## Steamer Wrecked in Lake Raleigh on Rocks Near Port Colborne Two Drowned, One Missing

Nine of Crew Rescued in Boats, But Steward and Wife, of Cleveland, Perished and Fate of Engineer Pritchard is in Doubt.

### BOAT WAS HELPLESS IN ROUGH WAVES

PORT COLBORNE, Ont., Nov. 30.—(Special to The World).—The steamer Raleigh, loaded with pulpwood from Quebec to Erie, is ashore at Point Abeno, about seven miles east of here, and is fast going to pieces. Mr. Wise of Cleveland, who was the steward, and his wife, who was the cook, were drowned in trying to make the shore in yawl boats. One of the boats capsized.

William Pritchard of Cleveland, the engineer, would not leave the ship and when she was broken up he clung desperately to a few rafters and boards that were still joined together. The heavy seas made it impossible for life boats to put out to his rescue and at a late hour it was feared he would be drowned before help reached him.

Several men from Port Colborne, who were patrolling the beach, waded out with lines and rescued the crew of 12 men. They are all being cared for at a farmhouse at Sherkston.

After battling with the terrific seas all night and all day, and sending out signals of distress, the Raleigh broke her rudder and was rendered helpless. She ran ashore opposite the Empire Limestone Company's works.

The pieces of oarwood are floating towards the shore in hundreds, and the beach is already lined with them. The steamer is owned by Henry Wiseman, Jr., of Detroit, and was in charge of Captain Harry L. Beauvais.

ANCHORS DIDN'T HOLD.  
BUFFALO, Nov. 30.—(Canadian Press).—The Raleigh left Port Colborne at 6 o'clock last night with a cargo of pulpwood for Erie, Pa. There was a high wind and a heavy sea when the steamer put out from the Canadian shore, and conditions grew worse during the night. Early this morning the steamer's steering gear became disabled. Both anchors were lowered, but they failed to hold on the sandy bottom and the Raleigh was carried toward Point Abeno by the stiff northeast wind.

Captain Beauvais and his crew fought desperately to keep the disabled steamer in midlake, but when the boiler room became flooded by the tons of water shipped in the heavy seas, they were helpless. At dawn the Raleigh crashed on the rocks.

Nine members of the crew of twelve succeeded in getting ashore and were cared for in the huts at the Empire Limestone Company's quarries near Sherkston. Employees of the quarries and the survivors were unsuccessful in their efforts to rescue Engineer Pritchard, who to-night, was still adrift.

### BERLIN'S BIG METAL STRIKE

BERLIN, Germany, Nov. 30.—(Canadian Press).—A lockout of 70,000 workers in the metal trades will become effective to-night ensuing on their refusal to accept an agreement drawn up by a joint committee of employers and trades unionists. The lockout is the outcome of the failure to settle a strike started in October last by 4000 metal workers.

### OIL OCTOPUS BREATHES LAST TIE THAT BOUND IS BROKEN

Thirty Companies Start To-day to Paddle Their Own Canoes, Following Supreme Court Decree, and 30 Shares Will Blossom Where One Grew Before

NEW YORK, Nov. 30.—The career of the "oil trust" officially came to an end to-day. The Standard Oil Company of New Jersey, sometimes called the father of the trusts, and perhaps the most celebrated corporation in the world, will no longer control the affairs, as the holding company, of more than thirty corporations in its various branches of the oil business.

### Ontario's Timber Cut

OTTAWA, Nov. 30.—(Can. Press).—Concerning Ontario's 1910 lumber cut, The Forestry Bulletin says that Ontario still produces over one-third of the lumber cut annually in Canada, but its annual cut, while increasing, is doing so more slowly each year.

In Ontario during 1910, 1,642,191,000 feet of lumber was cut, being worth \$30,011,000. The diversified forests of Ontario have enabled it to hold the supremacy up to the present.

White pine of Ontario formed 85 per cent. of Canada's cut, and nearly half of the hemlock cut came from this province. Ontario provided 90 per cent. of the red pine.

### PERSIA'S PLIGHT CAUSES ALARM

British Newspapers Fear Shuster's Dismissal Will Give Russia Open Door.

LONDON, Dec. 1.—(Canadian Press).—The morning newspapers in their editorials on the Persia crisis, display a tone of great anxiety. A majority of them agree that Mr. Shuster, the Persian treasurer-general, lacked tact and that Great Britain must support Russia, but several papers express misgivings over the outcome of Russia's action and what they term the administrative anarchy that is likely to result from Mr. Shuster's dismissal.

By some it is feared that the success of Russian diplomacy will leave Persia little real independence. The Daily News makes a serious attack on Sir Edward Grey, the British foreign minister, accusing him of constantly yielding to Russia in order to manoeuvre other powers against Germany. The paper asserts that Great Britain's support of Russia now will mean the annexation or partition of Persia entirely in Russian interests, leaving Russia and England with a long and hot, continuous frontier in Asia and committing England to the necessity of maintaining a costly army to guard it.

Moreover, The Daily News adds, England's support of Russia is deadlier because it will probably prevent the United States moving in Mr. Shuster's behalf.

### RAILWAY OUTLOOK IN ONTARIO

In a few days the Tow not Orilla will have the advantage of two new railways, and few people realize what this means to a community. A service to Toronto will be given by the Canadian Northern and the C.P.R. The World has sent up a man to look over the situation. He will interview the prominent men of the town and their views, together with a general survey, will be given in Saturday's issue.

### ELECTION IN SWEDEN

STOCKHOLM, Sweden, Nov. 30.—(Canadian Press).—The elections to the Swedish upper chamber of parliament closed to-day. The new house will consist of 37 Conservatives, 14 Liberals and 12 Socialists, as compared with 18 Conservatives, 20 Liberals and 4 Socialists in the previous house.

### T. & N. O. Exhibit Car Arrives in Toronto

Filled With Products of the North Shows its Agriculture Possibilities.

Carrying exhibits of farming products grown in Northern Ontario, the T. & N. O. special exhibition car arrived at the Union Station last night after an extensive tour round the province where it was visited by thousands of people. The car will remain on track 9 at the eastern end of the station till December 5, during which time citizens are invited to inspect the products. R. A. Jones is in charge and will give any information desired.

Only grain, roots and farm products are shown, all grown by farmers in Northern Ontario. Citizens of Toronto may see some of the possibilities of the north lands, for the exhibits shown cannot be excelled by any other part of the Dominion. Many will be surprised at the excellent quality of wheat. Chairman Englehart is justly proud of it.

### ONTARIO BEHIND IN PHONE POLICY

N. W. Rowell Points Out How Other Provinces Have Succeeded With Municipal Ownership.

WATERFORD, Ont., Nov. 30.—(Spl.).—At his meeting held in the town hall here this evening, N. W. Rowell devoted the greater portion of a long speech to the discussion of the public ownership of telephones. Evidently he had selected a subject which appealed most intimately to the farmers of North Norfolk, for his remarks were received with continued applause.

