## T. CATHARINES OFFICERS GIVE EVIDENCE AT THE ENQUIRY INTO THE FINANCES OF THE 19TH LINCOLN REGIMENT

### Not Much Bookkeeping Obtained in Connection With the Force—Difference Between 40 and 75 Cents Causes a Flurry in the Proceedings.

Who could accuse General Cruikshank and his colleagues of loafing in the job in the enquiry into the Regiment's finances. Last night a court held a midnight session, and the night sessions are supposed to close at ten. It keeps the typewriters busy day and night and transcribing the evidence of the noise of the typewriters in the adjoining office is in the air all the time.

The evidence of Judge Campbell, Col. S. B. Scobell and Capt. J. E. Howell of Niagara Falls was taken yesterday.

Yesterday afternoon at the enquiry evidence of Color Sgt. George Adams was resumed. He said that a number of men who had no shoes were given orders on Burleigh's shoe. They were told if they had not the amount would be deducted from their pay.

Adkins wished to bring up the question of pay which he said had been diverted into the regimental mess, but the court ruled it was not relevant to the present enquiry.

Major Smythe asked Adkins if a nature on the pay roll for several months was his but he said it wasn't. Adkins denied getting his pay, however, though 15 cents was deducted. Colonel Burleigh asked Adkins if he solicited the orders for the shoes, but he said he had not. Adkins, however, had heard men complain because the money was used.

Didn't Captain Gander telephone store to ask if an order for shoes could be accepted as the men were up?"

Adkins said he didn't know, and he knew of either Colonel Burleigh or his employees soliciting orders for shoes.

Asked by Colonel Burleigh if he was not persistently refused to sign pay roll, Adkins said he had not. He didn't know if Colonel Burleigh ordered the detentions for the shoes. He admitted they might have been at any shoe store in town but was a question if they could get it.

Captain Rothwell  
Captain J. E. P. Rothwell, who was the protective force at Niagara Falls and is now on the retired list, was called. He was appointed lieutenant on August 1, 1915. He served the Falls till October when he was appointed to the post at Niagara Falls. He couldn't say if the men got field allowance, but he did not know what became of this money.

## RACING IN SPRING, SAYS COL. HENDRIE

Hamilton, Jan. 15.—That there will be racing in Canada in the spring was the statement made by Lieut.-Col. William Hendrie here yesterday.

"Will there be betting?" he was asked.

"Yes. Without betting it would be useless to have the races. Another thing, without the pari-mutuel or bookkeeping system in effect there would be no betting, and that would be one of the worst evils we would have to contend with," was the answer.

Colonel Hendrie added that preparations are already being made at Woodbine Park for the spring meeting.

## Coll. Student Passes Away

Howard Earl Flack, Popular in Sport and Collegiate Circles, Succumbs to Pneumonia, Following Injuries.

Another young and promising person passed away at the General and Marine hospital on Wednesday afternoon in the person of Howard Earl Flack, only son of Howard and Jessie Flack, No. 1 Haynes Avenue, in his 17th year. Deceased was always enthusiastic over outdoor sports.

While with some companions enjoying a sleigh ride on the street a few days ago, he had the misfortune to meet with an accident, and as a result he was injured internally. It necessitated his removal to the General and Marine hospital immediately. His condition was very favorable until Tuesday afternoon when pneumonia developed, and although the best of medical care was in attendance and all was done that kind hands could do, he passed away.

Flack, as he was known, was a popular young lad in the city, being a student in E. Form at the Collegiate Institute, and also a member of St. Paul Street Methodist Church Sunday School for some little time. At both these places he will be greatly missed, as he was always popular with not only the younger people but those well known and loved by the older ones with whom he came in contact.

Besides his sorrowing parents he is survived by one sister, Marcellene, who are receiving the heartfelt sympathy of the community in their hour of trouble. The funeral will be held on Saturday afternoon from the family residence at 2.30 o'clock, interment in Victoria Lawn Cemetery.

JUDGE SHOCKED TO LEARN HE HAD APPOINTED FIREBUG FIRE INSURANCE ADJUSTER

CHICAGO, Jan. 15.—Judge K. M. Landis, nemesis of the firebugs and fake merchants who burn stocks and stores stuffed with empty boxes and collect from the insurance companies, received a terrific shock today when he discovered that he recently had appointed Nathan Spira, a notorious firebug, as receiver for the Hartfield Bag Company.

"Something has been put over on me," said the Judge, after a search of the records showed he had appointed Spira. "This is a mystery. I never appointed this man a fire adjuster. You can smell the odor of burning rags whenever he is near. I know his record from head to tail. He is the most notorious firebug in the city. I certainly must have been asleep when he was appointed a fire adjuster."

Posts of the American Legion and other organizations continue to express their disapproval of Jack Dempsey on the ground that he was a "slacker."

## FRANK MUNSEY BUYS THE NEW YORK HERALD

NEW YORK, Jan. 15.—The New York Herald makes the following announcement to-day:

"To readers of the New York Herald: The New York Herald has passed into the hands of Mr. Frank A. Munsey, who has purchased all of the publishing interests of the late James Gordon Bennett, consisting of The New York Herald, The Evening Telegram and the Paris Edition of The New York Herald. Mr. Munsey will make known in due time his plans for these newspapers."

## Proceedings of Louth Council

Council met pursuant to statute on Monday, 13th inst., 1920, at eleven o'clock p.m. at Frank's Hall, Jordan.

Present: Messrs. Reeve, Edward W. Fry, Messrs. William Scull, S. C. Honsberger and Walter Leiden, Councilors. Mr. John G. Smith, Councilor, being unavoidably absent owing to illness. The declarations of property qualifications and of office having been taken. The minutes of last meeting were read and adopted.

On motion of S. C. Honsberger and W. Leiden the Clerk was authorized to advertise for tenders for road overseer for the township of Louth for the period of seven or eight months, tenders to be in by February 16th, 1920, and services to commence on or about first of April, 1920.

## To Decide Whether Baby Will Share in The Field Millions

Judge Sullivan Takes Case Under Adversement For Decision.

CHICAGO, Jan. 15.—Whether Henry Anthony Marsh, the three-year-old son of Henry Field and Peggy Marsh, former London chorus girl, will share in the field millions will be decided by Judge Dennis E. Sullivan in a superior court. Judge Sullivan heard the closing arguments to-day and announced he would take the case under adversement. He did not indicate when he would render his decision.

## ACCEPT RESIGNATION OF MR. JUSTICE BRITTON

OTTAWA, Jan. 15.—The resignation of Hon. Byron M. Britton, as Judge of the High Court Division of the Supreme Court of Ontario, came before the Cabinet Council yesterday and was accepted. No action toward the appointment of a successor to Judge Britton has yet been taken.

## CANADIAN HONORED FOR WAR SERVICES

LONDON, Jan. 15.—Major General Willoughby Garnons Gwatkins, Chief of the General Staff of the Canadian Militia, has been made a Knight Commander of the Order of St. Michael and St. George for his war services.

## WELLAND SEXTETTE AGAIN IN RUNNING

Niagara Falls Intermediate Lose on Home Ice 5 to 4.

## Canada Will Enforce Its Paper Embargo; to Seize Plants Violating Ruling

In connection with the fight of Canadian publishers to obtain a sufficient supply of newspaper print to get out their usual editions, the Canadian government has put into effect an embargo on newspaper pulp and print leaving Canada without a permit from the department of trade and commerce, according to word received at the Niagara frontier port today.

