GERMANS READY TO FALL BACK

Krylenko Will Throw Concentrated Masses Against Germans.

WILL DIG TRENCHES

General Mobilization of Workers Decreed to Oppose Invasion.

Petrograd, Feb. 22. - If the Germans refuse peace to Russia, "a struggle to the death or victory for us is inevitable," says an official

statement today. "The people's terrorism must be opposed to the advancing enemy," it is declared.

The statement says that detachments 1000 to 1500 strong, lightly armed and able to entrench quickly and attack determinedly, will be able to stop the German advance. What is characterized as "real revolutionary nobilization" is ordered,

Ensign Krylenko, the Bolshevik comander-in-chief, who issued the statewing against the enemy concentrated masses of revolutionary citizens who not only in accordance with mili-tary strategy but also secretly, from every corner, everywhere—in sman de-tachments and large battalions—will struggle for every town, village, street and house, then there are not forces which the Germans can successfully Work on Foritfications.

Mr. McCurdy will be its chairman. Its duties have been extended to the provision of vocational training, instructional and only obey the order.

An official statement issued today says: The Russian parliamentary messengers started in a motor car from Rieshitsa for Dvinsk, but near the station at Antonopol were met by a German automobile armed with machine guns. The Russian motor car was allowed to pass, but the parliamentary representative and the com-missioner of the fifth army were de-tained and brought back to Rieshitsa the German automobile." ## THE DAY'S EVENTS REVIEWED

Australian mounted troops, who are leading the British advance in Palestine, have occupied Jericho and established themselves on the line of the Wadi Auja and the Jordan. In contrast with the hard fighting of the previous days the British had an easy time of it, for the Turks are apparently accepting defeat and are in retirement. The British, London believes, by this successful stroke already have completely separated the Turkish forces north and south of the Jordan, and at any rate they have Jordan, and at any rate they have the national spirit of resistance, such seized important roads and fords, as it is. A report issued by the department of Major T. P. Grubbe at military headquarters, shows that there are 34 men in the Niagara district who falled to report under the draft act on Jan. 23 to the 2nd Battalion of the

2nd Central Ontario Regiment.

Many Unfit Men.

It is reported that there is one battalion in Toronto district which contains about 300 men of "A" category and about 300 of other categories. Altho the regulations provide that a unit may have 150 men of categories other than "A," the unit referred to has still 150 too many. The point is being raised that perhaps the doctors who examined the men under the Military Service Act were too eager to provide as many "A" men as pos-

Firemen's Pension Fund Bylaw Considered by Board of Control.

BEING RUSHED THRU

Men's Committee Objects to Clause Requiring Permission to Resign.

The long-awaited bylaw to govern the firemen's renefit fund was taken Capt. Fox of Bay street firehall. chairman of the men's committee, and William Slaght, also of that committee, were present. They pointed out that the bylaw had been submitted to the members of the committee, and all the clauses had been approveand all the clauses had been approved, with one exception. The men objected to being forced to obtain the consent of the board of control to retire after 30 years' service. "That clause will have to stand," said Controller Maguire. "It is possible for a man, 50 years old and in

sible for a man, 50 years old and in the best of physical condition, to refire on a large pension if we do not keep that clause in."

The bylaw, as drafted by the city solicitor, embodies the recommendations made by the finance commissioner some time ago. Provision is made for a committee of five to administer the fund, consisting of a controller, the finance commissioner, the city solicitor, the fire chief and a representative of the men, to be elected annually. Limited benefits, as recommended in Mr. Bradshaw's

report, are also provided for. The men are called upon to pay seven per cent of their salaries into the fund, beginning March 1.

Controller McBride spjected strenuously to a clause which allowed a fireman to retire at any time after 20 years' service, and be paid a gratuity of 20 days' salary for each full year of service completed. Mr. full year of service completed. Mr. Bradshaw explained that from the standpoint of the fund it would be much better for all the firemen to retire a few years before their 30-year term was up and be paid a gratuity

Smith Eligible for Large Gratuity. It is interesting to note, that if the fire chief were to retire now with out the consent of the board of con-trol, he could draw a lump sum of nearly \$8000 from the fund, altho he has paid much less than that sum into it. If he resigns with the consent of the board of control his pension would be \$1500 annually until

Following revision of a few unfinished clauses, the bill will be sent on to the city council. It is not thought now that there is any chance of final settlement being held over until April 15, when the present chief would be eligible to retire on a pension of \$2250 a year if the bylaw were not passed before then. "The bylaw will be put thru council within a few weeks," said Controller McBride yesterday. Capt. Fox informed a reporter that the members of the benefit fund committee were unanimous in favor of the new bill. He admitted, how-

instead of six months, as at present. The change would not apply to rural districts, where gardens might be planted, but to towns and cities.