This was a progressive proposal, he said, a proposal in line with the general trend of progress on this matter throughout the world. Ontario, which once led all the other provinces, could not afford to come up at the end of the procession on a matter of such importance. It was time for her to take her old place in the van, and not permit every province in the Dominion to move ahead of her.

Already Alberta, Manitoba and Saskatchewan have proved the wisdom of such a policy. It is a policy which every European country of importance adopted long ago by taking over the trunk lines, and one which is giving the utmost satisfaction in Australia, New Zealand and South Africa.

What Manitoba Has Done.  
"Let me give you some figures from the western provinces which enjoy the operation of telephones under government control." He said, "In 1908 there were in Manitoba 5600 telephones, all bell instruments, in 1911 under government control and at lessened cost to the subscribers there were 35,000 in use. In 1905, when Alberta decided to take over the management of her telephones, there were 800 in operation in the province. To-day there are 13,000. Saskatchewan had only 300 in 1905, and 3800 in 1908 when the change was made there. By 1911 she had 15,000. There should be no cost to the government and the people of Ontario should save the big profits now being made by the Bell company."

The other feature of the speech was a story told to illustrate the alleged one-man control at Queens park. "I heard only to-day," said Mr. Rowell, "a tale which I give to you as it was given to me. It is said that a gentleman spent the office of the minister of agriculture one day recently and remarked 'Is it not a fine day, Mr. Duff?' 'Well, really, er, stammered the minister of agriculture. 'Why don't you think it is a fine day?' 'Well, really, er, if you don't mind waiting a minute I'll go and ask Sir James.'"

### Waves Were Not Kind to Royalty

Medina Had Rough Time in Bay of Biscay—Queen Mary Driven From Cabin.

LONDON, Nov. 30.—(Canadian Press).—Reports reaching here from the steamship Medina, which is conveying King George and Queen Mary to the Indian Durbar, indicate that the distinguished passengers had an extremely rough passage thru the Bay of Biscay.

The sea, which is usually rough in the bay, was uncommonly turbulent and a portion of the Queen's apartments was flooded. Queen Mary was forced to vacate hastily and take up her quarters in the special storm cabin with a swinging cot, but the King, who is a good sailor, continued to occupy his usual cabin.

### ALASKA SABLE

A very popular fur for the making of muffs and stoles is the Alaska Sable. There are many grades of this, and some are dyed product, but the good fur which shows an almost white color as the hair reaches the pelt. We might mention that it is very easy to select genuine Alaska Sable if you look for these few points. The Dineen Company is showing to-day a very choice selection of Alaska Sable garments made from skins purchased direct from the company's agents in the Northwest.

### Always in Fashion

Mr. Drew's playhouse will always be the mecca of the fashionable, whether at the Empire Theatre, New York, at which the distinguished actor has appeared for nineteen consecutive seasons, or at the Princess Theatre, Toronto, where he will open his annual engagement for one week on Monday, December 4.

### NOT HIS MOTHER-IN-LAW

JAMES (in a low, tense voice): Now, look here, brother Bob, you married into that family—and made well out of it—but the old dame has no right to come into my house and keep me in hot water.

### Foy Firm Against Bilinguals Repeats "English Only" Stand

Best For French People That There Should Be But One Language—T. & N. O. May Get Subsidy From Dominion.

Hon. J. J. Foy refuses to be shaken from his strong stand against bilingual schools. He is still against them. He still declares they are illegal. At a well-attended and enthusiastic meeting last night in the Home Bank Building, Bloor-street, in the interests of himself and Mr. McNaught, he repeated his statement of a short time ago.

Hon. J. J. Foy was enthusiastically applauded when called upon to address the meeting. The attorney-general first reviewed in brief terms the chief acts of the Whitney government. Looking to the future the attorney-general said that it was no betrayal of confidence to say that the Dominion government might be expected to give the same subsidy to the Temiskaming and Northern Ontario Railway that was given by the late government to other pioneer railways.

The government had in contemplation a workingman's compensation act. Superficial students of the question might say enact the same law that is in operation in Great Britain. An examination of that law, however, showed that it had features which would not apply in Canada. It was an important and difficult question and for that reason it was to be reported upon by a high court judge who was making a study not only of the British act, but also the compensation law of all countries having such an act, so that when the report was received, a compensation act would be framed which would be without a flaw.

### CHILD TRAMPLED TO DEATH

OTTAWA, Nov. 30.—(Canadian Press).—Two little boys were sliding down a hill street this afternoon, when they slid underneath the feet of a horse crossing the street. Neither the little ones nor the horse could be stopped. The result was William John Finn, aged 4, whose head was crushed, and his brother, Albert Henry, aged 6, is not likely to recover. The coroner will investigate the affair with a jury.

### CUSTOMS REVENUE GROWING

OTTAWA, Nov. 30.—(Special).—An increase of more than a million and a quarter is shown in the statement of November customs receipts handed out by the department to-day. The collections totaled \$7,229,085, an increase of \$1,877,313. The customs revenue for the eight months of the fiscal year amounted to \$56,326,708, an increase of \$3,928,590.

OTTAWA, Nov. 30.—(Special).—That the country should be prepared to face the expenditure of at least \$100,000,000 for the development and improvement of national free ports on the Pacific and Atlantic coasts and the great lakes, was the statement made by Hon. F. D. Monk to the house in committee of supply this evening. The whole question, he declared, should be considered in the light of the admirable report of the transportation commission of 1907.

### WATER SUPPLY FROM SCARBORO

City's Experts Recommend New Intake and Huge Reservoir on Heights—Duplicate System Needed.

A special meeting of the commission of experts appointed by the city to investigate the city's water supply, was held yesterday, and in a nutshell their recommendations contained in an interim report made then are as follows: Spend \$1,150,000 to improve the present waterworks system.

Construct a second waterworks system at Scarboro Heights. Take the city's water supply wholly from Lake Ontario. They declared against Lake Simcoe on the grounds that Lake Ontario water was as good, because of the expense and because Toronto has no right to do it.

The meeting was held in The Mail Building, and those present were: Irlam Randolph of Chicago, T. Aird Murray and Willis Chipman, Mayor Geary, Controllers Hecken, Church, Spence and Ward.

The improvements in the present system which they thought should be made are as follows: 1. To duplicate the filtration plant. 2. Conduit in Blockhouse Bay. 3. Pumping engine. 4. Three boilers. 5. Engine house. 6. Engineering. Total \$1,150,000. As for the future, they declared it.

### Insurance Bill Stirs Ire Unionists Leave in Body

When First of 470 Amendments Was Put Dramatic Exit Was Made and the Measures Went Thru by Default—Bonar Law's Warm Words.

