BRITISH CRUISERS RUSHED TO PORTUGAL

To Watch British Interests in the Troubled Country

A GENERAL OUTBREAK

Troops Have Gone Over to the Revolutionists and Lisbon is Being Bombaraded—King Manuel Reported to Have Escaped to a Brazilian Battleship

Paris, Oct. 5.—An official communication sent today says:

"It is confirmed by information, private but certain, that an imperial revolution has broken out in Lisbon, that bombardment of the city has commenced and that on Tuesday night King Manuel was in the royal palace, resisting the revolutionists."

Gibraltar, Oct. 5.—The British cruisers Newcastle and Minerva sailed from here today, steaming at speed for Lisbon.

London, Oct. 5.—The admiralty today received a brief wireless message confirming the news of a revolution in Lisbon, but giving even fewer details than the despatches of last night.

Upon receipt of this message orders were sent to Gibraltar for the detachment of two cruisers to watch British interests in the troubled country.

The cruiser Newcastle had just reached Gibraltar enroute for China port today for Lisbon and was followed by the cruiser Minerva.

Beyond the wireless message received by admiralty, the foreign office has no word of the revolution.

Paris, Oct. 5.—Portugal since yesterday has been isolated from the rest of the world and circuitous reports declare that the country is in the throes of a violent revolution.

All of the Portuguese navy and a part of the army are reported to have deserted the monarch and to have cast their lots with the revolutionists.

The Portuguese warships shelled the royal palace while land forces after desperate fighting in the streets dragged down the royal standard and raised the banner of the republic.

King Manuel is said to be a prisoner in the palace.

"Although a revolution, peaceful or accomplished with violence, was not unexpected it is generally believed that the immediate cause was the assassination of the duke of Braganza, the son of the monarch and chief of the Liberal League, by the Marquis of Pombal. So intense was the feeling against the throne that this incident comparatively trivial in its manner sufficed to start the outbreak.

Portugal following the example of Spain has been imbued in recent years with a strong anti-royalist sentiment and the government included a revision of the religious orders.

President-elect Fonseca of Brazil recently arrived at Lisbon and has been greeted by grand banquets to have been given him by King Manuel. Accordingly the Brazilian government has been in the habit of visiting him, of scenes similar to those in 1889 in Brazil when the Portuguese empire was overthrown. Evidence of the activity of those who aimed at the throne have been found frequently late. On September 20 the police raided a bomb factory and arrested ten persons. This action is said to have followed the discovery of a widespread anti-monarchical plot with ramifications throughout the kingdom.

El Imparcial, an official organ, at that time declared the government was prepared to mercilessly crush a revolution.

Paris, Oct. 5.—It was stated at the Brazilian legation here today that King Manuel had taken refuge on a Brazilian battleship Sao Paulo.

Madrid, Oct. 5.—The Spanish Telegraphic authorities announced this afternoon that they were trying to communicate by wireless with the British fleet, supposed to be off Lisbon or near Portuguese or Spanish coast.

Paris, Oct. 5.—Following the discovery of the bomb factories there have been a series of strikes made daily among medical students who were members of a secret revolutionary society with branches in the medical school and the university of Coimbra.

The governments action against the clericals also complicated the situation. Following the expulsion of the Jesuits from the monastery at Aldea Ponte, many Spanish priests known as Marineros who had settled in various parts of the country establishing convents and monasteries, were ordered out of the kingdom and their establishments closed by authority of the law of 1902 which permitted the establishment of religious orders only for charitable and educational purposes.

The Portuguese unrest which had gradually increased since the discovery of plots to overthrow the monarchy and set up a military dictatorship or a republic, was aggravated by serious strikes among the work cutters and coopers. More than 200 men stopped work at Barreiro and striking followed.

The strikers seized railroad trains and raged thousands of miles of cork. Municipal guards and regiments of infantry and cavalry were dispatched to repress and a collision between the strikers and the soldiers ensued. Fifty strikers were injured. The grievance of the cork cutters was the exportation of foreign (Continued on page 3, fifth column).

THE WEATHER Moderate to fresh southwest to south winds, a few scattered showers but mostly fair and warm today and on Thursday.

R. CARLETON VINDICATED BY RECORD IN PATENT OFFICE

In the Real Hassam Method the Stone is Rolled Before Applying the Grout

The Aldermen Confounded by Hassam Specification

Their Attitude Toward the Ex-Inspector Without Shadow of Justification

The Times-Star has at last discovered the Hassam method. When Inspector Carleton resigned in protest against rolling the stone in the foundation on Main street before applying the grouting mixture, the blame for the rolling was promptly laid upon Mr. Carleton, and he has been compelled to rest under it ever since.

As a matter of fact, that which Mr. Carleton condemned is the real Hassam process, and would doubtless have been continued throughout Main street but for his resignation.

The Times-Star has secured a copy of the patent covering the Hassam method, secured at Ottawa on August 11th, 1906, by the Hassam Paving Company, assignee of Walter Edwin Hassam. In the specification it is stated by Mr. Hassam—

"In a prior United States patent granted to me on the first day of May, 1905, No. 818,002, and in a prior Canadian patent No. 905,111 granted December 12, 1905, I have described a structure in which broken stone, gravel, or the like has been placed on the bottom of an excavation and rolled to compact the same and broken stone or gravel has been treated with a grout or the like, subsequent to its rolling, and a suitable wearing surface has been placed thereon.

While free to make their own choice of a husband, and to act as mistresses of their liberty, they are accorded no recognition and are still always in fact no names. While professing a keen willingness to assimilate American customs, the old folk almost had a fit when a woman interested in the cause of the suffragettes modestly suggested that she extend the right to vote to women in the kingdom he once ruled with an iron hand.