One of the large paper mills in the interior located at Fort Francis, Ont., which has been supplying paper and pulp to American connections at higher prices than the Canadian board of pulp and paper control will allow, was ordered to suspend shipments to the United States and furnish its Canadian customers with paper, but refused to do so. The sheriff then seized the plant, and the available paper on hand was shipped to Canadian papers to enable them to prevent suspension.

## British Babies Go Cold to Bed

Export of Coal to Get Big Prices Robs Householders of Fuel—Dockers' Union May Act.

LONDON, Jan. 14.—Distress over the shortage of household coal is rapidly increasing in London and many country towns, where stocks virtually have become exhausted. The news of the arrival of a carload of coal at any depot brings a rush of the poor inhabitants from miles around, and queues of people desiring fuel form as in the critical days of 1917.

Hundreds of people daily seek coal-pushing petrolators or wheelbarrows or carrying sacks. Their ambition is to obtain sufficient for the day's needs.

The Dockers' Union is asking the members of the Transport Federation to refuse to load coal for shipment abroad so that children at home may be kept warm and their mothers maintained comfortably.

"We have the power in our hands to say that the children shall not go to bed cold," says the dockers' appeal.

THE WEATHER  
TORONTO, Jan. 15.—An area of high pressure is centered north of Lake Superior and the weather is decidedly cold from Manitoba to the Maritime Provinces. A moderate snow fall has occurred in the western provinces except in Southern Alberta where it continues fair and mild.

FORECASTS—Fair and very cold today, Friday, easterly winds, with snow.

PRESTON PUT OFF CAR, MINERS REFUSE TO WORK  
FERNIE, B.C., Jan. 15.—Because William Potter, President of Fernie local, One Big Union, was ordered off the train carrying the Coal Creek miners to work for refusing to pass his fare, the men decided not to enter the mines, and they were idle yesterday.

VATICAN SUBSCRIBES TO ITALY'S NATIONAL LOAN  
ROME, Jan. 15.—The Vatican has subscribed 20,000,000 lire to the sixth national loan, according to The Messenger, which says the subscriptions have surpassed 10,000,000,000 lire. This is the first time the newspaper states that the Vatican has participated in such a loan.

DETERMINE HOTEL PRICES IN FRISCO FOR CONVENTION  
SAN FRANCISCO, Cal., Jan. 15.—Prices to be charged for accommodations in San Francisco during the Democratic national convention will be determined in advance by the general arrangements committee. C. W. Pay, Chairman, announced today.

Mother of Henry Anthony Marsh of the treatment accorded her by Henry Field. It has been shown that during his lifetime he gave her approximately \$50,000 and that he promised to pay her double that sum to be used for the sustenance of the child.

Gilbert E. Porter, representing Marshall Field III and his sister, argued that the Marsh child is not entitled to any part of the estate.

"Under the law an illegitimate child is not entitled to share in an estate," he said, "unless specifically named in a will, or unless other provision is made. Under this will this child has no valid claim to a share in the estate. There is no complaint by the

## Long Lost Girl Starts Search To Find Parents

Tonawanda Woman Who Has Just Heard of Kidnapping 21 Years Ago Starts Search For Parent—Is Convinced Mother is Still Alive.

TONAWANDA, Jan. 15.—Spurred on by the revelations of the woman who admits having aided in kidnapping her when a child Mrs. Zella Earl Pickard is completing arrangements for a trip to New York where she hopes to find her real mother.

In an interview yesterday morning Mr. Pickard said that Mrs. Lola Lee Earl who had her from childhood was not a gypsy but a circus woman. Up to five years ago when she married Pickard she was known among the profession as Ella Earl.

Old Suspicions, Corroborated  
The first confirmation of long-suspected facts that the Earl woman was not her true parent came from Mr. Pickard in a letter from Mrs. Mary Darwin of New Orleans, La., who informed Mrs. Pickard of the kidnapping. Mrs. Darwin in a letter to the Tonawanda woman, said that she was with Mrs. Lola Lee Earl, a gypsy actress, when the latter picked up the present Mrs. Pickard in the street in New York city. Mrs. Darwin said that she had had qualms of conscience over her part in the affair and wanted to relieve her mind by making what reparation was possible.

The Pickards are comfortably fixed the husband being a trainer of sea lions. He already owns one animal troupe and is now engaged in training others.

Mrs. Pickard is twenty-five years old. She has been with the Earl woman since the age of four. She has written to Capt. John Ayres, in charge of the missing persons bureau, New York; in an attempt to learn her identity and find her relatives.

## WORST STORM OF YEARS IN NORTHERN MICHIGAN

DETROIT, Mich., Jan. 15.—North and Northwestern Michigan is completely snowbound and in many places trains are stalled in huge drifts that defy snowplows to extricate them. It is the worst storm in years.

In Lake Michigan off Muskegon the Crosby Liner Petoskey is held fast in the ice, and mak have to be abandoned until spring.

The Alabama, flag ship of the Goodrich Line, is also caught in an icefield off this harbor.

## ELMAN TAKES OUT HIS NATURALIZATION PAPERS

NEW YORK, Jan. 15.—Mischa Elman, violinist, took out his first naturalization papers today.

Elman described himself at twenty-eight years old, born at Tolnai, Kiev, Russia, and residing in New York. He said he came to the United States from London, September 15, 1914, and set himself down as a "violin artist."

## Borden and Jellicoe Sail for Trinidad

KINGSTON, Jamaica, Jan. 15.—H.M.S. New Zealand, with Admiral Jellicoe and Sir Robert Borden, sailed for Trinidad yesterday.

## Wanted—Draftsman familiar with laying out elevating and conveying machinery.

Apply American Cyanamid Co., Niagara Falls, Ont.

AN ERROR OF JUDGMENT

The idea of organizing municipal employees, such as engaged in fire departments, into unions affiliated with other trades and labor unions is another indication of the limit to which a few men can incite others to go.
The members of the local fire brigade were well treated last year. Through the requests of ex-Ald. Westwood, as the chairman of the Fire and Light Committee, a two plateau system was adopted, an increase in wages was also allowed and at Christmas a bonus was given to each man. By adopting the two plateau system a double expense for wages was required to man the department. Not only was a wish of some years realized but higher wages were paid than had been received previously. As a bonus, at the close of the year, twenty dollars was given to each man.
It seems rather remarkable, and certainly not very gracious, that during the very time these advances and improvements were being made in the interests of the men they should be forming a union connected with other unions which adopt the strike weapon whenever they deem it wise. What it is hoped to gain by organization that could not have been gained without it is not apparent unless it is hoped that a much larger increase can be secured by the force of unionism than without it. If the Council had been indifferent to the claims of the men and had declined to meet their just requests it could be understood why they might want to form a union as a last resort, but in view of the treatment extended it is not easy to appreciate why the firemen should adopt the course they have taken.
No doubt the demands of the men as presented on Monday at the Council for more money, will be strongly supported by the members of the Council who were elected on the Soldier-Labor ticket. Those members of the Council will also have to find the extra money that will be required to meet the demand and when this demand is met the Council of the following year can look forward to another request of the same nature. During all the time the leaders of the Soldier-Labor party and of the unions generally are deluding themselves with the idea that the high cost of living is all caused by the other fellow.
If the men had simply organized among themselves for personal and internal benefit there could have been little or no objection, but to affiliate with the Trades and Labor Council and at the same time be civic employees, paid to protect the lives and property of the people who pay their wages is a step which will tend to alienate the firemen from that public esteem and confidence which they have always held. A body of men which is engaged by the state or by a municipality should not organize into a close union to exercise its class force against the public which relies on it for support, pro-

HOT WATER FOR SICK HEADACHES

Why everyone should drink hot water with phosphate in it before breakfast.

