## ENGLAND'S PRIDE IN CANADA'S DOING.

Lord Byng Says the People From England are Deeply Interested in the Dominion.

Ottawa—Baron Byng, of Vimy, Governor-General of Canada was given a very hearty reception when he appeared here at noon as the guest of honor of the Canadian Club. His Excellency said that he regarded the welcome as one not merely to the Governor-General of Canada, but as one to himself, "to the Byng of Vimy, the Byng of England, the Vimy of Canada."

Lord Byng took democracy as the subject of his very brief but at the same time very pithy address. He said he believed that the greatest democracy the world had ever seen was the armies in France and the Near East in the late war. The men who gave their all for the great deal of home and liberty, supported by the magnificent band of men and women behind them, produced the finest democracy ever known. The war was not over yet, he said. The same ideal must be fought for—the welfare of the community. The question was still "are we doing the greatest good for our country at present?" Were the well-to-do doing their utmost in order that employment might be found for those who want it. Was the working man doing his best to produce production? If so, he said, Canada was working towards the ideal democracy; if not, there was work to be done before it can be achieved.

In conclusion, Lord Byng said: "I want you to think of me as a man who comes out from that curious old country England—that we are all Britabeds here; all of exactly the same kidney. We all think alike and feel alike except that perhaps some of you may think that we people who come out from England have ideas of patronizing you and doing things which will irritate you."

Lord Byng said that when he first took over the command of the Canadian Corps someone said to him: "For goodness sake never patronize a Canadian." To which he replied: "By Heaven, I would as soon patronize a wasp's nest. The people from England, said Lord Byng have the most intense pride in seeing what Canada is doing and has done. He said he was sure that Canadians were even now building up a democracy as would make future visitors from England marvel even more than they do at present.

## CHAUTAQUA AN EXTRA SUCCESS

Opera House Packed to Capacity at Each Performance.

Once more, has Venti-Viel-Viel as far as Campbellton is concerned. Each year its big show is an improvement upon the previous season. Vocationally, musically, lecturally and management. Our big Opera House was filled to record attendance at each performance and all music lovers surely got their money's worth, yes, and more.

Aside from the great moral benefits of the lectures, it is a positive up-lift to listen to "heart" music instead of the "jazzy, gingle, big, bang" "row" mostly heard today outside the inspiring church music.

Synopsized time, is old music, but then it did not require a kitchen tin-ware outfit and a contrabass, as its dominating factor, why, not add the fire alarm horn, auto horns, blank gun cartridges and one ball one for the inventor of lunatic asylum sounds.

Recess the Chautauqua way we see and hear it every year. It is refreshing.

**HONOR HEROES BY TREES.**  
More Than 1,800 Planted as Memorials in Pennsylvania County.

A report recently made by Mrs. R. S. Cannon of York, Pa., on behalf of the World War Memorial and Tribute Tree Association of York County, shows that 1,821 trees have already been planted along the Lincoln Highway between Wrightsville and the Adams County line. The expense of the work amounted to \$3,160. Each tree bears a small memorial tablet, which carries the name of the hero it memorializes.

York county was one of the first along the Lincoln Highway to undertake through an active organization to beautify the route under such a plan, which is now being carried out in many of the counties traversed by the transcontinental road between New York and San Francisco.

The organization was started a year ago with the object of perpetuating the memory of dead heroes who fell on the fields of France, by planting memorial trees along the Lincoln Highway across the county, and it has accomplished excellent results during the past year.

Plans have also been completed by the St. Joseph County Memorial Trees Association of Indiana for the planting of several thousand trees along the 314 miles of the Lincoln Highway in the county, outside of populated communities.

The entire county is organized with business, manufacturing, civic and agricultural interests supporting the project as the most appropriate possible memorial to St. Joseph County's war veterans, who number 6,000. A map of the county, 40 feet long and 42 inches wide, showing in detail the route followed by the Lincoln Highway on a scale 200 feet to the inch, has been prepared. Upon this map the location of each individual tree, together with the name of the soldier to whom it is dedicated, will appear as a permanent record.

The one who has finally broken Houdini's record is a young lady from Auckland, New Zealand. This young lady, who states she is eighteen and alone and has an annuity of \$12,000 a year, writes Houdini that she is willing to accept a proposal of marriage from him. She says she has watched him in motion pictures and knows he must be an honorable man and therefore has implicit confidence in him.

## "AEON'S PAST" WHAT'S THIS?

It Bobs Up Serenely Again—More in Earnest This Time.

