SOVIET ESPIONAGE SYSTEM DISCLOSED

Death Penalty for Agents Who Fail

PARIS, July 10—Light on the extent of the ramifications of Soviet organizations throughout Europe and the audacity with which their agents carry on their work has been discovered by the Paris police, who have found traces of the spy bureau of a secret council which, according to Russian nihilist traditions, condemns to death and executes any of its members who disobey the instructions received.

Ex-Premier Kerensky, who still plays an active part in Russian politics among the exiled Russian colony here, recently discovered that one of his secretaries, an officer in the Russian army, had been abstracting a number of important documents. Suspecting from the nature of the stolen documents that the theft could only have been prompted by a desire to serve Bolshevik interests, Kerensky, after a stormy interview, dismissed his secretary, at the same time reporting him to the French police.

The police at once made a search of the ex-officer's lodging, and of the latter's room of a young

Russian girl student at the Sorbonne, who was his friend and associate. It was here that evidence was discovered of the recent execution of two Bolshevik spies, who failed to carry out instructions from the Central Council.

The victims, who were condemned to die at a secret court martial were requested to visit a Soviet agent. Received with effusive hospitality, they were invited to take tea from a steaming samovar. Various matters were discussed, the men again being charged with a mission, this time imaginary. Returning home both died the same evening, the tea having contained a deadly slow poison.

When the bodies were discovered by the landlord a letter was found announcing their intention to commit suicide, which was a clever forgery, but at the time was accepted by the police as bona fide. The affair would therefore, have been quickly forgotten had not the facts come to light today.

Russian circles here are greatly perturbed, especially in view of the fact that the officer implicated in the theft of Kerensky's documents is the son of a well known Russian general. The police have arrested him. It is known that the keenest Paris detectives are now hot on the track of the members of the secret Soviet council here and arrests are possible within the next few days.

"MAN TO MAN" TO BE SHOWN HERE

"Man To Man" is the promising title of the Universal-Jewel attraction coming to the Empress Theatre next Monday.

It is a starring vehicle for Harry Carey, filmed with elaborate attention to the thrill qualities a Western story should provide.

A cattle stampede of five thousand head ought to furnish a kick for the jaded spectator The Agoure ranch, a cattle grazing kingdom of great acreage near Universal City, California, was the scene of the stampede. The fenceless areas around Benon, Arizona, furnished a location for other thrilling scenes.

Opposite Harry Carey, Lillian Rich, is given an opportunity to show whether or not British musical comedy stars make good heroines for photodramas. She has only been in pictures two years, but her beauty and sweetness of personality have already won her the highest esteem.

Harold Goodwin, formerly a Fox star, Charles LeMoine, Willis Roberts, May Biracl and Alfred Allen are the principal supporting parts. If the direction could be placed in better hands than Stuart Paton's, it is difficult to say whose they would be. For Paton is the director of "Conflict," the Universal-Jewel success starring Priscilla Dean, which has had quite a vogue in the leading theatres of the country.

Jackson Gregory's widely read novel, "Man To Man," gave the plot to the new Carey picture.

WEDDINGS

GILMOUR-GODFELLOW

A very happy scene was enacted at the home of Mr. and Mrs. David Gilmour, Rumford, Maine, on Thursday 29th when their son David William was united in marriage to Jessie Ann, daughter of Mr. and Mrs. Jas. Goodfellow of South Esk. Rev. R. H. Lowe performed the ceremony in presence of immediate family and a few friends. The double ring service being used.

The bride looked charming in a dress of white satin with white hat. She carried a bouquet of white roses and lilies of the valley. The bridesmaid was an intimate friend Miss Lydia Penley, who wore a peach colored organdie dress and hat. Her flowers were pink carnations and roses.

The bridegroom was attended by William Brown, a cousin. A buffet lunch was served after the ceremony when a handsome bride's cake was a feature of interest.

The gift to the bride from her husband was a diamond pendant. She gave him a pair of diamond set cufflinks. The bridesmaid received a gold fountain pen and the best man was the recipient of a pair of gold cuff links.

The house was very prettily decorated with ferns and flowers. Many handsome gifts were received by the young couple, including china, silver cut glass, linen, aluminum and electric articles.

Mr. Gilmour and his bride left by auto for a two weeks visit to the bride's home.

Mrs. Gilmour travelled in a suit of navy blue and hat to Scotland. Mr. Gilmour was born in Scotland. He is a machine tender in the Oxford Paper Mill. The bride is a graduate of McCarthy Hospital.

A reception was held in honor of the bride and groom on Tuesday evening July 11th at the home of the bride's parents, Mr. and Mrs. Jas. Goodfellow. Some sixty guests being present. Mr. and Mrs. Gilmour were the recipient of a number of beautiful gifts. An enjoyable time was spent by all. The happy couple left on Thursday for Rumford, Maine where they will reside.

RESIGNED POSITION

W. E. Jones, of Woodstock, who was in the city yesterday, informed the Journal, referring to the article about the Alcorn Company in yesterday's issue, that an appointment of a new manager was made necessary from the fact that Mr. Alcorn resigned his position as general manager. Mr. Alcorn will devote practically his whole time at present to the business of the Nashwaak Pulp & Paper Company, which has very large interests in that section of the country.

SOME BALL GAME LAST FRIDAY

Mr. Clay Adams of New York City, Who Donated a Beautiful Silver Trophy for This Year's Winner of the League Race was Present, and Took a Deep Interest in the Game.

Last Tuesday evening the local Baseball Team entertained Loggieville here to one of the best exhibitions of baseball seen on the Miramichi for years. A large attendance of fans was present who thoroughly enjoyed every minute of the game. Ryder for the locals pitched a star game and had the Loggieville players under his control throughout the whole game. He received excellent support from both in and out field Melrose clouted the pill for a merry go-round and each local player used the stick in this game to good advantage. The Loggieville boys put up a good game but were not able to hold the locals. The score was 6-3 in favor of Newcastle. Greene umpired in his usual satisfactory manner.

Tuesday at Nelson

Douglastown was defeated by Nelson at the latter place on Tuesday evening by the score of 4-1. Keen interest was taken in the game and a large number were present to witness it.

Friday at Newcastle

The keenest game of the season was played at Newcastle last Friday evening when Chatham blanked Newcastle winning by four runs. Over 1000 fans from both towns were in attendance and the Newcastle Band was also present.

Mr. Clay Adams of New York City who so kindly donated a Silver Cup for the winning team of this year's league race was present at the game and received a hearty welcome from players and fans. Mr. J. R. Lawlor, President of the Miramichi Baseball League introduced Mr. Adams to the players of both teams and Mr. Adams, who is a real fan enjoyed meeting the boys and spoke encouragingly to them all.