Headaches are caused by auto intoxication—which means self poisoning. Liver and bowel poisons called toxins, sucked into the blood excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head, producing violent, throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to acetanilid, aspirin or the bromides, which temporarily relieve but do not rid the blood of these irritating toxins.
A glass of hot water with a teaspoonful of limestone phosphate in it drunk before breakfast will not only wash these poisons from your system and cure you of headache, but will cleanse, purify and freshen the alimentary canal.
Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar.
If you aren't feeling your best, if you are coated or you wake up with bad taste, foul breath or have colic, indigestion, biliousness, constipation, or sour, acid stomach, begin the phosphate hot water cure to rid your system of toxins and poisons.

tection and loyal service. The theory may be upheld by those belonging to the school of modern dreamers who think that any one class is perfectly entitled to secure all it can from all other classes by whatever means are available, but before another decade is past this theory will be exploded. It will be acknowledged that life goes in circles and that every demand for increased wages forced by one class from another today adds so much more on to the cost of living for all others tomorrow. Union organizers prefer to ignore this truth but there are evidences, growing more and more convincing, that the sound principles of economics cannot be flouted.

In the meantime the Soldier-Labor members of the Council will be sincerely busy devising ways and means of taking away several thousands of dollars more annually in taxes from the four thousand householders of St. Catharines and at the same time trying to credit themselves with friendship toward the working classes.
It is another example of what armum used to say that the public like to be fooled.

VALUABLE ADVICE.

The following was a New Year's contribution to the "New York Sun" by Mr. E. W. Beatty, President of the C.P.R.:
"With every new year we usually resolve to turn over a new leaf.
If there is to be any general resolution made by the North American Continent for the year it might well be in the direction of thrift, for the first after the war years are causing natural concern to those who remember the financial panics which have always closed similar periods of careless spending.
The extravagance noted by every recent visitor from Europe to this continent synchronizes with conditions of actual starvation affecting millions of people in Europe itself who fought for freedom only to die for lack of food.
This extravagance has been made possible, at least in part by the heavy purchases made under stress of war by European nations on this continent. It represents the expenditure of unexpected profits, which

St. Catharines Officers Give Evidence.

(Continued from page one.)

fields allowance he said had been deducted from all posts.
He never knew of Col. Burleigh Colonel Scobell or any other officer using a horse for riding. Transport divisions were formed in St. Catharines with about 100 cars, 20 in Welland and about 80 at Niagara Falls. These cars were used to move the troops.

Concentrated Troops.
The Colonel explained how on the 17th of March he carried out, under orders concentration of troops using cars and railways.
"Seventeenth of March—had this any significance?" queried General Cruikshank with a twinkle in his eye.
Colonel Campbell said he did not think there was.

He was asked if it was ever necessary to purchase fuel oil or private funds and he replied that he never had received any report to that effect. Colonel Burleigh had the usual means of transport for himself personally.
It consists in inflammation of the lymphatic glands, usually those of the hind limb or limbs, but it is not uncommon for the fore limbs to be the seat.

Symptoms.—The first symptoms usually are rigors (shivering) followed by well marked increase of temperature; but as those symptoms usually occur at night they are not often noticed. The first symptoms usually noticed are well marked soreness and lameness, usually of a hind limb. From this point not understood the right hand limb is more frequently involved than the near one. Pressure upon the inner surface of the hock from the inside or running downwards reveals well marked soreness, and at first a beaded condition to the touch. If a fore leg is the seat this condition will extend on the inner surface of the fore arm. There is usually well marked increase in temperature, a full, rapid pulse and often more or less well marked labored breathing. Appetite more or less impaired, and in some cases colic or diarrhea are noticed. The swelling of the parts usually increases rapidly and the beaded condition disappears, and there is usually a decrease in soreness and lameness. Economic results of the swelling and lameness, but they reappear during the night; and as each time this occurs there is a tendency to organization of some of the exudate which may result in a chronic big leg, hence it is not wise to exercise or work until the acute lameness has disappeared.

Treatment.—If colicky pains be well marked, give a colic draught, as one oz. each of ipecacuan, sweet spirits of nitre and tincture of belladonna in a pint of water. Follow up with a brisk purgative of 7 to 10 drams aloes (according to size of patient) and five drams ginger. Give the purgative at first if colicky pains are not well marked. Follow up with four drams nitrate of potassium twice daily for two days. Keep the patient comfortable and excited, feeding drafts and bathe the affected leg frequently with hot water and after bathing rub well with a stimulant liniment, as one ounce of 2 oz. oil of turpentine, 1 oz. tincture of iodine, 1/2 oz. gum camphor, 5 oz. alcohol, and water to make a pint. Feed bran only until purgation commences, then feed reasonable quantities of hay, but no grain. Continue treatment until the acute soreness and lameness have passed, then give regular work or exercise. The swelling will reappear at night for a few days. Prevention consists in either materially reducing the grain ration on days that the horse is not working, or seeing that he gets exercise in some way. Repeated attacks usually result in a chronic big leg, called elephantiasis, which is incurable.—J. H. R., Ontario Agricultural College, Guelph.

Working Over Asparagus and Rhubarb Beds.
The handling of asparagus and rhubarb beds in the spring of the year is largely dependent on the location of them and the time that the owner has at his disposal both in the fall and spring.
Where properly handled the asparagus beds in the fall of the year should have had all top removed and burned and the soil ploughed over the top of the row so that a furrow would be left to remove the water.

In the spring of the year the asparagus bed, if ploughed in the fall, should be ploughed back and then given a thorough disking so that the soil would be very quiet, especially around the crown of the plant. After this cultivation should be practiced until the 1st of July when cutting should cease and the bed receive a heavy coating of good manure and a considerable quantity of commercial fertilizer.
Rhubarb beds in the fall of the year should be manured heavily with well-rotted manure after the tops have been removed.
Rhubarb beds in the spring of the year are generally given a cultivation and much of the rougher manure carried from the roots of the plants and the crown. This permits the warming up of the soil and consequent early growth.—A. H. McLennan, Vegetable Specialist.

Clover Seed and Hay Crop.
A crop of seed and of hay can be made from the second crop of clover just as well as only one crop, according to the experience of a Pennsylvania farmer. In his practice the crop is cut when most of the heads are filled and brown. It is then cured in the usual way for hay and when good and dry the hatters will get out all the seed as well as if the stalks were dead and weatherbeaten. The resulting hay, while not of the best quality, is very good and the cattle will eat it even to the last bit.

CURING LYMPHANGITIS

The "Monday Morning Disease" Affecting Horses.

Symptoms Described, and a Course of Treatment Suggested for Alleviating and Curing the Trouble.—Working Over Asparagus and Rhubarb Beds.

(Contributed by Ontario Department of Agriculture, Toronto.)

LYMPHANGITIS, commonly called weed, a shot of grease or Monday morning disease, is a common ailment in horses. Some horses are predisposed to the trouble and suffer after being exposed to slight exciting causes.
It occurs in horses that are accustomed to regular work and high feeding, when such are given a rest for a day or longer and in the meantime receive their regular ration of grain, hence the name "Monday morning disease," it frequently being noticed on Monday morning in work horses that have stood idle and been well fed since the Saturday evening preceding.

It consists in inflammation of the lymphatic glands, usually those of the hind limb or limbs, but it is not uncommon for the fore limbs to be the seat.

