Wonderful War Scene Is Enacted in Rome Several Hundred Thousand People in Demonstration Seldom Paralleled in City's History—Italian Ambassador in Berlin Assaulted While Driving in Street—Vatican Organ Urges the Complete Union of Italians

Rome, May 22.—Almost the entire population of Rome, except the aged and invalids, gathered last evening on Capitoline Hill, where Prince Colonna, the mayor, had convoked a solemn sitting of the municipal council to consecrate, in the heart of the capital, the new war.

The Capitoline palace had been decorated with historic tapestries commemorating events of great national importance. The mayor delivered a patriotic address which provoked tremendous applause. Then, surrounded by aldermen and the municipal council and preceded by the standard of Rome, he started for the Quirinal to pay tribute to King Victor Emmanuel as the personification of Italy.

Veritable rivers of humanity poured through the streets leading to the palace of the king. The scene enacted when His Majesty and family appeared upon a balcony overlooking the square has few parallels in the history of Rome. It was estimated that the crowd numbered several hundred thousand.

After the demonstration a great crowd went to the Del Drago palace, the residence of the United States ambassador. There were loud cheers for America and demands for revenge for the Lusitania victims.

Great excitement was caused in the capital tonight by the report that Signor Bolletti, Italian ambassador at Berlin, had been assaulted while driving in the street. It was learned later, however, that the incident was not so serious as was thought. Letters of regret were sent to Signor Bolletti by Chancellor Von Bethmann Hollweg and foreign minister Von Jagow.

Officials of the Socialist party met today and resolved to rally to the support of the government.

Admiral Betsillo, president of the Italo-Rumanian league, telegraphed to the president of the Rumanian-Italian league in Bucharest, that on the day Italy declared war on Austria, her thoughts would turn to Rumania, counting upon her assistance.

In spite of disavowals by high German officials, Rome newspapers consider the attack upon the Italian ambassador in Berlin a grave reflection upon Italian dignity. The Idea Nazionale says the insult must be avenged. The Tribune believes a fitting reply would be for the people of Rome to accompany the German ambassador to the station on the day he leaves the capital and "return Latin civility for an act of German barbarism."

The Observatore Romano, the Vatican organ, urges a complete union of Italians and a truce to political passions. It expresses the hope that Italy may be spared the horrors of a long war.

THE KING TO THE PEOPLE

Rome, May 22.—King Victor Emmanuel will today issue a proclamation to the people, countermanding all his ministers. It will explain how Italy has been driven to take up arms and will appeal to all citizens to do their duty in such a way that the victory will be assured. Another proclamation will be addressed to the army and to the fleet.

AUSTRIAN ACTS JUSTIFY FIGHT

Paris, May 22.—It is considered that Austria's action in destroying bridges and cutting telegraph and telephone lines at Ponte Caffaro and Lodrone, and her refusal to constitute a cession belli, making Italy free to open hostilities without other formalities, so says a despatch from Turin.

When the Milan express was near Ponte Caffaro, where the line had been cut, the train was seized by the Austrians and the crew arrested. It is supposed the same fate has befallen another train from which no news has been received since it crossed the Austrian frontier.

SAY ASSAULT WAS BY BOY

Berlin, May 22.—Signor Bolletti, the Italian ambassador to Germany, was assaulted in the street last night by a German boy. The assailant was arrested. The German press deprecates the attack.

At the Vatican

Rome, May 22.—Deep regret is felt by Pope Benedict that Italy has decided for a war which he, as head of the Church, hoped might be averted. The Holy See will maintain strict neutrality and no effort will be made to restrain Italian Catholics from following the dictates of conscience. A papal document outlining this position is expected soon.

It is announced that the consistory to have been held this month to fill vacancies in the college of cardinals has been postponed indefinitely.

Under Military Control

Rome, May 22.—The official Gazette publishes a decree empowering the military to take control of all Italian railroads.

FAIR MARKET.

The supply of produce in the country market this morning was somewhat better than for the last few Saturdays. Butter declined slightly in price, highest quotations running at thirty cents, while some could be bought cheaper. Eggs continued from twenty-three to twenty-five. Poultry was scarce, chickens bringing 82 a pair, fowl and turkey thirty cents a pound. Spring lamb sold from \$1.20 to \$2.75 a quarter.

IN FIRST ACTION

A letter received by Mrs. Wm. Grey from her son, Andrew Gibson, from France, told of his having come through his first action safely. He asked to be remembered to his friends about the city.

SUMMER PLANS FOR STREET WORK

Asphalt Paving For Several Street Intersections

WEST ST. JOHN WORK

First McAdam Pavement on West Side Being Laid in Rodney Street—Asphaltic McAdam For Main Street—Princess Street Block Needs Attention

Without a large amount of money available for new work the department of public works will effect some much needed improvements during the present year. Only the most pressing needs are being considered at present and the work will continue so long as the money holds out.

A new feature of the work and one which will be much appreciated by the citizens, is the renovation of the pavements at several street corners. The men are now at work at the Golden Ball corner, Union and Sydney streets. At this intersection and a concrete surface is being laid. A concrete foundation is being placed under the street car track and a concrete surface will be used between and for eighteen inches on each side of the tracks. The intersection at the corner of Princess and the corner of Duke the same purpose will be carried out, except that the surface will be of asphaltic concrete.

The corner of Union and Brunsell street has demanded attention for a long time and here a two or three inch surface of asphaltic McAdam will be laid. This intersection and that which has been in poor condition for years, is now being graded up to the new level. In the Westmorland road which has been put in and a McAdam roadway is being built, making a substantial improvement.

When the Westmorland road is completed the men will be transferred to the corner of the intersection of the street at the corner and the One Mile House. A good start has been made on this section, but the surface needs to be finished. A stone will be used to put this in proper shape. When completed it will be a good piece of roadway.

The most important piece of street construction this year is being carried out in the section of street which has been at work all winter, breaking the stone which has been removed from the street. About 1700 tons of stone should make it possible to open the street to traffic. The stone which has been removed from the street will be used to make a concrete surface between and for eighteen inches on each side of the rails. On the rest of the street a McAdam base four to five inches deep will be laid, filled in to close the surface, and sprayed with asphalt. On the top of this will be a surface of asphaltic concrete.

Another piece of work strongly advocated by the commissioner and road engineer is the paving of Princess street from German to Charlotte. This is a narrow street, carrying a very heavy traffic, which keeps it constantly in poor condition under present conditions. The effect of this is felt not only in that block, but in the adjoining streets, German street, for instance, on which the residents and property owners have expended much money to improve conditions, get much of the dust from Princess street which is carried into their yards. The nature of the pavement suggested for this block is a four inch concrete base with asphaltic surface, like that in Charlotte. When this is completed the corresponding block in Duke street would be undertaken.

The chief sidewalk repairs will be carried on in Main and Queen streets, with the usual repairs and patches where most needed in other places.

FIRST COMMUNION.

In the Cathedral this morning about ninety children received their first Holy Communion. His Lordship Bishop LeBlanc celebrated the service, assisted by Rev. Wm. Duke and Rev. M. P. Howland. His Lordship addressed the children on the great importance of this event in their lives, and also spoke in an advisory tone to them. The services were attended by a large congregation.

Camp Life At Sussex

A Day With The 55th—A Soldier's Life and Its Many Attractions

Delightful indeed is the amusements experienced by the recruit when he awakes the morning after his arrival to find himself under a sun-bathed tent, where in all is peaceful and outside all the natural glory of a summer's morn. Joy, the thrill he finds, and achievement are broken by harmonious strains of "Reveille" calling upon the young soldier to rise and mingle with this same vast throng in the great game called "Life."

The men are now sitting, the tent doors are thrown open and there, before his eyes lies a glorious landscape of slopes and valleys, covered in their rich velvety green, which, together with the different hues of bordering trees, and the pure sweet air, makes one murmur "this is life!"

Soon the whole camp is active, figures dodging here and there, young men, feeling and a prodigious appetite, which is satisfied by a wholesome, plentiful breakfast of bread, butter, bacon, jam, cheese, tea or coffee, after which he has ample time for a smoke and gossip around the tent groups, for he does not "march" again until 9 a. m. when companies are marched to their respective drill grounds, richly carpeted by bright green grass.

At ten o'clock comes a ten minute rest, after which he falls in with his dress rifle, of which he is the proud possessor, and goes through the intricate though interesting movements of manœuvres with intervals of rest until 11.45 a. m. The next important item is dinner at 12.30 p. m., consisting of roast or hashed beef, potatoes, carrots, turnips or parsnips, with bread, butter, tea or coffee, sometimes when rations allow jam and cheese also. After this repast comes a long leisurely walk 2 p. m., then the resumption of the rhythmic and fascinating motions of squad drill and firing practice, followed by instructive lectures with intervals of rest until 4.45.

This finishes the soldier's day. At five o'clock comes tea. About the same time as breakfast will serve. From then until 10.15 the soldier's time is his own. He may stay in camp and find plenty of amusement, or he may "spruce up" and go into town for a stroll. But whatever he does, he can spend a pleasant time until 11.15 when he returns to the fair-land of candle-lighted tent-land to finish the day in peaceful slumber. And thus closes the day of the recruit.

Now, in addition to these enjoyments, a soldier's life is full of interest. He has to wear a uniform, a cap, put on boots, two khaki suits, greatcoat, and a few other articles comprising a soldier's outfit, and above all, he feels the crowning glory of being an admitted member of this world-changing struggle between the empires of the East and the West.

Young men! You who can join, who are you thinking about? Why this army? Have you any excuse? No! You have none, and when you join you will have to work with your own hands. You will never be a soldier.

Troop Train In Collision In England; More Than 40 Killed

Carlisle, Eng., May 22.—A special train carrying troops and bound south collided with a local train at six o'clock this morning on the Caledonian Railway at Gretna, near Carlisle.