A bridge erection between Campbellton, N. B., and Cross Point, Province of Quebec, was agitated and that was all that was done seriously about such a needful object. You can't "agitate" politicians anyway, expecting just "before" an election when their favorite song is "O Promise Me".

In this Province or Dominion in a permanent "boudoir" condition, can't we get some help to build a crying necessity, such as a bridge surely is between New Brunswick and Quebec. Can't us grown ups work together irrespective of political belief and put up such an endless howl we must be heard and something done to help us get our bridge instead of the barrettes of windy promises we have had handed out to us year after year. I stood on the dock at midnight and somebody moved the bridge etc. Why not get up a "bridge party" and play the game in Ottawa. Play it until we win. It can be done—then why get do it, going to leave its consanguinity to our next generation? Who will win out and so give us the "ha-ha" saying, well Dad was "some" patient waiter. Let's juggle in earnest and beat our kids to it!!

**RED SNOW ON ROCKIES' LEDGES**  
Red snow, which has made its appearance in many sections of the Rocky Mountain National Park this summer, has attracted wide attention from the thousands of tourists who have visited this national playground.

The red snow is seen to the best advantage during the motor drive over the new Fall River Road which crosses the Continental Divide reaching an elevation of over 11,700 feet above sea level. Many are the explanations offered by tourists, and those who have seen the snow at about twilight stoutly maintain its pinkish color is due merely to the reflection of the setting sun.

Knowledge of the real cause adds interest to this curious phenomenon. The great masses of color which appear in the large snow fields in the higher elevations result from countless millions of tiny organisms, which have the power of movement, growth and reproduction, a microscopic plant. Protozoous nivalis. Like many other forms of life, this one has characteristics of both the animal and vegetable kingdoms, and belongs, strictly speaking to neither.

A close inspection discloses that the color is concentrated in the hollows of the furrowed surface of the snow, and reaches its maximum density about one-quarter inch below the surface. A slight scraping will produce in some places streaks of almost blood red. On the tongue its flavor suggests water-melon. A handful of the snow, taken up and allowed to melt away, will leave a powdery red stain.

Essentially an Arctic species, Protozoous nivalis has introduced itself into the United States without the last decade. It is now found in Glacier and Mount Rainier National Parks. So far as known, it has not been reported in other sections of Colorado. It is somewhat of a mystery how the spore is carried over such great distances. Possibly it is borne on the Chicago winds.

**MUSICAL KINDERGARTEN.**  
Miss Greta Metzler has made arrangements to open a Musical Kindergarten at her studio for children seven, eight, and nine years of age. The work is done by means of attractive scale charts, picture books and other bright attractive class songs, musical puzzles and black board work, a certain part of the lesson time also being given to piano study. For further information, phone 286.

## AFTERMATHS OF THE FAIR

Prize Winners in Baby Contests—Other Prize Winners.

There are only two professions in which men engage that obligate the use of unlimited nerve—one is the travelling salesman—and the other is the medical gentlemen who do the judging at a Baby Show competition. These M. D.'s, viz: Dr. McPherson of Campbellton and Dr. Fleck of Dalhousie in judging the Baby Show here last Thursday deserve with a carnation medal for heroism. They were assisted by Nurse Ruth S. Cameron and Nurse Geta Gray. Miss Cameron is a graduate nurse on the staff of the Royal Victoria Hospital, Montreal and is spending her vacation at her home here and Miss Gray is a graduate of New York Hospital. Both Dr. McPherson and Dr. Fleck are graduates of McGill College, Montreal. Our reporter was rather uncertain upon what "points" a baby judgment is arrived at, powerful lungs? They all hail Lots of hair? The Sutherland Sisters hair restorer was so compared—Fat? Yea Verily! Yes! that was the point, weight and general appearance which only the X-ray eyes of the doctors could see, through the outer coverings. If our reporter ever has to act as a judge in a baby show he will insist upon the happy little wretches being given a bath so that spectators can enjoy it and become reminiscent. Anyway, here is the result.

## IT CANNOT BE DENIED

The Fair is a Proof Positive of an Exhibition Success.

Three years running now the Fair here has proven a big drawing, financially successful attraction. That fact is "proof positive" that a County Exhibition and Fair combined would be an additional money maker—Campbellton advertiser—and a joy that no place between Chatham, N. B. and Quebec, P. Q. enjoys.

