

A \$20,000.00 Footwear Sale

Last week, in the Montreal market we paid \$20,000.00 net cash for a stock of Men's, Women's, Boys' and Children's high-grade Footwear. They are certainly a beautiful lot of fashionable custom-grade Boots and Oxfords, with plenty of "snap" and style. Brand new 1911 styles such as you will buy to wear for Easter, and on through the Spring and Summer months. The leather used in their manufacture was specially selected for flexibility, firmness, fine finish and wearing qualities. The linings and trimmings are of standard quality. Every pair will give perfect service. These two items will give you an idea of the values. See the others when you come Saturday.

HAMILTON HAPPENINGS

BISHOP'S WISH TO LIE UNDER CATHEDRAL ALTAR

Remains of Rt. Rev. Dr. DuMoulin To Lie in State in the Cathedral.

HAMILTON, March 30.—The remains of the beloved Bishop of Niagara will lie in state in the chancel of Christ's Church Cathedral from Friday evening until 2 o'clock on Saturday afternoon, at which time the funeral will take place. This was decided upon at an emergency meeting of the standing committee of the synod yesterday afternoon.

The public will be admitted to Christ's Church Cathedral to view the remains of the bishop, in state, between the hours of 10 o'clock on Saturday and 1 p.m. on Sunday. It has not yet been definitely decided just where the interment of the bishop's remains will be made. It was his lordship's wish that he be buried beneath the altar of the cathedral, but it is expected that the lay-out of the church will be an obstacle to this until an extension is made, which is expected and planned to be done in the near future. In the meantime, it is likely that the interment will be made in the burying ground immediately back of the cathedral.

It was also decided to notify the Archbishop of Ottawa that a special meeting of the synod would be held in May for the purpose of electing one to fill the vacancy caused by Bishop DuMoulin's death. Special committees elected to attend to the arrangements consist of: Dean Houston, Archdeacons Clark and Fournier, Canon Sullivan, Adam Brown and Chancellor Martin, to make arrangements for the funeral; Canon Howitt, the clergy of the city, and other members of the standing committee to attend to the reception of visitors.

While in state, his lordship's remains will be guarded constantly by the clergy, who will watch from Friday evening until Saturday afternoon in relay.

A meeting of the synod has been called for Thursday next, when a resolu-

lution of sympathy will be presented by a sub-committee. Before the controllers to-day a big deputation of Main-street east property owners appeared and urged that some action be taken at once to try and induce the Hamilton, Grimsby & Beamsville Railway to take its tracks off Main-street and handle the traffic by way of King-street. Although the controllers admitted there was little hope of the company granting the request, they agreed to have a conference at once with the H. G. & B. people.

The latest proposition of the parks board has in view the purchase of Oaklands Park, across the bay. The Controller John Allan lost no time after becoming a member of the board in this was an agitation for the purchase of the park, which it can be bought, although the city a year or so ago, when there was an agitation for the purchase of Oaklands, was informed it was not on the market. The board will do its best now to get an option on this and a number of other properties, which it does not care to mention, so that a by-law for their purchase may be submitted in June.

Ended Life With Poison. Andrew Ferguson, boarding at 648 Parliament-street, took his life yesterday afternoon at that address by drinking a quantity of carbolic acid. He had been drinking for some time, it is said.

Neither relatives nor friends could be located by Chief Constable John Johnson is waiting to hear if any can be found. The body was found in the man's room by James Boy, his landlady. Medical aid was summoned, but without avail.

FIRE IN MATTRESS FACTORY.

Fire of unknown origin damaged the premises and stock of the Marshall Mattress Co. at 21 and 23 Don Esplanade at 3.20 yesterday afternoon. The building, which is a three-story structure, is owned by James Boy, J. McCall. The damage to it was \$200 and to the stock \$600. Both are fully insured.

BOARD OF TRADE HAS 300 NEW MEMBERS

Reports of Captains Indicate Excellent Progress—Sections Now Number 18.

The proposition of the board of trade to take in a thousand new members to increase its representative character, has been received with great interest and enthusiasm. While a number of the captains have not reported, those who have made returns state that they are fully convinced the thousand required will easily be eclipsed within the allotted period of ten days. Of those who have made returns, several have filed from 20 to 25 applications, while others have sent in names from those totals downward, but not one has sent in fewer than six.

