IN HANDS OF THE BOLSHEVIKI?

Capture of Eight American and Two British Officers Reported

Report of Collapse of Kolchak Accepted as Fact and All Siberia Ready for Red Control—French Demand Liberation of Kolchak.

KOLCHAK OF RUSSIA.

London, Jan. 30.—Eight American and two British officers are believed to have fallen into the hands of the Bolsheviks, according to the Daily Mail's correspondent at Harbin, whose statement does not give details and is not precise. It apparently indicates that the capture of the officers occurred to the west of Irkutsk, but no date is given.

The message to the Daily Mail, which is dated Saturday, reports that 15,000 Czechs are spread over 400 miles along the railroad west of Irkutsk. They still hold 20,000,000 pounds of sterling of the Kolchak government's gold, which the Bolsheviks have sworn never to let pass east of Lake Baikal.

The despatch adds that General Semenov's force has been reduced by desertion to about 2,000, that the fact of Admiral Kolchak's collapse may be taken as a fact and that virtually the whole of the population of Siberia is ready to accept Bolshevism.

Paris, Jan. 30.—The report that Admiral Kolchak has been surrendered to the revolutionary socialist government at Irkutsk is credited in French official circles, but details are not known. The Allied high commission in Siberia has been instructed by the French government to demand a report from Gen. Janin, the Czech commander, and that he takes measures for the liberation of Kolchak.

Stockholm, Jan. 30.—(Havas)—The Allied military mission here has protested strongly to the Estonian government concerning the arrest of General Yudenich.

London, Jan. 30.—A Moscow wireless message reports that an order has been issued for the disbanding of the north-west Russian army. A Kharkov message says that the First Astrakhan Cosack regiment has surrendered completely to the Bolsheviks.

There is no intent, according to this information, of evacuating Moscow, where the reported outbreak of plague is denied, as well as the rumored revolt of the Reds.

London, Jan. 30.—Difficulties of supply have probably stopped the advance of Bolshevik troops along the Trans-Siberian railroad west and Irkutsk, according to advices to the war office. All resistance to the Soviet army seems to have disappeared. Bolshevik detachments are reported to have reached the Chinese frontier southeast of Blisk.

Armored trains under the command of Gen. Semenov bombarded Irkutsk on December 30, at which time the city was in possession of insurgents. Then Semenov's troops captured the railway station but were later thrown back. The Allied missions were assured of their safety by the ultimate arrival of a Japanese battalion which occupied the station.

Virtually all of Kolchak's troops joined the insurgents and when the Allied representatives left Irkutsk on January 5, it was evident that the government's cause was lost.

In South Russia the Bolsheviks have resumed their advance against General Denikin. On the western half of the front the main effort of the Soviet troops appears to be directed southward against Crimea and southwestward against the Kherson-Nikolaiev-Odessa area.

In the latter area the Reds have pushed forward, down the railway toward Nikolaiev, after occupying Elizabethgrad, but still are about fifty miles from Nikolaiev.

On the eastern half of the front, the threatening Red advance along the western shores of the Caspian Sea has been checked and thrown back. In the centre, Gen. Denikin's unit have fallen back, but in the Don region the anti-Bolsheviks are maintaining their position. It is said the fighting spirit of Gen. Denikin's men has revived.

In western Russia, the Lettish advance along a ninety mile front has attained a maximum penetration of about sixty-five miles.

Warsaw, Jan. 30.—The Polish troops continue to pursue the Bolsheviks according to a staff communication received here. They have reached a line along Lake Blyssyne and the Sarjanski river.

Another group, the communication says, defeated the Bolsheviks east of Dvryssand northeast of Dobrujsk. The Poles in force crossed to the east bank of the Dercsina river, and defeated important Bolshevik forces in the region of Kloosow, taking prisoners and booty.

Budget Almost \$300,000 More Than Last Year

Total Now Stands at \$1,207,243.47

May Be Reduced at This Afternoon's Meeting—Million and a Quarter More Values Required to Keep Rate Same as Last Year—The Figures.

The common council will face a budget of \$1,207,243.47 when they meet this afternoon, an increase of \$297,642.31 over the amount of the total estimates of last year. Some of the details have not yet been passed upon and it is possible when the final estimate is computed it will be less than that amount. In order to keep the rate down to last year's level of \$2.62, it will be necessary for the assessors to find about \$1,250,000 more values.

A comparison of the amounts which will be passed on this afternoon with last year's figures are as follows:

	1919.	1920.
Lights	\$ 41,388.86	\$ 42,906.60
Police	97,841.92	110,124.85
Fire	103,768.27	125,838.93
Streets	1,076,637	1,199,750.23
Ferries	61,083.77	67,101.00
Public libraries	7,987.50	7,725.00
Excise	613.00	618.00
Debt interest	66,880.25	66,231.00
Sewerage	22,550.00	22,660.00
Fire hydrants	8,200.00	8,240.00
Grants	14,888.13	14,986.25
Slaughter houses	612.00	612.00
Schools	\$25,089.19	\$22,931.76
Recounting over-extended bal		42,606.93
N. B. Power Co. case expenditure		16,987.38
Prince of Wales reception		14,287.54
Playgrounds, 1919.		127.00
Vocational schools		17,610.00

Total \$899,601.16 \$1,207,243.47

Practically all the items in this year's budget have passed through the committee stage, but two of them will come up for further consideration this afternoon.

The first will be the estimate of the ferry department. As it stands now, it amounts to \$87,000, but the matter of increased fares, if decided upon, will reduce this amount to some extent. The west side board of trade met this afternoon and decided to send a deputation to confer with the council this afternoon in the matter. It is understood that they will suggest the issuing of books of tickets for team traffic at the present rates and increase the fares to transient traffic.

Another matter that will likely be dealt with this afternoon is the ratification of the city's proportion of an increased subsidy to the Indian-owned Pleasant Point ferry commissioners. The expression of opinion this morning was to the effect that the supplementary estimate of the school board for \$75,000 would receive some passing down when it came before the council this afternoon.

Although there is an increase of nearly \$30,000 shown in the grants for this year, there is very little change shown in the old established grants, the increase being chiefly due to grants proposed for the exhibition and the G. W. V. A. The grant asked for by the Travelers' Aid, the mayor said this morning, had been refused.

Of the total shown for schools, \$245,061.76 has already been ratified by council.

After adding the costs of collection and other expenses of the estimates, the net assessment last year amounted to \$991,884.55.

WHERE TRIAL BY JURY IS A COMPLETE FARCE.

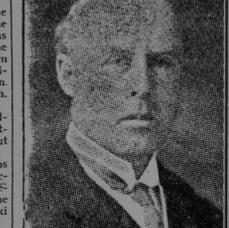

Munroe, La., Jan. 30.—Because a jurymen failed to agree to a verdict of guilty in the case of Alvin Calhoun, negro, alleged confessed slayer of N. E. Arnold, a young white farmer, a mob publicly whipped the juror and then dipped him in a mud hole, said reports reaching here last night from Tallulah, where the trial was held.

After his chastisement, the report said, the mud-covered juror returned to the jury room and agreed to a verdict of guilty in the first degree. He then was ordered to leave town by a delegation of citizens.

Getting Together. Invitations are out for a "Get Together" Dinner in the Intercolonial Hotel, Sackville, tonight. The hosts are the mayor and aldermen of the town of Sackville; the guests are the members of the Sackville Board of Trade. After the dinner has been eaten a number of toasts will be proposed and responses given by various speakers.

RACE TROUBLE ON BOARD SHIP

Clash of Italian Soldiers with Slav and Hun Sailors.

Rome, Jan. 30.—Italian soldiers clashed with Slav and German sailors on board the steamer Africa, of the Trieste Lloyd Line, at Singapore recently, when one of the sailors insulted Italy, according to a report to the Messagero. It is said the incident was one of considerable gravity.

Four hundred Italian soldiers being brought back from Siberia had landed on the dock at Singapore by the steamer Nippon, when they saw the Africa, which was the first steamer flying the Italian flag they had seen in three years. The soldiers' cheers were echoed by the Italian passengers on the Africa, but suddenly there came the cry "Down with Italy" from somewhere near the stern of the vessel.

The enraged soldiers invaded the decks of the Africa, intending to lynch the man who had shouted the insulting words, but were met by the commander and officers of the ship, who defended the members of the crew.

The Marchioness of Durazzo, wife of the new Italian charge d'affaires in Peking, addressed the Italians and finally ordered calm. It is said that the majority of the crew were Slav or German. The man who caused the disorder was later found and landed under a guard of British police.

LANDING COOLIES AT HALIFAX TODAY; TWO PATIENTS DIED

Halifax, N. S., Jan. 30.—Disembarkation of the 3,000 coolies who were detained on the steamer Minnekahda because of suspected "epidemic influenza," was commenced this morning and the chairman will entrain for Vancouver there to embark for their native rice fields.

Two of the seven patients removed from the steamer by the military medical authorities died last night of pneumonia. One of the victims was Sergeant R. C. Bayney, of Norwich, England, a member of the detachment of imperial troops accompanying the coolies as a guard. The other victim was a Chinaman. Five other coolies are in the detention hospital, several of them seriously ill, it is said.

There was a minor disturbance on the coolies, incensed over their detention here, attempted to raid the ship's food stores. The military authorities were notified of the trouble and a guard was dispatched to the scene, by which time the crew of the ship had quelled the disturbance.

JURY RETURNED AN OPEN VERDICT. Sydney, N. S., Jan. 30.—An open verdict, requesting the crown to make a thorough investigation of the circumstances was brought in at Glace Bay last night by the jury empanelled to enquire into the death of Daniel McLean, a Chinaman, who died at the general hospital there Monday morning, following an alleged severe beating received on Sunday afternoon.

The feature of the evidence submitted was an admission by three fellow boarders of the deceased that there had been a scuffle in the boarding house, in the course of which McLean was struck by Joseph McDonald, also a returned soldier. McDonald admitted striking McLean, but claimed that the blow was not severe, and that the cuts on the face of the deceased were caused by his falling down and striking his head on furniture.

