TUESDAY EVENING, OCTOBER 8.

General News.

Dr. Tupper's election in Nova Scotia is contested by Mr. Anand for bribery and undue influence.

Boston is going to tax boot-blacks and newboys for licenses. Everything that brightens the understanding, whether by printer's ink or French polish, ought to be free.

Some idea may be formed of the numbers of our base-ball players by the fact that a single manufactory in Lynn, Massachusetts, has made and sold thirty thousand pairs of shoes for base-ball players this season.

St. Johns has had a narrow escape from destruction by fire. The Montreal fire-police were telegraphed for, and were in readiness to go, but with the aid of the military stationed there, the fire was subdued.

The Savannah Republican speaks of a colored orator who spoke in that city a short time ago, and who had eighteen reasons for construction; but although he talked three hours, he presented but two of them, and then stated that he might have said more about those.

One of the saloons in Nashville, Tenn., employs a hack to carry off its customers as they become intoxicated. No fare is required, and the happy beings are insured against the police and the work-house. This is the true essence of benevolence and old rye.

Burglary.—Early on Tuesday morning last, Long's hotel, in Strathroy, was entered and two satchels stolen. One contained a gold watch, a meerschaum pipe and some papers; the other was filled with piano tuning implements, the property of Mr. Hemphill, of London.

New York Clubs have a great reputation for the dinners they furnish, and it is said the one that was given to Gen. Grant recently by the New York Club required the services of seven French cooks ten days and nights to prepare it. It took about three hours to consume this elaborately prepared dinner, and at this rate of preparation people cannot get much more than thirty dinners a year.

THE ATLANTIC CABLE COMPANY.—The Journal of Commerce says the gross violation of ordinary decency in the direction of the affairs of this line does not spring from a mistaken notion of what is the true interest of all parties concerned, but from a fixed determination on the part of those now in charge to depreciate the property in order to tire out the holders of the contingent interest, and thus to compel them to sacrifice it in favor of the present control.

The course pursued is explainable upon no other hypothesis. The receipts of the company are decreasing monthly, and will soon be small enough probably to bring the original stockholders, and perhaps the intermediate interest also, to sell out for a song. If another line is then in operation, it will take some years for this cable to cleanse itself from the stain of its present evil practices. But remonstrance is of no avail with directors who are mismanaging the property for a selfish purpose.

SAD ACCIDENT NEAR CHATHAM.—On Saturday afternoon, Mrs. Isaac Smith and two children, and Mrs. W. Baxter, junr., all of Chatham, while driving in a buggy in the township of Howard, near Marmouth, the horse balked, backed, and upset the buggy over a culvert. Both ladies and children were thrown into the ditch, the buggy and horse falling on them. We regret to state that both the children were killed and Mrs. Baxter seriously injured. Mrs. Smith's arm was caught under the buggy, and it was an hour before she could extricate herself and get assistance from the nearest house, which was too late to save her children. One was dead, having been suffocated under the buggy; the other died in her arms a few minutes after. Mrs. Baxter was apparently fatally injured, but to-day she is considered out of danger.

THE TORONTO GENERAL HOSPITAL.—At a meeting of the Hospital Trust, held on Friday, the 4th inst., the following minute was made.—The Trustees of the Hospital and Citizen's Committee having petitioned the City Council in the month of February last for aid to enable them to carry on the institution, the Government grant having ceased, and having confidence that the necessary funds would have been secured ere this, they continued to carry the Hospital on, under great financial difficulties, until the first day of August last, when they were compelled to close it against the reception of patients. The anticipated end not being realized, it is resolved that the remaining patients be removed, and the Hospital closed on the 15th inst.

RESPIRATION REFUTATED.—A number of Democratic journals appear anxious of late to have it understood that they are opposed to repudiation in any form. The New York Times appropriately suggests that the best way for the Democratic party to "place" itself on this question would be adoption, at the New York State Convention, of which met at Albany on the 30th of September, of an unmistakable anti-repudiation plank in platform. It appears that repudiation

ERROR IN PRIZE LIST.—In the class of South down sheep, in the prize list of the South Riding Show last week, Mr. Stone's name appeared as the winner of the first prize for aged ram. This was a mistake as the first prize was awarded to the fine ram owned by Mr. James Anderson, Puslinch.