Indeed it looks as if it is a race between the captains to see who can send in the largest number. At the same time, care is being taken to get applicants who will worthily represent the city. When the campaign is closed, a general meeting will be held and questions of importance now before the citizens discussed. The board hope in this way to keep a watchful eye over civic concerns and to work in a manner that will tend greatly to the onward march of affairs.

A new committee has been formed to take in commission merchants and manufacturers' agents, with Mr. Jas. Haywood, 22 Scott-st., as captain. To-day members of the board will meet at luncheon at the National Club to talk over affairs, and on Thursday next, J. L. Engelhart, chairman of the T. & N. O. Railway Commission, will deliver an address on "The Northern Country."

In response to several queries, the board desire it to be stated that, as the board ends on Dec. 31, members coming in now will only be charged \$3 instead of the \$12 for the annual fee, or one dollar a month.

It is requested that in order that a record may be kept and duplications avoided, captains will report as frequently as convenient at the board of trade offices.

Up to date close upon three hundred applications have been received, and it is anticipated that before the week closes, fully half the number required within the ten days will have been secured.

Health Officer Resigns.

LICENSE RENEWALS TO COME UP APRIL 30

Preparation Being Made For Battle Royal—Commissioner Lamb Attacks Irish Club.

Thursday, April 20, is the date fixed by the board of license commissioners yesterday, for the consideration of applications for renewal of hotel licenses in Toronto.

In anticipation of deputations, for or against certain applications, the board instructed Chief Inspector Johnston to provide a stenographer to note everything that may be said in discussion. This is to be adopted as a precautionary measure in lieu of the legal dispute which arose out of the Devaney controversy.

Two applications for wine and beer club licenses, the Irish Club and the Dominion Bowling and Auto Club, were vigorously opposed by Commissioner Johnston, both cases "being allowed to stand over until they have furnished the board with lists of members and copies of their bylaws. Inspector Johnston was instructed to inspect the premises. The Irish Club has secured an option on the property, 213 Simcoe-street, which is better known as the late Dr. Strange's residence, at a cost of \$40,000.

The Bowling and Auto Club has secured the premises, 308 West Queen-street, and has a membership of 600 with a fee of \$1.

Commissioner's Strong Words. President D'Arcy Hinds, secretary J. T. Loftus and Solicitor A. McLean Macdonnell, appeared for the Irish institution. The fees would be \$2 a year and the age limit was over 25. "It would be an outrage to grant this club a license," said Daniel Lamb. "It would be a most disgraceful thing in this church-going City of Toronto if, for a fee of \$2 a year, 700 young men and goodness knows how many more would have the privilege of drinking and getting drunk 365 days in the year."

D'Arcy Hinds said there was not an organization in the city which cared particularly for Irishmen, and new arrivals in the country would be cared for in the proposed club.

Mr. Lamb declared there were other societies to look after immigrants. If this application were granted it would be followed by others and how unfair would be to the hotels, which provide accommodation, and were assessed \$1800 for licenses and taxed 5 per cent on bar receipts over \$50. It would cause a feeling in Toronto that all licenses should be taken away.

Happless Widows. "Hundreds of thousands of dollars of the widows' money have been confiscated in cutting these hotels off, and yet they want to incorporate clubs for every class of societies. Sons of England and the Oddfellows have as much right to a license as these people," continued the commissioner.

Mr. Hinds: "It might influence you to know, Mr. Lamb, that no woman will be allowed in this club. It is exclusively for men."

Mr. Lamb: "I think a very good number of the people who want to join this club should be placed on the Indian list."

INSURGENTS DOMINATE SCUTARI

ROME, March 30.—A special dispatch from Constantinople to The Tribune says that the insurgents now control the city, which is practically in the hands of the rebels. The latter are in great force and well armed, well directed and determined to risk all. The town is defended by five battalions of Redifs. The first proves the Turkish forces, whose condition is desperate unless reinforcements arrive soon.

Abbatemaggio said that shortly after the murder of Cuocolo, when he was alleged treasurer of the Camorra, he met the priest, Vittozzi, who suggested that he should go frequently to the police station in order to give the impression that he had been consulted by the police.

