The question was discussed from every angle and the delegates warmed up to the issue and finally decided to further discuss it on Friday evening at the east end hall.

Seconds--Men's and Boys' Underwear

Friday and Saturday

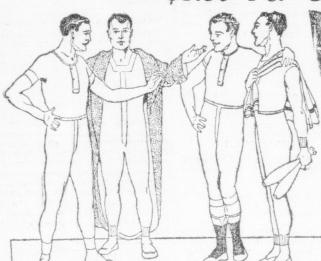

1,950 Garments---Manufacturers' Seconds --- Winter Weights ---All-Wool, Merino, Union and Heavy Cotton

These are the men's and boys' seconds from the same mill the ladies' and children's seconds came from which we sold last week, as we were fortunate in securing the entire output in all (lines. These include all the various lines of men's and boys' two-piece garments and combinations from one of the best Canadian mills. While these garments are classed as mill seconds, they are in reality, from the wearers' standpoint, equal to firsts, and in most cases the imperfections would not be noticed if not brought to your attention—a missed or dropped stitch in the knitting is all, and these are so carefully and neatly fastened that the wearing quality of the garment is not in the least impaired and will give satisfaction equal to any.

At and Below Manufacturers' Prices

By clearing the mill of all such lines we are enabled to sell this high-grade underwear at and below mill price, which, under present conditions, considering the advancing prices on all raw materials, both cotton and wool, and the increased cost of production, owing to present unusual conditions, is of more than usual significance. We are placing within your reach the opportunity of buying your winter supply of underwear for the whole family at and below manufacturer's prices.