Symptoms.—The first symptoms usually are rigors (shivering) followed by well marked increase of temperature; but as those symptoms usually occur at night they are not often noticed. The first symptoms usually noticed are well marked soreness and lameness, usually of a hind limb. From this point not understood the right hand limb is more frequently involved than the near one. Pressure upon the inner surface of the hock from the inside or running downwards reveals well marked soreness, and at first a beaded condition to the touch. The Globe.
The New Electorate The Women of Canada
Illustration of a woman in a hat and coat standing next to a ballot box. The background shows a newspaper page with various headlines.

CHANGING conditions have given the Dominion a new electorate—the women of Canada.

Canadian womanhood, to take full advantage of its prerogatives, to take its proper place in the management of Canadian affairs, must keep informed on the questions of the hour—must have the knowledge of events that will be the foundation of definite opinions on public questions.

Women Must Read the Daily Newspaper

The extension of the franchise to women was the fulfillment of a policy consistently advocated by The Globe in season and out of season.

But this is only the beginning. Womanhood must serve as well as vote. They must advocate reforms that are badly needed.

There must be legislation for the aged, as well as for the young, pensions for mothers, educational improvements, unemployment and sickness insurance.

These are some of the questions on which the womanhood of Canada will now have to take sides. Therefore, in this respect, The Globe has a

special appeal for progressive, right thinking Canadian women.

The Globe is not a political organ. It never has submitted to outside dictation. It supports progressive liberalism, because it believes that true liberalism draws its inspiration from the needs of the people.

Its daily Women's Department and Thursday's Women's Section have a special interest for womanhood in the home. It was the first Toronto paper to establish a women's department, edited for all Canadian homemakers.

The Globe is first and last a Great Family Newspaper. It serves the women in the home, in public life, in business, in the professions and in industry.

What The Globe has been in the past is its guarantee of what it will be in the future. The aim of its publishers and its Editor is to take advantage of the tremendous facilities at its disposal—to make it even more worthy of a place in every Canadian home.

(1) Chateau Frontenac, Quebec.
(2) Toboggan Slide Hill, Quebec.
Major Lavigneur of the Winter Sport Club will open on Tuesday, with a grand party, snowshoe and kindred games will last a month.
The winter sports are popular as those of the past, there is no need for all the dreariness of December and February. To decay upon an open-air resort on one's snowshoes over ice impassable for pedestrians; to miss the height and yet right and graceful, to toboggan at the press train and, most of all, perhaps, to slide on this side of the Atlantic and more does winter devotees.
Skating and skiing, practice before one is sliding and snowshoeing simple; all one will do, the soul to winter's icy mantle waters and spreads a snow over the landscape. "Our Lady of the Snow" of winter pastime flourishes in Quebec, Canada's oldest outdoor life takes on a new character. Situated on the River, easily accessible Quebec offers to her guests a grand old-fashioned winter holiday. A C.P.R. has built on Duquesne a winter guest with indoor comfort and lake-like beauty. One of the curlers, a built on Dufferin Terrace, great attraction for the non-skiers—their "ice" is the influence those who love an outdoor which surrounds it ideal for skiing, snowshoeing and ice skating.

# Enjoying the Winter in Old Quebec

(1) Chateau Frontenac, Quebec.  
(2) Toboggan Slide, Citadel Hill, Quebec.

Mayor Lavigne of Quebec has announced that the official opening of the Winter Sports Season in that city will open on Tuesday, January 19th, with a grand parade of the Snowshoe and kindred Clubs. The season will last a month, and an attractive programme of week-end races and sports has been arranged, ending with a grand carnival from February 14th to 17th.

Since Winter Sports have become so popular as those of Summer, there is no need for anyone to dread the dreariness of December, January and February. To skate rhythmically upon an open-air rink; to tramp in one's snowshoes over fields which are impassable for the ordinary pedestrian; to jump from an immense height and yet to land, upright and graceful, on one's skis; to toboggan at the rate of an express train and, most fascinating of all, perhaps, to slide on the Swiss bob-sleighs which are still a novelty on this side of the Atlantic—all this and more does Winter offer to her devotees.

Skating and skiing require some practice before one is an adept, but sliding and snowshoeing are perfectly simple; all one needs is "the will to do, the soul to dare." Where winter's icy mantle covers the waters and spreads a blanket of snow over the land—there winter sports are at their best. In Canada, "Our Lady of the Snows", every type of winter pastime flourishes, and in Quebec, Canada's oldest City, the outdoor life takes on a new character. Situated on the St. Lawrence River, easily accessible by train, Quebec offers to her guests an unfeigned welcome. At the Chateau Frontenac, the huge hotel which the C.F.R. has built on Dufferin Terrace, the winter guest will find that his indoor comfort and outdoor sport have alike been considered. Two paths, one in the courtyard for the skaters, the other in the summer estate for the curlers; a toboggan slide built on Dufferin Terrace, and, perhaps, the greatest attraction of all, the Swiss bob-sleigh—these are but a few of the inducements offered to those who love an outdoor life. The hills which surround the city make it ideal for sliding, and the broad, snow-covered slopes are as easy to traverse on snowshoes today, as when the Indians swept over it three hundred long winters ago. After a day out of doors, one is ready to return to the hotel for an evening of dancing and other allied amusements. The Chateau Frontenac is the centre of Quebec's social life, the magnet which draws to it all that is vivacious and charming of her society. No one who has been present at her New Year's Dance in the Chateau Frontenac can ever forget it; and this season the social life

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome, an easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store ready for use. This is the old-time recipe improved by the addition of other ingredients. While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time, by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

In the Ancient Capital bids fair to eclipse even its own brilliant past. To the guest, the "Chambres Canadiennes" are sure to make a strong appeal. They form one of the several Period Suites in the hotel, and, as the name implies, are typically French-Canadian. In naming them after Jacques Cartier, Champlain, and Montcalm, however, all, the Company has spared no effort to make them represent rooms in the manor of a French-Canadian seigneur.—J. L. S.

## POLICE DEMAND MORE PAY UNDER THREAT TO QUIT

NIAGARA FALLS, Jan. 14.—A committee of city policemen called on the city manager E. J. Fort, at the latter's office Monday afternoon and made formal application for an increase in pay.

According to members of the committee the manager was told that inasmuch as there are other avenues of endeavor open and all carry a more alluring financial inducement, they wanted it understood that failure on the part of the city to meet the demand within fifteen days would mean the filing of many resignations from the department.

The manager assured the men that due consideration will be given the application. It is understood that at least two members of the council, Mayor Thompson and Councilman Jense, favor the demand of the policemen, who are now being paid \$1,500 a year.

## CASE AGAINST FARMER OF HEIFER STEALING DOES NOT SUCCEED

Magistrate Campbell yesterday afternoon dismissed the case against William Crawford, a Niagara township farmer, accused of fraudulently taking possession of a Holstein heifer. The Magistrate held that there was sufficient doubt as to the real ownership of the bovine in question to warrant him in leaving things as they were.

## A Drop On a Touchy Corn

Instant relief! Then corn or callus lifts off with fingers.

Just think! You can lift off any corn or callous without one twinge of pain.

A Cincinnati man discovered this ether compound and named it "Freezone." Any druggist will sell a tiny bottle of freezone for very little cost. You apply a few drops directly upon a tender corn or callous. Instantly the soreness disappears, then shortly you will find the corn or callous so loose that you can lift it right off.

Freezone is wonderful. It dries instantly. It doesn't eat away the corn or callous, but shrivels it up without even irritating the skin. Hard corns, soft corns, or corns between the toes, as well as painful callouses, lift right off. There is no keep a tiny bottle on the dresser table before or afterwards. No soreness or smarting.