Abbatemaggio swore that the witness, raised his hands and eyes, and with horrified expression exclaimed, turning towards the prisoner's cage:

"If I had ever suspected that Errico's crime I would have delivered 'Bear the burden of your sins.' The tone of his voice was so melodramatic that all burst into laughter. The others, Abbatemaggio swore that Vittozzi was an active member of the Camorra, that he frequented the meetings, and was particularly aggressive in schemes to carry out the Camorristic schemes.

RIGID ORGANIZATION OF CAMORRA DESCRIBED

Those Who Commit Disorders Denounced — Association For More Important Work.

WATERBURY, Italy, March 30.—According to the revelations of Abbatemaggio, who is appearing as a witness against his former associates in their trial for murder, Naples is divided into fourteen Camorrist regions, each having its Camorrist hierarchy. In every one of these regions a member of the organization is daily entrusted with the maintenance of order among those afflicted with the Camorra. His power and influence are greater than those of the police or Carabinieri, and he is expected to denounce those who commit disorders, and thus maintain the existence of the association, which is destined for more important enterprises.

The entire afternoon was taken up with the evidence submitted by Abbatemaggio at the various investigations, the counsel for the defence endeavoring to trap him into contradictions, but the witness maintained his composure and gave a good account of himself, energetically refuting their remarks.

Abbatemaggio said that shortly after the murder of Cuocolo, when he was alleged treasurer of the Camorra, he met the priest, Vittozzi, who suggested that he should go frequently to the police station in order to give the impression that he had been consulted by the police.

ADVISORY COMMITTEE FOR TECHNICAL SCHOOLS

City Will Avail Itself of New Legislation of Ontario Government.

The new provincial legislation concerning the control of technical and industrial schools was the subject of considerable discussion by the management committee of the board of education yesterday. It was finally decided to have the sub-committee which has been working on it bring in a report, and also to appoint the advisory industrial committee which no new law calls for. The committee will have control of all the technical schools in the city, and is composed of 12 men selected from different strata of civic life. Six men from the board of education, of which probably one will be from the separate school board, will make the half of the committee, and the remainder will be made up of three from employers in some civic industries and three employers of labor.

When the Odds Are Against You

You Can Depend on Dr. CHASE'S SYRUP OF LINSEED AND TURPENTINE to Help You, if You Cat the Genuine.

What a fight goes on during the winter season against coughs and colds. The children are careful about keeping dry and warm, and the parents are worried to hear them cough. The best insurance against serious results is the use of Dr. Chase's Syrup of Linseed and Turpentine. So universally used that we need scarcely tell you of its merits. But we do want to warn you against imitations and substitutes. Once you know that there are at least four imitations of Dr. Chase's Syrup of Linseed and Turpentine on the market, you are not likely to let any dealer talk you into accepting anything but the genuine, on each bottle of which are the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author. Imitations are sold on the reputation of this great medicine, and not on their own merits, or why should they not have a name of their own? With the genuine Dr. Chase's Syrup of Linseed and Turpentine you can readily overcome croup, bronchitis, whooping cough, throat irritation, and the most serious coughs and colds. 35 cents a bottle, family size, 60 cents; all dealers, or Edmanston, Bates & Co., Toronto.

The address read as follows: "We, the undersigned, take this opportunity to express to you our heartfelt appreciation of your leadership in bringing the combined clubs to these happy state of proficiency. We feel that the success we have achieved is due in much to your spirit and dedicated effort work in face of considerable difficulties, as to the encouragement you have always given us and the spirit of antagonism you have ever tried to create amongst us, and we trust that your own position in life will never always endeavor to up-hill efforts you seem to delight in putting forth for your fellow men."

