D. D. Aitken

D. D. AITKEN,

SUPREME VICE-CHIEF RANGER.

The above excellent likeness will give our readers who have not seen Bro. Aitken in the flesh, an idea of what "form and feature" our eloquent and accomplished Supreme Vice-Chief Ranger is possessed. The brother is one of the youngest, if not the youngest, member of the Executive Council. He was born in Michigan in 1855, and is now in his thirty-seventh year. His father was a farmer. His early education was carried on at the public

school, which he attended only in the winter months; in the summer his assistance was needed on the farm. But the disadvantages with which he had to contend did not prevent him from acquiring a good commercial education, for at the age of 17, we find him engaged in Bookkeeping in New Jersey. Later we find him on the road as a "Drummer," and after a brief apprenticeship to that vocation, he embarked in the mercantile business. A taste and aptitude for law determined his leaving mercantile life. He studied law in New York, and in 1879 was called to the bar at the com-

paratively early age of 24. To the profession of law he has devoted his attention ever since. He practises in his native state, and is a member of the well-known firm of Wisner, Lee, and Aitken, of Flint, Michigan. In his profession, Bro. Aitken has secured a large practice, that is steadily increasing, and his reputation as a skillful lawyer and successful pleader is one of which he may be justly proud, and that speaks eloquently of his ability and integrity.

The Supreme Vice-Chief Ranger only became a Forester a year ago. His promotion has been unusually rapid; very few have attained to such high distinction in so short a time. He was elected by his Court in Flint, a representative to the High Court of Michigan, and by the High Court of his native state he was chosen a representative to the Supreme Court that met at Detroit last Sept., and by that representative and influential body he was chosen for the high office he now holds. His election by a body, the majority of whom were Canadians, shows the international and fraternal nature of the Independent Order of Foresters. His capacity for business was practically demonstrated by the valuable service that he rendered on the Finance Committee, and his address on the question of admitting women into the Order, showed him to be a clear and logical reasoner, and a persuasive speaker.

In his native state he enjoys wide scope for the extension of the principles of FORESTRY, in which he is an enthusiastic believer. In Michigan the INDEPENDENT ORDER OF FORESTERS has met the most pronounced opposition, and also won some of its most signal victories. The membership is steadily growing in the state. Of the 32,000 members of this great Order between 6,000 and 7,000 are in Michigan, and among the various High Court jurisdictions Michigan comes next to Ontario. The withdrawal of one or two disappointed members, and their attempt to start a rival organization, offering lower rates, and no further medical examination tempted but very few INDEPENDENT FORESTERS from their allegiance, and the Order is to-day progressing in Michigan at a rate unequalled in its history. This is due to the fact that it is better known and, as a result, more appreciated; and also to the able advocacy of men of high standing like Bro. Aitken, the members of the high standing committee, and scores of other well-known citizens and prominent Foresters.

Bro. Aitken is a well-known member of other fraternal and benevolent societies. He is Supreme Counsellor for K.O.T.M., a position that he has held since the organization of that Order. He is a member of the Royal Arcanum, a prominent Mason and a Knight of Pythias. As might be expected, he has given a good deal of attention to the laws affecting fraternal service.

Politically he is a "Genuine Michigan Yankee by birth and habits," and here is no room to doubt his republican leanings, as his sympathies are "red hot." Never a candidate for office himself, he has given time and means to promote the success of the candidates of his party. For six years he held the non-political office of city attorney, being appointed to it by the city council. He is a member of the Episcopal Church.

In 1877 he was married to Miss Ada E. Long, of Milburn, N. J. They have no children. Our Supreme Vice-Chief Ranger seeks repose from the toil and distraction of the legal profession, in Cincinnatus-like following the plough. He owns

one of the finest farms in the state, and manifests great interest in the cultivation of the soil. He is president of the Industrial Fair Society of the district.

His home in Flint is a spacious and comfortable one. Its hospitality is well-known, and the brother wants it to go aboard, that to brother Foresters the "Latch-string" is always out, and within there is a Forester's welcome.

Every member of the Order will cordially unite in the wish that the distinguished Michigan brother may long enjoy his prosperity and his honors; and that the Order may long enjoy the service of his eminent abilities.

Children's Corner.

If I Were a Girl.

If I were a girl, a true-hearted girl,
Just budding to fair womanhood,
There's many a thing that I would not do,
And numberless more that I would.
I never would frown with my mouth drawn down,
For the creases will come there and stay;
But sing like a lark, should the day be dark—
Keep a glow in my heart, anyway!

If I were a girl, a bright, winsome girl,
Just leaving a childhood behind;
I would be so neat, from head to my feet,
That never a fault could one find.
So helpful to mother, so gentle to brother,
I'd have things so cheery and sweet
That the streets and their glare could never compare
With the charms of a home so replete.

If I were a girl, a fond, loving girl,
With father o'erburdened with care,
I would walk at his side, with sweet, tender pride,
With ever a kiss and a prayer.
Not a secret I'd keep that could lead to deceit,
Not a thought I should blush to share;
Not a friend my parents would disapprove—
I would trust such a girl anywhere!
—Linnie Hawley Drake, in *Golden Days*.

From Country to City.

The first thing for a boy coming to a great city to do is to take pains to start with right associations. In every such town there are innumerable circles of society. The community is too large for everybody to know each other, and therefore it divides up into many circles of common acquaintances, and in each of these the members are as well known to one another as are the inhabitants of a village. They are good and bad, evil in their influences and injurious in their tone and spirit, or salutary and helpful.

Where, then, shall the country boy go for society? The best place is to a church. In these days a city church is the centre of many social no less than religious activities. It is a life of industry in which men and women engage, so that something is going on ceaselessly, something to interest and to give scope for the ability of a young fellow and to satisfy his social instincts and de-

mands. It is a community in itself, and nobody can belong to it for any considerable length of time and exhibit sympathy with its ambitions and projects without fitting into some place where he can display his capacities and win due consideration because of them. He will make friends and useful friends. He will have the social life and social surroundings necessary for him. He should go to church from the first, and regularly make himself known to the pastor, and then without putting himself forward take a hand in all the undertakings of the parish. If he is patient the reward will come.

Even apart from merely religious profit, such associations will be of inestimable advantage to a youth who goes to town a stranger. There is much talk in these days about "rings" and "combines" for evil purposes; but there is one ring which is always good and beneficent in its objects, and it is the circle of the church. Inside it a young man forms the intimacies which most contribute to his practical success, to say nothing of his spiritual health.—*Chautauquan*.

Move On.

"Move on," said a policeman the other day to a group of idlers who were standing on the pavement; "move on and allow the people to pass." "Move on," said the master of a shop to one of his apprentices whom he had caught gazing into a window, when he should have been going on an errand. "Now, move on, what do you think the world would come to if every one, like you, kept standing still and never moved forward?"

"Dear me," said a schoolmaster to a pupil, "how could you be so stupid? Look here; you have got 5 from 9—3. When will you know better? For the last three months you have been trying to learn subtraction, and now do not know any more about it than when you first began. Instead of progressing you are at a stand-still. Why don't you *move on*?"

"Look, Bill, look at Jim yonder, he must be getting on—new coat, new trousers. Why, I declare! a new suit altogether. Where can he get his money from? He has no more wages than we have, but he looks much more respectable. How is it? It puzzles me." "Why, just this, Dick; when we're spending our money at the Black Bear, he is 'moving on.' His garden is full of fruit, ours are full of weeds; he is happy, we are miserable; and I, from this time, mean to try to 'move on.'"

"Move on," said a minister to his hearers. "move on in religion, faith, and charity. 'Move on;' let it not be said that you are behindhand in religion; keep faithful to the end; and although ever moving, be ever firm, so that when you arrive at the appointed resting place, you will be ready to exchange mortality for immortality."

The *London Spectator* tells a story of a clergyman who was once addressing an audience of children. "Now, children," he said, "I propose to give you on the present occasion an epitome of the life of St. Paul. Perhaps some of you are too young to understand what the word 'epitome' means. 'Epitome,' children, is, in its signification, synonymous with synopsis." Having made this simple and clear explanation to the children, the speaker went on with his story.—*The Morning Star*.

The Sum of it All.

The boy that by addition grows,
And suffers no subtraction,
Who multiplies the things he knows,
And carries every fraction,
Who well divides his precious time,
The due proportion giving,
To sure success aloft will climb,
Interest compound receiving.

—*Dr. Ray Palmer*.

Pray While the Sun Shines.

A little girl who suffered greatly during thunderstorms was told by her mother to pray when she felt alarmed.

One day at the close of a fearful little storm, she came to her mother with the information that, praying during the danger brought her no relief. "Then," said her mother, "try praying when the sun shines, and see if that will take away the fear."

The child did so, and when another storm was raging she said sweetly: "Praying while the sun shines is the best way, for I am not the least bit afraid now."

What a lesson we who are older might learn from this incident! How often do we stay away from our Master until the storms of life drive us to Him for shelter and protection?

