Town and County News

THE CIVIC HOLIDAY.—Owing to the Civic
Holiday on Monday, no paper will be
issued from this Office.

DEATH OF AN OLD FERGUS RESIDENT.—
On Wednesday morning Henry Webster,
Sr., of Fergus, died of dropsy, only being
sick a few hours. He was one of the old
settlers of this county, having reached
his seventy-eighth year.

BOATING.—One of the alterations of
our Civic Holiday will be the trips up
the river on the miniature steamer. Ice
cream, &c., will be for sale at Paradise
for the benefit of those who make this
pleasant trip. See advertisement.

BAPTIST CHURCH.—Rev. Dr. Davidson,
having returned from his holiday trip,
will occupy the pulpit of this church to-
morrow. The short respite from his ar-
duous duties has had a beneficial effect
on the Dr.'s health, and his many friends
will be glad to hear his voice again.

A few days ago, as Mr. A. Tremain,
baker, in Palmerston, was driving across
the railway track, accompanied by several
others, the horse shied at some cars
which were standing partly on the road
and upset the wagon, throwing the oc-
cupants into the ditch. Mr. Tremain
was pretty badly injured. The others
escaped unhurt.

A GAME WON FROM THE "HERD LAD-
DIE."—We omitted to mention in refer-
ence to the "Herd Laddie's" departure,
that on Thursday, Mr. John McKenzie
succeeded in beating the Champion
Checker-player in a game. This feat
of Mr. McKenzie's, and defeat of Mr. Wy-
lie's, is the more remarkable as it is but
his fourth that the "Laddie" has sus-
tained in America.

POLICE COURT.
(Before the Police Magistrate.)
Aug. 22.

Daniel Ballantine, charged by P. C.
Turner with being drunk on the Market
square, was fined \$1 and costs, or
ten days imprisonment.

Wm. Riley, charged by P. C. Dooley
with being drunk on Friday, was dis-
missed.

The body of Mr. James Stevenson, an
old and respected resident of Hamilton,
was found floating in Burlington Bay on
Friday morning. An inquest was held,
and a verdict of death from suffocation
produced from drowning, brought in by
the jury.

Mr. John Beattie, of Downie, pulled 10
tons and 86 pounds of flax off 2 1/2 acres
of land, realizing \$120.31, or about 87
per acre.

In the barn yard of Mr. Wm. Cross,
near Teeswater, may be seen a young
duck, some six weeks old, which has four
feet. The feet are all regularly formed,
but two are under size, and are not used
as the duck in walking, which otherwise
appears like its fellows.

The barque Watson was run ashore,
two miles west of Port Burwell, on Thurs-
day morning. She had been raised by the
Coast Wrecking Co. of New York, from
where she sank with 38,000 bushels of
corn off Point au Pelee. She was in tow
of the tug Rescue when her pumps gave
out, and to save her from sinking a sec-
ond time, she was again run ashore.

It is said that certain Montreal dealers
have lost \$700,000 through the recent
"corn corner" in Chicago.

A bell factory has been started at
Brussels.

The County of Welland Agricultural
Society's annual fall show will be held at
Welland on Thursday and Friday, 1st
and 2nd of Oct.

The *Franc Parleur*, an obscure French
paper, published in Montreal semi-
weekly, has instituted an action for dam-
ages laid at \$5,000 against the *Daily
Witness* for having lately stated, in relation
to an account sent in by the former
to the City Council, that the said paper
was devoted to light comedy, and was
published once a month.

"Are these animals cross?" asked a
nervous reporter, as he was looking at a
herd of fat cattle on the Market Square
the other day. "Yes," promptly retort-
ed the owner, "cross between Devon
and Durham!"

A rustic couple, newly married, march-
ed into a drug store and called for soda
water. The obliging clerk inquired what
they would have in it, when the
swain, deliberately leaning over the coun-
ter, replied: "Stranger, money is no
object to me; put sugar in it."

"Deserted by all except his aged bot-
tailed dog, his life went out slowly as
the shadows of the setting sun crept over
the front stoop of Darling's grocery," is
the way they express themselves in
Georgia.

A dorky left in charge of a telegraph
office while the operator went to dinner,
heard some one "call" over the wires,
and began shouting at the instrument:
"De operator isn't yer!" The noise
ceased.

It didn't rain for some time in a West-
ern town, and when the floods did de-
scend the editor said: "After many days
of arid desiccation, the vapory captives
marshalled their thundering hosts and
poured out upon scorching humanity and
the thoroughly incinerated vegetation a
few inches of aqua pluvialis." Good
gracious!