NASSAGAWAYA PLOUGHING MATCH.—The Annual Ploughing Match of the Nassagawaya Agricultural Society will be held on the farm of John Ramsay, Esq., Lot 32, 2nd concession, on Saturday the 19th inst. Four prizes of \$4, \$3, \$2 and \$1 will be given in each of the three classes, viz: first class men, being all those who have taken a first or second prize at either township or county match; second class men, comprising those not included in the above list; and third class for boys under 18 years of age. For further particulars, see bills.

MELANCHOLY ACCIDENT.—Early on Friday morning a sad accident occurred in the village of Weston, resulting in the death of a child, and almost miraculous escape of three other parties from a similar fate. As a wagon, coming from Albion, containing a young man, a woman, her daughter, and a baby, of the name of Chance, was being driven through the village, the horses took fright when nearly opposite Eagle's tavern and backed the wagon over a bridge into the mill race. The wagon fell on top of the party, and when help was obtained the baby, which was about eighteen months old, was taken out drowned. The three others, wonderful to state, were only slightly injured, and were removed to their home.

Town Council.

The Council met on Monday night. In the absence of the Mayor, Mr. Melvin, the Reeve, took the chair. Present Dr. George Messer, Peterson, Day, Heffernan, Thomson, Chadwick, Sayers, McCurry, Mays, Harvey and Massie.

The Clerk read the minutes of the former meeting which were confirmed.

The Clerk read a communication from Mr. John Pipe concerning a lot of his which had been sold for arrears of taxes, and as said lot had never been in arrears he prayed for the refunding of \$10.

Mr. Peterson read a petition from Mr. John Clark, praying that he might be allowed to use the water of the stream on the south side of Gordon-st. in his tannery, and he would gladly make any reasonable arrangements therefor.—Referred to Road and Bridge Committee.

Mr. Sayers read a petition from Mr. James Pendleton to the effect that he had been assessed \$300 on real estate, and that the collector now demanded taxes in addition on \$200 personal property. He therefore prayed an adjustment of the matter.—Referred to Finance Committee.

Mr. Sayers read a petition from the Rev. Mr. Torrance, stating that he had made certain improvements in front of his property on the York Road, within the jurisdiction of the Council. To complete these improvements it was necessary fifty trees, or perhaps less, should be planted, and that the petitioner was prepared to pay half the expenses if the Council would as usual pay the other half, and instruct the proper committee to complete the work before winter.—Referred to Tree Planting Committee.

Mr. Sayers read a petition from Mr. R. McLeod concerning an overcharge in his assessment.—Referred to Finance Committee.

Mr. Harvey presented a petition from Mr. John Hogg, praying that a new sidewalk be laid in front of his new building, from Mr. Horseman's core round the corner to the Ontario Bank.—Disposed of afterwards by motion.

Mr. McCurry read a petition from Mr. Thomas Keach, relative to the amount charged him for transfer of license last June. The amount was \$8, and he had since learned that it should be only \$5, and he therefore prayed for a reconsideration of the matter.—Referred to License Committee.

Mr. Peterson read a petition from Cornelius O'Connor praying for remission of taxes, on account of ill health.—Referred to Finance Committee.

Mr. Massie read a petition from Mr. M. Casey, praying for remission of dog-tax, as he had no dog at the time he was assessed for one.—Referred to Finance Committee.

Mr. Peterson read a petition from himself, praying for the refunding of \$5.05, which he had paid for a lot sold by the Sheriff, which afterwards could not be described.—Referred to Finance Committee.

Dr. Herod presented the petition of Mr. Vale, Bandmaster, asking the use of the Drill Shed on the evenings of Monday and Wednesday, in order to drill the Band to marching.—Petition granted.

Mr. Thomson read the report of the Finance Committee. They had examined the various petitions relating to errors in description of lots sold for taxes by the Sheriff, and they recommended the refunding of the following:—To F. Maybury, \$13.45; to O. G. Hughes, \$7.57; to Thorpe, \$60.79. They further recommended that Mr. Hobson be instructed to complete a map of the town now in process, as required by law; and also that the petition of Mr. John L. Lewis be granted by receiving \$20 as payment for lot on Mount street. The report was adopted.

Mr. Massie read the report of the Market House Committee. They had pleasure in returning to the Council the quarterly returns of the Market, as by comparing them with the returns for the corresponding quarter of last year, it would be seen there was a considerable increase in the revenue and business.

ending Sept. 30, 1867.—Fall wheat, 1,541 bushels; spring wheat, 49,141 bush; oats, 11,929 bush; peas, 10,513 bush; barley, 22,059 bush; wool, 34,585 lbs; flax 198 bush; hogs, 15; butter, 76,100 lbs; cattle, 366; horses 19.

