A MINING FAILURE.

WINNIPEG. Aug. 10.—(Special)—A dispatch from Toronto published by the Tribune here says: The gold fever has struck Eastern Canada in the worst way. New mines are being placed on the market daily, and are snapped up by small speculators on account of the cheap price of the stock. A great deal of feeling exists here over the collapse of the Anglo-American Gold and Platinum Hydraulic Mining Co., whose property is situated on Whipsaw creek, Similkameen, in which Ottawa and extent of \$40,000. The company was floated in the East by Capt. S. F. Scott, and a circular issued by the directors says Scott spent \$52,000 in developing the mine, and all that was ever taken out of it was \$80 in gold and \$3 in platinum, which was obtained from over 15,000 yards of gravel. One of the Ottawa shareholders says the mine was either salted or there was mine was either salted or there was gross mismanagement, and in order to be satisfied the Eastern shareholders are undertaking to put up ten per cent on undertaking to out up ten per cent. on the amount of stock they hold to investigate. Scott has left Ottawa for the West, and instructions have been wired to a legal firm in Victoria to make a searching inquiry.

THE FIRE RECORD.

Buckingham, Aug. 7.—(Special)—Ross Brothers' lumber mills were destroyed by fire last night. The loss is estimated to be between \$50,000 and \$75.000, covered by insurance. About 350 men are will remain a week. Li Hung Chang thrown out of employment by the fire.

HALIFAX, Aug. 7.—Fire, supposed to have been started for the purpose of rob-bery, broke out in a store underneath other inmates had a narrow escape. The building was not much damaged. Woodstock, Aug. 7 .- Mrs. George

Mitchell, formerly of Woodstock, and a bride of one year, was burned to death in Detroit while lighting the fire with

to the French from the direction of Ton-guin, and the Daily Chronicle says: His words have a political significance which cannot be missed. That Li Hung day 65 persons were prostrated and 20 deaths from the heat and 45 prostra- a thinly veiled phrase for help against It is called "Bozin's roller express,"

Li Hung Chang drives about in a style which suits him far better than any of those adopted during the previous entertainments. Four magnificent equipages, which Lord Lonsdale had specially built for Emperor William's visit to owther Castle, painted yellow-His Lordship's own color, but which the Chinese statesman takes as a particular compliment to himself—are used by Li and his suite. These gorgeous vehicles are horsed by four splendid chestnuts, ridden by postillions in yellow jackets, white waistcoats and white beaver hats. A controversy is raging in regard to Li Hung Chang's proper title, and as a result the secretary of the Chinese legation here has sent a request to the newspapers asking them to style the Chinese traveller Li Hung Hang, meaning Grand Montreal capitalists are interested to the triple of \$40,000. The corporate of \$40,000. The corporate of \$40,000. Some newspapers have complied with the request, but others stick to Li Hung Chang. The latter's own cards read 'Le Comte Li Hung Chang," and further state he is ambassador-extraordinary and plenipotentiary, which disposes of the persistent statement that he has no authority to do anything but look over

hinted this is due to intrigues against him in China. The Chinese envoy will arrive in New York August 21, Friday, and will hold his first reception on Saturday. The following Sunday, August 23, he will take the early train for Philadel-phia, where he will lunch and remain or a few hours. The Viscount Li says if Sunday observance is not opposed to it, Li Hung Chang will hold a reception August 23 in Philadelphia, and the traveller would not object to visiting Cramp's shipyards. During the evening he will proceed to Washington, where he then goes direct to Vancouver, B.C. where he will embark for China. He much regrets that he cannot stop at Chicago or elsewhere in the United States; and he has been unable to accept the prothe Globe hotel early yesterday. Two posed receptions in Boston and Philahotel boarders and a servant girl were delphia. In Washington he hopes to see carried out insensible from smoke, and all the secretaries after his audience with President Cleveland, when he will

present his credentials. A notable event in the life of the Vicercy Li was the commemoration, four years ago, of his seventieth birthday, which was made the occasion of great demonstrations of respect. The Emperor sent various rich and appropriate gifts, with flattering inscriptions written with his own hand; the Empress dowager, a woman of great ability, and the ruling spirit of the government for the last twenty years, vied with her Abel, imperial ward in her gifts; subjects of wadd defunct local banks who were being high and low degree, and foreign resignation prosecuted for malfeasance in office, up- dents, lavished upon him presents and holding the objections of counsel for the mementos; processions, ceremonies accused that nine of the grand jurors and banquets in Chinese profusion were ceremonies

Chang," by John W. Foster, in the August Century.

Not for a long time has the Queen been so moved by any act of kindness to her family as she was by the letter from the Pope accompanying the present of a massive gold antique bracelet, sent by His Holiness to Princess Maud on the occasion of her wedding. The letter was

COLLISION IN ST. LAWRENCE.

FATHER POINT, Aug. 10 .- (Special)-The royal mail steamship Vancouver, which left here at 10:30 p.m., on Sunday, for Liverpool, was in collision with barber, was seized with cramps while the Beaver line steamer Lake Ontario. bathing and drowned. A dense fog prevailed and the Father Leod, aged ten, was drowned by falling Point fog signal was fired steadily from 7-p.m., till 3-this evening. The Vancouver had to feel her way in here by the use of the lead, aided by fog signals. About an hour and a half after passing here while she was proceeding slowly. here, while she was proceeding slowly, with her whistle sounding regularly, all at once she was run into bow on by the inward steamer. Her bow on the starboard side was badly smashed in, almost down to the water line; both her anchors were carried away, with her hawse pipe, and her windiass broken, but her collision bulkhead remained in-

Commodore William retained perfect discipline among the passengers and crew and had the life boats immediately ready to launch in case they had been required, but their u e was found unnecessary and the Vancouver was turned back to Father Point, where a pilot was immediately taken on and she proceeded to Quebec for repairs. No lives were lost and the vessel is in perfect safety,

feet on the starboard side. Her cutwater is gone at that point. There is a hole just under the forecastle deck, which leaves open the anchor weighing apparatus. Piled just within the hole in the forecastle deck is a mass of iron plates, iron chucks, pieces of derrick, pulleys, huge iron bars, and other material from the bow of the Vancouver.

ARTILLERYMEN BANQUETTED.

London, Aug. 10.-The National Artillery Association tendered a banquet to-night to the Canadian artillerymen who came over to compete at Shoeburyness. About 250 persons sat down to the banquet, which was given at the Holborne restaurant. Lieutenant-Colonel of the First Volunteer Brigade, Eastern division, Smith, Canadian High Commission in London, Lieut.-General Sir Fred Middleton, and Major-General Ivor J. The Marquis of Lorne, former Governor-General of Canada, who was expected, was not present. Levee dress was worn. General Herbert, in proposing the toast "The Colonies," highly praised Colonel Cole, and declared that the Montreal artillery was one of the finest corps in

Canada Sir Donald Smith was accorded a great reception when he arose to speak. He who was a leading factor in securing the He believed the time was not far distant, he said, when there would be other time all were hoping to see, when they would not speak of the United Kingdom but of the Empire, one and undivided. The greatest encouragement of this hope, Sir Donald continued, was the presence of a man in the Colonial Office who was determined to do everything possible to

knit the Empire together. The speaker then referred to Canadian loyalty, and he declared that it was the greatest mistake to suppose that the French in Canada were not loyal. There was no more loval man at present. he said, than Mr. Laurier, the new

In conclusion, Sir Donald invited the English artillerymen to come to Canada and compete there for the cups.

WRECK OF A STEAMSHIP.

