## NEW LICENSE BOARD IS NAMED EX-MAYOR COATSWORTH, EX-ALD. DUNN, COMMANDER LAW GOVERNMENT SPRINGS SURPRISE

Unexpected Announcement of Unexpected Names—Selection is Said to Be Good.

OLD BOARD RESIGNS FOR A SQUARE DEAL

EMERSON COATSWORTH, JOHN DUNN, FRED C. LAW.

At 2.30 p.m. yesterday the government got their slate filled and in the course of the afternoon the names of the three gentlemen to compose the new license board for Toronto were announced.

Ex-Mayor Emerson Coatsworth, it is assumed, will be chairman of the board, ex-ald. John Dunn and Commander Law, R.N., being the other members.

Official notification had not reached them of their appointment at a late hour last night, so it is not clear that the meeting of the board announced for to-day will be held, as the old members have resigned.

Ex-Mayor Coatsworth was the only one of the three to whom public opinion may have pointed, but the announcement of the other two names seems to be generally viewed as completing the constitution of a satisfactory board.

The civic career of Messrs. Coatsworth and Dunn is familiar to all citizens, and Commander Law has been a well-known figure for many years as secretary to the government house. His contributions to local architecture as designer of the Church of Our Lady of Lourdes and other striking buildings have distinguished him among his fellow-citizens. All three gentlemen are of moderate but public-spirited views.

With the announcement of the appointment of the new board was made public the letter of resignation of the outgoing commission. The position taken by the retiring members is as outlined in The World of a week ago last Sunday, made emphatic by their declaration that they could not continue in office under the circumstances.

A Tackling Task. In the face of the present license situation the new board has undoubtedly a delicate task to face. How they will acquit themselves will furnish the most possible testimony to their ability as civic statesmen and diplomats. It will not be on such lines, however, that the new board will endeavor to make a reputation, but in a sincere and earnest effort to administer the law as they find it, without fear or favor.

It is regarded as likely that the policy of a dry district may be followed by the board in conforming to the new city council regulation reducing licenses. This would involve the cancellation of all the licenses from Parkdale, round by Dundas to Bloor, and in outlying districts. This would make up half the number to be reduced. The others could be selected from the houses which are not "keeping hotels" in any effective way down town.

Another policy would be to cancel all licenses in houses wherever situated that do not keep hotels in the strict sense, leaving the actual hotelkeepers wherever situated. In this way the reduction would chiefly affect the down town localities.

Will Council Be Generous? It is rumored, however, that by Monday next a motion will be presented to the city council which will materially change the situation. The council has power to rescind this resolution entirely, but failing this, an attempt will be made, it is reported, either to postpone the operation of the bylaw for a considerable time during which selected licenses would have an opportunity to retire from business, or to have an arrangement made by which the cancelled licenses will be retired by degrees on the installment plan.

In this connection a competent authority has pointed out that the cancellation of licenses for cause would probably reduce the number by half a dozen or more a year, and that such cancelled licenses would not be transferred until the total had been reduced to the desired number.

Another statement which would appear to require confirmation, is to the effect that several hotelkeepers, finding liquor more a trouble than a benefit, would willingly resign their licenses and keep simple hotels.

An Emphatic Protest. That many temperance people are not in sympathy with the program of the temperance party in Toronto is indicated by the following letter from John

### Why the Commissioners Have Resigned

License Commissioners' Office, Rooms 606 and 607, Temple Bldg., TORONTO, Ont., Feb. 18, 1908.

Dear Sir,—For the reason hereinafter stated, we beg leave to resign the position we have held for the past two years as members of the Board of License Commissioners for the City of Toronto. Our relations with the Hon. Mr. Whitney as premier, and with yourself as head of the department, have always been so satisfactory that, had the recent action of the city council not rendered the retention by us of the position of members of the board impossible, we should have been glad to continue to give to the government our services in the administration of the Liquor License Law in Toronto.

But we cannot be the active instruments of what we feel is an act of injustice, and not in accordance with the wish of the citizens, but in absolute defiance of the plain expression of the will of the majority of the people, whose mandate we have always obeyed, and in whose behalf and service we have acted conscientiously.

Strong as have always been our personal views in favor of temperance, our determination to give to everyone whom our actions as public servants might affect, absolutely fair treatment, is just as strong. WE BELIEVE IN GIVING EVERYBODY A SQUARE DEAL.