Boston Wage Dispute. Boston, Jan. 30.—The Boston Chamber of Commerce telegraphed Director-General Hines of the railroad administration urging that the decision be given on the demands for wage increases of the freight handlers.

"We look upon the situation with much apprehension," the telegram said, "and would like to ask why a decision cannot be given."

As Hiram Sees It

"Well, sir," said Mr. Hiram Hornbeam, "we got one more family out to the Settlement."

"Oh!" said the reporter. "Immigrants from oppressed Europe, seeking freedom and joy in a new land of hope and glory?"

"No, sir," said Hiram. "It's a family that lived in St. John an' had to move out on account of the rent."

"Oh!" said the reporter. "Well, you know a landlord must get some return on his investment."

"Then why don't he store the ice that he gets on the kitchen?" said Hiram. "Let sell it in the summer time. This feller that moved out to the Settlement sat for an axe to chop the ice and he wouldn't give it to him. He sat him to fix some holes where you could see out doors—"

"An' the landlord said they'd be dangerous if they didn't get some fresh air. He wanted some plumbin' done, an' the landlord said it'd cost a year's rent to have a plumber in the house two days. He wanted the chimney fixed so's the stove would draw, an' the landlord said it must be the fault of the stove."

"But they don't raise the rent!" Then the feller moved out to the Settlement, an' I got him worked in the woods. He said he'd be failed over one another to get into em—an' not he to starve to death to pay the rent—I'll be the first man to spread the news—yes, sir."

"But some people," said the reporter, "are not fit to live in houses."

"The people of this country," said Hiram, "are not fit to live in houses."

He declared at the same time that the United Irish Societies "are beyond all praise for their loyal stand."

He declared that the hypochondriacal American menace is fast becoming a monster that must be crushed "and there is no better time to do this than at the present moment."

At Windham, Maine, the pulp mill and several adjoining buildings of E. L. Dupont de Nemours & Co. were destroyed when the pulp grinders ignited wood powder.

The shaft factory of the Alfred H. Whitney Company, at South Asinburnham, Mass., was totally destroyed by a fire which swept by fire during the night. The loss is estimated at \$100,000.

At Naugatuck, Conn., fire which followed an explosion of chemical tanks at the Naugatuck Chemical Company caused loss estimated at \$50,000.

The Mystic Woolen Mills at Old Mystic, Conn., were swept by fire during the night. The loss is estimated at \$175,000.

Damage estimated at \$175,000 was caused by a fire which for a time threatened the entire plant of the Anderson Lumber Company at Wallington, N. J. A large planing mill and several smaller buildings were destroyed.

Canada's Worthy Contribution To The Empire's Defences

Britain Had 8,654,476 Men in the Field

United States Troops Totalled Two Millions—Some Interesting Figures of Captures During the Conflict.

London, Jan. 30.—Revised figures compiled by British statisticians on the contributions of the various allied nations to the fighting forces during the war, place Canada well in the lead of the overseas dominions not employing native troops. The dominion is credited with 640,886 effectives, Australia coming next in the list with 416,509. India's army, composed largely of native troops, was 1,041,850.

The statement shows that Great Britain during the period of the war placed a grand total of 8,654,476 men in the field. The contribution of the United States is estimated at 2,000,000 men.

The following figures show the number of troops contributed by the various parts of the British Empire: British Isles—5,704,416. Canada—640,886. Australia—416,509. New Zealand—220,089. South Africa—136,080. India—1,041,850. Other colonies—134,837.

The casualties of the troops of the British Empire are stated as follows: British Isles—Killed, 602,081; missing or prisoners, 140,212; wounded, 1,644,786. Losses of troops, from India, Canada, Australia and other parts of the empire, brought the total to: Killed, 851,117; missing and prisoners, 142,071; wounded, 2,067,442.

The capture of prisoners and guns in France during the victorious offensive against the German army between July 18 and Nov. 11, 1918, are given as follows: British armies—200,000 and 2,540, respectively. French armies—185,720 and 1,890. American armies—42,300 and 1,421. Belgian armies—14,500 and 474.

It is pointed out that in addition to the above there were 30,000 British combat troops in Italy, who co-operated in the final defeat of the Austrian army at Vittorio Veneto, capturing 30,000 prisoners, and that in the eastern theatre of war Palestine and Mesopotamia, where about 400,000 British troops on an average throughout 1918 were fighting the complete defeat and destruction of the Turkish army was effected by the British alone, and a total of 85,000 prisoners taken.

ARABS PROTEST AGAINST ZIONISTS. Say, in Memorandum to Pope, That They Will Never Be Allowed to Possess Country.

Rome, Jan. 30.—Pope Benedict has received a memorandum from Arabian tribes in Palestine, which protest against what is called the "pro-Zionist" policy of Great Britain and A. J. Balfour's statement that "Palestine must be for the Jews."

The memorandum denounces a report that the British Jews have been given permission to settle in Palestine, and declares the Arabs will never allow Zionists to take possession of their country.

LABORERS GET OVER \$5 PER DAY. New York, Jan. 30.—Day laborers employed in the plants of the United States Steel Corporation have been granted a ten per cent wage increase effective Feb. 1, E. H. Gary, chairman of the corporation, announced here last night. The wage rates of other workers employed by the corporation will be "equitably adjusted," he said.

The new rate for laborers will be \$3.08 instead of \$4.62 for a ten-hour day, including two hours' overtime.

RATHOM FLAYS THE SINN FEIN

Providence Editor in Address at Boston City Club

Also Attacks A. O. H. and Praises United Irish Societies—Coolidge Out of Race—Two Miles-a-Minute Flight to Boston.

(Special to The Times.) Boston, Jan. 30.—John R. Rathom, editor of the Providence Journal, is the man who, before and after this country's entrance into the war, exposed German plots and was snubbed at the White House, where he was told that his stories were silly. He was prohibited from lecturing, as he would not reveal the source of his information, but the devotees of the cause were worse than even his revelations.

Now he is alive to what he terms a grave danger to the United States. Last night at the City Club, he discussed "The Red Flag and the Hyphen," characterized Sinn Fein and members of the United Order of Hibernians as "Irish-American scandal mongers," and asserted that their action in trying to embroil the United States and Great Britain in war was "damnable treason, not only to our Allies but to our civilization."

He declared at the same time that the United Irish Societies "are beyond all praise for their loyal stand."

He declared that the hypochondriacal American menace is fast becoming a monster that must be crushed "and there is no better time to do this than at the present moment."

LOWER PRICES NOT IN SIGHT

Will Be Slow in Coming, Says Former Chancellor McKenna

Declares Sudden Drop Would Mean Disaster—Urges Britain to Reduce Expenditures to Below Tax Revenues.

London, Jan. 30.—Lower prices will be slow in coming, said Reginald McKenna, former chancellor of the exchequer and now chairman of the London City and Midland Bank, addressing stockholders today. Any attempt suddenly to bring about a decrease in the cost of living, he said, would mean disaster.

"The spending power of the public has increased from £1,198,000,000 sterling in 1914 to £2,938,000,000 at present," he said. "This, with loans to the state, has raised bank deposits and consequently increased the buying capacity of the public. With increased currency, prices of commodities have soared, but increased production will bring prices down. The purchasing power of the world, however, is measured in money, and cannot be materially diminished. Deflation is bound to be slow, and any attempt to bring it about rapidly would mean widespread ruin among manufacturers and traders."

"I would urge a reduction of the country's expenditures to a figure less than the tax revenues, by which means alone the issuance of currency can be restricted and London re-established in her old position as a financial centre and the free gold market of the world. It is my opinion that this country's rate of taxation is higher than any other in the world, and is dangerously near the point where thrift, business enterprise and the needed development of capital may become seriously impaired."

TAKE CENSUS IN JUNE, 1921. Getting Ready Early—New Method in Compiling Vital Statistics.

Montreal, Jan. 30.—An Ottawa despatch to the Gazette says nearly all the provinces of the dominion are taking advantage of a new method in compilation of vital statistics. It provides that the provinces attend to the registration of the figures, which are then sent to the department of statistics at Ottawa, where all the figures are tabulated and the forms and schedules printed and forwarded to the provinces, where they are distributed to registrars, the work for all the provinces being done on a uniform standard.

The next decennial census enumeration will take place in June, 1921, and already the department is making preparations for it.

GROCERS AND THE COMMERCE BOARD. Request That Charges of Violation of Combines and Fair Prices Act Be Made.

Ottawa, Jan. 30.—(Canadian Press)—Mr. Roebuck, representing the attorney-general of Ontario, before Commissioner Murdoch here yesterday, makes application that the Board of Commerce charge the Wholesale Grocers' Association of Canada, certain wholesale and certain retail grocers of the city of Hamilton, and other provinces, not yet named, as offenders against the combines and fair prices act.

Mr. Roebuck was informed by Commissioner Murdoch, acting Chief Commissioner O'Connor concerning that the board would charge and try not only the association named but also other persons and corporations which the attorney-general or his agent might name.

SEE FOREST FIRES FORTY MILES AWAY. (Canadian Press Despatches.) Montreal, Jan. 30.—That forest fires could be extinguished by airplane at forty miles distance and that it was possible to transport in these machines a Johnson fire pump and 1,000 feet of one and a half inch hose, was a statement made yesterday afternoon before the Woodlands section of the Canadian Pulp & Paper Association in convention here. In June of last year two naval machines started service in Quebec and did good service. Excellent aerial photographs were obtained at a cost of about \$25 a square mile.

COTTON MILL WORKERS IN ENGLAND TO ASK FOR HIGHER PAY. London, Jan. 30.—In anticipation of the termination of the present wage agreement at the end of March, the cotton mill operatives are preparing to demand an increase in wages, says a despatch to the Central News from Manchester. In the case of weavers, says the despatch, the demand will amount to 100 per cent.