A combined attraction would easily run for a week and with the added feature of horse racing, two weeks' nearly could be occupied. An inexpensive exhibition building that could be enlarged as doubtless it would have to be, cattle sheds, etc. The old Duncan property is an ideal location, central, easy of railway access, high dry, and the building could be used for several purposes, paying for itself in such way. It is a really serious matter, often model before, but never with a determined effort to do it with no let up until it is done! and we intend to hammer away until the Campbellton Exhibition becomes a fact and the building a reality, and the one or two week's combined shows winners. Don't let's leave it all to our sons to do.

**72 LOST LIVES BY DROWNING.**  
During Spring and Summer Season in Maritime Provinces.

St. John, N. B., Oct. 3—Statistics from press despatches show that at least 72 residents of the Maritime Provinces lost their lives by drowning during the spring and summer season of the present year. Of the number fifty-five were drowned in the three provinces and the remainder elsewhere. Twenty-six were drowned in New Brunswick, twenty-three in Nova Scotia and six in Prince Edward Island. Eight New Brunswickers were drowned elsewhere and nine Nova Scotians perished outside that province.

Of those who lost their lives in water in New Brunswick, nine were swimming, two were fishing, two were drowned in wells and two were suicides. The others occurred in various ways such as falling into rivers, from rafts or while fording streams. So far as known only one New Brunswicker was drowned at sea.

Eight Nova Scotians were drowned at sea, five while bathing, three while fishing in home waters, two in wells, six while boating and one was a suicide. Of the Prince Edward Island victims two were drowned while bathing, two while fishing and one was a suicide.

A feature of the long New Brunswick list is that no one was drowned while boating, so far as the returns show.

**ACKNOWLEDGEMENT.**  
Mr. A. C. Rankine, Secretary of the Protestant Orphanage, St. John, acknowledges with thanks the sum of \$10.00 from the Campbellton Jennie Gordon L. O. B. A. No. 310. This is the quarterly allowance which this lodge has donated to the above institution and shows the interest it has taken for the welfare of the destitute.

## Classified

(By Sir Robert Isaac-Powell, Bt., in The Scout).

A lady told me lately that she liked Boy Scouts because they were "gentlemen." Well, that sounds nice, but perhaps you don't quite see how a boy—a poor boy—can be a gentleman.

A boy was asked what he thought was meant by the word gentleman. I suppose nine out of ten boys would have said, "A man with plenty of money, a big house, and fine clothes," but this lad was smarter than that—smarter than perhaps he knew, when he said: "A gentleman? Why he's a bloke that keeps his toenails clean!"

It may seem odd, but that boy was not so far off the mark. A man who keeps clean in small things of that kind is the more likely to be clean in big things, clean in his dealings with other people and in his business and that is the biggest step towards being a gentleman.

It does not at all follow that a man who is rich and has money is therefore a gentleman.

A gentleman is a man who has learned a fellow you can trust, one who is keen to tell a lie.

"A coward will tell a lie because he has not the pluck to tell the truth, and a gentleman is not a coward."

To be a gentleman you have honour and four other things each of which begins with letter C.

The first Courage, because, as I have said, if you mean to stick to the truth, to fair play, or do the right.

Another C that makes the gentleman is Chivalry, that is, readiness to risk his own safety or comfort to help someone weaker than himself. Like the knight of old, he will help women and children, and old or infirm people. He is courteous and polite to all, even the meanest or the most aggravating. He doesn't lose his temper, but sees the other fellow's point of view and takes things easy instead of hating back at him.

Another C is Cheeriness in doing all this. A fellow who does his duty in a grudging, surly way is only half doing it. We are in this jolly world to enjoy it, not to be miserable. And we can not only enjoy it ourselves, but, through being happy, we can pass on happiness to other people.

And then there is the Cleanliness which I spoke of just now—the "Cleanliness in thought, word and deed" that you Scouts carry out in your Tench Law—the cleanliness in your dealings with other people, down to cleanliness of your own body—even down to your toenails, as our young friend put it.

And there you have the points by which any boy can make himself what the lady declared a Scout to be—a gentleman.

Honour, Courage, Chivalry, Cleanliness and Cheerfulness. These all come in the Scout Law, so that if you are a true Scout you are a true gentleman.

### THREW \$20.00 IN RUBBISH BOX

New York, Sept. 28.—A young man dropped into John W. Ryan's haberdashery shop in the Hotel McAlpin, selected a derby hat, paid Albert C. Thierer, the clerk, \$7, left his old hat and a package to be thrown away and hurriedly departed. The old hat and the package were thrown in a rubbish box awaiting the daily round of the collector.

Later Thierer thought of the package and fished it out of the box. In the package he found a money belt and a wad of banknotes of denominations that counted up to \$20.00.

