'Phone Here From Georgia

Relative Calls Up To Ask About A Soldier

Conversation Over 2,000 Miles Stretch and All Clear—Major Thomas of Military Hospital Thought He Was Talking to Some One in Province

From the snow and ice of a March day in St. John to the balmy sunshine of Savannah, Georgia was the climatic extent of a telephone conversation on Tuesday morning between Major Thomas of the West St. John military hospital and a lady relative of Private Geo. Daniel, who is convalescing after his return in the transport Cassandra.

The mileage of this long-distance talk is in the vicinity of 2,000, which establishes a record for this city and doubtless for all of this far eastern section of the dominion. When one realizes that it takes twenty-four hours of fast express railroading to land you in Savannah from New York, and then back on the twenty-hour journey from St. John to New York, some conception of Tuesday's phone marathon will be had.

Major Thomas, of the military hospital, was greatly surprised when the 'lines' queried him about his record-breaking 'phone message. He thought he had been talking to a provincial point, such as long distance calls are quite frequent with him. He says the voice was clear and quite understandable. Private Daniels, a Toronto man, is likewise puzzled, but his worry is to know who the diabolical caller is, and how long he naturally is out of touch with family movements.

The telephone conversation between Savannah and St. John was made possible by the fact that in the United States they have spent large sums of money in installing what are known as "repeaters" at points like Bangor, Portland, Boston, New York, and elsewhere, where telephone traffic is heavy.

There are none of these automatic repeating instruments on the maritime right side of the boundary as yet, but for the sake of bringing Halifax and the more easterly points into this telephonic bond of union some may be installed later.

Phone conversations from St. John with New York and Boston have been clearly conducted of late. Mr. Phelan of Boston, wife of the manager of the Halifax Stock Company, who played here recently, was greatly surprised and delighted to have her husband say "Good morning" to her yesterday and carry on a conversation as plain as if phoning from around the corner.

D.R.B.I.G ON BOLSHEVISM
Sees Decrease in Russia If Reds Are Crushed in Germany

Paris, March 13.—"If Germany succeeds in crushing Bolshevism at home, it will cause it to decrease in Russia, since Bolshevism arises from an idealist phenomenon which needs success to keep it alive," says Dr. Bernhard Dernburg, former colonial secretary of the German government, in an interview at Weimar, published in the Echo de Paris. "When calm is restored, the conference, Germany will be able to plan economic action in the east to stamp out Bolshevism. Germany's best plan, in my opinion, would be to go ahead as quickly as possible with social reforms. It must be proved to the German people that their rulers are doing everything possible to relieve them materially and to help them to develop themselves morally and intellectually."

"That is, I believe, the view of the existing government, and I have reason to believe that these methods will give good results."

BRITISH PARLIAMENTARY SANCTION NEEDED, THEN BIG WORK ON TUNNEL
Paris, March 13.—(Halifax Agency)—It is stated in French technical circles that M. Sartiaux, chief engineer of the Northern Railway Company, and of the French company which holds a concession for participating in the building of a tunnel under the English Channel, is in accord with Sir Francis Fox, a British expert, as to the details of construction. It was asserted yesterday that it only remained for the British parliament to sanction the tunnel, when the work of construction would begin.

GERMANS A PEOPLE WITHOUT HOPE
Carnival of Prodigality and Debauchery Under Shadow of Impending Chaos and Anarchy

London, March 13.—Picturing internal conditions in Germany, the Daily Mail's Berlin correspondent under date of Monday says that the carnival of senseless prodigality and reckless debauchery prevailing in the German capital is the result of the complete breakdown of the people's nervous system.

"The tension everywhere in Germany is greater even than during the war," the correspondent says, "because over the country hangs the shadow of impending horror—chaos and anarchy combined, from which many believe the country cannot be saved."

"Faith in the national assembly has almost vanished, and hardly any one takes the trouble to read the proceedings at Weimar. Still fewer deny that the Scheidemann government has proved a failure. The possibility of a dictatorship is discussed openly, and of national defence, and Colonel Von Lettow-Vorbeck (former commander of the German troops in German East Africa), and even of Field Marshal Von Hindenburg and Von Kluck are freely mentioned."

DECLARES TISZA

LED PLOT TO KILL

Charges in Connection With Assassination of Archduke Francis Ferdinand

Berns, March 13.—Charges that the assassination of Archduke Francis Ferdinand and his wife, the Duchess of Hohenburg, at Sarajevo on June 28, 1914, was the result of a deliberate plot led by the late Count Tisza, former Hungarian premier, are made in a pamphlet written by a priest who was the spiritual adviser of the Duchess of Hohenburg, according to a Vienna despatch to the Frankfort Gazette. The pamphlet, entitled "The Sarajevo Murder and Count Tisza's Responsibility for the World War," is said to have made a profound impression in Austria.

It is declared that Francis Ferdinand repeatedly refused to go to Sarajevo and it was only an appeal to his courage that induced him to make the trip.

"The most elementary precautions were omitted," it is stated by the priest. "He was simply led into a trap prepared by the court at Vienna and by the Hungarian aristocracy, headed by Count Tisza."

The general idea of the pamphlet is that Magyar magnates, with the consent of the Vienna court, wished to get rid of the archduke, who was extremely disliked, and obtain vengeance for the murder of the emperor's son, who would be made helpless. It is pointed out that no "proper" inquiry was ever made into the tragedy and that no one was made responsible for the fact that precautionary measures were not taken.

Count Stephen Tisza, who was assassinated at Budapest on November 1, 1918, was for several years one of the outstanding figures in Austro-Hungarian political life.

HEAD OF NOVA SCOTIA FARMERS' ASSOCIATION AGAINST DAYLIGHT SAVING

Halifax, N. S., March 13.—At the opening session of the 22nd annual convention of the Nova Scotia Farmers' Association, held in Truro yesterday, Samuel Tremaine, president, gave a comprehensive review of the last year from the farmers' standpoint. He denounced daylight saving and urged that the farmers of Nova Scotia follow the lead of their brethren of Ontario and the west in making politics their servant instead of their master.

Lieut. J. G. Robertson of the soldier settlement board, explained the steps being taken to re-establish soldiers on farms. The sessions are being continued today.

TRIBUTE TO WOMEN OF ST. JOHN FOR WORK DONE AT THE DOCKS HERE

Ottawa, March 13.—The question of registration of the women voters was partly discussed last evening by the executive of the National Council, and laid over for a future time.

Mrs. Robson of the Women's Auxiliary Committee, who is in charge of the work of the government was doing for repatriation of the returned soldier. She paid a tribute to the work of the women of Halifax and St. John in their efforts to assist in welcoming the arriving women and children at Canada's port of entry.

Sir Herbert Ames gave an address upon the war savings stamps, and the reasons why every man, woman and child in Canada should purchase these thrift stamps.

SPAN MOBILIZES STREET CAR STRIKERS
Madrid, March 13.—The street car employes at Barcelona went on strike yesterday, and the minister of the interior has announced that the men were at once mobilized under government control. He declared that the same measures will be promptly applied to the employes of any other public utility corporation who go on strike.

JACK JOHNSON SAYS BOUT WITH WILLARD FAKED

Declares It Was Arranged He Was To Lose

Champion Declares Story Void of Truth and Declares Colored Pugilist is Trying to Get Money By Making Another Match

Havana, March 13.—Jack Johnson, former heavyweight champion, in a signed statement given to the Associated Press, declares that his fight with Jess Willard in this city four years ago was a pre-arranged affair and that he allowed Willard to win. In addition to the sum of \$30,000, entire rights to the moving picture films in Europe and thirty-three and a third per cent of the proceeds from their exhibition in the United States and Canada are mentioned by Johnson, together with the promise to set the Johnson's difficulties with the federal authorities in Chicago so that the colored pugilist might return there to reclaim his property and see his mother.

Johnson declares in his statement that he believed that the determination was arranged that he should lose in the tenth round, provided Willard's showing was such as to justify it, but that as Willard was doing practically nothing he was forced to win. The signal agreed upon was given in the twentieth round, Johnson states, but he walked out until the twenty-sixth round to give Willard an opportunity to make a good showing. The former champion declares that unless Willard agreed to fight him within a reasonable time he will claim the world's title. He signed his statement "Jack Johnson, champion."

Colonel DeStramps, former congressman, who is backing Johnson, said that Johnson is willing to battle Willard anywhere in the United States, except where he is in the United States, and he proceeds to go to the Clark-Griffith hall, but found, or to any charitable institution. Colonel DeStramps has wired "Pat" Masters, New York, asking for the address of Dempsey and Willard, with the idea of arranging a match between the two.

