WILL SETTLE THE QUESTION

Power Matter Likely to be Disposed Of on Monday

By Awarding Beach Pump Contract to Cataract.

Lively Time Expected at the Next Council Meeting.

Indications are that the City Council on Monday night will dispose of the question for good by voting to award the contract for the new motors and pumps at the Beach. The Hydro-Electric supporters are talking of more law, and hint that the action to upset the Cataract contract, which was disissed with costs by Justice Anglin; will be appealed. It is quite clear, however, that the city is not bound to the Hydro Commission, and there is nothing to prevent it performing its part of the contract with the local company. At least

two of the new men, who are counter-upon to line up against the Cataract, have declared that rather than plunge his lawanit, they will two of the new men, who are counted the city into a big lawsuit, they will vote in favor of the contract made by last year's Council. This would make a majority in favor of the Cataract

Although the recommendation for a reduction of the number of licenses to fifty went through the Markets Commit-tee without a stir, the prospects are that there will be a mighty lively time in the Council chamber on Monday night. That is when the real fight will take place. The temperance people have been working overtime to try and get akler-men, who are said to be opposed to re-duction, to support the reduction recom-mended. In several of the wards depu-tations from the churches have waited upon the aldermen of that ward and tried to persuade them to change their views. Both sides are still persistent in claiming a majority in the Council. It claiming a majority in the Council. It earing a majority in the Council. It was reported to day that the hold in-terests will have a big following there to try and stampede some of the waver-ing aldermen. The temperance people promise to have all the supporters that the Council chamber will hold present.

Any move in the Council on Monday Any move in the Council on Monday night to block the reduction of heenses by offering to submit a plebisoite to the people next January will meet with strenuous opposition. The temperance people are marshalling their forces, and they will make a determind effort to divide the Council in favor of the reduc-tion of eighteen asked for. The Hamil-ton Ministerial Association at a special meeting yesterday afternoon took the matter up, and unanimously passed the following resolution: "In the event of an effort being made in the City Council on Monday evening

"In the event of an effort being made in the City Council on Monday evening next to set aside the question of license reduction in favor of a plebiscite on the whole question in January, 1910, we, the members of the Hamilton Ministerial Association, while not opposed to a ple-biscite, would strongly re-affirm the po-sition taken in our resolution on Jan. 18, and would call upon the Council to deal fairly with the question of a reduction fairly with the question of a reduction of licenses now, in line with the clear de-mand of public opinion, as shown in the moment election " cent election.

New York, Jan. 22 .- David Shellard ook the stand in his own defence yeserday, and with much detail told the jury in the Supreme Court, Brooklyn, ch is trying him for the murder of Barbara Reig in Irving Square Park on the morning of July 22 last, that the girl shot herself with his revolver, and that he failed to tell of these things immedi ately because he thought that by delay-ing he might save himself from dismissal

ing he might save himself from dismissal from the police force. Barbara Reig, he said, was passing through the park with two other girls on Dec. 29, 1907, when Shellard, who was on post there at the time, hailed them, inquiring banteringly why they made so much noise. The girls bantered back, stopped to talk, and the Reig girl became infatuated with him, meeting him afterward as many as fifteen times, but always when he was on post and in full uniform.

wasn't any use, but that she would not be advised, and she met him on the night of her death at about an hour after mid-night. He then told at great length his story of how they went to the tool house, remained for about an hour in the place, and while he was preparing to go away he heard a shot, flashed on the electric light, and exclaimed. "My God, Barb, what have you done?" Minutely he described the attitude in which she had fallen on the tool box and his own amazement and horror when he realized that she was dead. "Did you shoot that girl?" demanded his counsel, James Ridgway. "No, sir," Shellard replied promptly. Mr. Ridgway then introduced a letter beginning "Friend Dave," and alleged to have been written by Barbara. Reig. In it "Friend Dave" is requested to think of his dear friend "Barb" and to send her a few postals if he is not with his draft looming up in the distance. Contrary to expectations, there will be no dance at the formal opening of the new and handsome Smallpox Hospital to-morrow afternoon. It is not even settled if light refreshments will be served. Some have an idea that the guests should provide their own lunch.

it "Friend Dave" is requested to think of his dear friend "Barb" and to send her a few postals if he is not with his wife. "I am trying to forget you," she writes, "but it seems all in vain." Then she describes a jaunt to Coney Island and tells him how much more she would have enjoyed it had he been with her. This tale of hopelees and unencouraged infatuation was largely substantiated by witnesses, who before the Grand Jury that indicted Shellard had given testi-mony of an entirely different color. Sadie Lee denied nearly everything that she had said on prévious occasions. and confessed to it boldly when Justice Grane demanded au explanation. Before the Grand Jury she was asked if of her own knowl-edge Barbara Reig had ever constemplat-ed suicide. At that time she said "No," but at the trial yesterday she uttered a very positive "Yee," and specified. She also denied ever having been with Bar-bara Reig when the latter met Sheilard, although previously she told of several trysts held by the three. Sadie Lee said that she went to court yesterday to tell the truth, that she had been approached by counsel for the de-fence, but that no policeman had tried