If we could only give our best, our brightest days to His service, we would have no cause to tremble when the dark hours come on. How very much we miss by not having Jesus to go with us through all our earthly pilgrimage!

Do It.

Peter Cooper, who founded the Cooper Institute in New York City, had a hard struggle. As a boy his health was of the frailest. He went to school but one year of his life, and during that year he could only go every other day. But when he was eight years old he was earning his living by pulling hair from the skins of the rabbits his father shot, to make hat-pulp.

He had not "half a chance." It seemed almost literally that he had no chance at all. He went to New York when he was seventeen years old. He walked the streets for days before he got a place, and then apprenticed himself to a carriage-maker for five years for his board and two dollars a month.

He had neither time nor money for what people called pleasures, but he had the pleasure of hope. While he was working for fifty cents a week he said to himself: "If I ever get rich I will build a place where the poor boys and girls of New York may have an education free," and he did it.

William Hunt, the painter, used to say:—

"Don't talk of what you want to do—do it!"

Quite So.

One of the most beneficial influences of fraternal organizations is the fact that they induce men to forget their political differences. When they enter the Ceart room they are no longer Republicans or Democrats, Grits or Tories, but men united in a common brotherhood, and political affiliations are superseded by fraternal association.

Home Circle.

To-day and To-morrow.

If fortune with a smiling face
Strew roses on our way,
When shall we stoop to pick them up?
To-day, my love, to-day.
But should she frown with face of care,
And talk of coming sorrow,
When shall we grieve—if grieve we must?
To-morrow, love, to-morrow.

If those who wronged us own their faults,
And kindly pity pray,
When shall we listen and forgive?
To-day, my love, to-day.
But if stern justice urge rebuke,
And warmth from memory borrow.
When shall we chide—if chide we dare?
To-morrow, love, to-morrow.

If those to whom we owe a debt
Are harmed unless we pay,
When shall we struggle to be just?
To-day, my love, to-day.
But if our debtor fail our hope,
And plead his ruin thorough,
When shall we weigh his breach of faith?
To-morrow, love, to-morrow.

If Love, estranged, should once again
His genial smile display,
When shall we kiss his proffered lips?
To-day, my love, to-day.
But if he would indulge regret,
Or dwell with bygone sorrow,
When shall we weep—if weep we must?
To-morrow, love, to-morrow.

For virtuous acts and harmless joys
The minutes will not stay;
We've always time to welcome them
To-day, my love, to-day.
But care, resentment, angry words,
And unavailing sorrow,
Come far too soon if they appear
To-morrow, love, to-morrow.

—CHARLES MACKAY.

One kind of Typewriter.

Out on Broadway just now I saw a little girl that I have respect for. She is a typewriter, but she is not much like the kind the newspapers are always telling stories about, though, like them, she is pretty—as pretty as a picture and as good as if she were old and ugly. She is twenty-two, and let me tell you what she has done.

Six years ago she was the most ragged, friendless, ignorant little orphan you would care to hear of and she had four younger sisters, each more ragged and friendless and ignorant and orphaned than the other. She went into a typewriting copying office to learn the business in return for her services as office girl. She was such a bad speller that everybody said she would never make a typewriter. She set in to learn to spell. She was so shabby that the head of the office said he was ashamed to send her on errands, but she did her

work so well that he concluded it would pay to spend a couple of dollars in fixing her up.

She made herself a skilful operator, although to begin with she was uncommonly clumsy.

The fact was that she had something else on her mind than finding a husband to support her. She was thinking about those four little sisters. They were living around with relatives, most of whom were very poor, and when they were not poor exceptionally cross and cruel. This little woman, Annie had an ambition to be mother to those little sisters.

A mother! What she is now is mother and father, too!

The first money she could scrape together from her typewriting she spent in learning stenography. She could not afford all the lessons she needed, but she made it up in hard work by herself. She was not gifted with the qualities for making the best stenographer, the best ones are born, not made; but she did all she could, and came out better than the average that do office work, and since that she had comparatively easy sailing.

People had noticed her; she got a good position; not much money, but enough to start her in executing a long-cherished plan.

She got together those four sisters. She took a little flat uptown. She gathered them all in and told them they must live without furniture until they could buy it—not on the instalment plan. In the meanwhile they would all have plenty of good food, such as they had not before, because furniture is a luxury, but good food is an investment for working girls.

Two of the girls were learning typewriting in the same way she did. The two younger ones were in school. They camped along as best they could and were happy. That was a year and a half ago. Now three of them are earning good pay, as salaries go—there is a prejudice, in that big office building where Annie is, in favour of the family—one of the younger ones is learning the business in the usual way. Their home is as pretty a little place in its modest way as there is in Harlem, and their relatives are more helpful and kind than ever before—because nothing succeeds like success. And I call that young woman's success a success worth talking about.—*N. Y. Herald.*

The Day's Demand.

God give us men! A time like this demands
Strong minds, great hearts, true faith and ready hands;

Men whom the lust of office does not kill;

Men whom the spoils of office cannot buy;

Men who possess opinions and a will;

Men who have honor; men who will not lie;

Men who can stand before a demagogue,

And damn his treacherous flatteries without winking;

Tall men, sun-crowned, who live above the fog,

In public duty and in private thinking;

For while the rabble, with their thumb-worn creeds

Their large professions and their little deeds,

Miugle in selfish strife, lo! Freedom weeps,

Wrong rules the land, and waiting Justice sleeps,

DR. J. G. HOLLAND, in *National Baptist*.

It is a great mercy to have the Gospel of peace, but it is far greater to have the peace of the Gospel.

Thank the Children.

They run on our errands, upstairs for our books and slippers, our thimbles, our new magazines; down stairs to tell the servants this thing or that; over the way to carry our parcels; to the post-office with our letters.

They leave their work or play a dozen times in a morning to do something to oblige us who are grown up bigger, and liable to be less absorbingly occupied than they are.

No game of politics or business in after life will ever be so important to the man as the ball and the top to the little lad; and no future enjoyment of the little girl will ever be greater in degree and kind than her present in her dolls and play-house; yet Johnnie and Jennie fly at our bidding, arresting themselves in mid-career of the play which is their present work, and alas! half the time we quite overlook our own obligation to be grateful. We do not say, "I thank you." And because we do not say it, we make it difficult for them to be as polite, as simple, courteous as otherwise they would be by nature, and the imitation which is second nature to all children.—*The Household.*

Divers Weights.

An old woman who attended a Dr. T.—'s well-known church kept a small grocery shop, and it was currently reported she was dishonest in her dealings with the few townspeople who bought of her. One Sunday, Dr. T.—preached a powerful sermon from the text "Divers weights are an abomination unto the Lord." The old woman was much roused by his sermon. She was trying to tell an old acquaintance about it.

"A very powerful discourse, Maggie. Ah, but he came down upon the sinners! It would ha' done your heart good to hear him."

"What was the sermon about? What was the text?"

"Oh, I can not remember the text. But it was about weights and measures, and groceries and balances."

"But what was the subject? What was the theme of the discourse?"

"Oh, the theme! I do not know. But this I do know, Maggie—I went straight home and burned two of my measures."

A Good Deal to be Thankful For.

Of the late Bishop Ames the following anecdote is told: While presiding over a certain conference in the West a member began a tirade against universities and education, thanking God that he had never been corrupted by contact with a college. After proceeding thus for a few minutes, the Bishop interrupted with the question:

"Do I understand that the brother thanks God for his ignorance?"

"Well, yes," was the answer, "you can put it that way if you want to."

"Well, all I have to say," said the bishop, in his sweetest musical tone, "all I have to say is that the brother has a good deal to thank God for."

Sure Cure for Somnambulism.

Then as I'm tossing around I think I hear some one saying, "George, get up; it's half-past seven."

"All right; in a minute."

"George, get up or you'll be late."

"Oh, no; I won't be late. Just a few minutes longer."

"George, you've got to be at the office at eight o'clock. You'd better hustle."

Humorous Definitions.

A smart, pitly, or humorous definition often furnishes a happy illustration of the proverbial brevity which is the soul of wit. A boy once said that "dust is mud with the juice squeezed out." A fan, we learn from another juvenile source, is "a thing to brush warm off with," and a monkey "a small boy with a tail;" wakefulness, "eyes all the time coming unbuttoned;" and ice, "water that stayed out too long in the cold and went to sleep."—*English Canadian.*

Be True To Your Wife.

Have you a wife and little ones? When you die, what will become of them? How long can they live on what you have saved? Surely you do not want them to go to work and earn a living, the wife earning thirty cents a day making shirts and the children in a factory. If you love your family, you should protect them not only while you are living, but when dead. How? Leave them *one, two or three thousand* dollars by joining the INDEPENDENT ORDER OF FORESTERS.

2. Send all Medical Examination Papers, Notices of Sickness, Sick Benefit Claims, etc., to the Supreme Physician, Dr. Millman, 490 Huron Street, Toronto, Canada.

3. Send all Monthly reports, etc., to the Supreme Secretary, Brother John A. McGillivray, Q.C., Toronto, Canada.

4. The Monthly reports and the exact sum required to cover assessments and other fees called for by such Monthly reports, should be sent together in one cover.