Monterey, Cal., Aug. 11.—The Pacific Coast Steamship Co.'s steamer St. Paul, company's offices in the city by seven passengers who walked from the beach.

"As near as I can judge the boat struck about 10:30. I thought nothing of this and went to sleep. Soon I was awakened by a heavy jar which I at first thought was the usual bumping of the steamer at the Monterey wharf. Capt. Taylor came rushing into my berth and informed me that we were ashore, and said to dress hurriedly and go forward without causing any excitement. By the time I was dressed everybody was life preserver.

British fleet at Crete, to guarantee lighthouse the boat returned. The policy of the party, especially on the Turkish compliance with the terms of captain then had all the boats school question discussed. lowered and the women placed in the first one. The men were then lowered into the other boats. In one boat under him were myself, Captain Taylor, Purser up, fearing we were parties trying to rob

into Monterey." As to the cause of the disaster, one story is that the captain struck a rock. and fearing the boat would sink ran her ashore for safety. Others say the cap-tain missed his bearings, mistaking Point Cypress for Point Pinos, and ran ashore under the impression that he was going into Monterey.

Capt. M. F. Taylor, of San Luis Obispo, who was aboard, gave this version of the wreck: "I cannot attach the blame to anyone. When I came aboard I found the ship crowded. Capt. Down-ing induced me to take his berth, as he did not intend to turn in on account of the unfavorable weather. I know that he never came into the stateroom but once, when he came to look at the chart. I had scarcely got to sleep when the boat struck the rocks, and I could clearly hear the signals to reverse the engines Italians.
Sir Julian Paunceforte, the British ambasador to the United States now in this city body. this city, had an audience with the go in search of a landing, which we could not at first find. We returned to the boat and were instructed to go south at Novelty theatre, where the play in search of a landing. After rowing hard for two hours we ran into a cove at Pebble Beach. BULL FIGHTING BY WOMEN.

MARSEILLES, Aug. 10 .- A bull fight conducted entirely by women occurred here to-day. The spectators clamored has surprised the oldest fishermen. All for the espadas to kill the bull, but, in the canneries have more fish than they obedience to a recent decree, the women can conveniently handle. They are all working two shirts. To-day the Gulf of Georgia cannery had 33 000 sockeyes piled on their wharf. Business men are overjoyed, as many hundred thousand popular resentment is intense against the prefect for enforcing the decree for-

bidding the slaughter of bulls. The authorities tried last September to put a stop to bull-fighting in the South of France. A fight at Bayonne was stopped, and a celebrated Spanish bull-fighter engaged for the occasion was scorted to the Spanish frontier by the police. A number of senators and members of the chamber of deputies and the municipal council tried to induce the police to allow the performance to go on. Upon the police insisting on stopping he fight, the municipal council met, and the members decided to resign, which caused the inhabitants to give them an ovation.

numerous other reasons for the necessity of a female warder, but I think the above sufficient to state. ERNEST CROMPTON.

An invitation to attend the Vancouver carnival was accepted with thanks. Another attempt was made to slaughter the bicycle by-law when it was returned by the mayor for reconsideration to make some amendments in the wording. Ald. Macmillan was for knocking out the whole by-law, as the ordinary street by-law gave enough general power. and Ald. Glover facetiously offered the suggestion that the bicycle riders might be fined for "pedalling" without a li-

However, the council having once accepted the by-law and it being reconsidered for a specific purpose, it escaped

The following letter from the waterworks contractors legal advisers was

GENTLEMEN,-We are instructed by to you for the delivery of the following plans required in the erection and comof lake basin. You will notice on referring to section 1 of the specifications that Messrs. Walkley, King & Casey were entitled to these plans at the date in mentioned shall be done according to the above mentioned specifications the above mentioned specifications the first church parade of the society and plans which are expressed to annexed to the part of the agreement this claim. Application for these plans greatly enjoyed. has already been made by our clients to and refused by Mr. Wilmot. It is most important that our clients should have them, and we have therefore to inform that unless we receive an intimation that unless we receive an intimation.

YESTERDAY morning the funeral of the late Mrs. McReavy took place, a large number of friends attending. At St. Andrew's Roman Catholic cathedral from you by Saturday next that you are prepared to furnish our clients with these documents, we will be compelled to apply to the court to enforce delivery

(Sd.) "BODWELL & IRVING."

THE MAYOR in explanation stated that he had been spoken to by Mr. T. B. McC Walkley upon the subject and had in-L. Milne. formed that gentleman that the original plans were in the city hall and might be copied there, but could not be allowed to be taken out of the city's charge, nor should the city pay for the copying.

ALD. MACMILLAN moved that the communication be referred to the City Solicitor to advise the council, and intimated that something might happen to the plans if a person in the employment of the contractors were allowed to copy them. Any copying should be done by the city employes.

ALD. WILLIAMS thought that the letter showed that the contractors were evidently edging up for a law suit, and he would support the motion to refer the letter to the city's legat adviser. The motion was carried,

The deputy minister of agriculture, Mr. J. R. Anderson, again called attention to the necessity of exterminating the Canadian thistles in the city. The mere cutting down would not destroy them, as the only effectual way was to dig them up and burn the roots.

short discussion followed in which Ald. Williams remarked that he thought | which he officiated were well attended he had seen the weed growing in the district outside the city as well. Several aldermen spoke of the necessity for getting rid of the thistle pest, and as it was not just known how best to enforce the destruction of the thistles on private Mrs. Walkem acknowledges donations see what powers the city had.

An offer was made by Robert Ward & Co. to store the powder now in the park magazine in their magazine at Esquimalt for \$1 a ton per month.

On the motion that the matter be referred to the park committee to act, Ald. Williams said he would also like to have the letter acknowledged and the writer informed that the council would be very glad if they would take the powder and awav.

The motion was carried.

something was not done to stop the trouble. The motion was carried. The streets committee reported among other things that the tenders for a team

of horses were too high and be not accepted. The report was adopted. The rest of the evening was spent in considering the estimates by-law, which was read a second time and put through the committee stage. The only change in it was to transfer to streets, bridges and sidewalks the \$1,000 which had been intended for the Agricultural association, but will not be needed for that purpose as no exhibition is to be held this

THE TURF.

VANCOUVER'S RACES CRITICISED. R. Stanley, the owner of a California string of horses which participated in the races here a little over a week ago, is back from Vancouver, where he was attending the summer meeting of the Vancouver Jockey Club. He has brought his thoroughbreds with him, and in all probability will stable them a couple of fee will be one dollar per annum and weeks in Victoria before going home. Speaking of the Vancouver races Mr. Stanley says they were fair, considering the poor condition of the track.
"My treatment," said he yesterday

was not of the best, but I must give credit to three of the presiding officials of the track, Mr. J. A. Fullerton, in particular, being a very capable and straightfoward judge. Yet he has a lit-tle to learn in seeing that all handed to our clients as well as to that retained by the city. If this had been suitable for such a gathering, and with done we should not now have to make appropriate music the service was this claim. Application for these plane greatly enjoyed. all educated to win from the start.

The most difficult position to fill is that of starter, but in this particular meeting it was filled by one of the greenest men, I think, that could be ound in British Columbia. After the ridiculous starts made by this man on the first day of the meet he should have been replaced. The secretary, Mr. Robert Leighton, is a very competent and well-posted man as to racing rules, being most obliging and accurate. It would be hard to find his equal in Canada and he was ably assisted by

"Another objection to the races, i vent good horses again visiting Vancouver, except for job work, unless remedied. To get cut down like Elsie was is to give an animal a close call of being ruined for life."

