

Long Hair

is little enough time to close out nearly a \$50,000.00 stock of clothing, but it's got to be done, and if prices cut in two will not give us the result, why, we'll chop them still smaller—two days' such selling as we've had proves that you've caught the inspiration of the sale and appreciate it for all its worth—increasing the number of salesman 7 to 4 times that, tells a good story itself.

- Suits and Overcoats, worth from 7.50 to 5.00, for **3.85**
- Suits and Overcoats, worth 8.50 to 7.00, for **5.00**
- Suits and Overcoats, worth 12.00 to 8.50, for **6.85**
- Suits and Overcoats, worth 15.00 to 12.00, for **9.50**
- Suits and Overcoats, worth 18.00 to 14.00, for **11.85**

Pants, prices cut in half.
Pea Jackets, prices cut in half.
Dressing Gown and House Coat, prices cut in half.
Men's Furnishings—Some lines less than half.

HAMILTON NEWS

SUPPLY OF COAL STILL SHORT

Residents of Hamilton Paying a Handsome Price for Fuel.
Hamilton, Jan. 11.—Special anniversary services were held in Goretzky street today. The morning service was conducted by Rev. A. L. Gee, P. D., and the evening service by the Rev. J. McLaughlin, who has spent many years as a missionary to the Indians. There was also special music for the occasion.
The city's coal supply is growing smaller every day. At present only 20 tons remain, and the demand grows daily as the supply decreases. The general price of hard coal in the city is still \$10 a ton. From persons buying in bulk, the city is demanded, purchaser to pay for delivery. The city still continues to ask only \$6 a ton, and the 20 tons on hand will last long.

COAL HERE, BUT NONE SOLD

Continued From Page 1.
serious situation, the following communication is being received:
Editor World: I see on your first page this morning a list of coal dealers, prices and quantities on hand. It is not that the coal is not here, but that it is called "the deadly parallel."
I suppose you reprint the list, and add the amounts of hard coal passed thru the Toronto Custom House by each dealer. In the last three weeks, with invoice price here in Toronto of each consignment.
A friend in Pennsylvania tells me that Toronto has been especially well treated as regards coal consignment, and that the price here is invariably \$5 per ton, or \$8.50, or \$10, or \$12, or \$15, or \$18, or \$20, or \$25, or \$30, or \$35, or \$40, or \$45, or \$50, or \$55, or \$60, or \$65, or \$70, or \$75, or \$80, or \$85, or \$90, or \$95, or \$100, or \$105, or \$110, or \$115, or \$120, or \$125, or \$130, or \$135, or \$140, or \$145, or \$150, or \$155, or \$160, or \$165, or \$170, or \$175, or \$180, or \$185, or \$190, or \$195, or \$200, or \$205, or \$210, or \$215, or \$220, The Toronto World

No. 83 YONGE STREET, TORONTO. Daily World, in advance, \$3 per year...

THE WORLD OUTSIDE. The World can be had at the following news stands...

A FALSE ASSUMPTION

Any argument to put the Department of Crown Lands in the right and Mr. Blake, K.C., in the wrong is a firm purpose of the Globe in its discussion of the Helen Mine...

LET RATES BE RESPONSIVE. Before the ratemakers of Toronto voted in favor of further fire protection...

There is no certainty that the legal claims of Mr. Blake's clients were unground. Attorney-General Gibson, in the first place, decided against Mr. Clague...

SIGNIFICANT RETICENCE

Sir William Mulock proposes to withdraw the bill providing for the compulsory arbitration of disputes between railway and their employees...

INTEREST ON CHATTEL MORTGAGES

Editor World: What is the legal rate of interest on a chattel mortgage? I am paying 48 per cent.

SULTAN'S TESTAMENTARY EDICT

Vienna, Jan. 11.—An irate jaded Sultan has issued an edict which is taken as an appetizer before meals...

GROUNDLESS FEARS

Already the new City Council is being warned against too rapid strides to waste the practical application of the principles of municipal ownership...

THE CITY IS TOLD ON ONE HAND THAT MISFORTUNE MUST FOLLOW MUNICIPAL ACQUISITION...

On the other hand, it is insisted that municipalization of any of the other public utilities would be equally disastrous.

Our Lady of the Snows must have access to the snow sheds...

But for the fuel famine, Mr. J. P. Wray, the Ontario Minister of the Interior, would have been able to promise to raise roads at the coming session of the Legislature.