**PERMITS ISSUED
IN 1919 TOTALLED
OVER \$75,000,000**

This Was Double the Value of Permits Issued in 1918

Many Homes Built—Toronto Contributed More Than One-fourth of the Year's Total, Erecting Building Worth Nearly \$20,000,000.

(Financial Post.)

As foreshadowed in The Financial Post a few weeks ago, the total of building permits issued in Canadian cities in 1919 was more than double the amount issued during the preceding year, and reached a value of more than \$75,000,000.

The biggest part of the increase came from cities in Eastern Canada, where the value of building permits issued during the year totalled more than \$90,000,000, an increase of \$32,000,000 over the figures for the preceding year.

The most active city in Canada during the past year, from the standpoint of building, was Toronto, where permits totalled \$18,919,486, an increase for the year of \$11,284,100. Other cities that were well up in the list were:

1919 total	Over 1918
Montreal	\$10,083,901
Halifax	5,194,806
Hamilton	5,087,492
Ottawa	3,232,222
Winnipeg	2,946,000
Windsor	2,601,370

Building permits issued during the month of December totalled \$4,894,000, a very large amount for the last month of the year, and an increase of \$1,685,000 over the previous year. Almost half of this total was contributed by Toronto, where building permits issued during the month were valued at \$2,439,925, an increase of nearly \$1,500,000 over December, 1918.

Montreal's figures for December showed a substantial increase over the previous year's total, as building permits to the value of \$658,000 were issued, as against \$170,000 in the previous December. Other active building centres in December were Halifax, Brantford, Kingston, London, St. Thomas, Windsor, Winnipeg and Victoria.

Mostly For Dwellings.

It is noticeable that, during the year that closed on December 31, 1919, the majority of the permits issued in nearly every city in the country were for dwelling houses. Of course, all the cities, and especially the industrial centres, had a number of large buildings erected during the year, but the dwelling houses, and, it may be added, private garages, were in the preponderance.

During December, the largest permit issued was for the Western University Medical School, to cost \$200,000, which will be erected in London, Ontario. London also has a factory for the McClary Manufacturing Company, which will cost \$400,000. A factory is being erected in Hamilton for the Carr Fastener Company, to cost \$75,000. Kingston is building a brick school, to cost \$112,000. Halifax's largest permit in December was for the Tabernacle church, to cost \$68,000. St. Thomas is building a \$68,000 school.

CHAIN STORES FOR CANADA.

Consul Felix Johnson, at Kingston, Ontario, has reported that the five, ten and fifteen cent stores at present in existence are about to be opened up in Canada. The first store will be known as the S. Steel Company, Limited.

The plan is to start a chain of one hundred stores in Canada. They are to be located in cities of over 6,000 population. As far as can be learned, no locations have yet been purchased, but it is understood that this work is in hand, and the first stores which probably will be opened early in the spring, and it is expected that before the close of the year fully forty stores will be in operation. The organization at present is busily arranging for supplies. The new organization opens with a five-cent to a dollar margin.

There will be a cafeteria in connection with all the stores, and it is the intention to sell a few lines, such as coffee and tea, in connection with the cafeteria.

Sundry odd lines generally sold in the grocery stores will also be handled, such as fruit, soap, washboards, and wash-bowls.

PROHIBITION IN UNITED STATES

(Christian Science Monitor)

When a great reform is undertaken, the effects cannot be seen in a day. When that reform is something more than an administrative one, when that is to say, it is one which reaches down to the fundamentals of a nation's character, the manifestation of its results must necessarily be protracted in its final development. Nevertheless the immediate effects may be seen rapidly, and already the effects of national prohibition are being witnessed in the United States.

What went into effect at midnight, on Friday, the sixteenth of this month, was the registration, in the interests of humanity, of a great self-denying ordinance. The very humanity of human nature has made men inclined to the indulgence of what they have for centuries been pleased to describe as the social enemy of the bottle. Every reader of Tennyson remembers the regret of Guinevere for having yielded to those passions, which seemed to supply something in her life which the human senses had found missing in the stately purity of the king. It is the will for just this day of humanity which has gone forth from the opponents of prohibition in the United States. Like Guinevere they want that warmth and color which they cannot find in the austerity of prohibition. And yet that warmth and color found its final tint in the drab atmosphere of the police court, the prison yard, and the lunatic asylum.

of a nation can indulge. Gradually the cost of the repression of crime will be eliminated, and it will be found that the ultimate cost of the licensed houses amounted to a million times more than the gain from the licenses themselves. Even the growers of grapes are beginning to learn that the market price of grapes is not dependent upon the activity of the wine press, but, as was shown recently, in certain statistics printed in this paper, that the price of grapes as increased instead of having diminished with the coming of prohibition.

Greater, however, than all this is the freeing of the workers of the United States from the handicap of drink. The enormous losses to industry, caused by the indulgence of the workers, has come to an end; and the pioneers of prohibition in all the other countries are beginning to warn the governments of those countries that prohibition will prove an infinitely more powerful competitor than any other they have yet had to face, a competitor against whom attacks they will raise their tariff walls in vain. Already there are obvious signs that what this means is being taken into consideration in the United Kingdom, while in France there are growing indications that the country is awakening to the full significance of the ravages of the bottle—de cra, or private distillers. For it is a fact that, as has been recently pointed out, 9,000,000 of people in France have succumbed to the effects of alcohol in the last half century, whilst the whole country has been impoverished by it, with the exception of the traffickers in drink; so that it is easy to comprehend the design of Zola in devoting one of the great

The Times-Star has been told of one group of five tenants in this city who have been notified of an increase in rent amounting in the aggregate to \$750, or an average of \$150 per year per tenant.

is made for the care of the mentally deficient. The provincial government has therefore done a wise thing to appeal to the National Committee, and its favorable response is a source of general satisfaction.

The Montreal Gazette sees a field of useful labor opening out before Hon. Hugh Guthrie in the militia department. Because so many of the members of the old militia went to war, and so many did not return, its re-organization is necessary; and this will involve not only a nice adjustment of claims but "getting the right men to accept commands."

Discussing the remedy for the existing situation in regard to exchanging American Secretary of the Treasury Glass says people must consume less, and must work and save. Sir Edmund Osler, describing conditions in Canada, says that extravagance is the order of the day despite all warnings, and will probably continue until hard times come and compel the people to work and save.

That is to say, the country is asked to assume part of the burden. The problem in St. John is to make up the difference between what a comfortable house would demand as a reasonable rental and what the prospective tenant is able to pay.

COST OF HOSPITALS.

Mr. Robert Olyphant, president of the United Hospitals Fund, New York, gives some figures which prove that hospitals are not exempt from the increased cost of living.

MENTAL HYGIENE.

The announcement that the National Committee for Mental Hygiene will make a mental hygiene survey in New Brunswick is good news. Similar surveys in Manitoba and British Columbia revealed conditions so serious that action was at once taken to provide better care for the feeble-minded.

DEMAND FOR MACHINERY IN CHINA SURPASSES SUPPLY.

Mills and Factories of Various Kinds Are Going Up in Many Districts.

The development of China along industrial, mining and agricultural lines has been so rapid within the past few years and the demand for machinery of all types so great that several plants for the manufacture of industrial machinery are now in operation in the Canton district. These plants are turning out machinery for tanneries, dyeing establishments and knitting mills, as well as crude oil engines ranging up to 200 horsepower. This serves to emphasize the need of this country for machinery. There is a strong demand for imported small oil engines and electric lighting plants for use both in Canton and in the outlying districts, and, indeed, for a wide range of engineering specialties. A recent report from Canton suggests that the ready sale might also be found for small engines for the hundreds of towing boats that ply on the rivers of the Canton delta. As a direct result of this industrial activity there is naturally a greatly increased inquiry for all descriptions of workshop tools, besides nails, bolts, screws, blacksmith's iron and steel, reinforced steel and tinplate.

China is steadily growing as a market for machinery and in a few years it will probably be the most important of all the Eastern markets in this respect. Mills and factories of all kinds are being set up throughout the country. The cotton mills are already equipped with machinery of either American or English manufacture, and mining machinery of the most modern character is being used in the exploitation of rich mineral areas hitherto wholly untouched or merely scratched by the primitive methods formerly used. There is also a constant source of new business. In this trade the manufacturers of Great Britain are very active and are steadily increasing their representation in the Chinese market. It is also reported that a number of Chinese importing firms have established buying agencies in England. In some respects the European type of machinery with its small units is more readily adaptable to the Chinese factories than the larger unit American type. This is because of the fact that it takes the workman a trifle longer to learn to operate the American machinery efficiently.

RECENT WEDDINGS

Herman-Corbet.

Amherst, Jan. 28.—On Monday afternoon at parsonage of the First Baptist church, Moncton (N. B.), Rev. Bowley Green, united in marriage Miss Lilian Alice Corbet, eldest daughter of Mr. and Mrs. A. G. Corbet, of Saskatchewan, to George Evans Herman, editor of the Amherst Daily News. The bride was becomingly attired in brown, with hat to match. After a brief trip, Mr. and Mrs. Herman have taken up their residence in Amherst.

Spices Best Food Preservatives.

Some of the spices that are often employed in flavoring preserves, both of fruits and meats, have a value that is more important than the mere tickling of the palate. An investigation recently made in France shows that vinegar is not only an excellent preservative, but a powerful means of killing bacteria. Ginger, black, white and red pepper have little bacteriological effect but the action of mustard is most marked. However, the best of all are cloves and cinnamon, which act through their essential oils (called eugenol and cinnamic aldehyde).

La Nature remarks that these researches are highly important, for they show that, even in the small quantities in which they are used, these spices may be employed in preserving far better than chemical antiseptics such as boric and salicylic acids, which are often added, though the French law prohibits their use.

RECENT DEATHS

Miss I. E. Kinnear.