COMING TO THE COA	AST.

The Canmore Baseball Club is contemplating a trip to the Coast to play with the Victoria, Vancouver, Nanaimo, Snohomish, Everett, Seattle, Tacoma, and Portland clubs. They also want to written George Borthwick to find out what arrangements can be made.

THE GUN. SHORT SCORES A SECOND VICTORY. It only remains for Mr. H.N. Short to win another match in the competition for the Victoria Gun Club trophy for the throne, dated in 1882, and forwarded vegetable canner of Picton, Ontario;

Weiler, 9; and C. Becker, 8. Lenfest evened things after a fashion by winning the fourth match in the series of hundred-bird handicap events for the Short cup, in which he received 12 birds. The net scores—taking no account of handi-caps—follows: W. Lenfesty, 68; W. Bickford, 67; O. Weiler, 60; W. H. Adams, 56; E. J. Wall, 54; E. J. Wall, 54; and C. Porter, 45.

HERE AND THERE.

RANDOM NOTES OF ALL SPORTS. The Victoria Wheelmen's Club hold special meeting Thursday evening. Vancouver's lacrosse club will put on a minstrel show during carnival week. The Association footballers of the Terminal City are reorganizing for the season.

About a hundred of the Agassizexcurthe present capable defender of that sionists took their wheels with them, Saturday. It so happened, however, the road was suffering from a bad attack

THE WOMAN'S COUNCIL.

The general meeting of the Local Council of Women held yesterday afternoon in the city hall was in point of atarranged between the two, which was successful held since the date of organisociation, which has now been in opera- took tion eighteen months, showed that the left the last five months, as previous to that time the society had not been able to funds. Of late, however, money has been generously supplied.

The Maternity Home also presented toria club is sending over a specially the work done. During the last two strong delegation to the tourney in the vears 48 patients have been admitted. The pressing need of the institution is at present an increase of revenue, \$298,55 being the deficiency up to July.

Mrs. Taylor, president of the Woman's Council of Winnipeg, was present, and in addressing the meeting congratulated the Victoria council on its success, wishing very much to know how the council succeeded in securing so large an attendance. In speaking on the work of the council, she said that she did not consider that its work lay so much in making sweeping reforms as in educating public sentiment up to the required standard.

Discussion on the formation of reading circles and the methods to be adopted was one of the topics of interest that followed.

The delegate's account of the proceed ing at the third annual meeting of the National Council was read by Mrs. Scaife, the report being an excellent one, embracing very minutely the proceedings of the National Council. The thanks of the council were tendered to the acting delegate, Miss Wilson, for her very comprehensive report.

Mrs. Beaven reported the intention o starting a society for the prevention of cruelty to animals, with the Bishop of Columbia as patron. The membership several ladies have already enrolled themselves as members.

· PUBLIC SCHOOLS

The public schools reopened yesterday for the autumn term, and the young-sters who during the vacation have had nothing to do but enjoy themselves and lay in a good store of health and strength have returned to their lessons. By the results in the various schools the attendance was even better than usual for a first day. In the Central school fifteen When a horse is left five or six lengths behind naturally he cannot make up the dietange left the cannot make up the dietange left.

Children who had not been at the school about them sufficient solidity to resist before were entered, and at the South the onslaughts of Father Fraser when he october, which will be attended by the dietange left. children who had not been at the school in some respects they might not have Oregon and Idaho, to take place at behind naturally he cannot make up Park there were no fewer than forty. do not include the little children in the primer class. At the High school a new departure has been determined on his own division in all the subjects, but now the arrangement is that Principal getting tired of railway travel to which unions in this province, and he trusted Paul will devote himself chiefly to classics they are not accustomed, and who, how some action would be taken towards and senior mathematics; Mr. Russell to junior mathematics; Mr. Pineo to sciences and English and Mr. Muir to was not very far off the river and the follows: French, bookkeeping and literature.

At the High school, the attendance yesterday was 102. At the Boys' Central, it was by divisions as follows: I, 34; II, 36; III. 46; IV, 42; V, 40; VI, 35; VII, 33; VIII, 32; total—298. The The 449, and the South Park school, 388. At Spring Ridge, the attendance was by divisions: I, 39; II, 37; III, 24; IV, of which are a couple 56; total—156. Sanitary Inspection of the Province With Several Important Suggestions Resulting.

Particular Attention Paid to Towns Old and New in the Mining Centres.

The secretary of the provincial board of health has been engaged this summer in making himself familiar with the ets with this drain, and it has consetowns and villages of the province, with quently been converted into one long a view to intelligently dealing with their of the town. The drain, moreover, has sanitary requirements, and he has just no proper outfall; what sewage is not presented the following report:

VICTORIA, B.C., August 5th, 1896.

Hon. J. H. Turner, Premier, etc.: SIR:-I beg to report that pursuant to your instructions, to make a sanitary in- sent impossible, kitchen water, etc., is spection of the province, I visited the still being allowed to enter; although and Kamloops, as well as the coast water into the drain as, I believe, is be cities and the canneries at Steveston. I ing done, this liquid waste will be more am drafting a detailed report of my ob- rapidly carried away, the drain will servations and the suggestions made re- nevertheless remain a nuisance until a time to sanitary matters. Quite enough garding sanitary matters in each place proper sewer or drain is laid, visited. A copy will be forwarded you I would recommend that the water as soon as possible.

I desire to say in the meantime, however, that the principal sanitary defects which, however, should be sunk in the I desire to say in the meantime, howobserved have arisen in consequence of the pollution of the drinking water, and the improper disposal of household refuse, excreta, etc. As to the first, I may say that within a mile or two of almost every place I visited, except places off the amount of sewage that would in the Fraser river delta, a plentiful supply of wholesenes and the sexual supply of wholesenes are the sexual supply of wholesenes are the sexual supply of the amount of sewage that would enter for a number of years yet. This ply of wholesome water can be obtained at a comparatively small cost. Rossland and Nelson already have a water supply, but the systems need extension. In the case of Rossland, I have already arranged with the secretary of the company to make this extension. A new reservoir will be put in and a small pipe run to supply all the houses in the squatter district. The water supplied y the company I found to be good and free from contamination. The report that mules were stabled in the creek which the reservoir is filled, I found to be incorrect. The water is brought in a flume from another creek miles away from these stables. I shall endeavor to have the Nelson water

company extend their system also. Trail, Sandon, Revelstoke and Kaslo a good public supply will be put in during the summer. In some of the sirable if a suitable system of sewers other towns a public supply ought to be introduced. This could be done either by levying a special rate, as allowed by the health act, or by assuring a water company that clause 21, "Sanitary Regulations, 1896," providing for compulsory use of public supply, would be enforced. The latter would be sufficient encouragement for a company to proceed with the work. The number of houses to be supplied being known, the report of an engineer would show on what terms a company could put in a supply. As to the

disposal of HOUSEHOLD REFUSE.

etc., the trouble everywhere is that there has been no dumping ground where the lect the interest and sinking fund each garbage, etc. could be disposed of. It year by means of a tax, then the only has consequently been left in back yards way would be by private effort. Secor thrown into creeks, or carted a short tion 37, sub-section (2) "Health act, distance and dumped at the roadside 1893," gives power to the Lieutenantnear town. In most of the places vis-ited I got the local health officers to pick and taxes for sanitary purposes; but as out a suitable piece of land a mile or so this evidently means a tax levied from from town where the material can be year to year, and sufficient money could buried in trenches or burned, to which not be raised by one or two years' taxes people will be obliged to have their refuse to pay for a system of sewers. Thereto be removed has caused or will cause vised people to go into the scavenger business in each of the larger towns. In some places it will be necessary that some would be that some compare money be spent in building a short road