The statement, in part, follows: "To arrange the match, Jack Curley came to London, England, and I asked him if I was willing to fight Willard, and I said I would if he gave me my pay. I thought I would beat him man for man. Mr. Curley said he did not want that. I told Curley I would fight him anywhere in the world." (Continued on page 2, fifth column)

AN ONTARIO POWER MATTER

Ottawa, March 13.—Believing that time would be saved and a fair and equitable settlement reached, the settlement of the disputes arising out of the appropriation of power to municipalities by the Ontario Power Company, Limited, claim to have delivered their dissent, claim to have delivered their dissent, claim to have delivered their dissent.

The order-in-council just passed says it is questionable that the government is within its powers in directing the price to be fixed by Sir Henry Drayton and Sir Henry in a letter to Mr. Meighen is interested in settling by the exchequer court which has a very large experience in dealing with such matters.

Under these circumstances it was deemed advisable by the government to vest the price of fixing power definitely in the exchequer court, which is also given authority as to the collection of moneys from the Ontario Power Company or any other companies or persons liable for power furnished under the orders of the power controller.

HALIFAX CARPENTERS WANT 75 CENTS AN HOUR

Halifax, N. S., March 13.—The carpenters' union of Halifax has sent a notice to the employers that, beginning May 1, the wages shall be 75 cents an hour.

MOTHERS DAY AT Y. M. C. A.
This is Mothers' Day in the Y. M. C. A., and this afternoon the small boys and youths are giving exhibitions of their physical drills and other exercises. Invitations to the mothers were issued some days ago and a large attendance was expected. Mrs. H. Colby Smith and Mrs. Corbin were in charge of the guests, while another committee of the Women's Auxiliary was to serve refreshments.

COLLIDED WITH CAR
Early this forenoon a street car collided with a stolen driver by C. T. Jones, teamster for J. M. Humphrey & Co., in the vicinity of the head of Brunsels street. Mr. Jones was knocked down and somewhat shaken up. The fender of the street car was smashed. Mr. Jones was helped to his home, Pond street, but after a short rest resumed his work.

No Adjournment Till The Debate Ended

Opposition May Talk All Night

That Was Outlook Today

Determination to be Put to Test—Preable Provisions of Woman Suffrage Bill—Premier Foster Addresses Farmers and Dairy-men

(Special to Times).
Fredericton, March 13.—That the debate on the reply to the speech from the throne will be ended before the legislature resumes tomorrow afternoon was confidently asserted this morning but how soon it will end is a question which cannot be answered definitely just yet.

In their effort to delay legislation and postpone the presentation of the McQueen report, although protesting great anxiety to see this document, the opposition leaders refused to make any agreement to shorten the debate, and have been proceeding with the evident intention of permitting every speaker on their side to speak at length.

It is anticipated that the provisions of the universal suffrage bill for the extension of the franchise to women is a provincial matter, which will be presented to the legislature before long, will be of generous terms, to the women, the ballot on identical terms with male voters.

In order to make sure that no women will be deprived of the franchise through oversight in preparing the first list, it is said that provision will be made that persons qualified under the bill to vote whose names do not appear on the lists, may be given the privilege of voting on taking the required oath, and with its entire franchise completely destroyed. The college-rink was saved as well as some other buildings.

The following St. John boys were among the students at the college—Arthur Walsh, Edward McNeil, Robert Brooker, Paul Moore, Gerard Flaherty, Harry Burns, Lee Atkinson, Cyril Conroy, Nigel Burns, of West St. John, and Raymond McMurray of Fairville. Their parents received calls from them this morning and they expressed their regret that they could not be present and arrive here this evening.

In addition to the 100 students who boarded at the college, there were 200 day students residing in Chatham. The college was founded eight years ago by the Rev. Father W. Roche, D. D.

The St. Thomas College insurance is written under a schedule covering \$200,000 on the buildings and contents. The following St. John offices are interested: E. L. Jarvis & Son, \$8,000; L. & L. & Globe, W. M. Jarvis.

SEIZED FOR VIOLATION OF ARMISTICE TERMS
Dunkirk, March 13.—(Halifax Agency)—Three German steamers captured by Allied warships for violation of the armistice terms have arrived here for internment. The steamers are the Italia, Mercur and Pluto.

BID NEUTRAL TO A PRIVATE CONFERENCE RE LEAGUE OF NATIONS

Paris, March 13.—(By the Associated Press)—An invitation has been sent out to all the neutral nations in Europe, Asia and South America, asking them to attend a private and unofficial conference here on March 30, with the object of giving them an opportunity to express their views on the league of nations.

Switzerland has already replied favorably to the suggestion.

WORE WAR CROSS OF FRANCE
Leut. Patuil, a French veteran of the war, wearing the cross de guerre and other medals, passed through the city this afternoon to his home in St. Pierre on the French dependency island of Anjouan, off the Atlantic coast. He attracted considerable attention in his blue grey uniform so gaily decked with honors.

Commissioners Hear Of The Police Matter

Mr. Wetmore Questioned About Award

DETAILS GONE INTO

The Subjects of Affiliation and Back Pay and Reasons For Conciliation Board's Decision

Almost the entire session of the common council in committee this morning was taken up with consideration of the findings of the board of conciliation on the recent police situation. A. W. Wetmore, chairman of the conciliation board, appeared before the mayor and commissioners and the whole report was gone into, discussed from various points of view and many matters regarding certain sections were asked Mr. Wetmore, who presented an admirable exposition of the whole report.

Mr. Wetmore's coming before the meeting seemed to clear the atmosphere of a considerable amount of business. The substance of the discussion was that the city's interests would be endangered if the local Police-men's Protective Association were allowed to become affiliated with the local Trades and Labor Council of the city of St. John, as there were features of the local Trades and Labor Council which were binding, but as regards the policemen seeking affiliation with the Trades and Labor Congress of Canada, the unanimous opinion of the board was voiced that it was all right.

Commissioner Fisher asked Mr. Wetmore if the city was not partly right in dismissing the men, to which the latter replied that a board of conciliation suggested that a board of conciliation had been refused by the city. Commissioner Fisher, however, reiterated his position in saying that in his opinion all the blame in the police situation should rest on the men on the city.

The mayor—"When did the men offer to work pending the decision of the board?"
Mr. Wetmore—"When the committee of the board of trade called on the city council."

PERMISSION FROM OTTAWA QUALIFIED

Matter of Reservists on the Steamship Toana at Halifax
Halifax, March 13.—With reference to a despatch from Ottawa last night denying the British reservists on the steamship Toana had been refused rail transportation to New York, it was stated at the Board of Trade meeting yesterday that the instructions received from the militia department and denying the issue of transport to the men were transmitted to Capt. F. W. Wickwire, military landing officer here.

At the clearing depot was stated that Captain Wickwire acted on a message received from Ottawa late yesterday morning to the effect that the men should not be issued to the men aboard the Toana, adding that the additional expense chargeable to the admiralty, "unless absolutely necessary." The military authorities here interpreted this message as meaning that the transportation should not be furnished and so informed the Reford Company.

The steamship company on their own responsibility decided to permit all those wishing to land and able to satisfy the requirements of the immigration laws to do so. Thirty-eight were thus able to proceed to their homes in New York and New England principally this morning. The Toana with the remaining 120 men and their baggage, including the 120 imperial reservists proudly wearing "Canada" on their shoulder straps, who arrived from that steamer last night, Captain Clarke Wallace, R.T.O., who came up from Halifax with the party, when asked concerning the behaviour of the men, said: "There is absolutely nothing in the reports of a fuss on board. And I want to say these are the most appreciative men I have ever brought from Halifax."

CELTIC ON WAY TO HALIFAX

Halifax, March 13.—The White Star liner Celtic sailed from Liverpool on Monday for Halifax with 148 first class passengers, 237 second and 2441 third. It is presumed that this list includes a large number of troops.

Halifax, March 13.—Word reached the city yesterday that the Marstonia, sailing from New York today, would probably call at Halifax for coal, owing to the strike at New York. The Caronia of the Cunard line is expected in port on Friday for the same purpose.

IN WALL STREET.
New York, March 13.—Bullish activity in recent speculative favorites was promptly resumed at the opening of today's stock market, while standard shares were relegated to the background. Texas Company and Industrial Alcohol which featured yesterday's market were again in demand, the former in the first half hour adding six points to yesterday's eleven point advance, while alcohol supplemented yesterday's substantial gain with another five points. Moderate advances were registered by the more prominent motors, equipments and affiliated issues, but denagers otherwise suggested further profit-taking.

