

PROSPECTUS

The Monarch Bank of Canada

Incorporated by Special Act of Parliament of the Dominion of Canada.

HEAD OFFICE . . . . . TORONTO

Authorized Capital . . . \$2,000,000

Composed of 20,000 shares of \$100.00 each, of which 5,000 shares are now issued at a premium of \$25.00 per share.

PROVISIONAL DIRECTORS

- William Samuel Cochrane, David William Livingstone, Thomas Marshall Ostrom, Thomas Henry Graham, Edward James Lennox, Alfred Harshaw Perfect.

In addition to the above Provisional Directors and Incorporators the following gentlemen have consented to act as Directors:

- The Hon. R. Rogers, Minister of Public Works, Winnipeg, A. St. Dennis, Montreal, Que. Mathew Wilson, K.C., Chatham, Ont. Col. S. S. Lazler, Master of High Court of Justice, Belleville, Joseph Marcellin Wilson, Importer, Montreal, Que. Gonzalve Desaulniers, K.C., Montreal, Que., The list of Directors is subject to vote of shareholders at their first meeting, who may then at their option increase their number to ten.

SOLICITORS

Messrs. Wilson, Pike & Gundy, of Chatham, Ont.

Provisions of "The Banking Act"

BANKING as regulated by "The Banking Act" is recognized as perhaps the safest and most profitable business in Canada. The returns of existing banking institutions to shareholders after setting aside a portion of the yearly earnings as a reserve fund have ranged for the past ten years from seven to twelve per cent. per annum. During the last two years the actual earnings on the paid-up capital of the chartered banks of Canada have been over 15.19 per cent. A bank commences to earn profits for its shareholders from the first. Its assets are not locked up in a plant and stock in trade, as is the case in a mercantile or manufacturing business, but are in a position to be instantly turned into cash. It would be difficult to find any business in Canada which has been so uniformly successful as banking, or which has paid with regularity year by year such high dividends to investors. This is in a large measure due to the excellent provisions of the Bank Act, which prevents the organization of any weak financial institutions. These provisions are now even more stringent than in the past.

Increase in Banking Hours

It is a matter of common knowledge that heretofore persons doing business with any chartered bank in Canada have been seriously handicapped, by reason of the banking hours being too short, and there appears to be no reason why these hours should not be extended; why, in other words, the bank should not be kept open day and night, so as to accommodate its customers. At the present time if a business man wants to get a cheque cashed after 5 o'clock, trouble and inconvenience are experienced and the business man is seriously handicapped. He is forced to go to a store or hotel and put under the unpleasant necessity of being compelled to ask a favor of some friend, owing to the early closing of the chartered bank, owing to the early closing of banks on Saturday, and in many cases persons receiving large sums of money are inconvenienced by the early closing of the banks, being unable to deposit the same in a chartered bank, and consequently such persons run considerable risk by being compelled to keep such deposits at their office or place of business.

Monarch Bank Will Keep Open Day and Night

It is believed that all this trouble and inconvenience, arising from the early closing of the chartered banks at present open day and night, with the exception of Sundays and public holidays. Only recently a bank to keep open day and night handling business immediately appealed to the merchants and general public.

Development of Trade in Canada

The prospects for business on the lines above-mentioned, therefore appear to be good, and when we look at the immense development of resources and trade in Canada, there would seem to be no reason why a modern, up-to-date bank, such as the present one is intended to be, should not have a prosperous career from the start. It is felt that present conditions generally indicate an extended period of prosperity, and the business world of Canada is filled with new projects and enterprises, which must bring about large expenditures. The field for the profitable operation of a new bank on the lines mentioned is so great, that those concerned in the Monarch Bank of Canada, feel there is ample justification for its incorporation, and venture to predict that its success will be assured from the outset. The Bank will be fitted up with all modern conveniences and there will be a special department for ladies, which department will be in the charge of an efficient porter.

Directors—Representative Men

The gentlemen who have consented to become Directors are thoroughly representative of the various important branches of the industrial and commercial interests of Canada. They are in close touch with those interests and are in a position to give the best advice on all matters of business with which the bank may become concerned. Arrangements have been made whereby the office of the General Manager will be filled by a well-known and experienced banker.

It has been decided to offer the stock of The Monarch Bank of Canada at a premium of 25 per cent. This premium, if it is confidently anticipated, will allow the Bank to commence business with its capital intact, together with a considerable reserve fund after paying organization expenses.

The Bank, after having made the necessary deposit of \$250,000 with the Dominion Government, and after having received the proper authority from the Treasury Board, will immediately start business. Its head Office will be in Toronto, and branches will be opened at other points from time to time when, in the discretion of the Directors, favorable opportunities occur.

