Very Sudden Death

Pearl parish, aged 18 years, died suddenly at the home of Mr. and Mrs. G. A. McClary on Saturday evening. She had made her home with Mr. W. R. Parish of Hard Island, but on Thanksgiving Day she went to work for Mrs. McClary, where her bright, helpful disposition rapidly gained the favor of the members of the household. For several days she had been troubled with an asthmatic or bronchial affection, and had been given medical treatment. On Saturday she was apparently about the same as usual, but in the evening after supper she was lying down and Mrs. McClary, accompanied by Mrs. P. Yates, went to give her medicine, when the little girl sprang up suddenly, clutched frantically at her throat, and died without being able to utter a word. Her throat had suddenly contracted, rendering breathing impossible.

The funeral took place on Monday, and a large number of sympathizing friends and relatives from Athens and from her late home at Hard Island were present. After a brief service at the house, conducted by Rev. I. N. Beckstead of St. Paul's, the remains were interred in the Athens cemetery.

Miss Weeks' Recital.

The annual recital by Miss Marie Edna Weeks and some of her pupils took place on Monday evening in the town hall. The pupils had been drilled not only in music but apparently in stage deportment as well, for there was an entire absence of nervousness, each number being given in a perfectly natural manner and with a confidence and ease that indicated careful tuition. Mr. C. R. McIntosh presided over the proceedings very acceptably and opened the programme with a neat address.

Following are the numbers as given:—
Inst. Duet—Misses Weeks and Culbert.
Vocal Solo—Miss Percival.
Recitation—Miss Weeks.
Piano Solo—Miss Culbert.
Violin Solo—Miss Laura Greer.
Vocal Solo—Miss Weeks.
Piano Duet—Misses Wiltsie and Weeks.
Vocal Solo—Miss Winnie Halladay.
Club singing—Miss Rose Weeks.
Recitation—Miss Weeks.
Inst. Duet—Misses Bullard and Weeks.
Violin Solo—Miss Greer.
Vocal Solo—Miss Culbert.
Piano Solo—Miss Weeks.
Chorus—By pupils.
Recitation—Miss Weeks.
Piano Solo—Miss Eva Johnston.
Violin Solo—Miss Greer.
Vocal Solo—Miss Weeks.
Encores were frequent during the evening, and the audience was at all times most sympathetic and appreciative.

Clubbing Rates

The Athens Reporter in combination with any of the papers listed below will be sent from date to the end of 1906 at the low rates quoted:
Weekly Globe and Canada Farmer \$1.50
Family Herald and Weekly Star 1.50
Toronto Daily World 3.00
Toronto Weekly Mail and Empire 1.50
The Farming World 1.15
Toronto Daily Star 1.75
The Weekly Sun 1.75
Toronto Daily News 1.75
Montreal Weekly Herald 1.15

EVERYBODY DELIGHTED.

Those who have received a copy of the beautiful picture, entitled "Queen Alexandria, Her Grandchildren and Dogs," are simply amazed that such a beautiful picture can be included with such a paper as the Family Herald and Weekly Star of Montreal, and all for one dollar a year. The Family Herald publishers have certainly surpassed all former efforts. It is a perfect gem of a picture, far different to anything ever before issued with that great paper. To see it is to want it, and with the Family Herald and Weekly Star at only one dollar per year is beyond question the biggest value in the newspaper world to-day.

Choir Concert Notes

For the man who has no music in his soul (and he must be dead, indeed, if Harold Jarvis cannot arouse him), there is Mr. Bennett with his funny sayings and humorous selections. The electionist was engaged with the distinct understanding that Mr. Jarvis' part of the programme would not be curtailed in the least. Miss Merry is a very talented young lady, and will add much to the attractiveness of the programme. Her selections will be brief and brilliant, and will not add materially to the length of the programme.

Cheese reached 12 1/2c on Brockville board on Saturday, but the ruling price was 12 3/4c. Mr. A. W. Grant, exporter, was present and said he would give \$150 to the board if the registry were cleared in twenty minutes. Led by Mr. Derbyshire, the buyers struck a winning gait and landed that \$150 with minutes to spare.

SAVED AMPUTATION

A MARVELLOUS CURE EFFECTED BY TUCK'S RHEUMATIC BONE OIL.
From the Smith's Falls Record

Among the well authenticated cures that have been effected by Tuck's Rheumatic Bone Oil, there is one that stands out as almost marvellous. It is the case of Mr. Foster Chalmers of Ottawa, the well known commercial traveller, representing in Eastern Ontario, the Berlin Rubber Manufacturing Company. When Mr. Chalmers was last in Smith's Falls a Record reporter saw and asked him about his reported cure of an affection of the bone of one of his legs. He told the reporter that it was true. He said that when he was a lad ten or twelve years old he hurt his right leg at the ankle. It got better and for 25 years it never bothered him. Last spring he was taken with a pain in his ankle which steadily and rapidly grew more severe until in a couple of days' time his suffering was intense. He called a physician who prescribed for him but he got no relief. He had to quit work and for three weeks he was confined to his home. He could not put his foot to the floor and when he moved at all he was obliged to go with crutches. He consulted a second doctor and tried the X rays but still got no relief. The pain, he said, was excruciating and

AMPUTATION OF THE LEG was hinted at. He had heard of TUCK'S BONE OIL and finally one evening in desperation he sent to a drug store for a bottle. He applied it but said he did not feel much if any benefit. Later in the same evening he applied it again rubbing it in well and within half an hour the pain was so much relieved that he went to sleep and had his

FIRST NIGHT'S SLEEP in three weeks. The next morning it was a great deal better. He continued the use of Bone Oil and the second day he was able to walk down town and before he had finished the second bottle he was completely cured. He has never had a twinge of pain in the leg since and he says Tuck's Bone Oil did it. He was a little averse to saying anything about it for publication but he said it had made such a difference in his life that he could not refuse to let others know about it.

As its name implies, Tuck's Rheumatic Bone Oil acts directly on the bone and is without an equal for a relief and cure of rheumatism, lame back, neuralgia &c. In short for any and all kinds of inflammation, whether from rheumatism or from lame back, neuralgia, sprains, coughs or colds, quinsy or bronchitis, Tuck's Bone Oil will give sure and speedy relief. For sale by all medicine dealers at 50c. a bottle or sent prepaid by THE TUCK BONE OIL Co. Limited, Smith's Falls, Ont.

Etiquette of the Sleeping Car.

Women who take their first journey in a sleeping car acquire by experience much knowledge at the price of an equal amount of discomfort.

This consists largely in boiling down to as small an amount possible for comfort the number of things to be carried, and a knowledge of how to make the best of inconveniences.

Women who travel much have a special set of toilet articles for their bags, and they do not carry those zippers bought already fitted with everything under the sun.

Lightness in hand luggage is a thing to be desired, for porters to carry it are always on hand, and when they are their service is not free.

One should carry one's own soap. Modern sleeping car dressing rooms have it on the washstands, but it is not a kind a particular woman wishes to use.

To sleep in there is nothing better than an Indian silk kimono, for it is cool, shedding dust, and is also suitable to wear through the aisle to the dressing room in the morning.

A dressing saccage of the same material may also be worn with a petticoat, if one prefers, but a long gown takes little more room in a bag and is more satisfactory.

Shiloh has cured many thousands of the most obstinate cases, and we do not hesitate to say that it will cure any case of Cough, Throat or Lung trouble, if we did not believe this we would not guarantee it absolutely as we do.

Shiloh is a compliment to the congressional memorial orators that doubtless they will appreciate as it deserves.

Nothing Bogus About the Title. The acting public printer, discussing the waste in public printing, declares that he has discovered that the costly volumes containing eulogies of departed senators and representatives are largely utilized by country clergymen, who find in them neat phrases which they store in memory for use in funerals.

PILES—ITCHING, BLIND AND BLEEDING—CURED in three to six nights. Dr. Agnew's Ointment is peerless in curing. One application gives instant relief. It cures all itching and irritating skin diseases, Chafing, Eczema, etc. 25 cents—14c.

A Deadly Instrument. An Irishman who had been in New York, a couple of years, said to his newly-landed friend, "Now, Jim, you ought to settle down here; it is a mighty great country. Why, man, they don't hang you for murder here."

Sligo's Bottomless Lake. Among the hills of Sligo there is a small lake renowned in that region for its fabulous depth, and the Liverpool Daily Post tells this story concerning it: A well known professor, who was in that part of Ireland this summer, started one day for a mountain, accompanied by a native guide.

It Has to Do With Things in a Musical Room.

In playing this pretty game, each guest is given a dainty card, to which is fastened a small pencil by a cord or a ribbon.

They may hunt singly or in couples, working their lists out separately or together, as the hostess desires, and the best answer receives a prize, a box of candy in the form of a musical instrument being appropriate.

Here, says the Washington Post, is a list of articles that might be used in the game, with the significant answer to each.

- 1. Quire of paper (choir). 2. Three dolls dressed alike (triplets). 3. Carpenter's brace (brace). 4. Watch (time). 5. Razor (sharp). 6. Chin rest of a violin (rest). 7. Card bearing the letters X, T, (forte). 8. Someone's name (signature). 9. Pair of scales (balance). 10. Base of a table bell (base). 11. Hat-box containing two beads (two beads in a measure). 12. Heavy string (chord). 13. Flatiron with the letter B on its face (B flat). 14. Carboard letter C hung on chandelier (high C). 15. Lump of tar (pitch). 16. Pine stem (stem). 17. Hat-box picture (half tone). 18. Bank note (note). 19. Baby's shoe with an O on the sole (sole). 20. Stout cane (staff). 21. Necktie (tie). 22. Bar of soap (bar). 23. Door key (key). 24. Tape measure (measure). 25. Quarter dollar with a black court plaster dot on it (a dotted quarter).