Tremaine was compelled to laugh, it struck him as so very comical. Of course, this conversation took place in subdued tones, and the rattling of the train effectually prevented those at the other end of the compartment from catching a syllable of what was said. The afternoon slipped away. In imagination, Rex pictured himself gliding over the divine waters of old Venice, in company with Madge Moore, the full moon gliding canal and palaces, and gondola with a silvery sheen, the aweet tinkle of an Italian lover's guitar breathing softest music on the perfumed ar; surely Venice, above all places, is the ideal spot on all the earth for romance and courtship—the very air seems to hold a spell that steals over the sense and arouses the holiest yearn-ings of the human heart. And so Rex anticipated and dreamed of the hour when he might tell this event which a clow down the is come "Yes, yes, follow me!" roared Tre-maine, who, not having any lady to look

of the hour when he might tell this sweet maid the olden story that is ever sweet maid the olden story that is ever young, at the same time confessing the little deceit with regard to his identity, and that he was in actual truth the cousin whom Miss Chester designed to marry in order to inherit Uncle Wil-liam's legacy of half a million. Soon they would be at Lucerne, and in the break of day their eyes would behold from pension window the blue painted lake that lapped the shore, and the picturesque houses dotting the land-scape. "Help aunty!" she cried; and Rex was not only surprised, but pleased to find that even under such fearful conditions

for he remembered that dear old Bridge-water had left Paris in the company of this girl and her father. "Where are they-show me, quickly?" he cried. She ran to the nearest portion of the

wreck. -It looked serious, indeed; the car had, been bally smashed, and while it seem-ed a miracle that one had come out of the wreckage alive, it would be expact-ing too much to even hope the others did not lie there under the twisted and torn timbers, seriously maimed or dead. dead. Horrified at the thought, Rex bent

down There was a hole by means of which Nance had crawled from the debris— all beyond was a blackened, distorted waste.

"Bridgewater! Hello, are you there?" he cried, his heart in his throat with CHAPTER XXXIV. Under more favorable conditions, Rex would have deemed it a most delightful expérience to thus take the lovely girl from New York in his arms, but in the midst of a train wreck, with the car they occupied turning over and over down some sort of embankment, it was quite another matter. Besides, our young bachelor friend was not accustomed to having the ladies throw themselves at him; such bom-bardment might be more in the line of Count Rudolf, who had long enjoyed the reputation of a heart-smasher. Nevertheless, he unconsciously held fast to what the facts had given him, perhaps under the impression that he width is other in the rest to work To his intense delight, he caught an answering shout from the tangle be-

"Rex. old boy, I'm here still alive, but pinned down by some timbers. Get me out, that's a good fellow-deuced unpleasant fix, I assure you. But, tell me, have you seen Nance?" Rex assured him the girl was safe, and, laying hold on the first man who came along, he impressed him into the service of helping to raise the roof of the car so that Bridgewater might emerge like a rat from a trap. Under Puch wigorous treatment an opening was soon forced, through which Tremaine crawled. To him Rex passed up the young girl, but apparently Miss Madge was not of a mind to be handed about like a pice of baggage for she insisted upon standing as soon as released. #### **THE HAMILTON TIMES**

FRIDAY, JAN. 22, 1909.

#### THE POWER JUDGMENT.

In view of the unusually brief and lucid judgment of the power by law suit entered by Mr. Justice Anglin in these words: "This court doth order and adjudge that this action be and the same is hereby dismissed with costs to be paid by the plaintiff to the defend ants forthwith after taxation thereof, it was an easy matter for the City Solicitor to succinctly state to the counci its effect in the sentence: "The result is that the agreements entered into be tween the Hamilton Cataract Power Light & Traction Company and the city corporation, known as the 'street light ing contract,' and 'the power contract,' are binding upon both contracting par-ties." That would seem to be plain enough for all purposes, but apparently it is not. To certain aldermen and the extra-Hamilton interests which they seek to serve it is probably too clear and definite. They wish to discover some way by which its effect can be nullified, some loophole which will enable them to offer an excuse for trying to "welch"to default in the city's part of the contract, no matter if the attempt to do so result disastrously to Hamilton and involves us in long and costly litigation