Terms of Subscription

The terms of subscription are \$10.00 to be paid on account of \$25.00 premium on each share upon the signing of subscription, and \$5.00 on account of \$25.00 premium on each share upon the allotment, and \$30.00 on account of each share of stock upon allotment, and the balance of stock to be paid in seven equal monthly payments of \$10.00 on account of each share of \$10.00 on the premium on each share on the first day of the month next succeeding the date of such allotment, and the payment hereinafter mentioned. Interest at the rate of 3 per cent. per annum up to the date fixed for payment will be allowed on payments made in advance of such dates.

The Provincial directors reserve the right to reject or allot any subscription in whole or part. Applications for stock may be made to the Monarch Bank of Canada, Toronto. Cheques, drafts, money orders and other remittances on account of subscriptions for stock should be made payable to the Toronto General thereon, and thereafter the balance of payments on stock and premiums shall be payable to the Monarch Bank of Canada, Toronto.

FOR FURTHER INFORMATION OR FORMS OF SUBSCRIPTION FOR STOCK, ADDRESS THE MONARCH BANK OF CANADA, TORONTO.

MEAFORD WANTS OWN PLANT TO LIGHT AND WATER TOWN

Bylaw to Raise \$12,000 for Purchase of Machinery From Old Company.

Meaford, July 31.—(Special).—A bylaw will be voted on Aug. 18 to raise \$12,000 by the issue of debentures for the purchase of the electric light plant, except the building occupied by the company, to install machinery and to purchase power from the present company to operate both plants. The proposition seems to be a good one, but opponents of municipal ownership are throwing everything in the way of the passing of the bylaw. The Town of Meaford owns the waterworks system, but it is operated by steam power. The proposition then is to buy the electric light plant, and to purchase power from the local company to operate both the waterworks and the street lighting.

SCARE HITS BUSINESS MEN.

New Orleans Merchants Losing Orders From Other States.

New Orleans, July 31.—While the feeling here concerning the yellow fever epidemic is apparently no abatement, there is a considerable amount of excitement and panic in the country districts of Louisiana and Mississippi. Local business houses are beginning to feel the effects of the scare. They are receiving letters from the traveling men telling of the epidemic in Mississippi and elsewhere because of the reluctance of the country people to receive goods from infected districts. In this connection there is some criticism of Governor Vardaman, in that he has commended the prudence of Mississippi in refusing to take freight from this city. To meet these conditions business houses are circulating pamphlets giving the results of the scientific experiments in Cuba and in the United States, and the results of the firm faith in the theory that alone by the stemoglysis is yellow fever transmitted. It has been taken to disinfect all freight cars destined for outside points.

WANNAPITAE POWER.

Hon. Frank Cochrane Tunes Water on for First Time.

Sudbury, July 31.—(Special).—The Wannapitae Power Co. held a gala day on Saturday. Hon. Frank Cochrane visited the plant and the water was turned on for the first time. The plant is established at the Falls two miles from the Village of Wannapitae, and the company has expended \$100,000 in building and plant. It proposes to develop the power of the Wannapitae Falls, and to establish a plant there for the transmission of power to Copper Cliff. At High Falls they are expending quite a town is springing up there which has been named "Turbinia." It is proposed to develop 10,000 horsepower.

THE MONARCH BANK OF CANADA.

Elsewhere we print the prospectus of the Monarch Bank of Canada, a new financial institution, which will have its head office in Toronto. The Monarch has an authorized capital of \$2,000,000, and is offering shares of \$100.00 each, five thousand of which are being offered at a premium of twenty-five dollars at a premium of \$25.00 per share. The names of the provisional directors are those of good known men in the community and as they come from all parts of the Dominion their local influence in favor of the bank will be very strong. The Monarch proposes new banking hours, it will keep its public holidays. A New York bank has lately followed out this idea and met with very great success owing to the facilities offered by the bank, after what is called "banking hours." Mr. T. Marshall Ostrom is the promoter of the bank and as he is a young man of much ability and undoubted integrity, he should have no difficulty in disposing of the stock. It is announced that will be officed by the general manager of the bank, who is a well-known and experienced banker.

Advertisement for 'BIG ELECTRICAL INTERESTS' and 'ROCKEFELLER AND VANDERBILT'.

Buffalo, July 31.—Signs point to a coming clash of mammoth electrical power and distributing interests at Niagara Falls within the next few months. The first collision will be between the "Standard Oil" set of millionaires, said to control the Niagara Falls Power Company—the parent power company at the falls—and the Vanderbit-Westinghouse group of capitalists who control the Ontario Power Company, one of the corporations now ready to deliver electrical energy from the Canadian side. Whatever the future may show, or how much electrical power is manufactured in Buffalo, it is all going to be big business as now as was over markets for their electricity.

