COMMITTEE'S REPORT.

The Committee appointed to arrange for the publishing of the annual announcement of the Council for the past year, report as follows :—

Owing to the absence of the Treasurer, Dr. Lefevre, in England, we are unable to get an exact statement of funds on hand, but can say that the amount to the credit of the Council is about the same as last year.

The Medical Council has spent considerable in the matter of prosecutions during the year, having three cases successfully tested in the Courts in Victoria, and one in New Westminster.

The officers of the Council have experienced great difficulty in getting information to place cases before the Courts. The question of appointing a permanent prosecutor is under consideration, as it is found in some localities difficult to procure a person willing to lay a charge and produce evidence sufficient to convict. The distance from which complaints come being in many cases so great it is a matter of considerable expense to comply with all the requests made for prosecution. However, the Medical Council have decided to carry out the strict letter of the law in the matter of registration.

There have been nine applications for registration

since the last issue of our announcement. Two of which were allowed to register according to the law affecting Imperial registration, Section 2 of the "Medical Act Amendment Act, 1893." Seven were before the examining board of the Council, five of whom were successful and two were rejected.

All of which the Committee respectfully submit.