With regard to a system of sewerage in the different towns, in my opinion there is no town in the interior where a sewerage system is an absolute necessity at present. If the new sanitary regulations are strictly enforced, the towns will get along almost as well without a system of sewerage until they are very much more thickly populated. The nuisances I observed were, with the exception of those arising from privy pits and the improper disposal of liquid wastes, not such as a system of sewers would do away with. The general use of earth closets will do away with the nuisance from privy-pits, and there are several expedients for the disposal of liquid wastes which can be made entirely satisfactory. I am preparing a pamphlet on the latter subject in which the method recommended is purification by intermittent application to the soil. Fortunately in all of the towns of the interior the soil is of a gravelly nature and very porous: and as few wells are in use even carelessness in the method of application will not result in contamination of well water. The method in its simplest form consists in disposing of the liquid wastes on different portions of the garden or lot instead of throwing them on one spot near the back door where they saturate the soil, sink into wells and produce offensive effluvia. In case of most of the houses there is sufficient available land for this purpose, but in some of the towns there are certain crowded or growing districts where it will be necessary either at once or very shortly to put in a drain or sewer to carry off the wash water, kitchen water, slops, etc. The mains and branches should be of proper sewer pipe, unless brick should prove to be cheaper. These drains ought to be so constructed that they may afterwards form part of any sewerage system constructed. Until a proper system of sewers is put in with means of the sewage no water closets should be allowed to be

> urther to say on the matter. box drains or flumes to what they preach.

reek a few hundred yards to the right. The waters in these creeks are very much polluted and in many places stag-nant water is to be found. At Nelson an I believe, the fever could be traced to earthen sewer pipe or brick drain should be laid down Ward gully. At present a wooden box drain runs down the gully, which, owing to its condition and the use it has been put to, I have to report as a most serious menace to the public ditches only to be caught on the banks health. The drain which is practically further down, and sometimes from the an open one (as the top boards have in many places been removed), is leaky and cannot be properly flushed. Instead of being sunk in the ground it is raised on trestle-work several feet in the air duction of a and thus exposed to the glare of the sun it becomes most offensive. Several houses have lately connected water-closretained in the drain is carried down and deposited behind the courthouse. I ordered the water-closets to be disconnected and proper earth closets substituted. Because other disposal is at pre-

towns of West Kootenay and Vernon by making a better dam to divert more which naturally flows down the gully ground. No sewage of any description should be allowed to enter into this flume. A small sewer-pipe should be laid; a nine-inch pipe would be sufficient, as the fall is pretty steep, to carry enter for a number of years yet. This sewer would run through about blocks when the effluent could be irrigated over a garden or piece of land some little distance back of the courthouse. If this were correctly done no nuisance would arise. By carrying this sewer on a few hundred yards to the left sufficient land could be made available to purify the sewage of the entire Householders wishing to contown. nect with this sewer would have to lay proper pipe house drains, instead of the box-drains at present in use. Branches could be run along the main streets and paid for on the local improvement

> While, as I have said, there is at present no absolute necessity for a complete system of sewers in any of these towns, some of them are growing at such a rate that it would be extremely decould be put in at once. But in most cases it would be a matter of considerable expense. An estimate of the cost would have to be made by an engineer; when this was received, some proposi-tion could be submitted to the ratepay-

For a work of this magnitude a large sum of money would have to be available to pay for the sewers at the time of building. If the place were a municipality debentures could be issued and the cost spread over a number of years. But as these towns are all unincorporated, unless the government is in a position to advance the money and colremoved. The fact that the material has fore unless some other means can be de-

THE SIMPLEST WAY monthly rental for the use of the sewers nature. Then after the profits are deeded by panies. Since under clause 29 "Santherman be made" the profits are deeded by panies. Since under clause 29 "Santherman beard which is then obliged to keep calculation could be made as to the amount to be received by a reasonable rental. An estimate by an engineer would give the probable cost of putting in the system; so that it could soon be determined on what terms a company could do the work. In the event of the towns becoming incorporated in case.

blamed for not putting in a sewerage system; every case of fever and every bad smell in the place is attributed to the heaps of garbage and rubbish, manure piles, unclean closets, pig pens, etc., or from the refuse thrown into creeks and which a remedy has already been pointed

WHOLESOME WATER SUPPLY,

in places where a supply is not feasible, then the prevention of the pollution of the existing supply. It is also necessary that the new Sanitary Regulations which provide for the proper disposal of all waste material should be strictly enforced. If this is done the nuisances referred to will disappear.

For the purpose of enforcing these matters are placed on a desirable footing, that some of the provincial policeat least two-be assigned to the special duties of

These officers should be properly inwill be found for them to do. They would travel from place to place spending a few weeks in each at a time. During their absence the resident officials could see that their more important in-But to restructions were carried out. quire the present officials to do more than this or the whole work is expecting too much. Most of the government officials, in West Kootenay at any rate, already seem to have their hands full, and, if left to them entirely, the sanitary work could not be satisactorily done. Sanitary work, moreover, is of a special nature and not everyone is fitted for it. Unless the official goes about his fore recommend that the officers selected be men of considerable tact who will always rather conciliate than antagonize.

Another menace to public health lies in the fact that in some of the towns squatters have crowded so closely together that only with the greatest difficulty. culty will these congested districts be fare of their towns. I believe that a Rossland only one street of the townsite is built upon, most of the other houses advantage from out the numbers of adjoining, and are so closely packed together that bad sanitary conditions ex-

ist. The district goes by the not inap-propriate name of "sour dough." Houses are built in backyards of other lwellings or in vacant spaces intended claimants of this land were notified to ers, and if approved could be carried buildings. People were using water from a creek flowing through this portion of the town. This was prevented, and water-sellers were directed to take water from the public hydrants. Some means of preventing such a state of affairs should be devised. Squatters should be made to keep a certain distance apart, out the province. The regulations health officers that in order to prevent a under the general powers of the Health Act.

were owned by the government.

TOWNSITE OWNERS

are much more likely to devote their atmonthly rental for the use of the sewers nature. Then after the profits have individuals under the regulations, and itary regulations, 1896," the local board ment, which is then obliged to keep of health can compel owners to connect their houses with the sewers, a definite ment had the selling of the lots in the calculation could be made as to the first place the transaction would have towns becoming incorporated, in case the government shall have advanced the towns the streets are far too narmoney, the act of incorporation could provide that any existing liabilities must where lanes allowing of entrance to the back of the premises have been planned A work of this sort being, to a great for. Further, in some cases the lots are extent, of the nature of a local improvement, should, of course, be paid for by the people immediately benefited. It is in this way that such works are carried out in other parts of the continent. In almost as much is received for a small municipalities it is of course and almost as much is received for a small municipalities it is of course customary that some aid be given out of the general revenue towards any extensive work such as a sewerage system. As almost as much is received for a small edies have been called into conflict with many a desperate enemy, but the case is yet to be recorded where they have not come out the victor. If we take South work such as a sewerage system. As the trades and liquor licenses, real property tax, fines, etc., which would go to make up this revenue if the place were made it would make a great difference material for the health or comfort of future inhabpatients who have been cured by it reads like a fairy tale. to the coast. Of course many of these ills are incident to a growing country, but some action should be taken in this

matter without delay. Although a matter affecting only the polluted drinking water, and the bad welfare of a class, I desire to bring to smells could be shown to arise from your attention the manner in which paralytics and other

INCURABLE PATIENTS

are treated in this province. For want further down, and sometimes from the of other accommodation these patients improper disposal of liquid wastes, for are put into one of the homes for old men or kept in the lock-ups. Either a home for incurables should be provided The work of importance is the intro- or some arrangement should be made with some of the hospitals that these cases should receive the care they re quire. This is, however, a matter that affects city municipalities more particularly.