LONDON, Nov. 30.—(Can. Press).—There was a remarkable scene in the house of commons tonight, when the government applied the guillotine to 470 amendments in the report stage of the insurance bill.

### CANADA TO SPEND \$100,000,000 ON FREE PORTS

Hon. F. D. Monk Announces Outlay is Necessary to Develop Seaboard and Lake Harbors—Vigorous Immigration Promised—Premier Declines to Discuss No Temere for the Present.

OTTAWA, Nov. 30.—(Special).—That the country should be prepared to face the expenditure of at least \$100,000,000 for the development and improvement of national free ports on the Pacific and Atlantic coasts and the great lakes, was the statement made by Hon. F. D. Monk to the house in committee of supply this evening. The whole question, he declared, should be considered in the light of the admirable report of the transportation commission of 1907.

The house made considerable progress in passing the balance of the estimates for the fiscal year ending 1912, there being little cause for discussion, as they were practically the unvoiced remainder of the estimates brought down by the late government.

Hon. Robert Rogers announced that the government would carry out a vigorous immigration policy in the interest, not of one part, but of all parts of the country.

When the committee rose and adjourned at 10:45 p.m., estimates aggregating nearly \$40,000,000 had been voted, at the record rate of about \$20,000,000 an hour.

When the house goes into supply to-morrow, some opposition members will offer criticisms on the dismissal of employees.

Helping Lumber Combine?  
D. E. Neely (Humboldt) initiated quite a brisk exchange of amenities between western members in a request by W. E. Knowles (Moose Jaw) for a return regarding a circular to collectors of customs in connection with the interpretation and enforcement of the duties on lumber. The government, he declared, was prepared to interpret and administer the law in the interests of the lumber combine rather than the homesteaders of the west. They were getting, he said, the first taste of the medicine for which they voted on Sept. 21.

J. D. Taylor (New Westminster) expressed his surprise that Mr. Neely should pose as the champion of anti-trading. The step had been taken in the interests of labor. The late government had committed at the free assay of lumber under improper classification their attention had been called to it by their own officers.

The motion gave Dr. Clark (Red Deer) the opportunity to unburden himself of the free trade sentiment that a day would come when the laborer would realize with the farmer that both were the victims of the protective system and then there would be short shrift for the trusts, mergers and combines.

Hon. Frank Oliver reviewed the immigration policy of the late government and stated that, in as far as the present administration was prepared to follow a policy of selective and restricted immigration the opposition would give them all reasonable support.

Thirty Employees Dismissed.  
In response to a question by Hon. Charles Murphy, the premier stated that 30 employees had been dismissed and 24 engaged by the authority of the speaker and the sergeant-at-arms in their departments since Sept. 22.

The postmaster-general informed Hon. Rodolphe Lemieux that the parcel post convention between France and Canada had been signed by the French government.

In response to questions by Hon. H. B. Emmerson, the minister of railways, stated that there was already legislation on the subject of branch lines and the acquisition of branch lines for the intercolonial. The question of further legislation had not yet been considered. No request had been received or promise given for the abolition of the government railway's management board.

A question by Hon. Rodolphe Lemieux was answered by Hon. Rodolphe Lemieux.

NOTABLE EVENT IN PROGRESS OF W.C.T.U. Duchess Lays Cornerstone of New Headquarters and Frances Willard Home for Girls. In spite of the raw November wind which blew so furiously yesterday afternoon, crowds of people gathered to see the laying of the cornerstone of the new W. C. T. U. headquarters and Frances Willard Home for Girls at 18-22 East Gerrard-street by the Duchess of Connaught.

McFarland Wins Clean Victory Over Murphy

Twenty Rounds of Slashing Fighting at San Francisco—Murphy Was Game.

SAN FRANCISCO, Nov. 30.—Packer McFarland of Chicago won a clean cut victory over Harry Murphy of New York in twenty rounds of fierce fighting before a host of spectators to-day.

McFarland, who is ninety per cent. of the present expected to knock out, was clean and left little room for argument. But the rank and file of experts and both following were unanimous that as an opponent of Champion Volcast, the Chicagoan was an impossibility.

McFarland, if he really broke his hand, fought a wonderful battle. Murphy, on the other hand, gave an exhibition of gameness and ability to come back rarely seen in a prize ring.

McFarland opened out over Murphy's eyes and damaged his left ear, until he looked like an egg. In the face of the constant, rapid fire, the easterner fought back and made a better showing in the last two rounds than did McFarland.

McFarland's fight was one-sided. Then McFarland began to see the danger and seemingly had tired. In several of the rounds he was hit hard and severely, but he fought back with determination, and some of his body punches made deep inroads on McFarland's vitality.

It appeared that the bell terminating the contest was as welcome to the Chicagoan as to Murphy.

Both the fighters showed marks, but they were of superficial nature. Packer McFarland expects to start on Monday for Chicago, then go to New York to fight Matt Wells, the British champion.

Wish Had to Go All the Way. LOS ANGELES, Nov. 30.—While Ritchie, a lightweight from the training quarters of Packer McFarland, achieved a little reputation for his victory in the rounds with Freddie Welsh, the British lightweight challenger, who was to fight McFarland on Monday...

Ritchie was somewhat heavy after an all night ride, while Welsh was trained for the contest. The Briton came in in ring generalship, but his blows lacked steam, while Ritchie, when he landed, generally stopped his man.

Crowd Large and Dissatisfied See Nelson-Spero Bout

It was a large but dissatisfied crowd that took its way home after the bout between George Spero of New York and ex-champion Battling Nelson, at Agnes street Theatre last night.

The boys were matched to box 20 rounds at 125 pounds, but before they had gone for the crowd started to hoot and leave the hall and after Spero had gone down twice in the fifth he settled over for keeps in the sixth.

The preliminary between Westerbe and Artie Edmunds was a red-hot affair for four rounds. Edmunds announced that this would be his last bout in Toronto, as he had not received a square deal in his home city and that he would put his hand out.

It was children's day at Varsity stadium yesterday, and the big stand was packed with school boys who turned out over 3000 strong to see the public school soccer finals.

Three senior and four junior games were played, and those who braved the chilly wind were rewarded by some clever football by the different teams.

The feature of the afternoon was the battle between Coleman and Cottingham senior teams, who played twenty minutes overtime without a goal.

Five out of the six games that were decided were won by 2 to 0 scores. King played by a 2 to 0 score, King Edward won by a 2 to 0 score, King Edward won by a 2 to 0 score, King Edward won by a 2 to 0 score.

The Simpson Athletic Association will apply to the O.P. for recognition for both the intermediate and junior series.

Fryer, the star rover of the Collingwood intermediate team, is slated to play for one of the Toronto pro hockey teams.

Frank Rankin is going to play for Wardens, at least so the rumor goes. Rankin is still at his old position, and if he is a wise boy he will stick with the simon pure.