The interest in this game was so intense that the game at Loggieville with Douglastown was postponed so that the players might attend the match. Briggs twirled for Chatham and put up a good game, receiving good support from the field. The Chatham ranks were strengthened by the addition of Wallie Watling, who up to this game had not been seen in any of the league games. At the bat the Chatham players proved stronger than the locals and because of this, were materially assisted in winning the game. Chatham wanted this game in the worst way possible and left no stone unturned in order to win it. The locals were seriously handicapped by the loss of Zinck who was injured some few days ago and was unable to take his position at first base. Ryder performed for the locals and pitched an excellent game. He had eleven strikeouts to his credit and in one inning retired 3 men with the delivery of 10 balls.

The interest in the league games is becoming acute and when these two teams again meet, which will be the last time they will do so in this year's series, it may be expected that something out of the usual in baseball playing will be put up by the members of both teams.

Chatham and Newcastle teams are leading in the standing; are very evenly matched and no doubt the possession of the handsome Adam's Trophy for this year's series will rest entirely in the game which will be played between these teams in Chatham on Friday evening 21st. inst.

STANDING OF THE LEAGUE

	WON	LOST	P.C.
Newcastle	9	2	.818
Chatham	9	2	.818
Loggieville	3	7	.300
Nelson	4	7	.363
Douglastown	2	9	.182

DEMPSEY PASSED THROUGH

Jack Dempsey and his party passed through Newcastle on the Ocean Limited on Sunday afternoon en route to Montreal. A large number were at the station to have a glimpse of the heavyweight champion, who allowed a local young lady to take a snapshot of him.

A SPECIAL TRIP TO CHATHAM FRI. E'VG

We understand that arrangements are in process, whereby it is expected that the Str. "Max Aitken" will run between Newcastle and Chatham on Friday evening for the convenience of those wishing to attend the Baseball game. As this is the final game between the two leading teams a large number of fans will no doubt wish to witness it, and the running of the "Max Aitken" will supply not only inexpensive and convenient transportation, but also a pleasant sail to and from the game.

MR. J. H. HOLMES PASSES AWAY

A despatch from Doaktown announced the death Wednesday evening of Mr. James H. Holmes, a well known and highly esteemed resident of that place. For years he carried on a lumbering and milling business at Doaktown and was widely known along the Miramichi. He was a man of genial disposition, splendid physique and was in the prime of life. His death is a severe loss to the community and will be deeply regretted by his family and friends. He is survived by a widow and a large family. Three of his sons reside at Fort Frances, Ont., where they are engaged in business, and another son, Samuel, lives at home. One daughter is the wife of a son of Hon. Robert Murray, K. C., of Chatham.

CARD OF THANKS

Mr. and Mrs. Asa Mullen and family of Curventon, N. B. wish to thank the Superintendent and nurses of the Miramichi Hospital also Dr. J. A. M. Bell, for kindness and attention shown Mr. Mullen while confined to the Hospital.

ICE CREAM SOCIAL

A very happy scene was enacted ice cream social was held last Friday evening by the Junior Women's Club of St. James' Church on the grounds of Mr. Wm. Ferguson. The grounds were electrically illuminated for the occasion, and the members of the Club served ice cream and cake to the many patrons. The Newcastle Band furnished music, which was much enjoyed and appreciated by all.

12TH JULY PICNIC

The picnic held at Vye's Beach by the L. O. L. No. 47 was a decided success in every particular. The day was a warm one and the stores in town were all closed, it being the first Wednesday afternoon holiday. A large crowd attended the picnic and the recreations at their disposal were thoroughly enjoyed. The Band was in attendance and furnished music throughout the day and evening.

AFFAIRS OF HENRY SWIM

Frederick Gleaner: The committee appointed recently by the court to look after the affairs of Henry Swim, of Doaktown, who had been declared of unsound mind, met yesterday afternoon with Harry G. Hoben, authorized trustee under the Bankruptcy Act, and asked for an extension of time. A committee of the creditors composed of Otto Hildebrand and Robert Russell, of Doaktown, and E. C. Atkinson, of this city, were appointed to work with the trustee and an extension of time granted.

Robert H. Swim, of Doaktown, was the committee appointed by the court to look after the business of Mr. Swim.

"America's Sweetheart"

In An Ideal Role—and Her Greatest Picture!

Mary Pickford

presents her special film production of

"Little Lord Fauntleroy"

Here is Mary Pickford's masterpiece—the story treasured closest to her own heart, a philosophy of remarkable qualities into which she has devotedly put every bit of the art for which she is famous. An absolutely perfect Pickford role, so exactly suited to the wise star's versatile and unrivaled talents that the wonder of it all is that the world has had to wait so long to see her in it.

12 Reels—Matinee Tuesday at 2.30 o'clock

If the weather is hot, do not worry about the heat. We have a cool house, electric fans and good ventilation.

I'm So Tired

Fatigue is the result of poisons in the blood. So when the kidneys fail to purify the blood one of the first indications is unusual and persistent tired feelings and pains in the back.

Neglected kidney troubles lead to years of suffering from rheumatism or develop into such fatal ailments as Bright's disease.

The kidney action is promptly corrected by use of Dr. Chase's Kidney-Liver Pills — the best known regulator of kidneys, liver and bowels.

Mrs. John Ireland, R.R. No. 2, King, Ont., writes:

"I was a great sufferer from severe headaches and bilious spells. I tried a number of remedies without obtaining any benefit until I was advised to use Dr. Chase's Kidney-Liver Pills. These completely relieved me and made me feel like a new person. I am very grateful to Dr. Chase's medicines for what they have done for me, and you may use my letter for the benefit of others."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers or Edmanson, Bates & Co., Ltd., Toronto.

Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Food are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

J. F. MacRAE Manager, Newcastle, N.B.

Remember

IMPERIAL POLARINE OIL (Light Medium Body) is the lubricant recommended for your Ford.

TOO HEAVY OIL

A Passenger You can't afford to haul—

Briefly, these are some of the results of using too heavy an oil for your Ford.

- (1) Engine drag and loss of power.
- (2) Improper oil distribution.
- (3) An overheated engine.
- (4) Excess carbon deposit.
- (5) Unnecessary friction and wear.
- (6) Large repair bills.
- (7) Rapid depreciation.
- (8) Excess fuel and oil consumption.

What is the remedy? Use Imperial Polarine Motor Oil (Light Medium Body), which is especially adapted to the mechanical requirements and operating conditions of your Ford engine.

Have your crank case cleaned and refilled today with Imperial Polarine Oil (Light Medium Body), and realize full Ford economy and efficiency.

IMPERIAL OIL LIMITED
 Manufacturers and Marketers of Imperial Polarine Motor Oils and Marketers in Canada of Gargoyle Mobiloil.

Made in five grades for the proper lubrication of all makes of automobiles, trucks and tractors.