DUFFERIN DRIVING CLUB'S EARLY SUMMER

Through a typographical error in the entry blanks the date of closing of the 2.20 trot stake and the 2.30 pace stake was made to read: "stake events close on May 15, first payment of 2 per cent due April 15," etc. This should read: "Entries for stakes close April 15, when first payment of 2 per cent is due; second payment, 1 per cent, due May 1; third and final payment of 2 per cent, due May 20, when horses must be named; stabling and breeding," etc. Horses must be governed by the change in reading. Any one having received entry blanks will note the change of date of closing. The secretary has had many enquiries from different owners and trainers, and it looks as if the meeting is an assured success. Any information can be had from the secretary, phone Park 726, W. A. There will be some disappointed people in this province unless they order at once a copy of this week's Sunday World. The Art Section contains a study in half-tone of Ontario's greatest and most popular man. Sir James Whitney is pictured in a multitude of poses, and every one characteristic of the man. It will convey more at a glance than columns of descriptive matter, and is so attractively arranged and embellished with the national emblem that it constitutes a souvenir picture that should be in every Ontario home. FRIDAY MORNING, MARCH 31, 1911.

THE LAW AND THE CHURCH.

Father Minehan in his letter yesterday describes The World's criticism of the report of his sermon on marriages—'he declares he never used the words "mixed marriages"—as an attack upon him. We suggested that he modify or repudiate the utterances attributed to him, and he has declined them utterly. If there was an "attack," he admits its justification. But there was no attack. In Tuesday's paper he states that he never used the word "Protestant" through the sermon he preached.

On reading his sermon in what he acknowledges as an authentic report, we find that his text suggested the question of marriage as a great sacrament, the only one, by the way, of which the Catholic priesthood has no personal experience. The phrase we took exception to Father Minehan declares referred to a business transaction in the cattle market which he used as a parallel to the marriage ceremony in vogue in some United States communities. We believe we were not going outside his language in understanding him as well as ourselves found his language revolting. According to the report he endorses, he said:

"The brides in one case are not much better than the brides in the other, for brute passion and nothing else is at the bottom of such a marriage."

Some marriages may be contracted in that spirit and solemnized even by Father Minehan's church, but they are exceptional. We cannot avoid the impression that those who listened to the sermon will have formed the impression, whether Father Minehan intended to convey it or not, that most non-Catholic marriages were of that description. Father Minehan asks us to point out where his words offend against justice. Here he has an instance.

Father Minehan must govern himself as he pleases in recognizing the laws of the land in which he lives. But good citizenship involves respect for those laws until they are altered. Father Minehan prefers rebellion to constitutional agitation, and allegiance, to the imperium in imperio, before loyalty to the laws of the land. Once that issue is clear it will be the easier to deal with.

POLICE NOT BLAMEWORTHY.

Some criticism has been directed against the police force in connection with the case of James Andrews, who died after injuries received to his skull after some indulgence in liquor. The man was found staggering along the street, and as he had been drinking and smelt of liquor, the inference was fair enough upon which the constable acted.

TIME FOR REFLECTION.

Whether in the Miscellaneous hope of something turning up, or with the object of giving the greatest possible amount of reflection to the city's officers, the meeting of the shareholders of the Toronto Electric Light Co. is not to be held till April 8. We believe the longer and the more deeply the city's proposal is pondered, the more likely are the shareholders to close with it.

LESSON OF NEW YORK FIRE.

As usual with such tragedies the terrible catastrophe in New York has stirred the authorities charged with the public safety in that and other cities of the continent to unwonted activity. An investigation has been opened and no doubt will be there and there is plenty of talk everywhere about better inspection, stricter enforcement of regulations. But what has happened before will happen again. Many words will be spoken and very little will be done were time ever taken, after the first flood of indignation has subsided, to make the tally. Spasmodic effort, owing its stimulation only to accident, never does any real good. It rather tends to a reaction that sends the community into another spell of lethargic inactivity.

WORKS NEARING COMPLETION.

BYNG INLET, March 29.—(Special.)—The new C.P.R. coal landing at this place, regarded as one of the most important in their system, is nearing completion. The towers, trestles and offices are already finished and the power plant for lighting the works is expected to be ready for operation in a couple of weeks.

WHAT THE PEERS MAY DO.

Lord Lansdowne's motion, requesting the King to sanction the introduction of a bill limiting the prerogatives and powers of the crown so far as they relate to the creation of peers and by the terms of which the attendance of members of the house of lords, may indicate that the differences on the Unionist side regarding the nature of the reforms to be proposed in the constitution of the second chamber have been in a measure composed. Whatever shape the bill to be later introduced may assume it is evident that any interference with the hereditary principle must necessarily exclude certain, and possibly many, peers from the house of lords. The proposal, as was natural, was not at all congenial to those condemned to exclusion, and it is quite within the limits of possibility that Lord Lansdowne's action may be designed rather as a strategic movement than as the precursor of a serious attempt at reform.