Market fees last quarter... \$618.25 Do. do. cor. qr. last year 455.25

In favor of last quarter... \$133.00

The committee had considered the petition of butchers and drovers for a scale on the Fair Ground, and whilst they are of opinion that it is wanted, they could not recommend its erection this year, as proposals to their attention being called to the necessity the estimates for the year were made up, and the assessment levied, but they would recommend their successors in office next year to carry out the petition. They further recommended that Mr. Pooley's petition for leave to open a shop to sell beef cuttings, be granted. The report was adopted.

Mr. Harvey moved, seconded by Mr. Peterson, that the sidewalk on Wyndham street be immediately repaired thoroughly, and that new sidewalk be laid in front of Mr. Hogg's new building, and that \$150 be appropriated for that purpose. Carried. The Council adjourned.

Examination of School, Section No. 7, Eramosa.

A public examination of the above school was held at the school house, on Thursday last, 3rd inst. The day being fine, the attendance of pupils was respectable. The examination was kept up, with only 20 minutes' interruption, until 4:30 o'clock, p. m., after all, leaving several branches of daily study untouched. The correct and ready answering of the children elicited the admiration of all present, while the order and discipline of the school have formed a good model for many schools placed in more favoured localities. Mr. Lowry's long experience as a teacher has given him the art of controlling children in a manner peculiar to himself—his constant aim being to induce the pupils under his care to do what is right, because it is right. The classifying of the children appears to be well attended to in this school. The equal status of the pupils in their several classes making it difficult to assign a distinction to any particular one. Were every teacher to adopt the plan here pursued, it would be well, viz: making sure that the children thoroughly understand one book before promoting to another. Too many people are pleased with the mere name of their children being in a book of a higher figure, not appearing to care or know whether they understand the book of a lower figure or not. Mr. Lowry fights against the currency of this failing, and labors to make the pupils masters of one book before promoting to a higher. This plan should be adopted by every teacher. Although this is a 'bush' section, the manners, habits and progress of the children have been very decidedly improved since the present teacher entered upon the management of the school. I cannot help noticing a ground of regret that so few parents availed themselves of the privilege of witnessing the examination. Indeed, on this occasion, the Trustees seemed to forget their duty. In the discharge of public trust, attendance upon public examinations is certainly a duty imposed upon School Trustees. Their attendance as well as that of parents acts as an encouragement to both children and teachers.—Com.

MONTREAL TEA SALE.—The sale of today was well attended. It closed about half-past 3. Bidding generally with a good deal of spirit, though some Tea did not come up to views of sellers in prices obtained. Twankays—All sold; 429 chests, 39c to 44c. Imperials—655 sold, being all offered, but 61 packages at 41c to 79c. Hysons—535 half-chests offered; all sold but 80 half-chests, at 43c to 79c. Gunpowder—328 half-chests sold, 159 withdrawn, at 40c to 97c. Congou—387 half-chests sold, being all offered, but 75 half-chests, at 37c to 48c. Oolong—364 half-chests, all offered; 35c to 53c. Natural Leaf Japan—1,896 offered,—all sold; and, in addition, about 250 not in catalogue, 46c to 62c. Young Hyson—offered, 2,638; sold, 1,903, at 40c to 87c. The result of the sale may be set down as fairly satisfactory on the whole.—Wines, Oct. 5th.

—The Buffalo Courier relates that P. O'Day, Esq., Head Centre of the Fenian Brotherhood in that city, had one finger of his right hand cut off, on the Central Railway, on Thursday last, by having it caught between the lock and door-snap of a car. Some reckless fellow who preceded Mr. O'Day into the car slammed the door violently on the Head Centre. He had accidents' policy in the Servant Girls' Protective, and will receive pecuniary assistance during his disablement.

FUEL IN DETROIT.—It would appear that fuel in Detroit is not likely to be very dear this winter, if we consider its price in proportion to other necessities of life. The Daily Union says: It will be an interesting item to the public to know that the wood market is fully stocked, and dealers, with the prospect before them that wood will not exceed \$6 or \$7 this winter, are very cautious in buying cargoes. The consequence is that several scow loads have been begging for customers at \$4.25 and \$4.50 per cord, and the influence brought to bear through co-operative movements has caused a rivalry among yard men, and they are delivering hard wood now at \$5.25 and \$5.50. Good, say we.