More than forty persons have been killed, and it is believed that 800 were injured. Forty dead bodies have been recovered. The wreckage of the trains took fire.

LOYD GEORGE TO REMAIN AT POST

Believed Certain That He Will Continue as Chancellor HAS MADE GREAT RECORD

Bonar Law Likely to War Office—Balfour to Succeed Churchill—Lord Lansdowne to Be Taken Into Cabinet

London, May 22.—Work is progressing slowly on the formation of the new cabinet, but decisions have been virtually reached relative to a few more of the portfolios. It is regarded as almost certain that David Lloyd George will remain as chancellor of the exchequer instead of going to the War Office to take charge of the production of munitions. This decision is due to the strong feeling in London financial and banking circles in favor of Mr. Lloyd George remaining chancellor.

A deep impression has been made by the financial ability he has displayed in dealing with the situation since the outbreak of the war. If he retains his present position, it is believed that Andrew Bonar Law will go to the War Office.

It is announced by the Times that Lord Lansdowne will become a member of the cabinet, probably taking some position which will require little exertion, as his health is far from good. The inclusion of the Conservative leader in the new combination, however, is expected to strengthen the cabinet with that party.

It is still regarded as certain that A. J. Balfour will become First Lord of the Admiralty, although he already has been giving assistance to Winston Spencer Churchill and there is fear in some quarters that his appointment might result in renewed friction with Admiral Fisher.

Another certainty is that Augustine Birrell will remain as chief secretary for Ireland, and it also is understood that Sir Edward Carson will enter the cabinet. One of the problems is what disposition is to be made of Mr. Churchill. The suggestion has been made in some Liberal quarters that he should be excluded from the new combination. It appears to be the present intention, however, to make him secretary of state for India.

THE FUNDS

The contributions for the 26th Battalion field kitchen fund now stand at \$218, not including the \$200 voted by the telephone company. Recent contributions are—Loyalist Chapter, I.O.D.E., \$20; Mrs. B. R. Macaulay, \$5; W. A. Jack, \$2. Belgian Fund Mayor Frink has received \$2 from M. Manke, Boston, for the Belgian relief fund.

THRILLING SCENES DEPICTED IN LETTER FROM WILLIAM WOOD OF ST. JOHN—THEY ARE SHELLED, AND SNIPERS TRY TO PICK THEM OFF

There may have been some in St. John and other places who have had the idea that the medical units were the safest bodies with which to enlist, but Germany has put that notion out of every person's head. Letters received in St. John every week from lads at the front have helped to do so, in fact it would seem that the Red Cross lads had really to expose themselves to greater risks than others.

A letter received this week by Mr. and Mrs. W. J. Wood, 209 Thorne avenue, from their son, Private William Wood, of the first Canadian Field Ambulance, in France, tells of exciting dangers and hazardous escapes from death in the work of rescuing the wounded and nursing their suffering. "Words," he writes, "fail to describe the terrors of the battle as we see it in progress. We were ordered out of bed at 11 p. m. on last Wednesday night and marched to a village some six miles away, where we slept the remainder of the night, moving next morning to the scene of action."

"We were laughing and chatting on the way up, and joking among ourselves, but our time changed when we saw what we had to go through. We made it across a canal and on our front for two miles was an open plain. On our left was a little rise in the ground, which the enemy occupied, and which our boys were to occupy. Well, we lined up shouldered our stretchers, and marched off. We had not marched thirty yards from our dressing station when the whistles of the bullets seemed to be on every side. We were not more than 400 yards from the enemy's trenches, and we had to press onward for three-quarters of a mile more, directly under the sweep of their machine guns."

"It was a case of 'duck and trust to luck' but it seemed little use to try either for it all appeared charged with lead. However, we worked most of the afternoon until the shrapnel and shell were too heavy for us and we had to quit until dusk. We had not then been working long until the shells were dropping around us. They even put a shell through our dressing station, killing two men, and suffocating others with their gas. Our eyes suffered fearfully from the vapors, and this made it difficult to see, but we made out somehow. As to matters where the snipers were at their dirty work, and many a time I heard the crack of a sniper's rifle, and the whist of his deadly bullet past my ear. We managed to work for the relief of the wounded pretty well, however, but I thought the stream of those who had been hit would never stop. Some of the sights were too awful to describe."

"We were fortunate in having no casualties among our men, but our captain was wounded, and it made us feel his, for he is not likely to be with us for some little time. We helped carry some St. John boys who had been wounded. From all along the line, our little unit received great praise for the work they had done. I tell you, it was a remarkable sight to see our chaps walking up under fire, or giving first aid with the bullets whistling about them. We won praise for coolness even from the highest officers. Can you wonder that I should be prouder than ever of her sons after this battle, but it was a fearful sacrifice that they won their position."

YACHTSMEN AND POWER BOAT OWNERS GET THE CRAFT INTO THE WATER

As a result of the activities of the members of the R. Y. C. and the St. John Power Boat Club it is expected by Monday almost all of the boats of the two fleets will be in the water. Already more than half of the craft of the two clubs have been taken from the winter quarters that have been stored during the week at the rate of from four to six boats a day for each organization.

There will be very few, if any, new craft bearing the standard of the respective yachting clubs this season. It is expected that the boats of the R. Y. C., and possibly on other days if the traffic warrants it.

ITALIANS IN PROVINCE

John Fredo, an Italian who has lived here for several years, called at the Times office this morning to explain that there are still some Italians in St. John; not many, perhaps, and most of them in Lancaster and Fairview.

According to Fredo there are at least 800 sons of sunny Italy in New Brunswick, nearly all young men, working for the C. P. R. and construction companies. From what he has heard from his fellow countrymen in his district, Fredo says that a great number of the Italians would be anxious to get back to Europe to fight if Italy enters the war.

SOUTH END LEAGUE TO START ON TUESDAY

Preparations are being completed for the opening of the South end baseball ground on next Tuesday evening. The grounds are in good shape. Commissioner Dotts will officially open the league, and arrangements are being made to have a band furnish a musical programme. Daniel Connolly, George McDermott and Robert Atchison will be the official umpires, and J. Grover Watts and Fred A. Watson will be the scorers. The four teams to comprise the league will be Victoria, Curveys, Fairwinds and the Atlantic Sugar Refinery.

PRIZE FOR BALL PLAYERS.

In order to increase interest in the F. & I. League and also as an incentive to make the players strive harder for a good batting average, Alexander Corbett, Union street, has put up for competition a shirt for the player having the highest batting average during the week of May 23.

A DISTINGUISHED WOMAN

Mrs. Hurlburt, president of the Women's Canadian Club of Montreal, and Dean of the Women's College, McGill, will in all likelihood visit St. John next month. If she does, there will be suitable notice taken of her presence in the city.

DELIBERATELY SHOT IN

"A second day continued as did the first. Then it came night again. Our squad was ordered to a different post and the word was passed to bring in a man from a certain location, where he had been lying wounded for some time. We did not know exactly where we were until we found ourselves in the first line of French trenches, directly in front of the Germans, and they were both at the like wild-cats. All went well until we were coming back with the wounded man on our shoulders, when a star shell burst and the enemy opened up. Immediately, in a gallant outburst of respect for the little Red Cross, they turned their machine guns upon us, so we had to get the wounded man into the trench and lie low for half an hour. They tried hard to get us, and it was not until we had made two attempts that we were successful in getting across. I never thought we would be able to make it. Two Frenchmen, who did not drop soon enough, were struck and had to lie there. The very air seemed to be screaming with shot and shell."

FINE SPIRIT SHOWN IN THIS SOLDIER'S LETTER

Sentiments of Wm. J. Brennan of St. John Should Be Inspiration

There is a firm tone of patriotism and serious sense of responsibility in a letter received by Mrs. Francis Murphy from her nephew, Private Wm. J. Brennan, son of the late Mr. and Mrs. James Brennan. After detailing his movements from England until getting to the trenches, he writes, under date of April 22, that he has been through a shower of German shells. He was writing only a quarter mile from where a big battle was raging after a rest in dug-outs, and he was going back to the trenches. On the day before writing, he had passed through a town out of which the Germans were chased on the night before. He was lying dead in the roads and fields.

He speaks of the general desire of the soldiers to get letters and papers, and this suggests a way in which cheer and comfort could be with little trouble, furnished to many of the men. He continues—"I wish you would go out to the grave-yard and see the graves of mother and father and say a prayer there for me that it may guide me safely through all dangers of war. I am here in Belgium to do my duty, and, if it is God's will to give up myself for the dear old flag my grandfather loved so well, goodbye all, and I pray God we shall soon meet again."

In the letter was the soldier's request for tobacco, one with which his aunt is hastening to comply.

CONTINUING BRIGHT CAREER

W. Wray Barracough, eldest son of Rev. W. H. Barracough of this city is to be congratulated on having passed the Toronto University examination of the third year in medicine, as well as securing his master's degree in arts. Two years ago Mr. Barracough obtained his B. A. degree, winning the George A. Cox gold medal in science. Since then he has held a fellowship in the department of physiology, and has been engaged in special research work.

MANAWAGONISH SCHOOL

The Manawagonish school was nicely decorated yesterday in celebration of Empire Day and a programme of recitations, readings, a dialogue, physical and fancy flag drill, the latter by twelve girls, was closely followed. The attendance was large and the drill especially appreciated, as well as the choruses, including "Never Let the Old Flag Fall," "For King and Country," "Boys of the King," etc. Miss Mary McLeod, the teacher, presided.

THE WAR

Chief interest in the war situation still centres around the entry of Italy into the conflict. War between the members of the former Triple Alliance is inevitable, but the formal declaration is being delayed from day to day, possibly to allow the completion of arrangements for the entry of other nations also whose preparations seem to point to an intention to take active sides with the allies.