The ocean voyage was not congenial to the all-Canadian football team, but unfortunately its troubles did not cease when it touched land.

As a test of their endurance, Capt. Bernier's Polar crew are to spend half a day as passengers on the cars of the Toronto Railway Company.

There is no ice in sight yet, a circumstance that will cause some gentlemen to wonder what the water was doing on the night of the by-elections.

S. H. Blake's letter may not have affected the by-elections, but it threw a fine scare into more than one Ministerial countenance in Queen's Park.

A Canadian for Governor-General sounds well. The only trouble is that with Ottawa's present hotel accommodations the job could not be declared open to Canadian applicants.

Hon. Clifford Sifton went all the way to Kansas to address an audience, which is a trifle farther than the average Canadian audience would go to listen to the Hon. Clifford.

The names of the distinguished persons present at the Durbar are not printed, lest too many New Year's resolutions should be broken in an effort to pronounce the same.

News that the sending of Marconiograms makes a noise like a cannon will convince the stern opponents of militarism in Canada that Marconi should never have been encouraged to settle on Canadian soil.

That western irrigation company will not irritate Lisgar, the developments at the election trial having made it clear that the constituency has already received sufficient liquid nourishment.

THE TORONTO DAILY STAR WILL HAVE A MORE COMPLETE LIST

THE TORONTO DAILY STAR WILL HAVE A MORE COMPLETE LIST

WHO WILL BE CONTROLLERS ACQUIRE MARCONI PATENTS

Inaugural Meeting of City Council for 1903 Will Be Held To-Day.

Object of Company Which Has Just Been Granted Incorporation in Ontario.

The CAPITAL WILL BE \$5,000,000

CANDIDATES FOR THE BOARD

There Are Eleven, and Most of Them Feel That They Have a Good Chance.

Several Other New Concerns Launched-List of Provincial Appointments.

The new Board of Control will be chosen by the aldermen at the inaugural meeting of the City Council in the assembly room at the City Hall this morning.

There is much speculation as to the result, as the aldermen are keeping unusually quiet regarding their choice.

There are three aspirants in Ward 2—Ald. Oliver, Spence and Foster. Ald. Oliver says he has asked no one to vote for him, but he seems very confident that he will be elected on the first ballot.

Ald. Spence is willing to be elected, but he is not so sure of success as Ald. Oliver. He is in the field, but it is hardly thought that he can win.

Ald. Foster is in the field, but it is hardly thought that he can win. He is a Conservative, but he is not so sure of success as Ald. Oliver.

Ald. Oliver is looking upon an election as a matter of course.

Chances of Ald. Spence. Ald. Spence is willing to be elected, but he is not so sure of success as Ald. Oliver.

Chances of Ald. Foster. Ald. Foster is in the field, but it is hardly thought that he can win.

London is confident. Ald. London has not been idle in his efforts to secure re-election.

Ald. London has not been idle in his efforts to secure re-election. He is in the field, but it is hardly thought that he can win.

Ald. London has not been idle in his efforts to secure re-election. He is in the field, but it is hardly thought that he can win.

Russia Violates Pledges All Eyes on Dardanelles

Blow Given to International Honor—Alarmist Reports of Russia's Plans in East—Naval Demonstration May be Made in the Bosphorus.

New York, Jan. 11.—The Sun's London correspondent cables: The press of Europe, while giving prominence to the incident of the passage of Russian warships thru the Dardanelles in violation of the Treaty of Paris, has failed to appreciate the serious gravity of the matter. The official world, and even the stock exchange, realize fully the ominous nature of the event, for consoling itself with the receipt of the news of Great Britain's protest. The direct issue involved is not of much consequence in the present course of affairs, and the British government is not at all concerned to care to any vital extent whether Russia has the privilege of sending a fleet in and out of the Black Sea. The great and vital issue to every country involved is the question whether a civilized nation may thus overthrow a solemn treaty obligation. It is seriously to be feared that the Russian advance with the Bulgarians to the Rhodope Mountains. A naval demonstration in the Bosphorus is quite on the cards. The attitude of Germany and England is well indicated by the fact that Germany is the protector of Turkish oppression, but England can scarcely support the persecution of Russia in the Balkans. In any event, the downfall of the Ottoman Empire is in sight. This serious forecast may or may not be justified, it seems reasonable to describe as to Russia only the weightiest motives for her grave offence against international morality in sending warships thru the Dardanelles in violation of her pledges.