These born only once die twice—they
die temporal and they die an eternal
death. But those who are born twice die
only once; for over them the second
death hath no power.

Some months ago an extraordinary
feat in railroad work took place—the chang-
ing of the track of the Grand Trunk Rail-
way between Montreal and Sarnia, from
a wide to a narrow gauge, in a few hours,
and without materially interrupting
transportation. Arrangements are now
being made for a similar change from
five feet six to four feet eight and one-
half inches, on the lines east of Montre-
al. This change will probably take place
in September, and all the Company's
lines will then be of the standard gauge.
It was at first proposed to keep the Que-
bec and Riviere du Loup division of the
old gauge, but it was finally decided to
change them also.

Local and Other Items.

BARN BURNT IN SAUGEREN.—The barn
of Mr. Henry Cassidy, on the 3rd con-
Saugeren, was struck by lightning on
Wednesday night and totally destroyed.
He had about 200 bushels of wheat, 100
bushels of peas, and a quantity of hay in
it, which were all destroyed. He is in-
sured for \$400.

ORITARY.—Mr. Henry B. Bowman,
one of the oldest and most respected
citizens of Berlin, died on Sunday, 16th
inst., in the 69th year of his age. The
deceased came from Berks County,
Pennsylvania, about 40 years ago, and
settled in the township of Waterloo,
whence he removed to Berlin, where he
died.

MAMMOTH ROOTS.—Among the other
"big" things exhibited at the Royal
English Show, recently held at Bedford,
was a "mammoth mangold" eighteen
inches in length and weighing fifty-six
pounds. A Tankard mangold weighed
thirty pounds, and a turnip, Swede and
Kohl Rabi, fourteen pounds, twenty-two
pounds, and twenty pounds respectively.

At a recent sale of blood stock at
Middle Park, Eltham, England, the fol-
lowing prices were effected: a very fine
filly, by Blair Athol, sold for 2,000
guineas, or more than \$10,000; a sealion,
a mare seventeen years old, with her
filly foal, was sold for \$12,500; and
eleven years old, for \$15,000. Several
other colts and fillies were sold at prices
ranging between \$2,000 and \$5,000.

DESTRUCTION OF AN OIL STILL.—On Fri-
day morning in C. J. Williams' oil ref-
inery, Hamilton, one of the large stills
burst, and the oil becoming ignited, ran
in all directions, and of course the build-
ing was soon in flames. The roof of the
building was destroyed, and two silos and
their contents slightly injured. About
120 barrels of crude oil were in the still
at the time, and were valued at \$1,500 to
\$2,000. There was no insurance.

OUTRAGEOUS ASSAULT.—On Friday
night, 14th inst., between eleven and
twelve o'clock, Mr. Wm. McLeod, hotel
keeper, Underwood, while returning from
taking a party home who had been at
his house, was violently struck by some
persons across the head, thereby inflic-
ting serious injuries, disfiguring his
face, and leaving him quite insensible.
Mr. McLeod was found a short time after
by some men in an insensible state by
the side of the road, and remained in-
sensible up to Saturday afternoon. The
perpetrator of this outrage made good
his escape.

ST. JAMES' CATHEDRAL.—The Toronto
Sun says the covering of the lofty spire
of this magnificent cathedral with its
metal sheathing is rapidly progressing,
and is already completed about two-
thirds up the spire. The vane on the
summit of the spire is 316 feet from the
ground, and is 16 feet higher than any
other building in America. It has been
amusing to watch persons as they walked
past the cathedral throw their heads
back and strain their eyes to watch the
movements of the men at work so high
up that they seemed like gigantic figs
crawling about. The addition of the
illuminated clock is anxiously looked
for.

ACCIDENT.—On Friday, 13th inst.,
about noon, a serious accident happened
to the son of August Stoltz, near Mann-
heim. The little boy, only about ten
years of age was helping his father to
draw peas from the field, and having at
this time put on a large load, they started
to take to the part of the field where
they were thrashing, but as the ground
was rough the little fellow not being able
to keep his footing, was thrown head first
from the load. He unfortunately struck
against the point of a sharp rock which
penetrated the flesh of the outer angle
of the left eye, inflicting a very severe
wound and breaking a portion of
the cheek bone loose, which was driven
back beneath the flesh towards the front
of the ear.