THE WHEAT CROP IN THE STATES.—The New York World does not expect to see any change for the better, so far as regards the high rate of living, for some time to come. It says that the crop of winter wheat in the States, this year, has been exceedingly good, but that the almost complete failure of the winter wheat for the two previous seasons, so reduced the supply, that had it not been for unexpected shipments from California last spring, the poorer classes would have been compelled to dispense with wheat flour altogether; and there was so little grain on hand this summer, that considerable inroads have already been made upon the abundant yield of 1867.

FIGHT FOR A PICKLE WIGAN.—On Monday night last, a savage and sanguinary fight took place in Ottawa between two rivals, who both laid claims to the affection of a little fair one in the humbler walks of life, and by whom each, but at different times, been in turn rejected for the other. Fists were the only weapons used, but so savage was the combat, that a sidewalk where they met, was in the blood of the

New York, Oct. 8.—The Tribune's Florence correspondent says of Garibaldi's arrest: Some 20 carabinieri and two companies of the 27th Regts. of the line surrounded the house at four o'clock a. m., arrested the master and all the guests, and shut the horses and coachmen in the stables; then the Lieutenant went to the General and said: "A letter for you." It was the order of arrest. Garibaldi said, "I suppose I can take my bath?" The officers of the 27th refused, and carried him off just as he was, without a second shirt. A special train awaited him at Sima Lunga. There finding that the tidings had spread, orders were sent to convey him to Alessandria. The Turin Gazette states that the instructions given to the King's troops in Italy ordered them, in case they should discover any body of Garibaldians preparing to cross the frontier, to summon them to lay down their arms and return to the frontier; should they refuse, the troops were to stop them and bar their passage. If a detachment succeeded in reaching the Papal territory, the soldiers were to pursue them to a certain distance and endeavor to disarm them without having recourse to force.

### Guelph Evening Mercury

TUESDAY EVENING, OCTOBER 8.

### Butter and Cheese Trade of Guelph.

There has been a most astonishing decrease in the amount of business done in the butter trade in Guelph, if we compare the present year with last year. It is true that it is perhaps earlier than usual to give the statistics, yet that will not seriously alter the fact that there has been a very large deficit in the amount of butter usually brought into our market. This may in part be owing to the cheese factories which have gone into operation during the past summer, although the decrease of butter is too large to be caused exclusively by the supply of milk which they demanded. Few of our merchants have shipped much. Mr. Massie sent off a few kegs in the early part of summer, and the remainder of his stock he disposed of at home. Compare this business with last year, when shortly after this period he had sent to trans-Atlantic and other markets between 1,300 and 1,400 kegs, and it will give some idea of the falling off there has been. With one or two exceptions none of the other merchants have shipped any.—The Messrs. Hadden, who at the middle of November last year had on hand 150 kegs, have sent away none at all this year, and have only about 50 kegs in their possession at the present time. Mr. Rutherford shipped about 230 kegs, and have still in store about 25. This fall far short of the amount of business done by him last year. Mr. John L. Lewis informs us that he has shipped about 800 kegs, which is probably not more than two-thirds of the quantity that he had sent to other markets last fall. Mr. Walter Merton sent away this season 70 kegs of butter. But the trade done by Mr. Brill, which is larger than that done by any person else in Guelph, will be most effectual in showing what a falling off there has been in the supply of this article. His total shipments this season, made at six different times, amount in the aggregate to 1,218 kegs, making a total of 109,620 lbs. This is not a great deal over half the quantity that he exported last year. Most of it goes to European markets. The article was bought here at from twelve to fourteen cents per lb. The prevalent belief is, that butter during the past season has been of an inferior quality to that which has heretofore been offered in Guelph, and the causes assigned for the deficiency are, first, that which we previously mentioned, the operation of cheese factories, combined with a large exportation of cattle, and a long drouth in summer.

The cheese manufacture in this locality is still in its infancy, but is of good promise. The product (up to the present time) of the factories recently established by Messrs. Shortreed and Harland has been purchased by Mr. Brill. The total number of boxes was about six hundred. The cheese sent to the buyer about nine cents per lb., and has been shipped for English markets.