The death took place early yesterday morning of Miss I. E. Kinnear, at 196 Princess street, this city. Miss Kinnear had reached an advanced age, was the last surviving member of the old family and had been an invalid for a great many years. The nearest relatives are one niece, Mrs. Edwin Daniel, Toronto (Ont.), and three nephews, Harrison Kinnear, of Westley (R.I.); Charles A. of Oshawa (Ont.) and Frank A., of this city. The funeral will take place from her residence on Saturday afternoon at 2.30 o'clock.

Manford Perry died at his home, Rawcett Hill, Westmorland county, last Saturday.

The death of Miss Elizabeth Branscombe occurred at her home at Cornhill on Tuesday.

Mrs. C. Henry Smith, daughter of the late Mr. and Mrs. James Hill of this city, occurred in Halifax on Tuesday. She was a niece of S. S. Hall & Fairweather, St. John.

Ernest McDonald, aged twenty-five years, died at his home in Kent's Mills, N. B., yesterday.

Mrs. James Fraser, aged eighty years, died on Sunday at the home of her son, Harry, in St. George's N. B.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, JANUARY 30, 1920

NEW BLACK ROD

Sincere Comes to Lieutenant-General Sir W. P. Pulteney.

London, Jan. 11.—(A. P. Correspondence)—King George has appointed Lieutenant-General Sir W. P. Pulteney as Gentleman Usher of the Black Rod in succession to the late Admiral Sir Henry P. Stephenson. The office is one of those purely ornamental ones which are rather numerous in this country. "Black Rod," as he is called for short, has next to nothing to do and gets \$1,000 a year for doing it, and a suite of apartments, rent free, in the House of Lords.

He is a glorified messenger of the hereditary legislators. When on duty he is gorgeously attired in court costume with knee breeches and a plumed cocked hat and a dandy little sword by his side. The emblem of his authority is an ebony wand but he never does anything with it. When members of the House of Commons are summoned to the House of Lords to hear speeches from the throne or the royal assent given to acts that have been passed, Black Rod enters the upper house and makes his way to the "woolsack" on which sits the robed and wigged lord chancellor. He is told to inform the members of the House of Commons that they are wanted. Then he has to walk half way to the door backwards, making a bow at every few steps and looking very solemn.

When he arrives within a few yards of the door of the House of Commons the sergeant-at-arms of that body, who is on the lookout for him, shuts the door in his face. Black Rod has to suppress his feelings and knock humbly at the door. Then the sergeant-at-arms opens a little panel in the door and asks him what he wants, or something to that effect, and Black Rod tells him what he already knows. Then Black Rod is admitted. This little bit of comedy is supposed to indicate that the House of Commons does not take any orders from the House of Lords. Then Black Rod, with chastened mien, advances to where the speaker sits in state and in Norman French delivers his message. This is the performance he will have to go through for the first time when parliament opens on Feb. 10.

General Pulteney has served in many campaigns, having joined the Scots Guards in 1881, and has been the recipient of a large number of honors. During the great war he commanded the Third Corps in France. He has taken a keen interest in the development of military recreation and has been a prime favorite with his men. He was born in 1851.

HUNTING IN PENNSYLVANIA.
Philadelphia, Jan. 30.—Pennsylvania hunters last year killed legally 2,913 male deer weighing 378,690 pounds. They also shot illegally 119 male fawns and 207 does. The bear hunters got 472 carcasses and those who went after rabbits killed 2,719,879. Turkey shooters got 5,181.

Fatal accidents exceeded former years, thirty-five persons having been killed and 128 wounded. The state game bureau is paying out about \$1,000 a day at present to those who present pelts from noxious animals at this season. The bounty is paid from the revenue from hunters' licenses of which 895,000 were issued.

SEES CRITICAL SITUATION FOR ULSTER ARISING

Carson Writes to Unionist Council on Matter of Home Rule Bill.

London, Jan. 30.—Sir Edward Carson has written the Ulster Unionist Council that when the new Irish home rule bill is presented, Ulster will be confronted with the most difficult and critical situation that has yet arisen, and that it will be fraught with the gravest consequences.

Sir Edward says that so soon as the bill is published he will go to Ulster to confer with all classes on the question of what is best to do, "having regard for the pride we feel in doing the best for the United Kingdom and the empire."

ACOUSTICS

Motorists, writes a London Daily Chronicle representative, may be confronted with an ingenious speed trapper in the future if a theoretical hint given by Professor Bragg at the Royal Institution is applied practically by the police.

The professor was explaining that the rising note of an approaching car was due to its speed superadded to the natural movement of sound, which is 750 miles an hour.

As it came towards you the motor pushed on vibrations; passing, it withdrew them; and from the variations of the note the speed of the car could be calculated.

"And," commented the professor, "you may imagine a very intelligent and musical policeman trying to catch you out!" (Loud laughter.)

To determine whether a room was suitable for speaking in, Professor Bragg recommended that the hands be clapped once. If the vibrations continued for five or six seconds the room was not suitable. "You must get it down to two seconds," he advised, "for music a little longer is allowed."

Among traditional cures for bad acoustics he included wires—"a survival of superstition," was his denunciation of this method—but the real secret was in putting carpets, curtains, &c., about the hall. It was possible to say precisely how much material was required to reduce reverberations in a hall.

Professor Bragg said that a correspondent had informed him that the best "echo" in London was in the Octagon Hall of the Victoria and Albert Museum.

If one stamped on the middle of the floor there a very good echo was obtained, which increased rapidly. "But I hope you won't all go there at once and try it," he added with a smile.

"Clangs" of dungeon doors, which were read of in books and "sounded dreadful" were due to the absence of carpets and curtains in dungeons to break the sound, and the strong reverberations were consequently unchecked.

The habit of singing in the bath-room was attributed by the professor to "the note struck by the running water" and the resonance of the comparatively bare-furnished apartment. "When you get back to the dressing-room," he said, "you find you have lost the advantage of the note."

USE The Want Ad Way

TRIAL EXPENSIVE FOR MANITOBA GOVERNMENT

Winnipeg, Jan. 30.—Counsel fees, court and other expenses in connection with the trial of strike leaders as an aftermath of the Winnipeg general strike cost the Manitoba government \$45,000 last year. It is believed that the trial will cost more than \$100,000.

SECRET SOCIETIES BANNED.

St. Louis, Jan. 30.—The St. Louis board of education adopted a report of the superintendent, John W. Withers, declaring against secret societies in the public high schools as "undemocratic, undesirable and injurious to the free and wholesome life of the schools." The Withers report recommended that the board declare its opposition to the existence of secret fraternities and sororities, and that it forbid all pupils to form or to become members of such organizations. It was stated that they "exert a pernicious influence" upon their own

members and upon pupils who do not belong to them and upon the voluntary organizations of pupils that are approved and fostered by the schools, and they are subversive of the principles upon which the public schools rest." St. Louis high schools have, for many years, had several fraternities and sororities.

Is This Worth While?

19,000 Canadian boys have promised on their honor as Boy Scouts to do their best

1. To do their duty to God and the King.
2. To help other people at all times.
3. To obey the SCOUT LAW.

THIS IS THE SCOUT LAW

1. A Scout's honor is to be trusted.
2. A Scout is loyal to the King and his officers, and to his parents, his country, and his employers.
3. A Scout's duty is to be useful and to help others.
4. A Scout is a friend to all and a brother to every other scout.
5. A Scout is courteous.
6. A Scout is a friend to animals.
7. A Scout obeys orders of his parents, patrol leader or Scoutmaster without question.
8. A Scout smiles and whistles under all difficulties.
9. A Scout is thrifty.
10. A Scout is clean in thought, word and deed.

Have You Heard These Wonderful New Needle Records?

Johnny Writes a Letter Using the Names of His Collection of GENNETT RECORDS

Call and hear the records Johnny mentions in his letter; also some others just received today.

Among them are:

No. 9016—"You Ain't Heard Nothing Yet." "They're All Sweeties."

No. 9017—"I Love You Just the Same, Sweet Adeline."

No. 9015—"I Might Be Yours Once in a While." "Now I Know."

No. 4593—"I Left My Door Open and My Daddy Walked Out." "That Wonderful Kid from Madrid."

DEAR PEGGY:

"Out to Old Aunt Mary's" I met "My Rose from Romania," I said "My Gal," you "Heart Breaking Baby Doll," "Let the Rest of the World Go By," come to "Weeping Willow Lane," in "My Uncle's Farm," "Meet Me in Bubble Land" on a "Little Farm in Normandy," "On the Trail to Santa Fe," "Where the River Shannon Flows," or "By the Beautiful Ohio." Let us have the "Music of the Wedding Chimes," and the "Honeymoon Waltz," "Girl of Mine," "Give Me a Smile and a Kiss."

She said, "Just Leave it to Me," "Carry Me Back to Old Virginia," "Kiss Me Again," "I Know What It Means To Be Lonesome," "My Sugar Coated Chocolate Boy," "Take Your Girlie To the Movies," "Dear Little Boy of Mine."

I said "Baby," "Tell Me," will you "Kiss Me Again?" And does she? "Wonderful Pal," "I'll Say She Does."

You're "An Old Sweetheart of Mine," but "You Didn't Want Me When You Had Me," "Till We Meet Again, Goodbye."

CANADA'S SHOE INDUSTRY
President Reider of the Ames-Holden-McCreedy Co. Ltd. in a recent address entitled “A Fresh Survey of Our Industry,” gave interesting figures in regard to the trades, showing that thirty-two manufacturers sell to jobbers only seventy-four to jobbers and retailers, the rest to retailers only. There had been an improvement in the market, since the exportation of boots and shoes reached \$2,788,000 and the importation \$1,463,000, representing a net gain of \$1,325,000, for a population of nearly 9,000,000 inhabitants.

In 1920 there were 120 shoe manufacturers in Canada; in 1912, 160, and in 1919, 150. The production in 1920 was valued at \$10,000,000, now it has reached \$17,000,000, for a population of nearly 9,000,000 inhabitants.