BADLY SCARED.—The Great Western
Railway Co. was badly scared last Thurs-
day by a rumor that the Canada Southern
was preparing to take forcible possession
of Suspension Bridge. A guard on 300
men was collected at that point, armed
for offensive and defensive purposes; and
the arrival of the attacking party was
special train was expected every moment.
The excitement was increased late in the
afternoon on its being noticed that Mr.
Kingmill had passed through Clifton
on his way from Buffalo, and Mr. Thomp-
son on his way from this town. They
grams flew over the wires in quick suc-
cession, and in Great Western quarters a
bloody fray was believed to be imminent
and unavoidable. Of course the affair
was a hoax, but it took some time to
convince the officials of the Company
at Hamilton that some wag was merry at
their expense.—*The St. Thomas Home
Journal.*

NOVEL CHURCH SERVICE.—In Stratford
Rev. C. Walker preached to a large,
orderly and appreciative audience of cir-
cus-men under the canvas of Barnum's
show, a considerable number of towns-
people joining in the service. The day
being hot, the whole line of wagons con-
taining the entire collection of animals,
were opened in front as when on exhibi-
tion; but all the animals during the
interesting service seemed to be in a
state of repose, prophetic perhaps of the
good time coming when "the wolf also
shall dwell with the lamb and the leop-
ard shall lie down with the kid." The
service, which was appropriate to the
place and the occasion, was interspersed
with some lively singing, and when the
Rev. gentleman at the close said, "now
men, let us sing one tune more before we
part," giving out the well-known hymn—
"Shall we gather at the river," tears
moistened the eyes of some, perhaps un-
accustomed to weep. The text chosen
was Isaiah 55, 1, 2.

THE HOLIDAY.—Anderson's bookstore
will be open on Monday from 10 to 12
a.m., for the delivery of the Toronto pa-
pers and the sale of tickets for the base
ball match between the Maple Leaf and
Toumshaws.

BY TELEGRAPH TO THE MERCURY

The Tilton-Beecher Scandal.
Action Against H. W. Beecher.

**Label Suits Against the
U. S. Press.**

What the Papers Say.

**The French Government and
the Newspapers.**

Paris, Aug. 21.—President MacMahon
had a grand reception at Brest to-day,
and reviewed the troops in the afternoon;
there was a magnificent display of fire-
works to-night, and the city is illumina-
ted.

Madrid, Aug. 21.—The *Terbia* an-
nounced full credentials for the representa-
tion of Spain at the European capitals.
It is officially reported that Gen. Mar-
iones is at Laroga.

Bayonne, Aug. 21.—Gen. Tristany has
summoned Paycenda to surrender, and
begun to bombard the city.

New York, Aug. 21.—The papers in the
suit against Beecher by Theodore Tilton
were served on Thomas C. Shearman,
Beecher's lawyer, this morning. The
damages are laid at \$100,000, and the
allegations are for criminal cohabitation
and conversation with Mrs. Tilton.

The counsel for Tilton is said to be
preparing complaints for libel against the
New York Tribune, *World* and the *Brook-
lyn Eagle*.

Paris, Aug. 21.—The French Govern-
ment reminds the newspapers in an official
note that the publication of articles
signed by those deprived of their civil
and political rights is prohibited by law.

New York, Aug. 21.—The British sail-
ing vessel *Jura* arrived from Calcutta on
Monday, and yesterday one of the crew,
all Mussulmans, counselled with Ex-
Judge Troy concerning their brutal
treatment on the voyage. They said
they were nearly starved to death, and
when they complained to Capt. J. D.
Davis he met them with oaths and curses.
Many of the men went nearly mad from
hunger; owing to weakness from want
of nourishment, one man had to be left
at St. Helena, another fell from the top
mast and was drowned; two fell on deck
and had their legs broken, and another
died. The backs and legs of the men
were lashed, they say, by the lash
of the Captain.

New York, Aug. 22.—The comments of
the morning papers on Moulton's statement
are generally to the effect that it makes
no material change in the situation.
The Tribune says the statement adds
nothing to the evidence in the case, be-
yond Moulton's individual declarations,
and makes the wisdom and justice of
the people if Beecher is condemned
without much stronger proof than Moul-
ton seems able to produce. *The Herald*
thinks the statement decisive against
Beecher unless the blackmailing feature
be sustained or Moulton's credibility be
destroyed.

The Governor-General's Movements.
The steamer *Steinhoff*, with the Vice-
Regal party on board, reached Goderich
about half past three o'clock. About a
mile from the town, rough though the
lake still was, the *Steinhoff* was met by
half-a-dozen steamers laden with people
and decked with flags. Meanwhile the
guns of the Goderich garrison placed at
wide intervals along the high cliff in
front of the town thundered out from
that commanding position a Vice-Regal
salute. The eminence was at the time
covered with people, and another large
crowd was down at the wharf. When
the Governor-General stepped ashore a
guard of honour consisting of a detach-
ment of the 33rd Battalion, V. M., pre-
sented arms, and the Goderich band
played the National Anthem.