J. C. Elliott (West Middlesex) and J. Thompson (Peterboro) thought the suggestion made the time too short, and Sir William Hearst found fault with it on those grounds. The bill was finally referred to the legal committee.

Statute Labor Bill.

The second reading of a bill to amend the Statute Labor Act was moved by G. J. Musgrove (Niagara Falls). He contended that foreigners were getting off without giving any assistance whatever to the upkeep of highways in certain sections, and proposed a poll tax of \$5 to cover statute labor. Mr. Elliott saw danger in having more than one law for a county, and Sam Clarke (West Northumberland) expressed the opinion that care should be exercised before making such a change. The bill was, therefore, nassed on to the municipal committee for its consideration.

Proposing a change in the Bread

Proposing a change in the Bread Sales Act. Charles McCrae (Sudbury) brought in a bill to give bakers the privilege of making special sized loaves provided they were for contracting firms and not sold to the public. fleulty in using the loaves as made

An amendment to the Mining Act was the proposal of H. Hartley Dewart (Southwest Toronto). This would say that the names of partners would need to be given when a claim is filed. In the past joint ownership of a patent has not been made clear, it was held.

To Amend Highways' Act.

George S. Henry (East York) introduced a bill to amend the Highways. Act so that drivers of traction engines would not be required to plank bridges.

would not be required to plank bridges before crossing them.

To allow cities of more than 100,000 population to charge six per cent. on overdue taxes, J. A. Pinard (East Ottawa) introduced a bill which would affect Ottawa and Hamilton. At present such privilege is only granted the City of Toronto. William Proudfoot's bill to remove the disqualifications of women as can-didates for the legislature was intro-

duced and given its first reading and Hon. I. B. Lucas attorney-general, introduced a bill having for its purpose the consolidation of telephone legislation. It is purely a technical

## Change of Routes

Beginning March 4, 1918

## Queen and Parliament Routes

For some years it has been the desire of many people that there should be a cross-town along Queen street through the business centre. connecting the east with the west end of the city, without the necessity of transferring.

In the past the company has not considered it in the interests of the public to make a through line, mainly on account of the traffic not being balanced on each side of the centre line; in other words, a different service and type of car were required on the west side of the city than that for the east side, and to join these together would not have been

satisfactory to either side. These conditions have changed in a large measure, the traffic is more evenly balanced, and the company believes that it would be now justified in giving a crosstown line a thorough trial.

The Queen and Parliament lines will therefore be linked up, forming one continuous line, to be known as "Queen", and to be routed as follows:

From Boustead avenue. south on Roncesvalles to Queen, east on Queen to Parliament street, north on Parliament to Gerrard and east on Gerrard to Greenwood avenue; returning via same

## College Route

The College line will run south on Bay to Front, west along Front to York, north on York to Richmond, east on Richmond to Bay, thence north to Queen and over regular route.

The above changes in routes to be effective on and after Monday, March 4, 1918.

You can't?

No, madam.
Couldn't you tell me if I told you all the symptoms?