If Roumania and Bulgaria follow Italy in declaring war, the situation of Austria will be serious indeed. The reorganized Serbian army is advancing for another attack and their mettle has been proven in earlier conflicts with the big German nation. With three more nations threatening the southern frontier it is not surprising that the German and Austrian forces are making a desperate attempt to drive back the Russians so far that their hands may be freed for the conflict with their new opponents.

The Russians have been driven back in the centre, but at tremendous cost, and in this game Russia can afford to pay the price of heavier losses much better than can her adversaries. With millions of men behind her lines, Russia can afford to give ground with every prospect of retaking it under better conditions. The despatches indicate that the advance of the Teutonic armies has been stopped and that the Russians are prepared once more to begin a fresh aggressive campaign.

On the western front the Allies have little to report, but what changes have occurred are in their favor. Successes in "local fights" and the capture of positions behind the enemy's lines are reported by the British commander-in-chief, and the French official communication also announces the capture of important German positions.

Reports from the Dardanelles show that the allies are making steady progress and that the capture of the straits and the downfall of Constantinople are now only matters of time.

Germany's submarine warfare has been unproductive of startling results recently, whether because they have been unsuccessful in their attempts or because the effect of the Lusitania outrage on public opinion has shown that such successes are too costly, remains to be seen.

THOUGHTS OF SUMMER

The budding trees, the green in the squares, the song of the robin, and the blue tinge in the sky suggest country pleasures, and lay hours in some nook along the river or elsewhere miles away from the dust of the city streets. Indeed it is not necessary to go far afield, since Rockwood Park affords a complete change of air and scene, within ten or fifteen minutes of the street car line.

There is health and entertainment for all who have eyes to see and ears to hear, in the open spaces, the winding paths and by the shores of lake and stream. The city habit grows too much upon us. For those who, because of business or other reasons cannot go out of town for the week end or for the holiday season in midsummer, Nature has much to offer near at hand, and it is well thus early to begin to cultivate the habit of shaking off the city dust for an hour or so as often as possible and seeking that healthful change which an intelligent man or woman always finds in those portions of the earth which are not hidden by houses and where the air is always pure.

There is a feeling that because of the war and the anxiety and grief it brings there will be less disposition this year than usual to seek out country pleasures, but is not Nature a consoler of those who can read her message? Especially do the children enjoy the freedom of the open road, and the pleasure should not be denied them. If it is but an afternoon in Rockwood Park, or by the shore, or in the fields, or on the river, the effect upon old and young is healthful and bracing and a welcome break in the monotony of toilsome days.

Your country needs you, Young Man, in the time of stress. Answer the call and join the 58th.

Today's despatches will emphasize the eagerness of the Italian people for war. There was a wonderful demonstration in Rome last night.

For those who would have their share in the greatest war the world has ever known there are plenty of opportunities. The 58th needs recruits.

Every story of the Canadian achievements in the field of battle adds to the pride of this country, and every such story should stir the blood of every man who can shoulder a rifle.

The opening of the extension of the street railway lines to Coldbrook marks an important stage in the development of this city. The growth of the population has made expansion necessary and every addition to the transportation facilities will be followed by building operations to accommodate the overflow from the congested districts. In this case the building operations have even run ahead of the opening of the line. The

amount of construction work noticeably along Robitney avenue is a tribute to the excellent financial condition of the citizens at a time when other cities have ceased building operations.

Kitchener may have undertaken more than should be expected of any one man, but he has the confidence and support of practically the entire empire. It is safe to predict that no change will be made which will deprive the empire of his services in whatever post his great talents can be most profitably employed.

MARRIED IN THE MAKING

Have you ever noticed that half the troubles of the young housewife are of her own seeking? She will take the nice little bit of cold roast beef or mutton, hash it, mince it, stew it, spend as much as two hours in turning it into a tough, colorless, over-salted or over-peppered dish. She is anxious all the time she is cooking it, most anxious of all, as the husband, upon whom she has wasted all her endeavors, tries to make light of the failure, and bites his tongue in an attempt to repress the wish that she had left the meat cold, and merely set it on a clean dish, with a sprig or two of parsley as a garnish, and a bottle of H. P. Sauce as a relish.

But young housewives are learning wisdom, hundreds and thousands of them. H. P. Sauce sells in bigger and bigger quantities every week. Cold meat is coming back to its honored place in the homely little family—and not only so, but the housewives have discovered that when the joint can no longer be served cold, H. P. takes all the responsibility of flavoring of the shoulders of the inexperienced cook.

H. P. is a rich, thick sauce, not hot, but piquant and fruitily flavored; it is made of the choicest tropical fruits and spices and pure malt vinegar. When you must hash, or mince, or stew, you see for yourself what a difference is wrought to the dish by the addition of a teaspoonful of this delicious sauce, but be sure it is H. P.

Three pairs of twins have been born in Quincy in five days. The first pair, girls, the stork left with Mr. and Mrs. Thomas Murphy, the second pair, boys, arrived in the home of Mr. and Mrs. Anthony Bongarony, and the third pair, girls, arrived in the home of Mr. and Mrs. Jacob Constantine.

"TIZ" FOR TIRED AND SORE FEET

"TIZ" for Puffed-up, Burning, Aching, Calloused Feet and Corns.

Why go limping around with aching, puffed-up feet—feet so tired, chafed, sore and swollen you can hardly get your shoes on or off? Why don't you get a 25-cent box of "TIZ" from the drug store now and gladden your tortured feet?

"TIZ" makes your feet glow with comfort; takes down swellings and draws the soreness and misery right out of feet that chafe, smart and burn. "TIZ" instantly stops pain in corns, calluses and blisters. "TIZ" is glorious for tired, aching, sore feet. No more shoe tightness—no more foot torture.

COLICKY CHILDREN

Colicky children can be promptly cured by Baby's Own Tablets because these Tablets act directly on the stomach and bowels and cleanse them of all impurities. Concerning them Mrs. Jas. C. Slater, Summerville, N. S., writes: "I have used Baby's Own Tablets and am glad to say I have found them an excellent medicine for colic and loss of sleep." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

STARVATION OR MERCILESS TORTURE

A choice between starvation or merciless torture is the dismal prospect before all victims of indigestion, for although they are in need of food to nourish the body, they are afraid to eat because of the long periods of pain and discomfort that follow even the lightest of meals.
The urgent need of all who suffer from indigestion is to gain strength so that the stomach can extract nourishment from the food taken. Pain after eating is the way the stomach signifies its protest that it is too weak to do nature's work. To take purgatives is only to aggravate the trouble. Dr. Williams' Pink Pills give new strength to weak stomachs because they enrich and purify the blood supply, thus enabling the stomach to digest food naturally. Almost from the first the appetite revives; then food can be taken without pain and the burden of indigestion disappears. The following case proves the truth of these statements. Mr. W. H. Silver, a well known farmer living in the vicinity of Hemford, N. S., says: "For upwards of seven years I was tortured with indigestion; sometimes I was so bad that I would not taste a bit of hearty food, but would have to content myself with a bit of stale bread. At times I suffered excruciating pains in my stomach, and could hardly sleep at night. I tried various prescriptions but got no benefit from them and naturally I was in a very reduced state of health. I had come to believe that I was doomed for the balance of my life to this most constant torture, when I read of a case similar to my own cured through the use of Dr. Williams' Pink Pills. This gave me new courage and I decided to try them. To make a long story short, the use of the Pills for a couple of months completely cured me. This is some two years ago, and I have had no return of the trouble, and am able to eat as hearty a meal as anyone."
You can get Dr. Williams' Pink Pills through your medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

No Need Being Old or Wrinkled Before 75

Lillian Russell says any woman who has wrinkles before she's 75 is herself to blame. She says that wrinkles and fresh air she considers more valuable as compensation for the loss of her youth and beauty.
The chief objection to cosmetics is that at best they only temporarily cover up defects. These certain true aids to Nature, which may be applied with direct opposite effect. Ordinary make-up is almost imperceptibly peeling off the worst of our skin, and with each application of any drugstore "face cream" or "facial" we are actually peeling off the skin. Sometimes the peeling, freckles, blotches, spots, pimples, discoloration, and redness, which are the result of the peeling, are so bad that a face bath, which also produces natural results, is required to soothe the skin. The use of a medical axolite in a half pint which has the most effective and gives no outward after-effect.

Moir's Chocolates
Moir's Chocolates have an individuality that is unmistakable. We select the cocoa beans—roast, husk and clean them—add the cocoa butter and cane sugar—and flavor with vanilla beans. The WHOLE is then put through a grinding process for hours, which refines every particle and renders our chocolate coating absolutely smooth, giving it that individual delicious flavor. The chocolate is then applied to the many varieties of centers—packed in attractive boxes and offered to you as the finest chocolates on the market.

PROCLAMATION

His Honor the Lieutenant-Governor respectfully requests that Sunday, the twenty-third day of May inst. be observed as "Patriotic Sunday" throughout the province, and that on that day the clergymen of the several churches and others in sermons and addresses impress upon their hearers the necessity of further assisting the motherland in the great struggle in which she is engaged for a better civilization by joining those who have already enlisted and are now so gallantly fighting the battles of the empire.

EATING IN BERLIN.

Humorist's Idea of the Wonderful Appetites of the Natives in Germany's Capital.

The average Berliner has a double chin running all the way around and four rolls of fat on the back of his neck, all closely clipped and shaved, so as to bring out their full beauty and symmetry, and he has a figure that makes him look as though an earthquake had shaken loose everything on the top floor and it had all fallen through into his dining-room.

Your true Berliner eats his regular daily meals, four in number and all large ones, and in between times he now and then gathers a bite. For instance, about ten o'clock in the morning he knocks off for an hour and has a few cups of hard boiled coffee and some sweet, sticky pastry with whipped cream on it.