5. Courts working under the jurisdiction of a High Court must order all supplies from the High Secretary of their own High Court; those not under a High Court must order from the Supreme Secretary.

6. The FORESTER will be mailed to each member of a Court as soon as the Financial Secretary sends a list of members, arranged alphabetically, with their Post Office addresses, to the Editor. Until such list is received the papers will be mailed to the Court Deputy in bundles for distribution among the members.

7. Financial Secretaries will immediately notify the Editor, at Toronto, giving in each case the name in full,

- When a member is initiated,
- When a member is suspended,
- When a member withdraws from the Court,

- When a member joins the Court by Card.

8. In every communication give the name and number of your Court and where located. It is impossible to find your name on our lists unless this information is given.

Editorial.

Notes.

We have a number of copies of our issue of September, with the portrait and sketch of the life of our Supreme Chief. We will be pleased to furnish these to new members as far as they will go.

**

Salute Supreme Vice-Chief Ranger Aitken, of Michigan—whose bright countenance greets you on our first page. The sketch of the brother "over the border" will be interesting reading for all Foresters. Next month the likeness of the Supreme Secretary will adorn our front page.

**

Some financial Secretaries have not as yet sent us the names of all members entitled to the INDEPENDENT FORESTER. Will they please do so at once. We want every Forester to receive the official organ of the Order. The correctness of the mailing list depends on the hearty co-operation of the Financial Secretaries.

**

How is this for "new blood?" The record for January shows 29 new Courts, with a charter membership of 719. Most of the 900 odd old Courts have made additions. The Insurance Companies need not worry about us. The new members are coming in all right, and the future of the Order never looked as bright and assured as to-day.

**

This is February—reader, have you secured that new member, that you promised yourself at the beginning of the year, you would introduce into the Order? There is an eligible man of your acquaintance that only needs to have the matter set before him just in the way in which you can do it in order to his becoming a member as soon as possible.

**

Our organizers, and workers generally, will find answers for objections to, and weighty and unanswerable arguments in favor of INDEPENDENT FORESTRY in Supreme Chief Oronhyatekha's letter to the *Mail*, that we published in our January number. Our readers should "mark, learn, and inwardly digest" the letter, as well as the article, "The *Monetary Times'* Annual."

**

The Supreme Physician, Dr. Millman, informs us that for the first three days of February the claims on the sick and Funeral Benefit Department amount to \$1,000. The most persistent objector will now appreciate the action of the Supreme Court in providing for increased claims, by making a small addition to the rate, and making a small decrease in the sick benefit for the first couple of weeks.

**

We find it impossible to publish the names of the recently elected officers of our Subordinate Courts. We have close on to *One Thousand Courts*. Why, to give each Court *five lines*, and we could not do justice to any Subordinate Court's Officers in *five lines*, would take our whole space. It can't be done, brethren. But for one *dollar* per annum your Court card can be inserted in the FORESTER, then we can pay for additional pages.

Bro. Financial Secretary, a word with you. We appreciate the importance, responsibility, and difficulties of your office. A fellow-feeling makes you kind. When you send us a name for the mailing list write it plainly with crossed *t*'s and dotted *i*'s, and don't write on both sides of your paper. Read again Sections 6, 7, and 8, of the general announcements in the opposite page, and to the due observance of which pledge your best attention, and we will ever continue to love and cherish you as a brother.

**

"Australia will be ours." On the 4th inst., the Rev. D. V. Lucas sailed from San Francisco for the Antipodes. He goes as the Deputy of our Supreme Chief—and is commissioned to plant our Order in that portion of the English-speaking world. We understand that the field is a particularly inviting one. Fraternal and Benefit Societies are not as well-known, or as generally established there as in America. The brother sent is the right man for such a mission. He knows the country to which he goes, is enthusiastic in his devotion to Forestry, and gifted with the eloquent tongue to present the many advantages of the Order.

**

The zeal of some of our enemies is worthy of a better cause. Anything to make a point. Some months ago, in a somewhat labored article, the *Monetary Times* attempted to enlighten its rather limited constituency of readers, on some defects in the I.O.F. The article was reproduced in "flysheet" form, and scattered broadcast. We don't know whether it did us harm or good, very likely it was like "a clean chip in porridge"—of no consequence. All we know is that in December we had over *eleven hundred* applications for members. In January, about as many—and the reserve that was \$374,000, at the time of the annual onslaught of the *Monetary Times* is now \$411,648.89. All this looks like life, growth, and public confidence.

**

At long intervals an unworthy individual gains admission into the Order. Sometimes the same individual, being taken for what he ought to be, seems to be, and claims to be, is entrusted with authority to do work for the Order. He proves unworthy of the confidence reposed in him, and betrays the trust, the tokens being a number of misleading statements, unpaid hotel bills, and such like. The Order guards itself and the public against frauds of this kind. When a representative proves unworthy, his commission is cancelled and he is expelled and everything reasonable is done to undo the mischief wrought. The other day Inspector Gibbens of the High Court of Ontario, paid the board bill of one such "faker." Happily they are rare.

Subordinate Court Officers.

During the month of January, all our Subordinate Courts, numbering close on 1,000, elected their officers. Thousands of tried and true men have been obligated into office. The promise has been unreservedly given, "I will do all in my power to spread the principles of the Order, and to secure good and worthy men for membership therein." What may we not expect from men who have pledged their

"most sacred honor" to carry out this promise? With our Subordinate Court Officers rests largely the extension of the Order, and with them rests entirely the peace, harmony, and efficiency of the Subordinate Court. Given a dozen men loyal to the Order, mindful of their official obligations and judicious in their efforts, and the membership of most Courts will be doubled in the next six months. Some Courts will double their membership in that time. What will be done by some might be done by nearly all.

The need of faithful effort on the part of officers and members is apparent. The Stock Insurance Companies are alarmed at our remarkable growth and steady progress. An attempt is being vigorously made to prejudice the public by the assertion "that our rates are too low, and that the interests of the widow and the orphan, are not sufficiently guarded." This soulful solicitude for the widow and orphan on the part of corporations that are pocketing fat dividends is refreshing, it deceives no one. The solicitude first, last, and always is for business and dividends. That our rates are sufficient is shown by the fact, that in the past eleven years we have paid over \$800,000 to the widows and orphans of Foresters, and at the same time accumulated a reserve of more than half that amount. Our reserve to-day being over \$411,000. Our members and officers will please note what we have done, and are doing, and they will find a discriminating public ready to accept facts and experience rather than fancies and airy theories.

Another point, but a minor one, that we would press on our Subordinate Court Officers, is the mastering of the ritual. It does not look or sound well to see an officer tied to his manual, and stumbling somewhat painfully over his part. As a matter of comfort to himself and duty to his Court, every officer will thoroughly master his part of the ritual. Further, be prompt in your attendance. Sometimes the absence of a single officer delays the opening of the Court. Don't be absent or late when you can avoid it. Let every Subordinate Court Officer enter upon his duties resolved to give INDEPENDENT FORESTRY the most prosperous six months in its history.

Doctors Differ.

A few months ago Rev. Dr. Parsons, of Toronto, astonished the community by an attack on Societies that was characterized by indiscriminate denunciation, rather than accurate knowledge of the question discussed. Every one concluded that the good doctor did not know whereof he affirmed, and some questioned the propriety of an eminent teacher of faith and morals undertaking to deal with a question so largely outside of his knowledge and experience. More recently, Dr. Cochrane, of Brantford, an ex-Moderator of the Presbyterian General Assembly, and for many years the able and energetic Convener of the Home Mission Committee of the Presbyterian Church in Canada, had something to say on the question of "Benefit Societies." The ex-Moderator is widely known as a clear-headed man of affairs, with a wonderful capacity for business, and an intimate knowledge of men, gathered through long years of active practical service. An opinion advanced by him is, consequently, entitled to careful consideration, and this is what he had to

say concerning fraternal and benefit "Societies," the best features of which, we have no hesitation in saying, are found in the INDEPENDENT ORDER OF FORESTERS.

He believed "they were the outgrowth of Christianity (some one said they were of the devil—Ed.), and that they should receive, all the assistance the church could give them, and instead of antagonizing them, he would wish them God-speed. They were a safeguard to society. Men who belonged to them had a place to go instead of the bar-room. In these societies men were taught the principles of uprightness. They came in contact with other men, and had their ideas of manhood broadened. Men who did not join a society of this kind and provide for their families were committing a sin. Men had died and left their families on the world. Every man who loved his wife would provide in some such manner for her. He thought the rich and poor in this country and the old country were getting farther apart, and capital and labour were becoming more antagonistic. The members of these societies should go on in the good work they were doing. All should do their duty. They knew not how soon they were to pass away." To every word of which every one who understands the situation will say Amen.

