Must Evacuate Warsaw In Few Days, Say Experts

Bridges Left Intact Along Bug River During Polish Retreat

Postponement of Armistice Conference Creates Anxious Situation—Belief Is That Bolsheviks Want to Dictate Terms from Warsaw—News of the Fighting.

London, Aug. 4.—Postponement of armistice negotiations between Poland and Soviet Russia is viewed here as creating a difficult and anxious situation which is likely to involve the abandonment of the proposed conference here by representatives of the Allies.

London newspapers take widely divergent views regarding the Bolshevik attitude in demanding negotiations for peace. Some declare the action of the Soviet government is perfectly justifiable and reasonable, while others indignantly denounce it as evidence of a determination to allow the Bolsheviks to reach Warsaw and there dictate terms equivalent to a complete surrender of the Poles and the consequent formation of a Soviet form of government.

The British government has issued no statement on the situation, nor has it indicated in any way how it will act. It is stated the cabinet held an urgent meeting yesterday, and that Premier Lloyd George has further delayed his already postponed vacation.

The Polish experts report that the Warsaw Tuesday night, and that the Poles may deliver a blow which may alter the present military position. It is reported that the Polish and British military experts at Warsaw telegraphed here last night stating that Warsaw must be evacuated within two or three days.

CANADA HAS WHIP HAND IN PAPER SUPPLY

American Manufacturers Get 75 Per Cent of Pulp From Dominion—Americans Deeply Concerned.

(By Canadian Press.) New York, Aug. 4.—Warning that it is within the power of Canada to force the United States to return, so far as the printed word is concerned, almost to the dark ages, is sounded by the writer of an article on the paper situation in the United States, which is printed in the Wall Street Journal.

"When Sir Auckland Geddes, Great Britain's Ambassador to the United States, spoke to the representatives of southern newspapers at Asheville, N. C., a few days ago," the writer says, "he had in mind among other things the newspaper paper situation. He did not refer in words to a condition which has become alarming, but he did speak of the importance of maintaining friendly relations between England, Canada and the United States, should there come some irration, some breach in these relations, Canada might be tempted to place an embargo upon the export of the United States paper and of wood pulp. Should this happen, it would not be long before the United States would return, so far as the printed word is concerned, almost to the dark ages."

"Sir Auckland stated that the manufacturers of newspaper paper in the United States are now dependent for 75 per cent of their pulp from Canada. A few years ago we were producing so much wood pulp in this country that less than 20 per cent of the pulp manufactured into paper in the United States came from Canada. Rapid has been the increase in the imports of Canadian pulp. The estimate now is that not more than forty years and perhaps as few as thirty years will have passed when the announcement will be made that no longer has the United States any wood pulp timber so that we shall be dependent upon Canada for 100 per cent of the pulp used in the manufacture of paper."

Leaving Alaska out of consideration our own pulp timber, large in the aggregate as it is, will unless there be reforestation, have been absolutely exhausted by 1960 and perhaps as soon as 1950."

After detailing the available pulpwood resources in the United States and discussing the possibility of developing a paper industry in Alaska, the article concludes:

"The paper manufacturers of the United States who are deeply concerned over the situation are persuaded that there should be no restriction as will tend to relieve the situation. This legislation if secured, will not only open up the government timber lands, of course under governmental supervision, but will also provide for reforestation. The best authorities say that for every pulp producing tree cut down there should be immediately planted under governmental supervision another spruce or hemlock tree, for it is upon reforestation that the safety and permanence of the supply of pulp for our newspaper paper depends. If the pulp timber now available is utilized and if reforestation takes place then by the time the present supply is exhausted the new trees will be ready for the pulp mills."

### POLICE COURT

A busy session of the police court was held this morning when several postponed cases were taken up, besides the night arrests. John P. Ryan was charged with assaulting his wife, Mrs. Sarah Ryan, his wife, said she and her husband have been married sixteen years and they have six children. She said that on Monday night he struck her in the face and inflicted a bruise over her right eye. This happened, she said, in their home at 178 Brussels street. He was under the influence of liquor, she said. Last Friday she said she followed him to a beer shop at the corner of Hanover and Brussels streets and on entering the store saw the proprietor pouring out some liquid in a glass which he immediately emptied out when he saw her coming into the shop. He rinsed the glass out before she could ascertain the contents. The case was postponed and the accused remanded to jail.