No true temperance advocate will, on reflection, be convinced that the cause of temperance requires the sanction of injustice or sharp practice for its successful propagation, or that it will be permanently advanced by trickery or bad faith. A bylaw compelling the commissioners to cancel 34 existing licenses, railroaded thru the city council in a single night, without previous public discussion, after the people had pronounced a short time before, and, in fact, during our term of office, against the passing of such a bylaw, was manifestly a betrayal of the electorate. Indeed it will, if permitted to take effect, grievously injure those who have obeyed the law, and have, to the best of their ability, carried out in letter and in spirit the special demand of your department, namely, "to keep hotel."

Such action on the part of the council cannot have our approval or support, either as citizens or as commissioners, peculiarly conversant as such with the inevitable effect of the bylaw.

The passing of the bylaw was not acting in good faith with the electorate or with the licenseholders. For a few men to suddenly and arbitrarily destroy privileges which the people, by a substantial majority, had assured the holders thereof would be continued, and which largely formed the consideration for an expenditure of over one million dollars for the establishment and furnishing of proper buildings in which to exercise those privileges, we venture to say was not playing fair.

We, therefore, respectfully tender to you our resignations as members of the Board of License Commissioners of the City of Toronto. We must leave to others, who may be able to view the situation differently from ourselves, the performance of a task we cannot conscientiously undertake.

We take this opportunity of expressing our thanks for the support you have always given to us in our desire, as commissioners, to give to the people an honest, efficient and non-partisan administration of the law. We are, Dear Sir, faithfully yours,

(Signed) R. J. Wilson, K. Millicamp, D. M. Defoe.

## NOT THE GHOST OF POSSIBILITY OF WAR

Great Britain's Obligation to Side With Japan Conditional, Says Whitelaw Reid.

NEW YORK, Feb. 19.—Whitelaw Reid, ambassador of the United States to Great Britain, in a speech to-night at the dinner of the Pilgrims of the United States at Delmonico's, declared that talk of the obligations of Great Britain to sustain Japan in war against the United States was nonsense.

The ambassador said that there was "not the ghost of a possibility of war with Japan," and that there "was every reason to think the Japanese sincerely our friends."

"Our relations with Great Britain," said Ambassador Reid, "were cordial and there were no serious complications." The ambassador was accorded an ovation when he arose to speak, by the 400 members of the Pilgrims of the United States and their guests. Joseph H. Choate, former ambassador to Great Britain, was toastmaster.

The ambassador Reid, who was the principal guest of the evening, spoke in part as follows:

"The work of this society and of its London twin, is the same, and it is a work worthy of the great name they have both invoked. The old pilgrims, under whose device you serve, went out to lay the foundations of a larger liberty and a better civilization. You, pilgrims of to-day, co-operate with your colleagues in the motherland for

## GOVERNMENT WILL GIVE \$300,000 TO QUEBEC FUND

Sir Wilfrid Laurier Will on Friday Move Resolution to Preserve Battlefield.

OTTAWA, Feb. 19.—(Special.)—Sir Wilfrid Laurier has given notice that on Friday next he will move the following resolution: "That it is expedient to provide that the sum of \$300,000 be expended for the preservation, in a suitable manner, of the historic battlefields of Quebec, in connection with the tercentenary of the said City of Quebec."

This practically assures a contribution of \$400,000 towards the scheme, as the provincial government has promised a grant of \$100,000.

## Ontario Will Appeal To Ambassador Bryce For Power Protection

Government Deputation to Interview Him at Ottawa To-Morrow in Regard to Preservation of Rights at Niagara Falls.

MR. BECK POINTS OUT DANGERS THAT CONFRONT

That Ontario's rights at Niagara Falls should be amply safeguarded is the position taken by Hon. Mr. Whitney and the members of his cabinet. With this view three members of the government and W. K. McNaught will go to Ottawa on Friday to interview Hon. James Bryce, who is there consulting with the Dominion Government in regard to a treaty between the United States and Canada.

When asked yesterday whether his government would take any steps in this matter, Hon. Mr. Whitney said:

"I understand that Right Hon. James Bryce, British ambassador at Washington, is at Ottawa this week going over the different questions in dispute between Great Britain and the United States, with a view to the settlement of all of them. Among questions in which Ontario is interested is that of the water powers on the International boundaries. The attitude of the province will appear from the following letter addressed to me by the Hon. Mr. Beck:

An Important Statement. Toronto, Feb. 14, 1908.

