SAFETY-CONVENIENCE

The Debentures which the Huron & Erie Loan and Savings Company issues so extensively to the people of London and vicinity, have three distinct advantages. The first of these is that they yield a substantial return to the investor, namely, 4 per cent per annum.

The second is that they are safe beyond question, being secured by \$13,000,000 of assets—the total resources of this company, the oldest one in London, and the second largest in Canada.

The third advantage is that they enable you to invest your money conveniently. When you avail yourself of this plan, all you need to do is to bring or send the amount you wish to invest, and we will immediately issue the Debenture for the correct sum.

We have a booklet which explains this plan, and invite you to call or write for it. Four Offices

A referendum has been proposed a a compromise, but this would be a cowardly shift for a party which boasts of its super-loyalty to the mother country. The question cannot be put before the people in a form which will permit a clear ex pression of opinion, or give the Government a definite lead. Many Canadians are opposed to any expenditure for naval defence; others regard the Canadian navy project launched by the Laurier Government as a proper beginning; others wish a Dreadnought or two added to the Laurier programme; and others oppose the Cana dian navy policy and favor a money contribution to the British Admiral ty. Paris, Sept. 28.—It is accepted in Government quarters here that Italy tas sent an ultimatum to Turkey, but has not set the time within which the demand must be met or rejected Hence from the document itself it cannot be determined when Italy will proceed from wards to action.

The delay, although indefinite, will not, it is presumed, continue many hours without a suitable response from the porte.

Berlin, Sept. 28.-The report that Italy has presented an ultimatum to Turkey is confirmed, but according to information had here it demands only the immediate cessation of the dis-patch of Turkish troops and materials of war to Tripoli. The general de-mands of Italy have not yet been pre-

Watching the Transports.
Constantinople, Sept. 28.—It is officially stated that several small Italian warships are cruising eight miles off Tripoli. They examined, by means of electric searchlights, the Turkish transport Derna, which arrived at Tripoli from the Bosphorus on Tuesday, having on board heavy artillery and munitions of war.

The Italian cruisers did not interfere with the passage of the Derna, which is now discharging her cargo at Tripoli.

THURSDAY, SEPTEMBER 28, 1911. THE OCTOBER BRIDE IN ALL HER WINSOME LOVELINESS

october is as much a month of weddings as the first one of summer. Many brides prefer the autumn, for then their pretty trosscan is prepared for the long winter.

The girl who is looking forward to her marriage day this autumn and is planning her wedding gown will choose one of three materials. She will either wear white satin, white charmeuse, or, if her tastes be simple, soft white mousseline. No fabric is more charming for a girlish wedding dress than dainty, clinging soft muil. But whether her gown is of rich Ivory satin, the medish silk or the delicate muslin, two things it must be. It must be high necked and long sleeved and have a train. Convention long, long ago de lared that the modest bride must gown and Madame Grundy has never changed this dictate.

But even if she approaches the chancel rail with head bowed and a blush upon her face, the bride no lenger conceals her girlish beauty behind a vell. Veils are still worn, but after the mode of the women who are presented at the conce of St. James. A handsome head-dress of flowers holds the veil in place. It's A Bad Habit--

That of taking tonics for digestive troubles.

Indigestion is usually caused by wrong food.

Drugs won't and can't cure the trouble, so long as the cause is continued, and anyone who tells you that they will is evidently ignorant of the facts.

The sure, quick way to relief is to remove the cause-change your mode of eating.

A good start is to begin on

Grape-Nuts with cream for breakfast.

Chew the crisp granules of this food thoroughly, as Nature intended food should always be eaten.

Grape-Nuts is made of Wheat and Barley, and contains all the food elements in these cereals, including the Phosphate of Potash (grown in the grain) put there by Nature for rebuilding Brain and Nerve cells.

What en M. D. Learned

A prominent physician, of Rome, Ga., went through a food experience which he makes public. It improves the digestion, and sick patients always gain just as I did in strength and weight very rapidly.

OVERCOATS

"Bench-Tailored" **Overcoats**

ALL FRESH FROM THE HAND OF THE PRESSER.

"I did not know there was such clothing made," was the remark of a purchaser on Saturday, as he tried on and examined our Overcoats and Suits. From indications the full tide of the trade of London and Middlesex has turned our way. Scores of young men have already made their selections, and repeats in some lines have already left our offices.

Three Season Starters for This Week \$11.60, \$9.80,

And three other strong leaders at \$16.50, \$18.00 and \$21.00 in twenty-two distinct styles, bid fair to capture the trade of London, Other lines at \$22, \$23, \$25, \$26, \$28 and \$30 in our bench-tailored garments are acknowledged "master-

pieces" in the tailoring trade. The opening display of our 20TH CENTURY "Bench-Tailored" Overcoats and Suits is as eagerly looked forward to now by the dressy young men of Western Ontario as the seasons' millinery "openings" are by the fair sex.

DO NOT SPEND ONE DOLLAR FOR OVERCOAT OR SUIT this fall or winter till you see them-then you will have no regrets. Blue Suits, too, we would remind you, are one of our strong featurings this season.

ohn Alfred Lorking, the young man be mother wrote to the local police in London, England, asking them to the her son, who was thought to be this city, was located late yesterday remoon. He is at present working in flour mill of the Canadian Cereal apany, on Talbot street, and when that his mother was anxiously rehing his whereabouts, he was sured, as he claims to have written her a month ago. It seems, however, it is through a sort of daily massage, followed by rubbing with a rough towel. After five months' absence from his former home, Bob, the sagacious dog the Griffin Hotel, Kingston-on-Thames, has found his way home, 90 miles, to his former master. He had been given to a farmer in Hampshire: but Bob did not seem to think this was right. He moped for a while and then disappeared. No trace of him searching his whereabouts, he was sur-prised, as he claims to have written her only a month ago. It seems, however, that his mother had moved and he did not know the new address, consequently his letters did not reach her.