Rev. A. C. Dixon of London, Eng., addressed a meeting in Massey Hall, Toronto.

## DEMPSEY BARRED

Heavyweight Champion Can Not Box in New Jersey.

TRENTON, N. J., Jan. 15.—Jack Dempsey has today been barred from New Jersey rings, according to an announcement made by John A. Smith, chairman of the state boxing commission. Dempsey's action in going into a shipyard rather than military service during the war, is given as the cause of the decision of the commission.

Canadians of Montreal beat St. Patrick's of Toronto in their N. H. L. game last night by 4 to 3. Ottawa won at Quebec by 2 to 1.

An American warship has anchored off Pola, the former Austrian naval base in the Adriatic.

Jose Battle Ordenez, former President of Uruguay, was wounded in a duel yesterday with Senator Lionel Aguirre.

Belgian sovereignty over the districts of Euphrat Malmely, awarded by treaty with Germany, has been proclaimed.

### RECONSTRUCTION REORGANIZATION REHABILITATION

# The Globe.

MONDAY, FRIDAY, SEPTEMBER 12, 1914. SEVENTEEN PAGES.

TAKE THE DUTY OFF BACON? 16,000 Names On The Petition WILL MILITATE AGAINST UNITY PRETENSE THAT CANADIANS MUST APPROVE THE TREATY IS HUMBUG, SAYS FIELDING

## Coming Events Cast Their Shadows Before

Not since the pre-Confederation days has the political life of Canada been surcharged with so much uncertainty. Great events in Canadian politics are about to take place. The reorganizing and rehabilitating of great political parties is in progress. New leaders are appearing. The order is changing. All things are becoming new.

THE next two years will be a momentous period in the political life of the country. Reconstruction is a greater task than Confederation.

How will you take your place in the affairs of the nation? What opinions will you form? How will you cast your ballot intelligently if you do not keep in touch and inform yourself on the great questions of the day by reading a daily newspaper national in viewpoint and international in scope?

This is the task and responsibility of The Globe—to give all the news, progressive views, and space for opposing opinions. Such was the threefold purpose of George Brown. His ideal was a Great Family Newspaper with a place in every home. That is The Globe's ideal to-day.

It is not a party organ, but a medium for the development of public opinion and an advocate of reform. It is the servant of the people from whose needs it draws its inspiration.

To be informed of the progress of events, you should avail yourself of The Globe's great news gathering organization. For an analysis of these developments, and clear, sober thought upon them, read its editorial discussions from day to day. They are written by close students of economics, politics, industry, commerce, social reform and religion.

And further, what The Globe has been in the past is a sure guarantee of what it will be in the future. The personality and ambitions of its founder ever dominated the activities of its publishers.

Therefore, nothing will be left undone to make The Globe the newspaper that George Brown would have it be and to earn a place for it in every Canadian home.

**St. Catharines Officers Give Evidence**

(Continued from page two)

paymaster, was examined this morning. He said four women were employed as cooks in the officers' mess. They were on the pay rolls as privates and received pay as such. Sgt. Johns said he had never heard any complaints about marriage allowance not being paid. With reference to the purchase of shoes from Burleigh's store Johns said he had got a pair himself on permission from Capt. A. Dyke, and had the amount deducted from his pay. Col. Burleigh was standing near by and Dyke asked him if it could be arranged. Colonel Burleigh said it was up to Dyke.  
 Johns said Burleigh was always considerate to his men. If a man was in hospital, Colonel Burleigh signed for him on the pay sheet and Captain McKinley would go to the hospital and pay the man. Captain McKinley kept a cash book which was turned over to Capt. Rothwell. Fines and forfeitures were entered on the "Other Charges" column of the post list.

Colonel Burleigh asked the witness a number of questions. Johns said neither Burleigh nor any other officers had used any pressure to force him or anyone else to buy shoes at Burleigh's store. The Government, he said had treated the men badly in the way of shoes and they were glad to buy shoes and have the amount deducted from their pay.

Johns told the President that horse allowance and forage for the horses on the water wagon were charged on the Second Dragoons pay sheets. A Sergeant in the audience asked Johns to give him dates as to when he saw a woman working in the mess at Port Dalhousie and he said in September or October.

Sergeant William H. Edge, the next witness, said he was at Port Dalhousie post and never saw any woman there. He said an impression prevailed among the men that rations of the men were used in the officers' mess.

Edge said the men seemed quite satisfied with the extra rations bought with the ten-cent a day field allowance withheld. He was moved to Niagara Falls where he was paid his ten cents a day, but he saw no material difference in the food there as between that supplied at Port Dalhousie where the men had to pay ten cents a day extra.

Harry Massey joined the 19th as a private at the end of September, 1914. His complaint was that he was stopped \$16 in November, 1914, without any trial for the breaking of a rifle. Captain Gander had informed him the money was to be stopped.

The President told Massey that he should have informed his commanding officer—that is the soldier's recourse. Massey admitted he should have been fined, but his complaint was that it should have appeared in orders. He got a pair of boots at Burleigh's and \$4.50 was stopped. Several men complained of the stoppage of the ten cents, stating that if they had to pay for their boots they would have to have their ten cents. He himself had a complaint that he didn't get enough to eat.

Lieut. Greenwood informed the men if they got their ten cents a day they would have to buy their own pots and pans and would get no pies or oranges. The men said they did not want any oranges or pies—they wanted their ten cents. Captain Bradley made the same statement in 1915 about the pies and oranges.

Massey said he heard of a Mrs. Short being employed in the mess, but nobody ever saw her as far as he knew. He was moved to the Falls and there he saw no difference in the rations.

Major George R. Bradley was the next witness. He was ordered out at midnight, August 4th. For the first few days supplies were not available and the quartermaster ordered groceries at Bradley's store. He is a member of the firm. There were no written contracts. The men were on receive rations at 40 cents per head per day. The payment was made by the regiment.

His firm received a cheque for \$1233 though the claim was not for that amount. His firm, however, had claims against the government for some other supplies. The contractor to supply the men at Niagara Falls had a very special contract and there was no necessity for extra rations. The men were the best fed of any unit he knew of. He had no knowledge of any women being employed.

Major Bradley could give no information regarding an account for \$912.25 on Bradley stationery, submitted in September, 1915. It was in copy. At that time he was at the Falls. Mr. Payne stated that the account was taken from 19th regiment files in the Armouries. He said the men got the 65 cents a day back as quickly as the Bradley firm was paid.

**Children Cry for Fletcher's**

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is a very important matter. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

**What is CASTORIA?**  
 Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; relaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

**DOCTOR WARD, The Specialist**

SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION, BACKACHE, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, SKIN DISEASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS. The knowledge gained from many years' experience in treating diseases just like yours is of much benefit to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well—he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders. I give every patient the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered specialist, in order to bring about the most satisfactory results in the shortest possible time.

**NERVE EXHAUSTION**  
 A CONDITION AFFECTING MANY MEN—THE GREAT AMERICAN DISEASE—IT IS BROUGHT ON BY OUR MANNER OF LIVING—OUR WORRY AND HURRY—AMERICANS EXHAUST MORE NERVOUS ENERGY THAN ANY OTHER RACE OF PEOPLE.  
 There are a great many men who need treatment for their nervous system. These men do not know what is the reason they don't feel right—why they can't work like they used to—why they tire so easily and why they are irritable, nervous, despondent, weak, pale and lack ambition. These conditions require the expert knowledge and treatment of a specialist who has had many years' experience in just such ailments. A specialist learns by experience to know just the right treatment at the right time so that the patient can be dismissed at the earliest possible time. Men affected with nervous exhaustion have no endurance—no ambition—everything they attempt is an effort. Life to them appears as a long, gloomy future. Their appetite is poor and variable—they become irritable, cross and discouraged. They have pains and aches in various parts of the body and there is often indigestion and pains in the stomach. Sleepless, wakeful and restless nights follow.