No, madam. My remedy called Mothers' Friend expels worms, is an excellent Tonic and Builder, good for the Nerves, and is an excellent anedicine for Regulating the Bowels; it brings away all fifth and small Intestinal Worms, is perfectly harmless and can be given to the smallest infant without fear of doing harm. A lady who is living on Shaw street got a bottle of this medicine for her baloy 2 years old. She said she had no peace with this child night or day for 4 months; the doctor was calling regularly and did not help the child in the least, the little one took a bad spell and was choking, the mother opened its mouth and pulled out a stomach worm that was strangling the child. She rushed over to me and brought the child, also the worm, which measured 3 inches long, with her. She purchased a bottle of Mothers' Friend, and the second dose brought away 17 more. She was horrified at the sight, and brought the worms to me, which I have here in a bottle in my office, and many others from other happy mothers. So if you think it a good investment to try Mothers' Friend, it is \$1.00 per bottle, and &c for postage outside Toronto. Now, you understand, it is not necessary to waste car fare bringing your children here, as I do not practice medicine, and lines only the one remedy for siek childern, which expels Worms if they are there. The proposal that the government shall than help federal railway nationalization. The Toronto Globe takes the view that Sir Adam presented his case from a provincial rather than a national standpoint. He crippled his case from the start in our opinion by saying that the Canadian Pacific should not be nationalized because it had sufficient assets to carry on. The Grand Trunk The directors of the Ontario Pro- might rejoin that, freed from the incuada would also be able to carry on. inconsistency of Sir Adam's opposition to the nationalization of the Canadian Pa-

the nationalization of the Canadian Pacific Railway Company, as follows:

Sir Adam Beck favors taking over all the big railways but the C.P.B., the one paying concern among them all. He would have the country take up the "dead dogs," including the T. & N. O., which he characterizes as a fallure. It was a paradox that Sir Adam pointed to both the Ontario Government's railway to north Ontario as a deficit producer, along with the private-owned systems. It is well known that the C.P. R. is doing everything in its power to prevent its inclusion in the government-owned railways altho those who favor nationalization have seen the chance to support the other weaker ones thru the enormous profits of the C.P. R. Sir Adam Beck does not recognize this possibility.

The Winnipeg Tribune fears that the Canadian Pacific will not be taken over at present, which, in its opinion, means not at all, and argues

Apparently, advocates of railway nationalization—and they are a numerous body in Canada at present—have not been able to convince the government. Or, perhaps, it is more correct to say that the government, because of the heavy cost of the war, cannot convince itself that it can buy out the Canadian Pacific Railway.

One thing, however, seems indisputable, namely, that if railway nationalization be a good thing, the opportunity of putting it into operation is here and now! After the war, when the party system is restored in the Dominion, the chances of taking over the Canadian Pacific Railway will be small.

The Montreal Herald may not at heart be a strong friend to public ownership. but it may reflect the present views of complete railway nationalization. Herald says :

Canada is carrying now every losing railway proposition in the country,
and they have a 'book value' of about
\$300,000,000. These are the losing railways, mark you; they do not earn interest on the liabilities their ownership
imposes upon the country. By taking
over the remaining railways, the government will have sufficient earnings,
and will be able to effect sufficient
economies to pay not only the interest
upon the new liabilities, but the interest upon all the liabilities, and leave a
balance on the right side.

ought to let the public know if the speech of Hon. Mr. Carvell (his minister of pubworks) at Montreal was with his sancn. Here is how The Montreal Gazette (the leading opponent of public ownership) interprets it:

special to The Montreal Gazette.

Ottawa, Feb. 20.—The speech of the Hon. Frank Carvell in Montreal before the Canadian Club last Monday, in which he dealt, among other things, with the government ownership of railways, has renewed discussion in the capital of the attitude of the Union government towards the railway problem. While the idea of interfering with the C.P.R. has been definitely disminished from the minds of the members missed from the minds of the members.

For all the attention he paid me interminable time; or so it seemed to me. with the C.P.R. has been definitely dismissed from the minds of the members of the government, discussion still centres around the attitude of the government described of the government of the ment towards the Grand Trunk. There is a rumor in political circles that the speech of the Hon. Mr. Carvell implied that the government has practically decided not to nationalize the G.T.R. The reason urged is that to do so would involve a permanent policy of nationalization. It is held that, as the present government is purely a war government, in which very diverse views on the question of nationalization exist, it would seem that the best and wisest

caused exclusively by the continuance of the war.

Up to the present, the Grand Trunk has been able to obtain whatever was required in the money markets of the world, but now all financing has been stopped in Canada, England and the United States, and the Grand Trunk now finds itself in the position of temporary financing until the war is over. The sub-committee of the cabinet is still engaged on the railway problem, and it is understood that the more consideration given to the subject lessens the possibility of nationalization of the Grand Trunk.

Gelighted when I found that Merton Gray was to take me in.