The Hon. J. P. Whitney, Premier, Province of Ontario, Toronto: My dear Mr. Whitney,—I desire to call your attention to an Ottawa despatch which appeared in The Mail and Empire of the 10th inst., announcing that an agreement had been reached by Great Britain and the United States under which no further power franchises were to be granted on either side of the Niagara frontier, and that it only remained for the Dominion Government to express its concurrence before giving the agreement effect, and that the Hon. James Bryce, British ambassador at Washington, would visit upon Sir Wilfrid Laurier and his colleagues in Ottawa on Monday next to obtain their formal approval.

I need scarcely point out that the proposal is fraught with very deep significance to the people of Western Ontario. In the Falls of Niagara we have been endowed by nature with one of the richest assets which we could possibly possess, an asset which should enable us to attain a degree of industrial development unsurpassed in any other portion of the world. Its value to us, however, consists not simply in our possession of it, but in our liberty to enjoy to the full the advantages which it can be the means of conferring, and if, as is now proposed, our rights of power development are to be restricted to the narrow limits of the charters already granted, the value will be very largely wiped out.

Restriction Would Be Fatal. Unfortunately, the conditions under which these charters have been granted place an effective barrier in the way of our enjoying anything like the full measure of benefit which should accrue to us from development works on the Canadian side of the river. As you know, the companies at Niagara enjoy (practically, as far as the present generation is concerned) in perpetuity the right to export power, the only stipulation being that they shall reserve for Canadian consumption up to 50 per cent. of their development, as it may be called for, to be delivered at the same price as prevailed in the United States for like quantities when sold under like conditions. It would undoubtedly prove fatal to

## CHARGES A CRIME TO EXONERATE HIMSELF

Samuel Finkle Faces the Charges of Arson, Perjury and Suborning Perjury by an Employee.

Samuel Finkle, 252 Elizabeth-street, did a rapid change stunt yesterday afternoon against his will. Accompanied by his attorney, Louis F. Heyd, he went to the detective office to issue a warrant, charging Chas. Goodman, proprietor of the Empire Jewelry Co., Yonge-street, and Detective Cardwell of the Canadian Detective Agency, with conspiracy. He is now arrested, charged with suborning of perjury.

A charge of conspiring with Harry Green to defraud the London Insurance Corporation of \$1000 will be laid. Further, Finkle stands in imminent danger of prosecution for arson and perjury.

If the case which the detectives believe they have made out against Finkle, he would stand as the founder of one of the most complicated schemes that has yet been devised for the \$1000, which, it is said, he hoped to secure.

Finkle is an Austrian Jew, and came to this country two and a half years ago. He is 23 years of age. About two months ago Charles Goodman, for whom he had previously worked, set him up in business at the Elizabeth-street house as a manufacturing jeweler. He advanced \$75, with which Finkle purchased tools and also goods worth about \$25. As his assistant he employed Harry Green, 10 Armory-street.

Damage by Fire. At 2.30 on the morning of Jan. 22, fire was discovered in Finkle's shop, but the department arrived quickly and little apparent damage was done. This was placed at \$50 to the building by the police at the time and no damage was placed to contents on the police register.

A suspicious condition was found by the firemen, in that there were many auger holes in the walls and a pronounced odor of gasoline pervading the premises. Nevertheless, Finkle filed a claim with the London Insurance Corporation for the full amount of a policy of \$1000 which he had placed upon his stock and tools.

In his claim, to which he later made oath in a declaration, he set out a list including tools valued at \$300, and stock, bringing the total loss to \$1300. In the stock list he included 30 gross of precious stones, among which were listed two valuable diamonds. This was also, according to the list, much fine gold.

The insurance inspectors became suspicious and consulted the Canadian Detective Agency. Cardwell was put on the case. He examined the premises and found an auger, the bit of which fitted the holes bored, and the odor of gasoline was still present. "Where is the gold?" he asked Kinkle.

"There," replied Finkle, pointing to a heap of charred debris. "And the precious stones?" Finkle again indicated the heap. A Wild Story. This was carefully conserved and the whole put into the hands of an assayer. He proceeded to test the value. It panned out a small lump of gold and copper alloy, valued at about \$10, and nine stones of slight value.