"Why, I'm afraid some one would want to cut off their heads if they suggested such a thing. Only the men have this privilege, and it is hardly likely that where this recognition is given to so limited a number it would be considered proper to allow women to vote." However, he promised to look into the subject more fully before he turns to his native country, and may introduce women's suffrage there as one of the reforms he intends promulgating when he gets back.

The reform values women much as he values pearls, it was explained by his spokesman. When asked, through the same intermediary, what he thought of an American woman he fidgeted about for a minute and with a blush, declared that it was only an illustration to sharpen the point.

"I'd rather have a Pinesburg organ mayor than as 'the man behind the mayor.' That is only an illustration to sharpen the point."

"A very prominent and a very honest Republican politician told me that one of the things which should be done is to label plain theft. I don't know that that is true—and I don't know that it is true of the present administration now. But I do know that the records of the Bureau of Municipal Reform will show that the city pays fifty cents for pieces of gutta percha that it can buy for three cents from any middleman in town. There can be nothing behind a fact like that but graft."

"We must level up our political morals to the traditions of our institutions. I don't think that the level would fall to the rest of the world. In England they pay their city officials nothing, even down to the member of the city council."

Party Leaders Urged to Be More Active in Propaganda Work

A Fight in Furs Hudson Bay Co. to Lock Horns With the New Canadian Merger in Which Dunlop Cooke & Co. are Interested, As Well as Eaton's—Jamaica Pleased at Prospect of Earl Grey's Visit

Times' Special Cable

London, Oct. 5.—One hundred active and wealthy Conservative members of both houses decided to endeavor to induce the party leaders not to stand aloof but to take a more active part in propaganda work. They will also urge them to exchange the present defensive policy for a definite construction programme. Among other things it is strongly felt that the conference between Canada and United States this month renders it imperative that the Unionist position on an imperial preference should be made absolutely plain. It is being feared that if the Liberal party hold the next colonial conference the question of imperial consolidation will be practically destroyed because of present government's unshakable adherence to free trade. The new body wants a strong lead, and claims as its motto "fight, fight, and go on fighting." The movement is significant in view of the fact that the four speakers at Edinburgh on Wednesday, the Financial Times states that Holt and Renfrew have acted promptly in view of the Hudson Bay Company's movement towards the reorganization of its stores. The fact that they acquired the business of the Dunlop Cooke Company, of Montreal, Boston and Winnipeg, and the W. I. Hammond business in Winnipeg, shows they are unlikely to be a passive spectator of the titanic struggle between the Hudson Bay Co. and Eaton interests. The Hudson Bay people have wakened up to the realities of the situation and some hard knocks will be given and received.

"A Kingston Jamaica, despatch of Oct. 4, says the news of Earl Grey's visit to the West Indies is received with enthusiasm. The visit is regarded as proof of the sincere interest England takes in the West Indies situation. It is felt that Earl Grey as an English statesman will look at the reciprocity question from a West Indian as well as a Canadian standpoint. Opinion favors the carriage of mails via Canada instead of the United States. Richard Burridge, the new director of the Hudson Bay Company, is a son of Hubert Burridge, who held an important position in Harrods's stores. (Continued on page 3, fifth column).

R. L. BORDEN WILL SPEAK Kingston, Oct. 5.—At Queens convention on October 18, R. L. Borden is expected to deliver the address. The opening of next week marked the seventh session.

SECOND MATRIMONIAL VENTURE FOR SHULTZ Summit, N. J., Oct. 3.—Carl Rudolph Shultz, and Miss Minerva Huntington Chappel, of New London, Conn., were married at the residence of Mrs. Schultz's mother, Mrs. Louise Schultz Sieves, at Murray Hill by the Rev. Dr. Gottlieb Andrae.

ME. CARL R. SHULTZ Mr. Schultz was the second applicant for a marriage license in the Borough of Murray Hill. The license was granted by the Registrar of Vital Statistics. Mr. Schultz presented a copy of a decree of divorce granted by the New Jersey court of chancery to his former wife, who was Miss Clara S. Shields, of Canton, Ohio.

BRIEF DESPATCHES Panama, Oct. 5.—A native who just arrived here in a sailing reports that all the passengers and crew, with the exception of one fireman, on board the steamer Christy, have been saved. So far as could be learned there was an explosion on the steamer, which resulted in the death of the fireman. It is not known what damage was done to the steamer. The Christy plied between this port and Buenaventura, and was reported to have been wrecked by the explosion of her boilers. Steamers which were gone in search of the vessel have not yet returned.

ROSEY, FRANEY, OCT. 5.—Leon Morzine, who started at 9:43 this morning for Montreal-Ferrand, in an attempt to win the Melburn Aviation prize, fell here and sustained a broken leg. His brother, Robert, who was a passenger, sustained a fracture of the skull.

SHOT GIRL WHO REJECTED HIM Brief Romance in New York Ends in a Tragedy New York, Oct. 5.—Yetta Cooperman, a pretty little sweatshop worker, 18 years old, was taken to Gouverneur hospital, dying with a bullet wound in her right side, which had been shot by Nathan Cohen, a wild-eyed, long-haired Socialist, because she refused to be his wife.

The romance of Yetta and Cohen began months ago, when he went to board with her widowed mother at 218 Monroe street. She first met him in a cloak factory on the east side, and he began paying court to her. Every evening when work at the shop was over he would walk home with her, and at night when she refused to make a few more pennies by extra work at home he sat near her.

Four months ago Yetta and Cohen were walking through Seward park when he asked her to marry him. She consented, and then began working all the harder to save money for her wedding garments. Cohen continued boarding at the widow's street station, and when opportunity afforded called on his landlady's daughter.