As a result of this case Frank H. Doran was brought into the court charged with having liquor in his beer saloon. He pleaded not guilty. John P. Ryan was put on the stand and told of making three visits to the accused's beer shop on Friday but he said he did not get any liquor there. In explaining the incident where the liquor was emptied out of the glass that his wife mentioned in her evidence of the assault, he said the beer was sent to the sink. Mrs. Ryan said her husband went home on Monday night and told his little girl that her mother had taken a glass of liquor out of his hands. The case was postponed and the accused put up a deposit of \$50 for his appearance.

A case against Margaret Thomas, charged with keeping a disorderly house, and her daughter, Mrs. Mary Dobson, and John Lane, both charged with being inmates of the house, was resumed. Policeman Dykeman, who assisted in making the arrests, told of being approached by the landlord and told that the accused were making trouble in his house. He said he went down to the residence and heard noise and on going inside found the three accused drunk. Lane's shirt was torn and his eyes were down and Mrs. Dobson was bruised and bleeding, apparently the result of a struggle. Mrs. Dobson denied that she was under the influence of liquor. The case was further postponed and the accused remanded.

A case against Chester Myles, charged with stealing a ride on the train from Moncton to St. John, also was resumed. Myles was charged with stealing a passenger on the train, was postponed until bill can be arranged. The magistrate told that there was sufficient evidence to send the accused up for trial. K. J. MacRae and E. S. Ritchie acted for the defence.

A case was resumed this morning in which Elijah Yell was charged with having a loaded revolver in his possession and also, while wearing a mask, pointing the revolver at Mrs. Yell and demanding that he "hold up his hands." The case was postponed until a doctor could examine the accused regarding his mental condition.

BREAK REPAIRED. A break in the fifteen-inch water main in Dorchester street was repaired last night, the work being completed without any inconvenience to the residents in that district.

NOT THIS MAN. James Levine, of 610 Main street, has asked the Times to state that it was not he who figured in the police court on Monday.

BY-LAW CASES. In the police court this morning Thomas McCreery was charged with soliciting passengers inside the railing at the Union depot. He pleaded guilty and a fine of \$2 was imposed.

F. C. Robinson was reported by Policeman Lindsay for driving on the wrong side of Mill street on July 28. He said he was not driving his car at the time, but his son probably had the car out. The case was postponed until this afternoon.

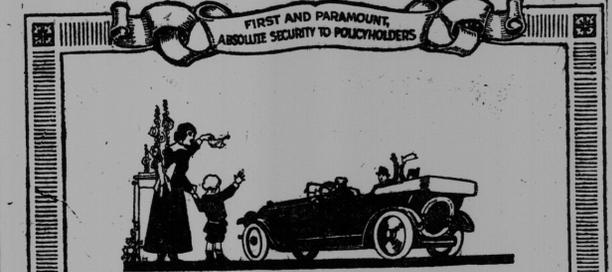

MRS M. L. SHAW DEAD. The death of Mrs. Margery L. Shaw, widow of Rev. John L. Shaw, a Baptist clergyman, occurred this morning at the home of her daughter, Mrs. S. Herbert Mayes in West St. John. She leaves one daughter, Mrs. Herbert Mayes, one step-daughter, Mrs. D. Stokle of Harland, Carleton county; two sisters, Mrs. James B. McLean of Mount Pleasant avenue city, and Mrs. Samuel Watson of Ontario, and one brother, William, of Minnesota.

Mrs. Shaw had been living with her daughter since the death of her husband, which occurred ten years ago. The funeral will take place on Friday at 2:30 o'clock.

CASES AT RENFORTH. Magistrate Wilson Dalton held court at Renforth last evening. Charles Key, owner of car No. 8761, reported by Provincial Constable Crawford for speeding in Renforth, was dismissed. The defendant showed that both he and his car were in Jerusalem, Queens county, on the day in question.

George Mackie, owner of car No. 2988, reported by Constable Crawford for speeding in Renforth, produced fire insurances which proved that he was driving his car within both radius rods out of commission and one spring broken and it would be impossible for him to be traveling at the rate of twenty miles an hour. The case was also dismissed.

George M. Flood was reported by Constable Crawford for speeding near Renforth, and Elmer Murray, who was operating the car at the time appeared, pleaded guilty, and was fined \$5 and costs.

**"MY wife's people are well able to look after her and the children," you say.**

Supposing that through misfortune some of your relatives were thrown on your hands for support—would you like it?

Is it fair then—is it manly—to place your wife and little ones face to face with the possibility of at any time becoming a burden to their friends?

They would prefer modest independence as a result of your forethought, to bounteous charity from relatives. An Imperial Monthly Income Policy will provide for their every need.