and heavy damages. In arriving at his judgment Mr. Justice Anglin discussed many phases of gall and bitterness and eager for an opthe situation, and by way of clearing the minds of the aldermen-that was at least the ostensible reason-Mr. Rose, who assisted in preparing the by-law, was asked to essay the interpretation of the Judge's remarks. Mr. Rose's interpretation is a lengthy document, and traverses the Judge's review of the arguments, explaining what he suppos the Judge to have meant by his statements; but it would probably be extrav. agant to state that he has made the matter semi-clear. Indeed there is already a demand for an interpretation of Mr. Rose's interpretation! Mr. Waddell, who limits his opinion to the recorded judgment, finds no difficulty. The contracts are, he says, without any qualification, "binding upon both contracting parties." That being the case. there is no reason for doubt or difficulty concerning it to those who seek only the city's interests and who wish to carry out in good faith the agreement made. plus of consolidated fund revenue for To others the Judge's "obiter dicta" of fer puzzles.

The lay reader is forced to the conclusion by reading Mr. Rose's interpretation that he either finds himself unable to understand the process of the judicial reasoning, or is convinced that it is unsound in some respects. The Judge makes it plain that the council could legally enter into a contract for as long as ten years for the supply of electric energy. It is the Judge's peculiar interpretation of clause 31 that complicates atters and renders his remarks as confusing as his actual judgment is plain. The Beach pumping station is to be fitted up to utilize the power to be proided under the contract. But by applying clause 31, the Judge finds that even after installation of this plant the coun cil would not be obliged to call upon

the company to furnish the of in a few hours. If the Opposition power contracted for "unless the council chose to provide the money with which on it, it may probably be accepted as an to pay for it." But he stops there in his remarks. He does not go so far as to say that current from other sources facilitate the despatch of business. The early days of the session will prohably could legally be used, ignoring the contract we have made. We could shut serve as an index as to how long the members will be kept at Ottawa. down our sewage disposal works; we

could establish our waterworks pump ing station and fit it with costly plant and escape implementing our contrac by allowing it to lie idle. But the Judge is of opinion that the Beach station so constructed as to be capable of utilizing Cataract power.

If the council has no other than Hamilton interests to serve, the judgment is amply clear for all purposes. It will proceed at once to get the Beach pumpa station completed and the motor in commission under the contract. put On the other hand, if a majority of the aldermen are wedded to an anti-Hamilton scheme which has already damaged the city much, they will probably seek by spending much money on legal opinions to excuse themselves for incurring the risk of damage suits and costly litigation, and leaving the city in a condition of increased and daily peril.

The Finance Committee faces a difficult situation. Even after the by-law providing for the east end sewer overexpenditure there remains \$112,000 of a machine Council overdraft to be provided for out of this year's revenue. We have been pressing the Street Railway Company to reconstruct its line, and that the Cataract Company has foregone its dividend so that it may be to rebuild the James and Barton street line this year, the city has no funds for the \$100,000 expenditure necessary to put these streets in proper Either the tax rate must be raised, or the work must go undone, unless the money can be obtained on de

The Vitagraph Moving Picture Com-pany will put on one of their old time popular entertainments in Association Hall on Saturday. There will be an in-teresting variety of films, prominent among them being "Benvenuto Cellani," which is a thrilling tale of the life of a famous artist in Florence, Italy. This sculptor, through his loose living, was compelled to flee from his home. He was successful, however, in making a friend of King Francis the First. The film opens with a beautiful court scene in which the sculptor is attending a recep-

of King Fizncis the First. The film opens with a beautiful court scene in which the sculptor is attending a recep-tion in the King's parlors, and is in scarch of a model for a beautiful sta-time. A duchess consents to pose, under certain conditions, and her offer is ac-cepted. He: identify is concealed, but later becomes known, and she is kid-trapped. The artist communicates with the King, who discovers the identity of the model and is horrified to see that it is the duchess, who is a favorite at court. He promises to keep her secret and accompanies her back to the palace. This film is 948 feet in length, and is worth the price of admission itself, but there are 50 others, educational and amusing. DETAILS OF THE AWFUL OVERDRAFT.

