressed again only to be scored on by Murray Neilson, again in suspicious circumstances.

Did this discourage our heroes? No! And back to the attack they swarmed. But the almost unbelievably lucky Gibson-men escaped time and time again with the aid of referee Scott who was obviously doing all he could to aid them. In fact it was rumoured that Curwood Johnson promised to write all Scott's essays in exchange for a few free kicks against the Engineers.

The game ended with the Engineers covered with mud and glory and the foresters covered with mud. As every single spectator realized (except some who may have been biased) the final score was not a true reflection of the game and foresters withdrew to their shacks in shame.

## Mt. A. takes M.I.A.U. Tennis Tournament

Mount Allison University of Sackville, N.B., last Friday won the annual M.I.A.U. Tennis championship by gathering 10 points in the tournament held on the courts at St. Mary's University in Halifax. The defending champions, St. Mary's, had eight points for second place, and St. Francis Xavier University of Antigonish, N.S., was third with five.

Jim Florian of Mount Allison and Dave Piers share the Men's Singles crown. Piers won the first set of the finals 6-3, and Florian was leading 5-4 in the second when it was called on account of darkness and declared a draw. Piers represented the Nova Scotia Agricultural School of Truro.

The Women's Singles was also declared a draw. Mora Ross and Wave Mutcham, both of Mt. A., share the crown, and the winner will be decided at Sackville at a later date.

In the Men's Doubles, the St. F.X. team of C. Burette and P. Moray was victorious. The defeated Paul Napier and Bill Wilson of St. Mary's, 6-4, 6-2.

St. Mary's won the Women's Doubles as their team of S. Trotter and C. Courtney defeated Mount Allison's B. Trainor and S. Minneson straight sets, 9-7, 9-7.

King's College, Halifax, and the University of New Brunswick were also represented.

One point was awarded for each round won. Following are the standings:

Mount Allison University	10
St. Mary's University	8
St. Francis Xavier University	5
King's College	3
Nova Scotia Agricultural School	3
University of New Brunswick	2

U.N.B. Varsity

## Attention Frosh!

You are reminded that intramural leagues in BASKETBALL, HOCKEY and BOWLING will be organized in the immediate future.

Due to not having your class representatives chosen at this time, it is suggested that students interested, select their captains informally and place their entries immediately at the Physical Education Office.

Organization meetings will be held in the Trophy Room of the Lady Beaverbrook Gymnasium at the following times:

BOWLING—Monday, October 27, at 7:00 p.m.  
BASKETBALL—Thursday, October 30, at 7:00 p.m.

HOCKEY—Thursday, October 30, at 8:30 p.m.

All Freshmen interested in participating in intramural athletics during the winter season are asked to attend a meeting in the Lady Beaverbrook Gym on Friday October 24 at 7:00 p.m.

### Introducing . . The Red Bombers

The coach is **Bill Callan**. Bill is a Senior Forester whose home is in Valois, P.Q. He learned his football while playing with the H.M.C.S. Stadacona under the well known line star, Tiny Herman, of Ottawa Roughrider fame. Callan has played two years with the Red Bombers, and was at the helm last season when they won the Maritime Intercollegiate Championship and the New Brunswick Canadian Rugby Football Union title.

At quarter back are the two Johnny's, Naysmith and Oatway. **Naysmith** hails from Toronto and stands five-feet-nine. He weighs 160. His experience consists of three years with Oakwood Collegiate, Toronto, and three years with the Red Bombers. He is rated as one of the coolest field generals in this year's B.C.R.F.U.

**John Oatway**, of Smith Falls, Ontario, is five-feet-nine and weighs 155 lbs. John learned his Football while playing with Smith Falls Collegiate. A broken foot prevented him from performing with U.N.B. last season.

**Ross Pollock**, also from the Queen City, weighs 155 and stands five-feet-eight. A second year Forester, Ross played high school ball in Toronto and was a member of last year's Varsity. Pollock's speciality is broken field running from his position at halfback.

**Willie Schure**, one of our bigger backs, is five-feet-eleven and weighs 180. His wide experience includes three years at Neutna Collegiate, Saskatoon. A native of Durban, Manitoba, he is in his fourth year with the Red Bombers. Willie is one of the all-round players in this year's backfield, but is especially noted for his line plunging.

