

PUBLIC SCHOOL BOARD.
Regular Meeting Last Night—An Important Report From the Management Committee.
The public school board met last night, Chairman Galley presiding. F. S. Spence was in his resignation as head master of Louis street school, which was accepted. The finance committee recommended the payment of accounts amounting to \$400, which were passed.
Mr. McMurich, from the committee on school management, submitted a voluminous report recommending a large number of changes, promotions and transfer of school teachers, and also the appointment of 13 additional teachers. Dr. Wright suggested that as the report was very lengthy and of an important nature, the board should be given time to consider it more fully, and recommended that it be made a special order of business at a meeting to be held to-night. This was agreed to.
The sites and buildings committee recommended the acceptance of tenders for repairs and improvements to the different city schools. Adopted. The committee on supplies recommended the purchase of 282 seats for the different schools. Adopted.
The World has removed to its new office, No. 18 King street east.
Minister's Movements.
Sir Charles Tupper left Ottawa yesterday for Nova Scotia. Sir John and Lady Macdonald and Col. Bernard will leave today for Riviere du Loup. Sir A. T. Galt is at the capital.
Fire Near Coleman's Corners.
A large brick farm house, unoccupied, the property of George Wood of this city, situated near Coleman's Corners, Don and Danforth road, was burned to the ground at a late hour Tuesday night. The River side fire brigade were on hand and exerted itself in preventing the flames from spreading. The loss is \$1200.
"Hot Foot" for the Bums.
"Hot foot" is a favorite application at the wharves at present. The bums from the city get drunk and go down to the wharves and sleep. Yesterday afternoon several of the bums were treated to a liberal dose of "hot foot." The operation consists of waiting the soles of the feet with a heavy club, which has a very salutary effect on the bums.
License Commissioner's Returns.
The following are the returns of the license commission for the month of June: Auctioneers 1, \$25; dogs 1206, \$482.40; express 1, \$2; hawkers 6, \$12.00; cabs 1, \$4.00; miscellaneous 6, \$245.75; violating houses 1, \$80, making a total of returns from licenses \$802.25.
Waterworks Committee.
The waterworks committee met yesterday, Ald. George M. Evans presiding. John Brady appeared before the committee to inquire why he was sent an account of \$164 for four years. It appears that Mr. Brady's account was the water unknown to the department and it was only discovered the other day. Tenders for flooring the engine house were deferred. It was decided not to rebuild a green house at the reservoir.
The Canadian Bank of Commerce.
From the statement of result of the business of the bank for the year ended 27th June, 1920, issued by Mr. W. N. Anderson, the general manager, we learn that the profits of the twelve months, after deducting charges of management and providing for all the contingencies and doubtful debts of the year, amount to \$758,069.92 of this amount \$480,000 is paid in dividends and there has been carried to rest account, \$278,069.92.
His Grievance.
Yesterday a tall English Hebrew named Silverstone came into the World office and said he had presented to the \$5000 Federal bank at that bank and demanded gold therefor, but was offered instead Dominion notes. He said he was a traveller, and that it was gold he wanted, and that the bank should have given it to him through courtesy if nothing else. But it seems the law governs the banks to redeem their notes in gold or Dominion paper.
Police Court Yesterday.
Maggie Thompson appeared in the dock as a vagrant, and a child in her arms. She was sent to the house of correction alias Car charged with larceny of wearing apparel in November last, was remanded till the 11th. George Rose, a small boy, got six hours for stealing a pair of pants. Jane O'Connor was fined \$2 and costs or ten days for assaulting Johanna Shim, both old women. James Eastright and wife assaulted A. F. Heaslip by hitting him on the head with a bottle. Each as fined \$2 and costs or 30 days.
An Old Pensioner's Fall.
George Thorne of Esquimaux came to town on Tuesday to draw his pension, which he did yesterday. At 10 o'clock last night George was found in a precarious position in front street, near Yonge. He was removed to his great pain. He was removed to police headquarters on a stretcher and Dr. Riddell summoned. Examination showed that no bones were broken, although he had a severe fall. "Another case of divine providence's guardianship over an intoxicated man," remarked the doctor as he walked out of the police station.
Beautiful in the Exhibition Grounds.
The exhibition committee met yesterday afternoon, with Ald. Love in the chair. A report was read from a sub-committee to the effect that it would be desirable to erect a greenhouse for the growing of plants for use in beautifying the exhibition grounds. This plan if adopted would furnish plants at a much cheaper rate than they are now bought for, and better satisfaction would be given. The committee estimate the cost of the proposed greenhouse at \$700 or \$800. The funds could be raised by negotiating a mortgage held by the exhibition committee, and the mortgage being set aside for exhibition purposes. Authority for erecting the greenhouse will be asked from council.
"When Have You Been Here Before?"
When Deputy Sheriff Jarvis and Robert Hull delivered into the custody of Warren Oughton at the Kingston penitentiary, Webb and Miller, the snafu thieves recently convicted in this city, they were at once recognized as gentlemen who "had been there before." Very strange to say Miller was sent from Toronto some years ago under the name of Stephens for stealing the deposit book of The Thompson & Co., Minn., which he presented to Mr. Boyton, the hero of the Hoyton suit or swimming dress. He has crossed the English channel and sailed thousands of miles in that suit accompanied by his little iron boat "Baby Mine," which he has presented to Mr. Minn, who in return gave Mr. Boyton the shell "George Warin," which he rowed in at Washington. "Baby Mine" is 30 with a hold of about 10 inches in width and a hold of about 10 inches. In the hold are stored provisions, rowlets and navigating apparatus. The captain has been making these long voyages since 1874. He is giving wonderful aquatic exhibitions at the island.