Mrs. Cooperman was away from home last night, and Yetta was in the kitchen bending over work she had brought from the shop. Cohen suddenly burst into the room.

"You have decided to marry me," he asked in a threatening manner.

"I have decided not to," the girl replied. "I'd rather die than be the wife of an idling rector of Socialist trash."

"Then you'll die," burst out Cohen and he jerked a revolver from his pocket and pressed the barrel of the weapon against the girl's right side and fired. As he left the room he was followed by the girl, who bent over work she had brought from the shop. Cohen suddenly burst into the room.

WOMEN SAYS SULTAN OF SULU Dusky Monarch of Sululand Says Anyone Who Suggested Votes For Women Would Likely Lose Heads

His Majesty the Sultan of Sulu, now visiting the United States, in women's suffrage as a desirable up-to-date acquisition to Sululand met with a decided frost this week. Off the beaten path of civilization very little concerning the development of very new world-wide movements as yet reached his capital, so that his information on the subject was not quite clear until it was explained to him in detail on his arrival in New York. Where the funny little brown monarch comes from women until very recently were chaste, subject to sale and barter, like furniture, and other necessary articles of commerce. According to their age, family and appearance they sold anywhere from \$100 to \$1,000, their value fluctuating in proportion to the laws of supply and demand. The Sultan of Sulu, who is now in New York, is a native of the island of Sulu, in the Philippines and clipped the wings of this royal bird, this sort of thing has been stopped.

POLITICS AND GRAFT Pastor of John D. Rockefeller's Church Gives Plain Talk on Situation in U. S.

New York, Oct. 5.—Convinced that graft flourishes practically untrammelled in all American cities, the Rev. Dr. Charles D. Aked, pastor of John D. Rockefeller's Fifth Avenue Baptist Church, has been saying some plain things concerning conditions as he has observed them.

IT IS A FAMOUS CIGAR

FOR TWO GOOD REASONS

There is a proverb which says "LITTLE KNOW-LEDGE IS DANGEROUS."

The Davis 'Perfection' 10c. Cigar

IS NOT one with "little knowledge" behind it. IT IS PRODUCED BY EXPERTS OF OVER 50 YEARS STANDING AND GOOD REPUTATION.

It is also true that JACK OF ALL TRADES IS MASTER OF NONE, and the fact that the Davis firm have made CIGARS AND NOTHING ELSE for over half a century, is another good reason why "PERFECTION" is a 10c. CIGAR OF UNEQUALLED MERIT.

FAMOUS GEMS OF PROSE

WOMAN
By Robert G. Ingersoll

WOMAN is not the intellectual inferior of man. She has lacked, not mind, but opportunity. In the long night of barbarism, she has been taught to pass for inferior. Her superiority, muscle more than mind. Her conscience was rendered morbid and diseased. It might be almost said that she was betrayed by her own virtues. At best she secured, not opportunity, but flattery—the preface to degradation. She was deprived of liberty, and without that nothing is worth the having. She was taught to obey without question and to believe without thought. There were universities for men before the alphabet had been taught to women. At the intellectual feast there were no places for wives and mothers. Even now they sit at the second table and eat the crusts and crumbs.

MUNICIPAL COUNCIL

At a meeting of the municipal council yesterday afternoon, it was decided to start once the work of improving the fire protection at the General Public Hospital. Bonds will be issued for the amount necessary, \$2,400, but pending the obtaining of legislation, the finance committee was empowered to borrow from the contingency account.

Some discussion took place over the financial condition of the Municipal Home, and it was decided to notify the commissioners of that institution to appear before the finance committee at its next meeting. On motion of Coun. Potts, the buildings committee was instructed to report on the possibility of building for the Municipal Home.

In the report of the finance committee it was recommended that the balance of \$300 that the municipality owed the provincial hospital be paid. Coun. Baxter moved that the balance of \$2,800 was due the home from taxes and only \$16,000 had been paid. Coun. Cochrane spoke of the resignation of Coun. Baxter, and said that they all wished him success in his new duties.

The following delegates were named to the municipalities convention at Woodstock: Couns. Cochrane, Smith, Donovan, Dean, and County Secretary Kelly. It was decided that the expenses of the delegates would be paid by the county.

A resolution by Coun. Cochrane was passed that the bills committee prepare a bill for the legislature confining the vote taken on the sewerage question in Lunenburg to the matter of the sewerage works were completed at Courtenay Bay the present site of the Municipal Home and might be a desirable one, and he suggested that they negotiate for the Misses Pulp Mill. This was left with the buildings committee.

In the matter of the protection for the hospital, a resolution by Coun. White that the municipality be authorized to issue bonds to the extent of \$2,400 for the purpose was carried.

YOU CAN INTEREST I MI

Any Man Over Fifty.

You can interest any man over fifty years of age in anything that will make him a desirable one, and he will be as yet have any positive organic disease he no longer feels the buoyancy and vigor of twenty-five nor the freedom from aches and pains he enjoyed in earlier years, and he very naturally examines with interest any proposition looking to his improvement and preservation of his health.

He will notice among other things that the stomach of fifty is a very different one from the stomach he possessed at twenty-five. That greatest care must be taken of it, and that it is the most important part of the body, and that it is the seat of the most delicate and sensitive organs.

A proposition to perfect or improve the digestion and assimilation of food is one which interests not only every man of fifty but every man, young and old, of any age, because the secret of good health, good blood, strong nerves, is to have a stomach that is able to digest thoroughly and digest wholesome food because blood, nerves, brain tissue and every other part of the body is made from the products of digestion, and no medicine or "health" food can possibly create pure blood or strong nerves, when a weak stomach is preventing the daily wear and tear of the body from a mass of fermenting indigestible food.