Will Lessen The Burden of The Allied Powers

Greatest Practical Step Yet Taken Toward Discouragement of War—Effective Disarmament of Hun Necessary Feature

London, March 13.—In discussing events at the peace conference in Paris the Daily Chronicle says:—"There is no doubt that Premier Lloyd George scored a very important point in gaining the assent of his colleagues on the council of ten to the principle that conscription shall be abolished in Germany. The plan adopted will enable the powers on whose shoulders the chief responsibility for maintaining the league of nations will rest, to bear a burden with a much smaller military effort than would otherwise be needed. There will be no risk of perpetuating conscription in Great Britain and the United States and we cannot suppose that France and Italy, having regard for their economic situation, will care to cumber themselves indefinitely with it. The disarmament of Germany, being compulsory, will have to be watched and enforced for many years by travelling commissions of the league of nations with the league's force behind them."

"The abolition of compulsory service is the greatest practical step yet taken toward the discouragement of war," says the Daily Mail. "There is one vital provision for the safety of the Allies that must accompany the abolition of conscription, however. This is the complete and effective disarmament of Germany."

LINK WIRE AND WIRELESS

Discovery in Telephone Operation Reported to Electrical Engineers.

Wireless and wire telephone systems can be linked so that the human voice will perform one lap of a journey over a wire and the next lap through the air to its final destination, while the replying voice will travel on air waves first and then on wire, according to a paper presented by E. B. Craft and S. H. Colpitts of the Western Electric Company at a convention of the American Institute of Electrical Engineers in New York last week.

The operation of transferring the sound from the wire to the air can be accomplished in a number of ways, which are not more complex than the repeater now used in long-distance telephoning. The two engineers here described a method of transferring the sound by means of a diaphragm which is connected to the wire and to a speaker in a city, it was said, prevented competition. The diaphragm, it was said, was made to lie in communication with ships, trains in motion, islands, and inaccessible places of all kinds, and in broadcasting of weather signals and other news.

PERSONALS

Lieut.-Governor and Mrs. Papsley, who are at present in Montreal, are expected to return to Fredericton the latter part of the week.

KIDDIES WERE PHOTOGRAPHED

The classes of Centennial school have been photographed of late, which recalls to the minds of many an adult the wonderful groups of those "days of real sport" when they themselves—shock-headed and most unready for such a fussy operation as being photographed—were lined up in the schoolyard and made to keep straight faces until the old-fashioned camera got in its deadly work. The results of some of those pictures of a generation ago will deserve the qualification "deadly."

In the police court this afternoon Judge Ritchie held Salkin Bassano, Ahmed Abdurman, East Indians, and John Sterling, a negro, for the grand jury without bail on charge of murdering Salkin Hassen, a member of the crew of the steamer Manchester Brigade. TONIGHT WILL SEE AMATEUR SKATING CHAMPS

Fast Ice on Hand For the Biggest Skating Meet Held in These Provinces For Years

The amateur skating championships for the maritime provinces will be held this evening in the Victoria rink under the auspices of the Y. M. C. I. The change in the weather has put at rest all doubts as to the quality of the ice for the sudden sharp turnouts provided on which it is more than likely some records of long standing will go by the board.

This meet is official in every sense of the word and the time made in the several events will stand as official. Representatives of official bodies will be on hand and will be assisted by a corps of efficient workers.

The several events are well filled. The first distance matches as well as the mile and three mile events have all their quota of speedy ones and medals have been prepared for the winners. Winners in this event will be entitled to compete in any amateur meet in the world under official sanction.

The event marks a great revival in the splendid sport of ice racing and there is every indication that, as in days of yore when people in their thousands filled the large structure to overflowing on such occasions, so tonight will see a record-breaking crowd on hand.

A feature will be a relay race between teams representing St. Peter's Y. M. A. and the Victoria rink for a cup offered by Major J. Ferguson. This is to settle a disputed match held at the recent Y. M. C. I. sports.

CHOCOLATE AFTERNOON

Those attending tomorrow afternoon's demonstration of Instant Cooking with Sermo Canned Heat and Handy Cooking and Heating Devices at Messrs. W. H. Thorne & Co.'s showrooms, will be the special guests of the firm and the Sermo demonstrator from four until five o'clock when hot chocolate (cooked with Sermo Canned Heat), and light refreshments will be served in the household department, first floor, Market Square store.

DELEGATION ON RAILWAY MATTER HOME AT FREDERICTON TODAY

Fredricton, N. B., March 13—The delegation to Ottawa on behalf of the extension of the York and Carleton Railway to Napadagan to form part of the C. N. R. freight route to St. John, returned this afternoon. The matter was referred to the operating department which asked to have the request submitted in writing. The greatest difficulty is to get the money for construction. The delegation is optimistic.

A wind velocity of forty miles an hour was recorded here today. Some Newcastle telephone lines are down. W. Walker Robinson died this morning in a Devon, aged twenty-one. He is survived by his parents, Mr. and Mrs. W. Howard Robinson, and by two brothers, H. Leroy and J. Frederic.

London, March 13—The Russian Soviet government, with a view to promoting a plan for a world-wide communist revolution, has appointed a new minister to be known as "international commissary," according to a Helsinki dispatch to the Mail, quoting advices from Moscow.

MAJOR MACLAUGHLAN'S CON-

Word was received today from the Royal Victoria Hospital, Montreal, by W. A. MacLachlan that his son, Major MacLachlan, who is in the hospital receiving treatment on account of injuries sustained in France, has had a setback, a hemorrhage of the wound. Mr. MacLachlan was assured, however, that there was no reason for alarm. It is hoped that some encouraging news will be received soon.

JOHNSON SAYS BOUT WITH WILLARD FAKED

(Continued from page 1)
"When ready to leave London I wired Curley for a certain sum of money, which he readily sent. Well, it went on and began to bother me and I spoke to my wife, who advised me not to do it, but I told her that if I were going to lose I would send her word in time to get out. The reason I said that was because I did not want to lose until I found out they would pay me the sum I asked for and guaranteed that they would get me out of trouble in America, the most important thing for me."

COMMISSIONERS HEAR OF THE POLICE MATTER

(Continued from page 1)
Mr. Wetmore, continuing produced all the evidence submitted to the board of conciliation which, he said, was at the service of the council. The Trades and Labor Congress of Canada, he said, had issued the charter to the Policemen's Protective Association. As to the form adopted by the local unions, he could see no objection and he saw nothing in their binding or obligatory. In the ritual of the local Trades and Labor Council there were obligatory features which the board could not see its way clear to accept without endangering the city's interests. If the police association were allowed to retain its charter and draw up its laws and constitutions for a local union the city should see that certain features of an obligatory character be eliminated.

Mr. Wetmore went on to say that the chief reason for his appearing before the council was to offer explanations for the words "ritual" and "other affiliations" which were referred to in the board's report. There was objection, he added, offered to admission of the police as an affiliate of the Trades and Labor Council of St. John as the ritual was full of obligations. Mr. Wetmore offered an explanation that a candidate was named in any election by the local Trades and Labor Council all unions affiliated would have to sue out a writ of habeas corpus to get out of the city of St. John.

Mr. Wetmore said that the matter of back pay was granted principally because the police had refused a board of conciliation as they had offered to go to work during its sittings. He thought they should be compensated. To the mayor, Mr. Wetmore said that at least half the things asked for by the police had been refused. Mr. Wetmore said that there had not been one citizen to appear before the board who objected to the forming of a union. He thought that the citizens had fallen down on an opportunity.

Commissioner Jones asked was it not by reason of the fact that the committee of the board of trade that this whole matter was brought about. That was practically the situation, said Mr. Wetmore.

Then it all goes back to the city council, remarked Mr. Jones. Commissioner Fisher:—"Was there such consideration given to strikes?" To this Mr. Wetmore said that there had been much evidence before them on that matter. He added that the Trades and Labor Congress of Canada contended that they had nothing to do with strikes; they did not encourage them and the matter of strikes was left to the Confederation of Labor.

The claim for affiliation with the Trades and Labor Congress was granted principally on the ideas of the men a better idea of labor matters, of the laboring men, and a better idea of handling labor difficulties. There was no idea of strikes or of going out in sympathy. The matter of sympathetic strikes was considered by the board, but Mr. Sugrue, whom Mr. Wetmore styled a well informed man on such matters, had given practical assurance that sympathetic strikes never existed, although they were read about.