COOL CLOTHING CONTRIBUTES COMFORT! POPULAR PRICES PROVE PERSUADING.

FACTS FOR THE FRUGAL FOLKS!

1. We exhibit a larger and finer assortment of Summer Clothing for Men, Boys and Children than can be found elsewhere in the city, our stock being fresh and new, and out in latest style.
2. While guaranteeing at all times to give **BETTER VALUE FOR MONEY EXPENDED** than can be obtained at any other clothing house, we are just now offering special inducements in the way of **MARK-DOWN PRICES** in every Department—25 per cent. reduction from our already Low figures.

WHY THIS MARK DOWN?

Simply because we prefer to take advantage of the prevailing warm weather for disposing of all our Summer goods. Some houses content themselves with sticking to regular rates all through the season, and carrying over whatever surplus they goods will be found with us.

The policy we have outlined and adopted calls for a general clearing out of goods as the seasons advance, irrespective of sacrifice or loss, so that succeeding seasons may find us exhibiting nothing but new fabrics and new designs. We are not seeking to-day to clear out broken lots or odds and ends of stock. We have none such. We had a few months ago, but they rapidly disappeared design and color of fabric.

Cotton Goods, Linen Goods, Pongees, Mohairs, and the Lightest fabrics in Cloth await your inspection. We do not keep them on ice, nor in refrigerators, yet they are cool to look at, and cooler still to wear.

OAK HALL, 115, 117, 119, AND 121 KING STREET EAST, OPPOSITE ST. JAMES' CATHEDRAL. LARGEST RETAIL CLOTHING HOUSE IN CANADA.

A Forty Dollar Assault.
In the police court yesterday Maurice Connell was charged with being disorderly on a King street car by striking an old man. The conductor of the car, as well as a policeman, swore to having witnessed the assault, and the prisoner was fined \$40 and costs or forty days. The magistrate said that the next time he would send him to jail without the option of a fine.

Sheep Killed by Vicious Dogs.
John and William Moore and William Fraser were charged in the police court yesterday with being the owners of dogs which killed a number of Allan Crabtree's sheep. Sufficient evidence was put in to satisfy the magistrate that the dogs were owned by the defendants. He fixed the damages at \$70 which the defendants were ordered to pay. Mr. Murphy gave notice of appeal.

Fire and Gas Committee.
Ald. Adamson presided at the committee on fire and gas yesterday. Some discussion took place regarding the lighting of the gas lamps on light evenings, and a sub-committee consisting of Ald. Farley, Maughan and the chairman were named to confer with the consumer's gas company with a view to getting the company to allow for light evenings and not burn the gas. Street lighting for the last quarter is \$11,832. The horse purchase came up and it was decided to make a test of the Eureka, Jacket and Baker hose at 11 a.m. today. The hose will be tried up to burning pressure.

A Wroxceter Girl Missing.
A farmer named McGrover and his daughter Charlotte aged 15, came to the city yesterday on the excursion from Wroxceter yesterday. The girl and her mother went to the boat to take passage for Victoria park. The young lady got on board just as the boat was swinging out, but her father was left on the dock. The father was waiting at the train when it went out at 5 o'clock in the evening, and was far as Weston with it. No trace however could be found of the girl and he returned to town last night, but could get no tidings of the missing girl. Her uncle lives at 179 Church street, and any information of her left there will be thankfully received. Miss McGrover has never been in Toronto before and did not know where her uncle resided or perhaps she would have gone there.

A Suicidal Joke.
About 10 o'clock last night an excited young man ran up to a policeman at King and Yonge streets and requested his presence at 24 James street where his roommate had committed suicide by cutting his throat. When they reached the house it was found that another policeman had got however appeared to be smiling. The latter young man went to his room to look at "he ghostly remains, but to his surprise he found the matter was soon explained that it was only a joke to scare them, and he had put red ink upon his handkerchief and his throat, as well as dipping his razor into the liquid. It is reported that the landlord has "bounced" the clever young man from his house and when last seen at midnight he had not found another boardinghouse.