**Guy Doiron**, one of the Maritimers on the squad. Guy has 160 pounds spread over his five-feet eleven frame. A Fredericton boy, Doiron played Canadian Football two seasons ago at St. Joseph's University and was a member of last year's English Rugby squad at U.N.B. In his return to the Canadian game, Guy's performance has been excellent, both as a blocking back and a running back.

**Wally Zaremsky** hails from Port Arthur, Ontario. Five-feet-nine, he weighs 155 pounds. Wally gained his experience at Lakehead Tech, Port Arthur, and at St. John's College, Winnipeg. Zaremsky's job is that of a blocking halfback.

**Ron "Spider" Clark**, third year Artsman, calls Kenogami, P.Q., his home. His six-feet-two frame carries 185 pounds. He played one season with Bishop's College, near Sherbrooke, and has had two years' experience with U.N.B. Clark may be seen on Saturday afternoons at his position of running back.

**Andy Gibson**, a Sophomore Forester, also hails from Toronto the Good. One hundred and seventy-five pounds are spread over his six-feet-one-inch frame. Andy has played two seasons with Harbord Collegiate in Toronto, and one year in the intramural league at the University of Toronto. Gibson also is a running back.

**John Kerr**, of Baie Comeau, P.Q., stands five-feet-nine and weighs 160 pounds. He has had two years' experience with Stanstead College, Eastern Townships. John is a Freshman Civil Engineer and a fine blocking back.

**Don Fowler**, of Naugatuck, Connecticut, stands six-feet and weighs 165 pounds. His experience consists of two years with Naugatuck High School and two years with the Red Bombers. Don played centre for the past two years but has switched to end this season.

**Ian MacLaren**, another end, calls his home Buckingham, P.Q. The lightest man on the team, he weighs 140 pounds and stands five-feet-eight. He played two years at Ashbury College. Ian is a Freshman Forester and plays the end position.

**Pete Collis**, is a third year Civil Engineer from Drummondville, P.Q. Six-feet-one, he weighs 185 pounds. Pete has had two years' experience with Quebec High School. This is Pete's first year with the Red Bombers and he plays end.

**Daryl Henry**, of Fredericton, stands six-feet and weighs 160 pounds. Daryl has played some football in Ontario with Fisher Park High School. Henry is a Freshman Mechanical Engineer and another U.N.B. end.

**Bill Edwards**, of Fredericton, carries 155 pounds on his six-feet-one frame. Bill has had no previous experience but is doing a creditable job at the end position this season. He is a fourth year Science student.

**Bob Neill**, also of Fredericton, stands five-feet-nine and weighs 160. Bob played with the Red Bombers last year. A fourth year Civil Engineer, he plays middle.

**Don Bell**, a Senior Forester, carries 190 pounds over his six-feet-two frame. Don has played high school ball in his home town of Montreal and has two years with the Red Bombers. Don is also a middle, and a good one at that.

**Bob MacLean**, from Saint John, stands six-feet-two and weighs 175. His only experience is a bit of English Rugby in Campbellton, N.B. A Freshman Artsman, Bob plays middle with the Bombers.

**Keith Waddell**, of Montreal, carries 165 pounds on his five-feet-eight frame. Keith has played with Montreal High and has two years' experience with the Bombers. Waddell also is a middle, and is in his fourth year of Forestry.

**George Elliott**, a Maritimer from Dartmouth, N.S., weighs 185 pounds and stands six-feet-one. A senior Forester, George has had one year's experience with U.N.B. Elliott too plays middle.

**Dennis Hammond**, another Maritimer, this one from Moncton, stands six feet and weighs 165 pounds. Dennis played junior football in Moncton two years ago. Hammond, another middle, is a third year Science student.

**Don Webster**, from Saint John, weighs 165 and stands five-feet nine. Don played three years of English Rugby with Saint John High School. Webster, a third year Engineer, is playing his first year of Canadian Football at the inside position.

**Vic Shearsmith**, of Lachute, P.Q., is six feet and weighs 200. This is Vic's third season with U.N.B. A Senior Forester, he plays the inside position.