No, the stomach that wants help and in no roundabout way either; it wants direct, unmistakable assistance, such as is given by one of Dr. Stuart's Dyspepsia Tablets after each meal.

These tablets cure stomach trouble because their use gives the stomach a chance to rest and recuperate; one of Stuart's Dyspepsia Tablets contains digestive elements sufficient to digest 3,000 grains of ordinary food such as bread, meat, eggs, etc.

The plan of dieting is simply another name for starvation, and the use of prepared foods and new fangled breakfast foods simply makes matters worse as any dyspeptic who has tried them knows.

As Dr. Bennett says, the only reason I can imagine why Stuart's Dyspepsia Tablets are not universally used by every body who is troubled in any way with poor digestion is because many people seem to think that because a medicine is advertised or is sold in drug stores or protected by a trade mark must be a humbug whereas as a matter of truth any druggist who is observant knows that Stuart's Dyspepsia Tablets have cured more people of indigestion, heartburn, heart trouble, nervous prostration and run-down condition generally than all the patent medicines and doctors' prescriptions for stomach trouble combined.

MR. CARLETON VINDICATED Mr. James Carleton is at last vindicated. The members of the city council owe him an apology. When he objected to the rolling of the stone before the grant was applied, on the foundation of the Main street paving, the Hassam people hastily hunted cover and laid the blame for it upon Mr. Carleton himself, offering the excuse also that at the beginning the men on the job were "green hands" and unfamiliar with the Hassam process.

But now the truth is out. The press and the citizens have vainly sought to learn from the company or the city engineer, or some other authority, what the Hassam really was; but the Times-Star has got the facts from the patent office at Ottawa. They are set forth on another page of today's issue.

The bottom of the excavation is preferably rolled, and then a layer of broken stone or gravel is placed thereon and rolled hard. For example, it may be eight inches deep when originally placed in position, and rolled or compressed until it is six inches.

This is before the grant is applied. Again—The stone is placed in position in an uncasted state and rolled hard or compressed, and thereafter grouted.

This confirms the statements made about the method adopted by the Hassam people in Fredericton. The city council was challenged to get evidence from Fredericton on this point, but refused to do so.

Public Spirit The public spirit manifested by the residents of German street, between Princess and Queen streets, in connection with the new pavement, is deserving of all praise.

PLANT TWENTY-FIVE NEW ORCHARDS IN BRITISH COLUMBIA Victoria, B. C., Oct. 5.—The provincial government expects soon to complete its arrangements for the location and establishment of 25 demonstration orchards for which an appropriation was made at the last session of the Legislature.

THE WATER SUPPLY City Engineer Hurdock's statement about the great leakage in the city water mains, made as it is at the beginning of winter, will not tend to reassure the citizens who endorsed so large an expenditure to provide the city with an adequate water supply.

MEAN, MONEY AND MINISTERS

Speaking at the special convocation at the Diocesan Theological College in Montreal last week, Principal Rexford said:—"There are two words constantly on the tongues of those connected with Canada's theological colleges: men and money. The men are more difficult to get than the money, which is not easy to get."

Rev. Dr. Symonds may have touched another cause than the dollar for the disinclination of young men to enter the ministry. He asked for broader views on practical theology. Possibly there would be more teachers if men were more certain what they ought to teach.

A SANE CONSERVATIVE The Victoria Colonist is a Conservative journal which refuses to believe that if Canada increases her facilities for profitable trade she will send the empire to the junk-heap. It says:—"We are unable to understand the attitude of certain British public men in regard to Canadian trade relations."

A Baby Lark A baby lark had got out of its nest side ways, a fall of a foot only, but a dreadful drop for a baby. "You can get back this way," its mother said, and showed it the way. "But when the baby tried to leap it fell on its back. Then the mother marked out lines on the ground, on which it was practice hopping, and it got along beautifully as long as the mother watched every movement and encouraged the baby by saying, 'How wonderfully you hop dear.' 'Now teach me to hop up,' said the little lark, meaning that it wanted to fly and the mother tried to do it in vain. She could soar up, up, very bravely, but she could not explain how she did it. 'Wait till the sun comes out after rain,' she said, half remembering. 'What is sun? What is rain?' the baby bird asked. 'If you cannot teach me to fly, teach me to sing. 'When the sun comes out after the rain then you can sing.'

The Evening Chit-Chat

By RUTH CAMERON

I AM over thirty. All my girl chums are married. I do not think that I shall ever marry. I might as well make up my mind to that. But if I am not going to marry, I am not going to be an 'old maid,' not the sour kind. I have decided that, and I have also decided that the way to do it is to keep in touch with young life. Since I am to have no children of my own I am going to try to be as interested in and as much with my girl friends' children as is possible. That is the decision that a young woman whom I know made a year ago. And in that year it has actually so changed and sweetened her from the rather embittered and self-sufficient young person which she was then, that her acquaintances are continually saying to each other: "What has come over Louise? She has improved so." And that decision is the secret. Isn't it a splendid one? Think of the people that have been affected by it. There are Louise's father and mother, who are delighted beyond words at having their daughter so much happier and more contented. There are Louise's half a dozen of her friends' children who have learned to call her "Aunt Louise," and to rush to the door to greet her whenever she comes to see them. And best of all, there is Louise herself, who is replacing discontent and dreariness and unrest by contentment and peace and serenity. I wonder if there are not some unmarried women among my readers who might make their own and their friends' lives sweeter by adopting that resolution.