While in Toronto recently a professional boxer, at least so the rumor goes, if he had it to do over again he would never leave the amateur ranks.

Ottawa friends of Albert Keer give little credence to the report he is booked for the coast. He is a professional player and likes the game can find all the amusement there is in it.

The Little Yorks will meet at the Woodbine on Saturday at 2 30 and will then play the Toronto team in the juvenile soccer championship of the city.

FRIDAY MORNING, DEC. 1, 1911.

AUXILIARY WATER SUPPLY.

There is no novelty about the proposal of the waterworks experts to establish an auxiliary to the city water supply at Scarborough Heights. For many years the plan has been advocated by those familiar with the situation. Pure water is the first consideration, and as all the observations show that the offshore currents in the lake flow from east to west it is clear that water is purer at Scarborough than after it absorbs the sewage output of the city.

The next consideration is cost, and the element of gravity is regarded as an important one by the engineers in considering this point. It is obvious that water runs down hill. Scarborough Heights is the highest point on the lake shore between Hamilton and Montreal. It is 355 or 365 feet above sea level. The plan recommended is to form a great reservoir of twenty acres on this height, with a capacity of 130,000,000 gallons, and fill it from a tunnel two miles into the lake connecting with an intake in water 100 feet deep.

A topographical map will show the great area which would be supplied from a reservoir at Scarborough Heights. St. James Cathedral spire is 310 feet high, or about fifty feet, less the difference of King-street above the lake, below Scarborough, while the bench mark at the Eglinton Hotel up Yonge-street is just level with St. James' spire. The recommendations of the committee of experts, including Messrs. Isham Randolph, T. Ald Murray and Willis Chipman, contemplate the improvement of the existing system by a duplication of the filtration plant, a conduit in Blackhouse Bay, and some boilers and engines, at a cost of \$1,130,000. When a man gets the best medical advice the sensible thing to do is to accept it. Toronto has obtained the best advice to be had in this waterworks matter and there is nothing to be done but accept it. It must be remembered that waterworks expenditure is not a debt, but an investment, and carries itself. Moreover, the growth and development of the city demand no stint in waterworks affairs. The policy of putting off the evil day has been a disastrous one in Toronto, as a bill of \$12,000,000 presented by the present council for work in arrears sufficiently indicates. Of that \$12,000,000 the only amount that can rightly be charged to the present year is the tubes vote. The other votes date anywhere from ten years back.

The World believes Toronto should have a city government capable of facing such a situation as the present in a businesslike spirit, not putting off what is inevitable, but determining to meet the need in the best way possible. We shall await with interest the details of the proposed Scarborough Heights waterworks.

Will the city council take hold of it in the spirit of Chicago, or—Podunk?

SWORD AND PEN.

Nothing the Duke of Connaught has done or said has so fully demonstrated his native amiability, his sterling good sense and excellent taste as his pleasant visit to the Toronto Press Club. In his admirable little speech in reply to the club's address he dwelt without affectation on the power of the press for good and evil and upon its responsibility for the education of public opinion.

The latest cub reporter is as deeply concerned in the duke's words as the doyen of the craft, when it comes to furnishing the public "with reliable information and instruction."

The good-natured smiles and playful manner with which the portion of the speech was delivered referring to the "picturesque but wholly ungrammatical form of writing" of certain papers relieved the duke's remarks of any possible charge of priggishness, and there can be no doubt that the criticism is justified. Slang, like profanity, is the token of ignorance and a limited vocabulary. There are 400,000 words in English, and when these have been mastered the reporter may be excused for using slang.

The duke's speech is a model of condensation and clear expression, and shows that he could write better editorials than most of those who are making a living at it, if circumstances compelled him to exchange the sword for the pen. He can, evidently, wield both with effect.

BENEFIT OF PUBLIC OWNERSHIP.

Owen Sound affords the latest example of the difference between public and private ownership. In the report of the power and light committee a recommendation was made for the re-

duction of rates to the extent of twenty per cent. Flat rates for power were reduced from \$1.00 to \$1.00 and the meter rate was reduced one-quarter cent per K.W. The town will save \$1000 from the reduction in the cost of street lighting.

In a private company the profits would have been divided among the shareholders and the consumers would have been given no reduction, even if they were not offered new opportunities for contribution.

In public ownership all the profits go to the consumer who pays all the cost. In private ownership all the profits go to the shareholders and the consumers pay for everything.

MUNICIPAL ENTERPRISE PAYS.

Many British holiday resorts have gone extensively into the entertainment business for the purpose of attracting visitors. Among them is Margate, which twenty years ago had no municipal enterprises in the shape of concerts, shelters, band stands or pavilions or bathing facilities. All these were later provided and the revenue for last season from all sources totaled up to \$75,000, as against \$55,000 in 1910. Some of the revenues are remarkable. The new Forth Pavilion, opened in August, drew on the average \$1500 a week, while two concert parties attracted \$2500 a week and were paid by a percentage on the profits. The municipal orchestra produced \$1750 a week on the average at its open-air concerts. An older pavilion, the Westonsville, has already been paid for out of the profits. Margate's record has been surpassed in extent and results in other watering places in England, but it is an excellent example of the way in which a municipality can both boost itself and improve its revenues.

PRACTICAL TEMPERANCE.

Toronto Globe—Mr. Speaker Sproule has done a brave and seemingly thing in banishing intoxicants from his table during his term of office. He and his wife are ardent total abstainers, and carry their principles with them into official life.

We feel sure that The Globe does not forget the late Speaker in the provincial legislature, Hon. J. W. St. John, esteemed for his amiability and respected for his high moral principles, as comparatively few men in public life succeeded in being. Mr. St. John preceded Dr. Sproule in the practical exemplification of his temperance principles and the Speaker's entertainments gave practical assurance of his consistency.

It must lead The Globe to harbor some poignant regret when it reflects that when real temperance in public life is to be sought, it is to the Conservative party Liberal reformers must look. It is to be doubted whether Liberal politicians with all their professions about the three-fifths clause, have backbone enough to appoint a Speaker who would banish liquor from the official tables of the country. And whatever may be said, the moral effect of that banishment through the country is very great. It stiffens the moral principles of every young housekeeper in the land.

Nobody believes in the Liberal outcry against the three-fifths clause. Had the Whitney government adopted a majority vote, The Globe and its friends would now be using all the arguments adduced by Hon. W. J. Haess and other temperance reformers in support of the three-fifths measure. The opposition is partisan. As the province becomes more and more committed to the closing of the bars under the three-fifths vote, the absurdity of going back to a majority vote becomes more apparent to temperance people.

The real issue is observance of the law, and the Liberals are making a mistake in trying to conceal that issue behind a bogus agitation against the three-fifths clause.

CURBING THE TRUSTS.