A matter of somewhat the same naof suicide in the lock-ups, arising probably from the facility with which a pershould be provided in each of the city nospitals in which to place for the time being those suffering from insanity. The principle of treating the insane as crimnals is wrong and should no longer be allowed in practice.

There are some matters in relation to but a committee of the board is prepar ng a pamphlet on this subject which will shortly be considered.

A number of other matters were brought under my consideration while was away, but they are not of such pres sing importance, and are chiefly of such a character that they can be dealt with either by myself or by the board.

I believe that my trip will be productive of much good. Certainly I am work in an efficient manner very little of the requirements of the towns visited now in a much better position to judge and to understand any future correspondence I shall have from places in the interior. I may also say that the importance of my visit was everywhere acknowledged, that I was cordially refound a number of men who take conlocal board of health, consisting of three these men. This is a matter, however,

that will have to be dealt with later on A great deal of work will naturally arise out of my trip. In fact since the board has been established the amount of work has been steadily increasing for streets. Stables and pigsties are in that there is a central authority on close proximity to dwelling-houses. The health matters many important probremove some of the more unsanitary board, as well as many minor points in lems are being constantly referred to the sanitation. Before long the provincial board of health will undo btedly be generally considered a useful and economic institution. That there is abundant work for such a board can not be denied by anyone who has inquired at all into the sanitary conditions existing throughready prepared will, if properly ennuisance they might make such an order the various pamphlets on sanitary topics, infectious disease, etc., in course of preparation will certainly prove of From a sanitary point of view these great assistance to people in dealing towns could be much more easily man- with these matters. These pamphlets aged if in these new places springing up throughout the country, the townsite understood by the lay mind, and will contain a summary of the latest scientific knowledge regarding the subjects treated of. Some of them will be shortly ready for distribution. In the meantention to selling lots than to improving time I should recommend that a brief streets, making drains, etc. The purchasers finding that they can get nothing from the former owners begin to would be that some company should agitate the government's making streets, this purpose I shall prepare short extracts showing the duties devolving upon

these I hope may soon be published. I have the honor to be, sir, you bedient servant, A. T. WATT, Secretary Provincial Board of Health

That Has Won in Every Conflict-The Three Great South American Remedies Never Fail in the Cure of Rheumatism, Kidney Disease and the Worst Forms of Indigestion.

RIVER MINING

With the various dredging machinery now either in operation or being built or set up for work on the Fraser and Quesnelle, the various black sand machines now being operated, one near Spence's Bridge and one at Westminster, it would seem as though river mining was receiving its full share of attention. The only cheering news so far for dredgers is the report from Ques-nelle of the Pittsburgh company's authoritatively, to be doing well. We are informed by Mr. Morgan, the president of the company, which is composed of wealthy Pittsburgh and Pennsylvania men, that as soon as the one now in operation is thoroughly tested and found, as now seems probable, a success, the company will begin at once building another for use in the same California, chairman of the silver comsection. If one patent is a success it mission, was found dead to-day under cirgoes without saying that there will be cumstances which lead to a susdozens of dredgers built and millions of picion of foul play. He had dozens of dredgers built and millions of picion of foul play. Black sand machines, like dredgers, need to be better known before the statements of the patentees can be accented. If practical application be accepted. If practical application shows them to be a success the black sand gold mining will be an important feature from now on in British Columbia.

Surrounded as Quesnelle is by hydraulic mines, being on the wagon road to Bar-kerville and all other points above, the headquarters for the Omineca and Peace river country, many good ranches now being tilled and more being located and cleared up to be ready soon for crops of various kinds, good timber, a pleasant summer climate and pleasant (although cold) in the winter, and if the dredgers make the success in mining that is hoped for—see us grow.

The Law claim is shut down on ac

count of water, and it is now proposed about September 1 to start a drive from Baker creek bed which will tap the old a good depth and give drain age. Mr. Law will himself be in Ques-nelle after the latter part of this month

D. H. Beyer and Geo. Rhodes brought in some wery good looking quartz from the Beaver river section, near the junction of Beaver and Quesnelle. The ledge is large and shows up well; a sack of the ore has been forwarded to Westminster for sampling, and it will, if fair returns are shown, make prospecting for quartz the order of the day.

Mr. Baker, the engineer who has spent some weeks surveying the big ditch from the Cottonwood to the Palmer and Deacon claims, is now below awaiting instructions from his company. It is reported that Mr. Baker considers the proposition of making the fourteen mile ditch entirely feasible and has recommended its being made.

BARKERVILLE.

S. J. Marsn has commenced operations in the reduction works. The mill is now in full swing.
It is rumored that the Island Moun-

tain will commence operations soon. J. D. MacIntosh, of Soda Creek, is in town to take charge of the work. Most of the miners have nearly fin-

ished cleaning up and all report favorable results. Mr. Newton cleaned up 354 ounces ast week on the old Jenkins claim on Stout's Gulch, about one mile out of Barkerville. It is worked only about two months every season on account of

shortage of water. The original owners of this claim, the Winthrop brothers, take possession again on September 1. Chas. Paulson, of the Black Jack Hydraulic Co., on Williams Creek, opposite Barkerville, has cleaned up 100 ounces and expects 150 ounces more when they are through. This claim was supposed to have been worked out years ago. The Flynn Bros., on Mosquito creek

have cleaned up about 300 ounces. Mr. Winthrop, at the mouth of Stout's gulch, has cleaned up 75 ounces, and vill be busy for ten or fifteen days yet. He has also bonded a quartz claim for \$20,000 for one year.

Vice Chancellor Sir W. Page Wood stated publicly in court that Dr. J. Collis Browns was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was undoubtedly the inventor of Chlorodyne, that the whole story of the

eeded without difficulty, pr Veith & Borland's train; but with by Veith & Borland's train; but the crossing the trouble began and each day from this on a large gang of men with axes and saws were kept hard at work clearing out the masses of fallen timber which crossed and recrossed the trail, in many places to a depth of 6 to 8 feet, and not a single day passed but what called for their labors. Fortunately, from Stuart's lake, a distance of about 150 miles, a splendid bottom was found, and the trail now presents the appearance of a good wagon road from 25 to 30 feet wide. Counting the Fraser river at Quesnelle six waters in all were rafted in the following order: Fraser river, Mud river, Tsincut lake, Nechaco river, Stuart's lake, and last, but not least, Nation lake. The feed and the mines of the famous Cariboo dis- water were excellent, and at every camp but one the animals were well provided with these very necessary requisites. The the care of insane patients. These are will take advantage of the opportunity the balance of the advance party have been busy since their arrival on the 6th of June. They report the trip from Hazleton to have been an exceptionally hard one.

INTERNATIONAL ARBITRATION.

[(From the August Century.)

The action of trades unions on both The interest of all men engaged in industry has long been opposed to war. Capihas attracted so many other companies tal is wasted at an appalling rate by the of employers. War, as it were, sterilizes the earth. The workingman finds himself in a less fruitful environment, be-cause of the reduction in the outfit of working appliances that war occasions You cannot beat the pruning-hooks of the world into swords and still gather as much wheat as before. Wealth-creating power shrinks and wages fall by reason of such wastes. Debts that have to be paid by indirect ta ation press disproportionate'y on workingmen. It is always laborers more than others who have nelle of the Pittsburgh company's to face muskets; they are the rank and dredger, which is said, but not yet file of armies. Even if they keep out of the field they suffer by inflated prices. Goods are dear in time of war; measured in commodities, wages were at their lowest in 1865.