THE DARDANELLES BARRICADE COST LIVES OF BRITISH SOLDIERS

Great Expense for Victory and Native Princes of India's Unique Spectacle.

London, Jan. 11.—Now that the magnitude of the dardanelles has gone people are counting the cost. Including the loss of the Indian government will have to pay the expenditures incurred by the Indian Princes and chiefs and the English Governors and Lieutenant-Governors, it is safe to say that at least \$10,000,000 has been spent in furnishing a spectacle unique in the annals of the world. The Indian government's bill is likely to exceed \$3,750,000. The cost to Lord Curzon personally has been very great, for a large number of guests were entertained by him directly at his own expense. The expense of the native princes and chiefs vary greatly, from the \$300,000 said to have been spent by the Nizam of Hyderabad to the \$50,000 for which the minor chiefs were able to make good. The total cost of the dardanelles is estimated at \$10,000,000. The various events of the proclamation of the dardanelles have been most impressive and the review of the remnants of the native chiefs was the most striking feature of the dardanelles. The ball in the Dardanelles was the most notable, and the warships which were the most remarkable as an example of organization. It is wonderful that no accidents occurred during the long procession of elephants, carriages, horse and foot through the narrow straits. Lord Curzon is to be warmly congratulated on the result of his hard work. Visitors accustomed to King Edward's court declare that, according to the dardanelles, there is no such thing as a free lunch. The dardanelles and the Duke and Duchess of Connaught afforded the pleasantest feature of the whole affair.

LEGAL SEPARATION MADE EASY

Dr. Charles Lawson Freed From a Drunken Wife After an Hour's Hearing.

New York, Jan. 11.—The Sun's London correspondent cables: The new sobriety or licensing act continues to be by far the greatest topic of popular discussion in England. Altho it has been in operation for only ten days it has already furnished more magisterial decisions depriving incontinent drinkers of freedom of action than all the temperance enactments of the past generation. Cases which have come up in various parts of the country show that the scope of the new law is by no means confined to submerged wastrels of the poorest class who provide most of the daily quota of drunks in the police courts. It was necessary to provide desertion for the years of substantial physical force to relax the strictness of the English marriage law, and to promise in a certain sense to Americanize the social system here. In this country even such modified relief as a judicial separation of husband and wife has hitherto been most difficult to obtain. It was necessary to provide desertion for the years of substantial physical force to relax the strictness of the English marriage law, and to promise in a certain sense to Americanize the social system here. In this country even such modified relief as a judicial separation of husband and wife has hitherto been most difficult to obtain. In this country even such modified relief as a judicial separation of husband and wife has hitherto been most difficult to obtain.

IRRIGATION AND SEPTIC TANK SEWAGE SYSTEM FOR TORONTO

Methods of Disposing of Sewage Discussed by Prof. Amyot Before Canadian Institute—Purification Effected by Bacteria Working Thru Agency of Ferments.