Examined on Wednesday before the United States Senate Committee on Industrial Commerce, Mr. E. H. Gary, chairman of the executive committee of the U. S. Steel Corporation, admitted that in the last few years there has been much in the management of great business affairs that was wrong. "Many of the great business men, including perhaps myself," he said, "had notions concerning the conduct of business which should be changed." In a later part of his deposition he added, "We wouldn't think of doing now."

As a curb for the trust evil, Mr. Gary offered the following plan:

"Federal license of corporations, requiring full publicity, preventing over-capitalization, and preventing discrimination in cases between persons and localities.

"The creation of a corporation commission with power to grant, suspend and revoke federal licenses, subject to the right of appeal to a court.

"The corporation commission to have power to decide questions submitted by managers of business organizations who desire to avoid illegality in their actions; and to regulate prices as far as necessary to prevent monopoly and restraint of trade."

Suggestions of this kind are all very well after the mischief has been done. The steel trust is hugely over-capitalized, like all the other combinations that afflict the United States. Not only this but their stock is widely distributed and has been purchased at high prices, due to the huge dividends earned at the expense of the public consumer. Mr. Gary wants this condition to be accepted and now that public opinion has been thoroughly aroused is quite willing that no future companies shall have the same opportunity that the present trusts had and exploited to its utmost.

Canada should learn the lesson now, and secure that its future shall not be burdened in the manner the United States has permitted and now seeks to relieve.

Princess Patricia is to be our next sensation.

LARGER TYPE NEEDED.

Editor World: Most of the books that are published have good large type, and most of the advertisements that are in our daily papers have large type, and are easily read by the most of people without glasses, but all of the reading in our daily papers is printed in such small type that almost every one has to buy glasses to read it. It is only these last few years that all the papers have adopted the smaller type.

Every one wants to read the reading matter in our daily papers, but it necessitates their all buying glasses, and this is a crime of the worst kind. It seems to me that the government should insist that all reading matter in our daily papers should be less than a standard size. Have you the courage to take up this matter and bring it about? It means more to you daily pleasure and comfort to a larger type would call for. The writing that is read in the papers, are ruining their eyesight, straining them every day trying to read the small print.

The Bell Telephone Company in the last issue of their books have followed your example and made their type so small that we all have to get our glasses on before we can telephone. Almost every subscriber is talking about it, and is more than angry about it. I hope you will invite the public to write you and express their ideas on this subject. Surely all the papers and the Bell Telephone Company can afford to give their patrons the extra paper that a larger type would call for. The writer is satisfied that the paper that would give the larger type, would get a tremendous subscription list. As the won't you take the lead in this matter? I hope you will publish this letter and discuss it in your columns.

BUSINESS-LIKE ORATORY.

In an editorial with this caption, The New York Evening Post says: It has been remarked of the new Conservative leader in the house of commons, Mr. Bonar Law, that he has a fine equipment as a debater but almost none of the accomplishments of an orator. His speaking is strong but unadorned. Mark Antony could not have been more of a "plain, blunt man" who simply speaks "right on." Indeed, there

AT OSGOODE HALL ANNOUNCEMENTS.

80th November, 1911. Judge's chambers will be held on Friday, 1st December, at 10 a.m.

Peremptory list for divisional court for Friday, 1st December, at 11 a.m. Peremptory list for court of appeal for Friday, 1st December at 2 p.m. The Michael Fraser. (To be continued.)—Rex v. Britnell.

Master's Chambers. Before Cartwright, K.C. Master. Williams v. H. W. A. Logie (Hamilton) for plaintiff. Motion by defendant for an order of particulars of paragraph five of statement of claim. Judgment: The cause is at issue and both parties have been examined for discovery. The defendant's contention seems reasonable and in accordance with the principle that a party is entitled to know what case he has to meet at the trial. For these reasons the motion is granted to succeed, and the plaintiff should be ordered to furnish the particulars in ten days. Costs of motion in the cause.

O'Leary v. London Mutual Fire Ins. Co.—Anger v. H. H. Forth (plaintiff). Motion by plaintiff for an order dismissing action without costs and for delivery out of bond for security for costs. Order made. Patterson v. Mills—A. R. Clute for plaintiff. C. M. Garvey for defendant. Motion by plaintiff for an order compelling defendant to re-examine examination and answer questions. Motion enlarged until 4th December at defendant's request. Defendant to file for further affidavits of production.

Re Price-Price v. Price—O. H. King for defendant. Motion by defendant on consent for an order for payment of moneys in court to defendant. Order made. Livingstone v. C. P. Ry.—Watson (MacMurchy & Co.) for defendant. Motion by defendant on consent for an order dismissing action without costs. Order made.

Simpson v. Mulvaney—W. M. Hall for plaintiff. S. W. McKeown for defendant. Motion by plaintiff for an order adding wife of defendant as a party defendant after trial. Reserved.

Single Court. Before Middleton, J. Re Brecken and Delaney—A. J. Keeler for purchaser. L. F. Heyd, K.C., for vendor. A motion by purchaser for costs of motion under Vendors' and Purchasers' Act. Judgment: No order made on this motion as the vendor may be ordered, leaving the parties to assert their rights in an action. The order will provide that it is to be without prejudice to any rights of either party in any action that may be brought for specific performance, return of deposit, or damages. I cannot deal either with the validity of the objections or any of these questions upon the material, but award costs against the vendor as he should not play fast and loose in this way.

Oceanic Oil and Gas Co. v. Chaplin—B. N. Davis for plaintiff. Motion for an order continuing injunction. Motion enlarged sine die. Injunction continued meantime.

Patterson v. Dart—J. M. Pike, K.C., for defendant. S. Denison, K.C., for plaintiff. Motion by defendant for an order compelling the plaintiff to take subsequent accounts. Order made for fixing new day. If account not complicated they are to be taken by the plaintiff. If reference is to be at defendant's risk and senior taxing officer is to decide whether in his opinion necessary and also whether costs of this motion should be charged to court costs.

Bartram v. Gries—F. E. Hodgins, K.C., for plaintiff. C. A. Masten, K.C., for defendant. Motion by plaintiff for an order continuing injunction. Enlarged until 4th December. Injunction continued meantime.

Re Kenny Estate—H. S. White for applicant. B. J. Justin, K.C., for administrator. E. S. Graham (Brampton) for assignee of sons. Motion by Mary S. Kenny for an order continuing will under C. R. 93. Reserved.

Re Estate of Blert—E. D. Hume for vendor. J. B. Morine for purchaser. Motion by vendor under the Vendors and Purchasers Act for an order declaring a certain deed does not form cloud on vendor's title. On further material read being filed, order to declare that deed forms no objection to title. No order as to costs.

Re Naylor and General Construction and Development Co.—C. A. Masten, K.C., for W. H. Naylor. Motion by W. H. Naylor for a declaratory order in regard to shares claimed by him in the company. Enlarged until 4th December next.