### Cosmopolitan Army Raised By New York for Service

New York, Feb. 22.-Five hundred housand men, women and children stood for two nours or more in a sweeping snowstorm and a stinging wind on Fifth avenue today to see their sons and brothers and sweethearts marching by—men of the national army, not regulars or voiunteers, but drafted men.

The men in line, more than 10,000 of them, of the 77th American division, were New York's own, and they were typical of the great polygiot city. Swarthy Armenans strode side by side with fair-haired Scandinavians. Irish boys rabbed ellows with Jews. Italians trudged beside Poles, Here and there was a Chinaman, and here and there a face that was typically Yankee. Sons of sons and daughters of the revolution marched with boys whose fathers were immigrants a generation ago. for two nours or more in a sweeping

## NO DANGER OF FAMINE.

Washington, Feb. 22. — Director-General McAdoo today gave assur-ance "that so far as transportation is concerned, there is no danger of suffering from a serious food short-age in the eastern part of the coun-try." This was promoted by the try." This was prompted by the warning given last night by Food Administrator Hoover, that unless grain and meat movement is greatly increased in the next 60 days, the country is threatened with an acute shortage of food, and the program of food shipments to the allies will fail.

WILL LIKELY GET RELEASE.

Pte. Arthur Page in Poor Health, and Three Brothers Serve.

The case of Pte. Arthur Page, 38 Holly street, whose release from the army has been requested by his relatives on the ground of his being in poor health and having three brothers on active service overseas, which by means of a petition was brought to the attention of the governor-general, and in turn referred to the department of militia, and then to Major-General Logie; will, it is understood, be brought up before the leave of absence board for Toronto district. Owing to the fact that Pte. Page has three brothers overseas it is almost certain that he will be granted leave of absence from the army, but owing to the regulation regarding such cases his leave will have to be renewed from time to time.

## ONE POINT UNEXPLAINED.

Case of Gunner Albert Neals Will Be Cleared Up.

In regard to the case of Gunner Albert Neals, who was removed from his home to the military base hospital last Tuesday, while ill with pneumonia, the only point still to be cleared up is as to whether the corporal who came with the ambulance arranged things so that the sick soldier was left too long on the sidewalk before being lifted into the vehicle. Military headquarters state if it is shown that the corporal did display a lack of good judgment he will be disciplined.

## TO CHANGE DOWER LAW.

Winnipeg, Feb. 22.-In compliance with the request of a delegation from the Manitoba Home Economics Socie ties the provincial government has decided to amend the dower law. COOGAN HAD THE PUNCH.

Providence, R.I., Feb. 22.—Mel Coogan of Newport won the decision over Pete Hartley-of New York in a 12-round bout at Woonsocket tonight. Hartley was aggressive thruout, but Coogan outpunched and outpointed him.

9.25 this morning. He had been ill only two days.

Pneumonia and kidney trouble, complicated with other aliments, brought on the boxer's end within 4 hours from the time he was removed in an ambulance from his Brooklyn home to the hospital. His wife was with him when he died. They have one son, Joseph, aged 19.

McGovern was reputed to have earned utring his fighting career. After his retirement from the ring he conducted salons at various times and was frequently in institutions because of ill-health, He was a free spender, and his fortune had so diminished a few years ago that Samuel Harris, who was his manager at the height of his boxing success, raised a fund on McGovern's behalf. From this money Mrs. McGovern was:

Terry McGovern (Joseph Terence McGovern') born March 9, 1880, Johnstown, Pa. Height, 5 ft. 4 in. Weight, 130-133 lbs. Color, white. Nationality, Irish-American.

LARGE PRIZE LIST FOR TOURNAMENT BOWLERS

Cincinnati, O., Feb. 22.—Robert W. Brown of New York was elected president of the American Bowling Congress at the annual convention here today; John T. Smith of Buffalo, first vice-president; Charles M. Barker of St. Louis, second vice-president, and Elmer C. Dyer of Toledo O., third vice-president.

A total of \$30,970 in prizes will be given the leading bowlers in the tournament, according to the prize list committee's report. The list provides for 131 regular prizes for five-man teams, 280 for two-man teams, 607 for individuals, and for 50 in the all-events; \$10,355 will be distributed among five-man teams, \$8605 among the individuals.