The Plague of Pimples
Body Covered With Them

The primary cause of pimples arises from the blood not being in a good condition. When the blood becomes impure you will find that pimples will break out all over the body, but more particularly on the forehead, nose and chin, and although they are not a dangerous trouble they are very unsightly. What you need when pimples or boils break out is a real good blood purifying medicine such as Burdock Blood Bitters.

This preparation has been on the market for over 40 years and is the most reliable remedy for all troubles arising from a bad condition of the blood. It removes all the impurities from the system, and will leave a clear, healthy skin.

Mr. Emerson G. Goodwin, Cambridge, N. B., writes:—“For nearly two years I suffered from boils and pimples on my face and neck, and nearly all of my body was covered with the pimples. I tried most everything, but got no relief. One day a friend advised me to try Burdock Blood Bitters, and after using three bottles the pimples and boils had all left me and there is no sign of them returning. I can strongly recommend B. B. B. to anyone who is troubled with skin disease.”

ECONOMY AND MORE PRODUCTION NECESSARY, SAYS BANK MANAGER

Annual Meeting Bank of Nova Scotia Shareholders at Halifax—General Manager's Remarks.

The annual general meeting of the shareholders of the Bank of Nova Scotia was held at 11 a. m. Wednesday in the banking room, Halifax, and was well attended by shareholders. As usual the meeting was addressed by the president and the general manager. A most satisfactory statement was presented and the following directors were elected: Charles Archibald, G. S. Campbell, J. Walter Allison, Hector Melnes, K. J. Brown, N. Curry, James Macpherson, Dr. W. W. White, S. J. Moore, W. D. Ross, Hon. M. C. Grant, Hon. Geo. Bryson, John B. Fraser, Russell Ewing, Alexander MacLennan, Hon. M. J. O'Brien, Sir Henry K. Egan, Hon. George Gordon, Edwin C. Whitney and Hon. R. M. McGregor.

In a subsequent meeting of the directors Charles Archibald was re-elected president and Geo. S. Campbell and J. Walter Allison vice-presidents.

In part the general manager made the following remarks: “During the past year conditions generally have been a good deal confused, and while prosperity has been fairly general throughout Canada, it has been of a somewhat fickle character, for there is a considerable extent on inflation. Similar conditions prevail in the United States, where speculation in commodities and real estate, together with the somewhat common speculation in shares on Wall street, has resulted in a considerable strain on floating credit. Foreign trade has been hampered by abnormal exchange rates, and has been unsettled, and the operation of most businesses has been affected by considerable anxiety. The tendency of the foreign trade has been towards the amelioration of the conditions confronting us, and we have had a bumper year for the disposal of our products. It is our duty to consider all these factors in the light of the present situation, and to endeavor to meet the requirements of the market as far as possible. It is our duty to meet the requirements of the market as far as possible. It is our duty to meet the requirements of the market as far as possible.”

SORENESS, PAIN, ACHING JOINTS

Don't suffer! Relief comes the moment you rub with old “St. Jacobs Liniment.”

Don't stay sore, stiff and lame! Linger up! Rub soothing, penetrating “St. Jacobs Liniment” right in your aching muscles, joints and painful nerves. It's the quickest, surest pain relief on earth. It is absolutely harmless and doesn't burn the skin.

“St. Jacobs Liniment” conquers pain, soreness and stiffness in the head, neck, shoulders, back, legs, arms, fingers or any part of the body—nothing like it. You simply pour a little in your hand and rub “where it hurts,” and relief comes instantly. Don't stay crippled! Get a small trial bottle now from any drug store. It never disappoints—six gold medal awards.

Thin, Nervous People Need Citro-Phosphate

Weak, thin people—men or women—are nearly always nervous wrecks; thus, conclusively proving that thinness, weakness, debility and neurasthenia are almost invariably due to nerve starvation. Feed your nerves and all these symptoms due to nerve starvation will disappear.

Eminent specialists state that one of the best things for the nerves is an organic phosphate known among druggists as Citro-Phosphate, a five-grain tablet of which should be taken with each meal. Being a genuine nerve builder and not a stimulant or habit-forming drug, Citro-Phosphate can be safely taken by the weakest and most delicate sufferer, and the results following its use are often simply astonishing.

By strengthening the nerves, weak, tired people regain energy and vigor; thinness and irregularity give way to plumpness and curves; sleep returns to the sleepless; confidence and cheerfulness replace debility and gloom; dull eyes become bright and pale, sunken cheeks regain the pink glow of health.

CAUTION:—Citro-Phosphate, the use of which is inexpensive, also wonderfully promotes the assimilation of food, so much so, that many people report marked gains of weight in a few weeks. Those taking it who do not desire to put on flesh, should use extra care in avoiding fat-producing foods.

CANADA MAY SUPPLY BRITISH TOY TRADE

Ottawa, Jan. 30.—The Canadian Trade Commissioner at Bristol, England, declaring that there is a large market in Great Britain for toys and fancy goods, points out, in the course of a recent report, that in 1918, of the total \$4,272,728 paid for imported toys and games, \$1,887,708 was paid to Germany. These toys, he continues, which were of a cheap variety, were made in the agricultural districts and taken to Sonneberg in Saxe-Meiningen. They were chiefly produced in the small villages surrounding the town, but had a certain amount of artistic style and finish on account of the skill acquired in the technical training school which the children had to attend. The Germans also did an extensive trade in metal toys, such as small steam locomotives, which were made largely in Bavaria by the use of extensive and valuable machinery.

In the production of dolls the Germans were also experts as a result of years of thought and study in the industry. The heads and faces of dolls were made in large china factories, where the assistance of electrical machinery, and careful work in the furnaces, helped to turn out an attractive product. The arms and limbs were made in the agricultural districts by families in the long winter evenings of the wet weather, with the result that German dolls were produced cheaply. The writer points out that not only is Germany at the present time not in a position to export toys in large quantities but there is a disinclination on the part of the United Kingdom to buy anything from that country. France has to a large extent taken Germany's place as regards the export of toys to the United Kingdom, the value of these in 1918 being considerably over \$400,000. Japan and the United States also sent toys of a lesser value, but from all the British possessions toys were sent only to the value of \$1,400. The Trade Commissioner advises that there are great opportunities for Canada to supply the British market, where the prices ruling at present are very high.

OFFICIAL VERSION OF CAUSES OF THE INDIAN TROUBLE

London, Jan. 30.—A white paper report on the disturbances in the Punjab, India, issued today, says that the special contributory causes in the agitation at Amritsar were speculation, discontent over the prices of commodities, dissatisfaction with the income tax and an attempt to arouse Islamic feeling among the lower classes out of sympathy with Turkey.

OFFERS KEY TO FARM PROBLEMS

Harvard Professor Sets Forth Advantages of Co-operative Methods.

(Toronto Globe.)
Agricultural co-operation was the solution to rural depopulation offered by Professor James Ford of Harvard University, who lectured in the Mining Building under the auspices of the Department of Social Service of the University of Toronto. He quoted Sir Horace Plunkett as saying: "Agriculture reconstruction is three-fold: better farming, better business and better living, but better business, that is, co-operation, is the key to both the others."
Prof. Ford stated "there are very real gains to be secured through co-operation, which not only eliminate the middleman, who has a very real function to perform, but provide substitute for him. The co-operative society pays a limited rate on the shares of stock and returns the rest of the surplus to the members in proportion to the amount of business that they do through the society. The society is a democracy in which both the large and the small farmers have equal interest and equal returns."
Co-operative societies, he said, should be started only where there was a real

need, and when they were of a size to do business economically with sufficient capital and a suitable location.
Business Manager Needed.
"No profession makes greater demands on the ability and the intelligence than does farming," said the professor, speaking of the many very varied branches of science that the farmer has to know. "The good farmer is not necessarily a successful farmer. He may raise crops above the average, yet have a deficit at the end of the year because of mistakes in selling." The remedy to this was to employ a person trained in buying and selling to handle the business part of the farmer's profession, and this could be best done by a number of farmers co-operating to jointly employ a buyer and seller.
The most successful organization, according to Prof. Ford, was composed of fruit-growers of the Pacific coast, who had united to form local co-operative associations with a central exchange for California. In the year ending 1919, 72 per cent. of the deciduous fruit of the State had been handled co-operatively with an advertising and handling cost of only 1.6-10 per cent. of the selling price.
The fruit-growers co-operated in packing, grading and distributing with great benefit to themselves, while the consumer benefited also through lower prices and a good quality fruit on an all-year market.
Dair-farmers could co-operate equally advantageously in buying feed, in stock-raising, in various industries connected with dairying and in distributing. Grain-growing was another large field for agricultural co-operation, and in the States there were over three thousand successful local societies. When outside buyers offered tempting prices in order to break

up the society, one plan was to pay one cent into the common treasury for every bushel that was sold outside of the co-operative society. The same plan was followed by the fruit-growers.
FACTORY WORKERS' INDUSTRIAL REPUBLIC
Employees Have a Direct Voice in Industrial Matters of Great Motor Car Factory.
Out of the Willys-Overland Company's years of manufacturing experience and its desire to give its thousands of employees a larger hand in the internal affairs of its big plants has grown an industrial republic.
Their aim has been to give employees a voice in the everyday matters in their industrial activities that affect them. This is accomplished through the medium of an employees' representation plan under which a joint shop committee is provided by secret ballot and which amounts practically to industrial self-government. The plan provides for one elected representative on the shop committee for every 200 to 300 employees. An equal number of company representatives are appointed by the management. The two constitute the joint shop committee.
All questions relating to the internal affairs of the factory and the welfare of the workers are considered by this shop committee. It has produced admirable results since it was put into effect.
The employees' representation plan makes it possible for every employee to vote on a representative for him in his department. These representatives work with the company in settling any inequalities in adjusting any working conditions that is bad. In a word, employees are given a direct voice in those

things that affect them in their work. Through this industrial plan employees realize that the interest of all those in the industry are friendly and mutual. They have found in the plan simply the machinery for the adjustment of differences or the betterment of working conditions by direct contact with the management.
WANTED TO BE MARRIED WITHOUT A BRIDE
Bridegroom Who Thought Lady's Presence Unnecessary.
An amusing display of innocence by a prospective bridegroom has been given at Chertsey Registry Office, London.
Having made the usual arrangements for the time of the ceremony, the bridegroom, a demobilized soldier, arrived without his intended bride and presented himself to the Registrar. After a wait the Registrar inquired when the bride was likely to arrive, and was surprised to learn from the young man that, in his opinion, the presence of the bride was unnecessary. He thought the bridegroom only had to attend the ceremony.
Explanations followed, and as it was then too late for the wedding to take place that day, the Registrar suggested that the bridegroom should appear with the young woman the next day.
The following day the couple duly arrived together, and the marriage was solemnized.