Kearney v. Lochrie—C. Kappel for plaintiff. W. H. Bourdon for defendant. Re Estate of Blert—E. D. Hume for vendor. J. B. Morine for purchaser. Motion by vendor under the Vendors and Purchasers Act for an order declaring a certain deed does not form cloud on vendor's title. On further material read being filed, order to declare that deed forms no objection to title. No order as to costs.

Re Naylor and General Construction and Development Co.—C. A. Masten, K.C., for W. H. Naylor. Motion by W. H. Naylor for a declaratory order in regard to shares claimed by him in the company. Enlarged until 4th December next.

Single Court. Before Latchford, J. Re Sherwood—W. C. McCarthy (Orde) for Alice Sherwood. J. F. Orde, K.C., for Royal Trust Co. T. Lewis for defendant. Motion on behalf of Alice Sherwood for an order declaring her to be entitled to \$265 held by the Royal Trust Co. under an agreement made in June, 1906, whereby in consideration of \$1000 then made over by Joseph Sherwood to the company, the company covenanted to pay him \$15 monthly during his life or until the fund should have become exhausted. After his death \$15 a month was to be paid to his widow, Amelia Sherwood, until any balance then remaining, and upon her death the company was to hold the whole balance of the trust premises (if any such there be) for and shall pay the same to Alice Sherwood. Mrs. Sherwood survived her husband long enough to have \$265 payable to her, but she did not withdraw it and died intestate, and Miss Sherwood now claims this to be payable to her as part of the whole balance of the trust premises.

Judgment: I think applicant's contention cannot be maintained. The \$265 does not form any part of the trust premises. It is made up wholly of the instalments to which Mrs. Sherwood was entitled and which by her direction were held for her by the Trust Company. She could on the last day of her life have assigned or bequeathed the \$265. It was her property and now forms part of her estate. The appli-

Before Mulock, C. J.; Riddell, J.; Sutherland, J. Magnuss v. L'Abbe—D. C. Ross for plaintiff. H. Cassels, K.C., for defendant. An appeal by plaintiff from the judgment of the chancellor of 28th June, 1911. Plaintiff, a laborer, working for defendant, contractors engaged in construction of a trench or ditch in Port Arthur, was injured while at the bottom of the trench shovelling earth off the rock, when he was struck

on the head by a pole falling into the trench, which produced concussion of the brain and left him in a state of general shock, etc., which injuries were alleged to have been caused by negligence of defendant. Plaintiff claimed \$5000 damages. At the trial the action was dismissed without costs. Judgment: Appeal allowed and new trial ordered. Costs of former trial and of this appeal reserved to judge who shall preside at new trial.

Court of Appeal. Before Moore, C. J.; Gwynne, J. A.; MacLaren, J. A.; Meredith, J. A.; Magee, J. A. Stecher v. Ontario Seed Co.—G. C. Gibbons, K.C., for defendant. H. M. A. Secord, K.C., for plaintiff. In order varying judgment. Reserved.

Fraser—G. H. Watson, K.C., for Fraser. A. McL. Macdonell, K.C., for McCormack. An appeal from a judgment of a divisional court, reversing the judgment of Britton, J., which declared that Michael Fraser, at the time of his marriage, had been of unsound mind or incapable of managing himself or his affairs, and declaring the said Michael Fraser at the time of his marriage to have been of unsound mind, and has ever since continued to be and is now of unsound mind and incapable of managing himself or his affairs, and appointing a committee of his personal and real estate with costs to be paid out of his estate. Appeal partially argued but not concluded.

Jones v. Toronto and York Radial Railway Co.—C. A. Mess for defendant. J. MacGregor for plaintiff. Appeal by defendants from the judgment of the divisional court, reversing the judgment of Riddell, J., at the trial, dismissing the action and directing judgment to be entered for the plaintiff for the amount found by the jury. The plaintiff, a market gardener and pedlar, of the Township of York, brought action claiming \$8000 damages for injuries sustained by being struck by a car of defendant. Alleged to have been caused by the negligence and carelessness of defendant. The jury, by their answers, found both parties negligent, but assessed plaintiff's damages at \$1200, if the court should think him entitled to judgment.

Judgment: Appeal allowed and judgment of trial set aside with costs. Savert v. McMillan (6 cases)—F. A. Knoll, K.C., for certain defendants. W. C. Boland for third parties. F. McCann, K.C., for other defendants. J. Blacknell, K.C., for plaintiff. Motion by defendants for an order varying the five certificates, and for one certificate only, declaring that plaintiff is not now interested, and for amendment in name of beneficial party.

Judgment: Certificates varied as to costs of third parties. No costs of motion.

WARDEN BOB BULL GETS GREAT SEND-OFF

Banquet at Walker House Fin Event—No County Clerk Yet—York Township on Job.

West York County Council, now in session, last night tendered to Warden "Bob" Bull of the Walker House, one of the finest tributes ever paid to the occupant of that honored position.

John Gardhouse was master of ceremonies, and assisted with the banquet. Alex. McCowan, Dr. Godfrey, Governor Chambers, Dr. J. T. Gilmore, Esq., Warden Puseley and A. C. McLean, provincial good roads commissioner.

For the "Dominion Parliament" Warden Puseley responded, and for the "Provincial Legislature," Alex. McCowan and Dr. Godfrey.

For the good roads commission Mr. McLean, W. G. Trethewey and George S. Henry replied in fitting terms.

Other toasts followed, and at a late hour the gathering broke up.

NORTH TORONTO. The parallel streets, parks and property committee met in the town hall to-night and were addressed by Silas James with respect to the 66 feet wide property now known as east wardened street.

It appears that Mr. James gave the committee an option on the whole property, comprising 80 feet, at the rate of \$23 per foot.

The chairman of the committee will get into touch with the engineer with a view to wiring the town hall.

The finance committee were addressed by the library board. Ex-Councillor Irwin laid the board's case before the committee and asked for an additional \$500 for the year 1912, making the total \$1000 for the year.

The library board contemplates renting one of the main stories at the corner of Breville-avenue and Yonge-street, built by Commissioner Coombs.

Mr. Brownlow stated that the board had no special site picked out for the location of the new school.

Councillor Howe took objection to the by-law going to the people in such a manner, thinking that a larger vote would be secured if they knew the location.

Mayor Brown was inclined to agree with the committee's recommendation.

The high school board waited upon the committee represented by Chairman Brownlow, Robert Ferguson, Thomas Hannon and Mr. Arnold.

WEST-YORK LIBERALS. West York Liberals will hold a convention, presumably for the selection of a candidate for boat riding, Saturday in the town hall at Weston.

Only one name is suggested seriously, and that is George W. Verral of Weston. One John Galbraith is said to be willing and anxious to offer himself as a candidate on the altar of Liberalism.

But the name of Mr. Galbraith will only be considered in the event of Mr. Verral's withdrawal, which is not expected.