The question of sewage disposal is, or ought to be, one of peculiar interest to citizens of Toronto, and it is to be regretted that the City Council was not represented at the Canadian Institute on Saturday evening, when Prof. John Amyot delivered an able lecture on the subject. The professor stated at the outset that the time had gone by when it was believed that sewage disposal was merely a matter of filtration. The operations involved were mechanical, chemical and bacteriological, and the last named was the most important. The experimental sewage plant at Berlin, Ontario, was described at some length, also that at Brockton, Mass., and the methods adopted and results attained at each of these plants were compared with those of Berlin, Germany, and London, Ontario. The system of broad irrigation, in describing the system of broad irrigation, Dr. Amyot said that too often the only method of sewage disposal in such plants was not given due consideration. All soils were not equally adapted to the bacteria which flourish in clay being, of course, much less efficient than sand or loam. In the process of broad irrigation, the purification is effected by bacteria, which work thru the agency of spontaneous generated ferments, the operation being analogous to that which goes on in the human stomach. The practical part of the lecture was the summing up, and the professor agreed upon a plan to effect a great reduction in operating expenses, to be effected by the use of all railway supplies and labor. The plan is to reduce the speed of freight trains about twenty percent, but it would take a long time to be hauled, thereby reducing the cost of transportation. There will be considerable savings in the cost of fuel, because of the reduction in the number of trains. Theoretical Manager Dead. Boston, Jan. 11.—A. H. Chamberlaine, manager of the Columbia Theatre, is dead from blood poisoning. AN OBJECT LESSON. In a restaurant. A physician puts the query: Have you never noticed in a large restaurant at lunch or dinner time the large number of people who are seen to be at the tables—men whose ages run from 60 to 80 years—many of them with white hair, but none of them feeble or senile? Perhaps the spectacle is so common as to be scarcely worthy of observation or comment, but nevertheless it is an object lesson which means something. It is a fact that the old men who are seen at the tables are eating very hearty meals. They are not munching bran flakes nor gingerly picking their food thru a strainer, and they are not fangled food fobs; on the contrary, they seem to prefer a juicy roast of beef, a crisp, golden-brown turkey, and even the deadly broiled lobster is not altogether ignored. The point of all this is that a vigorous old age depends upon good digestion and plenty of wholesome food, and not upon dieting and an endeavor to live upon bran flakes. There is a certain class of food cranks who seem to believe that meat, coffee and many other good things are poisonous, but these cadaverous, sickly looking individuals are a walking condemnation of their own theories. The matter in a nutshell is that if the stomach secretes the natural digestive juices in sufficient quantity any wholesome food will be promptly digested; if the stomach does not do so, and certain foods cause distress, one or two of Stuart's Dyspepsia Tablets, a few minutes before the meal, will remove all difficulty, because they supply what every weak stomach lacks, pepsin, and also a certain amount of hydrochloric acid, and thus give the stomach the perfect conditions for the digestion of the food. Stuart's Dyspepsia Tablets do not act upon the bowels; and, in fact, are so perfectly safe to use that they are almost entirely upon the food, digesting it thoroughly and thus giving the stomach a perfect condition for the digestion of the food. Of people who travel nine out of ten use Stuart's Dyspepsia Tablets, knowing them to be perfectly safe to use at any time, and also having found out by experience that they are a safe-guarding indication in any form of indigestion, and giving an appetite for the next meal. Dr. Wild traced the origin of the Monroe Doctrine to the Monroe Doctrine of England, by which it was submitted to the American Congress, and after passing thru the hands of John Quincy Adams and President Monroe, was incorporated in the latter's message to Congress, 1823, and adopted by Congress. Dr. Wild had always contended that the United States had until recently placed the wrong interpretation upon the Monroe Doctrine, which was originally intended for the protection of British and other interests against the ally alliance of the Latin countries, from whose domination by the aid of Spain, Venezuela was the last to free herself. There were other propitious reasons why Venezuela was allowed to free herself, and the doctor firmly believed that the United States was aware of the intention of Great Britain in the recent disturbances. He declared most emphatically that the Anglo-American alliance of which he is so stout an advocate, proved beyond doubt the impossibility of a war between the United States and Great Britain.

THE PEOPLE ARE IMPRESSED WITH ITS WONDERFUL POWER TO CURE COLDS AND GRIP.

John Mather Completely Cured and Gives Great Praise to This Remarkable Product.

Long periods of sickness can be prevented by the use of this cold and grip cure.

No matter where the congestion of the mucous membrane may occur, in the head, in the throat, in the bronchial tubes or in the lungs, my Cold Cure will relieve it immediately and cure in very short time.

Brochial Tubes Affected. I had a cold in my head that gradually settled on my bronchial tubes. I was in a serious condition. I continued to use my Cold Cure and in a few days I was completely cured.

Munyon's Remedies. Munyon's Cold Cure prevents pneumonia, and is a sure cure for all colds and grip.

Personal letters to Prof. Munyon, Philadelphia, U.S.A., containing details of sickness, will be answered promptly and free advice as to treatment will be given.

DISRUPTED CABINET IS CHIEF IMPERIAL GOVERNMENT WILL MAKE IT THE CHIEF QUESTION FOR THE NEXT SESSION.

WYNDHAM HAS AN ARDUOUS TASK SOUTH AFRICA AT PRESENT IS IN A MORE HOPEFUL STATE THAN IS IRELAND.

London, Jan. 11.—The reports that the King will open parliament in full state are premature, like the rumors of the Mediterranean voyage of the royal yacht, with visits to Malta, Athens, Alexandria and Cairo. More credible is the land conference which has been announced, and which will be the chief question for the next session. The report is that the King will be accompanied by the Queen, and that the royal visit to Belfast, Dublin and Cork will either precede or follow a fresh attempt to reconcile landlord and tenant.