Then about four o'clock in the afternoon he browses a bit, just to keep up his appetite for dinner. This, though, is but a snack—say a school of Bismarck herring and a kraut pie, some more coffee and more cake and one thing and another—merely a preliminary to the real food, which will be coming, along a little later on.

Between acts at the theatre he excuses himself and goes out and prepares his stomach for supper, which will follow at 11 o'clock, by drinking two or three steins of thick beer and nibbling on such small tidbits as a few links of German sausage or the upper half of a raw ham.

There are forty-seven distinct and separate varieties of German sausage, and three of them are edible, but the ham, in my judgment, is greatly over-rated.

In Germany, however, there is a pleasant agreeable smothered in young cabbage, which is delicious and in season plentiful. The only drawback to complete enjoyment of this dish is that the grating and various German restaurant keeper has the confounded nerve to charge you, in our money, forty cents

What Dyspeptics Should Eat

A PHYSICIAN'S ADVICE

"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starch, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that you should try a meal of any food or foods which you may like, in moderate amount, taking immediately afterwards a teaspoonful of bisulphated magnesia in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisulphated magnesia is doubtless the best food corrective and antacid known. It has no direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine. As a physician, I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of all the trouble. Get a little bisulphated magnesia from your druggist, eat what you want at your next meal take some of the bisulphated magnesia as directed above, and see if I'm not right."

A MESSAGE TO THIN, WEAK, SCRAWNY FOLKS

An Easy Way to Gain 10 to 30 Lbs. of Solid, Healthy, Permanent Flesh

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good, nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste.

What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. The best way to overcome this sinful waste of flesh building elements and to stop the leakage of fats is to use Sargol, the recently discovered regenerative force that is recommended so highly by physicians here and abroad. Take a little Sargol tablet with every meal and notice how quickly your cheeks fill out and rolls of firm, healthy flesh are deposited over your body, covering each bony angle and projecting point. Your druggist has Sargol, or can get it from his wholesaler, and will refund your money if you are not satisfied with the gain in weight it produces as stated on the guarantee in each package. It is inexpensive, easy to take and highly efficient.

Caution—While Sargol has produced remarkable results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken unless you are willing to gain ten pounds or more, for it is a wonderful flesh-builder.

BANISH BILE!

A bilious condition of the system is the result of inaction of the liver, often causing severe headache through the eyes and temples, culminating sometimes in nausea and vomiting, which is frequently followed by a bilious diarrhoea.

Abbey's Effervescent Salt, when taken as directed, stimulates the peptic glands of the stomach and increases the contraction of its muscles from above downward. This action is communicated to the intestines and increases the flow of the intestinal juices, thus stimulating the ducts of the liver to pour out the bile, when it can be carried downward by the laxative action of the Salt, instead of remaining to clog up the liver and flow back into the stomach.

Thus, if a person who is subject to Biliousness and Bilious Headache will use Abbey's Effervescent Salt, the natural action of the Stomach, liver and intestine will be kept up and no bile can accumulate in the system. Sold everywhere at 25c. and 60c. Sold by E. Clinton Brown.

English Actor German Victim On Lusitania

Ernest Lambert Who Played in America in "Red Rose"

EMMA DUNN IN VAUDEVILLE

She Was in St. John Some Years Ago; The Frohman Players Plans; General Gossip of The Stage

Among the lamentable victims of the Lusitania disaster was Ernest Lambert. He was on his way to London, where he was to appear in a forthcoming musical revue. Mr. Lambert was a comedian of original and refinement. His exceptional ability and personality made any part he assumed a fine piece of characterization. His first appearance in America was in the Weber and Fields production at the old music hall on lower Broadway. Subsequently he was engaged for a principal role in "Havans" at the Casino Theatre. In his production he achieved the greatest hit of his career, playing the part of a "silly as Englishman." It will be recalled that he sang in company with an octette of comedy girls, the two song hits of the play, "Hello, People" and "Cupid's Telephone." Later Mr. Lambert appeared in "The Red Rose" and "Gypsy Love" in the early part of this season. He was seen in a leading part with Lew Fields in "The High Cost of Loving."

Emma Dunn, who played in St. John some years ago presented John Slokes' "The Baby" at the Palace, New York, this week. When Mr. Slokes wrote "A Regular Business Man," he constructed an absurd and breezy farce. But his sketch, "The Baby," written for his wife, is an obvious attempt at pathos, according to dramatic exchanges. A penniless emigrant mother brings her little baby to a foundling asylum. She has not heard from her husband in weeks and is destitute. Finally she signs a paper giving up all rights to the child, and departs. A few moments later she hurries back with her husband. He has located a good position in Pittsburgh and has returned to get his wife and baby. But the hospital authorities refuse to give up the child. It is against the rules. The mother pleads that her husband's heart is touched. He takes a chance with his position and gives the mother her child. That's all there is to the story.

Robert Edeson is the latest leading player to receive a legacy. From an estate of \$100,000, he has inherited property valued at \$100,000. Part of the inheritance includes rich lands in Louisiana. Mr. Edeson lately left the cast of "Sinners" to appear in motion pictures.

Percy Burton, for the past eight years general manager for Forbes-Robertson, has formed a partnership with Granville Barker and Lillian McCarthy to present on tour next season "Androcles and the Lion" and "The Man Who Married a Dumb Wife," which featured Mr. Barker's repertory season at Wallack's. The new style of staging employed in these plays will be retained for the road season.

Without previous experience in New York, Olga Cook within a few days will become the prima donna of "Nobody Home," now at the Princess Theatre. She will succeed Alice Dovey, who is to assume a new role in a production of the Shuberta. Miss Cook is a daughter of Detective Sergeant Edward Cook, of New York police force. Not only will this be her first local appearance, but her first opportunity to play a leading role. She had a part in the Shuberta production of "At the Ball" in Chicago last winter. It is said she is only nineteen years old.

The Frohman Business. In order to enable business of the late Charles Frohman to continue without interruption, Daniel Frohman will, within a few days, make application to the surrogate to be appointed administrator of his brother's estate.

Mr. Frohman had more important stars under his management than any other producer. His contracts with them were verbal, however, and consequently were terminated with his death. The future of the business is largely dependent on whether these players will continue to be identified with the Frohman office. It is understood that most of the stars have signified their intention to enlist under the management of the successors of their late director. Plans for most of these players for next season had been made by Mr. Frohman prior to his sailing on the Lusitania. "The Girl from Utah" was to be continued next year, with Julia Sanderson, Donald Brian, and Joseph Catherine as the stars; William Gillette, Blanche Bates, and Marie Doro were to play another season in "Diplomacy." Otis

CHARLES CHAPLIN AT THE GEM FOR HOLIDAY

The holiday bill at the Gem Theatre on Monday and Tuesday will certainly give pleasure. It is headed by a welcome feature, Charles Chaplin, in a two reel comedy, "A Jacey Engagement," in which he has some lively adventures, creates hearty volumes of mirth and laughter, and in making off with his bride-to-be in a jilted bus, stops at nothing—even knocking women into San Francisco bay that his path may be clear. It is worth a spring tonic to see Chaplin in this funny film. Besides this there will be an interesting drama and the Pathe News weekly, showing late war scenes, views of the United States navy, topics of the day, the fashions and other matters. The mid-week show will include Francis X. Bushman in a three reel feature "The Great Silence," produced in conjunction with a short story competition in "The Ladies World," a story of mystery and adventure. "The Lane of the Counterfeiters" will be the 17th episode in "The Perils of Pauline," to be shown on Friday and Saturday of next week. Yesterday's show, which gave delight, will be repeated today.

Eczema for Two Years Cured by Zam-Buk

Mrs. A. Warwick, Cooksville, Ont., writes:—"For two years I was badly troubled with eczema on my leg. I used various salves and lotions, but could get no relief. The sores kept getting worse until finally I was obliged to give up my work. I was in despair when one day a friend advised me to try Zam-Buk. I did so, and I cannot tell you how pleased I was with the result. Zam-Buk quickly allayed the itching and smarting sensation, and finally healed the sores. My leg is now as well as ever."

Hundreds of others suffering from eczema have ended this disease by applying Zam-Buk, some even after suffering twenty-five years and spending hundreds of dollars on medical treatment. Zam-Buk is purely herbal. Unlike ordinary ointments it does not contain harsh minerals, poisonous coloring matter, or coarse animal fats which in a short time go rancid. As soon as Zam-Buk is applied to a wound or sore its herbal essences penetrate to the very root of the trouble, kill the disease, and relieve the pain. Use Zam-Buk for cuts, burns, bruises, eczema, piles, pimples, chronic sores, chapped hands, frost bites, and all skin diseases and injuries. Get all druggists and stores, or postpaid from Zam-Buk Co., Toronto, on receipt of price, 50c box, 2 boxes \$1.25. Send this article, name of paper, and 1c stamp (for return postage) for FREE TRIAL BOX.

Skinner and Ann Murdoch were to be continued next year in the revival of "A Celebrated Case." Ethel Barrymore was to appear in "The Shadow" in a tour of the large cities; and there were to be new plays for John Drew and Hattie Williams. No plans for Maude Adams have been divulged, but it is fully expected that she will elect to stay under the Frohman banner.

As Mr. Frohman died without a will, there has been considerable speculation as to the value of his estate. One evening newspaper printed a statement which claimed had been given to it on good authority, that Mr. Frohman's estate was worth at least \$850,000. At the Frohman offices it was said that no authority was known for such a statement. The Opera House has been "dark" all week. Beginning next week there will be a renewal of interest in the engagement of the Musical Revue, with new faces, new acts, and new novelties in dance, song, and vaudeville.