FLOUR MILL FOR BELLA COOLA, B. C.

American Capitalists, Who Own Railway Charter For Line Across Province, Will Establish Great Industry.

Some weeks ago a Dominion charter was granted for the Bella Coola, Peace River and Alberta Railroad to what was understood at the time to be a party of Minneapolis capitalists who were interested in a project for the establishment of a flour mill industry in the Bella Coola inlet. It has now transpired that the Pillsbury-Washburn interests, whose name is a household word wherever bread is baked, are at the back of the concern.

On the best of authority it may be stated that the Pillsbury-Washburn firm is about to erect in the very near future a flour mill of enormous capacity for the manufacture of superfine hard wheat flour from wheat grown in Northern Alberta and the Peace River districts.

It has been recognized by this country that the further north wheat is grown, the better the flour, and this at the same time is a recognized fact of the world over. For many years past the Hudson Bay Company has been growing wheat at its post at Fort Vermilion, which is 700 miles north of Edmonton. At the Chicago World's Fair, held in 1893, flour manufactured from wheat grown by the Hudson Bay Company at the fort, won the gold medal, the highest of all honors which it was in the power of the executive to bestow, and since that time it has been in demand for a number of shrewd Americans to develop their plans and await the great opportunity which railroad facilities would give.

The added facilities which will be afforded by the completion of the Panama Canal have not been lost sight of and they will add materially to the merchantable quality of the product. As to the exact capacity of the mills which will be erected, and established on the inlet, this details are not yet to hand, but within a few days they will be available.

It is understood that the railroad line will be in operation by the time that the mills are ready to work, and that the flour will be shipped to the coast by that method. Shipping facilities will be established and wharves, warehouses and elevators, respectively, will be built. The whole enterprise will be one of the greatest on the coast of British Columbia.

WOMAN FAINTED IN COURT.

When Barbara McEwen was called in police court yesterday morning to face four charges of forgery in passing some given cheques, she fainted on the man upon whose account they were drawn, but which she filled out, she was much distressed. She was carried below at a moment later, having fainted after an hysterical outbreak. Her case was adjourned for a week.

RECEIVED STOLEN GOODS.

Despite the fact that Joseph Bain, who stole the bricks, is serving a term for the theft, declared in police court yesterday morning that Richard Parsons had not known that the two loads of these bricks which he bought from Bain were stolen. Magistrate Denison sent Parsons on for trial because he sent trial Bain had sworn that Parsons knew.

MONTREAL, March 30.—If anything should occur that you could not hold Sheldon, please notify us at once. He has been wanted here for 20 years. Such is the letter received from Michael A. Allen, city marshal of Brockton, Mass., by Chief Carpenter. A circular, dated April 11, 1909, is enclosed therein for C. W. Robinson, alias C. W. Wilson, alias Prof. Wilson, is wanted there for forgery, by which he obtained \$200,000.

Auto-Driver Punished.

Hugh J. Baldwin, whose auto struck Verrall back and injured the driver, was fined \$10 and costs for 90 days for driving drunk and \$50 and costs for three months for oversteering. In police court yesterday morning, the accident occurred in University avenue at night on Monday. The evidence showed that the car was going very fast.

POLICE BLAME COUNCIL FOR TRAFFIC TROUBLES

Say Rescinding of Bylaw Makes Control of Streets Out of Question.

Chairman Aid. Maguire of the legislation and reception committee was fortunate in securing better than a quorum at the special meeting held yesterday to clean up the business which was delayed by there being nobody in attendance but the chairman at the regular meeting. It was declared by two of the aldermen in attendance yesterday that they had received no notice for the regular meeting.

The meeting of the police committee yesterday afternoon was called to order by the chairman, Aid. Maguire, who called attention to the fact that the rescinding of the bylaw requiring slow-moving vehicles to keep to the curb had made it difficult for the police to regulate traffic. The chairman said that in many instances it was impossible for heavily loaded teams to proceed close to the curb owing to the high crown on many streets and the slippery condition of the pavements.