Sea 37,000,000 Years Old.

Three hundred and seventy million years is the approximate age of the oceans, according to the calculations of Professor R. D. Salisbury, of the department of geology of the University of Chicago.

"It has been calculated," writes Mr. Salisbury, "that if the salt now in the sea were precipitated it would make something like 3,500,000 cubic miles. If to this be added all the other mineral matter in solution in the sea water the amount would be swollen to about 4,500,000 cubic miles."

Professor Salisbury estimated the quantity of salt and water brought to the sea each year by rivers, and on this basis obtains 370,000,000 as the estimated number of years it would take for the amount of salt now in the sea to have been brought to it by the rivers at the present rate.

Faith

You cannot be expected to have faith in Shiloh's Consumption Cure, the Lung Tonic, as a cure for Colds, Coughs and all diseases of the air passages, if you have not tried it. We have faith in it, and to convince you that it will cure you we guarantee it. If it does not cure you it costs you nothing. It does it costs you 25c. That's fair, isn't it?

Shiloh

Shiloh has cured many thousands of the most obstinate cases, and we do not hesitate to say that it will cure any case of Cough, Throat or Lung trouble, if we did not believe this we would not guarantee it absolutely as we do.

Proof

I found in the many testimonials of those who have used Shiloh and been cured. Mrs. Archie Taylor, Zanesville, Pa., writes: "I bought a bottle of Shiloh's Consumption Cure and found it very beneficial. I have two children and they had a terrible cough. I gave them everything I could think of, but they got no better until one evening my husband bought a bottle of Shiloh. We gave it to the children when they went to bed, and they slept all night. It cured them completely. I shall always keep it in my house."

CAN WALK AROUND AND DO HIS WORK

Dodd's Kidney Pills Cured W. J. Dixon's Rheumatism.

He was so bad he had to use a Stick to Walk and could not lace his Shoe.

Barwick, Ont., Nov. 6.—(Special).—These cold, wet fall days are full of Rheumatism, and nothing can be more timely than news of an effectual cure of such a cure. William John Dixon, of this place, is certain he has discovered in Dodd's Kidney Pills.

"I had an attack of typhoid fever," says Mr. Dixon, "and after I got over it Rheumatism set in. I had pains in my back and in my right hip so bad I had to use a stick to walk and had no comfort in sleeping. I could not more than dress or undress myself for nearly two months, and for three weeks I could not lace my right shoe or put my right leg on my left knee."

"Acting on my brother's advice I began to use Dodd's Kidney Pills, and after taking three boxes I was able to walk around and do my work. Now I am well, and I recommend anyone who has Rheumatism to try Dodd's Kidney Pills."

Domestic Affliction. A bright girl asked to be absent from school half a day on the plea that company was coming.

"It is my father's half-sister and her three boys," said the girl anxiously, "and mother doesn't see how she can do without me, because those boys act dreadfully."

The teacher referred her to the printed list of reasons which justified absence, and asked if her case came under any of them.

"Oh, yes, Miss Smith," said the girl eagerly, "it comes under this head," and she pointed to the words, "Domestic affliction."

"LOVE LAUGHS AT LOCKSMITHS" as South American Kidney Cure laughs at disease. It's the seemingly impossible doors to disease that it unlocks that makes its cure most incredible.

THE CHINESE WHEELBARROW. It is a Veritable Terror to Every European.

"I stayed two or three days in Chefoo," writes David Fraser in A Modern Campaign, "and during that time I made the acquaintance of a wonderful sound. It came to me first as I was being shaved in a barber's shop. The barber was a Japanese, and when the first wild strains broke upon my ear I sat up with a jerk that put my jugular vein in jeopardy, and asked what it was. He did not know enough English to tell."

"Whatever it was, it was fast approaching. It sounded like ten thousand pigs being killed by a heavy lid, and like that opened and closed at short and regular intervals. The sound was always present, but alternately muffled and clear, like the lamentation of a steam-operated brass band."

"I put my besouped countenance out of the shop door to look. There was nothing visible except a patriarchal Chinaman straining at an enormous wheelbarrow. The noise came out of every doorway and window in the street, from the heavens above and out of the earth below. The stones spoke it, the walls groaned it, the air vibrated with it. Only a Chinaman seemed to have no part in it. He came slowly up the pathway, toiling and tottering behind his ill-balanced vehicle."

"Then he came opposite the barber's door, and the noise struck me in the face like the blast of a tempest. I drove back with a shudder, knowing at last that the cause was the gearless wheel of the barrow. Laugh not, O reader, for so terrible a thing is this wail of the China wheelbarrow that his honor of Weihaiwei has promulgated an ordinance awarding imprisonment for the first offense, death for the second, and a five-dollar fine for the third. So wheelbarrows are of blessed memory in Weihaiwei, for that which renders them a terror to the Europeans. But elsewhere in China they flourish to the confusion of humanity and the glorification of discord."

DISCOURAGED STOMACHS.—Could you wonder at the delicate causes of digestion refusing to be helped and comforted when day after day they are literally "discouraged" by strong tonics, bitter and purgative nostrums. Common sense came into Medical Science when it evolved the tasty tablet dose and discovered a God-send to humanity in Dr. Von Stan's pineapple tablets formula. 25 cents—14c.

Illdest Person She Knew. (Detroit Free Press). Here is a bit of exact reasoning on the part of a little schoolgirl. The teacher wished to impress the idea of the wrong of idleness. He led up to it by asking who were the persons who got all they could and did nothing in return. For some time there was silence, but at last the little girl who had obviously reasoned out the answer inductively from her own home experience, exclaimed, with a gasp, of confidence: "Please, sir, it's the baby!"

Brighton races this year yielded a profit of about \$1,200, which will pass into the corporation treasury.

DISEASE SHOWN BY WRITING.

Patients' Penmanship Asserted to be a Help in Diagnosis.

That a patient's penmanship may be an aid to the diagnosis of disease is contended by a French medical man, an account of whose investigation along these lines is translated by the Literary Digest from the Revue Scientifique.

According to this article the system is not the same as graphology. "The physician takes into account not only the graphic character, but the writing, the spelling, the syntax, the style and the ideas; he has in mind not only the writing itself, but is applicable."

"Nevertheless, there are facts common to this subject and graphology, without investigation of the delicate connection that may exist between the motor manifestations of handwriting and traits of character of intellectual and moral qualities; the task is on a larger scale, for pathologic alterations may be marked in handwriting by very accentuated characteristics."

Several authors have already sought to find the signs of diagnosis in handwriting. Mr. Rogues de Fursac, by direct examination of a large number of patients . . . has made up a collection that has real clinical interest.

"After having examined elementary calligraphic peculiarities, such as the general form of the writing, the direction of commas and letters, etc., Mr. Rogues de Fursac studies the alteration of graphic images by effacement or by agraphia (partial loss of memory), or by general weakening of the memory, more or less accentuated amnesia."

"Lack of attention is clearly marked by omissions or inability to copy, and mental automatism is shown by substitutions, transpositions, additions, stereotypy, graphic impulsion, etc."

"A second part of the volume is devoted to the examination of various characteristic mental maladies—especially nervous affections of motor manifestation, with the handwriting characteristic of shaking palsy, chorea, tabes, writer's cramp, etc."

Railway Mileage of the World. According to the most recent German statistics, the length of the railroads of the world was 637,105 miles in December, 1904, of which 270,386 miles were in America, 187,776 miles in Europe, 46,592 miles in Asia, 15,649 miles in Australasia.

Of the mileage of European railroads Germany stands first, 34,016, followed in their order by Russia 33,286, France 28,266, Austria-Hungary 24,261, the United Kingdom 22,592, Italy 10,025, Spain 8,656, Sweden and Norway 7,730. The average cost of construction of the European railroads per mile is estimated at \$107,577, while for the remainder of the world the estimate is only \$59,680. The total value of the railroads of the world according to these statistics is \$43,000,000,000, of which the European roads figure for \$22,000,000,000. The estimate for rolling stock is as follows in numbers: Locomotives, 150,000; passenger coaches, 225,000, and freight cars 3,000,000.—Railway and Engineering Review.

His Mind Restored. New York, Dec. 2.—Impelled by a disordered mind, Edward Brunner, a lawyer of this city, leaped out of a window in Bellevue Hospital last night. He picked himself up from the ground after a fall of twenty feet, not only uninjured but with his mind cleared.

The shock of his plunge had accomplished what the physicians had not yet attained by prescribed treatment.

Modern Journalism. (Punch). Editor (as reporter enters)—Any news of the murder case? Reporter (gloumily)—None whatever. Editor—Didn't you see Detective Pindalter? Reporter—Yes, while I was trying to get some information out of him a passerby pointed out casually that his tie had worked up the back of his neck and the detective made that an excuse to leave me harshly. Editor—Do you mean to tell me that you didn't see something sensational in that? Reporter—I don't see anything in it. Editor—Then, you're no good at reporting, young man. Here, Smith, take this down quickly and see that it gets well displayed: THE GREAT MURDER CASE. Mysterious Stranger Gives Information to the Police.