A few minutes later in dashed the customer, who had no difficulty in proving his ownership of the big roll. He was Jose Brooks, of Jacksonville, Fla., stopping at the McAlpin and had come to this city to pay a note for his father.

Returning from paying his note Mr. Brooks again dropped in the haberdashery and handed the clerk a \$50 bill.

Liquor importation is supposed to be "personal use only." Vote against this first and vote "yes."

### WATER SHORTAGE IN CALIFORNIA

The reclamation of arid lands by the Federal Government of the United States has proceeded steadily since the beginning of the century. Previous to the war, a million and a half of acres could receive irrigation water, and this area has been greatly increased since by addition to the canal system. The growth of new communities accustomed to the convenience and certainty of a water supply at all times and of the quantity needed has led to an ever-increasing demand that has apparently justified further expenditure in conserving and distributing the relatively heavy precipitation of the mountain regions. But recent experience in California have shown that this extension cannot go on indefinitely. It is limited by the minimum rainfall in a season, for when abnormally light precipitation occurs for three or four successive years, and this deficiency has prevailed in North and Central California, the inevitable water shortage entails loss to an extent all the greater in proportion to the number who are dependent on the supply brought to their farms from artificial reservoirs. In 1920, California streams reached the lowest stages on record, and some of the smaller streams dried up entirely. At a distance of 70 miles from the Golden Gate, the Sacramento River fell to a point more than a foot below main sea level, and even 90 miles from the mouth the surface was below this datum.

A proper vote is just to mark your cross "X" to "yes."

### "RAINMAKER" RE-ENGAGED

"Rainmaker" Hatfield has been re-engaged by his Alberta clients, and will endeavor to secure suitable supply of rain for next year. He took only \$5,000 of the \$8,000 to which he was entitled for this year's contract because the rains had been unsatisfactorily distributed. Next year's contract calls for \$4,000 an inch for all over three inches, with a maximum of \$12,000.

### WILL BE BURIED HERE

Mr. James Cognes of Restigouche has received a telegram from The Graves Registration Service, that the body of his son Armand, who was killed in France in the American Army, October 3rd, 1918, will arrive at Hoboken, New York, about the 6th, of October and from there it will be shipped to Campbellton and thence to Restigouche for burial.

The cost of furnishing a room as near as can be estimated at the present time will be \$200.00 and upwards according to the quality of the furnishings.

Choice of rooms will be in accordance with the order in which the applications are received.

DAIRY IN CAMPBELLTON. On the tenth of this month my Dairy will be opened on Roseberry St. opposite The Tribune. I will sell and deliver milk and guarantee the quality, as it will be tested when received from the farmers. I am a practical experienced butter and cheese maker of great experience and hold diplomas to that effect from one of the best schools of Canada, St. Hyacinthe P. Q. as well as Burlington, Vt. U.S.A. and a medal for the first prize at the Chicago World Fair over the Province of Quebec and New Brunswick and also have my diploma as Milk Inspector. I will sell cream, butter milk and fresh skinned milk, this last at a very low price, which is very good for certain cooking purposes. Every day a certain amount of butter will be made and sold.

N. BERNATCHEZ

NOTICE. Dr. H. Brennan, Dentist, who has been out of town for the past few weeks will re-open his office here beginning Friday, October 7th.

Your boy is worth more to you and the country than this so-called personal liberty. Vote for your boy and vote "yes."

NOTICE OF MEETING. The first meeting of the C.S.E.T. will be held in the Presbyterian Church Hall on Friday, Oct. 7, at 7.30 p.m. All boys of 12 years and over are invited. Classes will be enrolled at this meeting.

It is only the big liquor business of Montreal that is squealing. The people want to get rid of "importation." Vote "yes."

COAL FOR DALHOUSIE. Any person in Dalhousie wishing to secure soft coal will do well to call on Alex. Barthe, Dalhousie or S. W. Dimock, Campbellton for prices, as Mr. Dimock will be unloading a car at Dalhousie soon.

VOTE "YES" ON MONDAY NEXT. It is the plain duty of every voter, whether man or woman, to record their wishes on the important issue of Prohibition of Importation of Intoxicating Liquor for beverage purposes.

On broad lines, we are in favor of prohibition whether judged from the standpoint of the physical, mental, moral, or economic side. Moreover, we claim that the present law of prohibition of sale has been of great benefit to our town and province. A person who has lived in Campbellton long enough can remember the state of affairs here when the town had several licensed saloons, and who would say the present conditions are not infinitely better than then? Many a man is sober now who was a heavy drinker then. Many a home is a happier one and our business men have profited more than a little. All these arguments about Prohibition being a farce is given "the lie direct" in our town.