**RHEUMATIC AILMENTS**  
 SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBAGO, PAINS IN BACK, SWELLING, ACHING, PAINFUL CONDITIONS IN ANY PART OF THE BODY—INFLAMED AND SWOLLEN JOINTS OF LEGS AND ARMS—MANY OTHER SYMPTOMS.  
 Hundreds of men are suffering with some form of Rheumatism. Many of these men go from day to day suffering untold agonies thinking they cannot be cured. They have tried liniments, rubbing, massage, salts and other treatments without experiencing any relief, and they are now going through life thinking they are martyrs to that burden called Rheumatism. If these men could only know how easy it is to get rid of many rheumatic conditions I know they would not suffer another single day. Then all sufferers of rheumatism would be strong and healthy if they could get rid of the condition. Rheumatic patients are nearly all strong and robust before being attacked by this ailment, and therefore it is so hard for the man to understand why he should suffer the agonies of such a condition. When a man gets rid of such a condition he feels that a heavy burden has been lifted from his life, and he starts right out to make up for lost time both in money and pleasure. When a man comes to my office suffering with the above condition he is given a most careful examination, and he is given treatment that he feels is giving him great benefit.

**Quick and Lasting Results Assured the Ailing Man**  
**BLOOD** YOUR WHOLE HEALTH OF BODY AND MIND DEPENDS ON YOUR BLOOD. Any "building process" of the body and mind, of the muscle and tissue formations, of any of the various vital organs, can be accomplished only by working direct through the blood stream.

Some Hints Upon the of Artificial Fertilizer

Fuller Use of These Fertilizers—Their Application—Handled Intelligent—Your Own Soil Close—Farm Hints.

(Contributed by Ontario Education, Toronto)

**THE** use of artificial fertilizer in this country is increasing. There are, however, those intending to make should make an effort themselves regarding the under which they will results. Too many people fertilizers without fully they carry plants food, real object in applying supply needed available plant.

To intelligently make materials there are to be considered. First, the soil, second, the plant, and, third, the materials to be applied. It should always be that the soil carries amounts of plant food, a small quantity of the available during the growth. The acids formed by the organic matter in the chief natural agency bring the big store of ter into a form that up by the plant. The is also the source of m plant, and it increases holding capacity of the Consequently every effort ing crops to maintain or amount of decaying of. Otherwise the crop largely from the ad and not from the plant soil. It is for this reason sometimes stated that nence to use fertilizer continue their use.

However, no matter try to render available stores of food in the bring it about fast end the needs, especially of such crops as the nips and garden crop need of manures. S cannot always be got quantities to fulfill req also always furnish plant food in the rig to develop the plant, supplement the manur of fertilizers.  
 The manure is nitrogenous fertilizer, in large quantities it leaf and stem growth, turly. Consequently, ply of stable manure growth of lettuce, sp etc.; but it would not tory for tomatoes, s other crops that must maturity. What the some stable manure s eval fertilizer to force On the other hand, t face, spinach, etc., are leaf and stem and necessary point, hence of nitrogenous fertiliz be added after heavy manure with good res.  
 The manufacturer o lizers seeks to prepar ure that will be suit ent crops, but the farm should strive to info garding his soil and c he may be able to se of fertilizer that will growth desired, and b the fertilizer materials he may buy intelligent mately.—R. Harcourt, Guelph.

**General Farm**  
 Put a plant or two the cellar which show temperature of 60 to 65, which is kept d dark so that it will and no leaves. Do gardening work for more especially thin ure of the last.  
 If the roads are get your manure or dressing of 8 to 10 will keep the 60 to 65. If buying in the last early as the car sit enough to delay sh Light pruning of taking out the main long-handled prun before feeding on crops make good p own seed supply.  
 Finish cutting ou cherry and plum. Inspect and oil winter.  
 If weather is in continue to spray give first applica infested with San On rough days d feeding months it sh packages, bar mending broken baskets.  
 Be sure pumps dition.  
 It is not too ear quest of getting crop which will ha 1920.

**ENRICHING THE SOIL**

Some Hints Upon the Wise Use  
of Artificial Fertilizers.

Fuller Use of These Fertilizers Likely  
—Their Application Must Be  
Handled Intelligently — Study  
Your Own Soil Closely—General  
Farm Hints.

(Contributed by Ontario Department of  
Agriculture, Toronto.)

**T**HE use of artificial fertilizers  
in this country is bound to  
increase. These materials  
are, however, expensive and  
those intending to make use of them  
should make an effort to inform  
themselves regarding the conditions  
under which they will give the best  
results. Too many people are using  
fertilizers without fully realizing that  
they carry plants food and that the  
real object in applying them is to  
supply needed available food for the  
plant.

To intelligently make use of these  
materials there are three points to  
be considered. First the needs of  
the soil, second, the needs of the  
plant, and, third, the nature of the  
materials to be applied.

It should always be kept in mind  
that the soil carries immense  
amounts of plant food, but that only  
a small quantity of this is rendered  
available during the growing season.  
The acids formed by the decay of the  
organic matter in the soil is the  
chief natural agency operating to  
bring the big store of mineral mat-  
ter into a form that may be taken  
up by the plant. The organic matter  
is also the source of nitrogen to the  
plant, and it increases the water  
holding capacity of the soil as well  
as improves its physical condition.  
Consequently every effort ought to be  
made to maintain or increase the  
amount of decaying organic matter.  
Otherwise the crop will be grown  
largely from the added fertilizers  
and not from the plant food of the  
soil. It is for this reason that it is  
sometimes stated that if you com-  
mence to use fertilizers you must  
continue their use.

However, no matter how much we  
try to render available the immense  
stores of food in the soil, we cannot  
bring it about fast enough to supply  
the needs, especially of heavy feed-  
ing crops, such as the mangels, tur-  
nips and garden crops. Hence the  
need of manures. Stable manure  
cannot always be got in sufficient  
quantities to fulfill requirements, nor  
does it always furnish the needed  
plant food in the right proportions  
to develop the plant properly. To  
supplement the manure is the place  
of fertilizers.

Stable manure is essentially a  
nitrogenous fertilizer. Hence if used  
in large quantities it will force big  
leaf and stem growth and retard ma-  
turity. Consequently a plentiful sup-  
ply of stable manure would help the  
growth of lettuce, spinach, mangel,  
etc.; but it would not be so satisfac-  
tory for tomatoes, sugar beets, or  
other crops that must be brought to  
maturity. What these plants need is  
some stable manure and some min-  
eral fertilizer to force early maturity.  
On the other hand, plants like let-  
tuce, spinach, etc., are grown for their  
leaf and stem and maturity is not a  
necessary point, hence a soluble form  
of nitrogenous fertilizers may even  
be added after heavy applications of  
manure with good results.

The manufacturer of mixed fertil-  
izers seeks to prepare special mix-  
tures that will be suitable for differ-  
ent crops, but the farmer or gardener  
should strive to inform himself re-  
garding his soil and crop needs that  
he may be able to select the form  
of fertilizer that will bring about the  
growth desired, and he should study  
the fertilizer materials available that  
he may buy intelligently and econom-  
ically.—R. Harcourt, O. A. College,  
Guelph.