The town is still laughing about the Dumbells show and now comes another big, clean wholesome laugh-boost that will give us another month of jolly remembrance. When St. John people go vacationing into the big centres this is just the kind of entertainment that is needed. It is something lively, funny, and up to the minute in songs and dancing. The Imperial has the best recommendations from Halifax, Bangor, and elsewhere, about "The Katzenjammer Kids" show and is presenting it for its patrons as a truly meritorious attraction.

### REX BEACH'S GREAT STORY AT IMPERIAL

"The Silver Horde," in Tremendously Powerful Motion Pictures Tonight and Tomorrow.

The series of famous printed stories in news which the Imperial is treating in booklets and picture fans to these days is being continued tonight and Thursday in Rex Beach's stilted yarn of Alaska entitled "The Silver Horde." Tens of thousands have already read this wonderful yarn in these parts, so to tell about it might be a needless procedure. Suffice it to say that the yarn is done by Goldwyn in all that Rex Beach intended the book to be—and then some.

### BELIEVE THEY HAVE A BRIGHT MAN

Philadelphia Aug. 4.—The identity of the man arrested at Egg Harbor, N. J., in connection with the kidnapping of thirteen months old Blakey Coughlin from the home of his parents in Norristown, Pa., on June 2, was expected to be made known today.

Admitting the arrest was made, and expressing the opinion that they had the right man, federal agents working on the case, so far have furnished but little information regarding the latter.

### CAPTAIN HONORED

The Robert Reford Company, general agents for the Cunard line of steamships, have received a wireless message from on board the Cunard liner Aquitania dated Monday conveying the information that on that day the passengers did honor to the captain, Sir J. T. W. Charles, K. B. E., C. B., R. N. R., it being the first opportunity the Americans among them had had to recognize his great services during the war, and also as commander of the greatest Atlantic liner for so many years. The passengers subscribed \$200 to endow a bed in his name in the Seaman's Orphanage. The presentation was made by Judge Jesse Holden of Chicago on behalf of the passengers. The Aquitania made a number of voyages to the Dardanelles and carrying to and from there some 80,000 troops. After the United States entered the war in 1917 she carried 47,867 troops. Her commander was recently knighted.

### Returned Soldier's Novel Scheme to Re-Establish

Hal. White, Optometrist, who is establishing a business under the name of White's Optical Parlors, on Union street, is seeking the support of the citizens in a "drawing" which is decidedly out of the ordinary. Instead of a grass plot or a piece of furniture or the usual run of prizes, he is offering "Three Years Optical Service" as the prize. According to the ticket, which sells for \$1, the service includes one pair of spectacles or eye glasses per year, with a change of lenses as often as the state of the eyes warrant it. Another novel feature is that any ticket not bearing the lucky number will be accepted as a \$1 deposit for future optical service or on account of repairs, thus it cannot be regarded as a lottery, the ticket being redeemable in kind at any time after the draw.

Mr. White claims that the Department of Soldiers' civil re-establishment refuses to assist him to establish beyond providing the usual loan covering some of his equipment. Owing to the delay in locating and getting his equipment, which was mainly due to backward factory production, he was unable to finish the preparation of his papers and meet other incidental expenses, but having expended so much effort he is determined to establish and hopes, by strict attention to his work, to receive a share of the public's patronage.

Mr. White, who recently completed a post graduate course in Optometry at the Canadian Ophthalmic College, Toronto, was in the army nearly five years. He saw service with the C. A. M. C. in England, France and the Dardanelles.

### ECONOMICAL VIEWPOINT OF DELICATESSEN

When, instead of spending a dollar, you only spend half of that, isn't that saving?

When you buy two items where only one is needed—well, that's waste, isn't it?

So, instead of making up a whole pot of stew the wise, intelligent, economical thing to do is buy it, all ready to eat, in just exactly the quantity required.

Pint or quart should be enough instead of a gallon.

And, oh, the goodness of College Inn Beef Stew! Expertly home-produced from old-fashioned recipe, superbly but delicately seasoned, and made in the anticipation of true delight.

### SHOOT'S YOUNG WIFE THEN KILLS HIMSELF

Jealous Husband Sends Bullet Into Her Back as He Kisses Her Good-Bye—Then Tries to Restore Her.

West Nyack, N. Y., Aug. 4.—Harry Scott, a New York business man, called his young wife downstairs in their home here, told her he had forgotten his commutation ticket and asked her to wait while he ran up and got it from a bureau drawer, that he might kiss her good-bye.

A moment later Scott ran downstairs, drew the unusually pretty twenty-six-year-old wife close to him with an encircling left arm, pressed his lips to hers, put his right arm about her neck and shot her through the back. She fell unconscious and probably will die.