#### Council of 1908 Spent \$112,000 More Than It Collected From All Sources.

If the new City Council, with a business man like Mayor McLaren at the belm, makes good the promise to wipe out the legacy from the 1908 aldermanic board, a deficit of \$112,000, and steer shy of an overdraft for the balance of the year, it will be entitled to a tablet in the hall of Fame. The City Council's record for years past is a solid succession of overdrafts, but last year's was the greatest ever. Including the \$25,000 overdrawn on the new annex sewer account, the overdraft in reality is \$137,000. The sewer overdraft, however, will be paid out of the money voted by the ratepayers to complete the work, which will reduce the overdraft to \$112,000.

duce the overdraft to \$112,000. The detailed statement for the year, prepared by City Treasurer Leckie, and submitted to the Finance Committee yesterday afternoon, shows that the big-gest overdraft of any one account was that of the Board of Works, overdrawn \$40,576. The Board of Health over \$9,660 behind, of which nearly \$8,000 was caused by the smallpox epidemic, and which was not provided for, is next in line. Then comes the Harbor Committee, over \$8,300 behind; the charity de-partment, over \$7,300 overdrawn, and the fire department, \$7,200 behind. Over-drafts in other departments, ranging from trifling amounts to over \$2,000, swell the total to \$112,000. total to \$112,000.

the total to \$112,000. Chairman Peregrine, of the Finance Committee, points out that as a result of the period of depression the taxes are \$25,000 behind. Had this money come in the overdraft would be cut down to nearly \$80,000. This money is looked upon as an asset, but as there is no guarantee that it will be received, it must be placed in the overdraft column. The statement in detail is as follows:

FATHER DEMPSEY'S HOTEL

St. Louis Priest Comes to the Rescue of Homeless Men.

"Father Dempsey's Hotel" is a unique St. Louis institution. Father Dempsey's the rector of St. Patrick's Church, which stands almost at the entrance to the city and is well situated to bring its pastor into touch with the homeless and idle men, 10,000 of whom are estimated to be on its streets every winter. Just two years ago, says the Republic, Father Dempsey, with the approval of Archbishop Glennon, started his work in a small house and registered fifty three the first day and over one hundred the second day. Presently he secured an abandoned public school and through the press and private charity got the 85,000 necessary to remodel it. The hotel is now self supporting. There is no religious test for admission. Ten cents a night entitles a man to an excellent bed, a bath, the newspapers and the recreation room. Meals cost from 5 to 15 cents apiece and are pre-pared from the best provisions. But there are thousands who can't pay even the small sum of 25 or 30 cents a day. Two mur-ders and cannibalism practiced on each victim are the charges. Notice of the case has been received here by the Attorney-General of Quebec Province, who has issued orders that the prisoner be detained through the winter so that his trial can be held some time in the spring.

his trial can be held some time in the spring. About eighteen months ago, accord-ing to the information forwarded here. Grasset and a French companion named Bernard, with a guide named Lemieux, started out for the Chibbagamoo coun-try to trap. A few months after that, a hunting party came upon Lemieux's body. The man had been mutdered and parts of his body had been cut off and there were evidences that the portions missing had been eaten. A search was begun for Grasset and his companion. One party came across the body of Bernard and it showed sim-ilar usage. What remained of that body was taken to Roberval, where Bernard lived.

#### And Would Also Extend It to the Municipalities.

The Canadian Club, at its luncheor held in the Royal Hotel last evening had as the speaker another of Canada's representative men in the porson of John A. Cooper, editor and publisher of "The Canadian Courier." Mr. Cooper gave his views on the subject of "Civil Service Reform," in a bright, pithy manner that held the audience with rapt atten tion for over an hour. Mr. Cooper has the courage of his convictions, and is not afraid to say what he has to say, in a straight-from the shoulder kind of

a straight-from the shoulder kind of way. Mr. W. M. McClemont occupied the chair, and in a few brief words intro-duced the speaker of the evening. Mr. Cooper said that it gave him great plea-feure to appear before the pioneer Can-adian Club of Canada, and he also brought the heartiest greetings from the Toronto branch, of which he is a past-nresident. resident.