Merchandise and Savings---The First is as Good as the Second are Worth while in

Parcel No. 14.—A lot of land containing about 50 acres in the Parish of Blackville, near the Station at Upper Blackville and the Arbeau Post Office on the northern side of the South-West Branch of the Miramichi River.

Parcel No. 15.—A lot of land containing about 100 acres, Southwesterly of and contiguous to the Dongarven River, distinguished as lot 55 in Breadalbane and known as the Pratt Place.

Parcel No. 16.—One-half (1-2) interest in a lot of land containing about 97 acres on the southerly side of the South-West Branch of the Miramichi River about three (3) miles east of Doaktown and distinguished as lot 30.

Parcel No. 17.—A lot of land containing about 30 acres, adjoining westwardly the South West Branch of the Miramichi River, near to and west of the Doaktown Station.

Parcel No. 18.—All that lot of land in Doaktown in the County

STAR ATTRACTS MUCH ATTENTION

Professor Plaskett, Director of the new Observatory in British Columbia, has made an interesting communication on a star that he has been observing. It is in the constellation Monoceros, the Unicorn just to the left of the well known Orion, and lies in the middle of the Milky Way. It is a sixth magnitude star, which means that it is just visible to an acute eye.

Nothing remarkable was noticed about it till the spectroscope was applied. This instrument spreads out the light of the sun and stars into a long rainbow-tinted ribbon crossed by dark lines, due to absorption of light by the gases in the solar or stellar atmospheres. The spectrum of this star showed the various lines double, whereas in the sun they are single. This is known to indicate that the star consists of two components in rapid motion round each other.

In the present case Prof. Plaskett finds that the two stars fifty-six million miles apart, while they go round each other in a fortnight. A body going round the sun at the same distance would require six months for the circuit and it is calculated that the two components of the Plaskett star are respectively ninety and seventy times the mass of the sun, making the pair the most massive star system known.

So far, the results are pretty certain. What follows is more speculative. The diameters of the two

Catarrhal Conditions

Catarrh is a local disease greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARRH MEDICINE is taken internally and acts through the Blood upon Mucous Surfaces of the System. HALL'S CATARRH MEDICINE gives the patient strength by improving the general health and assist Nature in doing its work.

All Druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

of Northumberland lying southerly of and contiguous to the South West Branch of the Miramichi River, and lying between the highway on the east and Walter Freeze on the West.

Parcel No. 19.—One-quarter interest in lot and planing mill at south side of Doaktown main road bridge.

Parcel No. 20.—One-half interest in land on St. John river on the Handale road consisting of about two hundred and thirty acres about six miles back of Fredericton.

Parcel No. 21.—One hundred acres of land near Big Hole Brook, better known as McLeggan's Meadows.

Parcel No. 22 About seventy five acres of land in the Parish of Blissfield on the Hazelton road near Doaktown.

Parcel No. 23 Lot of land containing about 4 3-4 acres, more or less, in the Parish of Blissfield on the north side of the South West Branch of the Miramichi River and on the easterly side of Big Hole Brook, being lands conveyed from Hiram Storey to Alexander Storey.

Parcel No. 24. One office safe in the residence of Mrs. F. D. Swim, Doaktown.

Parcel No. 25 One office safe in the residence of Alexander Storey. There are no buildings situated on the above real estate.

Terms of the sale will be cash or half cash, balance to be arranged as announced by the Auctioneer at the time of the sale.

Further information as to the location, etc., may be obtained by applying to W. C. Cummings Doaktown or to either of the Debtors, Frank D. Swim and Alexander Storey.

The Canadian Credit Men's Trust Association Limited, Authorized Trustees.

HER RECOVERY IS AMAZING TO MANY FRIENDS

Mrs. McArthur Tells How Tanlac Brought Complete Relief From Stomach Trouble That Was So Bad She Couldn't Walk Up The Stairs—Gains Weight too.

"My friends all express surprise over the fine change in my health, and I always tell them how Tanlac caused my improvement," said Mrs. Kenneth McArthur, 52 S. Bentinck St., Sydney, N. S.

"I was dreadfully weak and run down for six years, suffering from a bad form of stomach trouble. No matter how careful I was of what I ate I had awful attacks of indigestion. I had trouble with my heart skipping and jumping, but I know now it was due to the condition of my stomach. I was nervous and miserable, getting little rest day or night, and so fagged out I couldn't climb the stairs.

"I began taking Tanlac just in time for I had almost lost hope. Now I am feeling like a different woman. I have a hearty appetite, eat anything, sleep restfully and have gained weight. I think Tanlac is truly wonderful."

Tanlac is sold by all good druggists.

stars are given as eighteen million and sixteen million and each square mile or their surface is estimated to give forty times as much light as a square mile of the sun. If the two stars were placed at the sun's distance from us they would give thirty thousand times as much light as it does. They are so remote that their light is supposed to take some ten thousand years on the journey, so that the light now reaching us left them long before the dawn of history. None of these wonderful results could have been obtained till the application of the spectroscope to the stars, which dates only some sixty years back.

W. J. Godin has returned from Dalhousie, where he spent a two week's vacation and has resumed his duties of teller at the local branch of the Royal Bank of Canada.

Miss Margaret Henderson of Baltimore, Md., Mr. James Henderson of McAdam and Mr. R. N. Henderson of Blackville are spending their vacation at their home in Douglastown.

Miss Annie Cassidy and Miss Edna MacDonald left Monday for Wolfville, N. S., where they will attend the Young People's Missionary Convention which convenes there this week.

CHOLERA INFANTUM

Cholera infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly especially during the summer months and unless prompt action is taken the little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent the dreaded summer complaints. They are an absolute safe medicine, being guaranteed to contain neither opiates nor narcotics or other harmful drugs. They cannot possibly do harm—they always do good. The Tablets are sold by medicine dealers or by mail at 25 cent a box from The Dr. Williams' Medicine Co., Brockville, Ont.

WHO MAKES THE PROPOSAL?

According to Smoking Room Authority, it is the Woman Who Generally Suggests Marriage.

The contented solace of the after-dinner group around the smoking room fire was disturbed by the noisy dropping of a magazine.

"A silly love story, all sentimental speeches," explained the reader. "Seems very unreal to me. But I suppose I can't judge of these things. No man knows, for instance, how another proposes."

"Men never do propose," growled the misogynist sprawling in the roomiest of the armchairs. "Ninety-nine women out of a hundred take the proposal for granted, and I'm ready to bet that not one of you proposed to your wife."

There was a brief silence as each man musingly turned the dim pages of his memory. Then one man laughed and said: "Now, when I think of it you are quite right in my case. I didn't propose to Alice. She was one of a large, lively family, and all the brothers and sisters were my friends. Gradually it happened that Alice was my partner at golf or tennis more often than any of her sisters. When I announced that I had been made junior partner in my firm, Alice's mother kissed me and said: 'I'm so glad, Tom. Now you and Alice can be married at last.' So we were—and a jolly good thing it was for me."