Scott, applying such crude surgical means as he knew, working over her for three hours, interrupting his ministrations now and then to bathe and dress and feed their nine-month-old twin boys. Then, as he heard Mr. and Mrs. H. S. Cornell, his wife's parents, returning from New York, he ran from the back door into the woods and killed himself with the same pistol. State troopers found his body in the woods a quarter of a mile from the home this afternoon.

In a jealous because of his wife's beauty was the only motive her mother and father could offer to investigating officials. They said Scott loved his wife deeply and treated her perfectly, but that he could not bear even the faintest hint of admiration for her from any other man. They told that not long ago the couple were in a Manhattan department store. The wife was buying ribbon, and Scott, waiting near, heard a passing man remark to another:

"There is an unusually beautiful woman."

Their son-in-law was so enraged, they said, he started a fight with the two men and caused such a disturbance his wife threatened never to appear in public with him again unless he would promise to get sensibly.

Sergeant Francis McGarvey of the state police, District-Attorney Morton E. Lebow and Sheriff Al Merritt could find no more tangible motive for Scott's acts, but are continuing their investigation. They have little hope of learning anything material unless Mrs. Scott recovers. Tonight she still is unconscious and under the constant care in her home of Dr. S. W. S. Toms of Nyack.

Scott had started for New York, where, according to Mr. Cornell, he was employed as assistant manager by Kregg & Co., paper dealers, with Mr. and Mrs. Cornell, who were going on a shopping tour. He left them at the station, saying he had forgotten his commutation ticket. They are convinced that he really went back to kill his wife and that he called her downstairs that he might get his pistol from the bureau drawer unseen and thus encounter no resistance. Had he really gone back for the ticket, they say, he would have called to his wife to bring it down to him, instead of calling her down and then going up for it himself while she waited below.

The Cornell's heard the back door slam as they returned in the evening. Upstairs they found the twins in bed and the wife, unconscious, in another. Scott had taken some gauze from a medicine chest and applied it to the wound, which extended around the ribs, the bullet coming out in front.

After Dr. Toms arrived Mrs. Scott revived long enough to tell her story. She said she thought she heard a shot in the woods just as her mother and father came home, as she was conscious then for a moment.

Search was started at once, but in the darkness Scott's body lay hidden among the trees, and it was not until the attempt to find him was renewed today that it was discovered.

Directories do not show any Kregg & Co. or any firm of similar name in or about New York.

### TELEGRAPH-TIMES MEN WINNERS, 8-7

In a close game on the East End grounds last evening the Telegraph-Times aggregation of ball players defeated the Furness-Withy team, the score at the end of the first half of the eighth inning, when the game was called owing to the fog being 8-7. Both teams played snappy ball and the winner was in doubt until the last inning.

The Furness-Withy team started out well, getting one run in the first inning and two more in the second while the Telegraph-Times were blanked in both innings. In the third inning the newspaper men started and before their opponents could retire the third man five scribes had crossed the plate. Neither team scored again until the seventh inning when the Furness-Withy team scored one and the Telegraph-Times three times.

The feature of the game was a home run by McCachern, a liner to deep right field, with two men on bases. McCachern, the second baseman of the steamship team, felled his position in excellent shape and pulled off a nice double play, unassisted.

Both Johnston and Thomson pitched good ball, the former having seven strikeouts and the latter four. The line-up was as follows:

Furness-Withy—Cuthbertson, catcher;

Thomson, pitcher; Hansen, first base; McCormack, second base; Doherty, third base; Harrington, shortstop; Nicols, right field; Norris, centre field; Cassidy, left field.

Telegraph-Times—Lowe, second base; Johnston, pitcher; Fraser, shortstop; McCachern, first base; Gionelli, catcher; Watts, right field; McLeod, centre field; Maxwell, left field; Thompson, third base.

The score by innings:

Telegraph-Times . . . 1 2 0 0 0 1 3—7  
Furness-Withy . . . 0 0 0 0 0 3 1—5  
Umpire, Robert Sprout. Scorer, S. Green.

Both teams are grateful to the East End Improvement League for the use of the grounds.

**No Divorce for Deception.**  
Paris, Aug. 4.—A Paris tribunal has refused a petition for divorce to a woman because she married a bogus marquis. Mme. Ehler was wed to M. Armand Maximilien de Bethune, who styled himself a marquis. The real title holder objected. Mme. Ehler sued for divorce but lost.