Viola Allen In 'The White Sister' On The Screen

Her Reasons For Going Into Filmdom

LOTTIE BRISCOE LEAVES LUBIN

Will John Bunny's Face and Smiles Still Prove Drawing Cards? New York Paper Raises The Question

Viola Allen, who after years of success on the stage in classical and modern roles, will appear for the first time in photoplays in the production of "The White Sister," accepted Essanay's offer after refusing many tempting propositions from other motion picture concerns. It was largely for sentimental reasons that Miss Allen has consented to enact the leading role in this last and best work of F. Marion Crawford, the noted author.

"While, of course, the financial consideration was very flattering," said Miss Allen, "yet none of the offers or inducements to appear in any other motion picture had been considered by me until this proposition by Essanay to produce 'The White Sister.'"

"The reason this particularly appealed to me was because of my warm admiration for the author and his family and the earnest wishes of the latter that I should appear in the film version of Mr. Crawford's last work, as I had done in dramatic form. I am quite looking forward to my experience in this new field."

The feeling of the Crawford family towards Miss Allen and the reason for their wishing her to appear in this photoplay is clearly shown by the inscription written by Elizabeth Marion Crawford, the widow of the author, in a special edition of "The White Sister," she sent to Miss Allen the first New Year after Mr. Crawford's death. The inscription reads:—"To the 'White Sister' with grateful appreciation for her understanding and interpretation of my husband's best work."

That an actress' ability should keep her from the screen for several months seems impossible, but that is the unusual experience of Essanay Woodruff, the Vitagraph star, whom picture fans have not seen since Bathse released "The Gods of Wrath," who she appeared opposite Henry Wallace. Miss Woodruff joined the Vitagraph about this time, and had been chosen to appear in short pictures would probably have appeared in several releases by this time. But J. Blackton, vice-president of the

Vitagraph Company, whose Miss Woodruff to appear in the leading roles in feature productions, and features in addition to taking several weeks to produce, are also booked for release several months in advance. While in Texas, Miss Woodruff appeared in three features, and one has been completed since her return to the Brooklyn studio; but none has yet been released on Broadway. Star Features are booked for the Vitagraph Theatre weeks in advance. Thus it is that the screen has been deprived of Miss Woodruff's charming ability for so long.

Lottie Briscoe closed her engagement with the Lubin Company last Saturday, bringing to an end what was probably the longest partnership in pictures, the Arthur Johnson-Lottie Briscoe combination. These two stars have worked together for the past three and a half years. Miss Briscoe has not yet announced her plans for the future.

It remains to be seen whether John Bunny on the screen will continue to please picture patrons, now that he is dead. Wherever the light of his countenance as it was brought out by the camera shall be seen, it will necessarily regret will follow that he who lived to please and amuse others is no more. This is the penalty of doing good. But it is the immutable law. The lesson of a life like that of John Bunny is this—that he did not play a part to the screen simply to make others laugh, but because it was his nature. The elements were so mixed in him that they would have made rifts in a stone wall if a camera had never been heard of. Most of us can be gracious when there is anything in it to tickle our vanity or make our purses bulge. Nobody knows with certainty whether, if John Bunny had been pained with the problem of the next meal, or like Richard III had been forced to ask "where to morrow?" he would have been able to be the stepping stone to others to sunny vistas. But his every day warrants one in believing that, if anybody could have made the wolf turn tail and vanquish, John Bunny was the man. And it was not for John Bunny that he did this, but for others.

"We Are Fighting For Our Lives" --LORD HALDANE

KITCHENER WANTS MORE MEN

The 55th N. B. and P. E. I. Regiment must be recruited to full strength within ten days.

Every fighting unit we can send to the front means one step nearer peace.

Who Will Enlist Today for Overseas Service?

The 55th N. B. and P. E. I. Regiment requires from six hundred to seven hundred men. We must have seventy men a day to make up the required number within the time limit.

This Regiment is commanded by Lieut. Col. J. R. Kirkpatrick of Debec Jct., N. B., with the following staff:—

Second in Command, Major H. S. Jones, Apohaqui, N. B.; Jr. Major, T. C. Donald, Chatham, N. B.; Chaplain, Capt. Rev. H. E. Thomas, St. John, N. B.; Paymaster, Capt. J. D. C. McNaughton, Miramichi, N. B.; Medical Officer, Capt. A. E. Gardiner, McAdam Jct., N. B.; Adjutant, Major S. S. Wetmore, Chifton, N. B.; Quartermaster, Lieut. Kirkpatrick, St. John, N. B.

Officers commanding double companies:— A. Co., Major J. J. Bull, Woodstock, N. B.—Capt. C. E. Williams. B. Co., Major Osborne—Capt. Woodbridge, Fredericton, N. B. C. Co., Major F. H. Recruiting officers will be found at all the principal points of New Brunswick. Men will on application be submitted to a preliminary medical examination and will be furnished at once with transportation to Sussex, where the 55th Regiment is now in camp. On reaching Sussex they will undergo the final medical examination and will if satisfactory be placed immediately upon the pay roll.

The conditions are as follows:—

THE VOLUNTEERS THE PERIOD OF ENLISTMENT is for the duration of the war and for six months after termination if required. THE RATE OF PAY is \$1.10 per day and found for seven days a week, equal to \$33 per month. IF DISABLED, the soldier will receive a pension at such rates as may be fixed by the Government. IF WOUNDED OR ILL, the soldier will be well cared for and sent back to his home at the proper time.

of precious ointment for another for whom the Saviour of men said that he act would be spoken of as a memorial for her wherever the Gospel should be preached. The death of no one on or off the stage has elicited so much gentle comment and regret as the death of John Bunny. The best of it is that in his case the good he did was not held back from him. He heard of it while he was here, and he knew it was sincere. The more he realized that he was a contributor to the pleasure of others, the more he did to merit it. If there ever was anyone who did not weary of well doing it was this man whose death came at the season when the harmonies of nature are in sweet accord.—New York Mirror.

MORNING NEWS OVER THE WIRES

Arthur Henderson, a leader of the British Labor party, has been selected as the new head of the local government board, succeeding Rt. Hon. H. L. Samuel.

In Toronto last night, before the Liberal Club Federation, Sir-Wilfrid Laurier delivered a notable address in which he denounced the policy of an election in the hour of the empire's peril. He cited the British example as one which should be followed, and referring to a mid-war election said: "I would not care to open the portals of office with such a bloody key."

CATARRH NEVER STOPS IN THE SAME PLACE REACHES THE LUNGS—DEVELOPS CONSUMPTION

To Stop a Cold Quickly and Prevent Catarrh, Use "Catarrhose"

Nothing more serious than the common cold. If it gains headway you can't stop it from running into Catarrh, deafness, or serious throat trouble. Catarrh spreads very fast. From nose to throat it goes in a day. Soon the Bronchial tubes are affected—and before you know it, unless very healthy the lungs are hit, and it's too late.

While you have the chance, drive Catarrh and Catarrh right out of the system. You can quickly do so by inhaling the rich vapor of Catarrhose.

Right to where the living germ of Catarrh is working will the healing fumes of Catarrhose go in ten seconds. No liquid medicine can penetrate to the deep recesses that Catarrhose bathes with its soothing vapor—that's just why it proves so wonderfully effective. The health-laden vapor of Catarrhose cures the worst of coughs and hoarseness. The stiffest parts of the bronchial tubes are reached. Bronchitis is cured—every cell in the head, throat and nose is treated by Catarrhose's wonderful fumes.

You can't beat Catarrhose for huskiness, weak throat, sore nostrils, catarrhal and bronchial trouble of any kind. Get the complete \$1.00 outfit. Smaller size 50c. Trial size 25c., at dealers everywhere.

A Nurse says: "I have been a trained nurse for some fifteen years, and like many nurses, drank strong coffee. About two years ago I had to call a halt. I missed my coffee until some one recommended Postum, which I have used ever since, recommending it to many of my patients."

A Teacher says: "I have been a coffee drinker ever since I can remember. I have been teaching school for sixteen years, and became more and more nervous. I could not sleep. After reading some of your literature I decided to try Postum. I have been using it about thirty days; my nerves have improved; I have no headache, sleep peacefully and am able to do my school work better."

A Doctor says: "I often find it necessary to prohibit the use of coffee for my patients, and have advised the use of Postum with good results to the nervous system and digestive apparatus."

THEIR FAMILIES

SOLDIERS MAY ASSIGN any portion of their regular pay to wives or others, and such sums will be paid regularly to the persons so designated.

WIVES OF VOLUNTEERS will receive twenty dollars per month separation allowance from the Canadian Government over and above the soldiers pay.

THE PATRIOTIC FUND will supplement this with an additional allowance as described hereafter.

SHOULD ANY OF THE SOLDIERS BE KILLED their wives and children will become wards of the Canadian Government, and generous provision will be made for them.

The National Patriotic Fund Committee has decided on a basis of distribution of funds among the wives and children, and other dependents of volunteers. It is estimated that a wife on her own account requires Thirty Dollars Per Month for her maintenance. The Canadian Government provides Twenty Dollars per month of this amount and the Patriotic Fund the remaining Ten Dollars, if required. Children between ten and fifteen years of age are allowed twenty-five cents per day; from five to ten years of age, fifteen cents per day; and under five years of age, ten cents per day. Thus a wife and three children of the ages of three, seven and twelve, may receive a total monthly allowance of Forty-five Dollars, of which Twenty Dollars is payable by the Canadian Government and Twenty-five Dollars by the Patriotic Fund. This is of course in addition to the Thirty-three Dollars per month paid to the soldier, and which may be assigned by him to his family.

Besides the above, provision is made for a compassionate allowance for temporary extraordinary need, such as accident, sickness, etc. In short, the whole purpose of the Patriotic Fund is on to supplement the Government allowance as to provide all reasonable comfort for the families of men on service. Such provision, in each individual case, is subject to the report of local committees, who shall consider all the circumstances of families affected, with respect to the earnings of members of such families, amounts received from former employer of the soldiers, and other sources of income.