"When you think of my quiet little wife," said Brown, the boisterous, masterful one of the group, "you might imagine that I clubbed her into submission; but, as a matter of fact, she married me. We had known one another from childhood, and one day when she saw me she said, 'You have a button off your coat and you are going to have influenza. I'd better marry you when you get well again just to keep you in order.' That's all the proposing that took place in our case. But what about Grayson there? A man who earns his living by writing short stories must surely have said something poetic when he proposed."

"I didn't," said Grayson, as he refilled his pipe. "I was helping Kitty to distribute favors at her sister's wedding. 'I suppose we'll have to go through this horrible fuss some day,' I growled. 'Yes, I suppose we shall,' she said."—Continental Edition of the London Mail.

Pittsburgh Touches France.

War orphans and other needy children of France are made self-supporting and at the same time restored to health at the Pittsburgh Farm school at Fontaineux, France. The school was established through the donation of \$42,000 by the public school children of Pittsburgh. A three-year course in agriculture is offered. The Pittsburgh Junior Red Cross has appropriated \$15,000 to aid in the erection of dormitories housing 60 children of this school.

Fifteen other agricultural schools in France have received contributions from the Junior American Red Cross, most of the money being devoted to improvement of the living quarters of the students. These schools are mainly supported by the French government, and teach scientific farming and common-school branches to boys of twelve to seventeen years, who would otherwise have to enter workshops and factories.

Holland's Electrical Development.

Reports from Holland show that electrical development is progressing rapidly there, including plans for electrifying the entire railway system of the country. While this project has not been definitely decided upon, a commission, appointed to study electrification in the United States and other countries, has reported favorably, recommending a system operated by a 1,500-volt direct current. The province of Zeeland, heretofore lacking general electric service, is to be supplied by a concern financed jointly by the communities and the provincial government. The commission estimates that the cost of similar service for the whole country would be approximately \$2,280,000, of which \$400,000 has already been subscribed. The plan is for a gradual extension of existing service.—Popular Mechanics Magazine.

Booth Tarkington's Youth.

Young Booth Tarkington was never a conspicuous success as a financier, remembers this writer whose works have won him rank as one of America's most brilliant novelists. "Up to the time I was thirty I earned a total of exactly \$67.67 1/2," says Mr. Tarkington. "And that included money I received for a prize essay at college and 7 1/2 cents for shoveling snow, when I was eleven years old. The reason for the half a cent is this: Another boy and I shoveled the snow and received 15 cents for the job. This we divided; 7 cents each; then bought a stick of candy with the extra cent and split the candy. First I intended to be an artist, not writer."—From the Argonaut.

Booze Eats Lining of Sewer.

Prohibition authorities will be asked to pay for repairs to the city sewers of Storrville. The city claims that confiscated liquors, hooch and jacks brandy, poured into the sewer by the officers, removed the lining of the sewer for a distance of 804 feet.

The liquor was disposed of in this manner by Marshal Massey and Assistant Marshal Pierce on orders of Federal Commissioner Arnold. City officials, who happened to be examining the spot, discovered the damage.

MILL SAW MILLS

We have just printed a large quantity of Mill Saw Bills, and can supply them to the different mills either singly or in quantities.

No Appetite

Nervous exhaustion leads to distaste for food. The nerves of the stomach are weak, digestion fails and you become generally upset and out of sorts.

The secret of complete restoration is in getting the nervous system fully built up.

Mrs. R. Cheney, 208 Richmond St., Chatham, Ont., writes:

"I was troubled with indigestion, which caused me many sleepless nights. I would be in terrible distress at times, and would get no relief for two or three hours. For sixteen months I ate nothing but Shredded Wheat biscuits, as I dare not eat anything else. I did not know what to do, as I had tried so many different remedies, as well as doctors' medicines, without gaining permanent relief. Finally I got some of Dr. Chase's Nerve Food, and while on the second box noticed that I was improving. I continued the treatment until I am now fully restored, and have returned to my regular diet. My husband has also taken Dr. Chase's Nerve Food with splendid results, so we are glad to recommend it to others."

Bankruptcy Act

Sealed Tenders addressed to the undersigned will be received up to 12 o'clock noon, Saturday 12th August next, for the following, formerly the property of The Miramichi Manufacturing Co. Ltd., Newcastle, N.B., that is to say:—

A—Mill Site, comprising about 80,000 sq. feet, Freehold, Office Building, 2 Warehouses, Barn and Wagon Shed, 2 Dry Kilns, Sash and Door Factory, Oil Shed and Store Building, Mill, Box Mill and Boiler House; all Machinery contained in the above buildings, comprising in part, Gasoline Engine 12 H.P., Pony Planer, 8 Inch Moulder, Rip Saw and Borer, Buzz Planer, 8 ft. Cramp, Band Saw, Power Mortiser, Foot Mortiser, Tenator, Shaper, Wood Turning Lathe, Foot Power Mitre, Iron Lathe, Sander, Automatic Grinder, Upright Grinder, Dove Tailer with necessary Pulleys, Shafts, Belting etc., for an up to date Planing Mill. In good condition and ready for immediate work, Berkin Planer, 20 Inch Blower, Resaw with Pulley, Shafts, Belting etc., 48 Inch Box Resawing Machine, Surfacer, Equalizer Gluer and Jointer, Filing and Grinding Outfit, Lath Machine, Stripper, Ricker. Cutting up outfit, 3 Box Shook Strippers, 2 foot Rosser, 25 inch Blower, Extra Saws, 65 H.P. Robb Armstrong 12x12 Steam Engine, 60 H. P. Tubular Boiler, 10 inch Blower, Engine Tools and Equipment, 15 H.P. Boiler, Extra Pulleys, Copveyers etc;

B—200 Acre Wood Lot at Maple Glen, 8 miles from Newcastle, well wooded estimated containing about 75 cords White Birch suitable for Spool Wood, 50 M. Spruce and Poplar Pulpwood, a large quantity of Fire Wood, and nothing cut from same within last 5 years;

C—Self contained Dwelling and freehold Lot, facing North in the rear of mill site and described C;

D—Self contained Dwelling and freehold lot in rear of above mentioned Dwelling and described D;

E—Office Furniture, consisting in part 4 Desks, Safe, Oliver Typewriter, 6 Chairs, Steel Filing Cabinet, etc.

F—Movable Property and Rigging consisting in part Waggons, Slovens, Carts, Harness, Chains Barn Utensils etc.

G—A supply of Roofing, Hardware, Electric Supplies, Glass etc.

A complete Inventory of any or all of the above may be seen at the office of the Company in Newcastle, N.B., or at the office of The Canada Permanent Trust Co., in St. John, N.B. and the several parcels may be inspected by applying to Mr. H.B. Cassidy on the premises.