**Pete Potter**, of Montreal, stands six feet and weighs 185 pounds. Pete played two years at Cornwall, Ontario, High School, and one year at Valleyfield High. This is Potter's third year with the Red Bombers. Another Senior Forester, he also is an inside.

**Mike Palmer**, of Montreal, stands six feet and weighs 180. Mike played four years at Westmount High School and has had one year's (Continued on page 6)

### BROWN BOMBERS WIN INTRAMURAL SOFTBALL CROWN

Last weekend at the Queen Square diamond, the Brown Bombers won their third straight Intramural Softball championship by downing the Upsets in their best-in-three final series. Bombers advanced to the finals when the Freshmen failed to field a team on Saturday for their sudden death semi-final. Upsets won the right to meet the Bombers by edging the Residence 14-13 in a hard fought game.

In the semi-final, the Upsets scored two runs in the bottom of the eighth inning for their win over the Residence. Don Hallett was the winning pitcher, and Jim King the loser.

The Bombers got off to a flying start in the opening game when pitcher Tom Gorman won his own game with a bases empty home run in the top of the ninth inning. The final score was 10-9. Losing pitcher was Don Brannen.

In the second game, the Upsets roared back to shell Gorman from the mound and take a 14-5 victory and even the series. Don Hallett clouted a homer for the winners. The winning pitcher was Brannen.

In the final game, the Bombers' power came to life as they pounded Brannen and Hallett, who relieved in the seventh, for a convincing 13-1 victory. Art Abbott, a surprise starter went the distance for the Bombers. The losing pitcher was Brannen.

**Semi-finals**  
Brown Bombers defeat Freshmen by default.  
Residence 0 0 1 5 0 5 1 1 0 — 13  
Upsets 5 0 1 4 2 0 0 2 x — 14  
King and Ronan; Brannen, Hallett (6) and Arsenaull.

**Finals**  
**First game**  
Brown Bombers 0 0 0 9 0 0 0 0 1 — 10  
Upsets 2 0 0 3 0 0 4 0 0 — 9  
Gorman and Kimball; Brannen and Arsenaull.

**Second Game**  
Upsets 3 0 0 0 0 4 3 4 0 — 14  
Brown Bombers 0 1 0 0 0 4 0 0 0 — 5  
Brannen and Arsenaull; Gorman and Kimball.

**Third Game**  
Brown Bombers 0 1 1 0 0 4 6 1 0 — 13  
Upsets 0 0 0 0 0 0 0 1 0 — 1  
Abbott and Kimball; Brannen, Hallett (7) and Arsenaull.

### Doug Rogers to Coach Varsity Basketball

As the fall sports schedule draws to a close, our thoughts turn to the winter lineup. The first evidence of this change came last week when the Physical Education Department announced the appointment of Mr. Doug Rogers as coach of the Varsity Basketball team.

Rogers is a real veteran of U.N.B. Basketball. He played for three seasons with the Red and Black in the period 1940-43, and has the distinction of playing in the first game ever played in the Lady Beaverbrook Gymnasium. Last season he coached the U.N.B. Grads.

A member of the class of '43, he holds a B.Sc. in Electrical Engineering and is employed with the New Brunswick Electric Power Commission.

The Red and Black squad will begin practice sessions immediately for the coming season. All players interested in turning out for this year's Varsity are asked to note the following list of practice times:

Friday, Oct. 24, 7-9 p.m.  
Monday, Oct. 27, 7-8 p.m.  
Tuesday, Oct. 28, 7-9 p.m.  
Thursday, Oct. 30, 7-9 p.m.  
Friday, Oct. 31, 7-9 p.m.

### Intramural Organizations Underway

The winter program of intramural sports will reach the first stage next week when organization meetings will be held in the Trophy Room of the Lady Beaverbrook Gymnasium.

Physical Education Director Pete Kelly has emphasized the fact that this year the stress will be on keen competition. To this end it is hoped to limit teams to definite boundaries and prevent the entry of a "packed" team. Classes, clubs, and organizations interested in entering teams in intramural sports are asked to take note of the following meeting times:

BOWLING — Monday, October 27, at 7:00 p.m.  
BASKETBALL — Thursday, October 30, at 7:00 p.m.  
HOCKEY — Thursday, October 30, at 8:30 p.m.

by Hatch & Murph

Thinning operations are now being carried out on the well-known Block 1 on the woodlot. Foresters working on their own time in two-man crews are striving to earn pocket money by cutting four foot fuel wood. Trees to be cut have been marked by Prof. H.D. Long.

