CANADIAN STAMP DUTIES.

Up to the 1st August, 1864, there was no stamp required for bills, drafts and notes in the former Province of Canada. But by 27 and 28 Vict., cap. 4, there was imposed a duty on all promissory notes, drafts or bills of exchange, when executed singly, of three cents for the first \$100, and a further duty of three cents for each additional \$100 or fraction of \$100; the duty to be paid by affixing an adhesive stamp. This Act was amended by 29 Vict. cap. 4, which imposed a duty of one cent on notes, drafts, or bills of \$25 and under; of two cents when over \$25 and not over \$00; and of three cents, when over \$50 and not over \$100. The Act also provided that it should not be necessary to obliterate any stamp by writing the signature or initials upon it, but that the person affixing such stamp should, at the time of affixing, write or stamp thereon the date when it was affixed. This amendment came into force on the 1st of January, 1866, and the law continued unchanged till 1st February, 1868, when the Act 31 Vict., cap. 9, came into force. By this Act, stamp duties were first imposed in Nova Scotia and New Brunswick. No duty is payable under this Act on bills, drafts, or notes under \$25. One cent on notes, &c., of \$25; two cents when over \$25 and not over \$50; and three cents over \$50 and not over \$100, with a further additional duty of three cents for each additional \$100, or fraction of \$100. The duty is payable by stamps, which are to be obliterated by signature, initials, or some material or integral part of the instrument written thereon, or by writing or stamping thereon the date of affixal.

The rates will be more apparent by the following table:—

On Bills of Exchange, Drafts and Promissory Notes.

	AMO	UNT.		Sir	gly.	Dup	licate part.	Trip	licate part
825 Over 25	and not	exceedi	ng\$ 50		01 02 03		01 01 02		01 01 01
" 100 " 200	44	11	200	0	06	0	04 06	0	02
" 300 For each		al \$100	or fraction		12		08		04
of \$1	00			0	03	0	02	0	01

In computing the duty, it must be borne in mind that any interest made payable at maturity with the principal, must be counted as part of the amount.

The tax necessitates great care on the part of business men, as the penalty of neglect in affixing or cancelling the necessary amount of stamps is very heavy, the instrument being rendered null. Thus the Court of Queen's Bench for Ontario recently held a note for a large amount to be null, because, though the necessary stamps were on the instrument, yet, from having been placed one above another, all had not been obliterated. When duties were first imposed had not been obliterated. in Nova Scotia and New Brunswick, many of the inhabi-tants of those Provinces neglected to comply with the provisions of the Act, and a measure for the relief of these persons (31 Vict. cap. 52,) was subsequently passed.

LOVELL'S SERIES OF DIRECTORIES.

Dominion, Provincial, County, City. and Town Directories.

THE want of accurate, reliable and intelligible Local Directories has been commonly felt and generally expressed by all classes in Canada, and only in a less degree by the inhabitants of a n eighboring Provinces. Indeed the complaint has become so common, and the requests to remove it so urgent, that the Publisher of the Dominion Directory has determined to make the experiment, and discover for himself what encouragement may be expected for such books as the commercial public have very generally concurred in asking for. Should the first experiment turn out satisfactorily, it is the Publisher's intention to follow it systematically, and at stated periods, with new and enlarged editions of the same works. He begs further to say that whether such Directories be general in their character, like the Domiion Directory; or local, like the Provincial Directories; or Municipal, like the County, City or Town Directories, they will in either and all cases be prepared with the greatest care, constructed on the simplest plan, printed in a uniform manner and bound according to a uniform pattern.

As the Publisher of the DOMINION DIRECTORY is thoroughly acquainted with the modes in which information for such use should be obtained, and as he has accumulated an immenses stock of the requisite materials, and gathered about him a reliable body of men, wh om by constant employment as agents or artizans, have made themselves practically acquainted with every branch of this department of industry, he is able to offer guarantees of his ability to satisfy the commonly expressed want by printing and publishing accurate, reliable and intelligible Directories.