Now San Francisco Shows New York

From the Hotel St. Francis in San Francisco to the Hotel Biltmore in New York is more than three thousand miles of travel. But the Columbia Graphophone Company induced Art Hickman's Orchestra to travel all that distance and back in order to give the public records of the best popular dance orchestra in America.

Art Hickman's Orchestra played at the Biltmore Hotel, and at the New Ziegfeld Midnight Frolic on the New Amsterdam Roof at night. New York asked these artists to stay, but our master musicians have come back.

London Papers on Renewed
Slump in Exchange

International Conference is
Suggested by Some Papers—
American Treasury Secretary Says Unthinkable to Call on U. S. to Fix Matters.

London, Jan. 30.—The renewed slump in exchange is conspicuously featured in Thursday's morning papers, some of which apply such terms as "chaos" and "grave crisis" to the position, which they declare threatens to bring to a standstill international trade or drive nations back to barter. Some of the papers advocate a settlement of the difficulty by an international conference, which the bankers recently asked the government to convene, and which, according to some sources, the government has already invited.

Others are disinclined to place faith in such a convention. The Daily Mail is amongst these. It says: "So far as Great Britain is concerned, there are three obvious remedies, namely, to cease printing paper money, economy and increase in production."

The Post deprecates the tendency in some quarters to charge the United States with profiteering when explaining the trouble, and says: "As America looks across the Atlantic she sees a disarray of currencies and a rather feeble attempt by some of the countries to redeem the situation through the quarter of industry, and she may be excused for some perplexity as to what course to take."

"The plain fact is that, serious as the fall in currency is, it is doubtful whether without it the attention of the various communities would even now be aroused to the necessity of economy and increased production."

At Washington, Jan. 30.—It would be "folly and unthinkable" to call upon the United States to remedy the present inequalities in exchange. This is the statement made by Secretary of the Treasury Glass last night in a letter to a committee of the chamber of commerce of the United States which consulted the government as to an international conference of financiers to discuss the present business chaos of the world.

Mr. Glass says the exchange inequalities were born of the policy of taxation in Europe less drastic than that in the United States.

"The remedy for the situation," writes Mr. Glass, "lies in the actual movement of goods, of investment securities, and in default of these, then in gold from Europe, and in order that such securities may be absorbed by investors, more people must consume less, they must work and save."

Brussels, Jan. 30.—Speculation in foreign exchange will be punished by severe penalties under a royal decree to be issued soon, according to the Belge independence.

London, Jan. 30.—A caricature of "Uncle Sam" with an elongated proboscis bearing the words "prohibition," is soon to appear on labels pasted on every bottle, keg, cask and barrel of beer, wine or whiskey sold in Great Britain. The labels, five million of which have been printed, bear this inscription: "If prohibition wins, there will be no more beer."

Some dealers objected to this wording on the ground that it vulgar, so a second label has been printed, for use by grocers, bearing a sketch of an inverted pyramid designated "prohibition," and the warning: "Local option is the thin end of the wedge. Don't let them drive it home."

IMPERIAL PRESS
CONFERENCE

London, Jan. 14.—(Associated Press Correspondence)—The second Imperial Press conference is to be held in Canada during next August and September. Leading representatives of the newspapers of the British Empire have been invited by the Canadian Press to attend the conference to discuss their common aims and interests and also to obtain, by means of a tour throughout the Dominion, a first hand knowledge of its life and resources.

The delegation from the United Kingdom will include proprietors and editors of the prominent daily newspapers, with Lord Burnham of the London Daily Telegraph as chairman. Lord Northcliffe of the Times and other papers has also stated his intention of attending.

B. C. LEGISLATURE
BEGINS SESSION

Victoria, B. C., Jan. 30.—(Canadian Press)—The British Columbia legislature was opened yesterday afternoon by Lieut.-Governor Prior. The speech from the throne referred to the prosperity which the province is enjoying in industrial activity, but did not foreshadow new legislation of any great importance. Many of the present laws will be amended, chief among them the prohibition act to regulate and limit the number of liquor prescriptions which may be issued under the act.

OLD HOME WEEK

An "All-maritime province old-home week" is planned by some Nova Scotia people for 1924. Some of the originators of the proposal, H. C. Crowell, Hon. W. L. Wickwire and A. R. Whitman of Halifax, were in the city yesterday on their way to Boston, where the first named will speak before the Intercolonial Club on this subject. Hon. P. J. Yeniot will be in Boston on the same date to address the Canadian Club and it is possible that he and the Nova Scotians may get together on the question.

COMMERCE BOARD
NOW TO RULE ON
PAPER QUESTION

Control Placed with Board,
Following Resignation of
Breadner, New Controller.

Ottawa, Jan. 29.—R. W. Breadner, who temporarily succeeded R. A. Pringle, K. C., as paper controller, has resigned, and his resignation has been accepted. The whole question of paper control has been placed with the Board of Commerce. The government has determined that, owing to recalcitrant mills having been so much trouble in connection with the applying of news print, the form of contract should be placed in the hands of a body having the greatest possible powers to see that its orders are carried out. That body is the Board of Commerce.

The Board of Commerce, it is pointed out, has full and complete authority invested with the powers of a court and has the right of punishing not only the printers disobeying orders but also directors and managers who disregard them.

Washington, Jan. 30.—It would be "folly and unthinkable" to call upon the United States to remedy the present inequalities in exchange. This is the statement made by Secretary of the Treasury Glass last night in a letter to a committee of the chamber of commerce of the United States which consulted the government as to an international conference of financiers to discuss the present business chaos of the world.

APPETITE FAILED,
SHE TRIED "LIV-RITE"

Found it Cured Her, Says Local Woman—Firm Believer in "Liv-Rite" Now.

To those who are troubled from causes associated with the liver, the experience of a St. John woman, Mrs. Maud Blizard, 73 Erin street, should be of much value. If they follow her advice they will become as ardent believers in the curative properties of "Liv-Rite" as she apparently has, for she recommends it to any who are suffering from blood impurities, dizziness, gaseous stomach, and general feeling of weariness or listlessness.

"I had tried different medicines before I began to use Liv-Rite," Mrs. Blizard writes: "None of them seemed to do me the slightest good. I might find relief for a day or so but always my trouble would come back upon me. But now I feel I am safe in saying I have been cured and I can thank 'Liv-Rite' for it. I was unable to sleep. I found my appetite failing me—much of what I ate did not agree with me. Occasionally I would have dizzy spells. I began to lose weight. This went on for some months. I read in the paper about a local man who was troubled in this way and who had used 'Liv-Rite'—I thought I would try it. I did so for today I can hardly recognize myself as the same woman, there is such an improvement in my health. You may use this letter if it will be of any good to others who are troubled the same as I was."

This "Liv-Rite Tonic" is now handled at most reliable drug stores and costs a dollar a box. If your druggist can't supply you, send a dollar from wherever you are and you will receive a box of the tonic by return mail, from the Martine Drug Co., 108 Prince William street, St. John.—(Adv't.)

MUST COMPLY WITH
Order, Says Commerce
Board Statement

Ottawa, Jan. 30.—(Canadian Press)—In a statement issued last evening Commissioners O'Connor and Murdoch of the Board of Commerce emphasize importance of compliance with the board's order regarding building materials, issued some three weeks ago. They state that the order, which, among other things, require transmission to the board of the cost and selling price of these materials by vendors of the same, has now the same effect as if it formed part of the Board of Commerce Act, and that non-compliance with the order will constitute a breach of the act.

The statement is issued because the board has gathered from certain articles appearing in trade papers and from correspondence that certain vendors of building materials infer that because made upon them their compliance is not required by law.

REFERENDUM IN
SASKATCHEWAN

Hon. W. F. A. Turgeon
Moves Resolution in
Legislature

Question of Prohibition of
Importation of Liquor Into
Province—Drastic Provisions
of Proposed Bill.

(Canadian Press Despatch.)
Regina, Sask., Jan. 30.—Before crowded galleries, Hon. W. F. A. Turgeon last night moved a resolution asking the dominion government to take a referendum to determine whether imports of liquor should be prohibited, not in Saskatchewan. He reviewed the history of temperance legislation from centuries before Christ to the present day, emphasizing the fact that restrictive measures were of little avail without a public conscience supporting the law.

The bill is so framed that the commission has complete authority to grant or refuse to grant the license to sell liquor to any person in any one day. Beauty Specialist
Tells Secret

A Beauty Specialist Gives Home-Made
Recipe to Darken Gray Hair.

Mrs. M. D. Gillespie, a well-known beauty specialist of Kansas City, recently gave out the following statement regarding gray hair: "Anyone who prepares a simple mixture at home that will darken gray hair, and make it soft and glossy. To a half-pint of water add 1 ounce of bay rum, a small box of Orlex Compound and 1/4 ounce of glycerine."

These ingredients can be purchased at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look ten years younger. It does not color the scalp, is not sticky or greasy and does not rub off."