Mr. Verral is understood to have been positively refused to be a candidate in the general feeling of West York Liberals, who wish to place in a candidate in the field against Dr. Forbes Godfrey.

LABOR PARTY WANTS UNITY OF WORKINGMEN Mass Meeting at Temple Stirs Up Enthusiasm—Alan Studholme Speaks.

Confident of success at the polls and resolved to stand united, the members of the local independent labor party held a mass meeting in Labor Temple last night.

The speakers were: A. Studholme, from East York; James Richards, local candidate for North Toronto; W. R. James, South Toronto; James Stevenson, from West York.

The necessity for unity of action if the labor party is to be successful on election day, was the keynote of each address.

"We have 75 per cent. of the votes if we stand together," said A. Studholme, the first speaker, "and every one of your six men in the field can be sent to parliament."

Mr. Richards declared strongly for woman suffrage, and will support James to this end if elected to the provincial parliament.

He stated that experience had proved that only the labor party can be trusted to bring about a change in the constitution.

Mr. James declared that he believed in the recall. If the ballot can be put in power why should it not be used to put him out if he violates his trust?

The next speaker was James Richards, local candidate of North Toronto.

"Just before election," he said, "the old parties are always haggling over some issue which is of little concern to the worker."

Mr. Richards said he distrusted the sources of the contributions being received by the old parties.

A good share of this money, he declared, comes from public contractors.

He said that much of the recent legislation passed which purports to benefit labor usually contains some clause, which nullifies all the good it may possess.

Afraid of Preachers. He said he believed the temperance question should be settled, as any other matter, by a majority vote.

Harbormaster Drowned. HALIFAX, Nov. 29.—(Canadian Press.)—Benj. Smith, harbormaster at Sambro, was drowned this evening. Mr. Smith was boarding the vessel I. Croft, some of those who saw him fall overboard, went at once to his assistance, and when they had rescued him, he was not quite dead, but he expired shortly after reaching his home. The coroner's verdict was accidental drowning.

Hurt in Runaway. Samuel Moses, 41 College-street, was taken to Grace Hospital from 180 East Front-street suffering from severe injuries to both legs sustained in falling from his wagon when his horse ran away.

Commercial Reports

Wheat Lower in Winnipeg. Holiday Across the Border. Commodity Exchanges Have Decidedly Dull Day—Liverpool Futures Close at Fractional Decline.

World Office. Thursday Evening, Nov. 30. There was comparatively little doing in the commodity markets on this continent today, the Chicago and American North-west grain exchanges being closed for the holidays and the Winnipeg market moving along in an apathetic manner, owing to the removal of the influence of the big American wheat centres.

Winnipeg Inspection. Winnipeg receipts of wheat to date of following: No. 1 northern, 10,000; No. 2 northern, 75,000; No. 3 northern, 120,000; No. 4 northern, 60,000; No. 5 northern, 25,000; No. 6 northern, 15,000; No. 7, 5,000; No. 8, 5,000; No. 9, 5,000; No. 10, 5,000.

Liverpool Grain Prices. LIVERPOOL, Nov. 30.—Wheat—Futures closed 1/2 to 1/4 higher than yesterday. Heavy demand, prices advanced 2 to 4 points. Flour—Futures closed 1/4 to 1/2 higher than yesterday. Heavy demand, prices advanced 2 to 4 points.

Canadian Apples Higher. LONDON, Nov. 30.—Apple supplies heavy, better demand, prices advanced 2 to 4 points. Pear—Futures closed 1/4 to 1/2 higher than yesterday. Heavy demand, prices advanced 2 to 4 points.

Winnipeg Grain Market. WINNIPEG, Nov. 30.—The business on the exchange today was quiet and fluctuations in options not wide, shorts being forced to cover for November, causing that month to advance slightly over Wednesday's close. Futures, however, were easier on reports of lower British wheat.

ST. LAWRENCE MARKET. Receipts of farm produce were 600 tons of grain and 25 tons of hay and one load of straw. Grain—Prices were unchanged. Hay—Futures were unchanged. Straw—One load sold at \$17 per ton.

Brookville Cheese Board. BROOKVILLE, Nov. 30.—The day's cheese board meeting, the offerings were 600 colored and 120 white. The highest bid, 12 1/2c, was refused. The board adjourned for the season.

FARM PRODUCE WHOLESALE. Hay, car lots, per ton \$16.00 to \$17.00. Hay, car lots, No. 2 \$14.00 to \$15.00. Wheat, car lots, per ton \$1.20 to \$1.30. Butter, store lots, per lb. 0.25 to 0.30.

CATTLE ROUTE STEADY

Trade Was Uneven But Strong at Tuesday's Basis—Sheep and Lambs a Little Stronger.

The railways reported 63 car loads of live stock at the city yards, comprising 832 cattle, 1774 hogs, 1083 sheep and lambs, and 25 calves. The quality of fat cattle was the same as for the past few markets, few good and choice, with the bulk common and medium.

Representative Sales. Corbett's sale today for Wednesday and Thursday, as follows: Butcher's steers and heifers, \$5 to \$5.50; cows, \$4.75 to \$5.25; hogs, \$4.75 to \$5.25; sheep and lambs, \$4.75 to \$5.25.

UNION STOCK YARDS. Receipts of live stock at the Union Stock Yards were 20 car loads, consisting of 200 cattle, 720 hogs, 112 sheep and lambs and 7 calves.

MONTEAL GRAIN PRICES. MONTREAL, Nov. 30.—Altogether this was a holiday in the United States this was no let-up in the demand from continental buyers for Manitoba spring wheat and all prices which were 1/2 to 3/4 per bushel higher than the prices bid from the United Kingdom.

More Confident Feeling in Mining Circles—Undertone Firm

Porcupine Stocks Hold Steady In Face of Apathetic Demand

Featureless Session of Mining Stocks With Comparative Firmness the Only Characteristic—Cobalts Unchanged.

World Office. Thursday Evening, Nov. 30. The holiday in New York had an adverse influence on the local mining markets and trading showed a decided diminution from its recent levels through-out today's session.

Public interest in the Porcupines was even more restricted than usual but it was noteworthy that there was a fair buying demand for all the listed securities, and as there was no burdensome liquidation in evidence, no particular change in the trend of the market was evident.

The general feature of the list was the comparative firmness which characterized those issues which have been under pressure lately. The selling movement, which was in effect early in the week, seemed to have practically run its course, and no difficulty was experienced in taking care of such realising as came into play.

Moderate Firmness Shown. Quotation changes in the lesser priced Porcupine were limited to a few issues, and since these indicated both declines and advances, irregularity was about the only characteristic that could be adjudged.

There was nothing of interest in the big issues, both Rea and Hollinger holding within the limits established yesterday. This statement was also true of the Cobalt securities which did come in for any special line of trading.