The Church, true to her mission, instead of antagonizing Fraternal and Benefit Societies, will sympathize with them in their praiseworthy efforts to do essentially Christian work. The members of these societies are learning the claims and obligations of brotherhood, the sacred nature of pledges voluntarily given, the necessity of thrift, and the sacred duty of providing for those dependent upon them. These are things that the Church teaches. Any organization that second these efforts is to be welcomed as an ally, and not denounced as an enemy. Dr. Cochrane's words are as practical as they are true and wise.

Unsound Life Insurance.

To the Editor of the Mail.

I read the editorial in the *Mail* of the 29th, as well as the letters which appeared therein relative to the Independent Order of Foresters with a good deal of interest. Your observations regarding the existence of an actuarial deficiency of millions of pounds sterling in the Ancient Order of Foresters and in the Odd Fellows of Great Britain, as well as among upwards of a thousand other benefit Societies, has no material bearing on our subject, because of the fact that the benefits given by the Societies to which you refer are confined mainly to sick and funeral benefits, medical attendance, etc., no insurance benefits being given by them, as I understand it. Another material difference between these Societies and the I. O. F. is that each Lodge of Oddfellows and each Local Court of the Ancient Order of Foresters is a body by itself; that is to say that each Court or Lodge is responsible for benefits to its own members only, and its income is limited to the contributions of such members. These being the facts, the Societies to which you refer are wholly incomparable with the I. O. F.

Of course I need not add that lodges of Oddfellows and Courts of A. O. F. are scattered throughout Great Britain, and are prosperous and continue doing their grand benevolent work as of yore, in spite of the actuarial deficiency of £3,124,000 referred to by you.

With reference to one other criticism made by the *Mail*, I must say that I cannot for the life of me see any immorality in the Foresters taking the profits made out of lapses and placing the same to the credit of the persistent members. These profits, so far as the Foresters are concerned, are made from the lowering of the actual death rate below that called for by the standard mortality tables, brought about by "medical selection," and which, by some authorities, is estimated to be as high as 50 per cent. during the first five years. This means that the 1,118 applicants passed by the medical board of the I. O. F. for January, 1892, will not cost the Order during the next five years more than one-half of the figures given by the Standard Tables, and, therefore, there will be a profit made on every one of these 1,118 applicants who permits his membership to lapse within that period, and the Order will continue, as a matter of fact, to make a profit for some time thereafter upon all such lapses, for, according to some authorities, the benefits of medical selection do not pass entirely away till after the tenth to the twelfth year.

I am not so clear that your criticism in this respect does not apply to the Old Line Companies, because of the fact that they collect from every policy holder the "reserve element" explained in my last letter, amounting, as a rule, to more than a third of the whole premium, on the plea that in the course of a few years it will be required by the Company to meet death losses when the mortality rate among the policy holders has become much greater, due to their having grown older. Under such circumstances, if a policy-holder should retire from the Company before it has been compelled to use this "reserve element" to meet its losses, I think with you it would be good morals if the Company would return to the policy-holder this unused and unearned "reserve element" instead of confiscating it to the use of the stockholders.

With reference to the letter of W. C. Macdonald I have no doubt that every reader of the *Mail* has recognized that it is not only cleverly written, but that the subject is most discreetly treated, and that in no part of the letter is greater discretion shown than when Mr. Macdonald declares as follows:

"I do not propose at present to attempt to answer the various statements made by him with much boldness, nor to show the fallacy of the several comparisons which he sets forth."

It is not necessary that I should observe that to an intelligent mind what Mr. Macdonald

declares he will not attempt to do just now is the very first thing required of him to do if the statements and comparisons made by me be germane to the question at issue.

As to this point I am willing that the readers of the *Mail* should be the judges. Mr. Macdonald asserts that some of my statements are "quite contrary to facts," but fails to point one of them out. To show the inadequacy of the rates of the I. O. F., Mr. Macdonald gives us a table, premising the same with the following observations:—

"It is quite immaterial for the object in view what age it selected, but I will take age forty-nine—the oldest age as which a person can enter on the foregoing conditions the Special Endowment Fund of the Order, as the expectation of life at that age is shortest, and it will be more convenient for the purpose of the following table."

The statements in the above quoted paragraph are "quite contrary to facts." The oldest age at which a person can enter the Endowment Fund of the Order is 54, and the expectation of life is shorter at that age than it is at 49.

The table No. 1, which is given below, will explain why Mr. Macdonald did not select age 54 instead of age 49.

TABLE No. 1.

AGE.	No. dying per 1000 age to Adv. cr. Tab. of Mortality	No. Dying at each age out of 1,000 Ent. at Age 49.	No. Living at each age out of 1,000 Entrants.	Assessments Recd. (\$80) with 6 mos. Interest at 6 per cent.	Claims Pd. with 6 mos. Interest at 6 per cent.	State of Endowment Fund.

70	61.99	36.39	587.01	21.661	37.290	145.489

Thus when a 1,000 Foresters entering at age 54 have reached their 70th birthday, without any allowance being made for the reduction in the actual cost of insurance, below that given by the mortality tables due to medical selection, which some eminent authorities say, as already stated, is as high as 50 per cent during the first five years after admission, there will be left a surplus of \$145,499 remaining from their contributions after paying the full amount required by Mr. Macdonald's tables.

Let me now briefly recall one of the statements made by me in my former letter:—

I said that the founders of the I. O. F. "came to the conclusion that the figures of actuaries were modified by certain conditions which are invariably present in every well regulated company, and that

by reason of those modifications insurance benefits could be given by a society like the I. O. F. for a much less sum than is charged by the Old Line Companies." I then explained in detail some of these conditions. Mr. Macdonald discreetly refuses to join issue with me in so far as the above statement is concerned. On the contrary, he is forced to admit that there is something in it when he states as follows:

"No doubt some benefit may accrue from this source, [viz., the infusion of new blood], but it will be of a temporary nature merely, and will completely disappear in five, or at the outside seven or eight years. For the sake of argument however, we will assume that this much talked-of infusion of new blood or medical selection, will have the effect of reducing the total number of deaths which will occur during the twenty-two years amongst the above 1,000 members."

When Mr. Macdonald makes this admission, I submit he virtually concedes the case of the I. O. F. The terms in which he makes the admission is somewhat confused, it is true; for everybody knows that no amount of infusion of new blood could possibly affect the number of deaths occurring among the above 1,000 members, but we must take Mr. Macdonald at what he probably means, that the medical selection of the 1,000 members makes the reduction in the number of deaths. The only question left is one of estimate as to the extent of the modifications made in the figures of actuaries, by "Medical Selections," by the "infusion of new blood" and by "lapses." That Mr. Macdonald's estimate of the extent of these modifications is wholly unreliable, can be proven from the actual experience of every Society and of every well-conducted insurance company. In table No. 2 we have given the actual experience of the I. O. F. between the 5th and 16th years of its existence:

*6 months from 1st July to 31st Dec., 1891.

An examination of the above table shows several points of more or less importance.

1st. It shows that the I. O. F. during the time shown in the table collected from its members \$1,086,056.

2nd. That of this amount, \$637,238 was paid out in insurance benefits, and \$54 097 was taken for management expenses, leaving with accrued interest a balance in this account of \$408.798.

3rd. It shows that the actual experience of the I.O.F. refuses to be governed by Mr. Macdonald's table. That instead of there being "a steady rate of decrease of the Reserve Fund," being observable from the 9th year of the life of the Order, and "a deficit at the end of the fifteenth year," the record shows a steady increase thereof to the end of the fifteenth year.

But what is worthy of special remark is the fact that during the fifteenth year the I.O.F. paid out for benefits and management expenses only 56 per cent. of its premium receipts, and increased its surplus during the fifteenth year by \$131,951, and still further augmented its Reserve Fund during the first six months of its sixteenth year by \$72,032, instead of Mr. Macdonald's deficit.

I do not desire to afflict the readers of the *Mail* with any more tables than is absolutely necessary, and therefore I ask you to publish just one more to show that the experience of the Old Line Companies just as decidedly, as does that of the I.O.F., refuses to follow the figures given by Mr. Macdonald in his table.

Table No. 3 exhibits the experience of two of our best Canadian Old Line Companies, viz: The Canada Life and the Confederation Life for the last ten years, and is for the Canada Life between its 33rd and 43rd years, and for the Confederation Life between its 10th and 20th years.

(* For 8 months only.)

Comment upon the above table is not necessary. It speaks for itself. That the Canada Life, between the 33rd and 43rd years, should have been called upon to pay for death losses only \$3,359,945, out of a premium income of \$10,422,584, means simply that Mr. Macdonald is way out in his estimate, and that the founders of the I. O. F. gauged very closely the extent to which certain conditions present in every company, modified the death-rate amongst the policy-holders, and reduced them below the figures given in the mortality tables.

It is quite evident that the Canada Life is not yet required to use the "reserve element" to meet its losses. Indeed, I have been informed that the mortality of the Canada Life, though now nearly half a century old, is only about 65 per cent. of the mortality tables.

Mr. Macdonald tells us that "The profit from forfeitures is too often more apparent than real, as it is the best class of lives usually which drop out, leaving behind them an undue proportion of unsound lives, the result of which is to materially increase the future rate of mortality of the Company."