Daily Hints for the Cook

ROAST BREAST OF VEAL WITH CREOLE STUFFING. Get two pounds of the breast, even if there is to be no company, for it can be eaten cold the next day. Roll out the long narrow piece and fill it with a stuffing of dry, stale, white bread, and chopped pimientos seasoned with cayenne and salt. Mix the mass together with olive oil, put in a raw beaten egg and lay the dressing on the veal, shaping this into a roll. Skewer or tie with cords and dredge with flour, pouring over a little olive oil to start the roasting if there is little fat.

MEXICAN POLENTA. Into three pints of boiling water put a pound of polenta, stirring it constantly, until a pint of Indian meal and boil one-half hour. Have ready a hot, stale, white bread, and one of tomato sauce, made with chile. Put a layer of the cooked Indian meal in the bottom of a buttered dish, then the sauce and gravy, sprinkled with a little grated cheese. Fill the dish with these alternate layers for one half hour, cork and hot with a little extra hot tomato sauce. Chicago Record.

RICE BALLS. Steam one cup of rice till tender, wring 10-inch square pudding cloths out of hot water and spread the rice one third of an inch thick over the cloth. Drain a can of peaches of their juice. Place one peach in the center of each cloth; draw up till the rice envelopes the fruit, tie and steam briskly for 20 minutes; remove cloth, turn on a dish and serve with fruit sauce as follows: APPLE CHUTNEY. Pare and core five pounds of tart cooking apples. Put them in a preserving kettle with two pounds of brown sugar and two quarts of vinegar. Cook them slowly until thick and smooth. Take them up in a pan and add two pounds of chopped sultana raisins, a minced head of garlic, two ounces of ground mustard seed and ginger root, three tablespoonfuls of salt and three pounds of chopped red peppers. Mix well together and let stand for eight hours; stir until perfectly blended, put in small jars or wide-necked bottles, cork securely and keep in a cool, dry place.

After La Grippe "I had suffered several weeks with LaGrippe. Had pains in my head and eyes. It felt as though there was a heavy weight on the top of my head, until it seemed that my brain would burst. I was so nervous that I could not rest or sleep. When I dozed off I would awake with a sudden jerking of my whole body. Dr. Miles' Nervine, Heart Remedy and Nerve and Liver Pills cured me. A number of friends have since realized the same benefits."

MRS. ALVIN H. LOCKS, Seabrook, N. H. The after effects of LaGrippe are often more serious than the disease, as it leaves the system in a weakened condition that invites more serious troubles, such as pneumonia, etc.

Dr. Miles' Restorative Nervine should be taken for some time to thoroughly restore nerve strength. Price \$1.00 at your druggist. He should supply you. If he does not, send price to us, we forward prepaid. DR. MILES MEDICAL CO., Toronto

Railway Co., and Mrs. Sarah Augusta Bowtell, both of Charlotte town. Rev. Dr. Campbell, of St. John, solemnized the event, which took place at the home of the groom's brother, B. J. Sharp. A honeymoon trip through Upper Canada will follow the wedding.

CATHOLICS AROUSED BY NATHAN'S ATTACK

Proposed That Powers Should Undertake to Enforce Respect for the Pope

ITALY WOULD NOT CONSENT

Suggestion Has Been Made That Curia Be Removed to America Before Radicals Gain Full Power

(Cable to New York Times.) Rome, Oct. 4.—The strong anti-Catholic, indeed anti-Catholic, speech of Signor Nathan, the Freemason Mayor of Rome, the energetic protest of the Pope, and the subsequent reply of the Mayor once more make plain the situation, unbearable to Catholics, of the head of the church in the city which is no longer his own. They declare that the Pope lacks the liberty necessary for the fulfillment of his high mission, adding that the law of guarantees, voted by the Italian parliament in 1871 with the intention of securing the sovereign position of the Pontiff in Rome, is in reality no guarantee at all, as the same parliament can annul or modify the law, while its violation, in the case of Mayor Nathan, is not punished.

It is understood that the minimum to which the Holy See would agree is an international undertaking by which all the powers would pledge themselves to see that the Papacy should be respected in Rome and should enjoy certain privileges and liberties. To this, of course, Italy would never consent, as to do so would be like inviting foreign intervention in her own internal affairs, so that the problem of how to settle the conflict between church and state in Italy is insoluble on this basis.

For forty years things have gone as well as could have been expected, with a succession of attacks and protests and with periods of tolerance and intolerance, but everyone asks what will happen on the day, should it ever come, when the government of the country is in the hands of the Radical-Socialist element with a pronounced anti-Catholic program. Their intentions are known: The abolition of the law of guarantees, a compulsory civil marriage before the religious ceremony, divorce, the prohibition of any ecclesiastic as a teacher, entirely lay instruction, state control of the Vatican finances, Holy See being regarded as a company, and the confiscation of all ecclesiastical property. Many believe it would be more dignified and more prudent on the part of the Pope not to wait for such an extreme moment, but to leave Rome with curia and court before the Church and the Vicar of Christ are reduced to such humiliating extremities.

Would it not, they argue, be better to find hospitality in some new, enlightened and progressive country where Catholicism could develop freely and expand again throughout the world without let or hindrance? Every one understands that America is the country hinted at by those who argue thus.

The suggestion has been made that Mayor Nathan should be removed from office by the government for having violated the law of guarantees and the first article of the Italian Constitution, which says that the Catholic religion is the religion of the state.