Ald. McEwen said that teams loaded with material which would wreck street cars were in the habit of getting between the cars and delaying traffic. The rescinding of the bylaw would mean that no effect on the driver.

Ald. McGuire, McCarthy, Graham and McEwen will confer with the police committee and representatives of the Teamsters' Union and Motor League to make arrangements suitable to all.

Arrangements were made for the entertainment of the Sheffield Choir to a number of 215 at luncheon on April 5.

The celebration in connection with hydro power will not be definitely set until the committee has conferred with the board of control.

The committee approved of the recommendation of the assessment commission and the city solicitor that legislation be sought to permit of the exemption from taxation of the property of the Upper Canada Bible Society on College-street. The institution does not come under the act, which exempts religious institutions.

Boy Scouts' Convention. Aid. Maguire presented a request from the Boy Scout Association for the tree use of a room in the city hall for a convention in connection with a convention to be held on April 21 and 22. He also asked for a money grant. The committee recommended that the association be given the free use of a room in the city hall for the convention and that the city pay the rent of the room for a demonstration in event of no admission fee being charged. There will be about 200 scout masters in attendance from all over Ontario.

The committee will confer with the board of control regarding the proposed legislation of the city solicitor. The committee will also confer with the board of control regarding the proposed legislation of the city solicitor.

CANADIAN LUMBERMEN RESPONSIBLE FOR BUT ONE-EIGHTH OF FOREST DESTRUCTION.

For every foot of timber that has been cut in Canada by lumbermen, at least ten feet have been destroyed by fire.

This startling statement is made in a bulletin of the Forestry Branch of the Department of the Interior, lately issued (bulletin No. 9, "Forest Fires").

The author, Mr. H. R. MacMillan, one of the assistant inspectors of forest reserves, is a technically trained forester, who has given much attention to this subject. His figures have been based on the best obtainable data, including a careful estimate of the stand of timber originally standing in the forests of Canada and that still remaining; the differences between these two, less the amount estimated to have been cut by lumbermen, represents the amount destroyed by fire.

Even this estimate of the ratio of timber burned to timber cut is not as large as some given elsewhere. Senator W. C. Edwards, the present president of the Canadian Forestry Association, and one of the best-known and most successful lumbermen of the Ottawa valley, is on record as saying that in that valley ten times as much timber has been destroyed by fire as has been cut by the lumbermen.

The past summer has brought very prominently to public notice the forest fires in the States of Montana and Idaho and, more recently, in Northern Minnesota, where so many towns were destroyed.

The Canadian Forestry Association has for years been endeavoring to arouse public attention in regard to these fires, and of late the work of the commission of conservation has been largely directed in the same direction.

In the bulletin above mentioned, there are also discussed at some length the topics of the destruction of Canadian forests by fire, the effects of these fires (in the destruction of timber and of soil, the effect on subsequent tree growth and on the conserving of the water supply), the chief causes of forest fires and the means of preventing such fires.

The bulletin concludes with a summary of Canadian forest fires during the year 1909 (in which, however, figures for Quebec are not included). This year showed an especially large loss in the forest, the value of the timber and improvements destroyed being \$210,400 (timber being valued at \$1 per thousand). The expense of fire fighting (government and private) amounted to \$31,824; except for this fire the loss would undoubtedly have been much greater.

Suit Over West Toronto Land. John J. Brown was refused an injunction by Justice Latchford yesterday restraining Annie Clellandman from being registered as the owner of a lot on Humberdale-ave., West Toronto. OFFICERS ELECTED AT MISSIONS CONVENTION

Intemperance Among Foreigners Declared To Be Menace To Winnipeg.