The first prize for the five-man teams will be \$670, and the last \$25; for two-man teams the first prize is \$360, and the last \$11; while the first prize for the best individual bowler will be \$200, and the last prize will be \$7. In the allievents, the first prize will be \$110, and the last \$14. There will also be 32 special prizes for five and two-man teams and individuals.

Toledo was selected as the convention and tournament city in 1919, and Robert W. Brown of Louisville and New York, was elected president of the American Bowling Congress at its annual convention here today.

The prize list or money to be distributed among the bowlers participating in the annual tournament, as adopted by the convention, will total \$30,970, distributed as follows: \$10,355 to the fivemen teams; \$3462 to the two-men teams, and \$9605 to the individuals.

The only change in the standing today occurred when J. Schmitt of St. Louis, by rolling 647, landed in second place temporarily, and J. F. Oetken of St. Louis landed third with 645 in the individual events.

JUST LISTEN TO CHARLIE!

Chicago, Feb. 22.—Charles H. Weeghman, president of the Chicago Nationals, tonight served notice on players regarded as holdouts that unless they came to terms before the departure of the club for the spring training camp at Pasadena, Cal., early next month, they would be obliged to seek other employment. "I shall not be bothered with holdouts this season." Weeghman said. "We did not make any big cuts in salaries, despite the war. The majors cannot afford to pay enormous salaries, and the players should be made to understand the situation confronting the club owners."

## Ingersoll Scored Double Win at Galt

New York, Feb. 22.—Arthur S. Cragin and W. Dickson Cunningham were responsible for an indoor tennis upset here today. In the final of the special doubles tournament, on the court of the Seventh Regiment Armory, the pair defeated F. B. Alexander and Dr. William Rosenbaum, the national indoor champions, in 6-3, 6-0.

Cragin, with his wonderful drives and high lobs, surpassed any of the others on the court. He had to play at the top of his game, as Cunningham the former Yale captain and champion, was weak on service and at the net.

Miss Molla Bjurstedt and H. A. Throckmorton outplayed Miss Marje Wagner, national indoor champion, and W. M. Hall, in an exhibition mixed doubles, The score stood at 7-5, 6-all on games when the competition was called.

## **BUSINESS COURTESY**

MANCHESTER UNITY. Welcome to Former Provincial Master Back From Front.

"Have you found courtesy rare in the business world?" a prominent Toronto business man was asked yesterday.

"I am sorry to say I have," he said, "I have found it lacking in both men and women. People cannot be made good by legislation, neither can a business firm covered exercises of the Manchester Unity. It is generally understood in business circles that the greatest asset a business firm can obtain in labor is the courteous, friendly employe."

The women who deal with women at employment bureaus acknowledge that the lack of courtesy is what spoils many a sirl for a brilliant career or a fine position.

"My experience," said one business woman who employs many girts, "is that the majority of young women do not feel the responsibility of making friends for the business which employs them. They think that they earn their weekly wage and that is air about it."

## PLAYS, PICTURES AND MUSIC

SATURDAY MORNING FEBRUARY 23 1918

The Royal Alexandra Theatre. In order to avoid the crush and atendant misery from cold while waiting to buy seats for the Passing how, "Doing Our Bit," the latest and reatest of the New York Winter larden productions, which will be the ittraction at the Royal Alexandra Theatre next week, starting Tuesday with Manager Solman has arranged to have the box office of the theatre open Monday from 10 o'clock until 6 pm. Besides the five evening performances, three matinees will be given, Wednesday, Saturday and a pecial matinee on Friday.

"Once Upon a Time."

Chauncey Olcott comes to the Princess Theatre next week, a welcome amouncement to Toronto playgoers, with whom his popularity never wanes. This season he is appearing in a new comedy by Rachel Crothers, entitled "Once Upon a Time." Instead of a play with all Irish seatings and the singing star appearing as "a broth of a boy," Miss Crothers has departed from Olcott traditions and has written for him a modern comedy, in which Mr. Olcott wears conventional attire. The principal scenes in the comedy are laid in New York, and the story revolves around the hero's efforts to dispose of a wonderful invention. There is a villain in the play, who almost succeeds in oheating the hero of his just reward. Mr. Olcott's company this season includes Dithel Wilson, Jessie Ralph, Elsie Lyding, Edward Fielding, Thomas Wilfiams, George Brennan and Little Bonnie Marie. There will be matinees Wednesday and Saturday.