LABOR TROUBLES IN PORCUPINE CAMP

Magistrate Orders Deportation of American Workmen—Case Gone to Appeal.

Porcupine, Nov. 28.—(From Our Man Up North.)—Sixteen expert American workmen, employed on the Mattagami Falls power dam on the Mattagami River, as riveters, were deported this week by Magistrate Gordon, who heard the case on the complaint of labor union men.

The Ontario crown attorney's department, thru J. D. McMurich, local barrister, brought on the suits. The contractor who has the contract for the dam, the Mattagami Falls, appealed on the grounds that the men employed are the men who make the machinery and that their services are necessary.

It is estimated that 46 per cent of the skilled miners and mine managers from the States, being sent here by companies that hold controlling interests in many mining companies, and in the light of recent deportation proceedings in the power dam cases, interest is intense as to how far the Ontario crown attorney's department intend to push the deportation cases.

CREATION OF CARDINALS THREATENED TO EXERT INFLUENCE ON COUNCIL

Concluding Ceremonials Carried Out at the Vatican—Red Hats Duly Presented.

Rome, Nov. 30.—(Canadian Press)—The concluding and most impressive ceremony connected with the creation of the 19 new cardinals occurred this morning at the great papal consistory at the Vatican, when fourteen princes of the church were invested with the red hat insignia.

The hall of beatification is an immense chamber over the porch of St. Peter's. Distant strains of vocal music and the low, approaching murmur of the papal choir, announced the arrival of the pontiff.

When all were seated the cardinals of Curia advanced to do homage to the pope and then to introduce into the hall the new cardinals, who were seated in the choir.

Had Contractors Puff? William Storrie, second engineer in charge of the work, who was the first to speak yesterday, also testified to the threats of the contractor.

Referring to the statement of David Dill, he said that he was asked by Mr. Richey, he stated that the matter had been reported to him and that he had informed Mr. Longley of the occurrence.

**ARCHBISHOP CONSECRATED**  
Rev. Michael Spratt Becomes Head of the Diocese of Kingston.  
KINGSTON, Nov. 30.—(Special.)—A scene of imposing grandeur was presented at St. Mary's Cathedral this morning on the occasion of the consecration of Rev. Father Michael J. Spratt as archbishop of Kingston. The edifice was filled to the doors with members of the congregation and church dignitaries from many places in Canada, and also a few from the States, with a good attendance from the various parishes in this district. His excellency, Mgr. Stagni, papal delegate, conducted the ceremony, and he was assisted by Dean Murray of Niagara and Hartigan, Deseronto, as deacon and sub-deacons of mass, respectively. Bishop O'Connor, Peterboro, and Bishop Macdonnell of Alexandria, were assistants to the archbishop-elect, while Rev. James O'Reilly was master of ceremonies, with Fathers J. McDonald and V. Meagher as assistants.

**MORE BABIES**  
Over Eight Hundred Arrived in City Last Month.  
This month's vital statistics show that the gentleman with the scythe is far behind the bird with the basket. There were nearly twice as many births as deaths last month. Over 800 babies were born in the month of November, which is an increase of 25 per cent over the corresponding month of the previous year. The death rate for the month of November has increased by 15 per cent over the corresponding month of the previous year. Last November there were only 429 deaths, while in this past month there were 541. The statistics are as follows:

**Contagious Diseases.**

**Toronto Stock Market Comes In For Good Investment Buying**

Impending Big Dividend Payments Build Up Improved Sentiment—Definite Firmness to Prices—New York Exchange Closed.

**HOLIDAY IN WALL-STREET.**  
The New York stock market was closed yesterday over the holiday and consequently brokers had nothing at all on which to gauge Wall-street sentiment. The idea in the local offices, however, was generally to the effect that there was nothing in sight indicative of any impending change in the trend of the big market. Viewed broadly it would seem that a continuation of the irregularity which characterized the list during the last few days is promised for the immediate future. Call money in Wall-street is expected to get back to normal levels with the inception of the new month, but this will not pose as any particular influence in regulating the course of prices.

**BOOSTING CANADA.**  
Canada's growing importance in the eyes of the motherland is very well exemplified by the fact that the "Joint Stock Companies" Journal of London, England, made its issue of 15th November a special Canadian number. Extending to upwards of a hundred pages, it is apologetically referred to in an editorial preface as no more than a suggestion. Yet it contains much information regarding the premier Dominion and the views of a number of Canadians "distinguished in various walks of life." The latter part of the number, which is beautifully printed and attractively illustrated, contains a series of articles dealing with the principal Canadian companies.

**Bank of Montreal Continues its Advance—General List Stronger.**  
MONTREAL, Nov. 30.—With the American exchanges closed to-day on account of Thanksgiving in the United States, interest naturally centred on the Canadian markets. While the volume of trading on the Montreal was not large, the tone was somewhat stronger. Montreal closed also showing again the leader in point of activity, was strong, advancing to 136 as compared with 134 at the close yesterday and closed strong, 134 7/8 being bid and 135 asked.

**STOCK ISSUE WELL TAKEN.**  
C. Meredith & Company, Limited, announce that they are greatly pleased with the prompt and spontaneous way in which the issue of 70 per cent preferred stock of the Spanish River Pulp and Paper Mills Co., Limited, has been taken up.

**LONDON MARKET QUIET.**  
LONDON, Nov. 30.—Money and discount rates were firm to-day. The stock market was dull, and prices displayed a cautious tendency in most departments. DeBers, Argentine rails, and Italian bonds were steady reactions. American securities were quiet, and price movements were irregular, pending the publication of President Taft's message. The closing was quiet, with prices ranging from 1-5 above to 1-2 below parity.

**Strike-Breakers Quit.**  
MONTREAL, Nov. 30.—Willard Paquette, representative of the textile workers, who has been conducting the strike of the Dominion Textile Workers at Mazow, returned to-day, and stated that the men whom the company sent to Mazow to replace the men on strike had returned to town on learning that a strike was in progress.

**Money Markets.**  
Bank of England discount rate, 4 per cent. Open market discount rate in London for short bills, 2 1/2 per cent. New York call money, 1 1/2 to 2 per cent. lowest 3/4 per cent. ruling rate in London. Call money at Toronto, 6 1/2 to 6 per cent.

**Winter Tourist Excursions.**  
When leaving on a winter tour, whether it be to the Sunny South or a journey embracing a number of delightful watering places on the continent, the best safeguard against traveling troubles is a ticket Toronto to Toronto without bothersome exchanges to be made or anything to be done except travel in comfort. This kind of ticket may be obtained at the Canadian Pacific Offices at special reduced winter tourist rates, carrying special stopover privileges and variation of routing. If you are interested, call at the C. P. R. City Office, 46 East King-st., phone Main 6580, for information, suggested trips, literature, etc., or write to M. G. Murray, District Passenger Agent, C.