The Ironquois has not been granted its franchise, the application still pending before the councilmen. Nevertheless, the Westinghouse people are busy reaching out for franchises all around Buffalo, including Lockport and Rochester.

It appears that the Albright-Hayes Company, while their Ontario Power Company is under construction, entered into a contract with a distributor of Buffalo, which is the potential franchise of Buffalo. This contract was entered into for July 1, but the date they expected to have had a franchise, signed, sealed and delivered, for their Ironquois Company. The rates offered, while satisfactory to a majority of the board of directors, are not satisfactory to the councilmen.

Another market for the large amount of electricity proposed to be generated by the new project is likely to be the City of Lockport. The company, it is reported, has agreed to deliver 318 per horsepower, provided it is a franchise. The company finds it a cheaper to transmit power by wire than to divert water from the Niagara River via Lockport.

SMELTER FOR NEW ONTARIO.

Canadian Copper Company Erecting One to Cost \$75,000.

Sudbury, July 31.—(Special).—The question of the treatment of the cobalt and other rich ores throughout the entire district of New Ontario is one that has received much attention. Many arguments have been advanced in favor of the establishment of a government smelter. The Canadian Copper Company has taken the matter up and will erect a custom smelter for the treatment of all these ores. The buildings will be completed by the end of the month and ready for business on Oct. 1. President Turner made this announcement to your chief opponent, the Ontario Copper Company, which has been experimenting for some months, and the results have been successful. The cost of the smelter is \$75,000. The company has a water power at High Falls, 2 1/2 miles distant from Copper Cliff, and is establishing a plant there for the transmission of power to Copper Cliff. At High Falls they are expending quite a town is springing up there which has been named "Turbinia." It is proposed to develop 10,000 horsepower.

LIMIT OF HUMAN AGONY

is often reached with corn. Foolish, because Putnam's Corn Extractor cuts in twenty-four hours. Don't put off; get "Putnam's" today. Fifty years in use—painless and sure.

Notice of Expansion

The W. & D. Dineen Company's premises are undergoing some alterations to provide more room for the accommodation of an increasing trade.

Business will be carried on as usual. The fur showrooms on the second floor are in no way affected by the present alterations, having undergone improvements some months ago.

Fairweathers 84-86 Yonge Street

THE LEADER OF THE OPPOSITION. Annapolis, N.S., Spectator, July 28.—It has been a conundrum to many who have read the Liberator and held under the leadership of Mr. R. L. Borden back as leader of the opposition after they had been at such pains to defeat him. The wholesale and mutual grab from the treasury may be the solution of the problem. The government not only accepted Mr. Borden as leader of the opposition and allowed him to take his seat without opposition, but they have paid him for accepting the job. It is up to the Conservative party, if they mean to carry on an actual instead of a make believe opposition, to choose a new leader.

Child Slavery in Alaska. St. Louis, Mo., July 31.—Alaska, which in the dominion of the United States, white persons sold and held under bondage in violation of all the laws of civilization—this is the charge of Prof. W. A. Davis, superintendent of the United States public schools at Unalakleet, Alaska.

Five in Three Weeks. Another death from cerebro-spinal meningitis has been reported to the provincial health authorities from the County of Carleton, making the fifth in one doctor's practice in three weeks.

Woodbridge. The death occurred on Sunday of John Woodbridge, one of the oldest residents of this part of the county. He was born at Florden, England, in 1821, and came to Woodbridge on July 12, 1842. He came to Woodbridge in 1842, and resided in the vicinity continually. He married a daughter of the late John Woodbridge of Woodbridge, who survives him as a widow. He was a member of the Methodist church, and was a very successful farmer and stock raiser. He was 83 years of age at the time of his death.

Live Saving Exhibition. On Wednesday, evening at 7 o'clock G. H. Corson, the well-known swimmer and life saver, will give an exhibition in the lagoon behind the ice-cream grounds at the Island.

Work County and Suburbs. Toronto Junction, July 31.—A special meeting of the town council was held to-night, with Acting Mayor Armstrong presiding and Councillors Whetter, Wright, Tovell, Hain, Ellis and Rydberg present. The acting mayor announced the object of the meeting was to deal with an application for water supply from the Canadian Brick Co. with Councilor Tovell in the chair the motion was considered. Superintendent Haggas reported that the company would bear all the expense of putting down the pipes and would return to the town the water. Councilors Hain and Rydberg moved that the company be supplied with water, measured by meter, at 12 1/2 cents per gallon, and a bylaw was passed to that effect.