Terms—A deposit of 5 p.c. must accompany Tenders, the balance to be paid in cash on delivery, excepting Item A. upon which a second payment of 10 p.c. will be required upon acceptance upon delivery of the deed within six months.

The highest or any Tender not necessarily accepted, the deposits of unsuccessful Tenderers will be returned and in the event of the successful Tenderers not completing the terms of the sale, their deposits will be forfeited as a penalty.

The Canada Permanent Trust Co. Authorized Trustee, Box 640..... St. John, N. B.

SPEECH MADE BY BLACKVILLE NATIVE

(From Miles City, Kansas Daily Star June 22nd.)

Appearing before the chamber of commerce weekly luncheon on Wednesday as the principal speaker, Hon John L. Schofield of Broadus, representative in the state legislature from Powder River county, took for his subject "The Great Lakes-St. Lawrence River waterway project."

Great Problem
The greatest problem before the American people today particularly those residing in the "Great west, the heart of the continent" is that of the cheap transportation of the products of their farms, mines and factories to market, at rates that will enable them to sell them at a profit which under present conditions they are unable to do.

It is even a greater question than that of production; for the production of a surplus is of no benefit to us if we are prevented by transportation conditions from placing the same on the markets of the world at a price that the consumer can afford to pay and one that the same time will give a reasonable margin of profit to the producer.

Our land values depend not on a productive soil; not on economy of production nor upon improved marketing conditions; but upon accessibility to markets. We may produce large crops of wheat and other grains and meat and wool enough to feed and clothe the world but what does it net us when the railroads take their toll for hauling it to the seaboard.

Railroad transportation has been tried but it has signally failed, because it was not equal to the task imposed upon it by the rapid development of the country and the immense amount of freight required to be handled, particularly in that part of the country between the Rocky Mountains and the Alleghenies, properly called the "heart of the continent."

If we leave out cotton and tobacco (distinctly southern products) this section produces the surplus of wheat corn and other grains, cattle, meat and dairy products, also wool and the products of the mines. To be more explicit statistics show that this section produces 75 per cent of the wheat, 65 per cent of the corn and 100 per cent of the flax.

It has more than 50 per cent of the dairy cows, other cattle and swine, 60 per cent of the horses, and produces more than half of the butter, cheese and eggs, half the potatoes and more than half of the sugar beets.

Its mineral production includes 85 per cent of the iron, 39 per cent of the copper, 74 per cent of the zinc, a goodly share of the gold, silver, lead and oil and 72 per cent of the country's measured coal reserves. The great resources of this section are capable of almost limitless development; but in order to do so must have cheap and adequate transportation facilities to carry its varied products to market.

The railroads cannot now and have not for some years been able to properly carry the load; the principal reasons are the immense first cost of increasing their facilities to carry and the enormous cost of upkeep caused by the wear and tear incident to handling such great tonnage of freight. Consequently this great Midland empire will have to look elsewhere for relief and fortunately for us when the God of nature formed this continent. He provided a way which with a little enterprise on our part will satisfactorily solve the question.

The solution is the opening of the St. Lawrence route from the head of the Great Lakes to the sea which will enable ocean going vessels up to 8,000 tons capacity to load at Duluth and other lake harbors for any port in the world.

The agricultural development of our country depends upon three things, improved farming methods, improved marketing organization

RICH IN VITAMINES

MAKE PERFECT BREAD

and cheap transportation but without the latter improved farming and marketing methods would be useless. The development of our mines and manufactures also depend upon cheap transportation.

The opening of the St. Lawrence route will enable the west to expand its grain growing, stock raising, dairying and other branches of agriculture to the limit of its productive capacity and enable us to take full advantage of all our natural resources.

The opening of the St. Lawrence route to the sea will make every lake port and ocean port and confer on all the states bordering the lakes the advantages of a maritime country, open the markets of the world to western American enterprise and create innumerable new industries which cannot now be operated without loss.

Amongst other benefits to the farmers and manufacturers would be the great home markets that would be created by the growth of the various cities by the lakes particularly the greater Duluth which combined with Superior would soon under the conditions thus created rival New York in population and wealth.

Just think of the saving in freight by shortening the actual distance to northern Europe five hundred miles and also the saving made by using instead of 1,000 miles of railroad with all its expensive upkeep, 1,000 miles of waterway that keeps itself in repair. "The scars in the water heal behind the vessels' furrowing keel."

Who can measure the potentialities of such a trade highway. To give you some idea I will state that before the war we had average railroad rates of 7 cents per ton mile, average canal rates of 2 and 3 cents per ton mile, average ocean rates of 1 cent per ton mile and average lake rates of seven-tenths of one cent per ton mile, so you can see that before the rise in freights caused by the war and other reasons the average rail rates were ten times greater than the average lake rates.

Gov. Blaine of Wisconsin says, "The waterways of the world have been the tracks of civilization from the earliest time and the possibilities to be derived from a waterway that gives an outlet by ship to the raw and manufactured products of the northwest are beyond the conceptions of the human mind."

Once this waterway is completed and every lake port literally becomes an ocean port the United States and Canada will wonder why it did not provide that very thing years ago.

Now in regard to the feasibility of the scheme I will say that there is no engineering problem, this is the verdict of the most eminent engineers both in this country and in Canada who have examined the data.

The attention of the U. S. congress was called to the desirability of opening the Great Lakes for ocean going ships, in the diver and harbor act passed March 2nd, 1919, at which time congress passed a resolution establishing in connection with the Canadian government an international joint commission to consider the advisability of opening the Great Lakes for ocean going ships; and the appointment of engineers to make preliminary surveys and reports.

This commission held hearings in the principal northern and western cities of the United States and in Canadian cities and made a favorable report to congress on July 8th, 1921, putting the cost at \$252,728,200 while maintenance costs were put at \$2,582,000 per year and reported that this cost both of construction and upkeep can be met wholly by rentals of the hydro-electric power that would be developed and which has been estimated as follows: International section 2,000,000 h. p. Canadian section 2,000,000 h. p. which would bring a rental of \$15 per h. p. per year equal to \$30,000,000 each year.

All that the governments of the United States and Canada would have to do would be to underwrite the project at say \$250,000,000 by issuing bonds that would be liquidated in fifty years by the revenue received for the rental of the power generated.

This could be done even if they only charged \$10 per h. p. per year Canada is already acting and is

expending \$75,000,000 on the New Welland ship canal around Niagara Falls. The new canal is twenty-five miles long and contains seven locks which will raise boats 328 1/2 feet in eight hours. At Toronto the city is building a \$25,000,000 harbor in anticipation of the coming of ocean going vessels.