If the above be true, companies like the Confederation must be fast getting into a sad state, as it appears from the above table, that the Confederation has had, in the last ten years, no less than 5,709 lapses and surrenders, out of an average of policies in force of only 9,030, or over 62 per cent. But when we look at the death rate of the Confederation, as shown in table No. 3, we find that Mr. Macdonald has not posted himself as to the effects of lapses and surrenders even in the Confederation Life.

Mr. Macdonald further states that the profits from lapses "appear to be the doctor's great strongholds (quack medicines)." Mr. Macdonald is in error. The doctor's "great stronghold" lies in the fact that it is absolutely impossible for the Old Line Companies to conduct their business, I won't say as economically, but at so small a cost as the Independent Order of Foresters. The figures in tables Nos. 2 and 3, is a fair representation of the relative amounts required for management expenses in the two systems.

As shown in table No. 2, the I.O.F. paid out of its premium income, for death losses, the sum of \$637,238, and for management expenses the sum of \$54,097, during the last past 10½ years.

The Confederation Life during the last ten years, as shown in Table No. 3, paid out for death losses the sum of \$922,019, and for management expenses and dividends to stockholders the sum of \$1,148,904. That is to say, that there was paid in the I.O.F. for management expenses .08 per cent. of the death losses, while in the Confederation Life this amounted to 12½ per cent. of the death losses, although it is regarded as one of the best and most carefully managed of our first-class Old Line Companies.

Yours sincerely,

Toronto, 5th February, 1892. ORONHATKA.

Mothers, are your daughters pale as sallow? Remember that the period when they are budding into womanhood is most critical; fortify their system for the change with Dr. Williams' Pink Pills, unsurpassed for the speedy cure of all troubles peculiar to females. A trial of a single box will convince you. Beware of imitations and take no substitute.

Personal Mention.

We regret very much to learn that Bro. Botterell, P. S. C. R., has been confined to his house by illness. We are pleased to know that our esteemed brother is convalescing.

Bro. W. A. Hogg, C. D. H. C. R., of Court Colingwood, was elected to the Council of his native town. It runs in the family; his father was for many years reeve of the "burgh."

Bro. Alderman N. C. Polson, of Court Frontenac, was recently in Toronto. The brother is president of the Reform Association of Kingston, and is spoken of as a candidate for legislative honours.

Bro. Thompson, as an organizer, is a "hustler." For the month of January, no less than four new Courts are down to his credit. The brother has a

good record, and he can't be lacking a persuasive tongue, and Simcoe Co., people know a good thing.

Bro. T. H. Lloyd, P. C. R. of Court Signet, Newmarket, was elected mayor of the town. We congratulate the Bro. on his election to this high office. The town will have a good mayor for 1892.

Supreme Secretary, Jno. A. McGillivray, read a paper the other day before the Sheep Breeders' Association, on "Horned Dorsets." Our esteemed Secretary is acknowledged to have one of the finest flocks of this kind of sheep in the Dominion.

Our honoured Chief Oronhyatekha, left on Monday for Michigan, to be in attendance at the High Court meeting. He will find Forestry flourishing. The cause will no doubt flourish still more after the brethren have enjoyed his wise and mature counsel, and the stimulus of his presence.

Bro. Chas. R. Fitzgerald, the urbane High Secretary of the High Court of New York, has been confined to his home for three weeks with "La Grippe" and threatened pneumonia, but we are glad to learn of his rapid convalescence, and the resumption of his official duties.

Bro. J. T. Carson, P. D. H. C. R., of Simcoe, has been doing excellent work. He has visited a large number of Courts in his locality, instructing them in the secret work of the Order, explaining points of law and procedure, and stimulating to increased zeal in promoting the interests of the Order.

High Court Inspectors Whale and Gibbens were present at the meeting of the High Standing Committee of Ontario, on the 6th inst. They reported much excellent work done. For the next six months special efforts will be put forth to strengthen weak Courts and stimulate inactive ones.

Our sympathies go out to our esteemed Bro. Jno. Chambers, of Port Huron, the able secretary of the High Court of Michigan. His wife has been dangerously ill for some time. We are glad to learn that Mrs. Chambers is improving in health, and hope soon to hear of her complete recovery.

Bro. H. O. Sonntag, D. S. C. R., leads the month's record in getting the largest number of charter members for a Court. Court Noble, Logansport, Ind., entered on what will surely be a noble career, with the remarkable charter membership of 80. The membership has since risen to 109. Well done, Court Noble.

The S. C. R. has been pleased to make the following appointments:

Ill. Bro. J. A. Frise, H. C. R., Flint, Mich., to be Brigadier-General in Command of the Michigan Division of Royal Foresters.

Ill. Bro. J. W. Blake, to be Brigadier-General in command of the Ohio Division of Royal Foresters.

Ill. Bro. P. J. Spenser, to be Adjutant-General of the Ohio Division of Royal Foresters.

Bro. and Mrs. C. L. Wilde, H. V. C. R., of Los Angeles, California, celebrated the tenth anniversary of their marriage on January 2nd. There was a large company of brother Foresters and their lady friends present. Beautiful and useful gifts were presented to the host and hostess. A

select musical and literary programme was rendered, after which all partook of a fine collation. Bro. Wilde is an enthusiastic Forester. May he and Mrs. Wilde live to celebrate their diamond wedding.

Among the Courts.

Ontario.

Court Hazeldean.

This Court is prospering. The recently elected officers were duly installed by Bro. Butler, who is proving himself both an active and efficient worker.

Merivale, No. 541.

Bro. Thos. Butler, P.D.H.C.R., installed the officers of this Court. The officers are doing their work well and the Court is in a flourishing condition.

Court Picton, 177.

This Court is steadily and rapidly growing. They are sending new names every month to be added to the mailing list of the FORESTER. All financial secretaries should be doing this.

Court Richmond.

This is one of the latest additions to our Order in Ontario. High Court Inspector C. C. Whale and Bro. Butler instituted it recently with a fair charter membership and an efficient staff of officers.

Courts Davenport and Weston.

These two Courts united their forces on the 27th Jan., when they enjoyed a visit from the Supreme Sec., Jno. A. McGillivray, who installed their officers. The Supreme Sec. reports both Courts as growing.

Court Dufferin, No. 4.

This is one of the banner Courts of the Order. Being in the Forest City, this might be expected. The members live and love as brethren, and as an inevitable consequence peace and prosperity prevail.

Court Signet, No. 358.

Bro. J. E. Mitchell sends us a pleasant note, saying that Forestry is deeply rooted in Newmarket. The finances are sound, the members energetic, and count among their number many of the influential men of the place.

Court Middleton, 132.

The event of the season in Delhi was the Foresters demonstration on the 28th Jan. There was a large audience and fine programme. Bro. Carson, of Simcoe presided, and the Supreme Secretary gave an address, and Forestry is more popular than ever in the locality.

Court Scarboro', 628.

This Court held its second anniversary on the 22nd January. There was a good attendance of members and their friends. The High Vice-Chief Ranger of Ontario, Bro. Rev. A. Macgillivray, delivered an address in which he pointed out the advantages from a fraternal and beneficiary point of view, of membership in the Order. A short musical programme followed, after which the members and their friends sat down to an oyster supper.

The new officers, with C.R. Heron at their head, are determined on largely increasing the membership of this young and promising Court.

Court Maple, No. 158.

This Court has been recently called upon to mourn the death of one of its most prominent and active members, Bro. Dr. J. M. Penwarden, C.D.H.C.R. The removal of so active a worker increases the responsibility of the members of the Court. God removes the workers, but the work goes on.

Court Westwood, No. 793.

That enthusiastic young Forester, Bro. Dr. McNaughton, C.D., writes us that Court Westwood is being infused with renewed vigor. Two members are to be initiated at their next meeting. The treasury is well-supplied, the members in good humor, and everything booming. Could anything be better?

Court Lambeth, No. 143.

This Court recently lost one of its members, Bro. J. B. Wells. The attention of the brethren to him in his illness, the impressiveness of the Foresters' burial service, together with the sympathy shown the family of the deceased Bro., have directed attention to our Order, and increased its popularity in Lambeth.

Court Bradford.

Chief Ranger Davey of this Court gives us information that we like. The Court is flourishing. High Chief Ranger Miller and Bro. Green gave it a good send off at institution last year. The membership has increased one third since. A date of writing there were five applications for membership; a dozen are expected by May. Inspector Whale recently visited the Court and gave valuable assistance.

Court Prescott, 371.

This young Court is getting well established, and thoroughly organized. At a recent installation of officers C.D.H.C.R., Bro. Jas. Clint, did the work without the aid of the ritual, he having memorized the whole installation service. A correspondent writes us that the effect was excellent, and that officers and members showed an increased interest in proceedings.

Court Clarence, No. 982, Warton.

Bro. Gibbens, one of the Inspectors for the High Court of Ontario, has succeeded, in the face of considerable difficulty, in planting the Order in Warton. On the evening of the 20th January, Bro. W. H. Bartram, the High Councillor of Ontario, and Bro. Gibbens duly instituted Court Clarence with a good charter membership. The new Court starts under favorable auspices, and we have no doubt will do all in its power to extend the principles of Independent Forestry in that locality.