After the Corporation address was
presented, the Vice-Regal party were
then taken into carriages and driven
through the town. On their way they
passed under half a dozen or more arches
bearing words of welcome and other
appropriate inscriptions, one arch con-
sisting of barrels of the great natural
product of the town, salt, piled up on
each other in a fanciful manner. During
the course of their drive the procession
halted at the Central Public School, the
children of which sang to the air of
"God Save the Queen" a song of wel-
come, specially composed for the occasion
by the School Inspector. An address
on behalf of the scholars was also pre-
sented, and one by the Trustees and
Teachers. Presentations were then
made, after which the party were con-
veyed to the International Salt Works.
Before quitting the works the party
were invited to partake of luncheon,
which had been provided by the pro-
prietors.

The party then re-entered their car-
riages, and were driven to the beautiful
residence of Mr. M. C. Cameron, M. P.,
whose guests they are during their stay
in the town. After dark there was a
grand illumination, nearly all the win-
dows facing the large square in which
the Court House is situated being ablaze
with light, and many of them having a
candle behind each pane. At night
a brilliant torchlight procession took
place, and a large quantity of magnifi-
cent fireworks were let off. A ball in
honour of their Excellencies was also
given, which was largely attended.

Something about Lord Dufferin.
D. H. Hayes, writing to the *Chicago
Times*, says: "The Irishman or woman
must be very ignorant indeed who has
never heard of the name 'Lord Dufferin.'
In the counties of Tyrone, Down and
Antrim, where he is best known, his name
is a household word. He is a noble spec-
imen of his class, for noblemen (as they
are called) in Ireland, even though of
Irish birth, are invariably the greatest
oppressors of their fellow-countrymen;
the actual blood-suckers of the tenant
to this general rule. He, and the
late lamented Earl of Massereene and
Ferrard were the only two noblemen in
Ireland who openly preached and practised
tenant rights. Even apart from his
lordship, but intimately associated with
him, there is a strong link which will
bind the Irish heart to the Dufferin
in the town. After dark there was a
grand illumination, nearly all the win-
dows facing the large square in which
the Court House is situated being ablaze
with light, and many of them having a
candle behind each pane. At night
a brilliant torchlight procession took
place, and a large quantity of magnifi-
cent fireworks were let off. A ball in
honour of their Excellencies was also
given, which was largely attended.

Terrible Tragedy near Ottawa.

One of the most horrible and heart-
rending tragedies that has occurred for
years is reported to have taken place up
the Gatineau on Thursday, near the Six
Portages. It appears that three little
children named Forin went into their
father's barn, which was full of hay, and
set fire to it. After doing this they
climbed to the top of the mow, and jump-
ed around in a merry mood until the
flames began to get too hot. They then
tried to get down, but found escape im-
possible, and commenced to shout for
help. Their mother, who was a short
distance away, heard their cries of dis-
tress, and ran to their assistance. When
she entered the barn all she could see
was a dense cloud of smoke, and from it
proceeded the most piteous screams and
cries from her little children. With a
mother's devotion, the brave woman
climbed into the burning mow. No soon-
er had she done so than she was over-
come by the heat and smoke, and fell on
her face in the hay a short distance from
her children. Some of the neighbors were
by this time attracted by the smoke ris-
ing from the burning building, and ar-
rived just in time to see her roll out of
the mow to the floor in an unconscious
condition. They picked her up, but she
was dead. After the building was burn-
ed down, the bodies of the three little
children were also recovered. Mr. Forin
was absent from home when the unfor-
tunate affair occurred, and knew nothing
of it until he returned. Much sympathy
is felt for him among the neighbors.

**The Independent on the Beecher
Scandal.**

So much has been said of Mr. Henry
C. Bowen in relation to the Beecher-
Scandal, he has had in reality such an
intimate and necessary connection with it,
that, aside from the important scandal
in which his inclinations have indulged,
his utterances on the subject must seem
of the first importance. Up to this time
he has preserved an unbroken silence,
only varied once by an indignant rep-
udiation of a public interview which ac-
cording to his statement never took
place. The article in this week's *Independ-
ent* is the first considerable reference
to the subject since the scandal has been
flagrant. It says very little, and is curi-
ously non-committal both as to Beecher
and Tilton, but in so far as an inclina-
tion is manifested it is towards Mr.
Beecher's side. The concluding part
of the article is as follows:

"In thus expressing the hope, for the
sake of religion, of good morals, and of
that noble fame which is a treasure not
to Mr. Beecher only, but to the whole
nation and the Christian world, that Mr.
Beecher's defence will be favorably re-
ceived, and that his reply to evidence yet
to come will be utterly convincing, we
are pained to be compelled to refer to a
statement which has now and then met
our notice, that the proprietor of the
Independent has been actuated by a
jealousy of Mr. Beecher in his position
as editor of another religious journal,
he has kept rife all throughout all this
unhappy business, there is no possible
evidence that such is the case; and
not only is he conscious of no such feel-
ing, but the history of the *Independent*
is the best evidence to the contrary. In
the year after Mr. Beecher left the edi-
torial charge of the *Independent* its cash
receipts were increased by \$40,000; as in
the year after Mr. Tilton left it they
were again increased by \$25,000. We do
not mention these as singular or signifi-
cant facts, but only to show that a great
institution like the *Independent* can be
but very slightly affected by the with-
drawal of any editor, however famous.
A great newspaper has a normal growth
like a tree. One gardener may be chang-
ed for another; but let there still be good
culture, no matter by whom, and the
tree will continue to grow, for its roots
run very deep and wide. The *Independ-
ent* has no reason to do anything but
rejoice in whatever may brighten the
fame of one in whose success it has
taken so much pride."

The Teeswater Division of Sons of
Temperance, for the benefit of its mem-
bers, has started a monthly paper in
connection with the division entitled
The Critic.

On the 13th inst., a fire broke out in
the lumber yard of Mr. James Barton,
Roseville, which consumed over \$5000
worth of the best lumber on the ground.
No insurance.

Mr. John Valentine, who resided for a
length of time at Fergus, and removed to
Paisley, in the early settlement of that
village, visited Massey this Spring, and
was drowned about five miles from Win-
nipeg. An inquest was held and the
body buried, but the brother of the de-
ceased went out and brought the re-
mains home.

BEECHER-TILTON.—Who can blame
the god and pure for pausing at the
first syllable of the newly coined word,
Beecher-Tilton? All are agreed that
the better classes are disgusted with the
statements and counter-statements,
which, however they may bear upon the
general discussion, are alike in being un-
fit for the perusal of decent people. We
can only imagine the state of society in
Brooklyna, where all the parties to the
scandal, and all the willing or unwilling
witnesses are well-known, and where
some of them are greatly beloved. At
this distance the excitement cannot be
so great, but even here harm has been
done to the morals of the people by the
very existence of such a topic for discus-
sion as the great scandal.

A PLURALIST.—The Rev. Mr. Thur-
low, a clergyman in England, son of the
late Bishop Thurlow, and nephew of
Lord Chancellor Thurlow, has for forty
years drawn pensions on account of sine-
cures, abolished by Parliament. One of
these sinecures was the office patented
for bankrupts, abolished in 1832, and his
compensation for this during the forty-
four years that have elapsed, amounts in
the aggregate to \$308,514 9s. For an-
other sinecure, that of hangman, or
keeper of the waste paper basket, he has
received \$4,023 per annum since 1852,
making \$88,616, and for the office of
prothonotary of the county palatine Dur-
ham, likewise a sinecure, he has receiv-
ed \$398 10s 11d a year since 1842, mak-
ing \$23,738 18s 6d from that source.
His aggregate income, derived from the
abolishment of those three sinecures,
amounts to \$421,169 7s 6d, and for it all
he has had nothing to do whatever.

The Police and the Late Shooting Case.

A Guelph correspondent of the *Hazle Reformer* does our Police great injustice in speaking of the Hazle shooting case. He charges the Chief not only with negligence, but with wilful neglect of duty in giving the culprit a chance to escape, and then instead of hunting him up waiting till a reward is offered before any serious attempt is made to catch him. Now in the face of the facts this is most unfair. We happen to know that Mr. Kelly, immediately after the shooting, did take the most active steps to secure Hazle. Finding that he did not go to his house after the crime was committed, and that he could not be found in or around Guelph, the Chief had a full description of him sent off the next day to all important points in Canada and the States, and was himself at the same time actively at work with his assistants searching all round the neighborhood. The crime having been committed in the Township, the police here were not obliged to go to all this trouble, and they have no encouragement to do work of this kind outside the Corporation limits, for the County Municipalities will not reimburse them for any outlay they may incur in the pursuit of a criminal. It is hardly to be expected, therefore, that they would go to much expense when they have to pay it out of their own pockets.