A WASHINGTON MURDER.

Washington, Aug. 10.—A. W. Pile, of

WINNIPEG, Aug. 10.—(Special)—Sir Roderick Cameron, banker of New York, is here with his daughters en route to the Kootenay country. Sir Roderick was an early pioneer of the Red River settlement, and is largely interested in railways and lands in Alberta and Assiniboia.

Letters Come.

Letters come day by day telling us that this person has cured of dyspepsia, that person of Bad Pt another of Headache, still another

of Biliousness, and yet others of various complaints of the Stomach, Liver. Bowels or Blood, all through the intelligent use of Burdock Blood Bitters.

It is the voice of the people recognizing the fact that Burdock Blood Bitters cures all diseases of the

Stomach, Liver, Bowels and Blood. Mr. T. G. Ludlow, 334 Colborne Street. Brantford, Ont., says: During seven years prior to 1886, my wife was sick all the time with violent headaches. Her head was so hot that it felt like burning up. She was weak, run down, and so feeble that she could hardly do anything, and so nervous that the least noise startled her. Night or day she could not rest and life was a misery to her. I tried all kinds of medicines and treatment for her but she steadily grew worse until I bought six bottles of Burdock Blood Bitters from C. Stork & Son, of Brampton, Ont., for which I paid \$5.00, and it was the best investment I ever made in my life. Mrs. Ludlow took four out of the six bottlesthere was no need of the other two, for those four bottles made her a strong, healthy woman, and removed every ailment from which she had suffered, and she enjoyed the most vigorous health. That five dollars saved me lots of money in medicine and attendance thereafter, and better than that it made home a comfort to me.

THE argument on the application of the country for thirty years. the Horsefly Gold Mining Co. for an injunction against the Horsefly Hydraulic Co. was heard by Mr. Justice Drake yesterday, Mr. L. Crease appearing for the application and Mr. John Campbell, contra. On August 1, the Horsefly Gold Mining Co. obtained an injunction against the Horsefly Hydraulic Co., restraining them from damming back the water in the lakes above the respective claims of both companies. This injunction was dismissed by Mr. Justice Walkem, as it had been obtained without proper notice to the Horsefly Hydraulic Co. Notice of another application for injunction was immediately given by the Horsefly Gold Mining Co., and yesterday this was argued on its merits. Mr. Justice Drake dismissed were overturned and four men narrowly the application on the ground that the affidavits were too vague.

DR. ALEXANDER LOUIS PREVOST, Seattle, is taking steps towards bringing an action against the City of Victoria and the Consolidated Railway Company for the death of Mrs. Prevost who was one of the victims of the Point Ellice bridge disaster. Dr. Prevost has been appointed by the courts here and in Seattle as administrator of his wife's estate, and on the part of himself and his little son and daughter, he is through Mr. S. Perry Mills, his legal adviser, taking proceedings to institute an action against the city and the tramway. Letters have been received by both these parties from Mr. Mills stating that Dr. Prevost claims \$50,000 damages for the death of his wife, and intimating that the letters are sent for the purpose of giving an opportunity for a settlement before the action is taken. Dr. Prevost's young son is now at Santa Clara college and the little girl is being educated at the convent at Seattle. Other suits by the relatives of victims of the bridge accident are in course of preparation

HAD INDIGESTION!

For a Matter of Some Forty Years or More.

Joseph Gardner, stove dealer, of Bath Ontario, is a great believer in Dr. Chase's Kidney-Liver Pills for indigestion, constipation, dyspepsia, Bright's disease, rheumatism, and kidney, liver and stomach troubles generally.

"I was troubled for over forty years with indirection."

indigestion and constipation," he writes.
"At intervals I suffered from severe headache. I spent dollars and dollars without result until Mr. Ball, our druggist, advised me to try Chase's Kidney-Liver Pills. I did so, and must say that they are the only remedy that gave me relief. I would not be without them for anything." Many people suffer from rheumatism.

Bad blood and diseased kidneys bring it
on. Dr. Chase's Kidney-Liver Pills will re-

sample case:

"My boy was all crippled up and suffered awfully with rheumatism," writes Mrs.
H. Wills, of Chesley, Ont. "He also had a touch of diabetes. The doctors could do him no good, but Dr. Chase's Kidney-Liver Pilis completely cured him."
Sold by all dealers and Edmanson, Bates & Co., Toronto. 25 c.

When all other remedies fail Dr. Chase's Linseed and Turpontine will cure the worst chronic cold. 25c. jy10-dy&wy

The Mysterious Winnipeg Balloon Is Now Reported From the Skeena.

Seen at Hazelton on July 3 and Mistaken for Andree's.

The mystery of that ghostly balloon that passed over the city of Winnipeg on the 1st of July last-and which the majority of readers took to be a mere creation of some over-heated imagination-was considerably intensified vesterday upon the receipt of an official intimation from Indian Agent Loring, who is stationed at Hazelton on the Skeena. of the passing over that far northern part of the world, just two days later, Splendid Sea Boat and Nicely of a similar airship. This word comes in two separate reports to Mr. A. W. Vowell, superintendent of Indian affairs, who by request of the Swedish govern-ment had notified each of the numerous agents under his jurisdiction to ent information, even left Northern Noras yet unsolved.

The first report to Mr. Vowell bears date of July 3, and is in full as follows: HAZELTON, July 3, 1896. A. V. Vowell, Superintendent of Indian

Affairs, Victoria, B. C .: SIR:-I have the honor to report that this day at 7:35 p.m. (local time), an object by description in shape of a balloon was seen by a boy about four miles to the west of here (Lat. 55 degress and 15 minutes, Long. 127 degrees and minutes)

At the time there was a strong north northwest wind. It was seen to emerge from out of a heavy bank of white clouds. swerving in at an intermediate clear space in a semi-circluar line to disappear in another at an altitude of about 400 feet above the timber line on the mountains. It had a black appearance, having been seen between the setting sun. The boy's description of the balloon and its actions, leaves no doubt as to its reality, and is no doubt the Andre balloon expected to have left Spitzbergen for the North Pole on the 1st instant. I have the honor to be, sir, your obedient

servant. R. E. LORING. (Sd.) Indian Agent. The discredit which would naturally be cast upon such a report, based only on the story of an Indian boy, is removed by the second report, mailed one week later, and to the following effect:

HAZELTON, B.C., July 10, 1896. W. Vowell, Supt. Indian Affairs, Victoria:

SIR:-I have the honor to report this information received this day by Ghail, head chief of Kitspioux, that while trapping with a party of Indians on Black Water lake, above the head waters of the Skeena, an object resembling a balloon, and then displaying very bright lights, was seen by them on the evening of the same day as before mentioned (the 3rd inst.) in a nearly northerly course. Ghail, whom you know, is a trustworthy man, and his statement is to be credited.

The Indians on the Skeena were made aware that they were liable to see, during the beginning of this month, a balloon going north, and of the purpose of its occupants, etc., and to report to me anything noticed by them of that de-

I have the honor to be, sir, Your obedient servant, R. E LORING. Indian Agent.