Court Sprucedale, No. 822.

This young Court held its first annual anniversary on the evening of February 5th. The High Vice-Chief Ranger of Ontario, Bro. Macgillivray was present and delivered an address. Bro. Cooper, D.S.C.R., presided with ability and acceptance. A choice musical and literary programme was rendered to the evident delight of the large audience present. The Court is well officered, and resolved on doubling its membership during the ensuing year. The High Vice-Chief Ranger was greatly pleased with his visit and the cordiality of the brethren in the north.

Court St. Mark's, 282, Toronto.

Applications for membership every month is the order here. The Supreme Physician, Dr. Millman, installed the officers on the 26th Jan., in the presence of a fair attendance of members. In the course of a short address the accomplished Doctor stated that owing to the number of applications, the duties of his office were greater than ever. Court St. Marks will give its first entertainment on March 1st, when Supreme Chief Oronhyatekha will give an address.

Court Sarnia, No. 55.

That this Court is alive is patent from the fact that on the 8th inst. they formally dedicated their beautiful new hall. The dedication ceremony was performed by Supreme Chief Ranger Oronhyatekha, in the presence of a large audience. The musical programme was of a high order, and was under the efficient direction of Prof. Philp, of the 27th Battalion Band. The invitations were by complimentary tickets, and everything was highly creditable to Chairman Leys and his committee. We hope Court Sarnia will enter upon a new era of prosperity in their splendid new hall.

Court Cairnsmore, No. 432.

Cairnsmore had a public installation of officers on the evening of January 25th. The impressive ceremony was performed by Supreme Chief Ranger Oronhyatekha, M. D., assisted by several of the officers of the High Court of Ontario. After the installation they adjourned from the beautiful court room to the large hall underneath, where an elaborate spread was provided by the members of the Court, for their guests, who to the number of some 300 partook of their hospitality. An admirable programme followed. Chief Ranger elect, Bro. James Watt, presided, and delivered an address, admirable both as to its matter and manner. The musical and literary part of the programme was of a high order. The feature of the evening was the address of the Supreme Chief Ranger. In clear, terse sentences he pointed out the merits and benefits of Independent Forestry, and answered in an unanswerable manner, the recent criticisms of friends and foes. The address was well received by the audience, and will doubtless result in large additions to the membership of Court Cairnsmore. The entertainment was a model one and the brethren of the Court are to be congratulated.

Court Waverly, No. 345, Fletcher.

Bro. J. G. Stewart, F. S., of Court Waverly, writes that on Friday, 15th January, the Foresters of Fletcher, with about an equal number of invited guests, their wives, daughters and sweethearts, revelled in an Oyster supper and Extras (with a big "O" and a big "E"), finishing up with a brilliant literary, musical and elocutionary entertainment. It was different from the ordinary run of such things, in so far as it was not for the purpose of raising money, being without money and without price. In consequence, the company being very select, the supper (thanks to the wives, daughters and sweethearts aforesaid) sumptuous, and the musical and literary part, high class, combined to make this one of the most enjoyable and successful reunions known in the district, and long to be remembered by the brethren and the guests present. Bro. H. Forbes, Past C.R., occupied the chair in his usual felicitous manner. Addresses were delivered by Messrs. Campbell, Stewart and Far-

quarson. Bro. Robertson's impersonation of "Bre'r Silas Steele, on de Appel" was the *piece de resistance*; one of the late Mrs. Caudles' forcible and impressive "Curtain Lectures," by Miss Stewart; music by the Misses Grimes; a violin and organ selection by Messrs. Robertson and Grimes; the "Highland Fling" and "Ghillie Callum" by Mr. McDonald, and "Auld Langsyne" by the company, concluded an attractive and interesting programme.

The H.C.R. since last issue has visited Courts Brock, Lisgar, East Toronto, Spadina, Rouille, Prosperity, Kintore, Brechin and Mount Forest.

The High Standing Committee for Ontario met in Toronto, Feb. 6th. The affairs of the Order in Ontario were fully considered, and arrangements were made for the vigorous prosecution of the work of extending the Order. Over 1,200 members were received into the Order in the province during the past six months; 42 new courts were instituted during the same period, showing an increase on any former record.

Court Lisgar, 97.

Court Lisgar, the oldest Court in Toronto, held their semi-annual installation supper on Thursday, 28th January. Covers were laid for 80 brethren, and the tables were filled. Bro. W. Elkins, who has been connected with the Court since its organization, presided, and amongst those present were the High Chief Ranger, the Past Supreme Secretary, E. Cummer, Supreme Deputy, D. Rose, and High Inspector Whale. Song and speech prevailed, and the members of the Court each took the stand that Court Lisgar was one of the first in Toronto. Auld Lang Syne was sung as the hour of midnight tolled from St. James' Cathedral.

Court Rouille, 674.

Court Rouille in Toronto, which five months ago was left with four members, has now a membership of sixty-six, with five applications for admission received at their last meeting. Brothers Carey, Dorgan, Collins, Fox, Gilmore and others, have worked hard to accomplish such success. The Court was visited on the 5th inst. by the High Chief Ranger; there were forty-three Rouille members present, as well as several visitors from Courts Rosedale and East Toronto. Short addresses were made by the H.C.R. and Bros. Dr. Macfarlane, Dr. Collins, J. Hughes (Barrister), Gilmore, Harris, &c. Court Rouille consider themselves the No. 1 Court in Toronto.

Quebec.

In this province the Order is making gratifying progress. In a recent number of L'Echo, Bros. Victor Morin and A. Gosseliu, of Court Champlain, No. 663, have a long and able letter setting forth the merits of the Order. The letter is in French, and has no doubt been widely read by the people of Quebec. Two new Courts were instituted in January.

Court Coaticook, 341.

Bro. Woodman, C.D.H.C.R., writes that two years ago the Court started with 16 members, now they have 40, with some applications on hand. The second anniversary was celebrated by a supper

and concert on the 7th Jan. C. R. Wallace presided. The supper was excellent, the songs inspiring, and the speeches to the point.

Court Windsor Mills, No. 286.

Bro. Rankin writes: Our Court is moving on. We recently initiated three new members. More are "on the string." Bro. Stocks, High Secretary, recently visited us, and helped at an initiation and the installation of officers. We were much pleased with the portrait and sketch of our "Chief." Will we have one of the Supreme Secretary?—[Yes, in the March number.—EDS.]

MONTREAL, Jan. 26th, 1892.

DEAR SIRS,—Allow me to express my most sincere and heartfelt thanks to the Executive Board of the I. O. F. for the very prompt manner in which they have paid the endowment on the life of my late husband, Harry E. Jefferson, amounting to \$1,000. I am also truly thankful to the officers and members of Court Mount Royal, No. 7, for their very kind attention and hearty sympathy. May God grant success and prosperity to your noble Order is the sincere wish of

Yours very truly,

F. W. ENMERSON,
High Secretary.

Court St. Marys.

The Foresters' celebration at St. Marys, on Tuesday night, was well attended, despite the snow-storm which prevailed. After the regular business was disposed of the hall was thrown open to visitors, when the public installation took place by High Chief Ranger Coleman, of St. John; P. H. C. R. Creed, of Fredericton, and H. B. McMinnamin, of Stanley, took part; J. S. Hall, C.R.; Albert Boone, V.C.R.; A. Machum, recording secretary; Bruce Dayton, financial secretary; R. Staples, treasurer; A. Henry, senior woodward; I. J. Good, junior woodward; William Kinghorn, J. B. At the close of the installation all repaired to the store of R. Staples, where a sumptuous repast was partaken of, followed by speeches and music.

Andover.

The I. O. Foresters' Court Andover, had their officers publicly installed at their hall, Upper Andover. A very large number of the people of Au-

dover and vicinity were present. The installation ceremony, which was very impressive to the people here, who witnessed it for the first time, was performed by Past Supreme Chief Ranger H. C. Creed, S.C.M.; Mr. Sherwood, of Norton; Mr. Kyle, and Mr. Squires, of Bath, C. Co. After the installation of officers, the P.S.C. Ranger gave a brief history of the I. O. F., its numbers, etc., and commended its financial standing, rate of increase and benefits derived from membership therein, to the thoughtful consideration of the people of Andover. Later on the members and visitors repaired to the Masonic hall, where an oyster supper was served.

British Columbia.

Court Burrard, Vancouver.

Chief Ranger, A. G. Evans, of this enterprising Court, writes that he expects to see this Court come up to his first Court, old Frontenac in Kingston, the banner Court of the Order. The brother and his fellow officers are working hard, and the membership is rapidly growing. British Columbia is a fine field that our members will not fail to cultivate.

Michigan.

The High Court of this State met on the 8th inst. There was a large attendance, and the condition and growth of the Order were found most satisfactory. The Supreme Chief Ranger and Supreme Secretary were present. A full report of proceedings will appear in our March number.

Court Holly, No. 972.