LADES' AUXILIARY
ELECTS OFFICERS

The annual meeting of the Ladies' Auxiliary of the Church of England in St. John was held yesterday. Mrs. A. W. Daniel presiding. Reports presented were most satisfactory. They were presented by Miss Annie Hipwood as secretary, Miss H. S. Smith as treasurer, Mrs. T. E. G. Armstrong, convener of tea committee, Mrs. L. P. D. Tilly as membership secretary, Mrs. W. D. Walker as secretary for missions, and Mrs. J. F. Robertson for the books committee.

The hospital committee report, submitted by Mrs. A. C. Skelton, showed that 221 visits had been made. Mrs. Tilly spoke of the work of the Women's Hospital Aid, in which the Anglican Church is taking an active part. Mrs. J. Gordon gave an excellent report of the work of the Women's Council for which she is the Auxiliary's delegate. Miss Alice Walker read the report of the Zenana Mission Society.

A letter from the secretary announced that the Institute was holding its annual meeting about the middle of February. The election of officers resulted as follows: President, Mrs. W. Daniel; Secretary, Mrs. W. D. Walker; Treasurer, Miss Helen Sydney Smith; committee of management, Mrs. Thomas Walker, Mrs. J. H. McAvity, Mrs. W. E. G. Armstrong, Mrs. C. Skelton, Mrs. T. E. G. Armstrong, Mrs. J. Arthur Coster.

ENGLISH AS THE
WORLD LANGUAGE

Stockholm, Jan. 11.—(A. P. Correspondence)—English was undoubtedly the most suitable as a world language, in the opinion of Professor Jarmy of Louvain University, Belgium. He made this statement in the form of a reply to the question addressed by the Northern Peace Society to prominent linguists in various countries as to which language would be best adapted to universal use. After declaring in favor of English, M. Carnoy wrote:

"The German and French languages have lost their place through the English language is a hospitable one, being a kind of compromise between the Latin and Germanic tongues; also it is simple and is spoken by most progressive nations of the world, and has one of the most beautiful literatures of modern times."

Dunham's Nerves Steady
Now and Health Fine Since
Taking Tanlac.

"Yes, sir, I am in the very best of health since I have taken Tanlac, and I feel so grateful for it that I want to tell the world about this medicine," was the statement made the other day by Arthur Silas Dunham who lives at 11 High street, Moose Jaw, S. B.

"You can just imagine," continued Mr. Dunham, "what a weakened, miserable condition I was in after I had the influenza and it was followed by pleurisy and bronchitis. I was so weak I could hardly get about and so nervous I shook like a leaf. Severe headache came on me and at times I got so dizzy it was hard for me to stand up. I had almost no appetite at all and the little I did force down seemed to give me no strength or nourishment. It was next to impossible for me to get a good night's rest—why, sometimes I got hardly two hours' sleep. When morning came I was simply 'all in' and all day long I felt so miserable that life was hardly worth living."

"A friend who knew the condition I was in came to me and told me about Tanlac and advised me to give it a trial. And it am no longer bothered with headaches or dizzy spells. I sleep like a child the whole night through and when morning comes I get up feeling just fine."

Tanlac is sold in St. John by Ross Drug Company and F. W. Munro, under the personal direction of a special Tanlac representative.—(Adv't.)

N. S. FARMERS
PROTEST AGAINST
DANGEROUS SAVING

(Canadian Press Despatch.)
Kentville, N. S., Jan. 30.—The Nova Scotia Farmers' Association in annual session here unanimously voted to protest against the enactment of a daylight saving law by the N. S. legislature or parliament of Canada, and strongly protested against the railways advancing the clocks one hour.

The association will ask the government to prohibit the traffic in liquor. J. Howland Cox of Cambridge, N. S., is elected president.

CELEBRATES 80TH BIRTHDAY.

In honor of her eightieth birthday, her nieces, nephews and friends assembled last night at the home of W. E. Brittain, in Pitt street, and tendered Mrs. James Flewelling of Kingston, a reception, making a presentation of a purse of gold to her. The presentation was made by W. F. Brittain, her nephew, in a congratulatory address, and a reply in Mrs. Flewelling's behalf was made by Col. Percy Belyea. She was active and gay in last night's enjoyment and entered into the festivities in her honor as cheerfully as those who helped her celebrate. She is the grand-daughter of a loyalist, Colonel Brittain.

Those who had planned the party and who were present when it took place were Mr. and Mrs. F. W. Lyon, Hon. Miss Gertrude Williams, Mrs. Helen Craft, Mrs. Jenny Smith and Mrs. Percy Belyea. She was active and gay in last night's enjoyment and entered into the festivities in her honor as cheerfully as those who helped her celebrate. She is the grand-daughter of a loyalist, Colonel Brittain.

THE ECLECTIC CLUB.

The Eclectic Club met last evening at the residence of H. A. Powell, Queen square, and was greatly interested and delighted by the programme arranged by Mrs. Gordon MacDonald and Miss "Musical Evening." Mrs. MacDonald read a paper on musical events in 1919. Miss Homer's paper dealt with Czechoslovak music. A sketch of the life of Adeline Patti was read by Mrs. Cortland Robinson and an account of the life of Frederick Chopin by Miss Paddington. During the programme songs were given by Miss Valde Penton and Mrs. Walter Harrison, a piano solo by Mrs. Kent South, a violin solo by Mrs. T. J. Gunn and Miss Dorothy Bayard acted as accompanist.

KILLED AT HAMPSHIRE.

A sad accident happened at Hampshire, N. B., on Monday last, when Mrs. James P. Rathburn met her death by being crushed beneath a woodpile. She had gone to the pile to get some firewood when a corner of it collapsed under the weight of a huge mass of snow on top of the planking and she was undoubtedly suffocated in a very short time. The husband was away since early in the morning and on his return was shocked to find his wife dead, with her body frozen. He summoned Dr. Jenkins, who pronounced death due to strangulation by Miss Paddington. He decided that an inquest would be necessary. Mrs. Rathburn was about thirty years of age and a daughter of Samuel Arnesen of Moss Glen. Much sympathy is felt for her family and husband to whom she had been married seven years. No children survive.

DOMINION POLICE.

Ottawa, Jan. 29.—On Saturday at midnight the dominion police force, as it is at present constituted, ceased to exist and the personnel is absorbed by the Royal Canadian Mounted Police, the title of the R. N. W. M. P. being changed with the coming into effect of the act at midnight, Saturday.

Headquarters of the new organization will be in Ottawa and Commissioner Perry is already here. Colonel C. Starnes, assistant commissioner will be second in command at Ottawa headquarters.

Y. M. C. I. Celebrates
Third Anniversary

The third anniversary of the Y. M. C. I. in their rooms in Cliff street last evening afforded enjoyment to a large gathering over which A. C. D. Wilson, chairman of the social committee, presided. An address was given by Thomas Nagle, president of the institute and other speakers were Leo Durick, president of St. Peter's Y. M. A., J. C. Ferguson of the Y. M. C. I., and Herman Bates Tapley met with hearty applause, while the orchestra of the institute directed by Dr. Arnold Fox, afforded an pleasure in several selections. Congratulations were extended from sister societies and best wishes for the future of the "Y." Owing to a lecture and meeting in the Knights of Columbus rooms, no representative from that society could be present but its best wishes were extended.

ENJOYED SLEIGH DRIVE.

On Wednesday evening about 140 students of the Modern Business College, accompanied by the principal and staff, rode in four large sleighs to Torryburn, returning to the Manor House, Glen Falls, where an enjoyable evening was spent. Dancing and whist made up the evening's entertainment. Piano and violin music was given by Messrs. Allen and O'Hara. The party was accompanied by Mrs. H. U. Quinn, Mrs. W. D. McLenahan, Mrs. H. M. Wheaton and Mrs. W. E. LeBlanc. During the evening refreshments were served by the young ladies.

FAILURE OF A SETTLEMENT OF SOLDIERS

Sensational Report Submitted to the New Ontario Government

LAND UNSUITABLE

Recruits for Insane Asylums if Conditions Are Not Improved—Crops Frozen Out—Cost \$800,000.

"I have little hesitation in saying that if something is not done soon to relieve the situation we will have recruits for our insane asylums from the colony." These are the concluding words of a report which Hon. (Col.) D. Carmichael, minister without portfolio in the Ontario government, placed before the cabinet yesterday with regard to conditions at the Kapuskasing soldiers' settlement, which was established by the former Conservative government. Colonel Carmichael is the representative of the soldiers in the Ontario government. He recently visited the camp and made a careful investigation of the many complaints that have been made for months past by the settlers living at Kapuskasing. While some of the causes of the discontent among the settlers Colonel Carmichael regards as trivial, his report undoubtedly substantiates in a general way many of the statements made both

during the provincial election campaign and since relative to conditions there. Majority Have Grievances.

"A great deal of discontent exists for various reasons," Colonel Carmichael states in his report. "The majority of settlers have grievances of one kind or another. The land is very difficult to clear, as it is densely wooded and covered sometimes to a depth of eighteen inches with moss. The timber is small, averaging about eight inches in diameter, and is not all suitable for pulpwood. When cut down brush and moss must be burned and the ground stumped. This is a very slow, expensive process, as some of the stumps have to be blown out. Some pieces of land have cost as much as \$150 an acre to clear. The houses built for the settlers proved very expensive, and in this connection a promise seems to have been made by Mr. Grigg (deputy minister of lands and forests) last October that a qualified valuator would be sent up to make an estimate of material and labor involved in the construction of any house over which there was any dispute, and an adjustment made. The only promise I made while there was that I would insist on that promise being kept.

"The system of loaning horses and implements to settlers, seemingly, cannot be carried on in such a manner as to satisfy the settler and the department. "There are several complaints made re the conduct of various officials of the colony, the manager of the store, etc. These I am inclined to consider as comparatively trivial, and would recommend that the scheme be discussed mainly as to its suitability for a colonization and agricultural standpoint and as a reward to the soldier for his services during the war.

Settlers' Crops Frozen Out.