Every reasonable provision is thus made for dependent relatives, and volunteers need have no anxiety regarding the welfare of those left behind.

MASSED CAVALRY FOR COAST DASH

Germans Had Bitter Disappointment to Face After Ypres Failure—Dismounted Men Now in Trenches

London, May 22.—A despatch to the Morning Post from the North of France says: "So confident were the Germans of breaking through at Ypres that they had massed 100,000 cavalry between Poospel and Kokers with which they hoped to dash through Stenstrate by the main road and go on to Dunkirk and possibly Calais. This force was fully equipped with quantities of machine-guns and heavily armed, galloping batteries. The projected dash explains the extraordinary effort that was made to consolidate the bridgehead at Stenstrate. All this plan has now been changed by the Allies' successes, and large detachments of dismounted troops have been brought into the firing line.

"I am informed that there was terrific fighting around the railway triangle east of Quinchy. Here, too, the Germans have been using every species of gas device. There is reason to believe that the water in the district has been poisoned—our doctors suspect with arsenic—and careful analyses are now being made to establish the point.

"As an illustration of the German methods, one may mention the case of a young subaltern, newly out, who, at the risk of his life, went to give a drink to a wounded German officer who was calling piteously for water. As he bent over him with his flask, the German seized a bayonet that was lying by his side and stabbed his benefactor through the heart. The gallant youngster of the allied forces was promptly killed. The wounded sounder endeavored to escape, but was promptly cut down by bullets by the outraged regiment that had witnessed the whole affair."

TEMPLE OF HONOR

The Grand Temple of Honor and Temperance held their forty-third annual session last night at Alexander Temple building. Encouraging reports were read of the work done during the past year, and the prospects for continued work in the future were good. The following were the officers elected: W. H. Smith, grand templar; A. H. Case, grand vice-templar; Frank McFarlane, grand treasurer; Arthur V. Cowan, grand recorder; Gary B. Black, grand chaplain; B. J. Burke, grand usher; Hazen C. Taylor, grand guardian. Dr. W. F. Roberts was elected on the spot as executive. The installation ceremony was performed by Deputy Supreme Templar S. E. Logan. It was reported that the financial standing of the Grand Temple was in a healthy state and the Temple of Honor established in 1914 was reported still doing great work among the juniors and adult branches.

Entries in the window box competition continue to pour in. It is hoped every house will have its window boxes. People have not yet taken hold of the vacant lots on many of our principal streets as a source of worry to our city fathers. Something should be done with the vacant lots. In Italy they would call one of those vacant lots a "farm."

RECENT DEATHS

The death of W. S. Brown, 73 High street, as a result of heart trouble, occurred last evening only a few hours after his wife, Mrs. Mary E. Brown, had passed away. Mr. Brown was seventy-five years of age and his wife seventy-three years, and both were prominent members of Brussels street Baptist church. There are two sons and two daughters, Mrs. H. S. Torrey, of Linden (Mass.), and Mrs. F. W. Daley, and Arthur W. and Aubrey S., of St. John.

William F. Brown, aged thirty-three years, a C. P. R. engineer, died suddenly yesterday at his parents' home, Lancaster, as a result of lung trouble which has affected him for two years. He is survived by his wife and little daughter, his parents, Mr. and Mrs. George Brown, and three brothers, George, Jr., Henry and Archie. Owing to the absence of his parents from the city the funeral arrangements were delayed.

The death of Mrs. Martha, widow of Samuel Thompson, aged ninety years, occurred yesterday at her home in Aylmer.

Charles T. Gillespie, formerly a well known insurance man of this city, died in Toronto on Thursday. He was forty-seven years of age and, for the last fifteen years, has made Toronto his headquarters. In his younger days Mr. Gillespie was noted among the amateur athletes of this city and held an international record for backward slanting. M. B. Edwards and Allan Farmer of this city are brothers-in-law.

The death of William McGregor, aged eighty-five years, occurred yesterday. He came to the province from Scotland

Downey's Second Trial

The second trial of Downey, the Albert county man, charged with inciting Mrs. Johnston to murder her husband, was held at the court house yesterday. After seven days' hearing the crown's case is not quite complete and the court adjourned yesterday until Wednesday, May 26.

Mrs. Albert W. Lockhart, who passed the winter at the Clifton House, has been visited by her brother, Mr. Gilchrist, at Ormoak.

Eczema Was Cured Twelve Years Ago

Dr. Chase's Ointment Proved to Be a Permanent Cure

The old idea of eczema being a disease of the blood has been pretty well exploded by the record of cures made by Dr. Chase's Ointment.

Some doctors still advise internal treatment, but the results are slow and uncertain, and too often a laudable failure. With Dr. Chase's Ointment it is different. You apply the ointment to the sore parts. It cleanses the sores and soon sets up the healing process. In a few days you can see with your own eyes the wonderful change that is taking place and are encouraged to keep up the treatment until the cure is complete and the sores replaced by smooth, natural skin.

It is wise to look after your general health, keep the bowels regular and the blood rich, but you can depend on Dr. Chase's Ointment to cure the eczema if you will do your part and apply it regularly.

Dr. W. H. Roberts, Charlottetown, P. E. I., writes: "I can recommend Dr. Chase's Ointment to anyone suffering from itching skin disease. I had eczema on my leg and suffered terribly from the itching. I had a doctor treat me for four months without relief, and I was getting worse all the time. A second doctor gave some relief for a time, but made no cure. I tried several advertised treatments, but without relief until I used Dr. Chase's Ointment. This ointment cured me in a month. That was twelve years ago, and I have never had a sign of the old trouble since."

"Since then we have always kept Dr. Chase's Ointment in the house and find it invaluable for chafing, chilblains, insect stings and burns. I would not be without it if it cost \$5 a box."

"This is to certify that I am personally acquainted with Mr. W. E. Roberts, and believe his statement regarding the use of Dr. Chase's Ointment to be true and correct."

REPLY TO A. R. MOSHER

St. John, N. B., May 20, 1915.

To the Editor of the Times:

Sir—In your issue of May 19 you publish another letter from A. R. Mosher, explaining or attempting to explain certain matters in connection with the recent threatened strike on the I. C. R. I again want to make it clear to Mr. Mosher and all whom it may concern that, as far as the St. John Trades and Labor Council is concerned the resolution passed endorsed the action of Mr. Gutelius, general manager of the I. C. R. in the stand he had taken in refusing to recognize Mr. Mosher's right to dictate conditions for the membership of the International Brotherhood of Maintenance Way, and that was the only question covered or discussed under the resolution.

As to Mr. Mosher's statement that the minority of maintenance way, are attempting to dictate to the majority, does Mr. Mosher infer that he has affiliated with his organization a majority of maintenance way men on the I. C. R., or does he include in this majority class freight handlers, engine wipers, ash pit men and coal handlers who form a large part of his organization? I am advised on very good authority that as far as maintenance of way men are concerned the majority are affiliated with the International Brotherhood of Maintenance of Way; in fact this was proven conclusively to Mr. Mosher at Ottawa at a recent date when he, in company with officials of that organization, met the minister of railways, if not to Mr. Mosher's satisfaction it was satisfactory to the minister. Personally I feel the undemocratic stand in this case was taken by Mr. Mosher, he evidently is adding to his other hobbies the hobby of industrial unionism. In Mr. Mosher's first letter of May 5 he refers to an overwhelming majority of organized workers being opposed to the stand which the trades councils are in his opinion supposed to have taken, leaving the impression that this majority was composed and made up from the membership of various organizations affiliated with the trades and labor councils as his grievance seems to be against these organizations. Yet he tells us in his letter of May 19 that this majority comes from the railroad organizations. I am in touch with men who have taken the matter over with members of railway organizations in this city and they take decided exception to Mr. Mosher's stand in this matter, even some men of Mr. Mosher's organization will require some explanation from him as to the stand he has taken. As to Mr. Mosher's stand in international organizations, I would suggest that he call to his own mind some of the statements he made to certain international organizations and officials of same, that he was attempting to get within the folds to build up a greater majority of maintenance of way men or any other men that Mr. Mosher would at the time be attempting to get agreements for.

As to the statement that I inferred that the workmen of the maritime provinces can be led by the nose, and, after reading and hearing Mr. Mosher, would naturally come to some conclusion of the sort. Further, as to his persuasive powers, believe me, Mr. Editor, he will need all the persuasive forces at his command during the remainder of his term as the head of the Canadian Brotherhood to explain his attitude in various events of recent occurrence to the membership of his organization; one of the statements that might be explained, a statement made by a certain paid official of Mr. Mosher's organization to the effect that the Brotherhood of Railroad Trainmen were begging for admission to his organization.