Then the detective got in touch with Goodman and was given the facts in connection with the prices. Finkle learned that the next feature of the case was the appearance of Finkle, accompanied by ME. Heyd, who urged the issue of a warrant, charging Goodman and Cardwell with conspiracy. To bear out their claim, Harry Green was produced. He told a strange story.

He said that Goodman had asked him to steal a lathe from Finkle, upon the production of which he was to be paid \$25. This was done and the lathe, Friday last it was showed to Goodman outside his store. The \$25 was paid to Green in three fives and a ten. Goodman told him to take it to Samuel, a jeweler, at 63 West Queen-street, where he was to sell it. He was promised another \$25 when he had done the work.

On Monday, he said, he had taken it to Samuel, who had refused it because Finkle's name was stamped upon it. He had tried another Queen-street shop, but failed to place it. "File out the name," said Goodman. This was done and the lathe, worth \$12, was sold to A. Woods, a second-hand dealer at 133 York-street, for \$1.25.

A declaration subscribing to these facts, before Mr. Heyd, was also produced. Detectives "Make Confession." Inspector Dineen asked for time, and Finkle and the lawyer departed. Goodman was called in and Green repeated his story despite a point blank denial by Goodman. Then Goodman went and Green and the inspector talked the matter over, with the result that Green admitted that the whole story was a lie, which he had told at the instigation of Finkle.

"I had no money, so I had to tell it," he said, in explanation. He had said previously that he had spent the money at Sapira's poolroom in West Queen-street in the presence of one Jackson, who, tho he said he was an intimate friend, he could neither describe nor give the address of. Also, the date of the sale of the lathe, now in the hands of the police, had been fixed at an earlier date by Mr. Woods. Green was held as a material witness and is lodged in the Esther-street police station. Detective Sockett was despatched in search of Finkle and brought him in at 8 o'clock.

THE RAILROAD DEBATE.

How far the growing volume of public discontent over the attitude of the Canadian railroads towards the people and their failure to hold the balance equally between their own interest and the common good and between thru and local traffic, has succeeded in influencing parliamentary opinion was clearly disclosed by the course of the debate on Tuesday in the house of commons.

A very pertinent example of the rough-riding manner in which the railroads override equitable considerations was provided by the bill sponsored by Mr. W. F. Maclean providing for the application to the railroads of the regulation requiring payment of demurrage on cars claimed to be used for storage purposes.

Bargains in Wearables

Were it not for your confidence in this store's bargains, without any explanatory remarks from us, we might go on to truthfully tell you some facts as to WHY you can and do save money here on wearables any day.

FOR INSTANCE THIS FACT: No concern that we know or have heard of gets any closer to the actual cost of "growing the garments" than this store.

- We go to the mills for our material.
-We pay prompt cash and pull in every possible saving thereby.
-We make the garments ourselves.

So it's just as near from the mill to the wearer as it is possible to get.

On Friday you may do some exceptionally profitable buying.

PASSENGERS ON WRECKED TRAIN TELL THE STORY

Jap Thrown Across Car and Neck Broken—Newsboy's Escape.

OTTAWA, Feb. 19.—The C.P.R. train, No. 56, to which the passengers from No. 2 express, which was wrecked at Pardee, near Chappellau, on Monday night, were transferred, arrived this morning. On board were several passengers who went thru the accident, and their narrative of the occurrence is quite interesting.

From what is learned from the passengers this morning the death of the Japanese porter, the one man who lost his life in the accident, was especially tragic. It appears that he was sitting beside a newsboy in the window, with the exception of the Toronto Pullman to the rear, did likewise. The engine and baggage car, however, held to the rails.

what the position of the Bank is. That condition, as I said before, is due to the efforts of your General Manager and your Directors.

I beg, therefore, ladies and gentlemen, to move the adoption of the report.

GENERAL MANAGER'S STATEMENT. The General Manager, Mr. W. R. Travers, in answer to some questions, and for the general information of the Shareholders, spoke as follows:— Mr. President and Shareholders: You have seen the Report presented of the position of the Bank, and I have no doubt that you feel fully satisfied that, considering the business conditions, the affairs of the Bank have been carried on in a way that will meet with your approbation.