Mr. Cooper said that eivil service re-form may be looked upon as being inci-dental to the question of citizenship. It is surely a fact that it is not going to make any serious difference. Things will go on just the same as before. Some get quite excited about some particular reform they may have in view, and they are convinced in their own minds that if that particular reform is not adopted the world will go to rack and ruin. But there is nothing in that idea. The one Mr. Cooper said that eivil service rater form may be looked upon as being incident of the question of citizenship. It is surely a fact that it is not going to make any serious difference. Things will, we convice in the interval to the series of church work in a prosperous condition. Mr. D. C. Smith, Secretary of the Board of Managers, read the Managers' report, as follows: The Managers are pleased to report are convinced in their own minds that if that particular reform is not adopted the world will go to rack and ruin. But there is nothing in that idea. The one in evice pride. That must always be kept before the people. As it stands to day, the Government is insore in the minds of the people than creating that the Government is insore in the minds of the people than ever before, but the trouble lies in the fact that the public head seven and the development of that dir is and the great thing that the Government is a stand is and the great that the Government is a stand the proster hake it, (Stil service reform is only an incident of citit renship, and it is the great that the Government is a stand the development of that the react the the proster head the the rouble lies in the visit and the development of that the react that the Government is a stand far above our past and, with taken are triver reform is only an incident of citit renship, and it is the great thing that the Government is the undit the development of that the react the the rouble are much to the church, as follows: Receipts: Mr. Cooper sold the clanadian Class of the country, and also work it contributed sold the church, as follows: Receipts: Mr. Cooper sold the exercise reform. "No one will deny that by the ac-ceptance of civil service reform a great many evils are done away with," said Mr. Cooper, "and there is no doubt that the civil service of the United States is in far better shape than in Canada." Of course No one will deny that by the ac-Nothing was done in the way of re-form in Canada until 1905. Of course there were civil service acts, but they were in theory only. Up to September, 1908, the civil service was in such a con-dition that the acts could be easily over-riddden. The movement, both in the United States and Canada, came from the people, not from the Government nor from the civil service. Mr. Cooper did not believe that the people of Cana-da were prepared for reform when it came, and that is where the Parliament is ahead of the people. There is just as much intense partisanship among the people as there is among the politicians, and it has to be got rid of. The public have to accept a broader view of the political parties. The strongest feature, according to Mr. Cooper's idea, is that everyone must get in the right spirit in doing things in regard to civil service reform. Nothing can be accomplished, however, until the reform movement is in the people's hearts and minds, and until the neonle and the Government churches in the city the people's hearts and minds, and til the people and the Government have made up their minds to have civi The old act regarding ervice reform. the civil service was inadequat the new act is not sufficient to cover

There is the loss by blunders of incompetent people, pay rolls stuffed with dummies, and the influence which patronage ex-erts. American cities are much more progressive in this regard than in Can-ada. No alderman in any large city should have the right to nominate a man to the permanent service of the city.

the ground thoroughly. Mr. Cooper came out strongly on the question of the important positions in the civil service, such as the postmas-ters. The act provides that no man over 35 years of age shall be appointed to any position in the civil service, yet there is evidence that this point is not regarded. The civil service reform is intended to correct that kind of thing and to promote men as their merit war-rants, and not to appoint men on the downward path of life, and in so doing cut off the chances of some bright young man.

#### LIVE STOCK.

Receipts of live stock at the City Maras reported by the railways for esday and Thursday, were 147 car

ket, as reported by the railways for Wednesday and Thursday, were 147 car loads consisting of 2.149 cattle, 3.021 hogs, 1.777 sheep and lambs, 115 calves and eight horses.
The quality of fat cattle offered was much the same as on Tuesday, that is, too many light heifers and steers that were not finished, but just nicely warm-ed up, weighing from 850 to 550 lbs. each, and too few of the best quality of butchers', as well as exporters.
Exporters—Export steers, of which there were very few on sale, and scarce-ly any of heavy weights, sold at \$5 to \$5.40, and one sale was reported at \$5. 50. Prime quality steers were in de-mand, and more of them would have found ready sale.
Butchers.—Prime picked cattle, steers and heifers, sold at \$4.80 to \$5 per cwt., but they were scarce, probably not more than a carload out of the 2.149 cattle on sale; loads of good, \$4.40 to \$4.65; medium, \$3.75 to \$4.25; can-ners, \$1.75 to \$2.25.
Feeders, and Stockers.—Below are

50 to \$3.65, cows, \$2.50 to \$4.25; canners, \$1.75 to \$2.25. Feeders and Stockers.—Below are quotations: Best feeders, 900 to 1,000 lbs. each, at \$3.80 to \$4.25; best stock-ers, 700 to 900 lbs. each, at \$3.40 to \$3.80; medium stockers, 600 to 800 lbs. each, at \$1 to \$3.50. There is some en-quiry for short-keeps, but the demand for exporters has put this class out of reach of the ordinary buyers. Milkers and Springers.—Prices were about steady at \$30 to \$55 each, with four or five at \$60.

four or five at \$60. Veal Calves.-About 100 calves found

Veal Calves.—About 100 calves found ready sale, as there is a good demand for them at firm prices. Prices ranged from \$3 to \$7 per cwt., with a prime new milk-fed vealer worth a little more. Sheep and Lambs.—There was a mod-rate delivery of sheep and lambs for the two days, 1,777 all told. Sheep sold at \$4 to \$4.50 for ewes, and \$3 to \$3.-50 for rams, lambs, \$5.50 to \$6 for the bulk of offerings, and a little more was paid for a few selected ewes and weth-ers.