The land conference, which has been announced, and which will be the chief question for the next session. The report is that the King will be accompanied by the Queen, and that the royal visit to Belfast, Dublin and Cork will either precede or follow a fresh attempt to reconcile landlord and tenant.

Both the past and present Archbishops of Canterbury took active part in framing the bill, which was introduced and passed by the Conservative government, altho the temperance organizations in the country are active Liberal partisans.

Quiet Police Corruption. He said that he was prepared to believe that there was some quiet police corruption in the present Hall force of temperance policemen in plain clothes, whose districts were frequently changed, and that the present force, if they were more numerous, they would be more successful in their efforts to keep the streets of London clean and the morals of the people high.

Power in Y. M. C. A. Work. D. A. Budge of Montreal Pays Visit to Toronto Association.

Mr. D. A. Budge, secretary of the Montreal Y. M. C. A., and the oldest as well as one of the most popular secretaries of the association in Canada, was heard in an admirable talk upon the Bible in the hall yesterday afternoon. It was Mr. Budge's first appearance in the city since the early days of the association, and many of the old workers who are cognizant of his splendid efforts in promoting the Bible in Montreal and many of the old workers who are cognizant of his splendid efforts in promoting the Bible in Montreal and many of the old workers who are cognizant of his splendid efforts in promoting the Bible in Montreal.

SIFTON AND RECIPROCALITY

Minnesotans, Representing the National Reciprocity League, Corral Him at St. Paul.

EDUCATIONAL CAMPAIGN IS NEEDED

In America Before Public Sentiment Could be Aroused to the Proper Point.

St. Paul, Minn., Jan. 11.—International reciprocity between Canada and the United States was the theme of a conference yesterday between the Hon. Clifford Sifton, Canadian Minister of the Interior, and a committee of Minnesotans, representing the National Reciprocity League.

The committee was strongly in favor of reciprocity, and some of its members went so far as to advocate absolute free trade between the countries.

It is thought that an educational campaign must first be undertaken in America before public sentiment could be aroused to a point where it could be urged to a definite conclusion.

250 MEN GO ON STRIKE.

Moulders and Annealers in McKinnon Works, St. Catharines, Ont.

St. Catharines, Jan. 11.—About 250 employees of the McKinnon, Dash & Metal Works Co., went on strike Saturday morning, and as a result the company's works are closed down, and probably will be for several days.

The 33 annealers are receiving 12 1/2 cents an hour. They complain of the work they have to do in the moulding room "shifting weights," and object to going cold from the annealing room into the hot moulding room and vice versa.

There is perhaps no part of the United States giving as much opportunity for a romantic stage characterization as Kentucky, the famous Blue Grass State.

L'QUOR AN ENEMY OF THE HOME

Address by Rev. Harvey Wood of New York at Massey Hall.

Some 1200 people braved the snowstorm of yesterday afternoon and attended the Gospel temperance meeting of the Canadian Temperance League in Massey Hall.

The speaker, Rev. Harvey Wood, held secretary of the National Temperance Society of New York. He said there was no greater stumbling block to the home than liquor.

At the Star Theatre this afternoon the Crackerjack burlesquers will commence a week's engagement. There are the usual burlesque offerings, including "Nature," being given in three scenes, with electrical and other effects.

Mrs. Langtry, "The Jersey Lily," is announced for appearance in Toronto on January 20-31 in her new play, "The Cross Ways," in which she appeared in New York on New Year's day for the first time on this side of the Atlantic.

Martin Harvey, the English actor, is coming to the Princess next week in his drama, "The Only Way." By special request of Lord Dufferin, his Ottawa engagement was extended some days, so it upset the booking for 25 cities as previously arranged.

The theatres of New York have a seating capacity of 43,000, which will be increased to 50,000 when the structures now going up are completed.

Remembered Ex-City Clerk. London, Jan. 11.—Former City Clerk Kinston, who with Mrs. Kinston, is leaving for California on Monday, was presented with a note in Toronto containing \$2000 in his name.

BACK ACHES. Because you have Kidney Trouble. Best remedy is Ferrozone. It relieves painful symptoms at once and cures in a few days.

36 New Cases in Windsor. Windsor, Jan. 11.—Thirty-six new cases of smallpox were reported during the past week, while forty-six patients recovered, leaving sixty-nine persons now ill with the disease in this city.