The Publisher has no hesitation in guaranteeing as thorough correctness as it is possible to attain, and respectfully points to the accompanying Directory as an example of the character of the work and of the workmanship he will study to maintain in the projected series. Intimation from merchants and genticmen in localities where the want of a Directory is recognised, would be accepted as a special favor, and acted upon wherever practicable.

QUEBEC-The stronghold of military power in British North America, and capital of the Province, is situated on a rock-bound promontory formed by the confluence of the Rivers St Charles and St Lawrence, 180 miles below the city of Montreal. It is very strongly fortified, completely commanding the navigation, and by military authorities is declared impregnable. The city is reputed to have desired its name from the works of the derived its name from the words " Quel bec!" the exclamation of its hardy and bee!" the exclamation of its hardy and adventurous discoverers when first its site broke on their astonished view, Quebec has a very grand and imposing though somewhat confused appearance, quite in keeping with the broken, bold magnificance of the surrounding country. which for natural grandenris generally allowed to be unexcelled. Whichever side is approached by water, the city has the appearance of a huddled and confused mas, from the nature of the abrapt decli-vity on which it hangs and skirts, nor is the wity on which it hangs and skirts, nor is the impression thus obtained at all diminished on laudiog, as the stranger wends his way tathe Upper Town. This portion of the city is more open, regular and better built than the other. It is situated within the gates and walls, and approached by a steep, seprentine street and carriage-way, with long and rugged flights of winding stars that this there are there are better long and rugged flights of winding stairs, that dip into it here and there, and lesson the distance for the podestrian. On the ease me and apoint stand the Grand Battery, and portions of the fort, to tracks and towa; toward the north, the Esphande; and west, the Cliadel, which crowns the heights. From Durism Terrace, which everlooks the river and the Lower Town, from the Cape or from the ramparis, a most magnificent natural panerama and amphiticastre unfolds itself, precenting to the eye of the beholder a seem broz.nparably zernal and charming,—a view that buildings have given place to those of brick and stone. A street railway runs fr. m St Roch suburbs to the Lower Town. During the summer season Quebec is largely visited by strangers, especially Americans, who take much interest in viewing the many historical scenes and objects connected with it—the Citadel. wf his armory and magazine; the Plains of Abraham, with its lumble monument marking the place where fell the illustrious Wolfe; the Governor's Garden, with its monument to Wolfe and Montalm; the massive walls and five strong rates which surround the upper portion of the city; and last, though not least, the spot where fell Montg mery. There are also other interesting objects throughout the city—the Koman Catholic Yathofrai, with its many fine old paintings; the Epiconal, Presiyterian and other functions of the control of the with its many fine old paintings: the Episcopal, Presbyterian and other courches, the Esplande, Houses of Far-lament, Hospital, new Gaol, "Spencer Wood," the residence of the Governor, Morrin College, the Laval University, erceted at a cost of nearly half a million follars, the beautiful new Custom House at Point & Carey, &c., &c. The Mont-morenci Fa, is a magnificent sight at almost all seasons of the year, are situated than and Guebse is the Beautort Langtic them and Quebec is the Beauport Lunatic

LAVAL UNIVERSITY.

131 St. George st.

In 1643 was founded the Quebec Seminary, which after-In 1043 was rounded the Quebec Seminary, which afterwards became a regular College, and it had, by successive addition, acquired a high degree of importance, when it was erected by Her Majesty's Royal Charter into a University, under the style and name of *The Laval University*. By this charter, which bears date December 8th, 1852, no change was effected in the constitution of the Seminary itself; but a Council composed of the Directors of the Institution, and the three senior professors of the several faculties, was emthe three semor professors of the several raculties, was enpowered to possess and enjoy all the privileges granted to the Universities of the United Kingdom, and especially that of conferring degrees in the Faculties of Divinity, Law, Medicine and Arts. His Grace the Roman Catholic Archbishop of Quebec is, by virtue of his office, Visitor of the University. The superior of the Seminary, for the time being, holds the office of Rector.