The Mayor—"Well then the formal affiliation of the policemen with the Trades and Labor Congress has no advantage?" To this Mr. Wetmore said that he could not see any advantage personally any more than in a local union among themselves. However, Mr. Wetmore suggested through the board that the city should be represented in the matter of drawing up the constitution of the local police union.

Com. Jones—"Then you consider the charter a harmless document as it is?" Mr. Wetmore—"I would not say so. This concluded the consideration of the police matter and Mr. Wetmore withdrew after being thanked by the council for his appearance before them. He in return thanked the mayor and commissioners for the opportunity.

Commissioner Fisher said that the city had secured an open minded man in the appointment of Mr. Wetmore to the board as the city's representative and he was glad that he was the unanimous choice.

Com. Jones said that, after listening to Mr. Wetmore, the council must feel that the whole matter of the police dispute and the outcome could have been settled and the occurrence avoided if the council had listened to the committee of the board of trade. He said that his at-

itude had been borne out in the matter from the first. To this last remark the mayor said that his attitude had been borne out also. The sting had been taken out of the granting of the charter as an empty affair and the police association was getting anything, whereas they were in the same position as before.

Report Accepted
Mr. Thornton moved that the report of the board be accepted and the minister of labor notified. This was seconded by Com. Fisher and carried. The board's report for supplying of regulation life belts for the ferry were opened. They were:

W. H. Thorne & Company, 500 Karpok belts, at \$2.60 each. J. Spence \$1.80 each. A. W. Adams, \$1.70 each. T. McAvilly & Sons, \$1.70 each. Estey & Company, \$1.70 each for 500 "Kan-save-All" life belts.

It was moved that 250 belts be secured from A. W. Adams and 250 from Estey & Company. Com. Thornton moved in amendment that the whole contract be given A. W. Adams as Estey & Co. tendered for a different make of belts of which nothing was known. This was defeated and the motion carried.

Com. Fisher asked permission for the creation of the police as an affiliate of the City of St. John. This was granted, also to J. M. Marven at 166 Union street. The mayor read a communication from Hon. F. B. Carvell to the board on the matter conference. He said Mr. Carvell was strongly in favor of nationalization. Com. Bullock moved that an amendment and accountant be invited to come from Ottawa to get out and check up on the wharves at this port. This was carried.

COLDER TODAY

Typical March weather was in vogue this morning. A little before 9 o'clock the wind was blowing from the southwest and a few drops of rain fell. Later it rained quite heavily, but in a few minutes the rain swerved into the northwest, the rain changed to hail and then snow and this was accompanied by a squall of sixty miles an hour. The temperature took a decidedly rapid drop and inside of twenty minutes had fallen to many degrees. The storm quickly passed and the sun broke through the clouds, but despite this the temperature continued to fall and about noon it was eight degrees above zero with the wind varying. Indications are for a cold spell with high winds.

ROBBERS CROSS
"DEAD LINE" IN DARING THEFTS
New York, March 12—Three hold robberies were reported to the police today—one of them below the traditional "dead line for crooks," at the upper end of the financial district—had resulted tonight in the arrest of but one man.

SUFFERED TERRIBLE AGONY
"Fruit-a-lives" Alone Gave Him Quick Relief
Buckingham, Que., May 2nd, 1918.
"For seven years, I suffered terribly I had belching gas from the stomach, and from severe headaches and indigestion. Remedies but nothing did me good. I had chronic constipation. I tried many remedies but nothing did me good. Finally, a friend advised "Fruit-a-lives." I took this grand fruit medicine and it made me well. To everyone who has miserable health with constipation and indigestion and Bad Stomach, I say take "Fruit-a-lives," and you will get well."

At a meeting of the steam engineers, held in the Market building last evening, D. Campbell, the president, was in the chair and addresses were given by Commissioners Thornton and Jones. Short speeches were also made by Judge Ritt-

GUINEA-PIGS FOR FOOD.
Now that rabbits are both scarce and dear, people might well turn their attention to guinea-pigs rearing for food. Frugality is the guinea-pig's outstanding vice. They are perfect little demons for lighting, and as they have sharp cutting teeth, they frequently do a lot of damage to one another in a surprisingly short interval of time—Pearson's Weekly.

At the home of John Stephenson, Golden Grove, yesterday afternoon, Rev. H. C. Fraser, pastor of Knox church, united in marriage Edgar Stuart, of Scotch Settlement, Westmorland county, and Miss Isabella Stephenson of Golden Grove. They will reside in Scotch Settlement, where the groom is a prosperous farmer.

ON THE TOBOGAN.

The provincial opposition is steadily losing ground in public estimation. There was an unusual degree of interest in the meeting of the legislature because the people wanted to know what attitude the other members of the opposition would assume toward the leaders who were involved in the Valley Railway and patriotic potato affairs.

CONCERNING SCHOOLS.

Several lady correspondents of this paper have declared themselves as in favor of home studies. Opinions on that question will differ, but there are ladies who, if they cared to speak, would say very bluntly that to over-study they owe the wreck of their nervous system.

BOARDS OF TRADE.

Canadian Finance of Winnipeg gives a new definition of a board of trade which will appeal to most people as a very fitting one for such an institution. It says: "There is considerable misconception relating to the functions of a modern board of trade. This misunderstanding is possibly due in no small measure to the name of the institution itself."

of the ideas of its members. It should be the 'pulse' of the community and its statements of policy should coincide with the views of the majority of all the citizens and should not embody the desires of just a majority of a certain section of the community. It is not enough that a few well informed citizens should decide that a certain policy is in the best interests of the city, and endeavor to force its adoption by the authorities.

HOW TO ECONOMIZE IN COAL.

It Appears There is More to Consider Than Price in Buying.

Like Gaul, all coal is divided into three parts. Two of which—carbon and volatile matter—will burn and produce heat. The third "ash" including stone, clinkers, etc., is pure waste. Ash will not burn but prevents quantities of the carbon and volatile gases from burning and is an expensive cart away.

Chalon-sur-Saone, France, March 13.—(Havas Agency)—A congress of chambers of commerce here yesterday approved a project to join the Rhone River with the Rhine by coupling up the Rhone with Saone. The purpose is to create a great waterway between the Mediterranean Sea and Central Europe.

ROBBED AND STRANGLED; FOUND DEAD IN HALLWAY.

New York, March 12.—A man identified by the police as Martin Sellers of this city was strangled to death in a deserted hallway in West 62nd street tonight. The pockets of his clothing were turned wrong side out, indicating that robbery was the motive for the murder.

LONDON PAPER SPEAKS FOR IRISH PARLIAMENT; SITUATION SERIOUS.

Daily Mail Gives Prominence To News From Dublin

Says Viscount French's Plans Have Failed and There is Dangerous Situation Which Can be Handled Only Under Self Government

London, March 13.—Special prominence is given by the Mail to a Dublin despatch representing the situation in Ireland as being extremely bad and maintaining that the need of effective self-government is more urgent than ever before.

"Labor troubles of greatest importance are growing and it is impossible for the British government to handle them. There is barely a section of Irish labor which is not preparing or threatening to strike for demands which no employer can possibly grant. The well-intentioned schemes of General Viscount French, Lord Beitman, for social and industrial improvements have gone by the board and there is a dangerous situation which can be handled only by an Irish parliament."

WAR WRECKED HOMES (Toronto Globe) The silent tragedies of shattered homes in Canada will never be published to the world. Ladies who were the light of men's eyes, who went away with a laugh and a song, will never lighten those eyes again with their cheerful faces. Young men just about to step out into full manhood have been snatched from us on the very threshold of citizenship. Thousands of dream homes have been shattered just as they were about to be realized. Months, perhaps years, of courtship and all the sweet preliminaries of wedded bliss have been ruthlessly robbed of full fruition by the urgent and imperative demands of the war. These homes of promise that never attained to material existence must be reckoned among the losses, the irremediable losses, that Canada has suffered in these years. This is, indeed, the saddest of all our losses, because it has cut off the life of the future, and nipped in the bud the flower of our manhood. No influx of immigration shall recoup us for the loss of those fair Canadian homes for which, through years of education and loving care, we had dreamed and planned. The boys' work committee of the Y. M. C. A. are busy today in the Sign of the Lantern tea rooms. The problem of how to obtain increased facilities in the near future was discussed in account of the work growing so rapidly.