**General Farm Hints.**

Put a plant or two of rhubarb in  
the cellar which should be kept at a  
temperature of 60 to 70 degrees in  
a small, well-kept moist and in the  
dark so that it will produce stems  
and no leaves. Do some reading on  
gardening work for this year, but  
more especially think over the fail-  
ure of the last year.

If the roads are in good shape,  
get your manure out and spread. A  
dressing of 8 to 10 loads per acre  
will keep the orchard in condition.  
If buying in the larger cities, order  
early as the car situation is serious  
enough to delay shipments.

Light pruning of apple orchards,  
taking out the small wood with the  
long-handled pruners, may be carried  
out during bright weather. Grape  
trimming may also be looked after  
when the weather is suitable.

Before feeding or selling any grain  
crops make good provision for your  
own seed supply.

Finish cutting out of black knot of  
cherry and plum.  
Inspect and oil windmill before  
winter.

If weather is fine and warm may  
continue to spray peach trees and  
five first application to trees badly  
infested with San Jose scale.

On rough days during this and suc-  
ceeding months it is well to go over  
all packages, barrels, boxes, etc.,  
sending broken carriers, handling  
boxes.

Be sure pumps are in good con-  
dition.  
It is not too early to consider the  
question of getting help for the big  
crop which will have to be raised in  
1920.

Depreciation of Machinery.  
Did you ever think of the relation  
of the farmer's bank account to the  
tool shed? Machinery depreciates  
faster in the weather than it does in  
use. The time saved by having a  
fast-free implement will soon pay for  
ice shed.

ply Chief Operator Bell Telephone  
Building. o311.f

# Religion Is Patriotism

## It is the Root of Personal Righteousness, the Mainstay of Social Order, the Bulwark of International Peace

### The Makers of Canada

The earliest settlers in Canada were roused by the Call of the Church to develop a noble and useful citizenship. Young and old were invited to turn their eyes from material things, and to regard the splendor of unseen realities. Knowing that Religion is the only true safeguard of stability in the State, they built Churches, Schools and Colleges, to train men for the Christian Ministry, and to spread abroad in the land the benefits of education. This they did in their poverty, and thus directed the course of history in Canada to this day.

### The Testing of Canada

Because of such sacrifices, there arose in Canada a public spirit hostile towards all injustice, dishonesty and cruelty. The War tested the moral fibre of the Canadians of a later day. Would they choose material ease and wealth, or would they risk all in defence of freedom and the rights of the weak?

Over 400,000 men voluntarily offered their lives, and endured hardness as good soldiers for the defence of equity and fair dealing in all human relationships, and for the vindication of public right. Nor were the people at home less steadfast. Besides bearing the national cost of the War, they gave voluntarily for the help of the soldiers more than \$90,000,000. Canada nobly stood the great trial.

## Fight the Good Fight

### The Menace of To-day

That conflict is ended. Now comes another test. Not only in Canada, but all over the world, sectional and class struggles for material rewards and for mastery threaten the present basis of Society. The vision of spiritual values gained in the War is in peril of being forgotten. The supremacy of sacrifice, the nobility of service, the reality and glory of the Unseen and Eternal, the promises of Christ; these were the things by which we lived during the War. Now there is great danger that they may fade from view, giving place to selfishness and the love of ease.

The great non-Christian peoples of the world comprise two-thirds of the human race. They are mastering our modern scientific knowledge, and if they remain Pagan may yet turn it to our destruction. Paganism stands for the supremacy of Might, the very ideal

we fought and conquered in more than four years of war.

### Victory only through Christ

How can we retain the heavenly vision? How can the world be guarded against another attempt to establish the Pagan ideal? Only through the Church of Jesus Christ. There is no other agency or society that has any possibility or hope of bringing about a full

realization of the brotherhood of all mankind, and the reign of the Prince of Peace.

### What the Church Has Done

All the progress of humanity in Civilization for the last 2000 years has been inspired, directly or indirectly, by the Gospel of Jesus Christ. It has ended slavery, protected life, ennobled women, educated the children and safeguarded their lives; sanctified the home, established schools, missions and charities.

### The Coming Era

Victory places upon the shoulders of the Allied Nations the responsibility for directing new conditions to right ends. Canada must do her share. The Church must prepare to meet the needs of the new day. Old standards of life with old habits of thinking and of giving will be wholly inadequate. We must do in our day what our fathers did in theirs. The hope of the world is bound up with the strengthening and extension of the Church of Jesus Christ.

### The World's Need is Spiritual

I speak as one standing upon the watch-tower, and know what the need of the land is. It is not material, it is spiritual. Get the spiritual, and the material will follow. The wounds of the world are bleeding, and material things will never heal them. And that is why I hail any movement which brings the great spirit of brotherhood. The one need of England and France today is the healing and the brotherhood of the Cross of Christ.  
— Rt. Hon. David Lloyd-George,  
Before the Brotherhood Convention, London, September, 1919.

# The Forward Movements

### FIVE Christian Communions, Angli- can, Baptist, Congregational, Meth- odist, and Presbyterian, are con-

vinced that the time has come to rouse all Christians to a clearer understanding of their calling and stewardship in Christ, their King. They believe that the Church should be equipped adequately with men and money to enable it to meet the needs and opportuni-  
ties of the New Day.

lief in God, the Father Almighty, Maker of Heaven and Earth, and in Jesus Christ, His Son, Our Lord. They now declare to their respective constituencies, and also unitedly, to the Canadian people, that the only effective method of making good citizens is by urging men to a more faithful practice of Christianity, by inculcating personal faith in Jesus Christ. They insist that there is no other dependable way of correcting evil tendencies in individual and national life. They call the people to repentance. To all Christians their message is, "Awake, Arise. Fight the Good Fight, For Canada and For the World."

**E**ACH of the Communions named is in the midst of a Forward Movement. Each is seeking by prayer and by earnest effort to accept all its responsibilities. Each is striving to extend its activities in Canada and in Foreign Lands.  
Your Church needs your help, but, far more, you need the help of your Church to learn the difficult art of living wisely and well.  
Consult your Clergyman. He serves you and your children. Ask him how and when you can serve in this day of national emergency. Give yourself to the task. Say: "Here am I, send me."

These five separate Communions are of one mind as to their be-

### She Thought Dress Would Look Dyed

But "Diamond Dyes" Turned Her Faded, Old, Shabby Apparel Into New.

Don't worry about perfect results. Use "Diamond Dyes," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods—dresses, blouses, stockings, skirts, children's coats, feathers, draperies, coverings.  
The Direction Book with each package tells so plainly how to dye that you can't go wrong. You can't get a color that you can't match. To match any material, have druggist show you "Diamond Dye" color card.

### Hospital for Sick Children

TORONTO  
Upkeep of Big Charity Requires Fifty Cents a Minute.

Dear Mr. Editor:  
The 44th annual report of the Hospital for Sick Children, Toronto, shows a notable advance in every department of its service to the suffering and crippled youngsters of this province. The ward accommodation has been taxed to its capacity, and the summer annex, the Lakeside Home, was opened for the first time since the outbreak of war.

The daily average of out patients has increased during the year from 192 to 223, including children from practically every county in Ontario. Even had the cost of supplies and labor remained stationary, the substantial increase in the number of patients would alone account for the addition to the charity's debt, which at the close of the fiscal year was \$109,000. This debt has become an embarrassing burden. Further increase must threaten impairment of an enviable efficiency.