Court Holly is the latest addition to the Courts in Michigan. It was instituted last month by Bro. Rapley with a charter membership of 20.

Court Mayville, No. 522.

This court was visited on the 22nd Jan., by the Supreme Secretary. He reports it prospering. In the evening an immense meeting was held in the Opera house, when an address on Forestry was given by the Secretary.

Court Unison, 410.

As a Court, we are prospering immensely. So writes Bro. Elmendorf, R.S. We have an excellent Chief Ranger in Bro. C. A. Wessel, and the Court showed their appreciation of the man and the office, by presenting him with a fine chair of antique oak. V.C. Ranger, Bro. C. C. Casper, made the presentation.

Court Au Sable, No. 289.

We regret very much to hear of this Court's serious loss by fire. On Jan. 15th, the building in which their chambers were, was destroyed. The Court saved some of their effects, while some was destroyed. The business places of six of our members were levelled to the ground. Bro. Howard, F.S., says that "Nil Desperandum" is their motto. We sincerely hope that all will soon recover from this very serious loss.

Court Auburn, 758.

Court Deputy Amies writes to say that their Court are going to double their membership, and as a token of their earnestness they initiated five new members the other evening, and more are in hand.

The officers were installed by H.C. Ranger, J. A. Frise, assisted by Wm. J. Rapley, State Deputy. The supper that is getting to be a feature of installations followed. The ladies of course had to do with this, and it is needless to add it was a success.

Court Yale, No. 399.

This Court was particularly favored by a visit from the Supreme Sec., Jno. A. McGillivray, on the 21st ult. He was accompanied by J. A. Frise, H.C.R., and Bro. Frank Mills, of Port Huron. The Court Sashes, offered by the Supreme Court, that were won by this Court, as well as the C. Ranger's banner, to be given to the Court having the largest increase of members, were presented by the Supreme Secretary amidst great enthusiasm. The increase of members during the year was about 100.

Washington.

Court Seattle, No. 526.

This is one of the model courts of the Order. The membership is steadily increasing, and to stimulate effort, prizes are offered to those bringing in the greatest number of new members. A type-written communication that we cannot fully decipher tells of impressive installation of officers. In answer to their inquiry, we have to state that the cost of a Court Card in the FORESTER is *one dollar per annum*.

Missouri.

Court Independent, 611.

"This Court is working earnestly," so writes the Treasurer. Five applications for membership at last meeting is a good sign of earnestness. The field is a promising one. The members find the INDEPENDENT FORESTER a good missionary. We expect to hear further good news from Court Independent.

North Dakota.

Court Ardoch, No. 496.

Bro. G. R. Jacobs, R. S., writes us to say that their Court is alive, and not "kicking," but "running," that is running ahead. At their December meeting they initiated five new members, and they doubtless did it well, for the initiates said that they would not grudge twenty-five dollars for what they had learned of our noble Order. A lunch followed the initiation, after which they discussed the momentous question:—Resolved, "That the life of the married man is more desirable than that of a single man. The decision of the judges was, strange to say, in favour of the negative. The Court expects to initiate five members at its next meeting. It looks as if some Supreme Court prizes would find their way to Court Ardoch.

California.

From Court Morris Vineyard, 532, the banner Court of the Golden State, we hear that C. R., Geo. Caulson, was presented with a gold Maltese

cross pin, emblematic of the Order. The presentation was made by Bro. F. M. Parker, in a neat and happy speech. Bro. Coulson suitably acknowledged the gift. This Court is growing rapidly. Among its institutions is a "tug of war team," that pulls everything after it, which in this case is equivalent to "carrying everything before it."

Court Temple, No. 510, Los Angeles.

PUBLIC INSTALLATION OF OFFICERS AND ENTERTAINMENT.

LOS ANGELES, Cal., Jan. 23rd, 1892.

Bro. G. S. Davidson writes, "Court Temple, No. 510, did itself proud on the occasion of its fourth semi-annual installation of officers, which occurred on Thursday evening, the 21st instant. The officers were installed for the ensuing term by C. L. Wilde, H.V.C.R., assisted by other High Court officers. During the evening an excellent programme was well rendered by the best talent in the city. It was of course well received by the large company present. The Order is growing rapidly in the city. Several applications for membership were received, with more to follow."

Court Sutter, No. 974.

Just as we go to press, a letter from I. A. Roblin, C.R. of the above Court, conveys the gratifying news that the Court was instituted on the 4th of January by Bro. J. A. McElfesh, the able High Chief Ranger of the High Court of California. The charter membership was thirty eight, now the membership is sixty six; *two* of these were admitted at last meeting. By the first of April they count on making it the even ONE HUNDRED. The brethren have their business eye on the \$60 regalia offered by the Supreme Court. Well done Court Sutter.

"German Syrup"

We have selected two or three lines from letters freshly received from parents who have given German Syrup to their children in the emergencies of Croup. You will credit these, because they come from good substantial people, happy in finding what so many families lack—a medicine containing no evil drug, which mother can administer with confidence to the little ones in their most critical hours, safe and sure that it will carry them through.

ED. L. WILLIAMS, of Alma, Neb. I give it to my children when troubled with Croup and never saw any preparation act like it. It is simply miraculous.

Mrs. JAS. W. KIRK, Harrodsburg, Ky. I have depended upon it in attacks of Croup with my little daughter, and find it an invaluable remedy.

Fully one-half of our customers are mothers who use Boschee's German Syrup among their children. A medicine to be successful with the little folks must be a treatment for the sudden and terrible foes of childhood, whooping cough, croup, diphtheria and the dangerous inflammations of delicate throats and lungs. 11

A Christian Duty.

No day is so bright that the clouds of trial, death and disappointment do not settle over some household; no land is so fertile but that gaunt and hungry want may invade some home; no life is so secure but that the inexorable law of death may reach and doom its possessor to take his place in the "silent halls of death." No family is secured from such calamities, and so we say, blessed are they above measure who have made provision for the trial when it comes, as come it must, sooner or later. There is no means by which we may avert the calamity of accident or death. But a wise forethought, and the means offered by the benefit orders may provide comfort for the stricken loved ones. And we do not hesitate to say that the man in moderate circumstances who fails to take advantage of this practical means of protection to his family, has failed in one of his most essential Christian duties.—*The Rainbow*.

A DETROIT MIRACLE.

A GREAT TRIUMPH FOR CANADIAN MEDICAL SCIENCE.

Particulars of One of the Most Remarkable Cures on Record Described by the Detroit News—A Story Worth a Careful Perusal.

DETROIT, Mich., Jan. 29th, 1891.—A case has just come to light here, the particulars of which are published in the *Evening News*, which will be read with considerable interest by all Canadians, as it records the remarkable achievement of a Canadian medical discovery, which has already, in its own country, won great and enduring fame. At this added triumph there is no doubt the fellow countrymen of the proprietors will rejoice, as it sheds lustre on Canadian science. The story is told by the *News* as follows:—

The following paragraph, which appeared in the *News* a short time ago, furnished the basis of this information—a case that was so wonderfully remarkable that it demanded further explanation. It is of sufficient importance to the *News*' readers to report it to them fully. It was so important then that it attracted considerable attention at the time. The following is the paragraph in question:—

"C. B. Northrop, for 28 years one of the best-known merchants on Woodward avenue, who was supposed to be dying last spring of locomotor ataxia, or creeping paralysis, has secured a new lease of life and returned to work at his store. The disease has always been supposed to be incurable, but Mr. Northrop's condition is greatly improved, and it looks now as if the grave would be cheated of its prey."

Since that time Mr. Northrop has steadily improved, not only in looks, but in condition, till he has regained his old-time strength.

It has been hinted to the writer of this article, who was acquainted with Mr. Northrop, that this miraculous change has been wrought by a very simple remedy called Dr. Williams' Pink Pills for Pale People. When asked about it Mr. Northrop fully verified the statement, and not only so, but he had taken pains to inform any one who was suffering in a similar manner when he heard of any such case. Mr. Northrop was enthusiastic at the result in his own case of Dr. Williams' Pink Pills. It was a remedy that he had heard of after he had tried everything he could hope to give him relief. He had been in the care of the best physicians who did all they could to alleviate this terrible malady, but without any avail. He had given up hope, when a friend in Lockport, N. Y., wrote him of the case of a person there who had been cured in similar circumstances by Dr. Williams' Pink Pills for Pale People. The person cured at Lockport had obtained his information respecting Dr. Williams' Pink Pills from an article published in the Hamilton, Ont., *Times*. The case was called "The Hamilton Miracle," and told the story of a man in that city who, after almost incredible suffering, was pronounced by the most eminent physicians to be incurable and permanently disabled. He had spent hundreds of dollars in all sorts of treatment and appliances only to be told in the end that there was no hope for him, and that cure was impossible. The person alluded to (Mr. John Marshall, of 25 Little William St., Hamilton, Ont.,) was a member of the Royal Templars of Temperance, and after having been pronounced permanently disabled and