Boyton, the Lone Navigator.
Captain Paul Boyton, the well-known lone navigator, is visiting Ed. Hanlan, who together with that gentleman, called in the World office yesterday. Mr. Boyton is the hero of the Hoyton suit or swimming dress. He has crossed the English channel and sailed thousands of miles in that suit accompanied by his little iron boat "Baby Mine," which he has presented to Mr. Minn, who in return gave Mr. Boyton the shell "George Warin," which he rowed in at Washington. "Baby Mine" is 30 with a hold of about 10 inches in width and a hold of about 10 inches. In the hold are stored provisions, rowlets and navigating apparatus. The captain has been making these long voyages since 1874. He is giving wonderful aquatic exhibitions at the island.

The Sad Fate of the Old Political Warfare.
The Montreal Gazette has the following in its New York letter: The mutability of human affairs, and the pitifully evanescent character of even political greatness, is exemplified by the sad fate of Nicholas Murray Butler, the two eminent statesman, ex-congressman and ex-ambassador, who were both in one and the same way political through the good graces of Tammany Hall got sent to congress, and received the appointment of minister agent for the British railway company, two very impressive positions as everybody knows. Butler ruled the first ward, ably assisted by Hogan and Shine; he had his picture (a speaking lithograph) hung in every gin-mill in the Bowery. He was somewhat of a lost his grip and leadership, and had to make way for another. Last election he lost his seat in congress. Then strange to say, the Erie company found they had no further use for him, and he is now a ripe politician out of employment. Senator Butler met with a similar fate last November, he, too, was sent to congress, and he realized what has happened, and they both look upon the whole thing, loss of power, influence, and money as a hideous dream. Both are politically as dead as Mark Anthony, and past resurrection. They afford a sad warning to other "war horses," who ought to see in them what their own fate is sure to be.

Bitter Words From a Woman.
Mrs. Parrell spoke at a land league meeting in New York Sunday night. She said: In case England becomes involved in war with the Egyptian question, every Irish man and woman should buy a gun or treacherous look for her majesty's government. Obedience, in my mind, will have all the can do to keep the secret societies straight in force he should get the repression bill in force. The vacation of the Gladstone ministry just now is a part with that played at the time of the American revolution. The ministers seemed to have lost their wits first, and then got mad, and done the very worst thing that could be done under the circumstances.

A Healthy Lesson.
A practical joker has just met with his reward in Lawrence, Mass. He is a barber, and he thought it funny to cut the hair of a simple-minded customer in a ludicrous fashion. He was charged with assault, and has been fined \$50 and costs, with the alternative of going to jail for six months. The police justice who inflicted this sentence deserves to have his salary raised.

A Man Wanted a Horse to Ride at the Annual Fair.
A man wanted a horse to ride at the annual fair. He was asked by a woman, "What do you want?" "No, not very." "Do you want a quiet one?" "No, not very." "What do you want then?" "I want a horse that looks a good more spirited than he really is."

The Innocent at a Yacht Race.
It is by right of precedence that yachts are ranked in order of size. When a yacht "drops astern" does she stop to pick it up?
Couldn't the "bob-stays" be taken for less—say 25 per cent each or so—on getting a quantity?
When sails are trimmed what becomes of the brim-ropes?
Is the measurement of yachts calculated by their "yards"?
Does a yacht "stand out to sea" on her "boom"?
How is it that "race speed" in a yacht is a proof that her running is "well done"?
Are "lead eyes" the result of over-spraying?
Don't yachtsmen catch cold sitting in their vessels "drafts"?
Is it considered gentlemanly to "jibe" a sail?
Is the "boom" of a yacht loud enough to frighten anyone?
Isn't the real "design" of a racing yacht to win as many matches as possible?
And isn't the best time for yachts racing the very worst-time?

Advice to World-Be-composers.
Then you wish to be a composer, do you? A singer of types and an exponent of the inventive genius of the age. We should advise you to study up the habits on the tracks in a hen yard, and the wiggles of anglovers in the sand after a rain, to familiarize yourself with manuscript and get the bearings of ideas represented therein. Then learn the case, all out for first-class come. You will be sure to succeed. No matter what an editor writes you will be equal to the situation. You may astonish him and the readers at the same time, but you will have fulfilled the grand mission of the compositor, to simplify and extend the English language and put words and thoughts into type that are original only with yourself.

Lifted Shadows.
Shadows of each busy hour, Best against it, then on, Ere he falls it seems the shining— When the train chimes gone. So the shades of earth all hover, And our weary heads discover To safe haven for our brains. From the sailor's stony crown, Chime of glory, gleaming brightly, Scatter the anguish'd dews a howl down. Scatter swiftly all the snows, Let the sun's rays be the dawn, Light up the peaceful fields wide, Into which our barque may glide.

GRAND EXCURSION FROM LISTOWEL WILL VISIT THE ZOO! TO-DAY.
Animals fed at 8 p.m. Open from 8 a.m. to 10 p.m. Admission 50 cents. Children 10 cents.