While our special correspondent was in conversation with Detective Pindalter a stranger came up and volunteered some important information, the nature of which we are not at present at liberty to disclose. The detective ascertained the truth of the man's statement and at once acted upon it. Further developments will be awaited with interest.

There, young man, this is a truthful paper, and we want facts, but facts must be put before the public in an intelligent and attractive manner!

Utters a Solemn Warning. At a certain high school it is the custom to discuss briefly the morning's news before taking up the regular work of the day. One day the teacher ascended to her desk, paper in hand. She spread the paper on the desk and glanced at the headlines of the first page. "The first thing that I observe this morning," she said, "is 'Poison Room Raided.' She then raised her head and with the utmost solemnity in her voice, said: 'Joys, never touch a cue!'

How will Russia and Japan, when tired of fighting, make peace? In this connection it is interesting to recall how modern belligerents have come to terms.

In the Spanish-American war Spain entered into negotiations with America through an intermediary, naturally France.

The Greece-Turkish war came to a close through Greece asking the great powers to obtain terms for her from a powerful adversary. In this case the defeated power, pending a settlement, practically effaced herself.

In the Chino-Japanese war the defeated power entered into negotiations with the conqueror directly, and obtained terms which, though not obviously unjust, were afterwards altered in accordance with the wishes, and interests, of Russia, France and Germany.

At the end of the war between Russia and Turkey the latter power sued directly for peace, and a treaty was made, which, being too advantageous to Russia, was recast by the great powers.

In the Franco-German war the belligerents, through negotiating directly, entered into negotiations with America through an intermediary, naturally France.

It will now be seen that no two modern belligerents have made peace in precisely the same way.—A. A.

Marvelous Rocks in Corea. The scientists studied the springs first of all, and failing to understand them turned their attention to the wonderful cavern. The moment they entered the interior they were almost blown off their feet, and although they adopted all manner of lodges to find the origin of the wind they had to return to the open saddle but not wiser men.

They next walked into the grove of pine trees, known as the Ineradicable forest, and there again they were stumped. They destroyed several of the trees by fire during the night, and next morning they were re-growing strongly out of the very ashes.

The fifth wonder of Corea, the floating stone, in honor of which a temple has been built, tried the scientists' patience to a maddening degree. This stone, to all appearances, rests on the ground, yet, when two of the men stood upon it, one on each side, the third was able to draw a thick string underneath without any obstacle. Why, they were never able to discover.

The warm rock, the last wonder, also puzzled their brains. The rock is really an immense stone, on the top of which a small inn has been erected. The building requires no fires for heating purposes, either in winter or summer. For the rock always keeps warm.—Pearson's Weekly.

THE OUTBREAK AT CRONSTADT

Officially Reported That the Trouble Was Exaggerated.

The Mutiny Now Said to Have Been Quelled.

Correspondents Declare That There Was an Awful Time.

St. Petersburg, Nov. 13.—Official reports represent that the situation at Cronstadt has been greatly exaggerated. It is asserted that the fires have been extinguished, and that attempts at looting have been stopped by severe means. It is also said that the streets are quiet, and are being patrolled by troops. It is impossible to say how much of the official statement is true. Messages from private sources tell quite a different story, although they are somewhat vague, regarding the times of the happenings. Fugitives who arrived here to-night say the sailors set fire to the greater part of the town, and when the fugitives left the mutineers were masters of the situation. Troops were only employed to guard the arsenal.

While only a few details can be verified at the moment, it is certain that the situation has been very serious. Gen. Treppoff's last official act as chief of police was to collect 150 sailors from various St. Petersburg jails and send them under arrest to the naval authorities at Cronstadt. They were loaded on a steamer, which started for the fortress. On the way the sailors overpowered the crew and took control of the boat, which arrived at Cronstadt flying a red flag. The emblem of revolution was seen from shore, and a mass of soldiers and sailors assembled to welcome the mutineers. Two hours later the town and fortress were entirely in their possession.

One account states that the crews of seven warships remained and landed. They held the town for 24 hours, terrorizing the people, looting and firing at random. The inhabitants crowded aboard steamers in the harbor, abandoning their homes to the plunderers. Some wealthy residents and a mass of officers paid hundreds of roubles, to be landed at Oranienbaum, five miles away.

A regiment of Uhlans was sent from St. Petersburg to help in quelling the disorders. The first members of the regiment who landed were bayoneted, and the rest joined the mutineers. Some other soldiers also joined them, making a total of 5,000 mutinous troops. What part the civilian workers took in the uprising is not clear, but apparently great numbers joined the mutineers. The fighting seems to have been between the latter and the loyal troops. Ten unpopular officers are among the killed. The total number of casualties cannot be estimated. The fourteenth and eighteenth Marine Corps, stationed in St. Petersburg, are showing an insubordinate spirit. A detachment of the Guards Regiment is stationed in their barracks.

BOMBARDED COSSACKS.

Sailors on Warships Fired at Troops—Shippings in Fire.

London, Nov. 13.—The Times' St. Petersburg correspondent quotes a friend who left Cronstadt at 1 p.m. Thursday as saying that whole quarters were then burning, including the market place and the State brandy stores.

The correspondent ascribes the outbreak to the refusal of the demands presented three days ago for a reduction of prices from seven to five hours' pay of 82 a month, proper food and clothing, permission to attend meetings, and better treatment by the officers. The shipping in the harbor is on fire.

The Winter Palace is being hurriedly prepared for the Czar's arrival, as the neighborhood of Cronstadt is unsafe.

CZAR IN ARENA OF CONFLICT.

Cronstadt Only Eight Miles From Peterhof—Army Not Unsound.

London, Nov. 13.—The comparative nearness of Cronstadt to Peterhof, the distance between them being only about eight miles, while St. Petersburg is 27 miles from Cronstadt, brings the Czar and his family practically into the immediate arena of the revolutionary conflict. From the windows of the Peterhof Palace the Czar may, with a telescope, virtually watch the progress of the mutiny of his armed forces.

The correspondent believes that if the Cronstadt trouble is not suppressed Grand Duke Nicholas, military commander of St. Petersburg, will be ordered to transfer out the mutiny. In this case it is to be expected that he will proceed to solve the problem in the simplest, shortest and most efficacious way, without half-measures. He is 40 years old, stern and resolute. It is stated he despises fear of the mud which he has to wade through to many other grand dukes of Russia.

The mutiny at Cronstadt has created a general alarm, for in court circles, and in the numerous strongholds of the Czar, the mutineers are regarded as a serious danger. The Czar, however, has appointed Count Witte himself, the Russian statesman, to continue the experiment until it becomes absolutely impossible to carry on the government by relying on the law.

Count Witte, who has returned from Petrof, where he had a large audience of the Czar, is resolved to persevere against all obstacles. The fate of representative government is trembling in the balance, and it is to be seen whether the Czar will be able to maintain his position.

INAUGURATE A REIGN OF TERROR UNPARALLELED SINCE CZARDOM WON ITS PLACE IN EUROPE. MUTINY QUELLED.

Patrols Are Busy Hunting Down Escaping Mutineers.

Cronstadt, Nov. 13.—The heavens reflected the glare of smoldering fires as the correspondent approached Cronstadt this evening. Upon landing, however, hurried enquiry revealed the fact that the troops and the loyal sailors apparently had the upper hand. Fighting had ceased in the streets, and the town was quiet, but fears were expressed that there might be further trouble. To-night patrols are engaged in hunting down and capturing the mutineers.

RUSSIAN MASSES Being Educated Regarding the New Reform—False Reports Spread.

St. Petersburg, Nov. 13.—The Town Council of St. Petersburg is taking the lead in the political education of the masses by inaugurating a series of public lectures at which the new order of things is explained to the people. The object of the meetings is to allay the hostility between the various classes by showing the benefits accruing to all from the grant of liberties. This example will be followed by Moscow and other cities. Word reaches Count Witte that in some regions the reactionaries who are seeking to make the new regime odious are spreading reports among the peasants in the country and lower classes of the cities that the imperial manifesto is a forgery issued by the Carminilla of revolutionists of which Count Witte is the head and who hold the Emperor a prisoner in his palace.

Such stories circulated among the ignorant peasantry are apt to prove almost as dangerous now as they did when the peasantry rose to support Pugatcheff, who, claiming to be Peter III, called on the people to overthrow Catherine II. The clergy throughout the country, under instructions from the Holy Synod, are doing all in their power to counteract the effect of such pernicious reports by explaining to the people in the churches the real meaning of the reforms.

Massacre Predicted. St. Petersburg, Nov. 13.—Stories are indistinctly circulated that a regular St. Bartholomew massacre of the Jews and intellectuals has been planned by the "Black Hundred" of St. Petersburg for Saturday night. It is declared that all houses occupied by Jews are being marked by a red cross. While it is undoubtedly true that the lower classes would like to be let loose, no real danger is anticipated, as the police have received the most rigid instructions to suppress any attempt at an uprising.

Count Witte had ordered a thorough investigation of all the Jewish massacres and other disorders in the interior, where the police, troops and officials are charged either with inciting or with abetting violence, and he is determined to have all the offenders arrested and punished.

TEMPLE OF PEACE.

PROPOSAL TO ERECT AN IMMENSE ROOSEVELT MEMORIAL.

Washington, Nov. 13.—The tribute paid to President Roosevelt in London yesterday in connection with the Lord Mayor's parade has directed attention here to a suggestion emanating from J. Selwin Tail, local representative of the International Banking Corporation, that the triumph of the President as a peacemaker be perpetuated by the erection in the capital city of a magnificent "Roosevelt Temple of Peace." The author of the project feels that there will be no difficulty in raising the public subscription a fund sufficient to erect a structure in every respect worthy of the triumph at Portsmouth.