Work for the Soldiers! HELP to speed up Canadian industry so that steady employment at good wages may be assured to the returned soldiers. Canada must continue to export huge quantities of goods, but this is not possible unless we are prepared, by loaning our money to the Government, to enable the Dominion to arrange credits abroad. Every War-Savings Stamp you buy practically ensures a good day's work at a good day's pay for some returned soldier, while you are sure of getting your money back with high interest on the first day of 1924. What can YOU do for the men who are coming back? You can buy War-Savings Stamps whenever you see the Beaver Triangle sign. Price in March, \$4.02 each.

How The German Spies Met Death In England

British Official Reports of Executions of Those Who Sought to Betray Country in Which They Made Their Homes

London, Feb. 4.—(Correspondence)—Whatever Germany may have anticipated from her famous system of espionage during the war, there can be no hesitation in saying that so far as England was concerned the results never fulfilled expectations.

"M" was the next German spy to meet his death although he did so at Brixton prison by his own hand. A poor, cowardly creature, his death by hanging saved the authorities the trouble of arranging his execution, which was to have taken place a few days later.

made things exceedingly uncomfortable for about six months. One of the first to be captured was "K" a tall, middle aged, bewhiskered individual, who was arrested while passing as a waiter in a Blackpool hotel.

"K" was shot the following morning at daybreak in the military rifle range at the Tower. He broke down badly through the night and cried incessantly for his wife and children, all forgotten of the civil he had done.

"B" was one of the most valuable spy captures we made. A handsome looking man of about thirty years of age, six feet high, he approached very nearly to the spy of fiction in that he remained absolutely cool from the time of his arrest until his career ended.

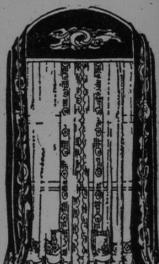

"C" was an elderly man, probably about sixty years of age, five feet ten inches in height, and so cross-eyed that the glasses he wore nearly accentuated the disfigurement.

RECENT DEATHS

Rev. Patrick B. Phelan, Holyoke, Mass., March 12.—Rev. Patrick B. Phelan, pastor of Sacred Heart church for thirty-nine years, died tonight after a long illness.

He acted with great bravado at the time, but in company with the woman, was placed in confinement in Pentonville prison. A spy and span man thirty years of age, five feet ten inches in height, with quite a distinguished air.

THE HELPIN' HAND. If yer get a sort o' feelin' An' yer life ain't worth the livin', An' yer feel disposed to trown, If yer think yer little troubles, Is jes' more'n you kin stand, Who hunt around an' find someone What needs a helpin' hand. If yer feel yer slippin' backwards, An' yer'd like to chuck yer load, 'Cause the more yer try to travel straight The harder gets the road; An' if folks who knows yer best of all Don't seem to understand, Why hunt around an' find someone What needs a helpin' hand. There's nothin' like it fer to drive The frown from off yer face, Yer'll prefer to see a smile, This world's a fine old place, Yer'll see folks who, if in yer shoes, Would think it simply grand, So hunt around an' find someone What needs a helpin' hand. IN PARLIAMENT

Ottawa, March 12.—The apparently endless debate on the address dragged along for another four hours in the commons today after having been temporarily terminated last night by lack of a quorum. There was no serious objection to its resumption when the house met this afternoon. The debate has now occupied eleven days with the prospect of running at least two days more. Interest will be revived in the discussion tomorrow if Hon. W. C. Fielding speaks as expected.

The speakers today were Thomas Foster, East York; Edmond Savard, Chicoutimi; F. B. Stacey, Westminster district; Dr. Fontain, Hull, and W. G. McQuarrie, New Westminster, who did not conclude when the house rose at 1 o'clock.

In a statement made previous to the resumption of the debate by Hon. Martin Burrell, on the strike situation in the printing business, he intimated that the government may have to consider a question of closing the bureau.

JORDAN SANATORIUM

Fredericton, N. B., March 12.—The report of the committee to investigate the Jordan Memorial Sanatorium was laid on the table of the house today. This committee consisted of Messrs. Tilley, Magee, Hetherington, Lewis, Smith and A. T. LeBlanc. The report says the grounds were found in an unkept and unimproving condition, the barn untidy and used by three of the farm help for their own horses, the fuel situation unsatisfactory, the farm disappointing, the stock inferior and in poor condition, not enough ground under cultivation and that the expense. The committee found three villages unused which should have been occupied.

An audit of the accounts by R. A. MacIntyre showed the operation and maintenance expenses from Oct. 31, 1911, to June 30, 1918, to have been \$228,525.42, and the income \$40,175.44. There was also spent on capital account \$26,028.88, making total expenditure \$288,028.40, deducting \$40,175.44, the institution had at the province \$247,852.96. The average cost per day per patient had been \$40.

All the patients testified they were well and cared for, but the committee held that some arrangement be made to give the dominion government the over the institution or that it be jointly maintained. This recommendation has since been voted on. With the report is a transcript of the evidence taken by the committee.

The lady workers connected with the stholic Army Hut made a visit yesterday to the soldiers in the County Hospital, East St. John and donated fruit, candy, smokes and numerous other delicacies, much appreciated by the soldiers.

Cocconut Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with. Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain unrefined cocconut oil (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, and excessive oil. The hair dries quickly and evenly, and it leaves fine and silky, bright, fluffy and easy to manage.

You can get purified cocconut oil at any pharmacy. It's very cheap, and a few ounces will supply every member of the family for months.

The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This dissolves it easily. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single grain and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and itching of the scalp will stop instantly, and your hair will be fluffy, lustrous, lassy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

Hairs Quickly Vanish After This Treatment

(Helps to Beauty.) Science has aided in simplifying the banishing of hairy growth from the face, and according to a beauty specialist, the most effective treatment yet devised consists of applying a delatone paste to the hairy surface for 2 or 3 minutes. The paste is made by mixing some water with a little powdered delatone. When this paste is removed and the skin washed every trace of hair has vanished. Be sure to get real delatone.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your lid in head or catarrh will be gone, our clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, snuffling, mucous discharges or dryness; no struggling for breath at night. Tell your druggist you want a small tube of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream to your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly. It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.

It takes a joint of beef to make a bottle of Bovril

Bovril contains the goodness of the beef.

THE vital elements that give beef its special place and value as a food are concentrated and stored in Bovril.

Just as the equivalent light of 32 candles is concentrated in one electric lamp, so the vital elements of beef—of many pounds of beef—are concentrated in a single bottle of Bovril.

But Bovril is not merely a precious food in itself; it possesses the peculiar power of enabling you to extract more nourishment from other foods. This gives Bovril its wonderful body-building power, proved by independent experiment to be from 10 to 20 times the amount taken. Bovril, therefore, in the true sense of the word, is a Great Food Saver.

Always keep Bovril in the house.

GOOD CANDY A HUMAN BENEFACTOR

(Editorial Toronto Saturday Night.)

A recent issue of The Canada Lancer contains a leading article entitled Candy as a Food, which entirely dissipates the theory still prevalent in some quarters that candy is an unwholesome luxury, which should be very cheaply indulged in. The Lancer brings an abundance of scientific data to support of the contention that sugar is a necessary food. It is especially suitable for children who do not as a rule care for fat meat, but who take readily to sweets, which serve as a natural substitute for fat. Candy constitutes a food of the carbohydrate class and it is estimated that the average active and healthy adult requires daily for his effective sustenance about 6,000 grams of carbohydrates. The popular ingredients, chocolate, is also a most nourishing fat food and stimulant; while it appears that the flavorings of good candy are an aid to digestion and elimination.

The notion that the eating of candy injures the teeth is dismissed by this scientific journal as a superstition. The lack of sugar is much more likely to injure the teeth, through poor nutrition, and is attendant with more serious consequences than even those caused by the derangement of the digestive apparatus by over-indulgence in candy or any other food. On the whole, candy, when safeguarded against vicious adulteration, is a boon to the human race because it affords necessary heat-producing nourishment in a most palatable form. It might be added that it is an excellent aid to temperance; for it is an effective antidote to the craving for alcohol.

It would appear, therefore, that the widely prevailing human taste for candy, especially in growing children, is soundly based on nature's needs. The man who takes home a box of candy to his wife or the youth who finds it a way to the good-will of his sweetheart, is thereby doing a good deed. He is providing her with beneficial carbohydrates, though for our part, we prefer the old-fashioned name of "sweets."