In connection with this it is recalled that the Duke of Ferrara about seventeen years ago was removed from his position as Mayor of Rome by Premier Crispi, but he quit the office because he was the time Crispi was dreaming of bringing about conciliation between the Quirinal and the Vatican, and had chosen to go to the opportunity of the Jubilee of Leo XIII. Mr. Crispi, the librarian at the Vatican, son of the Garibaldi General, had an apartment in the same house in which Crispi lived, and acted as the intermediary. Something of the matter became known, and the Duke of Ferrara as mayor, thinking to play a master-stroke which would help to conclude the negotiations, on his own initiative on the day of the Papal Jubilee paid a visit to the Cardinal Vicar (the action was without precedent since the taking of Rome) and conveyed through him to the Pontiff the warmest congratulations and respectful homage, both from himself personally and as the representative of the capital of the kingdom.

Unfortunately for the Duke the negotiations which were going on at the Vatican failed and Crispi removed the mayor.

Would it be prudent to do the same thing with Signor Nathan? It is doubtful. It must be remembered that he was elected by a very large majority, and that any measure against him on the part of the government would augment his popularity, and might open to him the road even to the premiership.

Amherst, Oct. 4.—Next Sunday marks the third anniversary of Trinity Methodist church. Rev. J. L. Batty of Central Methodist church, Moncton, N. B., a former pastor of the church, will preach both morning and evening on Monday evening will deliver a lecture on the church, taking as his subject the relations of Protestantism to the British Empire. Sunday evening in addition to the sermon by Mr. Batty, there will be a light song service. The church is making an effort to raise during the anniversary services the sum of \$3,500.00 on account of church debt.

The following Sunday, Oct. 16th, the First Baptist church will begin the celebration of the 100th anniversary of the church. A fitting programme has been arranged and the exercises will continue until the 20th. Sunday morning Rev. J. H. MacDonald, B. A., of Fredericton, N. Mr. MacDonald will lecture on the subject—The Poets and the Life Beyond. Tuesday will be missionary day and Rev. D. E. Hatt, B. A., will be the speaker in the afternoon. This will be followed by a centennial supper at the church for members of the church and congregation.

D., former pastors of the church. Wednesday evening will be a fraternal service participated in by the clergymen of the town and Baptist clergymen of the county. Thursday evening will be a centenary conference, when Rev. P. J. Stackhouse, B. A., B. D., the pastor, will deliver an address—"Respect and Prospect."

During the four days exercises an effort will be made to arrange for the paying off during the next five years of the total indebtedness on church property which amounts to \$20,000.

Mayor and Mrs. Curry, who have just returned from their wedding trip were treated to a surprise last evening when members of the whole fire department in uniform accompanied by the band met upon the lawn in front of their home and gave them a hearty serenade. Chief Bell on behalf of the firemen, presented Mr. Curry with a handsome clock. Mayor Curry expressed his appreciation after which all returned to the Woodcock Cafe where Mr. Curry had lunch served.

While at work in the sewer extension, a workman by the name of Whalen received a terrific blow on the back of the head from a heavy maul which flew from the handle, in the hands of a fellow workman. A deep cut inflicted required several stitches.

The second race between Fred Cameron and Abbie Wood takes place on the Ramblers grounds next Saturday afternoon. Even greater interest is manifested in this than in Cameron's first professional race, when Wood defeated him, and it is generally predicted that the result on Saturday will be very different, that either Cameron will win out or that all previous records of these celebrated sprinters will be smashed. Cameron has been training hard since the last race and intends if possible returning to his role of winner.

Before going to Montreal it is understood that Wood placed several large bets on the result.

It is understood on good authority that sufficient orders have been placed with the Amherst branch of the Canadian Car Co. and Foundry Co. to keep all departments busy until next summer. The malleable department is about completing the enlargement of their plant which will use as old their already large output. Building operations in the town are at present quite brisk. The Victor Wood Works have just completed a fine residence in Rupert street for I. J. Soy and are also building one alongside for themselves. They also have the contract for the residence of M. B. Val, Rupert street, which when completed will be one of the finest and most modern in Amherst. Contractor Fuge is making great headway with the large brick extension to the Amherst Boot and Shoe Co.

BARN STRUCK BY LIGHTNING

David A. Farris' Barn at White's Cove Totally Destroyed With All Its Contents

White's Cove, Queens Co., Oct. 3.—The worst electrical storm of the season passed over this place on Saturday night. The lightning struck a barn at Mill Cove, belonging to David A. Farris, and burned it with all its contents. Besides losing his hay and grain, Mr. Farris lost thirty barrels of potatoes, his farming implements, one horse and two cows. Much sympathy is felt for him as he had no insurance on building or contents.

W. A. Farris of this place has the contract to paint the school house at Mill Cove.

SPORT NEWS OF A DAY; HOME AND ABROAD

Inter-Society Bowling League.

At a meeting held last night in the rooms of St. Peter's Y. M. C. A., Douglas avenue, when representatives were present from nine societies interested in the formation of an inter-society bowling league, it was decided to open the league on Monday evening next with a game between the C. M. B. A. and the married men.

Jas. Doherty was chosen chairman and Thos. Cosgrove, secretary, and considerable preliminary matters were dealt with.

Following the game on Monday night it is planned to play five games each week up to a short time after Christmas, when another series will begin, thus making two series of games. It was decided to start each game promptly at 8 o'clock. At last night's meeting a representative was present from the Knights of Columbus, but it is thought that they will enter, and if so, next week the following matches will take place:

Monday—C. M. B. A. vs. Single Men. Tuesday—A. O. H. vs. St. Peter's. Wednesday—St. J. B. vs. I. L. & B. Thursday—K. of C. vs. H. T. I. Friday—Married Men vs. P. M. A.

The balance of the schedule will be arranged next week, referees appointed and the other matters to be dealt with at the meeting.