The suggestion is that there be erected a building of heroic proportions to the need for conventions and meetings of national importance, to be of rich design, with ornamentation emblematic of peace.

NEW YORK LIFE FIGHTS.

Asks Court to Allow It to Do Business in Missouri.

St. Louis, Mo., Nov. 13.—The New York Life Insurance Company, through its attorneys, F. N. Judson and former Attorney-General Crow, late this afternoon applied to United States Circuit Judge Adams for an injunction to restrain State Inspector of Insurance Vance from entering his order prohibiting the company from carrying on further business in Missouri. The application was telegraphically passed upon by Judge Adams, who issued a restraining order directing William D. Vandiver, State Superintendent of Insurance, to appear before the Federal Court in Jefferson City, Nov. 20, to show cause why he should not be prevented from enforcing his order excluding the New York Life Insurance Company from doing business in Missouri, and ordering that pending the hearing Nov. 20 the superintendent's order be not enforced.

RETURNED TO THE HOSPITAL.

Niko Reskavitch Denied Admission to United States.

Toronto despatch: The doctors at the Emergency Hospital last night refused to admit Niko Reskavitch, a fugitive, who had been a patient there since Sept. 7, and left yesterday morning for Buffalo. Reskavitch went on crutches and was turned back by Wm. L. Buchanan, United States immigration inspector, who explained that the man, not being a resident of the States, could not enter in that condition. The man was hurt in that condition. The man was hurt in that condition. The man was hurt in that condition.

On his return to Toronto yesterday he remained at the station for several hours until a hotel bus conveyed him back to the hotel. All Reskavitch's money, amounting to \$9, had been used up in the journey. He has agents in Buffalo, and is expected to return to Buffalo.

FEEDING FACTS

In ordinary feeding the steer consumes about 34 of its ordinary feed; the balance is undigested or wasted.

This undigested balance can be made to give 1/2 to 1 lb. extra gain per day, and at a profit, by adding the "salt, pepper, and gravy" to its food to make it "tasty."

You like these on your own food; why not the animal. Like ourselves the animal longs for a "tasty" meal.

It starts the "mouth watering" before eating, and the stomach fills with digestive fluids to thoroughly dissolve the food.

This extra amount of digestive fluid dissolves an extra amount of food. This is where the extra gain comes in.

Clydesdale Stock Food. It is the "salt, pepper and gravy" that makes the animal's "mouth water." It is equally good for Horses, Sheep and Hogs. Nothing injurious in it and can stop feeding it without harmful effects. Human beings can take it with benefit. We take it every day. We know its contents. It is made clean. If not satisfied your money will be cheerfully refunded by the dealer. CLYDESDALE STOCK FOOD CO., LIMITED TORONTO.

Fighting Garden Insects

By the Destruction of Rubbish and Remnants.

(Prof. Franklin Sherman, Jun.)

It is well known that many of our most serious insect pests of the field and garden pass the winter months beneath such shelter as they can find in or near the crops upon which they have been feeding. Thus many species of cut-worms, for example, pass the winter in a half grown condition beneath boards, stones, trash, or just beneath the surface of the soil. The chinch bug often hibernates under boards, trash, etc., around the edges of grain or grass fields. The tarnished plant bug, which causes a distorting twisting of the young leaves of currant, gooseberry and raspberry, hibernates under fallen leaves. The turnip louse, which is the same species as the cabbage louse in gardens, seems to pass the winter on such living roots, shoots or other remnants of its food-plant as remain in the field.

These considerations show at once that much may be done at this season to avoid damage next spring and summer. If every fence row be thoroughly cleaned out, either by the plough or by fire; if every piece of trash around the gardens and fields be piled and burned; if all the dead leaves in the gardens be consigned to flames, and lastly, but perhaps the most important of all, if all vines, stalks, stubs, leaves and other remnants of crops be absolutely destroyed by fire or in the compost-heap, we can easily believe that there would be fewer of these insect pests next season. Even the much-needed coat of whitewash on the picket fence surrounding the garden will do some good against the insects by sealing up small cracks in which insects might otherwise secrete themselves.

TOWER TOPPLED OVER.

A NEW EXPERIMENT IN HYDRAULIC ENGINEERING.

The Great Dam in the Niagara River to Raise the Water at the City Pumping Station Proves a Partial Success.

Niagara Falls despatch: One of the most remarkable schemes in the history of hydraulic engineering was tested here today, and proved a practical success, when the dam tower, built by the commissioners of the Queen Victoria Niagara Falls Park, to raise the water in the city waterworks intake, was tipped into the river and became a dam in fact. An immense crowd were on hand to see the tower take the plunge. The tower as it stood was about seventy feet high and seven feet square. The lower 20 feet were of timber, the rest of solid concrete in six sections.

The lofty structure was tipped over by means of jacks the operation taking about fifty minutes. As the tower lost its balance the third section from the bottom broke across. The great mass of concrete was almost parallel with the surface of the water as it struck. There was a report like that of a large cannon, a jet of water shot nearly a hundred feet in the air, and a broad sheet of water, containing many large boulders, shot out from under the dam in each direction. When the air cleared the dam was seen lying in the river in the position it was designed to occupy, but only part of it is submerged. The section next the top struck a boulder and broke in two, but as large chains are run through the whole length of the structure, bedded in the concrete, neither of the broken sections can get out of place. The uneven bed of the river causes the great blocks of concrete to lie in rather fantastic positions; yet, on the whole, the dam is pretty nearly where it is wanted. It lies almost at right angles from the shore, just below the ice rack of the intake, and is right in the way of a fast and deep current. A barrier reef of rocks farther out in the stream throws the water between the dam and the intake. The twenty feet of timber in the base of the dam was washed out as designed, leaving a race-way for the escape of ice along the shore.

There was an eager rush of officials of the Park, City and International Railway to the water gauges to see the result of the experiment. At the outside ice rack the water had risen about a foot, at the head of the waterworks flume there was seven inches more water, and in the well at the pumping station there was an increase of ten inches in depth. The commissioner intended to raise the water a foot at the waterworks intake, and in view of this the dam can be regarded as only partially successful.

The water in the river was at normal level today. The first period of very low water will prove beyond question the success or failure of this unique engineering scheme.

It is reported that the Delaware and Hudson Railway is the real purchaser of the South Shore.

PRIZE FOR BALLOON RACE.

James Gordon Bennett Will Offer a \$500 Trophy.

Paris, Nov. 13.—Count Herbert de La Vaulx, President of the French Aero Club, today received a telegram from James Gordon Bennett, who is at Naples, informing him that Mr. Bennett would offer a silver trophy of the value of \$5,000 for the annual international balloon contest.

The Aero Club has decided that the contest in 1906 shall be a distance race to be held in Berlin in May, on the decision of the Congress of the International Aeronautic Federation.

THE BRITISH SQUADRON IN NEW YORK HARBOR.

Prince Louis and Party Visit Governor's Island on Board the Yacht Yankton.

Will Also Visit the Navy Yard, Where They Will be Guests of Admiral Coghlan.

A New York despatch: Rear-Admiral Prince Louis of Battenberg was early about his ship to-day and gave to the chief of staff some of the necessary directions about the ball which will be given on board the Drake Tuesday night. Shortly after 9 o'clock the Drake weighed anchor and started down stream, receiving salutes from passing craft. The Drake was warped into pier 52 of the Cunard Line at 10 o'clock, where she will lie during the remainder of the British squadron's visit here. Workmen were soon aboard putting together the portable ball room. It took 35 minutes to get the big warship snugly into her berth. The Drake draws 24 feet of water, and it was necessary to take soundings with the lead every few minutes in order to prevent grounding the ship. The operation was watched with interest by a big crowd.

Rear-Admiral Evans has offered to Admiral Prince Louis the converted yacht Yankton, tender of the North Atlantic fleet, to take him to Governor's Island to-day, where he will be the guest of Brigadier-General Grant, commanding the Department of the East, at a luncheon, to which the flag and commanding officers of the two squadrons have been invited. If Admiral Prince Louis goes on the yacht Yankton, which lies anchored just off the Maine, Lieut. Gerardi, captain of the Yankton, will take his ship down the river about noon, with the entire British party on board, arriving at Governor's Island just in time for luncheon.

After the luncheon the party will again go aboard the Yankton, which will take them to the navy yard, where Prince Louis will be the guest of Rear-Admiral Coghlan, commandant of New York Navy Yard, at a large reception which will keep the Prince busy until it becomes time for him to return to the Drake and change his uniform to attend the dinner to be given him to-night by the Naval Academy.

The other guests will include two hundred and fifty officers from the British and American squadrons. It will be an elaborate banquet, the flags of the two countries forming the main decorative features. Col. R. H. Thompson, president of the association, will preside, with Rear-Admiral Prince Louis on his right.

SUIT CASE TRAGEDY.

INDICTMENTS AGAINST FOUR PERSONS FOR GEARY MURDER.

Boston, Nov. 13.—The case of Susan A. Geary, of Cambridge, the chorus girl who died here as the result of unlawful medical treatment, and whose dismembered body was found at different times in suit cases in Boston harbor, was submitted to-day to the Grand Jury. That body will be asked to report indictments against at least four persons, all of whom are now under arrest. They include Lewis Crawford and Wm. Howard, who are held in New York, as the persons who disposed of the body. Dr. Percy D. McLeod, a Back Bay physician, who was arrested on the charge of dismembering the body, and Morris Nathan, the girl's lover.