"Turning to climatic conditions we find that in every month during 1918 the temperature fell to freezing point, so that it was possible to harvest only very hardy crops. It is possible when large areas become cleared the danger from frost will be lessened." He points out that on the Dominion Experimental Farm, where there is clearing of 1,000 acres, crops matured, whereas on the small clearings of the settlers the crops were frozen out.

"When the proposition arises," he continues, "which is more desirable, crop or timber production? As a publicly-assisted colonization scheme as a reward to the soldier for his services, it is as well to admit that quite a large proportion of the settlers are unfitted for pioneer conditions. Many of them, accustomed to city life, cannot reconcile themselves to the steady, monotonous and unremunerative toil and hardship which accompany the life of the frontier. Some settlers have arrived at a point where success seems to them too difficult of attainment and are frankly looking down on the job. Some of the older settlers on the scheme, finding themselves with only small clearings and unable to produce sufficient for their own consumption, and being in many cases in debt to the department, are discouraged and cannot see any future for themselves or families. It is to be remembered that very few settlers have stock of any kind. Their holdings (cleared) are too small to support even a team of horses and a cow even if they could afford to buy them. Prices of fodder are prohibitive. Many of the settlers are getting deeply in debt to the department by their buying at the colony store. This situation is becoming serious.

"The settlement at Hartley is a very difficult problem. Only three families are spending the winter there. It is impossible to provide employment for these few settlers who are satisfied with their treatment and conditions say they cannot see any future for themselves as farmers. Some of them, exhausted, only one patent has been granted as yet. This was to a widow of a settler. "The total cost of the colony to date is approximately \$800,000.

First Party in June, 1917. Colonel Carmichael, in his preamble of the report, traces the opening of the settlement from the time it was opened in 1917 down to the present. The first colony was started on the main line of the G. T. P. where it crosses the Kapuskasing river, township of O'Brien. The scheme at first involved training the men and a training school was begun at Montserrat on the T. N. O., a permanent building being erected at a cost of \$40,000.

The first party, numbering 24, went to Montserrat in June, 1917. After staying a month there they went on to Kapuskasing. Apparently, Colonel Carmichael states, this was the only party to use the training school. At colony headquarters there are located the administration building, dormitory, store, stable, sawmill, planing mill, laundry, two-roomed school, railway siding and storehouse, a farm consisting of 600 acres, 125 of which are cleared. About 70 horses are kept.

REAL ESTATE

Under the original scheme the department undertook to give to each settler, a grant of 100 acres for each settler, a grant of \$150 toward building a house, loan of \$800, repayable with interest in twenty years," states the report. "When a suit-

REAL ESTATE

able house was built and ten additional acres had been cleared a title was to be granted. Under the new scheme the settler gets a free grant of 100 acres, and the government pays \$800 toward clearing the first ten acres. Horses and machinery were to be loaned to settlers. Three vans are supplied to carry children to school. Roads are built, but as gravel, stone, etc., are not obtainable in that country these roads get very bad in wet weather.

"A total of 101 soldiers were established. Some of these have gone to other settlements for the winter to work. There are three settlements now: Kidgan, about five miles east from Kapuskasing; the main colony, and Hartley, about ten miles west.

"It was thought that a pulp mill would be erected at or near Kapuskasing, which would provide a market for settlers' pulp and also supply work, but this is not materialized. At present pulp is shipped to Smooth Rock Falls mill, price \$7 per cord at point of shipment. Under orders from the department of lands and forests, the colony superintendent pays \$4 per cord for firewood. Deep snow makes it rather difficult to handle wood in winter."

Butter served to the prisoners in the county jail at La Crosse, Wis., helped one of them trying to escape. The butcher, the main colony, and Hartley, about ten miles west.

What would you do with it? A conservative man doesn't carry a lighted bomb around with him, searching for water to put out the fuse. He gets rid of it as quickly and gently as possible, then goes away from there. Not all of us know that we are packing around with us every day a perpetual source of trouble that may produce disease or even death. Ninety per cent of human illness is caused or aggravated by a clogging of waste in your bowels. By an entirely new principle Nujol will keep the poisonous waste moving out of the body. Every other form of treatment either irritates or forces the system. Nujol works on the waste matter instead of on the system. Nujol prevents constipation by keeping the food waste soft, thus helping Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. It is absolutely harmless and pleasant to take—try it. Nujol is sold by all druggists in sealed bottles only bearing Nujol trade-mark. Write Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, New York, for booklet, "Thirty Feet of Danger." A New Method of Treating an Old Complaint

ter, mixed with some self disinfectant, made a substance which furnished him with light for his night work. A strip torn from his shirt made a wick. With this improvised candle he worked until the floor of his cell, making a hole large enough to let him through. A short tunnel took him to the brick wall which would have been easy picking for him had he not been discovered.

A New Party Is Formed in Nova Scotia

Kentville, N. S., Jan. 29.—Nova Scotia gave birth this afternoon to a new political party. After the convention of the Nova Scotia Farmers Association was closed, some of the members and others unattached, to the number of one hundred, held a meeting to consider the farmers' platform adopted by the United Farmers of the West and Ontario.

CHILDREN'S AID KIDDIES PRESENT CINDERELLA

The playette Cinderella was given a most elaborate presentation with gorgeous costume effects in the Children's Aid Home last night when one hundred delighted visitors witnessed the children's most successful performance. The playette was given under the direction of the matron, Mrs. Peatman, and the teacher, Miss Poole, and the pleasure of the children in the entertainment knew no bounds.

William Allan, a soldier who returned to Canada last October and whose wife died shortly afterwards of influenza, leaving him with three small children, was present as a visitor and in a few words he feelingly voiced his gratitude to the home and its organizers. He told of having placed his children in the home and of the wonderful care that they had received. He said he considered the institution was doing one of the finest works that could be engaged in and congratulated St. John on possessing it.

LEARNING FROM SOAP BUBBLES

One Bubble Lasted for More Than a Year.

It is announced with impressive gravity by the Journal of the Franklin Institute, in Philadelphia, that Sir James Dewar has blown a soap bubble that lasted for more than a year. Many people have had the idea that blowing bubbles is about the most childish of amusements and far beneath the dignity of grown folks, let alone a scientific sharp like Sir James Dewar, who is a fellow of the Royal Society and Fullerton professor of chemistry in the Royal Institute of Great Britain, but if one recalls that it was the fall of an apple that led to Newton's discovery of the law of gravitation, which has been called the most stupendous effort of the human mind recorded in history, and that a bubbling tea kettle suggested the idea of the steam engine, it may be inferred that blowing bubbles may also be fraught with important consequences. Sir James has been experimenting with bubbles for more than a year, not, we may suppose, with a view of challenging some other professor to blow a longer-lived or larger bubble, but to get a little closer to the underlying secret of the world.

Studying the Molecule.

To the man of science the importance of the bubble lies in the fact that it affords one of the very best means of studying the molecule, and it is obvious that the longer the bubble lasts the better will be the opportunities of studying it. Ordinary soap bubbles are not suited for the purpose of investigation, and therefore Sir James and others who are exploring along similar lines make a bubble of a special concoction of water, ammoniumoleate, glycerine and other things, and experiment with air both inside and outside of the bubble that is free from organic matter. One of the first things to be noted about these bubbles after they have been in existence for a considerable length of time is that they turn black in spots and if they last long enough become black all over.

Every black spot means that there the wall of the bubble is composed of a single layer of molecules, and one of the results of the experiments has been to show the tremendous strength of the molecule, even of the molecule of water. Sir James, in making his report, said that it was Pasteur who discovered the presence of living organisms and their spores in the atmosphere. Unless the bubble can be blown in a chemically pure atmosphere, it will not long survive.

Purifying the Air.

Several methods have been employed for thus ridding the air of every particle of dust. Pasteur used to purify it by passing it through a red hot platinum tube containing platinum gauze, afterwards removing the total carbonic acid. Tyndall used to burn it with a Bunsen flame, or smeared the inside of a glass vessel with glycerine to which the dust would gradually adhere. The case before Dewar, in view of the fact that ordinary London air contains about 100-60 suspended particles, organic and inorganic, per cubic centimetre, will be appreciated. However he did get absolutely pure air and it is chiefly for this reason that his bubbles lasted so long. He blew a large number of them and a careful record was kept. It was noted that their shapes soon began to change, the tendency being always towards contraction for the reason that the air inside the bubble being at a slightly greater pressure than the air outside, tends to escape. As the bubble becomes smaller it becomes more highly colored. This, of course, is when the bubble is only a few inches old and before it begins to turn black.

Strength of Bubble.

Mr. Dewar noted that a bubble composed of five per cent ammonium oleate in fifty per cent glycerine "exposed to rough air molecules ten to eleven times the thickness of the bubble wall passed through it and escaped to the outer air. Yet in some cases it took one year for enough air molecules to escape to burst the bubble.

Of Industrial Value.

It may be that the value of these experiments to the average business man has not been made clear, but it is most interesting to note that Sir James Dewar is famous not more for his researches in pure science than for the value of these researches to industry. It was on these specific grounds that last year he was one of the two Franklin medalists, the other being Major-General George Owen Squier. The award is made by a jury of sixty men, most of them experts in various lines of American industry, and it is certain that if the discoverer of a man or his research work do not promise to have material value, he will not receive the Franklin medal. It was the Germans who led the world in their recognition of the important link between science and industry, and it is satisfactory to know that British and American philanthropists are now offering rewards for scientists who can give a helpful idea to industry. The Dewar experiments have a bearing upon the study of surface tension phenomena, and indirectly are of value in all experiments in the strength of material. Curious it would be if he should

HORROCKSES
LONG CLOTHS & SHEETINGS

Now, as in Great-Grandmother's day, it is important to see that the name "HORROCKSES" is on the selvage of every piece of Longcloth, India Cloth, Nainsook, Cambric, Madapolam, Sheeting and Flannelette you buy.