The games will be played on the alleys in St. Peter's gymnasium, which have undergone a vast improvement, capable men having been engaged for some time past in the work of renovating. Those present at the meeting and the societies represented were: Thos. F. Coughlan, St. Peter's; Thos. Cosgrove, C. M. B. A.; Alfred L. Dever, Married Men; H. H. Jas. McIntyre, Single Men; Robt. F. O'Brien, St. J. B.; Jas. B. Dever, P. M. A.; Jas. McGovern, I. L. & B.; P. Martin, A. O. H., and J. Doherty, Holy Trinity.

Baseball

Big Leagues Have Banded Together.

New York, Oct. 5.—D. A. Fletcher, the Ohioan, who says he intends to launch a new major baseball league, and will induce all the big stars to join at \$100,000 a man, to be put up in cash on February 15th, has busy times ahead. Fletcher says that he needs \$5,000,000 to put clubs in Boston, New York, Philadelphia, Brooklyn, Chicago, Cincinnati, Pittsburg, and Cleveland or St. Louis.

The big leagues have banded together for common protection, have a vast fund of more than \$200,000 stowed away for just such an emergency as Fletcher would create. That the Johnson and Lynch organizations will get after Fletcher and Co. with a red-hot poker is readily conceded, for the men in control of the national game have too much at stake to allow a so-called invasion of property rights.

A One-Sided Game.

The Every Day Club grounds was, yesterday afternoon, the scene of a very one-sided game of ball. The game was between representing employees of A. and I. Isaacs, went down in defeat before the "Competitors," a team from St. Joseph's, by a score of 27 to 9. Batteries for the winners, Jones and Elliott; for the losers, Stevens and Pratt. The featured pitcher, Tom Deveny's home run and Elliott's three bagger.

Both teams wish to thank the Every Day Club for the use of their grounds.

A PRESENTATION.

Frank Harrington, St. Peter's baseball pitcher, left last evening for his home in Wakefield, Mass. Before the departure of the train a large number of friends collected in the station to say good-bye, and Manager Thomas Coughlan, on behalf of the team, presented Mr. Harrington with a valuable gold signet ring. The recipient made a suitable return.

Athletic

M. P. A. A. Annual Meeting.

Halifax, Oct. 4.—(Special)—The annual meeting of the Maritime Provinces Amateur Athletic Association was held last night. It was decided by a vote of 16 to 11, not to ask the Canadian Amateur Athletic Union to sanction semi-professionalism in baseball and hockey. The minority wished to have a rule allowing professionals and amateurs to play side by side. The Cape Breton and Pictou delegates and the Crescents of Halifax wanted the semi-professional rule. Thirty-seven clubs are affiliated with the M. P. A. A., a gain of eleven during the year. King's College application for membership was accepted. The new officers are: Dr. H. V. Johnston, Charlottetown, president; J. L. LeBlond, Halifax, secretary; J. T. Wrann, Moncton, vice-president; L. B. McMillan, Charlottetown, secretary; G. A. Gwyn, Halifax, treasurer; J. J. Cycle

Motor Cycle Races.

The championship races of the Toronto Motor Cycle Club attracted a crowd of 6,000 people to Exhibition Park, Toronto, and the meeting was such a success that it was decided to make it an annual affair. Herb Kipp won the ten-mile championship of Canada with a twin cylinder machine in 13:48.5. Keld was second and Anderson third. Several spills occurred but nobody was seriously hurt.

Wheeler and A. A. U. of C.

Toronto, Oct. 5.—There is a movement on foot to affiliate the Canadian Wheelmen's Association with the Athletic Union of Canada. The matter was given a start by the wheelmen, and it is likely that at the annual meeting of the A. A. U. of C. a committee will be named to govern cycling in the athletic union. As a matter of fact, the athletic union ready county cycling in all the provinces but Ontario and Quebec.

Wrestling

Running

Despite the fact that a run is to be held this week, one doesn't hear much about it. Marathons these days. Up to date no other club has announced a fall Marathon. The Hamilton Herald of Hamilton, Ont., however, announces that it still is in stock with its annual 19-mile road race around Burlington bay, and is anxious to start from prospective competitors. The

It is likely that it will be necessary for someone to make a trip to New York in connection with the purchase of a new ferry boat. Superintendent Wargnow has two boats in view, the Newport which was built in 1907, and the Naragansett. The former is of 373 tons net register, and the latter is a wooden boat of the best class, 135 feet long.

No date has been fixed for the swearing in of the new recorder, but it is likely that a meeting of the council will be held in a few days to receive the resignation of Ald. Baxter. Farm Horse Fast Trotter.

Wilmington, Del., Oct. 5.—The trotting gelding A. T. C. 21414, which was developed from an ordinary farm horse a year ago by William B. Biggs, of Middle-town, Del., has been sold by him to George R. Snedeker, trainer for Dr. J. C. McCoy, a wealthy Delaware breeder. Snedeker paid \$5,000 for the trotter for a race track and \$2,500 for the horse. Tom Murphy of Long Island will be the driver.

The gelding is by Torino, and is the fastest trotter in Delaware, being able to show trials considerably below 2:10. Biggs paid \$400 for the animal from a farmer while it was pulling a plough. Biggs is a son of an ex-governor of Delaware.

MANY ENTRIES FOR THE E. D. C. SPORTS

The 20 Mile Bicycle Race Promises to Be a Very Interesting Struggle

The big feature of the Every Day Club Sports to be held Saturday, October 8th, is the 20-mile bicycle race for the Dunlop Trophy. All the best riders of the province are entered, including McCavour and Cochrane, who finished second and third last year; Winters, the famous long distance man from Charlotte-town; Smith, from Dartmouth; Moir, of Halifax and McGrath, of St. John. Foote the cup holder, will likely be here also.

It can be seen from these entries that the one who wins will have to work, and the record of one hour and three minutes set up last year will, no doubt, be broken.