Nathan was among those subpoenaed to appear to tell what he knows of the incidents leading up to the death of the Geary girl.

GALT MAN ROBBED.

Guy Graham Found Unconscious With Pockets Turned Out.

Galt report: Guy Graham, a collector for the Metropolitan Insurance Company, was found unconscious shortly after 7 o'clock last night in front of the home of Jas. Henderson in the outskirts of the town, where he had called to make some collections. No one was in the house at the time, but when Mr. Henderson returned about 7:15 he found Mr. Graham lying in the front yard. After Graham was taken home he regained consciousness for a sufficient time to say he had been knocked down and robbed.

Graham could tell nothing further for the matter of his pockets, which were turned inside out, and some \$65 had been taken from them. Graham was unconscious all this morning, but this afternoon was much better, and Chief Gordon interviewed him.

DRESSED AS A WOMAN.

NEGRO MURDERER RESPITED WAS DISGUISED TO CHEAT THE MOB.

Roanoke, Va., Nov. 13.—Gephah Poindexter, a negro under sentence to be hanged to-day for the murder several months ago of U. S. Deputy Marshal Z. B. Wade, was brought last night to Roanoke. All preparations had been made for the execution Oct. 27, when a respite for two weeks was received from Governor Montague to allow consideration of new evidence. To-day was the date set for the hanging, but yesterday a respite was granted which gives Poindexter a lease of two more weeks. Fearing mob violence because of the delay, the sheriff dressed the prisoner in skirts, padded him up, and slipped him on a tight train to Roanoke. The sheriff was accompanied by a deputy. At Roanoke station the trio created interest, but the disguise safely carried Poindexter to the jail here very much frightened.

STAYED TOO LATE.

POLICE COURT SEQUEL TO MIDNIGHT COURTING IN BRANTFORD.

Brantford report: Because he spent too much time with his sweetheart brought a young man into the police court here this morning. The girl's stepfather stated that the young man almost monopolized the house with his attentions upon Juliet. The parlor heater burned too much fuel together and the court was not worth the money spent for wood and coal. He had no objection to the young man's character, but seven visits a week were too many. Besides that the enormous ones always forget about the time. It appears that a row ensued between the young courtier and the stepfather, which resulted in the case this morning. The magistrate was dismissed to take a lenient view, so the case was dismissed.

To make the best Bread you must have the best Flour.

When the dough is flat, sour, heavy, will not rise,—when the bread is soggy, tasteless, indigestible—then you have cheap and inferior flour.

You may use pure fresh yeast, faithfully adhere to the old-time successful bread making traditions, the methods usually successful—but the baking turns out badly—simply because you have not used the right kind of flour.

Royal Household Flour is purified and sterilized by electricity, it is therefore uniformly pure and wholesome.

And because it is thoroughly purified it will yield a sweet, wholesome, light sponge that will bake into flaky, deliciously flavored, nourishing bread or pastry.

It is really the only absolutely pure flour you can get.

The Choir Concert

Athens, Nov. 13th '05.

Editor Athens Reporter

Dear sir:—I have been asked how we can afford to furnish such an elaborate and expensive attraction as the entertainment to be held in the New Town Hall, on the evening of Dec. 6th next, under the auspices of the Methodist Church Choir, when Mr. Harold Jarvis, Mr. Harry M. Bennett and Miss Grace Merry will be present. Let me answer that we now have a very large and comfortable hall at our disposal, and a very intelligent and appreciative public in and around Athens to fill it.

As proof of this, let me remind you that on several occasions we have journeyed by special train to Brockville to hear attractions of no more merit than the bill offered for Dec. 6th. We have a fine village and we are to be honored by a visit of artists, all of whom are stars. We are sure the people will show their appreciation not only by their attendance, but also by talking about it to visitors to the town during the next three weeks.

It is a splendid advertisement for a village to have its name associated with such prominent men as the Premier of Canada, The Premier of Ontario, and artists of the popularity of Harold Jarvis, Ruthven McDonald, Harry M. Bennett, and others. People looking for a place to establish a home would think very favorably of these opportunities. The choir, also, are anxious to give the people the worth of their money. At the popular prices asked, we feel assured of a full measure of appreciation on the part of the public.

Thanking you, Mr. Editor, for your valuable space, and the public in advance for a full house, I am,
Yours truly,
E. S. Clow, Leader.

A Pleasant Surprise

As leader of the Methodist choir, Mr. E. S. Clow has achieved results that have been very satisfactory to pastor and people, and that his faithfulness and efficiency were duly appreciated by the choir was again made pleasantly manifest on Tuesday evening when the members surprised him at his home and presented him with a handsome gold headed cane, suitably inscribed, and the following address:—

To Everett S. Clow Esq., Athens Ont.

Dear Mr. Clow,—We, as members of the Athens Methodist Church choir, met on this occasion to commemorate in social cheer your birthday anniversary, would like to assure you of our gratitude for your untiring zeal as choir leader, during the past year, and for your deep interest in everything that would promote our efficiency in sacred song.

Your punctuality at practice, cheerfulness of manner, and diligence in maintaining a spirit of harmony in the choir, have made our associations with you of a pleasant kind.

The social outing we were privileged to enjoy last summer in our trip to Charleston Lake, under your direction, we will long cherish in our memories.

To our felicitations on your birthday, we would add, as a slight material token of our esteem, this cane, and hope that in the flight of years, many happy birthdays may still be in store for you.

The address was read by Miss Minnabel Morris in behalf of the choir.

Mr. Clow returned thanks in a few well chosen words, expressing his appreciation of the kindly spirit that had prompted the surprise they had given him.

Refreshments were served and the evening was spent very pleasantly.

A CASH CLOTHING HOUSE

Every store in Brockville sells clothing on credit—we don't.

We can prove to any fair minded person that it is bad for the seller and bad for the buyer to do a credit clothing business. The merchant who sells suits on credit is bound to lose money—more or less. No house on earth ever succeeded in doing a credit business without meeting with losses.

Who Makes the Losses Good?

Why, bless you, the man who pays cash—no two ways about it.

Any sane man can see the advantage we have over the credit stores, and our customers reap the benefit. That's the reason this is and will continue to be a cash clothing house. Our prices tell the story better than we can.

When you come to see us, ask to see the Overcoats we are selling at \$10.00, and when we see your eyes bulge out in wonder we want to tell you once more it is because we give no credit.

Then see our Suits at \$7.50, \$10.00 and \$12.00 for men, and you will know where to go for clothing in future and will believe in the power of spot cash.

We'll be looking for you every day now, and if you purchase \$10.00 worth we will pay you your fare to Brockville one way.

"Stomach Catarrh"

It is a fatal waste of time to trifle with snuffs, powders, inhalers, or other dangerous nostrums, with the idea of curing Catarrh of the Stomach. Once Catarrh has reached the stomach it can only be eradicated by creating pure, rich blood. Catarrh is a germ disease. The stomach and intestines become nests for myriads of these tiny germs. Local applications have no effect on them. They must be driven out—the stomach cleansed, the blood purified, the system toned up. "PSYCHINE" will positively cure the worst form of Stomach Catarrh, by purifying the blood, cleansing the stomach, and destroying germ life. Thousands have been cured of the prevalent malady, through this remarkable discovery, "PSYCHINE." Druggists recommend it.

Dr. Hugo's Health Tablets for Women

Medicines, sold alike for men and women, never contain what will do a woman the most good, that is, the uterine and other female troubles. Such medicines may relieve for a little but that is all. They do not cure, because they do not reach the cause of nine-tenths of the ills of women.

Women need a remedy compounded for their special needs. Dr. Hugo's Health Tablets for Women are such a medicine.

They are a special remedy compounded by a specialist for a special purpose. The specialist is Dr. Hugo, of Paris, who knows more about the needs of women to-day than any other living physician. Their special purpose is to cure the ills of women and them alone. They are not for men.

Are Just for Women.

 Our teacher, Miss Jennie M. A. Eyre, will teach in our school during the year 1906.
 Master David Somerville has been very ill for about a week. We are very much pleased to learn that he is recovering under the skilful treatment of Dr. McGhie of Elgin and having had very faithful nursing.
 The funeral procession of the late Wm. Perrin passed through here on Wednesday to St. John's church.
 Rev. J. A. McDonald has gone to Athens to take the services of the Presbyterian church. We expect the pleasure of having Rev. I. N. Beckstedt with us to-morrow.

FRANKVILLE

Rev. Mr. Oliver is still very low; little hopes of his recovery. His son, Mr. Campbell Oliver, arrived home on Sunday.
 Rev. Mr. Rilance is taking Rev. Mr. Oliver's work and seems to be well received.
 There was a Halloween party held in Johnston's Hall. Quite a number were present and all report a good time, although at the midnight hour they were visited by five lady and two gentlemen ghosts. It did not seem to dampen their spirits or mar their pleasure. Earlier in the evening they had a visit from an Indian chief and his squaw, who took part in their games. I forgot to say the ghosts were alive enough to eat supper with the rest of the party. Not many old fashioned tricks were played, excepting a few gates laid aside.
 There was a party held at the home of Mrs. Harry Cooper on Friday, 8rd, also one at the home of Mr. Wm. Palmer, Plum Hollow, the same evening. Representatives from here were at each place and report an excellent time.
 Miss Jessie Kilborn of Smith's Falls spent Sunday at her home here.