Now that the international commission has reported favorably on the opening of this route it is the duty of every "farm bureau," "chamber of commerce," "business or labor organization" in this great Midland empire to at once urge upon the federal government the imperative necessity of taking immediate action to make the Great Lakes-St. Lawrence waterway a reality. It is by far the greatest development prospect before the American people today. Do not delay, "act, act" in the living present hearts within and God's head.

This is the only project now in the course of construction or in contemplation or in fact known to exist for the material and permanent lessening of transportation costs thus bringing to the farmer a larger return for his products and which will enable him to continue his business at a profit and thus benefit the nation as a whole, for every person knows that the farmer is not a hoarder but is the country's greatest purchaser of the commodities.

Theodore Roosevelt who is one of the greatest outstanding characters in the permanent history of this country paid this tribute to the farm and farmers: "We are founded as a nation of farmers and in spite of the great growth of our industrial life, it still remains true our whole system rests on the farm, that the welfare of the whole country depends upon the welfare of the farmer, the strengthening of the nation."

President James A. Gareld, one of America's noblest statesmen paid tribute to farm and farm life in the following words: At the head of all science and arts, at the head of all civilization and progress stand, not militia, the science that kills, not commerce, the art that accumulates wealth, but agriculture the mother of all industry and the maintainer of life.

Business is beginning to realize, the fact as never before that our present business depression is in a great part due to the full prosperity will not come back until the buying power of the farmer has been re-established.

We cannot afford to protect our foreign commerce without giving attention to the development and production of our agriculture and the cheap transportation of its products to market both home and foreign.

The opening of the St. Lawrence route to the sea is absolutely necessary for the welfare of every resident of this great inland empire, whether they be farmers, miners, manufacturers or laborers.

It would add from eight to ten cents to the value of every bushel of grain raised and add to the value of all other products, whether agricultural, mineral or manufactured in the same proportion and also reduce the costs of our necessary imports in the same ratio.

Last, but not least, the benefits conferred upon Montana by the added impetus given to the development of her natural resources would soon make her in fact as well as in name the veritable "Treasure State" of this great American union.

Mr. Scofield is a Blackville boy, who left some years ago for the west and has been most successful. Mr. D. G. Scofield of Blackville is a brother and he is well known by many of the older residents of the Miramichi.

SASKATCHEWAN WOMAN RECOVERS

Found Health by Taking Lydia E. Pinkham's Vegetable Compound

Melaval, Saskatchewan.—"I saw Lydia E. Pinkham's Vegetable Compound advertised for women's troubles and when a friend recommended it to me I tried it and it has done me so much good in the two years in which I have been taking it that I find I am a different woman since then. I recommend your Vegetable Compound as much as I can and you may use my letter as a testimonial."

—Mrs. Wm. J. THOMAS, Melaval, Saskatchewan.

These letters recommending Lydia E. Pinkham's Vegetable Compound ought to convince women of the great worth of this medicine in the treatment of ailments to which they are often subject.

Mrs. Thomas writes that she is a different woman now. If you are suffering from troubles women often have, or feel all run down, without any ambition or energy for your regular work, take Lydia E. Pinkham's Vegetable Compound. It is a natural restorative and should help you as it has Mrs. Thomas and many, many other women.

This medicine has been helping sick women nearly fifty years—surely a long record of service.

WHEN USING WILSON'S FLY PADS READ DIRECTIONS CAREFULLY AND FOLLOW THEM EXACTLY

There is only one way to kill all the Flies

This is it—Darken the room as much as possible, close the windows, raise one of the blinds where the sun shines in, about eight inches, place as many Wilson's Fly Pads as possible on plates (properly wetted with water but not flooded) on the window ledge where the light is strong, leave the room closed for two or three hours, then sweep up the flies and burn them. See illustration below.

The right way to use Wilson's Fly Pads

Next term opens September 24th, 1922

GROWING BOYS AND GIRLS

Need Rich, Red Blood to Keep Up Health and Strength

It is a mistake to think that anaemia is only a girl's complaint. Girls probably show the effect of weak, watery blood more plainly than boys. But many boys in their teens grow thin and weedy, showing that they have not enough blood, or that it is thin and watery. Let the boy in this condition catch cold and he will lose his strength and his health becomes precarious. No overcome this trouble give both your weak boys and girls Dr. Williams' Pink Pills and see how soon good appetite returns and the weak boy or languid girl becomes full of activity and high spirits. Mrs. P. Garvey, R. R. No 5, Mono Mills, Ont., tells what this medicine did for her young son. She says:—"Three years ago, my little boy, who was then 11 years old, was very pale and weak, he would take fainting spells and complained of a pain about his heart. One day a lady friend who noticed his run-down condition told me her daughter had been in a similar state and found new health through Dr. Williams' Pink Pills. I therefore got a supply for my boy, and by the time the first box was used his appetite seemed better, and by the time he had taken half a dozen boxes everyone was surprised at the change in his condition, he was such a fine, healthy looking boy. He had grown tall and stout, with no signs of his former run-down condition. I believe Dr. Williams' Pink Pills are unexcelled for anyone weak and run down."
Dr. Williams' Pink Pills are sold by all medicine dealers or for sale at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

MENACE TO FRENCH RACE DESCRIBED

"In France the problem of population and the crisis of the race dominates all other perils," says a recent article in the Paris Figaro. To convince other nations of that country's shrinking population and diminishing vitality, the following statistics are furnished:

"Since 1863, a record year in births—1,012,000—we have continued to diminish. As a result of the nuptial abundance of 1920-21, a slight excess of births over deaths was produced. It will not last. In France, which lost three million men since 1914, there was an increase in population in 1921 of 140,000, compared with 500,000 in England for the same year and 720,000 in Germany. The Germans are eagerly proceeding to repopulate their country. What sentiments, are animating the French, born upon a fertile area, larger than that of the German Empire, whose tillable soil requires the services of 55,000,000 inhabitants?"

"If the European birth rates continue in their present ratios, France will have in twenty years 35,000,000 of 36,000,000 inhabitants with a majority of old people; Germany will have 75,000,000 with a majority of young men and women. What will happen with the Reich congested by lack of room, and empty spaces in France next door? We must use our wits and our strength to protect our selves."

"The causes of this voluntary suicide are essentially moral; they betray an obvious impairment of mentality and post-natal care of mothers and infants must play a part. A plan of defense must forthwith be devised."

An Egyptian mummy with bobbed hair has been found. The will strengthen the modern girls in ignoring their own mummies in this matter.

HARKINS ACADEMY GRADING LISTS

From Grade 4 to 7 inclusive, some pupils who are marked "graded," but failed in one subject, will be required to take a supplemental examination on that particular subject in September.

Local and General News.

Railway News

Montreal.—Promotions and changes have just been announced in the staffs of the Canadian Pacific Telegraphs, effective May 1st, 1922.