Entries are coming in for all the other events, and all that is necessary now for a good day's sport, is fine weather.

ANNIVERSARY SERVICES

The Women's Aid Society of Main street Baptist church will celebrate the 40th anniversary of its organization tomorrow afternoon and evening. There will be a meeting in the afternoon at 4 o'clock in the vestry, for ladies of the church and congregation, with an interesting programme, including a brief historical sketch of the society, and a play by Mrs. F. W. Wentworth and solos by Mrs. Olmstead and Miss Hazel Frewelling. This will be followed by a social tea and a public meeting in the evening at 8 o'clock, when Rev. John Glendenning, a returned missionary from India, will give an address. Mr. Glendenning has spent several years in India and during the time learned three languages, one of which, the Savaras, has been necessary to reduce to writing. The Savaras are one of the hill tribes of India, for whom very little missionary work has been done. It is expected Mr. Glendenning will tell of some of his experiences in connection with this work.

It is hoped also to have the orchestra of the Victoria street Baptist church at the meeting.

The number in September of this year is greater than for the same month last year. Last month 474 persons died in the city, while in September of last year, 463 deaths were recorded.

SOCIAL AND PRESENTATION

A very enjoyable congregational social was held last evening in the schoolroom of Brussels street Baptist church. It was the first gathering of the kind since last spring and there was a very large attendance. A pleasant feature was the presentation during the evening of a beautiful cameo brooch to Miss Julia Elliott, who is to be married here next week, and will reside in Moncton. Miss Elliott has always been a prominent, faithful and earnest worker in the church and her many friends took this method of showing their appreciation while her departure from the church and from St. John will be regretted, all wish in wishing her every happiness for the future.

WATER SHORTAGE

WILL CONTINUE FOR SEVERAL DAYS

Engineer Says Leaks in the Mains Are Responsible for Lack of Water in Some Districts—Water Carts Sent Around

Practically the only new development in connection with the water supply of the city, today was the distribution of water about the streets to the citizens who were unable to get it in their homes, the means of distribution being the city's watering carts. These had their tanks filled at some of the fire-plugs, and thus equipped, provided water for many people who could not get it from their taps.

Workmen are busily engaged in pushing the repairs to a finish on the water service connections. Leaks in the mains were responsible for an enormous waste of water, but men are working night and day in an effort to get the supply in good working order again. It is thought that the work of repairing the No. 2 conduit will occupy about two days. The work is being done by men in oilskins, from the inside of the pipe.

The lack of a supply of water is felt in various sections of the city, and numerous and forceful complaints were registered this morning and yesterday at the water works. The department being strongly criticized for not having given better notice to the public of their intention to shut off the supply.

City Engineer Murdoch said this morning that the failure of the Little River supply was due to the fact that while the service from there was fairly good before the drain on Loch Lomond began, the additional pressure from this latter source, caused many leaks in the mains, and to this could be attributed the partial failure. Some time during the night, he said, one of the turbines on the pumps at Silver Falls became out of working condition, and this retarded the work for a little while, until another was installed.

Asked as to how general the lack of supply would be on account of the leakage in the mains, Mr. Murdoch said that the effect would be felt wherever there was a scanty supply of water, no matter in what section of the city the force was poor.

CASE AGAINST THE HASSAM'S DISMISSED

Report Again Geo. Merrises to be Dealt With Friday

The case against Robert S. Lowe, representative of the Hassam Paving Co. was dismissed this morning in the police court, he saying that while there might not have been a light in Main street on the pile of rocks, as charged in the report by the police, he was not aware of it, and had given orders otherwise. However he said, it was difficult to see to placing lanterns on every pile of stones or other material which the company had there, and to do so would "make the place look like a Chinese tea party."

The report against George Merrises for obstructing Union street with baskets of apples and grapes was postponed until Friday next. He pleaded not guilty. Policeman Rankine said that he had had frequent complaints from this obstruction, and several times had torn skirts in passing the obstacles.

WEDDINGS

Myers-McMasters.

A very pretty wedding took place this morning in Mission church, Paradise Row, at 6 o'clock when Gertrude P. McMasters, daughter of John McMasters, of Halifax street, Fairville, was united in marriage to Harry W. Myers, of this city. The bride, who is one of Fairville's most popular young ladies, looked charming in a travelling suit of Copenhagen, with hat of corresponding colors, and carried a bridal bouquet of white roses. Only the immediate relatives and friends of the contracting parties were present. The bride was the recipient of many beautiful presents including cut glass, silver and furniture, also a check from E. L. Rising, with whom the bride was employed, and cut glass set from C. P. Wade, with whom the groom is employed. The groom's present to the bride was a sunburst of pearls and pearl ring to match.

The happy couple left on the Boston train for an extended trip and on their return will reside at 40 Main street.

Anslow-McKenny.

Windsor, N. S., Oct. 5.—At 6 a.m. this morning the marriage was solemnized at the home of Mr. and Mrs. G. A. McKenny, of their daughter, Francis Dorothy, and Harry Sutherland Anslow, son of J. J. Anslow, proprietor of the Hants Journal. The Rev. W. H. Lanville, pastor of the Methodist church performed the ceremony in the presence of only the immediate relatives of both contracting parties. After the ceremony a wedding breakfast was served and the happy couple left on the morning train for Halifax.

Asked this morning as to what action he intended taking in connection with the seizure of post cards made recently, Chief Clark said that he had not yet decided but at present he could not see that there was evidence enough to warrant a conviction. He has submitted them to the recorder, but has not received an opinion as yet. As regards a report that this was a new road for the police in making this seizure, the chief wished it noted that the police had made others such many times before.