GLEN MORRIS

The Glen has put on a wintry appearance and the busy Glenites are preparing for the cold season.
 Miss Johnson contemplates giving an entertainment at the close of the school term. She has the hearty approval of the neighborhood in her enterprise.
 Mrs. George Bradley has been visiting her daughters at Sand Bay.
 Mr. Boyd Hall, home from the great West, has been visiting at Royal Moore's.
 Rinaldo Covey of this place and Miss Caroline Stevens of Charleston were quietly married last week in Lansdowne. Their many friends here wish them all happiness and prosperity in their new home.
 The sad little legend of "The Babes in the Wood" might have been repeated here last week, when two of our venturesome youths, out ooon hunting, spent the night in a lonely shanty in the depths of Green's woods. The children, however, returned to their parents in the morning and the tragedy was averted.

NEWBORO

Two of Newboro's most popular young people were quietly united in the bonds of matrimony at an early hour Wednesday, Nov. 1st, in St. Mary's Church, by the rector, Rev. J. C. Stanton. The bride was Miss Jennie, -eldest daughter of James Lyons, while the groom was Arthur Hull, a popular young farmer of this vicinity. The bride was assisted by her cousin, Miss Ida Lyons, and Samuel Pritchard was best man. After the ceremony the happy couple left on a short honeymoon trip to Gananoque and Harrowsmith. Their many friends join in wishing them many years of conjugal bliss.
 Mr. Wm. Scott is now manager of the Smith's Fall stage route. Tenders are out for the position of driver from the 1st of January next for the following four years.
 The whole community was sadly shocked by the news of the death of Mrs. Henry Grothier of this place, which occurred at her home about two miles from here on Monday evening. Deceased had been suffering for some time with a cancer, and her demise was not altogether unexpected. She has been a resident of this vicinity for all her lifetime, and during her long life of 78 years, she has made a host of warm friends who will feel the loss of a loving friend. She also leaves a husband and one daughter at home and two sons, Frederick residing at Lansdowne and Richard living in Newboro. Their many friends extend their heartfelt sympathy to the bereaved relatives. The funeral, which took place to St. Mary's Church, of which she was a life long member, was largely attended.
 Mr. John Cawley, agent of the Imperial Life Assurance Company, Brockville, was in town last week on business.
 Miss E. Gallagher and Benj. Tett attended the High School Commencement in Athens last week.
 Mr. Barney Boyd of the Union Bank staff, Portland, was in town last week.
 Mr. Somers, Government carpenter, and staff were in town last week, making the new stop logs which will be placed in position at the head of the canal when navigation closes.
 The local hockey club have rented

the J. C. Stanton lot on Stevens street and will erect a large open-air rink as soon as possible. Two teams will likely wear the red, blue and yellow this winter. An endeavor will be made to form an intermediate league consisting of Newboro, Westport, Athens, and Elgin.

NEW DUBLIN

 Mr. B. J. Horton of Brockville is visiting friends here.
 Miss Vienna Kendrick is visiting friends in Toronto.
 Miss Anstin of Warburton is the guest of Mrs. A. Sherman.
 Rev. T. Austin Smith leaves on the 18th for England where he will spend three months with his parents. St. John's congregation presented him with a purse of \$29.00. Rev. A. J. Backstone will take charge of the the parish during his absence.

PHILLIPSVILLE

The farmers are getting their plowing nearly done, thanks to the open weather.
 R. C. Haskin is getting his out-buildings nearly completed. When done, he will have a very handy and comfortable drivehouse and stables.
 W. H. Earl has his large barn enclosed and painted. The men are now finishing the stables in the basement.
 The cheese factory patrons are quite jubilant over the price of cheese, 12½c.
 Miss Anna Kennedy has had to give up her school on account of ill health. We hope for her speedy recovery.
 Miss Verna Davison is teaching the Phillipville public school for the balance of 1905.

Mrs. Loveland of Missoula, Montana, and three children, has arrived at her mother's, Mrs. Eveline Brown, to stay the winter. Eighteen years ago Mrs. Loveland (then Miss Menerva Brown) went out to that country with her brother, Abner. Two years later he went to Washington territory and for 16 years she has not seen him. Later, Miss Brown married a Mr. Loveland and moved on to a farm where they accumulated some wealth. Last spring her husband died and she is now visiting the land of her birth.
 A. A. Ludbrook of Verona is paying his brother a visit. He is taking a few snap shots; also some photographs.
 Rev. P. S. Dunham of St. Lawrence County, N. Y., paid his sister a visit last week.

Rev. Taylor, Baptist minister of Westport, occupied the pulpit in the Baptist Church on Sabbath, the 12th inst. He gave a very interesting discourse, which was listened to with strict attention by the large congregation.
 J. V. Philips is erecting another stable to his already large out-buildings.
 A. Stevens is putting up a large stable on the old homestead.
 John Nolan is tax collector for ward No. 2.

An Illustrated Home Paper

The Magazine section of the Weekly Globes and Canada Farmer is happily unique in its pictorial and literary qualities. No other paper going into the homes of the farmers of Canada is able to keep its readers so closely in touch with, and so well informed regarding, people and events of national interest. The illustrations and articles published each week help to widen the knowledge and increase the culture and refinement of those who are privileged to receive The Weekly Globes and Canada Farmer. This splendid family newspaper enables those even farthest removed from the centres of population to enjoy and profit by the best that art and talent have to offer.

INTERNATIONAL LESSON NO. 1X NOVEMBER 20 1905

Abstinence for the Sake of Others-1 Cor. 10:23-33

Commentary.—In verses 14-22 Paul resumes the discussion from chapter viii. 13 touching the eating of meats which had been offered in sacrifice to idols.

1. The duty of living for others (vs. 23, 24). 23. All things are lawful.—I may lawfully eat all kinds of food, but all kinds are not expedient. It would not be becoming in me to eat of all, because I should by this offend and grieve many weak minds.—Clarke. Though it may be admitted that it is strictly lawful to eat meats offered to idols, yet there are strong reasons why it is inexpedient, and those reasons ought to have the binding force of law.—Barnes. Not expedient.—And so, being unprofitable and injurious, may thereby become unlawful.—Whedon. Edify not.—All things do not tend to build up the cross of Christ, and therefore are not expedient. 24. His own.—Let no man consult his own happiness, pleasure or convenience, but let him ask what will be for the good of others.

2. The duty of guarding the weak (vs. 25-29). 25. Is sold.—The meats of idol sacrifices were often exposed to sale in the markets especially by the priests, when they had on hand a surplus. To the Christian this was as lawful as any other meat.—Whedon. Shambles.—The meat stalls in the market. Asking no question.—The Jews were vexed with innumerable scruples with respect to their eating and were accustomed to ask many questions about their food, as to whether it was clean or unclean, etc. All of these scruples and questionings the gospel abolished. The conscience need not be sensitive on this point.

26. Earth is the Lord's.—See Isa. xxiv. 1. This meat belongs to the Lord and is made for man's use. "It does not belong to the idol even though it be offered to it. It may therefore be partaken of as if it were not offered to it."—This refers to a feast in a private house. In verses 14-22 the apostle severely rebukes the practice of eating at meat-fests in heathen temples, because this was one part of idolatrous worship. If a pagan friend invited to a feast, his home to dine he should eat what is set before him without vexing his host with questions about his food. But there is nothing here commanded which would require a person to eat or drink that which is harmful.

28. Say unto you.—That is, if one of you follow guests should be ready to give to the poor. It is better to give than to receive. Your conduct may lead another to suppose that you regarded participation in the worship of idols as permissible to a Christian.—Clarke. 29. For why, etc.—This verse means that we should not plan and order our meals in accordance with God's law. Glory in God, to love to God's glory should be the high aim of every individual. "This is a sufficient rule to regulate every man's conscience and practice on all different things where there are no express commands or prohibitions."—Clarke.

31. Eat or drink.—The glory of God is to be the end of all our actions. In themselves eating and drinking are things indifferent, but there are circumstances in which they may be matters of the highest importance. In one case, for instance, the question of using or abstaining from intoxicating liquors is one which ought to be dealt with on the same principles which Paul has laid down in this chapter. Such a question should be decided on one ground alone, namely, whether by using them or abstaining from them we shall best promote the glory of God.—Lias. Do all.—This requires that we should plan and order our meals in accordance with God's law. Glory in God, to love to God's glory should be the high aim of every individual. "This is a sufficient rule to regulate every man's conscience and practice on all different things where there are no express commands or prohibitions."—Clarke.

32. Give none offence.—R. V. "Though you are to do nothing to your own condemnation, yet you must not give offence to others."—Clarke. This is a general principle which should govern all our actions. It is far more important that you should not be led into sin than that you should not be led into sin by others. This is a general principle which should govern all our actions.

33. Please all men.—He did this so far as he could, righteously. May be saved. His main object was to seek the salvation of all men. This was the end in view. Salvation enables men to set aside their own ways in order to uplift another. Strife over non-essentials destroys rather than builds up the work of God. Temperance instructions.—Strong drink causes much of the woe that human beings are heir to. Its effect upon the drinker is "only evil" and that "continually." 1. It makes a man a slave. 2. It deadens his moral nature. "Nothing kills the conscience like steady drinking to a habit." 3. It transforms a man into a demon. 4. It degrades and causes men to sink lower than brutes. 5. It brings to poverty. 6. It destroys domestic happiness. 7. It entails disease, disgrace and untold suffering on posterity. 8. It destroys the morals in the community. 9. It sinks the soul to hell. No drunkard will enter heaven.