Frs. Hogs.—Mr. Harris reported selects fed and watered at \$6.50 at the market and \$6.25 for lights. Prices seem to be higher at many points in Ontario, as many of the drovers reported having paid \$6.25 to the farmers, and having received \$6.35 to \$6.40 f.o.b. cars at country points. country points.

TORONTO SUGAR MARKET.

St. Lawrence sugars are quoted as fol-lows: Granulated, \$4.50 per cwt., in bar-rels, and No. 1 golden, \$4.10 per cwt., in barrels. These prices are for delivery bere. Car lots, 5c less.

mer, and the cotton seed made into oil. It is announced that the new mine smel-ters have bought the largest smelter in Mexico outside the American smelting plant. Silver advanced abroad. Copper is in better financial shape than ever before, having restored a large part of the surplus used to pay dividends, and greatly reduced operations, cost to plant, where copper is produced cheaper than for years past. The trade feeling is that copper metal will advance two cents before it declines one cent per pound. With the quarter issue a little heavier, increase in United Steel orders in steel, the bulls in steel would be dis-appointed if this is not shown in the statement next Tuesday, as well as an increase in earnings. Both these things are rather unlikely, and the reverse may be the case. It is now thought abroad that the English bank rate will decline to 2 per cent. in the early spring, and that our rate will be equally low. Monthly Meeting ai the Home of Mrs. T. H. Pratt. Noon letter reported by A. E. Carpen-ter, 102 King street east: The early market developed further strength in a number of stocks, and fresh interests in industrials. Sugar ad-vanced sharply with no special news. Reports of Steel were strong. Cotton oil, which has been quietly absorbed for some time, showed a good advance. It is said that a merger with fertilizer may materialize. This has worked well with the Ver. Chemical and Southern Cotton Oil combination, the fertilizer being ex-changed for cotton seed, and into oil. It is announced that the new mine smei-ters have bought the largest smelter in Mexico outside the American smelting plant. Silver advanced abroad. Copper is in better financial shape than ever before, having restored a large part of the surful subscience and hygiene, the good work bar the full for boys, in senior third grade, was a gibute to the good work bar the Public schools along the line of the mergane, the winners The many friends of Mr. Peter Culi-can will regret to hear of his death, which occurred last night at his home, 34 Picton street west. Deceased was a carpenter by trade, and was 70 years of age. He leaves a widow, two daughters, Mrs. Borden, of New York, and Mrs. P. Cullen, city, and one son. Edward, at home. The funeral arrangements have not yet been made.

street north. Deceased was born in Ber-wickshire, England, and came to this country when thirty years of age. He resided in Hamilton for a short time, and then moved to Cariuke, where he went into the farming business. Two years ago he took up his residence near Saskatoon, and about two months ago came to this city to live. He was a Presbyterian and a staunch Liberal. Mr. Renton was assessor for the Township of Ancaster for eight years. He is sur-vived by a widow, two daughters, Misses Minnie and Christian Renton, and two sons, Arthur, of Carluke, and Allan, of Saskatoon. The funeral will take place on Sunday at 2.30 p. m. from his late residence to St. Paul's Cemetery, Car-luke. (Special Despatch to the Times.) Brantford, Jan. 22.—It has been an-nounced here that the Town Council of Paris is seriously considering putting a vote to the people on the question of license reduction. The object of the by-law will be to cut off two hotel licenses, and the temperance people are behind the scheme. At present there are six hotels doing business in the town, and it is said two could easily be dispensed with. BONES BROKEN.

BONES BROKEN. In the hockey game with St. Kitts here on Wednesday night Fred Povey, Brantford's Star point man, sustained two broken bones in the chest, which will lay him up for at least two weeks. He made a rush from one end of the rink to the other, and was stopped by Tyler, the husky cover-point of St. Cath-arines. The accident happened in the first half, but the player gamely con-tinued until the finish. Manager Brown yesterday secured Sandford to take his place, who arrived with Mercer from Guelph, where the "pro." game has gone place, who arrived with Mercer from Guelph, where the "pro." game has gone bad.

#### STILL UNCONSCIOUS.

Much sympathy will be extended to James W. and Mrs. Munroe, 47 Crooks street, on the loss of their infant daugh-ter, Annie Irene, who passed away carly this morning, aged seven months. The funeral will take place on Saturday af-ternoon at 2 o'clock. STILL UNCONSCIOUS. John Whiting, the well known Brant-ford Township farmer who fell off the rear end of the Buffalo & Goderich train on Tuesday, is still unconscious at his home between Langford and Cainsville, and his recovery is very doubtful. He sustained a fractured skull and is suf-fering from concussion of the brain. Mr. Whiting is 65 years old, and weighs over 200 pounds. In his fall from the moving train his cight hand was also broken in several places.