The convention of the Presbyterian Women's Home Missions Society was resumed yesterday morning when the board met for the election of officers. Those elected were: Hon. president, Lady Mortimer Clark; president, Mrs. John Somerville; hon. vice-presidents, Mrs. H. M. Parsons, Mrs. McAdy, Lady Taylor; 1st vice-president, Mrs. Codrington; 2nd vice-president, Mrs. McClelland; 3rd vice-president, Mrs. J. D. Walker; 4th vice-president, Mrs. Thom; 5th vice-president, Mrs. Strachan; cor. sec., Mrs. H. M. Klipp; assoc. sec., Miss Clara McCull; rec. sec., Mrs. Donald Macdonald; treasurer, Miss Helen Macdonald; asst. treasurer, Miss S. Hendry; sec. of org. auxiliary, Mrs. J. A. Macdonald; assoc. sec., Miss M. G. Gair; sec. of supplies, Miss Eades; sec. sec., Mrs. Frank Somerville; home helpers' sec., Mrs. Logie; life mem. sec., Miss Gardner; lecture sec., Miss Hopkirk; press sec., Miss C. D. Mackay; editor of Pioneer, Miss J. Houston; assoc. editor of Pioneer, Miss Mamie Fraser; sec. Childerose Memorial Fund, Miss M. Russell; sec. of pub. Miss Barker; library sec., Mrs. J. Steele; literature sec., Mrs. F. O. Anderson.

The remainder of the morning session was taken up by the reports. Miss Flora McCull gave a paper on boys' clubs, showing great progress in that branch of the work. Miss Bell of Teulon, Man., spoke feelingly on the hospital work among the Galician children, strongly eulogizing Dr. Turner, the surgeon at the Teulon Hospital.

"It is practically thru the little children that we win our way into the hearts and homes of the foreigners," said Deaconess Moore, speaking on institutional work in Winnipeg. Many foreign children of fourteen and fifteen years of age have never been inside a school.

"One of the great evils that we have to contend with is the increased traffic. At all celebrations, weddings, etc., liquor is much in evidence, and even the children are horribly debauched."

The deaconess, she said, means policeman, lawyer, doctor, nurse, everything to these people.

It was decided to hold the next annual meeting in St. Andrew's Presbyterian Church, Windsor.

The question of establishing a "strangers' secretary" in every town was brought up, and was sent to the board of the W.H.M.S., and the ministerial committee, with the strong endorsement of the meeting.

Old Dutch Cleanser

Will Be Welcome in Every Home Because it keeps the house, from cellar to attic, in spick and span condition, and saves the housewife labor, time, trouble and expense. Just you try it!

Washing Dishes Without Droggery Place dishes in pan of warm water, sprinkle a little Old Dutch Cleanser on dish-cloth (don't put the cleanser in water) and wash, each piece, put in second pan to drain, rinse clean water and wipe dry. Easier, quicker and hygienic; no caustic or acids (not a soap powder). Old Dutch Cleanser will remove the hardest "burnt in" crust from pots and pans, without the old time scalding and scraping.

OTIS SKINNER AT THE PRINCESS

A charming comedy was presented at the Princess last night, opening a half-century of history. Lavender's "Sire," adapted by Louis M. Barkley, is a costume piece, and there is a touch of romance, and more than a flavor of swash-buckling, with a background of royal and revolutionary and the French barricades of 1848. It gives Otis Skinner the opportunity to display himself as a specialist of the stage, and he does it with all the ease, grace and happy effrontery which stage tradition and consummate mastery of the actor's craft afford. Denis Roulette, an actor of no note, but out of repute, or out of an engagement, has been brought to the city on the pretext of mending his broken and other chance jobs as a man for hire. He is introduced to the de Saint Sully is a monomaniac on the subject of the French Revolution, who was understood by some to have been slain, and by others to have escaped. She is convinced that he is still alive, and lives only to see him. Her doctor, Captain A. G. Andrews, and the Abbé, Remon, both of whom are afraid that she will lose her reason, advise her to be content with what she has, and to be summoned to the country house to mend a clock, and here he finds her in the act of mending a clock, and she is introduced to the de Saint Sully, who is the companion of Roulette, who is the man for hire. He is introduced to the de Saint Sully, who is the man for hire. He is introduced to the de Saint Sully, who is the man for hire.

There is no gainsaying the popularity of "Mrs. Wiggs of the Cabbage Patch," which comes to the Grand Opera House next week. In support of Mrs. Wiggs has charms that soothe the most hardened of theatre-goers, and almost all of the characters in the play are distinct and highly interesting types. The public has read the books of Mrs. Rice, from which Mrs. Flexner made the dramatization, and is glad to renew their acquaintance with Mrs. Wiggs, Lovey, Mary, Miss Hazy, Mr. Stubbs, Little Tommy and the other delightful characters, and to find a common bond of sympathy and union. It is a piece, which because of its originality and Dickensian quality, is a gem of the wit and wholesome philosophy, appeals to all classes. It clearly fulfills its mission, that of sunshine and laughter, imbued with a wholesome and optimistic philosophy.