W. J. Camp, Assistant Manager of Telegraphs for Eastern Lines is transferred to the retired list, and is one of the oldest employees of the Canadian Pacific Telegraphs, having joined the service thirty-six years ago, a few months before the opening of the Telegraphs for public service. He is a native of Montreal.

W. D. Neil, Superintendent of the Ontario Division, is promoted to the position of Assistant Manager, Eastern Lines, succeeding W. J. Camp. Born in Ontario in 1887, Mr. Neil entered the service in 1906, as operator, and he has had experience at Calgary, Edmonton, Winnipeg, and other important points in the West. He was transferred from the West to the position of Traffic Superintendent at Montreal in March, 1915. In June, 1916, he became Traffic Superintendent of the Eastern Lines, with headquarters in Montreal. In December, 1918, he was transferred to the Ontario Division.

W. M. Thompson, at present Superintendent of the Eastern Division, with headquarters at Montreal, is transferred to Toronto, succeeding Mr. Neil. Mr. Thompson was born in England. He entered the Canadian Pacific service in 1895 as operator, and he has passed through the different positions gaining wide experience as chief operator. Later he was agent at Winnipeg, and he was transferred from Winnipeg in 1915 to be chief operator in Montreal. He was appointed Superintendent of Traffic in 1916 and promoted to the position of Superintendent of the Eastern Division, with headquarters in Montreal in 1918.

J. Mitchell succeeds Mr. Thompson as Superintendent of Telegraphs, Eastern Lines, with headquarters at Montreal. He entered the Canadian Pacific Telegraphs service in 1886 as operator, and has passed through different positions to Chief Operator in Montreal. Later he was made Inspector of Telegraphs, and in 1918 he was appointed Superintendent of Traffic for Eastern Lines. From the latter post he goes to his new position.

Montreal.—G. G. McKay is appointed General Agent, Passenger Department for Canadian Pacific Rail and Ocean Traffic at Detroit, with office at 1239 Griswold Street. Mr. McKay entered the service of the Canadian Pacific Railway as ticket clerk in Detroit on June 1st, 1906. Promotions following were: February, 1907, ticket agent, Detroit; October, 1911, City Passenger Agent, Chicago; May, 1912, City Travelling Agent, Chicago; February, 1916, City Passenger Agent, Chicago; July, 1916, City Passenger Agent, Detroit; June, 1920, Assistant General Agent, Chicago; November, 1920, General Agent, Canadian Pacific Steamships, Detroit; April, 1921, General Agent, C. P. R., Detroit. From the latter post he takes his new appointment as Rail and Ocean Traffic General Agent, Passenger Department, Detroit.

Montreal.—W. McIlroy is appointed General Agent of the Canadian Pacific Railway with office at 605 South Spring Street, Los Angeles, California. He joined the C. P. R. service on May 31st, 1891, as a telegraph messenger at St. Thomas, Ontario. Promotions following were: June, 1892, clerk in the Passenger Department, Galt; July, 1893, Telegraph operator, Galt; June, 1894, telegraph operator and clerk at Galt; February, 1899, agent at Brantford. Subsequently Mr. McIlroy was agent at St. Thomas, Galt and Peterborough. On October 14th, 1912, he became city ticket and passenger agent at Hamilton; May, 1915, city passenger agent, Toronto; June, 1916, chief clerk, Toronto; June, 1920, General Agent, Passenger Department, Detroit. From Detroit he goes to Los Angeles.

Winnipeg.—Beginning early in May the Canadian Pacific Railway operates through the Province of Manitoba a stock improvement train under the direction of the Department of Agriculture of the province. This train is donated by the railway company to the department in the interest of the advancement of live stock raising and is accompanied by an officer of the company in addition to the lecturers and others sent by the government. The train is a most elaborate one for the purpose and consists of the following cars in addition to ten freight cars of special type for handling live stock: Five special coaches for lecturers, moving pictures; a specially fitted refrigerator car will be used for displaying dressed beef, beef, bacon and other produce. This train is run as a special through the province.

Hay - Fever

ASTHMA, SUMMER COLDS. You don't need a month's treatment to prove the worth of

RAZ-MAH!

RELIEF IS IMMEDIATE. It restores normal breathing, stops itching pathways, in nasal and bronchial passages, eases long nights of quiet sleep. \$1.00 at your druggist's, or write for free trial to Templeton, Toronto.

ECZEMA

You are not experimenting when you use Dr. Chase's Ointment for Eczema and Skin Irritations. It relieves at once and gradually heals the skin. Sample box Dr. Chase's Ointment free if you mention this paper and send 2c. stamp for postage. 50c. a box; all dealers or Edmanston, Bates & Co., Limited, Toronto.

PICNIC

St. James' Sunday School Annual Picnic will be held tomorrow, Wednesday at Wilson's Point.

DEATH

On Saturday, Mrs. Justus Walls, of Blackville, died at the Miramichi Hospital, Newcastle, following an operation. She leaves her husband and six children.

BAND CONCERT

The Newcastle Concert Band will give an open air Band Concert in the Band Stand on Thursday evening (weather permitting). Be on hand to hear the music and encourage the band members.

APPOINTMENT

Northumberland County—John D. Sutherland, Red Bank, to be a Justice of the peace, and stipendiary and police magistrate with civil jurisdiction for the parish of South Esk, in place of Murdoch Sutherland, deceased.

SUNDAY SCHOOL PICNIC

The boys and girls of St. Mary's congregation about three hundred in number, enjoyed a pleasant Sunday School picnic at Newcastle beach on Thursday. Cars conveyed the children to and from the grounds, where races, games and baseball were the chief amusements.

N B TENNIS TOURNAMENT

The annual tournament of the New Brunswick Tennis Association will be held this year on the courts of the Rothesay Tennis Club, commencing on Monday, August 7, and continuing throughout the week. The Maritime Championship will be held on August 15. The events will consist of ladies singles, men's singles, ladies' double; men's double and mixed doubles.

ANONYMOUS LETTER

Chief of Police Ashford is in receipt of an anonymous letter from Redbank, in which the writer complains of unfavorable conditions existing in that village, during nights when public dances are held there. The writer informs the Chief that there is no scarcity of beer or liquor which he or she is of the opinion is not brought into the village from Newcastle. The Chief wishes to inform the writer that if he or she wishes the matter, written about to him looked into, the person should address a complaint properly signed so that an officer might then be in a position to probe into the merits or demerits of the complaint.

THE MISSING MAN

Chief of Police Smith of St. John says that no further word had been received from Renfrew, Ont., in regard to the man who was found drowned in a lake in the vicinity of that city. A description of Henry G. Marr has been forwarded to the police at Renfrew, as the description of the unknown man given by the Renfrew police was somewhat similar to that of Mr. Marr. Otherwise, there are no new developments.