In connection with Prof. Andree and his plans for reaching the long-sought North Pole by balloon, it is stated by the Associated Press that he has postponed his trip until next year, and shipped his balloon back to Norway. In the same connection the Colonist's special correing nearer the North Pole, they are f teen degrees further south of it in Bri Columbia than when they left 8

F., last evening, the members and with the result above stated, so far as visiting brethren adjourned to the library, where they were treated to coffee, cake and fruit. On returning to the lodge room an impromptu programme was rendered by Bros. J. ckson piano), McArthur, Collins, Stephens, Meldram and Sabine, and a very enjoyable hour spent by those present.

Mr. J. E. Bridgman has resigned his position as organist of St. John's for the urpose of becoming a pupil of Dr. Bridge, the eminent composer and organist at Chester cathedral, England. Mr. Bridgman's organ recitals will be greatly missed in Victoria, but under Dr. Bridge he will have far better opportunity of perfecting his musical knowledge than would be possible here. He leaves for England on the 24th, travelling by way of the lakes and New

An interesting meeting of the Y.W.C. T.U. was held yesterday evening under the presidency of Mrs. Joseph Spencer, at which the following were elected as delegates to the provincial W.C.T.U.

prospered for a long time as one of the most successful ward politicians and private detectives of the Sound country. Then he became infatuated with variety performer whom he followed to this city—forged a check and nego-tiated the fraudulent paper—and was shortly after arrested. His health broke down entirely while he was incarcerated and he was never brought to trial.

THE Salvation Army last night gave hearty welcome to their new distric officer, Adjutant Clark, who has come to replace Adjutant Macdonald, the lat ter being transferred on account of ill health. The new adjutant is a bright energetic soldier, who has already done good service in Manitoba and other places where he has been stationed, and his experience fits him well for the position he has just assumed. Last even ing's welcome was after the usual Army style, an open air service first, and then a service of song and praise in the barracks. Mrs. Clark, the adjutant's wife who possesses a very pleasing voice, sang several solos during the evening.

YESTERDAY Messrs. Norman McLean of McLean Bros., Vancouver; D. G. Macdonell, and J. C. McLagan, of Vancouver, waited on the provincial executive for the purpose of giving explanations with regard to the proposed Victoria, Vancouver & Eastern railway, for which charters are to be sought from the Province and the Dominion. The route and objects of the road were published a short time ago when Mr. Mc-Lean was last in Victoria. The government were not asked for anything, but simply had the details of the scheme described to them. Mr. McLean in speaking of the road last night said would be of great benefit in bring ing to the Coast towns a great deal o the trade of the Lower Kootenay coun

try that now goes to the United States MR. R. M. HORNE-PAYNE, the chairan, and Mr. R. Jamieson, engineer, of Lillooet, Fraser River & Cariboo ifields, Ltd., have just arrived in the ining interests are located, and esent guests at the Driard. In o an item published in las at his company paid \$100, rant, McKinnon & Taylo af and Maple Leaf claim the Mail had it. Th these properties will be without delay, contracts een let for the construcope tramway and of the Ir. Horne-Payne's comark (which is now down 400 feet), the Isabella, the Red Fox and four other good claims, the former proprietors retaining a one-third interest, and the tinue development work.

TESTERDAY Saw a further adjournment for four weeks of all cases listed for hearing in the Small Debts court. By the expiration of the month it is Siamese twins. The united girls were not, however, the only peculiarity of the remarkable birth. They were but two of triplets, the third member of the little party being a boy, who, according to the Foulkes should be sent to represent Canand three perfectly formed arms. "Naturally," the News continues, "thousands of inquisitive natives were attracted to Yang's house, their aim being to view the prodigies, and the parents, filled with superstitious fancies and regarding their offspring as monstrosi-ties, strangled the little unfortunates and buried them. The British consular agent urged that they should be arrested and punished, but the authorities de-

> DISAPPEARANCE OF THE "TON-QUIN."

quin and other subjects, examining during several years every tribe, and all the important men in every tribe,

the Tonquin is concerned.
Captain Walbran's "witness" is an Indian of a subsequent generation, whose father probably first heard of the supposed details of the loss of the Tonquin from us, and made them the subject of a winter evening story, now further embellished.

My own theory—suggested merely because no other fits the circumstances-

Foulkes Entered for the American Championship-A Chance to Show Enthusiasm.

Winnipeg's Four Oars the Continental Champions - McNeill's Gold Medal Crew.

COLONIST that tennis champion J. F. Tennis Club in particular at the great international tournament opening at Niagara-on-the-Lake on the 25th inst., of victory. has found immediate favor with all interested in tennis and admirers of the Dominion's premier exponent of its beauties. It was ascertained yesterday that Mr. Foulkes can obtain the necessary leave of absence, and the smoothing out of the small financial difficulty in the way now alone remains to be accomplished—for no one could expect Mr. Foulkes to personally defray the expenses of a trip of this nature, To the Editor:—Washington Irving's especially so long a one, from account of the disappearance of the Ton-his own pocket book. If each loter of the Presbyterian church for the parish of St. Andrew's. This being the first quin interests everybody, and it particutennis who desires to see the club repregarly interested me when, thirty-six sented by its champion where he will far west the event was, of course, looked years ago, I was dumped down on the have opportunity to try his skill against upon with the greater interest. There have opportunity to try his skill against upon with the Preshytery REV. E. P. Hearnden, of the Foreign Christian Missionary Society—who visited this city about three years ago—is the fate. I once fancied that Klah-o-idental expenses, the entire matter is the foreign contribute a few dollars toward the incidental expenses, the entire matter is the longy, of Knox college, Toronto; Rev. Dr. McKay, send Rev. Dr. finally concluded that the Tonquin was been drowned on the 10th of last month while fording a stream at Chuchow, near Nanking. Up to the 13th his body had not been recovered. He leaves a widow, formerly Miss Brunton of Shangnai.

The children of the Protestant Orphans' Homehad a pleasant outing at Foul Bay yesterday, where they were the guests of a number of ladies who are spending the summer there. The disposal of the children to take them from the Fountain to Charles street in the morning, and brought them back again at 5 o'clock in the evening.

In atter is short, but fully relying on the club "coming forward" during to-day and to-morrow, Secretary Lampman and to-morrow, Secretary Lampman and to-morrow, Secretary Lampman and to-morrow, Secretary of the great club "coming forward" during to-day and to-morrow, Secretary Lampman and to-morrow, Secretary of the great club "coming forward" during to-day and to-morrow, Secretary Lampman and to-morrow, Secretary of the parish of Westray, Scotland. The presbytery in the first place proceeded to the examination of Mr. Tsulve of the same of the search of the secretary of the great international tournament, being also asked to secure a good partner for him international tournament, being also asked to secure a good partner for him in the mixed doubles. Two hundred dollars will fully cover the expenses of the trip, and any lover of tennis who language colloquially, and were singularly qualified for the investigation of indian matters. Ethnology was our pastime, but we inquired, also, about the Tonquin and other subjects, examining during to-day during to-day during to-day in the club "coming forward" during to-day during to-day in the club "coming forward" during to-day during to-day in the club "coming forward" during to-day and to-morrow, Secretary Lampman and to-morrow, Se should be made as quickly as possible. Last evening the champion went over to of similar advice to the congregation by

players in attendance are Messrs. Combe,

WINNIPEGS CHAMPIONS OF AMERICA.

ROBERT EHMAN, of Seattle, more generally known as "Big Bob Ehman," is dead, the career being thereby closed of a man who has been in many ways of a man who has been in many ways and the Coast. Ehman The retail quotations are:

| Downline of Seattle, more caption of salmon, fish are decidedly browell, of Chicago, and F. H. Thompson and E. A. Thompson, both of Toronto, worship and the greatly increased attendance on public caught, but because the fishermen have onto. F. H. Thompson caught the water first and went away to the front, wingregations of the people. They had been analysis of the people. They had been an all been away at the canneries.