The opening performance on Tuesday evening is under the auspices of the repair section of the RF.C., and in ald of the air mechanics' recreation fund, and the house is entirely sold out for that night.

fund, and the house is entirely sold out for that night.

"Peg o' My Heart."

The attractiveness of the story of "Peg o' My Heart." which will be presented at the Grand Opera House for the last time here at special prices, makes the Manners comedy one of the strongest drawing attractions that have been offered playgoers for many seasons. Mr. Manners has succeeded in creating an interesting theory and an amusing story for his plot, which carries with it many laughable incidents. Harely has comedy offered a sweeter but more difficult role than I. Hartley Manners has written in "Peg," which has been entrusted to diss Ann Pittwood and handled with will by her. During the week matiness will be given on Wednesday and laturday.

At Shea's Theatre.

Belle Baker, the sweet singer of syncopated songs, heads the bill at Shea's Theatre next week in a variety of popular songs. Nonette, the Gypsy violinist, is a pupil of the famous Belgian violinist, Ysaye. Nonette has an extensive repertoire of both popular and classical selections. This can be done ten times without any over

amount of energy. The carriage of the shoulders is also well worth being particular about. When sitting, standing or walking throw the shoulders back as far as possible-not awkwardly, but do not let them droop or become round shouldered. Women often spoil their entire appearance by becoming care-less about this.

People become tired, drop into a chair and think they are resting by allowing the body to fall into a sluggish and forlorn heap. This does more harm than good. It compresses the air valves and makes one more tired upon arising than before. If, during the day, one finds it necessary to rest, recline upon a bed, where every part recline upon a bed, where every part of the body can be given a chance to relax properly. Ouotations Decline at Winnipeg When Action of Council is Announced.

Winnipeg, Feb. 22.—In spite of the fact that there are no 'American grain marcets today, in commemoration of Washington's birthday, the early part of the ession on the Winnipeg exchange, was asked by brisk trading. The action of he council of the exchange in fixing he maximum price for trading in oats 1990, a much lower price then was anti-pated, dislodged the holdings of a good asky traders, and oats prices took a mable of ic from yesterday's close. Later he market settled down and prices fluctuated within narrow limits. There has seen very little business in the cash market because of the unsettled state of affairs. There continues to be a good lenand, however, for the few cars offerns of all grades of cash oats, barley and 13.56. and July unchanged at \$3.53. ### Trade in Toronto

Toronto reports to Bradstreet's show that business has been somewhat improved by the milder weather and the partial relief of freight congestion on the railroads. The freer movement of commodities has helped many lines of business. Railroads, however, are still facing handicaps, and numerous embargoes are in force in an effort to regulate traffic. Increased activity is reported in retail lines, and wholesalers are busy filling the balance of spring orders. Merchants generally are looking forward to an active season. Wholesale drygoods houses report an increasing number of orders, last week's business assuming large proportions. Gains in actual dollars, port an increasing number of orders, last week's business assuming large proportions. Gains in actual dollars, of course, signify to a large extent rapidly advancing prices, but there appears a strong desire to have the goods even at the higher figures, but great difficulty is experienced in securing same. Collections show little improvement from last week, and requests for renewals have been numerous. In the shoe trade wholesalers are busy filling remaining spring orders, and travelers are preparing to take the road with fall rubbers. Prices of shoes remain steady. The hide market is quiet and quotations are inclined to be easier.

The grocery business is good. Prospects of an improved supply of refined sugar are better. The removal of the embargo on sugar-carrying lines of the United States has now been lifted and stocks are expected to reach the Canadian refiners in the near future. Prices of dried fruits continue firm. Little immediate improvement is looked for in the orange market. Storage eggs are showing a very small cumpass, and receipts of fresh eggs are very light. Butter is firm and supplies none too plentiful. Millers are still demanding wheat, and owing to the tack of grain many had to close down. The live stock trade is decidedly better, and shipments, tho small, found a ready sale at stronger

## MONTREAL PRODUCE

Montreal, Feb. 22.—In consequence of the fixing of the maximum price of May oats at 21 cents per bushel by the board of directors of the Winnipeg grain exchange today' there was a weak feeling in the local market for oats, and dealers at the close of the day reduced their prices 2½c to 3c per bushel, with carlots of No. 3 Canadian western and extra No. 1 feed quoted at \$1.11½ to \$1.12 per bushel ex-store. The demand for supplies was limited, and business generally was quieter than it had been.