Another Battle Creek Fire. Battle Creek, Mich., Jan. 10.—The plant of the Commercial Travelers and Farmers' National Food Company was burned to-day, loss \$70,000; insurance \$18,000. An over-heated furnace caused the fire.

HOW IS YOUR LIVER?

For Bilious and Nervous Disorders, such as Wind and Pain in the Stomach, Sick Headache, Dizziness, Fulness and Swelling after Meals, Dizziness and Drowsiness, Cold Chills, Lassitude of Blood, Loss of Appetite, Shortness of Breath, Constipation, Distention of the Stomach, Disturbed Sleep, Brightness of the Eyes, and all Nervous and Trembling Sensations, etc.

Weak Stomach; Impaired Digestion; Disordered Liver. They act like magic—a few doses will work wonders upon the Vital Organs; Strengthen the muscular system; restore the long-lost complexion; bring back the keen edge of appetite, and arouse into the dormant the whole Physiological Energy of the human frame.

Prepared only by THOMAS BEECHAM, St. Helena, England.

Sold Everywhere in Canada and U. S. America. In boxes, 25c.

ALEX. LOGAN DEAD.

Niagara Falls, Jan. 11.—Alexander Logan, police magistrate of the Niagara frontier district, died suddenly at his home at 5:30 last evening, of uremic poisoning.

Mr. Logan went home from his place of business about 1 p.m., not feeling well and lay down on his couch. Towards the latter part of the afternoon he grew suddenly worse and was taken to a hospital.

Mr. Logan came to this country from Scotland about 20 years ago and settled in this town, embarking in his trade as merchant tailor. He was 49 years of age and leaves behind him a widow and eight children—three sons and five daughters.

Benefit for Harry Rich.

The friends of Harry Rich, the well-known entertainer, will be sorry to learn that he is seriously ill and not expected to recover. His professional brethren are getting up a benefit concert for a growth in the Ottawa district on February 21. The program will be unusually fine, and it is expected there will be a large attendance.

Died in Hospital.

Port Arthur, Jan. 11.—J. Parker, of Loomport, Ontario, died Saturday morning at the hospital here. He had been operated on for a growth in his throat. He had been filling the position of stenographer for Superintendent Dickson at Schreiber.

Inhaled Smoke Killed Her.

London, Jan. 11.—Mrs. Mary Collins, the old lady who was rescued by her neighbors from her burning cottage on Tuesday night, died this morning. She was not burned to any serious extent, but is supposed to have inhaled a quantity of smoke, which proved fatal.

Men, Look Here!

DO YOU SUFFER FROM Nervous Debility, Varicocele and Loss of Manly Power? They Are Quickly and Forever Cured by the Grand Product of Nature, DR. McLAUGHLIN'S Electric Belt. Send for My Free Book About It.

No man should be weak; no man should suffer the loss of that vital element which renders life worth living. No man should allow himself to become less a man than nature intended him; no man should suffer for the sins of his youth, when there is at hand a certain cure for his weakness and loss of vitality.

Most of the pains, most of the weakness of stomach, heart, brain and nerves from which men suffer, are due to an early loss of nature's reserve power through mistakes of youth. You need not suffer for this. You can be restored. The very element which you have lost you can get back, and you may be as happy as any man that lives.

My Electric Belt, with Special Electric Suspensory (free), will restore your power. It will give back the old vigor of youth.

I can recommend your Electric Belt to all suffering humanity. I have a d. stand in front of my residence, and other consultants on whom I have entire confidence in the little while I have used it.—John Nicholson, Everett, N.H.

This loss of your power causes Kidney Trouble, Rheumatism and Stomach Ailments. You know it's a loss of vital power, and you know every organ of the body. Most of the ailments from which men suffer can be traced to it.

I have cured thousands of men who have squandered the savings of years in useless doctoring. My Belt is easy to use; put it on when you go to bed; you feel the glowing heat (it no stings or burns, as in old style belts), and you feel the nerves tingle with the new life flowing into them. You get up in the morning feeling like a two-year-old.

It is with pleasure I write you, thanking you for the good your Electric Belt has done for me. I suffered greatly before I used it. Now I do not suffer any more, and I can highly recommend the Belt to any person suffering from stomach trouble.—McKenzie, St. Thomas, Ont.

What will you? Write and tell me, and no matter where you are, I think I can give you the address of some one in your town where you are, I have cured thousands, and every man of them is a walking advertisement for my Belt.