It was through Mr. Kelly's efforts that Hazle was caught. We may say, moreover, that as a detective there are few his equal in Canada, as has been proved on more than one occasion which we could name. He is a very efficient officer, and the fact that Guelph, for its size, is the most orderly and quiet town in the Dominion, bears testimony to this. The *Reformer's* correspondent, in fairness, should withdraw the unjust charge made against him, and apologize for the wrong done.

COMPLIMENT TO THE PREMIER.—The Governor General in replying to the address of the Senate Corporation, paid the following well-deserved compliment to the Hon. Mr. Mackenzie:—"But I feel that I should omit one of the most agreeable circumstances upon which I have to congratulate your town, if I were not to allude to the fact that Sarnia has the honor of sending to Parliament the Prime Minister who presides over the counsels of this nation, and who is entrusted with the high office of administering its Government. (Applause.) And in making this allusion, I feel that I am doing that which must be equally grateful to his political opponents as to his political supporters, because you, gentlemen, share, I am sure, those unanimous feelings which characterize British people at large, and are always ready to take pride in intellectual distinction, and to pay a just tribute of acknowledgement wherever ever merited to this and those other qualities which command our respect—qualities which have raised your Premier to his present high position in the Dominion of Canada."

The Vice-Royal Visit.—By the time this reaches our readers, Lord Dufferin and his suite will have arrived in Guelph. Everything contributes to make the short stay of his Excellency a pleasant one. The weather is delightful, and the decorations—public and private—give the town a holiday appearance. The pavilion in which the reading of the address takes place has been gaily festooned, and the arrangements in the Town Hall are satisfactorily completed. This evening there will be a grand display in the shape of private and public illuminations, in addition to the bonfire to be lighted near the Central School.

Mr. Walkem, the delegate sent by the Government of British Columbia to England, has had an interview with the Colonial Secretary, the Earl of Carnarvon, and has laid the British Columbia protest, or petition, or whatever else it may be, before that distinguished official. He does not appear to have created much of a sensation in his favor, for the correspondent says: "It is stated that the Colonial Office is inclined to leave the whole matter in the hands of the Dominion Government, in whose integrity there is every confidence."

Canon Kingsley and a Bug.

(From a Denver Letter.)
 I will relate a little anecdote of Canon Kingsley which I heard at Colorado Springs the other day. He is not only a novelist, essayist, historian, poet, divine, but a close, accurate naturalist—his knowledge in the latter direction extending into the fields of botany, geology, paleontology, entomology, etc. On a recent evening he read his lecture on "Westminster Abbey" to the people of Colorado Springs, right under the shadow of Pike's Peak—repeating the suggestion we have all heard, or heard of, that some eminent American shall some day be buried in that stately fane. In the midst of his lecture a bug of some species of coleoptera, new and strange to the eminent lecturer, alighted on his manuscript and attracted his attention at once. Mr. Bug sat still a moment or two, during which space the speaker "improved the occasion" to study his peculiarities of form and structure—perhaps determining in his mind certain obscure or doubtful questions; but while these investigations were in progress, and his language rolling right along to the delight of his hearers, the insect began to expand his wings as if anxious to fly away. The reverend speaker saw the motion, and deftly caught it in his hand. Going right on with his line of argument, he continued his examination for several moments, until, having settled everything to his own satisfaction, he let it buzz away about his own business—perhaps mentally repeating the parting injunction of "My Uncle Toby" to the fly. To any ordinary man, the presence of such an intruder would have been unwelcome, and it would have been brushed aside, but the great English divine, trained to such close habits of observation and thought, could not forego the opportunity, even in the midst of his lecture, to study the points in a new species of bug, his mental discipline enabling him to carry along in his mind two trains of ideas at the same time.

The accusers of Mr. Beecher continue to supply the evidence they failed to give the Committee by means of interviews with newspaper correspondents and fragments of unauthenticated letters. The latest operation in this line is the submission of a letter of Mrs. Tilton's eight or nine pages long to the inspection of Mr. George Alfred Townsend, who proceeds to telegraph it from memory to *The Chicago Tribune*. This is a burlesque upon testimony.

MR. SERGEANT, who was recently appointed General Manager of the Grand Trunk Railway, arrived in Canada some days ago.

The Right Hon. Wm. E. Forster, formerly a member of the British Ministry under Gladstone, will shortly visit this country.