There was no change in the condition of the flour market today. The trade in spring wheat flour continues good. There is a steady demand for straight cars and broken lots for prompt shipment and early delivery and millers generally afe busy filling orders and making shipments. The offerings of winter wheat flour on spot show little improvement and the tone of the market in consequence is firm.

The market for eggs was unchanged. Prices were firmly maintained for all grades of cegs under a good steady demand for supplies and small offerings. Siles of strictly new-laid in a wholesale jubbing way were made at 63 cents to 76 cents per dozen, and cold storage selects at 52 cents to 54 cents. The re-

HIGH-GRADE BONDS IN GOOD DEMAND

There is a good demand for high grade bonds at the present time in the Province of Ontario and reports from the west also indicate a fair investment demand out there. The way in which recent provincial issues have been snapped up is credited to two things; the scarcity of such issues on the market at the present time, and the widespread interest which now obtains in bonds as investment for surplus funds.

mand a good price and are always wanted at the market. There is of course a wide range in price as in values, but good milkers and springers, both on the Umon Stock Yards and at the country sales,

present steady to strong market, but you can't tell exactly what next week's market will do.

Sheep, Lambs and Calves.

In the sheep, lambs and calves during the week anything of quality was steady to firm and held its own, but medium to common calves and lambs were from 40c to 50c off. Sheep held steady, ewes, light, selling at from 1ic to 14c lb.; heavy sheep and bucks, 10c to 13c; lambs, 17½c to 18½c, with some choice black-face lambs selling as high as 19c lb. Cull lambs brought from 14c to 16c.

The quality of small stuff, sheep and lambs according to many of the salesmen, does not compare favorably with offeeding their stock so well, due, no doubt, to the high price of coarse grains. Some there are who have been on the expectation of the salesment of the high price of grain, they would continue to feed their stock well and finish them well, while others see in the record prices for grain a quicker, if not so enduring, a way to wealth.

**EQUITABLE LIFE'S** YEAR PROSPEROUS

New Insurance Paid for Last Year Greatest Amount in History.

Substantial increases in new insurance

of the Equitable Life Assurance Society

of the Equitate Life Assurance Society of the United States. The magnitude of the society's business is indicated by the fact that eitstanding insurance now aggregates the huge sum of \$1,754,868,908. The past year was the most successful the Equitable has known in the matter of new insurance paid for, the total of \$251,344,000 showing an advance over 1916 of \$41,637,000, and being the largest amount of business the society has recorded in a single year.

A policy of generosity toward policy-holders resulted in payments in this direction during 1917 of \$62,831,172.

Assets at the close of last year are shown to have reached the impressive total of \$576.837,343. Insurance reserve is given as \$471,914,224, and other liabilities as \$13,620,304, a total of \$485,534,538. Under the heading of surplus reserves appears no less a sum than \$91,302,805 of which more than \$16,000,000 is available for distribution to policyholders this year, while \$63,592,355 is awaiting apportionment on deferred dividend policies, and \$11,645,258 is set aside for contingencies. A wise and conservative investment policy has resulted in \$45,889,556 being invested at an ayerage yield of 5,24 per cent.

The funds secured will be devoted entirely to development work, and, if confident expectations are realized, the results will be highly gratifying to investors.

There are several reasons why the project is one worthy of consideration. In the first place, Thomas Tough, president and managing director of the company, is a practical mining man, whose good judgment has been proven, and whose integrity stands unquestioned. In the Second place, the properties, located in the Townships of Teck, Skead, Alma, Turnbull and Morrissette, aggregate more than 1000 acres, and have been selected from among many others after careful tests, which have required time and liberal outlay. One noteworthy fact is that the properties in Teck are adjacent to the LaBelle-Kirkland, the latter a mine of proven richness, and exhibit precisely, the same geological features. # SUCCESS DEPENDS ON ABILITY TO PEER INTO THE FUTURE

OF COBALT, LIMITED HARPER

THE war is working tremendous changes. New industries have been developed to meet the demands of the men at the front, and the money spent on these, principally by borrowings, has made fortunes for many. Those who forestalled the war's necessities saw ahead and are now revelling in luxury.