In conclusion, Mr. Editor, I would like to say to Mr. Mosher that I am not in as close touch with railway officials as Mr. Mosher is with a certain prominent Conservative politician whom he had with him at Ottawa to help him in his fight for recognition as supreme dictator of railway organizations in Canada. Thanking you Mr. Editor for space and assuring you that this ends this controversy as far as I am concerned, Mr. Mosher can have all the additional publicity you desire to give him. I am, Yours truly,

Shamrocks Swamped By Atlantas in Halifax

BANGORS ROMP AWAY FROM ST. JOHN NATIONALS

Visit of the Socials Here—The Shamrocks' Score in Detail in Game in Which They Defeated Woodstock—Horse Races

On Friday, August 18, 1887, the news of the utter defeat of the Shamrocks by the Atlantas of Halifax, was received with regret by local fans, not through the slightest feeling against the winning club, but because the St. John boys were popular and the local fans liked to see them emerge victorious. The giving out of Connolly's arm, which was hurt a few days previous in a game against Woodstock, contributed considerably to the defeat. John Callaghan was put in the box, but he was punished severely, while Manning, the twirler of the Atlantas, proved a perfect enigma to the Shamrocks. Only two base hits were made off his delivery. Lane and Hennessy did the best work for the Shamrocks and the two scores were brought in by Carty and Gorman. The score by innings follows:

Atlantas: 3 10 0 4 0 2 4 8 x—26
Shamrocks: 0 0 0 0 0 2 0 0—2

On August 24, 1887, the Nationals encountered their Waterloo on the Marsh road grounds. They were outclassed by Bangor and many errors made at critical stages, contributed materially to the heavy defeat they suffered. They repeated a mistake of abandoning the game in its early stages. Once headed in the first inning, they apparently gave it up as lost. Just when united action was needed came levity and an individual air of negligence. In the opposing battery they had as good as a whole team to fight. The Butler brothers for the Bangor nine made a strong battery and the general fielding and batting of the team was good. At the end of the ninth inning the score stood 14 to 0, in favor of the visitors.

A Game Each

On Monday, August 29, 1887, the Nationals defeated the Socials of Halifax on the local grounds by a score of 8 to 2. The game was well contested. In the three innings, the Nationals and in five innings the Socials were retired in one, two, three order. Features of the game were home run hits by Frank White and Kennedy, Robinson and Whitcomb formed the battery for the Nationals and Davidson and Grierson for the visitors.

The following day the Socials defeated the Nationals by a score of 7 to 5. Neither battery was quite so effective as on Monday, but both were well supported. The Nationals made 15 hits and their opponents 14. If the Socials had not bunched their hits, if they hadn't stolen bases, if the errors of the Nationals had not been so costly, the victory would have rested with the St. John team—but all these make up the game so popular in America. Features of the game were double plays by White, Milligan and Bell and deForest, Robinson and Milligan.

Horse Races

On Wednesday, August 31, 1887 considerable interest was manifested in the result of horse races held at the Eastern Maine State fair held in Bangor, on account of the entry of Yorktown, the St. John flyer, and Golden Maxim, also of this city. The first heat was won by Maxim after a great race with Yorktown and it was decided to replace him and let Collins handle him. This was objected to on the ground that he had consented to ride another horse. After a stormy discussion the judges decided that McDade would have to continue. The second heat was won by Strabismus, a Halifax horse. A poor start was said to have been the cause of the victory. Strabismus also captured the third and deciding heat.

The second day's races resulted in a victory for Yorktown, which captured the one and a half mile run. Golden Maxim won the first heat by a length, but Yorktown won the second and was awarded the third as the other two horses were withdrawn. Time 2:46, 2:44 1-2.

The following day Golden Maxim won

Is 83 Years Old And Her Heart Does Not Bother Her.

Thanks to MILBURN'S Heart and Nerve Pills.

Mrs. J. McLaren, Commanda, Ont., writes us under date of February 9th, 1914. "Sixteen years ago I took bad with my heart and nerves, and was not able to do anything. I tried a good many doctors, but they did me no good; in fact one doctor gave me up to die. I heard about Milburn's Heart and Nerve Pills, and I thought I would give them a trial, and after using a couple of boxes I saw that I was improving. I kept on using them for quite a long time. I am eighty-three years old and my heart does not bother me at all.

"I am raising a little girl who was never very strong, and the doctor said that she had palpitation of the heart, so I started to give them to her. She is now twelve years old, and they are doing her more good than I can possibly tell you. I would advise anyone who has a weak heart to try Milburn's Heart and Nerve Pills, as they have done wonders for us."

Price, 50 cents per box, 3 boxes for \$1.25, for sale at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

The running race in two straight heats, defeating Yorktown and May Queen. The last named was a Moncton flyer. The Time was 1:49 in each heat.

An Old Time Score.

The following article appeared in a Woodstock paper on September 10, 1887.

"The Shamrocks, of St. John, will be here for a game with the locals on Tuesday. They are, we should judge, the best nine in New Brunswick; their closest competitor being the Nationals also of St. John, but as the former have won three games from the latter in '84, and the games for the seasons of '85 and '86 being one for each club and a disputed one in each year, we think the Shamrocks have got the best of it. As we do not think that the two clubs will come together again this season, therefore we have to judge each from its past record with the other. The Shamrocks

have this season defeated the Woodstocks, who in turn defeated the Nationals, therefore the match next Tuesday should be interesting."

The result of the game mentioned was in favor of the Shamrocks who won by a score of 24 to 15. Heavy hitting was the cause of the large scores made. The box score of the St. John team follows:

Shamrocks.	A	R	H	P	O	A
Lane, 1b.	7	2	5	7	0	
Connolly, p.	7	2	3	0	4

"MADE IN CANADA"
Ford Runabout
Price \$540

Your neighbor drives a Ford—why don't you? We are selling more Fords in Canada this year than ever before—because Canadians demand the best in motor car service at the lowest possible cost. The "Made in Canada" Ford is a necessity—not a luxury.

Buyers of Ford cars will share in our profits if we sell 30,000 cars between August 1, 1914, and August 1, 1915. Touring Car \$590; Town Car \$840; F. O. B. Ford, Ontario, with all equipment, including electric headlights. Cars on display and sale at

At home in any company—and anywhere you drive

It's as handsome a car as you ever saw—this Studebaker Light SIX. Long, low and massive, yet graceful in line with a satiny lustre and a rare elegance of fittings that make it thoroughly at home in any company—on any of the "show drives" where cars are judged by looks.

And yet with all its beauty, this SIX is essentially a car that's built for SERVICE. For with its balance and alignment of chassis, it hugs the roads and drives at the slightest touch of two fingers on the wheel, and its silent and powerful, long-stroke motor gives it over-abundance of power.

But even more important, Studebaker engineers in simplifying its design have made it stronger and sturdier, yet LIGHTER. And light weight, as, of course, you know, means LIGHT cost of maintenance—less gasoline and longer life for your tires.

But see this SIX—today if you can. It's a "Canada-built" car. And for the man who wants a high-grade SIX with LOW upkeep, it's ideal. A little spin will show you how needless it is to pay more than \$1750 for all that a SIX can give. So see your local Dealer now. He'll gladly make any tests you wish.

.22 Cartridges for Target Shooting

It was Lord Roberts who said: "Teach every schoolboy to shoot." Sound logic that. Not only will it equip our coming men for emergencies, but it is a pleasant and beneficial pastime for men, women and boys—develops steady nerves, keen sight and healthy bodies.

Dominion Ammunition

Entirely made in Canada for every kind of shooting—target, trap, wild fowl, small game, big game.

Makes possible the greatest shooting satisfaction. This is due to its positive operation in every make of rifle and is the result of the extreme care exercised in every detail of manufacture. Insist on having Dominion .22 Cartridges—they mean more "bull's-eyes."

SPORT NEWS OF A DAY, HOME AND ABROAD

BASEBALL Exhibition Game Monday

On the East End League diamond Monday afternoon two picked teams will play an exhibition game. Several players from each of the four teams have been chosen and the nature of ball should be good. The game will start at 2:30 p.m. and will go nine innings.

National League

In Boston—Chicago 9, Boston 2. Batteries—Lavender and Archer; Rudolph and Gowdy, Whaling.

American League

In Detroit—Philadelphia 11, Detroit 8. In St. Louis—New York 4, St. Louis 2.

In Chicago—Boston 2, Chicago 8—seventeen innings.

Federal League

In St. Louis—Newark 4, St. Louis 2. In Kansas City—Buffalo 5, Kansas 2. In Chicago—Brooklyn 2, Chicago 2.

In Pittsburgh—Baltimore 2, Pittsburgh 1.

International League

In Montreal—Richmond 3, Montreal 1. Daily Was Game.

In a great seventeen inning game yesterday in Chicago between the Boston Sox and the Boston Red Sox, Tom Daly, formerly of this city, won the game by a beautiful single to left field in the last inning, with the bases filled. Daly was called up as a pinch hitter and certainly justified the selection.

No Penitent Without Errors

President James E. Gaffney of the Boston Braves is very much perturbed over the manner in which his club is going these days. His expressed opinion is that unless Captain Evers returns to the game within a reasonably short time the Braves' pennant hopes will go glimmering.

Failed To Purchase Baker

Chicago, May 20—Efforts of Charles A. Donahy, of the Chicago Americans to induce Connie Mack to alter his mind regarding selling "Home Run" Baker have proved futile, according to a story printed here.

Mack is said to have repeated his statement that Baker would not be allowed to play with any team but the Athletics.

Besides a big cash price, the Chicago team is said to have been willing to give a pitcher for the third sacker.

St. John Boy to Box

Cecil Garnett, a well known East St. John boy, will leave today for Weymouth, N. S., where he is to engage in a boxing bout on Monday with Charlie Ritchie of Boston. Garnett is a middle weight and in past performances showed that he possessed both science and pluck. His friends expect him to give a good account of himself against the Bostonian.

Backs Nelson With \$20,000

Cincinnati, Ohio, May 21—Probably the last survivor of the Johnson-Willard prize fight crowd at Havana last month is battling Nelson. He left Havana a few days ago. Bat's old manager, Jack Robinson, is still in Havana and is preparing to arrange several twenty-round prize fights this summer. Nelson was anxious to meet Freddie Welsh in Cuba, but changed his mind when he received the trial offers from the states. During his stay in Havana the ex-champion won three battles as follows: Defeated Jimmy Freyer in 25 rounds; knocked out Dale Gardner in two rounds, and knocked out Stewart Donnelly in three rounds. Captain C. A. Rice of Havana, a wealthy American, offers to back Nelson against Welsh for \$20,000 in a finish fight.