For those who don't understand the purpose of this extensive cutting, we will attempt to explain. Essentially it is known as a salvage operation. The story starts about 42 years ago when Forestry at U.N.B. was born. Labs, of course, were held on the woodlot, and so for 45 long years the poor trees on Block 1 have been calipered, diameter taped, inky-bored, blazed, pruned, D.D.T'd, tagged and painted until now they are so weak and shaky around breast height that it's a case of cutting them down before they fall down. In 45 years the same will be repeated on Block 2, and so on until Block 1 is reached again. This is known as Forest Management or Rotation.

Had a good laugh the other day . . . engineer wanted to know how he could get to the Hammerfest . . . HAH!

A senior Forester last week had a bit of duck shooting, the like of which isn't found very often. With a single barrel 12 gauge shot gun he knocked down six black ducks out of a flying flock with one shot. A sextuple yet. How about that? Congratulations, Ev.

Reading about the exhaustive history of the "Rock" in a propaganda leaflet in the library caused us to dig up a few facts which makes the "erratic" rock look like a piker alongside an ordinary old conifer tree.

Now take any old beaten up conifer tree on the woodlot, for instance. Did you realize that this tree's ancestors had their origin in the Devonian period of the Paleozoic Era at least 300,000,000 years ago? They say that the Rock is an erratic because its parent rock is 20 miles away. Twenty miles . . . hah! Who knows but the seed for this tree may have been transplanted in some fashion from Northern N.B., a full 200 miles away! Truly, and more spectacularly erratic, for sure. It may be well to remember that the Rock's future has been established as a permanent eyesore on the campus, while our tree may well go on to vast and glorious heights of usefulness such as a page in some newspaper or a splinter in somebody's . . . well, a splinter.

As a parting word, don't forget the Forester's Dance tomorrow night at the "Beaverboard".

## CAMPUS O-ORDINATOR'S CORNER

The campus co-ordinator has no authority on the campus at present. His duties are limited to advising organizations when dates are clear so that they may plan for large attendances. If a group does not wish to consult him regarding the proposed dates of events there is no rule saying they must. Perhaps this is the best system—perhaps not, it is up to the S.R.C. constitution committee to decide.

So far I have attempted to keep every Thursday clear for the S.R.C. Two weeks ago the Ladies' Society had a banquet on Thursday. Last week the newly formed Glee Club also conflicted with the S.R.C. meeting. Neither of these I heard about until the events occurred. Perhaps these events did not affect S.R.C. attendance but the S.R.C. has requested co-operation in this matter. On a date already reserved by the Drama Society for their one-act plays, (Oct. 30), the Philosophy Club have decided to meet. Perhaps this is an oversight on their part, perhaps the date is wrong since Monday, Oct. 30 does not occur this year.

## INTRODUCING THE RED BOMBERS

(Continued from page 5)

experience with the Red Bombers. "Big Red" is a Soph. Forester and another inside.

**John Bliss**, of Fredericton, is five-feet-nine and weighs 170 pounds. John played English Rugby in high school and performed with U.N.B. Varsity Rugby team the past two seasons. A third year Civil Bliss is also an inside.

**Ken Bartlett**, another Maritimer from Harvey Station, N.B., stands five-feet-six and weighs 160 pounds. Ken has had little or no experience but has performed creditably at the inside position. Bartlett is a third year Civil Engineer.

**Bud Mackley**, of Montreal, stands five-feet-eight and weighs 165 pounds. Bud has played three years with Montreal High and three more with the Red Bombers. Mackley is a Senior Forester and plays the centre position.

**Al Moller**, of Mount Royal, is five-feet-seven and weighs 160. Al played three years with Mount Royal High and this is his first year with the Bombers. Moller is a Third year Forester.