**Profiteer's Appeal Costly.**  
Paris, Aug. 4.—A hotel proprietor who appealed against being sent to prison for two months and fined \$20 for quadrupling the charges for his rooms had both his fine and term of imprisonment doubled. A sentence of fifteen days and \$60 fine on another profiteer were increased on appeal to two months and \$200.

**Ban Dancing Under 16.**  
Brussels, Belgium, Aug. 4.—The Burgomaster of Molenbeek-Saint-Jean, a suburb, has decided that, in addition to the recent ban on children under sixteen visiting the "movies," they must not be allowed to enter any dancing hall.

**Immodest Dress at Altar.**  
Cardiff, Wales, Aug. 4.—"I hope that the lady members of this parish will not attempt to attire themselves in some of the present-day fashions," said Father Parlin of St. Paul's Catholic church. If a woman immodestly dressed approached the altar for Holy Communion he said, he would refuse to allow her to partake of the sacrament.

**Recipe for Scotch.**  
New York, Aug. 4.—Lord Dewart, who is a guest of Sir Thomas Lipton, declares that the rich and racy flavor of real Scotch whiskey can be produced by burning peat under the barley, usually used in this historic beverage. The latest quotation of the White Label is \$2.02 with the tax. But that is in England.

**No Flying Near ex-Kaiser.**  
The Hague, Aug. 4.—Strict instructions forbidding all aircraft, except military machines, from flying near Doorn and vicinity, in which the ex-Kaiser's residence is situated.

**COLGATE'S TALC POWDER**

"Light as Colgate's Talc"—passed through a silken mesh

IMAGINE a spider's web which only the shining dew makes clear—then imagine a silkworm's thread as fine.

Imagine a mesh formed by thousands of such gossamer-like threads contained within a single square inch. Conceive this weave to be so fine, so fine that only dust of flower-bloom, or powder as microscopic, could sift through it.

Through so incredibly minute a filter Colgate's Talc is passed. By what other means could come its delicate, breath-like quality—its airiness lighter than thistle-down, lighter than gossamer?

To the tender, sun-sensitive or wind-whipped skin what can be more gratefully cooling, what be gentler or more fragrant than Colgate's Talc?

What talc, while adding its charm to the complexion, merges with it as does Colgate's Talc?

So fine, so very fine it is.  
And perfumed to your liking.

### 80 PER CENT. OF REVENUE PAID TO EMPLOYEES

C. N. R. President Speaks on Proposed Increase in Rates - Further Boost in British Rates.

Winnipeg, Aug. 4.—J. B. Hanna, president of the Canadian National Railway, sought to justify the applications for increases in freight and passenger tariffs yesterday by stating that eighty per cent of every dollar earned by the Canadian National Railway is absorbed by wages and at the present time it costs the company more than a dollar to earn a dollar.

In speaking of the application for the three per cent increase in freight rates at present before the board of railway commissioners, Mr. Hanna said that the wage award which will likely be made to Canadian employees next Friday that an increase in passenger fares on British railways of 75 per cent of the pre-war rates would come into effect on Aug. 6. As, however, an addition of 38 per cent has already been in force since early in the year, this only means an increase of about 17 per cent on the present rates.

### WILL SUE RUSSELL FOR LARGE AMOUNT

Attorney General Raney Makes Statement Regarding Investigation of Ontario Timber Cutting.

Toronto, Aug. 4.—Suit to recover a sum of money from Walter H. Russell of Port Arthur, Ont., who is charged with having cut timber in New Ontario on lands to which he had no right, will be begun shortly, according to an announcement made yesterday by Attorney-General Raney.

The amount which the government proposes to sue for was not stated by attorney-general.

"It will be for a large amount," he is quoted as saying, "but I cannot tell now approximately how much."

Hon. Mr. Raney stated that action would be taken also to cancel the patents granted by the Ontario government to Mr. Russell.

The government's action is being taken as a result of the recent interim report made by Justice W. R. Riddell and Frank Letchford as commissioners investigating timber limits irregularities.

### WANT CANADIAN LUMBER

Auckland, N. Z., Aug. 4.—(By Canadian Press)—Strong petitions have been sent to the New Zealand government urging the placing of an embargo on the exportation of lumber and the lifting of the duty against Canadian lumber until such time as the serious shortage in building materials may be overcome. There is a marked shortage in building materials in general, especially in lumber. These conditions have led the government to consider particularly the provision of buildings that may be constructed in the Dominion during the next few months at least. It is announced that places of amusement, and in the cases of shops, offices, factories and other structures connected with industry, as well as churches and memorial halls, the government will be guided by the reason set forth in each case by the parties applying for the permit. It is hoped in the meantime that the more urgent demands within a reasonable time.