Every man who over used it recommends it, because it is honest. It does great work, and those whom I have cured are the more grateful because the cure cost so little.

There are many people to-day who will be only too willing to share their knowledge with you—they will tell you what my Belt has done for them; perhaps some of them your neighbors. Then the terms which I offer you have nothing to lose. I like all the chances. All I ask—give me evidence of your honesty by offering me reasonable security and you can

PAY WHEN CURED. CAUTION—Beware of the many cheap imitations which are advertised. They either burn or blister so that they cannot be used. Even if they had virtue those selling them could not give any advice as to the way they should be used.

READ WITH CARE Every patient wearing Dr. McLaughlin's Electric Belt receives free until cured the advice of a physician who understands his case. Agents or drug stores are not allowed to sell these goods.

FREE BOOK—If you can't call write for my beautiful descriptive book showing how my Belt is used. It explains how my Belt cures weakness in men and women, and gives prices. Send for it to-day. Address DR. M. O. McLAUGHLIN, 130 Yonge St., Toronto, Ont.

MORSE'S GREAT PREDICTION

Description of Certain Tests Found in His Diary in Thomas A. Edison's Library.

MESSAGES ACROSS THE ATLANTIC

Mighty Consumption of Prophecies Dreamed by Father of Telegraphy 90 Years Ago.

New York, Jan. 11.—The Electrical Review to-day published the diary kept by Samuel F. B. Morse during his earliest work in the Baltimore and Washington telegraph line in 1843. The book was discovered in the library of Thomas A. Edison at Orange, N.J.

Under date of Aug. 10, 1848, Mr. Morse describes certain tests he had made, and makes the following interesting prophecy:

"The practical inference from this law is that a telegraphic communication on my plan, with certain conditions, may be established across the Atlantic starting at this very moment, now, the time will come when this project will be realized."

Commenting on this prophecy, The Electrical Review says: "To-day there is no ocean unspanned by any artificial cable." This century predicted the first Pacific cable and made a good start on the second, and Marconi has established communication across the Atlantic without wires. It is difficult to realize that this diary was written less than sixty years ago.

COAL STRIKE A BLESSING.

It Has Caused Some Deep Thinking, Says Father Cox of Chicago.

The speaker at the regular Sunday afternoon meeting of the Single Tax Association yesterday was Rev. Father Cox of Chicago, who delivered an interesting address on the principles of single tax. In spite of the storm, the theatre was well filled.

He was a pleasing speaker and illustrated his points with many apt stories. Mr. Cox's happiness, he said, had not kept pace with the great material progress of the past century. Some people were beneficiaries of almost the total progress, while most had not their due share. It, therefore, was a social problem to solve the question of equitable distribution of wealth.

The coal strike, he pointed out, was a very great deal of hard thinking on the part of property and of the workers. It was an ill wind that blew nobody good, and so let us thank God for the coal famine in many places. Father Cox should care ownership, thought Father Cox. "Some things are mine, some things are yours, but some things are common to us. Taxation was for conserving and regulating man's just property rights. The tariff is an indirect means of taxation. Speaking for his own country anyway, protection was a misnomer, for so far as conferring protection to labor there was no protection at all. If American labor was justified to a bonus or bounty, why not give it direct instead of thru a tariff that reached the labor class after all thru the hands of employers? Protection was not patriotic, for it made it appear as if the tariff was a curse instead of a mark of civilization.

Internal revenue was also opposed by some. It was said that strong drink caused poverty, but he thought that poverty was the result of the drink evil, when men were deprived of the comfort of their own home life that might be theirs if they were not taxed. He returned thru the streets of Chicago, where Father Cox is a regular visitor at half a past nine, to the Cook County Hospital, which takes in 20,000 patients a year.

NO REGULAR MARKS.

Mining Men Found Cautious, But No Alaskan Boundary Monument.

Victoria, B.C., Jan. 10.—Harold E. Cannvan, a mining man, who was a member of the Alaskan boundary surveys of 1893-4-5, speaking of the monuments reported from the north, said to-day that his party found in the Rockies and Southeastern Alaska, but they were placed in no conformity, or regularity, with the boundary lines.

TOWN HAD A JAMBOREE.

Marquette, Wis., Jan. 11.—A justice of the peace barricaded in his home replying with Winchester bullets to the volley aimed at his windows, was an event last night at Beaver, the county seat. Over 100 shots were fired and that no one was killed was due only to the indulgence of the whole village in a barrel of whiskey which fell from a passing freight train.