A New York Bohemian writes to a western paper: By way of contrast between the non-success of journalism, as a profession, and the prosperity attending any other calling, let me mention the fact that an old man and woman, who have for years sold apples and nuts in Spruce street, under the shadow of the Tribune building, are to day worth \$50,000 or \$60,000 a-piece, while not one of the writers of that journal, unless a stockholder, has much more than enough to bury him decently. The truth is, there is no other vocation under the sun so poorly paid, and so entirely thankless, as that to which we of the daily quill driving brotherhood so forlornly belong.

A beautiful monument to Lord Byron has just been uncovered in Water-Place, London. The likeness is admirable, and no one who has seen a photograph or wood-cut of the hero will show at a glance who is represented. Head and body seem to belong to different persons, but the same contrast is original. It is the head and limbs of

### The Confederation and the Attitude of Nova Scotia.

From the Scottish American Journal.

There is, we take it, a needless alarm expressed by some of the more ardent supporters of the British American Union as to the attitude which Nova Scotia throu her representatives may assume in the New House of Commons. Many persons express the apprehension, that as all but two or three of the members returned in that Province were returned avowedly in the interest of the Opposition, there may be a strong anti-confederation party formed which will endanger the Union before it has been fairly put on its trial. There are several strong reasons, it occurs to us, for doubting the correctness of this conclusion.

First, Nova Scotia is as loyal a division of the Empire as can be named. The Throne has nowhere found more ardent, steady and faithful supporters. The best of her sons of the elder race are the descendants of United Empire loyalists who inherit generally the best qualities of their ancestors. The English, Scotch and Irish settlers, without distinction of creed, are as sturdy a race of monarchists as can be found. And the strong naval position which the Province occupies, gives it a stronger assurance of independence from foreign aggression, in case of international trouble, than is possible to any other member of the British American Union.

Second, while the first election in Nova Scotia shows what is apparently a powerful anti-confederate vote, there were many causes leading to that result, aside from the direct question of importing the imperial scheme. Many of the best men of the Province thought that there had been undue haste in arranging the details. They were doubtful whether the financial status of the Province were such as would bear the apportionment of liability which it would be called on to sustain. Some of those who should have been consulted as to the framing of the measure were not consulted at all. And their resentment found a natural (if not highly patriotic) expression in the late appeal to the popular verdict. Causes of irritation like these, we apprehend, will shortly pass away.

Third, A great deal will be done by party combination in the first House of Commons to lessen the sectional opposition from Nova Scotia. When the representatives once come together, many things will be explained that have now a distasteful appearance. All the resources of British statesmanship at home will be used to smooth the path of Union; and, before six months, Nova Scotia will have the example of Newfoundland before her as a late, but hearty, supporter of Confederation.

All these, we take it, are arguments which may be held to favor the conclusion that the Opposition forces in Nova Scotia will not muster in the Confederate Legislature to do serious or permanent damage to the Union.

### Hamilton Fall Races.

The Fall meet of the Hamilton Driving Park opened on Monday. The hand race was the first run, for a purse of \$120 two miles, over 8 hurdles, 3 ft 6 in. in height. Three horses—'Bie's' (13th Hussars) 'Citadel,' Moore's (13th Hussars) 'Chang,' and J. N. Waddell's 'Barebones.' A splendid start was made, and 'Barebones' shortly pulled out ahead and took a handsome lead, clearing the first hurdle in fine style. Citadel's rider was thrown at the first hurdle. Barebones continued to go, and won the race by a full quarter of a mile. Citadel made the first mile second, and was stopped at the score riderless. It was found, however, that during the race, Barebones bolted on the track, and so the race was awarded to Chang. The Province purse, for \$100, mile best two in three, was then run for. The entries were Mr. Kay's 'Ido,' Mr. White's 'Wild Rose,' Mr. Chisholm's 'Lucy,' and Mr. Horton's 'Lady Leopardess.' A fine start was made on the first heat, 'Wild Rose' shortly taking the lead, closely followed by 'Lucy.' The race was neck and neck between the two for nearly a full mile. Ido finally pulled up and passed by about a neck, making the score by that odds. Wild Rose second, Lucy third, and Leopardess, who had lagged badly on the start, followed close on the rear. The second heat decided the race, 'Ido' again coming in first.

The third was a trotting race for \$100, for horses that never won public money—mile heats best three in five, in harness. First premium, \$50, second, \$25. The entries were: Darrow's 'Whalebone,' Wilson's 'Lapidist,' Smith's 'Socks,' Barnes' 'Cooley,' Cairn's 'Miss Tartar,' and Struther's 'Grey Pony.' 'Lapidist' and 'Socks' did not start. 'Miss Tartar' took the first prize in three straight heats, and 'Cooley' the second.