They are furnished with spades, and with these they proceed to fill an ordinary sieve with a fairly fine mesh. A man will then take the sieve, give it a shake and plunge it into a galvanized iron bath of sea water, which has the effect of hardening the contents, while at the same time owing to the specific gravity of the diamonds the latter fall to the bottom. The man then picks up the sieve and turns it over onto an ordinary deal table and the diamonds are then of couse on the top. He will then take an ordinary table knife, pick up the diamonds with this and carefully place them in a pickle botte, which stands by his side. #### KING'S SPEECH.

MESSAGE OF PEACE AND GOOD WILL TO THE NATIONS.

Success of Quebec Tercentenary a Mat ter of Rejoicing-Treaty With United States-Improvement in Business - Transportation Problems to be Solved.

Ottawa, Jan. 21 .- At the opening of Parliament yesterday hari Grey read the following speech from the Inrone: Hon. Gentlemen of the Senate:

Gentlemen of the House of Commons: In we coming you to the performance of your duties at the first session of a new rariament, 1 desire to acknowledge with devout thankfulness the abundant harvest with which Divine the abundant harvest with which Divine rrovidence has again blessed us. The Quebec Tercentenary festivities in July, which were honored by the gracious pre-sence of His Royal highness the Prince of Wales, as representing it Majesty, marked an epoch in the mistory of the Dominion. The generous support given to this mational celebration by the Federaf Parliament and Provincial Législature, and by the peoples of Legislature, and by the peoples of Canada, and the other dominions 'and Canada, and the other dominions and of the United Kingdom emphasized the community of sympathy which linds the various parts of the Brit-ish Empire to each other and to the throne and person of His Majesty the King. The presence of representa-tives from the United Kinkdom, Aus-tralia, New Zealand, South Africa and Newfoundland, and from the great and friendly republics of France and the United States, with the ships of war of the three nations, served not only to add lustre to this occasion, but to provide an assurance of increasing provide an assurance of increasing amity and peac

TREATY WITH THE STATES. TREATY WITH THE STATES. I have much pleasure in announcing that a treaty relating to the great lakes and other international waterways has been agreed upon between His Majesty and the Government of the United States of America, and is now awaiting ratification. Both coun-tries are to be congratulated on hav-ing arrived at an amicable settlement, which I trust will remove during the lifetime of the treaty many vexed questions from the field of contro-versy. The treaty and papers relating versy. The treaty and papers relating thereto will be laid before you in due course

A little more than a year ago the whole civilized world entered into a period of commercial, industrial and financial depression which may not whole civilized world entered into a period of commercial, industrial and financial depression which may not yet have completely spent its force. Signs there are, however, that it is gradually passing away. Whilst it is hardly disputable that, owing to the abundance and elasticity of her re-sources, Canada has suffered less than other nations, this depression has seriously affected our trade, producing an appreciable shrinkage in the public revenue, and calling for exceptional cau-tion in the administration of our nation. in the administration of our nation al affairs.

#### TRANSPORTATION.

TRANSPORTATION. The rapid settlement of the new Provinces calls for new lines of transportation. The construction of the Transcontinental Railway has been vigorously pressed forward dur-ing the last year. The line was open for the carrying of crops from Winni-peg to Battle River, a distance of 675 mins.

miles. Exploratory surveys for a railway from the western wheat fields to Hudson Bay are being pushed ener-getically. Four parties have been at work since August last. Upon their report it will be possible to reach a decision as to both the route to be followed and the approximate cost. The provision of the Dominon lands act of last session for the sale of pre-emptions and superbeat and sup last session for the sale of ions and purchased homepre-emptions steads has created a new source of revenue that will be sufficient to bear revenue that will be sufficient to bear the cost of the railway to Hudson Bay without burdening the ordinary revenue. From September 1st, when the act came into force, until January lst, sales of pre-emptions and purchased homesteads have amounted to over two million acres, all subject to homestead settlement conditions. The total volume of immigration has not reached the high figure of pre-vious years, but the number of those seeking homes on our unoccupied lands has been fully maintained during the last season, and owing to the ever-closer supervision of the immigration branch Dennis maintains an unobstructed of the ocean and Board walk with dur

business. You will be asked to consider meas-ures relative to insurance, the civil ser-vice, immigration, naturalization and other subjects. Gentlemen of the House of Commons: The accounts of the last year will be haid before you. The estimates for the coming year will be submitted at an early date. They have been prepared with a due regard for economy, con-slstent with the requirements of the public service.