The government and local bodies are considering particularly the provision of sufficient homes for the people of New Zealand and suitable accommodations for schooling the children.

### STEEL CONDITION IN JAPAN

Tokyo, July 30.—(Associated Press Correspondence)—Amalgamation of all the steel works in Japan, in order to tide over the present trade conditions, is reported under consideration by the Japanese government. The authorities of which are said to be investigating the possibilities of a nation-wide merger.

The iron market continues weak owing to the slump in quotations and a decrease in demand, although the amount of iron imported from the United States aggregates nearly 2,000 tons a month in accordance with the contracts signed last year.

In these circumstances, pessimistic views are being now entertained by some of the iron dealers, and a number of possibilities have been obliged to close. The output for the first half of the current year, therefore, is expected to be a decrease of nearly 30 per cent, with even worse prospects for the latter half of the year.

### TO PROTECT VETS FROM LAND SHARKS

Winnipeg, Aug. 4.—Charging that the returned men had been duped in land transactions by people who are supposed to be patriotically sympathetic, and announcing that W. J. Black, chairman of the soldier settlement board, had come to organize the Winnipeg office to make the organization so perfect that it would be impossible for land sharks to exploit the veterans of the great war, B. Eaton Patterson, director of land and housing, declared that the board was determined to take action under the criminal code and enforce the statute to the limit against those it could find engaged in the practices he condemned.

### The Midas Touch

Not long since, one could hardly give away Canadian pulp and paper securities. Paper? Money in pulp and paper? Who could believe it?

Very few people—very few—but their names are writ in Canada's industrial history, and wealth has come to them because of their faith and vision.

It has been our privilege to earn the confidence of many thousands of investors who have trodden the upward path to prosperity as a result of their early investments in these securities.

But so far they, and we, have only gone along the path. The broad highway is still before us.

If you would travel it and share in its potentialities and profits—write us and we will advise you when, and in what, securities to invest. Address:

## RURAL CREDIT SCHEME TO BE INVESTIGATED

Commission Appointed by Government to Look Into Credit Societies in Manitoba — Fifty-Five in Operation — Are Said to Be Doing Good Work.

Winnipeg, Man., July 31.—(By Canadian Press)—Manitoba's rural credit scheme, now in its fourth year of operation, is to be investigated by a government commission from Ontario. The visiting commission will find that Manitoba today has fifty-five local rural credit societies in full operation, having started out with one society in 1917, which had grown to ten in 1918 and thirty-eight in 1919. Seventy societies are chartered at this time, but fifteen have not commenced operations. The Ontario men will learn that about \$3-

\$300,000 has been advanced in the four years to Manitoba farmers as loans to increase production and that the societies have yet to record their first bad debt.

Manitoba's rural credit legislation was prepared by G. W. Froust, at that time member of the legislature for Kildonan and St. Andrews, and until a few months ago administrator of the act. Mr. Froust considers that the plan has seen a great success that it has enabled the Manitoba farmer to go ahead with necessary improvements to his farm and to develop his investment along business-like lines. Money is loaned for breaking land, for putting in and taking off crops, for purchasing live stock and

equipment, for improvements and buildings, or wages. Loans this year for breaking land will amount to about \$250,000, and Mr. Froust points out that the continuation of this development will have the effect of adding rapidly and efficiently to the area of crop land in the province and of increasing agricultural wealth. All loans are for short terms, not more than one year, but are subject to renewal in certain cases. The borrower pays seven per cent. The maximum loan to one individual at one time is \$5,000.

Up to a few months ago the loans were made by the banks on recommendation of the local rural credit societies. The provincial government today is behind the work financially and if a society finds any difficulty in financing its loans locally the government itself pays the money direct to the borrower. To raise the funds for this extension of its services the government is operating offices where it accepts funds for deposit and operates in other ways as a banking institution. The government pays four per cent on deposits, and gives to depositors checking privileges. One office is open now in north Winnipeg, and a downtown office is being prepared. Other offices will be opened in Brandon, Portage la Prairie, Selkirk, and other points, and it is the belief of those interested in the work that these savings offices eventually will receive more than sufficient funds to carry on the farm loan work.

There is a central office in Winnipeg in general control of the rural credit work, and it has the rarely-exercised

right of veto over the operations of the local societies, but the whole intention of the plan is to centre authority in the local boards. The result is, that an application for a loan is passed upon by the applicant's own neighbors, who know his habits and his circumstances and his needs, and the danger of loss is reduced to a minimum.