The Hospital is in the forefront of all institutions upon this continent devoted to the care of sick children. It cost \$335,399 to maintain last year. This great sum not only puts at the service of the children of Ontario all the resources of medical science, but, in addition, provides for a training school for 120 nurses and for unsurpassed clinical facilities for the University students who are preparing to engage in their profession throughout the province.

The income which must be forthcoming to finance this absolutely essential work figures out at seven hundred dollars a day, and as there is no endowment fund, all but a fraction of that amount has to be derived from individual benevolence. Therefore the Trustees are making a Christmas appeal to every lover of children to foot the bills for some period of time, no matter how short it may be. A minute of mercy costs fifty cents.

For churches, societies, lodges, etc., who have more ample funds wherewith to assist the youngsters to a fair start in life, the naming of cot is suggested. A number of memorial cot have been thus dedicated in honor of the overseas service of fellow-members. This privilege is extended in recognition of gifts of \$2,000 to the Main Hospital or \$500 to the Lakeside Home, which can be paid in annual instalments if so desired.

Literature, illustrative of all branches of the past year's work, together with any other information desired, will be gladly furnished on application to the Secretary, the Hospital for Sick Children, College Street, Toronto. Contributions should also be addressed to the secretary.

IRVING E. ROBERTSON,  
Chairman of Appeal Committee.

### GIRLS! WOMEN! DO YOUR LOOKS SATISFY YOU?

Is your color fresh and rosy? Does the glow of health shine in your cheeks?

Do your eyes glisten with health, or are they dull, dark circled and tired? Alas—your bloodless face indicates trouble. Your watery blood menaces your health. What you need is the toning, cleansing assistance of Dr. Hamilton's Pills. They will clean out the overplus of bile that makes your skin so murky—they will put new life into the stomach, brace up digestion and make you eat sufficient food to get a good supply ahead.

Good blood always means more strength and vigor—that's why Dr. Hamilton's Pills are so successful in building up weak, thin folks.

You'll feel better at once, your looks will improve and that half dead, lazy feeling will depart, because Dr. Hamilton's Pills enliven and fortify every part of the system.

Ask your friends, your neighbors—most anyone can tell you of the enormous good done by Dr. Hamilton's Pills, but beware of any substitute.

The G.W.V.A. petition for further soldiers' gratuities has been brought to Toronto by Dominion Second Vice-President S. Staiford, and is now being circulated throughout the Dominion of Canada. It demands no specific sum, but states that justice was not done when the House of Commons refused to vote funds for re-establishment gratuities, that there is no reason for the refusal and asks that the question be reconsidered.

### OUR NATIONAL ECONOMIC PROBLEM.

The following interesting extract from an article by Mr. E. W. Beatty, president of the C. P. R., appeared recently in the Montreal Gazette:—"So much for the manner in which the transportation machinery of the country is carrying out its obligations to the Canadian producer. Other aspects of the transportation problem are less satisfactory. There are many people whose lives depend on the Canadian Railways as custodians of magic fortunes which cannot be exhausted. That bookkeeping should be as simple and inexorable in its tale of losses and vanished profits to a railway as it may be to a corner grocer, is to these people unthinkable. It apparently does not occur to them that to no public is it more important than to the Canadian public that the good reputation of the railway securities in the world of credit and investment should be carefully guarded. To those, however, who understand those things clearly and who view the matter from the standpoint of broad public interest, it is at once apparent that the Canadian public pays a very low rate for the quality of service rendered, and that a time is rapidly approaching when, if Canadian railway securities are not to be made less desirable to investors than almost any other kind of industrial security, railway rates will either have to go up, or railway operating costs go down. Such persons recognize that it is not because the situation of the railways is an easy one that certain companies have been able to show net earnings—very low net earnings, compared to the actual cash invested in the industry—but because in the past the shareholders of such companies have been, as they are to-day, courageous persons willing to supply the means for constructive enterprises in which no one but themselves had faith, and because, too, their officers have been skilled, resourceful and loyal business men, assisted by staffs filled with the spirit of pride and devotion to their work. This, indeed, is the thing which has made it possible for Canada's railroads to function successfully during the war without making anything like the demands that foreign roads—less efficient in serving their community, yet earning the same rates and paying the same wages—have made up their public exchequers. If it do not believe that this strain upon the railways and this tendency to weaken the general reputation of Canadian Railway securities should continue. The servant, after all, is worthy of his hire, and railway capital is not less worthy a servant than other forces of capital whose earnings have not been so consistently depressed.

The net earnings during the war years of those companies which showed net earnings, would have been much lower had the Canadian railroads been making expenditures for maintenance which circumstances would have justified, but which conditions prevented during that period. These arrears have now to be made up. During 1919 the Canadian Pacific laid 70,000 tons of steel rails. In place of say, 2,000,000 ties, worth 44c in 1914, the Canadian Pacific laid 4,434,000 ties at 85c per tie. The sensational advance in the rate of railway wages is well known. Further advance may be necessary within the very near future, as indicated by discussions in the United States. The price of coal for locomotives was \$2.09 in 1918. It is \$4.77. The cost of hauling an average train (freight or passenger) one mile has risen from \$1.64 in 1913, to \$2.494 in 1918. It is higher to-day. The operating expenses of one mile of line in 1915 were \$4.152; in 1918, \$7.046, and to-day they are even greater. On the other hand, railway rates, taking all classes of revenue together, have advanced scarcely 25 per cent. I venture to say no other industry in the Dominion can show such moderation."

### EMPLOYMENT SERVICE OF CANADA

EMPLOYERS

THE EMPLOYMENT SERVICE OF CANADA has been created to grade the various classes of workers—trained and untrained—and to place the best in the country at your disposal, through a system of Employment offices from Coast to Coast.

THE PROFESSIONAL AND BUSINESS SECTION exists to place you in touch with Professional, Business and Technical workers.

THE INFORMATION AND SERVICE BRANCH DEPARTMENT OF SOLDIERS' CIVIL RE-ESTABLISHMENT has a representative in each of these offices to render whatever special services may be required in the employment of the

### COURT RULES OF THE

Colonel Burleigh Hold of Any He Had to Do Could Not Connection With

The military enquiry into the 10th regiment finances yesterday on the examination of George R. Bradley was continued. Bradley stated that he had sold then at 28 cents per pound about the horse mangel. Col. Thompson used a mangel while acting as medical officer. Wilson always used mangel posts on foot and mangel posts on foot and mangel posts on foot.

There was no arrangement for the surplus should be handed to Col. Burleigh," said the witness. The firm received more than a day per man, the surplus handed back to the pensioners. The bill—the paymaster of the regiment.

Excerpts from Major Bradley at Colonel Campbell's trial in 1915 were read by Young in which he was cross-examined, he was reminded of a conversation he had in which he had to get the entire 15 cents applied to the overseas account. He said that statement.

Answering President Campbell's question, Major Bradley said he was not to believe the reason was that because the mangel was housed in the 19th Army. The officers mess at Niagara. At no time, Mayor Bradley the officers mess at Niagara. The officers mess at Niagara. The officers mess at Niagara.

He said there was no conversation with reference to the Fourth Overseas Company. Bradley said he did not see any of the 19th Regt. fy off. It was a very... Did I even ask you... to Capt. McKillop Burleigh.

"No," was the reply. Major Smythe questioned whether there were men on the street there were but he had no man not getting his allowance if he was entitled. The next witness was... special investigator... master General's Department all the pay lists from August, 1914, to Nov. found that horse and mangel had been drawn a... Col. Burleigh \$8... \$15.90 for forage.