Histont with the requirements of the public service. Hon. gentlemen of the Senate: Gentlemen of the House of Commons: I pray Divine Providence that it may guide your deliberations, and that they may tend to a further increase in the prosperity of our country and the well-being of our people.

THE DEBATE TO-MORROW.

THE DEBATE TO MORROW. When the Commons returned to their own chamber Sir Wilfrid Laurier stated that it had been originally intended to take up consideration of the address to-morrow, but a number of members had suggested that the opening of the debate might be postponed until Mon-, day. ing

day. "Why the delay?" shouted Mr.

"Very well," retorted Sir Wilfrid. "Very well," retorted Sir Wilfrid. "Mr. Borden was next on his feet, inquiring what had been done in con-nection with the construction of the hotel on Major's Hill Park. 'All that is to be seen is a fence," he facetiously remarked, "and if that is intended to be a hotel, I would suggest that it be roofed in."

"I can easily satisfy my hon. friend's curiosity," responded Sir Wilfrid, "Noth-ing has been done since the bill was passed hast seasion."

Again Mr. Foster laid himself open to the retort courteous. "Can the Prime Minister say when the Minister of In-land Revenue will be in his place?" he inquired.

inquired. "The hon. gentleman is much more in-quisitive than his neighbors," replied Sir Wilfrid, in his most gracious manner. "The Minister of Inland Revenue has had a misfortune to whoch the hon. mem. ber (Mr. Foster), I think, is no stranger." While the Liberal members laughed at the neat way in which Mr. Foster had been discomfited, Sir Wilfrid added that he honed to make an annunememt he hoped to make an announcement regarding the matter soon. Mr. Foster muttered something about

Mr. Foster multered something about commercial proceedings, only to be scored again. "I don't know to what the hon. member refers," safel Sir Wilfrid. "If it is anything in his line of thought it is not in ours." The House had another chuckle to itself and then adjourned.

Letters Patent No. 26,519, of 1906, was issued on Monday, revoking an American patent, on the ground that it is not manufactured in the United Kingdom. The patent in question is for a lock-stitch sewing machine, running at speeds up to 4,000 stitches per minute, and used in feady-made clothing factories. The machine, as imported, was manufactured in the United States, but before it was sold in this country a few parts were taken out and stronger ones, manufac-tured in this country, substitued. Aino Malmberg, the translator of Mr. Rudyard Kipling's works into Finnish, have come from their own country-where since 1005 all women, married and single, over the age of twenty-four have votes-to give a helping hand to their sisters in Britain who are struggling for the same enfranchisement. Dr. Hultin said in an interview: "I think the Englishmen are splendid and

think the Englishmen are splendid and the Englishwomen charming. " I like the independent, erect carriage of the women I see in the streets. And how well they dress Better than the Finnish women?"

"Oh, all Finnish women dress badly. We do not understand the art of dress in Finland."

"The women of a country know what are the best methods for obtaining their just rights," was her tactful reply to a question about the militant methods of the British Suffragettes. The twenty-six women M. P.'s of Fin-land-who include noblewomen, Govern-ment servants, teachers, authors, jour-nalists, and one domestic servant-are, Dr. Hultin stated, very popular in the Diet. They urge that the present low price of the drug in the Federated Malay States should be grad-ually raised up to the higher rate pre-vailing in the Straits Settlements. They advise that women shall be forbidden access to all licensed opium shops and that the sale of opium to women or chil-dren under eighteen be made an of-fence.

They point out the disastrous effects to the local revenue if the authorities were deprived of the opium taxes through a prohibition of the traffic, and while desiring improvement in opium shops, they consider that there is no justification for their suppression. Messina, Jan. 22 .- The work of erect ing buildings to shelter the earthquake sufferers is now well organized. The crews of the Italian warships, Regina, Elemarina, and Margherita have con Elemarina, and Margherita have con-structed huts at the village of San Sal-vatore, near Messina, where a large number of refugees have gathered. Mean-while the military engineers are erect-ing huts on the outskirts of the city. Altogether 8,000 solders and sailors are working at the excavations in Messina, removing debris, and building shelters.

HELP FROM ARCHBISHOP

Rome, Jan. 22.—Archbishop Ireland, having ascertained the great work of relief accomplished by the Vatican through the bishops and clergymen in the earthquake districts, decided to re-mit to the Pope \$5,000, which the arch-bishop had received from Ambassador Griscom, acting in behalf of the Ameri-can Roman committee. The archbishop Ginscom, acting in behalf of the Ameri-can Roman committee. The archibishop went personally to the Vatican to de-liver the funds. Both the Pope and Car-dinal Merry Del Val were profoundly touched by the generosity of the com-mittee, and said the Vatican appreciated highly all that America had done in this distressing occasion.