The Legislature

Attorney-General and Mr. Baxter in Hot Exchanges - The Roads

Fredericton, March 12.—The feature of today's session of the house was an exchange of compliments between the attorney-general, Hon. Mr. Byrne, and ex-attorney-general, Hon. Mr. Baxter, in a very long and bitter speech, in the course of which he practically charged that evidence was suppressed by the attorney-general in a Queens county murder case. Hon. Mr. Byrne promptly challenged him to make that charge on his own responsibility as a member of the house, but the challenge was not accepted. Mr. Baxter also made a vicious attack upon Commissioner McQueen, whose report is not yet on the table. Hon. Mr. Byrne denounced Mr. Baxter for attacking a man not there to defend himself, and charged that it was done in an effort to weaken the force of the coming report by casting ridicule upon Mr. McQueen. There were several hot interchanges between the two speakers and some of the opposition members also interjected remarks. Speaker Hetherington rose to suggest that with fewer interruptions from either side the house would get along more quickly with the business of the country. Both sides applauded his remarks. In the course of his address in the afternoon, Mr. Baxter suggested changing the custom of lengthy debates on the speech from the throne. He also suggested that every elector be required to take an oath when casting his ballot. He pleaded for harmony between the two races and said that there should be room for two races of different language but with the same ideals. He also made an exhaustive defense of his course in acting as counsel for J. K. Fleming. David McCreau, of Sunbury, was the first speaker at the afternoon session, and in a characteristic address of all vigorously with opposition criticism and

MEAT CAUSE OF KIDNEY TROUBLE

Take Salts to Flush Kidneys if Back Hurts or Bladder Bothers

If you must have your meat every day, eat it, but first wash kidneys with salts. You may not know it, but meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaker, then you suffer with a dull misery in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather turns you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels get sore and irritated, and you are obliged to urinate two or three times during the night. To neutralize these irritating acids, to cleanse the kidneys and get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it is no longer irritating, thus ending bladder weakness. Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink. set forth some of the benefits accruing to the country from the able administration of the present government. Mr. Hunter gave notice of enquiry for Monday next in regard to expenditures on the Harvey-McAdam road during 1914, and the amount of remuneration. Hon. Mr. Foster introduced a bill to amend an act relating to the St. John and Quebec Railway. He explained that the bill authorized the extension of the time for completion of the road until December 31, 1915, and it would change the agreement with the Dominion government in regard to subsidy. Concurrent legislation had been introduced in the federal parliament. Hon. Mr. Veniot introduced a bill to amend the highway act of 1912. He said the object of the measure was to suspend for a period the election of by-law and trunk-road commissioners, which under the law should take place in April. At a conference which he had with the minister of railways and commissioner of highways at Ottawa an agreement was reached under which the trunk roads certain roads now known as byroads, and make the same eligible for division aid. The province possesses 1,632 miles of roads, which are now known as trunk roads. They run from the Quebec boundary to the Nova Scotia border along the St. John river, from

Fredericton to Chatham and elsewhere.

There was one road on each side of the St. John river, but as both could not be classified as trunk roads, it was proposed to bring one under the secondary system. The Dominion authorities had consented to the classification of several other roads which would make them eligible for division aid. As the conference at Ottawa took place in January and the elections were to be held in April, there was not time for the reclassification of all the roads, and the only plan was to take the secondary roads and classify them had already been explained. The meetings of rate-payers would not be cancelled, but only suspended until the new plan could be put in working order. The suspension could be revoked at any time by order in council. In the course of his speech, referring to Hon. Mr. Baxter, Attorney-General Byrne said Mr. Baxter was a wonderful transcendent man who could tell the house that he could call on his mighty God that in public life he had never received a dollar. Evidently the people of the province had done the honorable member a grave injustice in spreading the rumor that he was an atheist and an unbeliever in God and the Savior. Mr. Baxter—"If it will do the honorable member any good, I will tell him that I am not an atheist, and never was."

CHURCH NOW LIKE NEW BUILDING

Carmerthen Street Methodist Congregation to be Congratulated on Work Done

The Carmerthen street Methodist church has been remodelled, decorated and greatly improved and the old church looks like new. Only a few months ago at a meeting of the trustees it was undecided whether it might not be advisable to abandon the edifice owing to its condition, but the change today is so marked that such a question would now not be considered. The entire building has been painted by A. G. Staples and it is now in the hands of house-cleaners. The artistic work on the walls, etc., is eliciting many favorable comments, especially a public window at the back of the platform, which is of very skillful workmanship. New nitrogen electric lights have been installed in the church. Rev. H. Penna is the minister in charge of the church, which was first opened in 1879. By a system of voluntary contributions among the members of the congregation only, and none of the members is a person of great wealth, the sum of \$1,600 has already been raised, but \$100 more is required to pay for all the improvements, and it is expected that \$1,000 more will be raised in six months to reduce the mortgage. The floor of the new choir loft has been covered with plain brown linoleum, the gift of the Sunshine Mission Circle, and the class room and the minister's room at the sides of the platform have each come in for their share of the redecoration and are resplendent with new paint and paper. FARMERS AND DAIRYMEN Fredericton, March 12.—At the Farmers' and Dairymen's convention yesterday co-operation was discussed in the afternoon and in the evening specialists from the department of agriculture occupied the stage. The afternoon speakers included J. D. McKenna, A. F. McMahon and Rev. Messrs. Legasse and Sorman. In the evening E. P. Brault, deputy minister of agriculture, spoke appreciatively of the address on co-operation delivered. Mr. Lloyd, best specialist, spoke on the money industry. He is to supervise the work in the province this year. Live stock matters were dealt with by James Brown, who said that the federal government is bringing in pure bred animals for the improvement of stock. O. C. Hicks talked on acids and allied subjects and the aid given by the seed division of the department. F. E. Sharp, recently appointed provincial immigration superintendent and secretary of the farm settlement board, gave an address. A. G. Turney, provincial horticultur-

DESPONDENT WOMEN

A prominent writer claims that "women are naturally despondent," but often mental depression may be attributed to an abnormal condition of the system, which expresses itself in nervousness, backache, headaches, sleeplessness, and consequent despondency. Lydia E. Pinkham's Vegetable Compound goes to the root of this trouble, it gives tone and strength to the system and restores women to a normal, healthy condition.

FINDS MILLER'S LEGS WERE WORTH \$75,000

Cleveland, Ohio, March 12.—All records for personal injury damages in a jury court were broken today when a jury in common pleas court awarded Victor D. Miller, of this city, \$75,000 against the Pennsylvania railroad and the Toledo Columbus & Ohio railroad, as a subsidiary rate, for the loss of both legs. Miller sued for \$100,000. "Waiter," he called, sniffing the air suspiciously, "never mind that order now; I can never eat when there's a smell of fresh paint around." "If you'll just wait a few minutes, sir," replied the waiter, "then two young ladies will be going"—TIT-Bits. ST. JUDE'S W. A.

The Women's Auxiliary held their annual meeting yesterday in St. Jude's church. Rev. J. H. A. Holmes, rector, opened the meeting by celebrating corporate communion, after which he delivered a helpful address. At the afternoon session Mrs. W. I. Fenton gave a welcome address to the members. Extracts of letters from Miss Ruby Peter telling of her work with Dr. Travers in China were read. The election of officers resulted as follows: Honorary president, Mrs. J. H. A. Holmes; president, Mrs. W. I. Fenton; 1st vice-president, Mrs. W. L. Harding; 2nd vice-president, Miss Annie Tilton; corresponding and recording secretary, Miss Gertrude Lawson; Dorcas secretary, Mrs. W. Cunningham; assistant Dorcas secretary, Mrs. J. Edwards; janitor secretary, Miss Helen Colton; delegate to the diocesan annual meeting, Miss Tilton; substitute, Mrs. J. B. Taylor. At a meeting of the Amalgamated Labor Union, representing 250 raters employees of Moncton, last night, a resolution was passed protesting against any changes in the New Brunswick Prohibition Act. DAILY HEALTH TALKS Better Be Careful About Your Kidneys BY N. B. COOK, M. D. Foods taken into the stomach go through various chemical changes, and some of these changes are poisons that must be expelled and disposed of. It is the duty of the kidneys to do this. When the kidneys do not fully perform their vital work, death may be only a few hours away. Happily, Nature has provided warning alarms telling people when their kidneys are not well. These warnings come in the form of dragging pains in the small of the back, weak stomach, low spirits, chills, nausea, headache, scanty urine and frequent urination to pass short breath, numbness, cramps, coated tongue, bad breath, puffing under the eyes, thin blood, dry skin, ringing in the ears, spots before the eyes and many other symptoms. All come from the one cause of kidneys that are not filtering the poisons out of the system. To overcome these troubles, Dr. Pierce's Buffalo, N. Y., compound what he calls Anuric Tablets. No other kidney medicine is its equal in giving relief and re-establishing healthful work in the kidneys. The treatment is so simple, as you need nothing except water when taking Anuric Tablets—a glass of water with each tablet. This washes and flushes the kidneys while the medicine itself is dissolving the uric acid poisons and driving them out. Anuric Tablets are made double strength, so that they dissolve salt or sugar. Most people need Anuric Tablets because most people have uric acid. Better get that poison out of your body for safety sake, and better begin today. To gently and agreeably coax the bowels back into normal activity, take Dr. Pierce's Pleasant Pellets. They are just as good for constiveness as any Anuric Tablets are good for kidney disease, and that is saying a great deal