RIFLE Was Shooting Prize

Fredrick Gleason, John Powers of St. John was the winner of the first prize at the Arctic Rink shooting gallery last evening, making a score of 184 points out of a possible 190. Carroll was second, with a score of 128.

THE SUNSET LEAGUES

In the East End League last evening the Nationals won a keenly contested game from the Commercial, 8 to 4. The losers played well in three of the four innings and are rapidly rounding into shape. They have excellent material and when they become more accustomed to the grounds and begin to play better together they will make trouble for the rest of the teams. Garnett, centre fielder for the Commercial, played exceptionally well, making a fine running catch and batting for 1,000 per cent. Myers, their second baseman, was always where he was most needed and his work was a feature. Donnelly and Gorman, third base and short stop respectively, are beginning to round into shape and their playing was good. On the whole the team is beginning to play better ball and should put up some good fast games before the season is much older. The batteries were Doyle and Sproul for the winners, and Summer, Sterling and McDonald for the losers. Fairville League.

The second game in the Fairville League was played last evening between the Portlands and Roses. An excellent brand of ball was presented and after four innings the score stood 4-5. The Portlands proved themselves a strong aggregation and were in the game from the start. Arthur McGuire made the lit of the evening, scoring a home run in the third inning as the result of a magnificent wallop into the bushes beyond centre field. It was certainly a nice crack.

Manager O'Toole fit to be congratulated on the Roses, who played snappy ball and, judging from the first appearance, are likely to make a stir in the league. Jean Gillis, the youthful catcher, is surely a comer, too. His throw to second in the first inning was all that could be desired and the fans also noticed that he brought in the first score for his team.

This game no doubt will add even more stimulus from this out, for the teams seem more evenly matched than ever before.

An exhibition game is to be played on Monday morning at ten o'clock.

The following was the line-up of last night's game.

Portlands—Frank McMurray (captain)

Pure Blood is Absolutely Necessary To Health

"FRUIT-A-LIVES" PURIFIES

These Wonderful Tablets, Made of Fruit Juices, Are The Best Of All Tonics To Purify And Enrich The Blood.

Pure, rich blood can flow only in a clean body. Now, a clean body is one in which the waste matter is regularly and naturally eliminated from the system. The blood cannot be pure when the skin action is weak, when the stomach does not digest the food properly, when the bowels do not move regularly, when the kidneys are strained or overworked.

Pure blood is the result of perfect health and harmony of stomach, liver, bowels, kidneys and skin.

"Fruit-a-lives" by their wonderful action on all these organs, keeps the whole system as clean as Nature intended our bodies to be clean.

"Fruit-a-lives" tones up, invigorates, strengthens, purifies, cleans and gives pure, rich, clean blood that is, in truth, the stream of life.

Question of the hour: "Goin' fishin'?"

Better take your umbrella along.

The newspaperman comes into his own. First half holiday today.

Patriotic Sunday.

Patriotic men tomorrow will have a struggle between their duty to their church, and their call of country. Some may postpone that fishing trip till Monday.

Although the clean-up days selected don't come up till the middle of next week, there's no reason why you can't get busy before that time.

Or Maybe "She Hates!"

Boston Globe asks: "What has become of the old-fashioned girl who 'simply could do waiting'?" Perhaps she has.

Now that "Mother's Day" is over for another year, can't someone start an agitation in favor of a special day for fathers?

Probably the reason it has not been done before is that they seem to think that every day is father's.

After having had that for dinner yesterday, couldn't you ply the poor fish if it ever developed rheumatism in all those bones?

Or suppose that had had to cackle for each of those little eggs!

April had rain in abundance, but June hides away that this is a better month for showers.

Those people going out of town for the week-end should give thanks to the calendar makers for placing the 24th on Monday.

The office boy wants to know why parliament cannot pass a law making the 24th come on Monday every year.

These rainy week-ends seem to have become a habit.

Italy's address, recently seen to be "The Verge."

On "The Brink."

But her moving is coming.

Quite Enough.

His mother was there, so was his father. Also his best girl occupied a seat on the divan and glanced coyly at his shrewd figure as he arose to sing. The parlor was quite well filled, and silence reigned as the accompanist began to "tune up" the old family organ which stood in the corner, while he cleared his throat in eager anticipation. "It is enough" was the piece he had selected. The organ started, the introductory waltzes were played, he was part way through—"It is enough" his baritone beamed out, when suddenly the mechanism in the organ balked. It stopped with a squeak and a mournful rattle. In the opinion of the gathering, friends though they were, "It Was Too Damn Much."

Perhaps Joe Page Can Answer This One

When the Turks were driven farther back this week, the query of the sport fan was as how they would do on their "home grounds."

A few may jump to Asia Minor.

But 'dye notice the allies working the "squeeze play" on the passes?

But Clean-Up Day Should Help

Residents living near Victoria Square are of the opinion that the German gas bombs are made of similar stuff to what's been dumped on this patriotically-named center, smelling of a combination of decayed vegetables, over-ripe fruits, fish whose obsequies long since ended, and various other unsavory substances.

Won't be long now until we have to listen to the rival boasts of the suburbanites about whose sweet-peas are coming along the most rapidly.

And soon the annual migration of dogs to the country will commence, just so soon as the owners realize that the police are going to see that the license fee is paid.

Despite good resolutions the common council seems to have poor luck with those much talked of noon committee meetings.

Trinity chimes are on the job again! Welcome back.

Why Is A Water Fount?

On second consideration Indian town merchants who had schemed to plant pansies in the water trough (where the water used to be) in the fountain in Bridge street, will postpone the idea for a week, in the hope that by that time someone may have turned on the tap.

But it's rather hard on the poor horses. When they're being driven past they invariably step towards the fount in fond remembrance of bygone days.

And those who were instrumental in having the bars close at 8 p. m. should lend a hand in having the little sanitary drinking spout again in action.

Twenty-Six ON THIS HONOR ROLL

A Touching Incident at Fairville and Union Point Schools' Empire Day Exercises

A touching and most fitting tribute to the memory of the boys now serving with the colors occurred yesterday in the Empire Day exercises of the Fairville and Union Point schools when Edna Shaw, one of the scholars, after reciting "If I were a flower on a soldier's grave," placed a wreath over the honor roll of former scholars now enlisted. Private Rudolph F. McKel, recently killed while on active duty in France, heads the list. General Hens followed with "If I were a flag on a soldier's grave" and placed a small silk flag through the wreath.

After the exercises the wreath was put on the McKel family lot in the Church of the Good Shepherd cemetery where Edna's father and mother are buried.

The following is the honor roll from the schools:

Rudolph F. McKel (killed); Stanley Nelson, William Stears, Lowell Lawson, Joseph Gibb, Andrew Campbell, Kenneth Linton, Henry Magee, George Cushing, Charles Tippetts (wounded); Charles Humphrey, Barrie Stears, Roland Lawson, Harold Hanson, George Miles, Frank Linton, Cyril Hanson, Charles Compton, Roy Cougle, Robert Keenan, Dennis Hanlon, Bruce McKinnon, John O'Keefe, Leo Harrington, Leo Quigg, Clare Whalen.

REVIVAL OF INTEREST IN UNIFORM RANK K. P.

Maritime Domain as Well as in United States — May Be New North End Company

A revival of interest in the Uniform Rank, Knights of Pythias, is being welcomed by the members of this body in the maritime domain as in the domains throughout the United States, very largely owing to the fact that the full dress uniform is taking the place of the fatigue adopted about ten years ago, which was never popular with the Sir Knights of the order as a whole. Fittings for the new uniforms which have been seen here have been greatly admired.

The Supreme Lodge, K. of P., has sanctioned the new full dress with the exception of having no further change in the future. In order to make the change permanent, they have had all the equipment for the uniform patented so that it cannot be copied and used in common, the same as the fatigue. The facings and linings of the new full dress are of blue, one of the cardinal colors of the order.

While the object of the uniform rank in the past has been to train for military purposes and it is said that in the Cuban war some of the leaders who distinguished themselves, received their first drill in the Uniform Rank, K. of P. It is also the able to have the supreme body place the rank in and have it bear about the same position that the Knights Templar do to the Masonic Fraternity that is one rank higher up. Already Past Supreme Chancellor Ritchie is busily engaged compiling a new ritual for the purpose. Those joining the rank now are accepted in the same standing as charter members until such time as the new ritual becomes effective.

There is at present some talk of a new temple in connection with St. John's Lodge, No. 30, North End, which is flourishing, as well as a similar movement in Amherst, while interest in the doings of the order show an encouraging revival, and to stimulate this feeling to a still greater extent it is proposed to have Colonel Palmer of Moncton soon visit St. John to give addresses.

MAY MAKE ANALYSIS OF ST. JOHN WATER FREQUENTLY

Commissioner Wigmore Finds That it Can be Done at Very Little Expense

St. John has been so accustomed to pure water that the danger that sometimes lurks in a city's water supply has been overlooked. Few cities are so fortunate as St. John in having practically an inexhaustible supply so fully protected from contagion and in other places the precautions which the cities and towns find advisable. In most places daily and in other places weekly analysis of the water is made to make sure that its purity is unaffected and that no foreign matter which might be injurious to the health of the users has entered the water.

On the theory that it is better to be sure than sorry, the commissioner believes that a regular analysis of the St. John water would be a good investment, especially as the investment is so extremely small compared with the possible benefits.

In cities of moderate size he found laboratory plants for this purpose which had cost only a few hundred dollars, and which proved thoroughly satisfactory. One of their good features was that an expert is not needed to make the tests. In the case of this city the cost of the plant probably would not exceed \$500; it could be installed in the waterworks office in Leinster street and one of the present employes could make the tests without allowing it to interfere with his other work.

Mr. Wigmore has asked for reports on such systems and their cost and his action will depend on the nature of the detailed information which he receives.