At the Star Theatre next week "The Tiger Lilies" Company, with Matt Kennedy, "Everybody's Favorite," open their engagement in this city for a period of one week. In support of Mr. Kennedy are: John B. Braag, Charles Barrett, Wallace Jenkins, James Welling, Mike Alvin, Margaret Flavin, Lillian Morley, Edyth Lefler and Rita Lorraine.

At the Gayety Theatre next week, Jacobs & Jerome's New York success, "The Queens of the Jardin de Paris," headed by the pantomime world, Miss, Krema and Signor B. Mykoff, direct from the Moulin Rouge, Paris, will be the attraction. There are three hours of music, song, dance and drolery, with never a minute that is slow or dull. The comedians are exceedingly funny, the chorus girls decidedly pretty, the songs have points and the music is catchy, striking and effective stage settings, handsome costumes, elaborate scenery, stage pictures that please the eye and a company of vaudeville celebrities, headed by Harry Koler, Harry Campbell, Adeline Rattino, Rose De Mar, E. Curtis, Joe Phillips, Edna Gill, with thirty young women.

PUBLIC AMUSEMENTS

The advance sale of seats for the Vesta Victoria engagement at the Princess Theatre, for one week, with matinee Wednesday and Saturday, beginning Monday, April 3, begins this morning. Miss Victoria's reputation as an "artiste" of the very highest class has preceded her. She sings songs without the melancholy word or band of music, suggesting the trials and tribulations of life. Indeed, they are all humorous conceptions to make people forget their sorrow and little unpleasant incidents, concomitant with existence, and that is just what the people go to a theatre for—a good hearty laugh, indeed several of them, if not a thousand.

Miss Victoria is surrounded by an organization of twenty international stars, in the latest of the Albert Leslie's novelty screams, "A Night at the Comedy Club" will be the presentation.

OTIS SKINNER IN "SIRE."

The title of "The Kreutzer Sonata," in which Madame Kalich is coming next week, is one of odd significance. The drama is written by the great Jewish dramatist, Jacob Gordin, and was adapted into English for Madame Kalich's use by Langdon Mitchell. It is not a dramatization of Tolstoy's book of the same name, altho there is in the play a reference to Tolstoy's story. The title really comes from the suggestion of haunting sadness in Beethoven's symphony, "The Kreutzer Sonata," which impressed Tolstoy with being suggestive of the pathos and sadness of women's lives, and was used in his own book of fiction, Madame Kalich's use of the "Miriam" of the story, shows the many sides of her remarkable art. She is a woman whose success has been full and complete and whose today's one of the most interesting figures on our stage. Her achievements have come without break advertising or publicity and her series of roles in the past six years have each season added to the estimation in which she is held. Her engagement at the Royal Alexandra Theatre will be for one week, commencing Monday evening.

Gertrude Hoffman in her new revue will head the bill at Shea's Theatre next week. To Miss Hoffman is due the credit of conceiving the most magnificent act yet offered on the vaudeville stage. Her company numbers more than forty people. Miss Hoffman's ability as an entertainer, prominent in variety, leaves little to be said regarding her forthcoming appearance, except that it will be one of her last vaudeville.

City Water Made Him Faint.

A sensation was sprung in the mid-air of the city yesterday when a young man, one of the jury men, fainted, and had to be carried to an ante room, where he lay for some hours. The incident is blamed on the city water, as the man is a farmer, and not inoculated to oil and chlorine.

Seeing is Believing

It is easy to talk about ready-to-wear garments and to write stories about them, but you don't have to take anybody's word. A few minutes' personal investigation and you have the satisfactory demonstration and proof.

Before you do your buying to-day or to-morrow, come to Simpson's and see the clothing, not only the lines mentioned in our store news to-day below this picture, but any clothing you require.

When you get your hands on the material, the feel of it assures you at once of satisfactory wear and when you slip on the coat and waistcoat, the trimmings are sound, and the snug shapeliness of each garment shows that it has been through the hands of an expert cutter and tailor. Let no man deceive you. Seeing is believing.