The fifth event was the intermediate eight-oared shell race, in which the starters were the New York Athletic and the Laureate boat club of Troy. The New York Athletic Club won the race by one length; time 8:26.

The four-oared senior race was won by Winnipeg, the starters being: Winnipeg, New York Athletics, Wyandotte, Argonauts and Institute. The New York Athletics got the best of the start, but the Winnipegs led at the half mile. The Winnipegs turned first, the others turning together. Coming home the Winnipegs drew away and crossed the line five lengths ahead. The Institutes were secsory, and the only hope of success lies ond, Wyandottes third, and New York Athletics fourth. No time given.

starters were: Crescents, Pennsylvania
Barge Club, New York Athletics and
Vespers. The New York Athletics won,
Pennsylvania second, Vespers third. No

Winnipeg, Aug. 12.—(Special)—Winnipeg and the citizens generally went wild with delight when the news was received from Saratoga this afternoon that the Winnipeg senior four had again captured the American championship at as far as possible differences of opinion the National regatta at Sarstoga. The upon minor points, and let each one boys will be given a grand welcome on their return, and if possible it is intended their return, and if possible it is intended the great cause of their common Father to enter the crew for the Henley regatta and Redeemer.

AT BELLEVILLE. al races were postponed on account of congregation and for having so kindly the high wind, with the exception of the agreed to act as moderator of session in four-oared race of three-fourths of a mile the absence of an ordained minister. with turn. The English crew won by Mr. Hills, representative elder for Alabout a boat length.

The first four-oared race in the third of the club series was rowed between two crews of the J.B.A.A. last night, the course being from the match factory to the club house, a distance of a mile straightaway. The crews were: J. S. McNeill (stroke), W. Grant, P. B. for his success in the new sphere of labor (stroke), F. Norris, A. Davey and C. HAMILTON, Aug. 11.—Mrs. Awrey,

eiger (bow).

next race of the series takes place on the CHIIDO 25th instant, and all members of the club who wish to take part should send in their names at once. These club races are doing excellent work in bringing out the younger class of oarsmen and giving Mutiny Again Reported on the Seal-

LACROSSE.

THE GRAND STAND WILL BE READY. VANCOUVER, Aug. 12—(Special)—Men are working at the new grand stand at Brockton Point, which will be covered and have a larger seating capacity than the old one. It will be ready for next Saturday's match between the Vancouver and Westminster lacrosse teams. This match will be a most interesting The suggestion made in yesterday's one to look at, as the Vancouvers, realizing that they had a fighting chance for premiership, have been practising ada in general and the Victoria Lawn steadily, and are in better shape than the Royal City team are also in the pink of condition, and feel equally confident

ORDINATION AT ALBERNI.

First Visit of the Presbytery to the Centre of Gold Mining on This Island-A Bright Outlook.

Alberni, the present centre of the gold mining industry in Vancouver island, was on Tuesday the scene of a most interesting ceremony, this being the ordination of a minister of the Canatime the Presbytery have ventured so foreign mission committee, and Rev. evening, all contributions to the fund in a most practical and impressive manner, which was followed by a few words Tacoma, where the sixth annual tourna- Mr. Winchester. Tramp Steamers Crowding Out the Sailing Ships-Connection With Hawaii.

The present seems to be an uniortu nate year for the schooner Florence M. Smith, so far at least as the relations between captain and crew are concerned. they have been for two seasons, while There was a meeting on board while the vessel was hunting on the Japanese coast in the earlier part of the season and several of the schooner's company were arrested and imprisoned in consequence of their defiance of Captain McGraw's authority. It would naturally be thought that this lesson would prevent a recurrence of the cause of complaint, for the remainder of the cruise at all events. Such appears not to have been the case, however, for in a letter received from Captain H. F. Siewerd, of the Dora Siewerd, that well known sealer speaks of a second mutiny on the Smith while she was on her way from the Asiatic side to Ounalaska. was there that the vessels of both the Japan and British Columbia coast fleets rendezvoused prior to entering Behring sea, and there on the 29th of last month were last month were gathered the Smith, Triumph, Allie I. Alger, Agnes Macdonald and E. B. Marvin, with others from the Japanese hunting grounds, and all the schoon-

ers forming the Coast fleet—forty or more in all. The Siewerd had had transferred to her from the Mascot the latter's entire catch, amounting to but 192 skins, and Captain Siewerd, in a letter to his owners, mentions this, and then notes with surprise that none of the patrol fleet of warships had called in at Ounalaska even at that late date-s circumstance to be specially regretted in view of the second trouble on the Smith No details are given of the trouble further than the reference to it as a second mutiny, nor have any been received by Captain Kelly, the owner, to whom it would naturally have been Captain Mc-Graw's desire to report at the first possible opportunity.

THE DAYS OF THE SAILERS NUMBERED. The field of the tramp steamship's usefulness appears to be constantly widening, and as first one and then another branch of trade hitherto sacred to the sailing ships slips from their grasp, every occupation for the sailers appears destined to be gone at no very distant date. In fact one prophet ventures the prediction that ten years hence a sailing craft in any important commerce will be regarded as a marine curiosity. This autumn the sailing ship has disappeared from the tea trade, another important milestone being thus passed on its voyage toward obscurity. Now it is an nounced that steamers are offering for U. K. grain cargoes in San Francisco at 27.6—a rate almost paralleling that of the sailers and which will enable the tramps to practically monopolize this

PIONEER OF THE NEW LINE. delegates to the provincial W.C.T.U. come more plentiful the prices are some-what lower. Potatoes have dropped half acent in the pound and onions the same. AN OPPORTUNITY MISSED.

To THE EDITOR: -I read the report o the Nanaimo Anti-Chinese meeting with a great deal of interest. The resolutions are models in their way, but it seems to taxpayers' money in entertaining and doing honor to the biggest of all Chinamen, Li Hung Chang. I don't see how these Christian Chinese haters can read with patience the accounts in the papers of the respect paid to a Heathen Chinee by the highest British officials. If a good stiff resolution condemning their conduct had been carried at the Nanaimo meeting Lord Salisbury might take thought and mend. Sympathiser.

LASKER THE CHAMPION.

NUREMBURG, Aug. 10.—One hundred and seventy games of the International chess tournament have been fin-ished, and now only one game and now only one game, which was adjourned in to-day's play, has to be decided. Lasker has won the first prize; Maroczy, second. Pillsbury is sure of tying for the third and fourth prizes. Janovsky wins the fifth, Stein-itz the sixth, and Schlechter and Wal-

Perhaps the most noted feature of the uremburg tournament was the number of young men who contested and the strong showing they make against such veteran masters as Albin, Steihitz, Blackburne, Tschigorin, and Winawer. Emanuel Lasker, the winner of the first prize, is a native of Berucher, Prussia. He is 28 years old.

Paine's Celery Compound.

We must sympathize with, and pity the poor, weary and jaded sufferer whose life is made miserable and almost unbearable in the hot weather in reased agony during these hot days!

The troubles that bring low the majority of people at this season are nervous prostration, nervous debility, dyspepsia, indigestion, headache, and a host of trials that result from impure and poisoned blood.

The above troubles attack men and wo is a periect and unialing restorer of nerve force and power to the weakened and de-bilitated system. It quickly cures pros-trasion, sleeplessness, headache, dyspepsia, indigestion; it cleanses the poisoned blood

and strength.