Following are the players' numbers:

1 Gibson	11 Zeremsky	22 Collis
2 MacLean	12 Henry	23 Edwards
3 Elliott	14 Bliss	24 Kerr
4 Potter	15 Moller	25 Doiron
5 Mackley	16 Webster	26 Neill
6 ShearSmith	17 Bell	27 MacLaren
7 Waddell	18 Palmer	28 Pollock
8 Hammond	19 Schure	29 Bartlett
9 Naysmith	20 Clark	
10 Fowler	21 Oatway	

## U.N.B. Edges Trojans, etc.

(Continued from page 4)

went wide, it went over the dead-ball line and the Bombers were ahead 1-0. With so little time left, the Trojans put on a drive and were marching to the half-field when Schure intercepted a pass. This interception proved to be the break in the game. The Bombers reached the Trojans 35 yard line and while in the huddle, the gun went off, signalling the official end of the game, but U.N.B. had one play left. Naysmith threw a long pass to Kerr in the end zone for a touchdown. The con-

U.N.B. 6 Trojans 0  
Outstanding for the Red Bombers were Naysmith, leading the team during the entire game; Willie Schure who made many outstanding long runs, and Kerr who scored the touchdown and played a strong defensive game. For the Trojans, Tremble's quarterbacking and Morrison's running were outstanding. U.N.B. had 16 first downs and completed 7 of the 10 passes, while the Trojans gained 13 first downs and completed only 3 of the 10 passes attempted.

Line-ups:  
U.N.B.—Naysmith, Schure, Pollock, Kerr, Zaremski, Moller, ShearSmith, Bliss, Elliot, Waddell, Fowler, MacLaren, Oatway, Doiron, Clark, Mackley, Palmer, Webster, Bell, Neill, Collis, Henry, Hammond, MacLean, Potter, Edwards.  
The Trojan line-up was not available.

## CHRISTMAS CARDS

Make your selection early before the rush

**Hall's Bookstore**  
Est. 1869

*give me a wild tie, brother!*

Give me a wild tie, brother,  
One with lots of sins!  
A tie that will blaze in a hectic gaze  
Down where the vest begins.  
Some may long for the soothing touch  
Of lavender, cream or mauve;  
But the ties I wear must possess the glare  
Of a red-hot kitchen stove.  
The books I read and the life I lead  
Are sensible, sane and mild,  
I like calm hats 'n I don't wear spats  
But I want my neckties wild!  
—(Anon.)

• It's really all a matter of opinion. But whatever your likes, make sure you choose a well-made tie. Just make this simple test:

Flip back the folds, hold the loose dangling thread—and try to push the fabric along the thread. If the fabric glides up and down, the tie is Slip Stitched.

Be sure the ties you buy are SLIP STITCHED . . . they will look better, tie better, keep shape longer!

## UNDERGRADUATES

**THE CANADIAN ARMY OFFERS OUTSTANDING BENEFITS WITH THE REGULAR OFFICER TRAINING PLAN**

To undergraduates who offer their services for a minimum of three post university years, the Canadian Army Active Force offers at least two years of university training beyond senior matriculation, with generous financial assistance under the Regular Officer Training Plan.

Applicants must be single, physically fit, able to meet officer selection standards and maintain a satisfactory military and academic standard.

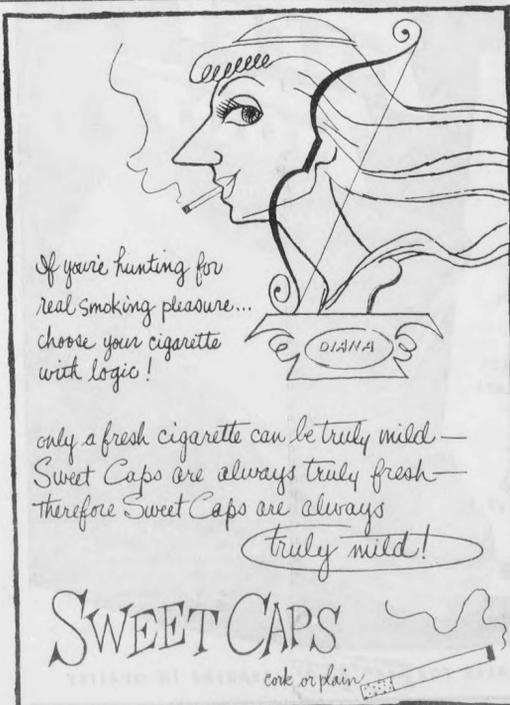

Candidates will be selected during November 1952.