The good intentions of the borrower become security for the repayment of the money advanced. If the money is borrowed for putting in a crop, for instance, the crop itself becomes security for the loan. The borrower is a business man, and is subject to business laws, and like any business man, if he sells out he is obliged to settle with his creditors or become subject to prosecution for fraud.

Each local society has a membership of a least fifty, and only members of the society may borrow. Each member pays \$10 on his share of stock. The local municipality and the provincial government between them in equal shares take up stock to an amount equal to the subscriptions of the farmer-members of the society. This fund, which amounts to a minimum of \$1,000, is invested in approved securities and becomes a fund to guarantee to the government repayment

of loans authorized by the society. It is interesting to note that in no case has the guaranty fund been called upon to make good a loan.

Each society is governed by a board of nine. Three directors are appointed by the members, three by the local municipality and three by the government, one of the latter being experienced in the administration of the act and a member at the same time of several local boards in the district. This board passes upon all applications and sends a record of its transactions to the central Winnipeg office. A clear majority of the whole board must approve of each loan. For the first three years of its existence, while the banks were advancing money on all loans, the farmer whose application was approved turned in his note to the local bank and got the money, the local society being behind his note as security to the bank. At the present time, if the society is unable to secure the money locally, the applicant sends his note to the central office and receives a check from the provincial treasurer's office by return mail. "Banking by mail" it is called, and red tape is eliminated rigidly. The great bulk of new money going into the farmers' hands now is advanced by the government.

While the borrower pays seven per cent for his money the bank or government or individual loaning the money receives only six per cent. The remaining one per cent goes back to the local society as a fund out of which its local operating expenses are paid. It was on this point that the banks and the government disagreed some months ago. The banks requested that the interest rate allowed them be increased to six and one half per cent, and the government refused to pay this rate and launched its own banking scheme.

Those who have been associated closely with the rural credit scheme are convinced that Manitoba has a system which provides the farmer with all the credit facilities enjoyed by the city business man; and they will enjoy demonstrating its system of operation to the Ontario commission.

## An Analysis of the "Road Speed" of a MAXWELL is a tribute to its special steels

Men driving larger cars have often wondered at the "road speed" of a Maxwell.

True, in an open, straight stretch they have run away from a Maxwell.

But in any "piece of going" (and we have many such roads in Canada) in which hills, turns, curves or rough roads enter into the general average, they do not outrun a Maxwell.

The reason for this is the special steels in a Maxwell. They are made to Maxwell's own formulae, and make possible construction combining great strength with light weight.

The lightness of the weight enables a Maxwell to take a turn

with more ease and less slowing up, come down a hill under better control, ascend a hill as well, and make more time over a rough piece of roadway.

The strength of its steels enables a Maxwell to stand equally as well, or better, side strains, road unevenness, etc.

In other words, a Maxwell makes speed when a larger car cannot, and thus evens up to a high average its "road speed" without breaking the speed laws.

This ability in a Maxwell is one of many that is winning new friendships daily. Nearly 400,000 of them to date; in another year 500,000.

A TREAT FOR MUSIC LOVERS

Famous Tenor Entertains Large Audiences at Opera House — Good Burlesque Skit, Clever Violin Playing and Thrilling Slack Wire Performances.

Music lovers were given a great treat in the Opera House last evening when Stanislaus Berini and Louise Tozier appeared in a classic singing offering.

The greatest tenors in the world and he evidenced an ability to be placed among the foremost artists for a wonderful beautiful rich voice with a wonderful range and is without doubt a master singer and pianist and is in the line of making the act so popular.

Another musical treat is rendered by Mildred Parker, who plays a number of catchy airs on a violin. She is a good caty and imparts vivacity and feeling to her songs, which is fully appreciated.

The Three Raymonds were also well received in a sensational slack wire and "iron jawed" performance. One lady member performs on the wire, while her partners do astounding feats of strength with their neck and jaws. They were accorded appreciative applause.

Robb and Hollis created considerable merriment in a burlesque novelty entitled "A shirt and a skirt." Both gave titled "A shirt and a skirt." Both gave clever impersonations and their efforts were rewarded by hearty laughter and applause.

Boshey and Richmond entertained with some comic songs and chatter and received a share of the plaudits. In addition to the vaudeville programme "President Jack's" featured Jack Dempsey.

\$300,000 FIRE AT GLACE BAY

Glance Bay, N. S., Aug. 4.—A \$300,000 fire occurred at Glance Bay tonight, when the huge department store of McArt and Brothers, Inc., was razed to the ground.