BASEBALL.
Progress to International.
New York, March 12.—Baseball club owners in the International League, after an eight hour session here today, decided to defer the adoption of a playing schedule for the coming season until definite arrangements could be made in regard to securing suitable grounds at Newark (N. J.), and the disposal of the Syracuse-Hamilton franchise.

FOOTBALL.
Recreating Old Country Leagues.
London, March 12.—(Canadian Associated Press)—At a special meeting of the Football League, the Chelsea and Arsenal clubs were elected to the first division, and Westham to the second division. The league refused to extend its membership from forty to forty-four clubs, each division to consist of twenty-two clubs. The application of Stockport was withdrawn. Four vacancies in the second division were filled by Coventry, Westham, Rotherham and South Shields, unsuccessful applicants being Burnley, Rochdale and Southport. The players' wages were increased fifty per cent, over the pre-war scale.

HOCKEY.
Seattle Wins.
Seattle, March 12.—Seattle defeated Vancouver 6 to 1 in a hockey match last night.

Lions Leading in City League.
The Lions are leading for the championship of the City League on Black's, with the Pils as a close second. T. Wilson is leading the players with an average of 99.10-22, while Harry Sullivan is second and J. H. Wheaton third. The league standing and the players' ratings follow:

Player	Won	Last
Wilson	23	19
Sullivan	22	18
Wheaton	19	17
Maxwell	19	21

"THE IRON TEST"

ing season the Giants will undoubtedly spring it at many unexpected moments. Clarence Rowland, manager of the Chicago White Sox when they defeated the Giants in the world's series two years ago, predicts that Chase will play the game of his career for the Giants because he believes that the New York manager, a good judge of human nature, will be able to handle the temperamental Chase properly. And Chase just does on the hit-and-run sign when there is a runner on the base.

"Chase is one of the greatest hit-and-run men in the game," said Rowland. "He can hit back of a runner any time. There is where he will be invaluable to McGraw. That is McGraw's style of baseball, and Chase, because of his almost uncanny talent in wheeling the ball when a runner is going, will make it possible for the Giants to score many runs. I know what Chase can do. Therefore I predict he and McGraw will hit well, and the pitchers of the National League are going to be kept busy watching Hal when runners are on the base.

"The acquisition of Chase gives the Giants a wonderful ball club. Look over the list of players and you find that Fletcher is the weakest hitter on the squad, and he is by no means a feeble batsman. He hits 270 or better in the league. The Giants are the players the Cubs will have to beat for the pennant. I do not think that Chase will run amuck under McGraw as he is done with other clubs. His recent experience, I think, taught him a lesson.

Chase will connect with the ball on a pitch out, he has been known to reach out or throw his bat at the ball and connect. Outside of Lajoie and Wagner there never has been a player who is such a valuable aid to the runner as Chase.

**Chase Is Master
Of Hit and Run**
Giants' First Baseman Will Be Valuable
Aid to McGraw's Style of Attack

New York, March 11.—After a search of several seasons, Manager McGraw has at last correlated in Hal Chase the first baseman, a player who will fit into the system of play to which the New York leader is most partial. This is the hit-and-run style of attack which the Giants have used with much success. Chase is without doubt the most valuable batsman in the major leagues to have at the bat on a hit-and-run play. The Giants leader would have resorted more to the hit-and-run in the past if he had a player of Chase's calibre to hit behind a runner. The Giants have frequently resorted to the play in important games and when the batsman failed to connect with the ball the play looked foolish. When it works it brings forth cheers from the grandstands.

At a largely attended meeting of the Carpenters and Joiners' Union held last night in Oddfellows' Hall, it was decided that an increase of wages for union members should be asked to come into effect on April 15. The amount of increase was decided upon by the unanimous vote of the meeting, and was fixed at sixty cents instead of forty-five cents per hour, the previous rate. The president, W. W. Williams, was in the chair last night. Arrangements were made for holding a large public meeting of all the carpenters in the city.

M. Jonnart, Formerly Allied High Commissioner, to Take Part so Soon as Organization Completed.

Paris, March 12.—(French Wireless Service)—Charles A. Jonnart, the newspapers announce, has been selected as the governor of the liberated provinces of Alsace-Lorraine. M. Jonnart, who has been governor of Algeria, is now in Paris and has had several conferences with Premier Clemenceau.

The newspapers say that M. Jonnart will assume his new post when the French government has completed the new executive organization of the liberated provinces in keeping with the wishes of the inhabitants.

Mons. Jonnart is a member of the French senate and has held several posts in the French cabinet, including that of foreign minister. He was the allied high commissioner to Greece at the time of the abdication of King Constantine. Headquarters at Strasbourg.

Strasbourg, March 12.—(French Wireless Service)—A council of Alsace-Lorraine at a meeting here has adopted a plan for the re-organization of the administration of the two provinces, according to the wish of the inhabitants. A French high commissioner, with headquarters in Strasbourg, will centralize all French services under his authority and will act for the French minister of war in matters which now have to be referred to Paris. A number of members of the council from Alsace and Lorraine will assist the commissioner as a permanent consultative commission. The council adopted a resolution insisting upon the necessity of hastening the elimination of all German elements from the public service.

OFTEN-USED QUOTATIONS.
(St. Louis Globe-Democrat.)
The American Humane Education Society thinks it has made a point by showing that "Spare the rod and spoil the child" cannot be found in the Bible, but was written by Samuel Butler in 1633. Butler probably got the alliterative "spare and spoil" from Ralph Venning, who used it in 1649, but the idea goes back to Proverbs 13-24: "He that spareth his rod hateth his son; but he that loveth him chasteneth him betimes." We are with the Humane Society (and the chastened) in questioning the dominance of unselfish love in the average "chastening," but cannot approve of its quibbling as to the quotation, so far as substantial sanction goes.

But most people will be surprised to learn that the exact words were not in Scripture, just as they would be to learn that there is no direct statement about the lion and the lamb lying down together. Many still think "God temper the wind to the shorn lamb" is from the Bible, although Sterne quoted it, without credit, from Henry Estienne. Wesley's vague quotation of an ancient Hebrew's "Cleanliness is next to godliness" sounds like Bible. Numerous passages from hymns are also erroneously ascribed to Scripture.

But proverbs, sacred and secular, cause the most confusion. Much pithy wisdom of far later origin than even the latest dates literary critics assign to the wisdom books of the Old Testament "sounds like Bible." This is especially true of colloquial sayings collected and given a literary form at about the same time the Bible was being turned into English.

Heywood printed his "proverbs" in 1546, and many of his collection are probably in greater daily use than that of the Bible Proverbs. Among the common proverbs, first printed by him, are those about haste making waste, looking before leaping, fat in the fire, making hay while the sun shines, striking when the iron is hot, the tide tarrying for no man, rose the root, better to bow than break, two heads are better than one, locking the stable after the horse is stolen, all is well that ends well, better late than never, and countless other expressions that are worn into common speech. Franklin contributed other common proverbs worthy to

**NO CONSTIPATION
NO PILES**

We think, without a doubt, that constipation is the most prevalent, and at the same time, one of the greatest troubles human nature is afflicted with, and causes more sickness than anything else. Unless a free action of the bowels occurs at least once a day, constipation is sure to ensue, then comes the sore and uncomfortable piles, sick and bilious headaches, coated tongue, obstinuous breath, sour stomach, heartburn, water brash, and many other ailments.

Milburn's Laxa-Liver Pills will regulate the flow of bile to act properly on the bowels, thus removing the constipation and its allied troubles.