RIEL AGAIN.—*La Minerve*, organ of the French Canadian Tories, announces positively that Riel is again to be a candidate for Provenccher, and that he will "probably be elected by acclamation." At the same time it is stated that Mr. Masson, M. P., leader of the French section of the Tory party in the Commons, has departed for Manitoba. From the warmth he displayed in advocating Riel's right to a seat in Parliament, Mr. Masson is no doubt in full sympathy with the "late Provisional," and if he can do anything to secure his re-election, we may be sure it will be done. In the meantime the Tory organs in Ontario are glorifying Sir John's generous donation to Riel out of the public chest, and paying the way for his reception into the ranks of the Opposition. So be it. It is as well that the mask of hypocrisy should be removed from the faces of those "truly lol!" politicians.—*London Advertiser*.

Henry Kimble, of Alymer, and W. White, of Malahide, have been tried for bigamy. The former was committed for trial, but was released on bail.

A "three card monte" expert is reported to have offered the Directors of the Union Pacific Railroad a bonus of \$10,000 per annum for the exclusive right to play his little game in their sleeping cars.

The Louisville *Ledger* has been puzzled for a long time to know why the women of Massachusetts make more noise than their sisters in other States. Archbishop Whately once propounded a similar conundrum: "Why do white sheep eat more than black ones?" and answered it with the inevitable reply: "Because there are more of them."

They are trying to build the largest hotel in the world in San Francisco. It is to be known as the Palace Hotel, and will contain 700 rooms. There will be 320 bath rooms and 374 bay windows. Accommodations will be furnished for 1,200 guests. The hotel is to be completed in August, 1875, and will cost altogether \$2,750,000. Of this amount \$1,000,000 will be the cost of the lot, \$1,250,000 of the building, and \$500,000 of the furniture.

DEATHS.

PATTERSON.—In Pustineh, on the 13th inst., deceased was for 4 years a resident of Pustineh, and was great y respected by all his friends and neighbors.

Mr. John Horsman has just returned from the Hardware Manufacturing districts of England and Scotland, having purchased there to very great advantage, a large and varied stock of Hardware, Oils, Paints, Colors and Window Glass, which he expects to be ready in 4 or 5 weeks, and will sell very cheaply and in price to such a degree as will please his customers and surprise every one.

THE GUELPH ECONOMICAL COOKING RANGE

A combined close or open fire cooking apparatus, with or without hot air chambers, or hot water boilers, for Bath and Culinary purposes. This range is fitted with one oven and six boilers, or with two or more ovens, grilling stove, hot closets, etc. The ovens are convertible into roasters, and properly ventilated to carry off steam and odor while cooking. When not cooking, it can be used as an open grate, making cheerful fire, while the consumption of fuel is materially lessened. In offering the Guelph Range to the public, we are confident that we are giving them an article that cannot fail to recommend itself to all, both as regards general utility and saving in fuel. The sizes range from 3 to 10 feet, and larger sizes if required. They can be seen at the store of Mr. Geo. Howard, Quebec Street, Guelph.

Sir Marmaduke's Musings. (The following poem, written by Mr. Tilton at the time of his troubles, has a singular interest now.)

I won a noble fame,
But, with a sudden frown,
The people snatched my crown,
And in the mire trod down
My lofty name.
I bore a bounteous purse,
And beggars by the way,
Then blessed me day by day;
But I, grown poor as they,
Have now their curse.
I gained what men call friends,
But now their love is hate,
And I have learned, too late,
How mistak'n men to name,
And friendship ends.
I clasped a woman's breast,
As if her heart I knew,
Or fancied, 'twould be true,
Who proved—alas! she, too—
False like the rest.
I now am all bereft—
As when some tower doth fall,
With battlements and wall,
And gate and bridge and all—
And nothing left.
But I account it worth
All pangs of fair hope cross'd—
All loves and honors lost—
To gain the heavens at cost
Of losing earth.
So, lest I be inclined
To render ill for ill—
Remember in my death,
O God, a sweet good will
To all mankind.

Guelph, August 1st, 1874.

To the Public.

I take this opportunity to let my old friends and customers know that early this Fall I intend opening up one of the most extensive and varied stocks of Staple and Fancy Dry Goods to be seen in Ontario. I have had erected for my own special retail business a most complete arranged store, and from my long experience in the mercantile business, I feel and know that I will present for the inspection of my old patrons and others not only the most choice selection of Fancy Goods, but goods that will in reality be of such a character as to give to the purchaser the most entire satisfaction. The value will form one of the most important features of my establishment, the fact of going direct to the fountain head for my whole stock, and buying all for the ready money, and in addition having no old stock to palm off, is of itself a positive guarantee that my establishment will present inducements to the purchaser that none other in Guelph can approach. I earnestly request my old friends and customers to pay a visit to my establishment, when the old motto that I used for so many years to their advantage will again be adopted, viz: the best goods in the trade at the smallest possible profit. Good goods and Cheap goods. One price and no abatement. No misrepresentations, and the interests of the public doing business with me strenuously watched.