34. His own.—Let no man consult his own happiness, pleasure or convenience, but let him ask what will be for the good of others. "No rule is laid down about eating or not eating any kind of food as a matter of importance in itself. With such things the gospel has no concern. What Paul does prescribe relates to the effect of our conduct upon others."—Cam. Bib. "Let every man live not for himself, but for every part of the great human family with which he is surrounded."—Clarke. Another's wealth.—But each his neighbor's good.—R. V. This will create true happiness. 35. The duty of guarding the weak (vs. 25-29). 25. Is sold.—The meats of idol sacrifices were often exposed to sale in the markets especially by the priests, when they had on hand a surplus. To the Christian this was as lawful as any other meat.—Whedon. Shambles.—The meat stalls in the market. Asking no question.—The Jews were vexed with innumerable scruples with respect to their eating and were accustomed to ask many questions about their food, as to whether it was clean or unclean, etc. All of these scruples and questionings the gospel abolished. The conscience need not be sensitive on this point.

which should regulate Christian conduct at all times. Though you are delivered from superstitious notions, it is contrary to the spirit of love to hinder another who is not yet so far enlightened. You should not be a stumbling block—a means of confusion, which might lead to the overthrow of faith. Jews.—The apostle ever avoided offense to his kinsmen after the flesh. Gentiles.—Crossing none of their prejudices where God's law does not require it.

35. Please all men.—He did this so far as he could, righteously. May be saved. His main object was to seek the salvation of all men. This was the end in view. Salvation enables men to set aside their own ways in order to uplift another. Strife over non-essentials destroys rather than builds up the work of God. 41. Give none offence.—R. V. "Though you are to do nothing to your own condemnation, yet you must not give offence to others."—Clarke. This is a general principle which should govern all our actions. It is far more important that you should not be led into sin than that you should not be led into sin by others. This is a general principle which should govern all our actions.

LORD'S DAY ALLIANCE. WILL SEEK SUNDAY LAWS FROM BOTH HOUSES.

Question of Jurisdiction—Five Hundred Cases of Sabbath Breaking Attended to During Past Year.

Toronto despatch: As a preliminary to the convention of the Ontario Lord's Day Alliance, which opens at the Y. M. C. A. at 10 a. m. to-day, the General Executive of that body met yesterday afternoon, with the President, Mr. J. K. Macdonald, in the chair.

The Secretary, Rev. T. Albert Moore, in his report, stated that in over 500 cases successful efforts had been made to prevent Sabbath desecration. Branch officers had been zealous in reporting infractions of the law. In its early history the Alliance had been compelled to take many cases before the courts, but during the past year the Alliance had not been compelled to appear as plaintiff in a single case, as Hon. J. J. Foy, Attorney-General of the Province, had in all necessary cases instructed Crown Attorneys or special counsel to take action. Through this means case-making and the sale of newspapers had been stopped on Sundays, and in the early future action would be taken against 21 cement factories where Sunday work was carried on. Special watchfulness was needed in New Ontario, where much unnecessary work, both in industrial circles and on the Government railway, was done on the Sabbath. The Ontario Government had given assurance that Sunday excursions on the Temiskaming Railway would be stopped.

The Legal Committee reported that though not a dollar of legal expense had been incurred during the year, more had been done to secure enforcement of the laws than in any previous year. The Organization Committee's report showed that the number of branches had increased from 315 to 331 during the year. A spirited discussion took place over the report of the Legislation Committee, owing to the difference of opinion with regard to the jurisdiction of the Dominion and Provincial Parliaments. The resolutions, recommended by the committee, were finally adopted, the alliance thus pledging itself to seek legislation from both Parliaments.

"That the Provincial Government be urged to legislate upon the subject of Sunday rest by enacting legislation which shall by title and preamble clearly show its object to be of a civil character; shall restrict to the other six days employment upon electric railways as being local undertakings within the Province, and shall provide for enforcement by enabling the Attorney-General, on behalf of those whose rights are protected, to secure an injunction against the corporation operating the railway, and by such other means within the Provincial authority as the Government may think necessary."

"That the Ontario Lord's Day Alliance heartily unite with the Alliances of the other Provinces in aiding the effort to obtain a Lord's Day Act from the Parliament of Canada."

Toronto despatch: The annual meeting of the Executive of the Lord's Day Alliance of Canada was held in the Y. M. C. A. in the evening. Rev. Dr. Potts occupied the chair. There were also present Messrs. D. W. Wilson, A. A. Gaudier, D. R. Drummond (Hamilton), and others.

The General Secretary, Rev. J. G. Shearer, presented his report, in which he stated that the 600 local societies had an enrolled membership of 39,000. Considerable progress had been made during the year in the matter of closing of Post Offices which had been open on Sunday, and much credit was due to Sir William Mulock for this improvement.

Dominion Has the Power. Mr. R. C. McPherson, the solicitor for the Alliance, presented his report regarding the recent Privy Council's decision on the jurisdiction of the Dominion and Provincial Parliaments. The inference to be drawn from the decision was that the power to legislate on the Sunday question belonged to the Dominion.

Every Two Minutes

Physicians tell us that all the blood in a healthy human body passes through the heart once in every two minutes. If this action becomes irregular the whole body suffers. Poor health follows poor blood; Scott's Emulsion makes the blood pure. One reason why

SCOTT'S EMULSION

is such a great aid is because it passes so quickly into the blood. It is partly digested before it enters the stomach; a double advantage in this. Less work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least possible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better takes place even before you expect it.

THE HALIFAX GARRISON.

Canadian Government Will Have Total of 1,200 Men.

Halifax, N. S., Nov. 13.—It was reported at the militia headquarters this morning that nearly all of the 103rd Company of the Royal Artillery will be transferred to the Canadian Artillery to-morrow. Several of the other companies of the Royal Artillery have also expressed a desire to remain. A number of the Royal Artillery have also signified their intention to join Canadian corps. Besides those already mentioned, there are some forty artillerymen, who are not connected with any particular company, but are familiar with all the supplies and location of them in the different forts, and these are also to remain. It was learned this morning at the Armouries that when everything is finally settled the Canadian Government will have about 1,200 troops in Halifax. Of that number 650 will be infantry, 460 engineers and gunners, and about 100 men on the staff.

HOSPITALS CROWDED

MAJORITY OF PATIENTS WOMEN

Mrs. Pinkham's Advice Saves Many From this God and Costly Experience.

It is a sad but true fact that every year brings an increase in the number of operations performed upon women in our hospitals. More than three-fourths of the patients lying on those now are women and girls who are awaiting or recovering from operations made necessary by neglect.

Every one of these patients had plenty of warning in that bearing down feeling, pain at the left or right of the womb, nervous exhaustion, pain in the small of the back, leucorrhoea, dizziness, flatulency, displacements of the womb or irregularities. All of these symptoms are indications of an unhealthy condition of the ovaries or womb, and if not heeded the trouble will make headway until the penalty has to be paid by a dangerous operation, and a lifetime of impaired usefulness at best, while in many cases the results are fatal.

The following letter should bring hope to suffering women. Mrs. Robert Glenn, of 434 Marie St., Ottawa, Ont., writes: "Dear Mrs. Pinkham—Lydia E. Pinkham's Vegetable Compound is so well and widely known that it does not need my recommendation, but I am pleased to add it to the many which you have in your favor. I suffered from ovarian troubles for nearly three years, and the doctors told me that I must undergo an operation, but as I was unwilling to do this, I tried your Vegetable Compound and I am only too pleased that I did so for it restored me to perfect health, saving me the pain of an operation and the immense bills attending the same. Pray accept my hearty thanks and best wishes."

CAR SHORTAGE, Railway Commission Hear Complaint Against Grand Trunk.

Montreal, Nov. 13.—The Railway Commissioners set in the board room of the Grand Trunk Railway offices today to hear the complaint of the Dominion Millers' Association against the Grand Trunk Railway, alleging delay in the shipment of ex-lake grain from the Georgian Bay and Lake Huron elevator ports, and discrimination in favor of the allotment of empty cars. They also heard a defence and explanation of the company's policy by Mr. J. W. Lovell, Freight Traffic Manager, and M. K. Cowan, K. C., solicitor, as well as statements from the Shipping Federation and grain exporters, to show that exporters had not been satisfied, and that should the order of precedence be changed there would be a more strenuous complaint from the big shippers than there has recently been from those whose orders are comparatively small. While the representatives of the company spoke in favor of the policy of preference to export shipments as being the best to pursue for the general good of the whole country, and at the same time acknowledged that it was frequently absolutely necessary to practise it, they, nevertheless, made a very good case of their efforts to prove that under ordinary and exceptional circumstances there had been no undue discrimination.

One of Mr. Loud's strongest arguments was that, as the Ontario millers used in the manufacture of flour only about one-tenth proportion of Manitoba wheat, they, therefore, could not really charge discrimination at all if they got one car in every ten. Commissioner Mills thought that was reasonable. A main contention of Mr. Loud's was that it was unreasonable to expect a railway company to keep from eight thousand to ten thousand cars idle for nine months of the year in order to provide for one extreme emergency, unless they could charge high rates all the year round. It did not mean extra cars only, but the hauling and manning of them as well. Mr. Cowan strongly supported that contention. Anyway, it was impossible to get cars this year or even next year.