About a year ago the Bank complied with the conditions of the Canadian Bankers' Association and The Toronto Clearing House, and became a member of both. We find the latter a convenient and speedy method of receiving our obligations and depositing notes, cheques, etc., of other Banks, settling the balances every day. The Bank has been clearing over \$5,000,000 yearly, which seems good beginning for a young institution.

Before closing my remarks I would like to make some reference to the business conditions in Canada. That there is a time of depression cannot be denied. As the shareholders know, The Farmers Bank is entirely an institution dealing with the rural community. In Ontario last year, as well as in the other provinces, crops were not all as good as we expected, but I would like to point out one thing, particularly where the farmers of this Province have benefited, that there never was a year, possibly, in which the prices of everything produced on the farm have been higher than during the past year. The result has been that Ontario farmers have received financial results practically equal to what they had realized in previous years.

Referring to the general business situation, I can see no reason why conditions should not improve. Money is getting cheaper, there seems to be more disposition on the part of capitalists to utilize their funds, and for my part I feel very optimistic as to the future. There are developments working on in Canada at the present time that cannot but carry this country on for years to come. There is capital available for legitimate enterprises. English capitalists are seeking in this country, and the opportunity offered by recent extensions in electrical railways running through the Province are bound to attract investors. It is my opinion that the Province of Ontario is going to be what I might call gridironed with electrical railways. With the policy of the Government, I have nothing to do, but it is evident that with the electrical development going on in this Province there will be new branches of business opened, and that The Farmers Bank, dealing with the rural community, will be in a splendid position to handle the new and expanding business that is undoubtedly going to be created.

NEW PRESIDENT ELECTED. The President said:— I may say, ladies and gentlemen, that I came into the organization of The Farmers Bank at the time The Ontario Bank failed, and when an action was taken by the shareholders which threatened the complete organization of the Bank. At the request of Mr. Travers I took the Presidency on that occasion, because I felt then, as I have felt ever since, that for a winding up proceeding to be instituted against the Bank meant in the first place that the shareholders would have to pay the amount of their stock into court, and in the second place a large amount of money would be eaten up by lawyers and others in costs, to the very great detriment and injury to all those who had subscribed for stock, including myself. That being the case, I told Mr. Travers at the time that I was satisfied to take the Presidency of the Bank for a year. I have kept the position of President for a year, and the Bank has been successful, and you are now in good shape to go ahead. I have personally other interests which I have got to consider, and, therefore, I may say to you that I will not stand for re-election.

Moved by Dr. Nesbitt, seconded by Col. Munro, that the ballot box be now opened, and the members of the Board, after the election of nine Directors for the ensuing year, the ballot to be closed whenever five minutes elapse without a vote being tendered.

Moved in amendment by John Gilchrist, and seconded by Allan Eaton, that the scrutineers cast one ballot for nine Directors. Amendment carried. The Scrutineers presented the following report:— Toronto, February 19th, 1908.

W. R. Travers, Esq., General Manager: Sir,—We, the undersigned Scrutineers appointed at the General Meeting of the Shareholders of The Farmers Bank of Canada, held the day hereby declare the following gentlemen duly elected Directors for the ensuing year:—Mr. Hon. Viscount Templeton, Lieut.-Col. James Munro, M.P.P., Messrs. Robert Noble, John Gilchrist, Allan Eaton, Robert E. Menzie, Burdette Gundy, W. G. Sinclair, A. Groves. At a meeting of the newly elected Directors held subsequently, Mr. James Munro, M.P.P., was elected President and Mr. John Gilchrist First Vice-President, and Mr. W. R. Travers Second Vice-President and General Manager for the ensuing year.

Have You Throat Trouble? A cough mixture slips over the sore spots, drops into the stomach and does little else but soothe the inflamed tissue. It's different with "Catarrhazine," a remedy that cures because it gets at the trouble at that point, where the inflamed tissues are. You inhale Catarrhazine. Every breath you draw through the inhaler sends healing balsams and soothing antiseptics to the inflamed tissues. You experience a pleasant sensation of warmth—tightness, hoarseness, and coughing disappear—throat is strengthened and further attacks prevented. Sick or well, use Catarrhazine: it not because it cures, but because it prevents Catarrh, colds, bronchitis and throat trouble. Both pleasant and safe—try it. Large one-dollar outfits guaranteed.