incurable by the physicians, was paid the \$1,000 disability insurance provided by the Order for its members in such cases. For years Mr. Marshall had been utterly helpless, and was barely able to drag himself around his house with the aid of crutches. His agonies were almost unbearable and life was a burden to him, when at last relief came. Some months after he had been paid the disability claim he heard of Dr. Williams' Pink Pills and was induced to try them. The result was miraculous; almost from the outset an improvement was noticed, and in a few months the man whom medical experts had said was incurable, was going about the city healthier and stronger than before. Mr. Marshall was so well known in Hamilton that all the city newspapers wrote up his wonderful recovery in detail, and it was thus as before stated, that Mr. Northrop came into possession of the information that led to his equally marvellous recovery. One could scarcely conceive a case more hopeless than that of Mr. Northrop. His injury came about in this way: One day nearly four years ago, he stumbled and fell the complete length of a steep flight of stairs which were at the rear of his store. His head and spine were severely injured. He was picked up and taken to his home. Creeping paralysis very soon developed itself, and in spite of the most strenuous efforts of friends and physicians the terrible affliction fastened itself upon him. For nearly two years he was perfectly helpless. He could do nothing to support his strength in the least effort. He had to be wheeled about in an invalid's chair. He was weak, pale and fast sinking when this timely information came that veritably snatched his life from the jaws of death. Those, who at that time saw a feeble old man wheeled into his store on an invalid's chair, would not recognize the man now, so great is the change that Dr. Williams' Pink Pills have wrought. When Mr. Northrop learned of the remedy that had cured Mr. Marshall in Hamilton, and the person in Lockport, he procured a supply of Dr. Williams' Pink Pills through Messrs. Bassett & L'Hommedieu, 95 Woodward Avenue, and from the outset found an improvement. He faithfully adhered to the use of the remedy until now he is completely restored. Mr. Northrop declares that there can be no doubt as to Pink Pills being the cause of his restoration to health, as all other remedies and medical treatment left him in a condition rapidly going from bad to worse, until at last it was declared there was no hope for him and he was pronounced incurable. He was in this terrible condition when he began to use Dr. Williams' Pink Pills, and they have restored him to health.

Mr. Northrop was asked what was claimed for this wonderful remedy, and replied that he understood the proprietors claim it to be a blood builder and nerve restorer; supplying in a condensed form all the elements necessary to enrich the blood, restore shattered nerves and drive out disease. It is claimed by the proprietors that Pink Pills will cure paralysis, rheumatism, sciatica, palpitation of the heart, headache, and all diseases peculiar to females, loss of appetite, dizziness, sleeplessness, loss of memory, and all diseases arising from overwork, mental worry, loss of vital force, etc.

"I want to say," said Mr. Northrop, "that I don't have much faith in patent medicines, but I cannot say too much in praise of Dr. Williams' Pink Pills. The proprietors, however, claim that they are not a patent medicine in the sense in which that term is used, but a highly scientific preparation, the result of years of careful study and experiment on

the part of the proprietors, and the pills were successfully used in private practice for years before being placed for general sale. Mr. Northrop declares that he is a living example that there is nothing to equal these pills as a cure for nerve diseases. On inquiry the writer found that these pills were manufactured by Dr. Williams' Medicine Co., Brockville, Ont., and Morristown, N. Y., and the pills are sold in boxes (never in bulk by the hundred), at 50 cents a box, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Co., from either above addresses. The price at which these pills are sold makes a course of treatment with them comparatively inexpensive as compared with other remedies, or medical treatment. This case is one of the most remarkable on record, and as it is one right here in Detroit and not a thousand miles away, it can be easily verified. Mr. Northrop is very well known to the people of Detroit, and he says he is only too glad to testify of the marvellous good wrought in his case. He says he considers it his duty to help all who are similarly afflicted by any word he can say in behalf of the wonderful efficacy of Dr. Williams' Pink Pills. If any of the News readers want any further information, we feel sure Mr. Northrop would willingly oblige them, as he has the writer in relating these facts to him.

Dr. T. E. Hastings, of Baltimore, says: "Ayer's Pills are the best cathartic and aperient within the reach of my profession."

Dr. John W. Brown, of Oceana, W. Va., writes: "I have prescribed Ayer's Pills in my practice, and find them excellent. I urge their general use in families."

"For a number of years I was afflicted with biliousness which almost destroyed my health. I tried various remedies, but nothing afforded me any relief until I began to take Ayer's Pills."—G. S. Wanderlich, Scranton, Pa.

"I have used Ayer's Pills for the past thirty years, and am satisfied I should not be alive to-day if it had not been for them. They cured me of dyspepsia when all other remedies failed, and their occasional use has kept me in a healthy condition ever since."—T. P. Brown, Chester, Pa.

"Having been subject, for years, to constipation, without being able to find much relief, I at last tried Ayer's Pills, and deem it both a duty and a pleasure to testify that I have derived great benefit from their use. For over two years past I have taken one of these Pills every night before retiring. I would not willingly be without them."—G. W. Bowman, 26 East Main st., Carlisle, Pa.

"Ayer's Pills have been used in my family upwards of twenty years, and have completely verified all that is claimed for them. In attacks of piles, from which I suffered many years, they afforded me greater relief than any medicine I ever tried."—Thomas F. Adams, Holly Springs, Texas.

The Identical Woman.

An old bachelor recently gave utterance to the following *ju d'esperit*. He was introduced to a beautiful widow, of the same name as himself. The introduction was in this wise: "Mr. Evans, permit me to introduce you to Mrs. Evans." "Mrs. Evans!" exclaimed the spirited bachelor; "the very lady I have been in search of for the last forty years!" *Once a Week.*

PERFECTION ATTAINED!

DR. C. L. COULTER'S
COMBINED

VAPORIZER and INHALER,

THE CHAMPION VOLATILIZER.

A New Instrument for Vaporizing Oils and Drugs for Inhalation as well as for Disinfecting and Deodorizing Sick Rooms, Hospitals, Public Buildings, Railway Carriages, etc.; also an Odorizer for Perfuming Parlors, Opera Houses, etc.

The only perfect Vaporizer for the treatment of diseases of the Nose, Throat and Lungs, such as Consumption, Bronchitis, Asthma, Whooping-cough, Croup, Diphtheria, Catarrh and La Grippe. Beechwood Creasote, Oil of Southern Pine Needles and Eucalyptus Oil, of each equal parts, vaporized and inhaled, affords wonderful benefit in Phthisis.

ADVANTAGES:

1. An undiluted, non-irritating, thoroughly medicated vapor is obtained by reason of the reservoir containing the medicated sponge being placed on the inhaling tube at a distance of 8 or 10 inches from the boiling water, and complete volatilization is effected of the drugs to be inhaled, thus ensuring their reaching directly the part to be medicated. Other so-called vaporizers are only atomizers or sprays, breaking the drug into fluid particles which are not diffusible and therefore too heavy to be inspired.
2. By vaporizing antiseptics, it quickly sterilizes the atmosphere in cases of infectious diseases.
3. It is simple, durable, convenient of manipulation, and absolutely safe from fire.
4. The price is a great desideratum, being only about half that of any other vaporizer, volatilizer or inhaler that claims any merit.
5. It is the only volatilizer that is unanimously endorsed by the medical profession (read sample testimonials):

Made of Copper and Brass, Nickel-plated. It has no Glass Tubes, no Valves to get out of order.

C. L. COULTER, M.D.,
Past Chief Ranger and Physician to Court Lindsay,

MY DEAR SIR AND BRO.—I have tested and am using your Combined Vaporizer and Inhaler in a very much pleased with the manner it does its work. In fact, I regard it as a perfect instrument, being safe, simple of construction, and therefore not liable to get out of order. It accomplishes the vaporization of oils and other medicinal agents most effectually, thus making it available as well for treatment by inhalation as for disinfecting sick rooms, hospitals and public buildings, or wherever disinfection is required. I have had experience with most of the best Inhalers in the market and your instrument has given me more satisfaction than any I have ever used, and I can with confidence recommend it to the profession and the public generally. Yours in L. B. & C.,
ORONHYATEKHA, M.D., Supreme Chief Ranger I. O. F.

Very useful in sterilizing the atmosphere of a room in cases of infectious diseases.
G. R. McDONAGH, M.D., L.R.O.P., London, Lecturer in Laryngology and Rhinology, University of Toronto.
For vaporizing the atmosphere in diphtheria it is without an equal and for the purpose of disinfecting apartments or clothing I cannot conceive anything better.
FREDERICK W. STRANGE, M.R.O.S., Eng., Toronto.
I have carefully examined your Vaporizer and I am very much impressed by its simplicity and perfect efficiency in distributing disinfectants thoroughly throughout large buildings. I believe all schools would be rendered more healthful by its use in them for a short time before the opening of school each morning. It is incomparably superior to any deodorizer or disinfectant that depends on the action of the air alone for the distribution of the disinfectants used.
JAS. L. HUGHES, Public School Inspector, Chairman Committee on Hygiene, National Council of Education.
Particularly useful in diseases requiring for treatment thoroughly vaporized volatile substances.