The cause of the fire is unknown but it is thought that the conflagration resulted from defective wiring. This is the largest fire that Glance Bay ever had, and the loss will be tremendously felt. The store is burnt to a mere pile. The loss is partially covered by insurance.

TO IMPROVE ITS GROUNDS. The ladies of the East End Improvement League fair must last night in Thorne Lodge hall and elected the following ladies to head the committee:—Mrs. James McCarthy, Mrs. Rufus Henderson, Mrs. Conboy and Mrs. Joseph Byrne.

The fair will be held the week of August 29 and will be in the open on the East End grounds over Marsh Bridge. The proceeds will be devoted to improving the grounds which are necessary if the grounds are to be in the van in improvement league grounds in the city.

THE MEN AND WOMEN OF THE EAST END Improvement League are giving up much time to advancing the cause of athletics and at the present time the East End baseball field is the best of its kind in the city as a playing field alone. The accommodations for spectators are limited and a grand stand is needed.

 window frames and sashes in city hall.  
 It is the first time in years that they

 new light in the entrance.

**VACCINATION.**  
 It was announced at the office of the  
 Board of Health today that the vac-  
 cination of the school children will com-  
 mence about the middle of this month.

 necessary arrangements.

**SOUTH END PLAYGROUND.**  
 The motor-truck and teams will be on  
 the south end playground this evening,  
 and it is hoped there will be plenty of  
 workers. Excellent progress has been  
 made in grading the hundred yards  
 dash and if the weather is good it will  
 keep up with those of the east end,  
 they will rush this work to completion.

**TWO NEW MEMBERS.**  
 The regular quarterly meeting of the  
 Royal Kennelclub's "Mach" Club was

 been spending the last ten weeks. She  
 will be in the city until Monday, Aug.

 she is to enter the Western Hospital as a

 in the city.

**PLAYING WATER POLO.**  
 One of the largest crowds of the season  
 visited the public swimming scow at  
 St. Mark's Cove yesterday and today to  
 dip in the river. As a result of the  
 additional facilities provided by Com-  
 missioner Bullock, the swimming scow  
 ferries department more patrons can be  
 accommodated. The instructor, Mark  
 Burns, is making a great impression in his  
 work and in addition to teaching the art  
 of swimming and life saving he has in-  
 troduced a new sport, water polo, which  
 is making quite a hit with the men and  
 boys.

**A BIG LOSS.**  
 On Monday evening last a swimmer  
 at the public bath in the downtown, went  
 into the dressing room of the instructor  
 to prepare for a swim. He left his  
 clothes there while he went for a dip in  
 the briny. The instructor, Mark Burns,  
 left his room for a few minutes to go  
 down to the scow to see the swimming  
 scow, which was being moved from  
 Carleton, come in. On his return he  
 was greeted by the swimmer who told  
 him that between fifty and sixty dol-  
 lars were missing from the pockets of  
 his clothes which the swimmer had left  
 there. A thorough search failed to re-  
 veal the whereabouts of the money and  
 the swimmer is mourning his loss.

**BASEBALL.**

 North End League wish to challenge the  
 Wolves to a series of nine games to  
 decide the championship, claiming  
 that they are as much entitled to the  
 cup as the Wolves.  
 St. Peter's baseball nine and the Alerts  
 will meet tomorrow night on the East  
 End diamond in an exhibition game.  
 These teams have not met for some time  
 and an interesting game is anticipated.  
 The Franklins of the South End  
 League wish to challenge any baseball  
 team in the city. Any nine desiring to  
 accept the challenge should communi-  
 cate with the captain, whose phone  
 number is Main 4049-11.  
 The Young Vets defeated the Young  
 Red Sox in a game of ball played on  
 the Albion street diamond last night by  
 a score of 5 to 2. The batteries for the  
 winners were Stewart and Graham, and  
 for the losers, Cooper and McAndrews.

 Sergt. Major (W. O.) Silas C. Wright,  
 who has been employed at headquarters  
 military district No. 7 since his return

 ter part of this week to take a special  
 course of telegraphy, after which he will

 Canadian National Railways. Sergeant-  
 Major Wright proceeded overseas with  
 the 20th Battalion, having enlisted four  
 months after the outbreak of war and

 in France and Belgium for nearly a year,

 dian general headquarters, London, Eng.,  
 where he remained until returned to  
 Canada and appointed to the district  
 headquarters staff in this city. Sergeant-

 every success in their new home. While  
 in the city Sergeant-Major Wright was  
 a member of Centenary Methodist choir.