Yours truly, JOHN HOGG.

The mill contains all the necessary machinery for manufacturing lumber and shingles, viz. 30 horse power steam engine; and 25 horse power boiler; 5 feet circular saw; Edger and slab saws; Single machine Jointer and Drag saw. The mill is now running and in good order, and is doing the best local business of any mill in this section of the country. Good reasons given for selling. THE HAND.—Profound study has led M. d'Arpentigny to the conclusion that the hands represent three types. Those whose fingers have pointed tips are possessed of a rapid insight into things; are extra sensitive, pious, and impulsive. To this class belong the poets and artists. To the "square tops" belong scientific people; sensible, self-contained characters; professional men. The spade-shaped tops—thick tips, with little pads of flesh on each side of the nail—are materialists, commercial, practical, with a higher appreciation of all that tends to bodily ease and comfort. Each finger, no matter what the kind of hand, has also one joint—that which is nearest the palm—representing the body; another—the middle—the mind; and the top, the soul. Each of these divisions correspond with one of the types above given.

THE VIBRATORY NOTE.—In order that processions may safely cross large suspension bridges, it is necessary that they should break step in order to insure safety; and it is told in illustration, that when the first suspension bridge was building in England, a fiddler offered to demolish it with his fiddle. Striking one note after another, he eventually hit the vibrating note or fundamental tone, and threw the structure into extraordinary vibrations. Only recently a bridge went down in France under the tread of a regiment of infantry who neglected to break step on entering it. Three hundred persons were drowned. The experiment of breaking a tumbler or other glass vessel by frequent repetitions of some particular note of the human voice belongs to the same class of phenomena.

A LONG PENDING SUIT SETTLED.—Decision has been given by Mr. Vice-Chancellor Froude, in the long pending suit between the Erie & Niagara and Great Western Railways for right of way privileges so as to reach and use the Suspension Bridge. After a special hearing of the case a decree was made giving the Erie and Niagara power to cross and intersect Great Western lands in order to reach the Suspension Bridge. A perpetual injunction was also granted, restraining the Great Western and its employees from interfering with the Erie in making its approach. The bridge will, therefore, in future, be open to both companies for traffic.

PAIN-KILLER is a purely vegetable preparation, safe to keep and to use in every family. The simplicity attending its use, together with the great variety of diseases that may be entirely eradicated by it, and the great amount of pain and suffering that can be alleviated through its use, make it imperative upon every person to supply themselves with this valuable remedy, and to keep it always near at hand.

Special Notices.

I WAS FOR SEVERAL YEARS suffering from Cough, Expectoration and Night Sweats, attended with extreme nervous and physical prostration. My body was greatly emaciated, and the general impression was that I had no chance to live. I began taking Dr. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES AND CALSAYA, and in a few days I felt place immediately. I gained in weight and strength. My Cough and Night Sweats disappeared, and I am now in the enjoyment of excellent health. Many of my friends to whom I have recommended the Elixir have experienced equally remarkable results.

Sewing Machine EMPORIUM.

J. & R. CRAIG, FERGUS,

General dealers in Sewing Machines, would draw the attention of the people to the fact that they sell Sewing Machines at prices from \$5 to \$12 cheaper than what is charged by peddlers. We keep on hand the following machines:

1st.—We incur no expense in peddling machines through the country, and sell at prices much lower than any peddler, who devotes his time with a horse, etc., can afford to offer them for. Machines sold by peddlers for \$12, we offer for \$8. Others sold by peddlers for \$25, we offer for \$20, and others sold by peddlers for \$30, we offer for \$18.

2nd.—Parties buying from J. & R. Craig have a sure guarantee that they will not be humbugged or deceived in any way, as we warrant all machines we sell, and we can always be found at our office, where a peddler may agree to warrant a machine, but who knows where he will be when the machine is out of order?

3rd.—We keep a large variety to select from, and if a machine purchased from us does not suit we will exchange for any other desired.

4th.—We have been a number of years in the Sewing Machine business and are well acquainted with the different machines; hence any machine recommended by us may be relied on as being as represented.

5th.—We have sold hundreds of machines during the past five years, principally OSBORNS, and out of the whole we do not know of one that does not give satisfaction. Machines delivered any place or abroad, and instructions given in operating.

Machines sold on monthly or quarterly instalments, or payable in six months or a year.

Orders by mail promptly attended to.