HEGEMAN'S LARGE SALARY.

One Hundred Thousand a Year for Metropolitan's President.

New York, Nov. 13.—John R. Hegeman, President of the Metropolitan Life Insurance Company, was the first witness before the Insurance Investigation Committee to-day. The expenses of the Metropolitan Life were then taken up with Mr. Hegeman, and it was shown that in 1904 \$1,940,044 was paid for salaries, of which sixteen officers received \$300,000. Previous to 1902 the President received a salary and commissions, but in 1902 his salary was fixed at \$800,000, without commissions, and in 1903 was raised to \$1,000,000. Vice-President Haley Fiske's salary is \$750,000.

The salary of George H. Gaston, Second Vice-President, is \$37,500, and that of Frank O. Ayers, Third Vice-President, \$10,250. No executive officer, Mr. Hegeman said, now receives any other compensation than his salary. In detailing the growth of the company's business, Mr. Hegeman said that thirty-five years ago less than \$250,000 would have bought out the company, while to-day \$250,000,000 would not do it. He remembered the time when the company had to go on and borrow the money to pay a death claim, while now the company has a death claim every minute of the twenty-four hours, and is able to pay them.

TOO MANY WEEDS.

Unusual Percentage of Grain Rejected by Inspectors in West.

Ottawa, Ont., Nov. 13.—David Horn, chief grain inspector, Winnipeg, writing to Prof. Clark, head of the Seed Division of the Department of Agriculture, says of this season's wheat crop: "We have now inspected 20,000,000 bushels of this crop, of which 85 per cent. is of high grade, that is, No. 2 Northern and better. We have never before had so much rejected for being mixed with wild oats and other weeds, and it is a matter of regret that the average salary of an agent in the field is \$11.62 a week. An assistant superintendent's salary averages \$18 a week, which, with commissions, may run to \$25 weekly. The average salary of a superintendent is from \$25 to \$30 a week. These officers are in direct charge of the agents in the field."

BUFFALO BOY KILLED.

FATALLY SHOT BY HIS BROTHER WITH A TOY PISTOL.

Buffalo, Nov. 13.—Louis Miller, 12 years old, was accidentally shot and killed today with a toy pistol by his brother Arthur, two years younger. The boys were getting ready to go shooting, when Arthur noticed the pistol, which had not been used since the fourth of July last. He picked it up and, with the same aim, evidently pulled the trigger, as a loud report followed, and Louis fell to the floor. He died soon afterward. The deputy medical examiner, after an investigation, declared the shooting accidental.

TO STEAL GOLD NUGGETS.

Canada Might Have Lost Valuable Exhibits.

London, Nov. 13.—According to a Belgian newspaper, there was an attempt some days ago to rob the Canadian Exhibition at Liege. A French-Canadian named Hector Robert, for some time a resident of France and also interpreter at Liege, approached an employee of the Canadian pavilion and proposed that they should represent a value of 100,000 francs should be attracted. The employee agreed, but communicated with the police and a trap was laid. Hector Robert was caught and the act.

British Apple Market.

Messrs. Woodall & Co. cabled Eben James: Thirteen thousand barrels selling. Market active. Prices from 10 to 16 1/2.

British Cattle Markets.

London.—Cattle are quoted at 8 1/2 to 11 1/2 per lb.; refrigerator beef, 8 1/2 to 8 3/4 per lb. Sheep, 10 to 11 1/2 per lb.

Wool Market.

London.—The small trade in wool recently showed a decline of 5 per cent. in coarse crossbreds and lower prices are looked for when the next sales open. The arrival for the sixth series of sales amounts to 62,024 bales, including 16,000 forwarded direct to spinners.

The Cheese Markets.

Cowansville.—Sales cheese: J. Burnett, 46 at 11 1/2; James Alexander, 67 boxes at 12 1/2 each. Brookville.—Offerings to-day were 3,702, mostly colored; few sold at 12 1/2, but ruling price was 12 1/2.

Leading Wheat Markets.

New York ... Dec. May, July. Toledo ... 88 1/2 90 1/2 81 1/2. Detroit ... 88 1/2 91 1/2 81 1/2. St. Louis ... 84 1/2 87 1/2 81 1/2. Duluth ... 81 1/2 85 1/2 81 1/2.

Bradstreet's on Trade.

Montreal.—The healthy tone which pervades all lines of trade here is a source of great satisfaction to business men generally. Remittances are here and there a little slow, but paper which matured on the 4th was generally fairly well met. Exporters are having trouble in moving the grain that is accumulating here. Dry goods men report a big business doing. Woollens and cottons continue very firm. Staple lines of groceries are moving well and in this line, as in all others, orders for Christmas goods are very heavy. Refined sugars have declined ten cents per 100 pounds. Other lines continue to show firmness. In hardware the markets for pig iron and other metals continue to show advancing tendencies.

Toronto.—There has been little change in trade conditions here during the past week. A good trade is moving in wholesale dry goods, particularly in the ways of fancy and Christmas lines. A better movement in country trade, a fairly good movement in sorting lines. The hardware trade is normally active and grocers are mostly busy with Christmas goods. Ontario collections are fair to good but those from the west are still a little slow. The west however, is ordering liberally and confidence is increasing of this crop which 85 per cent. is of high grade, that is, No. 2 Northern and better. We have never before had so much rejected for being mixed with wild oats and other weeds, and it is a matter of regret that the average salary of an agent in the field is \$11.62 a week. An assistant superintendent's salary averages \$18 a week, which, with commissions, may run to \$25 weekly. The average salary of a superintendent is from \$25 to \$30 a week. These officers are in direct charge of the agents in the field."

Quebec.—Unfavorable weather has somewhat retarded the movements of travellers and orders have suffered accordingly. City trade is reported active and the demand for seasonal wear is said to be good.

Winnipeg.—Continued activity is general in all lines of trade here. Cold weather has had a good effect upon retail trade. There is on this account a steady demand for dry goods and all lines of wearing apparel. The holiday trade is particularly active. The demand for building supplies continues brisk. All seasonal lines of hardware are moving well. The grain movement has constituted a record but it is now moving more slowly on account of the blockade. Collections are improving.

Victoria and Vancouver.—There is a quieter tone to trade along the coast. The wholesale buying is pretty well over but the business of the past season has been heavy and the hull is only seasonable. Provincial industries continue active and the outlook for the mining and lumbering trades continues bright. There is continued activity in Vancouver real estate and the outlook for this part of the country continues cheerful.

Hamilton.—The condition of trade here continues very satisfactory. A good sorting trade is being done in most lines and the coming holiday trade promises to be very heavy. Collections are good, no doubt, owing to the better tone to country trade.

London.—All lines of trade show continued activity. Wholesalers are doing a good sorting business and the demand for heavy dry goods is rather better. Country produce is coming forward well and prices generally are maintaining their position. Prospects are for a continued good tone to business.

Ottawa.—The movement of both wholesale and retail trade is fairly brisk. Local industries are active and both local and country collections are fairly good.

Scrofula

is very often acquired, though generally inherited. Bad hygiene, foul air, impure water, are among its causes. It is called "the soil for tubercles," and where it is allowed to remain tubercles or consumption is pretty sure to take root. Hood's Sarsaparilla Removes every trace of scrofula. Get Hood's.

The Globe is advocating a change in the law at the next session of the Ontario Legislature, making it compulsory for municipal councils to submit local option by-laws to a vote of the ratepayers upon request.

Mr. Charles Dunham of Frankville, a student at Queen's, had one of his eyes injured by an explosion of chemicals last week. We are pleased to learn that the injury will not be permanent.

Rev. T. Austin Smith, the popular rector of Lyn, leaves this week for a vacation of three months in England. His congregation at New Dublin presented him with a well filled purse at the close of his last public service there.

Farmers who have strayed cattle or other live stock on their premises should not forget that it is unlawful to hold them without advertising the fact in the local paper. Or if cattle have strayed away a small investment in printer's ink might save a big bill for their keep and expense later on.

On returning from their wedding trip on Saturday last, Mr. and Mrs. Rinaldo Covey (nee Miss Carrie Stevens) were tendered a reception at the home of the bride's father, Mr. George Stevens, Charleston, at which a number of their friends spent a very pleasant evening.

A few days ago, Mr. Fred Pierce was appointed engineer on the south ward drainage works, and with his accustomed energy he had such preparations made at once as would best meet the present situation. The drain has been opened up and a considerable flow of water is now passing through it. Next spring, as soon as possible, the work will be pushed to completion. The delays that have attended this work, and now its necessary postponement until next season, will cause considerable inconvenience and loss to those living contiguous to the drain. The first step in the matter was taken last spring.

Unquestionably, Mr. Clow is undertaking a heavy responsibility in engaging such high class talent for the choir concert on Dec. 6. He is bringing to Athens a trio of artists that have been heard with delight by critical audiences in the leading cities of Canada and the United States, and lovers of music and elocution in Athens and for many miles around should show their appreciation by a generous patronage. To those who from week to week enjoy the fine choral music discoursed in the Methodist church, nothing need be said. Where duty and pleasure combine, the course to be pursued is obvious.

On Friday next the market committee of Brockville will meet in deputation from Elizabethtown to discuss the important subject of abolishing market fees and the toll-gates. There should not be two opinions on this subject. The town of Brockville will best promote its own interests by dealing most liberally in this matter, and if it does, the present township council will be found ready to meet it half-way. Now is the time to act; it may not be possible next year.