### FIRE IN HAMILTON LAST NIGHT.

A serious fire occurred in Hamilton last night by which the large ready made clothing store of Sandford, McInnes & Co., was greatly damaged. When the alarm was given it was for a fire on Gore street which happily did not amount to much. A second alarm was given which proved to be a fire in the basement of the store above alluded to. It was a long time before the firemen could discover where the smoke came from, but finally it was seen to issue from the cellar or packing room. The damage must be very great, but a large quantity of goods was put up in bales and may not be very much injured. There is good insurance said to be in the 'Western' of England, but the facts are difficult to get at.

### HEREDITARY TALENT.

The play-going circles of London have been somewhat interested of late in the appearance on the boards of a London theatre of the veritable great granddaughter of the great Mrs. Siddons, who designates herself as Scott-Siddons. She made a brief appearance as 'Rosalind' in the early part of the year, but was only brought fairly before the public a fortnight ago, when she again assumed the same character. The lady is described as being endowed with much of that beauty which seems the heritage of the House of Kemble.

New Orleans newspapermen are down with yellow fever. Three from the *Pionier* one from the *Bee*, one from the *Creole*, one from the *Times* and one from the *Republican*.

The London correspondent of the *Edinburgh Scotsman* says that Lord Derby will soon resign the Premiership of England, on the ground of ill health, and points to Lord Stanley or Mr. Disraeli as the most likely to succeed to the office—the latter for choice.

Miss Kate Terry, the talented London actress, is granddaughter of Terry, the actor, and friend of Sir William Scott, whose name so frequently occurs in Lockhart's life of the novelist.

### Don't Overlook It.

(From the Montreal Trade Review.)

We mean Printer's Ink! No business man can afford in this enterprising age to overlook it. You need it in posters and circulars, but above all, the man who is determined to do business, needs it in newspaper advertising. Our advice to commercial men is—advertise judiciously and systematically! Don't overlook the thing, making promises to customers not to be realized, or expending more than a reasonable sum per annum. But when you have some speciality to sell—when you have a better article—or can sell cheaper than your neighbor, take care to use a little printer's ink, and let the public know it. Money so expended is one of the best investments we know of.

A notable instance of the benefits of advertising has recently transpired. It is one of many in connection with the Patent Medicine trade, but it is one which few equal in the rapidity with which a fortune has been made. A great many individuals have been puzzled to know the meaning of the following characters: "S. T., 1860, X.," which have appeared extensively in Eastern newspapers over the way, and also in large white letters on the fences along the different railway lines. According to an American paper, the definition is as follows: "Started Trade in 1860 with Ten Dollars," and is the mode which the proprietor of Drake's Plantation Bitters takes to increase the sale of his nostrum, and also to tell of his wonderful success. It is said that by systematic advertising, Drake has amassed a fortune of two millions in seven years! His Bitters are probably no better nor no worse than others; but he understood the value of Printer's Ink, and a fortune has become his, mainly through the abandonment of tact with which he has used it to sell his wares.

To advertise successfully, requires both judgment and tact. The announcement made should be something bold and striking, and calculated to arrest the reader's attention. A proxy advertisement is of little value. It is often forgotten the moment it is read, and does not take that hold of the public mind necessary to attract much custom, unless the article advertised happens to be such as cannot be had elsewhere. Truthfulness should not be overlooked. When a customer finds his purchase not such as the advertiser represented it to be, more injury is done than good. Odd and peculiar advertisements, either in matter or shape, are frequently very successful; but after all, there is nothing like a thorough knowledge of the wants of a community, and having the tact to announce and ability to supply them, in advance of rivals in the trade.

Whatever mode of advertising may be adopted, let the business man not overlook it. In this go-a-head age, when so much competition exists, it does not do to put one's light under a bushel. If you can serve the public better than your neighbors, let it be known. Many a man has lost a good business by neglecting to advertise. Many thousands have achieved success by attending to it. A fortune may not be made in seven years as Drake appears to have amassed his; but it is certain—if done up properly, advertising will pay, and pay handsomely. Don't overlook it!

A statement of the exports of the United Kingdom during the first half of the present year has been published in England. From this it appears that in the first half of 1866, Great Britain exported goods to the amount of \$92,857,830, the figures for the corresponding period of this year amounting to \$97,613,484. The colonial trade of the Empire shows a decline of upwards of three millions. In the first six months of last year, British North America took goods to the amount of \$2,960,000, and during the first six months of the present year it stood credit to the amount of \$2,393,370.