CATTLE AT LARGE

A number of complaints have been heard recently about cattle running at large, and also a loose horse, which apparently has no owner. The residents who are endeavoring to improve the appearance of the town, by taking down fences and keeping lawns in a respectable condition should not be subjected to the annoyance of having their property torn up by stray cattle or horses, especially when it is contrary to the by-laws of the town and pound keepers are appointed to see that such animals are not allowed to run. It is high time that those holding the position of poundkeepers should arouse themselves and do their duty, or if they do not intend to perform the duties attached to their position they should either resign or be dismissed and thereby make way for some one who will attend to the duties in an impartial manner.

"Two and One Is Shoe Polish," Little Pat's Answer

Little Pat started at school yesterday, entering the first grade. After he had come home his mother listened to many strange tales of the day's doings. But Pat's reports were not confined to his domain alone, for in the early part of the evening he was walking along the street near his home, when a grownup friend stopped him.

Right away things started. No questions were needed. Pat was wound up like an eight-day clock. "Say, I went to school today and gee whizzkins, what a time we had. The teacher giv us a piece of paper dat was about a yard long and about a foot wide and she made us put numbers all over de place."

"What, a yard long and a foot wide?" asked Pat's friend.

"Yes," was the reply, and then the youngster measured off a distance of about 10 inches long and about three inches wide. That was Pat's idea of a yard and a foot.

"De teacher axed me if I cud count and I told her yes and I can add, too."

"What is one and one, Pat?"

"Two, and two and two is four and three and three is six," kept on Pat without a letup. He continued this until he reached seven and seven. He could not answer this.

The little fellow's friend then tried him on a lower number.

"What is two an one, Pat?"

"Shoe polish."

"What is two an one?"

"Shoe polish, I said."

"No, two and one makes three."

"Ya can't tell me mister, cus I know, two an' one is shoe polish."

Nothing could make Pat believe that two an' one was anything else.

EXCURSIONS

The management of the Str. "Max Alteen" are running excursions every Wednesday afternoon, until further notice, between Chatham and Newcastle, calling at all intermediate points. The sail is a delightfully one and the fares are most reasonable. Adults 50 cents, Children 25 cents. This is an excellent opportunity to enjoy a sail on the river. The Excursions begin tomorrow. See advertisement elsewhere in this issue.

THE GOLD CAKE

Three pieces of gold have already been taken out of the Farrah Anniversary Cake. The fortunate ones were, Miss Annie Robertson, Mrs. I. Sobey and Miss Mona Lindon. There are other sterling silver prizes contained in the cake as well, many of which have been taken by visitors to the store. There are still 2 five dollar gold pieces and many other sterling silver prizes as well as money prizes awaiting those who visit the store during the sale. The quality of the cake is delicious and has been appreciated by all who have visited the store during the past week! One more layer to cut. Be on the scene early and secure the gold in the cake.

WHEN BEATING MATTRESSES

An old sheet, slightly dampened, placed over mattresses or upholstered furniture when beating is to be done will absorb the dust and prevent dirt flying to the other furniture.

SPRING ON REFRIGERATOR

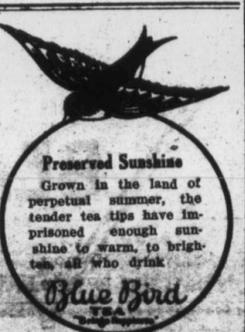

Springs on the doors of the ice box will keep down the ice bill. The most careful servant will sometimes leave the doors open and the springs make this impossible.

A MOTH EXTERMINATOR

You can remove moths from carpets by spreading a wet towel smooth with a hot iron. Steam will kill moths.

Dressmakers report that women firmly refuse to wear long skirts. What is done with the material they don't wear at the top still remains a profound mystery.

The other day the citizens of Orangeville, Ont., tarred and feathered a man of bad reputation. This savors too much of Georgia hospitality, even if they did not put a match to the tar.

Preserved Sunshine
Grown in the land of perpetual summer, the tender tea tips have imbibed enough sunshine to warm to brighten all who drink.

TO SEE DEMPSEY

A number of the local sporting fraternity went to Moncton on Friday to see Jack Dempsey the world's heavy weight champion boxer.

TENNIS TOURNAMENT

Newcastle and Chatham held a tennis tournament on Saturday on the grounds of Mr. and Mrs. E. H. Sinclair. Both clubs won 3 games each.

BISHOP CHAISSON HOME

His Lordship Bishop Chaiasson, who has been spending some time on the North Shore of the St. Lawrence recuperating after a period of illness, returned to Chatham on Wednesday. His Lordship has greatly profited in health by his restful holiday and takes up his arduous duties again with renewed energy.

REQUEST BY MAYOR

Mayor McLellan of St. John has requested the merchants of that city to close their places of business on Saturday afternoon. The reason given for the request was that while the majority of citizens who conduct business houses and offices close their doors from Saturday noon until Monday morning during the few summer months, there are a few places of business that do not comply with the wishes of a majority of the citizens.

The Mayor therefore requests that the few citizens who by keeping open for business would prevent employes from participating in the half holiday, will give their employes the same opportunity to enjoy themselves as is afforded the majority of workers.

NO NEED FOR DEAF TO GIVE UP HOPE

LONDON, June 23—Wireless, with all the manifold benefits already to

its credit, may enable the deaf to hear, thinks a writer in the current number of the Medical Press. If recent experiments with wireless telephony come up to expectation, he declares, then there is little need for the deaf to give up hope, for by means of "thermionic" valves the very deaf have been enabled to hear.

The author records the case of a man of 50 who had been deaf for many years, so deaf that he could only hear the shouted voice. Nevertheless he experimented with wireless telephony. It occurred to him that by increasing the number of thermionic valves in his receiver he might thereby raise the sound to a degree of intensity to be heard easily. This he did, working up gradually until he had five thermionic valves in his apparatus, with the result that he can now hear his friend in Paris more plainly than he can a person sitting beside him. Also his hearing for the ordinary voice has become more acute.

The Marconi Company's experts are using a valve similar to the thermionic on their "bonaphone," an instrument for imparting sounds to the brain by means of the bony parts of the cranial. It has cured a large number of persons to hear who hitherto were deaf.

Thought has been given in England to a universal language for international radio communication, but no definite conclusions yet have been reached.

Questioned on this subject Godfrey Isaacs, head of the Marconi Wireless system, said he did not think Esperanto would do. But, at the same time, he added, "we are keeping in view connection with the scheme now under consideration for the establishment of wireless broadcasting stations, the possibility of teaching languages by wireless telephony. I think this will be a highly important part of the educational action of our broadcasting programme. One foresees the engagement of eminent professors of languages for the purpose of wireless tuition."

PILES Do not suffer another day with itching, bleeding or protruding PILES. No surgical operation required. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. 50c a box; all dealers, or Edmanston, Bates & Co., Limited, Toronto.