The village numbers 100 inhabitants, and when the whiskey dropped at from the sky, there was a celebration. Then politics came to the fore, and Judge Folger shot out the lights. A dozen shots were fired in the darkness, but the members of the party were too near the floor to be struck. Then the justice of the peace, his four sons and two friends started for home to the music of revolver shooting. They barricaded the justice shop, also a general store and the battle began, lasting from 10 p.m. until daylight.

FORMERLY OF ST. THOMAS.

Hugh McIntyre Killed in C.P.R. Yards at Wainipeg.

Winnipeg, Jan. 11.—Hugh McIntyre was killed while switching cars in the C.P.R. yards yesterday morning. There were no witnesses of the accident, but it is supposed, from the appearance of the track, that he was caught by the running gear of one of the cars. He was coupling, and that he was first struck between them and afterwards dragged along by them. When found he was alive, but died of a few moments' exposure to the elements. He was unmarried, coming here six months ago from St. Thomas.

ANCIENT USAGE REVIVED.

Lynch's Counsel Must Get King's Autograph to Defend Client.

London, Jan. 11.—The Attorney-General's arrangements for the trial for treason of Capt. Lynch, who served with the Boers during the war, and was elected member of parliament for Galway, revived the ancient usage entered in all treason cases and still maintained.

The counsel for the defendant will have to apply for the King's special permission, which must be given by the King's signature, before he can defend his client.

In the older times it was the custom to regard a prisoner accused of high treason as good as condemned already, and during the trial the prisoner was looked upon as little better than a traitor.

In later days, when the accused was still forbidden either to plead in court or to give evidence, the authorities adopted the plan of assigning him counsel.

In the present case, Horace Avory, a leading criminal lawyer, will represent Capt. Lynch at the latter's request, and the authorities have concurred in the arrangement.

Boundary Output. Grand Forks, B.C., Jan. 10.—The ore output for the Boundary district during the past week amounted to 13,000 tons, being as follows: Granby Mines, 500 tons; Snow Shoe, 300 tons; Motie Lake, 2200 tons; Sunset, 325 tons; B. C. Mine, 900 tons; Emma, 900 tons. During the same period the mines in public and Washington shipped 380 tons of ore by rail to the Granby smelter, as follows: Loni, Pine-Surprise, 112 tons; Quip, 265 tons.

Got a Barrel of Whiskey Free and Shooting Them Begon.

Marquette, Wis., Jan. 11.—A justice of the peace barricaded in his home replying with Winchester bullets to the volley aimed at his windows, was an event last night at Beaver, the county seat. Over 100 shots were fired and that no one was killed was due only to the indulgence of the whole village in a barrel of whiskey which fell from a passing freight train.

The village numbers 100 inhabitants, and when the whiskey dropped at from the sky, there was a celebration. Then politics came to the fore, and Judge Folger shot out the lights. A dozen shots were fired in the darkness, but the members of the party were too near the floor to be struck. Then the justice of the peace, his four sons and two friends started for home to the music of revolver shooting. They barricaded the justice shop, also a general store and the battle began, lasting from 10 p.m. until daylight.

The justice was arrested for intent to murder, but in court yesterday it was shown that there were eleven others all intent on murder, and a conviction of any was nullified by the decision of the party not to accuse the mother of having committed any crime.

Folger had eight bullet holes in his clothes. John Gultz, constable, has lost the crown of his hat and Salomon keeper Franz is short a silver mirror and a lamp.

Lever's Y-Z (Wash Head) Disinfectant Soap Powder is better than other soap powders, as it also acts as a disinfectant.

LOSS NEARLY \$75,000. London, Jan. 10.—The loss at the McCleary Manufacturing Company's fire last night is now estimated at between \$65,000 and \$75,000, fully insured.

Pan-Dried

This cloud of steam comes out of Tillson's Pan-Dried oatmeal mills twenty-four hours a day.

It is the moisture driven off the oats by Tillson's own Pan-Dried process.

Tillson's Pan-Dried process takes all the moisture out—leaves the oats crisp, light and wholesome.

Common steam dried oats leaves some moisture in the oats—result is mushy, pasty, sticky, clammy porridge.

To get Pan-Dried be sure you get Tillson's, the only Pan-Dried.

Packages Only. All Grocers. Ready to Cook--Served Hot.