Mr. Dan Doucette, Zel River Crossing, N. B., writes: "Having been troubled for years with constipation and trying everything I knew of, a friend advised me to use Milburn's Laxa-Liver Pills. I used four vials and am completely cured. I can gladly recommend them to anyone who suffers from constipation."

Milburn's Laxa-Liver Pills have been on the market for the past 28 years, and have been used with the best results by thousands of people in that time, and we have yet to hear of a complaint as to their curative powers.

BETTER TODAY
Policeman James Gossling, who is quite seriously ill with acute pneumonia, was reported today as resting easy, and it is thought that his condition is slightly improved.

POLICE MATTERS
Inspector Garnett arrested an alleged bootlegger last night. Two men were in the police court this morning charged with drunkenness. They were fined \$8 each and were remanded.

BACK TO STELLARTON.
J. L. Watters, chief of police, Stellarton, N. S., arrived in the city last evening to take James Boutlier back to Stellarton to be dealt with. He was arrested by St. John detectives on a warrant charging non-support.

DEATH OF CHILD
Friends of Mr. and Mrs. Fred A. Holman, 34 Metcalf street, sympathize with them in the death of their infant son, Lloyd Glendon, on March 12. The funeral will be held at 2:30 on Friday afternoon.

RESUMING THEIR HOME LIFE.
Mr. Ronald A. McKay and family will re-open their home quarters, Burpee avenue, in a few weeks after the renovations and decorations have completed contracts. The major and household returned after four years' sojourn in the old country some weeks ago and at present the major is in Winnipeg on his firm's business.

DEATH OF SOLDIER
The death of Private John Spencer Bissard took place yesterday in the St. John Military hospital, West St. John. He is a returned soldier, having gone overseas with a construction battalion and returned by Canada only about five weeks ago. Soon after his return, he was taken seriously ill and was taken to the military hospital, and it was found that he was suffering from pneumonia, which was the cause of his death. His home was at 79 Erin street. His wife survives him and will have the sympathy of friends in her loss.

START BOOMING NOW.
From day to day news items indicate that this year's conventions of various fraternal, religious and semi-religious bodies will be held in the maritime provinces, not only eastern Canadian conventions but dominion wide and international annuals. What is St. John doing to attract these conventions? It is a great enterprise in western Canadian and American cities to lure as many conventions as possible to their towns for the obviously beneficial results in cash and publicity. It is not too late yet for St. John to jump into the limelight through the proper publicity channels.

TOOK CHILD'S BODY TO KEN.
Rev. J. C. B. Appel, pastor of the Douglas avenue Christian church, whose family has recently been bereaved in the loss of Miss Leane, aged sixteen, who died a few days ago after a long illness, left for Lexington, Kentucky, with his daughter's body last evening. The Appel home and that of Mrs. Appel, whose maiden name was Davenport, are in Kentucky and in reference to the wishes of home folks the little girl will be interred among her own people. Rev. Mr. Appel expects to be absent on his grand about three weeks.

IS AGAINST THE RULERS.
A recent accident in the C. G. R. railway yard reminds the public that there are strict instructions from railway authorities against making these progress a by-way for short-cut purposes. From Pond street to Paradise row or through the depot to either of these localities. The practice of walking the tracks in the spaces between is at all times dangerous where shunting is going on continually and enough accidents have occurred there in the past to add force to the printed warning. In the last fifteen or twenty years nearly all of the accidents in the yard have been among people not connected with railway work.

IS IN SIBERIA

Word Comes From Sergt. A. M. McLean of St. John

Messages have been received at military headquarters, M.D. No. 7, from Sergt. A. M. McLean, who was formerly employed in the office of the A.D.S. and T. at headquarters. When the Siberian expeditionary force was being organized, Sergt. McLean enlisted in the force; but being a well trained soldier and capable in performing his duties, rapidly gained promotion and in short time received his three stripes. According to Sergt. McLean, the weather in Siberia is exceedingly cold and it is necessary that each soldier should be comfortably clad. He described the uniform as consisting of a cap, thick great coat, long shoe packs and other necessary wearing apparel, and he was very warm and comfortable.

MILITARY NEWS

The employees at the district headquarters, M.D. No. 7, have been organized into a detachment, consisting of a superintending clerk, who is to be a warrant officer, and twenty-five clerks with the rank of staff sergeant and sergeant. This establishment is authorized pending the completion of demobilization, and after the Canadian corps return from overseas the detachment will be materially reduced in strength.

The barracks in Fredericton are being prepared to accommodate the military police. The buildings are undergoing cleaning and repairing and will be very comfortably equipped. There will be a small, permanent detachment of the military police there.

GUARDED US IN TIMES OF DANGER

Sale of 'Little Fleet' That Patrolled Bay of Fundy and Vicinity in U-Boat Days

Considerable local interest attaches to a recent order that brought about the sale of that efficient little fleet of fast steamers that patrolled the Bay of Fundy and the lower sections of the international coast and around as far as Halifax during the war. Private parties in United States acquired these boats.

St. John people will recall readily the knots of sailors who ambled about town, were seen in theatres, ate in our restaurants and became in a general way part of the life of the place from day to day during the period of the war when submarines were supposed to be menacing the peaceful harbors of the bay and when they really did grab off such prizes as the St. John schooner Donfontein and American vessels from New England ports.

Most of these bluejackets were patrol men, lusty Canadians who kept on duty in foul weather or fair summer and winter. They were not allowed to say what they were doing or where they were going. They were uncommunicative about themselves and most people took them to be just British sailors, en route.

There were 6,000 of these Canadian naval workers and their chief executive was Admiral Storey, located at Halifax. In a recent utterance Admiral Storey gave these native sailors a splendid recommendation for efficiency, adaptability and courage and claims that they did a wonderful service to their country and the great cause.

Among the patrol steamers that slipped in and out of the port of St. John during the mystic months of U-boat dangers near home were the Lady Evelyn, of which Captain Barkhouse was commander; the Laurentian, the Canada and the Centur. The again they were ten drifters and four or five trawlers, scouring the Bay of Fundy and adjacent waters for mines and subs.

The Festabert, an armed vessel attached to the admiralty office in this city, was in reality a sub hunter and at the time of the Donfontein sinking rushed down the bay after the German raider, risking herself greatly in her mission. The crew of the Donfontein, which were recently purchased by a New York firm, will leave port today for Portland, Rhode Island, where they will be used in the fishing industry. They will be taken there by naval officers and men who have been attached to them during the war and who after reaching the American port will return here.

The names of the steamers to sail today are: William B. Murray, Amagansett, Herbert N. Edwards, Martin J. Mars, Rully E. Mason, Rowland H. Wilcox, Leander Wilcox.

THE KING'S DAUGHTERS' CONVENTION BIG ONE
Dominion Gathering in St. John in July With Notable Workers Present

The convention of King's Daughters to be held in this city July 9, 10 and 11 is to be an all-Canada representation, the annual dominion meeting and some notable workers in the organization are certain to attend. Miss Ella Thorne of Fredericton, who is a member of the dominion executive, was in the city last week conferring with Mrs. A. Pierce Crockett, local head of the order, and other officers, concerning plans for meetings and entertainments.

Miss Brown of Toronto is the dominion secretary and she, too, is in touch with St. John members relative to the coming convention which is expected to be highly interesting. Outstanding figures in King's Daughters' work have been invited to address the convention and it is possible the president of the New York State branch may come to St. John as well. Plans as far as affect speakers are not ready in full preparation yet.

During the membership of the five King's Daughters' Circles in this city, and the branches throughout the province it is assumed there may be as many as 250 or 300 members here in July, possibly many more. Transportation cost will possibly affect attendance from many Canadian points, but the nearer towns and cities should be well represented.

Delegates will be entertained in the homes of local members and besides the executive sessions, which will be held in the Guild, Chipman's Hill, and the public meetings in Centenary Hall, there will be a pleasing round of social activities, including afternoon teas at suburban resorts, motor jaunts, etc.

Don't Be Like the Kansas Farmer

HAVE YOUR GUTTER WORK DONE NOW!

You probably know the story of the Kansas Farmer, who needed a roof on his barn. When a neighbor would ask him, "Why don't you have it put on?" he'd say, if it was a sunny day, "What's the use?" If a rainy day, "How can I?"

Why don't you take advantage of these fair days and let us fix up or install a gutter or conductor on your home or building.

Quick work guaranteed and expert work assured.

Don't be like the Kansas farmer. Call us up NOW.