Why, then, the need of any such vote as that of Monday next? For this great reason. While it may be true that Prohibition has done great good, no one will claim its enforcement is satisfactory or that there is not too much bootlegging. The present privilege of importing liquor from Quebec or P. E. I. is simply an easy way for the bootlegger to get his supplies and then get at his dirty work of secret selling. If we really want to cut out the bootleggers let us cut out his source of supplies. Again, the present privilege of importation is a rich man's law, that is, if a man has money enough he can legally buy for so called "personal use," hundred of cases of liquor and fill up his basement to the gelling. A poor man cannot simply because he is poor. Voting "yes" on Monday will put rich and poor on equal footing.

What about the real value of some of the liquor arguments? The liquor men who talk so much about personal liberty, and so on are not really concerned about the public welfare as they are about their money interests in the traffic. "Money talks."

One argument is that Prohibition breeds drug addicts. Well, isn't alcohol itself a drug? We notice, however, that England with its liquor traffic is increasing its drug fiends very seriously. The "Montreal Star" last week reports that in that city a liquor city, one young fellow died of opium and three other young fellows were convicted of being addicts.

They say that the English labor delegates report adversely of Prohibition results in U. S. A. But the report is only partly given the public in liquor ads. This sentence is entirely omitted: "The people of U. S. A. cannot be too thankful that they have a prohibition law."

Tom Moore, the Canadian labor leader, is an enthusiastic prohibitionist as are many other labor leaders.

After all, the principal benefit of a clean-cut prohibition law will be to the weak constitution. The old toppers will probably drink some liquor concoction

as they live because of habit, but their children will not have formed the habit, thanks to a better law, and will be therefore free of their father's great curse.

We go to the polls to plead with every voter, especially the women, to get out on Monday and vote "yes" to the "YES" which liquor importation be forbidden.

SEEING IS BELIEVING.

See! Look. That great building on the hill is the New Hospital—The Soldiers' Memorial. A fitting tribute to the memory of our Gentlemen Unafraid! Our soldier laddies who were ever advancing until the greatest commander-in-chief promoted them to their eternal reward—Safe! forever in the realms of "certainty" who would be selfish enough to wish them back into this world of uncertainty—at the longest for only a few more years—VALE!

The great new building is nearly completed externally—internally it must be furnished in uniform manner and reader, if you have not already helped to put this "life-saving" hospital and sanatorium combined.

DO IT NOW—the rooms must be furnished remember—this is not investing in something that is in the future, no, it is right here now. See it! and realize what work the Ladies' Aid Society have planned out and carried through. It is simply wonderful. There is no limit to what earnest, determined, Christian women can do. Furnish a room in this hospital and have the name on brass over the door as a perpetual tribute to the beloved memory of someone who has only "gone on before!"

The bootlegger loves liquor importation. He will vote "no." You are no bootlegger so vote "yes."

FERGUSON MANOR. An enjoyable dance was held at the home of Mrs. C. Porter on Tuesday evening last, when about forty invited guests were present. Music was furnished by the Doucette orchestra. Among those present were: Misses Helen Mosher, Mary Cormier, Maude Tessens, Alice Ward, Lillian Christensen, Flora Atkinson, Gertrude Deyereau, Stella and Jane Comeau, and Messrs. Howard Mann, Lindsay Bourdeau, Rexton Warman, Cyril Walsh, Harry Doull, Louis Lannigan, Roy Mosher, Joseph Albert.

OBITUARY. Mr. P. J. Murray. The death of Mrs. Catherine Murray, widow of the late P. J. Murray, occurred at the Hotel Dieu Hospital, at noon, Saturday. Deceased has been a patient sufferer for about a year and the end came calm and peaceful. One daughter, Mrs. J. J. Bernier of Campbellton; and two sons, P. James Murray and T. Merlin Murray of this town, are left to mourn the loss of a loving mother. One sister Mrs. E. H. McGillivuddy of Quincy, Mass., and two brothers, Michael, Coahig of Hardwick, Vermont; and Joseph H.

The funeral was held Monday morning at St. Michael's Cathedral when Requiem High Mass was celebrated by Mr. M. A. O'Keefe and interment was in St. Michael's cemetery. The pallbearers were Messrs. W. J. Conners, Howard Mosher, Wm. Scott, John W. Campbell, John R. Ryan and James Keenan.