Making war wants had to be done, and we hold no grievances against those fortunate enough to be early in the business. There will be an aftermath that time and circumstances will take care of, but with this we have little concern.

Our interest, and we take it a part of our duty, is to point out that financing after the war will be one big question for all the belligerents.

As mining brokers of long experience, and peering into the future, we believe that the Ontario gold fields will play a big part in helping to pay Canada's war obligations and assist in again putting the finances of the world on a sure and certain foundation.

Financiers of the highest type in Britain and the United States are now engaged in searching out the new gold fields that will stabilize exchange after the day of peace has arrived. The British Empire, true to its past record, will find in New Ontario the gold with which to carry on its civilizing propaganda after the citizens of the Empire have cleared away the barriers set up in Europe.

Our particular business has been, and will be, to find money to open up some of the vast gold riches of our own Ontario, and we have now undertaken to finance a company formed by the Tough Bros., well known and successful prospectors of the north country. The Tough Bros. and Harry Oakes were the original stakers of the Tough-Oakes, the premier producer of the Kirkland Lake camp. Tom Tough and his fellow prospectors have spent several years in scouring the townships of New Ontario for new gold finds. The properties have been carefully scanned and twenty-four handpicked from three times that number have been patented and turned into the FIDELITY GOLD MINING & DEVELOPMENT CO., Limited. The company also owns controlling interests in eight other full claims in selected territory. All of the holdings are in Kirkland Lake or other camps considered equally as favorable to the production of gold.

Of the stock owned by us we are offering for immediate sale 100,000 shares at 20 cents a share, par value \$1 per share. The capital of the company is \$2,000,000, and half of the stock was left in the treasury for development purposes. This offer is for quick action and positively none of the stock will be sold by us except at a substantial advance when the first 100,000 shares is exhausted.

During our long years in business we have never participated in any mining venture which offers such great speculative or investment opportunities, and the flotation has consequently our strongest commendation.

Maps, prospectuses and other information can be obtained at our offices or by mail on request.

The Pyjamas Are Marvelous Value at \$1.29 a Suit There is a story behind these pyjamas that we haven't time to tell as we should like. But, briefly, we got hold of a tremendous quantity of soisettes, crepes, percales and other pyjama fabrics at an amazingly low price. The colors are pink, blue, tan and white. We had them made up in the best manner, and they are equal in value to our regular \$2.00 and \$2.50 lines. These 500 suits go on sale at \$1.29. They Have Just Arrived and Smart, Perfect and Correct --- A Wonderful Sale

We are going to sell at \$18.95 each 85 of our new spring suits that were bought to sell for more. The reason is that we don't want to wait for the opening of the spring business—we want some of it now—so we will sacrifice some of our profit and you can benefit to that extent on your new suit. Included are two and three-button model coats in various new spring designs. Made of tweeds and worsteds in numerous checked and striped patterns. Sizes 36 to 44. We will also include a few higher-priced medium weight suits from our winter stock. A marvelous opportunity— 18.95

## Please Read This About Furs Information That Just Reached Us by Cable

We have just received a cable from England saying that next fall's prices on fox and wolf furs will be from 30 to 70 per cent, higher than this season's. This information is based on the prices which manufacturers have paid in the last two weeks for raw furs.

In spite of the above facts we are offering our best Fox and Wolf Furs at big reductions from this season's prices. The reductions mean that you can buy them for just about half of what they will cost you next fall. In other words, you make about 100 per cent. on your investment if you buy fox and wolf furs now at Simpson's.

Fox Scarfs, reduced to \$70.00, \$60.00 and \$45.00. Wolf Scarfs, reduced to \$70.00, \$60.00 and \$40.00. Wolf Scarfs, reduced to \$35.00, \$27.50 and \$24.75. Wolf Muffs, reduced to \$27.50 and \$24.00.