NORAH CUSHALEEN

HAUNTED CASTLE.

But the disappearance of Lady Blantire was connected with something very different from what her son supposed.

Her preparations being completed, when it drew towards evening she stealthily made her way to a room where lay many old and antique articles.

When the deepening twilight made objects almost indistinguishable, she stole out by a small private door at the rear of the Castle.

It was the same path taken by Malvra some time before, and for a similar purpose.

As Lady Blantire ascended the solitary steep, amid frowning rocks, black gorges, and the darkness of night, she experienced no fear, and hardly felt fatigue.

She gained the top of the cliffs; and the murmuring sea as it flowed among the rocks far below, came to her ear.

It was closed and fastened. 'Hail there is one change, at any rate,' she mentally muttered.

Passing round to the north she entered the enclosure where Mike O'Rafferty and his sons had buried Terry's boxes.

She was about to return to the low oaken door, when her quick eye noticed a dark figure approach from the path that led from the mountains to the valley of Dandarra.

Lady Blantire noiselessly crept forward by the side of the wall, and stood behind an abutment close to the door.

'It's me, Norah, darling,' answered the old man. 'Sure you know the sound of your father's voice.'

Immediately there was the sound of stones being removed from behind the door, and presently it was pulled open.

'Oh! father,' said Norah, 'why have you come up the mountains at this hour all alone?'

RUSSELL WATCH!

A FEW REASONS THAT MAKE IT SUPERIOR TO ALL OTHERS.

1st - It proves itself a reliable time-keeper beyond all question.

2nd - The RUSSELL WATCH being made on correct and scientific principles, it must follow as a natural consequence that it will keep time.

3rd - Each part of which the RUSSELL WATCH is composed is a reflex of the perfect machine by which, under skillful direction, it is produced.

4th - Truth is the essential of each part.

5th - Uniformity and conformity must therefore characterize the several parts in fulfilling the purpose for which they are made and brought together.

6th - Reproduction, as regards watch work, is simply an application of the principle that "things which are equal to the same things are equal to one another," and if there is any merit, the RUSSELL WATCH possesses that merit to a demonstration.

7th - The greatest variety of price, quality and size, that confidence and perfection will admit, afforded by the RUSSELL WATCH.

8th - The RUSSELL WATCH stands pre-eminently above all competitors for public favor and patronage.

9th - Proof of the foregoing - the universal testimony of all Watchmakers who have sold, and the positive statements of the thousands in Europe, the United States and Canada, who have worn the RUSSELL WATCH.

TESTIMONIAL.

To Robert Cuthbert, Watchmaker, Wyndham Street, Guelph.

If Society was as perfect in its organization, and was as obedient to the dictates of truth as the RUSSELL WATCH I bought from you is in indicating true, evil would be swallowed up in good, and happiness would become monotonous.

VALUABLE FARM PROPERTY
For Sale or to Exchange.

THE undersigned offers for sale, or to exchange for Real Estate in the Town of Guelph, the undermentioned property, viz:

First—A valuable improved Farm North of the Durham Road, in the Township of Bentinck, three miles from the Village of Durham, containing about 200 acres, of which about 100 acres are cleared and under fence. On the premises are a substantial Frame Dwelling House with good cellar, garden and well, with pump of excellent water. Also, a Frame Barn 60 x 50, with 15 feet posts and underground stabling, and a never-failing spring in the barn yard for the supply of water to cattle. This is a very eligible property, and well worthy the attention of those who wish to obtain a good farm.

Also—Lot 42, in the 3rd Concession of Bentinck, West of the Garafraxa Road, 100 acres, about 75 acres cleared, with a Frame House on the Lot.—The Rocky Sauguen River crosses one corner of this Lot, and has a valuable water power on it, capable of driving any machinery.

Also—Lot 25, in the 1st Concession, South of the Durham Road, three miles from the Village of Pricville, in the Township of Ardenia. There are about 25 acres cleared and fenced on this lot, with a good new Log House.

The above lands are well situated and timbered with the best kind of hard wood timber, with indisputable titles—the last two being direct grants from the Crown.

For further particulars, &c., apply to the proprietor. JOHN KAY, Brass Founder and Fitter, Upper Wyndham Street, Guelph.
